APPLICANT'S REQUEST

Approval of preliminary and final
site development plans

ACTION TAKEN

Approved preliminary and final site
development plans

The Commission:

Approves the preliminary and final site development plans for the installation of a Ground Circuit Initiative (GCI) telecommunication site located at Fort Belvoir, Virginia.

Notes the new antenna tower will replace an existing tower at the same site. The new tower will be approximately 50 feet taller due to line of site requirements. However, viewshed studies indicate there will be no impacts due proposed project as the tower is located within a heavily forested area of the base.
