Please restore the East Wing to how it was prior to being torn down. Please restore the building to exactly how it was before it was torn down without any approval. The White House belongs to all the citizens and not to the current administration and never should have been torn down without approval.
Thank you for your consideration
Mary Nadeau

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. Furthermore, the funding mechanism is a thinly veiled bribery scheme. It is not a modernization project but rather a complete glorification of a wanna be dictator. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Christina Karlstrom
Date: February 19, 2026 5:27:22 pm

Please don't fund this project. It does not benefit the citizens of our country. If Trump wants to leave a lasting impression of his presidency, he should allocate more money to public health and public schools. Let's build up the future of America by supporting the youth, not squander money on meaningless projects for the rich elderly. Please do not fund this project.

Name: Kathy Stenson
Date: February 19, 2026 5:27:32 pm

The White House should be restored as much as possible to it's original state,.and Trump should have to providenthe funds since he ruined the people's house without appropriate consultation and approval.

Name: Candy Cavaness

I strongly oppose the spending of $300 million on the East Wing Modernization Project which was undertaken without proper authorization, permits, or design review. The razing of the East Wing was a crime. It should be rebuilt and restored to its former design at the personal expense of Donald J. Trump. The president has no respect for the People's House which should not under any circumstances be subjected to his personal desires at the expense of American citizens.

Name: BARBARA READY
Date: February 19, 2026 5:29:30 pm

With tears streaming down my cheeks, I watched the destruction of the East Wing of our White House on television. Frankly, as the President of my local Historic Preservation Society, I'm utterly heartbroken that this "president" as a temporary resident of the White House decided he was above the law and was not required to follow established procedures for any "improvements" to this historic building. The renderings of the outsized and gaudy planned "ballroom" are disgusting. As an ardent supporter of historic preservation, I would completely support that Donald Trump be forced to pay personally for the rebuilding of the East Wing of the White House that he had no right to destroy.

Name: Erin Conwell
Date: February 19, 2026 5:30:21 pm

This project is obscene and an absolute travesty. The East Wing should be rebuilt, not replaced, as it is shameful that it was ever demolished in the first place. Putting a giant party space for a pathetic wannabe oligarch in the People's House flies in the very face of democracy. I'm reminded of Gaddafi's disgusting temples to himself. Restore this historic building to its previous, dignified state.

Date: February 19, 2026 5:30:43 pm

The former East Wing was an historically significant structure that should never have been demolished without input from any number of parties, including but not limited to Congress and the National Trust for Historic Preservation. Its summary destruction without such input was in insult both to all previous First Ladies and to the American Public at large. The current occupant of the White House must be ordered to reconstruct the original structure, with as much fealty to that early design as feasible.

Name: Christine Sheets

Name: Rachel Rosenthal
Date: February 19, 2026 5:32:05 pm

The White House is a National Historic Landmark and a National Park, owned by the American people and home to presidents since 1800. The current president at any given time is not the owner of the property or the structures thereon; the president is a temporary tenant whose interventions are limited by law and by respect for the people of the United States.
The demolition of the historic East Wing without review, permits, or Congressional oversight is clearly a violation of the law. In addition, it is a violation of the trust of the American people, who were given no opportunity to comment on what should have been presented as a proposal and not as a violent fait accompli.
I urge the National Capital Planning Commission to require reconstruction of the East Wing in keeping with its historic design and size. Anything constructed on the demolition site going forward must be compatible in form and subordinate in scale to the Executive Mansion's original structure.

Name: Ann Cannon
Date: February 19, 2026 5:34:27 pm

Please do not approve construction of a ballroom where the East Wing once stood. Such a monstrosity would not only dwarf the White House, but would be an affront to anyone who cares about what the White House represents. It is beyond outrageous that one man was able to unilaterally destroy the historically significant and priceless East Wing. He is a boarder in the people’s house. The people should have the power to determine this outcome. I’m also gravely concerned about the enormous cost of this boondoggle and what favors were promised to wealthy individuals who may donate to it. At what point will people in power stand up and finally tell him “no”? I implore you to respect our beautiful landmark and reject plans for this wasteful monument to one man’s ego.

Name: Linda Barnes
Date: February 19, 2026 5:35:31 pm

I am opposed to this project. It was illegally begun, and the project did not conform to any of the regulations set forth by law. The East Wing should be rebuilt and the interior returned to its original condition and furnishings.

Name: Roy Simmons
Date: February 19, 2026 5:37:57 pm

I believe Trumps Ballroom is nothing bur his attempt to make himself great. It has NOTHING to do with a NEED for a Ballroom! Trump is a FACCIST TRYING TO CHANGE AMERICA FOR THE WORST, NOT BETTER.
His ballroom should be CANCELLED and return the EAS WING TO HISTORY!

Name: Cynde Spence
Date: February 19, 2026 5:38:10 pm

Thank you for the opportunity to comment. As an architect and preservation advocate, I believe changes to the White House require the highest standard of transparency, humility, and respect for civic legacy.
The White House is not simply a residence; it is a national symbol shaped over time through stewardship, often guided by preservation-minded leaders who understood that additions must defer to history rather than compete with it. From careful restorations championed by figures such as Jacqueline Kennedy Onassis to the long tradition of civic-minded design oversight, alterations to this site have historically reflected restraint and reverence.
I have the following concerns:
• Process and Oversight: Reported demolition of the East Wing prior to full preservation review, documentation, and hazardous material handling raises serious concerns about adherence to established federal review standards.
• Review After Construction Began: Oversight scheduled only after demolition undermines public trust and the integrity of the design process.
• Security as Rationale: If demolition has created security vulnerabilities, those conditions are self-induced and should not justify accelerated or unchecked construction.
• Scale and Proportion: While expanded assembly space may serve functional needs, the proposed ballroom appears disproportionate to the White House itself. Extending significantly into the South Lawn risks diminishing the primacy and visual authority of the historic structure.
• Monumentality vs. Civic Restraint: Architectural gestures such as matching cornice lines or adding a non-functional portico do not ensure contextual harmony. Civic architecture at this site should embody restraint, not personal expression.
• Unresolved Planning and Accessibility Issues: The available plans raise unanswered questions regarding:
o ADA-compliant independent access
o Guest circulation and security screening for large events
o Traffic impacts on Executive Avenue
o Service access, storage, and secure waste handling
o Inconsistencies between floor plans and elevations, including vertical circulation and mechanical systems
• Incomplete Documentation: Advancing demolition and construction without publicly reviewed, coordinated construction drawings suggests a rushed and insufficiently vetted design process.
The White House belongs to the American people. Its evolution should reflect thoughtful stewardship, rigorous oversight, and respect for history, not urgency or excess. I respectfully urge that the project be paused until full preservation review, transparent documentation, and comprehensive design coordination are completed.

We do not need a gold ballroom. The East Wing of the White House should never have been destroyed. Everything that happened with the project was against government protocal. This destruction was wrong, unlawful and a blatant act of defiance. Someone needs to be punished for this action.

I now oppose the spending of $300 million on this project, I would love to see the wing rebuilt to its original design and retake its place in American History.

Marcia

Name: Janice Wachtler
Date: February 19, 2026 5:40:36 pm

This project was initiated without the approval of of the Historic Preservation Commission and at the whim of one person. The White House is an American historical building that is should not be remodeled without approval of Congress and Senate as well as the American people.

The use of private corporation's funding is only to gain the support of a corrupt administration and the largest crime family in our history.

In my opinion the Trump family should be charged with rebuilding the East Wing of the White House as it was.

Name: Lauren Spilsbury
Date: February 19, 2026 5:40:48 pm

The White House does not belong to any current resident. It belongs to the American people. Any resident shall not unilaterally decide to make changes. There is a process where changes can be made, and the process should be followed. At present, there was unauthorized demolition performed. The company who performed demolition should stop further destruction and repair the space to its former condition until decisions can be made. It may not sound fair to hold them accountable but they were aware that permits were not pulled. They have the choice to sue whomever instructed them to perform this demolition.
The cost of repairs is to stay on their shoulders. Then the proper channels shall be initiated to make changes to the East wing. Private donors should not be used as this looks like a bribe. Do things the correct way going forward.

Name: Phyllis Pepper
Date: February 19, 2026 5:41:45 pm

It's funny that this is called the East Wing modernization project because The People's House no longer has an East Wing. The people of this country never asked for a ballroom, just as we have never asked for the Rose Garden to be paved over. This President, nor any President, owns The White House or its grounds and he had no right to tear it down. He also has no right to use tax payer money for a tacky ballroom. I do not for one second believe that he and his billionaire friends will pay for the entire bill.

This country and its people are in great need and he and his republican sycophants in Congress do not care. It's too late to stop the demolition as it's already been done but it isn't too late to rebuild. Trump is not a king and he doesn't need a gilded ballroom.

Phyllis S Pepper

Name: Dev Patel
Date: February 19, 2026 5:42:17 pm

This is a massive waste of money, it destroyed historically significant parts of the house's history, and it's so gaudy and stupid. DC's budget still hasn't been made whole - my local taxes are still not going to my own community. Yet an ungodly sum will be spent on a tacky, illegal addition to the white house. He already ruined the kennedy center. He already threatens us with home rule. And he's removing history from museums, erasing story, and just destroying kinda everything. Why should he be allowed to unilaterally spend our money without permission and create items of hubris? He's a pathetic old man trying to find immortality in naming ***** buildings. Pathetic.

Name: Jennifer Fort
Date: February 19, 2026 5:42:32 pm

Build the East Wing back exactly as it was prior to the illegal actions of the felon who tore it down without permission.

The East Wing belongs to the American people. Restore it and make Trump pay for it.

Name: Barbara Elish
Date: February 19, 2026 5:42:36 pm

I want this project cancelled. It does not reflect the wishes of US citizens. And singlehandedly destroying the White House is not only not permitted but should be punished.

Date: February 19, 2026 5:45:23 pm

I am totally opposed to the building of a ballroom that will dwarf the White House! Not to mention the East Wing was demolished without input by the Commission. I want the East Wing rebuilt as it was and consequences ti be imposed for its destruction!

Name: Anita Williams
Date: February 19, 2026 5:45:50 pm

The White House does not belong to Trump! He just took it upon himself to have it demolished to put up a $300 million “ballroom!” He shouldn’t have the power to destroy the White House for his likings!! We the people should be able to have a say as to what is done to the white house!! Please put a stop to this and repair the White House to look like the east wing used to look!! Please!!!

Name: Amanda Greenway
Date: February 19, 2026 5:47:04 pm

This is an affront to history. Please rebuild the east wing as it was.

Name: Sally Tuy
Date: February 19, 2026 5:47:22 pm

I am firmly against building a ballroom where the east wig was demolished (without approval;!) This "modernization" is not fitting with the history of the white house nor our culture. It is ostentatious and unnecessary and no environmental planning was done, there is also a concern that the unapproved demolition has released toxins to people and the environment. And further work must be stopped and the east wing should be rebuilt as per the original design at a personal cost to the president since he went ahead without any approvals. .

Name: Sherrell Cuneo
Date: February 19, 2026 5:47:23 pm

The White House is The People's House, the current occupant is a tenant residing in the People's House for a limited amount of time. The fact that the historic East Wing was demolished without the proper authorization, permits, or design review is egregious. It is a move typical of a shyster real estate developer, destroy illegally, say 'oops' and then proceed to do what they want. I oppose the spending of $300 million on this project. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law, and to permit this project to go ahead without penalizing those who broke the law would

be an affront to the history of our great country, and slap in the face to every US citizen, and every patriot who has fought one way or another for the principles this country was founded on. With all due respect, this is a serious offense, a violation of the public trust, an abuse of power and could conceivably rise to the definition of high crimes and misdemeanors.

Name: Beth Lyon
Date: February 19, 2026 5:47:25 pm

The ballroom should be canceled and the East Wing restored. The President doesn't own the White House and this should never have been done without consultation of Congress and other appropriate bodies.

Name: Mary Brown
Date: February 19, 2026 5:47:40 pm

Please do not allow this ballroom project to go forward. It will overwhelm the White House. Instead, please use the money that has been raised for it to be used to restore the original East Wing and to repair the damage done to the landscape destroyed during the unauthorized process of tearing down the East Wing. What is proposed has nothing to do with modernization.

Name: Arlene Zingale

Name: Kathy Williams
Date: February 19, 2026 5:49:22 pm

I, as one of we the people, oppose the demolition of the White House East Wing because changes to a national historic site should occur through transparent review, not unilateral action. Additionally, this $300M project is being funded by large private donations at the behest of the sitting administration which creates at the very least the appearance of influence-seeking or preferential access, and undermines public trust.

The East Wing was destroyed to make way for a new state ballroom funded largely by private donors, with demolition beginning before review by the National Capital Planning Commission and amid unresolved preservation concerns.

I am asking for clear disclosure of donor funding, environmental and design review, and public accountability.

The White House is a shared civic symbol, not the property of any one administration, and major alterations should follow the same oversight standards expected of every other federally significant project.

Name: Aimee Contreras-Camua
Date: February 19, 2026 5:49:25 pm

I strongly oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a vanity project for the sitting President. I want this project canceled, and the East Wing rebuilt and restored to its former design. Date: February 19, 2026 5:56:45 pm

This seems like a desecration of a beautiful, balanced historic building. The East Wing has already been torn down without appropriate review and the addition seems like it will dwarf and overwhelm the main building. This seems like a huge waste of money when there are so many real problems to be working on.

Name: Marjorie Turner Hollman
Date: February 19, 2026 5:57:18 pm

The wreckage of the East Wing of the White House has put the entire structure at risk. Restoration of the structural integrity of the wrecked walls is essential. What a travesty this is.

Name: Alice Newman
Date: February 19, 2026 5:57:33 pm

I want the ballroom stopped and the East Wing restored as a public entrance to the White House including all the historic artifacts and displays. I believe this should be paid for by Donald Trump. He destroyed the EST Wing without authorization. Therefore, he should pay for its restoration. Thank you for stopping the construction of an unnecessary eyesore and fighting for a restored East Wing.

Name: Jean Christensen
Date: February 19, 2026 5:58:07 pm

The Destruction of the White House East Wing, initiated without proper authorization or oversight by Congress is abhorrent and an insult to the citizens who regard the White House as a National treasure and the property of these citizens. Any control over the renovations and construction of the now necessary repair should immediately revert to representatives of Congress and those personnel authorized by them. The President’s unilateral decision to destroy the East Wing and replace it with something he regards as a personal reflection of his own wishes, ignores his role as an elected official and the appropriate procedures required for any, now necessary, construction!

Name: Cecelia Reilly
Date: February 19, 2026 5:59:28 pm

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. Seeing as how our traitorous President will soon be Impeached, convicted, and imprisoned soon, he should have no say as to the proposed East Wing renovation. We do not need to have the absolute worst President in history have a lasting impression on the White House grounds. The country will be so much better with Trump in jail.

Name: john van ryn
Date: February 19, 2026 6:06:24 pm

there was no need to demolish the east wing. put it back.

Name: Richard Senechal
Date: February 19, 2026 6:06:54 pm

I have been a registered architect for 50 years. I spent most of my career in the hospitality industry, designing and building hotels and resorts, most of which included ballrooms. I have likely planned and designed a great many more ballrooms, of every shape and size, than any member of the Commission or anyone on the proponent's team has seen. As a recognized expert in this field, I would like to share with you some of the metrics that are generally applied to the design of all ballrooms, regardless of size or intended quality.

To seat 1,000 for dinner, the minimum ballroom size is 13,000 square feet. A 15,000 square foot ballroom would comfortably accommodate this program. The proposed 22,000 square foot ballroom is significantly larger than required for the stated purpose.

Assuming a 22,000 square foot function room, an additional 50%, or 11,000 square feet would typically be allocated for public pre-function areas and service circulation. Consequently, the building footprint need not exceed 35,000 square feet. Whatever additional elements have been included in the 90,000 square foot program can and should be located below grade.

The maximum reasonable ceiling height for a ballroom of this size would be 28.5 feet. Assuming six to eight feet for structure and mechanical services, the height of the building need not exceed 36 feet, substantially lower than the 55-foot height of the White House and much more in scale as a dependent wing of the main residence.

I submit that any proposal that exceeds these parameters does not do so for any functional reason. I strongly urge you to do your duty to protect this historic building from the overweening vanity and monumental bad taste of the current occupant who will, after all, be gone in less than three years.

THANK YOU FOR YOUR ATTENTION TO THIS MATTER.

Dear Public Servants,

I strongly oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. This is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design, paid for by the gracious corporations and individuals who were allegedly "supporting" this project.

No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans. Had any ordinary citizen acted in such a manner, said person would be sued and prosecuted for violating various regulations and legal procedures. It is striking that this administration is so comfortable bulldozing our institutions, literally and figuratively, and it is quite telling that continually, the American people are footing the bill for an out of control executive. There are necessary steps for a reason, especially in a healthy democracy. The People's House has been violated by this egregious disregard for our nation's systems. We, the people of this nation, are in charge—elected officials are meant to serve us, not act through their whims and egos, as many in public office unfortunately seem inclined to be. Had proper procedures been followed to the letter of the law, including a period of

public comment prior to the demolition of the East Wing of the People's House, this conversation would be unnecessary.

Any decent leader would recognize their faults and uphold accountability, especially while being the leader of a nation experiencing the greatest wealth gap in history.

I don't have to wonder how this period of our history will be discussed in the future. But I would like to see every American, regardless of their position, held to the highest standards of the law.

I cannot believe that anyone thinks spending 300million dollars on "Modernization of the East Wing" is a good idea. There is such a desperate need for that money to be spent elsewhere, on healthcare so seniors don't have to chose between food or medication, public libraries, and so many of our great parks are in disrepair from lack of funds and years of neglect. Most of the original work was done by the WPA at many facilities and we all know how long ago that was. Also this is not an improvement or preservation, it is destruction of an historical asset to please the ego of the current president. That is not a good reason to spend this money. Nor is it the way government by the people, for the people and of the people works. Thank you for your attention to this matter.

Name: Laura Henzel

The White House is a National Historic Landmark and a National Park, owned by the American people and home to presidents since 1800. The current president at any given time is not the owner of the property or the structures thereon; the president is a temporary tenant whose interventions are limited by law and by respect for the people of the United States.
The demolition of the historic East Wing without review, without permits and without Congressional oversight is clearly a GROSS violation of the law. In addition, it is a violation of the trust of the American people who were given no opportunity to comment on what should have been presented as a proposal and not as a violent fait accompli.
I urge the National Capital Planning Commission to require reconstruction of the East Wing in keeping with its historic design and size. Anything constructed on the demolition site going forward must be compatible in form and subordinate in scale to the original structure of the Executive Mansion.

Name: Penelope Nye
Date: February 19, 2026 6:10:56 pm

How often is there a need at the White House for an "event space"?
What is the average number of attendees at State dinners and other types of White House events that require such a large space as the one proposed?
I fail to see the necessity for something so disproportional as the proposed space.
Visually it makes the White House look like an afterthought and not the center of attention it should remain.
I question the utility of such a large space as it seems that most likely it will sit dormant for a large percentage of days in a calendar year.
I find the proposed ballroom to be an unjustifiable expense and an eyesore on the property given it's proposed size and scope. If an "event space"/ballroom is needed than it should be in harmony and not overwhelm he White House
If there is necessary modernization than that should be done in a way that is not at odds with the history, beauty and scale of our White House.
The proposed ballroom/"event space" looks like a monument to excess rather than an update that historically honors the current White House and it's history.
Please, please we do not need this huge addition just for show or to try and rival/outdo similar venues in other countries.
Thank you

The US public wants the East Wing restored to the way it was in December 2024. We do not want a tacky overpriced ballroom, and we know this is a cover story concocted to create a bunker. Even if a ballroom was needed, there are correct ways to get that done, but nothing about this has been handled legally. We deserve better.

1) ballroom is unnecessary. Using facilities for rent in DC provides economic benefits to the business community and then the taxpayer is not on the hook to maintain this monstrosity, and
2) the perfect symmetry of the building will be destroyed forever. All for a vanity project for the current occupant of the White House. None of this has been approved by Congress.

Thank you for the opportunity to comment on the proposed 90,000 square foot ballroom addition to the White House. The project is listed as "East Wing Modernization Project". It is not a "modernization project", a name that implies improvement to an existing space. Instead, the East Wing which was integral to the function, symbolism and history of the White House has been destroyed. This removal of the functioning, symbolism and history of the First Ladies' works is a great loss to the country.

The proposed project goes in the opposite direction. It is out of scale with the remaining parts of the White House and the grounds. It undercuts the function of the White House as the central site of governing. It undercuts the symbolism of the White House as "the people's house". It has already removed important history from the site. It is not clear how often the space would be used.

In addition the proposed ballroom is out of scale with the rest of the building. It is not aesthetically pleasing. If such a thing as a ballroom is even worthy of consideration, it should be sited some place else and designed to represent the people and citizen oriented events, not merely the whims of the current administration and its donors.

I am writing to express my opinion on this project. The work that has been done, demolition, was completed without prior approval in an effort to force the Commission to approve the plans. Allowing the destruction of the White House is not only a horrible idea but giving in to an out of control administration is even worse. There is no need for this monstrous room to exist. Previous administrations have had no problems with the existing ballroom and have used the East Wing rooms for their intended purposes. The previous East Wing should be rebuilt so that future administrations have what is necessary vs an empty, and frankly gaudy, space.

I strongly oppose spending any more money on changes to the East Wing. The White House is not a private residence. There are reviews, permits, and authorizations required for changes made to any public, taxpayer-funded building, and they have been brazenly ignored. There should be serious consequences for such actions, including restoring the East Wing to its original state.

Name: Mark Sullivan
Date: February 19, 2026 6:27:20 pm

I strongly oppose this project and hope that it will, first, be halted immediately and, second, that plans be required from the current Administration, under guidance of the Commission, to restore the East Wing to its former interior and exterior appearance.
It was outrageous that one individual tilted scales in his favor and quickly moved to demolish the former structure. While "The People's House" sits atop Capitol Hill, the White House also belongs to the people. A President is only a caretaker of the White House and its grounds for past, present and future Americans.
I also suggest that the funds for rebuilding and restoring the East Wing be obtained, using all available legal means, from the various monies that Donald Trump has taken in during his Presidency. He has plainly and demonstrably used the office of President to enrich himself and family via bitcoin, meme coin, cyrpto, "donations" and favors from both domestic and foreign governments, money-making schemes sold to individuals, etc. Such gains only came about through unprecedented leverage of an office entrusted to him by many Americans. He should be required to make restitution to the American people by paying for the rebuilding of the Wing that he unwisely demolished.

This project is a travesty and a stain on our democracy.

It is a waste of taxpayer dollars.

It is shameful that millions of Americans are losing healthcare because it is "too expensive", but somehow the construction of massive party room addition to the White House is an acceptable use of our money. Shame!

This project should not be allowed to proceed.

Name: Alisa Owen
Date: February 19, 2026 6:30:59 pm

The People's House does not need a gigantic ballroom. It would be a disgrace, particularly when proposed by a racist rapist.

Name: Douglas Wilson
Date: February 19, 2026 6:32:04 pm

The White House is the most important residence in the United States and has been home to every U.S. President since 1800. It is a symbol of the honor and dignity that signifies the Presidency and embodies the spirit of the United States and

its people. In recognition of its historical significance, the White House was nominated and listed as a National Historic Landmark in 1960. Its historical significance is tied to its construction as the first public building in Washington D.C. and as a suitable residence for the President of the United States. While recognizing that presidents often remodel the interior of the house while retaining the floorplan, the exterior has only been slightly modified and largely looks the same since its construction in 1800. Importantly, the wings that were added (including the East Wing prior to its demolition) are smaller in scale and do not overwhelm the original structure. The White House was designed by an Irish immigrant who modelled the home after Leinster House in Dublin, the residence of the Duke of Leinster. It was not built as a royal palace but rather an attractive, dignified, and modest home for an important person. This is consistent with American notions where all citizens are equal and all have a stake in the government and its expenditures.

The submission materials and narrative for the East Wing Modernization Project (NCPC File Number: 8733) appear to be conceptual designs at an early stage of development. Even so, the proposed ballroom as shown is too large in size, undermining the main volume of the White House. The proposed ballroom addition, due to its height and massing is visibly incompatible with the scale and size of the United States President's historic residence. The proposed ballroom is much larger in size than the ballrooms of the main castles of the European monarchy, including St. George's Hall at Windsor Castle, Buckingham Palace, and the Élysée Palace. The design of the White House is stately and traditional and when it was built was a clear departure from royalty and castles, reflecting the new nation that had been born just 25 years before. The proposed addition overwhelms the "peoples' house."

From a specific operational need, it is also unclear why such large groups should be gathering at the White House residence as even the largest state dinners could be accommodated in a much smaller space. Much larger ballrooms for massive gatherings are already present nearby and could accommodate much larger groups, such as the nearby Old Post Office ballroom which is currently owned by the U.S. Government.

The ballroom as proposed is inconsistent with the function of the presidential residence and would diminish significantly the integrity of the White House as a National Historic Landmark. Further, the imbalance that will be created by the ballroom as proposed will likely require additional demolition and renovation to the West Wing which will further adversely affect this singular place. I encourage the commission to disapprove the preliminary site building plans and to wait for much more detailed plans before approving the final site and building plans. I urge the commission to argue for the reduction in the footprint and the height of the proposed ballroom to bring it into the scale with the rest of the residence.

I do not believe our East Wing should have been demolished!!!!!!!
Tell the President to put it back up as it was, and no gold is to be put in it.
He destroyed a National Treasure that belongs to us and not him.
Tell the President to pay for it himself out of his own money. Taxpayers should not foot the bill.

Name: tim morell
Date: February 19, 2026 6:33:56 pm

I'm opposed to the recent destruction of the East Wing of the White House, and the Rose Garden, to pave the way for a $200,000,000 ballroom that is an affront to the democratic principles that this country is supposed to represent. The optics of a Golden Ballroom, especially one funded by billionaires, that only the wealthy or powerful might ever have access to is an insult to the notion that America is a country where all men are created equal. Beyond that, what is the purpose of the ballroom supposed to be, other than feeding the ego of the man behind the decision to build it? What other President would ever have use for it? What's more troubling is that the only man who wants it is scheduled to leave office in three years. Given the slow timeline for projects like this, how many times could he actually manage to put it to use before

someone else takes office, unless of course it's his plan not to leave office at all.
A $200,000,000 boondoggle that serves no purpose other than to be a showcase for the growing income inequality of this country and it's descent towards authoritarian rule has no business being attached to the "people's house". Very kind regards, Tim Morell

I am opposed to this project proceeding in the manner planned by President Trump. I believe the size and scope of the project will not fit with the present White House structure, making it look unbalanced and garish. I do not think the size is necessary and my understanding is that it was planned without the proper authorization, permits, or design review. All of those things should take place first and the project should not proceed based on the whims and ego of one man. I am also very uncomfortable with the fact that private donations are supposedly paying for this project because so many of the donors have ties to government contracts. This lends itself to future favoritism towards these donor contracts, which is not the way our government should be run. Thank you.

Since the damage is done the only way forward is to follow the process that has guided these type of projects in the past. Have open , formal meetings. All members who will be making decisions should be qualified and non-partisan. Congress needs to be involved. There should be no independent funding, the funds must be appropriated by Congress. This is the people’s house!

Name: David Tirman
Date: February 19, 2026 6:35:00 pm

I am writing to express serious concerns about the proposed East Wing Ballroom project, especially regarding its size and scale, as well as the process by which it has been considered and presented to the public.

• Mass and scale: The White House is a highly recognizable symbol of American government and history. Any new construction needs to be sensitive to the context, proportions, and visual impact of the Executive Office Building. The current proposal seems to introduce massing and scale that overshadow the surrounding architecture and historic fabric. I recommend thorough evaluation of massing studies, scale comparisons with nearby historic structures, and a design that maintains the clarity of the site’s historic hierarchy.

• Public input and deliberation: The public record for this project has been lacking so far. The White House and its design partners should create a transparent process that features meaningful public input, open forums, and prompt responses to public concerns. Before moving forward with any approvals, there needs to be a well-documented process showing how public feedback has been considered and addressed.

• Demolition of the prior East Wing: I am concerned about the demolition of the historic East Wing carried out without sufficient public input or proper historic preservation review. The loss of this building requires formal acknowledgment, a clear explanation of how the decision was made, and guarantees that future actions will include strong preservation efforts and public involvement.

• Recommendations:
1) Pause or slow the project to enable a thorough public review of massing, siting, and scale, with independent third-party

design expertise analysis.
2) Publish all historic preservation assessments, environmental reviews, and design iterations promptly and in an easily accessible way.
3) For public hearings or town hall meetings, provide a clear feedback loop that shows how input will influence design decisions.

Thank you for considering these concerns. A project of this significance merits thorough, inclusive, and transparent engagement to respect the nation's history while addressing current needs.

Name: Jan Zaccarelli

I oppose spending millions to build a gigantic ballroom. What was good enough for so many former presidents should be sufficient! 900 square feet is just immense; it's much too large.
It will ruin the scale of the White House which is iconic and belongs to the American people.
A president is just there temporarily. He shouldn't be acting like he thinks he'll be there forever! If funded by private donors, this amounts to bribery in hopes of governmental favors.
Trump shouldn't be able to just do whatever he wants without permission. No one else has ever undertaken any kind of renovations without them being approved beforehand.

I vehemently oppose the wasteful spending of $300 million on this project - one initially undertaken without the proper authorization, permits, or design review. It dumbfounds me how someone could be so bold as to destroy such a significant piece of America's history without any consideration for the significance of that history, input from those more knowledgeable about the processes involved therein, and - perhaps most importantly - the seeking of opinion from America's citizens. I want this project canceled and, in turn, the East Wing rebuilt and restored to its former design - the cost of which should be upon the shoulders of those who destroyed it and NOT the American taxpayer. No one is above the law. To permit this project to move forward without penalizing those who broke the law would show the utmost disrespect for our nation's law-abiding citizens.

Name: Nancy Block

Name: Angelo Carusi
Date: February 19, 2026 6:41:02 pm

I have been practicing architecture for over 40 years and seldom have I seen such a poorly planned project. The proposed building footprint is massive, overwhelming the delicate scale of the main house and eating into the public domain meant for the People, not the president. The scale of the building is way too long. Looking at the great ballrooms of the world, they are more compact and more luxurious in design.

The original White House design was determined by Design Competition. This design has not gone though that process, it was dictated. A true example of the reasons the people of America rose up against their tyrants. There is nothing "Peoples House" about any of this. Ironically, neoclassicism is not an American invention. There are many American architects that developed uniquely American aesthetics and continue to do so. They could have been selected to create a uniquely American solution. The suburbs of America are rife with neoclassical interpretations of residences on too small lots so perhaps this oversized ballroom on too small of a lot is truly American...just not the aspirational America I would think we would seek.

Stylistically, it is clear the selected design team needs to read more Vitruvius. The Corinthian order will conflict and overwhelm the Ionic order (less ornate) of the main house. The Corinthian order also calls for an entablature 1/4 to 1/5 the column height. The proposed entablature height visually crushes the slender columns but is a result of trying to make the portico work. I would strongly recommend looking for a design team that has more skill and sensitivity to true neoclassical architecture.

All of my life as an architect I have been guided by the premise that architecture is a reflection of its society. Do we really want a structure that represents a) bad design, b) poor planning, c)a process that doesn't include the public in determining the design or the design team and d) a design more emblematic of a suburban neoclassical subdivision?

This American says no.

I oppose the building of a ballroom to the People’s House. The destruction of the East Wing was done illegally and it should be restored. The desecration of this historic home that belongs to the American people should not be tolerated. No one is above the law.

Name: Mary Smietanka
Date: February 19, 2026 6:42:46 pm

I am absolutely appalled that the people’s house has been destroyed without any public input and blatant disregard for laws and norms. Now that the East Wing is gone, I would like someone other than Trump with his garish vision to take control. I don’t want the private “donors” to pay their bribes. Use public funds and hire an architect removed from Trump under the control of an historic preservation entity. If it is allowed to be built under Trump, it will forever stand as a folly and affront to the American people. Do what is right! Thank you for asking.

Name: Alice Grossman
Date: February 19, 2026 6:43:24 pm

The East Wing was destroyed illegally without the normal oversight. I think it should be rebuilt as it was at the President’s expense because he gave the orders to destroy it. In our country you cannot destroy history like that. Our president is not king or a dictator and cannot erase history by tearing down a whole wing of the White House!!

Name: Flo St. Jean
Date: February 19, 2026 6:45:34 pm

I oppose the spending of $300 million on the project to add a ballroom to the White House, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. To permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans. It is essential for all Americans to follow the laws of our country, regardless of status or position.

Name: Anna Jordan
Date: February 19, 2026 6:46:56 pm

The East Wing is a living historical monument to the people of the White House, not the work of the President. It's preservation is essential to remembering the ups and downs of American history and should NOT be replaced by a modernized white-washing of this history. The White House is temporarily loaned to a sitting president by the People of the United States, and therefore should not be modified in anyway without the approval of the owners. Furthermore, it is the part of the historical site that forms the first impression of the US on foreign dignitaries. We should stand tall in our history and not be seen as a modern construction site with gaudy facades. The American people should not foot the bill for the desecration of the White House while they struggle to survive. The entire project screams "Let them eat Cake."

I am a tax payer and a regular voter. I have part of the voting ecosystem before I could legally vote by working on campaigns and studying voter apathy as part of a high school documentary project. I ceremonially submitted my voter registration on the day I turned 18. I am descended from Mile Standish of the Mayflower. I am about as United States of America citizen as you could be but certainly not an descendant of the original citizens of this land.

I am appaulled that the East Wing of the White House was torn down without proper approvals from Congress and historical preservation societies. Donald Trump should, from his own pocket, reconstruct to historical accuracy every nook and cranny of the East Wing. He should also be made to account for each and every artifact from the East Wing and its whereabouts. If any item has been demolished, he should have to, at his personal expense, replace to historical accuracy each item. If the item can be procured as an antique, he should have to bear that expense personally. No restoration of the East Wing should be borne of tax payer money.

A ballroom should not be allowed to be built on or near that site. And Donald Trump should have to remove all of the fake gold and resort-style lettering from the White House grounds and restore each area to its condition prior to him entering office. This includes the Rose Garden.

I oppose spending $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project; rather, it is a complete razing of American history. I want this project canceled, and I want the East Wing rebuilt and restored to its former design.

No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Mary McKinney
Date: February 19, 2026 6:49:07 pm

It is my understanding that these enhancements, more commonly viewed as the destruction of government property, were done at the whim and fancy of the current resident of the White House. It as if this individual believes, since the justices gave him immunity, that he can do as he pleases. There is a documented process that includes a historic design review process at a minimum for historic government buildings. The use of private funds is an attempt at an end run around the advisory committee and congressional approval as the sight is a museum. It is not a modernization that is being done, it is rather a desecration of a historic museum. The second most impactful desecration since it was burned in 1814 by the British. The attachment of a building that will dwarf the White House will be the next ludicrous appeasement of this man.

He, who must attach his name to buildings and his image dangling from places not unlike some of the most unpleasant leaders of the 20's, 30's and 40's in parts of Europe and Russia or leaders in parts of Asia in more recent times. It will be curious to see if his name is attached to JFK's eternal flame in Arlington as he is already usurping the Kennedy Center.

Date: February 19, 2026 6:51:11 pm

The President demolished an important and historic part of the White House without authorization or oversight. He seems to be under the delusion that he can do whatever he wants to the White House. But the White House belongs to the American people, not the President. This project must be cancelled to avoid and mitigate further damage to an irreplaceable piece of our history. Rebuilding the East Wing should not be a vanity project for one man, it should be a collaborative effort of the true owners of the house, and conducted with review and oversight

I want to express my concerns regarding the building of the White House Ballroom. I will say that an indoor space to hold large events is probably a good idea as opposed to erecting tents. HOWEVER, and this is what is truly important, how the president went about this and continues to push forward with plans is what is WRONG. First, the President bypassed normal procedures and had the East Wing demolished before consulting and getting appropriate approval. Second, anyone can look at the blueprints and see the proposed size of the ballroom is just simply too large relative to the scale of the white house. The main building should be what stands out, with the "wings" being supportive architectural buildings. We all know that this project is going to happen. We just need to ensure the size of the ballroom is scaled down.

Date: February 19, 2026 6:54:11 pm

To whom it may concern,
As a citizen of the US, I vehemently oppose the plans for the proposed ball room. It was never approved by congress or even consulted with the historical society. It is a project for our narcissistic president and the majority of the citizens of the country do not support this project. Please listen to the people and halt the project.
Thank you in advance,
Susan Cassidy

I am in support of the East Wing Modernization Project to add a Ballroom. We are the richest, strongest and highly respected nation in the world and we do not have a secure facility to host a large gathering of leaders for dinners or celebrations.

We should not be hosting leaders in a tent and it being on grass in various weather conditions.

Name: Patricia McGillis
Date: February 19, 2026 6:57:25 pm

I oppose this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. Spending of $300 million on this vanity project is absurd when there are thousands of people, probably within blocks of the White House, who need food, housing, and medical care. I would like this project to be canceled, and the East Wing rebuilt and restored to its former design. No one is above the law. To permit this project to go ahead without penalizing those who broke the law is an affront to all law-abiding Americans.

A ballroom is not needed or wanted. Trump is full of shit when he says otherwise. Rebuild the East Wing and send trump to prison for demolishing public property and taking bribes. Who are these “donors” and what are they getting in return. This whole thing is ridiculous and obviously corrupt.

Date: February 19, 2026 7:03:17 pm

The destruction of the East Wing of the White House to make way for a grand ballroom fills me with profound sadness, and I strongly oppose spending $300 million to replace it with a ballroom. The East Wing structure was not merely an architectural appendage but a living piece of American history, a quiet witness to decades of leadership, ceremony, and national memory. As someone who deeply values the preservation of historic spaces, I find it heartbreaking to see such a meaningful structure reduced to rubble in pursuit of modern grandeur and showiness. The loss feels like an irreversible erasure of tangible heritage that no new construction, however elegant, can truly replace. Instead of the ballroom, the East Wing should be reconstructed as faithfully as possible and restored to reflect the character, dignity, and historical integrity it once embodied.

The "ballroom" is a disgraceful abomination.

Name: Jeff Boyle
Date: February 19, 2026 7:11:33 pm

Thank you for the opportunity to comment on this project. Like millions of my fellow Americans I was deeply disturbed by the lack of consideration and due process in the demolition of the former East Wing of the people’s house. Sadly the current occupant has exhibited no consideration for public input in how we got here, and I expect he will not listen to reasonable voices who would rather have left the prior structure standing. Instead, the American oligarchy is planning to erect a gaudy monument to their collective lust for power. My only hope is the “modernization” project is delayed long enough to see the current regime lose interest, influence or funding and the land is returned to a more sensible use. A vegetable garden would be nice.

PUBLIC COMMENT IN OPPOSITION
NCPC File No. 8733
Project Title: East Wing Modernization / White House State Ballroom
National Capital Planning Commission Review — March 5, 2026

Submitted by: Michelle Goodson
Date: February 19, 2026

FORMAL STATEMENT OF OPPOSITION

I am writing to express my absolute and unequivocal opposition to the "East Wing Modernization" project (NCPC File No. 8733). As an American citizen who cares deeply about the preservation of our national heritage, the integrity of our democratic institutions, and the responsible stewardship of public property, I find this project to be a profound violation of the public trust.

The estimated $300–$400 million expenditure, the lawless manner in which demolition was initiated, the firing of the independent review commission, and the ethically compromised funding mechanism all combine to create a project that is antithetical to the values this nation was founded upon.

This project must be cancelled immediately. All further construction must be halted. The East Wing must be restored to its historic design. The Jacqueline Kennedy Garden and all commemorative landscaping must be re-established. And the individuals responsible for bypassing federal law must be held accountable.

What follows is a comprehensive analysis of the legal, procedural, historical, architectural, environmental, ethical, and fiscal grounds on which this project must be rejected.

I. PROCEDURAL MALFEASANCE AND LEGAL VIOLATIONS

A. Demolition Before Review: A Fundamental Breach of Federal Law

The East Wing of the White House was demolished beginning October 20, 2025. The East Portico was destroyed first, followed by the progressive reduction of the entire East Wing to rubble between October 21–24. This demolition was carried out without prior notice to the National Capital Planning Commission, the Commission of Fine Arts, Congress, or the American public. No plans had been filed with the NCPC as required by the National Capital Planning Act. No environmental assessment had been prepared as required by the National Environmental Policy Act (NEPA). No public comment period had been offered.

This was the first major structural change to the White House complex since the Truman renovation of 1948–1952. The magnitude of this action — the total destruction of one-third of the White House complex — demanded the most rigorous review process available under federal law. Instead, it received none.

When the White House announced the project on July 31, 2025, it was described as a $200 million addition that would be "near" the East Wing "but not touching it" and would "pay total respect to the existing building." By October 22, the President contradicted this assurance entirely, stating that "in order to do it properly, we had to take down the existing structure." The American people were misled about the scope and nature of this project from its inception.

B. Circumvention of the National Capital Planning Act

The National Capital Planning Act requires that plans for construction on federal property in the District of Columbia be submitted to the NCPC for review and approval before construction begins. This is not a suggestion or a courtesy — it is a legal mandate established by Congress to ensure that the architectural character and planning integrity of the nation's capital are preserved.

The administration demolished the East Wing and commenced construction of the ballroom foundation before submitting any plans to the NCPC. It was only after a federal judge ordered the administration to file plans — in the context of a lawsuit brought by the National Trust for Historic Preservation — that the NCPC received any formal submission. The NCPC's information presentation did not occur until January 8, 2026, nearly three months after demolition began.

To allow this project to proceed retroactively is to validate the principle that any administration can destroy a National Historic Landmark first and seek approval later. This sets a catastrophic precedent for every historic property, park, monument, and federal building in the United States.

C. Evasion of NEPA Environmental Review

The National Environmental Policy Act of 1969 requires federal agencies to evaluate the environmental impacts of their actions and to involve the public in the decision-making process. The NPS ultimately prepared an Environmental Assessment (EA) for this project — but only after a lawsuit forced the issue, and only after the demolition had already occurred.

The EA itself has been widely criticized as inadequate. The National Trust for Historic Preservation called it "facially deficient, internally contradictory, and plainly designed to support a predetermined conclusion." Former NPS Director Jon Jarvis stated that "several steps have been left out" and that the destruction of one-third of a National Historic Landmark "is by definition a significant impact" that should have triggered a full Environmental Impact Statement (EIS), not merely

an EA.

The EA's own Finding of No Significant Impact (FONSI) contains a remarkable internal contradiction. It acknowledges that the project "will adversely alter the design, setting, and feeling of the White House and the grounds over the long-term," and that the 90,000-square-foot building "will dominate the eastern portion of the site, creating a visual imbalance." It further warns that construction vibrations "could affect the structural stability or finishes of the Executive Mansion and adjacent features." Yet it concludes there is "no significant impact." These findings are irreconcilable.

D. The Question of Congressional Authorization

Federal law requires that Congress authorize construction when it is proposed in any federal park in the District of Columbia. The White House grounds are administered by the National Park Service and fall squarely within this requirement. No congressional authorization has been sought or obtained for this project. The administration's argument that private funding negates the need for congressional involvement has no basis in the statutory text and, if accepted, would allow any administration to bypass Congress simply by soliciting private donations for construction on federal land.

E. The Section 106 Exemption and Its Implications

The National Historic Preservation Act's Section 106 review process requires federal agencies to assess the impact of their undertakings on historic properties and consult with relevant stakeholders, including the Advisory Council on Historic Preservation (ACHP) and the D.C. State Historic Preservation Office (SHPO). The White House, along with the U.S. Capitol and the Supreme Court, is technically exempt from Section 106. However, this exemption does not mean that the destruction of the East Wing was lawful or appropriate. It means that the existing legal framework has a gap — one that Congressman Jamie Raskin's "People's White House Historic Preservation Act" seeks to close by extending Section 106 jurisdiction to the White House and its grounds.

The fact that a legal exemption exists does not confer moral or civic legitimacy. The White House is the most recognizable symbol of American democracy in the world. That it falls outside the protection of the very law designed to preserve historic federal properties is a legislative oversight, not an invitation for destruction.

F. The Firing of the Commission of Fine Arts

On October 29, 2025 — just five days after the East Wing demolition was completed — the President terminated all six members of the Commission of Fine Arts. The fired commissioners were Bruce Redman Becker, Peter D. Cook, Lisa E. Delplace, William J. Lenihan, Justin Garrett Moore, and Vice Chair Hazel Ruth Edwards. They were removed via email from the Presidential Personnel Office, effective immediately.

The CFA is an independent federal agency charged with advising the President, Congress, and the city of Washington on matters of design and aesthetics. It was established by Congress in 1910 and has served as a guardian of the capital's architectural integrity for over a century. These commissioners were scheduled to review the ballroom plans. Their removal, and the administration's stated intention to replace them with members "more aligned with President Trump's America First Policies," represents an overt attempt to eliminate independent oversight of a presidential construction project.

On February 19, 2026, the reconstituted CFA — now composed of political appointees including a 26-year-old former White House receptionist — approved the ballroom design by a vote of 6–0. This was not an independent architectural review. It was a rubber stamp. The Commission limited public comment to written submissions shared "at the discretion of the CFA chairman," a highly unusual restriction that further undermined public participation.

II. DESTRUCTION OF AMERICAN HISTORY AND CULTURAL HERITAGE

A. The Historical Significance of the East Wing

The term "modernization" is a misnomer of extraordinary proportions. What has occurred is the systematic destruction of an irreplaceable piece of American history. The East Wing was not some ancillary outbuilding — it was a central component of the White House complex with deep historical roots.

The East Colonnade was originally designed by Thomas Jefferson and architect Benjamin Henry Latrobe to connect the Executive Residence with the grounds' eastern service areas. Jefferson's colonnades were integral to his vision for the White House as a working estate, and they have linked the residence with the East and West Wings for over two centuries.

The modern East Wing was constructed in 1942 under President Franklin D. Roosevelt, designed by White House architect Lorenzo Winslow. It served a dual purpose: providing expanded office space and concealing the construction of

the Presidential Emergency Operations Center (PEOC) — the underground bunker used during national security emergencies. The East Wing's family theater was integrated from Theodore Roosevelt's original coatroom, creating a space with connections to multiple presidencies.

For decades, the East Wing served as the office of the First Lady and her staff, including the White House Social Secretary, correspondence staff, and the White House Graphics and Calligraphy Office. First Lady Rosalynn Carter was the first to keep her own office there in 1977, establishing a tradition that every subsequent First Lady followed. The East Wing was a hub of social diplomacy and civic engagement — a working office space where the public's business was conducted.

All of this is now rubble.

B. The Jacqueline Kennedy Garden
The Jacqueline Kennedy Garden was one of the most beloved and historically significant landscapes on the White House grounds. Its origins trace to First Lady Edith Roosevelt, who established plantings on the east side of the residence. In 1913, First Lady Ellen Axson Wilson redesigned the space as the East Garden, featuring a modest central lily pond. This work was completed after Mrs. Wilson's death in 1914, making it a memorial in its own right.

The garden was formally redesigned in the early 1960s under the direction of First Lady Jacqueline Kennedy as part of her broader effort to restore the White House's artistic and cultural identity. It featured an I.M. Pei-designed pergola and served as an elegant outdoor venue for awards ceremonies, receptions, and cultural events hosted by first ladies of both parties for more than six decades. The garden was dedicated in honor of Jacqueline Kennedy in 1965.

Satellite imagery confirmed that by late October 2025, the Kennedy Garden had been completely torn up. Construction equipment and debris replaced the garden's trees, bushes, and the Pei pergola. This destruction was carried out without consulting the government commission established by federal law to ensure the preservation and integrity of government buildings in Washington, D.C.

C. Loss of Commemorative Trees
At least six trees that surrounded the East Wing were removed, including two historic Southern Magnolia trees originally dating to the 1940s. These magnolias were designated as commemorative trees for Presidents Warren G. Harding and Franklin D. Roosevelt. Commemorative trees on the White House grounds are living monuments to the presidencies they represent. Their removal was not a landscaping decision — it was an act of historical erasure.

While the White House Historical Association rushed to document photographs and obtain objects of historical value once they learned of the demolition plans, no representative of the U.S. National Park Service was able to confirm whether any of the plants or the pergola were being relocated.

Documentation is not preservation. Photographs cannot replace living trees planted nearly a century ago.

D. Architectural Incompatibility and the Violation of the McMillan Plan
The proposed replacement structure is approximately 89,000–90,000 square feet — nearly double the 55,000-square-foot Executive Residence itself. The NPS's own assessment acknowledged that "the new building's larger footprint and height will dominate the eastern portion of the site, creating a visual imbalance with the more modestly scaled West Wing and Executive Mansion." Adding a second story to the East Colonnade would change "the traditional spatial organization and sightlines of the grounds."

This fundamentally alters the architectural balance that has defined the White House complex since the McMillan Plan of 1901–1902 and the original 1792 design by James Hoban. The McMillan Plan, created by architects Daniel H. Burnham and Charles F. McKim, landscape architect Frederick Law Olmsted Jr., and sculptor Augustus Saint-Gaudens, established the architectural and planning principles that continue to guide development in and around Washington, D.C. The White House's relationship to its surrounding landscape and the proportional balance between its wings and the central residence are integral to these principles.

DC Council Chairman Phil Mendelson, an ex-officio NCPC member, has called the renderings of the structure "disturbing," stating that it appears to be "overwhelming the existing building." When the chairman of the DC Council describes the plans as disturbing, the Commission must take notice.

Out of respect for the White House's historic character, no substantive architectural changes had been made to the Executive Residence since the Truman renovation. The Committee for the Preservation of the White House, a

congressionally authorized body, must approve any modifications to the State Rooms to maintain the house's historical integrity. This project did not seek or receive such approval before destroying one-third of the complex.

III. FISCAL IRRESPONSIBILITY AND ETHICAL CORRUPTION

A. The Ballooning Budget

When the project was announced on July 31, 2025, the cost was estimated at $200 million. By October 2025, it had risen to $300 million. By December 2025, reports indicated the cost may reach $400 million. This 100% cost escalation in less than six months — before the replacement structure has even risen above ground — raises serious questions about financial management, planning competence, and eventual total cost.

There is no public accounting for how these funds are being spent, no competitive bidding process has been disclosed, and no independent auditing mechanism is in place. The American people have no way to verify whether this money is being spent responsibly, because the entire funding mechanism has been designed to avoid oversight.

B. The "Private Donor" Model: Corruption by Design

The project is being funded through private donations channeled through the Trust for the National Mall, a nonprofit philanthropic partner of the National Park Service. The Trust has confirmed it receives a 2–2.5% management allocation from each donation, meaning it stands to collect $8–10 million in fees from the ballroom project alone. This is an organization whose previous work involved marshaling volunteers to paint park benches — it has never managed a project of this scale or political sensitivity.

The White House has released a list of 36 donors, including 21 corporations and 15 individuals and family foundations, but has not disclosed how much each has contributed. The New York Times reported that the White House initially withheld the names of several donors, including BlackRock, Nvidia, and Jeff Yass — entities with major business concerns that could be directly impacted by administration decisions.

C. Corporate Donors with Active Federal Business

A review of the known donor list reveals a staggering concentration of companies with active business before the federal government. Corporations such as Amazon, Apple, Meta, Microsoft, Nvidia, Comcast, Lockheed Martin, Palantir, T-Mobile, and Union Pacific Railroad all have antitrust matters, regulatory proceedings, federal contracts, or procurement interests pending before the Trump administration.

Several ballroom donors — including Alphabet, Amazon, Microsoft, Nvidia, and Palantir — are major technology companies that stand to benefit from the administration's AI Action Plan. According to reporting by OpenSecrets, some of these donors were directly involved in shaping that plan. When companies that help write federal technology policy also make large donations to a presidential construction project, the appearance of corruption is unavoidable.

Columbia Law School Professor Richard Briffault has warned that "there is a concern that when companies give to a favored project of the president, they're going to get more favorable treatment in decisions about grants, contracts and procurement, regulation, enforcement or non-enforcement of existing rules." This is not hypothetical — it is the defining feature of pay-to-play governance.

D. Lobbying Disclosure Failures

According to an analysis by Citizens for Responsibility and Ethics in Washington (CREW), at least 23 reported contributors to the White House ballroom should have disclosed those donations as part of their regular lobbying disclosure filings. Only one company — Vantive Healthcare — actually did so. Companies including Lockheed Martin, Palantir, and T-Mobile failed to disclose. This systematic nondisclosure suggests that donors and their counsel understood these contributions to be politically sensitive and sought to minimize their public visibility.

E. The Anti-Deficiency Act and Congressional Bypass

Ethics experts have raised serious concerns that the private funding mechanism violates the intent of the Anti-Deficiency Act, which restricts government agencies from accepting unauthorized funding commitments. Federal Judge Richard Leon, who presided over the initial legal challenge, described the funding scheme as a "Rube Goldberg contraption" and said he saw "no basis" in the legislative history of the Park Service's gift authority that would allow it to be used to raise $400 million for a presidential construction project.

By routing hundreds of millions of dollars through a nonprofit intermediary, the administration has constructed a mechanism to build on federal property without congressional appropriation, without competitive procurement, and without the budget oversight that the Anti-Deficiency Act was specifically designed to enforce. Senator Elizabeth Warren and Representative Robert Garcia introduced the "Stop Ballroom Bribery Act" to address the apparent corruption, and

Democratic senators have warned of "quid-pro-quo arrangements in which large corporations get backroom favors from the White House."

The Trust for the National Mall has largely evaded congressional inquiries into the project, refusing to provide documentation requested by Democratic senators. When the intermediary managing hundreds of millions of dollars in politically sensitive donations refuses to answer questions from Congress, the project has crossed the line from questionable to indefensible.

IV. THE NATIONAL SECURITY ARGUMENT IS PRETEXTUAL

The administration has invoked "national security implications" as a basis for continuing construction and opposing judicial intervention. Justice Department lawyers stated in a February 2, 2026 court filing that they would appeal any halt to the project on national security grounds. This argument is transparently pretextual.

The Presidential Emergency Operations Center (PEOC) bunker beneath the former East Wing was a legitimate national security installation. But a 22,000-square-foot ballroom designed to seat 1,000 guests for state dinners, complete with a grand staircase, movie theater, and commercial kitchen, is not a national security facility. It is a social venue. The conflation of bunker reconstruction with ballroom construction is a rhetorical strategy designed to shield a vanity project from legal scrutiny.

If the PEOC required modernization, that work could have been accomplished without demolishing the entire East Wing, without building a structure nearly double the size of the Executive Residence, and without bypassing every federal review process designed to protect the public interest. The national security argument is not a justification — it is a smokescreen.

V. THE PROFESSIONAL COMMUNITY'S OPPOSITION

The American Institute of Architects (AIA), the nation's leading professional organization for architects, has been unequivocal in its opposition to how this project has been conducted. The AIA's advocacy includes:

A. An August 5, 2025 formal letter to the Committee for the Preservation of the White House with five key recommendations, including qualifications-based architect selection, adherence to historic preservation standards, full transparency, proportionality to the existing complex, and meaningful professional collaboration.

B. An October 24, 2025 statement expressing "deep concern" that the demolition "stands in direct contradiction to earlier public assurances," calling for a halt to further irreversible alterations and the publication of full project documentation.

C. More than 6,000 letters sent by architects to their members of Congress demanding an investigation into the destruction of the East Wing.

D. Ethics complaints filed against the project's architects, including a letter from 13 AIA members to James McCrery of McCrery Architects and a letter from 29 architects urging Shalom Baranes Associates to decline the commission on ethical grounds.

When the nation's architects are filing ethics complaints against the professionals involved in a federal construction project, it is a clear signal that the project has violated fundamental principles of professional practice and public accountability.

VI. THE DANGEROUS PRECEDENT

The implications of allowing this project to proceed extend far beyond the White House grounds. If the NCPC approves this project retroactively, it establishes the following precedents:

Any federal agency or administration can demolish a National Historic Landmark and seek approval after the fact.

NEPA environmental review can be conducted after demolition is complete, rendering it a meaningless formality.

The NCPC's own authority is optional, not mandatory — agencies may bypass it and return for post-hoc validation.

Independent review commissions can be fired and replaced with political loyalists to ensure favorable outcomes.

Congressional authorization and budget oversight can be circumvented through private donor schemes.

Corporate entities can make large, undisclosed donations to presidential construction projects on federal land without triggering conflict-of-interest protections.

Every one of these precedents weakens the rule of law and the system of checks and balances that protects American public property. If this can be done to the White House — the most visible and symbolically important building in the country — it can be done to any federal building, any national park, any historic site.

VII. DEMANDS
Modernization does not require destruction. Security upgrades do not require a 22,000-square-foot ballroom. The People's House is not a private estate to be renovated at the whim of its temporary occupant. I respectfully but firmly demand that the National Capital Planning Commission take the following actions:

Reject the Current Plans: Deny approval for the 90,000-square-foot ballroom and associated construction. The project's procedural violations alone are grounds for rejection, independent of its architectural and ethical deficiencies.

Mandate Immediate Construction Halt: Order the cessation of all construction activity on the site until lawful review processes are completed in full, including a proper Environmental Impact Statement and congressional authorization.

Require Reconstruction of the East Wing: Mandate the reconstruction of the East Wing and East Colonnade to their former architectural specifications, using historical documentation, photographs, and the records preserved by the White House Historical Association.

Restore the Jacqueline Kennedy Garden: Require the full re-establishment of the Jacqueline Kennedy Garden, including the I.M. Pei-designed pergola, and the replanting of commemorative trees as a matter of national priority.

Refer for Investigation: Refer the procedural violations in this matter to the appropriate congressional committees and enforcement bodies for investigation, including the unauthorized demolition, the absence of NEPA compliance, and the questionable legality of the private funding mechanism.

Require Full Financial Transparency: Demand the public disclosure of all donor identities, donation amounts, competitive bidding records, and financial accounting for every dollar spent on this project.

CONCLUSION
The White House belongs to the American people. It is held in trust by each President for the duration of their term, to be passed to the next occupant and the next generation in the condition they received it or better. No President has the right to demolish part of the White House complex, circumvent federal review processes, fire independent oversight commissions, solicit hundreds of millions of dollars from corporations with pending federal business, and then present the result to the public as a fait accompli.

The East Wing Modernization project is not modernization. It is demolition, self-aggrandizement, and institutional corruption, executed under the false pretense of national security and shielded from accountability by a funding mechanism designed to evade congressional oversight.

American history is not a real estate asset to be flipped or "modernized" at the whim of an individual. The laws that protect our shared heritage exist for a reason. The review processes that govern construction on federal property exist for a reason. The independent commissions that provide expert oversight exist for a reason. Every one of these safeguards was violated or circumvented in the execution of this project.

I call upon the National Capital Planning Commission to fulfill its statutory mandate, reject this project, and send a clear message: no one is above the law, and the People's House is not for sale.

Respectfully submitted,
Michelle Goodson

Hello,

I am writing to oppose the current plans for the East Wing Modernization Project. The current project needs to be stopped immediately and undergo multiple complete and independent reviews to ensure that the project is in keeping with the law, any environmental assessments, and has secured Congressional approval.

In addition, in terms of design the current scale of the East Wing Modernization Project is a monstrosity and not fitting with the current design of the White House complex. No "Wing" of the White House should overshadow the main building, the People's House. This project and the selection of its architect and final design, should be run in a similar manner to the selection of the Vietnam War Memorial - via a national, anonymous competition and left up to public vote. The final selection should be up to the American people.

Any future planning for this project should include input from historians and preservationists to maintain the style and integrity of the White House complex. It should follow proper review periods, authorizations, permits, and procedures while respecting environmental assessments, public comments, and congressional debate and ratification. Any funding for this project should be fully transparent to the American people. Donors and amounts should be publicly listed.

Please stop the East Wing Modernization Project.

Sincerely,

Karen Nystrom

Without proper study, without authorization, and without any input, a significant piece of our American heritage has been torn down to satisfy a megalomaniac’s desire to put his name on everything possible in an attempt to secure himself a place in history.

The East Wing of the White House was a beautiful and significant part of our architectural history.

Please vote to have the East Wing restored to its former condition using the money that Trump supposedly raised to build his ballroom.

Thank you

The White House is one the three most important buildings in the United States. It has been a symbol of our presidential federal republic and our rotating executive. The building and the office of president are greater than any one person. However, the proposed plan to dramatically alter and enlarge this public building, and how it represents our republic, is a testament to the grandiose selfish greedy self-promoting vanity of one man, a felon who models the worst of the seven deadly sins. This expansion should be opposed in its entirety.
The design is overly large, disproportionate to the original structure and incomplete in its details.
Furthermore, the process by which this expansion has been thrust upon the American people illustrates the depraved ways in which this felon believes he is above any law, custom, rule or practice. Why did he authorize demolition without following any of the rules, regulations and practices for any federal construction project, let alone one to such an importantly historic structure? Why rush to do this work without fully assessing the impacts: historical, structural, environmental, architectural or political? Everything about this project to date has been wrong.
It’s too late to return the building to its former glory, but at least we should take the time, care and patience to make sure the renovations are appropriate, respectful, and legal.

This "modernization" is a travesty in naming and in deed. It has no place in relation to the existing building and is merely a crass projection from the fevered dreams of the current occupant of the White House.
Instead of a space that accommodates actual work for the people he purports to serve it is in fact a monument to himself, bloated, grandiose, obscene. A playground for a gilded toddler and no more.

I am an eighty year old Army veteran who grew up believig intensely in this country and the idea of the balance of powers. Now Inrealize it all just depended on common sense decency that apparently is completely lacking in the executive, judicial, and half of the legislative branches of this country. The White House belongs to all of us, and its defacement makes me nauseous. And I am still further sickened by the idea of sticking some large and tasteless ballroom onto the classic building, destroying completely the architectural harmony of a building that has such important symbolic significance. How could this have been permitted. It is an absolute travesty! The destruction must be stopped. Please, anyone with any power, do whatever you can to clean up the mess that has been made and restore our White House to its original aspect.

Name: Katherine Frost
Date: February 19, 2026 7:20:34 pm

I am appalled that anyone can demolish an historical building without first seeking approval and permits. Please end this type of inappropriate action by holding the perpetrators liable for the damages. And please do not all the construction of a ballroom. It is totally unnecessary and is just a vanity project which should never be allowed.

Name: Ronni Krasnow

I adamantly oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. As with the Philadelphia slavery display at the Washington house, this administration seeks to erase our precious history, our progress and the role of citizens in our government. The East Wing of the White House belongs to the citizens of this nation. I want this project canceled. I want the East Wing rebuilt and restored to its former design. No one is above the law. To permit this project to continue without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: William Gade
Date: February 19, 2026 7:27:03 pm

I strongly oppose the “modernization” project as currently proposed. I urge the commission to reject the proposal until all legal processes are followed and completed. The be illegal demolition of the existing century old wing was despicable

and is no excuse to further disregard legal processes for a grotesque glamour project. The private funding is a serious conflict of interest. Thank you for rejecting this trashy proposal.

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history.

The White House is a National Historic Landmark and a National Park, owned by the American people and home to presidents since 1800. The current president at any given time is not the owner of the property or the structures thereon; the president is a temporary tenant whose interventions are limited by law and by respect for the people of the United States.

The demolition of the historic East Wing without review, without permits and without Congressional oversight is clearly a violation of the law. In addition, it is a violation of the trust of the American people who were given no opportunity to comment on what should have been presented as a proposal and not as a violent fait accompli.

I urge the National Capital Planning Commission to require reconstruction of the East Wing in keeping with its historic design and size. Anything constructed on the demolition site going forward must be compatible in form and subordinate in scale to the original structure of the Executive Mansion.

Name: Patrick Temple
Date: February 19, 2026 7:30:13 pm

East Wing Modernization is laughable if I wasn’t lamenting the hubris that pushed the project forward without the expressed will of the people.
To tear down this historic structure without shared vision of this national treasure is simply abysmal. Shame!
At the same moment we are slashing essential infrastructure we are erecting this phallus.

Name: Judith Ciancio

This is outrageous! This is a democracy in the United States, not a Monarchy!!! There should be consequences and reimbursements demanded from this ridiculous excuse for a president.

Name: Judith Palmer
Date: February 19, 2026 7:31:39 pm

It is an outrage that part of the people’s house was torn down without any consent of Congress or the people. If it is allowed to go forward to completion, it will remain an embarrassment to the nation and a reminder of the misdeeds and greed of the current administration, a group unmatched for corruption and destruction of our countriy.

Name: Jeanne Cunningham
Date: February 19, 2026 7:31:50 pm

I assume this includes 47's vanity project ballroom. I am glad the National Capital Planning Commission has gotten involved with the plans for this monstrosity. It is a crying shame that we were not able to forestall the destruction of the East Wing. I don't know how one man's ego can destroy our National historic buildings with no oversight or approval. That is "The People's House" and he has no right to destroy any part of it. Adding a gilded "palace" that will dwarf the White House itself and is supposedly funded by billionaire buddies should be illegal. This is corruption on a major scale. And if it is the taxpayers who are footing the bill, that is a crime in itself. And then there's the matter of good taste, of which he has none. PLEASE stop him from doing any further damage to the White House, the White House grounds, The Kennedy Center, the view from Arlington Cemetary to the Capitol Building (with his arch), or any other property that he does not own outright.

Thank you for looking into this. I hope you can stop him before more damage is done.

This ballroom is a travesty. It is too large , it will dwarf the Whitehouse. It is tacky and embarrassing. The east wing was an historic part of the Whitehouse, built with consideration of esthetics and proportion. Where was the public comment period before the wrecking crew arrived? How was the trust for historic preservation kept out of the loop? Stop this ridiculous edifice to one man's warped ego!!! And please find a way to stop his trashy remodeling within the Whitehouse itself. The Lincoln bathroom now looks like a cheap one day bath install makeover. Oh, and I am pretty sure he intends to rip out the west wing as well. Please Stop This!!!

I am writing to respectfully express concerns regarding the proposed modernization of the White House East Wing. Preserving historic federal buildings is an important responsibility, and I recognize that maintenance and security updates are sometimes necessary. However, given current fiscal pressures and competing national priorities, it is reasonable to carefully evaluate whether this project represents the best use of taxpayer funds at this time.
Across party lines, Americans consistently express concern about federal spending and the national debt. Regardless of administration or political leadership, large-scale renovation projects at executive facilities can raise understandable questions about timing, cost control, and public benefit. Transparency around the full projected cost, scope, and long-term necessity of this modernization effort would help build public trust.
Many communities continue to face pressing needs that could benefit from additional federal investment, including:
Strengthening local healthcare systems and mental health services
Supporting veterans and military families
Investing in workforce training and education pathways
Repairing aging infrastructure such as roads, bridges, and water systems
Improving disaster preparedness and resilience
Each of these areas enjoys broad bipartisan support because they directly impact families, economic stability, and national security.
A careful review of whether the East Wing modernization can be scaled back, delayed, or phased in over time may demonstrate fiscal responsibility while still preserving the integrity of federal facilities. Thoughtful prioritization is not about criticism—it is about stewardship.
At a time when many Americans are budgeting carefully in their own households, federal decision-makers have an opportunity to model similar prudence. I respectfully urge consideration of whether this project is essential at this moment and whether available funds could deliver greater public benefit elsewhere.

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled. I want all the protocols and procedures that were ignored to be re-instated. I want oversite of the rebuilding f the people's house! I am appalled at this unilateral action and plan.

Name: Dana Mies
Date: February 19, 2026 7:36:30 pm

This administration should never have been allowed to tear down the historic East Wing in the first place. I see two choices. 1. Do not build anything, just fill the hole and spend these taxpayer dollars making sure the needs of everday Americans are met. 2. It should be rebuilt as it was, no additional square feet needed. Rebuild it with care given to historic detail. Restore the Rose Garden. Add a memorial or exhibit within that honors the hands that built it and the

original Whitehouse and wing. The American people do not need a gilded ballroom, it is a waste of taxpayer dollars. Financial fraud has been committed, abusing the rights of the American people.

Thank you for the opportunity to share my opinion on the East Wing Modernization Project.

It is highly distressing to see the East Wing of the White House, The PEOPLE"S House, demolished without proper authorization. That, however, is a fait accompli. As to the modernization project, I believe the current design as presented by the president is inappropriate. The East Wing Modernization is outsized as compared to the original White House. If a

'ballroom' is indeed needed, which in itself is highly questionable, the design should be aesthetically balanced and complementary to the main White House building, not the monstrosity currently envisioned by some. The design should be something that blends in with the surrounding buildings and property. I do not believe the president is qualified to make design decisions, nor do I believe it is his prerogative to do so. I believe all decisions should be made by the appropriate commission in an effort to rectify the destruction of the East Wing in the way most beneficial to the needs of the country, not an individual's ego.

There is no longer an East Wing. It has been erased. The proposed ballroom project is a grandiose vanity project . With many Americans struggling to eat it's a slap in the face of our citizens.

Name: John Lopez
Date: February 19, 2026 7:57:16 pm

Mr. Trump should be prosecuted to the fullest extent of the law for destroying federal public property. He should be required to pay for research on what kind of building space is most needed (not a ballroom) and for the actual costs of building a state of the art, carbon neutral, environmentally friendly building that serves as a model for the rest of the world of what can be done. Then Trump should be imprisoned. If he dies before he pays for everything, his estate and family should still bear the full cost of undoing the damage he has done.

Name: Dane Johnson
Date: February 19, 2026 7:57:34 pm

No... just no. Not wanted, not needed, not necessary.

Name: Joyce Meier
Date: February 19, 2026 7:57:38 pm

I support the restoration of the East Wing of the White House, as an important historic space. It was destroyed without full approval or connection with the appropriate preservation authorities. It was a beautiful building, that embodied our country's history, and should be restored.

Name: Craig Calsbeek
Date: February 19, 2026 7:58:18 pm

I am writing to express concerns regarding the procedural handling and historic preservation review of the proposed East Wing Modernization Project.

As a member of the public with an interest in responsible governance and preservation of historically significant resources, I respectfully request clarification on the following matters:

1. Compliance with Established Review Procedures

Large-scale public projects typically undergo established review processes to ensure transparency, accountability, and compliance with applicable laws and regulations. These may include environmental review, public notice and comment periods, consultation with preservation authorities, and interagency coordination.
• Were all required statutory and regulatory steps completed prior to project initiation?
• Was the public provided adequate notice and opportunity for meaningful input?
• Were relevant oversight bodies formally consulted?

Clear documentation of procedural compliance is essential to maintaining public trust.

2. Historic Preservation Obligations

If the project affects a structure, site, or landscape with historical significance, federal and local laws generally require formal evaluation and consultation before alteration or demolition. These reviews often assess cultural, architectural, and historical value and consider alternatives that would avoid or mitigate harm.
• Was a formal historic preservation review conducted?
• Were independent experts consulted regarding the significance of the affected resource?
• Were preservation alternatives explored before irreversible action was taken?

Historic assets serve not only as physical structures but as shared public memory and civic heritage. Their treatment warrants careful and deliberate consideration.

3. Transparency and Documentation

For projects of substantial scope or public impact, full transparency regarding decision-making processes, timelines, and approvals is critical.

I respectfully request that all relevant approvals, reports, consultations, and findings be made readily accessible to the public before your approval.

In closing, my concern is not opposition to development or renovation per se, especially since the Trump Administration has already demolished the East Wing but rather ensuring that public institutions adhere to established legal frameworks and preservation standards designed to protect shared heritage and public accountability.

I urge you to carefully review whether the appropriate procedures were followed and to take any necessary steps to ensure compliance before further action proceeds.

Thank you for your attention to this matter.

Respectfully,
Craig Calsbeek

Date: February 19, 2026 8:00:14 pm

What a tragedy this is for our nation. You must say no to the destruction of this treasured building. Trump must pay to have the East Wing reconstructed to its original building, once it’s buueho will pay for his grand scale dinners!

Name: Lori Isabella
Date: February 19, 2026 8:01:40 pm

I wish to express my opposition to the current plan to build a $300M ballroom on the site where the East Wing of the White House stood. This project was undertaken without proper review or approval. The proposed scale and design of the new building will be incongruous with Executive Residence and West Wing of the White House. I believe the best course of action is to rebuild the East Wing following the original plan and design in order to restore the White House, The People's House, to its historic beauty.

Name: Patricia Kirtland
Date: February 19, 2026 8:02:17 pm

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding citizens.

Name: Lisa Murphy
Date: February 19, 2026 8:03:51 pm

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding United States citizens.

Name: Sue Cowan
Date: February 19, 2026 8:05:03 pm

I oppose the spending of $300 million + on this project, which was initiated without the proper authorization permits, or design review. It is not a modernization project, but rather a complete razing of American History. I want this project canceled, and the East Wing rebuild and restored to its former design. The cost should not be born by the taxpayers, since we have had no voice until now in the disposition of the people's property. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans. As I understand there was no concern about the possible hazards of asbestos and other contaminants as the East Wing was just demolished without permission. The proposed "ballroom" is not in line with the rest of the White House structures and should not be larger than the White House itself. I object.

Name: Alison Starkey
Date: February 19, 2026 8:05:46 pm

I believe the $400 million demolition and reconstruction of the White House East Wing is deeply problematic. Critics, including myself, are concerned about the destruction of a historic structure, the lack of transparency in planning, and the excessive cost. While the White House defends the project by citing structural decay, mold, and water damage in the

original wing, I’m not convinced that this justifies such a drastic overhaul. Preservationists, like the National Trust for Historic Preservation and historian Douglas Brinkley, have compared the project to "slashing a Rembrandt painting," and I agree that it risks damaging the White House’s historic integrity. The fast-tracked demolition, which began in October 2025, was done without sufficient public review, and this raises serious questions about the process. Even with the justification that it’s more economical than renovation, the project’s $400 million cost feels excessive, especially when some are calling it a "vanity project." While officials argue that structural issues, such as an unstable colonnade and water leakage, make rebuilding the only viable option, I still question whether that justifies the scale of the new construction. Lastly, there are health and environmental concerns, particularly regarding asbestos, which the Asbestos Disease Awareness Organization has raised, and these need to be addressed carefully.
A believer in properly caring for our Historic Properties

Trump had no authority to go around the American people and destroy OUR house. All of his designs and remodels to date are gaudy and not in line with the history of the White House nor what the building represents to the world. The East Wing should be rebuilt to prior specifications and Trump should pay for it from his own corrupt pockets. His proposed ballroom will dwarf the most important building in our country and relegate the main building to an afterthought. This disgrace must not be allowed.

I am appalled by the illegal demolition of the East Wing of my White House and the building a guilded ballroom in its place. A part of our US history was destroyed. Hold the guilty parties accountable.

Name: deborah schoenbeg
Date: February 19, 2026 8:16:15 pm

Dear Commissioners,

I am opposed to the East Wing Modernization project for various reasons including failure by the administration to conduct NEPA, public scoping, and consultation with Historic Preservation officials. I oppose the spending upwards of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design.

I understand the need for sufficient space for gatherings, but this proposal is excessive, overly flamboyant and does not represent the "People" and citizens of this country. It represents the ego and tastes of a narcissist out to create a personal legacy. The design and construction are not in the public's interest and reflect the President's belief that he will be around for a long time to enjoy it.

Putting politics aside, the project has blown off all checks and balances designed to keep the public's interest at the forefront. The historical East Wing is gone, without so much as a "may I?". The requirements, oversight and protocols that are in place to protect historic spaces were clearly violated and ignored. This review may only be a cursory checking of the box since the new construction has already been approved, but I want my voice on the record as opposed in large part to the grandiosity of the proposal, the treatment of the People's house as a private property rather than a public space and institution, and a complete disregard for processes and protocols in place by law designed to maintain our country's historical legacy and architectural aesthetic.

Name: Barbara Gugliotti
Date: February 19, 2026 8:22:05 pm

I just learned that the US Commission of Fine Arts (CFA) approved the concept plans for the proposed White House ballroom today, and then, in a second vote—without any advance public notice—also approved the final plans.

This strongly suggests that the CFA did not engage in serious design review, and is a blatant violation of CFA's process to consider the views of the American people to whom the White House belongs, including the over 2,000 comment submissions expressing opposition to the current design and offerings of suggestions for improvements.

I AM OPPOSED THE RENOVATIONS TO THE EAST WING OF THE WHITE HOUSE, particularly the manner in which those serious structural modifications were begun without following due process.

Let me remind you that the White House is the "People's House" and that the current resident is does not own it. The "landlords" (the American People) must be consulted, and the historic integrity and symbolism of our Nation must be conserved.

Name: Sandra Borneman
Date: February 19, 2026 8:22:18 pm

The White House is 234 Years old. A Historical foundation to this country. Nothing should be done without first getting approval from the people and seeking aid from the National Historical Society. The president did not obtain permits, submit a design, or contact the Historical Society.This project is not a national security as he is claiming. It needs to be cancelled and the East Wing restored.
When will this president be stopped from doing more damage?

The rose garden was 113 years old and by his whim is now is a slab of concrete. It was started during the Wilson term and updated by Jacqueline Kennedy. Approval was not sought and plans were not given. Please CANCEL the East Wing Modernization Project.

Thank you

Name: Laurie Brown
Date: February 19, 2026 8:23:25 pm

Dear Commissioners,
Please do not spend 30 million dollars on an oversized, gilted, Versailles - like edifice on the grounds of the White House. We, the people want a beautiful yet modest East Wing which embodies the foundation of this wonderful experiment, Democracy. We, the people do not want to be characterized as a nation catering to faux-Royalty with all the trappings of that societal distinction. Our White House should demonstrate that we respect our leader by giving him a well-turned abode, but not a palace. The East Wing was destroyed before any democratic processes had been tended to. The person who blatantly walked all over and dismissed all norms in the redesign of a national building should be fined and jailed rather than be rewarded with an extravagant party palace.
I thank you for your consideration, Laurie Brown, American Citizen, Patriot, tax payer, and person of taste.

Name: Laura Leany
Date: February 19, 2026 8:23:59 pm

I am opposed the the current proposal for the East Wing Modernization Project (Ballroom). One of my biggest concerns is the lack of transparency and potential grift in the funding, costs, and contracting related to this huge project, with the actual cost continually increasing. That cost doesn't even include the recurring costs for heating, utilities, and upkeep that will probably ultimately fall on taxpayers. I am also concerned about the demolition without permits or oversight. What does that mean for other potential "cut corners" that would result in additional repair costs down the road.

I am concerned that the scale will dwarf the actual White House and conflicts with the symmetrical ascetics of this design style. I know there is talk of adding to the West Wing, but how will that be funded and won't that dwarf the White House even more. We must preserve the history and national symbols in any modernization of our countries landmarks and historical buildings.

The scale of the ballroom is much to large for the majority of events that would happen there. It seems to be more about power and control than what is really best for the country and its needs. And comes back to the costs to build and maintain such a huge space for extremely rare needs that could be met in other ways.

This major project cannot be compared to adding a basketball court, small pool, or garden. The decisions made must uphold the democratic principles, oversight, and laws in place. We must not allow decisions made now to tear apart the legal oversight and checks and balances built into our constitution and country's principles and governing rules.

Name: Roger Fain
Date: February 19, 2026 8:24:56 pm

This project is faulty in many ways, including its scale and design. The White House grounds are public property, and do not belong to the president. The fact that no attempt was made to secure a review by qualified people, or to gain agreement from those responsible for determining a project's value, indicates that the people behind it knew it was not likely to pass muster. This is not a good place to live by the philosophy of asking for forgiveness rather than permission.

Furthermore, it is likely to be subject to further lawsuits because the expenditures have not been approved by Congress. Even though it is supposedly being paid for by donations, these moneys should first be deposited with the Treasury and then the expenditure should be approved by Congress, to be consistent with constitutional principles. The money should also be in hand before the project goes any further, so that we don't wind up in a situation where the project is unfinished, and the "donation" money was either never donated, or has run out.

In addition, the building will sit empty and unused for most days of the year, but will still require heating and air conditioning. We should know how much these costs will be, as they will not be paid for by donations, nor will maintenance of the building in the future. If it is necessary for the White House to have space for large events, it would be prudent to explore other locations before building something that is likely to be torn down in the future.

I would encourage the Commission to support the current plans for the Ballroom addition to the White House complex. As an educated and practiced Architect, Designer and Artist, I believe that the addition is long over due and the current renderings that have been released to the public integrate nicely into the site and into the Architectural style of the current buildings. Thank you.

Name: Kathleen Doyle
Date: February 19, 2026 8:26:59 pm

Gentlemen:

I find the destruction of the historic East Wing of the White House to be a travesty. I oppose spending over 300 million dollars on a project which was begun without proper permits, design review or authorization. This is not a modernization project but rather the destruction of American history. I want to see this project stopped and the historic East Wing restored to its original design.

Name: Martha Katz-Hyman
Date: February 19, 2026 8:29:03 pm

Although I understand that a large event space is necessary for a modern presidency, the destruction of the East Wing in the manner it was performed was totally unnecessary and potentially hazardous to the wider Washington community. Its proposed replacement with an overly-large and ornate building that has not gone through the independent review that is required and which completely overpowers the White House itself is a poor decision that does not honor the historic building nor the people who have lived there for over 200 years.

Name: Gabriel Fontes
Date: February 19, 2026 8:29:23 pm

As someone with a degree in architecture, I strongly oppose the proposed White House ballroom. The scale and siting of the building are deeply problematic—its massing overwhelms the historic character and proportions of the White House rather than complementing them. A structure of this size risks diminishing the architectural integrity and symbolic prominence of one of the nation’s most important landmarks. Any addition to such an iconic site should be subordinate, sensitive, and contextually appropriate—this proposal is none of those.

Name: Beth Touomou
Date: February 19, 2026 8:30:11 pm

I’d like to go on record opposing the East Wing “modernization” project in the strongest terms. This $300 million vanity project is rife with corruption and driven by personal egos. The Trump administration’s insistence on defiling our institutions and our history must be stopped. This isn’t modernization, it’s the destruction of our history. This project must be stopped and the East Wing must be restored. The people who launched this, without permits or consultation, have broken the law, it’s time for the grownups in the room to step in and stop this fiasco. Thank you

---

Name: Maureen Kaczanowski
Date: February 19, 2026 8:31:03 pm

This project must not continue. It was started without proper procedure or approval. It is an affront to the American people. It must be returned to its original design, paid for by those who ordered and performed its destruction.

Name: Maribeth Davis
Date: February 19, 2026 8:31:33 pm

The historic East Wing of the White House was destroyed without following the proper processes and laws or even ensuring that valuable artifacts and human health would be protected (missing items and clouds of asbestos). The plans to build a colossal ballroom that would dwarf The People's House are undignified and destroy this iconic site's classical design and balance. The president is not a king and the White House is not a palace. Please restore the East Wing to its original beauty and proportion while improving its safety and accessibility.

Name: Jean Tanner
Date: February 19, 2026 8:32:16 pm

I remember our family making a trip to Washington, DC years ago when the kids were young. We saw the Washington Monument, the Lincoln Memorial, the Jefferson Memorial, and Capitol Hill. All in one day, it was a lot of walking. But our first stop was the White House. I remember how proud I felt, seeing it in person for the first time. And now President Trump wants to overshadow the People's House with a ballroom.
The destruction of the East Wing and construction of a ballroom is not a project for the President of the United States to create and implement solely on his whim. The White House belongs to the people of the United States. The President, any President, is a tenant with a lease of no more than 10 years, according to the US Constitution. If you rent a house, you cannot tear down the garage and make plans to build a dance studio without getting approval from your landlord, and then whatever approval your city requires. Therefore, any major demolition or construction project which drastically changes our House must be approved by the people of the United States.
While I realize that a nationwide election on blueprints is not a realistic plan, the destruction of the East Wing and the construction of a ballroom should have been approved by a bipartisan group elected by the people of this country, not by presidential appointees who serve at the behest of their appointer. I've heard the argument that, because the United States is the greatest country in the world, we need the greatest ballroom. The true measure of the greatness of any country is how its government treats its citizens. Our government needs to respect the concerns of its citizens with regard to this project, something that wasn't shown with the destruction of the East Wing. No ballroom is more important than the White House, and its design should not overshadow the White House in scale, scope, or design. No major changes to the White House and grounds, especially the exterior, should be made without the approval of those who consent to be governed by any administration. President Trump may live there, but the White House is not his property. He needs to show respect to those who allow him to reside there for the next three years.

Name: Scott Kirkwood
Date: February 19, 2026 8:32:52 pm

I'm horrified at the changes being made to the White House. Donald Trump is a temporary resident, and he has no authority to make drastic alterations to the People's House. This is illegal, unethical activity fueled by corporate donations which will clearly demand a quid pro quo, and it must be stopped--and reversed--immediately.

Name: Beth Pimenta
Date: February 19, 2026 8:33:11 pm

I oppose the approval of this project which should never have been started without proper authorization. I live in a historic town and we are not able to make any changes to the exterior of our homes without approval by the historic committee. The White House belongs to everyone. No one should be able to unilaterally take such a tremendous step without congressional approval at the very least. The person who gave the order to demolish this portion of history should be made to build it back as it was with his own money. As I said before, no one is above the law. Allowing this to go through is a slap in the face to the rule of law which is absolutely required to support our Repuplic.

Name: Judy Meier
Date: February 19, 2026 8:35:42 pm

I oppose the spending of $300 million on the East Wing Modernization Project which was undertaken without proper authorization, permits, or design review. The razing of the East Wing was a crime and it should be rebuilt and restored to its former design at the personal expense of Donald J. Trump. The president has no respect for the People's House which should not under any circumstances be subjected to his personal desires at the expense of American citizens.

Name: Matthew Stevenson
Date: February 19, 2026 8:36:00 pm

I think the east wing should be restored to how it was before Trump destroyed it without public approval. No ballroom is necessary.

Name: Henrietta Southam
Date: February 19, 2026 8:36:15 pm

The volume, height, width, location of the proposed new East Wing are completely out of whack. The driveway should not be touched. The wing should not be bigger than the White House. The wing could be perpendicular but attached in the middle of the mass so as not to overshadow the WH.

This is a Folly, and no matter how you dress up this travesty of a renovation, the Emperor will still have no clothes.

Name: Megan Clark
Date: February 19, 2026 8:38:00 pm

This renovation is a destruction of American history and a waste of tax payer funding. Trump’s legacy will be the demolition of American values, as clearly demonstrated through his destruction of our national buildings.
Do not let this rebuild continue to sap taxpayer funds and distract the American people from the corruption and criminal activities of which the president is guilty.

Name: Kelly Ground
Date: February 19, 2026 8:41:11 pm

Greetings,

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history.

I want this project canceled, and the East Wing rebuilt and replaced according to existing law and oversight including public comment. The funding for this should also adhear to the law and be approved by congress. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.
The current administration has side stepped all current law and destroyed a historical landmark. The replacement proposal is out of line with the desired balance and review of all historical government buildings and is a monstrosity.

Please consider the american people and deny any further implimentation of this criminal project.
In solidarity
Kelly Ground
American Citizen

Direct decendants of Irish, German and English immigrants and a patriot who didn't participate in the riot in the plot to overtake the US government on January 6th.

Name: Martha Dyck
Date: February 19, 2026 8:41:35 pm

I oppose the reconstruction of the White House. The razing of the East Wing was done illegally and without Congress or Senate approval.

Name: Jessica Spencer
Date: February 19, 2026 8:42:41 pm

The National Capital Planning Commission site states:“Before nationally significant places are permanently altered, the public deserves an opportunity to be heard and to help shape decisions that affect our shared national heritage.” However, we were robbed of that opportunity when the East Wing of the White House was torn out in a violation of the public trust. I am strongly opposed to this petty vanity project that has come at the unceremonious destruction of the People’s White House. Not only did they not take time for public comment, but it also appears that they did not take precautions against toxic waste from asbestos, lead and other harmful substances in the historic structure. I would ask that proper remediation be done on the site, as well as anywhere that the debris is being stockpiled (at the East Potomac Golf Links). I oppose spending $300 million on a project that was not properly permitted or authorized. This violation of the public trust will not stand and the project must be cancelled and the East Wing rebuilt. That is the only acceptable solution. No one is above the law. This is not one man’s house to remodel. It is OUR house and allowing this project to move forward without consequences for those who destroyed the East Wing would be a slap in the face to all law-abiding citizens.

Name: Judy Last
Date: February 19, 2026 8:43:15 pm

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. Name: Fran Drake
Date: February 19, 2026 8:45:26 pm

First, let me say that true American patriots who love our country are devastated by the destruction of the old East Wing.

There are really no words. It is heartbreaking.

Put is back just like it was. No one wants a whore-house inspired ballroom for a dictator.

Name: Nancy Tisdale
Date: February 19, 2026 8:45:47 pm

The White House is the people’s house. It is NOT Trump’s house. It is his temporary residence and office. The East Wing should maintain the footprint, history, and dignity of the White House. It is a historical building and should reflect that historical style.

Thanks.

Name: Cindy Clark
Date: February 19, 2026 8:46:20 pm

This "public comment" should've been done before the East Wing demolition! And going forward the decision must be reviewed by an unbiased panel not one that was entirely selected by Trump. All comments should be made available and viewable online. I'm definitely against the ballroom. The design dwarves the historic White House. Put the East Wing etc back, bill the construction to Trump and make sure he pays for every penny!!1

Name: LYN Fletcher
Date: February 19, 2026 8:48:02 pm

I am against this ostentatious ballroom to be attached to the White House. It can be built elsewhere. But the east wing should be restored in its outside appearance to maintain the visual balance of the original building. Adding more working space (offices, SKIFF, secure room) in a basement floor would be useful and acceptable. I understand that antiques and art were not removed before the demolition of the east wing. If this is true, then the President should compensate the People for what was destroyed and be fined.

Name: David Gauld
Date: February 19, 2026 8:48:15 pm

Please stop the desecration of the people’s White House by this vulgarian. It is hugely over scaled.

Name: Kathleen Manzo
Date: February 19, 2026 8:51:08 pm

I object to the architecturally and historically inappropriate plans for building a massive ballroom in place of the illegally demolished East Wing of the White House. This is the People's house, not Donald Trump's next real estate development project. Any plans for rebuilding should restore the East Wing in similar scale and style. The White House does not need a ballroom for the rich to gather as they continue to buy our government and seek even more favorable tax and revenue opportunities on the backs of working Americans. Stop the vandalism of our national treasures.

