

**ANACOSTIA NAVAL ANNEX
GATEHOUSE AND BUS SHELTER FOR LIGHT RAIL STATION
Washington, DC**

Delegated Action of the Executive Director

January 28, 2005

Pursuant to delegations of authority adopted by the Commission on October 3, 1996, I approve the preliminary and final site and building plans for a gatehouse and bus shelter for a light rail station at the Anacostia Naval Annex, Washington D.C. as shown on NCPC Map File No. 00.00(41.14)41534.

* * *

The Department of the Navy (Navy) has submitted preliminary and final site and building plans for a gatehouse and bus shelter at the Anacostia Naval Annex in Washington D.C. The gatehouse and bus shelter would be sited near the boundary between Bolling Air Force Base and Anacostia Naval Annex along Brookley Avenue. This location is within the immediate vicinity, and connects to the planned light rail station proposed by the Washington Metropolitan Area Transit Authority (WMATA). The gatehouse and bus shelter would connect to the internal shuttle bus system within the Bolling Air Force Base and Anacostia Naval Annex. The intent is to serve both the Anacostia and Bolling with shuttle bus service and provide easy pedestrian access to the Defense Intelligence Agency. The guard house, turnstiles, swing gate, and security fencing are all housed under a standing seam metal roof structure designed to be visually compatible with the prototypical WMATA bus shelter. The guard station, bus shelter, and connecting ramp to the future light rail station encompass a total of 2,065 square feet.

The Coordinating Committee coordinated the project at its January 12, 2005 meeting. The Navy has determined that the proposal is a Categorical Exclusion in accordance with the Navy's procedures under the National Environmental Policy Act. Further, the Navy has determined that, under the provisions of Section 106 of the National Historic Preservation Act, the proposal would have no impact on historic structures. The District of Columbia State Historic Preservation Officer has concurred with this determination.

Patricia E. Gallagher, AICP
Executive Director
