Parks & Open Space Element Update

National Capital Planning Commission

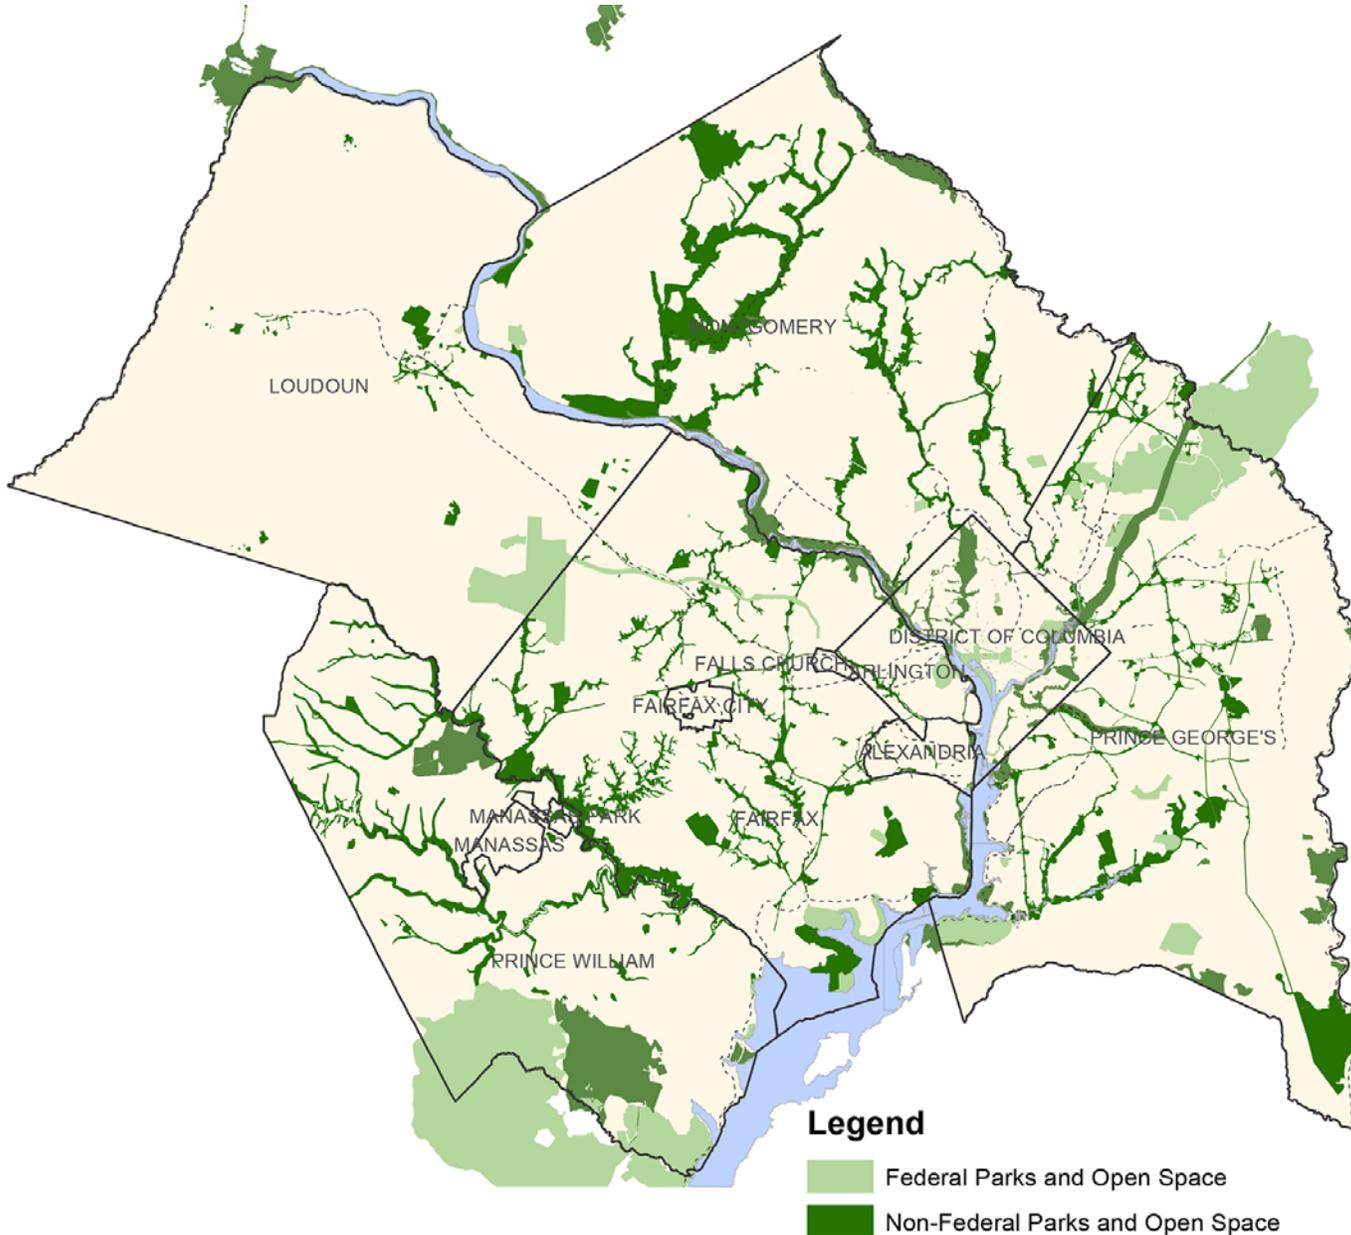

Parks and Open Space Element (2004)

Parks & Open Space Element Update (2018)

Parks & Open Space in the National Capital Region

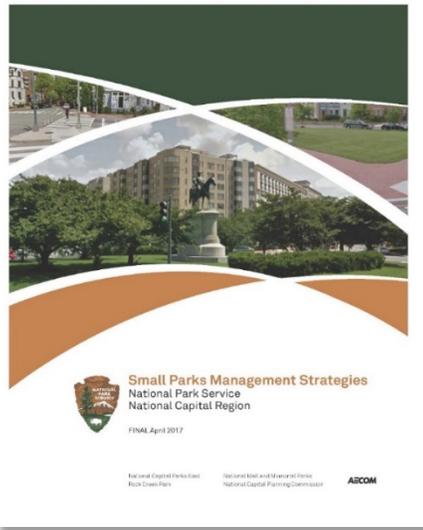

➤ Goal Statement

The federal government's goal is to protect and enhance the National Capital Region's parks and open space system while providing recreational, ecological, social, and educational benefits for visitors, residents, workers, and future generations.

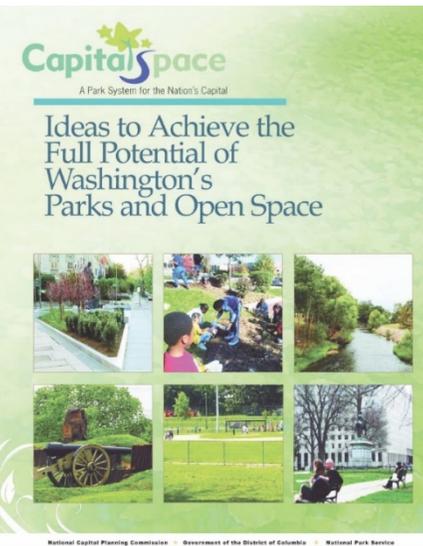

Key Highlights of the Update

- **Incorporate new planning studies and initiatives**
- **Introduce topics that reflect current issues and investigations**
- **Reframe around six new 'Guiding Principles' as the organizational framework**

Incorporate New Planning Studies and Initiatives

NPS Paved Trail Study

Anacostia Waterfront Initiative
(10 years of progress report)