Name: Richard Brown
Date: February 19, 2026 8:51:35 pm

I am TOTALLY again the plan to replace the East Wing of the White House with a ballroom no matter who pays for it. The President had no right to destroy the East Wing without proper approvals from the commissioners and Congress. His plan to put a 26 year old lackey with no experience or applicable knowledge in charge of a commission is blatantly counter to what a responsible official would do.

Name: ALISON TRUMBULL
Date: February 19, 2026 8:52:18 pm

The destruction of the East Wing and construction of Trump's ballroom is an insult to American history and the American people. It shows no respect for the history of the building or that it is not Trump's house, it is not the president's house, it is The People's house. It is also a disgusting waste of money and time. It is a perfect symbol of the disrespectful cult of personality that IS this administration.

Name: Pamela Ruediger
Date: February 19, 2026 8:54:05 pm

The East Wing Modernization is an egregious, disgusting betrayal that must be stopped and those responsible must be held accountable financially, esthetically and morally responsible as well as being forced to rebuild at their own expense!!

Name: Karen Sheehan
Date: February 19, 2026 8:54:53 pm

I have seen the plans for the Ballroom and am shocked that it is of such a large scale, as to eclipse the actual White House. The historic office and residence of the United States President should be respected and allowed to shine without an extension that would overshadow it. Proportion and scale need to be compatible, and this huge ballroom is not compatible.
Please do not allow the Ballroom to proceed according to the current plan. No other sitting president has made such an outsized change to the layout of the White House property. It shows a lack of respect to the institution, in contrast to the restraint shown by previous presidents, as they honored the ongoing legacy of the property through their terms.

Name: Samantha Silva
Date: February 19, 2026 8:55:22 pm

I oppose this project, which was initiated without the proper authorization. The cost is beyond the pale and I have immense concerns about the funding sources and the appearance or actual impropriety. The $300 million project is dwarfed by the loss of significant history property, which was destroyed unilaterally in what is meant to be THE PEOPLE'S HOUSE. I would like to see the East Wing returned to her former design and rebuilt with modest improvements to conform with the rest of the White House, NOT modernized.

Name: JillAnne McCarty
Date: February 19, 2026 8:55:28 pm

I adamantly oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history, and a waste of taxpayer dollars. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans. Please do the right thing and stop this.

Name: Laura Wanner
Date: February 19, 2026 8:56:16 pm

I’m not opposed to necessary modernization of the White House. It’s beautiful and one of the important headquarters of this amazing nation a modernization becomes necessary through time. Yet, undeniably, it’s been an affront to the American people to see the east wing of Our House ripped open and destroyed. I absolutely oppose anything other than restoring it to its initial purpose and as a structure that respects the history of the White House, the People’s House. Ballrooms are for royalty and, by way of our founding, we are a nation squarely against such status worship, egotism, opulence, and class stratification. Also, no citizen should be above the law, and I don’t know the what legal actions can be

taken against the unauthorized, unreviewed demolition of the east wing, but I hope those at the head of that action will be held accountable.

Name: kathleen OConnell
Date: February 19, 2026 9:00:25 pm

I wish President Trump would focus the administration's efforts on more important issues other than than those on which he puts his name. I don't support the demolition and redesign of the East Wing. Now that it has been demolished, please let historically qualified architects decide the final design.

Name: Adam Rakunas
Date: February 19, 2026 9:02:19 pm

Putting aside how hamfisted the demolition of the original East Wing, this Commission should stop any planning on this project until its finances are in investigated and vetted for any signs of corruption, kickbacks, or financial chicanery that will only enrich Donald Trump and his cronies while leaving the public holding the bag. Only after that has been cleared should the Commission determine whether the scale and scope of this monstrosity are appropriate for the rest of the building. I think it is not. Donald Trump's tiny-handed vulgarity has no place in our nation's capitol, and this ridiculous and unnecessary ballroom is nothing but Trump's attempt at architectural immortality. Better to put his name on a Superfund site.

Name: Pamela Jaccarino
Date: February 19, 2026 9:08:32 pm

While the East Wing may need updating, the SCALE of the addition needs to be considered. It should not dward the White House. This is America’s house and the people who pay taxes in this country, and who are citizens, need to be heard. Thank you

---

Here is what I’d like to see for the East Wing Renovation:

1) the size and shape of the wing should not over-shadow the main portion of the White House (which should clearly be seen as the main focal point for the entire building).

2) the color scheme and decoration should be consistent with that of other existing government buildings. There should be limited use of gold.

3) there should be room in the facility for additional rooms for other purposes. Some of these might need to be underground.

Name: Nancy Honeychuck
Date: February 19, 2026 9:12:22 pm

I am against the so called the East wing modernization project. It has. has been undertaken without proper permissions and is therefore a has been undertaken without proper permissions and is therefore an illegal. Most importantly, and additionally it is not in fact a modernization project, but rathera destructive act, defacingan important building and abolishing the history of an historical and beloved structure, which belongs to the people. If it is allowed to go forward, it sets an important and unlawful precedent which is greatly disrespectful of the opinions and will of the American people to whom the building actually belongs. Thank you for your attention.

Name: Karen Huysers
Date: February 19, 2026 9:14:57 pm

In a democracy, we follow procedures to be sure representation is fair. By presenting the ballroom to a committee of Trump appointees, it is not fair to the millions of people that do not think the ballroom is needed, wanted or desirable. The East Wing was full of history. It was built in concert with the design of the White House. The ballroom is so much larger than the rest of the building. It will dwarf the actual building. For the few times it will actually be used, it is a waste of money and an affront to the historical nature of the White House. I would love to see the East Wing rebuilt but I don't see that happening. A smaller "ballroom" might be more palatable.

Name: Jennifer Marti
Date: February 19, 2026 9:16:16 pm

I would like to voice my opinion as a citizen of the USA that I DO NOT consent to the destruction of the East Wing. I abhor the fact that it was summarily destroyed at the whim of a crazy person who currently holds the office of the President. Until he, and his entire cabinet of goons is out of office, there should be no construction on the site. We the People get to decide what happens to the People's house. Thank you for your attention to this matter.

Name: Bethany Behrmann
Date: February 19, 2026 9:16:48 pm

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. Name: Leslie Hicks
Date: February 19, 2026 9:18:20 pm

I oppose the East Wing Modernization Project.
This project began without required National Capital Planning Commission approval, without environmental assessments mandated by the National Environmental Policy Act, and without congressional authorization required by federal law for construction on federal parkland in Washington.
The $400 million cost is funded by corporations holding billions in federal contracts with the administration approving those contracts. The People’s House, already has a ballroom. Stop this nonsense now!

Name: Karen Hatton
Date: February 19, 2026 9:19:27 pm

Since I am a tax-paying American citizen, the Federal Government works for me. My representatives in Congress did not have the opportunity to vote "NO" on this abuse of our tax dollars. I oppose the spending of $300 million of mine and other tax paying citizens' money on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Anne Hannigan
Date: February 19, 2026 9:19:29 pm

I oppose this project based on its lack of full review, pricetag, funding sources, and design. Any additions to the White House should complement the central, historic building rather than dwarf it. A 90,000 sf addition, nearly twice the size of the White House, is neither appropriate nor attractive.

Tearing down the East Wing prior to getting design and building approvals is a frequent method used to rush projects that might otherwise have been turned down. The idea that its easier to ask forgiveness than permission, should be rejected and this project should go through normal reviews by non-partisan, qualified architects and art historians.

Name: Michael Walker
Date: February 19, 2026 9:19:40 pm

This administration's action to tear down part of the White House, prior to gaining approval of the new design plans from the National Register of Historic Places is troubling. It is as though the President believesbhe is a dictator. This garish design, is a monument to the excessive, selfish, disgusting lack of taste. The only suggestion I have is to add Geothermal heating to the White House while the ground is already torn up.

Name: Diane Burton
Date: February 19, 2026 9:19:45 pm

Please have the East Wing of the White House restored to what it was before the current President moved in for his second term. I can not make changes to my home and property without approval from the building authorities of my local jurisdiction; it is absolutely unconscionable that anyone would make changes to a publicly owned historic piece of property without going through the proper approval process. I trust that the National Capital Planning Commission would handle a remodeling/rebuilding project on a historic property like this with the proper respect, class, common sense, and sense of responsibility--everything that has been missing from the inception of this project.

Thank you for the opportunity to leave my comments.

Date: February 19, 2026 9:23:40 pm

Guys. Don't build a giant fuhrer bunker / data center under the White House. Don't build a giant ostentatious ballroom where the East Wing used to be either. Stop it. Just stop it. Please stop it?

Why not simply rebuild the East Wing exactly as it was but with better water fountains than the old ones? In fact, this member of the public is categorically opposed to any other course of action.

Name: Sonja Rouillard
Date: February 19, 2026 9:24:27 pm

I am completely opposed the spending of $300 or 400 or 500 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: V Bligh
Date: February 19, 2026 9:24:39 pm

I oppose spending $300 million on this project, which was initiated without proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law, and allowing this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Barbara Wilkinson
Date: February 19, 2026 9:25:35 pm

I’m furious that the Trump administration tore down a portion of the White House - No permits. No notice. No good reason!

I strongly oppose spending $300 million on replacing the East Wing of project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history.

I want this project canceled, and the East Wing rebuilt and restored to its former design.

No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: S Michels
Date: February 19, 2026 9:27:05 pm

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. I cannot make changes to my OWN HOME without meeting these basic requirements, and it was executed with no regard to these, as if this administration is thumbing its nose to say it is above the People and all we are subject to.

The White House is the People's house, so I want this project canceled and the Wing restored to it's former appearance. To permit this project to go ahead without penalizing this action would be an affront to all Americans.

Name: Stephanie Battjer
Date: February 19, 2026 9:29:19 pm

I oppose this $300m project which was started without authorization, permits, or design review by historic preservation committees.
The original East Wing should be restored to its original splendor as part of the White House of the American people. Those responsible for the present disaster should face the penalties of the law. No one is above the law.

Name: Kerry Marden
Date: February 19, 2026 9:30:17 pm

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Charlotte McGee

The new proposed ball room is way out of proportion to the existing White House. It should NOT be erected.

I vote NO.

Name: Mark Doolittle
Date: February 19, 2026 9:32:25 pm

I oppose the spending of ANY money on this project, which was initiated without the proper authorization, permits, or design review. Further, I would like there to be an investigation into the entire process from the initial plan including the claim that work permits were not required all the way down to the contractors proceeding with the work of razing the East Wing without approved work permits.

For those reasons, in my opinion, this entire process was illegal to the point that criminal charges, (starting with destruction of public property), are warranted and should be filed.

This project must be canceled, and the East Wing rebuilt to its former design at the personal expense of those who directed it to be torn down. This project, (as well as the destruction of the Rose Garden), is a razing of American history and an affront to The People's House. No temporary occupant of the White House has the authority to significantly alter the structure or grounds, especially without going through the proper channels of authorization, permits, or design review.

Name: Jill Alexander
Date: February 19, 2026 9:32:50 pm

I oppose spending funds on a project where demolition began without the proper authorization, permits, or design review. It is not a modernization project. They have completely razed American history. This project should be canceled. Furthermore, the East Wing of the White House should be rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Linda Lemire
Date: February 19, 2026 9:32:52 pm

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. Name: Debra Thompson
Date: February 19, 2026 9:38:39 pm

Explain to me why the worst dancer on the planet could possibly need a BALLROOM. I want the People's East Wing back just as it was found, not the gilded homage to a moron.

Name: Jack Hawkins
Date: February 19, 2026 9:39:06 pm

A resounding NO to allowing this illegal project to continue. Restore the East Wing to its original form. This demolition goes against all that the people’s house was intended for. The billionaires can build their own ballroom somewhere else. The White House is OUR house. It does not belong to the whims of one man’s ego.

Name: Kim Bundgaard
Date: February 19, 2026 9:39:34 pm

I believe that following the permit/approval process for construction projects, especially those affecting national landmarks must be adhered to in order to do everything possible to guarantee the integrity of the project is examined and the determination made that the project does not denigrate the existing value of the property from both a financial and historical perspective.
This project began without this process being respected and must now be brought into compliance on these key questions

to the degree possible.
My hope is the NCPC will hold this project to the highest standards possible.

Name: Justine Dalton
Date: February 19, 2026 9:41:44 pm

If there is going to be a ballroom, it needs to be on the same scale with the rest of the White House, and the funding of this project must be transparent.

Name: Judith Spellman
Date: February 19, 2026 9:41:54 pm

I oppose the spending of $300 million on the East Wing destruction project, which was initiated without the proper authorization, permits, or design approval. It destroyed history. The citizens of this country do not need a golden ballroom. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans. Thank you for your consideration in this matter.

Name: Trisha Wooldridge
Date: February 19, 2026 9:42:51 pm

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. I cried when I saw the destruction of this beautiful, symbolic building. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Steve Rittenberg
Date: February 19, 2026 9:45:02 pm

The space is sufficient as is. This type of project is inconsistent with public values and sentiment when there are people who cannot afford food, shelter, or health insurance. Will this project make one life better? Whether public funds are used or not, the money should be spent to build housing, shelter, or provide food or medical care.

Choose compassion!!

Name: Patricia Alley
Date: February 19, 2026 9:45:24 pm

I want it rebuilt as it was … the people’s house

Name: Julie Eiselt
Date: February 19, 2026 9:45:25 pm

Please stop this project and restore the East Wing. This construction was initiated without the proper authorization, permits, or design review. It is hardly a modernization project. It is the elimination of American history. The East Wing must be rebuilt and restored to its former design.

Name: Jamie Harvester
Date: February 19, 2026 9:45:29 pm

I sat at home crying as I watched the East Wing being demolished. I was as upset as I would have been had a wrecking ball come through my own living room. This is America's house. Each brick, each plank of wood and each nail is a part of our collective history and it was removed without the approval of those institutions that we as Americans trust to protect our collective history. The White House does not need a ball room and it shows extremely poor taste to construct one when so many Americans are struggling.

Name: Heather Long
Date: February 19, 2026 9:47:04 pm

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former exterior design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Mara Kalish

The White House is the house of the American people and not the property of a failed real estate developer with a fragile, overinflated ego and no regard for architectural integrity and history. The proposed design for the East Wing is an abomination and must be stopped.

Name: Denise Foster
Date: February 19, 2026 9:53:18 pm

Hello:

I would like to register my complaints about the East Wing Modernization project.

1. The East Wing hasn't been "modernized", it was demolished - without permits, and the debris (which may include pollutants like lead paint, or asbestos) were transported (without permission or inspection) to places like the East Potomac Park Golf Course.
2. We were promised by Mr. Trump that the East Wing wouldn't be touched, but instead it was removed completely without permits, permissions or inspections.
3. The proposed ballroom is completely out of proportion to the White House and will visually overtake it. There is no reason for a ballroom to be larger than the building it's just supposed to be an addition to.
4. The proposed ballroom has not had a proper approval process as to its design, purpose, placing, etc. The president does not have the authority to do a "renovation" that including removing historic structures (the East Wing), historic gardens, historic trees and features of the Peoples House.
5. How has this all occurred without oversight? Are there not procedures that need to be in place when something is demolished? Or built? Who will inspect it to make sure that all was done properly? That the construction is up to code? No regular citizen could do any of these things without being fined and/or prosecuted.

I ask that you impose some constraint on this project. The White House is the Peoples' House, and the people should be consulted before parts of it are ripped apart, or someone constructs a monstrosity that will make the People's House a mere appendage to one mans' desires and ego.

Sincerely,

Denise Foster
Frustrated and Saddened Citizen

Restore the exterior dimensions and architectural style, update wiring etc. and make interior ADA accessible where possible. Follow past process for making needed but historically sensitive changes. If a ballroom is needed, construct it elsewhere in the city. The White House is the people’s house.

Name: Carolina Andrada
Date: February 19, 2026 9:55:43 pm

The "East Wing Modernization Project" is another of the countless things making the US an international laughingstock. I would know, I'm an immigrant, and my contacts back home can't believe how stupid it is. Why are we tearing down a perfectly good building to construct a ballroom... in an administration that axed like half the federal government in order to "end government waste"????? What's more wasteful than reinventing the wheel? I grew up in the Deep South, where I quickly learned the phrase, "if it ain't broke, don't fix it". What was broken about the original building? And how is this new building fixing that? Let me tell you - it fixes nothing.

Honestly, axe the project. Don't build a ballroom. Don't build anything. If we're so short on cash that we had to fire half the damn State Department, we don't have the money to build a ballroom either. And if we *have* to build something, because the money's *already* been earmarked for a new building... make it actually useful. Build offices, I don't know. But like, a ballroom? Get over yourselves.

Name: Becky Kipp
Date: February 19, 2026 9:55:50 pm

The National Capital Planning Commission website states:
“Before nationally significant places are permanently altered, the public deserves an opportunity to be heard and to help shape decisions that affect our shared national heritage.” However, we were robbed of that opportunity when the East Wing of the White House was torn out in a violation of the public trust. I am strongly opposed to this petty vanity project that has come at the unceremonious destruction of the People’s White House. Not only did they not take time for public comment, but it also appears that they did not take precautions against toxic waste from asbestos, lead and other harmful substances in the historic structure. I would ask that proper remediation be done on the site, as well as anywhere that the debris is being stockpiled (at the East Potomac Golf Links). I oppose spending $300 million on a project that was not properly permitted or authorized. This violation of the public trust will not stand and the project must be cancelled and the East Wing rebuilt. That is the only acceptable solution. No one is above the law. This is not one man’s house to remodel. It is OUR house and allowing this project to move forward without consequences for those who destroyed the East Wing would be a slap in the face to all law-abiding citizens.

Name: Rebecca Elliot
Date: February 19, 2026 9:56:37 pm

The destruction of the East Wing of the White House has not only transgressed tradition, but was done without the proper permits by someone who has no regard for the art and discipline of architecture or the cultural value and importance of historic preservation. Donald Trump has a track record in his hometown of New York City of violating historic preservation requirements, of attempting to tear down historic structures in favor of his own private profits, and of failing to pay contractors who labor to build his construction projects. He should be required to reconstruct the East Wing. The facade should match the previous one so as to respect the exterior design, symmetry, and scale of the White House as a whole. The interior should be reconstructed so as to restore any features that were historically, culturally, architecturally, and/or aesthetically significant. The reconstruction should also take advantage of the opportunity to improve upon and modernize any features of the original structure that needed updating while also respecting the original design and the previous additions that had been properly approved and permitted. The proposed ballroom should not be built. There is no great need to entertain a larger number of wealthy supporters and international oligarchs than previously. The proposed ballroom will not advance the interests of the American people. Any would-be supporter of the United States and its people should not need a lavish party in a ballroom in order to be convinced to act benevolently.

Date: February 19, 2026 10:02:29 pm

Dear Committee.
My first job was as an intern in the east wing, which was torn down with no historic planning considerations. The new building is far too large for the White House campus. If a larger building is considered, it could be place further south on the White House grounds. I understand full that modernization take place but historical importance and how the building fits in to the White House grounds should be considered by more then the appointees of one president.
This is a monumental task and should not be rushed or considered in haste, as the old time tested saying, ‘haste makes waste’
Sincerely,
Christopher Spitzmiller

East wing modernization project must be further reviewed.

Name: Karen Elizabeth Marx
Date: February 19, 2026 10:04:48 pm

I strongly oppose the proposed 90,000-square-foot ballroom in its current grandiose scale and urge the National Capital Planning Commission to reject a plan that overwhelms the historic integrity, architectural balance, and symbolic significance of our nation’s most iconic residence, reflecting yet another troubling abuse of power that disregards both due process and overwhelming public opposition.

Name: Kit Tossmann
Date: February 19, 2026 10:04:50 pm

It is absolutely horrendous and illegal for this regime to totally destroy an iconic, historic building without going through the normal permits and processes. I oppose the building of this vanity project of building a massive ballroom. Even if the cost is connected by big donors, I am sure they will be looking for favors in exchange for their donation. Name: Ruth Helwig
Date: February 19, 2026 10:05:40 pm

This project is a travesty. It is an afront to what was a beautiful budling. It is a waste of money. I suspect the billionaires will pay for it the same way Mexico paid for the border wall. And if the billionaires do contribute to the project, it is with strings attached. None of this benefits the American public. None of this was necessary. The damage was illegally done to the building so no matter what happens, the building was destroyed and money needs to be spent repairing it. We do not need Mar-A-Lago of the north. This was the people's house, now it is becoming a temple to the rich and powerful.

Name: Arlene Beckton
Date: February 19, 2026 10:06:53 pm

I oppose this project.

Name: Holly Green
Date: February 19, 2026 10:09:09 pm

The new plans for the east wing do not adequately reflect the history and sincerity of the white house as the home of the United States of America. The new structure is disproportionate to the existing structure and is excessive in size.
To optimize its value, the new structure should be of a size that will fit the needs of the MAJORITY of gatherings, not

just a few large gatherings. Additionally, the interior should be decorated with period decor in a style that reflects white house decor as a whole.

Name: Mary Coleman
Date: February 19, 2026 10:09:17 pm

I VEHEMENTLY oppose this vulgar project. I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. East Wing does not need change. It should be rebuilt in its original style to accommodate the needs of the First Ladies . Why does everything have to be changed to be appropriate and lovely. We’ve had too much change already!

Name: Mark Twain Stevenson
Date: February 19, 2026 10:14:44 pm

I oppose the President's plan to build an enormous ballroom. The only "need" for this is to stroke the President's insatiable ego. Private funders are paying the equivalent of bribes to the President. This monstrosity will dwarf the White House and for that reason alone it should not be built. The White House and grounds are not the possession of one man-it belongs to all of us Americans. President Trump has not applied to the relevant authorities to make this change. Nor did he have the right to tear down the East Wing. What if I were a renter and I destroyed part of the landlord's building with no permission? President Trump should be required to rebuild the East Wing using his own funds.

Name: Annette Lind
Date: February 19, 2026 10:19:37 pm

Yes, you were elected president. President not king. The White House is not a palace . It is the people’s house. You live there at the people’s will. It is not your home to remodel and turn into a glittering version of Versailles.

As you work to destroy the truth of history and turn it into your imagined version, you forget all that made this country work—all that made this country the place immigrants dreamed of as a new home and a new chance.

Tear down that disgusting monument to greed and arrogance. You had no right to tear down the east wing. You have no right to build this ostentatious ballroom. We the people did not get a voice in what you did to our house.

Name: Kerri Cohen
Date: February 19, 2026 10:20:08 pm

I wholeheartedly oppose spending any money or time on "remodernizing" the East Wing of the White House. This project started without proper approvals or review. No one is above the law, even the President, and as such the project should be canceled and the East Wing rebuilt to its former glory.

Name: Michael Wyatt
Date: February 19, 2026 10:20:42 pm

I do not support tearing the East Wing down and replacing it with a ballroom

Name: Ben Samson
Date: February 19, 2026 10:21:03 pm

I got my Bachelors and Masters in Architecture down the road at UMD and VT's Alexandria campus. The facade facing the Treasury as designed is strikingly unbalanced and does not reflect neoclassical style attention to scale, proportion and hierarchy. Humbly, I have attached a sketch that tweaks the original design while adding balance and proportion. The porches still mirror the Treasury, but here they are met with balance and scale with the rest of the facade, not overshadowing the main ballroom.

To: The National Capital Planning Commission
The Commission of Fine Arts
Dear Commissioners,

There is an African proverb which goes: "The child who is not embraced by the village will burn it down to feel its warmth."

Like the child who burnt his village down, President Trump destroyed the east wing of the White House because he thinks the White House belongs to him and not the American people, and because real estate is the only world where he feels at home.

When he did this last October, without congressional approval or oversight, he desecrated one of the most revered symbols of our national identity.

Now the President is adding insult to injury by proposing a monstrous 900,000-square-foot ballroom which will overshadow our beloved White House. This project must undergo required reviews by an independent National Capital Planning Commission (NCPC) and the Commission of Fine Arts (CFA) and then receive approval from Congress before proceeding forward.

The President claims this project will cost $300,000 million dollars which he says will be paid by private donors. The source of these funds must be made public and supervised by appropriate Congressional oversight so that the president doesn't feel free to pocket the money for himself. Those managing the project must, from start to finish, be made accountable every step of the way.

For all these reasons, I strongly object to President Trump's proposed ballroom. If you have any reverence for our national heritage, I urge you to vote against President Trump's ballroom and to authorize the construction of a balanced, tasteful, and more proportionally appropriate building.

Sincerely,
The Reverend Pamela Cranston

Everything that has been done so far with the East Wing has been incorrect. No rules have been followed. Someone, meaning Trump, needs to recognize that this is a National Historic Landmark and National Park that is owned by the American People and stewarded by the National Park Service. This is "NOT HIS PERSONAL PROPERTY", it it loaned to him for 4 years and he needs to recognize this along with respecting that the people are upset that he had done this without any type of permission. If I could, I would evict him like any other renter for not following the rules. It's a shame that Trump disrespected all the rules that are in place to preserve history.

It's terrible that the East Wing was demolished. It's not a 'modernization project'. It's destruction, like paving over the Rose Garden, so that President Trump can leave his mark on the People's House. It never should have been demolished without congressional approval. I've heard that beneath the huge (and unnecessary) ballroom, there will be a new bunker. I would want to know why another bunker is necessary and what it will entail. Will it be a real ballroom, or will it be a 'mansion' of sorts?

Every small town and city is aware of historical preservation. If we can't preserve the White House, what is historical preservation?

Name: Katharine Ballard

horrible idea; should have left it alone instead of tearing it down; destroyed historical value; worse idea in a long time

---

Name: Rose Bohmann
Date: February 19, 2026 10:28:19 pm

I am opposed to any East Wing rebuild that is taller or covers a bigger footprint than the original part of the White House. This building belongs to the people of the country, not to whatever person resides there. The demolition of the East Wing was done without any proper oversight, and that needs to be rectified. While a ballroom might be good to have, there were also functions that the East Wing provided that now have no home.

The further renovation of the White House needs to stop, and a commission set up, INDEPENDENT of the office of the president, to determine the best way to rebuild on the White House grounds. No veto power should be given to the president or his staff. Congress alone has the power to allocate funds, and that's where the funding should be approved.

Name: Margie Alexander
Date: February 19, 2026 10:36:07 pm

The destruction of the East Wing was a travesty, an assault on history, tradition, and process. The planned replacement is obscene,and will dwarf the history White House. It's nothing but an ego project for a president whose bottomless need for attention and gold decor and excess should not be indulged.

Name: Melinda Shilansky
Date: February 19, 2026 10:37:51 pm

It is truly crushing that the Trump administration has destroyed the East Wing without any concern for its historical significance or importance to the American people. Building a grotesque ballroom that that the Trump family can continue their grift is equally appalling. Nobody needs this. Nobody wants this.

Name: Joanna Fredericks
Date: February 19, 2026 10:39:16 pm

I am writing to voice my opposition to the East Wing Modernization Project.
This project was undertaken without proper authorization. I have read that funds for the $400M cost of building this room aren't actually available, and the expense will be footed by the American people.
Furthermore, I have never heard anyone, publicly or privately, say that they wanted this ballroom, except the one man who will put his name on it.

Name: Jimmy Bailey
Date: February 19, 2026 10:43:00 pm

The old East Wing was well proportioned with the rest of the building. I am concerned that the proposed ballroom, while functionally may make sense for large events, will detract from the appearance of the White House.

Name: John Buckley
Date: February 19, 2026 10:43:33 pm

Dear Society for Historic Preservation-

As a practicing designer in San Francisco for more than 30 years, and a proud Member of the ICAA, The Institute for Classical Architecture and Art. I am deeply concerned that the current president has not done his due diligence in tearing down the East wing without making the proposed plans available to a board and also the public, at large. The scale of the proposed addition and the style does not seem in keeping with the White House's original design. This must be shut down. We deserve a chance to have a say in the design and the Architectural Firm that might design the space. As usual he has bypassed the law in favor of his own wishes. This is NOT ok. Please help us hit the pause button and reset. If we don't we'll end up with something hideous that is not befitting a great American building nor the American people.

Best Regards

John Buckley III
San Francisco, California

Name: Ellen Toler
Date: February 19, 2026 10:44:35 pm

Where is the historical and architectural integrity to preserve the East Wing? Anyone can see from the current architectural plans — this is a complete eyesore. The proposed scale and cost of this project is staggering to the people of

the United States. It will usurp our beloved White House - the people’s house - that has always served as a beacon of our democracy. We deserve better.

Name: Marcia Risher
Date: February 19, 2026 10:45:24 pm

As a US citizen, voter, taxpayer, and member of the White House Historical Association I am 100% opposed to the demolition of the historic East Wing. No one asked for a ballroom, there is no need for one, and not one penney of taxpayer money should be used to build it. Demolishing a building without authorization is not modernization. It is a crime. The current President ordered the illegal demolition of the East Wing and he must pay for it's restoration and repair.

Name: Andrew Gage
Date: February 19, 2026 10:46:22 pm

The demolition of the East Wing of the White House without the proper review and application process is a brazen takeover by one individual of the People's House. It does not belong to any one occupant of it; it belongs to the American People. Therefore the action should be deemed illegal, and the parties involved, including but not limited to, the current occupant of the White House, and the contractor who is responsible for the demolition action, should make whole the East Wing as it was prior to its demolition, and the cost of the restitution and restoration of the structure should be charged to the offending parties. Nothing less will satisfy the breach of trust with the People.

Name: Sarah Alvidrez
Date: February 19, 2026 10:48:56 pm

Please reconsider the design to be in alignment with the historic nature of the White House, and keeping it to a more moderate size that will not detract from the White House itself. Thank you, Sarah Alvidrez

---

Name: Betsy Leavell
Date: February 19, 2026 10:49:45 pm

The destruction of our East Wing a crime! We don't need a $300 ballroom - we need to honor our history!
Not erase it, not destroy it.
That's how we learn...the people that are doing this have no sense of right/wrong - only want. It's despicable! That is MY house - it is YOUR house...it is OURS and NOONE should be able to do this.
The East Wing should be re-built in It's original design and glory!

Name: Thomas Kligerman
Date: February 19, 2026 10:52:42 pm

The current design proposed by President Trump is vastly too large, overscaled, and over-embellished. Now that the East wing has been callously, demolished, an appropriate building that respects the overall complex of White House buildings should be designed and approved through proper protocols.

Do not not allow this current design to be built. It is a vulgar embarrassment.

Name: Kelsey Sakumoto
Date: February 19, 2026 10:55:46 pm

This project is a blatant waste of taxpayer money. I do not support this. The White House is the American people’s house, not whoever is temporarily living there. That this administration tore down the East Wing without approval and now seeks to spend hardworking citizens’ money on a vanity project is un-American. This project should not be approved and should not move forward.

Name: Elizabeth Evans
Date: February 19, 2026 10:56:02 pm

I oppose the East Wing Modernization. The Trump administration does not have the authority to tear down the East Wing.

Name: Ned Martel
Date: February 19, 2026 10:57:22 pm

The East Wing design ideas need immediate reconsideration. A competition among architects would be a better way forward. The process needs to befit this most hallowed American residence, with a plan that reflects its history and its departure from monarchical styles of the Old World. A restoration of the garden named for Mrs. Kennedy is another absolute agenda item for any comprehensive plan.

Name: Joyce Hanna
Date: February 19, 2026 10:57:50 pm

I oppose the building of the ballroom for various reasons including the lack of adherence to governmental protocols for the demolition of the east wing. The private donations would be better spent by decreasing the federal deficit.

Name: cynthia ryan
Date: February 19, 2026 10:58:55 pm

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Paula King
Date: February 19, 2026 10:59:08 pm

The White House stands as the people’s house, the most symbolic building of our nation. To see it dwarfed by an oversized ballroom, without review or comment by experts, is a devastation. It is all of our legacy, a tragedy that will outlive all of us, and will serve as a reminder of a crumpled democracy. The people demand accountability , transparency, and consultation with historians and architects who will honor this house and our collective history. The rendering isnt grand, it is a sign of greed and power. It needs to be reduced in scale and reviewed by the public and experts. The fact that the historic East Wing was demolished without preservation, wasnt moved to a museum, wasn’t made public until it was as too late is a tragedy we will be admonished for. We can at least move forward with more mindfulness and patriotism.

Name: Mary Lynn Botts
Date: February 19, 2026 10:59:40 pm

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project

canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Jarret Yoshida
Date: February 19, 2026 11:01:36 pm

Interior designer and builder in DC and NYC who wants to ensure that this legacy we hand to future generations is given the thought and time it deserves. This project simply needs more creative thought and the current plan has numerous shortcomings to be addressed. The volume and space planning looks rushed like someone who was trying to do to much at once. We deserve better.

Name: Brooke Kaplan
Date: February 19, 2026 11:02:12 pm

Fuck Trump and every corrupt thing he has ever said, done, or touched. He had no right to tear down the east wing and the beautiful history it represented for our country. The White House is not his vanity project and he needs to find a modicum of humbleness and gratitude to his short term appointment to this position. The White House needs to be restored to its previous set up and this project thrown directly in the trash with the rest of his “priorities”.

Name: Shelley Weston
Date: February 19, 2026 11:03:51 pm

Since the East Wing of the White House was torn down without any congressional approval or oversight, I am completely opposed to the ballroom the president is planning on building at the site. The White House is the people’s house. We want our house back exactly as it was built. It’s our house and our history. If a huge monstrosity of a ballroom is truly needed in Washington DC, please put it somewhere else. We want to cherish our history and our house. We want our house rebuilt as it was. Thank you.

Name: Carolyn Kelly
Date: February 19, 2026 11:04:26 pm

I am totally opposed to the $300 million ballroom project and want the East Wing rebuilt to its former glory. And because Mr. Trump did this illegally I believe he should be responsible for the rebuilding.

Name: Nancy Wiltgen
Date: February 19, 2026 11:04:42 pm

I am a resident of Minnesota and oppose the spending of $300 million (or perhaps now $400 million) on this proposal, which was initiated without proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of United States history. I want this project cancelled and the East Wing rebuilt and restored to its former design. No one -- no one -- is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding residents and citizens of the United States. I unequivocally oppose this project.

Thank you.

This alteration of an historic building in this way is unacceptable. Not only does it significantly change the external appearance of an iconic building in a way the grossly impacts the balance and symmetry of the building -- rendering it a monstrosity and eyesore -- but it also involves a significant expenditure of public funds at a time when so many Americans are struggling. We'd much rather have those funds come back to our communities for roads, bridges, schools and Healthcare than squandered on someone's pet project.
Restore the building to its original configuration. We don't really need (and certainly can't afford) an extravagance like a White House ballroom.

Name: Summer Lyons

This is a national tragedy. I'm appalled that the East Wing was destroyed on the whim of a madman.

Name: Jessie Johnston
Date: February 19, 2026 11:16:41 pm

I strongly oppose the spending of $300+ million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project, but rather, a complete razing of our precious American history. This hasty obliteration of a project needs to be canceled, and the East Wing needs to be rebuilt and restored to its former design. No one is above the law, and to permit this project to go ahead without our approval, and without penalizing those who broke the law, would be an affront to all law-abiding Americans…many who have dreamed of visiting but will never get to see where so many memories before us were made.

Name: Jennifer Sorth
Date: February 19, 2026 11:18:18 pm

I was appalled when President Trump demolished the East Wing of the White House. The White House complex is owned by the American people and has huge historic, symbolic, and emotional significance. The President demolished the East Wing without notice, proper review and permitting, congressional approval, or a good reason for doing it. It was and remains a travesty. The East Wing should be rebuilt and restored and its contents returned.

The proposed ballroom is a vanity project that has no place in the White House complex. President Trump can build his ballroom at his presidential library, over which he will have full control. The proposed size of the ballroom at 90,000 square feet is much too big. It would overwhelm the White House itself and deliver a message that the President's overweening vanity is more important than the governance of our great nation. The project is tainted by corruption, as rich individuals and businesses with whom the administration does business have committed to contribute money to the project. Those are inappropriate and illegal bribes. The design reeks of tinpot, 3rd-world dictator vibes and has no place in a complex that is such an important symbol of our nation's dreams and aspirations. Trump wants to construct a nightmare. We should not let him. This project must be rejected.

Date: February 19, 2026 11:27:08 pm

I oppose the spending of any money on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans. This is the people's house.

Name: Chris Maxwell
Date: February 19, 2026 11:28:26 pm

I was absolutely outraged when President Trump demolished the East Wing of the White House in order to build his vanity ballroom. This was done without any sort of prior review and did not follow proper procedures for permitting or

congressional approval. In fact, President Trump replaced the review board which would normally opine on such projects, with his hand-picked lackeys after the fact, and they, of course, approved everything he asked them to/
It should be made clear that this is a completely vanity-driven project, financed by bribes from wealthy business people who want something from Trump. Several architects have criticized the size and scale of the project, which will overwhelm the White House itself. Donald Trump needs to remember that he is a TEMPORARY CUSTODIAN of our nation's capital -- the White House is THE PEOPLE'S HOUSE. The people have repeatedly made it clear that we want NO KINGS, yet he persists in acting as if he were a king. This has no place happening to such an important symbol of our nations's dreams and heritage. We should not let this happen. This project must be rejected.

1) The squatter in the White House demolished the East Wing on a whim, without public input or authorization.
2) No notice was given until the feat was begun.
3) 'We, the People' have no need or desire for a garish and worthless 'Regal Ballroom'.
4) Respectfully request to put it back the way it was.

Name: Nancy Aitkenhead
Date: February 19, 2026 11:37:14 pm

It is appropriate that the US has a ballroom similar to other nations. It is not appropriate, and insecure, to hold official events in tents.

Name: Alina Baciu
Date: February 19, 2026 11:38:42 pm

The ballroom should not dwarf the White House.
In my native Communist Romania of the 1970s and 1980s, public design was increasingly intended to satisfy Nicolae Ceausescu’s obsessions with a certain kind of grandiosity, and to reflect his cult of personality. There is no place in our beautiful city for disproportionate monstrosities intended to glorify one specific president. The White House is the people’s house and its modest scale and relative simplicity of design have thus far been in keeping with our nation’s democratic ideals. Ostentatious gold leaf and a gigantic ballroom for billionaires and other vassals of a would-be king have no place at 1600 Pennsylvania Ave NW. Ballrooms also seem like an anachronism, a throwback. Our country marks its 250th birthday without a White House ballroom and now that’s suddenly the great need for the 21st century? The city has plenty of venues for presidential inaugural balls, and I don’t think the case has been made for why a White House ballroom is even needed.

Name: Brenda Spencer
Date: February 19, 2026 11:39:34 pm

It is too late to object to the destruction of the East Wing, unfortunately. This was done unlawfully and destroyed a historical site that is truly impossible to replace. Shameful and outrageous. Whatever is going to be built now needs to go through proper planning and legal steps required to ensure the building is appropriate and proportionate to the White House and that the space is used in a way that allows our government to function better. The funding of it needs to be appropriated lawfully.

Name: LuAn Vormier
Date: February 19, 2026 11:41:25 pm

In regards to the East Wing Modernization project, I believe it’s a fantastic idea.

The White House should have a majestic space to host large events. The ballroom will be a significant addition to our capital. One that our current President and Future Presidents can be proud of.

Even though the plans have materialized quickly, they were well overdo. The United States of America is celebrating its 250 year anniversary, and as powerful nation it’s nice to see the White House evolve and meet the future demand. It’s a ballroom to host large events…it not critical mission. Build it and they will come! Not put a tent up and walk on the grass!

It should represent the future not the past and the future looks bright!
Build it! Do it Now! Don’t look back!

Name: Katelyn Sisk
Date: February 19, 2026 11:41:39 pm

I am writing to express my strong opposition to the proposed East Wing ballroom addition. As someone who works in design and deeply values historic architecture, I believe this project is out of scale and inconsistent with the character and legacy of the White House grounds.

The White House is not just another building site, but it is a symbol with extraordinary historical and cultural significance. Any changes to it should be approached with great restraint, transparency, and respect for established preservation standards.

I urge the Commission to reconsider.

Name: Anna Santilli
Date: February 19, 2026 11:42:42 pm

Funny name for this as the East Wing no longer exists. What a sacrilege to tear down part of the People's House, to build a gaudy unnecessary elitist ballroom. Put the White House back the way it was.

Name: Carol Rowey
Date: February 19, 2026 11:43:50 pm

I do not want to see any building constructed on the demolished site that is bigger in size than the White House. I also want the design to be vetted and approved by the local building authorities and the White House historical commission. And I want all local laws regarding building structures to be followed to a T. And I’d like to see a law pass that you can’t tear down something before you have approvedplans for it.

Name: Mary Adams

Re: Formal Objection to Demolition and Proposed Replacement Structure

To Whom It May Concern,

I am writing to express my deep concern and strong objection regarding the demolition of the historic building that previously stood on this site and the scale and architectural direction of the proposed replacement.

As a professional designer and architect, I do not see buildings as simple real estate assets. They are part of our cultural record and civic identity. A historic structure, particularly one held in public trust, belongs to the people. Its removal without meaningful public consent reflects a serious lapse in stewardship and transparency.

What is equally troubling is the scale and massing of the proposed new building. From what has been presented, its overall size, height, and visual dominance are entirely out of proportion with its surroundings. The structure will dwarf our White House, diminishing its presence and symbolic importance. This is not simply a matter of preference. It is a matter of architectural proportion and civic respect.

Architecture has physical and symbolic weight. When a new building overpowers a historic landmark, it disrupts balance and undermines the integrity of the setting. The White House must retain its visual and architectural primacy within the landscape. The proposed structure, as currently designed, shadows and competes with it rather than supporting it.

The scale must be reduced substantially. The massing must be reconsidered. The hierarchy implied in the current design reads as self important and imposing, rather than contextual and respectful. Good architecture does not compete with heritage. It frames it and allows it to stand with dignity.

I strongly urge the governing body to pause and reevaluate this project. A meaningful public review process should be conducted. The building size should be scaled back significantly to preserve appropriate proportional relationships and protect view corridors. Decisions that affect historic civic landmarks must be made with care, humility, and public input.

We are entrusted with protecting the integrity of our most important buildings for future generations. Development may be necessary, but it must be thoughtful, measured, and aligned with the character and importance of what already exists.

I respectfully request that this proposal be reconsidered with the seriousness it deserves.

Sincerely,
Franco A. Pasquale

The destruction of the East Wing of the White House is a tragedy. The proposed ballroom addition is a flagrant disregard of the history of the site. Additionally, the size of the proposed ballroom is disproportional to the White House. The destruction and the proposed addition should never have happened. The White House does not need a separate ballroom, as it already has the ability to hold events IN the White House. On behalf of the American public, we should preserve the people's palace, and oppose any ballroom addition.

Name: Bonnie Barfield

The White House East wing modernization plans do not take into account the scale of the historic land which it is designed for. Its grossly over scaled design over shadows the classically designed Executive Residence and West Wing structures. The design approval process has been pushed through with zero public review or approval. It’s an offense to our democratic system and tax dollars we work hard for. Please do not approve this design.

Name: Michael Brennan
Date: February 20, 2026 12:05:51 am

This project is a good example of the use of the philosophy, “It’s better to ask for forgiveness later than to seek permission first.” I see no reason to reward the applicant with an abbreviated process up just because the demolition presents a ruined site for consideration. My primary concerns revolve around the site’s density and park-like character. Both are threatened by the current proposal. First, the footprint of the structures before demolition already pushed the limits for space density. The proposed ballroom and east wing would obliterate any semblance of proportion. Second, this imbalance would also remove the precious garden character of the site, which was already eroded by the destruction of the Rose Garden. The proposed project will hasten this urbanization of a formerly park-like setting to a shadow of its former self. Approval of the project would do irreparable harm that would be universally regretted later, as is the case with all lost natural spaces. The solution, then is to reduce the footprint and height of the proposed structures.

Date: February 20, 2026 12:11:11 am

I oppose this project moving forward because it was initiated without the proper authorization, permits, or design review. The impetuous destruction of an historical site and the “people’s house “ is not a modernization project but rather a complete razing of American history. I support canceling this project and restoring the East Wing of the to its former design updated to current construction codes and with the reviews, permits and oversight required by law. No one is above the law and to permit this project to go ahead without holding those who broke the law accountable would be an affront to me personally and all law-abiding Americans! I do not oppose progress, but support progress within the legal constraints that assure history is honored and preserved and the people’s house is representative of and honors all the people of this great nation! Thank you for the opportunity to comment.

The outrageous desecration of "the Peoples' House" must be remedied. This vandalism was initiated without the proper

authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law and returning the East Wing to its original historic design would be an affront to all law-abiding Americans.

Name: Debra Eliason
Date: February 20, 2026 12:16:00 am

The East wing should be proportional to the size of the White House. It should not become a 90000sf ballroom which would rarely be used. It should be rebuilt to meet the needs of the people.

Name: Benjamin Gorman
Date: February 20, 2026 12:17:22 am

The White House is the People's House. As such it is meant to remain a symbol of our check-and-balance republic, and an icon of our shared history against oppression. The current regime is daily abrogating not only custom and tradition, but established law and the nation's Constitution, and should not be permitted to—indeed, does not and never will have the authority to—bypass established procedures for evaluating any proposed changes to this or any other historic building or monument in the nation.

I wish to register my extreme displeasure with the actions taken by this present administration with respect to the changes already made, and the proposed modifications to the historic White House. If there is any force that can stop them from continuing their rapacious destruction of history, tradition, and ethical standards, it should be brought to bear on this fascistic regime with extreme prejudice.

Date: February 20, 2026 12:21:08 am

Remember the East Wing

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to law-abiding citizens.

Name: Christine Wong
Date: February 20, 2026 12:23:32 am

This East Wing monstrosity is all about Trump and absolutely nothing about the most important building in the United States. There needs to be a true review and approval not by Trump appointed sycophants but by an actual professional review board.

Name: Michael Evans
Date: February 20, 2026 12:26:43 am

The project is generally overscaled. The video pointed out that its cornice line is at the same height as that of the White House itself; that causes it to compete with, not complement, the White House. And because the footprint of the new project dwarfs that of the White House, it's not a very fair competition - the White House is being clobbered.

At the very least, there's no reason why the main level can't be lower, with the support spaces at least partially below grade, which would reduce the need for all those steps down to the exterior. But I'd go further and question why this project needs to be directly adjacent to the White House at all. If there is a need for such a huge National State Ballroom like this, it would be more appropriate, and less limited, if it were on its own site somewhere else in the capital. It's telling that in the video the presenter felt the need to end by showing images trying to justify this large intrusion by arguing that it would be hidden by mature trees in some key views.

Neoclassical design is proposed for this project, no doubt in the name of compatibility with the White House, but there is a high risk of creating a building whose neoclassical credentials will be found sorely wanting when compared with the White House itself or even the US Treasury across the street. Even as recently as 100 years ago many architects were trained and fully fluent in the language of classical architecture; that fluency is extremely rare today. Too often, when classicism is attempted today, it's just a shallow, illiterate effort of slapping columns and cornices onto a modern building without any sense of proportion or knowledge of how the pieces go together. It's very, very, easy to aim at elegant grandeur, but instead produce something loud, large, and vulgar that would be more appropriate in Las Vegas than Washington DC. (If you're wondering, yes, I have been a practicing licensed architect for almost 40 years.)

For this reason I would suggest further opportunities be made for the public to offer comments as the design progresses in greater detail.

Name: Saba Taghvai
Date: February 20, 2026 12:27:49 am

Please consider a different, smaller, and more timeless design than the current proposal which sways away from the historic and traditional architecture.

Name: Constance Tolliver

This is a disgrace to the United States of America.

Name: Marcia Janke
Date: February 20, 2026 12:44:18 am

Obviously the East Wing needs to be rebuilt as it no longer exists.
Rebuild to the original blue prints of grace and decorum with modern upgrades to wiring, plumbing, ADA access etc. It's function is not a monument to greed and gaudy decore.
Restore the Rose Garden and strip the White House of those embarrassing gold accoutrements. Give the White House, the East Wing and anything else that has been obliterated by this wanna-be dictator back it's dignity.
And make sure that those millions of dollars for reparations do not come out of the pockets of the American public. Trump claims he has the $400 million to pay for building his monstrosity to bad taste, so channel that money directly into restoring the damage he has done.

Name: Kelsey Roberts
Date: February 20, 2026 12:44:54 am

$300 million to fund this project is a disgusting misuse of American tax payer money when Children are loosing school lunch and Medicare and healthcare are being gutted. I oppose this project on civil and moral grounds. No one is above the law. I want the project stopped, the east wing restored, and those responsible held accountable.

Thanks for your time and consideration

Kelsey Roberts

East Wing Modernization Project? It's gone, dust, dirt. Without a single consultation or permit. No government or individual should get away with destroying a historic property of this magnitude, and I can't think of a historic property of greater magnitude than the White House, without serious consequences. This project should be canceled entirely and the original East Wing recreated. Hopefully the historic furniture and paintings have been preserved so they can be returned to their rightful places. This modernization project is an abomination and a travesty of "preservation". Please do not allow it to go forward.

Name: Sylvia Beaudoin
Date: February 20, 2026 12:49:07 am

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete erasing of our culture and American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead simply because the current president wants his mark on the peoples house, without penalizing those who broke the law would be an affront to all law-abiding Americans. Stop this project immediately.

Name: Jacob Laws
Date: February 20, 2026 12:53:09 am

This is an absurd and relentlessly gauche, distasteful, boring, and (while not shocking) tedious display of a person needing to prove something. More than likely, to inherently prove something isn’t small by building something big. The thing about this monstrosity is that it alters The People’s House and makes a mockery out of a lasting and powerful piece of architecture in our country that is the symbol of diplomacy, a united nation, hope, greatness, and - although its current residents lack this powerful element in gaining respect - good taste. This is the most ridiculous and stupid use of countless hours of (some) creative minds, hundreds of jobs which could be utilized on one of the other many projects that are in actual need of attention not to mention the shocking cost and irresponsible use of funds - whether those are public or private. Can we not live without a 90,000 square foot ballroom? Would it be so unimaginable to focus our energy on rebuilding a sense of security and safety and unity instead of an unattractive and unnecessarily large mausoleum on the grounds of the White House? Did I mention it’s ugly? If I didn’t add it to the list of my oppositions. Thank you. Jacob Laws

I oppose the spending of $300 million to construct a “ballroom” where the East Wing once stood. This project was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. This project must be canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding citizens. The White House is the People’s house, and one man should not be allowed to destroy it to satisfy his narcissistic whims.

I object to the spending 300 million dollars on the construction of a ballroom on the previous site of the east wing. United States of America does not need a big gaudy space for dancing or grand scale banquets, most especially in a time that so many are struggling with making their next mortgage payment, house and car insurances, put food on the table, and pay for medications!
The destruction of the East Wing was done without following protocol, and whatever is decided next for its space should follow that protocol. The East wing holds a great amount of history and must be restored to its original use and purpose.

The White House belongs to the people of the United States and any changes to it should be approved by the people. The east Wayne.should be restored to its original design.. it’s destruction was totally unlawful.

Name: Matthew Farnum-Schneider
Date: February 20, 2026 2:06:12 am

The East Wing of the White House should have never been destroyed and should be restored brick by brick to its original design.

Name: Lacey Hatmaker
Date: February 20, 2026 2:10:23 am

We should not be destroying historical public property that is well maintained and in good repair just for the sake of it. The amount of money proposed for this project is unnecessary. I would like to see the East Wing restored. This project was not reviewed or permitted properly from the beginning and should not be occuring.

I am writing to voice my objections to the planned construction of the 90,000 square foot ballroom, which would replace the now former East Wing of the White House, torn down this past fall by the Trump Administration without the approval of Congress, or any other organization or service that presides over historical buildings in the city.

The plans for this ballroom seem to be completely incongruous and out of proportion and character with the existing

architecture of the historic White House, and they leave me with the impression that both the history and beauty of the original People's House is being erased and replaced with something that is overly large, ostentatious, and foreign in feeling; and which has no meaningful relevance to the original architecture of the House, or even the lawn on which it is sited.

The present White House is considered a premiere example of the Neoclassical Palladian style of architecture, built by the Irish architect James Hoban between 1792 and 1800, said to be influenced by Leinster House in Dublin. The White House is the most important symbol of our country, representing America and its ideals of Democracy. It carries the historic memory of all of the past Presidents who have lived there and the notable events that have shaped our nation's history. The architecture itself can be described as "understated elegance," with the original mansion being perfectly positioned in the center of the front and back lawns, surrounded by a fountain, as well as trees and shrubs that elegantly frame the House and grounds. It is both elegant inside as well as out, with its many beautiful rooms, paintings, and furnishings. The large, open back lawn looks out towards the National Monument and beyond, and is home to a substantial number of trees growing on it that create a lightly forested area in a lovely park-like setting, while also providing privacy for Presidents and their first families, in the middle of the city. The positioning of the home with its beautiful front portico and circular drive through, and front and back lawns was carefully done. The stately appearance of The White House as seen from Pennsylvania Avenue and Lafayette Park, is also one of beauty and timelessness. It is situated like a jewel in the middle of the busy downtown area and surrounded by the lovely plantings and trees which until recently, partially hid both the East and West wings. The back of the White House has equally lovely architecture, with its large, circular Truman balcony and South Portico, framed by the double twin staircases on either side that bring people outside to the enjoy the view of the expansive back lawn.

The White House has been an enduring symbol of hope and prosperity, as well as all the ideals of Democracy, including freedom, equality, and justice around which our country has until most recently, been built. The White House was never meant to be an imposing palace, but rather just the opposite. Known as "the People's House," it represents all citizens who live in our country, as part of our Democratic ideal, and as such was created to be an open and welcoming place. It was not meant to overwhelm or to impose upon the setting like the planned ballroom architecture seems to, destined to replace the gracious East Wing that has now been torn down, without approval or permission. The ballroom plans show it extending outward to take over nearly one-half of that side of the back lawn. The plans seem to show this structure whose scale is so large that it competes visually with the size of the original White House, altering the gracious symmetry of the two, balanced wings which were built lower in height so as not to take away from the focal point of the central features of the mansion. As seen in a photo featured in the below article found on the "Thought.co" website, the White House's two wings were actually tucked away on either side of the main portion of the mansion, and surrounded by beautiful trees which created a secluded, park-like setting all across the lawn, making one feel that they are not really in the middle of a city.

Please visit the following website to see several photos of the White House, and one particular photo that shows its two wings from an aerial view, framed and hidden by trees on both sides, at this link:
https://www.thoughtco.com/the-white-house-washington-d-c-178067
Citation: Craven, Jackie. "Building the White House in Washington, D.C." ThoughtCo, Apr. 24, 2025, thoughtco.com/the-white-house-washington-d-c-178067.

One of the most well known facts about the original design and planning of the city of Washington, D.C. is that its buildings were not allowed to be built too high so that they might obscure a view, and the open green spaces that characterize the city from the lawn of The White House to the National Mall, and around the tidal basin where the Jefferson and Lincoln Memorials are, as well as other parts of the city that expand outward towards Georgetown for example, are all noted for their beauty. The city was never meant to hold large, imposing structures that would not fit into this original design. Its historic legacy can be seen in the many beautiful buildings found across the main section of the downtown area along Connecticut Avenue from Dupont Circle, south to 17th Street and on, to the National Mall. These features are part of an overall, carefully designed plan created by Pierre L'Enfant that had elegance, symmetry, and logic built into it. L'Enfant's plan was inspired by Paris and the Baroque style of architecture. It was described as having "radiating avenues and grand public squares, as well as elevated locations" that were centrally positioned and proportioned within the plan, (such as the siting of The White House). The original design of the city has served us all well for the past 250 years, in fact.

While the Trump Administration describes their ballroom project as solving a problem of lack of entertainment space at the White House where the need to be able to hold large numbers of guests and foreign dignitaries is being answered, I think that the ballroom would in fact, be a large, overwhelming structure that lacks the warmth and elegance that the original White House has. It is a cold and imposing structure that constitutes an enormous eyesore on the horizon next to the White House. With a price tag of $400 million, it also seems like a huge waste of money, whether privately funded or

not; and gives the impression more of a private palace in which the President can hold his own private events (some which may not even have anything to do with the important issues facing our government and country, today). Although the project is described as being architecturally in the same "traditional spirit" as the current White House architecture, the architectural plans indicate something that would be much too large to be sited next to the main House, creating a visual distraction, even though it would be turned at a right angle, and connected by some type of covered hallway. It competes visually with the elegant design of the original White House, which also features Palladian windows, but much smaller ones than in the proposed ballroom. There is no aesthetic or tasteful integration with the main house, and the number of large, full-room-length Palladian style windows on all four sides of the ballroom completely dwarf the smaller, elegant ones found in the original White House. Furthermore, the temple-like feature with columns designed for the back end of the ballroom that resemble a Greek portico, looking out over the lower half of what would be left of the back lawn, seems to be yet another overwhelming detail. The architecture of this ballroom is cold and uninviting to be perfectly blunt. Furthermore, the lawn, which has been an area where Easter egg rolls and other holiday events have been celebrated over numerous years, would now have an additional circular driveway across the center of it, presumably to drive the guests in and out of the area, creating more cement and traffic, where this lawn once was. This ostentatious ballroom does not really fit with the historic aesthetic and elegance of The White House at all, or the lovely lawn and grounds as they appear today. It just overpowers and obliterates them. Trees that have graced the White House lawn for a century or more would be eliminated to make room for this new monstrosity. The ballroom is so large in scale as to dwarf the original mansion, and would totally transform the grounds in a very unsettling way.

What then, is the point of historic preservation if buildings like The White House and its grounds, which have been until recently considered sacred, can just be replaced and transformed in such a bold manner, destroying the physical appearance and beauty of what has been recognized for over 200 years as a symbol of our country and all it stands for? The fact that this historic property and its history can now be completely overwritten and overpowered by a ballroom which is nothing more than a vanity project for President Trump, is astonishing.

While it may be true that there is a lack of meaningful space for large groups for entertainment, the sheer size of this ballroom is just out of proportion to the rest of the grounds, and the White House building itself. If history is now so indispensable that no one any longer cares about the original architecture of the White House or its beauty and tasteful design, not to mention historical significance, then what kind of a nation have we become? Although the ballroom is a separate building, its size is unacceptable and it looks totally alien and out of place. If the plans were scaled back and more tastefully integrated, and they were to leave surrounding woodland intact, then it might become more acceptable. But currently these plans in fact have not been approved by Congress or the National Trust for Historic Preservation, and no one else other than President Trump and his private donors has had any say in them. The building does not represent our country in any meaningful or useful way, and the President really does not have the right to make such a huge transformation without seeking the approval of Congress, the National Park and Planning service, or to abide by the recommendations of the National Trust for Historic Preservation. The plans need to be scaled back to a more reasonable size, or just stopped altogether until others can have a voice and weigh in on what should replace the now destroyed East Wing.

I lived in the Washington DC area for many years and worked as a docent at the nearby Corcoran Gallery of Art, which is a fine example of French, Beaux-Arts architecture and design. The museum's original art collection is now dispersed at other museums across the city, due to the unfortunate bankruptcy and mismanagement of the museum's funds by the former Board of Trustees. I am familiar with the architecture of Washington, D.C. as well as its museums and artworks, and I believe that this architectural plan does not really meet the standards of the city, its beauty, or its past. We need to rethink whether allowing such a large and drastic change is really in the best interests of the city and its design, as well as the people, and future occupants of The White House. As mentioned in one of several articles in The Washington Post about the ballroom project, emphasizing statements made by Judge Leon who is presiding over the case currently before the court that was brought by The National Trust for Historic Preservation to block the building of the ballroom. Here are some notable quotations and thoughts from two of the published articles on the project:

Article 1:
Commission, packed with Trump allies, approves White House ballroom project
-The Commission of Fine Arts voted unanimously to approve the nearly 90,000-square-foot building’s design. A federal judge is weighing whether to halt the project.

Gift link:
https://wapo.st/3OlZPRC

"The National Trust for Historic Preservation, a nonprofit charged by Congress with preserving historic buildings, criticized the commission’s unexpectedly truncated process, including the decision to approve final plans that were not

presented or reviewed."

"The commission “bypassed its obligation to provide serious design review and consider the views of the American people,” the National Trust, which is suing the Trump administration to stop ballroom construction, said in a statement. Trump has framed the ballroom as a top priority, repeatedly extolling the design in public remarks and saying that presidents need a permanent space to entertain VIP guests. He has also defended the cost of the planned $400 million project, saying that it is being funded by private donations."

"...the White House had failed to undertake legally required reviews as well as obtain authorization from Congress before demolishing the East Wing."

"Democrats and watchdog groups have questioned whether ballroom contributors, including major corporations such as Amazon, Google and Palantir that collectively have billions of dollars in contracts before the administration, will receive special access or other perks in exchange for their gifts. (Amazon founder Jeff Bezos owns The Washington Post.) Some Democrats have acknowledged the potential value of renovating the White House grounds but said the ballroom should be far smaller and go through congressional review, to ensure transparency."

"Polls have found that most Americans oppose the president’s planned ballroom. Twenty-five percent of respondents said they supported tearing down the East Wing to build the ballroom, compared with 58 percent who opposed the project, according to an Economist/YouGov poll conducted this month."

Article 2:
Federal judge questions Trump’s authority to build White House ballroom
-Judge Richard Leon focused on whether the Trump administration’s use of private donations to fund the $400 million project was an “end run” around Congress.

Updated January 22, 2026

Gift link:
https://wapo.st/4rvN19Z

""A federal judge on Thursday questioned whether the Trump administration is legally allowed to build President Donald Trump’s planned White House ballroom, asking Justice Department lawyers to cite a law that gives him the power to do so."

"The National Trust for Historic Preservation, a nonprofit group charged by Congress with helping preserve historic buildings, sued the Trump administration in December, arguing that the White House had failed to undertake legally required reviews as well as obtain authorization from Congress before demolishing the East Wing."

“The president is a temporary resident of the White House. He’s not the landlord,” said Tad Heuer, a Foley Hoag lawyer representing the National Trust, calling for a halt to construction.

“He’s a steward,” [Judge] Leon replied."

Name: Nina Liakos

Date: February 20, 2026 2:49:04 am

I oppose the East Wing Modernization Project. This $400 million construction began without National Capital Planning Commission approval, without required environmental assessments, and without congressional authorization mandated

by federal law for construction on federal parkland in Washington. These violations should not be rewarded with after-the-fact approval.

The funding creates unacceptable conflicts of interest. Corporations holding billions in current federal contracts with this administration are funding a construction project at the residence of the president who controls those contracts. This is not charitable giving. This is an investment in access and favorable treatment.

The White House belongs to the American people, not any individual president. I urge the Commission to reject this proposal until full legal compliance is achieved, including congressional authorization and completed environmental assessments. No temporary occupant should possess unilateral authority to demolish historic structures without following the law.

Date: February 20, 2026 3:05:35 am

The destruction of the White House East wing is a travesty and the idea of replacing it with a ballroom is both an embarrassment and a misappropriation of government funds. I do not support the construction of a ballroom in any way, shape or form. I think no construction or demolition of public government buildings should take place without first going through the appropriate application and approval process.

Name: Mj Cavallo
Date: February 20, 2026 3:08:40 am

I was very disturbed when Trump had the East Wing bulldozed. The symetical ballance that lent dignity to the White House is forever gone.

The plans that have been submitted so far call for a huge ballroom. Aside from its being financed by private individuals and institutions, the grandiose size will destroy preportions. It will diminish the House itself.

A smaller, proportionate addition is far more desireable. I also wonder how it will effect traffic in this congested area.

Name: Brooks Robinson
Date: February 20, 2026 3:14:44 am

I oppose the proposed plan to modernize the East Wing. From what I have seen in public reports, its huge size is inappropriate in relationship to the main White House building: it is aesthetically offensive. In addition, one of the most significant aspects of the White House is its modest size, which symbolizes and conveys humility. We call the White House the People’s House for a reason: we are not a monarchy.

Equally offensive is the ethical murkiness of the plan to fund this project. I am a retired civil servant, and I always understood that our government was not allowed to take gifts from private citizens. Is it not actually illegal to fund the project this way?

Name: Robert Mallah
Date: February 20, 2026 4:12:36 am

Against the Trump ballroom replacing the historical East Wing. The East Wing should be reconstructed at Trump's expense..

Name: Mary-Louise Totton
Date: February 20, 2026 4:12:58 am

The demolition of this historic structure is not a modernization but an erasure of a historic public monument. This was done without authorization and the destruction has broken multiple laws. I want the East Wing rebuilt and restored and those guilty of this unlawful act punished. We are a nation of laws.

Name: Sherri Baker
Date: February 20, 2026 4:19:34 am

I oppose the spending of $300 million on project ballroom, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans. It isnt Modernization, it is the current President Trump in abuse of power, and I as an American, want to see the White House shine again in its original glory.

Name: Shane Meeker
Date: February 20, 2026 4:22:25 am

I am totally opposed to constructing a ballroom where the East Wing formerly stood. Trump should be required to restore the East Wing, as it was, at his personal expense. He doesn't intend to use it as a ballroom, but rather as a throne room.

Name: Allen Bergal
Date: February 20, 2026 4:38:37 am

I am opposed to the building of a giant ballroom to replace the illegally destroyed East wing of the white house. I want grass planted over the site till this excuse for a human at the helm of our grand country is gone. I do not want illicitly gained monies to be used to build a public building that no one will want to use. Please stop the madness.

Name: Marcy Taylor
Date: February 20, 2026 4:49:46 am

The White House belongs to all Americans, not the President whom we allow to reside in it while in office. It is a National Historic Landmark and a National Park. Donald J. Trump demolished the East Wing without notice, without bothering to adhere to legal restrictions or protocols, without obtaining permits, and without bothering to preserve elements of it that held historical significance. It was a spectacular act of vandalism which must not be tolerated, let alone encouraged by letting him replace it with a vanity project.

The National Capital Planning Commission should demand reconstruction of the East Wing as it was before it was illegally demolished. No deviations from the original should be allowed. Donald J. Trump should pay for reconstruction from his personal funds. The taxpayer has already been harmed once by his lawless actions in this regard and should not

have to pay again to remediate the damage he wrought.

No one is supposed to be above the law in the USA. That is established by the Constitution, no matter what DOJ policy says. Law enforcement should pursue punishment of Donald J. Trump for the crimes he committed when he tore it down. Private donors to his project should be charged as co-conspirators in the crime. The National Capital Planning Commission should make appropriate referrals to law enforcement to initiate that process.

Name: Neil Krupnick
Date: February 20, 2026 5:12:22 am

The White House is the People's House, not any single individual or administration. The current president is a temporary tenant of the People's House and it is not for him to decide what can be destroyed or built on the property. There is a lawful process for that which he has wilfully ignored. The destruction was bad enough. What the president is proposing is nothing less than a monstrosity.

I urge the National Capital Planning Commission to require reconstruction of the East Wing in keeping with its historic design and size. Anything constructed on the demolition site going forward must be compatible in form and subordinate in scale to the original structure of the Executive Mansion.

Thank you for your attention to this matter.

Name: ANN PICKENS-CLARK
Date: February 20, 2026 5:13:41 am

I am horrified that the correct process for making massive alterations to the White House has not been followed and that destruction of the East Wing has already occurred. The White House is owned by me and all other Americans, and has been curated so well to date by the National Park Service, so to have the present resident willfully destroy property and plan a major rebuild without due consideration and process is akin to damaging my own house without appropriate permission. The White House is one of the most iconic buildings in the United States and We the People deserve the opportunity to be heard regarding any changes to it, so that we can help shape decisions that affect our shared national heritage. The present occupant of the building will vacate at the end of his present term, but the building will continue to reflect the heritage and values of our country for many years more.

I wish for an immediate halt to any works on the building until the legally required federal review process has been undertaken and congressional approval obtained following the review. So far, there is no transparency, no accountability and a huge stench of cronyism and corruption. This is not the American way and I want my voice to be heard to ensure that the correct controls are placed on any building works at the White House.

I am requesting the restoration of the exterior dimensions and architectural style, update wiring etc. and make interior ADA accessible where possible. Follow past process for making needed but historically sensitive changes. If a ballroom is needed, construct it elsewhere in the city.

The White House is the people’s house.

Sincerely,
Ann Pickens-Clark
A proud American citizen

Date: February 20, 2026 5:16:04 am

I am strongly opposed to the buidling of a huge ballroom as part of the East Wing White House project. I had the honor of working in the White House years ago and of a few limited visits to the East Wing. The proportions and stateliness of the East Week were memorable. I believe contructing a massive, out of proportion ballroom will destroy the look, feel, and message that the White House use to have as a people's house, where the president and his family could live and those adivising the president could work. Adding a huge ballroom that is as large or larger than the rest of the parts of the White House sends a very different message that the White House is about gilded age style balls that only the rich and connected

can attend. I also object to the funding mechanism for the ballroom, as it simply breeds corruption and a desire to buy favor with President Trump.

Name: Linda Donnelly
Date: February 20, 2026 5:20:08 am

This destruction of the “People’s House” is outrageous. The talk of remodeling the ball room didn’t sound absurd but then this administration tore down an entire section of the White House.

Please stop this project and try to repair our house.

Name: Jasin Horowitz
Date: February 20, 2026 5:31:51 am

The work on this project should not have begun without public comment and input. We cannot undo what has been done, but we can work towards putting it back the way it was before it started. There is no reason for this large out of character for the building structure to be built. Please have them return it back to what it was as close as possible as soon as possible. The proposed project is too big and unnecessary for the space while also undercutting the historical significance of this location.

Name: Gail Obrien

Please return the east wing to its original historic glory. It means so much to many American families of all generations.

Name: Sandra Ellingson
Date: February 20, 2026 5:43:23 am

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans. If it is anything like what was done to the Rose garden, then I oppose it 100%.

Name: Matthew Sanders
Date: February 20, 2026 5:43:39 am

To Whom it May Concern:

I strongly oppose the current plans in place to build such an ostentatious ballroom. This is clearly not in the public interest, but yet another example of a personal vanity project undertaken by the man currently occupying the White House. This project deserves the proper review and oversight to ensure transparency.

Sincerely,

Matthew Sanders

Hello,
I am writing out of deep concern for the proposed White House ballroom project. While the illegal damage has been done to one of our country’s most sacred buildings, The People’s House, without any respect for historic preservation, the steps

to complete and repair this ‘modernization’ must be taken with care and utmost consideration. The renderings that have been presented show a structure that is completely out of scale and dwarf the White House entirely. There has been no oversight to this project and decisions are being made hastily and without any attention to appropriate design. Historic places matter especially when they are a symbol of our nation and our democracy. I beg that this project not be rushed and that design is held paramount with the utmost respect to the architecture and scale of the White House. The People’s House does not belong to any one person, but belongs to all of us and must be treated with care and consideration. Thank you for your attention to this matter.
With respect and concern,
Cooper Herrlinger

The White House is the People's House. Does Trump plan to invite the American People to enjoy this ballroom? Did he get the proper authorization to tear down the East Wing and build something meant to aggrandize himself? Both answers are NO. There needs to be a reckoning.

Name: Mary Ellen Camele

Asking for comments AFTER demolition has commenced is a cruel joke on the public. The Epstein BFF Trumpf will be impeached over this.

Name: Debra Graves
Date: February 20, 2026 6:12:19 am

Without due review, comment and study, the current administration chose unilaterally to destroy history. Simply: that’s not ok. The White House is the people’s house, not theirs to tinker with based on whims or fancies. Either a) rebuild what was torn down, or b) commence a study / review of what can be built to enhance the site. No one is above the law. No one.

Name: Brenda Wright
Date: February 20, 2026 6:18:36 am

I am adamantly opposed to the spending of $300 million on this project. This is not a modernization project but rather a further complete trashing of American history. The White House is not owned by any singular president and they have no right to redesign it without respecting the proper channels in place. The damage already done is a national tragedy and the East Wing needs to be rebuilt to accurately reflect the historical perspective of the White House, the People's House. The new wing should be compatible in scale and design of the White House and be subordinate to the original structure.

IF a new ballroom is needed, it should be built somewhere else where there is room for a larger building, adequate parking and better traffic flow for historic, safety and security reasons.
Thank you for your time.
Respectfully and sincerely,
Brenda Wright

Date: February 20, 2026 6:25:32 am

This is quite simple.

The White House is the "people's house", not Trump's personal residence.
There is no NEED for this ballroom.
The administration did NOTHING that is was supposed to do as far getting PROPER PERMISSIONS.

It is just another PAY-TO-PLAY scheme.

Stop this NOW!

Thank you.

I am writing to express my concern that the East Wing Modernization Project is taking vital public resources, destroying part of an historic building, and circumventing the regulatory practices that help keep development of U.S. buildings and landmarks of a quality that fits our country's history and beliefs. Adding a fancy ballroom to the "people's house" is unnecessary, shameful, and embarrassing, regardless of whether it is privately financed or not. Please stop all construction until the normal channels for development are followed.

Name: Susan Kappler
Date: February 20, 2026 6:30:31 am

I am appalled at the destruction of the East Wing of the White House without approval by oversight agencies. Our history should not be replaced by the travesty that is being proposed. The White House should remain a symbolic image of the humility of the presidential office and not a grand pseudo palace. We should replace it as it was and ensure that the vanity project ballroom never is built.

Name: Susan Berry
Date: February 20, 2026 6:33:09 am

I am greatly opposed to the tearing down of the East Wing to build a ballroom. As a taxpayer and that being the People's House, I have a say in what should be done.
I believe the East wing should be rebuilt to serve the same purposes as before. Historically the People's House was not designed to be a palatial party house. The bigger the ballroom, the bigger the events and all of that is at taxpayer expense. Anything that is done should have to go through the proper channels and keep to the same rules a building of historical significance goes through. It should never be up to whims of one man/woman to decide what to do to the People's House!

I am an American born citizen. I do not approve of any part of this $300 million dollar vanity project. Trump did not ask permission from you, Congress, the American people, he did not abate the demolition properly, have a plan or any sort of design. The East Wing is iconic, historical and cherished. We don't need a ballroom. Not even if were the right size.

If the East Wing needed some modernization, Trump should follow protocol, and ask permission FIRST. I would also say he alone, using his own money, should pay for proper abatement, and reconstruct the East Wing as it was.

Thank you.

To Whom It May Concern:

As a follower of history and the preservation of historic structures, I was very disturbed by the destruction of the East Wing and all the history that was lost. Now, I am deeply concerned that the new construction will overwhelm the White House itself and may also permanently disrupt the carefully balanced classical design of the White House with its two smaller, and lower, East and West Wings.

The White House is owned by the American people, and I am grateful for the opportunity to submit comments about this historic building, with its design approved by President George Washington himself! The White House is a National Historic Landmark, a National Park, and a globally recognized symbol of our nation’s ideals.

Please follow the federally recognized Secretary of the Interior’s Standards for Rehabilitation which state that new additions should not destroy the historic fabric of the property and that the new work should be compatible with existing massing, size, scale, and architectural features.

I respectfully urge the Administration and the National Park Service to PAUSE demolition until plans for the proposed ballroom go through the legally required public review processes, including consultation and review by the National Capital Planning Commission and the Commission of Fine Arts. And please consider the opinion of people like me, who have a high regard for history and architecture and want to see our US treasures preserved for generations to come.

Thank you for reading.

I oppose this illegal destruction of the historic East Wing of the White House and the plans to create a giant gilded ballroom that serves no purpose other than to feed the massive ego of one senile man. No one applied for the proper permits to do any of this. There was no formal approval. This historic House and all its property belong to the people of the United States of America and is subject to the laws and regulations required for the renovation of National Historic properties. Not only must it be rebuilt exactly as it was, this president should be subject to the same consequences as any citizen would be for the senseless destruction, and he personally should be financially responsible, for the entire bill.

Name: Nancy McDermott
Date: February 20, 2026 7:00:26 am

It's despicable that the people's house has been destroyed. Our house has been ruined by this destructive administration without our consent. Shameful actions are taking place in our name with our taxes! Put it back and investigate this

miscarriage of justice.
Concerned citizen and I pay my taxes, unlike the Epstein class of this country.
Do something right for the people!

Name: Melissa Evans
Date: February 20, 2026 7:01:28 am

This is an abomination and destruction of the people's house to serve a sociopath's ego. It must be stopped.

Name: Harry Cooper
Date: February 20, 2026 7:04:12 am

We are not a monarchy and the White House is not a palace. Unbalancing the classical symmetry of this notably modest head-of-state residence when compared to that of other nations by adding an outsized and overweight ballroom as its new east wing is not just aesthetically objectionable but far more important would announce in concrete visual terms that the social function of holding lavish parties is of more importance than the Presidential work of guiding the nation.and serving the people. Let us remember who serves and who is being served.

Name: Sarah Lydon
Date: February 20, 2026 7:07:59 am

I cannot remember ever being moved to write on behalf of the preservation of a building that I did not know and love personally, but like many Americans I have been appalled at the thoughtless destruction of the East Wing of the "people's house" and feel strongly about its future. The project cannot continue without the oversight and guidance of professional architects, landscape architects, historians, hopefully to rein in the horrifying excess, pointless expense, and utter disharmony of the current plans. The precedent being set here is shameful.

To whom it may concern,

Please keep the White House in its past style - additional space is ok, but something double in size is not. Maybe update wiring, have ADA entrances added. Do not let the current administration run rampant and destroy the inherent integrity of the peoples house.

Thank you,
Kristy W
Leesburg

Name: Vickie Stangl
Date: February 20, 2026 7:09:57 am

The East Wing was destroyed without any regard for the historical importance of the building & as a national treasure to the American people. I am heartsick at this destruction. We took our 8 & 11 year old granddaughters to visit the White

House the year before it was illegally demolished.We now treasure those memories & pictures of the East Wing, gone forever. I can only urge you to restore the East Wing as historically accurate as possible. To do anything less is a betrayal to America & makes a mockery of preservation efforts & our history. History matters!! President Trump simply had no legal right to tear down the historically rich & revered East Wing. A massive ballroom is totally contradictory to the history & purpose of the “People’s House” & does not reflect the simple elegance of our young nation during the Federalist period. Please restore our home to its historical roots. Thank you.

Name: Megan Simpson
Date: February 20, 2026 7:15:31 am

I oppose this project, which is not a modernization but an erasure of history. It’s a vanity project by a president who did not follow legal procedures to authorize it and an affront to the American people. The project should be halted and The East Wing should be restored to its previous form.

Name: Elizabeth Edwards
Date: February 20, 2026 7:18:16 am

This proposed monstrous ballroom addition must be stopped. I don’t understand how an entire wing of the White House, the people’s house, and its history, have been demolished without giving us a voice in the matter. It’s an outrage. I don’t understand how we got here…

Name: Suzanne Nicoletti-Krase
Date: February 20, 2026 7:19:07 am

Remember the East Wing of the White House? Remember the giant ballroom that the tech billionaires have agreed to fund in its place? The National Trust for Historic Preservation is making a gallant effort to stop this. And we can help.

Thanks to the National Trust, we have until March 4 to submit comments about the ballroom to the National Capital Planning Commission. You can make a comment through the link below (click on Submit Comment). PLEASE NOTE, the project is called East Wing moderninization

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. I am writing to express my opinion as a U. S. citizen that the White House should not be altered with a new fancy ballroom. The White House is a National Historic Landmark and National Park, owned by the American people and stewarded by the National Park Service. My husband and I visited it two years ago. As a historic place, I think it should be preserved as is. I also feel that the new ballroom will only benefit the rich and powerful (who will be entertained

there), at taxpayer's expense. Ordinary people are struggling and will receive no benefit from this ballroom, and should not have to pay for it. Most ordinary people will never set foot in it. This is taxing the relative poor to benefit the most privileged, powerful, and wealthiest people. The White House is already quite impressive now, and does not need this "improvement." Thank you for taking this comment.

I oppose the East Wing Modernization Project.
This project began without required National Capital Planning Commission approval, without environmental assessments mandated by the National Environmental Policy Act, and without congressional authorization required by federal law for construction on federal parkland in Washington.
The $400 million cost is funded by corporations holding billions in federal contracts with the administration approving those contracts.

This creates an unacceptable conflict of interest.
The White House is not private property. It belongs to the American people. No president should have unilateral authority to demolish historic structures and approve construction without following the law and allowing public input.
I urge the Commission to reject this proposal.

Name: Toy Moreira
Date: February 20, 2026 7:34:51 am

I strongly and unequivocally oppose the decision to proceed with the construction of a ballroom on the White House grounds following the destruction of the East Wing, particularly in the absence of proper congressional authorization. Such an action reflects a troubling disregard for legal process, institutional checks and balances, and the preservation of a historic national landmark. Decisions of this magnitude demand transparency, accountability, and adherence to the rule of law.

I beg for someone to halt this project. The White House is the People’s House, not Donald Trump’s to do whatever he wishes to do to it. I KNEW he had plans to build a ballroom (which I thought was ridiculous because the White House already had one), but he had insinuated the current structure would remain untouched. All of a sudden, I see on the news a gaping hole where the West Wing stood. Now he is trying to do the same to the East Wing. This devastation has caused me mental harm. The destruction of a symbol of our lovely democracy, WITHOUT going through the proper channels OR even letting us, the people, have a say so in all these decisions is abhorrent. Please stop this madness and restore the White House to its former glory.

Name: Erin Blackwood
Date: February 20, 2026 7:41:05 am

I oppose what is being called the "East Wing Modernization Project" because it is an illegal and amoral destruction of US History, This demolition was initiated without public input, proper consent or permissions. It is especially offensive because this is The People's House, and The People have had no say in this destruction of history. There has been no true public accounting of a budget for this, or the final design of the proposed renovation. I want this project cancelled. I would like to see the involved decision makers and donors fully investigated and prosecuted if that is called for. No one is above the law, not in the United States. Please protect our history, decency and The People's House. Please restore the East Wing to its previous glory. Thank you.

Name: Lesa Moll
Date: February 20, 2026 7:42:01 am

I believe modernization and increasing the size of the east wing is a great idea. It is said that the White House is the people’s house, but citizens can not just walk into the “people’s house.” For now, it’s President Trump’s house and he should be able to do whatever he pleases with his home. Those that are opposed to this project are just opposed to Trump. He’s our president, give him the respect that he deserves and has earned. May God bless America and President Trump and let all the fighting against him stop!

Name: Matthew McKenzie
Date: February 20, 2026 7:43:58 am

Good morning,

I'm writing to express my extreme displeasure and disgust at the East Wing "Modernization" project. It was not needed, it

was done haphazardly, and done without a defined process to enable all stakeholders

The White House is the Peoples' House, not the personal project of the President. It is a *privilege* for someone to be able to live there, but that does not mean they own it. The President does not get to do whatever they want to the White House, and they *certainly* do not get to do permanent lasting changes to the building without intensive consultation with all stakeholders, which includes the people of the United States. Asking for comment from the public *after* the East Wing has already been torn down is absolutely insane.

Also, the funding methodology for this is absolutely undemocratic and against the nature of the United States. If this need to be done, then Congress should have debated it and allocated money for it. Accepting donations from the largest corporations not only appears like corruption and favoritism, it actually is.

And look, everyone knows there's a bunker under the White House. And it probably needs to be renovated and upgraded significantly. Just be honest about that (and then get Congress to allocate the money for it). The secrecy and subterfuge about that is just mystifying.

Name: Mary Cottrill
Date: February 20, 2026 7:47:52 am

First how can you modernize something that doesn't exist? An event space should be built, but why not share it with the country? Build a grand and secure space that can be used by more than just the President. This is a democracy, right? Rebuild the East wing with an updated bunker and then build an event space that is secure with underground, drive in entrance...but something that can be used by citizens for other gatherings...and make it flexible for various events. This should not be a monument to one man and one man shouldn't tell WE THE PEOPLE what we should do.

Name: Donna Hartmann

Date: February 20, 2026 7:52:44 am

I am a citizen of the United States and a retired person who has traveled to Washington, D.C. many times, touring the major federal buildings and monuments, including the White House itself. Over the years, I have watched friends, family members, and other visitors react with awe as they see the White House and the surrounding civic landscape for the first time. The architecture and planning of our capital are not simply backdrop; they help people feel connected to our shared history and to the idea that our government can do serious, thoughtful work on behalf of the public. The classic proportions of each building, and the harmony among them, communicate dignity, stability, and a sense that great things are possible through careful, collaborative planning and perseverance.

From that perspective, I am deeply concerned about the demolition of the East Wing of the White House and the proposed design, size, and proportions of the new East Wing ballroom complex. It appears that demolition moved forward before the American people had a full and transparent explanation of the long-term plan for this part of the White House and without a robust public process to weigh alternatives. For a building that is both the people's house and a National Historic Landmark, this is troubling. Decisions that so dramatically alter the appearance, function, and symbolic meaning of the White House should be made slowly, openly, and with clear respect for both preservation law and public trust.

As the National Capital Planning Commission reviews the East Wing Modernization Project, I urge you to focus not only on programmatic needs inside the building, but also on how the project will be experienced from the outside—from the Ellipse and Lafayette Square, from nearby streets and sidewalks, and through the camera lenses that transmit images of the White House around the world. The way this project looks from common public vantage points will shape how Americans and others understand our national leadership and our respect for history. We should be very cautious about introducing forms and masses that make the White House complex feel more like a private entertainment venue and less like a carefully balanced ensemble of public buildings.

The external size and proportions of the rebuilt East Wing must remain in clear visual balance with both the historic Executive Residence and the West Wing. The East and West Wings should read as subordinate, supporting elements that frame and serve the central White House, not as competing or overpowering structures. Classical design principles such as the "golden ratio" suggest that supporting wings should be visually smaller and composed in a way that leads the eye back to the primary volume. In practical terms, that means the height, depth, and length of the new East Wing should be carefully calibrated so that it does not visually dominate the central house when seen from common viewpoints. The exterior of the new East Wing should be organized using harmonious proportions, with window groupings, cornice lines, and façade rhythms that echo the West Wing and respect the character of the historic core.

Materials and details matter as much as overall volume. The visible portions of the new East Wing should use materials and architectural features that are sympathetic to those of the historic White House: similar stone or masonry appearance, appropriate window proportions, and restrained classical detailing rather than flashy or overly monumental gestures. Visitors should experience the White House complex as a coherent whole, not as a patchwork where one administration's priorities are permanently stamped onto the skyline in a way that clashes with what came before and after. Even those who never set foot inside the building will form opinions about our democracy based on what they see from the outside.

Because the East Wing has already been demolished and will be entirely rebuilt, the project clearly qualifies as an "undertaking" under Section 106 of the National Historic Preservation Act. The White House sits within a historic district, is itself a National Historic Landmark, and shares its viewshed with multiple other National Historic Landmarks and properties on the National Register of Historic Places. A thorough, good-faith Section 106 consultation should be central to planning, not an afterthought. That process should identify historic resources, assess how the project will affect them, and genuinely explore ways to avoid, minimize, or mitigate adverse effects. I ask the Commission to insist that this consultation be visible, inclusive, and fully documented, so that the public can see how preservation concerns are being addressed.

Similarly, compliance with the National Environmental Policy Act (NEPA) is essential both for environmental stewardship and for protecting workers and the public. The East Wing was built and maintained over many decades, likely incorporating asbestos, lead-based paint, and other hazardous substances common in older construction. Photographs of the demolition showed heavy dust and, at least from an outside perspective, limited visible encapsulation or containment. For such a sensitive and symbolic site, it is critical to review the planning and execution of demolition to ensure that appropriate surveys, abatement, and monitoring were conducted. Before and during reconstruction, there should be thorough testing to confirm that soils and surrounding areas are not contaminated, and that ongoing construction does not release hazardous materials into the air or groundwater. The health of construction workers, White House staff, visitors, and the surrounding community must be a priority.

The future East Wing should also reflect our values of inclusion and accessibility. The design must incorporate clear, well-thought-out accessibility features consistent with the Americans with Disabilities Act and related federal standards. This includes accessible routes, entries, interior circulation, restrooms, and viewing areas so that people with mobility, sensory, or other disabilities can fully participate in tours, events, and work that takes place in and around the East Wing. A key test of a public building in the twenty-first century is whether it welcomes all members of the public, and the rebuilt East Wing should meet that standard.

Because taxpayers will ultimately bear the costs of maintaining, operating, and securing the rebuilt East Wing, I also urge the Commission to insist on ambitious sustainability and performance goals. At a minimum, the project should be

designed to achieve at least a LEED Gold level overall, and to aim for Platinum-level performance in categories such as water efficiency, energy and atmosphere, materials and resources, and indoor environmental quality. High levels of energy efficiency and water conservation will reduce long-term operating costs and environmental impact. Thoughtful choices about materials and indoor air quality will benefit the health and comfort of staff, visitors, and future occupants. Given that the design and engineering team has experience with green building standards, these expectations are both responsible and realistic.

Finally, transparency and visualization are critical for public understanding and trust. I appreciate the opportunity to comment at this stage of the approval process, but meaningful engagement requires access to clear, scaled drawings, and visual simulations from key public viewpoints. I urge the Commission to ensure that the public can see accurate representations of how the rebuilt East Wing will appear from places like the Ellipse, Pennsylvania Avenue, Lafayette Square, and other commonly photographed locations. Only with that information can citizens truly understand the long-term visual and symbolic consequences of this project.

Thank you for considering my comments. I care deeply about the White House as a symbol of our democracy and as a place that has inspired generations of visitors. I hope the final decisions about the East Wing will honor that legacy by respecting history, protecting public health, advancing sustainability, ensuring accessibility, and preserving the balanced, dignified character of the White House that so many of us know and love.

The East Wing of the White House should be properly rebuilt to its exact previous condition before the unauthorized and illegal demolitions took place. The American people did not consent to this destruction of "The People's House" and no single individual or organization in this country is above the law. Reconstruction of the East Wing to its former standards following proper laws and procedures will be the only way forward to repair the harm done to public trust by American citizens for this country's federal government.

- signed Ryan Lepsch, a deeply concerned American citizen

Name: Gretta Wark
Date: February 20, 2026 7:56:09 am

After the unauthorized destruction of the East Wing, there can be little doubt that this president will treat the construction of a new East Wing as a personal vanity project. His vision, his project plan, his choice of materials, his budget...his, his, his. Please take back this project for the American people before this president leaves us with an expensive, oversized, ugly, non-compliant monstrosity with his name on it.

