

Engaging Adjacent Neighborhoods and Activities: The diagrams below illustrate the idea of the Ecodistrict connecting to its neighbors, the community, the District and beyond.

1. What streets in the study area should be the main connectors to the rest of the city?
2. Identify the primary and secondary East - West and North - South connectors. In what ways do they need to be improved?
3. What are the various ways the Ecodistrict can engage with and connect to the neighborhoods and beyond?