Introduce New Topics that Reflect Current Issues and Investigations

Adapting Designed Landscapes

Balancing Commemorative Works within Parks

Protect Capper-Cramton Parks

Guiding Principles

A. Protect the Parks and Open Space Design Legacy

B. Provide Stewardship of Natural and Cultural Resources

C. Provide Access to and Connections between Parks and Open Space

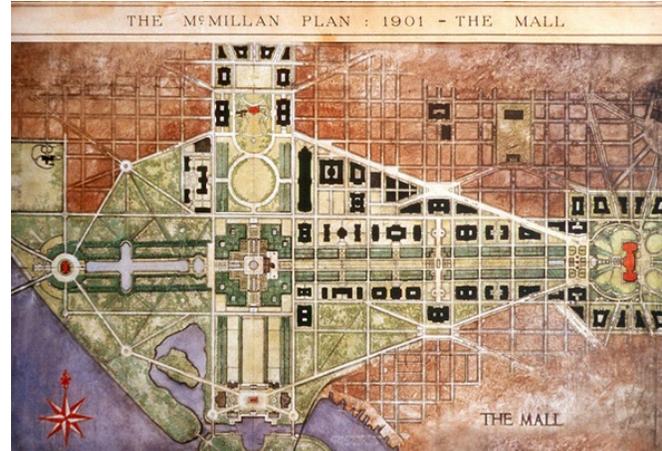

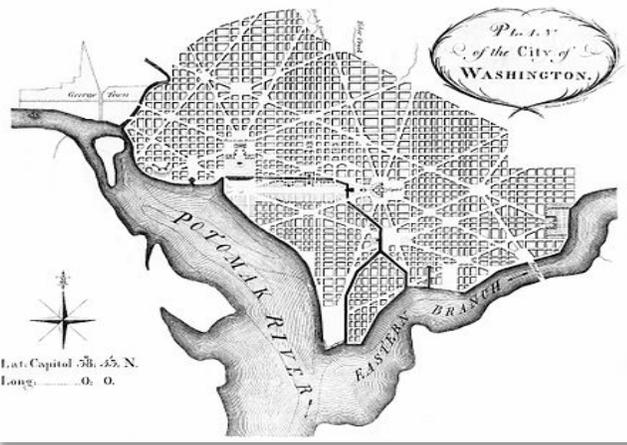

D. Balance Multiple Uses within Parks

E. Balance Commemorative Works within Parks

F. Build Partnerships and Coordination among Multiple Landowners and Jurisdictions

Protect the Parks and Open Space Design Legacy

➤ Protect important elements of the Parks and Open Space Design Legacy

- POS.A.1 Rehabilitate, protect, and where feasible, enhance historic designed landscapes and civic streets, including squares, circles, and triangles associated with the historic Plan of the City of Washington.
- POS.A.2 Preserve and protect historic designed landscapes including their natural and manmade elements.
- POS.A.3 Protect and maintain the cross-axis of the National Mall and its historic landscape as a complete work of civic art.
- POS.A.6 Protect the character of parks and open space with significant cultural or natural resources and that contribute to the setting of the National Capital Region.
- POS.A.7 Protect or restore viewsheds that contribute to the aesthetic quality, historic significance, and visitor experience of the parks and open space system.

Protect the Parks and Open Space Design Legacy

➤ Adapting Designed Landscapes

Protect the Parks and Open Space Design Legacy

Adapting Designed Landscapes

- POS.A.8** Recognize the value of more recent landscapes with special design, and/or cultural significance. Maintain a sense of historic continuity and evolution by preserving parks and landscapes that are exceptional representations of different eras and styles.
- POS.A.9** Reinforce Washington's design evolution, grounded in the L'Enfant and McMillan Plans, and the distinguishing characteristics of designed landscapes when making adaptations to address contemporary needs and/or change in use, access, and maintenance.
- POS.A.10** Balance significant and sometimes competing planning principles and design features and elements from different eras when adapting designed landscapes to meet contemporary programmatic goals and user needs.
- POS.A.11** Maintain and improve a strong physical and/or visual connectivity with the surrounding neighborhood context when making adaptations or improvements to designed landscapes.
- POS.A.12** Recognize the original design intent may remain relevant for some landscapes due to their planning, design, cultural, and/or historic significance. Ensure the original design intent is considered when making adaptations or improvements to designed landscapes.