Name: Myra Donnelley
Date: February 20, 2026 7:56:23 am

Committee Members - This project would better be called the White House Desecration Project. Donald Trump chose to unilaterally order the demolishment of the historic White House East Wing including, reportedly, classified security facilities under the public facing sections of the building. This work was initiated and accomplished without review and reportedly without requisite plans and approvals from ANYONE in place. This is a public building with protected historic status and not a privately owned home that can be torn down and added to willy-nilly by every new, temporary occupant. Public outcry in opposition to the wholesale destruction was immediate, and the Trump government sought to conceal their appalling actions from public view including from the upper windows at the nearby Treasury Building. Once the horrific destruction of this historic wing of an historic structure was a fait accompli, the public, via a court proceeding was informed by Trump Administration lawyers that construction of a new 90,000 sq. ft "ballroom" HAD to continue for "top secret" classified reasons related to the President's security. As many have said this is like rewarding an arsonist burn down a house and then forcing "insurance" to pay to rebuild and massively upgrade it for the arsonist's security and pleasure. While the judge has agreed that underground construction of what we now know is a hardened military security bunker complex can proceed, the above ground, above bunker construction of an enormous "ballroom" facility almost twice the size of the existing White House has been temporarily placed on hold. It is imperative that this "above ground" architectural abomination not be built. Despite the complaints of the current temporary occupant, the White House does not "need" a massive oversize "ballroom". Multiple, alternative, large event assembly spaces already exist across Washington DC - as evidenced by the multiple "Inaugural Balls" held in these spaces in conjunction with every

Presidential inauguration of my lifetime. The "necessary" construction of a supposedly top secret underground military security bunker complex now required by the wanton destruction of the previous White House security facilities by Donald Trump, and, per Donald Trump's own public speeches, a reportedly "hardened" ballroom stucture atop it to be "used for future inaugurations" is mind boggling. Further, holding Presidential Inaugurations which are traditionally ticketed public events that are importantly and symbolically held outdoors on the Capitol Steps and the National Mall, not private events for an elite 900 invitees held inside a glorified White House annex - is an additional undemocratic affront to the institution, traditions and values of the American Presidency as embodied in both the Constitution and in the physical structure of the People's White House. Further, financial support for this massive construction project and hideous boondoggle is being touted as "privately funded", at a level far in excess of what the most "luxurious" construction would require, making the project a giant sucking funnel for on-the-books bribery of the president by high wealth individuals and corporate entities and extortion by the current occupant of the Oval Office. For all these reasons the current plans for a disproportionately massive, above ground White House "ballroom" addition cannot and should not be approved by the Committee.

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Laura Rich
Date: February 20, 2026 7:57:53 am

Trump had no right to destroy the East wing for his vanity project.

The White House must be returned to its previous state. His destruction of THE PEOPLES HOUSE, an historic landmark, was an abomination and an outrage. The destruction of the East Wing Is NOT the same thing as modifying a tennis court to have a basket added to it to play basketball, or adding a pool to an interior space. Those were legitimate modifications done by other presidents through proper protocols.

He had NO RIGHT destroy part of the White House and erect an obscene eyesore of a monument to HIMSELF. A BUILDING THAT WILL TOWER OVER THE EXISTING WHITE HOUSE AND MINIMIZE ITS IMPORTANCE TO THE PEOPLE AND OUR HISTORY.

Trump DOES NOT OWN THE WHITE HOUSE AND CAN’T DO WHATEVER HE WANTS TO IT. HE IS TENANT IN THAT BUILDING, HE DOES NOT OWN IT. THE PEOPLE OWN IT. IT IS NOT A TRUMP PROPERTY TO BE GILDED WITH GOLD AS HE HAS DONE WITH THE OVAL OFFICE, MAKING IT A GROSTESQUE ABOMINATION MIRRORING HIS CORRUPTION.

NOBODY ASKED FOR THIS. NOBODY ASKED THAT HIS NAME BE PUT ON FEDERAL BUILDINGS EITHER, SULLYING THEM. THOSE BUILDINGS ARE NOT HIS AND HE HAS NO AUTHORITY TO RENAME THESE BUILDINGS. IT IS A DISGUSTING ABUSE OF POWER HE DOES NOT HAVE.

ARTICLE TWO DOES NOT ALLOW HIM TO DO ANYTHING HE WANTS, CONTRARY TO HIS DELUSIONS OF AUTOCRACY.

WHAT HE HAS DONE IS WHAT FASCISTS DO WHEN THEY TAKE OVER A COUNTRY TO STEAL FROM TAXPAYERS AND DESTROY THE RULE OF LAW.

I am writing to express strong opposition to the proposed White House Ballroom, in its current design concept iteration.

The scale, the MASS, as I believe most Americans agree, is entirely unsuitable for the “people’s house”. The character of our beloved White House will be altered forever, in the most unfortunate way. This is not to say a more effective way of entertaining on a large scale at the White House is not needed - but this design is clearly not appropriate.

I was saddened, disheartened, and shocked with the speed of the demolition of the East Wing, and now the fast-tracking of this proposal, a FINAL VERSION having been approved by a panel who has not seen or reviewed a final version, is not right. A White House alteration of this scale needs thoughtful consideration, and input needs to be listened to. This is not something to be fast tracked without careful consideration of input by historians, preservationists, top architects, interior designers, and landscape designers. If 99% of letters written to the US Commission of Fine Arts were stating disapproval of the project as it currently stands, this needed to be listened to, and certainly not fast tracked.

I have an interior design background, own a shop focused on design, live in a historical home, and have always had a keen interest in architecture, interiors, and gardens. I care deeply about this. I sincerely hope you will vote to STOP this proposal, and take thoughtful steps to making the White House ballroom something we can all be proud of.

Date: February 20, 2026 8:21:55 am

I think what Trump has done to the WH is absolutely wrong. He did it without getting the usual and required permissions. The WH is a very strong symbol of our country. He thinks he can destroy it on a whim. It is an outrageous affront to our nation. Someone has to step in and stop him. Please, please, please.

Name: Mindy Moak
Date: February 20, 2026 8:22:57 am

Having had the opportunity to grow up in beautiful Washington DC, I am deeply disturbed by one, runaway freight train of ego and his arrogance in remaking the People’s House without the approval of the Americans he is actually supposed to be working for - not the other way around.

Name: Carlos Castells
Date: February 20, 2026 8:23:47 am

The East Wing functioned for more than a century as a visitor and security center, and half a century as a press center and First Lady's offices. These key functions may mean nothing to the current administration, but they do mean something to the citizens of the country, and are practical necessities future presidents will miss greatly. . Thinking "asking forgiveness is easier than asking permission" the East Wing was torn down without authorization. I oppose putting any money, appropriated OR donated, into this project which never should, or would, have been allowed had honorable authorities been in charge.

Name: Sue Lynch
Date: February 20, 2026 8:23:57 am

I oppose the spending of $300+ million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Valerie Alston
Date: February 20, 2026 8:25:44 am

The destruction of the East Wing and its replacement is outrageous. Taking action without following legal procedures is unacceptable. Continuation without consideration and guidance from those architects who have authority and talent is unacceptable. The proposed structure is out of scale with the White House and is an embarrassment to the historical site and reverence to its history,

---

Name: Carol Bonkosky
Date: February 20, 2026 8:26:31 am

The proposed East Wing project was begun without oversight, and demolition began in the dark of night without authorization or normal safeguards for the environment and workplace safety. The remains of the East wing were dumped on public land - public golf courses - in another assault on public property by Trump. The financing arrangement looks like pay to play, and the proposed replacement is far too large, gaudy and overwhelming. The White House is not another Trump real estate project to be built on his whim in disregard to laws, and preservation of history. I am against this yet another attempt at rebranding American landmarks and icons.

Name: Paula Mercer
Date: February 20, 2026 8:26:44 am

I want the Trump East Wing of the White House “plans for modernization” canceled and the East Wing restored to its former beauty. What he did in tearing down the wing had no oversight or authorization. His plans for a ball room are a travesty.

Name: Carroll Pierce

I could not express my opinion better than this person’s:

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Martha Knutson
Date: February 20, 2026 8:36:37 am

I oppose the ballroom and wish to have the East Wing rebuilt and restored as the historic part of the White House that it was.

Name: Sharon Kokot
Date: February 20, 2026 8:37:04 am

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. Total destruction is NOT renovation.

Nothing in the Constitution gives the president the right to assault our history and destroy our monumental buildings in honor of himself. The rebuilding of the East Wing needs to be done with a consensus of support from the full Congress and the public, after a thorough evaluation of how best to rebuild it in a manner that preserves its original design and intent.

I want this project canceled, and the East Wing rebuilt and restored to its former design.

Thank you for considering the legality of the project and the constitutionally-founded opinions of the millions of taxpayers who oppose it.

Name: Thomas Bradham
Date: February 20, 2026 8:38:00 am

Please do not turn our White House into an extremely tacky gold house of baffons!! Wasting money when it may be better used for the citizens of the United States of America.

Respectfully,

Thomas Bradham

Name: Stephen Pezzetti
Date: February 20, 2026 8:38:14 am

This project is an affront to the American people. It is a silly and foolhardy venture. It denigrates the history of this country and the physical building of the White House itself. It should be shut down immediately and not allowed to move forward. In fact the demolition that has already occurred should be reversed and a tree rehabilitation project started to replace the trees removed by this needless and vain effort. NO BALLROOM! God save the USA!!!

Name: Talin Tarkhan
Date: February 20, 2026 8:38:16 am

Stop the destruction of the people's house by a pedo con artist criminal who is occupying it. Destroying everything our ancestors built while committing ethnic cleansing, building concentration camps, killing citizens and those who have the sin of being brown. Doing it all while robbing the US tax payers and getting away with it! Just the same way he got away with raping babies.
STOP THIS ! The White House is ours he doesn't get to " remodel " and build his Epstein memorial " ballroom" while Americans (who he's robbing) are STARVING. Do your job!

Name: Jo Lantier
Date: February 20, 2026 8:38:25 am

This is totally wrong to "modernize" the east wing. It should be restored back to what is was at the personal expense of the president. The American people did not want this and he acted recklessly and without permission.

I repeat. There is no need to spend this money!

Name: Mitch Dwoskin
Date: February 20, 2026 8:38:26 am

I oppose the proposed plan to modernize the East Wing. From what I have seen in public reports, its huge size is inappropriate in relationship to the main White House building: it is aesthetically offensive. In addition, one of the most significant aspects of the White House is its modest size, which symbolizes and conveys humility. We call the White House the People's House for a reason: we are not a monarchy. The President should not have any say in this process or we have we become a monarchy?

Equally offensive is the ethical murkiness of the plan to fund this project. I always understood that our government was not allowed to take gifts from private citizens. Is it not actually illegal to fund the project this way?

Name: Linda Tribick
Date: February 20, 2026 8:40:39 am

Trump has no right to modify, tear down, and/or destroy that which belongs to the people. Slapping his tacky name and tacky Temu gold embellishments on anything and everything his beady little eyes see will never him the respect or admiration of history. The Trump name will forever be associated with waste, fraud, and abuse; not by previous administrations but by him unto the American people. Whatever he and his sham arts board decide to put up in place of the east wing should be torn down as soon as we rid ourselves of this corrupt administration.

Name: Melissa Bridgman
Date: February 20, 2026 8:40:45 am

The White House belongs to all of us. Most of us didn't want the East Wing, Rose garden, or any other historic aspect removed. It is a travesty. Please rebuild as it was.

Name: Bradly Widener
Date: February 20, 2026 8:41:43 am

If a federal project moves forward by skirting the established review process, that should concern everyone—regardless of where they fall politically. The National Capital Planning Commission exists for a reason: to ensure that development in Washington reflects long-term planning, public input, transparency, and respect for the historic character of the capital.

The East Wing project may or may not have merits on its own. But bypassing or minimizing NCPC oversight undermines the very safeguards designed to protect the integrity of federal land use decisions. Rules aren’t optional when they’re inconvenient. They’re the framework that keeps projects accountable, fiscally responsible, and publicly vetted.

If this project is sound, it should withstand full review. If it can’t, that’s precisely why the review exists. We should insist on adherence to established planning processes—not because we oppose development, but because process integrity matters.

Name: Michelle Coombs
Date: February 20, 2026 8:41:57 am

I am vehemently opposed to any renovation or expansion of the East Wing. The project has circumvented all normal planning procedures and did not have the required approvals. The Trump administration should be responsible for rebuilding the East Wing in its original design at their own expense. Tax payer money should not be used to fund a project that was not approved by the people's representatives (Congress), nor should private donations be accepted, as this would inevitably be seen as a bribe - yet another way for both foreign and domestic interests to curry favor with this corrupt administration. The East Wing should be returned to its former state at the expense of the vandal who destroyed it. And while they're at it, they can restore the Rose Garden. Donald Trump has desecrated The People's House.

Name: George Mack
Date: February 20, 2026 8:42:17 am

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Sara Lamar-Sterling
Date: February 20, 2026 8:44:42 am

I oppose this project in its entirety. It is totally unnecessary, a complete waste of money and other resources and a destruction of U.S. history. The project needs to be stopped and the East Wing needs to be returned to its previous status and design before the current administration’s destruction of this important, historical American landmark.

Name: Meg McCarthy
Date: February 20, 2026 8:46:34 am

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project

Name: Beth Macy
Date: February 20, 2026 8:47:17 am

The White House is not a Real Estate deal to rip down and modernize. It is the People's House and belongs to us, the citizens of the United States, not to the president. It is a historic building and a symbol to all of us. It is not a hotel nor is it a beautiful ballroom. It should not be covered in gold and marble as a king would do or an Arab shah. It is rich in history and has been horribly disfigured. It is garish and a cheap display of bullying weakness whereas it before subtly showed the richness and power of the United States of America. Forget the ballroom. Restore the East Wing to its original facade. History is important. We do not need it changed. We do not want nor do we need a ballroom. We want real government and action not a gaudy display. Thank you.

Name: Adelaide Horn
Date: February 20, 2026 8:49:14 am

He has torn down our History!!! You can not let him deface it more by a useless ballroom , just for his edification. This building belongs to the people, not to him or even to the GOP. It belongs to the people. You must restore the East Wing, and you can use his money he has collected, if any for the ballroom, or the GOP campaign chest, since they allowed this.

NO BALLROOM. RESTORE THE WHITEHOUSE!!!

Sincerely,
Adelaide M. Horn
Former Commissioner, State of Texas, former Department of Aging and Disability Services

Any new construction should 1) match the historical architecture of the White House, 2) follow architectural guidelines already in place for new construction, 3) protect current White House buildings

---

Name: Shannon Everhart
Date: February 20, 2026 8:54:18 am

I think Trump should not be able to destroy our nations White House, 5he President’s residence. The only time it has happen it was burned by our enemy in the war of 1812. Do we now consider Trump to be any enemy of the United States?

Name: Daniel Markos
Date: February 20, 2026 8:56:12 am

Shameful, offensive, and unnecessary. This administration has already done plenty to desecrate the White House. This cannot be allowed. It must be stopped.

Name: KATELYN Cummons
Date: February 20, 2026 8:57:20 am

The White House is the symbol of the United States. While our presidents may change, this structure holds the beacon for each successive newcomer. It houses the traditions, historical moments, and decisions that will survive the people that visit. That must be remembered. Each resident is just a visitor. They are placed within its walls to fulfill a duty to the American people. The duty that each citizen of the United States holds. Historical residences and symbols will need restoration. That is an understood passage of time that reveals itself. However, the White House is not a personal residence to be upgraded to satisfy the personal whims of the individual inside of it. The project represents the individualistic motivations and one that is not based on the good of the people, but the placeholders that currently reside in the walls.

Name: Rita Owen
Date: February 20, 2026 8:57:29 am

I strongly oppose this $300 (or more) project. The existing structure was demolished without authorization or approval of the appropriate authorities and a constitutes a rejection of American history. I want this project cancelled and the East Wing rebuilt and restored in a form commensurate with its former design.

Name: Lesa Nelson
Date: February 20, 2026 8:58:04 am

This is the most ridiculous proposal. The cost of living in this country is increasing every month. Electricity for our homes is at an all time high with rate increases in the future. Seniors on a fixed income are losing ground and we have a government that is ignoring the people while razing the White House to build a ballroom with guilding. NO, the east wing needs to be rebuilt. It should never have been demolished-the president had no authority to tear it down which he knew or he would not have done all this without input or permission. This is the people’s house not one man’s vanity project. NO BALLROOM.

Name: Molly Kunselman
Date: February 20, 2026 8:58:22 am

This project is riddled with flaws. The timeline is too fast for citizen input, and judging from the proposed design, it’s too fast for the design team to develop something appropriate or desirable. The proposed design dwarfs the existing structures, ruins the existing symmetry and balance, and proportionally gives the wrong message about what “the people’s” house is and why it exists. The White House is not owned by tRump and he has no right to alter it so profoundly in such mediocre fashion and without public awareness and input!

Name: Alice Regina Severn Cave
Date: February 20, 2026 8:58:41 am

I am against the East Wing project. I see no reason for the US to have a ballroom. I am against any president making any renovations to the public areas of the White House (the "peoples house"). The only changes to be made should be those required to maintain the property. As an aside I do not think we need an arch either. We are not a European country. Our values are different. We have not needed nor do we need ostentatious displays to show our worth.

Name: Colleen Hannas
Date: February 20, 2026 8:59:06 am

I oppose this project. It was initiated without the proper planning, permits and review. The scale of the proposed building is completely out of proportion for the site, and it is a travesty that American History is being trampled on in this manner. This is not a modernization project, it is a complete bulldozing of history and tradition. The original East Wing should be

rebuilt in its former state. It is unacceptable to allow those who broke the law by proceeding without proper authorization to be rewarded by allowing this project to continue.

Name: Jean Rogers
Date: February 20, 2026 8:59:41 am

I object to the demolition of the East Wing and the proposed gigantic ballroom. The proposed design appears to dwarf the existing White House. The ballroom should be scuttled.

Name: Julie Bushnell
Date: February 20, 2026 9:00:43 am

Please reconsider the scale and design of this project - the proposed plan would overwhelm the existing residence. The destruction of the East Wing without an approved plan in place was irresponsible and we should not move forward without respect for the input received. Plans should go through the proper processes and reviews.

Name: Beth Rooke
Date: February 20, 2026 9:01:08 am

The East Wing rendering is terrible, and the project should be cancelled.

Name: Stephanie Brown
Date: February 20, 2026 9:01:24 am

I strongly oppose spending of $300 million on this project. It was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Terri Smith
Date: February 20, 2026 9:01:56 am

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Katie Raeburn
Date: February 20, 2026 9:04:44 am

The White House belongs to all Americans and we deserve a say in what happens to it. That right has been taken from us once already, with the destruction of the East Wing, and that can’t be allowed to happen again.

Name: Larry Cater
Date: February 20, 2026 9:06:21 am

This project was conceived in a vacuum, unnecessarily invasive and plans have a profoundly negative effect on the overall White House grounds. The supposed funding from megadonors has not obscured the fact that it is a bribe being paid to a larcenous president, and the donors are being rewarded by expansion of Federal contracts for their companies and products.
The proposed ballroom is unnecessary, overly large for the scale of the grounds, and has not received any input from the Public at large, who most certainly should have a say in what is constructed in and around the White House.

Cancel this project, and replace with a structure suited to the needs of the staff, not the overblown ego of a vain and petulant temporary occupant of the White House.

Name: Patricia Vance
Date: February 20, 2026 9:06:22 am

I oppose the spending of $300 million on this project. A new plan should be created with oversight and proper authorizations. The current plan has neither of these. The White House belongs to the American people and is a symbol of American history and the future plan should reflect that. Thank you

---

Name: John Murrell
Date: February 20, 2026 9:06:40 am

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans. If we have $300 million to waste then how about putting it to better use by using it to provide healthcare for the people.

Name: Joel M Ronningen
Date: February 20, 2026 9:06:53 am

"I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. Name: Emily Winters
Date: February 20, 2026 9:07:11 am

Please do not make major renovations to a historic ballroom. Honor the legacy.

Name: Allie Alexander
Date: February 20, 2026 9:07:32 am

I oppose spending funds on a project where demolition began without the proper authorization, permits, or design review. It is not a modernization project. They have completely razed American history. This project should be canceled. Furthermore, the East Wing of the White House should be rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Cecilia Staunton
Date: February 20, 2026 9:07:33 am

The president does not own the White House. He can not make unilateral decisions regarding major renovations, removals and dismantling to the people’s house. There is an official process of review and approval that must be adhered to.

The proposed project and design with dwarf the White House itself and are so gauche it’s laughable. I implore you to not let this happen. The east wing is gone, that can not be changed but for the love of beautiful, and appropriate classical design (which Washington DC is known for) this proposed ridiculous vanity project must be amended to be in balance with the rest of the White House complex.

Sincerely,
Cecilia Staunton
Redding,CT

Name: Carol Leigh
Date: February 20, 2026 9:07:51 am

As the original building was destroyed first without gaining approvals, any comments now seem pointless. The damage is done. Will anyone be held accountable for destruction of public property?

Name: Emily Griffith
Date: February 20, 2026 9:07:59 am

What an absolute abomination! The original East Wing should never have been torn down to begin with and this “modernization” project should not be allowed to move forward. The White House is the people’s house - not Trump’s to do as he pleases with.

Name: Robin O Harris
Date: February 20, 2026 9:10:32 am

I think the demolishing of the East Wing was a crime against every U.S. citizen. To do so without any consideration of rules, obligations, permissions, or authorizations reveals an arrogance and an affront to our democratic society. To spend over $300 million dollars on a vanity project ballroom when there are veterans among the homeless and children starving in our country is despicable—I don’t care where the money comes from. The only right thing to do is to restore the East Wing completely. This is important as the White House is the People’s House and should be treated as such.

Name: Ronald Wallace
Date: February 20, 2026 9:10:49 am

I strongly oppose the White House ballroom project. It is a travesty!

Name: Holly Benton
Date: February 20, 2026 9:11:03 am

This is a travesty. It’s the people’s house and we the people are heartbroken at the destruction taking place. Please stop this project.

Name: Shane Fryer
Date: February 20, 2026 9:13:21 am

President Trump’s proposed ballroom extension is not harmonious with the architectural character of the home or its purpose. The White House belongs to the American people; it is not a palace to satisfy the whims and ego of a monarch. Any replacement of the destroyed East Wing should be crafted, from the ground up, by experts and be built to serve the purposes of this historic and purposefully humble home.

Name: Myrna Dyson
Date: February 20, 2026 9:14:16 am

I want this project cancelled!

Name: Amy Kehs
Date: February 20, 2026 9:16:34 am

I want this project cancelled.

Name: Debbie Metz
Date: February 20, 2026 9:18:54 am

It is ridiculous that this so-called president is focusing not on the interests of the PEOPLE in this country but rather on a cool gold ballroom so the billionaire donors who run this country now can have a fun party space to celebrate all their wealth. SO DISGUSTING! Does our president and the members of house and senate actually think of themselves as PUBLIC SERVANTS ... no way! Term limits!

Name: Ruben Stemple
Date: February 20, 2026 9:19:14 am

HI,

As a resident of Washington DC I would like to comment on the East Wing Modernization Project. The project to modernize the East wing in order to build a White House ballrom does not benefit the people of Washington DC or the United States. The project will cause a significant change in the landscape of our nation's Capitol and will not enhance the beauty or accessibility of this ciry.

The White House and the surrounding area have always been accessible to the people of this nation. It is referred to as "the people's house" and for years I have enjoyed taking visitors on a walk along the street nearby so that they can understand that this relatively modest house (by world leader standards) is where the person who holds the power lives, but that they are surrounded by and held accountable by the people who are free to walk nearby. The demolition of the East Wing and the addition of a massive structure will physically display a disproportionate balance of that power. The ostentatious design is intended to display raw power and wealth which are not the ideals that founded this nation. We are a nation of people, many of whom live below the poverty line and who will never be invited to even set foot in this new addition to the people's house.

This addition and the preceding destruction of half of the people's house is a vulgar display of power and wealth. We are not a nation that thows grand dance parties to visiting dignitaries. Instead, we have always stood on the principles of fairness and democracy and we display those ideas when other nations visit. This grand ballroom is so that the top 1% can throw parties to raise money for themselves. It is the epitome of unbridled wealth and power and flies directly in the face of what the White House should stand for.

As a resident of the District of Columbia and the United States I wholeheartedly disapprove of this project.

Thank you,

Ruben Stemple

Name: Dustin Wiley
Date: February 20, 2026 9:20:38 am

I oppose the building of a massive ballroom. The lack of transparency thus far in the project, the lies that it would not affect the current building, the wholesale replacement of members of the Commission on Fine Arts with persons that were clearly hand picked to approve this project and are clearly acting as a rubberstamp was bad enough and in my opinion reeked of corruption. The further ignoring of the 99% disapproval rate in the comments and the pre-approving of the final plans without review has cemented my opinion that the members are not doing their jobs and are just approving whatever the president tells them to. The NCPC must in the face of such blatant disregard for the opinion of the American people and such obvious rigging of the CFA reject the plan and demand that the destroyed east wing be rebuilt with a potential for a smaller meeting area to be added later.

Thank you,
Dustin W.
Citizen of the United States of America

Date: February 20, 2026 9:21:11 am

Esteemed members of the Planning Commission,
I strongly oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project, it is a vanity project and the complete razing of American history. I want this project cancelled, and the East Wing rebuilt and restored to its former design. Every American who cares about the institutions of this nation should want to see it rebuilt and restored. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: judi cossin
Date: February 20, 2026 9:21:51 am

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Vicky Smith
Date: February 20, 2026 9:21:59 am

I think this project should be cancelled. Enough damage has already been done. The funding is sketchy, and building a lavish ballroom while people go hungry, immigrants are detained in vile conditions, and a war with Iran on the horizon is a seriously bad look for the land of the free and the home of the brave.

Name: Louise McIlhenny
Date: February 20, 2026 9:22:14 am

I am apposed to the size of the ballroom. It overpowers the actual White House. I ask that the size be reduced significantly

---

Name: Bethann McCarthy
Date: February 20, 2026 9:25:01 am

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. I want this project canceled, and the East Wing rebuilt to a scale and design sympathetic to the White House grounds. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans. It is not a modernization project but rather a complete razing of American history.

Name: Elisabeth A Meyers
Date: February 20, 2026 9:26:53 am

The people's house has historical value to Americans. It should be protected. Any potential upgrades must preserve it, as it is. Destroying the East Wing was a mistake and therefore, it should be rebuilt upon the original footprint. We the people must issue a warning to all future Presidents that their temporary residence belongs to us no matter how uncomfortable, small or dated it may be.

Name: Patrick Roe
Date: February 20, 2026 9:28:36 am

I am STRONGLY opposed to this project and demand that the East Wing be reconstructed in its prior design. The White House is a National Historic Landmark and National Park, owned by the American people and stewarded by the National Park Service. It has been home to our presidents since 1800 and is perhaps the most significant historic site in the United States. The President is a temporary resident of the People's House and had no authority to demolish it without proper review and approval. The unilateral destruction was an utterly outrageous abuse of power. Cease all plans for a ballroom and restore the prior condition.

Name: Marianne Zahorik
Date: February 20, 2026 9:30:16 am

I am writing to voice my opposition to the proposed construction of a 90,000-square-foot ballroom addition to the White House complex. It is too late to save the East Wing of the White House, there should be consequences for it's destruction and the review process should have been and must be followed.

The White House is a National Historic Landmark and National Park, owned by the American people and stewarded by the National Park Service. It has been home to our presidents since 1800 and is perhaps the most significant historic site in the United States. Before nationally significant places are permanently altered, the public deserves an opportunity to be heard and to help shape decisions that affect our shared national heritage.

This is a legally required federal review process, and public participation is essential. Major construction projects in Washington, D.C. must be reviewed by the NCPC and the Commission of Fine Arts, comply with the National Environmental Policy Act (NEPA), and receive congressional approval. These safeguards exist to ensure transparency, accountability, and meaningful public input.

Name: Dale Stefan
Date: February 20, 2026 9:31:04 am

This is not a modernization project. Tearing down the East Wing without any kind of public or legislative input, permits or authorization is a crime. Plain and simple. The White House is a historic building which belongs the People of the US, not the president. It should be rebuilt so the exterior looks the same as before

---

Name: Linda De Jesus
Date: February 20, 2026 9:31:12 am

I oppose the East Wing Modernization Project. Don't allow that gaudy, vulgar ballroom to ruin The White House.

This $400 million construction began without National Capital Planning Commission approval, without required environmental assessments, and without congressional authorization mandated by federal law for construction on federal parkland in Washington. These violations should not be rewarded with after-the-fact approval.

The funding creates unacceptable conflicts of interest. Corporations holding billions in current federal contracts with this administration are funding a construction project at the residence of the president who controls those contracts. This is not charitable giving. This is an investment in access and favorable treatment.

The White House belongs to the American people, not any individual president. I urge the Commission to reject this proposal. No temporary occupant should possess unilateral authority to demolish historic structures without following the law.

Name: Amy Stornello
Date: February 20, 2026 9:34:51 am

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or

design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Leigh Ann Hammen
Date: February 20, 2026 9:36:34 am

Love the modernization of this outdated space. Will allow for appropriate banquet attendance.

Name: Karen Schwartz
Date: February 20, 2026 9:36:34 am

So happy to hear that a new ballroom is being added. The expense of erecting a temporary structure, rental of decor, etc. is outrageous. A country of our wealth and prominence deserves a beautiful ballroom in which to host foreign dignitaries and esteemed guests. Bravo.

Name: Deborah Hodged
Date: February 20, 2026 9:36:49 am

This project is a disaster and is NOT the will of the people. The East Wing should never have been demolished. It was historic and should have been protected at all costs. You must stand up and stop this. We do not need or want a ballroom. While millions of people in our country cannot make a decent living, money is being spent on this ridiculous project. STOP this now!! It is a travesty and never should have gone this far. Protect our heritage. Protect The White House.

Name: Dorothy Holmes
Date: February 20, 2026 9:37:12 am

I feel this project is just an ego move and has no or little impact for the American people. It’s a huge waste of our taxpayer dollars.

Name: Victoria Williamson
Date: February 20, 2026 9:37:24 am

I vehemently oppose the destruction of the people's house for this narcissist's vanity project. This demolition was an affront to the traditions of getting input& approvals for any renovations. It is against the law. Cancel this project and restore the East Wing the way it was at Mr. Trump's expense (no tax payer money)and do not allow any other building projects without proper review and approval.

Name: Patrick Hammen
Date: February 20, 2026 9:37:48 am

This is a long overdue and needed project. That finally will see fruition. Thank you for tackling this project and for bringing our White House into the modern era.

Name: Beth Ables
Date: February 20, 2026 9:38:44 am

We do not want or need a ballroom that will dwarf the original structure of the White House.

Name: Stephanie S
Date: February 20, 2026 9:39:18 am

This East Wing ballroom is not what the American people want. This is a bribe paid for by tech oligarchs to curry favor with the President of the United States. Nobody under the $100 million mark would be able to attend any of the events at the ballroom anyway. This is the house that belongs to the People, not the President, and We the People don't want a tacky ballroom that has destroyed the historical integrity of the People's House.

Name: Elizabeth Hocking
Date: February 20, 2026 9:39:22 am

Historical treasures must be preserved and not destroyed. Any alterations should not be allowed at the whim of one president. Changes must be thoughtfully made and with historical context at the heart of any project.

Name: Elizabeth Hammen
Date: February 20, 2026 9:39:46 am

I can't wait to see how this new renovation comes together! This will be a huge benefit to all future administrations as they welcome guests to the people's house.

Name: Anna Cherry
Date: February 20, 2026 9:40:04 am

The title of this project should be what is the end result- East Wing Modernization Project. No ballrooms, convention, or other large scale event venues should be located in a place that has served as the office of First Ladies for decades. The history of the White House having equal wings with access to the executive branches staff and residence of the president should be maintained and the office space dedicated to First Ladies or Gentlemen should be restored to the best available condition using this has an opportunity to hire craftsman to make a modern restoration possible.

Name: Wendy Ellsworth
Date: February 20, 2026 9:41:00 am

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Deborah Weilbacher
Date: February 20, 2026 9:41:18 am

If the law mattered, this would be a very straightforward case. Since the East Wing of the People's House was illegally torn down by a temporary tenant, it needs to be returned to it's original state and paid for by the party that destroyed it.
THANK YOU FOR YOUR ATTENTION TO THIS MATTER.
Deborah K. Weilbacher
American citizen

Name: Melanie McLaughlin
Date: February 20, 2026 9:41:34 am

As an older American, who has seen multiple renovations to our White House without this type of overreaction, as in the basketball court that the Obama administration added to the White House, this is a project we have all needed, and that will allow our White House to truly shine.

Name: Kelly Wicker
Date: February 20, 2026 9:42:11 am

To whom it may concern. I would like to share my comments regarding the East wing project that the Trump administration has taken upon itself to move forward with even though they don't have any of the proper paper work or permission to destroy a national treasure (as far as I'm concerned).
It's my hope that the national trust or somebody with some clout will file charges against them to cease and desist from any further destruction or construction. The White House doesn't belong to any political party, nor to any person who happens to be sitting in the presidency at the time. This is really unbelievable and it needs some oversight! Sincerely, Kelly Wicker.

Date: February 20, 2026 9:44:03 am

I am gravely concerned about this size of this structure overshadowing the more important and historical structures that remain on the property. Also, the fact the old east wing was recklessly torn down with lies to the public about what was going to happen is inexcusable. If in fact there is a need to host that many people for an event, I'm sure there are other current locations in DC that can accommodate, as has happened in the past. The size of an addition should not overwhelm the primary building in that location - the white house. If Trump is allowed to continue unchecked with this project, I can imagine there will be no stopping him with dismantling other buildings or wings of the white house or destroying other buildings around D.C. before he is done.
Look at the Kennedy center if you need any further proof that these projects are all about him, not what is best for the environment, the historical significance or the aesthetic of the building(s). I understand they may need a larger space, but the number of huge events that would be held is probably minimal and they should confine this construction to something smaller than the actual main white house.

Name: Courtney Faul
Date: February 20, 2026 9:45:47 am

The White House belongs to the people and already has suffered misaligned anesthetic, and historically inaccurate changes under the administration. No more changes should be made unless it's reverting back to original fixtures and blueprints.

Name: Deborah Hyde
Date: February 20, 2026 9:45:56 am

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. Name: Rona Hitlin-Mason
Date: February 20, 2026 9:46:19 am

I oppose spending $300 million on this project which was initiated without the proper authorization, permits or design

review.. It is not a modernization project but a destruction of American history. I have always been so proud of our people's house, one of modest design that speaks to our democratic system> A house that represents all of us, not a lavish, garish home for an elite. No project should proceed without penalizing those who broke the law. And no project should proceed without appropriate permits or approved designs by historians and appropriate authories (not hand picked lackeys). Please reject this proposal and restore our house.

Name: Linda Cranston
Date: February 20, 2026 9:46:32 am

Money to build comes from those expecting favors from the President who has overly grandiose ideas and plans for gaudy out of place structure. Urge halting this project by any means possible unless and until the National Capital Planning Commission (NCPC) is directly involved in the architectural design and planning.

Name: Susan Charette
Date: February 20, 2026 9:46:51 am

Please keep it quietly elegant. No gaudy gold stick on molding. Use craftsmen and women from all fifty states and use materials and nods to all Americans including Indigenous, Hispanic, Asian, African American and those from European Descent. Secretly imbed parts of the Declaration of Independence throughout. Fill it with what they call “Easter eggs” now. Subtle salutes to our history and the fabric of the American community. You have the chance to surprise everyone and make something truly beautiful with local wood, quartz, metalworks that will be venerated throughout the decades or you can make something showy, cheap and shameful that will be torn down in a future administration.

Name: Nancy Plyler
Date: February 20, 2026 9:47:08 am

I was and am appalled at the destruction of the East Wing. I oppose Trumps concept for the ballroom and believe it should be stopped. Mr. Trump needs to realize he is a temporary resident and get approval with any changes to the White House. His donors are strictly in
It for the favors he grants them.

Name: Terry Zmyslo
Date: February 20, 2026 9:47:25 am

I am making comments of concern with any step forward with the East Wing Modernization project. It is obvious to anyone that the current plans do not take into consideration scale and that the current Whitw House will be dwarfed by the new ballroom. As this is the nations 250th birthday please put an immediate pause on this project to insure what is eventually built will be a design that enhances the original integrity of the White House environs.

Name: Patricia DeCrappeo
Date: February 20, 2026 9:48:49 am

I am a US citizen and taxpayer. I oppose the illegal construction of the Trump Ballroom. This vanity project should be denied. The funds already contributed need to be audited and applied to rebuilding the East Wing.

Name: Sarah Dahl
Date: February 20, 2026 9:49:28 am

I am concerned that the approval process for the East Wing is being rushed. Further, I am concerned that the proposed ballroom is far too large. Is that much space really required for typical state events? I understand that security upgrades are important and I am not opposed to a ballroom in principle, but the renderings I've seen show an addition that does not match the scale of the rest of the White House. Thank you.

Name: Julie Edminster
Date: February 20, 2026 9:49:41 am

I oppose the spending of any funds on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

The White House represents early years of American Democracy, it is a truly American symbol, and belongs to American people. America was never grandiose or overly extravagant and this egregious demolition and "modernization" project does not accurately represent America and American people.

Name: Lori Coombs
Date: February 20, 2026 9:51:01 am

The construction of the East Wing Ballroom is unacceptable.
The ballroom is larger than the Whitehouse.
The cost of the ballroom has increased significantly from the first introduction.
The funds to build it has been questionable.
No requests for permits were made to destroy the East Wing.
As a previous employee of the National Capital Planning Commission, I would expect the commission would hold this project to the same standards as other requests.

Name: Susanne Campbell
Date: February 20, 2026 9:51:12 am

I am writing in opposition to the desecration of the White House with the ridiculous ballroom. I do not understand how the President has the authority to destroy part of the White House to satisfy his own vanity. This project should NOT continue. Count me as a NO!

Name: Callan White
Date: February 20, 2026 9:51:34 am

I think the first point to remember is that this is: The People's House-The People's Building. It is not there to gratify someone's ego, or be a place for the "selective elite". It this building is being paid for with any tax dollars then it should include access and use by the citizens of the United States.
This area should be within the measurable balance of the White House-not bigger, grander, over-powering.
This wing should not be named after the person who desecrated the East Wing by just demolishing it. If it is to have a name, it should be THE EAST WING.
This area should not have any gold. The People's house is not an expression of wealth, but of community and progress and function.

Name: Robin Hindahl
Date: February 20, 2026 9:51:41 am

I strongly object to the plans for the "East Wing Renovation". As a citizen of the USA I am a partial owner of that building and my opinion counts. Had I been given the opportunity, I would have objected to the unfortunate unannounced demolition by Donald of the East Wing. I want it restored to its former historic condition. THANK YOU FOR YOUR ATTENTION TO THIS MATTER!

Name: Laura Cohen
Date: February 20, 2026 9:52:07 am

Every required step in the process to justify, consider, and evaluate this project was ignored. The Commissioners were denied their valid authority to approve or deny this project. If it was a necessary and justifiable project, it would have been sent through the normal processes. The complete disregard of the established process, and the literal bulldozing ahead without any request or approval, tells me that the current presidential administration knew the proposed project would be denied. It is imperative that a precedent be set to show that such illegal and immoral actions have serious consequences, including for any private contractors involved. Destroying a treasured, historical part of the people's house without so much as pausing is reprehensible. Constructing a gawdy, historically inappropriate gargantuan 'ballroom' cannot be allowed.

Name: Leigh Plue

I am very much against this proposed plan for the so-called ballroom. It way out shadows the White House itself and is a shocking design.

Name: Anna Blanco
Date: February 20, 2026 10:00:49 am

The White House belongs to the people of the US. Please maintain its integrity and history. Do not build the garish ballroom.

Name: Tracey Bey
Date: February 20, 2026 10:00:58 am

This project should never have been allowed. Destroying the whole East Wing of the White House is removing a part of History that we can never get back.

We do not want a ballroom that is bigger than the White House. What we want is to preserve the White House and honor the memory of the presidents who served our once Great Country.

Name: Lauryl Eppler
Date: February 20, 2026 10:01:41 am

Decrease the square footage and please keep it historically accurate. The 90,000 sqft ballroom exceeds the 55,000 sqft executive residence. No Trump name labeled on building please.

Name: Steve Schroeder
Date: February 20, 2026 10:02:28 am

Build it back exactly like it was. One man can not destroy what is not owned by him. Tighter regulations must be needed to avoid situations like this or punishments must be given.

Name: W Syreck
Date: February 20, 2026 10:02:49 am

I write to oppose the White House Ballroom

I have serious concern about the proposed nearly 90,000-square-foot White House ballroom addition, specifically its design and overwhelming scale. While modern presidents do need event space, this proposal goes far beyond a functional enhancement and instead threatens to visually overpower the historic Executive Mansion itself.

The original White House residence is about 55,000 square feet, yet the new ballroom complex would exceed that by a wide margin, effectively turning what should be an “annex” into a larger, more imposing structure than the house it is meant to serve. Even some reviewers who are otherwise open to the project have described it as “immense” and noted that it appears oversized, warning that the new volume would dominate rather than support the main structure. When an addition is larger in bulk and footprint than the original building, it stops reading as an addition and starts reading as the main event.

This imbalance in scale raises a second concern: visual dominance. The White House has always been understood as a relatively modest-sized mansion framed by larger federal buildings around it, a composition that reinforces its symbolic role as the “people’s house.” The proposed ballroom risks reversing that relationship. By sheer bulk, it would compete with, rather than defer to, the Executive Mansion, turning the historic residence into a backdrop for the new wing instead of the clear focal point of the complex. From key vantage points, especially across the South Lawn, the familiar silhouette of the White House could be lost within a much larger mass.

The proposed façade design compounds these problems. Renderings emphasize a multistory, ten-column porch that many observers have noted looks more like a grand Treasury-style building than an appropriately modest extension of the White House. The scale and monumentality of this colonnade are out of proportion to the rest of the complex, introducing an institutional, almost palatial front that clashes with the mansion’s restrained neoclassical character. Even officials inclined to support the project have suggested this feature needs to be “toned down,” which is itself an acknowledgment that the current design is excessive.

Good additions to historic buildings follow a simple principle: they should be clearly subordinate in size and expression, allowing the original structure to remain visually primary and legible. This proposal fails that basic test. In both its massing and its architectural expression, the new ballroom reads as a rival building rather than a supportive background element. That is not a mere aesthetic quibble; it goes to the heart of how the nation’s most recognizable civic symbol will be perceived for generations.

For these reasons, I urge you to oppose the ballroom project in its current form and to insist on a design that respects the White House’s historic scale, character, and visual primacy. A more modest, deferential solution could meet functional needs without fundamentally altering the way Americans see their presidential residence.

2/20/2026
National Capital Planning Commission (NCPC)
401 9th Street, NW
North Lobby, Suite 500
Washington, DC 20004

RE: Opposition to the White House Ballroom Construction (East Wing Site)

To the Members of the Commission,

I am writing to formally express my strong opposition to the construction of the proposed 90,000-square-foot ballroom on the site of the former East Wing of the White House. While the need for an expanded venue for state functions may be valid, the current project represents an irreversible loss of American heritage and a violation of established preservation principles.

My opposition is based on the following concerns:

Destruction of Historic Fabric: The demolition of the East Wing, originally constructed in 1942, was carried out without the transparent public review typically required for buildings of such national significance. This sets a dangerous precedent for the treatment of our nation’s "First House."

Inappropriate Scale: As presented in recent renderings to the Commission of Fine Arts, the proposed structure is significantly larger than the White House residence itself. This "massing" overwhelms the neoclassical balance of the historic complex, shifting the aesthetic from democratic restraint to an imperial scale that is inconsistent with the building's 200-year history.

Lack of Transparency: The bypass of the Section 106 review process under the National Historic Preservation Act (NHPA) has prevented the American public from weighing in on the environmental and cultural impacts of this $400 million project before irreparable damage was done.

I urge the Commission to exercise its jurisdiction over new construction on federal land to reject the current design and require a more modest, architecturally sensitive alternative that respects the historical integrity of President's Park.

Sincerely,

Debi Quarry
[redacted]

Name: Christy Matlock
Date: February 20, 2026 10:03:54 am

An area to entertain guests would be okay, but this ballroom is out of proportion to what is acceptable! I used to be proud to be an American with the symbol of the White House known and respected around the globe, but now people in other countries are mocking/laughing at us (with good reason). This depiction shows that the White House has "grown smaller" (and gaudier) and thus its government must also be diminished. Please bring back American Pride in a government FOR THE PEOPLE!

Name: Stephen Eubank
Date: February 20, 2026 10:04:01 am

I agree with Commissioner Mendelson's comments from the January meeting. The proposed building is completely out of scale with the context. There has been no justification for the size of the building nor the number of people it must service. We are told that it doesn't really matter what it looks like because of the dense trees that will screen it from both the north and the south. From the aerial photo, it looks like the building will be 3-4 times as large as the White House itself, and will ruin its park-like setting. There is no justification for the height of the building.

This building should reflect the proud heritage of a democratic nation. The process almost guarantees that it will not. Three months after the secretive demolition of the East Wing, the public is presented with a set of plans that is far less detailed than an ordinary re-zoning request in a small town. Questions about the plan are met with an excuse that the information is top secret. We are told that there will be modifications to other parts of the building [a new Visitor Center here, adding a storey there], but are not presented with a coherent renovation plan. We are told that more detailed plans will be presented in future NCPC meetings, presumably after approval has already been given. We are told that work on the foundation has already begun, but that, of course, it could be changed "subject to budget and schedule". We are told that it is embarrassing to host royalty because their facilities are better - I wonder what George Washington and Thomas Jefferson would have thought about that. In all of this, "we are told" what will happen. That does not reflect the democratic dialog that made this country great.

Name: Mary Patroulis
Date: February 20, 2026 10:04:28 am

Please treat the "People's House" with great respect and care. I was shocked to see the East Wing demolished by a wrecking ball without proper attention to the rules that apply to the modifications of any historical landmark. It's appalling that in this moment in time, when so many Americans are struggling to put food on the table, our President has

prioritized the thoughtless demolition of an important part of the White House. To be raising funds for a garish, glittery ballroom when the people are suffering is careless and cruel. As someone who believes in the careful preservation of historical buildings, I agree with the statement from the Society of Architectural Historians:

Excerpt from the statement:

While we recognize that the White House is a building with evolving needs, and that it has undergone various exterior and interior modifications since construction began in 1792, the proposed ballroom will be the first major change to its exterior appearance in the last 83 years (since the East Wing in its current form was built in 1942). Therefore, such a significant change to a historic building of this import should follow a rigorous and deliberate design and review process. Since the project announcement, the American Institute of Architects (AIA) has expressed concern and offered recommendations in five areas: establishing a qualifications-based architect selection process, enacting a rigorous historic preservation review, prioritizing transparency and public accountability, considering "proportionality" and "design harmony", and leveraging collaboration and expertise across the architecture profession.5 We share the AIA's concern and support their recommendations, while offering the following additional items for consideration:

1. Enact a Comprehensive Preservation Review: Since the last significant exterior change to the White House in 1942, major advances have been made in the field of historic preservation. Federal regulations and best practices now mandate careful study and mitigation of the impacts of new additions and changes to historic buildings. While the White House is exempt from the requirements of Section 106 of the National Historic Preservation Act of 1966 that requires federal agencies to consider the effects of federal projects on historic properties, given the exemplary significance of this site, we urge the White House to follow a meticulous review of any proposed demolition and new construction. From the limited information released to the public, it is unclear whether the proposal involves any demolition of the existing East Wing. Statements by the Chair of the National Capital Planning Commission indicate that "demolition and site preparation work" can proceed outside of any approvals process for the new building.6* More recently, President Trump stated that the ballroom will be "slightly larger" with a new capacity of 900 people as opposed to 650 people that was originally announced, reflecting an almost 40% increase in occupancy.7 We urge the White House to be transparent and carefully consider the scope, scale and extent of all demolition and new construction. Various design options for the ballroom should be prepared, and a comprehensive process of review and approval should be initiated that prioritizes maintaining the historic character of the building, including but not limited to, architectural scale, proportion and style. In addition, the advisory bodies that exist to better guide preservation of the White House, namely The Committee for the Preservation of the White House, The White House Historical Association and the National Capital Planning Commission, should be consulted and offer their unbiased, thorough and objective assessment and oversight. Moreover, these reviews should be carried out at a pace that allows in-depth deliberations and should not be rushed to meet an aggressive timeline.
2. Evaluate Impacts to the White House Grounds: The proposed addition appears to significantly extend into the landscape south of the existing East Wing. This impacts not only the layout and configuration of the buildings, but also the surrounding landscape that is equally important to the historic character of the White House and the President's Park (including Lafayette Park and the Ellipse). As such, any changes to the White House grounds should be carefully deliberated and involve appropriate landscape experts.
3. Consider Broader National Impact on Historic Preservation: Known as the "People's House," the White House is one of the most significant and visible historic properties in the country. Any project at the White House, whether it involves interior renovation, changes to the landscape, or a new exterior addition, acts as a national precedent in the treatment of historic properties. Recognizing this, we urge the White House to carefully consider our recommendations so that the project can have a positive influence on preservation practice, policies and procedures across the nation.

Dear King Trump and your lackies on the commission,
This Ballroom is an abomination in design, funding and desecration of the People's House. Do not approve this without guidance from anon-partisan group of architects, historians, engineers, and land use experts.

Name: TEDDIE GARRIGAN
Date: February 20, 2026 10:06:43 am

I am writing to express my strong opposition to the proposed addition of a large ballroom to the White House and to the reported efforts to accelerate or reshape the approval process in order to make such a project possible. The White House is not a private residence or a blank architectural canvas; it is a historic structure held in trust for the American people. Any intervention of this scale carries cultural, symbolic, and architectural consequences that extend far beyond a single moment in time.

When established systems of review are bypassed, pressured, or reconfigured to achieve a predetermined outcome, the integrity of preservation itself is failed. Oversight exists precisely to protect historic places from disproportionate change, political influence, or the pursuit of spectacle at the expense of stewardship.

A monumental addition that alters the scale and character of the White House risks diminishing the architectural restraint that has defined it for generations. Preservation does not reject evolution, but it does require humility, proportion, and respect for historical context. The introduction of a grand, highly assertive structure — particularly under conditions that suggest manipulated approvals — undermines public trust and sets a troubling precedent for how national landmarks are treated.

I urge the National Trust for Historic Preservation to advocate firmly for transparency, independent review, and preservation-first decision-making. The White House belongs to the country, not to any administration or individual. Protecting its integrity is not a partisan act; it is a responsibility shared by all who value history, architecture, and the democratic principles these places represent.

I have been horrified, at even the prospect of this project from the first minute those machines hit the East Wing of the White House. No warning, no reviews or permissions, dark of night, total destruction. The East Wing wasn't just a wing, it was the White House itself. Heartbreaking enough, but now the prospect of this out-of-scale, garish ballroom taking its place is a total travesty. Please stop this project immediately and restore the beautiful East Wing!!

I am appalled at how this administration has recklessly taken over personal ownership of so many properties in Washington.

Name: Rea Loftis
Date: February 20, 2026 10:08:20 am

I believe the White House is a sacred place for the people of the United States of America, even though it is the home of our standing president and all changes should be approved through historical avenues and be the benefit “FOR THE PEOPLE”.

Changes made outside of the people and the historical communities wishes are abhorrent.

Name: Kathie Chyrywaty
Date: February 20, 2026 10:09:53 am

The East wing should be replaced exactly as it was. It doesn’t need modernization. Visibly it should NOT overpower the people’s house, which is the most important part of the whole structure. Also stop modern renovations going on in the house without approval by the committee. It is not a hotel. Please do your best to stop the faux renovations.

Name: Alessandra Pellegrini-Masini
Date: February 20, 2026 10:10:01 am

I am writing a humble and simple comment, not as a historical preservation expert but as a simple American citizen expressing her wish for the People's House.
I completely agree to the need of upkeep and renovations of the White House in order to mantain structural soundness and functionality, within historicall preservation boundaries and public limits. With the terminology "public limits" I would like to underline how this building is not a private but a public institution, with the goals of representation and service. The private taste and comfort requirements of transient guests (namely, POTUS and his family) should be accommodated as long as they don't impose a structural and long lasting change to the House of the People.
Having said that, witnessing the demolition of the East Wing was heartbreaking. It was witnessing to History itself being demolished, and a private diregard for public goods, and public rules (like historical preservation) to which any of us is subject and whose respect should be praramount in our First Citizen, POTUS.
So, this comment is to unnderline that us, the People, have lost the East Wing of the People's House and would like it back, according to its original structure, size and decorum. We, the People, do not feel the need of a 90,000 sqf ballroom (or renovated East Wing). Particularly, we don't want to lose a symbol of United State history and replace it with a permanent symbol of disregard to rules and standing laws, and a self-declared monument that a single President admittedly plans on building for himself, for posterity remembrance.

Name: Glenn Gissler
Date: February 20, 2026 10:11:05 am

Architecture has cultural meaning.

Historic architecture and buildings matter!

The demolition of the East Wing and the planned Trump Ballroom is a hideous display of a self-serving vanity project at the expense of the people, and the People's House.

Donald Trump is a short term occupant of OUR house. His egregious acts of architectural violence and gross abuse of poser is deeply offensive

The Ballroom should NOT be APPROVED!

Name: Ali Nolan
Date: February 20, 2026 10:11:34 am

I’m writing to express strong concern regarding the proposed East Wing expansion of the White House.

The current concept feels fundamentally misaligned with the historic character of the building and its surrounding context. The scale and massing appear disproportionate, introducing a visual weight that overwhelms the existing architecture rather than complementing it. Instead of reading as a thoughtful addition, the proposal feels abrupt and institutional, lacking the restraint and elegance that define the White House's legacy.

Beyond scale, the overall design language seems disconnected from the original structure. Successful additions to historic buildings should feel deferential — respecting proportion, rhythm, and materiality — while remaining quietly contemporary. This proposal does not achieve that balance. It risks diminishing one of the most recognizable civic landmarks in the world.

The White House is not just a functional workplace; it is a symbol of American history and identity. Any intervention should be held to the highest standard of architectural sensitivity and long-term stewardship. I urge decision-makers to reconsider this approach and pursue a solution that is more modest in scale, more refined in proportion, and far more respectful of the building's architectural heritage.

Thank you for considering public input on such an important matter.

You're ruining this country, and you should be ashamed of yourselves for your disregard towards historical preservation. This isn't the first time. Do better!

Name: Mitzi Barker
Date: February 20, 2026 10:16:04 am

I respectfully urge you to not allow a greatly out-of-scale ballroom to be constructed next to our beautifully proportioned historic White House.

Name: Nancy Lorenz
Date: February 20, 2026 10:18:42 am

Please note my opposition to the "East Wing Modernization Project"

The White House is meant to embody democratic restraint, not excess. Replacing the East Wing with a ballroom signals a troubling shift—from governance toward self-promotion.

Architecture communicates values. A ballroom of this scale communicates power as display rather than service, permanence as ego rather than history.

It is your responsibility to heed the public outcry, the vast majority of us opposing this embarrassing and misguided project.

Name: Elizabeth Hayes
Date: February 20, 2026 10:19:15 am

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all Americans.

Name: Alyssa Kisiday
Date: February 20, 2026 10:19:39 am

The East Wing project by the current administration is a disgrace and slap in the face to all Americans. Trump has no

respect for his constituents or our history. He only cares about enriching himself, and that is all this new ballroom will be used for.

Name: Christopher Kleinhenz
Date: February 20, 2026 10:20:40 am

I strongly oppose the East Wing Modernization Project. Any proposal that is to be approved must pass muster with all the panels and agencies responsible. Any modernization plan cannot be approved by the President just because he wants it to be done. The White House is the "people's house" and cannot be damages or "improved" simply at the whim of any temporary inhabitant. Any changes much go through proper channels.

Name: Jill Bocskay
Date: February 20, 2026 10:20:41 am

The American people are sickened by the loss of our beautiful East Wing which held such historical value and collective memories for our country. We deserve an opportunity to provide comment and shape the planning of such an important project as the rebuilding. The demolition and planning of this project have from the start ignored decades-held protocols regarding preservation of historic buildings. Please hear our outrage over what has happened to this iconic, beautifully-classical American building, and find a way to block and/or edit the obscenely- garish, bloated-in-scale designs being offered. Thank you.

Name: Mary Finsterwalder
Date: February 20, 2026 10:23:39 am

The East Wing of the White House belongs to The American People. It does not belong to whoever is in the offices of the White House at any given time. This property was taken without public input or notification, even, from The People, and destroyed - no permission therefore A THEFT - A CRIME - punishable by law. There is no proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

And to then try to charge the taxpayers, whose stolen property this is, $300 million on this project?
What should happen is the perpetrator of this robbery and destruction of property of The American People, needs to be charged to rebuild it as it was, to clean up the mess, and pay restitution to The People for the monies already stolen from us to pay for the illegal tearing down of the East Wing and every other cost to date.

Name: George Lucas Buhr
Date: February 20, 2026 10:25:10 am

If this is going to be done, do it the right way. Permits, authorization, review etc.

Name: Patricia Howell
Date: February 20, 2026 10:25:54 am

So much destroyed without proper hearings or authorization!
And to built a monstrous building bigger than the Capitol will look ridiculous and as tacky as the inside now looks. If the goal is to impress visiting dignitaries from other countries or to have lavish parties for wealthy donors while many US citizens are hungry, jobless, afraid, homeless or needing health care than this is a CRIME.
I want to see a list of every donor and account for every dollar. If not taxpayer money, then what favors have been promised? If this disgrace proceeds I will not support any business on the list.
I am embarrassed for our country.

Name: Kathleen Lloyd
Date: February 20, 2026 10:27:53 am

I am very opposed to the razing of the East Wing of the White House and replacing it by an extremely large building that is larger than the real White House. It looks out of place and is ugly. One does not need to have a very large building as a ballroom that would not be used that often. It takes away from the beauty of the original White House. Any decisions about the White House should be made by Congress after discussions with people and architectural design experts. People should know where the money would be coming from. and what has been promised to the president in return for the money.

Name: Steve Young
Date: February 20, 2026 10:28:35 am

I oppose this horrific structure. Since the East Wing has been demolished, please rebuild this wing back to a balanced size to the west wing, making the White House asymmetrical. If it must be a ballroom, make it fit. The current monstrosity is completely unacceptable.

Name: Jan Goldman-Carter
Date: February 20, 2026 10:29:16 am

I am a US citizen, a strong believer in democracy, and a longtime resident of the District of Columbia. I strongly oppose the President's unilateral destruction of the White House East Wing and construction work on a new ballroom. The White House is the People's House and the White House grounds and parks in the District of Columbia belong to the People of the U.S.

The President must abandon unilateral plans for the ballroom unless and until those plans achieve proper design and construction approvals from the National Trust for Historic Preservation as well as the National Capital Planning Commission.

It is essential to integrity of the architecture and vision of the National Mall that any changes to the White House, the Ballroom, and other buildings on the National Mall be consistent in scale and design with the overall vision of the National Mall.
The current plans send a disgraceful message that a Grand Leader's Ballroom is more important than the Lincoln Memorial. Disgraceful.

Name: Carole Hopey
Date: February 20, 2026 10:29:30 am

Members of the Commission: All visible and public interior and exterior structures and decorative pieces of the East Wing should be rebuilt to look exactly as it did before it was unlawfully destroyed by the President. If the underground part of the structure out of public view needs to be updated, no problem. Trump should be made to pay personally for this rebuild in its entirety, since he is solely responsible for the current mess.

Name: Andrea Gerlach
Date: February 20, 2026 10:29:50 am

The current residents should not be allowed to destroy the beauty of the WH. Please do not allow them to change any more items in the WH, and turn it in to absolute garbage. There agenda does not align with the nations.

Name: Alisa King
Date: February 20, 2026 10:30:41 am

The White House is not the President’s house. It is the people’s house. I urge developers to restore class and dignity to the

East Wing during the current restoration/remolding project. We don’t need another space filled with gaudy, gold trinkets made in China and found at big box stores similar to those put in the Oval Office by the current administration! Citizens want to see timeless elegance.

Name: Anne DeVries

https://cdn.savingplaces.org/2025/12/17/08/22/16/f2b9145e-404e-40d0-9f45-d3838b24be95/2025.12.12%20DE%202-3%20-%20Declaration%20of%20Alison%20K.%20Hoagland.pdf

Please rebuild the east wing exactly like it was prior to destruction. There are loans and photos and videos showing how it was. Build it with sustainable materials and make the finishes look historic.

Name: Martin Lolich
Date: February 20, 2026 10:32:29 am

I vehemently oppose the construction of an enormous ballroom where the beautiful historic East Wing used to stand. It was demolished without public comment or permitting, after assurances it would not be touched.

The President Donald J Trump Ballroom would be architecturally ruinous to the White House. Worse, it would be a monument not to America's greatness, but to the convicted felon who rules by decree and uses his office for personal profit and retribution against anyone who displeases him.

If this monstrosity is built, I would fully support its demolition when this disgraceful president is out of power.

Name: Richard Dorrier
Date: February 20, 2026 10:34:08 am

As someone who has spent their entire career preparing approval documents for Federal buildings in Washington, I find the proposed Trump ballroom (‘East Wing Modernization’ project) massively over-scaled and non-conforming in relation to its site context (President’s Park) and its adjacent building, The White House. This proposed ballroom building, as currently designed, blatantly blocks historic views and will permanently disrupt the symmetry and scale of the historic grounds and existing building at this site.

If an architectural program of this size is desired, I don't understand why an underground structure with appropriately-scaled above-ground features has not been considered - something successfully accomplished elsewhere to protect a treasured historic setting(s).
Anyone involved with the National Environmental Protection Act (NEPA) and any other required review documents would come to this same conclusion as a reasonable alternative when considering the necessary approvals.

Despite the Commission of Fine Arts’ ruling yesterday, I strongly urge NCPC, and any other agencies involved, to consider an underground alternative or other mitigation measures to prevent this irrevocable impact to one of our most precious National assets.

No. We own this house, and any updates or changes should be approved by the people. No one has desecrated this venerable home in the past because of decorum. Let’s continue that.

Name: Lowell Ashbaugh
Date: February 20, 2026 10:38:33 am

The construction project to replace the East Wing has been moving too fast without proper oversight. This is amply illustrated by the illegal demolition of the East Wing without any notice. The entire project to construct a ballroom should be halted until a real and valid oversight body is in place. The design of a replacement for the illegally demolished East Wing must be compatible with the remaining White House. It should not be entrusted solely to Donald Trump. Halt the project now.

Name: Phillip Wright
Date: February 20, 2026 10:41:04 am

I am strongly against the construction of a ballroom at the White House, and I regret veery much the damage that has already been done there.

Date: February 20, 2026 10:41:29 am

We do not need a ballroom that taxpayers will ultimately support, we need healthcare, clean air, better schools. This project is unnecessary and wasteful and will ultimately cost taxpayers regardless of what the current president says.

Name: J Greenberg
Date: February 20, 2026 10:42:18 am

I strongly oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review, not to mention a complete lack of respect for the original architecture. It is not a modernization project but rather a complete razing of American history in the name of one man's massive ego and disregard for the American people's opinions. I want this project canceled immediately and the East Wing restored to its former design. No one is above the law, not even a president. To permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans and it is a kick in the face to the citizens of this country. We benefitted from the history, the beauty, and the grandeur of the original building. Please do your duty to US, your fellow citizens, and stop this idiotic waste of money and destruction of American art and history.

Name: Keira Dembowski
Date: February 20, 2026 10:42:19 am

Any proposed new addition to the White House complex should accommodate and respect the primary historic importance of the orginal Executive Residence. To do so here, the ballroom addition should be subordinate in scale to the Executive Residence and retain the historic sight lines for the public viewing the White House from the street.

Name: Linda Larrabee
Date: February 20, 2026 10:43:30 am

While I might have agreed that some updating of the East Wing might have been in order, the complete destruction of this historic part of the White House is very disturbing. The lack of attention to historic preservation is alarming. I would recommend restoring the exterior dimensions and architectural style, but update wiring and make interior ADA accessible where possible. Follow the process for making needed but historically sensitive changes. If a ballroom is needed, construct it elsewhere in the city. The proposed modernization will overwhelm the historic building and be a blot on the landscape. The White House is the people’s house and should be treated as such and with respect. .

Name: Pat Oakes
Date: February 20, 2026 10:44:17 am

The east wing of the white house should never have been destroyed trump did not have the authority to destroy it. trump should be ordered to rebuild the east wing of the white house exactly as it was at his and his families expense!

Thank you for providing a method to submit written comments regarding this project. First, the demolition portion of this project has already been started without any comments allowed. This in my opinion is a huge mistake and it also changes the White House entirely so I believe it is unfortunate that that part of the project proceeded without the appropriate comments in advance..

Second, it is likely that a new larger ballroom is a good idea but exactly how and where it is located is up for discussion and people with more knowledge than I have regarding Washington DC and regarding the White House should weigh in Thank you again for allowing me to provide comments regarding this project

---

Replace and restore exactly what you stupidly and illegally ripped off the White House!!! Stop messing with Federal Government architecture and assets that do not belong to Donald Wreaking Ball Trump. Also reduce your other forms of impact to ALL other National Monuments.

Name: Derek Burr
Date: February 20, 2026 10:50:22 am

You advertise this as "white house ballroom" and then on this form it is "east wing modernization project".

Regardless, I oppose these renovations and destruction of the famous rose gardens. As am American Citizen my voice/comments should be given as much consideration as the President as the White House and its gardens are for all Americans. These proposed changes were not put forth by required legal processes. The President alone cannot be the

sole voice on how our White House and its grounds are changed. The House and Senate represent the American people and they were given little to no opportunity to provide their recommendations or the recommendations of their constituents. I do not support the destruction of the famous Rose Gardens nor do I think the American people need an expensive “fancy” ballroom. There are so many other pressing, important needs in this Country and I do not support use of taxpayer dollars for this President’s project.

Respectfully,

Derek CS Burr, PMP

Name: Annie Bluhm
Date: February 20, 2026 10:50:40 am

Please keep the East Wing just as it is. Thank you.

Name: Sue Sparling Olson

I am strongly opposed to this project. Nothing was approved. No plans were sent through the appropriate channels prior to demolition.
This is a travesty. I do not want to see a ballroom built. I don’t want to SEE it or have us be beholden to the people “giving” money for this horrible project.

Name: Karen Verola
Date: February 20, 2026 10:52:55 am

I want the East Wing rebuilt exactly like it was. It is part of history. It wasn't approved. Use that money to build shelters for the homeless and poor immigrants.

Name: Michael Purser
Date: February 20, 2026 10:54:27 am

The actions taken on the East Wing are wrong on so many levels. Americans take pride in their historic structures and altering them in any way cannot happen without due process being considered. We do not allow for changes, or the destruction, of our historic treasures without considering the consequences on our nations historic fabric. Destroying them on a whim without providing a clear plan goes against all principles and ideals for maintaining a continuum of our cherished properties. The project should be stopped at its current status and maintained in its current state to show taxpayers we do not allow for the destruction by those who malign our reverence for our public buildings.

Michael W. Purser
Atlanta, GA

Name: Cynthia Bonini
Date: February 20, 2026 10:55:10 am

I am deeply troubled by many aspects of this this project. The demolition was done without proper authorization. Plans for the replacement building continue to change. Using private donations to finance the project make me wonder what influence these donors may expect in return. The White House does not belong to any President. It cannot be treated as a private home undergoing renovation. Any changes to the White House, especially changes of this project's magnitude, must have planning, discussion, decision-making, and oversight from all appropriate agencies. Until then, I ask that this project be suspended.

Name: JoAnna Pippen
Date: February 20, 2026 10:57:52 am

This is a travesty. The East Wing was demolished before any proper procedures were followed. This is nothing more than a Trump vanity project. Realistically, how often would a ballroom of this size even be needed? Although, taxpayers aren't funding the initial project there is certainly no guarantee we won't end up paying a lot in the long run. Where is the oversight?
Now, we learn the debris from the tear down is being dumped on a public gold course. Seriously? That's okay?
Why is any of this being allowed to happen?

Name: Matthew Dowd

I oppose the East Wing Modernization Project. This was a blatant and illegal disregard of proper authorization, permits or design review. There is no need for this structure. This complex would dwarf and overpower the remaining wings of the White house and destroy the symmetry and beauty of the original design. The original East Wing needs to be restored now. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Carrie Edwards
Date: February 20, 2026 10:59:37 am

Dear Review Committee,

As an American citizen, We the People should have a say about the buildings that we own. This includes the White House and its ancillary structures.

My first wish would have been to not build a ballroom next to the White House at all. My second wish would have been to build a smaller ballroom behind the East Wing as President Trump first stated, "I love the East Wing. The ballroom won't even touch it." Then he demolished it. My final wish would be that it is not built so large to overshadow the White House, a cherished symbol of our freedoms.

Finally, I wish to point out that a building so large that you can see it from space makes a good target. Think 9/11.

Sincerely Submitted.

Name: David Hindahl
Date: February 20, 2026 10:59:51 am

I would like to add my objections to the "modernization" project of the East Wing of the White House. I was extremely angered by the Presidents ill advised and unregulated destruction of a major portion of the "People's House, the White House. After lying to the public about his intentions to "not even touch" the existing structure, and with no input from the NCPC or any other agency, the East Wing was suddenly and tragically destroyed. I am outraged by the President's actions.

The newly proposed banquet/entertainment hall is massive, and will certainly be ugly, if any of President Trump's past architectural designs give any indication. His fondness for gold plating and gothic cherubs is not in keeping with the

stately, simple elegance of the People's House. The size alone is worrisome, as it will dwarf the existing structure and make it look like a small, antiquated shack attached to an office building. Although I can understand the need for some sort of indoor entertainment space for state dinners etc, I do not see the need for such a grandiose and enormous building. Please remove President Trump from this process entirely. My recommendation is that the East Wing be rebuilt as it was, at the expense of President Trump's personal businesses, and that the ballroom, if needed be smaller, and in more in accordance with the existing architectural design of the White House. This is a place that many of us (including myself) have visited and revere, and it is a shame to let this narcissistic megalomaniac who has terrible tastes force us to accept his design.

Respectfully

David S Hindahl MD

I oppose the addition of a “ballroom” to the White House property as it conflicts with the values of humility and service to the people has should be embraced by the residence’s temporary occupants. The office is already overly prone to corruptability as exhibited everyday by the current administration’s self-dealing and unresponsiveness to the immediate concerns of a majority of the population. The space that formerly situated the East Wing would be better suited for green space, symbolically and functionally. Let the government use other spaces outside the White House perimeter for such large-scale events that require an events space of this size.

Donald Trump illegally destroyed the east wing of the White House. He was able to accomplish what Osama Bin Laden was not able to accomplish on 9/11/2001. He did this with out following the law. And he is doing it with out legal funding from Congress. Any further work on the White House should go through the legal reviews that are required by law, AND be properly funded, by Congress, as required by our Constitution.

Name: Conway Graft
Date: February 20, 2026 11:03:22 am

The destruction of the historic East Wing by the President is unlawful. If he is not held accountable than he could destroy the White House and many other historic properties such as Mount Vernon, Monticello etc. I worked in the field of History for over 40 years. This has been a travesty.

The project to replace the East Wing wirh a ballroom should be denied. Only an accurate reproduction of the Iriginal East Wing should be allowed. Thank you.

Name: Louise McPhillips
Date: February 20, 2026 11:04:36 am

The White House is a National Historic Landmark and a National Park, owned by the American people and home to presidents since 1800. The current president at any given time is not the owner of the property or the structures thereon; the president is a temporary tenant whose interventions are limited by law and by respect for the people of the United States.

The demolition of the historic East Wing without review, without permits and without Congressional oversight is clearly a violation of the law. In addition, it is a violation of the trust of the American people who were given no opportunity to comment on what should have been presented as a proposal and not as a violent fait accompli.

As an architect, and as a concerned American citizen, I urge the National Capital Planning Commission to require reconstruction of the East Wing in keeping with its historic design and size. Anything constructed on the demolition site going forward must be compatible in form and subordinate in scale to the original structure of the Executive Mansion.

Name: RICHARD WOODRUFF

Date: February 20, 2026 11:08:35 am

The White House is a monument meant for preserving, not modernizing. It represents our history and celebrates our country. Modernization removes that connection to the past. I strongly disagree with the proposed remodel.

Name: Norm Reinhary
Date: February 20, 2026 11:08:53 am

Are you kidding me? This lunacy must be stopped, and the White House restored to its symmetry. T Rump destroyed it: T Rump must pay for the damage and restoration!

Name: Lindsey Elman
Date: February 20, 2026 11:09:05 am

To the Members of the National Capital Planning Commission:

I am writing to strongly urge the Commission to deny approval of the East Wing Modernization Project — the proposed 90,000-square-foot ballroom addition to the White House complex — and to use every authority available to it to demand a full accounting of how this project has proceeded to date.

The review process has already been irreparably compromised. Trump's decision in October to demolish the East Wing began without the independent reviews, congressional approval, and public comment that are typical even for relatively minor modifications to historic buildings in Washington. Demolition of a structure serving as a landmark of American civic life for over two centuries was carried out before this Commission or the public had any meaningful opportunity to weigh in. The NCPC is now being asked to approve above-grade construction for a project whose most consequential and irreversible act has already been done. That sequencing is not a technicality; it is a fundamental subversion of the public oversight process these institutions exist to provide.

The administration has exploited jurisdictional gaps to avoid accountability. NCPC does not review the demolition of buildings or general site preparation. The National Capital Planning Act does not give the Commission authority over demolitions. The administration appears to have used this limitation strategically. Subsurface work has proceeded under the administration's interpretation that NCPC jurisdiction attaches at "vertical build." In other words, by racing through demolition and below-grade construction before seeking formal approval, the project has created facts on the ground designed to make Commission rejection practically and politically difficult. The Commission should not allow itself to be used as a rubber stamp for decisions already made in bad faith.

The oversight bodies reviewing this project lack independence. President Trump dismissed all six CFA commissioners in October 2025, denying the body a quorum to exercise its voting authority. Earlier this year, five new members were sworn in, enabling the commission to continue its formal review of the East Wing proposal. The reconstituted panel is chaired by White House Staff Secretary Will Scharf. A review body chaired by a sitting White House official and composed largely of recent presidential appointees cannot credibly serve as an independent check on a White House construction project. The Washington Post first reported that one appointee, Chamberlain Harris, a 26-year-old White House aide, was sworn in ahead of the February 19 meeting and lacks a professional background in architecture or design. When oversight panels are stacked with loyalists immediately before votes on controversial projects, the integrity of the review process itself is called into question.

The historic significance of what was lost cannot be overstated. The origins of the East Colonnade can be traced to the early 19th century. When Thomas Jefferson arrived at the President's House in 1801, he directed Benjamin Henry Latrobe, surveyor of public buildings, to construct wings on the east and west sides of the President's House. This was not merely old construction — it was a living artifact of the founding era, connecting the American people to their earliest presidents. Its demolition, without Section 106 review, without Congressional authorization, and without public comment, represents an irreplaceable cultural loss. The National Trust for Historic Preservation has sued in federal court to halt construction of the ballroom. The Commission should take seriously that a leading national preservation organization found the legal and procedural violations here serious enough to pursue litigation.

The proposed structure is out of scale with its setting. At the fine arts commission's January meeting, some commissioners questioned the lead architect about the "immense" design and scale of the project even as they broadly endorsed Trump's vision for a ballroom roughly twice the size of the White House itself. A private event facility twice the footprint of the White House Executive Residence is inconsistent with the character of the National Mall and the historic setting of 1600 Pennsylvania Avenue. The Commission has an obligation under the Comprehensive Plan for the National Capital to evaluate proposals against policies related to urban design, parks and open space, and visitor experience. This proposal fails those tests.

The National Capital Planning Commission is one of the last independent institutions with any formal authority over this project. I urge Commissioners to exercise that authority with the full weight it deserves. Approving this project would signal that historic demolitions can be laundered through belated review processes, that stacked advisory boards provide sufficient oversight, and that the nation's most symbolically important address can be redeveloped for private event use without genuine public consent.

The Commission should deny approval, demand environmental review that meaningfully accounts for what has already been destroyed, and make clear that the sequence of events here — demolish first, seek approval later — will not be accepted as a precedent for future federal projects in the National Capital Region.

The destruction of the east wing and grounds was destruction of security and historically significant citizen/taxpayer property

The president is an elected temporary leader, not realtor nor developer. Not omnipotent.

The new buildings -and grounds all need to conform and fit with the surroundings, the uses , the access, the history past to future and be approved by representative historical, security, architectural , structural professionals with full funding before one more spade of dirt is moved . Congress minimally should have a roll in approving funding and the project in our property.

Name: Amelia Day
Date: February 20, 2026 11:11:03 am

I oppose spending $300 million on this project. This project is not a modernization project. This project is about replacing an historical landmark that was torn down and now is to be replaced with a new building in a process that was initiated without the proper authorization, permits, or design review.

The White House is known as the people's house because we, the American people, own it. We allow the presidents to live in it and use it but this National Historic Landmark and National Park does not belong to the president. The president is a tenant and no tenant is allowed to tear down a building without permission of the owner: how would you feel if a tenant tore down a building that belonged to you? Tearing down the East Wing was illegal and the president, the temporary tenant, who committed that crime should not be allowed to build whatever he wants on the site of the building he illegally tore down. The building's owners, the American people, were given no opportunity to comment on what he plans to do with our building. The destruction was a violent fait accompli that we watched with horror on TV.

What the tenant constructs on the site of our building that he illegally tore down must be compatible in form and subordinate in scale to the original structure of the Executive Mansion: what he plans to build is NOT. I urge the National Capital Planning Commission to require that the president reconstruct the East Wing that he illegally tore down with a building that keeps its historic design and size.

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Linda Warner
Date: February 20, 2026 11:12:39 am

Just because the current administration has committed countless criminal and incompetent acts threatening the lives and livelihoods of millions does not mean its "smaller" misdeeds should be given a pass. Tearing down the historic East Wing of the White House should not have happened simply upon direction of a powermad corrupt president. Industry and corporate moguls should not have had the opportunity to funnel money to the presidents vanity project. We can't change what has already happened, but we can demand that from this point forward, the rules and regulations governing national spaces be respected and followed. Proper planning must be done and permitting must be obtained for any construction on White House grounds. That area belongs not to the current, scofflaw occupant but to the American people as a whole. Any construction must proceed in a fully transparent and legal fashion.

It is the White House, not a palace.

The scale of the ballroom will overwhelm the main building.

No addition can be taller and larger than what it meant to enhance.

If a grand executive branch ballroom is truly needed, it should be not be on the white house grounds. Move it offsite.

Name: Ninette Carnevale
Date: February 20, 2026 11:15:37 am

The design and size of this project is offensive not to mention how the entire project was a lie in how it was funded and not approved. There has to be a solution that is reasonable at this point and tasteful and not 400 million.

Name: Pieter Estersohn
Date: February 20, 2026 11:15:39 am

As an architectural historian who has worked on over sixty-five books on design, architecture and preservation, I would like to register my disapproval of both the failure to correctly vet this project through the appropriate scholarly voices necessary when initiating such an endeavour, as well as the pure disregard of the actual historic scale and proportions of the White House. I use the adjective "historic" simply to refer to the holistic thread that must be considered when making drastic changes to an historic campus, such as the one at 1600 Pennsylvania Avenue. I have documented the White House as a photographer, and am well aware of the nuances and transitions necessary while additions and improvements are needed. The disregard for this particular kind of attention, as shown in these plans, is deeply disturbing. A proper, scholarly and impartial committee of EXPERTS must be formed to review these plans before any further advances are made in what will be historically viewed as an architectural abomination.

Date: February 20, 2026 11:15:48 am

To Whom It May Concern:

I write to express serious concern regarding the demolition and proposed modernization of the East Wing of the White

House.

My concern is no longer hypothetical. Substantial demolition has already taken place. That reality heightens the responsibility to ensure that what follows reflects restraint, historical continuity, and fidelity to the architectural character of the White House complex.

The White House is not simply another federal facility. It is a layered architectural and symbolic space shaped by generations of careful stewardship. Historically, major interventions have been undertaken only when clearly necessary and executed with deep respect for historic fabric. President Truman's reconstruction of the residence was driven by structural failure, and even then the exterior form and historic character were meticulously preserved.

The East Wing evolved incrementally in response to functional needs. Its architectural restraint and coherence with the broader complex contributed to the visual and symbolic continuity of the White House grounds. The complete removal of a standing structure, particularly one with established ceremonial and public-facing functions, represents a far more sweeping intervention than routine modernization.

I also write from a personal place. As the great nephew of the late Jimmy Biddle, former president of the National Trust for Historic Preservation, I was raised with a deep respect for the stewardship of historic places. My great uncle was directly involved in White House decorative efforts during the tenure of Lady Bird Johnson and Jacqueline Kennedy. Those initiatives were guided by a philosophy of restoration and enhancement rooted in historical research and continuity, not reinvention. That tradition of thoughtful preservation has long defined the best moments in the White House's evolution.

For that reason, I am troubled by the scale and speed of the current changes. Once historic context is removed, it cannot truly be recovered. Reconstruction, however well intentioned, is not equivalent to preservation.

I respectfully urge the Commission to ensure that any further action adheres to established preservation principles, including minimal necessary intervention, architectural continuity, transparency in review, and meaningful public engagement. The White House belongs not to any single administration, but to the nation and its history.

Modernization can and should coexist with preservation. What must be avoided is irreversible alteration that diminishes the architectural integrity of a site that carries exceptional civic significance.

Thank you for your consideration.

Sincerely,
Charles Biddle

Date: February 20, 2026 11:21:18 am

Please put original members of commission back in place who have architecture and art history experience. It is fine to also include an events planner or other that knows the planned use and needs of the room but the majority should be design experts,

Please do not overbuild and ruin the lovely snd stately current feel of the area. It is unfortunate a section has already been razed eliminating g history snd beauty.

Name: Polly Leaf
Date: February 20, 2026 11:22:33 am

Proportion is so important in architecture. OUR White House embodies that in its original design. The addition of an enormous ballroom kills it. The destruction of the East Wing ruins any sense of balance on the exterior and has wiped away all the artifacts that gave warmth, a sense of history and connection to the wing’s interior. The White House no longer looks like the people’s house but more like a resort or club for the wealthy, and ones with very bad taste.

Please make every effort to stop this dreadful, garish project and return our country’s home to us. And don’t stop there. The Rose Garden, the Oval Office should be restored to the beauty and dignity they once had.

Thank you

Name: James Yarosh
Date: February 20, 2026 11:22:36 am

I respectfully submit the following comment:

In the wake of the rash tearing down of the East Wing, I oppose the continued bulldozing of thoughtful design principles—an act that will forever alter history during a deeply divisive moment for our nation and its place in the world. This disregard for artistry and meaning favors grandeur over purpose, deepening the divide between the powerful and the people when unity should be our foundation. The arts have always reminded us of who we are and who we can become—celebrating the beauty born of every culture, gender, race, and identity. If this project truly seeks to reflect the greatness of our nation within the ballroom of the living museum that serves as both the President's residence and workplace, it should do so not by building the largest halls, but by mindfully creating a gracious landmark space with more tables and more seats for guests—as a metaphor for a country that welcomes every voice and every story, embraces the full spectrum of our diversity, and shows what true inclusion looks like when everyone has a place at the table.

This is an absolute waste of money for something to entertain elite donors who are buying in with contributions to curry future favors. Time to stop turning this into Maralago north and turning our Capitol into Trumpville.

Name: Helen Kashevaroff
Date: February 20, 2026 11:23:56 am

The project to build a ballroom for the White House is at present a bad design. I am glad that this opportunity to have public input is now available. The White House is not owned by the president. The President Trump overstepped his authority by having the old East Wing torn down without any review from the National Capital Planning Commission. Any plans for remodeling the White House must be reviewed by the Commission. Consideration should be taken for historical and esthetic designs. The present idea is too big. If such a large ballroom is needed, then it should be built somewhere else. The balance of the present design would be destroyed by such a large ballroom. The White House itself should be the focus of the area that it is presently in.

Name: Barb Howe
Date: February 20, 2026 11:24:13 am

I am writing to support the comments of the National Trust for Historic Preservation in regard to the East Wing Modernization Project. I have reviewed the materials provided online and cannot support this plan. It appears that you only have concepts of a plan, to quote one of President Trump's famous vague phrases. The drawings you have online provide few details. Why does the proposed building need to be so large?

Name: Sandra Roark
Date: February 20, 2026 11:25:00 am

The destruction of the East Wing was shameful and ignored all procedures that should have been followed before the destruction was approved. This is part of our American history. This is not a modernization. This is taking away American history from citizens. This is a vanity project, please stop it!
Thanks.

Name: Katherine Wallace
Date: February 20, 2026 11:25:59 am

I oppose the unauthorized demolition as well as the unauthorized ballroom planned by the trump administration. It is ghastly over reach to demolish a historical building such as the White House, let alone building an obtuse oversized ballroom to self commemorate the current occupant of the White House. Please put a stop to any further construction and allow the replication, as well as appropriate improvements, to the east wing. Thank you for your time!

Katherine Wallace

Name: Kareema Gray
Date: February 20, 2026 11:26:18 am

The unauthorized demolition of the East Wing of the White House is an unconscionable act of historical destruction that must be stopped immediately. This is not modernization — it is the deliberate razing of a cherished piece of American heritage, undertaken without proper authorization, required permits, or mandatory design review. The proposed expenditure of $300 million in taxpayer funds on a project that bypassed every legal and institutional safeguard is an outrage that demands accountability.

The East Wing belongs not to any one administration, but to the American people and to history itself. We call for the immediate cancellation of this project, the full restoration of the East Wing to its original design, and the pursuit of appropriate legal consequences for those who authorized and initiated this unlawful demolition. No individual, regardless of title or position, stands above the law. To allow this destruction to proceed without consequence would send a dangerous message that those in power can disregard legal process at will — a precedent that strikes at the very foundation of our democracy. The American people deserve accountability, transparency, and the preservation of the institutions and landmarks that reflect our collective identity and history.

Name: robert kahn
Date: February 20, 2026 11:27:24 am

I am totally against the proposed East Wing project. It is so over scaled as to drawf the White House. Would a home owner place the addition of a garage three times as large as their house adjacent to their residence making the house appear an insignificant after thought? Of course not.
The sole purpose of this project is only to satisfy the over sized ego of the president. It will replace the identification of the White House as the Party House.

Name: Amy Wixon
Date: February 20, 2026 11:27:49 am

The White House is a public building and the public should have a say in any significant changes. This is also a historical building and that should desire consideration in any renovations.

Name: Joan Beccard
Date: February 20, 2026 11:27:53 am

This is the People’s House. Trump has no right to tear it down and build a golden ballroom that will not be accessible to the average citizen

---

Name: Susan Righi
Date: February 20, 2026 11:31:02 am

I am so distressed by what the President has done to the East Wing of the White House.

The proposed new East Wing Ballroom is too big, and should balance the West Wing. The gold has to go. This is not a monarchy and I DO NOT want my tax money to fund this vanity project of the President.

The US Commission of Fine Arts, whose membership has been stacked with loyalists, bypassed its obligation to provide

serious design review and consider the views of the American people, including the over 99% of public comments (out of 2,000 submissions) that expressed opposition to the current design and offered valuable suggestions on how it might be improved.

The National Capitol Planning Commission should listen to the American People, and not the ego of one man, and pursue a design for the east wing that created a classic, balanced, beautiful building that my grandchildren and I can be proud of. What we are getting is a monument to Donald Trump, which turns my stomach and of which the US, a formerly democratic country, should be ashamed.

Name: Laurel Zaepfel
Date: February 20, 2026 11:32:12 am

I oppose spending hundreds of millions of dollars on the project to tear down part of the White House, a national landmark, and replace it with a gaudy event center which will dwarf the White House itself. This project was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans and an egregious waste of taxpayer money. Thank you for reading my comment.

Date: February 20, 2026 11:32:18 am

Restore the East Wing to its original structure and appearance.

Name: Catherine Turrill-Lupi
Date: February 20, 2026 11:32:44 am

I want to express my deep concern about the demolition and proposed rebuilding of the historic East Wing of the White House. The demolition already has happened, without consultation or approval; the plan to build an extravagant, outsized ballroom “wing” on the site seems to be moving forward, again without meaningful, bipartisan consultation or approval. No matter what President Trump may claim, I think the people should be given a chance to protect the people’s house; that historians should have a voice as well, given their greater knowledge of the site being impacted by this grandiose project. I am an art historian with a subspecialty in American art and architecture, a retired professor who was trained at the University of Delaware and who interned at the National Gallery of Art in Washington DC. Thank you for your attention.

Name: Sean Smith
Date: February 20, 2026 11:33:03 am

The size of the proposed 90,000 sq ft East Wing modernization project is significantly larger than the 55,000 sq ft White House executive residence. The disproportionate scale of the proposed East Wing dwarfs the historic residence. Consequently I oppose the proposal. The historic executive residence should remain the focus of the site and should never be overwhelmed by another structure.

Name: Tracy Dillard
Date: February 20, 2026 11:33:24 am

As a member of the Emeritus Board of Landmarks Illinois, I want to go on record as strongly opposing the East Wing ‘modernization’ project. This administration had no authority to demolish the East Wing, with or without warning — and has none to move forward (however funded) with a structure not only vastly out of scale, but also unjustified by necessity. I urge you to promptly halt this planning and construction — and to require rebuilding of the demolished East Wing. Thank you.

