

PRELIMINARY DESIGN CONCEPTS

10TH STREET CORRIDOR

The Task Force has begun to study a range of interchangeable streetscape alternatives that could help achieve public space programming and design goals and objectives for 10th Street. These diagrams, illustrating a portion of the corridor, show a range of approaches and will be studied and developed in the next phase of work.

EXISTING

BOULEVARD

A boulevard with a large park-like median that prioritizes pedestrian activity along the primary central view corridor.
