

Street Character: The colored lines represent different types of streets.

1. What are the general characteristics for each street shown in the diagram?
2. What street level uses, activities and amenities are appropriate, and where should they be located?
3. Do the street descriptions on the diagram above match the street type you envision for this area?

Match the precedent images on the sheet below to the following street types. Please indicate which image/images belong with each type by number.

A) Civic

B) L'Enfant / Vista

C) Monumental

D) City Connector

E) Local Street

F) Regional