Name: Elizabeth King
Date: February 20, 2026 11:33:43 am

The proposed plan for the so-called East Wing modernization has distorted the footprint of the once elegant White House and in so doing obliterated the optical balance of the space. If constructed, this building will dwarf and obliterate the beauty of the White House as it has stood for centuries. Much as was done to the once historic rose garden, (along with the American dream, environmental safeguards, green energy, access to medical care and vaccines, etc.), President Trump has proven himself particularly skilled at paving paradise to put up a parking lot. At some point, there needs to be a process of independent review to approve or reject a plan that scars the viewscape of our (emphasis: our) White House. I urge you to take all lawful steps necessary to ensure that construction does not commence without proper authorization and vetting.

Name: Ann Osborn
Date: February 20, 2026 11:34:33 am

Please cancel this project now!

Name: Marie W Harris
Date: February 20, 2026 11:35:31 am

I am appalled and horrified at the illegal demolition of the East Wing of the White House, and the inappropriate scale of the ballroom that is to replacee it.
This is a violation of historic preservation principles and againt the law.
There are organizations and guidlines for the care of historic buildings which Donald Trump chooses to ignore.
Please stop him!

Name: Alaina Sivadasan
Date: February 20, 2026 11:36:59 am

The White House is one of our nation’s most historic and symbolic buildings. The East Wing is part of that legacy and should be preserved, not torn down for a ballroom. This feels like an unnecessary and costly use of taxpayer dollars when those funds could serve far more pressing public needs.

Name: Teresa Eiland
Date: February 20, 2026 11:37:51 am

I am strongly opposed to the CFA's decision to approve plans for the East Wing modernization project without serious review, including the input of experts like the National Trust for Historic Preservation and, most importantly, the American public. It is *our* house after all.

My list of complaints about the design as currently imagined is long but the most significant is that the size and scale of the ballroom is completely out proportion to this historic site. The White House is our most iconic residence. This bloated and bloviating "modernization" would only serve to overshadow and diminish one of the most significant historic buildings in the country, which I imagine is the point.

Name: Michelle Nicholas
Date: February 20, 2026 11:38:00 am

I believe this project is a waste of money. Please stop this project.

Name: Michael Murnin

The White House has been home to our Presidents since 1800. Owned by the American people and stewarded by the National Park Service, the White House was designed by Irish architect James Hoban, whose winning design was selected by President George Washington in a competition for the honor of designing the home of the American president, and demonstrates Georgian and neoclassical architectural principles. While the White House does need to provide a larger meeting and gathering space, I am deeply concerned about the sheer massing and height of the proposed 90,000 square-foot new ballroom construction. I think it will overwhelm the Executive Residence, which is only 55,000 square feet. I am also very concerned that the new construction will permanently disrupt the carefully balanced classical design of the White House complex, which emphasizes the prominence of the Executive Residence in contrast to its two smaller, and lower, East and West Wings. The Secretary of the Interior's Standards for Rehabilitation offer clear guidance for construction projects such as this one that affect historic properties. 36 C.F.R. § 68.1 et seq. The Standards provide that new additions should not destroy the historic fabric of the property, and that the new work should be "compatible with the historic materials, features, size, scale and proportion, and massing" of the existing structure. Id. § 68.3(a)(9)-(10).

Any proposed new addition to the White House complex should accommodate and respect the primary historic importance of the original Executive Residence. The ballroom addition should be subordinate in scale to the Executive Residence. I hope the final design plans show a decrease in the size, volume and massing of the new construction. The height should be lower than the Executive Residence. The new addition should retain the carefully balanced classical design of the White House complex with its two smaller, lower, and substantially symmetrical East and West Wings, and the design should preserve the Historic East Facade of the Executive Residence. I respectfully urge that the design of the ballroom take into consideration the exceptional historic significance of the White House complex and acknowledges the investment that the American people have in the preservation of this beloved place.

Name: Carol Derov
Date: February 20, 2026 11:39:25 am

These comments are regarding the blatant and illegal over-reach of the current President to destroy a part of the White House.
This building is owned by me- and the American people! We did NOT give approval for the East Wing to be torn down so that an overly huge ballroom can be built. This ballroom is simply another monument to Donald Trump. It must be stopped!
Enough with the illegal "projects" that are ultimately being funded by tax payers- while healthcare, food affordability, housing issues and the future of our country's democracy lie in shambles!!
Prosecute DJT for Epstein! Stop this ballroom!!

Name: Michelle Coles
Date: February 20, 2026 11:39:32 am

I object strongly to the scale of the current proposed addition.

Name: Michael Gorin
Date: February 20, 2026 11:41:56 am

I am AGAINST the purpose and scope of this proposed project.

PURPOSE
I have visited the White House campus several times and have toured the White House. It is an extremely iconic and hallowed place in Washington that represents our countries history and is one of the signs of our democracy that so many

people have died to protect. It is a location where serious meetings and significant decisions are made, not a location where large and lavish parties should be held.

SCOPE
When I look at the architectural renderings, it makes me think of a convention center and it overshadows the central mansion building that should be the focal point of the White House grounds. It is not inline with the sense of modesty that I feel when I visit the White House. It is the location of the "people's house", not a lavish palace. There are plenty of existing locations in Washington that are available for our President to host large parties. I would also think that it would be a security risk to have so many people attending large events so close to the President's office and residence.

As a born citizen of our United States, I am embarrassed when I see photos and video now of the existing Oval Office. I am sure that the gold embellishments do not represent what our founding fathers had in mind when the White House was constructed. The interior East Wing conceptual drawings that I have seen on TV (not even included in the submission materials), look to have the same theme.

The original building should not have been demolished without more formal approval and I sure hope that the new construction of such significant scale should be carefully reviewed before final approval.

Sincerely,

Michael Gorin
Phoenix, Arizona

Name: Susan McIntosh
Date: February 20, 2026 11:42:23 am

Two comments on the East Wing Modernization project.

First, I object to the destruction of the original East Wing, which was implemented without the proper authorization, permits, or design review.

Second, since the East Wing has already - unfortunately - been demolished, I am in favor of building a social venue in the space available. I agree that the White House needs a larger indoor event facility; this would eliminate the recurring costs and issues associated with outdoor events. However, the new building should be consistent with the scale & design of the current buildings on site, which does not seem to be the case with the current plan.

Name: Andrew Fogel
Date: February 20, 2026 11:42:37 am

This is an improvementuse of public property and a destruction of a historical landmark. It should be halted and the East Wing should be restored at President Trump's expense.

Name: Susan Rountree
Date: February 20, 2026 11:43:24 am

I am opposed to the construction of the new ballroom to replace the East Wing. The East Wing was demolished without prior approval, and the new ballroom, as planned, would destroy the architecture profile of the White House and will not hold up to historic standards. Though the plans were "approved" by the Trump-appointed board, I would ask that the NCPC stand up for its rights to oversee and approve any remodeling of "The People's House." The Trump regime continues to ignore historic protocol and the laws set forth by Congress in renovating historic properties owned by the United States. It is my understanding that the project is still under litigation though not halted. Please use the powers that have been bestowed upon your commission to stop this project until proper designs can be approved that are proportionate to the rest of the White House.

We can't bring back the East Wing. Yet Trump destroyed part of our nation's history when he destroyed the East Wing. I have no confidence that historic artifacts housed in the East Wing were treated with the care and safekeeping that we entrust White House staff to employ. If possible, please gather proof that these artifacts (china, gifts, paintings, etc) are in fact being carefully maintained.

Thank you for your time.
Susan Rountree

This project should not proceed until the required review actions have been met.

Name: ROGER HAGENBUCH
Date: February 20, 2026 11:44:39 am

Now that Trump has already demolished the old East Wing and taken donations from billionaires, supposedly to pay for building his monstrous, gaudy ballroom, it appears he will get his way. As a regular US citizen, I want to express my opposition to his total disregard for common decency and respect for our national treasures and the democratic process established for making changes to them. He seems to have forgotten that the land and building in which he resides belongs to all the American people and he doesn't have the right to change it at his will. Now, the ballroom will be built and the American taxpayers will likely be left with the bill.

Name: Terry Mattingly
Date: February 20, 2026 11:44:43 am

This is an abomination. The history of the White House is being destroyed, hijacked and replaced by a monstrosity that is totally out of scale to our White House just because Trump wants our White House to look like a Florida country club. We have already lost Jackie Kennedy’s garden and the entire east wing to one man’s intent to make everything in his name. Enough. We, as Americans, should have the final approval of any plans to change our White House. It does not belong to any President, it belongs to the American people.

I oppose the spending of hundreds of millions of dollars on this project, from ANY source. The project was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history for the self-gratification of a malegoformed nitwit. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Lauren Murphy
Date: February 20, 2026 11:55:30 am

I am opposed to the proposed East Wing ballroom addition to the White House. The building is out of scale with the historic structure and overwhelms the existing building. The height, mass, and false historic architectural style are all inappropriate under the Secretary of the Interior's (SOI) Standards and all of the National Parks Service's preservation briefs as they relate to additions and new construction. As someone who works in historic preservation at the local level, it is extremely challenging to work with applicants who wish to add to their homes or businesses to better their every day life but still remain sensitive to the historic character of their specific building and the district in which it is located. To do so, we often undergo numerous rounds of review and revision to ensure that both the needs of the property owner and the historic resource are met. In this case, the property owner is the American people. The Federal Government has not taken into account the impact of this massive addition on the character of the White House nor have they paid attention to their own federal guidelines and standards for the treatment of historic buildings. The overly grandiose columns and height of this addition make it seem as if THIS structure is more important than the original. The first thing we ask of property owners is to ensure their additions are subordinate, yet compatible. This is neither. This project should be paused and architect that specialize in additions to historic structures should be consulted so that the mass of the ballroom can be adjusted to be more respectful of the existing historic buildings and their historic additions already on-site. The one-story hyphen which connects the White House to the ballroom, should be more open, ideally like the colonnade which was

demolished without due process. The height of the ballroom should be reduced, and if possible, that mass should be further setback from the front of the White House. Further, it is not appropriate that the ballroom would attempt to mimic the historic details of the White House. The balustrade at the top of the new addition is completely out of place and attempts to make it seem as if the ballroom had been there all along when the SOI standards clearly indicate that modern construction should be a product of its time and not seek to replicate historic details falsely. The decorative columns on the side of the structure are entirely inappropriate and should be eliminated. This is not an historic structure nor is it the historic entrance to the building and highlight this area with a heavy pediment and fluted columns would not be acceptable in any historic district in this country. In short, the new ballroom should take its cues from the existing west wing and the portions of the structure which were demolished. It should be reduced significantly in height so that it is clearly shorter than the White House and it should seek to humble itself to the historic buildings which surround it rather than attempting to challenge those for dominance.

Objection to Unauthorized Project and Call for Restoration
I strongly oppose the allocation of $300 million for this project. The initiative commenced without securing the necessary authorization, proper permits, or a thorough design review. Such procedural oversights raise serious concerns about the legitimacy and transparency of the project's development.
This endeavor should not be characterized as a modernization effort. Instead, it represents a complete demolition of a significant piece of American history. The current approach threatens to erase valuable historical architecture and cultural heritage that deserve preservation.
I respectfully request that this project be canceled immediately. In its place, I advocate for the East Wing to be rebuilt and restored to its original design, thereby honoring the historical value and legacy it represents.
No individual or entity is above the law. Allowing this project to proceed without holding accountable those who bypassed legal procedures would be an insult to all Americans who abide by the law. It is imperative that appropriate measures be taken to address these violations and uphold the principles of justice and fairness.

Date: February 20, 2026 11:57:35 am

Absolutely NO!!! This project is completely out of scale with the White House and should not be allowed to proceed. What is wrong with the board which approved the project in spite of 99% of the comments against it? They should be forced to rebuild what was there before the illegal demolition.

Name: Morgan Fykes
Date: February 20, 2026 11:58:32 am

The planned East Wing demolition and ballroom project is an egregious abuse of power that tramples the law, disrespects history, and serves a single man’s ego instead of the American people.

The administration began tearing down the East Wing in October 2025 without the public notice, independent reviews, or congressional approval that are normally required for even minor changes to historic federal buildings. A lawsuit by the National Trust for Historic Preservation argues that this rush job violates multiple federal statutes, including requirements that no major structure be built on federal land in D.C. without explicit authorization from Congress and that large projects undergo proper environmental and historic review. A federal judge has already signaled deep skepticism that the president can simply wave away these laws and replace them with a backroom scheme funded by private donors.

This is not about safety, essential repairs, or basic functionality; it is a sprawling 80–90,000-square-foot ballroom, larger than the existing White House itself, designed to host lavish state events while millions of Americans struggle with housing, healthcare, and basic services. The project's cost has exploded from roughly a $100–200 million "privately funded" concept to a $300–400 million monument to excess, with no credible public justification for why this scale of expansion is necessary. Polling already shows Americans oppose these renovations by more than two to one, making clear this is a personal indulgence masquerading as national infrastructure.

The demolition was launched with no meaningful public comment, no transparent alternatives analysis, and only after the president stacked key arts and planning panels with loyalists who rushed through approvals in a single meeting. Preservation advocates, architects, and historians have warned that the colossal new structure would overwhelm the carefully balanced classical design of the White House and permanently erase the scale and symbolism of the original East Wing. When faced with criticism, the response has not been reflection or restraint, but retaliation: dismissing commissioners and installing yes-men to rubber-stamp a foregone conclusion.

Demolishing a historic wing of the People's House on dubious legal footing, to build a mega-ballroom funded by wealthy donors and approved by stacked panels, is not leadership; it is self-serving vandalism dressed up as renovation. It treats federal law as a suggestion, public heritage as disposable, and the American public as an afterthought whose only role is to watch the dust settle from outside the construction fence. Any administration that bulldozes process, precedent, and the people's trust to erect a gilded hall for its own glory deserves nothing but firm, unequivocal opposition until this project is halted, fully investigated, and either drastically scaled back or abandoned altogether.

Dear Commission Members,

I write to oppose the spending of $300 million on this project, which was initiated without following any of the proper protocols, including permits and review of the new design. It is not a "modernization" project but rather a complete erasure of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Suzanne Levin
Date: February 20, 2026 12:00:49 pm

I oppose the destruction of the East Wing to be built into a huge ballroom. This was done without proper approval and needs to be built back as it was.

Name: E Walter
Date: February 20, 2026 12:06:47 pm

I oppose the rushed construction of a massive new ballroom on the site of the East Wing of the White House. The White House is not a private property or a political trophy; it is a national asset that belongs to the American people and represents our shared history and democratic values.
Any significant alteration to this historic site must undergo careful, transparent review. That includes thoughtful architectural design, preservation considerations, environmental review, and strict adherence to all federal, local, and historic preservation laws. There should be no shortcuts, no expedited approvals that bypass established safeguards, and no exceptions made for political convenience.
Recent actions, including the reported dumping of East Wing debris in public areas of East Potomac Park, raise serious concerns about whether proper procedures are being followed. Before any new construction is approved, the public deserves clear answers about how that debris will be handled, relocated, or remediated in a legal, safe, and environmentally responsible manner.
The White House deserves deliberation, transparency, and respect for the rule of law. Major changes to such an iconic and historic site should reflect the highest standards of accountability. Not haste.

Date: February 20, 2026 12:06:47 pm

We do NOT need a ballroom! We need the East Wing to be restored along with the rose garden. The White House is the people’s house! Stop this insanity now!

Name: Patricia DeWitt
Date: February 20, 2026 12:07:51 pm

I have seen the proposed plans for the East Wing ballroom at the White House. As a member of the National Trust for Historic Preservation, I ask the National Capital Planning Commission to uphold the standards of the Capital and oppose this project.
The building appears completely out of proportion to the rest of the White House complex and the changes, including removing the pediment, don’t materially improve that. I have often stood on the National Mall admiring the buildings and other structures that were put there for the benefit of the American people and to display to the world what Americans value: science, the arts, history, government by the people for the people. This new ballroom building is for the benefit of one person, and it displays what he values to the detriment of a historical structure that symbolizes our country. The fact that the new construction is to be financed with private funds is itself an affront to the character of this part of our nation's capital. It is not an excuse for atrocious changes in the architectural quality of the White House.
Thank you for your consideration.

Name: John Davison
Date: February 20, 2026 12:08:29 pm

This “East Wing Modernization” project is more than unnecessary, it’s an illegal crime in my view. This was done without prior approval of Congress and the American people who own the People’s House. Never in my lifetime have I seen something like this happening without any accountability and it should be stopped immediately from going forward. It’s absolutely disgusting that the historic and protected East wing was removed in the first place and in my opinion should be rebuilt exactly as it was with NO BALLROOM allowed. It’s also disgusting that the planned monstrosity would be than the actual historic White House. Please stop this madness immediately.

Name: Michael Bodziner
Date: February 20, 2026 12:08:32 pm

The scale of this proposed design is an aberration and a desecration of the White House - the people's house. Yes, a social event space on the White House grounds is a marvelous idea. But the Trump design is entirely inappropriate, unnecessary, and an embarrassment. The proposed design must be required to go through the legal and standard approval process!

Name: sarah scott
Date: February 20, 2026 12:08:46 pm

I can barely even find the words to describe how painful it is to watch the current administration tear down the East Wing of the White House with proposals to replace it with a ballroom. A ballroom that I have seen mock ups to be the same size or larger than the main White House. I do not even understand how a single administration has the power or capacity to rip apart an entire wing of the White House, and they certainly should not be rewarded by being allowed to erect whatever they so choose. Large plans on the White House should be led and driven by historians with the main focus being preservation of our nation's history at the front of mind, not parties or showing off. This is heartbreaking for many Americans, and I can't believe this has even happened

The East Wing should be restored.

Name: Cheryl Klink
Date: February 20, 2026 12:20:22 pm

Sadly, I think the damage is done, and preservation is no longer possible. The demolition of the east wing of the White House erased the history of all those who previously resided there, with plans for "modernization" being nothing more than garish personal taste for one man who won't even be in office when the restoration is complete. Yes, every sitting president should have the opportunity to decorate their abode to their personal preference, and pictures, wallpaper, and decor are one thing. The complete obliteration of an entire wing is something else all together. The best we can hope for at this point is to restore it to its previous grandeur, as close to possible.

Name: Barbara Dunn
Date: February 20, 2026 12:21:05 pm

This vanity project must be stopped. We, the people, have no use of a golden ballroom, We, the people will never be invited to use it, though we will have to pay for it at the expense of much more important uses of our money

---

Name: Eileen Bernstein

No one president or administration has the right or authority to alter any property that is supported by tax payers without proper vetting, ESPECIALLY THE WHITE HOUSE.

I oppose the spending of $300 million or any amount on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Jonatha Gott
Date: February 20, 2026 12:22:01 pm

The size and overall scale of the proposed ballroom are totally inappropriate, as it dwarfs the original White House. It must be scaled back significantly - there is no need to seat 1000 people in official functions. The interior plans are gaudy and not in keeping with the decorum the American citizens expect. Funding the ballroom using donations from wealthy individuals and corporations is highly problematic - clearly a vehicle to curry favor with our current president. The commission should not approve this tacky, oversized vanity project.

Name: Gerald W. Lott
Date: February 20, 2026 12:22:11 pm

The destruction, not renovation, the destruction of the East Wing of the White House, the People's house, was extremely disturbing to me. The President, just one man, decides what decides, based on his ego, that something so out of historical bounds should be completed irrespective of NCPC input or Congressional input. The current President Trump proposal is more than alarming. There should be historical input, architectural input, and a review of true need. The process should also be open; no backroom black hole planning and decision making. The current plan makes a mockery of the White House; the People's house. It is too grandiose; it over shadows the White House. We don't need a monarchical ballroom.

Date: February 20, 2026 12:22:41 pm

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

This money should have been spent supporting American citizens in getting equal access to healthy food, health care, education.

Name: Valerie Le Grande
Date: February 20, 2026 12:23:54 pm

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. We are losing history due to the awful actions of Donald Trump. I want this new project cancelled and the East Wing REBUILT and restored to look on the outside like if formerly looked. If seating space for state dinners is built inside of this, okay, but NO NEW BIG addition. Futhermore, I believe that Donald Trump should personally pay for this rebuilding since he unlawfully tore it down to begin with. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all of us law-abiding Americans.

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an injustice.

Name: Helga Burre
Date: February 20, 2026 12:25:41 pm

The East Wing should never have been torn down! And the debris should not have been dumped on a DC golf course. And all the artifacts from the East Wing, supposedly removed and preserved, must be located and securely stored. I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. If restoration is not possible, i want the re-building to be designed by a group focused on an historically APPROPRIATE size and structure that matches the current White House and West Wing! NO GOLD! With the 250th anniversary of our freedom from a monarchy approaching, any public building should reflect the restraint showed by our founders. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Gail Doucette
Date: February 20, 2026 12:29:01 pm

This is not "modernization." It is criminal destruction of history and property belonging to THE AMERICAN PEOPLE. It was never intended to be a bribe collection center to facilitate influence peddling by the most corrupt "administration" in our history. Everyone involved in this travesty should hang their heads in shame while responsible people restore to the public what is rightfully ours. Rebuild the East Wing.

Name: Mary Rector
Date: February 20, 2026 12:30:29 pm

I have been following the dismantling of the White House East Wing in disbelief and horror. It’s beyond comprehension that the “People’s House” can be changed and turned into a mockery of everything our democracy stands for. I implore you to resist the grandiose plans submitted by the 28 page document that plans to build a structure (behemoth) larger than the White House and West Wing combined. Please demonstrate the courage to resist and design something representative of who we are as a nation. Already so much has been destroyed but you can still prove to the American public that you can rebuild and restore some trust in listening to the people. More than 99% of submissions disapprove the plan. In our democracy, how can you in good conscience move forward?

Name: Katherine Barbour
Date: February 20, 2026 12:31:33 pm

I want this project cancelled and for the East Wing to be rebuilt in the manner of its past design.

Name: Robert Dudek
Date: February 20, 2026 12:33:19 pm

Subject: Public Comment Opposing Proposed Ballroom Construction at the White House

To the Commissioners,

I am writing to express my strong opposition to the proposed construction of a large ballroom on the grounds of the White House.

First and foremost, I am deeply concerned about the dismantling of the original East Wing. The East Wing is not merely an auxiliary structure; it is an integral part of the historic fabric of the White House complex. Its architectural character, historic associations, and role in shaping the current composition of the grounds should be preserved. Removing or substantially altering it would diminish the integrity of one of the nation’s most significant historic sites.

Second, the proposed ballroom appears to be excessively large in scale relative to the existing structures and landscape. The White House grounds are defined by balance, proportion, and restraint. A ballroom of the proposed size risks overpowering the carefully calibrated sense of scale that has evolved over generations. Such a structure could visually

dominate the grounds and alter the historic character of the setting.

I am also concerned about the removal or displacement of original elements, materials, and longstanding features associated with the East Wing and surrounding areas. Historic preservation principles emphasize retaining and rehabilitating original materials wherever possible. Once lost, these elements cannot be authentically recreated.

Finally, I urge the Commission to slow the approval process. A project of this magnitude—affecting a National Historic Landmark and an internationally recognized symbol of American democracy—deserves a transparent, deliberative review. Rushed decision-making risks unintended and irreversible consequences.

I respectfully ask the Commission to:

*Preserve the original East Wing and associated historic elements.

*Ensure any new construction is subordinate in scale and character to the historic complex.

*Conduct a thorough and transparent review process with ample opportunity for public input.

*Consider alternatives that meet functional needs without compromising historic integrity.

Thank you for your consideration of these comments and for your stewardship of the nation’s capital.

Respectfully,

Robert Dudek

Name: Barbara Ulrich
Date: February 20, 2026 12:35:12 pm

I was dismayed by the destruction of the East Wing of the White House, completed without approval typical congressional approval, public comment, or independent historic preservation reviews. The building should reflex American values, rather than those similar to Louis XIV.

Name: Raymond Nicklas
Date: February 20, 2026 12:35:14 pm

Rebuild the former East Wing in the same style and scale as it was, but install functional updates that bring it up to code/modern standards that may not have been possible in the former structure.
Some expansion may be OK, but not at all anything like what is proposed that will dwarf the White House.
Please DO NOT allow that gigantic over-shadowing ballroom.

Name: Carina Lovitt
Date: February 20, 2026 12:35:17 pm

I am not opposed to building an elegant event space as part of The White House (The People’s House). However, it needs to speak and relate to the existing structure. The current design completely overwhelms and fails miserably to achieve this basic goal. After destroying the historic East Wing please have the courage to do what’s right for the White House and ultimately our country by designing something tasteful and in proportion to the current dwelling.

Respectfully,
Carina Lovitt

Date: February 20, 2026 12:36:36 pm

The White House is a National Historic Landmark and National Park, owned by the American people and stewarded by the National Park Service.

Public input should occur before construction makes the outcome irreversible.

As National Trust President and CEO Carol Quillen has stated: “The American people deserve an opportunity to provide comments and shape the project.”

Name: Lisa Johnson
Date: February 20, 2026 12:37:58 pm

NCPC's missions is to preserve and enhance the history, culture and federal assets of the National Capital Region to support the needs and needs of the federal government and enrich the lives of visitors, workers and residents. I fail to see where any of these goals are achieved with the continuance of this project.

I am opposed to the East Wing Modernization Project because it is unnecessary and ill-advised project that was initiated without going through the proper and legal processes necessary prior to the destruction of the East Wing. The history of the East Wing is well documented. It has provided functional space First Lady operations. It represents a symbolic gateway for public entrance and engagement. Its destruction demonstrates disregard for the general public's connection to the White House and the desire to cater to the wealthiest sector to the exclusion of the populus that is the President's responsibility to serve. Destruction of the space designated for first ladies' operation base is representative of the current President's disrespect for females and a denigration of the value of female role in the Administration. Another example of his lowly, insulting and criminal opinion of women.

Presidents have been hosting foreign dignitaries within the existing facility elegantly and comfortably for over 100 years. The ostentatious designs that are being implemented are an attempt to impress dictators of countries who are not aligned strategically with the goals of the majority of American citizens and to feed the ego of a leader with the goal of enhancing the riches of a small group of the extremely wealthy as well as himself and family. The project provides no measurable benefit to the millions of citizens that the White House serves.

As a taxpayer and a citizen, I oppose the spending of $300 million dollars or more on this project and demand that the East Wing be restored to its historical design and functionality. I oppose this ostentatious representation of our country when so many in this country are struggling to put food on their table, medical care for their families and safe and affordable housing.

Name: Elizabeth Graff
Date: February 20, 2026 12:39:30 pm

The People's House, the East Wing, was destroyed without my consent. The People's House belongs to the people and I, as a citizen of the United States, did not consent to having the East Wing demolished.

I want the People's House restored.

When the People's House is restored, I want a plaque that says, "Unauthorized demolition of the People's House began 20 October 2025 and now the East Wing is fully restored on this day [with the date the restoration is finished]." I want this plaque to also say that the East Wing of the White House belongs to the the people of the United States, not to any president now or ever.

Since this demolition was done without the consent of the PEOPLE, restoration needs to be paid for by the person responsible for demolishing it.

I do not want a ballroom. The East Wing is for the people of the United States. We are not an empire; we are a democracy. We don't need thrones or ballrooms. We don't have a king; we don't want a king.

STOP this ballroom project NOW.

I want the East Wing restored, and I want an honest record of what happened, who was responsible, and how we restored the East Wing memorialized there, at that site, when we rebuild it.

This is the people’s house that we are allowing Trump to live in rent free. Enough of the gold tackiness

---

Name: Jody Erikson
Date: February 20, 2026 12:42:20 pm

Google AI said this is where I should comment on the building additions to the White House. WTF! Okay, I understand the ballroom was likely not big enough for intended National/State functions but it now outweighs the actual White House. The White House is an iconic symbol of the U.S. and the U.S. Presidency (regardless of any one resident). To overshadow it by a ballroom used infrequently is a travesty to the White house Icon and waste of tax payers money. Current estimates online say it will be $400 million, but my guess is that like most building projects that number won't be the final.
Someone needs to stop this over inflated, puffed up expense. My hope is it is this committee. My guess is no one will stop this abuse of taxpayers dollars. sad.

Name: Tara Tisch

Name: Steven Rauschkolb
Date: February 20, 2026 12:49:29 pm

It is both disappointing and potentially unlawful that any occupant of the White House can unilaterally make changes to the “People’s House” without proper oversight or approval. The White House is a historic building, and throughout the United States, buildings of historic significance are typically subject to thorough review and vetting before any alterations are made.

This ill-conceived ballroom project is unnecessary and ill-advised, particularly at a time when funding is being reduced for programs that support the arts and, more importantly, assist the most vulnerable members of our society. In addition, the reported budget for this project seems to increase with each update, and questions have been raised about whether funding from corporations and billionaires may be intended to curry favor—or, in the worst case, create expectations of a quid pro quo.

A thorough, independent investigation should be conducted to determine how this project has advanced so far without appropriate oversight and transparency. In the meantime the project must be halted until the American people get a satisfactory explanation about why is should continue.

Date: February 20, 2026 12:51:05 pm

The White House was built initially to serve as a residence and offices for the President for the purpose of SERVING THE PEOPLE. It was to be a relatively modest dwelling to convey, in part, that the President was part of the people, not a King or emperor, but someone to serve the people of the country. It was based on the humble belief that we are all one in all aspects — law, ability to speak one’s mind and have the basic belief system of “one for all and all for one.”

What is happening in the East Wing of the White House goes against all those democratic and egalitarian beliefs. A ballroom of that size is gross and opulent and gives a message to our fellow Americans and to the rest of the that those with money and power should have advantages that most Americans will never know. It is ridiculous, absurd, and repulsive to have such an enormous ballroom which will dwarf one of the most iconic buildings in the US.One additional question: who will be filling up this ballroom? Certainly not me or any of the other everyday Americans who will have to look at this unbalanced monstrosity from the outside.

Of all the issues this country faces, from health care to inflation to immigration to research to housing, etc., etc., etc., spending money on a toy like this which will only be used by elites, a ballroom is a disgrace to our country and gives the wrong message of our worth.

Name: Ellen Zundl
Date: February 20, 2026 12:52:27 pm

The People’s House should never have been allowed to be altered — let alone destroyed — without the required reviews and approvals. It’s appalling that the supposedly co-equal branches of government did not stop the destruction of the East Wing. The planned replacement is totally out of scale to the primary structure. Allowing a single man with unquestionably bad taste to add gaudy gilt decor to the Oval Office was bad enough. The destruction of the East Wing is unforgivable and the construction of an over-sized, grandiose abomination to replace must be halted — or will need to be replaced subsequent to the end of this man’s term in office. Sadly, the damage done by this rogue administration seems to have no end.

Name: Annalee Fannan
Date: February 20, 2026 12:53:18 pm

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project, but rather a complete razing of American history done at the whim of a narcissist instead of honoring the people of this country, and the People's House. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to law and order, not to mention democracy.

Name: Adam Auerbach
Date: February 20, 2026 12:53:39 pm

I am deeply opposed to the recent demolition of the East wing of the white house and plans for a lavish ball room. This does not represent democracy or the will of the people or fundamental American values.

Name: Henry Corbin
Date: February 20, 2026 12:57:40 pm

To the National Capital Planning Commission (NCPC):

As a stakeholder in the White House property, I deeply appreciate the opportunity to express my opposition to the proposed replacement of the East Wing. I believe this project conflicts with the strategic goals and objectives of the NCPC and does not meet the standards of stewardship expected for a site of such national significance.

First, the proposed project directly opposes the Commission’s mandate to preserve historic and cultural resources. The loss of the East Wing in its entirety has removed an entire chapter of American history. Although the demolished East Wing has been characterized as a utilitarian wartime structure, it stood as a rare surviving example of FDR-era home-front architecture and embodied the resilience and improvisation of the nation during World War II. Its replacement with a grand ballroom is fundamentally at odds with the goal of protecting the historic nature of structures and sites within the Nation’s Capital.

Second, the project contradicts the NCPC’s goals of high-quality, resilient, and sustainable development. Demolition is the least sustainable method available in any modernization effort. While I appreciate the work undertaken to retain select elements of the historic East Wing, the loss of the structure as a whole is a cultural and environmental cost that cannot be understated. Rehabilitation and adaptive reuse — standard preservation practices — were not meaningfully explored or presented.

Third, the project does not demonstrate alignment with NCPC’s requirement for transparent, predictable, and accountable review. The project narrative provides no detail about the specific security standards the existing building failed to meet, why reinforcement or selective reconstruction was insufficient, or what alternatives were considered and rejected. While

security is unquestionably critical to the nation’s wellbeing, invoking it as a broad, undefined justification does not meet the level of transparency required for NCPC approval. The background and rationale for demolition have not been explained in a manner consistent with the Commission’s standards.

The East Wing and East Colonnade are not merely administrative appendages; they are integral components of the historic composition of the White House. Their demolition and replacement — even with stylistically sympathetic architecture — disrupts the continuity of the building’s story and design. In preservation practice, we are taught that preservation is not about freezing a building in time; it is about maintaining the authenticity of its evolution. This project interrupts that authenticity.

For these reasons, I respectfully request that the National Capital Planning Commission:

Withhold approval of the East Wing Modernization Project as currently justified.

Require a full exploration of rehabilitation and adaptive-reuse alternatives.

Request greater transparency regarding the specific security requirements that purportedly necessitated demolition.

Ensure that any future proposal aligns fully with NCPC’s statutory mission and strategic goals, particularly those related to preservation, sustainability, and public access.

The White House is not only the seat of the Executive Branch; it is a cultural landscape of unparalleled national significance. Decisions affecting its historic fabric must meet the highest standards of stewardship. I urge the Commission to uphold those standards in its review of this project.

Thank you for your consideration.
HT Corbin

This modernization is long overdue and is appropriate for the size of events that need to be held for visiting dignitaries and their entourages.
It needs to be a statement of our stature on the World stage.
Donations are in place to mitigate costs, so this project is not only positive for taxpayers, but effective in projecting a continued positive image of what is possible under our form of governance.
From an architectural standpoint, it will enhance the value of "Americas House" since as Thomas Jefferson stated "The Strength of a Nation Lies Within its' Homes".
Thank You.

Name: Angela Miller
Date: February 20, 2026 1:01:23 pm

I appreciate the opportunity to comment on the demolition of the East Wing and the ballroom construction. In my opinion, from the very first day, the way this project had taken place has been an affront to our country’s history and heritage, to the White House, and to the American people.
There was little public notice given. The prescribed process was ignored. There were no permits or oversight. The President appears to be acting as monarch, and his administration seems to have taken the attitude that it’s better to ask for forgiveness than permission.This is sadly borne out by the fact that the historic and venerable East Wing cannot be brought back, but the President has gotten what he wanted.
Furthermore, there has been no transparency in regards to the funding and contracting to which the public is entitled. We are told the funds are all donations, yet this is still public property, our property. Americans deserve to know who donated what and what they may receive in return. Moreover, it is our taxpayer dollars that will operate and maintain this massive building.
There has recently been approval granted by the Commission on Fine Arts, packed with the loyalists who the President appointed to replace the members he fired, this was done in an expedited manner that even Secretary Thomas Luebke said was “highly unusual” and lacking in documentation, making note of the hugely negative public comments on the project.
While many have said this ballroom is much needed, the size and scale should not so massively dwarf The White House, arguably the greatest symbol of American democracy and power. The East Wing was added and other Presidents have

made changes, but these are changes on a scale that has never been done. That these changes have, and are, taking place by cutting corners, without public input, and ignoring norms and the law is shameful and inexcusable. The White House is and always has been The People's House, and the people have had no say. Thank you.

I am strongly opposed to this project. I'm even more opposed to the American public, paying a single penny toward it. It was done without any legal proper or moral steps. I would only support we're building this historic American structure and sending the bill personally to Donald Trump.

Name: Patricia Elovich
Date: February 20, 2026 1:03:50 pm

I am devastated seeing the unauthorized destruction of the East Wing in what seems to be yet another attempt to erase cherished American history. I am also opposed to its funding via donations, which strikes me as another pay-to-play scheme, where billionaires can buy favors with this president. Nothing about this project respects appropriate channels of approval and legal authorization that the citizens deserve for what is supposed to be OUR house. This selfish act that serves solely to fulfill the desires of the current occupant at the expense of history while bulldozing the norms and protections that should have protected it is simply wrong and must be stopped. I ask that the East Wing be restored as accurately as is possible and serve as a reminder that we have no kings. Our country has a democracy and a history that are under very real threat right now. Please stop any further dissolution of history and instead bolster it with the immediate restoration of the East Wing. Thank you.

Name: Matthew Reckard
Date: February 20, 2026 1:04:05 pm

The proposed ballroom is inappropriate for multiple reasons. Here's three: Visually it is way too large, ruining the setting and appearance of the White House, one of the nation's most historic structures. Functionally too, its palatial size is inappropriate. The White House was deliberately designed to be a house, to convey the message that US presidents are not royalty and do not live in palaces. The illegal manner in which the project was put in motion and the existing east wing destroyed, altering major public property with no public participation or even notice, is disgusting and forever fouls the entire concept. If built, it will be a monument to corruption.

Name: Hallidie Haid

Name: Lisa Kenigsberg
Date: February 20, 2026 1:05:05 pm

We, the American people, reject the idea that the White House is in need of a massively oversized ballroom to entertain

who exactly?? Donors to the President? Only supporters of the President? Corporate leaders intent on sucking up the President? International leaders who suck up to the President? What is the purpose of this monstrous, tacky and unnecessary addition to our original and much loved White House? And who are the added guest rooms for exactly? Only those corporate and international leaders willing to give money and lavish support to the President? Finally, how exactly will these added spaces be maintained and paid for? There are no funds set aside for ongoing future expenses - imagine the added energy costs to cool and heat this massive space, or the added staff needed for it. Where is that money coming from???
So many unanswered questions for this garish and gargantuan structure to forever dwarf the White House. We the American people do not a gilded palace / we need a respectful, respectable home for the nation's leader, not this boondoggle for the ages. Stop it in its tracks!!!

I love the White House. I am shocked that a President, who is only a tenant, could destroy the historic East Wing, not to mention Jackie Kennedy's Rose Garden, suddenly and without any oversight or authorization. The proposed Ballroom is ridiculously big—163% the size of the White House. As such it will dwarf the historic and beautiful White House. Please stop this project. It should not matter that the project is privately funded. In fact accepting private funds only invites corruption, payoffs and bribes. The American people deserve better and our concerns need to be heard and acted on. Thank you.

Name: Catherine Anderson
Date: February 20, 2026 1:08:33 pm

Please do not approve this ballroom project! It's horrendous, and shows a lack of care or knowledge of the history of the building. It is the people's house, and the majority of people do not approve of Trump according to all polls, and he has caused incredible pain on our country. It will be a horrific monument to a time we all would be better off forgetting. Please restore the East Wing. It already had a ballroom, and it was nice proportionally to the rest of the White House. The people will never be invited to the ballroom - just persons hoping to appease Trump and line his pockets. It is horrendous - please don't destroy our White House, and restore the East Wing - the people's house. The ballroom screams "elitism" which is not what our country was founded on.

I oppose spending $300 million on this project, which was initiated without proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. It was initiated without proper review or consent. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law, and permitting this project to go ahead without penalizing those who broke it would be an affront to all law-abiding Americans.

I abhor the fact that my tax dollars are being used in such an irresponsible manner, without following the protocols put inplace to ensure appropriate use of funds for renovations.

I oppose the spending of $300 million (which will surely cost much more) on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.
It is not just about penalization, but also taking into account how this new ballroom would work with the White House in an in an historic and tasteful manner, if it must be built and not overpower it and become the main attraction. We cannot erase our history! And no one is above the law!

Name: Seana Wood
Date: February 20, 2026 1:15:48 pm

I think this project is a disgrace at its most basic, it is proportionately all wrong and will dwarf the existing building. And the glitzy gilded interior is completely at odds with a traditional American aesthetic.

Name: Elizabeth Nix
Date: February 20, 2026 1:17:00 pm

I oppose the erection of a massive ballroom on the site of the historic East Wing of the White House. The addition as planned will overwhelm the White House. The president destroyed the East Wing without going through the permission process. The plans for the ballroom keep changing. The renderings are tacky.

I can see the benefits of having a permanent structure that could handle large banquets. Hosting foreign dignitaries in a tent is less than optimal. But use the proper channels. Go through an approval process. Have the addition match the scale of the historic White House.

Name: J Riley
Date: February 20, 2026 1:18:00 pm

Restore the People’s East Wing with its original functioning and necessary business offices and public access, rather than this gaudy, unnecessary party room, to be accessed only by the rich and powerful. This proposal is an embarrassment for our Country. It doesn’t matter how it’s funded, it remains an embarrassment and is a wasteful use of $4M. Use the money to help those of us who actually pay taxes, and who will likely never set foot in this atrocity. Stop wasting our money!

Respectfully submitted.

Name: Jessica Weiss
Date: February 20, 2026 1:20:23 pm

East Wing Modernization Project is double speak for the wholesale unwarranted overzealous destruction of an historic wing of the White House. This vanity project must be cancelled. And the parties that called for and initiated this unapproved, unpermitted (how were the bids and contract managed?) destruction should be fined and the fine should include environmentally and historically informed and sensitive reconstruction and ncpc approved plan costs as well as more than superficial punitive fees. Accountability matters as does adherence to policy and the rule of law in the case of policy violations.

The august history of the Presidency and the national, international and family history of the East Wing were irreparably damaged as was the architectural history and integrity of the White House. An archival and oral history project to document the important history of the East Wing's creation and its "lifespan" and the moments of family, diplomatic political and historic that took place in the East Wing should begin with a planned public exhibition on the grounds of the rubble. It should include interviews with those hired to raze the building.

Approving these plans may well sanction future destruction of the "people's house," acting as a "blank check" to proceed with bluster, with it consultation, and against procedure.

Cancel the proposed plans which are out of scale with and out of historical architectural character of the existing White House that remains untouched.

A ballroom is an inappropriate aristocratic project that stands in stark contrast to the increasing economic inequality of the United States and the decline of US status as a beacon of democracy around the globe. The optics are not only insensitive but starkly contradict historic American political values.

Any future rebuild should be a leed-certified, faithful- as-possible recreation of what will forever stand as a reminder of a tremendous act of disrespect toward the American people and the history of a hallowed building and the government office that resides there. Since that is not in the table at this time, please do not approve the current East Wing modernization plan.

Name: Patricia Cromley
Date: February 20, 2026 1:21:08 pm

Any work that has been done to demolish parts of the East Wing should immediately cease and be paid for by Donald Trump personally. The White House does not need to have large sections torn down. It is a national monument and belongs to the people. All changes made by this administration should be reversed and Trump should pay for all of it from his pockets immediately. Collect it now since he has a habit of not paying his bills. The East Wing should be restored to its prior state as well as the Rose Garden and any other areas that were changed by this administration. He did not have the authority and you failed to stop him. It is imperative that we retain this national monument for everyone to enjoy. Thank you.

The White House is the People's house, not Donald Trump's showpiece. Any inclusion of new event space must be within the scale and style of the existing, historical property. I'm horrified by the destruction already inflicted. Please hold fast to

all existing regulations and protocols as this project is developed to avoid further damage and disrespect to OUR house.

Thank you

Name: Christina Routon
Date: February 20, 2026 1:30:28 pm

The East Wing of the White House should be rebuilt as soon as possible. There is no reason for a large ballroom that would overshadow the White House itself. The East Wing should have been remodeled to remove office space and turn it into an event space if necessary. There is ample event space available within Washington DC if space is needed for an event. I don't agree on such a large addition to the White House, especially at the desire of a president with three years left in office. My opinion, again, is that the East Wing should be rebuilt as an event space instead.
Thank you.

Name: Nancy Walcott
Date: February 20, 2026 1:30:52 pm

The illegal destruction of the historic White House East wing (to say nothing of the callous disregard of health hazards to workers and further health risk resulting from improper disposal of asbestos contaminated material) was a travesty, and should be corrected immediately.
No one is above the law, and none of the proper legal permitting, inspection, and comment procedures were followed.
The new "addition" will dwarf the President's residence, which should never be allowed. (And where do they plan for the 1,000 ballroom goers to park???) The entire plan is an idiotic vanity monument, and the former East wing should be rebuilt exactly as it was.
Anything less would be an affront to law abiding citizens. The White House belongs to the American people, not the current renter.

Name: Leslie Buck
Date: February 20, 2026 1:31:21 pm

The East Wing was taken down in record time and under no authorization or oversight for a historic building. Therefore there should be no forward movement on this property until the proper authorities that should have been a part of this process are involved.

Name: John Muszynski
Date: February 20, 2026 1:31:35 pm

As an American citizen I am outraged that any one person could randomly destroy a National Landmark that was paid for by the American people with no congressional consent.

Since Donald Trump made the decision to destroy the East Wing of the White House (The People's House), he should by fully financially responsible for it being replaced with a design approved by congress and the American People. Furthermore, he should be brought to trail for his illegal actions that caused the destruction of a National Monument. He had no right. If any other citizen destroyed a National Monument they would be sitting in prison right now.

By not taking action on this, the United States of America looks like fools to the rest of the world and our citizens and, once again, the citizens will have to pay for this tragedy.

I oppose ANY further “improvements” or modifications being made to the White House by this administration. I’m horrified that the White House is being made to look like a casino. Please do not allow this to continue.

Name: Karen Lucas
Date: February 20, 2026 1:40:49 pm

Since the WH is not only a historic building but is also the People’s House it should be up to the people as to what happens to it. Since it was already torn down without permission it seems that we don’t have much choice, but to rebuild something. However, I do not think it should be up to anyone other than the people to decide what to build. In addition, since federal historic property was destroyed, I believe that the person responsible for that should be prosecuted just as I would be if I even broke a window at the White House.

Name: Hideko Secrest

This seems to be shutting the barn gate after the horses have escaped. The historical edifice has already been torn down with absolutely no review, and new plans and financing have been put in place without oversight from the proper committees or communication with the American people. In the rush to demolish, so many historical materials were turned into rubble rather than preserved and reused. The people who have rubberstamped this new plan have little to no architectural background. This is a travesty, that will result in a desecration of the White House as the emblem of our nation. Please modify construction so as not to make this ballroom larger than the rest of the White House as a whole, and in keeping with its historic aesthetic. Slow down!

Name: Rebecca Ake
Date: February 20, 2026 1:41:38 pm

I am totally against this project. The proposed build will be ugly and totaly out of proportion with the existing buildings. It is not needed. I proteste the whole project in the st4rongeste terms possible.

The White House is an historic building belonging to the citizens of the United States. Any substantial change plans should have been submitted to the National Trust in order to maintain the integrity of the building for those same citizens. Circumventing this process establishes a precedent that sets in process the descruction of our history.

Ignoring the law by the leader of our currently free nation, signifies, by that same leader that no one is to be held accountable for any of their actions.

The end result, in both senarios, is the descruction of our history which makes the way for rewritting it in a non-truthful manner. The creation of a country with no history or, heaven forbit, a false one.

Thank you.
Billie Jo Gowler, CPA

I'm appalled by the Removal of the East Wing WITHOUT PERMISSION of the People . I do not Trust this administration to Build Anything Appropriate on the gaping wound that used to be a historical building .

Name: Shaun Hamer
Date: February 20, 2026 1:45:51 pm

Why is the new ballroom soooooo big?? It will totally dwarf the White House? Why can't it be the same size as the "lost" East Wing but with an additional floor. The East Wing was hardly small. If the ballroom hosts 1,000 people how exactly are 1,000 going to gather in the East Room for cocktails as Trump suggests before walking through the new glass colannade to the ballroom? Will the shere size of this ballroom block out sun to the gardens and south east corners of the White House?? It's just tooooo big

Date: February 20, 2026 1:48:59 pm

National Capital Planning Commission,

File number 8733 White House East Wing Modernization Plan

It’s with deep anguish and concern that under the President’s direction the East Wing of the White House was so rapidly demolished. This should never happened without the National Capital Planning Commission, the National Register of

Historic Places or Congressional input and approval for historic preservation.

I respectfully urge that the rebuilding of the East Wing of the White House remain consistent with the historic scale, character, and architectural integrity of the existing structure and the broader White House complex. Any reconstruction should honor the original intent and visual continuity of this nationally significant site, ensuring that additions or modifications are harmonious rather than expansive or stylistically incongruous.

At the same time, it is both appropriate and necessary that the East Wing be brought fully into compliance with current safety standards and accessibility requirements, including ADA guidelines. Modernizing the building to ensure safety, inclusivity, and functionality is an essential responsibility and should be accomplished in a way that is sensitive to the historic context.

The East Wing has long served practical and ceremonial roles, including providing workspace for the Office of the First Spouse and associated staff. Any redesign should continue to accommodate these essential functions, ensuring that necessary offices and support spaces are included within the plan.

If event or gathering space is deemed necessary, it should be thoughtfully designed within the existing footprint of the East Wing. Such space should reflect restraint and dignity, avoiding unnecessary expansion or overly ornate features. The White House is a symbol of democratic governance and shared national heritage—it should not be treated or presented as a palace.

Above all, the White House belongs to the American people. Any changes to its structures should reflect stewardship, respect for history, and a commitment to preserving its character for future generations.

Sincerely,
Teresa Thome
Redmond, Washington

As a US voter, I respectfully request that the National Capital Planning Commission (NCPC), the Commission of Fine Arts, the Committee for the Preservation of the White House, The National Trust for Historic Preservation and the National Park Service perform due diligence to protect both the historic and functional integrity of the White House, a sacred national symbol.

Name: Connie Lazoration
Date: February 20, 2026 1:49:55 pm

Restore the East Wing to its design prior to the brazen, illegal destruction it suffered under the same dictator who destroyed the historic White House rose garden and installed inappropriate and gaudy decor elsewhere in the WH.

Name: Eileen M Steinberg
Date: February 20, 2026 1:49:57 pm

I am outraged that Trump proceeded with the destruction of the East Wing without proper approval. I feel that the destruction should be DISAPPROVED and that he be ordered to fully RESTORE the East Wing and that the cost of the destruction thus far and the full cost of the restoration be paid from Trump's PERSONAL MONEY and that of any other persons responsible for this debacle.

Name: Matt Leopold
Date: February 20, 2026 1:50:23 pm

I oppose the proposed $300 million project to modernize the east wing and expand the footprint with a ballroom not because I resist change, but because I believe change to this building must meet the highest constitutional, architectural, and procedural standards.

The White House East Wing is not merely office space. It has evolved carefully to support the First Lady’s offices and ceremonial access, all while respecting the architectural vocabulary established by the original designers. Alterations to this structure must be reviewed by preservation authorities, the National Capital Planning Commission, and the Commission of Fine Arts, processes designed to protect national heritage from unilateral executive decisions.

Historically, major White House renovations have been undertaken only when structurally necessary or to preserve the building itself. The most dramatic example occurred during the Harry S. Truman administration (1948–1952), when the residence was literally gutted because it was in danger of collapse. Even then, the exterior walls were preserved and faithfully reconstructed to maintain historic continuity. That project was about structural survival, not aesthetic reinvention.

Similarly, updates during administrations from John F. Kennedy to Ronald Reagan focused on restoration—returning interiors to historically accurate designs, improving safety systems, or modernizing infrastructure discreetly.

The current ballroom proposal associated with Donald Trump has been publicly described as a “modernization” intended to reduce reliance on tented structures for large events. However, architectural renderings and public statements have shifted over time regarding scope, placement, funding structure, and historic impact. Claims that the addition would be seamlessly integrated or privately financed have been questioned by preservation advocates who note the scale and permanent footprint such a structure would impose on a historically sensitive site.

The core issue is not partisan. It is procedural and preservationist.

If the project was initiated without proper statutory review, permits, or transparent design oversight, that alone warrants suspension. The White House does not belong to one administration, it belongs to the American people and to history itself. Any addition of this magnitude should undergo:

1. Full preservation review

2. Public architectural transparency

3. Congressional oversight if federal funds are involved and oversight if private funds are being provided.

To proceed otherwise risks setting a dangerous precedent: that a sitting president may reshape a national historic landmark without the same legal scrutiny required of any other property owner in Washington, D.C.

Restoration should mean preservation of heritage, not the replacement of it. If expansion of event capacity is needed, temporary structures or reversible additions, as used by prior administrations, provide a lawful and historically responsible alternative.

The White House has endured because leaders treated it as a trust, not a canvas. That standard must remain.

Name: stephen peisch
Date: February 20, 2026 1:50:53 pm

The East Wing was demolished before Trump's project went through the approval process. That was wrong. The proposed project itself is unnecessary, wasteful, and disrespectful of the history of the White House. Its lavishness broadcasts the arrogance, materialism, and greed of our current leader, and I pray that he will will be stopped.

Name: Jean Lachowicz
Date: February 20, 2026 1:51:00 pm

The White House has long been in need of additional office space, and the demolition of the East Wing only intensified the problem. When a presidential administration is run by professionals instead of sycophants, office space is needed for professional activities to serve the people. Furthermore, no ballroom should be built to such a comedic scale as the planned trump ballroom, to dwarf the rest of the building and destroy any sense of balance and harmony in the structure.

Name: Janet Gagosian
Date: February 20, 2026 1:51:05 pm

Stop this vulgar ego trip now! It's a vanity project aided and abetted by enablers of grandiose, dictator-style overreach who were appointed by overtly corrupt means.

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Cathy Smith
Date: February 20, 2026 1:55:36 pm

I feel a great disjustice has been made in the distruction of our We the People's house by tearing down of the East Wing. This should have never happened in the first place. It should be built back in it's exact glory and paid for by trump.

Name: Margaret Brentano
Date: February 20, 2026 1:56:11 pm

I oppose spending $300 million on this ridiculous and destructive vanity project. This ballroom does not represent “modernization” but an undemocratic turn toward autocratic extravagance. The historic East Wing, with its inspiring connection to Eleanor Roosevelt and to the First Ladies who followed her, should be rebuilt and restored to its former glory.

Name: Ruth Dragan
Date: February 20, 2026 1:56:54 pm

To whom it may concern,

I am so appalled and so angry at what Trump has done to the White House. The White House does not belong to him. He’s a tenant. The White House belongs to the American people. In one short year he has destroyed the rose garden, demolished the East Wing, gilded the Oval Office and made plans to build an obscenely oversized vanity structure that will dwarf everything around it. He has absolutely no concept of what a sympathetic addition is. In his ignorant little mind bigger is always better. He tells us that he will pay for the whole monstrosity with donations from private citizens and corporations. Simply stated, if you want any favors from the Oval Office, you had better pay up. It’s extortion at the highest level. If the White House event planners needed more space for large gatherings, there were better ways to do it than by demolishing a beloved and historic home.

Please stop Trump!

Thank you.

Name: Cynthia Miller
Date: February 20, 2026 1:57:41 pm

I visited the East Wing in 1996, very proud to be a citizen in a country that allows all to tour the historic building where the president lives and works. If this is the People's House, why on earth was the current president allowed to raze it to the ground? And now we are subjected to the tacky and tasteless plan to put in a giant ballroom that 99.9% of Americans will probably never see. It is disgusting how low our previous laws and traditions have fallen. As a stakeholder in the People's House, I demand plans for a ballroom be scrapped immediately and completely and restoration of the East Wing commence. And make DJTrump pay for it.

Name: Erin Hoyes

Date: February 20, 2026 2:02:40 pm

PLEASE DO NOT ALLOW THIS PROJECT TO GO THROUGH!! I was trying to be patient with this president, hoping he would show some sense of respect and decency for the American people, the republic, the separation of powers, and basically his own duty as an elected official not to act like a monarch high on his own supply of ego inflation. But he couldn't even stick with an aesthetically restrained design in keeping with the colonial style of the nation's sacred historical site, the White House: WHICH IS NOT HIS HOUSE!!! And the enablers of this vulgarity are complicit in helping destroy architectural integrity and expressing contempt for this republic and its people! The corruptly installed "replacement arts commission" that fast-tracked this obnoxious project have ZERO legitimacy, and are just apparatchiks This is a Soviet- or Chinese-regime style Communistic dictatorship vanity project. It's a manifestation of un-American selfishness on our 250th anniversary: completely out of line!

The White House is not Mar-a-Lago, but it's unfortunately way too predictable for this administration to slap the whole

country in the face with this insulting montrosity of an "addition." It is critical that our government start PUSHING BACK and SETTING BOUNDARIES with this cult of personality allowing its leader to try and "pee on every tree" in Washington! (Kennedy, Center, Institute of Peace building, etc.) The enabling of this petty behavior has gotten out of control.

Date: February 20, 2026 2:02:44 pm

To Whom It May Concern,

Thank you for your time and consideration of the public's comments for this controversial project. I believe that the way President Donald J. Trump tore down the East Wing of the White House was completely unjustified and unconstitutional. As President, he has the right to propose, plan, and execute changes to public buildings, facilities, and grounds, but only with the consent of Congress. There are laws and regulations that must be followed before any major changes can be made, and that was followed here. Contextually, there have been many Presidents who have made additions and alterations to the White House, but they went by the book. So, if President Trump wants to add on an updated wing or some other structure, he must submit a plan and have it approved by all of the necessary stakeholders. We are a country where the rule of law is the foundation; it must be followed.

Thank you,
Tim Galvin

Please do not reward someone (Trump) for NOT asking permission or following rules. Instead moving quickly so "It's too late" and he then gets what he wants and reinforces his behavior. The White House is a very special place AND the People's house - not Trump's. It is proper to have all the right things done (public input, approved design, etc.) BEFORE any destruction. I'm so glad you might be in a position to represent the public. Good luck.

Name: Amanda Davidson
Date: February 20, 2026 2:08:11 pm

Tearing down the East Wing was a disgrace, but the new structure built to replace it should be harmonious with the rest of the building. What is being proposed is way too large and is not congruent with the scale of the White House.

Name: kelsey lutz
Date: February 20, 2026 2:08:53 pm

I oppose the spending of $300 million on this project. This project was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing and devaluation of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Patricia Warren
Date: February 20, 2026 2:09:49 pm

To allow this project to go forward is a mistake. I do not want a $400 million dollar gold ballroom. This is the “people’s house” not Trump’s house. If donor’s are paying for it—name names-because it is influence peddling. No one should destroy this historic building.

Name: Diane Walczak
Date: February 20, 2026 2:13:29 pm

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. Good afternoon,
I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding citizens.
As an American, that values what our founding fathers left as legacy, restore it to it's formal glory. "If it ain't broken,why fix it"!

Name: William Kemper
Date: February 20, 2026 2:22:05 pm

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. The naming a panel to approve the destruction of U.S. history is a sham. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Penelope Cole
Date: February 20, 2026 2:22:26 pm

~As an American Citizen & Retired Federal Career Employee I strongly oppose this "East Wing Modernization project." I oppose the spending of $300-400 million on this project, which was initiated without the Proper Authorization, Permits, or Design Review.
~It is not a modernization project but rather a complete razing of American History. I want this project canceled, and the East Wing Rebuilt and Restored to its former design.
~No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Michael Goggin
Date: February 20, 2026 2:23:28 pm

A ballroom funded with corporate bribes is inconsistent with democratic values. The White House is supposed to be “the people’s house.” The gaudy and oversized ballroom proposal is more fit for Versailles and will overshadow the intentionally modest White House.

Name: Sarah Sutro
Date: February 20, 2026 2:26:25 pm

As an artist and a college art professor for 30 years, I would like to share that every project I have been involved in or guided has had a trajectory of participant and commission discussion, professional planning, community input and extensive design development. Especially in the instance of the design of a ballroom within a national heritage site, there should be an extreme degree of caution at bounding ahead with a planned project such as this. As the White House is essentially 'the people's house,' members of the art, design and historical community should be part of the decision-making.
Please consider that this architectural change will effect everyone, and good representation of the US community should be a bottom line in the process.

Name: Max Arnold
Date: February 20, 2026 2:29:10 pm

I believe that President Trump is failing to understand that the nation, including it's buildings and monuments belong to the American people who have a say, through our representatives as to what is to be built or remodeled. He seems to want to turn the Capital into a gaudy, Disneyland style 'Trump World' attraction. He must have input from the Congress. I love my country but ashamed that Trump is being allowed to claim it for his own. I agree with the idea of a ballroom but not his design. We are not a Monarchy.

Name: Carolyn Morrow
Date: February 20, 2026 2:29:12 pm

It is unconscionable to have torn down the East Wing and be turning it into a ballroom. The act itself - without any congressional or communal consent - is an act of thoughtless destruction. It lacks awareness; it lacks an honoring of the historical memory/integrity of the building. It is superficial and self-congratulatory. It is not for the White House or for the people. Who or what is it really for???

Name: CB Davis
Date: February 20, 2026 2:30:03 pm

It is absolutely heartbreaking that the "President" is allowed to destroy a piece of American History without any oversight. This is not democracy, this is authoritarian rule. Please take the keys away from grandpa and bring back the White House as the People's house!

Name: Sharon Furey-Stilson
Date: February 20, 2026 2:31:39 pm

I would like to express how outraged I am over Trump's destruction of the East Wing of the White House. I agree with The National Trust for Historic Preservation when they argue that Trump must seek Congressional Approval and also consult with Federal Commissions and the Public before any work continues.

I deeply feel that the East Wing has been destroyed illegally.

I am in hopes the East Wing can be restored to its original state. Trump's Ballroom would be an abomination of our Nation's Capital and also destroy the symmetry of our beautiful White House.

The White House is the People's House. The President is a Steward of the White House, not an Owner!

Sincerely,

Sharon Furey-Stilson

Name: Jenifer Karwoski
Date: February 20, 2026 2:32:10 pm

I oppose any plans submitted by anyone other than a bipartisan National Historical group and that plan should consider the true needs of the space and restore the full function of First Lady and other WHO staff offices while respecting historical continuity with the rest of the building.
The illegal, unvetted destruction of the former East Wing at the whim of a wannabe dictator should never have happened, and the damage should be minimized.

Name: Richard Paulus
Date: February 20, 2026 2:32:16 pm

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Tia Holmes
Date: February 20, 2026 2:33:03 pm

I oppose the spending millions of dollars on this project, which was initiated without the proper authorization, permits, or design review. This project should be canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to let this project to go ahead without penalizing those who broke the law would be an insult to all law-abiding Americans.

Name: Brian Nafzinger
Date: February 20, 2026 2:34:07 pm

This illegal, unauthorized, unnecessary, and corrupt project must be halted and the East Wing restored to its former glory fully funded by Donald Trump. No one is above the law.

Name: Susan Aune
Date: February 20, 2026 2:36:54 pm

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. Name: Sandra Wilson
Date: February 20, 2026 2:37:31 pm

I vigorously oppose the "East Wing Moderiaztion" project because it is not needed and it reflects a wrong and unhealthy image of the USA.
Even though it is supposedly paid for by private contributions, the taxpayers of the USA will have to support and maintain it and it has no meaningful value to the country or the vast majority of the people of the country.
No to allowing this project to proceed!

Name: fred oehrlein
Date: February 20, 2026 2:37:58 pm

This. Building is of the people, for the people and by the people and should not move forward as planned.

Name: Sarah Huntington
Date: February 20, 2026 2:38:46 pm

I oppose spending $300 million (or more) on this project. It has not gone through the required review for a building in the National Historic Register. Tearing down the East WIng without proper permission is against the law. I want the East WIng to be rebuilt and returned to its last interior and exterior status. To allow this project to proceed by those who broke the law would be a great disservice to our law-abiding citizens.

Name: Lanore Briggs
Date: February 20, 2026 2:39:01 pm

The East Wing Modernization Project

Put the East Wing back the way it was. The White House is a temporary residence of trump, and once he is gone, I’m afraid that this historic Presidential home along with many other national treasures will have been destroyed. The destruction of our nation’s capital buildings must stop. They belong to the people and no one person has the right to make these drastic changes without our approval through Congress.
Please do the right thing and stop this mess.

Thank you,
L.R. Briggs
[redacted]

Name: Millie Fife
Date: February 20, 2026 2:40:58 pm

I am writing because I do not support spending $300 million of taxpayer money on this project. I believe that it was an illegal action to destroy the East Wing and lament the loss of U.S. history. These decisions are not proceeding with proper authority or review and should stop. The proper recourse is to rebuild what was destroyed. And for those responsible for the destruction to be held accountable.

Name: Susan Linderman
Date: February 20, 2026 2:41:05 pm

The White House and East Wing are historic buildings that belong to the people of the United States. No President should be allowed to destroy, significantly alter, or build adjacent buildings without thorough and independent historical and architectural reviews. Reviews and approvals must follow established processes and include participation by people who are experienced and knowledgeable professionals dedicated to the preservation of history and architecture. Reviewers and approvers must be independent, and therefore cannot be solely appointed by the President of the United States. Independence is crucial. The tearing down of the East Wing is a travesty. Please stop all future changes and building until an independent review process is established and followed. No one person, even the President of the United States, should have unilateral control of preservation, design and building. Do NOT allow the ballroom to be built.

Name: Hannah Styron
Date: February 20, 2026 2:42:57 pm

Hello,
As a proud American, I am saddened to see what is being done to one of THE national symbols. Something that represents America on a global stage. At this point it is too late to voice my protests for the East Wing Demolition, but I can say that it should be rebuilt in its entirety, with only insulation, electricity, and fire code compliance updated.

Thank you,
Hannah Styron

Name: Marian Krieger
Date: February 20, 2026 2:45:34 pm

I am apposed to the money being spent on President Trump's ballroom. Taxpayers don't need or want a ballroom. President Trump has destroyed enough of our country. No more.

Name: Lisa Mount
Date: February 20, 2026 2:45:47 pm

The unauthorized destruction of the East Wing was an assault on our history and legacy. The proposed gigantic addition is out of scale with the rest of the White House and is solely personal aggrandizement for the temporary resident of that hallowed building. Under no circumstances should this “modernization” take place. The East Wing should be rebuilt as it was before this desecration occurred.

Name: Kate Wright
Date: February 20, 2026 2:47:09 pm

I oppose this project because it began without proper authorization, permits or review. It is a blow to symbols of our shared American history and should be rebuilt to its original design. The White House is called "the people's house" afterall. It would be an affront to our history and legacy to go ahead with this project.

Name: Cynthia Cox
Date: February 20, 2026 2:48:24 pm

I oppose spending $300 million of our taxpayer money to rebuild. President Trump should pay for it and should be be punished for not adhering to the law to get the appropriate permission and permits. I don't think we should use any of the architects or contractors that Trump used to build or design the People's House.

Name: Beth Ann
Date: February 20, 2026 2:48:56 pm

The size of this proposed project is so extraordinarily out of scale with our nations most iconic residence. It seems as though this President wants his legacy to be twice the size of any other President. Literally. Let's just call this what it is, a vanity project.

Name: Margaret Kieffer
Date: February 20, 2026 2:49:22 pm

I am shocked and disgusted that one person can do such damage to OUR Whitehouse, without permission or planning approval. Please do something to stop any further damage to the Whitehouse!

Name: Janet Anti
Date: February 20, 2026 2:50:02 pm

The razing of the East Wing of the White House was a flagrant violation of law that erased important history of our nation, particularly of the First Ladies participation in our national leadership. The independent planning for the monstrous ballroom privately funded, not taxpayer funded for the "People's House," is also against the law. I am AGAINST the building of this ballroom. It is not East Wing Modernization. It is East Wing Desecration.

Name: Julie Graves
Date: February 20, 2026 2:51:24 pm

It’s SO infuriating that the current administration destroyed a historic institution without initiating any permits or design review authorizing the project. Not to mention the environmental protections for the asbestos in the old construction!! I OPPOSE the spending of $300 million on this project!! I want this project cancelled and The East Wing restored to its original design and glory!!

Name: Virginia Jones
Date: February 20, 2026 2:52:10 pm

I feel that with so much going on in the government that I have NO control, I must comment on the East Wing.

This is so sad and disheartening. I have toured the White House when I was a teenager and then later in life.

Please stop this "Ball Room" - it is so not necessary!! Our country is in crises and we can little afford for this massive

addition.

Please severely modify this addition and do not allow any more monuments to our current President.

Please fix what is broken.

Respectfully,

Virginia A. Jones (retired nurse)

Name: Marek Nelson
Date: February 20, 2026 2:53:48 pm

I oppose the spending of $300 million on the East Wing Modernization, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Linda Gnat-Mullin
Date: February 20, 2026 2:55:08 pm

The East Wing has historically been the locus of the First Lady's activities to benefit the American people. In tearing down this wing, President Donald J. Trump has sent a message to women everywhere that their views and ideas don't matter, and has attempted to replace a building steeped in history and programs to benefit the American people with a lavish, ugly, over-the-top gathering place for the super wealthy. Please stop this illegal building grab, this history grab, and restore the East Wing to its original style and function.

Name: Phyllis Halpern
Date: February 20, 2026 2:57:09 pm

The demolition of the former East Wing made me, as a proud American, very sad. No standards, transparency, reasoning, or consideration of the beautiful craftsmenship, the old-growth wood and other materials was provided. All the materials, cabinetry, and years of historically useful elements should have been preserved for re-use if a normal process had been followed. Stamdards amd protocols for historic preservation have developed over the years, for essential reasons. The former East Wing belonged to the American people, and as such, its demolition deserved a much slower and more careful process, if it was at all neccesary.

The design of the modernized East Wing is way too large. It overwhelms the White House itself. It is shoehorned into the site, and requires a weird asymmetry on the pathway. Because it is so huge and looming, the new East Wing is not at all harmonious. Further, there seems no need to build a 1000 person ballroom! It is a wasteful plan! If every so often, the need arises for a space to accomodate so many people, there is no reason why a tent, or at least a tent extension could not be used. Whether taxpayer dollars are used, or not, does not change this project's size, wastefulness, inappropriateness, and lack of good procedure.

Name: Kathleen Roche
Date: February 20, 2026 2:58:37 pm

I, like many others are emotionally appalled at the destruction of the East Wing of our White House. I never gave permission for any such project via my local representatives vot which is required. Please pass along strong reminders to all who need to hear this that it is not Donald’s house. It is the peoples house. Every citizen in our country has voted our representatives to follow the governing laws and by all legal manner out a stop to a so called presidents dream to install a golden ballroom that I nor the everyday citizen ever see. I don’t want it. Please stop this absurd and illegal construction now!

Thank you.

Name: Lola Yarger
Date: February 20, 2026 2:58:47 pm

I oppose spending $300 million on this project, which began without proper authorization, permits, or design review. This is not a modernization effort—it is the destruction of important American history. I want the project canceled and the East

Wing restored to its original design. No one is above the law, and allowing this to proceed without consequences would undermine every law-abiding American.
Sincerely,
Lola Sue Yarger

Name: Margaret Viets
Date: February 20, 2026 2:59:55 pm

Pure and simple, this ballroom is not needed. It is a folly and nothing more than an unsightly monument to Donald Trump's hubris and ego. This massive monstrosity does nothing for the American people and nothing for our beautiful capital city. It should NOT be built regardless of where the obscene amount of money required comes from.

Name: christine krieckhaus
Date: February 20, 2026 3:00:24 pm

This matter should go through the normal and legal process and include input from the public and legislative bodies and legal permitting process. It is vital that we preserve our museums and other sources of historical importance.

Name: Carolyn Schott
Date: February 20, 2026 3:00:34 pm

I am angry and horrified that the East Wing of the WH was torn down without any sort of oversight of its historical and architectural significance nor to gain approval of such a drastic demolition. If that is not a crime, it should be.

I am angry that millions of dollars will be spent to build a gaudy replacement. Whether those are tax dollars (which makes me angry because that's my money that's being spent) or donor dollars (which makes me angry because people are just trying to buy influence), it is a disgrace.

The East Wing served many vital functions - including offices for First Ladies that actually did productive projects, as a public entrance, and for some social functions. Replacing that with a ballroom that has minimal functionality is also criminal (or should be).

The East Wing should be rebuilt in a form and functionality that is the same or similar to what was torn down, and is consistent to the rest of the White House structure.

Name: Grace A Houghton
Date: February 20, 2026 3:01:48 pm

It is truly inconceivable that Donald Trump ruthlessly tore down the East Wing without any approval whatsoever. In the small city where I live, you can't alter a house deemed a landmark without going through a fairly rigorous vetting process - and that might be for something as minor as changing the paint color!

That man flouts every rule of law, every established policy, every legal precedent that impedes something he wants. I just cannot understand it. Why don't the rules apply to him? He just destroyed a huge part of this country's heritage. Just like that. And all to put in what looks to me like the grand balloon at the banquet center off some interstate. Completely without grace, dignity, or awareness of place. It's a travesty.

Please do not allow the East WIng to be yet another monument to Donald Trump's arrogance, greed, and appalling bad taste.

Name: Melle Lee Warren
Date: February 20, 2026 3:05:40 pm

I am writing to object to the unauthorized destruction of the historic East Wing of the White House. The People's House

is just that; it is not the property of the current White House resident to do as he pleases. The ballroom must be stopped, and the East Wing rebuilt. The money allocated for the ballroom should be used for the restoration.

Name: Isabelle Petersen
Date: February 20, 2026 3:05:53 pm

I am writing to record my opposition to the ballroom design on the former White House East Wing land. The scale of the design is atrocious.

I taught the history of art and architecture for decades. Principles of scale and aesthetic balance are vital to successful architectural design. The plans, as published on February 20, show neither.

The planned ballroom appears to tower over the White House, distracting from the symbolic importance of "the people's house." If a large ballroom is indeed needed at this location, it should be harmoniously proportioned to the existing architecture without detracting from its focus.

No democratic president should be allowed to create monuments to himself while destroying historic landmarks that belong to the American people.

Name: Sue Johnson
Date: February 20, 2026 3:07:26 pm

I oppose the spending of $300 million on this project, which was initiated without proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project cancelled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law abiding Americans.

"I pray Heaven to bestow the best of blessings on this House, and all that shall hereafter inhabit it. May none but honest and wise men ever rule under this roof." — John Adams (in a letter written the second night he lived there, 1800).
"The White House belongs to all Americans. It's supposed to be something we're proud of." — Nancy Reagan.
"This is a house that belongs to all the American people." — Jacqueline Kennedy. Just a few quotes to remind us all of what the White House should stand for, the people's house with temporary residents.

Modernization of historical buildings can be necessary for the comfort and safety of the temporary residents. GUTTING

historical buildings without careful consideration would seem to follow Donald Trump's method of acting for anything, period. He complained about the decor and feel of the White House his first term and spent most of his time at Mar a Lago. I guess he decided to bring the gaudy and tacky style of decoration to the White House. The amount of gold gilt he has installed in the Oval Office is truly horrendous and quite frankly, disgusting, as is his plan for his "grand ballroom." .....then we have the bunker he wants to build underneath the larger footprint.

Donald doesn't care for history, ignores it, or is constantly trying to rewrite it to his satisfaction. When he decided to demolish the East Wing without the 30 days normally required in going through the National Capitol Planning Commission or other federal agencies to proceed with even smaller projects, it was like a punch in the gut (which I think the man wanted to do to people anyhow). It IS the people's house, not Donald's house (although I believe he has plans to stay indefinitely). Where is the furniture, where are the paintings, all pieces of our history? Were they just destroyed? As a student of history, as an American citizen whose roots go back to the Revolutionary War and beyond as a member of the Choctaw nation, I demand there be an accounting of what was done. The White House should be restored to the architectural equilibrium that was present before Trump took a wrecking ball to history. We do not NEED a ballroom to house all the wealthy people for a ball--I suspect none of "the people" who work for a living will never again see the White House.

I am also vehemently opposed to demolition of the other buildings Trump has in his sights, and am equally opposed to the construction of the "Triumphal Arch" which will destroy the beauty of the mall, an introspective place to be and remember WHAT our government and those operating and serving within should actually be and how they should act.

Most Sincerely,

Deborah P. Fronzak.

Name: Deb Kiley
Date: February 20, 2026 3:22:31 pm

The east wing should never been torn down to build a monstrosity that ruins the White House, the people’s house. The President should have to use his person funds to rebuild the east wing to original specifications. Any future modifications must follow the law and existing procedures.

Name: Anne Settanni
Date: February 20, 2026 3:22:47 pm

I object to the construction of any ballroom or other building on White House grounds. The east wing was destroyed without permits obtained and should be rebuilt as it was.

Name: Arthur Shippee
Date: February 20, 2026 3:24:46 pm

I strongly oppose the spending of $300 million on this ridiculous project.

It was started without the proper authorization, permits, or design review, so any associated plan should be looked at with great suspicion. What are they hiding?

It was a wanton desecration of American history. It also sells the People's House to private interests. No one is above the law, and allowing this project to go forward would be an insult to a lawful country and to law-abiding patriots.

This project should be canceled, and the East Wing rebuilt and restored to its former design.

I hope you'll take a firm stance for the right against this egregious plan.

Name: Karen Mason
Date: February 20, 2026 3:24:56 pm

The need for a ballroom at the White House is not clear. Many former presidents have not publicly made the statement that the White House needs a ballroom to host the many official functions, including state dinners, which have been held there. Right now, it seems like a waste of money, even if the money is private donations.
If the White House does need a ballroom, then the design should be in the style of and in appropriate scale for the existing structure. Architects should have the opportunity to submit their ideas publicly and one plan should be chosen with public input. It should be paid for with public funds, so that there is some control of the size, embellishment and outfitting. Since the White House is not a private residence; the design and embellishment of any additions should reflect general expectations, not the taste and grandiosity of any one person, including the current occupant.

Name: Karen Ryker
Date: February 20, 2026 3:26:18 pm

Spending of $300 million on this project, initiated without the proper authorization or permits or design review of design, is to be opposed. It is not a modernization project. Rather it is a destruction of American history. This is THE PEOPLE's building, and I , a citizen, want this project canceled. I want the East Wing to be rebuilt and restored to its former design. And cost for this should be born by Mr. Trump, who illegally initiated the project. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Kathleen Finderson
Date: February 20, 2026 3:26:40 pm

I oppose the building of any replacement to the erased East Wing without the required reviews, including a review of the design by all appropriate parties.
The White House is the People's House. While renovations may be needed, they should always be appropriately designed and sized to complement, not distract from, the original structure. And those designs and the budget for renovations should be reviewed and approved by the normal process, whether they are funded by tax revenues or by any other source.

Name: Sharon Spratley
Date: February 20, 2026 3:26:42 pm

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans. Democracy is by the People, of the People, for the People. There was nothing democratic about the East Wing demolition. Any project that lets that un-Democratic act stand is an afront to everything the founding fathers and the American people stand for. This project should be rejected, out of hand.

Name: Lori Oberhofer
Date: February 20, 2026 3:32:03 pm

I am 100% against this project. This is OUR WHITE HOUSE. It belongs to ALL Americans, not TRUMP. This is the PUBLIC's WHITE HOUSE. The "Epstein-Trump Administration" had NO RIGHT to tear down the East Wing of the PUBLIC's WHITE HOUSE without consultation first. And few to none of us want an absolutely classless Putin-style Ballroom. This is an atrocity and I'm appalled. "Thank you for your attention to this matter."

Name: Jim Gurski
Date: February 20, 2026 3:33:56 pm

I would like to see the East Wing rebuilt so the original layout of the White House would be restored. The ballroom could be built in a proportional scale to the existing buildings in a less prominent position so as to not detract from them. The White House should regain its importance and not be overshadowed by this ballroom. It was disgraceful that the East Wing was destroyed without public input! This is the people’s property, it is not a private residence!!!!

Name: Patricia Joy
Date: February 20, 2026 3:34:08 pm

I strongly oppose the destruction of the East Wing to be replaced with a gaudy ballroom. The multi billions of dollars spent on this project would be much better spent keeping the programs promoting education and aid to struggling countries, etc. Please put a stop to all this wasteful spending by this criminal POTUS!!!

Name: Kathleen McGlathery

300 million dollars for greed and selfishness

Name: Anne Gilkey
Date: February 20, 2026 3:38:12 pm

Hello, my name is Anne Gilkey and I live in Greenville, SC. As a lover of historic homes I vehemently oppose the modernization of the East Wing of the White House. As Jack Schlossberg said “my grandmother saw America in color” and her garden was proof of that. It was a blatant act of disrespect to the memory of Jacqueline Kennedy and Bunny Mellon when the garden was paved and a concrete pad was left in its wake. That garden represented change and beauty, all of which these new plans at the White House do not. This is historic home for all Americans and it is so disheartening to see this once beautiful home that has hosted so many historic events be allowed to turn into a miserable gray box. I implore you to consider what the White House truly stands for and represents. It’s a home that is meant to exude comfort, trust, and warmth to all that visit no matter when they are from. Please stop stripping the history from this home. These plans are not to “modernize” the White House, they’re meant to dehumanize it. To erase the memories of all that have come before. Enough damage has already been done. I mean no disrespect to our sitting president but I do respect what the White House represents.

Name: M B
Date: February 20, 2026 3:42:02 pm

Anara Guard's comment on this is beautiful. She gave permission to post, if anyone wants to use her language.

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Words well spoken.

I oppose this effort. It was started without proper procedure. I want it restored to its original state.

K

Name: Nadra MacArthur
Date: February 20, 2026 3:44:31 pm

I am wholeheartedly against this project mainly because it is a vanity project, not a necessity for the American people who are ultimately responsible for covering the cost of operating and maintaining the White House. These costs will only exponentially increase with the ballroom - both for maintaining and paying for events held there. People don’t have healthcare and cannot afford basic necessities while the Adminstration conducts themselves in a Marie Antoinette style. The East Wing should never have been torn down before this process took place. It’s disturbing that the committees who oversee such projects are just rubber stamping this gaudy monstrosity despite the majority of Americans opposing it. Lastly, this project does not reflect the stately and historic nature of our existing White House. There is no dignity in the look or feel of this project.

Name: Barbara Brimlow
Date: February 20, 2026 3:45:30 pm

I am writing to protest the destruction of the East Wing and asking the commission to stop the ballroom project and restore the East Wing. This is the People’s House and should never have been destroyed without Congressional involvement.
Barbara Brimlow

I oppose the spending of any money, public or private, on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Jill Thach
Date: February 20, 2026 3:49:31 pm

The White House belongs to the American people.
It's East Wing should not have been demolished by the current President without approval of the American people through various votes, boards, commissions, etc., that are not simply "rubber stamps" for whatever the President decides he wants.
The East Wing should be rebuilt to its 2025 condition--at the sole personal expense of the President who unilaterally decided to demolish it virtually overnight without permission.
This demolition is a complete travesty, a taking of public property without due process.
The East Wing must be rebuilt to its 2025 condition.
Shame on the President. Shame on his enablers.

Name: Dolores Daigle
Date: February 20, 2026 3:49:44 pm

The East Wing should be rebuilt to the current building codes, but then restored to it's former size and purpose. It's inexcusable that the building was torn down and a new design "approved" without proper reviews, applications, and permits. The new design completely dwarfs the historic White House, which belongs to the Nation, not to a temporary occupant, who wants his name and ugly portrait everywhere. Historically, this wing was the headquarters for the First Lady, and there is a long history of First Ladies, who contributed to the welfare of the country, in my lifetime from Eleanor Roosevelt to Michelle Obama. That the current temporary First Lady chooses instead to use her role to make a

movie about herself, and seems to live mostly elsewhere, is no justification for permanently destroying and changing the purpose of the building.

Date: February 20, 2026 3:59:09 pm

To Whom it May Concern,

I object to the tasteless design of the new proposed Ball Room. The White House is a historic treasure belonging to the American people, not a president. Restorations are supposed to go through a process which is being ignored now. Selecting only people on the committees that agree with this president and his design is a sham.

This design overpowers our beautiful and classic White House and the surrounding grounds. Please do not let this be built
Sincerely,
Janice O'Brien

Name: Joanne Tobey
Date: February 20, 2026 3:59:59 pm

I am vehemently opposed to this project. I am opposed to "modernizing" (which is actually "destroying") the PEOPLE'S house. The project as it stands is unlawful. Plans have not yet been filed with the National Capital Planning Commission as required by the National Capital Planning Act; no adequate public environmental assessment or Environmental Impact Statement has been prepared as required by the National Environmental Policy Act (NEPA); and Congress has not yet authorized construction of the building as it is required to do when construction is proposed in any federal park in the District of Columbia. The East Wing as it stood was a connection to our history and proportional to the building and surrounding architecture. It provided all that was needed in an aesthetically pleasing way. We do not need and should not allow this unconstitutional project to proceed. The East Wing should be restored.

Name: Kimberly Calvin
Date: February 20, 2026 4:03:58 pm

As an American who's family fought to create this country in the Revolutionary War, I dissent. The White House does not belong to the President of the United States. My family helped to make the White House possible. It belongs to the people and we provide it for the President so his job can be done more effectively. Just like any other historic monument, the White House is a Historic landmark that no one has the right to change. The current President has already destroyed the Presidential Rose Garden with out permission and killed off rare roses that were our pride and joy. Do not allow him to destroy any more of our heritage by allowing this ballroom to go through. It does not matter that the current President wants a ballroom for himself. It matters that the White House belongs to the American people he is supposed to be representing. We are the landlords providing housing for the President. The East Wing needs to be reconstructed and repaired to what it was before the current administration damaged it. The cost for doing so needs to come out of the Presidents personal finances, not the country's taxes. This atrocity needs to be stopped.

Name: Tamara Kent
Date: February 20, 2026 4:04:41 pm

The American People deserve to have a say regarding the East Wing Rebuild. It was illegally destroyed. US taxpayers might not be paying to build it if donations come in, but the American People will pay for the upkeep. We need oversight. An enormously oversized building is also not the answer. Stop this project.

Name: Cynthia Saxl
Date: February 20, 2026 4:04:56 pm

I feel outraged that the East Wing of the White House, which belongs to the American people and not the current

occupant, has already been demolished, before customary professional, lawful, historical and public review. I'm not disputing that the EW did need significant update: wiring, ADA compliance, structural and safety issues, and so on. What I would like to see is a restoration of the exterior dimensions before razing, a new building with the original architectural style, with the necessary updates implemented with historical sensitivity. A 90,000 foot ballroom, swamping the size of the other part of the structure, is a totally unwarranted vanity project. If there is an actual need for a ballroom for State functions, construct it somewhere else or rehab a different building, while being mindful of lawful processes. Signed, an American citizen proud of our heritage and our national parks

---

Name: Craig Bobby
Date: February 20, 2026 4:06:05 pm

Comments about this project are irrelevant. This country is now run by a dictator, who has full and absolute power. Whatever that dictator wants, that dictator will get. It is irrelevant what the "laws" are or what has to be "reviewed" first. These had value in previous presidential administrations, but not this one. If these concepts actually had any viability, the plan to demolish the East Wing of the White House would have had some hurdles to jump through, which it did not. The same applies for what is about to built to take the place of the demolished wing. Soliciting "comments" about this is a waste of time and energy.

Name: Earl Starbuck
Date: February 20, 2026 4:07:04 pm

I wish to strongly oppose this project for all the reasons stated below.

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. To Whom this may concern,

I am against the present design of the Ball Room submitted by President Trump. As planned this structure is so large that it overpowers our beautiful White House and surrounding grounds Also, I would like to remind this committee that the White House belongs to the American people not just the resident at present.

Please do not let this monstrosity to be built next to our classic and beautiful White Hpuse

Sincerely,
Janice OBrien

Name: Hester van Heemstra
Date: February 20, 2026 4:08:10 pm

The White House is "the People's House" where the president is a temporary resident. Concerned citizens, especially those who have background in historic preservation and architecture of public buildings should be considered and plans should be made with transparency at every step. The taste of one president should not be the primary factor in the renovation design. The funding of the renovation should also be done with transparency. The destruction of the entire East wing was not subjected to expensive review, and the public was not informed in advance as to what happened to the contents of the building and any preservation attempts. I understand hat objects were preserved, but why not inform the public and be transparent.

Name: Erica Hahn
Date: February 20, 2026 4:10:42 pm

I am commenting on the proposed ballroom to be attached to the White House. As someone who is passionate about the history of the United States I have a great love for the White House, which has been an ongoing project since the presidency of John Adams. It is a beautiful graceful building. Over the years there have been modifications. The West Wing was added, interior work had to be done, ultimately in the presidency of FDR the East Wing was added. These additions were very respectful of the original building. I had the privilege of visiting the East Wing last year, when it was still standing. I understand the argument that the United States should have a larger area for public events. However even so, any new structure should be harmonious with the white house itself. There is also a question of how big a public area is actually needed. Seating for 900 seems quite excessive. The proposed "ballroom" which is really actually a banquet hall is too big and too gawdy to meet the purpose. If built it would dwarf the White House. It would look ridiculous. It is not respectful of the building where Abraham Lincoln, and Franklin Roosevelt lived, which Jackie Kennedy introduced on television to the American people. If built it would be a shrine to architectural bad taste. Thank you.

Name: Jayne Frye
Date: February 20, 2026 4:10:45 pm

The East Wing of the Whitehouse has been torn down illegally, without permission. It should be fully restored as it was originally. The person accountable for the illegal action should be sued by we, the people, and made to pay for the reconstruction and restoration for destroying public property.

Date: February 20, 2026 4:15:09 pm

This modification to the White House will visually destroy the history and honor of one of our nation’s most sacred monuments…….it is beyond my belief that a fellow Architect would ever put this on paper….it is the antithesis of our beliefs as Architects to even consider such a monsterous addition……it is misnamed a “modernization”….it is an “abomination”

Name: Jayne Bonnette
Date: February 20, 2026 4:16:23 pm

I am definitely against Trump's ballroom plans and feel is it completely out of proportion with the existing structures. The interior of the ballroom looks like it came out of Europe or Russia, not America. I feel it is entirely too large, and its usage does not seem practical to me. The fact that it is paid for with private funds is alarming as well. The people should decide what is appropriate not wealthy friends of a particular president. This is the people's house not Trump's personal or investment property.

I am particularly insulted that once again another lie was told that the East Wing would not be touched and suddenly now it is gone. The untruths being told, particularly by this administration, just go on and on.

Name: Stephen Flick
Date: February 20, 2026 4:16:46 pm

I object in toto to Mr. Trump's demolition of the East Wing and his proposed ballroom. First, the East Wing demolition was done without consulting the proper authorities for such work. Legally, the President cannot undertake any work on a whim, which is exactly what he did with the wholesale obliteration of a building that was one-and-one-quarter centuries old. Additionally, he does not own the White House or any part of it. It is the people's building. He continually ignores the

will of the people and established law.