Provide Stewardship of Natural and Cultural Resources

➤ Protect Natural Resources

Provide Stewardship of Natural and Cultural Resources

➤ Protect Capper-Cramton Parks

POS.B.7 Protect the character and setting of all parks acquired as Capper-Cramton lands as critical elements of the region's park and open space system.

POS.B.8 Improve Capper-Cramton lands to be compatible with their existing park use. Projects that provide public benefits such as improving the water quality of streams, promoting park access, and protecting park resources are encouraged.

Provide Stewardship of Natural and Cultural Resources

➤ Encourage Stewardship Opportunities

POS.B.13 Encourage actions that improve the water quality of the Anacostia and Potomac Rivers to contribute to the restoration of natural systems, improved water quality, and increased recreational use.

POS.B.14 Preserve and maintain natural areas and open space on federal campuses that support wildlife habitat, improve scenic quality, and enhance aesthetic character. Preservation of these spaces should be compatible with the campus mission and programmatic needs.

POS.B.15 Increase and conserve urban tree canopy, understory plantings, and landscape cover through best design and installation practices to provide long-term aesthetics and environmental benefits.

➤ Encourage Responsible Practices

Potomac Conservancy

POS.B.21 Consider opportunities to educate and engage communities in the cleanup, planting, removal of invasive species, and maintenance of the region's rivers, trails, parks, and open space.

POS.B.22 Promote interpretive signage and educational programming, and support the use of mobile technology, to educate and raise awareness about cultural resources and ecological functions of parks and open space.

Provide Access to and Connections between Parks and Open Space

- Reduce Physical and Visual Barriers
- Connect to and along the Waterfront
- Enhance the Existing Trail Network
- Encourage Public Access to Federal Open Space

Balance Commemorative Works within Parks

➤ Encourage Programs, Events, and Innovative Memorials

- POS.E.1** Balance the need for public space uses with the memorial program and sacred space required by memorials based on size, surrounding context, and function of site.
- POS.E.3** Provide areas for diverse park uses and functions by balancing landscape and built elements, and reserving space for the commemorative experience.
- POS.E.4** Within neighborhood parks, acknowledge that the site may currently serve multiple functions for residents. Scale and place memorial elements in a manner that balances existing functions along with the commemorative experience.
- POS.E.6** Locate memorial elements in a compatible manner to adjacent buildings, structures, and historic properties by considering existing building lines, massing, and scale. Memorial elements should complement and not compete with the scale of the surrounding landscape and built environment.
- POS.E.8** Improve and enhance the visual connections between park space, commemorative elements, and the surrounding environment.
- POS.E.9** Plan circulation routes that connect to the surrounding transportation network, accommodate visitors or passers-by, and meet ADA requirements to the memorial and park space.

Balance Commemorative Works within Parks

➤ Encourage Programs, Events, and Innovative Memorials

Cherry Blossom Festival

POS.E.10 Support innovative programming and events within commemorative settings while minimizing impacts on cultural and natural resources or the visitor experience.

POS.E.11 Support the installation of temporary memorials or artwork while minimizing impacts on cultural and natural resources.

POS.E.12 Support memorials beyond physical representations and encourage the exploration of alternative forms of commemoration.

Build Partnerships and Coordination among Multiple Landowners and Jurisdictions

- Plan for a Unified Regional Open Space Network
- Balance Management of Federal Parkland with Local Community Needs
- Coordinate Federal and Local Development Review Processes

POS.F.5 Encourage the use of a variety of management and maintenance strategies including partnerships, cooperative management agreements, or when appropriate within the District of Columbia, transfer of administrative jurisdiction to the District government to improve parks and create a unified open space network.

POS.F.6 Develop federal and local collaborative relationships to maximize the functionality of small parks as local neighborhood amenities.

Public Input

- The Parks & Open Space Element is be available online:
<https://www.ncpc.gov/initiatives/openspace/>
- 60-Day public comment period ends on May 7, 2018
- Next Open House will be held tomorrow April 12 between 10:30 AM to 12:00 PM
- Final Adoption in early fall.
