

Planning Together: Coordinated planning and investment are essential for a viable and sustainable central Washington.

Activity Nodes and Corridors: There are opportunities to link public spaces with improved streetscapes, civic destinations, and street-level activity.

Civic Space Context: The blue dots represent different types of civic locations and activities. In the Ecodistrict, there are opportunities to introduce new destinations (blue dots).

Transit: The strength of the study area is the range of modes of transit: bus, Metro, commuter rail, and bike lanes.