In addition, he wants the ballroom not as an integral part of a 200-plus year old building, in harmony with the architecture of the White House, but as another monument to himself, much as Julius Caesar and other tyrants did for themselves. The proposed building is not to scale with existing buildings on the White House grounds. It is a monstrosity as proposed, overly expensive to build and maintain and grotesque in character.

It is only one of many projects Mr. Trump has undertaken without consulting the public, the relevant laws, or experts in respective fields. One of those now proceeding without the consent of the governed is the dumping of East Wing rubble next to a public golf course. There are many good reasons why he should not be altering that artificial island (which is not part of the natural, original landscape), but he is having it done, anyway.

He needs to be told "no" much more often. The ballroom place is as good a place as any to begin.

Thank you for your time.

Name: Kathryn Amato
Date: February 20, 2026 4:19:09 pm

I am saddened by the destruction of a historic American building. This was genuinely heartbreaking to witness and even sadder to know that this project was undertaken in haste, without the input of the constituency the president serves.

Name: Matthew Larkin
Date: February 20, 2026 4:19:52 pm

The proposed addition is completely out of scale. This is another disgraceful act by the current President of the United States to destroy our shared heritage by imposing his horrendous taste on national monuments. Congress and the Supreme Court needs to do their job and halt this and any other design projects imposed by the current President.

Name: Susan Krsnich
Date: February 20, 2026 4:20:07 pm

At 75 yrs of age I remember Jackie Kennedy’s tour of the White House - bringing us through the house of the people historically restored. We’ve had the rose garden ripped out and cemented over - now this! I cringe whenever I see the gold spray painted wall art in the Oval Office I think of the cheapening of our cultural heritage.

The East wing was a place from which the First Ladies functioned. It looks like a war torn area now…courtesy of Trump’s act first an ask -only if I have to - later approach. Without any communication the White House has been damaged with plans to build that will not fit in with or compliment the existing edifice in style or proportion.

This disgusts me and further demonstrates the lack of communication and respect of this administration for the house of the American people.

I hope that a restoration program will be developed instead of- and not at the expense of the American taxpayers. As long as we continue to clean up after this Trump will go on imposing his will on us. He needs to pay for this - he can think of it like alimony!!!!!!

Name: Jamie Schroepfer
Date: February 20, 2026 4:20:45 pm

I am writing to formally oppose the proposed East Wing project and to urge the Commission to withhold approval.

Based on publicly available information, this project represents a fundamental demolition and replacement of an existing historic structure, not a limited modernization or rehabilitation. As such, it raises serious concerns under long-standing federal planning, preservation, and review requirements that exist to protect nationally significant buildings and ensure transparency and accountability in federal construction.

The reported cost of approximately $300 million demands heightened scrutiny. At a time when federal resources are constrained, any project of this scale must clearly demonstrate necessity, compliance with applicable laws, and respect for historic integrity. A complete razing of an existing wing—rather than restoration or sensitive rehabilitation—risks the irreversible loss of architectural and historical value that belongs to the American public.

Equally troubling is the appearance that key steps in the planning and review process may have occurred out of sequence or without full public engagement. Federal projects of this magnitude are expected to undergo thorough design review, permitting, and interagency coordination prior to advancement. These safeguards exist precisely to prevent irreversible decisions from being made without proper oversight.

I respectfully request that this project be halted and reconsidered, with a preference for restoring and rebuilding the East Wing in a manner consistent with its historic design and character. Approval should not be granted unless and until all required legal, procedural, and preservation standards have been fully met.

Allowing a project to proceed despite unresolved compliance concerns would undermine public trust and set a troubling precedent. No federal project—regardless of sponsor or purpose—should be exempt from the laws and processes that govern responsible stewardship of our shared national heritage.

Thank you for your consideration and for your role in safeguarding the integrity of our nation’s capital.

This ballroom is not needed,and to destroy a part of the building that means everything to Americans is terrible. The White House is already being turned into a brothel with all of the gold flake everywhere. The next President can come in nd restore the house to the way it was intended to look like.

Name: Chris Burch
Date: February 20, 2026 4:25:45 pm

I am writing with concern about the hastily planned and presented ideas regarding a new East Wing ballroom for the White House. It is my firm belief that plans that concern The Peoples' House and other historically significant properties should be properly planned and vetted with extensive support and guidance from historical authorities. Bulldozing buildings without following an accepted and careful process and then planning to construct a replacement that is ill-suited in scale to the main building, that dominates and fails to respect the importance and proportion of the White House is not an acceptable option. When I first saw the images on the news, I was shocked and felt disrespected as a citizen of the United States. The government buildings of our capital reflect who we are as a nation. They are a visual reminder of our strength, justice and intelligence. An improperly planned building will only make us appear confused, careless and silly. We must respect our history and the knowledge and regard our forefathers had for planning our capital with dignity, instilling our values as a physical manifestation through the architecture. Thomas Jefferson would not approve.

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Our country has MANY issues that should take priority over a Golden Ballroom that will only be available for use by a very few from "elite" members of society who already have access to more than any one person needs or deserves.

Name: Amy Martini
Date: February 20, 2026 4:28:59 pm

I oppose the spending of hundreds of millions of dollars on this project. It was initiated without the proper authorization, permits, or design review. It is not a modernization project but a razing of American history. I request that this project be canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without proper planning and authorization is an affront to all law-abiding Americans.

Thank you.

Name: Julie Locascio
Date: February 20, 2026 4:29:26 pm

I am 100% against this project. It is obviously being set up as something funded corruptly by millionaire donors and will be used as a private country club by the oligarchy where they can pay to have access to the President's ear. The White House has been chiefly a place for the President to work and live with his family. Entertainment is a small part of diplomacy and social initiatives. To destroy the East Wing without consulting Congress or the National Capital Planning Commission, let alone your organization, shows what an oligarchic move it was. It has absolutely nothing to do with preserving the White House as a potent symbol around the world of a strong democracy. To build an obscenely large ballroom symbolically dwarves the functional purpose of the White House, setting it up to look like a pleasure palace where the elite have parties. The project never in a million years would have been approved by Congress, and it's obscene to spend the money while Americans are struggling with pandemic-fueled inflation, struggling to make ends meet. The Orwellian "modernization" adjective is an insult to anybody with even a modicum of historical education.

I am writing to express my dismay at the size of the proposed structure as it will overwhelm the White House grounds. Mr. Baranes was the architect on an apartment project in my neighborhood in Woodley Park and like the renderings on this project the apartment structure as built is way too large for the property. I fear the same will be true for the proposed East Wing structure and once built it will forever destroy the visual of the White House grounds. I urge the Commission to reject the current proposal in favor of a structure more in keeping with the size of the White House itself which should not be overwhelmed by the proposed ballroom.

Date: February 20, 2026 4:30:20 pm

I feel this quote by Adam Gopnik on 10/25/25 expresses my feelings regarding the destruction of the East Wing. Building a ballroom of this size and nature is an affront to the historical landmark that the White House is. I feel that the East Wing should be rebuilt as it was prior to the demolition or that a similar structure that is proportionately as well as visually aligned with the structure that it will sit beside. The structure built needs to reflect the ideals of a democratic people, not a structure that gives the impression of an authoritarian legacy.

Here is the quote: "Architecture embodies values; it is not merely a receptacle of them. Simple proportions and human spaces don’t just suggest the spirit of a democratic nation. They are that spirit in three dimensions, with doors and windows. Reverence for the past, and reluctance to destroy until the risks of destruction are fully known, is not timidity but wisdom, in architecture as in life. To conserve, after all, is the essence of conservatism. The shock that images of the destruction provoke—the grief so many have felt—is not an overreaction to the loss of a beloved building. It is a recognition of something deeper: the central values of democracy being demolished before our eyes. Now we do not only sense it. We see it." https://www.newyorker.com/magazine/2025/11/03/why-trump-tore-down-the-east-wing

Please ensure that the dignity as well as the historicity of the new structure embodies the traditions befitting this structure. Rebuilding the East Wing as it previously was, would meet this criteria.

Thank you

As a professional architectural preservationist, architectural historian, and as an American citizen, I write to share my extreme concern regarding the size, proportion, and design of the proposed new East Wing at the Executive Residence ("White House"). The White House is and always will be the "people's house" and any changes to the buildings and grounds must be in compliance with the Secretary of the Interior's Standards for Historic Preservation.

In 1908, a few years after the completion of the restoration of the White House and construction of the original East and West wings under architect Charles McKim, President Theodore Roosevelt wrote to the American Institute of Architects, emphasizing the symbolic and architectural significance of the building. Roosevelt called it "the ideal house of the head of a great democratic republic" stating that "it should be a matter of pride and honorable obligation to the whole Nation to prevent its being in any way marred."

I urge you to listen follow the recommendations provided by the National Trust for Historic Preservation, including the following:
• Reduce Overall Size and Visibility. The size, volume, and massing of the proposed new construction (90,000 square feet) should be reduced or disguised (such as by placing portions underground, as recommended in the 2000 Comprehensive Design Plan) so the new building appears smaller than the Executive Residence itself (55,000 square feet). Itsheight should also be substantially lower than the Executive Residence.
• Reduce Footprint and Protect Key Views. The footprint of the proposed building should not extend past the existing south-facing façade of the historic Treasury Building, nor further interrupt the views of the Executive Residence from Pennsylvania Avenue.
• Respect the Established Classical Composition of the White House Complex. The new addition should retain the carefully balanced classical design of the White House complex with its two smaller, lower, and substantially symmetrical East and West Wings.
• Preserve the Historic East Facade of the Executive Residence. The connection of the colonnade to the Executive Residence should protect and preserve the original historic materials of the east façade of the Executive Residence and should not cover or demolish the existing fenestration and detailing of the east façade.
• Ensure that the Proposed South-facing Portico Is Subordinate in Scale to the White House South Portico. The proposed portico on the south façade should be smaller and less grand in scale than the existing portico on the south façade of the Executive Residence.

Respectfully,
Anna Nau Braswell, PhD

The East Wing was illegally torn down. The design change did NOT go through appropriate channels. It's the people's house and should be restored IMMEDIATELY to it's previous design as it was prior to illegally being torn down. Again ... this is the people's house and should be governed by the rules and guidelines as laid out by the NTHP. Put it back now!

Name: Amy Alderson
Date: February 20, 2026 4:31:24 pm

I think it is a literal crime that the historic east wing was demolished. I think the administration, and in particular Donald Trump, should be punished for breaking the law and tearing down what belongs to the American people. The east wing should be rebuilt at the personal expense of Trump himself.

Name: Gregory Florence
Date: February 20, 2026 4:31:32 pm

As a citizen of the United States I am writing to register my firm opposition to this project. It is not a "modernization" project because the entire structure was raised to the ground by order of the President and is being replaced, not with a "modernized" East Wing, but with what has been advertised as a ballroom. While I will allow that the White House is the President's residence, and thus the occupant should have some latitude in making modifications to the building and the grounds, it is also the property of the People of the United States. As such, a major undertaking of this scope should be authorized, with funding appropriated, by the People's representatives, Congress, and should be planned and built in accordance with our laws for historic preservation, national building projects, and the ordinances governing construction in Washington DC. None of this, from the early morning destruction of the East Wing to the planning and fundraising for this project has been done in a transparent, honorable, or legal manner. The fact that private donors are funding a project that has already seen its cost soar before the East Wing demolition was even completed demonstrates that this vanity project of the President is one that is rife with opportunities for extortion and corruption. Federal buildings should be paid for with appropriated federal dollars to ensure that there is accountability and that the construction occurs in accordance with all applicable laws and regulations. That corruption is already evident in the decision by the U.S. Commission of Fine Arts, staffed by President Trump's loyalists, decided to approve this project when President Trump despite the fact that 99% of the 2,000 comments they received in the last week were negative about the East Wing Project. The fact that no final plan or budget has been submitted made it irresponsible for them to do that. This entire project is wrong, in the way it was done and in the fact that it is bigger than the main White House building. Please vote "no" on this project and have the restoration of the East Wing done in a way that honors our nation's liberal democratic principles and ensures that we are building a structure that all Americans can be proud of for years to come, not a monument to one man who is already recognized as one of the worst, if not the worst, Presidents that the United States has ever had to endure.

Name: Eugene Kenney
Date: February 20, 2026 4:34:16 pm

With a Master of Arts in Teaching Degree in Museum Education from The George Washington University in addition to more than 30 hours of Graduate Studies in the History of Art, I feel I am better qualified than the President's recent appointment to the Commission of Fine Arts to opine that the plan they approved for the East Wing is much too large and much too gaudy. Please revert to a plan that replicates as closely as possible what was demolished.

Name: Su Friedrich
Date: February 20, 2026 4:34:24 pm

To Whom It May Concern,
As an American who, like most, has an affection for and attachment to the White House, I find Trump's plan to be utterly outrageous and unacceptable.
The East Wing should never have been demolished (and in a hurry, without proper vetting--like most things that he does) and now the plan just keeps getting more and more preposterous, offensive and expensive.
But it isn't the cost that matters so much, it's what this hideous, ostentatious structure would represent: Trump's ego. Certainly not anything to do with the American people, 99% of whom don't care about golden ballrooms but would rather be able to pay for groceries, gas and health care.
It's an affront to all of us who do love this country, as compared to someone like Trump, who seems to only love things slathered in gold.
Su Friedrich

I am writing to express my strong opposition to the proposed demolition and "modernization" of the East Wing of the White House.

As a citizen concerned with the preservation of American history, I believe this project violates the stewardship of a nationally significant, historic site. The East Wing, in place since the 1940s, is not just a building; it is a critical, tangible

link to the legacy of the presidency and the professional, ceremonial space of First Ladies.

My opposition is based on the following points:
- Circumvention of Process: The lack of a rigorous, transparent, and public design review process for a structure of this importance is unacceptable.
- Destruction of Heritage: The proposed replacement with a massive ballroom destroys a key historic component of the White House complex, rather than preserving it.
- Funding Transparency: I have concerns regarding the reliance on private, corporate funding for significant changes to public, federal, and historically designated property.

The White House belongs to the American people. Its preservation should be guided by professional review and continuity, not rapid, unilateral destruction. I urge the administration to halt this demolition and reconsider the proposal to protect this historic site for future generations.

Date: February 20, 2026 4:34:49 pm

I am opposed to the White House Ballroom Project for three reasons.
1) It is not legitimate. It is a vanity project perpetrated by a partisan group of people without regard for the concern or input of the American people.
2) The proposed ballroom would be built on the land where the East Wing once stood, a historic feature of the White House that was demolished allegedly without legal authorization and without any sensitivity for what it meant to the American people.
3) It is much too large and overwhelms the original White House which is the crown jewel of America’s monuments to history and ought to be the most prominent feature in its space and location.
I demand that this project be stopped.

Name: Barbara Board
Date: February 20, 2026 4:36:09 pm

I believe strongly that whatever changes are made to the White House must go through the current formal approval process used by previous administrations. This process is in place for many reasons and should never be disregarded.

The building should compliment, yet not overshadow, The People's House. No president should be allowed to radically change the White House without the approval of the People and in the case of the White House that would be The National Capital Planning Commission, the Commission of Fine Arts, and the United States Congress, as these organizations are in place to support the wishes of the People of the United States.

I am not opposed to a ballroom but feel strongly that it DOES NOT need to be located on the Capital grounds. Washington, DC is a big city with other much more suitable locations available.

I strongly object to the Tru**p administration’s plans to build a monstrous ballroom. Like everything Tru**p does, the ballroom promises to be ostentatious and vulgar, dwarfing and cheapening the rest of the White House complex, like the cheesy gold trim he has installed in the Oval Office. It’s not clear yet if it was even legal to tear down the East Wing or to build this monstrosity. It’s a moot point as he shown no respect for the rule of law countless times, as he continues his efforts to remake the White House Complex into a trashy Tr**p property and American democracy into an authoritarian, White Christian Nationalist oligarchy. I doubt he won’t use taxpayer money; he considers the presidency just another vehicle to enrich himself, his family and fellow oligarchs, treating government funds that should be controlled by Congress as his personal piggy bank. Please stop planning and construction immediately and develop a reasonable design that complements our stately White House, which belongs to the American people, not to the Tr**p family.

I object to the planned ballroom construction.
Our magnificent White House will be marred by this ridiculous outsized addition. As a concerned citizen I demand balanced oversight and review.

Name: Susan Smith
Date: February 20, 2026 4:43:03 pm

I strongly oppose any construction or modernization of the East Wing. It was destroyed without proper studies, permits, and involvement of related agencies. One man decided to destroy a part of the people's house in what appears to be a fit of pique. We MUST not spend even one dollar without historical architects, planning commission, permitting agencies, etc. In fact, the best plan is to replace what was destroyed, making it historically accurate. It would please me greatly if Donald Trump had to pay for the reconstruction himself since he acted alone and without approvals. He certainly is making enough money off of the presidency (another law being broken) to be able to afford it. Hold him accountable. Bring back what belongs to all people of the US. This "East Wing Modernization Project" must not move forward as currently planned.

Name: Jodi Rafkin
Date: February 20, 2026 4:46:04 pm

The White House is a National Historic Landmark and a National Park, owned by the American people and home to presidents since 1800. The current president at any given time is not the owner of the property or the structures thereon;

the president is a temporary tenant whose interventions are limited by law and by respect for the people of the United States.
The demolition of the historic East Wing without review, without permits and without Congressional oversight is clearly a violation of the law. In addition, it is a violation of the trust of the American people who were given no opportunity to comment on what should have been presented as a proposal and not as a violent fait accompli.
I do not want or need a gaudy ballroom. I want a working government with separation of powers and elected officials who are working to benefit all Americans, not wealthy elite who are friends or family of the president.
I urge the National Capital Planning Commission to require reconstruction of the East Wing in keeping with its historic design and size. Anything constructed on the demolition site going forward must be compatible in form and subordinate in scale to the original structure of the Executive Mansion.

Name: LISA WARD
Date: February 20, 2026 4:46:46 pm

I oppose the spending of $300 million on this project. This project was initiated without the proper authorization, permits or design review. It is not a modernization project. It is a demolition of American history. It is incomprehensible that this project was not voted on by the American people. I want this project canceled and I want the East Wing rebuilt and restored to its former design. No one is above the law; although it appears that our present "leader" is allowed to break whatever law he wishes. Law-abiding Americans have to follow the law and pay their taxes while many are trying to survive on very little income. It is grotesque that this monstrous sum of money is being used to desecrate the White House for a "ballroom". I don't believe that the American citizens feel that "dancing" is a top priority for themselves; let alone our government. It is an utter embarrassment and an insult to the American people.

To Whom It May Concern:

I object to the current design proposed by Donald Trump. The East Wing Ballroom project is too big. It will dwarf the historic White House and destroy the symmetry and balance so well represented by the Federalist architecture of the White House. I have served on my town's Historic District Committee and know that an addition must not be bigger than the original building.

In addition to competing with the White House in overall mass, the two story design and grand entrance overwhelm the beautiful 1800 building. The designers should be asked to both scale back the dimension of the project overall and

consider putting one of the floors underground.

I sympathize with the need for more entertainment space at the White House but consideration should be given to scale back the need to seat 1,000. There are, after all, a number of nearby venues in Washington, DC that accommodate large audiences.

Sincerely,
Suzanne W Pelton

Name: Sy Castells
Date: February 20, 2026 4:50:50 pm

I am an Ohioan, but I have deep personal ties to Washington, DC. In addition to its status as the capital of my nation, the seat of our government, it is also the nearest major city to many in my family, thus I have spent most of my life visiting Washington and consider it among the cities I call "home" in our fair country. My father was raised in Arlington, VA and my grandparents are buried nearby. Among my most cherished childhood memories are the many times my grandparents, Carlos and Marijane Castells, took my brother and cousins and me to the museums and monuments in Washington. As a toddler I called the huge white obelisk "Washington Mommyment" while eating sandwiches at the side of the reflecting pool, and as a teen I marveled at the fossils and minerals at my favorite museum, the Smithsonian Museum of Natural History. In every year in between the city of Washington was a living, breathing reminder of the history and character of my America, the country I was born in and have always been part of. The country that my grandfather, Carlos Castells, emigrated to in his teens in a fateful choice that changed my family forever and made it possible for me to exist, and devoted his entire life to serving both as a military veteran and a lifelong public servant in the federal government.

I never visited the White House. I don't know why it never made it onto the itinerary of our childhood trips; maybe the security and expense just made it less accessible than the rest of the landmarks I was accustomed to visiting. As an adult I have responsibilities that make travel more difficult, and when I visit the area I am more inclined to focus my time on my family. As a result a visit to the White House, and thus the East Wing, just never happened. It never occurred to me that I might have the opportunity taken away. How could I ever have known? If there were any plans for any part of the White House to be removed, surely there would be *warning*, yes?

An historic building in my current hometown, the former Firestone plant in Akron Ohio, i s currently on the verge of being demolished. It has laid vacant for many years, it is visibly dilapidated at a casual glance. For the better part of a year, perhaps even longer, I have seen news articles on the status of this building - whether it will be saved, if any organization will step up to preserve it, what will be done with the property? And that's for a building that's not even in use, that arguably poses a real danger to the neighborhood due to its condition. The White House hardly fits that description, and it's not a former factory in a relatively small city - it's the building that houses the offices and home of our head of state, a building occupied by every President since Adams. If any building can be said to be of the MOST historical and cultural significance to the United States of America, surely the White House is on the shortlist.

A White House tour, and especially a visit to the East Wing, is something that has always been on my "maybe someday" list. I'm currently planning a trip with my partner to visit St Louis, because the Gateway to the West is also on that list, and I aim to check it off. The "maybe someday" list isn't idle fantasy; I want to see what I can of the world in the time I have. If I'd known before the autumn of 2025 that any plans existed to demolish part of the White House, you can be SURE that I would have tried to make time to visit before it happened. I was in the area not long before, for my grandfather's funeral; if I'd had any notion that the opportunity was soon to be taken away, I would have made it happen then.

There was no warning. There was no advance notice. There was a congressional dispute that led to a federal government

shutdown, and during that shutdown - which I'm sure can't have been a coincidence - the demolition began. Before anyone seemed to know it, the entire east wing seemed to be GONE. I saw a satelite image online, and I don't know how accurate it was, but it showed a mere patch of bare ground where almost half of the White House used to be. Given the hurry that the work seems to have been done in, I seriously doubt any meaningful preservation work was done on the artwork and architectural details that the East Wing is famous for, that I and everyone else and all future generations will never see. I can't describe the immensity of the loss I feel; I am not an historian or a preservationist, so all I know is that my country's history, and in fact its very heart, has been broken by this.

I know that nothing can be done to reverse the damage. I know that the East Wing is likely lost forever, with little hope of recovering even part of its former glory. Stopping any construction at this point would not fix this. But what can be prevented is any further damage and loss from reckless, unaccountable haste. The public needs to have a say in a project of this magnitude, and my say is this: this was done too quickly, without enough warning. Stop all work now, and do nothing more until ALL of the public has had abundant opportunity to give feedback, to prepare themselves and their communities for change. The suddenness of the demolition means any further construction on the site needs at least double the amount of planning, warning, and advanced notice that would otherwise be required. To further ignore this need is to risk further permanent, irreversible damage to our precious history and culture, not to mention the public trust.

Washington, DC is a venerable city known for its plethora of historically significant buildings and monuments. As a student of urban affairs, I have a great deal of respect for the roles such buildings play in our communities. They are not merely functional, nor merely ornamental. They are part of the body of our community as much as your heart or your brain or your lymph nodes are part of your own body. This part has been hurt, and needs to heal. You can't build on an open wound. Anything built here at this time will become a monument not to a great chapter in our history, but to the pain and resentment many of us rightfully feel about this unjust and unconscionable destruction. Let grass grow on the site. Let children play on the grass at the next decade's worth of Easter Egg Rolls. Maybe, when those children have grown, one of them will design a worthy replacement for the East Wing. Then, we will be ready to move on.

This project was not approved by the public, nor were the plans ever made available for review by an approving authority. The current "way forward" is unclear and the final price tag is a moving target. Funding is not transparent either. What is this costing the tax payer? Where is the demolition debris being deposited (I read a public park)? Everything about eliminating a registered historic landmark should be made available to the voting public to whom it belongs. And if the project is stopped, restoring the East Wing to its original condition should utilize the funds that are allegedly being raised for the Ballroom, or come from the President's private funds.

Date: February 20, 2026 4:56:11 pm

To Whom it May Concern,

I am writing in regards to the East Wing Modernization Project in Washington, DC. I believe this project is ill-conceived, underdeveloped and hastily designed. As an Architect in Washington, DC I have the opportunity to have worked on a number of historic redevelopment projects that require review by Local, State, and Federal jurisdictions prior to approval. This project, which was demolished without a permit in violation of DC and Federal Law, is not only unnecessary but also does not have the required thought and design to replace a national icon of this nation.

It would be a disservice to you, your profession and our country as a whole if this design is approved.

Will Letchinger, AIA

Name: Theresa Beyer
Date: February 20, 2026 4:59:07 pm

I strongly object to the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans. As a recently retired architect, I am well versed in the hoops you have to jump through for construction especially when you are adding onto a historic structure. For all I know the building may well need modernizing, but the process must be followed. The proposed addition is out of proportion with the rest of the building. One of the charms of the White House is that it is not an ostentatious palace. We do not have kings.

Name: Joann Bonnville
Date: February 20, 2026 4:59:47 pm

I vehemently oppose the demolition of the White House East Wing because the proper, transparent procedures - including review by NPS, NCPC, and CFA that was to be completed and approved BEFORE the East Wing was torn down, regardless of the funding source - were never followed.
This East Wing "Modernization Project" to build a behemoth ballroom should be canceled immediately.

The East Wing should be rebuilt exactly as it previously was, with only upgrades/modernization done should be to interior systems, such as HVAC/Electricity/Plumbing.
The public does not want nor need a ballroom that will overshadow the People's House. Mr. Trump is not King, he does not personally own any of our Federal buildings, and he is not above the law.
The person(s) who illegally authorized the demolition of the East Wing should be held solely responsible for all restoration costs, not the US taxpayers and not donors, who appear to be buying favor from the Trump Administration.
All donors to any restoration/demolition/new construction to any Federal building should be clearly disclosed to the public.
Environmental and design review, along with public accountability for this debacle, must happen or else it sends a message to this Administration that it can continue to destroy public buildings to suit its preference, with total disregard of established and required oversight.
It is high time for the checks and balances to begin to reign in our self-appointed, would-be king.
Thank you.

Donald Trump and his ultra wealthy associates have no right to destroy our national history. The East Wing of the White House should be restored and, if needed, updated, but only by architects and designers who follow the regulations for historical preservation. If a ballroom is needed, careful plans should be drawn up and approved by appropriate departments of the government. Trump has already damaged the building and grounds with his tacky, gaudy preferences. Please stop this!

Name: Joan DEELY
Date: February 20, 2026 5:03:29 pm

I adamantly oppose the East Wing Modernization Project. This $400 million construction began without National Capital Planning Commission approval, without required environmental assessments, and without congressional authorization mandated by federal law for construction on federal parkland in Washington. These violations should not be rewarded with after-the-fact approval.

The funding creates unacceptable conflicts of interest. Corporations holding billions in current federal contracts with this administration are funding a construction project at the residence of the president who controls those contracts. This is not charitable giving. This is an investment in access and favorable treatment.

The White House belongs to the American people, not any individual president.

I urge the Commission to reject this proposal until full legal compliance is achieved, including congressional authorization and completed environmental assessments. No temporary occupant should possess unilateral authority to demolish historic structures without following the law.

To Whom It May Concern:

I am writing to express my outrage about the modernization of the east wing of the White House. I believe it is a shameful and exorbitant project and an outrageous waste of the taxpayers' money. Please do not allow this to happen. There is so much need in this country and wasting it on something so unnecessary and frivolous is beyond reason..

Thank you for this opportunity to express my enormous concern,

Marilyn Harrison

Name: Heather Tunis
Date: February 20, 2026 5:08:21 pm

Please do not allow this project to go forward. The entire manipulated approval process has thankfully been transparent - that this project has a moving forward with the approval of appointees selected precisely for their willingness to approve anything requested by this White House without any regard for professional expertise or opinion. Additionally the destruction of the existing east wing was conducted without any proper notification or approvals. Finally for the purpose of this comment, clearly the project is primarily for the purpose of aggrandizement of one person rather than for the benefit of the people and spirit of the United States.

Date: February 20, 2026 5:08:21 pm

President Donald Trump lacks the legal authority to take the actions he has already taken. Congress should impeach him and remove him from office and pass legislation with funding allocations to restore the East Wing of the White House to its former state.

Name: Debra Traub
Date: February 20, 2026 5:09:23 pm

This is no modernization, this is desecration without permission permission without oversight without historical input. Has it not occurred to anyone that besides being illegal it is not safe to have a ballroom of that size in the side the White House there should never be 1000 strangers coming into the White House all at one time for security reasons. If this had been run by experts, if it had been run by people who understand what could be done then we would have a chance to contemplate this project. I have read everything I can get about this project. I have not seen one instance of bidding being done on this project or of the completion date of the project or of the final cost of this project. Please cancel this project and make them restore the White House to its own dignity. Stop that’s mad man. Thank you.

Name: David AMOTT
Date: February 20, 2026 5:09:56 pm

Dear Members of the National Capital Planning Commission,

As many other commenters will undoubtedly note, the White House is, at least in principle, the American people’s house. Plans to build an extension to this building that exceeds the size of the original structure risk altering the historic balance, scale, and symbolism of this nationally significant building. In doing so, such a project could be perceived as prioritizing the legacy or preferences of a single administration or individual, including Donald Trump, rather than preserving a shared civic symbol that belongs to all Americans.

The federal government, founded on the principle of a government by, for, and of the people, should ensure that its most visible and enduring symbols remain rooted in continuity, restraint, and broad public stewardship. Changes of this magnitude raise serious concerns about the long-term integrity of one of the most important sites in our national landscape. I respectfully urge the Commission to vote down or permanently table the proposed plans for “East Wing Modernization.” Many Americans believe that more is at stake here than a simple building update.

Thank you for your time and consideration.

Sincerely,

David Amott, Ph.D.

To the Honorable members of the planning board,
I appreciate the opportunity to comment on the East Wing Modernization Project "8733". I have several reasons for my opposition to this project which I hope you will consider when it's time for the board to make a decision.
While it seems like a good idea to expand the event hosting capabilities of the White House, the size of this project is concerning. The scale of the ballroom in relation to the White House is disproportionate. The White House is a lovely mansion with beautiful landscaping around it. The proposed ballroom is too large at 90,000 sq ft, dwarfs the original mansion and desecrates the surrounding landscape.
Secondly, like any event space for 1,000 people, the question of parking and security issues arise. Garages and staging areas must be included without destroying the area.There are also traffic flow issues in the surrounding area that impact the residents and businesses. It appears that little consideration has gone into these parking and security aspects of the proposed project and what plans do exist are not sufficient. A realistic comprehensive mitigation plan must be required for any approval of this project. As it stands right now, the project is too burdensome for the District and should not be approved.
Lastly, the design of the ballroom itself is substandard and amateurish. It looks like a bunker even with the planned windows. The designers need to rethink and redo the look of the building in addition to the size. Until a better looking design is offered, the board should withhold approval.
It is my hope that at the very least the board withholds approval of this project for at least 12 months in order to resolve the above issues. I also hope that the board uses the next 12 months to consult with all the stakeholders, Congressional, local and national to find an alternative to this proposal as it stands.
Respectfully,
Christine Misurelli

I am disheartened that the East Wing Modernization project ~the destruction of the Peoples' House ~ has begun without the involvement and/or approval of the American public. This project is being conducted unlawfully and must be halted before further and irreversible damage is done. The federal review process and public participation is a legal requirement and must be upheld. Please work to restore our faith in government by abiding by our laws.

Name: Deborah Katz
Date: February 20, 2026 5:15:55 pm

It was a sad day when Trump destroyed the East Wing of the White House with total disregard for a design review,

authorization or permits. This president is taking a sledgehammer to the history of this country in an attempt to remake it in his own selfish and narcissistic image,

Of grave concern is how this project will be funded. It has been reported that several ultra wealthy scions of American Industry have pledged to pay for this renovation, however there is no transparency as to what they will be given in return.

The founding fathers warned us about the dangers of autocrats who serve themselves as the expense of citizens. It is clear that this administration has no knowledge, respect or admiration for the true history of the United States. The White House is the people's house not Trump's house.

No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Elisha Aharon
Date: February 20, 2026 5:16:17 pm

I oppose spending $300 million on this project, much less $400 million, while the national debt is soaring out of control.

It is not a "modernization" but a complete destruction of the East Wing on the whim of President Trump, who treats the White House as his house. We know, but must insist to those who don't, that the White House is not Trump's house, nor even the President's house... it is and always will be the people's house.

No one can be allowed to act as if they are above the law in the United States, least of all those whose calling is ostensibly to serve the people. To permit this project to go forward without proper design review, permits and proper authorization is an affront to all law abiding citizens.

The current imbalanced building plan is foolish and tasteless. We can't let this continue, because we'll all have to live with the resulting lopsided, ostentatious and yes, garish and gilded ballroom for the rest of our lives... and bequeath that to future generations? No. Not on our watch! Don't we know better, really?

Elisha Aharon

I do not support Trump’s current plan for his ballroom. The White House is the people’s house and the ballroom should be the people’s also.

It should go through the proper procedure for a public building. There should be a contest that architects submit entrees to, a committee made up of bipartisan individuals with a wide representation of expertise and the construction should go out to bid. It should not be a building funded by wealthy donors.

Then there are the esthetics of the current plan. The ballroom is out of scale to the main White House building and possibly too close. It has been hard to tell if there is actually an east wing in the renderings I have seen to significantly move the addition far enough away to give the original building breathing space.

I have heard that the pediment has been removed from the plan, but I don’t think that is enough.
I say the current design and process is a big beautiful NO!!!

Name: Corrine Zichos
Date: February 20, 2026 5:19:59 pm

I am totally opposed to proceeding with the replacement of the East Wing Ballroom for the reasons I will state below.
The destruction was done without authorization, permis or discussion.
I questions whether any original materials and/or artifacts and historical items were salvaged.
The National Park Service and Historic Trust should be demanding that all assets of the sitting president , who made this decision on his own, be confiscated to pay for the destruction and all costs associated with future construction as well as fines associated with the illegality of his decision.
This project was nothing more than an ego trip for an out of control head of state who does not follow the laws and norms of society.

I am writing to express my opposition to the proposed $300 million ballroom project.

This was not a careful modernization, thoughtfully debated and lawfully approved. It appears to have been launched without proper authorization, permits, or meaningful design review. That alone should give us pause. Process exists for a reason.

The East Wing was not an empty canvas waiting for reinvention. It was part of our shared architectural and civic history. To raze it under the banner of “improvement” feels less like progress and more like erasure. We are temporary stewards of these spaces. They do not belong to any one administration, personality, or moment in time.

If laws and preservation standards were bypassed, there must be accountability. No public official or private entity should be permitted to ignore established procedures without consequence. The rule of law is not a decorative feature; it is the foundation.

I respectfully urge that this project be canceled and that the East Wing be rebuilt and restored to its prior design. Renovation can honor history. Demolition cannot.

Name: Ellen Spiro
Date: February 20, 2026 5:21:48 pm

Reconstruction of the East Wing must be halted immediately. The demolition of a significant portion of the People’s House (aka the White House) was illegal. Any further reconstruction must be in accordance with architectural principles of proportion and respect for the history of what was, until the illegal demolition, a beautiful symbol of our country. Do not let the White House be defiled any further. Please take a righteous stand.
Thank you.

Name: Patty Craig
Date: February 20, 2026 5:32:50 pm

What is being done to the East Wing is absolutely deplorable. These buildings belong to the people, not to the rich. There was nothing wrong with that building. Michelle Obama stated it was a place where people went to get away from what was going on in the White House. A place to rest. Not a place where the oligarchs can socialize and make deals. I don't know if it can be restored to its original state but we don't want a gold gilded space for the wealthy.

Name: Rima Greer
Date: February 20, 2026 5:35:28 pm

I oppose this project on every level! It was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete destruction of a priceless American heritage site.

I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Not only should this project be canceled, but those responsible should be made to pay for restoring the East Wing EXACTLY THE WAY IT WAS BEFORE!

Name: Deborah Cheek
Date: February 20, 2026 5:37:08 pm

I vehemently oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. The blatant corruption on display in the rubber-stamping of Donald Trump's ballroom project is as grotesque, vulgar and depressing as the architectural plans themselves. Surely you must feel a little ashamed? Do the right thing by yourselves and by the country, and submit the project for LEGALLY REQUIRED reviews by the NCPC and the Commission of Fine Arts, with public oversight and congressional approval.

Name: Simone Smith
Date: February 20, 2026 6:12:30 pm

The president had no right to destroy the west Wing. The White House is a national treasure not a gaudy pedo ballroom. The rose garden was an atrocious act as well. Using tax payers dollars to destroy something that the people own. Absolutely disgusting and shameful. Trump will never be known in history as anything but a complete monster.

Name: Lewis Rimer
Date: February 20, 2026 6:12:41 pm

The White House is the people's house, not the president's house. It is not just a place, it's a symbol - of our democracy, freedom, rule of law - of all that America has stood for since its founding. The idea that a president can just tear part of it

down and build an addition that in some ways dwarfs the White House is an affront to Americans. The construction of a new building is something all Americans should have a say in, not the fait accompli that it appears to be. If the executive's office and our country really need a ballroom that can accompany more people than is now possible in the state dining room, I understand that. So build something that is bigger - but appropriate in size to the site. In other words: the proposed ballroom is Way Too Big! It's embarrassing. We should not build anything that is as big as the White House. That would change how the White House is viewed - not just as a symbol of our country, but a building that's next to a ballroom. If you insist on building a new ballroom, make it half the size. Build part of it underground. I don't care. Just not the size it is now. Thank you.

Name: Edwina Lieb
Date: February 20, 2026 6:12:59 pm

I would like to see the East Wing of the White House rebuilt to the exact same footprint it occupied before it was destroyed, to the identical specifications, and that should be done with its interior as well. I would like to see as little gold used as possible.

The demolition of the East Wing and its replacement with a gilded palace that now looms larger than the White House is a profound and senseless loss. What once stood as part of a historic and symbolically balanced complex has been erased, not by necessity, but by a self-serving autocrat with zero regard for our history. These buildings carried the weight of continuity — reminders that the presidency is an office rooted in tradition and service, not personal spectacle. That continuity has now been broken.

In its place would stand an outsized monument to excess — a structure whose scale and gaudy ornamentation shift the focus from the institution to the individual. Government architecture should reflect restraint, dignity, and respect for history. Instead, we would be left with a monument that is self-indulgent and discordant with the solemn purpose of the grounds it occupies.

Public office demands stewardship, not self-glorification. By allowing historical significance to be bulldozed in favor of conspicuous grandeur, we have diminished more than brick and stone. We have diminished a symbol of national continuity and replaced it with a structure that feeds Trumps ego rather than honors service.

Everything Trump touches, breaks. His self-glorification and bastardization of our American monuments must be stopped.

Date: February 20, 2026 6:16:08 pm

I strongly disagree with erecting a ballroom where the East wing of the White House once stood. I believe it was criminal to demolish the East wing and that it should be rebuilt as close to what it had previously resembled.
Demolishing an iconic national landmark, perhaps the most recognized US landmark in our country was beyond comprehension and a complete disgrace. How could the congress, courts, and oversight in the government have let this happen? How was this administration able to pave over the rose garden? There needs to be some accountability and enforceable rules established immediately when it comes to government owned properties because you know this will not stop here.
While I'm at it I'd also like to say NO Arc de Trumph at our capital!!!!!!!!!!!! smh

I oppose the administration's plans for a ballroom. There was no public input before the destruction of this historic wing. It should be restored to its original form and penalties applied to those who led this misguided effort.

Name: Katherine Tate
Date: February 20, 2026 6:17:27 pm

I oppose the spending of ANY AMOUNT on this Trump vanity project, which was initiated without the proper authorization, permits, or design review, and as well was not even put before WE THE PEOPLE of the United States for our input. This is NOT a "modernization project" but is a vindictive and retaliatory complete razing of American history by a man who is removing history across the country and replacing it with revisionist falsehoods to fit the racist viewpoint and narrative of him and much of his administration. His agenda of marking territory by building monuments and ballrooms and affixing his name to others already in existence must be stopped. I want this project canceled, and the East Wing of the White House to be rebuilt and restored to its former design. No one is above the law, and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

The modernization of the East Wing should consider historical relevance,function and aesthetics consistent with the rest of the building. It should not be a ballroom. The building belongs to the American people. Given the current economy it should be very fiscally responsible. No bribes. No Quid pro qou deals. Only historical preservation experts and the people should have input. The President is a temporary resident and should have minimal input. Sincerely, Concerned Citizen

Date: February 20, 2026 6:28:21 pm

As a member of the National Trust for Historic Preservation, I oppose the destruction of the White House East Wing, which is also a grievous and tangible manifestation of the destruction of American History wrought by this administration. Not only is it an egregious expense when so many Americans are struggling, but this project was also given the green light without proper oversight including design review, permits and authorization. THIS PROJECT MUST BE CANCELLED and anyone who permitted it to go through must be penalized accordingly. The East Wing must be rebuilt and restored. Thank you.

Name: Dr. Lynn Siebert
Date: February 20, 2026 6:32:23 pm

I STRONGLY OPPOSE the East Wing "modernization" project - i.e., the Trump ballroom - as currently proposed. Mr. Trump's complete disregard for and appalling ignorance (and willful disregard) of historical, regulatory, and architectural norms are manifested in his lawless demolition of the East Wing without any warning or proper review. His current plans to build a "great ballroom" that would be completely out of proportion with the Executive Mansion and totally distort the architectural integrity of "The People's House" should be summarily and totally rejected. The White House is NOT his private home but rather a critical symbol of our County and its people and he should have NO right nor ability to pursue extravagant vanity projects that damage our architectural and historic landmarks. In my many years, I have never seen such a crude and overweening executive whose goal seems to be to put his "mark" on America's legacy monuments. Please do everything in your power to preserve and protect our national heritage and prevent this man from despoiling it. REJECT this project and insist whatever is done to repair the East Wing is done in conformance to the existing architecture's proportions, insuring the integrity of the historic structure and with oversight and review by all applicable governmental and historic entities that normally protect our landmarks and heritage buildings. Thank you.

The White House is a National Historic Landmark and a cultural symbol not just of an administration, but of the American people and their shared heritage. Reports indicate that demolition of the East Wing began before plans were submitted to the National Capital Planning Commission and before meaningful public notice or review processes took place, undermining not only public trust but the preservation frameworks that guide federal stewardship of culturally significant places.

While it has been stated that NCPC does not have jurisdiction over demolition on federal property and that only vertical construction requires approval, this approach sidesteps the spirit of laws and policies designed to ensure transparency and accountability in changes to historically significant federal structures.

The public reasonably expects that major alterations to iconic civic architecture, especially demolition of existing historic fabric, be subject to review under the National Capital Planning Act, the National Environmental Policy Act (NEPA), and longstanding executive policy directives such as Executive Order 11593 requiring historic preservation consultation. This expectation is not merely aesthetic but it is rooted in the principle that preservation and security or modernization can coexist without irreversible loss.

I respectfully urge the Commission to clarify and disclose:

What specific elements of the East Wing were demolished and on what authority;

What review procedures under NEPA and related preservation policies were initiated, if any;

The timing of submissions to NCPC, the Advisory Council on Historic Preservation, and the U.S. Commission of Fine Arts relative to demolition activity;

How Indigenous cultural significance, including traditional knowledge connected to celestial navigation and landscape heritage of the Washington region, was considered in planning and review.

Historic preservation law includes the National Historic Preservation Act (NHPA), 16 U.S.C. § 470 et seq., the Presidential Residence Act, and implementing policies that have long governed changes to federal landmarks. Even though the East Wing is exempt from automatic Section 106 review under NHPA Section 107, the need for transparent consultation and meaningful public participation remains a material obligation. Extraordinary action without proper process sets a troubling precedent.

Decisions affecting nationally significant cultural sites should not proceed without clear documentation and accountability. For the American people, and for all who value our collective heritage, including Indigenous communities whose cultural landscapes have been historically marginalized, the preservation of shared symbols of democracy demands careful, transparent review.

Thank you for your consideration.

Please register my disapproval of the renovation of the East Wing to build a ballroom.

Name: Lucy Chaplin Trumbull
Date: February 20, 2026 6:36:15 pm

If a building project such as this were being undertaken by a private entity, there is no way it would have been allowed to even *start* without the proper permits or oversight - let alone razing a substantial part of a *historical landmark* as has been already done. It's an example of the usual outrageous trampling of any "pesky" protective constraints carried out by this regime.

Building a massive McMansion to satisfy one man's ego is sickening. Giving sycophantic entities a method to buy favor in the process is about as blatant a flaunting of the Hatch Act as is possible. Having it "approved" by the Commission of Fine Arts board - who were appointed by the person who's project they are "approving" (and no doubt facing being fired if they don't approve it) is almost farcical.

That aside, the prospect of the planned monstrosity is so ridiculous—completely dwarfing and overshadowing the existing historic structure - all in the name of "modernization"?? I note that all other improvements or renovations made to the residence over the years were done out of necessity or with utmost sensitivity - and without damaging the overall aesthetics of the structure - including the "modernization" of certain features.

Instead, what is being proposed is akin to putting lipstick on a pig.

Spending of $300 million on this project is insane. A total breach of proper authorization, permits, and design review. .We don't want it, and we do want our history preserved. The county has existed for 250 years without a ballroom to accommodate 900! Don't need one now. this is not about creating space for diplomacy! This president doesn't know the meaning of diplomacy! He only knows he wants to own or have his mark and his name of every bit of real estate in the country. I want this project canceled, and the East Wing rebuilt and restored to its former design. To permit this project to go ahead without penalizing those who broke the law is an affront to all law-abiding Americans. No one is above the law!

Name: Mary Ann Michael
Date: February 20, 2026 6:39:43 pm

I oppose spending 3 million dollars to update the East Wing of the White House. The East Wing needs to be rebuilt and returned to its original design. The White House is not a private residence but a national treasure that belongs to the American people. Those who temporarily reside there should be stewards of that history, not free to alter it according to their personal taste. In that same spirit, I believe the Jaqueline Onassis Kennedy rose garden should be thoughtfully replanted and restored to reflect its original design, preserving the legacy of Mrs. Kennedy’s vision and the historic integrity of the grounds.

As a concerned citizen of the US, I am outraged at the demolition of the East Wing of OUR White House, and the

proposed construction of the monstrosity called The Ballroom. It is gauche and completely out of proportion to the space. It is a laughingstock and an embarrassment. But most importantly, the project is completely outside the scope of the president’s authority, and should NEVER have reached this point in the first place. Please halt all construction and restore the White House to the dignified and stately home it was before the Buffoon seized power.

Name: Cathy ALPER
Date: February 20, 2026 6:44:03 pm

I am opposed to the proposed ballroom. I believe having a building larger than the White House would create an unbalanced unattractive look and take away from the significance of the White House.

In my opinion, the ballroom that is proposed does not represent the history of America or the wishes of the American people.

Name: Deborah van Hecke
Date: February 20, 2026 6:45:24 pm

I am writing to oppose the spending of $300 million on the project to replace the East Wing of the White House with a huge, unnecessary and artless ballroom. The destruction of the East Wing was initiated without any proper authorization, permits, or design review. It therefore amounted to razing a piece of American history. The White House is the PEOPLE'S House, not a piece of Trump real estate to vandalize as a vanity project. To call it a "modernization project" is the type of cynical double-speak propaganda that George Orwell parodied in his book Animal Farm.

Any work on the White House and other historical monuments that belong to the PEOPLE of the United States must be reviewed and approved by the Commission of Fine Arts. This was not done, which amounts to an illegal destruction of public property.

Furthermore, Congress created the 116-year-old Commission to be staffed with “well-qualified judges of the fine arts” who would review and advise on projects in D.C. This current president has appointed people with little to no professional qualifications to review and advise on art and architecture projects. Their only qualifications are their loyalty to the man currently residing in People's House. This lack of qualifications is vividly evident in the newly appointed assistant, Chamberlain Harris, who has no experience in the arts, making a making a laughingstock of the Commission of Fine Art.

This project must be canceled, and the East Wing should be rebuilt and restored to its former design.

No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Sandra Lillydahl
Date: February 20, 2026 6:45:31 pm

I am writing to urge you to remember that the White House belongs to the American people and that it's design has historical significance that should not be neglected.

The current design is completely incompatible and out of proportion, dwarfing the historic White House and destroying its architectural and historic integrity. It is grandiose and seems purposedly palatial, out of character for a democratic republic.

Any alteration of the White House needs to involve a competitive process in which designs are submitted by multiple non-partisan architects, evaluated by respected and knowledgeable historians and architects, and submitted to a competitive bidding process for the actual construction work. And the final design should be respectful of our history and traditions, enhancing the basic structure without overpowering it.

Sincerely, Sandra Lillydahl

The commitment to changing this public facility for one person's narcissism is unconscionable.

Any changes should have oversight of planning and funding by the people, after being voted on by the people.

Name: Jen B
Date: February 20, 2026 6:46:25 pm

This country belongs to the people. The White House is also the People's house. Not Donald Trump's house. He has disgraced the building time and time again with his gaudy penchant for cheap looking gold medallions and cold marble. He paved over the beautiful rose garden, and made it look like outside dining of a Chili's restaurant. He got rid of trees that were symbols of past Presidents... All to make a quick buck by monetizing anything and everything.
And he took it upon himself to demolish an entire wing of the White House with no permission or thought about the history within those walls and rooms.

And now he wants to further ruin OUR house by building a monstrosity of a ballroom. This room is way too big and it is unnecessary. He is wasting money on something that should be torn down when he finally is removed from office.
He has ruined every thing he has touched. Everything. He is like King Meidas, but instead of turning things to gold, he turns everything to manure.

STOP allowing him to degrade the People's house anymore than he already has. The White House will be around a lot longer than him (thank God) and we should not have to be reminded of this dark time forever by looking at a giant ballroom to feed his ego.

Name: Miriam Sheehey
Date: February 20, 2026 6:48:36 pm

This seems a wasteful project. Historic buildings in my city pass through a gauntlet of permissions before changing them is either accepted, revised or rejected. I am opposed to building a ballroom in the east wing. Come on! Spend my money wisely!!!!!!

I am excited to be able to leave a comment supporting the East Wing Modernization Project. I have only visited the White House from the exterior and am always disappointed and a little embarrassed of how unremarkable the People's House is. I do love the Classic details and believe that the design should always be humble but dignified. I am looking forward to being able to tour the White House one day in the future. Thank you for believing that the dignitaries that we host in this country deserve to be treated with respect and hospitality befitting of a country proud of its role in the world. Thank you and God Bless.

Name: Steven Cypher
Date: February 20, 2026 6:56:40 pm

A National Historic Landmark and a National Park, the White House has been the home to our Presidents since 1800. Owned by the American people and stewarded by the National Park Service, the White House was designed by Irish architect James Hoban, whose winning design was selected by President George Washington in a competition for the honor of designing the home of the American president, and demonstrates Georgian and neoclassical architectural principles.

While I acknowledge the utility of a larger meeting and gathering space at the White House, I remain deeply concerned that the sheer massing and height of the proposed 90,000 square-foot new ballroom construction will overwhelm the Executive Residence, which is only 55,000 square feet. I'm also deeply concerned that, as proposed, the new construction will permanently disrupt the carefully balanced classical design of the White House complex, which emphasizes the prominence of the Executive Residence in contrast to its two smaller, and lower, East and West Wings.

The Secretary of the Interior's Standards for Rehabilitation offer clear guidance for construction projects such as this one that affect historic properties. 36 C.F.R. § 68.1 et seq. The Standards provide that new additions should not destroy the historic fabric of the property, and that the new work should be "compatible with the historic materials, features, size, scale and proportion, and massing" of the existing structure. Id. § 68.3(a)(9)-(10). To that end, the National Park Service's Comprehensive Design Plan for the White House, issued in 2000, recognized the need for expanded event space — yet proposed locating such facilities in "new underground structures" so as to "minimize any new intrusions on the surface" and ensure that "the integrity and character-defining features of the White House and its grounds … are preserved and maintained."

The National Trust frequently and successfully advises on renovations to significant historic properties around the country—including a ballroom at Mar-a- Lago—to ensure that those properties can accommodate modern needs while preserving their historic character. We know from experience that both goals are simultaneously achievable.

To this end, any proposed new addition to the White House complex should accommodate and respect the primary historic importance of the original Executive Residence. To do so here, the ballroom addition should be subordinate in scale to the Executive Residence. We appreciate the submission of plans that continue to revise the design of the addition. That being said, having viewed the revised plans, I support several modifications to the proposed project, including:

• Reduce Overall Size and Visibility. The size, volume, and massing of the proposed new construction (90,000 square feet) should be reduced or disguised (such as by placing portions underground, as recommended in the 2000 Comprehensive Design Plan) so the new building appears smaller than the Executive Residence itself (55,000 square feet). Its height should also be substantially lower than the Executive Residence.

• Reduce Footprint and Protect Key Views. The footprint of the proposed building should not extend past the existing south-facing façade of the historic Treasury Building, nor further interrupt the views of the Executive Residence from Pennsylvania Avenue.

• Respect the Established Classical Composition of the White House Complex. The new addition should retain the carefully balanced classical design of the White House complex with its two smaller, lower, and substantially symmetrical East and West Wings.

• Preserve the Historic East Facade of the Executive Residence. The connection of the colonnade to the Executive Residence should protect and preserve the original historic materials of the east façade of the Executive Residence and should not cover or demolish the existing fenestration and detailing of the east façade.

• Ensure that the Proposed South-facing Portico Is Subordinate in Scale to the White House South Portico. The proposed portico on the south façade should be smaller and less grand in scale than the existing portico on the south façade of the Executive Residence.

I respectfully urge the CFA to consider these recommendations. Doing so will help ensure that the project both honors the exceptional historic significance of the White House complex and acknowledges the investment that the American people have in the preservation of this beloved place.

Name: Pat Dietrich
Date: February 20, 2026 6:57:24 pm

I am against the current plan. Current resident is not the owner of the property. We the people are the owner and only stated representatives must have final and total say over any renovation and building plans.

Name: Sarah Vines
Date: February 20, 2026 6:57:38 pm

I strongly oppose this project. It is not modernization, it is the willful destruction of the People's House turning it into an eyesore. It is a waste of money. It is only a monument to one man's gross & bloated ego & should not be allowed to proceed.

Name: Martha Smith
Date: February 20, 2026 6:59:09 pm

I oppose this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a razing of a piece of American architectural history. The White House does not need a huge ballroom attached. The proposed project is out of scale to the building, and is completely unnecessary. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront and set a dangerous precedent.

Name: Louise Weber
Date: February 20, 2026 7:00:00 pm

I strongly oppose the spending of millions of dollars on this project, which was initiated without the proper authorization, permits, or design review.

It is NOT a modernization project but rather a complete razing of American history. This project should be cancelled, and the East Wing rebuilt and restored to its former design.

To permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

I am appalled that the historic East Wing has been destroyed, and that this behemoth is being proposed in its place.

Thank you.

Date: February 20, 2026 7:12:55 pm

I was horrified by the sudden demolition of the historic East Wing of the White House. I vehemently oppose the so called "renovation " which would add an immense gaudy 90,000 square foot addition, dwarfing the historic White House itself. The White House is "the people's house" , not the current resident's . It should be the focus, not this Las Vegas monstrosity. The President failed to obtain the proper authorization, permits, or design review. He should not be the arbiter of taste and design. Then there are serious ethical questions as well. Who are the donors? Do they have business before the administration? Do they stand to get favors from the President in exchange for their contributions? Where is the accountability? This project should be stopped until proper review by actual historians, architects, not rubber stamped by political appointees appointed by the President.

The decision on changing the People’s House should come from the people and not ONE person who has 34 felonies.

Name: Linda Unsicker
Date: February 20, 2026 7:23:18 pm

The proposed ballroom where the East Wing of the people's house once was, serves no purpose at all. Why spend all of that money, even if donated, just to please one man's ego? By the time itis finished this president won't be in office. If no prior president has felt a need for such an extravagance, it seems likely that it will seldom, if ever, be used. Only the rich and royal would be invited. We are supposed to be a Christian nation, yet a $400 million ballroom appears to be more important than health care, education, food, and housing for honest American citizens in need. Many of those people in need are veterans who served our country, who helped protect this country, at the cost of a normal life for themselves. I should add roads, bridges, and FEMA should be priorities. This is absurd. This country does NOT need to build this hideous structure when so many other needs should definitely be addressed first.
PLEASE do not let this project continue.

I am heart sick to see the beautiful East Wing of our White House destroyed for a ballroom.

Name: Barbara Bergeron
Date: February 20, 2026 7:31:51 pm

It is unfathomable that the current resident of the White House has taken with NO permission, and no plans for replacement. of this building. The plans need to be submitted and APPROVED through proper channels. Demand them.

Name: Susan Weiner
Date: February 20, 2026 7:32:01 pm

Remember the East Wing of the White House? Remember the giant ballroom that the tech billionaires have agreed to fund in its place? The National Trust for Historic Preservation is making a gallant effort to stop this. And we can help.

Thanks to the National Trust, we have until March 4 to submit comments about the ballroom to the National Capital Planning Commission. You can make a comment through the link below (click on Submit Comment). PLEASE NOTE, the project is called East Wing Modernization on the pull down menu.

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

I completely and adamantly oppose the East Wing Modernization Project.

This $400 million construction project began without National Capital Planning Commission approval, without required environmental assessments, and without congressional authorization mandated by federal law for construction on federal parkland in Washington.

These violations cannot and must not be rewarded with after-the-fact approval.

The funding creates unacceptable conflicts of interest. Corporations holding billions in current federal contracts with this administration are funding a construction project at the residence of the president who controls those contracts. This is not charitable giving. This is an investment in access and favorable treatment.

The White House belongs to the American people, not any individual president.

As a native Washingtonian and a lifelong U.S. citizen, I strongly urge the Commission to reject this proposal until full legal compliance is achieved, including congressional authorization and completed environmental assessments.

No temporary occupant should possess unilateral authority to demolish historic structures without following the law.

Thank you for your consideration.
Christine Neuberger Amrhine

This was a slap in the Americans face. Tearing down the East Wing was heartbreaking and upsetting to say the least. trump tore down part of our history. This was selfish, and very inconsiderate to the country. We should be preserving our history. The WH is the people's house. It was wasn't his choice alone to do this.
Must be something to make this kind of renovation with others money. Our tax dollars are paying for it. We have outlandish deficit because of trump. He should have never been allowed to do this. Never!

Name: Elaine Ciccone
Date: February 20, 2026 7:36:08 pm

As citizens, we all have agreed to abide by common laws, rules and protocols. The East Wing Modernization Project is, on its' face, illegal. No further steps should be taken until all requirements for such builds have been completed, without fast tracking. No one should be above the law, particularly elected government officials.

This project was started without the required permits, permission, and necessary oversight for a historic project of this scale. The budget has nearly doubled, and work has barely started. This doesn't even account for the completely unacceptable historical and cultural eradication. There are MANY more important projects in which to spend these tax-funds, but if this area must be modernized, we should restore the original design as much as possible.

Name: Mary-George Simonitch
Date: February 20, 2026 7:37:39 pm

The East Wing ballroom should not be built. Ballrooms are for massive parties that are extremely costly. Where is the money going to come from to stage these balls, even if the financing of the construction comes from private sources and not from the tax payers' pockets? We are not living in Victorian England where the royal family was expected to put on formal balls. We have a president and a constitution that governs us, not a monarch. Rebuild the East Wing in modest proportions to house the offices of the First Lady and other useful endeavors of our government.

Any money that would be spent on this folly of a ballroom would better go to taking care of the poor and needy people in this country, not feeding the egos of the rich and powerful, the people who would surely be the only invites to events held there. Stop this president from building on his massive ego.

The People’s house must preserve its history and purpose. I oppose modernizations that are clearly intended to boost the overinflated ego of an individual and does not serve The American people. President Trump should be personally liable for the costs to restore the East Wing.

Name: Kathleen Rosenberger
Date: February 20, 2026 8:05:55 pm

To whom it may concern,
I am writing to express my outrage for the proposed ballroom where the East Wing once stood. The people must have a say in this project. It is our house. It must, by law, be reviewed by the proper committees, departments, and by congress. I am at a loss for words to describe how ostentatious, grotesque, out of scale and proportion the proposed design is to The White House. I’ve always been proud of the architecture of our capitol buildings. They are classic, beautifully proportioned, and representative of what America stands for. The White House is not and never should be a king’s castle, gaudy and pretentious. The American people do not want this. We matter.

Thank you,
Kathleen Rosenberger

Name: Nancy Maccormack

To comment on plans for a building that was brazenly demolished without legal consent seems as useless as the man who commanded the action. But I will persist.

I vehemently oppose the method by which this project is being conducted. There has been zero adherence to legal protocols, so why would any citizen believe that the process to rebuild the East Eing would be properly conducted? We wouldn't. This administration has been the very opposite of transparent and forthcoming. That the final plans for this project have been approved without *even being seen* epitomizes not only the abuse of power so rampant in the Trump Adminiatration, but reveals how short-sighted it's ideas are - a lack of scrutiny and oversight in any building project indubitably ends in disaster.

I oppose this project, and I oppose the recklessness with which it has been realized, start to finish.

Name: Linda M Fraga
Date: February 20, 2026 8:07:33 pm

I am very upset about Trump's destruction of the East awing of the awhile House without Congressional approval. His plan to build this huge ballroom and fill it with ostentatious gold decorations completely alters the
Feeling of the White House. This is supposed to be the American people 's house. The proposed monstrosity will no longer feel like a home. I sincerely hope this project can be stopped.

Name: Penelope Goldstein
Date: February 20, 2026 8:12:30 pm

I oppose the so called “East Wing Modernization Project” because it was initiated without proper review by the architects and planners authorized to approve or deny such projects, nor by Congress. The White House belongs to all Americans. It is not the President’s exclusive sand box. While there may be valid reasons for desiring a ballroom, the hasty demolition of the East Wing and the ever-changing story about cost, size and design, all from someone who has yet to show an understanding or appreciation of our nation’s history and artistic heritage, tells me this won’t end well.

Name: Debora Longenhagen
Date: February 20, 2026 8:12:36 pm

Restore it the way it was before it was demolished. The ballroom is an abomination

---

Name: Beth Welty
Date: February 20, 2026 8:13:33 pm

I am appalled at the destruction of the East Wing, which was done illegally by a criminal "President". This was completely reckless and shows the utter contempt that trump holds for the United States.

Not one penny of taxpayer's money should go to building the dictator's vanity project. In fact, trump should be charged

for the full cost of rebuilidng the East Wing back to its original condition. This proposed ballroom will stand as nothing but a monument to fascism.

Name: Carol Taylor
Date: February 20, 2026 8:13:35 pm

Hello, and thank you for accepting public comments on this topic. I would like to ask that you do everything and anything possible to stop this absurd and horrifying demolition (too late for that i suppose) and planned 'ballroom' where the East Wing used to be. I would love to see it rebuilt to what it was originally... the historic richness and history of the White House should be protected and preserved to the utmost ability of all involved and i am personally offended and ashamed of what has happened to it and what is trying to be built in its place. Besides, the White house is supposedly 'the people's house'... though not a single one of us was consulted before the demolition happened... i actually had the thought of trying to figure out how to form some sort of class action (?) people's lawsuit to stop the horrors.. so i am very glad to hear that the National Trust for Historic Preservation and the National Capital Planning Commission have stepped up on this topic. Please, please do all you can stop this and return the East Wing to its original status. Thank you so much.

Name: Rebecca Jackson

Date: February 20, 2026 8:17:47 pm

Subject: Immediate Halt and Restoration Order for Unauthorized Alterations to the White House East Wing

To Members of Congress and the National Capital Planning Commission:

I am writing to formally oppose the reported $300 million demolition and reconstruction project involving the East Wing of the White House. Based on publicly available information, this project appears to have proceeded without proper authorization, required design review, and statutory compliance.

The White House is not merely a residence. It is a symbol of the American Republic and a historic property of extraordinary national importance. Any substantial alteration to its historic fabric demands rigorous adherence to federal law and established oversight procedures.

Several federal statutes and regulatory frameworks are implicated:

National Historic Preservation Act (54 U.S.C. § 300101 et seq.), particularly Section 106 (54 U.S.C. § 306108), which requires federal agencies to consider effects on historic properties and consult with the Advisory Council on Historic

Preservation.

National Environmental Policy Act (42 U.S.C. § 4321 et seq.), requiring environmental review and public transparency for major federal actions significantly affecting the human environment.

National Capital Planning Act (40 U.S.C. § 8721 et seq.), establishing the authority of the National Capital Planning Commission over federal development projects in the National Capital Region.

The Shipstead–Luce Act (40 U.S.C. § 910), requiring review of exterior architectural design within protected areas of Washington, D.C.

Executive Order 11593, directing federal agencies to inventory and protect historic properties under their jurisdiction.

If these procedures were bypassed or minimized, the project may represent a serious failure of statutory compliance and oversight.

In addition to preservation concerns, I strongly oppose the expenditure of approximately $300 million on a project that appears to prioritize aesthetic alteration over preservation and modernization. At a time when fiscal responsibility is essential, this level of spending demands explicit Congressional authorization and transparent justification.

The destruction of historically significant architectural elements cannot be characterized as modernization. It constitutes the irreversible loss of national heritage. No administration—regardless of party—should be permitted to alter or demolish nationally significant historic resources without full legal compliance, review, and public accountability.

I respectfully request that:

All construction activity be immediately suspended pending full statutory review.

Congress initiate oversight hearings to determine whether applicable preservation, environmental, and planning laws were followed.

Any unlawful actions be investigated and appropriate remedies pursued.

The East Wing be reconstructed and restored in accordance with its historically documented design.

Clear safeguards be enacted to prevent future unilateral alterations to nationally significant historic properties.

No individual or office is above the law. The integrity of our legal system depends upon equal application of statutory requirements. Allowing such a project to proceed without accountability would set a dangerous precedent for historic preservation and federal governance.

I urge you to act swiftly to protect the architectural and civic heritage of the United States.

Respectfully,

Mary E. Carpenter

Dear National Capital Planning Commission,

The project that is proposed is very concerning. The East Wing of the White House was demolished without any concern for the American public's views on the matter. The use of donor money for construction of this project is questionable and not transparent and lies in the area of bribes and currying favor with a President who during his first administration referred to the White House as a dump.

The White House represents America. When structures of great historic and architectural significance on the National Register of Historic Places are renovated or rehabilitated, it must be done under very specific guidelines. The White House is a National Historic Landmark and National Park, owned by the American people and stewarded by the National Park Service. Any and all construction of the new East Wing should and must be done in the same manner as it would be at any National Historic Landmark. The new construction MUST FIT in style and feeling and materials with the existing main part of the White House and West Wing.

Demolition of the East Wing was a tragedy and blight on America. The New East Wing's design plans and construction MUST be guided and overseen by professional historians and architectural historians and historic architects NOT BY THE PRESIDENT OF THE UNITED STATES OR ANY OF HIS APPOINTEES.

Name: Anne Eaton
Date: February 20, 2026 8:31:57 pm

The proposed ballroom addition is an abomination. It must be rejected and scaled down dramatically.

Name: Margaret Sheehey
Date: February 20, 2026 8:34:01 pm

This project that is called East Wing Modernization project is the building of an ostentatious ballroom. When I hear the term "'modernization", I think of an upgraded bathroom, or a fresh coat of paint, not building a ballroom. This gilded ballroom would only be for the pleasure of the rich and powerful elite. It is heartbreaking to me that this would be allowed to proceed. There should be a permit process closely adhered to especially when it involves historic landmarks. Please vote NO on this project.

Name: Oliver Brotski
Date: February 20, 2026 8:37:28 pm

I would like to recommend several modifications to the proposed project: • Reduce Overall Size and Visibility. The size, volume, and massing of the proposed new construction (90,000 square feet) should be reduced or disguised (such as by placing portions underground, as recommended in the 2000 Comprehensive Design Plan) so the new building appears smaller than the Executive Residence itself (55,000 square feet). Its height should also be substantially lower than the Executive Residence. • Reduce Footprint and Protect Key Views. The footprint of the proposed building should not extend past the existing south-facing façade of the historic Treasury Building, nor further interrupt the views of the Executive Residence from Pennsylvania Avenue. • Respect the Established Classical Composition of the White House Complex. The new addition should retain the carefully balanced classical design of the White House complex with its two smaller, lower, and substantially symmetrical East and West Wings. • Preserve the Historic East Facade of the Executive Residence. The connection of the colonnade to the Executive Residence should protect and preserve the original historic materials of the east façade of the Executive Residence and should not cover or demolish the existing fenestration and detailing of the east façade. • Ensure that the Proposed South-facing Portico Is Subordinate in Scale to the White House South Portico. The proposed portico on the south façade should be smaller and less grand in scale than the existing portico on the south façade of the Executive Residence. We respectfully urge the CFA to consider these recommendations. Doing so will help ensure that the project both honors the exceptional historic significance of the White House complex and acknowledges the investment that the American people have in the preservation of this beloved place. Sincerely, OJB

Name: Heather Hughes
Date: February 20, 2026 8:38:30 pm

The White House is not an event center for Mar-a-Lago. It is not a king’s palace. Any modifications (because this is not a modernization) need to be carefully considered. That is not happening right now. If the President feels the White House is not up to his entertaining standards, he is free to leave.

Changes to historic landmarks require carefully reviewed and approved plans by others outside executive branch that maintain historic integrity.

Name: Susan Smith
Date: February 20, 2026 8:48:06 pm

The East Wing of the White House was absolutely beautiful and perfect as it stood.

And, don’t we refer to the White House as the people’s house? I’m pretty sure that no one asked the American people if they wanted something new (we don’t) or even ran the idea and any architectural drawings by any historic committee.

Because I’m fairly certain the answer would have been “NO”.

Take the $300 million price tag and use it for something more meaningful and appropriate.

I am sending this to comment section of the National Capitol Commission public comments page on behalf of myself and a number of my friends: We strongly oppose the spending of $300-400 million on the WH's vanity project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing and dishonoring of the Peoples' House and shared American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law, and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Please stop the destruction of the White House. The White House belongs to the American people and not the president. This ballroom is going to be an absolute disaster dwarfing the remaining structure. A ballroom is totally unnecessary. Unfortunately part of the White House has already been destroyed. There are proper channels to take if something needs to be done/modernized at the White House, and of course Trump chose to ignore that process. This is a historic building and should be treated as such. Please save the people's house.
Thank you!

As you consider this project, I ask that you remember the historical significance of the White House and what is now lost as the East Wing of that building. Its destruction is a tragedy, but it has been done. That space should not be replaced a "ballroom" or any other structure that projects the facade of a golden glorification of the current president. As a voter and a descendent of early Americans, I ask you use your discretion boldly, without regard to the pressure I'm sure you are facing. Please do the honorable thing and refuse to condone this structure.

Thank you.

Date: February 20, 2026 9:31:00 pm

President Trump has no right to rebuild the East wing of the Whitehouse. He tore it down with no review, permitting or approval, like he does everything. I dont trust him to do a competent or legal job. It was an outrage that he tore it down. I dont want his name or tacky taste in decor on ANYTHING in the Whitehouse. Hopefully he will be gone soon, before he turns this country into an entirely depraved fascist state. No, no, no, Hell no!

Name: Liberty Pacatte
Date: February 20, 2026 9:33:56 pm

Restore to original architecture. Should not have been modified without the people's consideration and vote.

Name: Jim Wolfkill
Date: February 20, 2026 9:34:00 pm

He has destroyed our American history. No one wants the ballroom. He should be required to return the west wing to its historical dignified decor as befits the People's house & to rebuild both the East Wing & the Jacqueline Kennedy Rose garden to their original forms And he should be required to personally pay for all the new & restoration costs & be fined for his destruction without the proper approvals from Congress & The Historical Society

---

Name: Nicole Moriarty
Date: February 20, 2026 9:36:26 pm

The proposed "modernization" of the East Wing feels out of proportion to the historic scale and purpose of the White House. Its strength has always been its restraint and symbolism, not grand additions. A ballroom may serve ceremonial ambitions, but it doesn't reflect a real need of the American people, who value preservation of history and function over unnecessary expansion. Do not proceed with this addition until the American people can speak their minds. Do not allow the Trump administration force this addition.

Name: Jim Wolfkill
Date: February 20, 2026 9:37:57 pm

Trump should be forced to pay all restoration costs to return the West wing to a dignified decor befitting the People's house & all costs to have the East wing & Jacqueline Kennedy's rose garden reconstructed to the way each was when he took office & should be fined for destroying the American people's history

Date: February 20, 2026 9:42:34 pm

If approved, The 89,000 expansion to provide a ballroom adjacent to the white house would greatly overshadow the existing buildings, which amply provide room for residents and modest numbers of guests. The White House was never intended to be palatial. Since the 1,000 or so attendees at events in the ballroom are not staying at the White House, the White House should either continue to use the more than adequate temporary tents as before, or consider other large venues in the area. Perhaps approving construction for a ballroom at a much smaller scale would be a good compromise.

Name: Julianna Mathers

RE: Proposed White House Ballroom – Scale, Massing, and Process Considerations

To the Commissioners of the National Capital Planning Commission,

I respectfully submit the following comments regarding the proposed ballroom addition to the White House.

The White House has always functioned as a living and evolving workplace and ceremonial venue. It is entirely reasonable that programmatic needs change over time, and the desire for expanded gathering space is understandable. At the same time, any addition to this singular structure must be carefully calibrated to preserve the architectural hierarchy and symbolic primacy of the Main Residence.

The enduring strength of the White House lies in its restraint, proportion, and compositional clarity. The Main Residence remains the defining architectural element of the complex, and new construction should be deferential in scale, massing, and expression. In this context, the potential impact on the historic elliptical drive and the broader site geometry raises important questions about how the addition may alter the ceremonial sequence and spatial balance of the grounds.

I would respectfully encourage a careful re-examination of the overall massing and its relationship to the existing composition. Transparency regarding the program requirements and a fuller exploration of alternatives would further strengthen public confidence in the outcome. Given the national and symbolic significance of the White House, broad and open dialogue is essential.

The White House has long embodied understated elegance and architectural harmony. Any addition should reinforce those qualities and safeguard the legacy that generations of Americans associate with this place.

Thank you for your thoughtful consideration of these comments and for your stewardship of our nation’s civic architecture.

Respectfully,
Stephen Engblom, AIA, LEED AP

I’m furious that a historic wing of the White House was destroyed without any approval by the right channels. The East Wing was very special and where the First Ladies held many events. I think the East Wing design should honor its previous design with necessary modern upgrades. It should match its historic origins an honor the original design. Please do not put any gold trim as that is gaudy and does not honor the original design of the White House.

Name: Traci Wolfe
Date: February 20, 2026 9:47:41 pm

This project is disgusting. The White House is the people’s house and it should have to go through the appropriate channels as any other renovation. I am ashamed that rules and laws are being thwarted because someone thinks he is above them. He is not. Please do the right thing.

Name: Nadja Gutowski
Date: February 20, 2026 9:49:09 pm

The White House is a symbol of the USA. Any proposed new addition should maintain the current historical scale and neoclassical architecture. The Trump administration is a steward for White House on behalf of the American people for posterity and any proposed development should include input from architectural historians and preservationists.

Name: Jacquelyn Fischer
Date: February 20, 2026 9:49:11 pm

I'm opposed to this whole project as it has not been authorized by any entity with the legal right to do so. And I would be diametrically opposed to any taxpayer money being used for a frivolous addition. If private donors want to contribute to a project, please advise them to replace the demolished East Wing with an updated functional place for productive activity. A ballroom is a luxury and there are too many Americans needing the means to survive.

Name: Rose Griscom
Date: February 20, 2026 9:50:59 pm

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of critical American history. This project should be canceled, and if possible, the East Wing rebuilt and restored to its former design, or at the least, with the former purpose and materials within it. To permit this project to go forward after breaking mulyiple laws and design processes, is an affront to the rule of law in America.

Name: Carolyn Janney
Date: February 20, 2026 9:54:24 pm

Trump allowed Musk to demolish wonderful programs, such as USAID, and allowed Musk to fire so many employees that were necessary for the running of our government. All was done in the name of ridding the government of waste, fraud and abuse. Tearing down the East Wing and spending, at this point a projected $400 million is an absolute waste of taxpayer dollars and an abuse of Trump’s power. He didn’t bother, for starters, with appropriate permits or permission to spend the money. The project needs to be stopped and the East wing needs to be restored. I strongly oppose this project.

Name: Karen Doty
Date: February 20, 2026 9:55:30 pm

I don't care who is donating money to this project, it NEVER should have started without input. Trump has RUINED an historic building. There is NO REASON this building needs to be so massive & larger than the main building. The white house used to be the Peoples house. Trump is acting like Marie Antoinette!!!

Name: Jeremy Rice
Date: February 20, 2026 9:57:09 pm

The new east wing size will be a gigantic blunder. It’s too big. It totally dwarfs the WH and the scale of the surrounding area. For generations to come this will be a gigantic, and incredible reminder of the nightmare of how ego and self purpose was put ahead of our country and needs. With over 20 years of interior design work, I can swear by scale being able to single handedly make or break a project. The size that it is proposed, we might as well build a gigantic dildo and lay it there, so the president can point to it and brag about the size. That would be less of an embarrassment.

Name: Wes Hanna
Date: February 20, 2026 10:04:59 pm

I completely object to this project and its blatantly irresponsible purpose of grandiosity for this president. I urge this project be stopped and the building be returned to its former site and design.

Name: Robin Seigle
Date: February 20, 2026 10:06:13 pm

Dear Commissioners of the National Capital Planning Commission:

I am writing to oppose the building of a $300 million large ballroom in the place of the East Wing of the White House. There is not a need for such a huge ballroom, which the President wants for entertaining heads of state and his friends who are millionaires and billionaires.

The White House property does not belong to President Trump, he is allowed to live there while he is President, but he is not allowed to make such huge changes as demolishing the West Wing, which was a historical building and housed much Presidential memorabilia, without any adherence to the norms and procedures required before making such changes.

It really is a disgrace that the President ignored the procedures for changing things at the White House complex. The reason for the procedures is to be sure that the Commission and Historians can weigh in on demolition and/or construction of any buildings in the complex.

It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

President Trump said it would be paid for by private donors. I am concerned that, as with so many of his donations from millionaires and billionaires, it is bribery for him doing something favorable for those individuals or their companies (CBS, Elon Musk, etc.)

Thank you for your consideration and please do not approve the building of the gaudy, oversized ballroom that no one seemed to need before, and which he wants to build to make the White House complex like Mar-a-Lago. The private social club for millionaires and billionaires.

Respectfully,

Robin Duboe Seigle
[redacted]

Name: Catherine Weaver
Date: February 20, 2026 10:08:31 pm

The East Wing should be rebuilt the way it was before it was illegally torn down without proper permits! The White House belongs to all of us, and should only be changed following legal avenues. Thanks!

Subject: Deep Concern and Outrage Over the Demolition of Historic White House Features

To the Members of the National Capital Planning Commission,

I am writing to express my profound disappointment and deep concern regarding the recent demolition of the East Wing's historic elements and the removal of the Jacqueline Kennedy Garden features. These decisions represent a staggering loss of national heritage, and I am struggling to understand how such actions were permitted under the Commission's oversight.

The East Wing and the Jackie Kennedy Rose Garden are not political trophies to be altered at the whim of any administration. They are part of our shared national story—spaces shaped by decades of cultural, architectural, and historical significance. Their destruction is not merely a design choice; it is an erasure of irreplaceable history.

Many Americans, myself included, are appalled that these changes were approved without transparent public justification, preservation safeguards, or meaningful consultation with historians and conservation experts. The lack of stewardship shown in this process is deeply troubling. Decisions of this magnitude should reflect the long-term interests of the American people, not the short-term preferences of any individual or administration.

I urge the Commission to provide a full public explanation of how these approvals were granted, what preservation standards were applied, and what steps will be taken to prevent similar losses in the future. The American public deserves

accountability, transparency, and a commitment to protecting the historical integrity of the White House complex.

These spaces belong to the nation—not to any single occupant of the office—and their preservation should be treated with the seriousness and respect they deserve.

Name: Patty Kitchen
Date: February 20, 2026 10:15:14 pm

Remember the East Wing of the White House? Remember the giant ballroom that the tech billionaires have agreed to fund in its place? The National Trust for Historic Preservation is making a gallant effort to stop this. And we can help.

Thanks to the National Trust, we have until March 4 to submit comments about the ballroom to the National Capital Planning Commission. You can make a comment through the link below (click on Submit Comment). PLEASE NOTE, the project is called East Wing Modernization on the pull down menu.

Anara Guard's comment on this is beautiful. She gave me permission to post it here, if anyone wants to use her language.

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Date: February 20, 2026 10:40:04 pm

The White House is a Historical building and should never be torn down on the whim of one president. It's a building of the people and our forefathers. The East Wing should be no more than the original 55,000 feet.

We do not need a 90,000 ft ballroom. The decision should be up to the American people. My family has been here since the 1600's. My ancestors would be turning in their graves. They were the original people that founded this country. If history and your families are more important to you, than the plan needs to be historically modified to keep the history of the building intact. If this is not fixed appropriately, than this administration is not about keeping our history, its about destroying it on the whim of one president
in our hundreds of years of democracy. May God guide you.

Date: February 20, 2026 10:46:24 pm

The proposed East Wing Modernization Project aka The Ballroom, must not go through as planned. It does not serve Americans, it does not preserve historical knowledge and does not represent American values. Nothing in that landmarked area should overshadow The White House. While most Americans struggle from paycheck to paycheck, to flaunt a huge golden ballroom, near the White House ignores these struggles. As the East Wing has already been demolished, there is nothing left to modernized. And can you tell the public what has happened to all the items from the East Wing? Where are the portraits? The furniture? The décor items given as gifts to the American people? As an American, I respectively ask that the project is declined to move forward.

Name: Richard Reed
Date: February 20, 2026 10:56:38 pm

What an unnecessary monstrosity and huge waste of money. The distruction of the east wing was a shameful erasure of our national history. The White House belongs to all US citizens, not to any one administration. If a ball room had to be built, a much smaller version could have been designed without destroying 1/3 of our White House. How can one maniacal narcissist get away with constructing such an eyesore? The gigantic size and design are gauche and the ground plans look unimaginative to the point of being boring. Please reconstruct the original east wing and build a much smaller more sensible ballroom.

Name: Yvonne Moncovich
Date: February 20, 2026 10:58:43 pm

I oppose the East Wing Modernization project. The current administration campaigned on the platform of eliminating fraud, abuse, and wasteful government spending. The current administration terminated thousands of government workers, most without cause, to reduce government spending. There is no valid reason to spend hundreds of millions of the payer dollars to rebuild the east wing. Let the legacy of this administration be the pile of rubble of a demolished building before the plans and authorization and funding had been secured for its unnecessary replacement. If the US doesn’t have enough money to adequately staff our administration, and protect our public lands, we don’t have enough money for a vanity project.

Name: Amy Richards
Date: February 20, 2026 10:58:48 pm

I am writing to object to the wanton destruction of the White House East Wing. This is a travesty, not approved by Congress or any architectural committee, and a metaphor for the destruction of our democracy by Trump. We should all

mourn. This , among many other serious crimes, should be cause for impeachment, conviction and at least some consequences. No one is supposed to be above the law. Apparently our dictator is .

Name: Jennifer Stroud
Date: February 20, 2026 10:58:51 pm

I object to this project on several grounds: 1) normal steps in discussion, permitting, projections, etc, we're circumvented with no public or Congressional discussion or input; 2) the East Wing of the People's house was destroyed without regard for its historic value, despite the President's assurances to the contrary; 3) artists' rendering of the finished project as proposed will dwarf the White House and change the landscape forever; 4) the prosed ballroom projects a vision of our government as elitist, diametrically opposed to the vision of our Founders, that ours is a government of, for, and by the people. Please stop this project, and rebuild the East wing as it was, symbolic of restoring our democracy as it was, before we made the dreadful mistake of installing a Fascist in the White House.

Name: Renette Hier
Date: February 20, 2026 11:00:20 pm

Please do not dwarf the White House in building the Ballroom or in rebuilding the East Wing. Building materials and elevations should blend seamlessly with those already there. Large, mature trees need to be reintroduced into the landscape. Cheap gold scrolling signage is an offront and should be banned.

Name: Lucille Serody
Date: February 20, 2026 11:04:41 pm

As a senior citizen, with a long history in this nation of ours, I have never been more ashamed of our government. Spending massive amounts of money for a totally unnecessary grand ballroom strikes me as being selfish to the point of criminality. That money could have been spent to house the homeless in Washington, D.C., or for something else for the benefit of the people of the United States. We don't need Versailles on the Potomac! The building stood for many years as a monument to our reasonable, measured way of doing things. Previous presidents didn't presume to remake the whole city in their image. We don't worship our leaders here. We elect them for a period of time, with an eight-year maximum, according to the current law. We don't have to change the law. The building should be restored to its previous size and shape, with an office for the First Lady, (or First Gentleman), who will presumably follow in the footsteps of great helpmates like Eleanor Roosevelt in supporting the elected president. If the argument is made that the money for this reconstruction of a grand ballroom came from private donors, that's even worse, because quid pro quo is corrupt. What do they expect to get from the current president? I feel ill.

.

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

I am writing to share my deep concern regarding the East Wing modernization project. While I understand that facilities must evolve to meet current needs, I am troubled by the extent to which this renovation has altered or removed elements of the building’s historic character.

The East Wing was more than just a functional space. It represented craftsmanship, architectural integrity, and a tangible

connection to our history. Original details and design features carried meaning that cannot simply be recreated once removed. Modernization should not require the erasure of heritage, particularly when that heritage contributes to the identity and legacy of the institution.

Progress and preservation do not have to be opposing forces. Many institutions across the country have demonstrated that thoughtful renovation can enhance usability while honoring historical significance. I believe we owe it to our community to pursue solutions that respect both innovation and legacy.

I hope leadership will reflect on the impact of these changes and consider how future projects can better protect and preserve the historical character that makes our institution distinctive. Our history is one of our greatest assets, and once lost, it cannot be replaced.

Thank you for your time and consideration.

Sincerely, Stefanie ONeill

Date: February 20, 2026 11:22:53 pm

I oppose the construction of a new east wing, an appendix of such unnecessary scale, a massive addition that completely disrupts the harmony of the existing, beautiful, neoclassical White House. Please don’t approve the project as is. Demand a major revision.

Name: Bruce Phillips
Date: February 20, 2026 11:23:33 pm

After promising the East Wing would only be modified, the President razed it. Liars should not be rewarded. He destroyed it, leave it that way. I don't wantmy tax dollars used for a personal vanity project. Oh, you say, private donors will cover the cost? That's even worse: that will be an indirect bribe. We have already see that with this administration. Anyway, we don't need that ballroom anymore. The president has alienated so many of our aallies that there won't be more state dinners held anyway.

Name: Janice Abbott
Date: February 20, 2026 11:24:37 pm

Modernization, restoration, and possible expansion of our national buildings is desirable and necessary. However, such measures need to be done with purpose, vision, and respect for the history and place of the building. Will the new construction serve a useful purpose for the government of the People of the United States, for the benefit of the People? It should all be undertaken under the auspices of the HPO and HPRB, with input from the People and complete

transparency on the project. The WH ballroom, as proposed, violates every single one of these guardrails and celebrates an individual over the American people. In addition, it violates the integrity of the original WH being the focal point of the compound. The Versailles-style proposal violates the founding tenet of our Country's creation - no Kings. It will also sit unoccupied and under-used for the majority of the time, used to inspire awe instead of moving our Country's principles forward.
(I'm a 76+ year-old female, a registered Independent, and I've voted in EVERY election since the voting age was changed to 18.)

Date: February 20, 2026 11:56:37 pm

I oppose the building of a ballroom that no one needs, whether or not Trump has really raised the money privately to build it. I see this as nothing less than a bribe to Trump that should be investigated. The East Wing should be rebuilt, preferably at Trump's expense, but to its previous design with any necessary modernizations.

Name: Michael Villers
Date: February 20, 2026 11:56:39 pm

Trump's project to build this ballroom is completely and totally certifiably insane. It is based in pure megalomania and corruption. Put a stop to it and restore the East Wing as it was.

Name: Karen Garguilo
Date: February 20, 2026 11:59:09 pm

This project should be stopped until it can be properly reviewed, both for compliance with building and historic permitting and compliance processes and for irregularities in funding and budgeting. Of course, there will have to be some restoration or redesign involved. Oversight of the project by a bipartisan approved team of design and financial experts is essential. The integrity of the White House must be maintained for future generations.

It is a shame that Congress cannot control Trumps destruction of our beautiful historically buildings and turn them into huge monstrosities buildings decorated in gold looking like Mar-a-Lago with his name in large gold letters for his Rich friends to party in.

I also object to Trump removing actual true historical displays in museums and trying to change US history to suit his false stories.

Name: Doering Meyer
Date: February 21, 2026 12:07:42 am

The destruction of the East wing of our White House is inexcusable!!!

However, it is symbolic of how the convicted felon's administration is destroying our nation and violating the oath he took to our Constitution.

It should be encapsulated in plexiglass and a large sign out on it naming it, The Trump Memorial, to remind future generations what he did and why we should never allow a convicted felon to hold public office. In Istanbul, there's an historic building they used this technique on to preserve the historic character and then the interior was remodeled to suit modern uses.

This would be my suggestion for the East Wing destroyed by the current occupant of the oval office.

Thank you,

Doering Meyer

Name: Tracey Shrum
Date: February 21, 2026 12:09:25 am

The proposed ballroom on the east wing of the White House is not merely an extravagant addition—it is a misuse of a historic symbol of the American people’s trust. This sacred residence should reflect the dignity, accessibility, and restraint befitting the presidency, not serve as a stage for excess. Expanding private luxury at the nation’s expense undermines transparency, disregards the legacy of the White House as a public institution, and sends a troubling message that personal indulgence outweighs civic responsibility. Americans deserve leadership that honors the integrity of our national landmarks, not one that transforms them into personal playgrounds.

I wholeheartedly object to the demolition of the east wing of the people's house without any respect for law or custom. The ugly destruction of the east wing is a tangible representation of what this administration has imposed on the fabric of America since that bleak January day just 13 months ago. Shame.

Name: Judy Wicklund
Date: February 21, 2026 12:25:59 am

I oppose the building of a ballroom in place of the East Wing. The American people have not been "crying" for a ballroom for decades and centuries. I want to see this returned to the East Wing, to be used as it was before it was destroyed.

Further, the idea that this is being built with donations, and then the donations are rewarded with enormous tax cuts and favorable deals is repugnant to what the United States should stand for. I am embarrassed that we have come to this, and I am greatly opposed to a giant ballroom which is in no way "of the people, by the people or for the people." Everything about it screams oligarchy and plutocracy. Please end it.

Name: Susan Grandt
Date: February 21, 2026 12:27:56 am

Put the East Wing back the way it was, and let him pay for it. To my knowledge, he had no authority to demolish it in the first place. There is no need for a 90,000 SF ballroom. It's the PEOPLE'S house, not his personal entertainment center!

Name: Elizabeth Christeller
Date: February 21, 2026 12:35:01 am

The East Wing of the White House should never have been torn down without going through the established process. It belongs to US citizens, not Donald Trump. Rebuilding the wing must go through the proper processes. I don't think it is appropriate to build the monstrosity Trump has planned. It would dwarf the White House. Stop this President in his tracks. He has done enough damage.

Name: Emily Wigley
Date: February 21, 2026 12:35:38 am

I object to the dramatic changes to the White House. More space may make sense, but continuity of the beautiful traditional building is important. Please go through the proper process to propose and build, not the destructive, sudden change and lack of correct process. Thank you.

Name: John Aulicino
Date: February 21, 2026 12:39:01 am

Dear Sir
I am writing to express my distain for the current destruction of the East Wing of our Whitehouse and the plan to replace it with an ungodly eye sore of a ballroom. We have managed for 250 years without one and I see no foreseeable future need for one.

Name: Mark Rutherford
Date: February 21, 2026 1:06:07 am

I strongly oppose the destruction of our historic White House. All due process was ignored and goes against the will of the people. I want the east wing restored and those who perpetrated this unauthorized act held accountable.

Name: Taylor Haywood
Date: February 21, 2026 1:12:39 am

I fully acknowledge the necessity of accommodating evolving functional needs at the White House. However, the design as presented is profoundly misguided, and the process has been rushed to satisfy the ego of one deeply divisive individual. The scale and massing appear to dwarf the established composition, and the architectural language appears to lack the discipline, dignity, and refinement demanded by so consequential a building. Any intervention at the White House should embody restraint, dignity, and exceptional quality, yet none of these seems present in this hastily conceived proposal. We the people deserve a better process, and a better building.

Name: Kathleen King
Date: February 21, 2026 1:25:59 am

The White House, the People's House, was deliberately designed and built with modest dimensions, restrained aesthetics, and symmetry.

The occupant of The White House is a public servant and lives there as a temporary guest. The modernization should maintain the original size of the East Wing, and should follow all protocols for environmental & regulatory reviews, and public comment.

Name: Laura Oneal
Date: February 21, 2026 1:34:14 am

I disapprove of America’s White House being destroyed without approval and having a historic piece of our history turned into a gaudy hotel ballroom. This is our house, not his personal home.

Name: Alexander Rose
Date: February 21, 2026 1:35:47 am

To have demolished a wing of the White House, our most important and historic building of government, without historic review or planning is already a travesty. To move forward with a notional plan that is way out of scale and keeping with appropriate architectural (and not to mention security) standards, will be an embarrassment that our country will have to live with for at least decades. This is already a wasteful boondoggle, but I can only hope that sanity prevails, and the correct process of design and historic standards are implemented.

Name: Katharine Blaker
Date: February 21, 2026 1:38:40 am

I oppose funding for this monstrous action to “modernise” the East Wing which was initiated by Trump with complete disrespect for any legal processes, without any efforts to obtain permits etc, and which in doing so annihilates the precious history of the East Wing. I respectfully request that effort be made to restore the east wing in its original architectural form.

Name: Leighna Harrison
Date: February 21, 2026 1:54:29 am

I oppose spending $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans. Please don’t let our country continue down this unlawful path.

Name: Eugene Finnerty

Name: S Ramsden
Date: February 21, 2026 2:21:28 am

OBJECT. The proposal is excessive in scale and clearly harmful to the significance of such an important historic monument and the wider area. Not only does the proposal overwhelm the original historic building, its elevations are poorly composed and badly detailed. This is one of, if not the, most iconic buildings in America, and deserves to be treated with respect- not like this.

Name: Susan Hoysagk
Date: February 21, 2026 2:42:45 am

I absolutely oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. NO monstrous ballroom!

No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Dana Steinke
Date: February 21, 2026 2:43:18 am

I agree with a previous poster, who said "I oppose the spending of $400 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.". Please do not pander to this egomaniac bent on remaking history in his own image. American deserves better than this architectural abomination.

Name: Melinda Johnson
Date: February 21, 2026 2:51:05 am

I was horrified, as were many millions of other Americans, to see the East Wing of the People’s House being demolished out of hand. Not a by your leave, will these plans pass muster with the owners of this house, or any other necessary planning or permitting requirements for such major change to the White House.

Donald J. Trump is only a tenant, not the owner of this property. While the needs for a larger entertaining space may indeed be desired in this modern age, there are rules for making wholesale changes to this historic place. Nothing of the

history of the East Wing was considered or discussed with Congress or the public.

The 400 million dollar price tag seems way out of line with the cost and decoration of such a building and frankly the “private” donations for the construction point very strongly to yet another grift on the American people to enrich the President and his cronies. Perhaps he can park the Quatari 747 on the south lawn to complete the scene.

I would like to see the East Wing rebuilt in the style of what it once was. If needs must, a ballroom, but also working spaces and a serious nod to the history of the structure minus the gold filigree and tawdry decorations.

Most importantly, the current administration needs to consult the owners of the White House - the people of the United States of America.

Thank you.

Name: Paul Bartoswixz
Date: February 21, 2026 3:02:42 am

I totally support this project. It is well past due that it happens. I think the rendition I have seen is beautiful and inspiring, well within the architectural designs of most government buildings on the city. Also the fact no public funds are being used should be an inspiration to the American people.
Thank you for your attention to this matter.

Name: Danyelle Hord
Date: February 21, 2026 3:21:00 am

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. Name: Marcia Harris
Date: February 21, 2026 3:48:21 am

If this project continues, the White House will no longer represent me or any American. Stop it immediately.

Name: Jesse Moore
Date: February 21, 2026 3:55:52 am

The east wing of the White House has been demolished. It was done without proper authorization or an approved plan. It should be restored as much as possible to his original design.

Name: Juliette Grumley
Date: February 21, 2026 4:24:06 am

Thank you for insisting that this project follow the established process for making alterations to our national buildings.

No temporary resident of the White House should have the authority to make permanent changes to the exterior or interior that damages or destroys the historic integrity of the structure. Mr. Trump’s ballroom proposal is ostentatious and not in character with the rest of the White House. It should be stopped!

Name: Heidi Skolnik
Date: February 21, 2026 4:29:53 am

I am writing in opposition to the ‘East Wing Modernization Project.’ We Americans see the White House as a beloved symbol of our democracy and of the history of the USA. It is not a private property that can be changed at the whim of one person’s preference. The American people own the White House. The proposed project is out of scale and architecturally odd. The process to install this ballroom requires the involvement of the Congress of the United States, along with environmental and access reviews. Instead, the process has had, so far, the markings of a dictatorial approach, wholly in conflict with American ideals.
I hope you will do the right thing for Americans, those of us alive and those not yet born, and reject the ballroom as it is currently proposed. God bless America.

Name: Anita Henriquez
Date: February 21, 2026 4:49:49 am

Restore the size and shape of the original building with changes only to fit accessibility codes and modern. machinery and technology advances to make the offices more functional. No gold or glitter! No decorating with names or portraits of CURRENT occupants.

Name: Carol Darveau
Date: February 21, 2026 5:28:08 am

I oppose the ballroom project. This has not been approved by Congress, and is a waste of money.

Name: Anonymous Citizen
Date: February 21, 2026 5:51:40 am

I oppose the White House Ballroom renovation. It is unnecessary and too large. It overwhelms the rest of the building. It is not how we should be spending funds when so many people are in need, so many programs have been cut.

Name: Renee Baumunk

Date: February 21, 2026 6:16:21 am

This is an illegal act and not a modernization. I demand that the East Wung be rebuilt as it was. This is the people's house, not an oligarchs private property! What he has done is disrespectful to all United States citizens.

Name: Peggy Nichols
Date: February 21, 2026 6:20:50 am

This project needs to end now. This President seems to think he can do whatever he desires without any consequences. He did not go through the proper channels to tear down the East Wing. It is questionable whether there are actual donors for a ballroom that is not needed. The White House belongs to the people of the United States. It is not this President’s personal property to destroy.

The project was illegal from the time the first bull dozer started demolishing the East Wing. This President needs to be held accountable for what he illegally did. He must be stopped, fined and made to rebuild the East Wing exactly as it was at his own expense. No donations to rebuild the East Wing from his “donors” or sycophants. A message must be sent to this President that he cannot do whatever he wants without consequences.

Name: elissa Hanson
Date: February 21, 2026 6:23:18 am

Strongly oppose rebuilding what the dictator tore down. But if we have to rebuild it should be modest, energy efficient and fitted to house US AID offices so that program can be reinstated.

Name: Lora Shelton

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design.

Name: Heather Davis
Date: February 21, 2026 6:38:52 am

This project is not in line with the architectural design of the White House and is completely disproportionate. Plus it should not be a vanity project. The previous iteration of the East Wing should be rebuilt and there should be accountability for its destruction.

Name: Jill Barrick
Date: February 21, 2026 6:40:19 am

The current ballroom plans are excessively large and out of scale to the primary focus which should be the White House.

I request that a more balanced plan be developed that results in a tasteful, classy final building vs the current plan.

Name: Jason Tucker
Date: February 21, 2026 6:41:48 am

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Edwin helwig
Date: February 21, 2026 6:45:00 am

I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Mary Miller
Date: February 21, 2026 6:45:04 am

Date: February 21, 2026 7:46:56 am

The destruction of the East Wing of the White House was done without any required approvals from national agencies. The US does not need a ballroom constructed in its place. The White House is THE PEOPLE'S HOUSE; it does not belong to Trump. Every other President has understood this.
In addition, the funding of this project has zero transparency. Given Trump's propensity to lie, our tax dollars are likely involved and should not be used for his vanity projects.

Name: Jackie Haney
Date: February 21, 2026 7:47:39 am

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. Name: Carrie McGowan
Date: February 21, 2026 7:57:31 am

I oppose this project, which was initiated without the proper authorization, permits, or design review. I oppose taxpayer or private funding. I want this project canceled, and the East Wing rebuilt and restored to its former design.

I want those who demolished the East Wing without going through the proper procedures without the proper reviews to personally pay for the restoration. Not penalizing those who broke the law would be an affront to all Americans.

Name: Nancy Mack
Date: February 21, 2026 7:59:35 am

What president donald trump has done and is planning to do to the White House are atrocities! The White House is a

national treasure, a magnificent building on the National Register of Historic Places and is the seat of our Democracy. Additionally, it is protected per the 1966 National Historic Preservation Act (law) and was designated as a National Historic Landmark in 1960. Please follow the law. Please ignore the bullying attempts of a president who is a despot. As of February 2026, his national approval rating is approximately 42–43%, with a disapproval rating around 55–56%, and a net approval of about -12 to -13 points. Please stop the craziness! Please save our beloved White House.

Name: Daphne Philipson
Date: February 21, 2026 7:59:47 am

Stop the ballroom. It is an unnecessary expenditure. Restore the White House to where it was before. This was an atrocity.

Name: Darilyn Fenech
Date: February 21, 2026 8:03:38 am

I have lived and worked in historic districts most of my life. My grandparents and parents owned historic buildings. I truly believe the facade should NEVER be changed or removed, and in all States I have lived, that is the law! Even the paint color is controlled by the historic district board.
That said, I do not understand why we need a ballroom in the first place. I also do not understand how a historic building could be torn down without someone on the board STOPPING it. I think it should be rebuilt to original standing. The cost should be billed to the President. All of America has to go through historic boards and planning commissions. Seriously, does no one in Washington DC have to follow the rules of that the rest of us do? My family has to replace an exterior staircase on a 1905 building in CA. It has to be rebuilt in the original style. The siding on the building also has to stay in the original style and be replaced with redwood, the same wood we are taking down. It's expensive but has to stay in the historic facade it has always been since 1905. The White House is much more Historic than our building. Put it back to its original facade. Stick a little ballroom behind it out of view but leave the front alone. Just like the rest of us have to do! You are setting precedent that could destroy Historic buildings and Districts across America.
I vote to replace the original structure and facade.

Name: George Wisser
Date: February 21, 2026 8:04:43 am

There is a 2000 seat ballroom located one mile east of The White House, hosted by the National Building Museum. https://nbm.org/host-an-event/ It has hosted Presidential Inaugurations in the past.

Why do we need a lesser ballroom at The White House?

Name: Suzette Walker
Date: February 21, 2026 8:06:30 am

Please restore the East wing of the White House. Please DO NOT erect the gaudy ballroom that Trump wants. I visited the White House in the 80's and toured the White House entering through the East Wing. Wonderful memories touring during the Christmas season, Again please restore the East Wing. Also Jackie's Rose Garden.

Name: Stephanie Sulyma
Date: February 21, 2026 8:07:35 am

The East wing was torn down by Donald J. Trump without any permit, permission or public discussion. He did it without Congress, without the preservation board. He just ordered it to be down. Unilaterally. Like the White House is his personal house. It is NOT his house. He is a tenant. A tenant. And, like any other tenant who rents you cannot make changes without permission of the owner. And the owner of the White House is WE the people. He did not ask us before he demolished the East wing and the history that went along with it. This was wrong. It was illegal and we want it back. We want it replaced back to its original form. The White House is not his to do with as he pleases in his fever dreams. He needs to get back to working on the economy, on utility prices, on healthcare, on issues that mean something to we, the people NOT trying to remake the country in his distorted dictator-like dreams. . Putting gold filagree all over the White

House, his name on buildings, airports and train stations that he has nothing to do with. Putting larger than life banners up of his face on buildings that belong to us, we the people. His behavior ls not legal, moral or ethical and if congress is not willing to stand up to him and stop him it is up to us, we, the people. Stop this project and return the east wing to its original structure or the White House will be next. Thank you.

Name: Peter Kliegman
Date: February 21, 2026 8:07:42 am

The Intentional Humility of the People's House is a physical demonstration of the Government by the People to destroy it is to erase
democratic ideals and replace them with individual grandiosity. The plan is vulgar and beneath the dignity the People's House
deserves.
Peter H. Kliegman

I could not write it better so I quote the write below.

Zealan Hoover
Oct 26, 2025
I was dismayed this week by images of an excavator dismantling the East Wing of the White House to make way for Donald Trump’s new ballroom. Despite earlier assurances that the historic structure would not be meaningfully altered, the entire wing—home to first ladies and their staffs since Eleanor Roosevelt—was reduced to rubble in less than two days.

I spent years as a White House staffer, and I’ll be the first to admit: glamour was not part of the job. The ceilings were low, the hallways narrow, and paint often scuffed from the hundreds of events and thousands of visitors. When giving tours to family or visiting dignitaries, I’d caution that the building’s majesty was largely symbolic. It wasn’t Versailles; it was a dignified and understated center of American government.

Trump, whose life and brand have long been about shine and spectacle, was never likely to appreciate that modesty. One can understand his urge to tear it down and rebuild in 90,000 square feet of marble and gold leaf. But he misses something essential about the White House design: it kept its occupants humble.

That humility was built into its history. John Adams called it a “cold and damp house” when he and Abigail first moved in. Harry Truman’s family had to vacate altogether when the walls cracked and the floors sagged in the late 1940s; he later said living there felt like “staying in a very elegant jail.” Even Jackie Kennedy, who could have remade it into a glamorous reflection of Camelot, insisted, “Everything in the White House must have a reason for being there. It would be sacrilege merely to ‘redecorate’ it.”

The White House’s restraint has always served a purpose. The president is the only national official elected by everyone, but does not live in a fortress or palace. He lives in a house that belongs to the people. The trappings of power—Air Force One, the Marine Band, the legions of staffers—are balanced by a physical space that reminds whoever occupies it that authority in a republic is borrowed, not owned.

That modesty also speaks to the world. Foreign dignitaries who step inside encounter not mirrored halls but the quiet confidence of a country that knows its power on the global stage. Transforming it into a ballroom resort-style statement of grandeur turns self-assurance into insecurity. The world can tell the difference.

Washington itself was designed to convey that same democratic geometry. Pierre L’Enfant’s plan placed the Capitol on the hill, commanding the horizon, while the White House sat modestly off to the side. The layout reflected a civic hierarchy: Congress leads, the president serves, the courts balance. But as Congress has ceded more authority to the executive, it was perhaps inevitable that the architecture of executive restraint would give way to architecture of ambition.

At a moment when federal employees are working without pay, Medicare has been cut by billions, and energy costs are surging, it may seem frivolous to fixate on bulldozers. Yet the images of the East Wing’s destruction have struck a national nerve because they reveal something deeper. Democracy is not only about who holds power—it’s about how power carries itself. The historic White House, with its quirks and creaks, reminds its residents to stay grounded. A new one, glittering and grand, risks reminding the President only of himself.

Name: Teresa Narayan
Date: February 21, 2026 8:09:31 am

The current ballroom plans are too large in scale and need much more review I do not agree with then as is.

Name: Catherine K
Date: February 21, 2026 8:09:40 am

A horrible and heartbreaking abomination and horrible scar upon a treasured landmark.

Name: Kari Singleton
Date: February 21, 2026 8:11:53 am

I am opposed to the recently proposed structure for the new East Wing due to its lack of respect for the history of the site and scale of the existing buildings. It is monstrous, and needs to be scaled back in size. The White House is a National Historic Landmark and National Park, owned by the American people and stewarded by the National Park Service. The public deserves an opportunity to be heard and to help shape decisions that affect our shared national heritage.
Thank you.

Name: Catherine Hudgins
Date: February 21, 2026 8:15:15 am

I oppose the East Wing Modernisation Project. The razing of the East Wing was illegal, and should be criminally investigated. I want this project canceled, and the East Wing rebuilt and restored to its former design, with the parties responsible for its destruction paying for the restoration. The White House belongs to all Americans.

Name: Brooke Alhanti
Date: February 21, 2026 8:16:46 am

Restore the East Wing with historical accuracy. No gaudy ballroom!

Name: David Fallin
Date: February 21, 2026 8:17:28 am

This is an absolutely disgrace. As an American citizen, a retired Navy Chief, and a tax payer that pays 6 figures in taxes to the federal government, I do NOT condone this or any other project that adheres to the whims of this corrupt dictatorship!

Name: Rachel Wood
Date: February 21, 2026 8:19:04 am

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Buffy Sevre
Date: February 21, 2026 8:21:49 am

I oppose the East Wing Modernization project. We do not need to spend $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing

of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Elaine Jayne
Date: February 21, 2026 8:21:53 am

President Trump's ideas of grandeur are not only tasteless but destructive--case in point his East Wing plans. He has no sense of the historic heritage of our country, let alone the architectural beauty and symmetry of the White House as it was. I am distressed by his destruction, distressed by his grandiose plans. I hope legal action can stop this project and that the original wing can more or less be rebuilt.

Name: Elizabeth Gerron
Date: February 21, 2026 8:25:34 am

I strongly oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. I would also like to see an investigation into how this project was allowed to proceed to the point of destroying the East Wing with no such approvals or authorizations in place. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Stephanie Schuler
Date: February 21, 2026 8:26:35 am

If a federal project moves forward by skirting the established review process, that should concern everyone—regardless of where they fall politically. The National Capital Planning Commission exists for a reason: to ensure that development in Washington reflects long-term planning, public input, transparency, and respect for the historic character of the capital.

The East Wing project may or may not have merits on its own. But bypassing or minimizing NCPC oversight undermines the very safeguards designed to protect the integrity of federal land use decisions. Rules aren’t optional when they’re inconvenient. They’re the framework that keeps projects accountable, fiscally responsible, and publicly vetted.

If this project is sound, it should withstand full review. If it can’t, that’s precisely why the review exists. We should insist on adherence to established planning processes—not because we oppose development, but because process integrity matters.

Name: Marianne Chaffin Strickland
Date: February 21, 2026 8:26:37 am

Demolition of the historic East Wing was a malicious action and to replace it with a vulgar monstrosity that will dwarf the White House itself is unconscionable. We are a democracy and should not be building a monument to monarchial lavishness and extravagance that is inconsistent with the spirit of our nation. Any replacement should be in the same scale and style as what was criminally destroyed and should exhibit a restrained and humble rationality more consistent with what our country once did and should again be presenting to its citizens and the world.

Name: Margaret Hall
Date: February 21, 2026 8:28:31 am

I am opposed to construction of a ballroom to replace the East Wing of the Executive Mansion. The East Wing should not have been torn down.

Now that it has been torn down, any dining room built to "replace" it should be in character with the history and design of the Execuitve Mansion. The dining room should not overhwhelm the Mansion. if it must be built, it should be smaller in size and height.

Name: Renee Hughes
Date: February 21, 2026 8:31:16 am

To whom it may concern;

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Dear National Trust,
Please please hear our pleas:
I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.
Sincerely,
Laura Young

Name: Kathleen Dimon
Date: February 21, 2026 8:36:57 am

This is an abhorrent abuse of power! As a legitimate and educated historic preservationist who has fought for the Section 106 rules and standards, I believe that the agencies responsible should set the requirements we are all required to adhere to, and that these agencies should have the strength to follow these standards and demand that the administration comply with them. One issue is forcing this administration to abide by NHPT standards in taxpayer- and public-funded properties. This MUST be addressed through legal or financial remedies to maintain these agencies' credibility and responsibility. Do not acquiesce! It is inconceivable that the people should not be heard and that a “Roman” monstrosity should not be allowed to dominate the White House grounds.

Name: Alice Sampe
Date: February 21, 2026 8:37:10 am

The proposed ballroom is not appropriate to the site. It is overwhelming in size, which detracts and minimizes the white house.
The east wing needs to be brought back to its original glory. If a ballroom gets built on that site it needs to be smaller, able to fit up to 500 people, and needs to be no taller than the white house. It should be named "We the People", to represent that it belongs to all of us just as the while house is called "the peoples house". It should absolutely not be named for the current president!

Name: Mary Burns
Date: February 21, 2026 8:37:41 am

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. Name: Charles Webster
Date: February 21, 2026 8:41:36 am

Although the need to modernize and update the East Wing is a great objective, destroying the character of our nation's capital and completely dwarfing the scale of the original White Huse seems like a decision that should be contemplated more holistically and have more collaboration on the outcome.

Name: Cara Finnegan
Date: February 21, 2026 8:41:41 am

As a concerned citizen and scholar of presidential communication, I write to express my outrage over the ways the Trump administration sidestepped formal processes to destroy part of the People’s House. The White House is a museum of the presidency and a federal workplace, not merely a personal home. I urge a stop to this so-called “modernization” project and a full investigation of the decisions that led to the East Wing’s unsupportable destruction.

Name: Elshna Weinflash
Date: February 21, 2026 8:45:43 am

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Seeking private donations to pay for this project does not address my concerns. It exacerbates a separate concern that access to the president is for sale.

Name: Jeff Reininger
Date: February 21, 2026 8:45:44 am

As an architect who has served on historic review boards, I oppose the proposed White House ballroom project due to its potential to irreversibly alter the historic character and architectural integrity of one of our nation’s most significant landmarks. Major interventions to historic properties require careful review, transparency, and meaningful public engagement. The advancement of this project without a thorough and clearly communicated review process undermines public trust. I am also concerned about the lack of transparency regarding funding sources, which raises legitimate ethical

questions. Given the widespread public opposition and other pressing national priorities, this project does not appear to reflect the will or best interests of the American people.

Name: Chadwick Boyd
Date: February 21, 2026 8:49:55 am

This ballroom is complete trash, and it’s unlawful. No American, especially in leadership, should be OK with this. My grandfather fought for the US and endured torture in German prison camps for our Constitutional rights. This illegal takedown and building of this ballroom degrades him and millions who fought and died for us. Shame on everyone allowing this to happen.

Name: Michael Shultz
Date: February 21, 2026 8:54:23 am

Dreadful. An absolute disgrace to the United States Taxpayers!!! Please stop this idiotic project now.
Sadly the history of our country will be tarnished forever.

Name: Denise Miller
Date: February 21, 2026 8:55:33 am

I do NOT agree with the East wing project. There was no approved plans or permits submitted. The White House is a house of the people and no one should be able to make dramatic decisions on what projects are done without the proper permission. I vote to rebuild the East wing back to what it was before Trump decided to build the foolish ballroom.

Name: Sara Baumgartner

Please reconsider the scope of this ballroom project. It is not in keeping with the scale or character of the original building. Any additions should be done with sensitivity and concern for aesthetics. As currently proposed this project shows neither.

Name: Stephan Hagemann
Date: February 21, 2026 8:59:35 am

It is disappointing that public input is only being meaningfully considered after irreversible changes have already been made to the people’s house. The White House belongs to the American public, and transparency around any alterations should be a baseline expectation — especially after repeated assurances that no work would harm the historic structure.

That said, the reconstruction of the East Wing presents an opportunity. If it is to be rebuilt, it should be done in a way that reflects both the dignity of the White House and the standards of 2026 — thoughtful, timeless, and architecturally coherent with the historic residence.

I do not object to replacing the temporary outdoor tents that have long been used for larger events. A permanent solution, if thoughtfully designed, could improve both functionality and continuity. My concern lies with the proposed scale, placement, and massing of the new structure. As presented, it appears to overpower the carefully proportioned classical composition of the White House — a building whose balance and restraint are essential to its architectural integrity and symbolic role in our democratic republic.

The renderings shared thus far suggest a level of ornamental maximalism that risks diminishing, rather than elevating, the building's character. The White House has always balanced grandeur with restraint. Guests — domestic and international alike — should experience a setting that reflects enduring American design values, not aesthetic trends that may quickly feel dated.

Equally concerning is the question of funding. Reports indicating that a significant portion of the project is being financed through private donations — with limited public disclosure regarding the sources and amounts — raise legitimate transparency concerns. When appropriated federal funds are replaced with opaque private financing for alterations to a protected historic structure, the public is entitled to full clarity. Any project of this magnitude should be accompanied by clear disclosure of who is contributing, how much, and under what terms, to ensure that public trust is preserved.

To borrow a property development analogy: when substantial work is undertaken but fails to enhance long-term value, it reflects personal taste more than institutional legacy. The White House deserves decisions made with its next century in mind — not the preferences of any single administration.

Name: Ray Booth

I am architecturally trained… I have a respect and understanding of classical proportion and composition. This following is a grotesque and overdone non-proportionally correct design. It would be a travesty for it to represent what this country is composed of, and it's lack of humility and humbleness is more a reflection of the current administration rather than the people of this country I strongly protest against this structure.

Name: Donald Koch
Date: February 21, 2026 9:02:19 am

I am absolutely sick over the unauthorized destruction of the East Wing of OUR White House, the People's House, of which Donald Trump is only a short term tenant. I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: David Mann
Date: February 21, 2026 9:08:18 am

I have watched as the East Wing was demolished for this project and been dumbfounded. How can such changes be made

to the White House, the people’s house, and not be thoroughly vetted for approval. This administration’s arbitrary treatment of rules and process has gotten to the point where I cannot stay silent.
The renderings of the new addition are astounding in the size of this structure. This structure will visually affect the symmetry of the White House. Yes, changes have been made to the White House. But, none have been more “erasing” as those made by this administration. I will never forgive the destruction of the Rose Garden designed by Bunny Mellon during the Kennedy administration. To me that garden was a landmark that needed to be protected.
Please push for a close examination of this project and future projects to historic buildings. Please place an injunction on the future construction until proper meetings have been conducted to consideration of the ramifications this project will ignite. I feel that we have a leader who does as he wishes without seeking permission first.
Hold him accountable and protect our landmarks…

Date: February 21, 2026 9:10:43 am

As a regular US citizen, watching the unexpected demolition of the East Wing of the People's House was very heartbreaking. Modernizations to the People's House is expected and normal but the current proposal to rebuild is as disturbing as the demolition. I expect US leadership to respect centuries of US tradition in proceeding in a thoughtful manner to any changes to the architectural integrity of the White House. The current path is anything but that. Dwarfing the White House in size with a meeting hall that is enormous as currently proposed is not the most thoughtful design. For a renovation or construction project of this magnitude a great deal of thought should go into the design and construction. This is my expectation as a tax paying citizen of the United States of America.

The East Wing should never have been demolished and it is a great loss to our country. However, clearly now, the East Wing must be rebuilt in a way that honors the current White House architecture and scale. An elegant event space would be an excellent addition. But not at a grandiose scale that overwhelms and diminishes the most historic and iconic residence in our nation.
This is the people’s house. Proper protocols should be followed. Please do not approve these plans.

Name: Anne Kiefer

Dear Trustees and Staff.

Thank you for this opportunity to voice our feelings about the People's House.

President Trump's callous disregard for the norms and institutions that protect our historic landmarks and national parks is an outrage. In this instance, Trump steamrolled over the mandated reviews by the NCPC, the CFA, the National Environmental Policy Act (NEPA), and Congress to push his vision for a monstrous, unneeded addition to the White House campus. To add insult to injury, he lied to the American public about his intention to preserve the East Wing before bulldozing it to rubble.

I do not support the construction of a 90.000 square foot ballroom paid for by billionaires who trade their money for preferred treatment by a president who will use the space to preen in front of his wealthy cronies and foreign heads of state.

I demand that this project be stopped altogether, or at least be halted until a full review by the above mentioned entities - the NCPC, the CFA, NEPA, and Congress.

Thank you,
Anne Kiefer

The White House is a masterclass in neoclassical restraint. Any addition should demonstrate fluency in that vocabulary — scale, rhythm, materiality. This design feels architecturally tone-deaf, prioritizing statement over stewardship. When working with a building of this symbolic weight, subtlety isn't optional — it's the standard.

This isn't contextual design — it's architectural cosplay. The White House deserves continuity and rigor, not a pastiche that flattens its historic authority.

Name: Ann Steadman
Date: February 21, 2026 9:19:59 am

Dear sirs/madams
I am wholeheartedly opposed to the size & scope of the East Wing expansion project and wish to make my voice heard. I agree w the NPHS that a larger ballroom is needed and that tented solutions of the past are probably inadequate. However, reports indicate that the proposed size of the EW would seat 1000 +\-. That seems completely unnecessary. Further, the visual size and magnitude of the current administration's plans — seemingly without architectural review, edits, support, and/or approval — dwarfs the size of the central White House and the West Wing and needs to be reconsidered. Thank you for your work to support fine and historic architecture. Let's hope better judgement can prevail. Yours truly.

I, a citizen and Army veteran of the United States, vehemently oppose the grandiose scale of the East Wing's ballroom.

Name: James Hobbs
Date: February 21, 2026 9:21:45 am

To the Members of the National Capital Planning Commission:

I write in strong opposition to the proposed ballroom addition to the White House East Wing.

I believe this proposal poses serious risks to the architectural integrity, historic landscape, and symbolic clarity of the White House. The White House is not merely a residence or event venue; it is a carefully evolved composition of architecture, landscape, and national memory. Its power lies in restraint, proportion, and continuity. Introducing a large-scale ballroom addition to the East Wing would disrupt the delicate balance between the Executive Mansion and its

surrounding grounds.

The East Wing has historically functioned as a secondary, service-oriented structure that defers visually and symbolically to the main house. Expanding it into a prominent ceremonial facility risks shifting that hierarchy and altering long-established sightlines and spatial relationships that define the White House campus. Even if designed in a compatible style, the sheer scale and programmatic intensity of a ballroom would fundamentally change how this historic complex operates and is perceived.

Major alterations to nationally significant civic architecture must meet an exceptionally high threshold of necessity and public benefit. In this case, the functional desire for a larger event space does not outweigh the long-term cost to architectural coherence, historic authenticity, and cultural meaning.

I respectfully urge the Commission to reject this proposal and instead encourage solutions that preserve the integrity, scale, and symbolism of one of the nation's most important civic landmarks.

Sincerely,
James Hobbs

The White House has long been "The People's House" - temporarily housing the sitting President. Historically it has never become "The President's House," to do with whatever he wishes. Therefore destruction of part of the soul of that sacred space at the hands of one sitting President without vote or consideration of the voices of the people of our nation is unjust. Permitting this project to continue, particularly at the scale of which is planned, needs to be reevaluated and halted immediately. Thank you for considering the voices of the many American people who are adamantly opposed to this project, rather than the orders of one.

Name: Bethany Khan
Date: February 21, 2026 9:24:50 am

The proposed ballroom design is entirely out of line in terms of scale and placement, diminishing the heart of our nations presidential residence and iconic drive, which should remain at its core.

The size of accommodation for seating should be questioned and not to seat more than 400. There are other venues appropriate for a gathering of a larger scale and there is no precedent that justifies the demand for this size.

The White House should be taken most seriously as a place representative of our democracy. The due process of this review holds those responsible for reviewing accountable for ensuring this symbolic place remains respected and preserved, and see that this unjustly, disrespectful proposal is not approved as proposed.

Name: Huong Nguyen
Date: February 21, 2026 9:25:19 am

The ballroom is a travesty and a waste of money. It's bad enough he tore down the East Wing with no approval. He's using the ballroom project to grift money. The construction will be disgusting, wildly oversized, and tacky. We should be restoring the East Wing, not building a gaudy and unnecessary ballroom. The White House belongs to the people of the country, not to this stupid and lawless administration. It's not your personal palace!

Name: Cheryl Richardson
Date: February 21, 2026 9:25:20 am

I oppose the $300 million on this project, which was initiated without the proper authorization, permits or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled and the East Wing restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who did is an affront to all law abiding citizens of America.

Name: Marianne Brown
Date: February 21, 2026 9:26:44 am

The scale of this project looks totally out of proportion to the White House. It is not a thoughtful design meant to enhance the existing historical building. I am appalled at the lack of taste this design illustrates.

Please do not allow this poor design to become a reality. This is no more than a spectacle meant to glorify the current administration and does not honor our country's history in any way.

Marianne Brown

Name: Allison Yorra
Date: February 21, 2026 9:27:56 am

Thank you for allowing the public to comment (finally). As a resident of DC and a "neighbor" to the WH, I feel the need to speak up.
First, I am not opposed to a ballroom for state dinners, etc. It appears it is needed. What I find deeply disturbing is the blatant disregard in demolishing the PEOPLE'S HOUSE without consulting the people! The WH is ours collectively and the process to renovate, such as this one, albeit late, was completely ignored. The audacity of this action is beyond comprehension!

In addition, I find the renderings to be gaudy, elitist and distasteful. And again, without public comment.
I'm not sure what opening up this forum to comments now will do, as nothing will change (imo).
If there is a chance for review, please...enough with the gold and marble. It screams 'I'm rich and tasteless!"
Thank you.

Name: Cheryl Peach
Date: February 21, 2026 9:28:13 am

Why does one person have the right to destroy a precious piece of our history? The destruction of the East Wing was not modernization, it was a vicious act without any proper authorization, permits, or design review. I OPPOSE SPENDING $300 MILLION ON THIS. This project should be canceled and the East Wing rebuilt and restored to its former design. No one is above the law. Proceeding without penalizing those who broke the law is a slap in the face to all law-abiding Americans.

Please do not let this proceed.

Sincerely,
Cheryl A. Peach

Name: Amy Ramirez
Date: February 21, 2026 9:29:50 am

I value the role of the NCPC and would like to share my strong concerns re: the East Wing project. The ballroom design has not been given proper consideration of size/scale/sense of place and history by the applicants. I urge you to take action in right-sizing this project to accommodate the objective of building a permanent entertainment space but with practical and tasteful restraint and protection of historic design on the White House campus.

Name: Margaret Clancy
Date: February 21, 2026 9:30:27 am

I oppose the proposed ballroom addition to the White House. The destruction of the East
Wing was unauthorized. STOP construction now and restore the East Wing.

Name: June Brandsma
Date: February 21, 2026 9:34:49 am

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. Name: James Youngblut
Date: February 21, 2026 9:34:49 am

The new ballroom is too big proportionally to the White House residence. It's not necessary to have it be this large, tents used for dinners in the past did not hold nearly 1,000 people. It looks like a tacky convention center.

Name: Sarah Beisheim
Date: February 21, 2026 9:37:48 am

The proposed ballroom project is being conducted without proper, mandated oversight and without transparency required by law. There is no excuse or justification for this administration's refusal to seek proper authorization and to hide information about funding sources. Apart from this clearly illegal approach, the project is an obscene waste of funds at a time when ordinary Americans are being squeezed by illegal tariffs and impacts from illegal CBP and ICE activities in their communities. The administration's grab-by-force tactics that resulted in demolishing the East Wing without proper procedures and runs rampant through all of their actions must be stopped.

Name: Dana McDowell
Date: February 21, 2026 9:39:23 am

The size and scale of the new East Wing project, which includes the proposed ballroom, dwarfs the massing of the historic residence. It also disregards and alters the historic landscape, including the elliptical drive. The White House should not be subjected to this over the top display of insecurity and overcompensation. The design plan includes a new garden space adjacent to the proposed building, but is inferior to the Jacqueline Kennedy Garden which was senselessly removed. The White House is not one man's home. It is a symbol for the American people and it should not be ruined for the ego of one administration.

Name: Marianne Hanley
Date: February 21, 2026 9:42:21 am

this design is an abomination in scale,void of demonstrable need, and indicates the subservience of the White House to an entertainment space which is on all levels unnecessary ;it is obvious that its conception is directly related to the attention-getting obsession of the current "host". Aside from the constant trend in his proposals and his business life of oversized grandiosity,he has no right to impose his vision of this and other structures upon the people's Capitol statement. Like everything he does, it reflects a desperation of "look at my legacy" which of course we are already saturated with the stain of it. Nothing observable should ever be changed without the input reflecting the will of the people. The man's vision reeks of "monstrosity". If he insists on an overblown "ballroom" it could be made at the old post office, definitely away from the contiguous space of the White House' statement of purpose design and proportion. The way in which he has gone about forcing this upon the space is deceitful and unforgiveable.

Name: Nancy Lewis
Date: February 21, 2026 9:45:46 am

I object to the proposed new East Wing design for the White House. The new design is too big and destroys the historic setting of the people's house, the White House. Any new design plan should require a formal review of the choice of

architects as well as new design plan. This new addition does not respect the landscape and is ill conceived. I object to my tax dollars being used for this Trump vanity project.

Name: Lynn Filipski
Date: February 21, 2026 9:45:51 am

As a historian and preservationist, I am appalled at the plans for the East Wing. The White House is a National Historic Landmark and National Park, owned by the American people. The President of the United States is a temporary occupant and did not have the power to alter or destroy a landmark without proper review. The 90,000 square foot ballroom is almost double the size of the Executive Residence and so out of scale to the original structure that it dwarfs anything near it.

The story of America is the story of a democracy. The story of the proposed structure is more suited for a King or autocracy. No one on the Commission should vote for this project in its current form and should be deeply concerned at the lack of procedures followed as well as the funding that smacks of influence peddling.

Name: Joy Magowan
Date: February 21, 2026 9:46:12 am

Hello,

I am dismayed at what is happening with regard to the destruction of the East Wing and the buildilng of the ballroom. The people of the United States do not need or want this style of architecture that tries to mimic a European Versailles. We are not a nation of immense buildings with gaudy displays of marble and gold. We are a nation of hard-working people who want an official space that is a building with simple quiet elegance reflecting the beauty of our country, something we can all feel proud of. The proposed plans for the ballroom reflect some type of an imperial government, a complete contradiction to what the United States is supposed to be about, nothing to feel proud of.

The idea of needing a larger space for important events is not the problem, but the size and style of this proposed ballroom is a problem. The proposed plan is a monstrosity, reflecting an imagined notion of grandeur, but in reality looking simply tacky.

I know this comment probably will not matter to the people in charge, but in the United States, we supposedly are allowed to express out concern. I cannot do much, but I can do that.

Joy Magowan

Name: Kristina Windom
Date: February 21, 2026 9:46:40 am

While I appreciate the opportunity to comment on "the people's house" it falls upon deaf ears -as the project is already underway and this is the biggest issue about this "project." I do not live in DC anymore for various reasons but it is sad to watch my birth city rebrand in to a moat.

Name: Valerie Straight
Date: February 21, 2026 9:47:05 am

Dear Sir/Madam,
Please consider the scope and size of the proposed project will dwarf the existing structure.
I believe this is a questionable project from ascetics to funding and in the brash fashion the former East Wing was torn down.
To believe the funding is a “gift “ with no strings attached is naive. To believe that one man has the right to fire existing experts and caretakers and replace them with his hand picked friends is borderline criminal, in my opinion.
It is not too late to mitigate the damage. I ask that this massive project be reduced in size, redesigned as is fitting to make the buildings look as if they belong together.
Thank you for the opportunity to participate, and voice my opinion.

Respectfully,
Valerie Straight

Name: Elizabeth Fabel
Date: February 21, 2026 9:49:43 am

In January 2025 I traveled to Bucharest. The city, even on a sunny winter day, shouldered a dark shadow. Nicolae Ceausescu's edifices to his own ego--both those completed like the parliament building and those abandoned like the museum to communism--oppress this city and its people, its history, its present, its future. 13 months ago I hurried to the train to Ruse, so relieved to be leaving this sad city that cannot shake the dictator, dead for decades, who holds the place, still, in his fist. And now it is me who cannot shake the fist of a dictator--this one in my own country.

Name: Maribeth Mills
Date: February 21, 2026 9:50:22 am

The proposed East Wing Modernization project raises serious concerns from a preservation, sustainability, and design perspective. If a portion of the White House can be demolished, it sets a troubling precedent for all historic resources. Our country's preservation record is already fragile; weakening protections at the highest level sends the wrong message about the value we place on our built heritage.

Historic structures are nonrenewable resources. Demolition erases our tangible connection to the past. It sends high quality building materials to our landfills. And it opens the doors to more destruction. The East Wing embodied decades of history—including significant chapters in women’s history—and reflected a level of craftsmanship and material quality that cannot be replicated.

From an architectural standpoint, the proposed infill design is incompatible with its historic context. Its scale and massing, in relation to both the White House and the West Wing, will disrupt the carefully balanced composition that has been thoughtfully and legally adapted through countless administrations.

Approving this project creates a slippery slope—not only does it condone the demolition of the East Wing but opens the door for future alterations at the White House and potentially at other historic federal buildings. Decisions made here will reverberate far beyond a single wing.

Preservation is not about resisting progress. It is about stewarding irreplaceable resources responsibly while finding solutions that meet modern needs. We should expect modernization efforts at the White House to reflect the highest standards of preservation practice and design excellence. This does not.

Name: Paul Scott
Date: February 21, 2026 9:52:42 am

Hello, my name is Paul Justin Scott and I’ve lived in the United States my entire life.

I am very concerned about what is going on with the White House. I have loved and followed and respected the historic importance of this building. I am not happy with the new plan. And I think you can do better with our first home. Please do not destroy more. By building something so large. On something so great. Thank you.

Name: Michael Arsham
Date: February 21, 2026 9:53:01 am

Donald Trump should not be permitted to continue demolition of the East Wing or construction of a ballroom. He should reimburse and reverse the damage that has already been done. The White House is the people's house, and should not be altered with disregard for the people. Thank you for your attention to this matter.

Name: Connie Gore
Date: February 21, 2026 9:53:28 am

What has happened to the White House is a travesty. I personally believe the East Wing should be rebuilt to its previous design. The proposed ballroom is far too big and should not over-shadow the White House, the Peoples' House. The East Wing has served the project well. If more space is needed, I'm sure a design that is approved through the proper channels can be achieved without it over-shadowing the White House.

Name: Bethany Clifford
Date: February 21, 2026 9:57:25 am

I strongly oppose the $300 million being spent on this project, which began without proper authorization, permits, or a formal design review. This is not a modernization effort; it is the destruction of a piece of American history. I call for the project to be halted and for the East Wing to be rebuilt and restored to its original design. No one is above the law, and allowing this to continue without holding those responsible accountable would be an insult to every law-abiding American.

Name: Tom Riker
Date: February 21, 2026 9:59:56 am

As a principal owner of an interior design firm with a masters degree in architecture, I want to convey my dismay at the plan for the White House expansion and new ballroom. The scale of the addition is totally out of context and dwarfs the house which is the main purpose of this building. I also feel strongly feel that any addition to the White House needs to go through a thorough review process by the National Trust for Historic Preservation and other governing bodies that are unbiased and not full of Trump appointees.
Thank you for your time.

Name: Kimberly DePerno
Date: February 21, 2026 10:01:11 am

To Whom it may concern:

I am writing to voice my concern about the scale of the proposed East Wing ballroom. Bigger is not better. The ballroom should be designed with the scale of the White House in mind. It should not dwarf the White House in size. I thank you for pushing for proper size and scale that enhances rather than detracts.

Sincerely,
Kimberly DePerno

Name: Lawrence Gordon
Date: February 21, 2026 10:03:26 am

The size and scale of the proposed addition of a ballroom dwarfs the neighboring White House in a manner that is disrespectful and deliberate.

Name: Patty Powell
Date: February 21, 2026 10:04:02 am

As a US Citizen, I’m so upset about what President Trump did to the East Wing without permission! The White House is the people’s house! I don’t think a 90000 square foot ballroom is necessary, and it will overpower the White House. Please don’t allow this obnoxious structure to be built; instead restore the East wing as it was.

Thank you.

Name: Julie Collins
Date: February 21, 2026 10:06:19 am

I am writing in opposition of this entire project, but unfortunately it’s well underway at this point so what I am asking for is that you actually take your time look at the design and push back to make sure that the project is actually something that represents the United States of America in a timeless and classic way. These are our tax dollars at work and I think it’s very important that you follow the process and the procedures that are set up to ensure this design is as it should be. Please do not cave to bullies. It’s important as this is our legacy.

Name: Sue O’Connell
Date: February 21, 2026 10:07:51 am

I am disheartened by the proposed massive design of the new White House Ballroom. Please consider the history, design and aesthetic as part of this renovation. It should be built as a enhancement to our nation’s beautiful and historical home, not an ugly, massive, unnecessary appendage.

Name: Kathy Edmonston
Date: February 21, 2026 10:09:25 am

The White House and this building area 'the People's House' and do not belong to one President to build or rebuild in his image.

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

The East Wing was torn down without proper permission or procedures. Let's not rebuild it to overshadow the White House and be the dominant structure there.

Name: Willie Daniely
Date: February 21, 2026 10:18:27 am

This project is a national embarrassment. Not only does this addition, not fit the parcel, architecturally. It is a disgrace to the beauty of Washington DC. This is erasure of history.

Name: Stephanie Misar
Date: February 21, 2026 10:20:15 am

The proposed ballroom and demolition of the East Wing without going through the proper channels before taking action is an affront to history, sustainability, structure, protocol and the citizens of the United States. Not only did my heart shatter as I saw the machinery taking down the former East Wing but I could not understand how someone could be so callous and condescending to the historic structure to which a President is only a visitor and typically protects. As someone who lived in the DC area for 22 years, it is unfathomable that this has transpired. It is also ignorant for

something that is drastically out-sizing the White House itself to be proposed, let alone intended to be built. It will overwhelm the area and it does not meet the standards and time honored protocols initiated to ensure The People's House and structures owned by the American public are protected and stewarded for generations to come. Renovations, demolition and new builds must follow the chain of command and get the correct approvals, buy-in and review of experts and expert organizations and Congress before they are started. Involving outside companies in the financing goes against the very principles the country stands for. Our government is not pay for play and we do not involve corporate dollars in the creation of our structure because it is an obvious conflict of interest.

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

The fact that this needs to be brought up points out the obvious problem- we are giving in to a person who does not represent our country or its people.
This house belongs to the American people NOT one individual.

Name: Patrick Farmer
Date: February 21, 2026 10:20:29 am

The destruction of the East Wing of the White House to facilitate the construction of a large "Ballroom" appears to solely gratify the self-adoration of the occupant at 1600 Pennsylvania Avenue. No consideration of the owners, the American people, nor the property manager, the National Park Service, was considered. I am extremely negative on this desecration of a national treasure.

Name: Keir Howell
Date: February 21, 2026 10:20:55 am

I am writing in strong opposition to this project. Contrary to Trump's statement that it is too late to go back, he and anyone involved in tearing down the East Wing need to be held responsible for their illegal and reckless actions and be made to rebuild the White House as it once stood at their expense. They need to be held accountable for going ahead without authorization, permits, or design review and not encouraged to continue to do whatever they please regardless of legality, constitutionality, or the will of the people our government is meant to represent.

Rebuilding of the East Wing must conform to prior rules and regulations for design in keeping with the historical design of the White House. It must not be as large or larger than the existing White House. Its style must match the style of the White House. President Trump's plans are not acceptable.

Name: Susan Tsu
Date: February 21, 2026 10:22:55 am

As a teacher and theatrical designer, I hold in deep regard the significance of historic buildings and monuments that teach us about the values our country has been built upon. Like many others, a visit to the White House as a school child sealed in me a respect for our Democracy and the Presidents and their wives who led our country throughout the ages. The East Wing was much more than bricks and mortar, it represented the stability of our nation, ongoing respect for our elected leaders, and what was good and cherished within our nation. A walk through the White House, rose garden, and Kennedy Center allowed us to honor our past, to remember the hopes, dreams and wisdom of great leaders, to gain strength from them, and to be gifted with impactful experiences bequeathed to us by those leaders.

The destruction of the East Wing, rose garden and potentially of the Kennedy Center has left me in unspeakable pain. I cannot help but think that our current President is relishing the optics of what he and his First Lady have done as a show of dominance and power, for this President seeks to sow destruction of a government Of the People, For the People and By the People. Those who claim that the destruction of the East Wing was necessary in order to build a much needed ballroom in order to be able to entertain world leaders as other countries do, have ignored the fact that a part of our nation's soul has been ripped out for the sake of "keeping up with the Joneses." Shame on them.

Name: Emily Wick
Date: February 21, 2026 10:27:12 am

Please do not allow the design Trump has submitted to add that monstrosity of a ball room to the White House. The historical significance of the house will be forever tainted with addition. It does not add anything but a tacky look to the people's home and is a terrible design concept.
Thank you for your time.

Name: Wesley Hedgepeth
Date: February 21, 2026 10:28:20 am

This proposal is embarrassing. The White House is an iconic structure known to the world perhaps more than most other structures. The proposed ballroom extension is way too large and offensive. The distortion it creates in the house’s and approach road’s symmetry is ugly and the entire structure will be out of balance. Please vote no on this plan and advocate for a smaller, more reasonable East Wing.

Name: Linda Short
Date: February 21, 2026 10:28:26 am

To Whom It May Concern:

This project has gotten completely out of hand.
The idea that there is needed a ballroom in the White House at this cost, is an absolute waste of American taxpayers' money. The excess and extravagance of this project is abhorrent. While cutting health care for millions, and all the "belt-tightening" that we've been expected to do, for the White House to be so garishly remodeled is unthinkable. The White House should not be an example of political greed, and a sensible approach to updating the structure is what the American people need and expect.
Thank you.

Name: Martin Torres
Date: February 21, 2026 10:28:38 am

I'm a licensed structural engineer and have worked on many big, beautiful projects, just how the president likes it. The east wing modernization project is ugly, abhorrent, and will ensure the US is the laughing stock of the world for many years to come. Terrible aesthetic decisions; doesn't fit with the White House at all; completely unnecessary; and a huge waste of money. It's never too late to cancel the project.

Name: Curtis Spencer
Date: February 21, 2026 10:29:05 am

This is an atrocity on every level from one on the most vulgar and corrupt administration in our history. The White House belongs to no one but We The People. It is our history and one of our most iconic symbols.

The way this was done, only emphasizes the crass and disgraceful character of the current administration.

If in fact the East Wing needed an upgrade or there was a need for a larger event space - there is a procedure to follow which was blatantly ignored.

Please put on the brakes and save our beautiful house.

Sincerely,
Curtis S.

Name: Sue Browning

As an American I am delighted to support the White House State Ballroom! This project is long overdue and will be a grand addition to the White House as well as a credit to the greatness of America and her exceptional people.

Name: Herbert Acevedo
Date: February 21, 2026 10:32:34 am

The scale and design grossly overwhelms The White House. A reduction in size to accommodate 400 people would be sufficient and a more gentle design would defer attention to The White House.

Name: sabrina chacon
Date: February 21, 2026 10:32:59 am

I respect the need for an indoor ballroom and have not been opposed to the overall idea. However the scope and size of the proposed design is inappropriate and simply a poor choice that destroys the overall exterior architecture. I agree with those that say having seating for 650-900 people makes it appear more like a convention hall. Please scale back the plans and respect this most treasured of landmarks and it's architecture.

Name: Sharon Allen
Date: February 21, 2026 10:33:30 am

The destruction of the East Wing is a travesty! And probably illegal. A ballroom is nothing more than a vanity project. Halt any planning or building of this ballroom and re-build the East Wing. In addition, is there a way to keep him from plastering his name on other buildings, etc.? None of this is his property—it is the people’s property.

Name: Neal Blevins
Date: February 21, 2026 10:39:11 am

Hello:

While I understand the need for a dedicated space to host larger events at the White House, this proposed ballroom is not the best option. The scale overwhelms the current Executive Mansion. It dominates the property. It’s simply too large and too palatial. The White House is a beautiful mansion that reflects America’s democracy, which is a republic. The size and stylistic codes of the proposed ballroom are in keeping with a monarchy, a palace.

I sincerely hope that the design is rethought and redesigned to be in keeping with the notes I mentioned.

Thank you.

Date: February 21, 2026 10:44:21 am

For a building that is used for state visits and irregular events, the footprint is too large. Cut it in half. The project is just another egotistical attempt to glorify the executive. I don't like it.

Name: Jessie Emery
Date: February 21, 2026 10:45:58 am

I hate the loss of scale this project will bring and the manner in which it was handled (destroy first ask permission later), however the USA does need something better than tents and port a potties for state dinners. Maybe for the sake of scale the West Wing should also be rebuilt more consistent with the new East Wing Ballroom Bunker extravaganza? The "House" part really should be smaller than the working part of the complex, which has to accommodate staff and reporters. They would have to preserve the Oval Office itself because too much history would be lost without it. That could result in renewed scale and a West Wing that could better serve the needs of this current and future administrations.

Name: Clarke Conant
Date: February 21, 2026 10:46:51 am

I oppose this project because:

1. It is an insult to democratic values. The president is a citizen, not an imperial emperor, and his/her house should be more 10 Downing Street than Versailles.

2. It is a garish affront to the aesthetics of a national landmark.

3. It is a waste of money.

4. It belongs to me, a taxpayer.

Please stop this! I oppose what Trump is doing to America in every sense including the Wast wing!

Name: Constance Kiesel
Date: February 21, 2026 10:51:12 am

The destruction of the original east wing was an unauthorized and irreversible devastation to the people's house and trust. This proposed ballroom is gaudy, excessive, and unnecessary. If constructed It would forever be a symbol of the selfish arrogance of one man and a shame to our nation. It is not America first! It is fraud! It is waste! It is abuse! Abolish the notion.

Name: Howard Freed
Date: February 21, 2026 10:53:49 am

Please STOP the President Trump ballroom. It is too big and out of character with the rest of the White House.

Name: Anne King
Date: February 21, 2026 10:57:40 am

Please halt the East Wing modernization project. As it is presently proposed, the mass and overall scale of the project dwarfs the historic “people’s house” and Olmsted Brothers landscape design.

Any redesign of a national treasure and symbol of democracy demands time, expertise, and public scrutiny, and should not be subject to the whims of a single executive.

Respectfully,
Anne R. King
Greenville, SC

Name: Allison Bainbridge
Date: February 21, 2026 10:58:44 am

Remember the East Wing of the White House? Remember the giant ballroom that the tech billionaires have agreed to fund in its place? The National Trust for Historic Preservation is making a gallant effort to stop this. And we can help.

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding citizens.
It is heartbreaking to see the photos of the destroyed East Wing, and to think that future generations will not get to see the White House as it was intended and originally built “as the people’s house” but instead a golden palace built by a would be king.

Name: Shelly Trenchard
Date: February 21, 2026 10:59:13 am

I am a UNITED STATES Citizen and I whole heartedly DO NOT APPROVE of a ballroom that WE THE PEOPLE were never allowed in a VOTE ON.
I Do APPROVE of The East Wing being rebuilt with modernization and slightly bigger to hold larger venues.
My Money and that of other Tax Payers know this ballroom is a complete and utter waste of taxpayer dollars.
Someone who says down with the SWAMP has created the LARGEST KNOWN SWAMP IN D.C. that has ever existed.

Name: Helen Gaul
Date: February 21, 2026 11:00:55 am

After having seen many renderings of the huge ballroom project on the White House grounds, I believe the project to be of such proportions as to totally eclipse the beautiful and historic White House. Any President is just a caretaker of the White House, and a project of this magnitude is totally without precedent. In addition, the current occupant of the White House has stacked the various entities which need to approve the plans with his chosen cronies, so obviously they will follow his bidding and approve the terrible plans.
I do hope that the suit filed by the National Trust for Historic Preservation will prevail, and sound judgement will be rendered by the courts to keep this project from advancing and totally changing the appearence of the White House grounds. I also belive that he did not have the right to tear down the East Wing without gaining approvals from the proper agencies.
Thank you - Helen Gaul

Date: February 21, 2026 11:01:12 am

I am writing to address President's Trump's unauthorized destruction of the East Wing and his intent to "modernize" the historic White House by adding a 90,000 (!) sq. ft. "ballroom".

The whole idea stinks, starting with his unilateral destruction without notice, of a substantial portion of "The People's House'. Mr. Trump needs to be reminded that he is a temporary tenant, not the owner of the White House. He should be made personally liable for the cost of restoring the historic East Wing.

His idea of creating a bloated and unnecessary "ballroom" also stinks. What public purpose will it really serve? None. Because none of us will ever be invited there or be able to make use of it. None, because it will not serve to promote the country's best interests but to serve the vanity of the person who wants it built. By all accounts and if the past is any indication, it will be gaudy, ahistoric and a tawdry monument to a very, very small man. He and this nonsensical project must be stopped.
Richard Crossin

Name: Abby Madeiros
Date: February 21, 2026 11:02:30 am

I regret that the East Wing and all of it's historical value was demolished without public consent. It is the PEOPLE's house, not the sitting president's and as such, only the PEOPLE should be able to decide how it is refurbished.

I do not approve of any renovations going forward that outsize the current White House. I do not approve of any renovations that are NOT approved by a committee chosen by THE PEOPLE, not appointed by the sitting president.

This is not how we should be treating our historical buildings.

Do NOT approve of any further work.

Name: Stephanie Danesie
Date: February 21, 2026 11:03:13 am

As a citizen, I urge NCPC to follow and respect the spirit of the review process, to consider public comments, and to preserve the historic integrity and symbolism of the People’s House for future generations. Destruction and renovation of the White House should not be the decision of one man, or due to fear tactics instigated by one man.

Your sense of responsibility and respect of the American process should guide the outcome of our historic property.

Thank you for your consideration.

Sincerely,
Stephanie Danesie

Name: Charlotte Gemes
Date: February 21, 2026 11:03:46 am

The proposed East Wing design is incredibly and unnecessarily large. While there is a need for a larger East Wing for accommodating larger events, a space that accommodates 999 people seems unnecessary. It will feel like a convention hall rather than an esteemed American institution. The space will alter the footprint of the White House so monumentally and the fact it is getting rushed and pushed through when the vast vast majority of Americans do not support it is devastating. The fact the original East Wing was torn down illegally is deeply troubling, but unfortunately we can’t undo the past. Please think more critically about this important piece of American architecture and don’t just cave to the people in power who are trying to destroy this great American symbol.

Name: Will Fleming
Date: February 21, 2026 11:04:10 am

The East Wing modernization is an abomination to the past presidents and the entire White House as a whole. There already is a ball room at Mar-A-Lago. Keep it there.

Name: Melanie Donat
Date: February 21, 2026 11:04:36 am

I feel it dwarfs the WHITE HOUSE. Why do we need it too be so large? It's not a palace.
It should be reviewed and approved of by the normal channels. Not fast tracked.
It is the PEOPLES HOUSE and our opinions should be listened to.
thank you,
Melanie Donat

Name: Elizabeth Koppelman
Date: February 21, 2026 11:05:51 am

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. Name: Paula Vitaris
Date: February 21, 2026 11:09:55 am

I am absolutely appalled that President Trump ordered the destruction of the East Wing and the Jackie Kennedy Garden, as well as the removal of historic trees, to be replaced by an enormous, ugly ballroom that nobody wants and that is completely out of proportion with the space available. It is unfathomable that this destruction took pace without the proper and required oversight, review and permits, and such actions must be prevented in the future, hopefully by legislation enacted by Congress. Donations by corporations and wealthy individuals to the $300 million (and rising) cost of this ballroom are also a pathway to conflicts of interest and favoritism.

The only proper action at this time is to rebuild the East Wing and restore the Jackie Kennedy Garden. Any monies donated to this effort that are in addition to taxpayer funds appropriated for the reconstruction, should be blind donations.

Thank you.

Name: Sherlyn Maughs
Date: February 21, 2026 11:15:04 am

First of all does the country need a BALLROOM that large? Also, how often will it be used and by whom? Who is to pay for the ballroom and will the benefactors be given special favors for their hefty contributions? Will this divide our country politically even more? Has anyone thought of the construction noise and dust that surrounds this kind of building project? Will this be an annoyance to regular work in the white house? I've heard the underground bunkers were also destroyed. Are they to be replaced?

Name: Scott Brown
Date: February 21, 2026 11:15:51 am

The newest design is inappropriately large and dwarfs the main building. This design should be scrapped. And shame on the administration for how this has been handled. And shame on the governing bodies responsible for rubber stamping this garish, destructive administration after it destroyed the People’s House.

Name: Michael Arrington
Date: February 21, 2026 11:16:20 am

I vehemently oppose the spending of $300 million on this project, which was initiated without the proper authorisation, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalising those who broke the law would be an affront to all law-abiding Americans.

Name: Georgette Sturam
Date: February 21, 2026 11:16:24 am

The People's House was intentionally designed to not be of grandiose scale but something more reasonable. It is not and was never meant to be an extravagant expression of a particular occupant of the Oval Office. Much less at the expense of the tax paying citizens of this country.

While the need for indoor entertaining space is well understood, the scale, massing and placement of this 'addition' is utterly out of context and offensive to the eye and virtually anyone's aesthetic sensibilities. It overshadows the People's House. The current administration is proceeding in an unprecedented and likely unconstitutional manner by bypassing any review beginning before the demolition of the former East Wing. It is wholly unconscionable. Unacceptable.

I have worked in the design industry including in respected architecture offices for decades training in the world of classical architecture and design. It is literally unfathomable that this project is being pushed forward under current parameters with virtually no oversight, no vetting, etc. There must be an honest review process by Congress and the public. This MO of doing whatever one wants then dealing with questions/fallout later is something the framers strive to guard against.

This is not ok.

Name: John Tuck
Date: February 21, 2026 11:20:28 am

I, too, strongly oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. If, in fact, the East Wing needs modernization, proper planning protocols and permissions should have been followed and sought prior to the demolition of the wing. Further construction on this project should be canceled until proper assessment of the site and appropriate design options -- keeping in mind the government's needs, building's function, and historical value -- should be considered and approved. Among the options under consideration should be the rebuilding and restoration of the East Wing to its former design.
For the president to have made a unilateral decision on such a matter and impulsively begun demolition is unacceptable. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.
Thank you.

Name: Jacob Grantier
Date: February 21, 2026 11:20:29 am

The White House, since its initial completion in 1800, reconstruction after the burning of Washington, and reconfiguration during the Truman Administration has, and should remain, the People's House and one of many important symbols of our representative democracy. Even as presidents and First Ladies have contributed to the design of the building over centuries, these projects have, to date, reflected the zeitgeist and identity of the nation. The recent developments with the White House's East Wing are clearly and solely a vanity project by a would-be authoritarian and should be halted so as to maintain the essential character and modesty of the temporary home of the nation's executive rather than the permanent residence of a aspiring monarch. Protect the People's House and reject the proposed plans for this project.

Name: Denise Gold
Date: February 21, 2026 11:22:27 am

I oppose the spending of $300 million on this project, which was undertaken without proper authorization, permits, or

design review.. it is not a modernization, but a complete destruction of America’s history. The East wing needs to be replaced and restored to its original design. No one is above the law. this destruction of American history is an affront to all Americans. Shame on them. And shame on you if you allow it to go forward.

Name: Robert Madeiros
Date: February 21, 2026 11:30:33 am

Dear Commission,
I am writing to you today to express my vehement opposition to the planned ballroom monstrosity currently being shoved down our collective throats by the current administration. The White House, is by definition, the 'Peoples House' and to see the unsupervised destruction of the current east wing, the grossly overstated ballroom design dwarfing the white house itself, is an abomination, and must be stopped. This alleged 'self-funded' project satisfies only one person - and must be stopped before more damage to the White House occurs. Please capture this comment as a complete and heartfelt rejection of what is being proposed.

Sincerely,

Robert A. Madeiros

Please stop the continuation of this egregious plan. The ballooning cost and scope are deeply inappropriate and offensive. On so many levels. Thank you.

Name: Eric Stadtherr
Date: February 21, 2026 11:33:34 am

I oppose this project altogether, including all costs and continued effort. The project was initiated without the proper authorization, permits, or design review, and the goals are inconsistent with our history and culture as a democratic nation. It is not a modernization project but rather an attempt to put the "Trump" name on a public landmark. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Dorene Williams
Date: February 21, 2026 11:33:53 am

To whom it may concern,

Having spent my entire career in design with a focus on architecture for the last twenty six years,
I feel compelled to voice my opposition to the East Wing Project.
This project is architecturally insensitive to its historic surroundings and takes no account for scale, history or general design disciplines.

I am adamantly opposed to the ridiculous proposal of this appendage.

Name: Donna Edwards
Date: February 21, 2026 11:35:36 am

How rude to request one to comment on a “project” which has already been decided! Destruction has already occurred. If the LAW was simply followed there would be less disgust for what is currently in the works. There is better use of my time. Know that truth will eventually rise.

Name: Carol Nolan
Date: February 21, 2026 11:36:19 am

The entire White House in the national capital of the United States IS the people's house.
I DO NOT approve this project, initiated by President Trump, for many reasons: desecration of the people's house without public input; with total disregard for the architectural history of the East Wing; with what also appears to be a rather excessive expense and appears to be done without regard for existing design integrity of the entire White House but rather a decision made to meet the needs of one person. He does not own the White House. He merely occupies the White House. The PEOPLE own the White House and I for one am disappointed, disgusted, angry with the manner in which this has been handled.

Name: Jennifer Gracie
Date: February 21, 2026 11:43:17 am

I am writing to formally share my concerns regarding the current ballroom project for the East Wing of the White House. As a citizen invested in the architectural heritage of our nation's most significant landmarks, I am troubled by what appears to be a departure from established historical precedents and a lack of transparent oversight.

The White House is more than a residence; it is a living museum that represents the evolution of the American aesthetic.

The current design trajectory seems to lack a cohesive dialogue with the existing Neoclassical and Federal elements of the site. A project of this magnitude should honor the "long view" of history, rather than the taste of one temporary resident.

It is vital for the public to be assured that such significant alterations have undergone a rigorous review by independent architectural historians.

While the need for functional event space is understandable, and updates are necessary, the preservation of the White House's historical "footprint" should remain an important consideration.

The American people are the ultimate stakeholders of the "People's House." I hope to see a commitment to a standard of excellence and historical reverence that matches the dignity of the building itself.
Thank you for your time and for your work in maintaining our national heritage.

Sincerely,

Jennifer Gracie

While I commend innovation and improvements to an important and frequently used national, taxpayer funded building, I am dismayed by the lack of opportunity for public input and deliberative process. The point is not that changes should never be made, it's that changes to such an important building to Americans should reflect the democratic process for which the building should at best represent.

Name: Lucy Blankstein
Date: February 21, 2026 11:45:15 am

The White House is an historical building. Any changes needed to be done must have the authority of a commission that honors the intention of the founding fathers. A large hall for dancing at the White House is not necessary. Abraham Lincoln's 2nd inaugural ball was held at the Patent Office building that now houses the Smithsonian American Art Museum and the National Portrait Gallery. Glittering chandeliers, golden gewgaws are not what democracy is all about and certainly not what George Washington envisioned.

Name: Elaine Eichelberger
Date: February 21, 2026 11:50:14 am

As a historian who is active in historic preservation, I am appalled at the lack of integrity in the new designs for the East wing of the White House. This is the People’s house and yet no peoples have been consulted other than a power-hungry, tasteless executive branch. Please consider being on the right side of history and reconsidering the atrocious design. Objectives can be accomplished without excessive and gaudy designs.

Name: Carla Ellis
Date: February 21, 2026 11:50:41 am

To: National Capital Planning Commission
From: Carla and Pete Ellis
Unfortunately, the public's input was not entertained prior to the destruction of the East Wing. In the local government I participate in, when a major project need is identified, our leaders seek bids for said project. After all bids are reviewed by local boards, the company that is awarded the bid must often wait until a bond referendum is voted on by the people. This allows for all to approve.
I am seeking transparency and fiscal accountability for the East Wing project. The need for such a dramatically large ballroom is simply wasteful spending. No matter what is presented to us as to how the funds for this project were obtained, the people of the U.S. will be responsible for the cost of the "Modernization". And we should stay informed in every aspect. Please consider a functional and need-based solution to the rebuilding.
Sincerely,
Carla Ellis

This project, in its projected scale and scope, is an affront to the American people and our patrimony. Contrary to his belief, the White House is not the current president’s personal home to do with as he sees fit. It was already a ghoulish defiance of all pre-established law and norm for his ordering the demolition of the East Wing; this body must not allow such unfettered further changes to the People’s House. A rebuilt East Wing can be done with minimal damage to the curvature of the southern driveway and the Jacqueline Kennedy Garden, while incorporating better security access for the public on the East Executive Avenue entrance and even, yes, expanded entertaining spaces for those lucky enough to visit the White House for state dinners and official events. But the Mar-a-Lago-ification of this space is absurd and should be rejected across the board until the scale of the project reflects a symmetrical and appropriate massing to the demolished portion. And I hope an adjusted project admonishes and far outlives the occupant who illegally initiated it.

Name: Lilly Young
Date: February 21, 2026 11:53:06 am

I oppose the East Wing Modernization Project.
This project began without required National Capital Planning Commission approval, without environmental assessments mandated by the National Environmental Policy Act, and without congressional authorization required by federal law for construction on federal parkland in Washington.
The $400 million cost is funded by corporations holding billions in federal contracts with the administration approving those contracts.This creates an unacceptable conflict of interest.
The White House is not private property. It belongs to the American people. No president should have unilateral authority

to demolish historic structures and approve construction without following the law and allowing public input.
I urge the Commission to reject this proposal.

Name: Maury Sparrow
Date: February 21, 2026 11:53:08 am

I passionately urge this project be halted until further, open and complete review. The entire project is a travesty in all respects, most importantly in scale. There must be a design review process with the highest level of professionals weighing in. Please do not approve this project.

Name: Leigh Holland
Date: February 21, 2026 11:54:41 am

As a former student of architecture and the regulations and laws regarding the preservation of our historic built environments and an ardent admirer of our nation's capitol and all its fine buildings, I am aghast at Donald Trump's proposed $300M vanity "ballroom" project and the fact that it was initiated without the proper authorization, permits, or design review.

The project has, so far, been an attempt at erasing a part of our American history and the hideous proposed replacement shows no promise of improvement. I hope the project will be immediately canceled, and that the East Wing will either be rebuilt and restored to its former design, or a suitable replacement will be proposed and run through all the appropriate approval steps. To permit this ostentatious, tasteless, and highly illegal project to go ahead without penalizing those who broke the law would be an affront to all of us.

Name: Peter Schlesinger
Date: February 21, 2026 11:57:55 am

The White House was designed at its current scale on purpose, as a symbol to the American citizens and the world that the elected leader of the United States is not a supreme monarch. This proposed construction is grossly out of scale with the rest of the White House and out of touch with the symbolism of the building. It does not need to, and should not, be this big.

Name: Jamie Shipp
Date: February 21, 2026 11:57:58 am

All work, renovation or new build, should be congruent in style and size as the existing building. Nothing should challenge the focus being on the White House.

Name: Tracy Rauch
Date: February 21, 2026 11:58:28 am

Good Morning, I am writing to comment on the White House ballroom. Not only does the structure dwarf the original building, but no input from the voters was obtained. On an expansion of such magnitude, to the People's house, one would hope that the People would have an opportunity to comment and voice concerns. Rather, the President has made the decision to go forward on this project and put in place yes men/women on the board who will affirm his actions. We do not need the ballroom, our government is in debt and the cost of the structure is excessive.
Thank you.

Name: John Bianchi
Date: February 21, 2026 12:00:27 pm

The current plans show huge ballroom that overpowers the White House. The ballroom becomes the dominant structure

when viewed from any angle. The ballroom needs to be scaled back drastically to become an annex of the White House, not the main building.

Name: Lori Albrecht
Date: February 21, 2026 12:03:56 pm

Dear National Trust,

Re-East Wing Modernization Project

I greatly appreciate the work of the National Trust in preserving the diverse historic buildings, neighborhoods, and heritage of the United States through its programs, resources, and advocacy. I consider the White House to be people's house & am appalled by the gall of the POTUS to demolish the historic East Wing with the belief that a garish ballroom is needed instead.

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Thank you for the important work that you do in preserving America's historic places for future generations of Americans to learn from and enjoy.

Name: Teresa Sabankaya
Date: February 21, 2026 12:04:37 pm

Hello,
I strongly appose the model plans submitted for this project. I believe it tarnishes, obscures, and defiles our beloved white house, the people's house.
It is atrociously too large. It does not reflect what we are a as a nation. It is tasteless.
Thank you for your consideration.
Teresa Sabankaya (a concerned U.S.citizen)

Name: J Mannion
Date: February 21, 2026 12:06:25 pm

I am highly opposed to this project as it will destroy the aesthetic of this historical landmark. It's important we honor and preserve history, not destroy it with an ego boosting project, especially for someone who deserves zero recognition. I am not in favor of this project in any capacity.

Name: David Benzwi
Date: February 21, 2026 12:07:11 pm

I strongly opposed the East Wing modernization project. The ballroom
way over scaled and completely inappropriate to the site.

Name: Julia Dvorin
Date: February 21, 2026 12:07:19 pm

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. Name: Gibson Wood
Date: February 21, 2026 12:07:39 pm

I do not agree with this. It overshadows the symbol of western democracy (the White House) with disgusting wealth. The White House is not a palace for a king, it is the house of the people.

Name: Patrice Manchola
Date: February 21, 2026 12:10:52 pm

In viewing the design, one can easily see that this modernization and addition are going to dwarf the current White House. We the people cannot agree to that. In my opinion, this addition is completely unnecessary. If is to go forward, the design MUST be proportionate to the current structures.

Name: Theresa Gang
Date: February 21, 2026 12:11:36 pm

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. This was never approved by the public and they sought to avoid any approval.

It is not a modernization project but rather a vanity project by a would be dictator in an effort to inflate his public value and opinion due to overwhelming insecurity. This project did not consider our American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Katherine Wynne
Date: February 21, 2026 12:12:36 pm

Hello -
I'm writing to oppose the current plans to for the East Wing Modernization. Our historic White House is an iconic symbol of our USA. Please reconsider the existing plans for the grandiose structure. Please look to better understand size scale, and taste level. Please keep the overall scale of the White House in mind.
The current modernization plan is neither at the taste level or architectural scale of what should be considered.
Please consider hiring well respected architects and designers to assist!
Best,
KW

Name: Susan Duane
Date: February 21, 2026 12:14:13 pm

Such a large scale building is completely inappropriate to be adjoining the White House, the People's house. It would be an embarrassment for all Americans in the eyes of the world.

Name: Lynn Altizer
Date: February 21, 2026 12:16:49 pm

I support the idea of having a brick and mortar location to hold large events at the White House. I believe it would be much easier for staff to set up/tear down, then the current use of tents. Weather would no longer be a factor, making it more pleasant for guests. However, THE BALLROOM SHOULD BE AN ACCESSORY TO THE WHITE HOUSE, not the main show. Both Presidents T. Roosevelt and F.D. Roosevelt added and made changes to the wings, but kept the integrity of the "people's house."

Name: Lin De Noyer
Date: February 21, 2026 12:17:08 pm

I object to building an oversize ballroom on the site of the former East Wing of the White House. No authorization and no permits were granted for demolition of the East Wing, which was rich with the history of our nation and our presidencies. This is not a modernization project. It is a razing of the history of our nation.

I want the project cancelled, and the East Wing restored to its former design.

No one is above the law. Continuing with this Modernization project rewards law breakers. It would be an affront to the law-abiding citizens of this nation. We must not allow lawlessness to succeed.

Name: Laurie Novak
Date: February 21, 2026 12:17:11 pm

Date: February 21, 2026 12:18:28 pm

I want to state, for the record, that I am completely opposed to Trump's arbitrary and illegal destruction of the East Wing of the White House. This is the people's house, and does NOT belong to the President, and requires congressional approval to make any changes., as well as the Historical Commission. WE do not want an 80,000' ballroom, paid for by billionaires, who are attempting to curry favor with Trump. The wanton destruction is unjustified, and the East Wing must be replaced, as it was. Trump must be fined for the damages to OUR house, along with the careless exposure of workers to asbestos by a megalomaniac, driven by an addiction to gold, and his own grandiosity.

Name: Judy Anderson
Date: February 21, 2026 12:28:39 pm

Name: Ann Opatz
Date: February 21, 2026 12:31:22 pm

I am writing to express my disappointment and frustration with the process that has been followed on the East Wing Modernization Project. Someone somewhere needs to inform this administration that there are procedures in place for rehabilitating structures on the National Register of Historic Places. Those of us who work hard to protect and preserve historic structures in our local communities are bound by certain standards set by the Secretary of the Interior; this administration should be bound by those same standards. With the demolition of the East Wing, our nation's history has also been destroyed. Another issue: Where are the furnishings that were housed in the East Wing? Have those items been destroyed, too?

Name: Paul Wilhelms
Date: February 21, 2026 12:32:28 pm

I am sure that the chorus of voices in opposition will be ignored by this handpicked commission - nerveless I am posting my disappointment with this excessive intrusion into the elegance of the Whitehouse Grounds. It is too large, and disrupts the refined elegance of the grounds, not to mention overshadowing the Whitehouse itself.

Architecturally, the overbearing scale and overwrought Corinthian expression are excessive and detract from the elegance of the Whitehouse. If these functions are needed by the Executive branch, they should be constructed elsewhere in the capital.

Name: Kim Mercado
Date: February 21, 2026 12:33:29 pm

I oppose this project, which cost $300 million, and was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a destruction of American history. This project should be canceled, and the East Wing should be rebuilt and restored to its former design.

No one is above the law, and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans everywhere!

Name: Marnie O’Brien
Date: February 21, 2026 12:36:40 pm

The proposal for a ballroom at the White House deserves careful reflection. While I appreciate the desire to enhance the functionality of the residence, I respectfully disagree with the current scope and direction of the design as presented. The White House is not merely a venue — it is a living symbol of our nation’s history, continuity, and architectural heritage.

Any project of this magnitude should be guided by a bipartisan committee of historians, preservationists, architects, and scholars who deeply understand its historical references, proportional language, and aesthetic integrity. Additions to such an iconic structure must elevate its beauty and honor its legacy, not risk diminishing the harmony that generations have carefully preserved.

Stewardship of this building requires restraint, reverence, and collective wisdom.

Respectfully,
Marnie 0’Brien

To Whom IT May Concern,

About the building of the East Wing Ballroom.

Very poor idea.....Using $'s which can be used to support the people of this country many of us love, demolishing "history", ignoring

feedback from community and politicians who would oppose this construction just to entertain the few who will actually be invited to

use this unpopular ballroom is most unfortunate. Many of us who love this country stand in disbelief that this is one of the the many

unwanted and unwelcome projects planned and in process.

So very unfortunate!!!

A concerned citizen!!!!

Name: Shree Rao
Date: February 21, 2026 12:38:01 pm

No way! The president broke the law by tearing down the White House--THE PEOPLE'S HOUSE-- without the proper authorization, permits, or design review.

You don't reward a law-breaker by giving them more resources and permissions to continue. You punish them for their violations, and you work towards restoring the damage that has been done.

Accordingly, the project needs to be cancelled, and the East Wing needs to be restored to its former glory!

Name: Caroline Caldwell

Tearing down the east wing was awful- seeing the history so carelessly destroyed was heartbreaking and happened so quickly- it was an assault on our history as a country. Care MUST be taken- time to review and consider plans MUST be done intentionally and thoroughly. Please pause and reflect on how the plans will affect more than just a single administration- it affects our history for years to come. PAUSE. And think about how our children will view your actions.

Name: Jackie Mammen
Date: February 21, 2026 12:53:56 pm

I believe the east wing of the White House should be rebuilt exactly as it was and the bill to do so be sent to Donald Trump. He does not own the White House, the people do.

Name: Elizabeth Heppner
Date: February 21, 2026 12:56:13 pm

It has been disappointing seeing the East Wing destroyed for really no reason. Now its done and we can't change that. What I hope for is that what is put in place will be well thought out and in line with the rest of the existing White House. I hope that things that were lost can be redone and put back (like the honor to Jacquline Kennedy) especially since her rose garden was made into some kind of hot dog stand). That respect for the rest of those who were honored in that Wing will be replaced with other honors. If we have to have some kind of ballroom please keep the style that is similar to the rest of the white house.

AND, God willing, get his name off of any building or place he has changed that should not have been done. We sure don't need his name on the ballroom either. These are places that represent the whole body of the country not just one idiot.

Thank you for letting us have input to something that belongs to the people of this country and not one person.

Name: Julie Prandi
Date: February 21, 2026 12:57:21 pm

I am outraged about the plan to build a huge ballroom, after a big portion of the White House has already been demolished-- where proper approval for that destruction of an existing structure had never been given.
This is the people's house and no one person should be able to determine what is done, especially when it involves much more than redecorating an existing room.
Plans to substantially alter the facade, size of a White House and even structure need a much stricter vetting process. It is not right to let people who have all been appointed by the current president to decide these matters. Those people are just a rubber stamp for what one person, our current president, wants to see happen.
I sincerely hope these building plans can be halted in a timely fashion.
Thank you for your attention to this matter.

Name: Cathy Klein
Date: February 21, 2026 12:57:23 pm

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. I oppose the spending of $300 million on this project (especially since the public was hoodwinked into believing the funding would come from tech giants and other billionaires), which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Kim Rooney
Date: February 21, 2026 12:59:33 pm

Please reconsider the current design of this project. It is overwhelming the people’s house, which is the White House, and has destroyed any and all the historical significance of the east wing. With no regard for honoring the past, this whole project has completely disregarded the important preservation of this historic building and would serve to overwhelm the main structure which is most significant to our American heritage.

Name: Tracie Vincent
Date: February 21, 2026 1:01:11 pm

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt in similar fashion as before. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Jennifer Quick
Date: February 21, 2026 1:02:45 pm

oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history.

The White House is a National Historic Landmark and a National Park, owned by the American people and home to presidents since 1800. The current president at any given time is not the owner of the property or the structures thereon; the president is a temporary tenant whose interventions are limited by law and by respect for the people of the United States.

The demolition of the historic East Wing without review, without permits and without Congressional oversight is clearly a violation of the law. In addition, it is a violation of the trust of the American people who were given no opportunity to comment on what should have been presented as a proposal and not as a violent fait accompli.

I urge the National Capital Planning Commission to require reconstruction of the East Wing in keeping with its historic design and size. Anything constructed on the demolition site going forward must be compatible in form and subordinate in scale to the original structure of the Executive Mansion.

Name: Julie Cooper
Date: February 21, 2026 1:03:59 pm

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. Name: Matthew Potts
Date: February 21, 2026 1:18:37 pm

I am a licensed architect and I write to register my significant concerns regarding the proposed White House east wing design. The proposed design is too large in every dimension, overcrowding the White House grounds and overwhelming the historic mansion. There is no need for a ballroom the size of a convention center a the People’s House. The modest dimensions of the executive mansion should be respected and the wings of the historic mansion should remain diminutive in stature compared to the home built by George Washington. It is imperative that this project undergo serious redesign to include reductions in height, length, and area before proceeding.

Name: Harley Cozewith
Date: February 21, 2026 1:21:23 pm

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or

design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. Date: February 21, 2026 1:32:47 pm

I oppose this project. While we may need a larger venue space, this monstrosity if not it. It is excessive, tacky, and

gauche. In addition, The East Potomac Golf Links municipal course has been turned into a dump for the debris from the tear-down. That is wrong. This comment period should have happened before any work was started. This is all wrong.

Name: Ron Schwartz
Date: February 21, 2026 1:32:59 pm

The so called “modernization” of the East Wing is a travesty meant to massage the ego of the president. It will overwhelm the appearance of the White House and will be a security risk to the whole compound. IT should be immediately halted and some semblance to the East Wing restored.

Name: Annie Arthur
Date: February 21, 2026 1:35:18 pm

To whom it may concern,

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Millions could be fed, millions could receive health care so desperately needed, rather than waste on the complete destruction of history in order to appease a selfish self declared king. Golden ballrooms are not needed, yet golden hearts that actually care about helping the people they are in office to defend and aid. Please strike down this backhand at history and unwarranted abomination.

Name: Christina Kirkish
Date: February 21, 2026 1:39:25 pm

“Tackiness and tyranny go hand in hand.”(Paul Krugman). “Dictator Style” (Peter York) gilt is not golden. The proposed ballroom will be a trashy, coruscating, bulbous excrescence alongside The Peoples’ House.

Name: C Denise Shaw

This project OUGHT to be the RECONSTRUCTION of the East Wing out of personal expenses of Mr Trump. He ought to be fined a massive fee for demolishing this wing without going though prior approval process. I am outraged at the lack of care by his administration on a building that doesn't belong to them. It belongs to us ... the People of the United States.

Name: Beth Nelson
Date: February 21, 2026 1:44:13 pm

No ballroom.
This is a farce what Trump has done.
He breaks the law constantly.
This never should have happened.
Please prevent the balllroom!
Bring back respect and dignity to our Government.
Sincerely
Beth Nelson

I am writing to express my concern about Mr. Trump's $400,000,000 Ballroom Project.
First is the cost. At a time when average Americans are struggling to put food on the table, afford health care, and pay their bills, it is an obscene for the country to embark upon such an unnecessary extravagance.
Mr. Trump's solution to raise the money from wealthy donors is untenable. This would open the door to graft, corruption, bribes and leverage from wealthy people who seek special favours from Mr. Trump. It is a slap in the face to working Americans who cannot afford to buy favours, and is in direct opposition to our American values of an egalitarian democracy.
Of no less concern is how this project has proceeded up to this point. Mr. Trump has bypassed the National Trust for Historic Preservation, the National Parks Service, the National Environmental Policy Act, and other federal commissions that should have been consulted and given approval for the demolition of the East Wing and the plans for this edifice. There has, until now, been no opportunity for public comment despite the fact that the White House belongs to the People, not to the President, who is only a temporary resident. This flagrant disregard of legal obligations and regulations does not bode well for future agreements nor promise respect for oversight agencies.
Then there is the matter of aesthetics. One has only to look at the Oval Office, the Rose Garden, Mr. Trump's own homes- Mar a lago and his penthouse apts- to see that this man is entirely bereft of any aesthetic sense. His taste is garish and gaudy, running counter to the values of egalitarianism and restraint that symbolize our country. He fired the professionals in architecture, landscaping, and fine arts who formerly comprised the US Council for the Arts, and installed political cronies with no background or training in the arts to get his ideas approved.
Mr. Trump has no appreciation for our heritage nor for preservation of historic architecture. This current project will irrevocably change the character and architectural landscape of the White House complex. There is a potential for irretrievable damage. Mr. Trump must not be allowed to destroy the White House or any other Historic Preservation site belonging to the People of the United States.
Finally, the Department of State says that such an structure as an open ballroom built over a not-so-secret bunker is a security risk to those who live and work at the White House and to guests, including Heads of State, who may come to dine. We are potentially putting lives at risk.
For all the above reasons, I urge you to stop this extravagant and poorly conceived project.
Sincerely,
M. Robertson

I live now in Texas, but I was born in Alexandria and grew up in McLean. I spend my early life surrounded by the history and tradition of the city of Washington.

Key to maintaining the dignity of the city has always been the management of monuments and office buildings that surround the capital, the mall, and the White House. The East Wing Project flies in the face of procedure and tradition.

The old East Wing was destroyed without a coherent plan. The new design of the East Wing and Ballroom need to go through architectural review just like any other modification to an historical building and must comply with the constraints on design and construction that apply to all other projects.

I believe that the Ballroom will detract from the dignity of the White House; it will not improve it.

I believe that the Ballroom Project must be funded with public money, subject to auditing and oversight. Private funding for a public building should be a conflict of interest as well as an opportunity for mismanagement and fraud.

Thank you for your attention.

Name: Jenna blaustein
Date: February 21, 2026 1:54:58 pm

Destroying the East Wing was an unlawful action, without forethought, public comments or permits, and the destroyer should not be allowed any input on its replacement.

Donald Trump does not own the White House.

I believe it should be restored AS IT WAS with upgrades only for safety.

Name: Mark Gabriele
Date: February 21, 2026 1:57:30 pm

Architecture carries symbolic value, and it is from this standpoint the current modernization project should be evaluated and rejected. A gilded 1350 person ballroom to be used for opulent parties is a symbol of political corruption, especially considering its being funded by private and anonymous sources. Approving the plan would memorialize these dark and unfortunate days when billionaire interests are paying to play and looting our government. The 250 years of American democracy that we celebrate this year should instead be reflected in architecture that honors and cherishes our past and its founding values - not razing it. The current "modernization" plan should be rejected outright.

Citizen Comment on Proposed East Wing Ballroom Expansion- Massing and Scale For the March 4 Hearing

To the National Trust for Historic Preservation,
I submit this comment as a citizen concerned with the architectural stewardship of the White House as The People’s House and as one of the most symbolically and architecturally significant civic buildings in the United States. My objection to the proposed East Wing ballroom expansion is limited, specific, and architectural in nature: the massing and

overall size of the proposed addition are fundamentally incompatible with the historic hierarchy, proportional order, and civic restraint that define the White House ensemble.
The White House derives its authority not from monumentality, but from measured scale, clarity of hierarchy, and disciplined balance. The Executive Residence is intentionally legible as the dominant central volume, with subsidiary wings clearly subordinate in height, breadth, and visual weight. This proportional relationship is not incidental; it is essential to the building's civic meaning.
The proposed ballroom addition—by virtue of its extraordinary footprint, height, and consolidated mass—would disrupt this hierarchy. An addition that approaches the scale of the main house ceases to read as a wing and instead competes as a co-equal structure. Even when executed in a neoclassical vocabulary, excessive mass cannot be neutralized by stylistic alignment alone. Classical architecture depends on proportion and subordination, not applied symmetry or surface resemblance.
Of particular concern is that the proposal appears to solve an interior programmatic desire through exterior enlargement, rather than through architectural mediation. In a preservation context, large-volume interior spaces are traditionally absorbed by fragmenting mass, lowering apparent height, increasing setbacks, or distributing bulk across secondary elements. The current proposal does not sufficiently do so, resulting in a building that reads as visually dominant from key site perspectives.
Equally troubling is the implication that additional construction elsewhere may be required to "restore symmetry" once the East Wing is expanded. This logic risks compounding the original error. Architectural balance is not achieved by mirroring excess; it is achieved through restraint and deference to the historic center. A design that necessitates further expansion to justify itself is, by definition, disproportionate.
The White House grounds are not surplus land available for convenience-driven enlargement. They are an integral part of a carefully ordered civic composition whose geometry, vistas, and open space reinforce the primacy of the main house. Alterations that force the landscape to adapt to a building—rather than the building to the landscape—represent a reversal of proper preservation priorities.

In summary:
The scale and mass of the proposed addition overwhelm the established hierarchy of the White House complex.
Stylistic classicism does not compensate for disproportionate volume.
The project risks redefining the White House from a restrained civic residence into a compound of competing monumental forms.
This outcome would represent a permanent alteration of national significance, not a reversible or modest accommodation.

I respectfully urge the National Trust for Historic Preservation to continue to oppose or seek substantial redesign of the proposal on the grounds of massing, scale, and proportional incompatibility with the White House as a historic civic landmark held in trust for the American people.

Respectfully submitted,
Christian Sanders, Citizen Commenter
Interior Designer, Historic Preservationist, Project Manager

What Donald Trump is proposing is abominable and an affront to every working class American who will never benefit from his narcissism. To have destroyed the East Wing without permission of the People who own the White House, the People's House, is an affront to every citizen who feels helpless in the face of such overreach. It is clear that this president only cares for his own agenda which aims at increasing his, his family's and his cronies' wealth and power. His actions have only advanced the destruction of our Democracy through his personal disregard of the rule of law. As an American citizen, I am frightened and disgusted how my tax dollars are being spent.

Name: Lisa Reinhardt
Date: February 21, 2026 2:00:14 pm

I am deeply concerned about the scale of the east wing for a ballroom. It is entirely too large and dwarfs our beautiful White House. The wing should be a beautiful accessory of the main building, not taking dominance over the White House. Careful thought and planning by the guidelines of National Preservation Committee should be adhered to keep the integrity and historical context of the original buildings.

Name: Celeste Krepack
Date: February 21, 2026 2:00:56 pm

Once the ballroom monstrosity is built what will stop him from looking at the White House and declaring it’s too small and old then proceed to tear it down too! Trump is destroying every norm of democracy and he will most certainly take our White House with him. Make it stop!

Name: Jonathan Sari
Date: February 21, 2026 2:01:49 pm

We're getting ripped off. Terrible deal. Terrible. $300 million for a ballroom? Somebody is a terrible deal-maker. The old east wing was much better.

Name: Cynthia Kurtz
Date: February 21, 2026 2:02:51 pm

Hello and thank you for allowing the public to comment on this issue.

I am an American citizen. When I was in high school, our entire class went to Washington D.C. to see the capital, the White House, the monuments, and the Smithsonian Institution. When my son was the same age, I took him to Washington to see all of these things. I felt that it was my duty as an American parent to show him the seat of our government.

I have worked on federal government projects, sometimes for years at a time, and every time I was in Washington for a meeting, the sight of the White House always filled me with pride. I remember that I used to call my parents when I was in sight of the White House and tell them where I was, just to hear how proud they were of me for working to help the people in our country.

The White House belongs to all Americans. As an American, I respectfully request that the part of it that was destroyed without our consent be restored exactly as it was. In addition, I respectfully request that the process of restoration be fully explained to the public, with special input from knowledgeable historians, so that we can all see what has been taken from us and what is being brought back to us.

I strongly oppose the spending of $300 million on this project, which is completely unnecessary while ordinary Americans continue to see prices on nexessary items like groceries increase by almost $1000 a family over the past year. Additionally, this project was initiated without the proper authorization, permits, or design review. This is not a modernization project but rather a complete decimation of important American history. I feel that the entire East wing project should be canceled, and the East Wing should be rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete obliteration of an important part of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. In addition, the adjacent trees that were removed/destroyed in the garden must be replaced with the same type of tree with their original placards and an update of what happened including an apology. I was particularly mortified to read that the tree that was planted together by Michelle Obama and the First Lady of Japan was removed. This is OUR White House, the People's House, and OUR history. The current President has no right to desecrate our cherished places without consultation and agreement from our representatives. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Susan Devito
Date: February 21, 2026 2:12:07 pm

I oppose spending $400 million on building a huge Whitehouse Ballroom, especially when the money has not been authorized by the Congress. It is questionable, regardless of what the President says, that enough private funds will actually materialize to fund the construction and we, the people, will end up footing the bill. In a time where the government is forcing rural hospitals to close and gutting our environmental protections is unacceptable to spend money on such a outlandish project.

The current administration disregarded the law when they torn down the existing structure without the proper authorization, permits, or design review. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

If there truly is a need for a larger meeting facility, then this administration or a future administration needs to go through the proper channels and steps to build a new East wing in keeping with the architecture and size proportionate to the original building.

Name: E.L. Peelle
Date: February 21, 2026 2:15:30 pm

I oppose the East Wing Modernization Project plan. This $400 million construction began without adequate public and Congressional input. Specifically, there were no National Capital Planning Commission approval, required environmental assessments, and congressional authorization mandated by federal law for construction on federal parkland in Washington. These violations should not be encouraged with after-the-fact approval.

Furthermore, any East Wing project must be paid for ONLY by taxpayers after approval by Congress. The current funding creates vast, unacceptable conflicts of interest. Corporations holding billions in current federal contracts are funding a construction project at the residence of the president who controls those contracts. This is not charitable giving for the public good. These would be inappropriate payments to obtain access and unfair favorable treatment.

The White House belongs to the American people, not any individual president. I urge the Commission to reject this proposal until full legal compliance is achieved, including congressional authorization and completed environmental

assessments. No temporary occupant should possess unilateral authority to demolish historic public property without following the law.

Thank you for the opportunity to provide public input.

Name: Dan Meis
Date: February 21, 2026 2:17:11 pm

As an architect, and an American, I am horrified by the process and the scale proposed ballroom. No one person should be able to decide the fate of the White House, the People's House, without public debate and expert oversight.

Name: Jamar Miller
Date: February 21, 2026 2:17:59 pm

Thank you trump ! Love it ! And the best thing is it's being done with private funds! This is a perfect way to do things . With that said , I would like to see in the future some kind of approval process . I don't want the crazy democrats to tear down this much needed , beautiful , new ballroom just to spite you ! This was a long time coming , a much needed project / upgrade / addition ! Best president of my lifetime ! Thank you !

Name: John Maxwell
Date: February 21, 2026 2:25:32 pm

As a lifelong student of American history, I am heartbroken, disgusted and angry at this administration's "East Wing Project." How is it even possible for a president to decide on his own that a historical structure simply be demolished?? How is it that he found contractors who were willing to take part in the destruction of our public property?

Not only should the project be shut down but the president should be personally charged for the destruction and the historically accurate replacement of the East Wing. He should then be fined for violating the public trust and if necessary, be jailed for his arrogance and incompetence.

Name: Donna Moessner
Date: February 21, 2026 2:25:36 pm

Honorable Commission members:

I am writing to ask you to stop the destruction of the East Wing and instead rebuild it back to its original design. This country is being torn apart in so many ways, many of them physical historical statues, displays and names on buildings. How far are you willing to go to support #47's ego? How do you want to write history? Or right history? We as a country need you to step up to honesty and save our history. You can do this. Thank you.

As my representatives on this project, I would like you to know my opinion. The president's choice for a new building twice the size of the White House is totally inappropriate. Please hold fast against approving any plans that would dwarf the White House. I assume there will be lots of pressure to go along with the other board vote, but I don't know anyone that likes his plans. My friends, associates and I would like to see his current planned building torn down, after he is out of office, if built as planned. What a waste of money that would be. Also, does he actually have the needed funds? They need to provide a list of "who" and "how much", backed up with bank records. Please hold fast and stop this idolization of "Trump's" Washington. We are not Europe or other foreign lands that idolized living monarchs. Thank you.

Name: Janet Marshall
Date: February 21, 2026 2:26:28 pm

I oppose the spending of $300 million on the project to replace the East Wing of the White House with a huge, unnecessary and artless ballroom. The destruction of the East Wing was initiated without any proper authorization, permits, or design review. It therefore amounted to razing a piece of American history. The White House is the PEOPLE'S House, not a piece of Trump real estate to vandalize as a vanity project. To call it a "modernization project" is the type of cynical double-speak propaganda that George Orwell parodied in his book Animal Farm.

Any work on the White House and other historical monuments that belong to the PEOPLE of the United States must be reviewed and approved by the Commission of Fine Arts. This was not done, which amounts to an illegal destruction of public property.

Furthermore, Congress created the 116-year-old Commission to be staffed with “well-qualified judges of the fine arts” who would review and advise on projects in D.C. This current president has appointed people with little to no professional qualifications to review and advise on art and architecture projects. Their only qualifications are their loyalty to the man currently residing in People's House. This lack of qualifications is vividly evident in the newly appointed assistant, Chamberlain Harris, who has no experience in the arts, making a making a laughingstock of the Commission of Fine Art.

This project must be canceled, and the East Wing should be rebuilt and restored to its former design.

No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Heidi Arner
Date: February 21, 2026 2:26:39 pm

The scale of the East Wing ballroom is completely out of proportion with the White House. It encroaches on the Olmsted Brothers ellipse drive design. Meeting space for close to 1000 attendees makes the historic people’s house appear less like a special space and more like a convention hall. Installing more pavement including grand staircases is not well designed landscaping. It’s a travesty that destruction of the East Wing occurred in the first place. It’s inconceivable that an arts body stacked with members loyal to the president could unilaterally approve such a lasting and ill designed project without constituent feedback and submissions of designs from additional architects. Finally, where is the $ coming from?

The destruction of the East Wing without prior review was an egregious assault on our national and architectural heritage. The outsized ballroom focuses on entertainment over spaces for communication. Please prevent this construction of a carbuncle on the White House. Proportion, scale, aesthetics, ornament, and function must prevail. No more pretentious gilding with a thin veneer of gold to cover up the crassness beneath.

Name: Bruce Dougherty
Date: February 21, 2026 2:43:15 pm

Hello,
I think the proposed ballroom and related east wing changes are an affront to the public. I support no grandiose monuments to an individual and his fetish on his presumed authority to propose monuments to his name. We are a nation of the people, not servants to some would be dictator.
Bruce Dougherty

Name: Barbara Adkins
Date: February 21, 2026 2:45:06 pm

As an American citizen and preservationist I find it appalling and unacceptable that a man of poor taste and even less education regarding both historical architecture, heritage sites and preservation be allowed to demolish a national landmark unchecked. You are kissing up. You have to be as horrified as me! What are you afraid of? Show some spine. Stand up for our historic built environment.
A new meeting space, ball room or whatever is needed could certainly be handled in a way that's more sensitive to the existing structure!
Stand up!!!

Name: Geralynn Ransom
Date: February 21, 2026 2:45:12 pm

I oppose spending $300 million on this project and request that the East Wing of the White House be rebuilt and restored. This project was started without proper permits, authorizations or design review. Please cancel this project and penalties applied to those who broke the law.

Thank you for your attention to this matter.

Name: Ann Straub
Date: February 21, 2026 2:45:30 pm

I am strongly opposed to the size of the East Wing Ballroom. The grace and elegance of the People's House will be forever lost. The construction needs to stop immediately and new plans drawn up for a smaller ballroom that will preserve the beauty of the White House and the gardens.

Date: February 21, 2026 2:46:46 pm

My name is Cynthia Dresser. I'm a 70 y/o Veteran. I oppose waisting taxpayer money on the frivolous vanity projects DJT is undertaking. I am a retired VA nurse and a teacher as well as a proud Democrat.

Name: Justin Robertson
Date: February 21, 2026 2:47:37 pm

I respectfully oppose the proposed 90,000-square-foot ballroom addition to the White House. As a National Historic Landmark owned by the American people, the White House deserves thoughtful stewardship grounded in preservation, fiscal responsibility, and public trust. At a time when many Americans are facing economic hardship, such an expansive and costly project feels misaligned with national priorities. While history reminds us—through figures like Marie Antoinette—how displays of excess can appear detached from public reality, we have the opportunity to choose a more responsible path. Significant alterations to an irreplaceable historic structure should be approached with restraint, transparency, and meaningful public engagement before any irreversible decisions are made.

Name: ELAINE PEASE
Date: February 21, 2026 2:48:17 pm

The East Wing was historic and beautiful. The plans for the new ballroom look gaudy and oversized. It will visually overtake the White House which it truely a sad, unfortunate shame.This is a terrible use of funds, private or public. Please do not approve it.

Name: Tracee Jenkins
Date: February 21, 2026 2:48:21 pm

I oppose the East Wing Modernization Project. This $400 million construction began without National Capital Planning Commission approval, without required environmental assessments, and without congressional authorization mandated by federal law for construction on federal parkland in Washington. These violations should not be rewarded with after-the-fact approval.

The funding creates unacceptable conflicts of interest. Corporations holding billions in current federal contracts with this administration are funding a construction project at the residence of the president who controls those contracts. This is not charitable giving. This is an investment in access and favorable treatment.

The White House belongs to the American people, not any individual president. I urge the Commission to reject this proposal until full legal compliance is achieved, including congressional authorization and completed environmental assessments. No temporary occupant should possess unilateral authority to demolish historic structures without following the law.

Name: Charlene Mongeon
Date: February 21, 2026 2:55:46 pm

I am absolutely irate and horrified that the current president decided unilaterally to destroy the east wing of our beautiful White House, a very historic building. Building a ridiculous and ugly ballroom for him to live out yet another of his toddler like narcissistic fantasies. This ballroom will not benefit the American people at all, and is costing the taxpayers an exorbitant amount of money. This is happening at the same time as so many Americans are losing their housing, their ability to feed their families, and their health care. How did this happen in The United States of America??

Name: Susan Sizemore
Date: February 21, 2026 3:04:09 pm

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I support the cancellation of this project, and the restoration of the East Wing to its former design.

Name: Gina McMather
Date: February 21, 2026 3:13:26 pm

The removal of the historic East Wing of the White House was an illegal and arrogant act. The question of remodeling “the People’s House” is not a matter for one man however exalted in his own mind. The federal government does not exist to throw parties a là Louis XIV but to serve the needs of the American people. Aesthetically the gigantic ballroom desgn would be a disaster both artistically and symbolically. A modest, functional building proportionate to the building as a whole must be carefully designed by competent and fully authorized committee of architects and historians.
In no case should the man who ordered the demolition be allowed to determine the end result. Ideally he should be prosecuted.
Thank you.
Gina McMather

This needs to be stopped!!!! History is being erased by the bulldozers and if anything is to be done to repair the damage that has been already done, that needs to be rectified. Stop the illegal movement of the current administration thinking they can bull doze over what they like. Or build anything they like. Or rename anything they like without consulting the American people.Enough already!

Name: Beverly Branum
Date: February 21, 2026 3:18:40 pm

The East Wing in particular was where the White House inhabitants have historically welcomed The People who came to see what is supposed to be, in essence, "their house." In building a gaudy ballroom in its place, for entertaining the wealthy, it essentially says, "PEOPLE OUT. OLIGARCHY IN." I pray that the National Capital Planning Commission will NOT approve the plans for a ballroom and require that The East Wing be restored as the primary entrance for public tours and social gatherings involving The People, and offices for First Ladies to develop and implement public projects which better us as a people and a country.

Name: Katherine Woldum
Date: February 21, 2026 3:20:47 pm

The ballroom plan is poorly executed and completely unnecessary. The scale is off.

Name: Lynn Schroeder
Date: February 21, 2026 3:21:58 pm

The proposed ballroom addition is an abomination, it must be stopped. The White House and the surrounding public land and monuments are historic landmarks. Any changes to existing buildings or proposed additions must be reviewed and approved by the National Trust for Historic Preservation.

Name: Ronald Hill
Date: February 21, 2026 3:23:03 pm

Our nation's capital is rich in architectural history and the proposed plans for a massive ballroom will negatively impact the surrounding spaces. The initial rendering's of the structure look ridiculous because the new ballroom will dominate the historic grounds and dwarf the original White House buildings. Regardless of approved funding, this project should create a new structure that 'fits' in with the existing building scale and I believe building a new space for events can be

done with less grandeur. The demolition of the East Wing was shameless and should be criticized as a huge mistake... let's not make another huge mistake with the East Wing modernization and a Presidents obsession with size!

Name: Susan Rainey
Date: February 21, 2026 3:27:55 pm

As an American citizen, I believe that the "modernization" of the East Wing is simply another grotesque vanity project for an out-of-control authoritarian president. The illegal razing of the beloved East Wing should have sent shockwaves through your commission. How was this allowed? My recommendation is to hold the people accountable who destroyed the East Wing by making them pay to restore it to its original condition. There are plenty of photos that show every detail.

Also, the idea that a "ballroom" almost twice the size of the White House is necessary is truly absurd. It is an abomination and again, simply a nod to the narcissistic man baby who currently resides in the White House. If this gets built, it will be torn down in the near future, so save us the trouble by not allowing it to be built in the first place. This administration is already syphoning off billions of taxpayer dollars (and where is the money supposedly collected for the ballroom? No one seems to know!). You have the chance to place yourselves on the right side of history. We beg you to stop this madness and return the White House to its former glory. It is the people's house and we want healthcare, not a ballroom!

Date: February 21, 2026 3:29:36 pm

I am 77 years old, and my heart was crushed when I saw the destruction of the East Wing. It held such historical significance for our country and for the women of our country who have worked so hard for equal rights and recognition for the women who have contributed so much to our country. Having a dedicated place for the First Ladies gave us hope and made us feel "seen." It said to us, the women of the United States, and the rest of the world, "we belong, women belong." Its destruction was such a callus dismissal of our history. We do not need a ballroom. How often would a ballroom be used? Who would use a ballroom? Certainly, everyday hardworking citizens would not be attending balls in a gaudy White House ballroom. We don't need to try to impress other countries or dignitaries with massive structures. We should be impressing them with our character, honesty, and humanity. Please restore the East Wing as it was. Give it back to the First Ladies. Give it back to us.

Name: Jennifer Hanst
Date: February 21, 2026 3:33:55 pm

The demolition of the east wing and future outrageous ballroom is illegal and an abomination and should be restored immediately and at the personal expense of the President.

I want to add my voice to the chorus of concerned citizens who find the new plans for the overly MASSIVE ballroom near the East Wing to be architecturally way over scale and out of keeping with the proportions of our classically designed White House. We cannot allow this plan to move forward. The massing of buildings makes no sense at all and damages the overall design in a way that cannot be corrected without having to tear it down in the future. We have already lost cherished parts of the White House and Rose Garden and we must not allow this plan to move forward. I remind the committee that the White House is : the People's House! Please note how many thousands of people have taken the time to submit a written comment and please don't let our efforts go to waste! Thank you!

Julia Chasman
Interior Designer
[redacted]

Date: February 21, 2026 3:35:10 pm

Thank you for the opportunity to submit a written comment. If this East Wing Ballroom project will have any amount of funding by the U.S. government, I strongly object. Our elected officials should be managing the budget with priority on fiscally responsible spending that takes care of citizens and tax payers. It's unclear how demolishing something functional in order to build something else would make America's great again. It's unlikely that most Americans would ever see or use the elaborate, unnecessary remodel.

Name: Andrea Humber
Date: February 21, 2026 3:39:04 pm

Another gauche and unneeded excuse for slapping trumps name above the entrance to yet another vanity project. Ballroom schmallroom ugh.

Name: Phyllis Bourne
Date: February 21, 2026 3:39:50 pm

I oppose the illegal and unauthorized destruction of the East Wing of the White House. When this country has massive debt and so many citizens living in poverty, it is ridiculous to consider spending $300,000,000 whether from taxpayer money or from private donations. This is an historical building and should be treated with proper respect and care. I want the destruction halted and the building rebuilt based on its original design. To repair or modernize the building with a plan approved by the National Capital Planning Commission in a form that reflects our American history as a suitable legacy to future Americans. This is a country that does things in an orderly fashion, following legal doctrines and the Constitution of the United States of America. No one is above the law. To permit this mass destruction of this building is abominable and those who broke the law in destroying this building should be penalized. Those who allow or condone moving ahead with this project without proper planning and authorization should be ashamed. As an American citizen whose ancestors helped settle this country, I am devastated by this blatant flaunting of our countries systems and values.

Name: Nom dePlume
Date: February 21, 2026 3:45:52 pm

A regime that cannot answer basic questions about ethics, transparency, and past associations has no business pouring concrete for a 90,000-square-foot vanity hall at the White House. Yet here we are. After the apparent illegal demolition of the East Wing, the public is expected to shrug and watch a palace-scale ballroom rise in its place, funded by billionaires

whose “generosity” conveniently requires no public oversight. If you wanted a visual metaphor for corruption, you couldn’t design a better one.

Let’s speak plainly. Donald Trump has spent years surrounded by unanswered questions about his relationships, including his documented social proximity to Jeffrey Epstein. The American people were promised transparency. We were promised clarity. We were told everything was “perfect.” Instead, we’ve received deflection, partial disclosures, and a political culture that treats accountability like an inconvenience. And now, while those shadows still linger, we’re supposed to applaud the construction of a chandeliered ego chamber inside the People’s House?

It’s obscene.

When oligarchs line up to finance structural changes to the seat of executive power, that is not philanthropy, it is leverage. Nobody drops that kind of money without expecting influence. Nobody bankrolls an expansion of presidential grandeur out of pure civic affection. They expect access, favors, regulatory indulgence, or protection. That’s how oligarchy works. And the American public is sick of being gaslit about it.

This proposal is not about governance. It is about spectacle. It is about projecting dominance and wealth while ordinary Americans grind through inflation, housing crises, climate disasters, and collapsing infrastructure. It is about constructing a literal ballroom for self-congratulation while serious ethical questions remain unresolved. The arrogance is breathtaking.

People are pissed off because this feels like impunity in architectural form. Bulldoze first. Build bigger. Let the donors foot the bill. Ignore the optics. Ignore the precedent. Ignore the law. Just keep expanding the throne room and dare the public to object.

Well, here’s the objection: The White House does not belong to a president. It belongs to the people. It is not a monument to ego. It is not a safe space for billionaires to purchase proximity to power. And it is certainly not the place for lavish indulgence while transparency and accountability remain incomplete.

Reject this proposal outright. The country needs integrity, not excess. We need sunlight, not chandeliers. And we are done pretending this kind of brazen self-aggrandizement is normal.

I am writing to express my concerns about the White House plan for the East Wing. The idea that this is called a modernization when the historic site was bulldozed to the ground is laughable. The size of the proposed ballroom dwarfs the rest of the White House structure and makes it look like a country club. I also am concerned at the rapid pace this seems to be being pushed through without the proper steps for review and public comment.

Name: Deborah Ledford
Date: February 21, 2026 3:50:06 pm

I vehemently oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history.

I want this project canceled, and the East Wing rebuilt and restored to its former design.

No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Stop this shameful abomination.

The ballroom is a travesty, a waste of time and a display of gross power by the most careless and reckless President we've ever had. The historic East Wing soils be restored to its previous state.

Name: Susanne Bean
Date: February 21, 2026 4:00:20 pm

While there may be a need for a larger modern venue at the location of the east wing it should not over power the actual White House. The White House is a historic building for the country and should retain that important status. The current design is larger than what is needed.
The design of the new east wing should honor our history while not reducing the importance of the historic White House. Many European nations - value and honor old buildings and work to maintain, build, renovate or replace in a style and manner that honors the past while embracing the future. I hope that the new East Wing will do that too.

Name: Suzanne Conrad
Date: February 21, 2026 4:00:48 pm

To whom it may concern,

I am aghast that The People's House's East Wing has been destroyed without any input from the people. The insult feels physical to me.
While this administration's policies have stripped the poor at home and abroad of basic survival needs, they are building an enormous ballroom? It is cruel, and immoral. This will never serve the people, rather rich and powerful donors.

Insist that this is matching in size to the West Wing, true architecturally to the other buildings, and planned for the people.

I am sure of course, this is impossible, and neither you nor I will have any say in the matter.
Suzanne Conrad

Name: judith hodell
Date: February 21, 2026 4:00:58 pm

I am shocked that this ungainly and disproportionate design is being rushed through he approval process after the similarly heedless demolishment of the original East wing without going through the established review and consultation process. It is terribly inappropriate for a ballroom of this scale to dwarf the actual White House. It looks like a hotel convention center. There is no need for it to overshadow the symbolism of our seat of democracy. And it is most undemocratic for the will of one man to foist it on the nation for many years to come. I strongly oppose both the design and the manner in which it has been rushed out. Shoddy all around.

Name: Cathy ONeill
Date: February 21, 2026 4:03:24 pm

I love that you are renovating the East Wing to make a big beautiful ballroom. It’s needed and appreciated.

Name: William Smith
Date: February 21, 2026 4:04:30 pm

The process for this project has been a sham perpetrated by the President. The White House should be the "People's House". The review and input process has not been conducted until after the President made the decision for the change and had appointed his chosen people to the groups responsible for the reviews. Whether or not a ballroom and the design was an appropriate addition is now not a consideration, it's the way it's been done is the issue, without respect to anyone other than the one person who decided it would be done. This is not the way OUR government is supposed to work and people will remember.

Name: Debra Fraser
Date: February 21, 2026 4:07:31 pm

The White House has always been a symbol of hope, Home and democracy. Do not let it be destroyed as it has been already. Rebuild it as it was.

Name: Janet Grayson
Date: February 21, 2026 4:08:32 pm

What he did he did to the White House was un American!

Name: Barbara Hatcher
Date: February 21, 2026 4:08:55 pm

The White House belongs to the people of the US. The White House is not the personal property of any President. As such, the project requires approval from either the people themselves or their representatives in Congress. This approval should have occurred before construction began. My main concern is whether this is good stewardship. There has been no cost-benefit analysis or consideration of fully involving the true owners of the White House—the people.

My specific concerns are as follows:
1. The President is controlling private donations and appears to be offering special favors to donors. For example, are Paramount and others receiving federal advantages to buy up and gut more liberal communication holdings, and contract advantages with federal agencies? These actions seem illiberal.

2. While the people are doing poorly because of increased costs for food, utilities, and health care, couldn't funds be better spent on public health, veterans, housing, or other documented needs?
3. It is not clear that the proposed building aligns with historical preservation standards. If the new structure will dwarf the White House, it will become an eyesore rather than an asset to the aesthetics of Washington, DC.
4. US citizens have not been given the option to vote on a design for the building. The design should reflect the people and not the personal branding of one person or the political branding of one group.

For these and other reasons, I do NOT support the approval of the proposed project.

Name: Ellen Hubbard
Date: February 21, 2026 4:09:00 pm

As someone who grew up in Washington, and loves the history and architecture of our nation's capital, I beg you to do everything in your power to stop this insensitive and grotesque disfigurement of the White House. Thank you.

Name: Valerie Rounds-Atkinson
Date: February 21, 2026 4:12:35 pm

The White House belongs to the American people. Major construction projects that involve demolition must be first submitted to the appropriate authorities, not the whims of whatever politician happens to be staying there.
I oppose the construction of an underground data collection center under proposed dining room. The East Wings was built to be the heart of the government, whereas the West Wing is for the work of government. The White House is not the present occupants personal property. Please stop this construction and endeavor to rebuild as closely as possible to the original.

Name: Libby Langdon
Date: February 21, 2026 4:13:53 pm

Hello, I'm Libby Langdon an interior designer in NYC and I work on residential and commercial projects all over the United States. (Www.libbylangdon.com) I'm writing to oppose the construction of the proposed "East Wing Modernization", it's not in keeping with the architectural integrity and design history that make the White House "The People's House", as well as the functions for our government. This decision is by one person, Donald Trump and is NOT going through the proper channels to be cleared and deemed acceptable. As someone in the design industry for over 20 years, this simply MUST be stopped and put through the proper non-partisan channels for clearance, clarity and honestly about what and who this proposed ballroom will actually serve.

Name: Isadora Kravitz
Date: February 21, 2026 4:19:10 pm

The proposed plan for the east wing modernization should not be approved. The scale of the new ballroom does not respect the White House. The original footprint of the White House needs to be the prominent design element. The ballroom needs to be drastically reduced in size. A ballroom should not be the main focus.
The plans need to be rejected.

Name: Jane Smith
Date: February 21, 2026 4:21:46 pm

As a citizen, a Republican, & an individual who has loved Washington D.C. for over sixty years, I m calling on those at the helm of this project to reconsider the plans & place the new structure in an appropriate place & redesign it so its scale is in harmony with the White House. The house should be the main focus.

Name: Meg Fletcher
Date: February 21, 2026 4:22:35 pm

I strongly object to the tearing down of the East Wing and hope that it will be rebuilt as it was before, restoring the historical design of our White House. The fact that this tear down took place without permission is shocking and I really hope that there will be consequences for the utter disregard for our historical capitol not to mention the American people.

Name: pete crooks
Date: February 21, 2026 4:25:49 pm

Not only will this ballroom and extension be hideously ugly but the sources of funding and lack of transparency in the process of planning and construction are sketchy and unacceptable.

Name: Kristine Kern
Date: February 21, 2026 4:26:11 pm

Please reconsider the size and scope of the east wing renovation. Im very concerned about current plans and their scale, which seems overdone.

Also, please respect and adhere to the standard approvals process with time for public oversight and input. This is the PEOPLE's house, after all.

Name: Michelle Sabin
Date: February 21, 2026 4:28:47 pm

Hello, I am writing as a concerned citizen and as an interior designer (University of Oregon I.Arc '09). The new east wing plans for the White House are appallingly large and out of scale to the historic original building. I urge the government to reconsider the approvals. It seems the new design of the "People's House" has not had enough public scrutiny or input. As such an important landmark and symbol of our democracy, we all deserve better.
Thank you, Michelle Sabin

Name: Carolyn Song
Date: February 21, 2026 4:32:10 pm

Please restore the White House to 2024 structure - ballroom does not benefit the American people

---

Name: David Britton
Date: February 21, 2026 4:36:39 pm

At this point it is my opinion that this project should be put on hold until designs and additions can be reviewed by historic preservation experts to assure it's done in a reasonable and appropriate fashion. This is not a decision that should be made by one person as a vanity project. I personally do not have any issues with updating historic buildings to suit modern needs or even the addition of an event space for the White House but this seems extremely excessive.

Name: Elizabeth Kates
Date: February 21, 2026 4:40:22 pm

The people of the United States do not need a permanent reminder of the size of President Trump's ego affixed to the eastern portion of the White House. The size of the addition is entirely out of scale compared to the original House.

Name: Kathleen Presnell
Date: February 21, 2026 4:43:28 pm

Put it back exactly the way it was before torn down.

Name: Sue Williamson

I object to the demolition of The People's House by Donald J Trump. He had no permission or authority except his own vanity project idea that there needed to be modernization of the East Wing of the White House. Further, the funding of this project by him is very suspicious. We, the people, need to give our permission through the planning commission and that has not been done. We don't need a ballroom for billionaires. Stop the destruction and "tinselization" of the White House.

Name: Rachael Morton
Date: February 21, 2026 5:16:15 pm

I am against the proposed east wing project as shown.

Its scale dwarfs the existing buildings and is completely out of proportion. It needs to be completely redesigned in keeping with existing historically significant architecture.

Name: Megan Mellin
Date: February 21, 2026 5:17:39 pm

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Julie Neill
Date: February 21, 2026 5:21:50 pm

The design of this building flies in the face of the historic importance and makes a mockery of the ideals and aspirations of our country as expressed in the restrained grandeur of the White House as we know it. By ignoring the important history and location of the building and neglecting to go through the proper review channels, this completely out of scale building will put a permanent stain on this important site.

I oppose proceeding with project without proper review.

Name: MARYANN MCFARLAND
Date: February 21, 2026 5:21:59 pm

I am extremely opposed to the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. The funding sources are also not appropriate for a project taking place on the White House grounds. This is not a modernization project, but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law, and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

I am strongly against the current East Wing design. It is ostentatious and goes against our democratic principles in its aesthetic. It is something more readily scene in Versailles than 2026 America. I am also appalled by how reckless the demolition was in destroying parts of American history, including mature trees planted as memorials. This entire process has been done with total disregard for the people, this is our house and the aesthetic does not represent us.

Name: Kelly Tuohey
Date: February 21, 2026 5:29:15 pm

Name: Jill Braaten
Date: February 21, 2026 5:30:16 pm

I write to register my opposition to the East Wing Modernization Project, especially the ballroom. While appropriate modernization and maintenance that are respectful of the architectural design are a necessity, this is not that. It is not necessary and has already destroyed a part of the WhiteHouse that held historical significance now lost for the American people, the ultimate owners of this house and landlord to all who temporarily inhabit it. We should maintain a welcoming and proper residence/offices for our presidents with appropriate accommodations made for entertaining foreign heads of state and doing the people's business. No president of either/any party should ever be allowed to suffer the delusion that it is--or could be--either a palace or a party headquarters. Modernization and maintenance, yes. Grand ballrooms that are egregiously bedazzled and grossly disproportionate to the main structure as well as tone deaf to the reality of the daily struggles of the American people, no.

Listen to the American people--the landlords--and be respectful of the privilege of your stewardship of the people's house. Thank you.

Name: Amy Wilkerson
Date: February 21, 2026 5:31:58 pm

Has the sitting president have no respect for history?
This project is an obscene eyesore and a complete travesty.

This vanity project is illegal and gross.

Amy Wilkerson
Citizen

Name: Edward Lawrence
Date: February 21, 2026 5:34:34 pm

I’m writing to oppose the multi million dollar ballroom project which defaces our White House. This project was initiated without permission or consultation and without regard to the historic significance of the East Wing. To continue this project without regard to its illegal beginning would be to reward criminal behavior. I encourage you to insist on the restoration of the East Wing to its January 2025 status with the funding coming from the appropriate fines that should be levied for its destruction.

Name: Jane Yerkes
Date: February 21, 2026 5:35:11 pm

I think that permission should have been sought before the East Wing was torn down, and knowledgeable organizations be involved in all architectural design and planning. The National Trust for Historic Preservation needs to be involved in any future design and implementation.

Name: Tyler Reed
Date: February 21, 2026 5:35:38 pm

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. Name: Peter Carlsen
Date: February 21, 2026 5:38:02 pm

For starters, Donald J. Trump should be impeached for ordering the destruction of the East Wing without the required approvals, including the approval of Congress.

Any major new structure on the White House grounds should be approved by Congress. Construction of it should not start until such approval is granted.

The executive mansion unquestionably should be the largest and most prominent structure on the White House grounds. Therefore, the proposed new structure at 90 thousand SF is at least two times too large.

Name: Dianna Warren
Date: February 21, 2026 5:39:10 pm

I love how Anara Guard put it and I agree so I’m using her words!

Anara Guard's comment :

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. donaldjtrump should be forced to have the East Wing of the White House rebuilt as it was before, and at his personal expense!

Name: Joanne Wolff
Date: February 21, 2026 5:41:33 pm

This "design" is a travesty. The only need for something this obscenely huge would be turning the White House into a tacky catering hall. It is a vanity project for an unstable "leader" who will never be able to utilize it to enrich his own coffers, as he will be ineligible to run for office again.

Name: Peter Wood
Date: February 21, 2026 5:41:33 pm

To whom it may concern,

I am writing to voice my opposition to President Trump's renovation of the East Wing and proposed construction of an adjoining ball room. While I don't dispute the need for an appropriate venue for official events and state dinners, the current plan is completely inappropriate. The scale is entirely out of proportion to the existing historic building....the White House.

To quote Dr. Carol Quillen, President of the National Trust, the White house is "Owned by the American people...The building respects Georgian and neoclassical principles. It is a National Historic Landmark, a National Park, and a globally recognized symbol of our nation’s ideals." So, why would the American people want to diminish one of our national symbols to satisfy the vanity of one man? Apparently, they, we, I don't. 99% of the comments so far have voiced opposition to the plan. It seems to me that if we are a "government of the people, by the people, for the people" the government should listen to us.

Respectfully,
Peter Wood

Name: Lesl Brown
Date: February 21, 2026 5:41:43 pm

I oppose this project. The project was initiated without review or authorization. The construction of dimensions are ill defined and has changed over the months. It is also not in harmony with the White House.
The funding for the construction should be made public.

Name: Kelley Carter
Date: February 21, 2026 5:49:57 pm

For all my 70 years, I have taken great pride in the simplicity and beauty of the “People’s House.” Without following proper and legal procedures, part of our house was ripped apart practically overnight. As a temporary resident, Mr Trump clearly did not understand that his lease was held by the American People and that our feelings (along with our rights) matter. The “Modernization” must be to put our house back together as it was with only necessary improvements! My hope is that generations to come, will be able to look at the White House simply as a symbol of a united people.

Name: Dan Klyn
Date: February 21, 2026 5:51:06 pm

A disgrace to our capital; this project should be re-designed by an actual architect.

Name: Leslie Needham
Date: February 21, 2026 5:52:11 pm

I would like to register my extreme concern,
disappointment and objection to the plans for the proposed east wing of the White House. The White House is an American treasure and landmark and any alterations, additions or renovations to this building need to be done with proper care and approvals. This new East Wing addition has not met this criteria. The new proposed addition is completely out of scale with the White House and has no relationship to the site and landscape surrounding it.

This project should not continue as it is designed. It is the “people’s house” and should reflect the needs and desires of the American people. As it is currently designed, it does not do so.

Leslie Needham
American citizen

As an American taxpayer, I strongly oppose President Trump’s East Wing expansion. He is doing this project unlawfully - like he does everything else. Plus he is not building a ballroom, he is building an under ground bunker. We all know he is dishonest and will not be truthful in his plans. Since he is our country’s most shameful president the idea of him leaving a lasting legacy on the people’s house makes this tax payer nauseous . Any renovation plans to the White House should be submitted and approved in advance. Changes should be reasonable in nature abd proceed with the goal of preserving our history and tax dollars .

Name: Germaine LaBerge
Date: February 21, 2026 5:59:32 pm

Hello,
as a concerned citizen, I oppose spending $300 million on this project—- one initiated without the proper authorization, permits, or design review. It is a complete razing of American history! I want this project canceled, and the East Wing of the people’s house rebuilt & restored to its former design.
No one is above the law.
To permit this project to go ahead without penalizing those who broke the law and would be an affront to all law-abiding Americans.
Thanks for taking & listening to my views,
Sincerel,
Germaine LaBerge

Name: Tom Desmond
Date: February 21, 2026 6:05:53 pm

I am writing to express my strong opposition to the East Wing ballroom project as currently configured at 90,000 square feet. The problem is that it is going to dominate and overwhelm the existing structures of the White House, and this is not something that should be permitted.

Unfortunately, the premature destruction of the previously existing East Wing requires that something be constructed in its place. But it is important that the replacement be scaled appropriately. In view of that, an addition that might be perhaps a third the size of what is being proposed might be appropriate.

It is further important that input be received from architects and designers outside those who are assigned to work on this project in order to ensure that the result will be architecturally appropriate and not end up being considered an eyesore.

Name: Russell Hopper
Date: February 21, 2026 6:07:40 pm

I strongly oppose the ballroom addition to the White House at the former East Wing site.
I am an architect with 30 years of experience. The new addition is greatly oversized and out of scale with the central White House building. The architecture is inconsistent with the style of the original building. The East Wing must be rebuilt to the original footprint with an assembly space if needed. The destruction of the existing East Wing is a travesty and never approved by any governing body. Overturn the current approval.

Name: James Hankey
Date: February 21, 2026 6:07:42 pm

I vehemently oppose this ego-driven $300 million project. The East Wing should be restored with historical accuracy.

Name: Deirdre Carlson
Date: February 21, 2026 6:08:59 pm

This project is an affront to the people of the US. This is OUR building. I OPPOSE this project. It is NOT a modernization project at all, but simply a vanity project of President Trump. Additionally, it did NOT have the required prior authorization. It represents the destruction of a beloved historical building. The project should be immediately stopped and the East Wing should be restored as much as possible to its original structure.

There should be severe consequences for the current administration that BROKE THE LAW!

Name: Barbara Jeniker
Date: February 21, 2026 6:11:14 pm

I strongly OPPOSE any OVERSIZED BALLROOM to replace he WHITE HOUSE EAST WING, which was WRONGFULLY and RAPACIOUSLY DESTROYED!

When someone deliberately damages PUBLIC PROPERTY, they should be held ACCOUNTABLE and made to MAKE RESTITUTION. They should NOT be rewarded by being allowed to continue their illegal VANITY PROJECT!

THE BALLROOM PROJECT SHOULD BE CANCELLED.
The EAST WING of the PEOPLE'S HOUSE should be REBUILT and RESTORED to its former HISTORIC PART OF THE WHITE HOUSE!

Name: Jon Bernstein
Date: February 21, 2026 6:13:01 pm

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Jeanne Rogers
Date: February 21, 2026 6:13:59 pm

We do not want this grandious addition. It is out of scale and a waste of taxpayer dollars.

Name: Barbara Daniels

Name: Amy McCabe
Date: February 21, 2026 6:17:33 pm

The destruction of the East Wing of the White House without any consultation, input or planning with the proper authorities puts the whole project in question. The planned replacement building will dwarf the White House and is nothing more than monument to the ego of one man who has no concept of public service or public good. This is a monstrous destruction and desecration of one of our most enduring national symbols. The Commission must act in the best interests of preserving our national treasures and with clear intent to protect the integrity of this site. An outsized golden ballroom is not in keeping with our founding fathers dream of a democratic republic that is not to be ruled or subjugated by one man with only ambitions of power and wealth.
This is the people's house and needs to demonstrate the values of our country of equality for ALL. A place for elites to gather is not in the best interests of this country.

Name: William Miller
Date: February 21, 2026 6:17:43 pm

I am strongly opposed to the current plan presented to build a 90,000 square foot east wing that would hold a ballroom for 999 people.
The scale of this addition will ruin the house of the people- our White House. It’ size and design overwhelm the current building.
I understand the need to have a large ballroom but this project needs to be rethought . Ballroom that would hold 600 people is 50% larger than any tent that previously had been used .
Plus the need to change the grounds to accommodate this building ruin the original Olmsted park .
Please stop this project as it stands.

Name: Tandy Graves
Date: February 21, 2026 6:29:22 pm

Destroying our Whitehouse is not a Presidential right. It is not a palace to be adorned in gold . Our Founding Fathers fought against Kings and their symbols. It belongs to the American people and is a cherished historical structure.

Name: Elaine Daly
Date: February 21, 2026 6:32:25 pm

The proposed ballroom addition is out of scale, destroys important historical attributes of the original White House, and does not convey the dignity, gravity and beauty that has traditionally belonged to this space. If our goal is to present American taste as graceless, trendy and grandiose, it succeeds brilliantly. Honestly it would look much more at home in Las Vegas.

Name: Tracy Sellman
Date: February 21, 2026 6:33:57 pm

I am writing to provide public input regarding the East Wing Modernization Project, including the proposed construction of a 90,000-square-foot ballroom addition to the White House complex.

The White House is a National Historic Landmark and a unit of the National Park System, owned by the American people and stewarded by the National Park Service. It has served as the home of our presidents since 1800 and stands as perhaps the most symbolically and historically significant site in the United States. Any permanent alteration to such a nationally important place demands rigorous review, transparency, and meaningful public participation.

I am deeply concerned that the East Wing was demolished without proper authorization or public review. This action should never have occurred. The East Wing is an integral part of the historic White House complex, and its removal represents an unacceptable breach of established preservation standards and public trust. Rather than replacing it with a large new addition that risks overwhelming the historic scale and character of the site, the East Wing should be faithfully restored to its original form, in exact architectural and material detail, consistent with the Secretary of the Interior's Standards for the Treatment of Historic Properties.

In addition, the removal of historic landscapes associated with previous administrations is equally troubling. Jacqueline Kennedy's Rose Garden and Michelle Obama's vegetable garden are not decorative afterthoughts; they are culturally and historically significant features that reflect evolving chapters of the White House story. Their removal without authorization or public process was inappropriate, and both landscapes should be fully restored in keeping with their documented designs and historical intent.

The White House does not belong to any single administration. It belongs to the American people—past, present, and future. Alterations made without proper review undermine public confidence in our shared stewardship of national heritage. I urge the responsible reviewing entities to reject the proposed ballroom addition, require restoration of the East Wing and historic gardens, and ensure that all future actions adhere strictly to preservation law, professional standards, and transparent public engagement.

Thank you for the opportunity to submit this comment and to participate in decisions that affect one of our most important national treasures.

Best regards,
Tracy Sellman

Date: February 21, 2026 6:39:12 pm

I oppose this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing, with no apparent benefit to the public.

This project should be canceled, and the East Wing rebuilt and restored to its former design. The money given towards this project can be used for the rebuild. Or perhaps the guy who illegally began it can pay from his own pocket.

No one is above the law, fines should also be levied on the person(s) who gave the illegal go ahead. To permit this project without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Sarah Liron
Date: February 21, 2026 6:40:20 pm

Hello,
I am very troubled by the changes occurring at OUR, the people’s, White House.
Tearing down the East Wing without seeking approval was very upsetting. The current plans for the ballroom seem beyond what is needed or suitable.
The described size and opulence our not in keeping with our country’s values.
Please do not allow this to go forward.
Sincerely,
Sarah Liron

Name: Shannon Ggem
Date: February 21, 2026 6:40:44 pm

This project failed to
Meet requirements and also violates standards of beauty. The project needs a complete redesign and should not be approved.

Name: Rena Palloff
Date: February 21, 2026 6:41:36 pm

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans. We do not need a "ballroom" and particularly one of this size, magnitude, and cost. I saw the drawings of the proposed project and was horrified at what it would do to our current White House.

Name: Ben Glor
Date: February 21, 2026 6:41:54 pm

A renovation and new event space to the White House may very well be necessary to meet the needs of 21st century engagement. However, at minimum, it must pass through the same level scrutiny as all historic projects do.

It's critical to the design process and sensibilities writ large in our nation's capital for this to be taken seriously and with respect. It denegeates the traditions we try to uphold by not allowing the public a chance to voice their opinions.

Without the careful public facing design consideration the White House renovation will, at best, be a boondoggle for the American Taxpayer. Without having to stand up and defend the architectural design in front of the public the Architects and their Client are choosing for the White House to become a symbol of national arrogance.

Name: Donald Schaeffer
Date: February 21, 2026 6:43:40 pm

The White House is one of our most well known public structures and an important part of Washington DC and the country's architectural heritage. I would ask that whatever modifications are made be done in keeping with the larger architectural plan and be of appropriate scale to enhance, and not detract or overpower the existing grounds and building. Some of the renderings that have appeared to date show a very large structure completely out of proportion with the rest of the building. Given the magnitude of this project, I trust that established procedures and protocols for review will be followed to ensure whatever is built is in keeping with the spirit of the existing structure and grounds.

Name: Ruth Golush

Name: Patrick Dimond
Date: February 21, 2026 6:53:30 pm

Please do NOT proceed with the current drawings of the east wing that Trump is encouraging!!! It’s is far FAR too large of an addition. In terms of scale it is completely inappropriate and uneven. Preserve the integrator of the people’s house and the lawn.

Name: Barbara Yusko
Date: February 21, 2026 7:00:11 pm

I am opposed to this project as it is illegal. It is NOT a modernization but an upheaval and erasure of American history. I am also suspect of the process. I am sure there is a board that should have been consulted. This historic building was torn down and destroyed with no thought. It was meaningful to the American people and that has been totally disregarded. It is a sad day in America when a president can just unilaterally decide to do what they want with no guardrails.

Name: Karri Whisman
Date: February 21, 2026 7:02:40 pm

I OPPOSE the East Wing Modernization Project. This $400 million construction began without National Capital Planning Commission approval, without required environmental assessments, and without congressional authorization mandated by federal law for construction on federal parkland in Washington. These violations should not be rewarded with after-the-fact approval.

The funding creates unacceptable conflicts of interest. Corporations holding billions in current federal contracts with this administration are funding a construction project at the residence of the president who controls those contracts. This is not charitable giving. This is an investment in access and favorable treatment.

The White House belongs to the American people, not any individual president. I urge the Commission to reject this proposal until full legal compliance is achieved, including congressional authorization and completed environmental assessments. No temporary occupant should possess unilateral authority to demolish historic structures without following the law.

The record of public opposition matters!

Name: Virginia Megee
Date: February 21, 2026 7:04:41 pm

I am appalled that the East Wing was destroyed and I adamantly oppose the construction of the obscenity that has been proposed. No American needs or wants a ballroom! The White House is the People's House and the people need a well functioning democratic republic not a king with his private ballroom! No ballroom!

Public Comment on the Proposed White House Ballroom

To the National Capital Planning Commission,

I respectfully submit this comment expressing concern about the proposed scale of the new ballroom addition to the White House.

Any changes to this historic building must carefully respect the architectural vision established by its original architect, James Hoban. While modernization and functional improvements may be necessary, new construction should remain compatible in scale and clearly subordinate to the historic Executive Residence. The currently proposed ballroom appears to risk overwhelming the original structure and altering the balance and proportions that define the White House's architectural character.

Established historic preservation standards emphasize that new additions to landmark structures must be differentiated yet compatible, and must preserve the historic property's character-defining features, scale, and spatial relationships. Additions to nationally significant landmarks should reinforce, rather than compete with, the historic fabric. I urge the Commission to require revisions ensuring that any ballroom addition preserves the primacy of the original building, maintains appropriate proportional relationships, and minimizes visual impact on the historic setting.

The White House is an enduring symbol of national heritage, and its architectural integrity should remain the guiding principle for any modification.

Thank you for your consideration.

Respectfully submitted,
Christi Smith
Austin, TX

Date: February 21, 2026 7:10:41 pm

Tearing down the East Wing of the White House (the People's House) without permission or warning is the height of hubris and pettiness. Recently, the President stated that he was within his rights to destroy our country. What??? No, he's really NOT. And this administration didn't have the right to tear down a part of the White House as a surprise without a transparent PROCESS.

I'm writing to request that the ballroom project have a proper level of transparency and adhere to the set standards for historic PUBLIC property. That includes public comment on any plans so that the People get to weigh in on any monstrosity you're planning.

Thank you,
A Concerned Citizen

The new ballroom does not need to be as big as is being proposed. This is not a convention center - it is the people's house and should only accommodate as many as have been hosted in temporary quarters with tents to date. I would recommend the ballroom to be no more than 60,000 square feet, which would be ample for most events that should be

held at the White House. Anything larger would overwhelm the original White House structure.

That said, I am vehemently opposed to the lack of legal process that has been followed by the current administration. Appointing lackeys to review boards is not representing the will of the people for the people's house.

Thank you for considering my comments.

Name: Jane Woodman
Date: February 21, 2026 7:21:53 pm

I oppose spending $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project. The submitted ballroom design would be completely incongruous with the existing White House and the proud history of the space.
I want this project canceled, and for the public to be able to review a set of design proposals that would place a modernized office space on the original footprint of the East Wing. The New East Wing should include significant design elements similar to the Old East Wing, and several historical markers commemorating the important events in American women's history that took place in the Old East Wing.
Please stop this desecration of our people's house.
Thank you.

Name: Mike Bottoms
Date: February 21, 2026 7:22:57 pm

I was surprised to see the removal of the East Wing of the Whitehouse. Once I heard that it was being replaced with a large space where State events can be held. I am completely comfortable with the change. I've seen so many photographs of events being held under tents (an embarrassment to our Country when world leaders attend) because there isn't a large enough room to provide a comfortable environment for our Country's guests. I completely support the new construction and removing of the old East Wing space. Thank you.

Name: Kathleen Lyons
Date: February 21, 2026 7:23:45 pm

I oppose the proposed ballroom addition to the White House. I have not seen any information regarding safe storage or preservation of the art and historic artifacts that were in the East Wing prior to its destruction last year, and this lack of transparency is concerning with regard to the budget process specifically and the construction in general for any replacement on that site. In particular, past material choices and proposals for the ballroom by the current president have been unfortunately notable for their lack of quality and durability, as well as for their cost and likelihood of sweetheart deals for his affiliates. The White House has been, in my lifetime, the house of the people of the United States, and needs to have any changes undertaken with consideration of the history and constitutional ideals that it represents. The proposed ballroom does not fit those basic criteria, and the current resident has amply demonstrated that he is not fit to make sound judgments concerning the White House structure nor it's grounds.

Name: adaline havemeyer
Date: February 21, 2026 7:26:39 pm

Clearly the East Wing needs rebuilding but not at a grandiose scale that overwhelms the historic building that is the White House. The scale and massing of this addition are heavy-handed and insensitive to what currently exists.

Name: Melanie Reed
Date: February 21, 2026 7:31:38 pm

Nothing about this project seems to have followed proper protocol and we are losing an important piece of history without our consent. I would like to see this revisited and handled appropriately.

Name: Lea VandenBoogaard
Date: February 21, 2026 7:33:23 pm

I was appalled when the beloved Rose Garden was bulldozed and turned into a stark patio space that mirrors any number of forgettable convention centers nationwide. I was moved to tears when I saw the total destruction of the East Wing.

First occupied by President John Adams and his wife, Abigail, in November of 1800, the White House has stood as a symbol of the Presidency, the United States government, and the American people. The White House does not need a ballroom, especially one as oversized as is planned. The White House is the temporary residence of whomever happens to be President at any given moment of time. It has a rich history and is filled with beautiful artwork and furnishings. It is most definitely not subject to a vanity project by the current occupant. The White House is the People's House, and is most definitely not Mar-A-Lago or any number of personally-owned properties that Donald Trump is well within his rights to desecrate as he sees fit.

I most strongly oppose the spending of at least $300M on this project, regardless of the source of funding. This project was initiated without proper authorization, permits, or design review. It is not a modernization project, but rather a complete razing of American history. This project must be rejected, cancelled, and the East Wing rebuilt and restored to its former glory. To allow this project to proceed without penalizing those who broke the law by demolishing the East Wing would be a slap in the face to all law-abiding Americans.

The US Commission of Fine Arts approved design plans for the ballroom project. Every single member that voted in favor is a Trump appointee, after the entire panel was replaced in January of last year. The National Trust for Historic Preservation filed a lawsuit in December to halt construction.

Please. I implore you. Save what is left of The People's House.

Thank you for your time in allowing public comment on this urgent matter.

I oppose the building of a ballroom of this size at the White House. A small addition, that went through appropriate planning and budget committees would have been fine. I would like to see the East Wing restored to what it was before the demolition.

Name: Leigh Anne Shaw
Date: February 21, 2026 7:37:05 pm

I oppose the destruction of the East wing, which was done without proper review, process, and input by the people for whom it was built and serves. I oppose the destruction of this national monument, especially as it was done for corrupt and self-aggrandizing purposes which are wholly inappropriate. I oppose this project as it was illegally conceived and has had no appropriate oversight. The perpetrator of its destruction, the president of the United States Donald Trump, must be charged and held accountable. He must be removed from office for destroying the very structures that he was charged with safeguarding.

Name: Laura Harris
Date: February 21, 2026 7:42:47 pm

I am very upset and concerned about the proposed changes to the East Wing. I understand that the East Wing needs to be updated and modernized but it should be done in a way that works within the context of the entire historic site not to completely overwhelm it. I believe as a tax payer that any change made to buildings as important and historic and emblematic of our country should be done with much thought, care and discipline and this plan shows none of that. The scale is completely wrong and diminishes the house of our President and the historic fabric of the White House. I very much hope and pray that you will vote AGAINST this.

I am an American born citizen of the United States. I am a taxpayer of the United States. I am opposed to any alterations of the people's house without the law and proper procedures being followed: Alterations to the White House require Congressional approval and funding, as it is federal property managed by the National Park Service. Significant changes must pass reviews by the National Capital Planning Commission and Commission of Fine Arts to ensure compliance with the National Historic Preservation Act.

The demolition of the white house by the current would be "king," has no authority to destroy public property as he has done. I am respectfully requesting that the National Park Service, National Capital Planning Commission and Commission of Fine Arts demand the rebuilding of the White House to its original state prior to January 2025.

If there is a mechanism for impeachment of Donald Trump for this violation it would be appropriate for congress to take action immediately to remove him from office and to protect the White House and return it to its historic state.

I am formally requesting that this comment be officially entered into the record.

Name: Christ Kanoles
Date: February 21, 2026 8:12:03 pm

I oppose what is currently happening. This is not a modernization project. A historical building has been destroyed without planning or forethought. The ballroom is not in the interest of the American people or our sense of history. If allowed to proceed, it will destroy the image of the White House. The previously existing structure needs to be rebuilt as it was.

Name: Angela Ferrari
Date: February 21, 2026 8:25:19 pm

Hello, I am submitting a comment to express my wholehearted view that the East Wing of the Whitehouse belongs to the people of the United States and not the current occupant. The White House is a National Historic Landmark and National Park, owned by the American people and stewarded by the National Park Service. It has been home to our presidents since 1800 and is perhaps the most significant historic site in the United States. Before nationally significant places are permanently altered, the public deserves an opportunity to be heard and to help shape decisions that affect our shared national heritage.

I am against the East Wing destruction. Furthermore Donald Trump needs to rebuild the East Wing that the people of the United States own at HIS expense. He tore the national landmark down without the consent of the people and now Trump needs to replace it with no cost to the American people.

Name: Sandra ODell
Date: February 21, 2026 8:30:55 pm

Please stop the unnecessary renovations that destroy elegance and replace it with tasteless decor!

Name: Mary Patton
Date: February 21, 2026 8:32:11 pm

Please stop this. It’s erasing American history. It’s one man’s ridiculous dream.

Name: Diane Hoffman
Date: February 21, 2026 8:32:16 pm

This rendering shows a design of poor taste, poor design and poor reflection of the historic importance of the project. It is a wart on the White House campus. The scale is way out of proportion and it not supposed convention hall. Even the largest state dinner is too tiny for the space. Bigger is not better. Please discard this design. .

Name: Peter Gachot
Date: February 21, 2026 8:33:52 pm

The sheer size of it is in bad taste. Please scale it back. I come from a family of architects and historians and know of what I speak.

Name: Marilyn Ferrari
Date: February 21, 2026 8:34:17 pm

Hello, I am opposed to the East Wing Modernization Project. The White House is a National Historic Landmark and National Park, owned by the American people and stewarded by the National Park Service. It has been home to our presidents since 1800 and is perhaps the most significant historic site in the United States. Before nationally significant places are permanently altered, the public deserves an opportunity to be heard and to help shape decisions that affect our shared national heritage.

Donald Trump needs to rebuild the East Wing at HIS own expense and restore it to its original state. The American people own this landmark and want it restored to its original historical state before the current occupant damaged the historical sight without the permission of the American people who own it.

Sincerely,

Marilyn Ferrari

Date: February 21, 2026 8:38:20 pm

While I understand the desirability of preserving the past (I am a genealogist), I also appreciate renewing and improving our world. I am looking forward to seeing the new structure(s), and think the planned ballroom will be a good addition to the White House. It sounds like it will be beautiful.

Name: John Niles
Date: February 21, 2026 8:38:44 pm

February 21, 2026
I understand the White House East Wing Modernization ordered by President Trump was initiated originally and continues through today without proper legally established authorization, permits, or design review. I want this project halted, reviewed, then adjusted and officially re-authorized as a revised project to be restarted in compliance with existing law. One option to consider is to restore the East Wing to a reflection of its historic configuration, with some approved modernization in the facilities to achieve improved functioning. The President's order leading in the present day to replacing the East Wing with a ballroom without NCPC review and approval is outside of the established legal process for such development, NCPC should take clear and decisive action to set this project on a better course. As a bare minimum this action should include preparing complete documentation of how and why the project has proceeded to its current state, including a description of what has already been lost in the demolition of the historic White House East Wing..
Respectfully submitted,
John S. Niles, citizen living in Seattle, former District of Columbia resident.

Name: Janice Robin
Date: February 21, 2026 8:42:24 pm

Dear Sirs and Madames,
I recommend that the project be taken out of the hands of trump entirely. He had no business destroying the East Wing arbitrarily as it was done. It should be rebuilt into its original structure. Trump should pay for the rebuilding himself. A message to him: you broke it, now pay for fixing it.

Name: Katelyn Shearer
Date: February 21, 2026 8:45:43 pm

Members of the Commission: All visible and public interior and exterior structures and decorative pieces of the East Wing should be rebuilt to look exactly as it did before it was unlawfully destroyed by the President. If the underground part of the structure out of public view needs to be updated, no problem. Trump should be made to pay personally for this rebuild in its entirety, since he is solely responsible for the current mess. No President should be able to destroy property that belongs to the country use taxpayer dollars on a design that is an eyesore and suspiciously exempted from the public or congressional review process.

Name: Kathy Hieatt
Date: February 21, 2026 8:54:24 pm

The White House was designed as a symmetrical building: a grand, central part flanked by smaller wings. The proposed ballroom would dwarf the governmental section and make the original building look ludicrously tiny. Talk about the tail that wags the dog!

Date: February 21, 2026 9:06:27 pm

The wholesale destruction of the East Wing before the approval (or indeed submission) of plans for any manner of

replacement is irresponsible. Moreover, the existence of a "white house ballroom" has been justified only by the vague desires of the president rather than a proven need of the union.

In short, the ballroom is a destructive, expensive project with no clear objective or value save for the placation of an aging would-be despot. Perhaps its only worth is as a painfully poignant metaphor for the administration's legacy.

As someone who grew up inside the Beltway, I am deeply saddened by the annihilation of the East Wing of the White House without any input from Congress or anyone else or even a plan of what it would look like. This "plan" is a wrecking ball applied to the People's House and should be reversed immediately and repaired in any way that it can. The Rose Garden and other features have already been destroyed--this "ballroom" is bigger than the rest of the White House and contributes to making the USA look like it's bent on the destruction of the country as we know it.

Name: Tyler Putman
Date: February 21, 2026 9:17:10 pm

The illegal demolition of part of the White House should be met with the strongest possible condemnation because of how it has transgressed public safety, zoning, and historic preservation laws. Thank you.

Name: Joan Rockwell
Date: February 21, 2026 9:22:34 pm

I respectfully submit this statement in opposition to the proposed modernization of the East Wing of the White House.

The White House is not a personal residence in the ordinary sense; it is a national symbol, a historic site, and a shared civic space that belongs to the American people. Any significant alteration to its structure or function should be guided by clear institutional necessity, long-term preservation standards, and demonstrable public benefit—not by the personal preferences, legacy ambitions, or branding interests of any one individual who temporarily occupies the office.

The East Wing, in particular, holds historic, architectural, and symbolic significance. Modernization efforts that exceed routine maintenance or necessary security upgrades risk eroding the historic integrity of the complex. Such changes may also set a precedent whereby each administration seeks to imprint personal priorities on a structure intended to represent continuity, stability, and constitutional governance.

At a time when federal resources face competing demands—ranging from infrastructure and disaster response to national security and economic stability—it is essential that capital projects at the White House meet a strict standard of necessity and transparency. Projects perceived as primarily aesthetic, personal, or legacy-driven risk undermining public trust.

The presidency is an office, not a personal estate. Modernization that appears designed to elevate the image or comfort of one officeholder rather than serve enduring institutional needs should be carefully scrutinized and, where appropriate, declined.

I urge the Commission to require:
• A clear, publicly available justification demonstrating operational necessity.
• Full transparency regarding cost, funding sources, and long-term maintenance impact.
• Independent historic preservation review.

• Assurance that the project serves the Office of the Presidency institutionally—not the preferences of any single individual.

Thank you for your careful consideration of this matter and for your stewardship of the nation’s capital and its most significant civic structures.

Respectfully submitted,
Joan Rockwell

Name: Sharon Thompson
Date: February 21, 2026 9:24:51 pm

I am opposed to having private citizens pay for a White House ballroom to curry favor with the current president. No president should be able to modify the White House without first seeking approval from National Historic Trust. The White House is a national treasure and important part of the history of the United States. Please stop the construction of the ballroom.
I am an American citizen and vote in Massachusetts.

Name: M Freeman
Date: February 21, 2026 9:26:17 pm

This is an abomination of the White House!!! It was illegally demolished by the felon in the White House and should NEVER be reconstructed as a “ballroom”!!!!!

Name: Peter Ginna
Date: February 21, 2026 9:46:35 pm

I'm a citizen with a deep respect for American history our nation's government. I have studied architecture and am involved in historic preservation in my home town in New York State. And I have visited Washington often and admired the graceful and dignified architecture of the White House.

I'm dismayed by the current plan to rush forward with the construction of an enormous monstrosity of a ballroom which has already led to the hasty demolition of the historic East Wing. The proposed ballroom is grossly out of scale with the White House itself. It seems totally inappropriate for this function space to overwhelm the seat of the Presidency. Furthermore the design itself is a banal fake classicism that looks more like a Las Vegas casino than an appropriate complement to one of American's most elegant buildings.

Please stop this disaster in the making and make sure that the renovation of the East Wing follows the approved (and legally required) design and review procedures.

Peter Ginna
Sag Harbor, NY

Date: February 21, 2026 10:25:38 pm

I am completely opposed to the current plans for the ballroom that has been proposed to replace the former East Wing of the White House. The White House is one of our nation’s most important buildings and a symbol of our democracy: We are not ruled by monarchs from their palaces; but led by a president who lives in the People’s House. In keeping with its symbolic role, the White House is elegant but relatively modest, befitting the head of state of our democracy. Any addition to the White House should reflect its symbolic role and should defer in scale to the White House, leaving the White House as the most important element in the complex. And yet the proposed ballroom will not defer to the White House but will overwhelm the building. Not only is it as tall as the White House but, worse, it is twice the size of the White House. And its massive bulk will block previously protected sight lines to the White House. The proposed ballroom is thus completely out of keeping with the guidelines developed by the National Park Service that any additions should be compatible with the historic structure. The plans for the ballroom should therefore be greatly scaled back to ensure the White House will retain its visual preeminence.

Name: Thomas Vannatter
Date: February 21, 2026 10:27:57 pm

I strongly disapprove of the proposed redesign of the East Wing of the White House. The proposed ballroom designs do not aesthetically fit within the extant dimensions of the historic building, creating a gaudy, lopsided monstrosity that spits in the face of a historic structure that has served as the stately and iconic seat of democratic power in this country for over 230 years. This goes beyond the destruction of the rose garden. By demolishing this historic building without permission, plans, or oversight the president has not followed the rule of law nor respected the gravity of such an action. As the East Wing has remained a gaping hole all winter it sends a message to our allies and enemies both that the leadership in this country is scattered and ineffective reflecting the expanding rifts between rich and poor and between red and blue. This haphazard dismantling of the seat of power signals that our leadership regularly causes destruction without any planning

and without acknowledging experts in the field or the breadth of precedent that lay before them. It is a travesty to behold and sadly one of the countless atrocities this president has inflicted upon the country.

The felon living in the Peoples House shouldn't have been able to raze it to the ground without following the proper procedures. His shrine to himself needs to be stopped and the East Wing restored to its previous status. The current felon resident should be forced to pay for the restoration from the funds he's enriched himself with through his corruption in office. This form has an option to attach a PDF file, but there's already one living in the White House.

Name: Michael Shanahan
Date: February 21, 2026 10:30:55 pm

I am writing to express my profound opposition to the recent demolition of the White House East Wing and to formally object to the proposed 90,000-square-foot ballroom project currently under your review.

The East Wing was a vital piece of our nation's heritage. Its abrupt destruction represents a desecration of the White House's historical fabric and permanently diminishes a shared symbol of our democracy.

Furthermore, I strongly condemn the unilateral manner in which this demolition was executed. Rushing to tear down a historic structure in October before the National Capital Planning Commission and the American public could properly review the plans is an unacceptable circumvention of established oversight. The White House is the People’s House, not a private estate, and alterations of this magnitude demand rigorous transparency, public engagement, and adherence to the law.

As the NCPC prepares for its upcoming March 5 hearing on this project, I urge the Commission to hold the administration accountable. Please exercise your oversight authority to ensure that any replacement or future construction on the site is conducted lawfully, transparently, and with strict deference to the historical and architectural scale of the Executive Residence. We must not allow unilateralism to bypass the democratic review processes designed to protect our national monuments.

Thank you for your time, your service, and your commitment to preserving the integrity of our nation's capital.

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

I am in support of this much needed project. Remove the politics from ithis and it is obvious we need a state room

capable of housing world leaders in a fashion that expresses the greatness of the united states. Not in a tent on the lawn. Hard to believe this is even a controversial topic.

Name: Linda Olsen
Date: February 21, 2026 10:40:55 pm

Remember the East Wing of the White House? Remember the giant ballroom that the tech billionaires have agreed to fund in its place? The National Trust for Historic Preservation is making a gallant effort to stop this. And we can help.

Thanks to the National Trust, we have until March 4 to submit comments about the ballroom to the National Capital Planning Commission. You can make a comment through the link below (click on Submit Comment). PLEASE NOTE, the project is called East Wing Modernization on the pull down menu.

Anara Guard's comment on this is beautiful. She gave me permission to post it here, if anyone wants to use her language.

I object to this project in it’s entirety. I do not believe that the current administration had the right to demolish the East Wing. I think that the East Wing should be restored to its original form or as close to it as possible. We the people do not need some grandiose ballroom. The White House is not a palace. It is the people’s house. It is an embarrassment to our Country that this destruction occurred. I believe it was unlawfully done and that those responsible should be held accountable for it.
Sincerely Karen Pollard

Date: February 21, 2026 10:52:59 pm

A 90,000 square foot ballroom is absurd and would absolutely be grotesque attached to our beautiful White House. This must be stopped.

It is literally criminal what has been done to our nation’s house by its current tenant and I hope prosecution, punishment and restitution will come.

Name: Deborah Machta
Date: February 21, 2026 10:58:21 pm

I feel strongly that the East Wing Modernization Project is completely out of proportion with the White House, much too large. The White House as it stands is one of the most important historic buildings in our country, it would be a travesty to

overshadow it with an enormous ballroom. I feel that the need for a ballroom should have been resolved before the former East Wing was removed. Now that it has been removed let's make sure what is put in it's place it appropriate for both design and size so as not to detract from the White House. I believe the current plan is too large and does not enhance the existing buildings.
Thank you for your time and consideration.

I and many fellow Americans share great sadness over the destruction of the East Wing. Any replacement should be designed to blend with the existing structure and held to the highest standard for additions to a historic building. As The People's House, the project should not be privately funded by partisan supporters of Trump.

The scale of the east wing addition is double what it should be and overshadows the classical design and scale of the White House. Please scale back the building by half and make it a seamless, organic outgrowth of 'the people's house' that we all know and have long admired as a symbol of our democracy.

Name: Kathleen Burke
Date: February 21, 2026 11:16:53 pm

Please consider our proud heritage and use discretion in creating a monument to the American People. This is not a gaudy trophy for a despot. It is the home of the people who built this nation. Think carefully and choose wisely. History will be your judge.

Name: Nita Furlong
Date: February 21, 2026 11:20:19 pm

I urge you to restore the wing to it's original footprint and facade. The destruction for a ridiculous giant ballroom is a massive waste or resources and is detrimental to the look and history of the building itself. An active first lady who serves our nation needs offices once the uninterested woman who currently holds that title is replaced by someone who takes the job seriously. The destruction of the rose garden and classic features is a desecration.

If we as a country need a massive ballroom or entertainment pavilion then build one somewhere else. Build one that can be used for state functions and then rented or used for other functions so that it is not a giant monstrosity that sits vacant and must be maintained and heated and cooled daily, only to be used for a handful of functions for the Uber wealthy contributors and foreign representatives each year. There is nothing that says the "National Ballroom" needs to be attached to the White House. There are motorcades and even a helicopter to get folks to a separate ballroom located elsewhere that can serve the country's entertainment needs and be rented to help offset the maintenance costs when not in use by the government.

To the National Capital Planning Commision:
I have reviewed the drawings and photo mockups for the addition to the White House and I want to express my horror at the scale of this design. As an architect with experience in historic preservation and a love of public buildings I object to the scale of the new construction. There are no floor plans or square footage totals noted in the project description materials but I would ask the Commission to inquire about the capacity and accomodations and have the architects show data on how the size is related to actual events & program needs. The numerous colonnades and oversized staircases also needlessly add to the footprint.

The existing White House size and architectural elements are not considered in the design of the addition. Only the height is said to be matched, while the mass is many times that of the White House. Please note that the photo renderings that would give the comparative view of the addition and the White House have trees obscuring the addition. This is not acceptable presentation for such important review. Also, photo renderings can be misleading: has the addition really been shown as it will apprear adjacent to the White House?

The design details are not refined and show lack of architectural sensitivity. In the side view of the addition the columns that face the street are very disproptionate to classical order. The architrave above those massive columns is heavy as well. I question the choice of Corinthian columns when the White House is detailed with Iconic order. And overall the design is not of this time or place in history. One cannot sense any relationship to the White House or any innovation in the approach. The design is oppressive and authoritarian.
I would urge you to reject the application.

The White House is a national treasure and a repository of history. It should not have been radically changed without third party review
Completely altering The White House is not the same as planting a rose garden or hanging a few pictures. History is in its walls and it belongs to the people of this country not one president.

Name: Linda Shillabeer
Date: February 21, 2026 11:58:09 pm

1) Reduce the scale of the structure to something that is proportional and appropriate to the site, preserves grounds and gardens, and is faithful to its history and national significance. If indeed a grand ballroom is needed for state occasions, then off-site would be more fitting and practical. Reconstruct the East Wing to accommodate administrative and support functions that would not be subject to change from administration-to-administration, along with visitor facilities, reception areas, historical corridors.
2) Nothing gold. Not one ounce. Use organic and 100% U.S. sourced materials for reconstruction designed by U.S. artisans. Wouldn't it be cool to incorporate some facet from each of the 50 states.
3) No naming for any one individual. It is the People's House.

I find this project to be not in keeping with the historic features of the peoples house. I have no problem with adding a ballroom however it should not eclipse the entire building which is of great significance to the country and its citizens.

Name: Katherine Lowell
Date: February 22, 2026 12:33:05 am

I do not think tax payer dollars should be going to a superfluous (and tacky) remodel and expansion of the White House. Disregarding the history and beauty of the current landscaping and building is wrong. Enough is enough!

Name: Wendy Miller
Date: February 22, 2026 12:37:10 am

Please stop this project. The administration has destroyed too many historical landmarks. Trump ignored all laws and regulations to make changes to the PEOPLES house. It does NOT belong to Donald Trump and his destruction MUST be stopped.

Name: Vanessa Elliott
Date: February 22, 2026 12:40:46 am

I respectfully urge the NCPC to reconsider the proposed East Wing plans. The current massing feels out of scale with both its immediate context and its civic use, and the overall bulk risks visually overwhelming the West Wing of the White House. Any addition to this historic campus should defer in presence and proportion to the existing structures, reinforcing — not competing with — their architectural hierarchy. A more restrained approach to scale and form would better honor the balance, symbolism, and historic integrity of this nationally significant site.

You Have Until March 4th to Comment on Trump’s White House Ballroom

The National Capital Planning Commission opened public comment on the East Wing Modernization Project (Trump’s $400M ballroom funded by Google, Amazon, Microsoft, Lockheed Martin, and other companies with billions in federal contracts).

This is your only formal opportunity to weigh in.

Deadline: March 4, 2026 at Noon ET

How to Submit:

1. Go to https://www.ncpc.gov/participate/guidelines/

2. Click “Submit Written Comments”

3. Select “East Wing Modernization” from dropdown

4. Submit your comment

Template letter you can use:

I oppose the East Wing Modernization Project. This $400 million construction began without National Capital Planning Commission approval, without required environmental assessments, and without congressional authorization mandated by federal law for construction on federal parkland in Washington. These violations should not be rewarded with after-the-fact approval.

The funding creates unacceptable conflicts of interest. Corporations holding billions in current federal contracts with this administration are funding a construction project at the residence of the president who controls those contracts. This is not charitable giving. This is an investment in access and favorable treatment.

The White House belongs to the American people, not any individual president. I urge the Commission to reject this proposal until full legal compliance is achieved, including congressional authorization and completed environmental

assessments. No temporary occupant should possess unilateral authority to demolish historic structures without following the law.

The Commission votes March 5th. The East Wing is already demolished. But the record of public opposition matters. Make your voice heard.

Name: Lauren Dornell-Neal
Date: February 22, 2026 1:42:18 am

Please cancel this project. Redecoration is appropriate. Demolition of a national historic site-whether official or unofficial without congress or the people's input or approval, undermines tradition, common courtesy, is self- serving and is demonstrative of impulse management and biundary issues. In a democracy, a presidency lasts 4-8 years, permanent structual change without recourse symbolizes turning a blind eye to democracy and the requirement for all American citizens to go through necessary and/or required beauracratic processes that ensures mindful administration of actions. The president as an American citizen who chooses to represent the American people, must role model best citizenry. Demolition and rebuild based on personal tastes undermines the message of our current White House: ever present, willingness to change from within, restrained, purpisefully nonaristocratic, humble and strong. It has only been demolished through civil war. We must preserve the structure of our White House and what it stands for and support the rights of future presidents who will honor tempirary terms to live within the living tradition of the current structure.

Name: Cheryl Quinn
Date: February 22, 2026 2:10:10 am

The destruction of the East Wing of the White House should be considered a crime as none of the typical procedures were followed. The citizens of the United States own the building. As a landlord of three modest homes, I reserve the right to evict tenants who would remove portions of the building without my permission. The current tenant of the people's house did that. I would love to see him evicted, but at the very least the East Wing, and Jackie's Rose Garden, should be restored at the tenant's personal expense.

Name: Mike Rock
Date: February 22, 2026 2:25:16 am

I am a U.S. citizen writing to express my concern that the proposed renovations of the White House will destroy the historic design of the White House, a critical symbol of our democratic republic.
I urge NCPC to follow and respect the spirit of the review process, to consider public comments, and to preserve the historic integrity and symbolism of the People’s House for future generations.
Thank you.

Name: Therese Mersereau
Date: February 22, 2026 2:39:44 am

I am strongly against the construction of a ballroom to replace the East Wing of the White House. This is a TEMPORARY RESIDENCE of the current President. I am appalled that he destroyed a third of the White House without approval from the National Trust for Historic Preservation, and appointing a bunch of lackeys to the U.S. Commission of Fine Arts who will rubber-stamp the wishes of the current president without the consent of the American public or the National Trust for Historic Preservation is undemocratic and just plain wrong. Despite what the President says, NO ONE, except him, has been clamoring for a large ballroom at the White House before he became president.

Date: February 22, 2026 6:04:37 am

I am writing to express my strong opposition to the proposed ballroom/event center in our nations capital. While I support reasonable development, I believe this specific proposal, as currently designed, is inappropriate for this location.

Name: William Gehring
Date: February 22, 2026 6:09:51 am

I am 81 years old and have lived through 15 presidents, so I have some historical perspective. Let me be blunt: this project is an abomination. Razing part of one of the most historically important buildings on an egotistical whim is outside the bounds of normal behavior. Adding an unneeded and garish ballroom is just another insult to our heritage. The fact that one man can order this to be done without any checks or balances is emblematic of the Trump presidency. We don't let petulant 5 year olds burn the family home, but we ask for public comment after the fact?

I love my country but this whole project is an affront to our history and heritage. The next president should create a go fund me page to demolish the ballroom and accurately restore the east wing; I'll happily donate.

Name: Nick Nicholson
Date: February 22, 2026 6:40:00 am

I am writing to express my deep concern regarding the removal of the East Wing and the proposed construction of a new ballroom at the White House.

The White House complex is not merely a residence or event venue; it is one of the most symbolically and architecturally significant sites in the United States. Its power lies not in spectacle, but in restraint — in the humility, balance, and harmony of its design. Over generations, additions and modifications have respected this scale and architectural language, preserving the dignity of the whole.

The proposed ballroom appears markedly out of scale with the historic structure. Its size and character risk overwhelming the architectural coherence of the existing complex. Beyond issues of proportion, the addition feels unnecessary and discordant — an insertion that prioritizes grandeur over continuity. Such a structure would fundamentally alter the visual and symbolic balance that defines the White House.

Architectural heritage demands stewardship, not embellishment. I strongly urge rebuilding the East Wing, which was illegally demolished, rather than exercising these plans that would compromise the scale, harmony, and historical character of this national landmark.

Respectfully,

Nick Nicholson

Name: G. Campbell
Date: February 22, 2026 7:05:33 am

The illegal demolition of the White House East Wing should be reversed with a full restoration of the original structure. The current administration should be fined for its actions in this matter and also be forced to pay for the full restoration. This needs to be a firm rebuke of such actions that will stand as the rule for future administrations. The ballroom idea is ridiculous!

Name: Margaret Shaw
Date: February 22, 2026 7:05:48 am

This is a travesty. It never should have happened. No permission, no permits, all done by an ego-driven maniac who feels he is above the law. The wing needs to be rebuilt as it was! To let him get away with destroying part of an American landmark would be to set a precedent of giving one individual free rein to destroy whatever beloved American architectural landmarks he chooses.

Name: Cynthia Filkoff
Date: February 22, 2026 7:07:31 am

To whom it may concern,

As a registered architect with over 40 years of experience practicing residential architecture in the United States of America, I believe it is my civic duty to voice my professional, expert opinion.
The proposed East Wing Modernization project should not be approved because it is vastly out of scale with the White House. The proposed project will dominate and destroy the exceptional historic beauty of the residence.
Americans adore the White House. It is the quintessential example of an elegant American residence. Please do not allow the proposed project to ruin its architectural splendor for future generations.

Thank you

Respectfully,

Cynthia Filkoff
Di Biase Filkoff Architects
[redacted]

Name: Robin Harris
Date: February 22, 2026 7:15:46 am

I strongly object to this "ballroom" project. The East Wing should never been torn down.
.....and an incongruent and "opulent" ballroom that does not represent our basic American values should never occur in its place.

Name: Kelley Osgood
Date: February 22, 2026 7:19:12 am

As a registered Architect, I can attest that the scale of the east wing project is an absolute abomination. Even first year students of architecture are taught the importance of hierarchy of scale. In plain terms, this is the White House, and as such, should be the main focus of the campus with the wings on either side being subordinate and not a grand monument to one of many temporary residents.

Name: Valerie Connor
Date: February 22, 2026 7:22:12 am

The demolition of the East Wing of the White House without permission was and is illegal. This is the People's House and the people want it restored to what it was. There is no reason to build a huge ballroom which completely destroys the architectural symmetry of this historic building. It is an eyesore. The idea that one person can decide to destroy part of a federal landmark without input from ANY interested party is outrageous. NO ONE is above the law. This landmark needs to be restored promptly by the party responsible for said destruction.

Name: Jessica Wojcik-Rounds

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding citizens.

Name: Catherine L Sepulveda
Date: February 22, 2026 7:27:52 am

Stop the construction of this so called ballroom. Restore the structure back to it's original form.

Name: Kent Neuerburg
Date: February 22, 2026 7:30:53 am

The Trump administration’s current plans for a new Ballroom complex on the site of the former East Wing of the White House should be denied. Any new construction should
• be in scale with the current White House structure (i.e., smaller than the 55,000 sq. ft. residential building, not dwarf the existing building as is currently planned),
• architecturally blend with the existing structure,
• be funded in a transparent manner so as not to create potential conflicts of interest nor a quid pro quo dynamic between donors and the Trump administration, and
• receive proper design review, environmental assessments, congressional approval, and public input before any construction is allowed to begin.

Name: Alison LaGree
Date: February 22, 2026 7:35:54 am

I strongly oppose the proposed expansion of the East Wing of the White House.
At a time when children in our country go hungry and veterans struggle to access adequate medical care, allocating taxpayer dollars to expand the size and scope of the East Wing is deeply misguided. Federal spending should prioritize essential human needs — food security, healthcare, housing, and support for those who have served our nation — before funding structural enlargements to an already historic and functioning building.
Beyond fiscal concerns, the White House is one of the most recognizable historical landmarks in the United States. Its architectural integrity and historic character should be preserved for all Americans and for future generations. Expanding the East Wing risks altering the balance, aesthetics, and symbolism of a building that represents our shared national history.
The White House does not belong to any single administration — it belongs to the American people. Changes to its size and scope should be approached with restraint, transparency, and deep respect for its historic significance.
For these reasons, I urge decision-makers to reject the proposed expansion of the East Wing and instead focus public resources on pressing national needs.

Name: Barbara Cottis
Date: February 22, 2026 7:41:50 am

The East Wing of the peoples house was torn down illegally for nothing more than another vanity project. I oppose the building of a huge ballroom that will overshadow the white house. What ever is built should be done with the proper historical guidelines. Also still heartbroken about the rose garden

---

Name: Daniel Johnson
Date: February 22, 2026 7:42:10 am

The proposed new Ball Room project is way out of scale with the White House in many ways. Number one is that it is architecturally out of scale with the White House and the Grounds. It dwarfs the White House physically and diminishes the understanding of the Presidential Residence. This is a programatic failure for the White House Complex. It shifts the balance off the White House and diminishes the reading of the residence.

Secondly it is out of scale in terms of program and the site. The White House is not an entertainment center. It is the seat of the US president AND HIS OR HER FAMILY. The purpose of the East Wing is not entertainment-it is the functional space of the first partner and to welcome the public. It is not to flatter and entertain those who wish to influence and flatter the president. The White House is the residence and center of thought for the presidency, not a place to party with cronies.

Thirdly it is out of scale financially. It should not be a leverage point for those who want to buy influence with the president. It also should show American values of sound financial organization and leadership in environmental stewardship. It should not be a symbol of conspicuous consumption.

The whole process is a testament to crony capitalism and a symbol of an oligarchic system. The best design comes through a process of public participation and informed critique. This process is led by a uniformed consumptive baffoon who is looking to satisfy his ego. It is not designed to serve the people and the US. It is a colossal symbol of what the founding fathers were working to avoid.

Stop this waste now and have a thorough and thoughtful process. Generate a place that is symbolic of a responsible future: programmatically, environmentally and fiscally.

Date: February 22, 2026 7:45:08 am

I'm a staunch advocate for progress, but I firmly believe in the importance of preserving our history. The Trump administration's push to modernize the East Wing exemplifies a dangerous overreach of power. Demolishing such a historic structure without public input or regard for its significance is unacceptable. I urge decision-makers to ‘reject this project’ and consider alternative locations if modernization is truly necessary. Let’s honor our heritage while moving forward

Resstore east wing to original and have president pay for it

Name: Bill Tempelaar-Lietz
Date: February 22, 2026 7:49:38 am

The East Wing proposed ballroom is completely out of proportion to the rest of the White House structure/footprint. It should be 2/3 or 1/2 of what's being proposed, to be in balance. This is the People's House. This is not a privately owned property. This plan is not acceptable. The scale is obscene. Historic structure and grounds were unnecessarily destroyed in the process. This has to be scaled back. Again, this is not a privately owned residence to do just whatever with. This is a temporary home for public office.

The White House is the residence of the President. It should remain a residence. Adding a ballroom that is larger than the rest of the house is in violation of the principle that the white house is a residence. The White House needs to retain it's historic character; not become an entertainment venue.

Name: Betsy Willey
Date: February 22, 2026 8:41:44 am

I strongly oppose the ballroom that will loom larger that The White House. The East Wing never should have torn down but it’s not too late to stop this outrageous project! Please honor our precious history. Thank you!

Name: Christina Wyatt
Date: February 22, 2026 8:47:20 am

I strongly oppose the completion of this illegal project as currently planned. I object to the "modernization" of our historic house, especially with funds from private donors currying favor with the current president. I wish to see the East Wing returned to its former state using funds appropriated from taxes paid by the citizens to whom this building belongs. Under no circumstances should the project planned by the current president, but not properly approved and permitted, be allowed to continue. We do not need a vanity project ballroom.

Name: Susan Burke
Date: February 22, 2026 8:49:43 am

In light of the need for the White House to have a gathering space please consider the proposed design in light of the scale to the existing remaining building.

Name: Susan Ouellette
Date: February 22, 2026 8:53:32 am

To the Commission:
As an early American historian and the director of a museum located in an historic register building, I feel compelled to express my extreme disappointment in the way that the White House has been desecrated. The proposed project should have been properly reviewed, presented to the public for comment BEFORE the destruction of the East Wing. This is not Donald Trump's private residence, it is the People’s house and he is only a tenant.
The proposal for a huge ballroom attached to an 18th century building is ludicrous. Responsible public stewards would not have initiated such an ill advised and irresponsible act.
Sincerely,
Susan Ouellette

To whom it may concern, I respect the need for upkeep and renovations over time, I also respect the history of a building and the serious conversations that can happen in our historic buildings. As someone who has worked in and around the White House for over 30 years, the need for a 90,000 square foot ballroom is beyond me. There is no way serious conversations can happen in rooms of that size, an invitation to the White House continues to be a high honor. It was never intended to host the masses. Architecture alone dictates form follows function, one of the Great Georgian Houses of America! And in our 250th anniversary - I am appalled at the lack of historically oversight! History has a way of leveling the playing ground for self serving leaders, I beg you to err on the side of appropriate construction that is fitting of our past, present and future, not on the whims of arrogance and ignorance!

Daren Thomas
Washington, DC
Boone, NC

Name: Jenny Schrom
Date: February 22, 2026 8:59:38 am

The demolition of the East wing prior to legally required reviews and public comment for changes to the people's house was abominable. The building cannot now be restored to its original form, but any future building MUST be under such a review and public input. Any new building should absolutely match the historical architecture of the White House and other significant US historical buildings in Washington DC. Such building should be elegant, as is the fitting the people's house, but not garish or opulent, as has been suggested by the current president. Such a building would be unbecoming to the United States of America. All building should be first approved by this body and built with taxpayer funds so the United States government is not beholding to any private entity. Anything else is inconsistent with our democracy. This house belongs to the people, not the current resident and not future presidents.

Name: Ann Levy
Date: February 22, 2026 9:02:26 am

I oppose spending $300 million on this project. It was started without proper authorization or review. This is a complete destruction of history which was illegal. This project should be cancelled and the East Wing should be rebuilt and restored to it's former design.

Remember the East Wing of the White??

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. Is this a modernization project? No, rather a complete razing of American history. I want this project canceled, please.

Name: Brooke Thomas
Date: February 22, 2026 9:23:04 am

As a long time DC area resident who worked in the east Wing and has also done work in the field of antiques, I object to the size of the ballroom. I respectfully request that the largess of the facility should not undo the beautiful symmetry of the drives and hope it will stand significantly below the height of the main residence.

The capacity of the ballroom should not be bigger than 500 people, which would allow higher capacity events than tents on the lawn but not become as physically overwhelming as what was recently presented. As the plans stand, the ballroom, quite frankly, resembles a soulless hotel conference space not fit for the history of our country.

Name: Diana Vasilakis
Date: February 22, 2026 9:24:03 am

The East Wing ballroom design is lacking the aesthetic fit required by the commission for the White House and grounds, the people’s house. The enormousness of this building will ruin the White House’s historic and elegant design and alter

the Olmstead designed elliptical path. This entire process has disregarded the approval requirements and should be reigned in or scrapped altogether.

Name: Dana Gers
Date: February 22, 2026 9:24:47 am

I strongly oppose the proposed design for the east wing ballroom extension to the White House. The disregard for proportion to the stately and iconic original White House structure along with the tacky pomposity of the design would turn America's home into tasteless catering hall.

Name: Piper Reimer
Date: February 22, 2026 9:29:33 am

To whom it may concern:

I adamantly oppose the spending of $300 million on this project, initiated without the proper authorization, permits, or design review. This is NOT a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. Thank you.

Name: terry hussey
Date: February 22, 2026 9:37:27 am

I strongly object to the proposed building of a ballroom attached to the White House, taking the place of our beloved East Wing. . I objected to tearing down the historic East Wing as well, in particular as it was done without authority and without U.S. citizen concurrence. The White House, with the wings, is iconic and beloved. The proposed structure (ballroom) is wildly out of proportion, too large and gaudy. Even if a case could be made that the U.S. should have a facility to entertain foreign guests/dignitaries, the architecture of the proposed building is not acceptable. It will overshadows the White House itself which should be the focal point of the overall site. Having empty ground would be better than a building that would dwarf the White House and degrade out Nation's capital. It makes me terribly sad that the East Wing was demolished illegally - it makes me mad that a grotesque monster of a building is illegally planned to take its place. I want to thank the National Trust for insisting that the legal process for WH renovations is followed.

Name: Paul Grumley
Date: February 22, 2026 9:38:39 am

I am opposed to the present plan. The proposal should be reviewed and analyzed by the appropriate boards and committees. The final plan should be consistent with National Trust guidelines. The decision about how to proceed should not be made by one person. The East Wing should not have been torn down before the plan went through the appropriate channels. Thank you for your efforts. Stand firm!

Name: Anita Morgan
Date: February 22, 2026 9:44:30 am

I thank you for the opportunity to submit comments concerning the proposed ballroom addition to the White House. Please stop the work on this project until a more fitting plan can be researched and approved. The decision should not be made by a group of people loyal to the fantasy of the person who resides in the White House. Thank you again for listening to the American people who have respect for our history and want to celebrate with less grandiosity.
Anita Morgan

Name: Pamela Strassberg
Date: February 22, 2026 9:48:08 am

Dear Fellow American, Our US history should not be for sale to the highest corporate bidder. The tRump administration did not follow code of conduct during their destruction of the East Wing of the Whitehouse and they should not be allowed to continue their grotesque rebranding of the people's house. We the people want affordable and quality child care and health care, environmental regulation to protect our health and planet, as well as an end to human rights violations by DHS. We the people do not want the White House turned into another site for the super wealthy to party on tax payer dollars. We need real oversight of the destruction of the East Wing, not some feckless tRump appointed "yes men" to decide the fate of this American historical site.

Name: Kevin Dietz
Date: February 22, 2026 9:48:20 am

Not one person wants or needs this. The ballroom will be a monument to Trump. Jobs are being lost, the economy is slowing down, and the president wants to build a ballroom that the majority of Americans will never see. It's imperative that this project is not allowed.

Name: Rebecca Crystal
Date: February 22, 2026 9:49:49 am

As a former Foreign Service Officer, I am appalled although not surprised at this administration's utter disregard for law, process and history. The current proposal for the destroyed East Wing would dwarf surrounding buildings and the White House. After 250 years, this nation does not need a grandiose ballroom. We must preserve the pre-eminence of the White House and have buildings suitable to the surrounding buildings.

That said, as a former US government employee, some buildings need updating of the electricity, plumbing, heating/cooling (retaining windows that OPEN should be a heaven-sent and commission-approved requirement), and space requirements. A venue for State Dinners for visiting dignitaries, special events and so on, with updated and secure visitor entrances and facilities are entirely appropriate AS LONG AS THEY HAVE Planning Board and Historical Board approval.

The wanton destruction and disregard for US history is simply heartbreaking. Those in charge should be held personally accountable, starting with the Oval Office, and should pay all the penalties themselves.

Any new building should be in a scale and style appropriate to the environs and keep the people's house, the White House, at center stage.

Thank you, from a loyal (retired) public servant who comes from a family that has served the US since my father enlisted at the very end of World War 1 (yes, one...he was old when I was born). He was also a US Foreign Service Officer, my mother served with the US Army in occupied Japan and then as Foreign Service Staff, my half brothers were Marines, and my husband was also a Foreign Service Officer. Please SAVE the People's House, the White House, and its attached workspaces including those required for visitors and State events.

Name: Pam Lanham
Date: February 22, 2026 9:53:09 am

DESTRUCTION of the EAST WING of the White House without review, permits, or Congressional oversight VIOLATED THE LAW. The White House is a National Historic Landmark and a National Park. The American people own it.

The National Capital Planning Commission should require any reconstruction of the East Wing to match the historic design and size of the original structure and be funded only by Congress. If Congress does not approve funding and a design keeping with the building's historical character, the land should be left vacant.

Name: Deborah Cleary
Date: February 22, 2026 9:53:54 am

Thank you for inviting comment. The destruction of the East Wing without appropriate approvals is a travesty, and must not be rewarded by allowing the construction of the architectural monstrosity that Trump is planning.

A new building must be built to replace the current devastation that Trump has wrought. This should be led by architects who specialize in historic construction, not by Trump. It is NOT his house. The building should be APPROPRIATELY sized, designed and decorated in keeping with the dignity of our Capital. If truly warranted, event space should be included but not to the point of drastically expanding of the footprint. Of course, any security features that are crucial should be included.

Thank you. Please do right by the American people. Trump will not be in office forever, but the people and the dignity of our Democracy will endure.

Name: Jeffrey Strand
Date: February 22, 2026 10:01:09 am

I oppose the East Wing Modernization Project begun without proper Congressional or National Capital Planning Commission or any public input or review by President Trump encroaching on authority granted to other branches under the U.S. Constitution. The project should be halted and the ballroom for billionaire oligarchs should be denied. This is yet another illustration of the lawless behavior of a President who claimed no knowledge of Project 2025, but who since his election has pursued ALL aspects of the plan to create a unitary executive akin to an authoritarian king or dictator. The Trump plan is grandiose, has already partly destroyed aspects of the "Peoples' House," and should be permanently halted. We do NOT need to spend hundreds of millions on a ballroom for billionaire oligarchs while the working poor and disadvantaged among US our systematically cut off from health care, food assistance SNAP, and other social welfare programs are cut by Republicans and Trump.

Just say NO to continued desecration of the White House of the United States of America!

Name: D Ryan
Date: February 22, 2026 10:04:14 am

This is a joke, we are supposed to be a democracy, not a KINGDOM we do not need a PALACE. Leave the White House alone. It is ridiculous that this excuse for a President stacked the commission for his approval. You know 99% of the public is against this. Honor the US citizens, not this "Kingdom".

Name: Keith Heinrich
Date: February 22, 2026 10:05:36 am

Pierre Charles L'Enfant, the architect of Washington, D.C., originally envisioned the White House as a massive palace for the President of the relatively new United States, a vision that did not fit with the new Nation's ideals of a government "...of the people, by the people, and for the people," as so famously stated by Abraham Lincoln. L'Enfant was dismissed and a public competition was held to determine the design. James Hoban won the competition with a much more restrained design, representative of the young democracy. The early years of the nineteenth century saw the building burned by British troops during the War of 1812. Hoban was brought back to rebuild the White House, even reusing the ornamentation that had been scorched. The 1820s saw the construction of porticoes on the north and south sides of the building, both, again, overseen by Hoban. 1902 saw the construction of the West Wing by President Theodore Roosevelt. The scale and massing of this new construction ensured that it was subordinate to the White House and did not overwhelm the original design and appearance of the White House. 1942 saw the construction of the now-demolished East Wing by President Franklin D. Roosevelt. Again, the scale and massing of this new construction ensured that it was

subordinate to the White House and did not overwhelm the original design and appearance of the White House. The discovery of structural weaknesses in the 1940s, under President Truman led to the gutting of the interior and its reconstruction with stronger modern materials. This was done to make sure the White House retained its exterior appearance and design for generations. Also under Truman, a balcony was added to the second story of the south portico. While a change, it did not overwhelm the portico. All of these renovations and additions respected the original design and appearance of the White House, while ensuring that it adapted to changing needs. Clearly the White House has changed and I recognize that those changes were necessary as the needs of the government changed. All I ask is that the changes proposed to accommodate larger functions respect the original design and appearance of the White House. A new place to gather and a design that does not overwhelm the White House are not mutually exclusive. I ask that you reconsider the current ballroom plans and create an addition that adds to the White House complex without detracting from its original design and appearance.

Name: Marie Zito-McCain
Date: February 22, 2026 10:06:58 am

I oppose spending $300 million on this project which was not vetted through normal permitting procedures. An independent committee, not appointed solely by the President who wants approval should be overseeing the feasibility and design process of such an historic renovation of a public space.

Name: Darren Mckeeman
Date: February 22, 2026 10:07:36 am

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: James Conte
Date: February 22, 2026 10:13:35 am

This is completely disgraceful and you all know it. This is not Trump's tacky vanity project, it's the White House and you're not even attempting to honor its architectural history or significance, and there purely from an aesthetic point of view. It's meaning is much deeper than its facade.

James

Name: James Asbury
Date: February 22, 2026 10:14:22 am

The destruction of the East Wing is disgraceful and tragic. The proportions of any addition or modification must be in scale with and in accordance with the architectural specifications that will not dwarf the existing White House. The interior needs to be in keeping with the original style of the complex, before the current administration's renovations and the gold leaf decoration. All renovations must be approved through the proper channels. If it entails sealing off the destroyed east side of the White House until a future administration can respect the White House and work responsibly through the proper channels for appropriate approval and guidance, then the renovation must be put on hold.

Name: John Maloney
Date: February 22, 2026 10:17:14 am

The proposal for the changes on the grounds of the White House should be simply based on scale, appropriateness and established process.
If the White House requires larger, entertaining space, it should absolutely be studied and proposed. Funding should be approved by Congress and transparent to all.
James Hoban’s original design of a dignified and restrained residence needs to be kept in mind. At the same time, that was for a nation vastly different than the one we are in today and that too needs to be taken to consideration.

Issues of scale—which the current design ignores— need to be addressed.
The White House grounds are limited by the exponential growth of our nation since it was originally conceived and the city that surrounds it.
It may be that a separate entertaining pavilion needs to be constructed in an area unrelated to the current location.
Shoehorning in a building that is out of scale does damage to the existing residence and the surrounding area. Like the enduring beauty ofParis, the avenues and vistas created by L'Enfant's original plan need to be kept in mind during the planning process
I am not against the project. I am against the current execution that is planned. We, as citizens of the US, deserve better than what is being proposed and pushed through in a very 'back alley' way.

Name: Sarah Kingsley
Date: February 22, 2026 10:17:43 am

I absolutely oppose spending hundreds of millions of dollars (estimated $300 million) regardless of the source of funding to rebuild the East Wing as a ballroom. The beautiful and useful East Wing was torn down without the proper authorization, permits, or any kind of design review. I the proposed design is not representative of the US people. It is a gaudy tribute to one person and to the elite, It does not equally represent the citizens of this wonderful country. And they are not only use of this space will be to spend US tax dollars entertaining a small group of elites and troubling leaders of other countries.

Return it to a space for the First Lady to work. Return it to a reception area for all people to be receive into the people's house. Return it to a space that serves this country.

Name: Deborah Chanen
Date: February 22, 2026 10:25:48 am

I oppose the tearing down of the East Wing & converting it to a ballroom. It is a part of American history & should have been preserved. It was torn down without appropriate authority. It should be put back as it was.

Name: Sara Tyler
Date: February 22, 2026 10:29:04 am

The White House, including the West and East wing, belong to the people of the United States. It is a symbol of historical significance. The East Wing should be rebuilt in a way that matches the style and scale of the historic building. Adding a new wing that dwarfs the original White House is a mockery of it's significance to the American people. This project should not be allowed to move forward with the original proposed plans. Revised plans, taking account the historical significance of the building and keeping the new East Wing in scale, should be submitted for approval.

Name: Sharman Schauff
Date: February 22, 2026 10:30:01 am

This president has already destroyed the historic Rose Garden and continues to destroy the historical White House. While thousands go hungry and America has so many real needs, he proposes to spend millions on an unnecessary project which will likely include portraits of himself. The Kennedy Performing Arts center has come under his attack in once again trying to put his name all over America. Leave America's historical beauty alone.!

Name: Diana King
Date: February 22, 2026 10:38:39 am

This is NOT a modernization of the East Wing! Call it what it is! As Google would call it, "The Gilded Void", "The Hallow Pavilion", "The Elite Epoch Ballroom", "The Irony Pavilion" or "The Ozymandias Room"

I want this project canceled and The East Wing rebuilt and restored to its original design! No one is above the law and especially this Administration, who is very accurately described as a Kakistocracy!!

This $300 million dollars used for this project should be given to the people in need no matter where this money comes from!!

Name: James Thomas
Date: February 22, 2026 10:39:00 am

Rebuild the East Wing the way it was before its demolition

Name: Michael Sodano
Date: February 22, 2026 10:40:07 am

The White House , including the East Wing, is a National Monument. One man, even if he's the President, should NOT have the sole decision making process in its replacement. He's stacked the Commission of Fine Arts with his sycophants that have rubber-stamped approval on the project and we need to ensure that going forward the ballroom, while perhaps needed, does not visually overtake the People's House. This is NOT Versailles. This is NOT Mar-a-Largo. This is NOT a private residence. Trump has transformed the Oval Office with his "golden touch" and that can be reversed. However the $400 million replacement structure as designed cannot simply be reversed (and he knows that).

We cannot let a failed developer have the ONLY voice in the design and development of a new structure to the People's House complex. He bulldozed the East Wing without oversight. Let us not have the construction of what replaces it be approved without listening to professionals who can design a "right-sized" addition to the complex.

Date: February 22, 2026 10:49:41 am

I am astounded and appalled by the proposed East Wing on the White house both because the public and appropriate historic preservation agencies were not consulted, and also because the scale and design are jarring and inappropriate for the building. I understand that there needs to be space to entertain heads of state and dignitaries, but it doesn't need to be either part of the building (it could have been on the property, unattached) or it could have been elsewhere in D.C. Destroying a historic building - arguably the most notable public building in the U.S. - is completely unnecessary and frankly doesn't seem like something a president should have the right to do.

I would like to express my opinion that the removal of the East Wing has shown the American people that the administration has no respect or consideration, for the wishes of THE PEOPLE or the laws of our great county. The American people neither need nor want a ballroom or, an underground bunker.
The PEOPLE want the administration to uphold the law and the Constitution of The United States of America for the people it serves.

Who will cover the cost of maintaining this huge building? The donors or the people? I imagine it will remain empty most of the year.

Thank you for considering my opinion.

Name: Elizabeth Dunn
Date: February 22, 2026 11:02:36 am

The White House belongs to every American. It does not belong to its occupant.
The destruction of the East Wing was an assault on its owners, including me. The “ballroom” proposed as its replacement is a monstrosity. Its size is disproportionate to the remaining White House and overwhelms its proportions. Also, it is grossly inconsistent with the classic elegance of the White House and the balance it used to represent.
Future occupants may desire larger quarters for events, but destroying the East Wing and building the equivalent of a temple to the current president isn’t the answer. Previous Presidents have managed to entertain foreign dignitaries without destroying the symbol of American Presidents.

Name: James Aitkenhead
Date: February 22, 2026 11:04:56 am

National events shouldn’t be held in a tent. I support having a real, opulent ballroom for National social events and presentations.

Name: Charlene Miller
Date: February 22, 2026 11:07:18 am

I don't not support the building if a ballroom and did not support destruction of the East Wing. I believe DJT should personally pay to have it restored.

Name: Christopher Urban
Date: February 22, 2026 11:11:24 am

Hello,

My name is Chris Urban, I am a registered Architect in Pennsylvania and West Virginia. Throughout my career I have worked on numerous historic structures, and my education at The Catholic University of America also gives me a perspective on the architecture character and history of our nations capital. I would be happy to provide further statement but I will keep this comment brief. As a professional Architect I am foremost appalled by this administration’s blatant disregard for one of our nations most cherished buildings and unwillingness to listen to the will of the people. I wish I could say it is surprising but we have seen time and time again that this administration believes they are above the law and exempt from the all checks and balances. Not only did the administration ruthlessly and ignorantly demolish a historic structure, but now they intend to replace it with a “ballroom” for the elite upper class which is not only garish in appearance and form but completely out of contextual scale with the existing building and surroundings. This must not be allowed to proceed without significant redesign. The intent here is clear: overpower the existing White House with a new ballroom that will bear Trump’s name and “legacy”. The United States of America does not have a king. It has a President elected by the people, for the people. If this project is allowed to proceed without true due process and consideration of the public opinion it will be a blight on our Nation’s Capital and history.

Thank you,
Christopher Urban, AIA

Name: Patrick Fitzgerald
Date: February 22, 2026 11:13:30 am

I am writing in opposition to the proposed ballroom addition, which is far too large, and disproportionate to the current White House. The Executive Mansion, also known as The White House, or People’s House is a national treasure and symbol of American democracy. It is essential it remain the centerpiece of the existing 18 acre site. The new ballroom proposal overwhelms the White House because the proposed ballroom is far too tall, wide, and deep. It must be much smaller than the current proposal. The proposed capacity is too large. Instead of 1000 people consider 250. The proposed ballroom, at grade level, should not exceed one storey, and if possible part of the structure should be set underground. Please encourage a design for a lesser capacity, smaller dimensions, and balance the ballroom with the West Wing. The old East Wing and West Wing were in harmony with the central Executive Mansion. Please work to achieve a similar harmony, for the best interests of the country, and for future generations.

Sincerely,
Patrick Fitzgerald

Please stop this travesty. The Whitehouse is a universal symbol of America and democracy. There must be alternatives.

Name: Lucinda Bartley
Date: February 22, 2026 11:19:55 am

First, the East Wing is not being “modernized.” It no longer exists. Second, the People’s House and the American people who allow their elected officials to work and live there deserve more respect. The system for architectural, historic, and environmental review exists to protect our shared cultural resources from autocratic whims. I’m outraged that this administration’s ridiculous fantasies about grand architecture are being carried out without any meaningful guardrails to protect the public interest. Third, substantial renovations to the White House, or the Capitol, or the Supreme Court Building, as the symbolic homes of the three branches of our government, must be planned with integrity, longevity, balance, utility, safety, and stewardship in mind. This project is rushed, for no reason. This project is partisan, for no reason. A project of this scale and importance to the nation should have been years in the making—I have zero confidence that the proposed plan reflects a thoughtful understanding of the needs of the historic building, of the staff who operate it, of the executive branch that is based there, or of the people who allow their president to use it. I work in an industry that does public design work—we take public engagement very seriously. The public is telling you that they are disgusted by the way the East Wing was demolished, disgusted by the rush job of designing a replacement, and disgusted by the absurd, overweening, out-of-scale structure that is being proposed. It is unnecessary. It is grotesque. It is embarrassing. I ask you to reject the current proposed plan and listen to the public. The nation is fortunate to have world-class architects, historians, landscape architects, planners, and designers. Listen to them. We do not have to accept this—the people do not want it, and I do not want it. I want to be proud of my nation’s capital city.

Name: Tom Ingersoll
Date: February 22, 2026 11:21:50 am

This is a vanity project of the current president, at best. Non-union crews have done his bidding, with funds donated by Big Tech, Crypto and Military Contractors. There is nothing in this for the People, now or later.

Trump's blatant disregard for systems, process, and discussion fly in the face of values held dear by generations of Americans. On grounds of procedure alone, permission should be denied for further work.

The administration's response will likely be something like this: "Well, we can't just leave it looking like this."

We can, and maybe we should, for a while, so the People can see what happened, and learn why.
And so that a non-partisan committee can propose, discuss, refine and find consensus on a solution.

My opinion: The World does not need another symbol of Romanesque conquest and opulence. We're America: Let us do something independent and progressive, such as planting a little forest of native trees to provide shade, filter air, and create habitat for birds and bees.

Name: Debra Greer
Date: February 22, 2026 11:22:44 am

The proposed plans for the proposed ballroom are horrendous! This massive structure completely dwarfs the stateliness and elegance of the White House. That’s MY house you’re trying to change. Go back to the drawing board, please. Do better!

Name: George Weaver
Date: February 22, 2026 11:23:11 am

Comon guys. I’m a landscape architect and one of the base tenants of good design, through the centuries, is genius loci. This proposed project is the antithesis of that. Horrible scale, detailing that has no reference to the original structure, completely forgetting the entire concept of “the people’s house”.

DC has some amazing event spaces (National Building Museum) that using those would be far better stewards of the DC built environment.

It is terribly troubling that one person can dictate the unnecessary and simply aesthetically grotesque enlargement of the

simplest of state residences. This is not Versailles….

Rip Weaver, CLARB, PLA
Landscape Architect

Name: Ira Beckerman
Date: February 22, 2026 11:26:16 am

I speak as a historic preservation professional with 40 years of experience in both Maryland and Pennsylvania. I have a PhD in Anthropology from The Penn State University with a specialization in archaeology and have worked for governmental agencies for over 30 years as well as having previously served on my State's Historic Preservation Board. I believe the destruction of the East Wing of the White House was both capricious and illegal. There is a standing Federal Lawsuit over it, which as of this moment hasn't been decided. In no uncertain terms, the construction of a 90,000 square foot ballroom should not be undertaken at that spot. Instead, the Federal Government should undertake to reconstruct the East Wing as it was in 2025, both in plans and materials. National Park Service Standards for Reconstruction should be followed. Presumably, the East wing has been fully documented, so that plans for its reconstruction should be available.

Reconstructing the East Wing resets the conversation over the current and future use of the East Wing in such a way that a legal path forward toward any renovations can be taken. This path should include the same public and congressional notice and involvement that previous major renovations to the White House have taken. To entertain discussions of a ballroom or any future use of the space at this time and in its current condition is to condone the illegality as a fait accompli. The full reconstruction of something so recently destroyed may seem counterintuitive; but there is no other moral option that keeps to the principals on which this Nation was founded.

Regarding the cost of the reconstruction, previous commitments by named and unnamed private donors should be declined, as an obvious conflict of interest in those donors holding or seeking government contracts. The unfortunate and needless cost of this reconstruction must be borne by the American People, as appropriated by Congress. However, to the degree that the pottery barn rule can be invoked, it should (see Colin Powell).

Name: Lynne Goldman
Date: February 22, 2026 11:26:29 am

I oppose the East Wing Modernization Project. The $400 million initiative moved forward without approval from the National Capital Planning Commission, without the required environmental reviews and without the congressional authorization federal law mandates for construction on parkland in Washington. Those failures should not be excused through retroactive approval.

The project's financing raises serious conflict of interest concerns. Corporations with billions of dollars in active federal contracts under this administration are contributing to a construction effort at the president's residence, even though that same president oversees those contracts. This is not philanthropy. It is an investment in access and potential preferential treatment.

The White House belongs to the American people, not to any single officeholder. I urge the Commission to reject the proposal until it fully complies with the law, including securing congressional authorization and completing environmental assessments. No temporary occupant should have unilateral authority to demolish historic structures without adhering to established legal requirements.

Name: Mary Stockdale
Date: February 22, 2026 11:26:44 am

The demolition of the East Wing was a systematic flaunting of the rules and procedures guiding the management of public buildings. Now that President Trump has stacked oversight boards with individuals loyal only to him, the NCPC is the last bulwark against further destruction of the "people's house." Public opinion is firmly against the construction of an outsized ballroom to benefit the powerful and wealthy. We ask that you rein in these grandiose plans to maintain the architectural character of the White House, rather than to stroke the ego of the character who currently resides there.

Date: February 22, 2026 11:33:00 am

As an interior designer with 25 years of experience, a member of the Institute of Classical Architecture & Art (ICAA), and someone who has worked on historic and high-end residential and commercial properties, I am deeply troubled by the proposed scale of the White House ballroom expansion. The governing framework for any work on historic properties, the Secretary of the Interior’s Standards for Rehabilitation, is explicit: additions must be subordinate to, and compatible with, the historic character of the original building. This proposal fails that test entirely, and notably, even the National Park Service’s own environmental assessment concluded that the structure will ‘disrupt the historical continuity of the White House grounds and alter the architectural integrity of the east side of the property.’
The proposed 90,000 square-foot footprint, nearly double the size of the existing executive mansion, dominates rather than defers. It distorts the South Lawn’s iconic driveway, disrupts the views from the South Lawn that have been carefully preserved for generations, and requires the removal of historic magnolia trees planted in the 1940s. In design, programming drives scale, meaning the size of a space must be justified by its actual use. The White House already accommodates large state dinners and ceremonial gatherings in its existing spaces. No credible event planning or hospitality standard supports a structure of this magnitude.
This proposal bypassed the independent reviews, congressional approval, and public comment that have governed every major change to the White House before it. That alone should give every American pause.
This should be reconsidered.

Name: Timothy Piper

This project is a disgrace and a violation.

Name: Anthony Lindsay
Date: February 22, 2026 11:39:30 am

Good Day,

I feel this project is an absolute waste of American taxpayer dollars. An historic piece of our Capital's history has already been irreversibly destroyed as part of this project. We have no shortage of beautiful, historic event spaces to host State events. The size of this addition is also ridiculous. It looks tacky and out of place to its surroundings. Even the released plans to try and make it look good make it look out of place.

Thank you,
Anthony Lindsay

Name: Kathy Sandler
Date: February 22, 2026 11:39:40 am

Hello,

As a designer and student of Historic Preservation, I must use my voice to oppose the approval of the East Wing Project as proposed.

The proportions of this addition are GROSSLY out of scale with the remainder of the White House, one of my favorite historical sites.

While I believe the demolition and destruction of the East Wing without going through the proper process, what’s done is done and is imperative to ensure that what is rebuilt be in proportion with the existing structure.

Allowing this addition to be built with its proposed design will dwarf the existing structure and destroy one of the most beautiful and historic buildings in Washington, DC.

Please do not let this place be ruined anymore than it already has been. Thank you.

Kathy Sandler, ASID Allied, WELL AP

The unlawful destruction of the East Wing is sheer blasphemy. The White House is the People’s House. Construction of the megalomaniac’s “gilded age” monstrosity must be stopped. Beyond being yet another self-tribute, it is a violation of laws respecting the preservation of American history.

Name: Eileen Lovell
Date: February 22, 2026 12:05:45 pm

I am outraged at the destruction of the East Wing without public input. My mother, a lifelong republican and American history aficionado, would be so outraged at this capricious action for self aggrandizement by this administration. I understand that updates to the East Wing were probably necessary. I am sure that the modernization could have occurred in a more historically sensitive manner. I want architectural historians with no affiliation or indebtedness to this administration to help with designing an historically respective rebuild of the East Wing.

We the People want our historical buildings back!!!

Name: Melayne Cohen
Date: February 22, 2026 12:13:40 pm

I am writing to oppose the proposed plans for constructing a new ballroom in the White House East Wing. This project raises significant concerns about transparency, fiscal responsibility, and compliance with federal preservation law.
The proposal appears to disregard important public participation requirements under the National Historic Preservation Act (NHPA), which mandates consultation and review for alterations to properties listed or eligible for listing on the National Register of Historic Places. The White House, as one of our nation’s most significant historic sites, should not be subject to unilateral decisions that bypass these critical safeguards.
The scale and nature of the proposed ballroom are inconsistent with the architectural and historic character of the East Wing and risk undermining the integrity of a site that symbolizes the continuity of American democracy.

Moreover, despite assurances that private donations may support the construction, experience shows that federal funds—and by extension, taxpayer dollars—inevitably cover costs related to security integration, operations, and maintenance. This is an improper use of public resources for a project that lacks demonstrated necessity or public benefit.
I strongly urge the National Park Service to deny approval of this project as currently proposed, require full compliance with the NHPA's consultation and review processes, and reopen the proposal for robust public comment and independent preservation review. The American people deserve transparency, accountability, and respect for the historic stewardship entrusted to the National Park Service.

Name: Howard Perdue
Date: February 22, 2026 12:15:45 pm

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Liz Ryan Cole
Date: February 22, 2026 12:18:34 pm

stop this rolling disaster. A legal path forward toward any renovations must be taken. The Federal Government should undertake to reconstruct the East Wing as it was in 2025.

Name: Frank Lock
Date: February 22, 2026 12:19:50 pm

The current President, like every other before him, does not have the right to change National Icons on a whim! The house he currently occupies does not belong to him. It belongs to the people of the U.S. now, and in the future. What he is doing to the White House, is desecrating history. It is important that he understands that what he is doing, like all the the foolish things he has done, will be undone by his replacement, appropriately. His tastes are vastly different from the tastes of the average American. The average American does not want gaudy.
His proposals for the renovation of the East Wing must be stopped. The White House is The People's House and must reflect the desires of the people. Thank you.

Name: Robert Martin
Date: February 22, 2026 12:22:14 pm

The White House belongs to all American citizens and is "leased" to the elected President to live in during their term of office. There is a budget for painting and decorating while the President lives there.

There is no precedent nor budget for tearing down the East Wing and building a ball room.
The recent tear down is a criminal act as it has defaced a building belonging to all Americans.

The East Wing should be restored to its previous state and the restoration cost should be paid by the Trump family.

Name: Linda Krause
Date: February 22, 2026 12:23:30 pm

I want our White House preserved and trump should have to pay out of HIS money to have it put back to the original design. It's a travesty, what he's done to our beautiful White House. It is OUR White House not his.

Name: Carol Capper
Date: February 22, 2026 12:25:16 pm

I oppose the spending of $300,000,000 on the "East Wing Modernization" project. This is not a modernization project. It wasn't necessary. It's not modernization. It's a tribute Trump is giving to himself and his billionaire friends. It was never approved, did not go through the proper channels. I would like any money donated to this project to be used for restoring the former building, not a ballroom dedicated to Trump. Thank you for your attention.

Name: Donna Bean
Date: February 22, 2026 12:27:27 pm

I oppose the proposed 90,000 sq ft ballroom. The size is excessive and will detract from our historic White House. A better plan would be to rebuild the East Wing that torn down without any input from the public.

Name: Brennan Shearer
Date: February 22, 2026 12:28:00 pm

Members of the Commission: All visible and public interior and exterior structures and decorative pieces of the East Wing should be rebuilt to look exactly as it did before it was unlawfully destroyed by the President. If the underground part of the structure out of public view needs to be updated, no problem. Trump should be made to pay personally for this rebuild in its entirety, since he is solely responsible for the current mess. This is very disappointing that it was bulldozed for the purpose of greater entertainment for an administration that has left than 3 years left in office.

Name: Cheryl Franklin
Date: February 22, 2026 12:30:12 pm

I oppose the demolition of the East Wing, which spends $300 million initiated without proper authorization, permits or design review. This is destroying history to boost Trump’s ego. The East Wing needs to be rebuilt as it was! Trump is NOT above the law & abused his power to get this done bypassing the LAW!!!

Name: Vivian Comer
Date: February 22, 2026 12:34:46 pm

Rebuild the East Wing as it was, before djt had it torn down, at djt's personal expense and without him or anyone supporting him involved in the reconstruction & interior refinishing.

Name: Cassandra Bannecke Pettay
Date: February 22, 2026 12:37:51 pm

Restore the exterior dimensions and architectural style, update wiring etc. and make interior ADA accessible where possible.
Follow past process for making needed but historically sensitive changes.
If a ballroom is needed, construct it elsewhere in the city.
Do not allow special interest funds to influence or pay for the rebuilding.

The White House is the people’s house!

Name: Monica Zukrow
Date: February 22, 2026 12:38:10 pm

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project

canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Holly Garner
Date: February 22, 2026 12:41:17 pm

I fully oppose the East Wing Modernization Project.
This aggressive project began without required National Capital Planning Commission approval, without environmental assessments mandated by the National Environmental Policy Act, and without congressional authorization required by federal law for construction on federal parkland in Washington.
The $400 million cost is funded by corporations seeking favor because they hold billions in federal contracts that the administration must approve. This creates an unacceptable conflict of interest.
The White House is not private property. It belongs to the American people. No president should have unilateral authority to demolish historic structures and approve construction without following the law and allowing public input.

I urge the Commission to reject this shameful proposal.

Name: Jane Galvin
Date: February 22, 2026 12:42:45 pm

Please vote to approve a scaled down version of the proposed white house ballroom. The current proposed size is too large and not in keeping with the existing structure of the White house.
The project is disruptive to the design of the existing areas and needs to be dramatically scaled back.
Thank you.
Jane galvin

Date: February 22, 2026 12:42:47 pm

Regarding the East Wing of the White House-

I STRONGLY oppose the spending of $300 million on this project, which was initiated w/out the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project CANCELED, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be A DISGRACE TO OUR COUNTRY!

Name: Richard Cooper
Date: February 22, 2026 12:43:09 pm

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Karel Reeves
Date: February 22, 2026 12:50:49 pm

I oppose the spending the East Wing modernization project, which was initiated without the proper authorization, permits, or design review. It was destruction of our American history. I hope you vote to cancel this project, require the East Wing to be rebuilt and restored to its former design. To permit this project to go forward without consequences for breaking the laws would prove to regular citizens that there are those who are above the law if you are wealthy or powerful enough. The rules and regulations that govern permitting are there for a reason and they should be followed by everyone.

Name: Kathleen Peach-Cassidy
Date: February 22, 2026 12:56:18 pm

For decades my family and I have had such respect for the history of the White House. In 1999 my family and I loved our tour of several beautiful rooms of the American people's house.
Although improvements to rooms in the White House in past decades have been well-considered and acceptable, what our current president is demanding in transforming the East Wing from dignified, respected spaces into a gilded, opulent ballroom at the now cost of $400 million is beyond belief.
The American people resist this shameful degradation. Please stop this project. Restore the East Wing to its previous uses and beauty.
Thank you for listening to us.

Name: Elizabeth Thompson
Date: February 22, 2026 1:00:56 pm

The East Wing project should be stopped immediately. The historic structure that formerly occupied this space was installed after much review and consideration and had historic value. The current project does not meet any of the criteria considered in the master plan for the White House, and offers little value. Its size and stature diminishes the main building, constructed in 1800 and changes the character of the Presidents House and office. The White House only hosts 4-6 events a year that would warrant the capacity the new building is being constructed for and the cost of furnishing, maintenance and utilities are a significant burden to taxpayers.

Please stop this project now. If it is truly needed, it should be added to the Capital Improvements Plan for the White House and go through the same review and approval process as any significant project that has an impact on the taxpayers.

Thank you,
Elizabeth Thompson

Name: Erik Levy
Date: February 22, 2026 1:01:29 pm

Great idea!

Name: Mary Weber
Date: February 22, 2026 1:01:53 pm

It is despicable that this narcissistic person who currently occupies 1600 Pennsylvania Ave has destroyed the East wing with no permission and with the purpose of building yet another worthless thing to glorify himself. No one, other than him wants a ballroom that is twice the size of the White House. Just restore the remaining facade and fine him for the destruction he has caused.

Name: Elizabeth Treadway
Date: February 22, 2026 1:02:33 pm

The damage done by the sitting President is unprecedented. A travesty has been perpetrated on the American people by the destruction of the East Wing to replace it with a vanity project of Trump. He has no regard or respect for the history of this nation and the historical nature of our monuments and the White House itself. A ballroom that is not needed - the White House is not a gathering place for the rich and famous to be feasted in luxury and gold. It smacks in the face of all we've stood for and all we should honor. Renovations should face the test of historical preservation - not ego driven waste of money. Rebuild the East Wing - modernize as needed but a wasteful ballroom does not represent the values of our nation.

Name: Leah Renzi
Date: February 22, 2026 1:03:00 pm

The White House is the people’s house and should not be altered in such a significant manner to meet the whims of any single President. The proposed alterations do not increase education or express collective values of the American people. It should immediately be stopped. Additionally, all construction efforts should not impede on other public lands like the East Potomac park. Shame on this administration for believing the destruction of public property for limited use for foreign dignitaries and elite American invitations.

Name: Alexander Scheufler
Date: February 22, 2026 1:04:14 pm

Having completed a dozen historic home restorations primarily within historic districts in Boston, this project is a shocking departure from the norms and process of construction even adjacent to a historic district.

The illegal demolition of the east wing was alarming, and the plans for the "modernized" ballroom addition are so far out of the architectural context and scale that it is shocking it would be seriously proposed.

The design lacks balance, completely overpowering the previously harmonious and largely symmetrical structure. The deviation of the entry drive is a testament to the unbalancing impact.

Aside from the design issues presented by a firm that has a track record of abominations, the lack of standard process and replacement of experts with cronies lacking any expertise during the last approval is insane. Funding of the project by private entities and corporations functions transparently as quid pro quo bribes.

Please do our capitol, and the country a favor and reject this proposal.

Many thanks,
Alexander Scheufler

Replacement Building is to large and dwarfs the white house, forever making the white house look small and less important

---

Name: Robert Tobias
Date: February 22, 2026 1:07:23 pm

The people currently executing this project are demonstrably inept, and work should be halted immediately until competent leadership can be assigned.

The current level of incompetence is clearly shown by how much demolition work had been conducted before the public was allowed to comment. It's as if the "powers that be" believe it's easier to ask forgiveness than to seek permission. However, it is the role of this Commission to ensure adequate permissions are obtained BEFORE any work is undertaken. That shouldn't be more important than with a project that includes the demolition of a national treasure like our White House.

Frankly, I've lost track and don't know whether the NCPC is one of those groups that has been taken over by the executive branch to follow its bidding, or if it has managed to maintain a semblance of independence and continues to fulfill its duties to the American people.

Name: Eileen Brandt
Date: February 22, 2026 1:09:53 pm

I would like to offer my complete support to the East Wing Modernization Project. Officials announced on January 8th that preserving the East Wing was not viable due to structural problems, historical deterioration, and other significant issues including mold.

The United States of America has to remain a beacon of freedom and hope for the world. The White House should be a structure worthy of such honor and scrutiny, especially when hosting dignitaries and delegations from other countries.

This is a project which was long overdue and as a lifelong law-abiding citizen and resident of the USA, I am thrilled to see the ballroom being constructed at the White House through the East Wing Modernization Project. I am also proud of our President for finding a way for this project to be completely funded without using taxpayer dollars (unlike Mr. Obama's $376 million dollar project in 2010, or Mr. Biden's $50 million dollar project in 2023).

Name: Colin Wilcox
Date: February 22, 2026 1:13:33 pm

Under no circumstances should this become a single purpose ballroom. The modernization must:
1. Provide office spaces for multiple uses, practical, ceremonial, and celebratory.
2. Emphasize that the White House is the people's house, not a monument to ego.
3. Use an architecture style consistent with the main house and west wing, and be scaled in such a way that it doesn't overshadow either building or call undue attention to itself.

Name: Carol Ann Westfall
Date: February 22, 2026 1:16:27 pm

Don't let this Administration near the East Wing Grounds. This is the home of Democracy, history, and hope. Use any money collected to preserve and keep the Historic Preservation Society policing and control of cleaning up the destruction, with possibilities for a semblance of restoration. Preserve and protect in love.

Name: Art Meripol
Date: February 22, 2026 1:19:03 pm

Why call it modernization when it's really a projection of ego?
This administration will be gone before it's completed and we the taxpayers will be stuck with an unusable space to maintain.
The planned wing is not visually or structurally balanced to complement one of the most important and famed buildings in our countries history. It's overly large and should be put to a stop.

Name: Leslie Alexander
Date: February 22, 2026 1:19:57 pm

The People's House is to be governed by the people and for the people. The unauthorized demolition of the East Wing was illegal and any plans to turn it into a gathering place for The Felon's cronies is an unacceptable use of public funds ... yet ANOTHER unacceptable use of public funds.

As a voter, I cannot support the plans for a ballroom.

Name: Linda Junod
Date: February 22, 2026 1:20:54 pm

I completely support this project. Why would we not support a project to enhance our beautiful White House, especially

one that is not funded with taxpayer dollars. We have a President that understands what is needed to update and beautify the people's house and can do so with donations. We are always hearing about taxing the rich. The rich are willing to give dollars to this project and now we want to complain about it. Let this project go forward without using taxpayer dollars!

Name: Kathy Edwards
Date: February 22, 2026 1:23:42 pm

I 100 percent OPPOSE the actions taken by Donald Trump to COMPLETELY raze the East Wing of the White House. He thinks he is a God when in fact he is JUST A TEMPORARY OCCUPANT. I DEMAND that the East Wing be rebuilt with the original exterior footprint. STOP rubber stamping this fat fascist and letting him do whatever he wants. We- the American PEOPLE- own this building and do not need a hideous gilded ballroom that dwarfs the original structure that WE WILL HAVE TO BLOW UP ONCE HE LEAVES OFFICE and replace. STOP him NOW

Name: Mary Jeanne Oliva

Name: Robert Cavnar
Date: February 22, 2026 1:46:33 pm

I am writing to the Commission to express my strong opposition to the East Wing Modernization Project. The proposed palatial structure is completely out of place in terms of scope and scale of the existing building, especially where sited. The shocking destruction of the East Wing with no approvals or forethought was bad enough. To replace it with a grandiose ballroom that dwarfs the entire White House complex is an assault on the senses. The White House has a ballroom already. If a new facility is needed, at least scale it to more appropriately fit the “People’s House”, which is what the White House actually is.

Name: Gregory Jackson
Date: February 22, 2026 1:54:16 pm

I am writing to express my deep concern about the project to construct a new ballroom and make other substantial changes to the White House grounds. The proposed project
Is grossly over scaled and will significantly detract from the historic building. The architectural design further detracts from the restrained classsicism of the White House I urge you to please stop this project.
Sincerely
Gregory Jackson

Name: Susan Levy
Date: February 22, 2026 1:57:59 pm

I am heartbroken to see what has been done to our beloved White House and horrified to see what is planned with the “ballroom addition.” It is a travesty that this has been allowed to happen. The new addition will completely overwhelm the existing structure and look ridiculous. I think it should be stopped and Trump should be personally financially responsible for returning it to its original condition.

Name: Beth Kaprelian
Date: February 22, 2026 2:01:56 pm

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history.

I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Thank you

Name: Christine Rumery
Date: February 22, 2026 2:02:14 pm

This is a waste of money and a show of power from the current administration. Do not allow this decadent waste to ruin “the People’s house”. The tech boys should use their bribe money to do something good in this country. This is a dangerous precedent for any future administration to destroy anything they do not like. They are merely tenets & should be subjected to the same rules a landlord requires.

Name: Marilyn Bodnar
Date: February 22, 2026 2:02:57 pm

I oppose the spending of $300 million on this East Wing project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Jane Moore
Date: February 22, 2026 2:03:58 pm

The damage has been done without any authorization. The United States does not need another gold encrusted room designed to show dominance. The East Wing should be rebuilt at Mr. Trump's expense.

Name: Teresa Gettinger
Date: February 22, 2026 2:04:53 pm

I greatly oppose what is happening with the East wing modernization project. This president thinks he is above the law and does not have to go through proper channels to do what he wants. So far, no one is stopping him and it’s utterly shameful, harmful, neglectful and rude to allow him to continue this behavior. The White House is a deeply historical building that has been destroyed for greed. Please do not allow construction to continue. The building should be restored back to its former glory and President Trump needs to be told no.

Name: Margaret Holm
Date: February 22, 2026 2:08:52 pm

I oppose spending any money for this project, which was initiated without the proper authorization, permits, or design review. Calling the destruction of the East Wing a modernization project is ridiculous. It isn't being modernized, it was destroyed for an unnecessary ballroom. Having a ballroom larger than the White House will be an eyesore. I want this project canceled, and the East Wing rebuilt and restored to its former design.

Name: Elizabeth Fletcher
Date: February 22, 2026 2:11:19 pm

The White House is a national historic landmark. It belongs to the citizens of our nation, not to any sitting president. Any renovation should be completed only in accordance with the National Park Service guidelines. The East Wing should not be turned into one president’s personal playground.

Name: Joseph Biggin
Date: February 22, 2026 2:11:29 pm

I am writing to register my firm opposition to the actions of the President and the Administration in altering the White House. The changes are inappropriate and the process that has been undertaken so far is inappropriate.

The scale and massing of the proposed new East Wing does damage to the historic character of the White House.

I urge a stop to the current course, and then the convening of a committee to consider and propose alternative solutions, including reconstruction of the East Wing along the lines of the structure that was illegally demolished.

Name: Samuel Ireland
Date: February 22, 2026 2:14:10 pm

I am strongly opposed to the planned construction of a "ballroom" replacing the East Wing of the White House. Not only will the addition be out of scale and unbalanced as it relates to the rest of the building, such a structure is unnecessary. Since its construction, the White House has hosted an untold number of large functions within its current footprint.

While many Presidents have made changes to the White House over the years (i.e., the FDR and Gerald Ford swimming pools, Truman's bowling alley, the Obama basketball court), those items have not changed the scale or style of the White House itself. The only major exterior change that comes to mind is the Truman balcony which was an addition to the central part of the White House itself and not some appendage that matched or dwarfed the size of the main building. Further, the Truman balcony served a practical purpose in providing shade for the south portico and obviated the need for the (in my opinion) ugly awnings previously in use.

The other, and I believe, crucial point is the maintenance cost of the addition should it ever be completed. News reports have alluded to construction costs funded by private donations. While that is all well and good (I guess), will the same private donors be expected to pay for the additional heating, cooling, and maintenance of the addition? I would expect such costs to double (or more) the current taxpayer-funded maintenance costs of the existing White House. Is this really a good use of taxpayer funds?

Name: penny lee
Date: February 22, 2026 2:20:07 pm

This is the people's house. I object to this project

Name: Emily Shapiro
Date: February 22, 2026 2:20:30 pm

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Kristine Liberato
Date: February 22, 2026 2:23:09 pm

Put it back the way it was before this tyrant had it bulldozed. I don't care what they do with the bunkers underneath, but the East Wing was a beautiful part of our White House.

Name: Christina Brandt
Date: February 22, 2026 2:24:52 pm

While I understand that modifications to the building have been made by other presidents over the years, the current proposal for the ballroom goes well beyond the pale. I urge you to consider the following recommendations when finalizing plans for the structure that will replace what was so hastily torn down:

1. Restore the exterior dimensions and architectural style to what it was before the bulldozers showed up, making it compatible in scale to the west wing and main house.
2. Honor the original style of the White House with restrained elegance (i.e., refrain from gilding everything in sight).
3. Update the wiring etc. to meet current code and standards.
4. Make the interior ADA accessible wherever possible.
5. Follow the past process for making needed but historically sensitive changes.
6. If a ballroom is needed, construct it elsewhere in the city.

The White House is the people's house. Make it more reflective of democracy and less about power and grandeur.

Thank you for your attention.

Name: Karen Gritter
Date: February 22, 2026 2:27:22 pm

The east wing should never have been torn down to begin with. It needs to be fully restored at Trump's expense..

Name: Kay Dougherty
Date: February 22, 2026 2:27:54 pm

This should never have been able to happen but now that it has it should not be allowed to change the footprint or height of the original building. This is a completely needless monstrosity at a time when people are without healthcare and food. Shame on everyone who has anything to do with making this happen.

Name: Lynne Wilson
Date: February 22, 2026 2:32:10 pm

The proposed ballroom project is not keeping with the traditional style of the White House grounds and should require more thought (and approval) as this significant change will long outlast the current administration.

Name: Kara Perry
Date: February 22, 2026 2:33:48 pm

I oppose building a ballroom. I oppose allowing billionaires to directly fund a project on public lands as these are indirect bribes. I question the need for a ballroom with so many nearby hotels available for large conference spaces. A ballroom implies the government will be hosting parties not working and representing public interest.

Name: Heather DeNinno
Date: February 22, 2026 2:56:25 pm

I oppose the $300 million dollar east wing project. I demand they rebuild it as it was. This is the people's house, not the President.

Name: Terry Hughes
Date: February 22, 2026 2:56:30 pm

The original East Wing should NEVER have been torn down!! Whatever replaces it must respect the historic scale and design of the White House. A 90,000 square feet ballroom is not only unnecessary, but would dwarf the Executive Residence, which would be totally disrespectful to the office and to history. Additions to historic properties should be compatible in scale and subordinate to the original structure.

Please to not let this farce continue!

Name: Paula Pumphrey
Date: February 22, 2026 2:59:27 pm

I can understand the need for a ballroom at the White House but not as large a one as being proposed. The President should not have demolished the East Wing without going through the proper channels and necessary review process. The East Wing housed the First Lady's offices; what is the replacement proposal?

This is unnecessary and a waste of taxpayers money. It’s another vanity project. Please stop this expansion. Thank you.

Name: Rosanne Reynolds
Date: February 22, 2026 3:04:51 pm

Hello!

I am deeply opposed to this project, which did not go through any proper channels. I believe it should be immediately cancelled; It had no design review, nor proper authorization (not to mention permits). I am opposed to spending $300 million on converting it; the East Wing instead should be immediately rebuilt and returned to its prior historical design. Moreover, this rebuild should be at President Trump's personal expense, given that the original destruction was on his order & did not go through the proper channels. It is fundamentally the Peoples' House, maintained by our taxes, and destroying one third of it without proper permits, review, notice or input should invoke penalties to all who ordered or allowed this to happen. And it must never be allowed to happen again.
Respectfully,

Rosanne Reynolds

Name: Charles Arnold
Date: February 22, 2026 3:05:41 pm

Please do not agree to have this project continue. Require that regulations for approval of building be followed. The proposed plans are not Jeffersonian. They are overdone and too big. As Doonesbury said, the proposed plan is a mix of Louis XIV and Home Depot.

Name: Ron Bathgate
Date: February 22, 2026 3:07:51 pm

He had NO right to demolish it!

Name: Gareth Knowles
Date: February 22, 2026 3:08:48 pm

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans. Thank you.

I am horrified that this is underway without the proper authorization, permits, or design review. ONE PERSON ALONE has decided to obliterate this magnificent structure and spend $300 million (!) to build a monument to himself. This is not an improvement or "modernization," it is the destruction of our past - our American history. PLEASE STOP this project and require the East Wing to be rebuilt to its former glory (ideally at the president's personal cost). Allowing this travesty to proceed tells those of us who follow the law that we no longer need to abide by the law ourselves.

The National Capital Planning Commission
401 9th Street, NW, Suite 500
Washington, D.C. 20004

Re: Public Comment — NCPC File Number 8733 — White House State Ballroom, East Wing Demolition and Reconstruction
1600 Pennsylvania Avenue, NW, Washington, DC

Dear Chairman Scharf and Members of the Commission:

As a resident and citizen of the United States, I submit my comment in the public interest. I respectfully request that the following points be entered into the public record regarding NCPC File Number 8733, concerning the proposed White House State Ballroom, herein referred to as the Ballroom.

As reported by The Washington Post in August 2025, plans for the Ballroom were not submitted to the NCPC for review as required by federal law. Construction began in September without proper review. This does not match historical precedent and calls into question the purpose and function of the powers of the NCPC. As far as I am aware, the plans have still not been properly submitted.

There hasn't been as extensive of a structural change to the White House since the Truman administration. While Harry Truman had no intention of taking no for an answer, he did follow the legal requirements and work through all the proper channels before his project began. The scale of work that the Ballroom project is taking on is unprecedented in modern preservation law and federal planning oversight. This makes proper review of the plans for the Ballroom of the utmost importance.

By many accounts, the plans for the Ballroom suggest that it will be larger than the White House itself. Historically, the NCPC has rejected even the most minor of changes (certainly much smaller than the Ballroom) for altering the viewshed. With the small amount of public information, the Ballroom will alter views from The Ellipse, The Treasury Building, and Pennsylvania Avenue in such a way that the historic views are not preserved. This is not trivial and falls clearly as a responsibility of the NCPC.

In October, the head of the National Trust for Historic Preservation cited concerns that the Ballroom could overwhelm the classical design of the White House and suggested that construction should pause since the building is the most prominent historic representation of the United States of America. It is the NCPC's stewardship that is expected by the American public to transparently protect exactly this kind of building from exactly the kind of construction the Ballroom represents.

The most problematic aspect to the Ballroom is funding. There are serious conflicts of interest concerns behind the funding of this construction. Many of the donors have exhibited questionable ethics and appear to have used their funding as a way of acquiring proximity to the office of the president for unknown reasons. Alphabet/Google donated $22 million

as part of a legal settlement with the administration. Another donor, Stefan Brodie, was a biotech entrepreneur previously convicted of violating American sanctions. There are more, but just these two, on their own, are troubling enough. On the back end of this, citizens have not been made aware as to whether a legal public competitive bidding process was followed. Both of these items make the funding and contracting very concerning.

When the project was announced, it was expected to be at a cost of $200 million dollars. In October 2025, it was raised to $300 million with no explanation of the reason for the increases. By December 2025, it was at $400 million. If a project in the private sector continued to increase at that rate, the stakeholders would have serious concerns about the management of the project. Additionally, this sets a precedent for future administrations to unilaterally demolish and replace any public lands using private funding, which raises serious questions about the public interest and takes the nation into uncharted legal and ethical territory about ownership of public spaces, public architecture, and the promulgation of a new norm — one in which wealthy donors and powerful executives can permanently reshape public landmarks to serve personal or political ends, with no meaningful public oversight. As mentioned earlier, there was no public competitive bidding process and, Treasury department employees were instructed not to photograph the construction. This kind of opacity from the administration is troubling. NCPC should take this all into account as it raises serious ethical questions about the Ballroom project.

Even if the administration eventually submits plans to the NCPC, the fact that demolition and construction are already substantially underway means the commission will be reviewing a project after the point of no return. This is a direct challenge to the integrity of the review process itself. Approving a project mid-construction, after irreversible decisions have already been made, fundamentally compromises the purpose of commission review and goes to the heart of why the NCPC exists.

The project filing indicated that NEPA review is required, but... the construction is already underway. This is a process failure that cannot be overlooked when considering the Ballroom project. If NEPA review is required but construction proceeds regardless, the Commission must ask whether its own authority means anything at all. Another example of process failure is the Section 106 waiver. The White House is a historic landmark. There is no defensible reason to bypass NHPA Section 106. How will the NCPC address this absolute failure of process?

I note that the Commission of Fine Arts approved the Ballroom 6-0 on February 19, 2026. However, all six members of that commission were recently appointed by the current administration. An approval vote conducted entirely by appointees of the project's proponent does not constitute the kind of independent review that the public interest requires. I would ask this Commission to consider whether it can provide that independence, and to conduct its review accordingly.

Security implications and environmental impact alone warrant full independent review — and I have confined myself here to only a portion of the concerns this project raises.
I believe the Ballroom project is wrong for the country and that proper review would make it clear that it must be stopped. I stand in opposition to this project and want that clearly preserved in the historical record.

Thank you for the opportunity to submit my comments. I respectfully urge the Commission to exercise its full authority in reviewing this project.

Respectfully submitted,
George H. Lenzer

The destruction of the East Wing was an abomination. Sadly, the wanton destruction of this historic building that belonged to the American people cannot be undone. However, we can prevent further desecration: Do NOT build a ballroom on this important site. Build a new East Wing that replicates the previous building. We can't recreate the history, but we can restore the former appearance of the White House.

Name: Lesley Annis
Date: February 22, 2026 3:18:23 pm

The current design of this project is lacking appropriate scale and deference to the existing White House and American history. The design should have been an open competition - not a decision by a tasteless fascist who has no understanding of history or traditional design.

I hold a Master's Degree in Architecture with an emphasis on Urban Design from the University of Notre Dame. I proudly stand to say that this design is terrible and goes against the very principles of good traditional design, which recognizes history, context, beauty, and sustainability as it's tenets. This will be nothing more than putting lipstick on a pig!

If AI created a design based on the current priorities of current private developers in America, it would no doubt look similar to this atrocity. A glorified Big Box store - DO BETTER!!!!

Name: Kristin Carter
Date: February 22, 2026 3:18:46 pm

This project is completely unnecessary and against the desire of the American people. The East wing was an important component of the White House and was torn down without permits or authorization.
The east wing should be rebuilt to the original specification in honor of the history it holds.
No ballroom at the White House!

Name: Tish Vessey
Date: February 22, 2026 3:19:31 pm

Where is the involvement for historical preservation? This demolition & now new design hasn’t gone through any of the proper channels! Furthermore it’s a complete waste of our tax dollars. The expansion is ugly & takes away from the historic beauty of the Whitehouse. Please put a stop to this wasteful monstrosity.

Name: Denise grayson
Date: February 22, 2026 3:20:30 pm

This is unfortunate that they destroyed the East Wing WITHOUT insight from the public. Is it NOT the "People's House"? The new area should be in fitting with the scale of the rest of the WH. There should NOT be self-aggrandizement in naming the area. There should be NO gold in the decoration. Thank you for providing a comment forums.

Name: Ellen Brauza
Date: February 22, 2026 3:22:48 pm

Since when does destroying something that does not belong to you pass for modernization? The East Wing of the White House has been utterly destroyed, by a president who seems not to know that the White House is not his personal property, but belongs to the American people. He is permitted to live there. Some renovations may be called for, but it is unlawful for him to order such moves without the consent of National Capital Planning Commission, and under the advisement of the Commission of Fine Arts.

Trump has neither sought nor received these consents and advisements. There is no real need for an ostentatiously huge ballroom on the grounds of the White House. This project must be stopped, before further damage is done. The same is true for all of Trump’s efforts to turn the National Mall into a cheesy tribute to himself and his ego.

This is a travesty and a shocking misuse of public funds, even if the claim is that it will be covered by "donations". The White House has already been disfigured by the destruction of the former East Wing. Proceeding with construction of this vanity-project monstrosity as designed is virtually a criminal act. This is in addition, and on top of, the conjectured construction of an enormous bunker below the ballroom, to insure the safety of a dictator and his regime.

Dear Commission Members,

It was a travesty that the East Wing was torn down. It should be restored to its former state, not some gaudy, obscene ballroom.

Please do not forget the grandness of our historical buildings by replacing them with the grandiose. The understated elegance of what was there before truly showed the greatness of our power and majesty - not some fake gold overstated piece of excrement.

Please restore the East Wing to its former glory and allow tours again. After all, it is the People's House.

Thank you.

Name: Mark Gorney
Date: February 22, 2026 3:34:27 pm

I am submitting this comment regarding the demolition of the East Wing and the proposed ballroom addition at the White House.

While I understand the desire to modernize facilities and accommodate larger events, the scale of the proposed ballroom appears oversized relative to the historic character and architectural proportions of the White House complex. Additions to a site of such national significance should demonstrate restraint, visual compatibility, and deference to the established design vocabulary.

The White House is not simply another federal property; it is a symbol of continuity and constitutional stability. Its architectural evolution has historically been incremental and carefully considered. A large new structure that alters the massing and footprint so substantially risks setting an unfortunate precedent.

Modernization and preservation are not mutually exclusive. Sensitive adaptation, renovation, or more modest expansion could meet functional needs without compromising historic integrity or altering the balance of the grounds.

I respectfully urge the Commission to reconsider the scale and appropriateness of the ballroom addition and to ensure that any approved changes reflect the highest standards of preservation, proportionality, and stewardship.

Name: B Shamenek
Date: February 22, 2026 3:36:17 pm

The White House East Wing modernization project was undertaken outside of the planning and compliance process required by Federal law. Not only is this the case, the scale and appearance of this proposed addition to the East Wing do not fit any period of significance nor was the design created by soliciting public input prior to the demolition of the East Wing, again, as required for historic structures via federal law. The East Wing should be restored to its former condition immediately and proper planning and compliance processes should take place prior to any further alterations to the White House structure.

Name: Katherine Paxton
Date: February 22, 2026 3:37:46 pm

Dear Commission Members,
Please vote against building a ballroom at the White House. The White House is the people's house, not a wannabe king's gaudy pet project.

Please restore the area with a structure that is reflective of this county's history and that accommodates the wonderful and inspiring educational tours previously available to the public.

Thank you.

Name: Joel Kann
Date: February 22, 2026 3:40:33 pm

I oppose spending $300 million on this eyesore of a project, which was initiated without proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history to satisfy our President's enormous ego. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law, and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Katherine Grass
Date: February 22, 2026 3:45:13 pm

The White House is the People's House and should be treated as such. There are laws to protect the history and prestige of this building. Those responsible for damaging the East Wing should be held financially responsible for replacing everything into it's exact order as these changes were made without the appropriate clearances and historical reviews. We do not need a ballroom - we need the Executive branch to follow the law and respect our history.

Name: Kathryn Deaville
Date: February 22, 2026 3:46:39 pm

Dear Commission members:
Having had a career as an architect, I am serving on the East Bradford Township PA Planning commission and also am the building chair board member of a small non-profit dedicated to the preservation of an historic artist's studio. I have not seen enough plans of the proposed work at the White House to be able to give a detailed critique of the plan. However, that very fact leads to my major concern that any modifications to the White House complex must be done in complete transparency with multiple opportunities for public comment before any work can proceed. In our township, we have spent years reviewing some development applications. Yes, this is a lengthy process but we are impelled to take every resident's concerns into account as well as the legal implications of any construction process. We have numerous historic properties in our township that we do our utmost to protect. The surprise demolition of the White House East Wing is completely unacceptable and must not be allowed again. This is truly the "People's House" and we the people must be given a say in how it is cared for.

The one aspect of the proposal that does seem glaringly obvious is the fact that this proposal is grossly out of scale for this location. Its huge size will dominate the historic center of the White House and unfortunately it seems that this is the actual intention of this project. I beseech you to put an immediate stop to any further demolition and/ or construction on the White House and set up a full and transparent schedule of reviews for all to participate in.

Thank you
Kathryn Deaville

Date: February 22, 2026 3:47:18 pm

Nero fiddled while Rome burned. That's the social commentary.

Architecturally: beyond the obvious scale gaffe, most dreadful is the misuse of a huge high style pediment. Respecting the existing axis between the Treasury Pediment and East Wing is a given. Mirroring the Ionic Treasury Pediment with a Corinthian Pediment suggests an improper relationship between our nation's coffers and the lavish parties that will be attended by select oligarchs.

Name: Renee Hall
Date: February 22, 2026 3:49:49 pm

I oppose the spending of $300+ million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding citizens.

Name: Janet Dahlquist
Date: February 22, 2026 3:51:16 pm

Dear People,
I believe the plan to add a gigantic garish ballroom to the White House demeans the property and is completely unnecessary. The balanced design of the White House provided classical symmetry and should be adhered to.

Name: peter hussey
Date: February 22, 2026 3:53:52 pm

The mass and location of the proposed ballroom ruin the symmetry, dignity and beauty of the White House setting as conveived during the time of the founding fathers. This unique parkland in the center of the metropolitan area should be treated as a cherished legacy of the nation's history, as seen by Lincoln, Roosevelt and JFK. Just as a county historic

review board wouldn't condone a big box store on a civil war battlefield, we shouldn't tolerate a non-contributing eyesore dwarfing the White House.

Name: Marye Taylor Wagner
Date: February 22, 2026 3:54:03 pm

I am writing to urge you all, in the strongest possible terms, to give serious consideration to, and ultimately adopt, the design recommendations proposed by the National Trust for Historic Preservation for the East Wing Modernization Project. These thoughtful and thorough recommendations were the result of tireless efforts and input from some of this Nation's finest architects, historians and designers. As a former resident of Washington, D.C. and someone with an M.A. in Architectural History I applaud what is proposed as a way forward following the grievous loss of the preexisting East Wing. It cannot be resurrected but to move forward with a 90,000 square foot replacement structure will diminish the splendor and integrity of the remaining White House complex. Consequently, it too will be lost, not in a physical sense but in its diminishment and in the lacking of architectural continuity and scale.

Throughout history and around the globe cultures and civilizations are defined by physical structures and/or what remains of them. For over 200 years, "the Peoples' House" has been just that, a symbol of our Chief Executive and the embodiment of one of our three branches of Government. Just as it would not be appropriate to significantly alter the structures that house our other two branches of Government, the Supreme Court and the Capitol, careful consideration and thoroughness are essential to the design of the new East Wing. In following the guidelines set forth by the National Trust we are not only assuring proper balance and scale for one of this Nation's most important physical structures but we are also reaffirming the balance and scale of our Executive Branch and its critical role and partnership in our Democracy. So please do the right thing for all of us and stand up for everyone in this Nation who cares about the symbolism of our public buildings. They are a reflection of who we are and what we, as a Nation, aspire to be.

Date: February 22, 2026 3:59:05 pm

This plan is dumb and a complete waste of money.

Name: Bruce Evans
Date: February 22, 2026 4:02:15 pm

This is unnecessary and a waste of taxpayers money. Please revise the plans and reduce the scale. Thanks.

Name: Linda Caspar
Date: February 22, 2026 4:03:14 pm

As a tax payer, Senior Citizen and Assessor for my Municipality in Maine, I am outraged and sick to heart regarding the "Ballroom " construction. As I am aware of the needs of our property owners and residents, I cannot fathom the use of public funds in this way. The needs for medical care, heat assistance, food support, elder care (Mainers are some of the oldest citizens in our Nation) road repair support and school support should be addressed over a Ballroom at the White House. How unconscionable this expense is compared to taking care of our citizens.

Name: Julie Reiff
Date: February 22, 2026 4:05:29 pm

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history.

I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding citizens.

Name: Suzanne DeJonge
Date: February 22, 2026 4:10:26 pm

To whom it may concern:

I am appalled that the east wing was demolished and that the modernization project is in progress without the proper approval required by law. Please make every effort to stop this project from going forward and have those responsible for ignoring proper procedure held accountable.
Furthermore the image of the proposed exterior of the new construction is especially ghastly and will truly ruin the architectural beauty of the White House and its grounds.

Respectfully,
Suzanne DeJonge

Name: CARLA KURTH
Date: February 22, 2026 4:10:31 pm

I am a Missouri constituent and I want to express my disgust with the Big Beautiful ballroom proposed by President Trump. I stand in solidarity with The National Trust for Historic Preservation and their lawsuit against the Trump administration (December 2025) to halt construction of a $400 million White House ballroom, arguing it lacks required Congressional authorization, environmental reviews, and design approvals.

The American people deserve full transparency regarding the substantial demolition, preparation, and construction at the White House. The decisions were made in complete secrecy and undertaken without public disclosure or proper consultation. The House Natural Resources Committee has jurisdiction over public lands generally, parks within the District of Columbia, and the erection of monuments to the memory of individuals under House Rule X(m). The Committee on Oversight and Government Reform is the principal oversight committee of the House of Representatives and has broad authority to investigate “any matter” at “any time” under House Rule X.

I fully support Congressmen Jared Huffman and Robert Garcia, and Congresswoman Yassamin Ansari who wrote: "I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans."

Name: Stella Perez
Date: February 22, 2026 4:12:37 pm

I vehemently oppose spending ANY taxpayer funds for this unnecessary vanity project. The White House belongs to the American people, not one elected official. This misuse of taxpayer dollars is an affront to all Americans and not one cent should be used to fund this monstrosity.

Name: SUSAN DOLLOWITCH
Date: February 22, 2026 4:17:25 pm

no ballroom rebuild east wing

Name: Kari Gunderson
Date: February 22, 2026 4:23:59 pm

I am a strong supporter of preserving historical buildings like the White House, Oval Office, and East Wing of the White House. President Trump had NO legal authority to have the East Wing demolished without following the property protocol to preserve the East Wing.

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or

design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans. All supposed donations from wealthy US oligarchs should be refunded in full or used to rebuild/restore the East Wing to it's original structure.

Name: Jordan Benderly
Date: February 22, 2026 4:27:49 pm

Trump's preemptive approach of tearing down the East Wing was completely inappropriate and calls the entire project into question.
If he had followed normal procedure, it is highly questionable whether the teardown would have been approved.

We're past that now, so the question is whether the new ballroom should be built at all, and if it is built, is the design/scale appropriate as an addition to the White House.
-- My main comment is simple -- the proposed ballroom is completely out of scale with the White House. I think it should be rejected and the whole process started again, as if the original East Wing had never been demolished.
-- If that is not possible, at a minimum the size and scale of the proposed ballroom should be drastically reduced so that it is subordinate to, and supportive of, the principal building.

Name: Bob Vines
Date: February 22, 2026 4:31:53 pm

I oppose the spending of $300+ million on the so-called "East Wing Modernization" project to build a ballroom on the site of the illegally destroyed East Wing of the White House, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Beverlyn Thompson
Date: February 22, 2026 4:34:31 pm

The original planners of washington DC and those who have followed since have had a keen sense of history, scale, design, and a commitment to make the capital of the people, by the people and for the people. Centuries have passed with these tenets in place.

However what is being done to the white house is abominable. The importance of the white house is that it is the people's house...not a one person or oligarch who has free reign and unlimited resources to make it his or her own. if this project goes through, which I am protesting deeply, it will minimize the scale of the White House compared the gaudy barn that is being proposed. THAT'S NOT RIGHT! I DO NOT WANT MY WHITE HOUSE DIMINISHED
AND OVERSHADOWED BY ANY BUILDING attached to it, making the people's house, our beloved historical white house building, look like the maintenance building. The proposed building and décor need to be understated and a representation of America. We don't need a structure like that one which will only be used a handful of times and a year.

Name: Emily Brechting
Date: February 22, 2026 4:35:51 pm

I am writing to express concern and dismay about the size and scale of the proposed ballroom. It does not fit the existing structure, nor honor or match the style of the people’s house. Please honor the history of the White House and the will of the people. We are a democracy, not a monarchy. Displaying excess and wealth while our people struggle to afford daily expenses is gross.

Name: Beth Weber
Date: February 22, 2026 4:39:54 pm

Regardless of whether the East Wing of the White House needed “modernization,” its total destruction was unwarranted and disrespectful to the country and to its citizens. No one needed this ballroom except Donald Trump’s vainglory. The White House does not belong to Donald Trump or any other President of the United States; it belongs to the people of this country. Destroying history and recreating the East Wing of the White House into a bloated, tacky, gold-plated, white trash ballroom is not what we ask of a President. Extorting money from the business-class to fund a vanity project in order to curry favor is not what we ask of a President. This is another ridiculous distraction from the terrible mismanagement of the federal government, the economy, and the standing of the United States in the world order. It is another example, not of strength, but of Donald Trump's weakness. I am embarrassed for this country.

I hope the next President of the United States demolishes whatever monstrosity is erected and recreates something that the PEOPLE of the United States can be proud of. This will not be that.

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Patricia Kirschner
Date: February 22, 2026 4:42:20 pm

I strongly believe the modernization project must be tasteful and continue to represent/incorporate historical elements/references and classical design. While I recognize that there are needs to make enough space to seat more guests and that it is desirable to provide indoor shelter and basic amenities, I do not believe the building should be a grandiose, glitzy, nouveau riche display of the power and wealth of one individual and that person's ideas. It should incorporate as much as possible the ideals of all our truly great leaders and the positive elements of the cultures and ideals which have propelled our country to be a leader and builder and uniter. Please do not obliterate the contributions of all who came previously. My family first came to the United States in 1628. The men and women provening from those first c. 300 European residents have been primarily uniters and builders, hard workers of a variety of denominations and skills and talents who valued the land, who fought for democracy and the nation's unity. They were honest people who were also humble and whose 'word was their bond.' They valued history and what history taught us and what we could learn from many people. Some of my family literally were carpenters and/or had training in architecture and/or design and/or artistic expression. They were inclusive. They did not believe in bombast and 'cheap' displays of power. Please let this building rise as something we can all be proud of. Thank you for your attention.

The scale of this project is entirely unnecessary. The East Wing did not need to be entirely destroyed, nor does it need to be replaced by a project bigger than the actual White House residence itself.

The White House itself is unique as an administrative center and home of democratic power *because* it is not a grandiose palace.

It holds significance and historic value not just because of who has worked and lived there, but because its size and scope humbles its occupiers. This includes the relatively small size of the East and West Wings.

To permanently change the White House complex with such a monumentally huge building would be an afront to the intention of the White House as a home of democratic power. Further, it would only rubber-stamp the legally dubious process through which the project has been proposed and initiated, only enabling such whims — all to the material and symbolic benefit of *no one* except one man.

The East Wing should be rebuilt to accommodate what is *needed* by the White House — restoration, office space, and event space. To have this does not require a massive structure rivaling those of the Pax Romana. I would venture to guess that everyone in this project knows this.

Those of you who are the rubber stamps: have the courage to do what your fellow Americans are unable to by virtue of not occupying your position — stand against this project for all the practical, historical, legal, and logistical, reasons you know should. Reject it.

Speak TRUTH to POWER. History will thank you, no matter the consequences you face in the immediate term.

History is forever. YOU will get to make or break it. Do the right thing.

One of your fellow Americans,

Keenan Morgan

Tearing down the East Wing for modernization without going through the proper channels is an insult to our country. We are razing a complete part of American History. The building should not be changed, it should be rebuilt as it was.

Name: vk kent
Date: February 22, 2026 4:45:14 pm

I do not approve of the plans to replace the East Wing of the White House with a ballroom either imagined or planned by the current resident.. I want any money already collected for that purpose to be used, upon the current resident vacating the property, to restore the White House to its condition on January 19, 2025. Henceforth I want it known by all future residents that the White House is the people's house. They are temporary occupants who will treat the residence and its people with respect, or they will be evicted. Any additional cost to restore the White House, including removal of all gold wall embellishments, shall be borne by the current resident.

Name: Cynthia Roach
Date: February 22, 2026 4:50:17 pm

Building a golden ball room while many Americans are struggling to put food on the table, pay medical bills, support their families (and on and on) is a ridiculous idea. The money to do that could be used in so many good ways instead of in a place that will be used to entertain the wealthy. The White House belongs to the American people, please treat it that way.

Thank you.

To the National Capital Planning Commission:
I am opposed to the 2025 demolition of the Whie House East Wing as it represents destruction of American historical heritage. The act bypassed the proper preservation procedures. The plan replaces a functional, modest space with a large, private, and potentially opulent ballroom.
The East Wing was home to first ladies' offices, the White House Historical Association, and the "people's entrance" for visitors, making its removal a loss of, as some describe it, a sacred part of the "people's house".

The new ballroom represents a self-glorifying structure as opposed to the democratic, humble, and functional design of the original building.
I ask the powers to be to reconstruct the wing as close to its original historic look and purpose as possible.
Respectfully,
Bonnie Heikes

Of all the disgraceful action this 'administration' has taken so far, this one is at or near the top of the list! There are procedures in place that are to be followed, and for very good reasons. The White House belongs to the People, not to the current resident. Any changes or alterations to The People's House must, by law, follow proper procedures. Just as I must follow proper procedures when I wish to add to or alter my home, so too must the current resident of the White House.

This disgraceful action MUST come to a halt until ALL proper procedures have been obeyed. NO ONE is above the law!

Name: Lindsay Teeples-Mitchell
Date: February 22, 2026 5:09:44 pm

Hello,

I am writing regarding the proposed 90,000-square-foot ballroom addition to the White House. As a National Historic Landmark and a property owned by the American people, the White House deserves careful stewardship.

While expanded event space may be a legitimate need, any addition must respect the historic scale, architectural integrity, and symbolic importance of the original structure. At 90,000 square feet, the proposed ballroom would exceed the size of the 55,000-square-foot Executive Residence. Additions to historic properties should be compatible in scale and clearly subordinate to the original building, not overshadow it.

This review process through the National Capital Planning Commission, the Commission of Fine Arts, and compliance with the National Environmental Policy Act exists precisely to ensure transparency, environmental consideration, and public accountability.

As Carol Quillen has stated, the American people deserve “an opportunity to provide comment and shape the project.” I urge the Commission to fully consider public input and ensure that any changes honor the historic character and national significance of the White House.

Thank you for your time,
Lindsay

My desire for the “ballroom” is for it to be rebuilt and perfectly replicated as the East Wing of the White House that was destroyed by Trump. This would be rebuilt at it's original location.

Name: Leslie Thorsen
Date: February 22, 2026 5:14:21 pm

There are no words for this destruction of the historical people's home. We demand that this project make an about face and restore the east wing to it's original design. As for Donald Trump, he has no right to have authorized this. Donald. stick to Mara Lago, and releasing the Epstein files to prove just how innocent you are. Innocent or not, restore the east wing.
Leslie Thorsen and my husband Donald S Kilgus

Name: Andrea Spata-Merrill
Date: February 22, 2026 5:14:33 pm

The east wing should be rebuilt exactly as it was and he should be fined for destruction of public property.

Name: Pamela Nolan
Date: February 22, 2026 5:17:38 pm

There is nothing "modernizing" about this project.

Trump demolished our East Wing.

Now he wants to build a "ballroom" that is larger than anything around it.

Do not approve this monstrosity.

We have done without a "ballroom" for 250 years, and we can do without it for a few more years while a more suitable design is developed that isn't gaudy and oversized.

I'm the meantime, rebuild our East Wing the way it was.

Name: Rose Ernest
Date: February 22, 2026 5:20:27 pm

I am writing to express my formal objection to the 90,000 sf ballroom addition to the White House East Wing. This project is a threat to the historic integrity of the Peoples iconic structure. I urge the Commission to reject the plans for this project and to scale it back to restore the architectural balance.

Name: Martha Walker
Date: February 22, 2026 5:21:06 pm

The White House is a National Historic Landmark and National Park, owned by the American people and home to our presidents since 1800.

The destruction of the East Wing of the White House must be stopped! Donald Trump must be stopped! He should be held financially responsible for the destruction he ordered and has already completed. He should also personally be responsible for the cost to restore this historic building.

I strongly oppose any spending on this project, which was started without the proper authorization, permits, or design review. Under the guise of modernization Trump is attempting to change the historic look of our nation’s capital into a tacky reflection of his personal style.

While event space may be needed, constructing a ballroom larger than the White House is ridiculous! The East Wing must be rebuilt and restored to its former design, and be in proportion to the existing structure.

This East Wing Modernization project should not be allowed to go forward without following established legal guidelines, reviews and permitting.

Name: Steven Herrup
Date: February 22, 2026 5:24:36 pm

Writing an opinion as a U.S. citizen at this point, after Donald Trump has already assumed, rightly or wrongly, the permission to initiate and then complete the demolition of the East Wing of the White House, based upon his recent victory in the Presidential Election of 2024, is very much like locking the barn door after some thief has already stolen all a farmer's livestock, from chickens and ducks to cows and horses. But, having lent my opinion in the past to other vain enterprises, I offer this objection.

Despite the well-known tradition that the White House is "the People's House", only one individual, Donald Trump, has been able exert and creative control over the design of the soon-to-be construction East Wing Modernization Project, which, according to Donald Trump's personal decision, will include a massive ball room, so massive that it's dimensions will truly dwarf the remaining portions of the White House. If this East Wing Modernization Project is completed as designed, the entire world, and all of its citizens, as well as all U.S. citizens, will inevitably view the combined White House Complex, with such a hideously inflated ballroom structure attached to its side, as ugly. Not just inappropriate. The White House will be viewed as a truly ugly structure.

I request urgently that the entire West Wing Modernization Project be halted, that its current architectural firm be dismissed, and that a proper search be started for a new and unassociated architectural firm, which can design a proper addition to the White House.

Name: Lisa Radmer
Date: February 22, 2026 5:27:48 pm

This project had no approval or permits. The beautiful historic White House East wing was destroyed at immense cost to satisfy Trumps vanity. This money, whoever is paying, could be spent on much better things. Those who lawlessly did this destruction should be held accountable,

Name: Janet GIBERSON
Date: February 22, 2026 5:28:06 pm

Since this "modernization project" has been carried on illegally by Donald J. Trump, it is my opinion that he must be made to pay personally for the rebuilding of the East Wing as it was prior to its demolition.

Name: Molly Charr
Date: February 22, 2026 5:30:45 pm

I am totally opposed to the enormous proposed ballroom! It will dwarf the historic mansion and be a scar on the historic property.

Name: Christy Leilani Carver-Madalon, PhD
Date: February 22, 2026 5:35:38 pm

I am writing to express my deepest opposition to the demolition and irreplaceable historic loss of the East Wing (dating back to 1902) as an integral part of the Historic White House as a part of our nation's history and national memory. I am further deeply concerned by the lack of transparency in which this demolition occurred without forethought for the people of the United States, nor respect for the history of our dear nation.

This was undertaken without public disclosure, nor discourse which is the foundation of our democracy. The White House doesn't not belong to President Trump but belongs to the United States and the current President does not seem to understand that he is temporary as this is a democracy and his tenure will end soon.

The job of the President is to care for the people of their republic. This Ease Wing project is proceeding without adequate public scrutiny, especially since the only oversight is coming from people who have been appointed by the current President. How is that appropriate? Where are the checks and balances?!? My final concern is ethical. This is in line with the fundraising of this, obscene ballroom and the costs forthwith. The current President is allowing (blatant) access to be purchased to himself which is paramount to sheer bribes in tit for tat for donations for this ballroom. Oh- how our Founding Fathers are rolling in their graves- their disgust would be so profound. This is a sheer mockery of our democratic system.

I ask that this ballroom be halted and no other American structures be destroyed out of the respect of the American people.
God Save America!
Dr. Carver-Madalon

Name: Joy Yavelow
Date: February 22, 2026 5:39:52 pm

The destruction of the East Wing is a disgrace and an attempt to to bury history that belongs to all Americans. The project must stop, and the East Wing be reconstructed as well and faithfully as possible. This was not Trumps to ruin.

Name: Jennifer Fisher
Date: February 22, 2026 5:40:17 pm

I am disappointed in the tearing down of the East Wing and the building of the ballroom. I hope this can be stopped.

Name: George Shackelford
Date: February 22, 2026 5:40:39 pm

The idea of a larger meeting space for the White House, in which ceremonies and banquets can be held with more people in attendance is a good one.

The design that the public has been shown in postings from the President's office is not a good one.

It's not grand, it's GRANDIOSE. It reflects the beauty of the White House in the way that Caesar's Palace in Las Vegas reflects the beauty of ancient Rome.

The hallmark of historical American classical architecture is its dignity and restraint. The White House itself is a great example.

Adding something so big and so pretentious to the site is a very bad idea. If it gets built this way, it will be seen in future as a true folly, no matter how convenient it is. And the people who facilitate its construction will not be well regarded, you can count on that.

So please don't approve it as is.

Respectfully,

George T. M. Shackelford
Fort Worth, Texas

Name: Julie Keating
Date: February 22, 2026 5:41:19 pm

Please reconsider the scope of this project. Take the advice of architects and the National Trust for Historic Preservation who believe that this building will destroy the integrity of the White House campus. Don't rush into building this large of a ballroom solely on the advice of Trump partisans, but please seek the advice of experts that will ensure an outcome of which the American people will be proud.

Thank you.

Name: Carolyn O'Daly
Date: February 22, 2026 5:43:29 pm

I object to the ballroom and would like to see the East Wing fully restored.

Name: Alan Teller
Date: February 22, 2026 5:50:23 pm

A process has long been in place for making any radical changes to the White House. Architects, historians, preservationists and others were meant to offer their advice and recommendations before any radical transformation to The People's House could be undertaken. All of those safeguards were abandoned for a narcissistic project by President Trump. The financing of this vain-glorious act comes from wealthy donors and corportions, all of whom have commercial dealings with this president and whose participation has the appearance of corruption, if not the fact. Now that so much destruction has already taken place, it is incumant on this commission to work with responsible parties to assure that architectural standards in line with the existing White House are kept at the forefront. A nation where much of the population is struggling financially does not need a 90,000 sq. ft. ballroom. I urge that real oversight is enacted and that the designs are consistent with the integrity that seems to allude this adminstraiton. Thank you.

Name: Julie Campbell
Date: February 22, 2026 5:50:30 pm

I vehemently oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Lisan Martin
Date: February 22, 2026 5:52:45 pm

I am writing to request that the National Capital Planning Commission consider halting the "modernization" of the East Wing of the White House pending a full environmental and historic review of the plans for this project. I am appalled by this bloated and reckless project so far - the scale of the ballroom is absurdly large and out of proportion to the rest of the White House and the complete lack of review and appropriate historic preservation before demolishing the East Wing was shocking! Additionally, if this is the "people's house" what is the lack of transparency about private donations and what does this mean in terms of the appearance of future favors to donors? All in all, this is a shocking and undignified process that I ask the Commission to consider halting before it goes further.

Name: Charles Luebke AIA
Date: February 22, 2026 5:57:01 pm

I have been a registered architect since 1977 and have also served on a city planning commission as a member and chair. That experience and responsibility has taught me the importance of decision making in the public realm and for the overall public good. Elected or appointed positions like yours takes the burden of the architectural and urban planning decision process out of the hands of the public to rest squarely on the shoulders of your commission. The Commission on Fine Arts in their "rubber stamping" approval of not only the preliminary plans for the White House East Wing Expansion and their subsequent appalling decision to approve final designs and plans of the project without even a submission of them, makes your responsibility that much greater. I have reviewed the plans submitted to the CFA. The first thing I must say is how did the demolition of the original East Wing ever happen without proper review and approval? The destruction of a portion of the Peoples' House or White House is not something that should have been done by the whim of any current resident of the WH. That being said and the act having been done should make approval of anything new even that much more intensive in its process. The current plans are a terrible design solution! The worst aspect of the design is the physical scale of the addition in relation to the existing main structure of the WH. It is totally out of proportion and

dwarfs the main residence, which should be the main focal point of the complex. This scale issue is not just in the plan dimensions of the addition, but also in the massiveness of its scale in height. I believe no "ballroom" of this size could ever be designed properly to solve this problem. The building is just too big. The concept of "bigger is better" fails completely in this context. The design execution of the building's four sides looks like a cacophony of classical design motifs thrown at the building to make them somehow fit into the fabric of federal building design. I urge you to disapprove this project immediately. It is a waste of your time and its construction would be an eyesore to our nation's presidential residence and the DC urban fabric. Approval of this design for political reasons and pressure from the current president is no reason to pass it through your process. He is merely a tenant for a short time in this residence. Courage to use sound urban planning and architectural review is warranted and essential as you are the last bastion of the public's right to determine what is appropriate and good for the future of this historic place. If any of you were appointed to your positions on the Commission by the current president, then your responsibility to the citizens of this nation is even more compelling to be independent. Respectfully, I ask you to do the task you were given which in this case is to deny approval of this project. The scale of it is just too immense. Thank you for your consideration.

Name: Linda Kay Shaw
Date: February 22, 2026 6:31:30 pm

My concern about the changes to the East Wing of the White House relates to the image it is portraying to the public. It says that history does not matter and that the President can do whatever he wants to our property and no one see this as a problem. The fact that a ballroom is bigger than the office and working place of the Presidents makes one think that all that matters to the current resident is that he can host parties and have guest, which we pay for, while the rest of us suffer —let them eat cake!! The fact that the economy is so bad for many of us, and we are doing without, and he is spending money on a building, makes us the owners of the house feel as if no one really cares.
As Nancy Reagan said, “The White House belongs to all Americans, and it is supposed to be something we are proud of.” It serves as a symbol of our democracy, and our interest is that ALL of us own it and the person living there is our temporary tenant for 4 or 8 years. FDR left a plaque in the White House that reads, "I never forget that I live in a house owned by all the American People and that I have been given their trust.”
There have been changes before and former resident have gone to great measures for approval and to try and honor what has happened before their time. I support the work of the National Trust for Historic Preservation to determine what is architecturally sound and make recommendations accordingly. Past Presidents have used a democratic process to make changes I feel it is unfair to us, the owners, that the current President has been allowed to tear a building down and that no one has done anything, makes me wonder what else can he tear down??

Name: SARAH-LEA BROWN

This project if an affront to our history, the American People and the constitution!!

The planned project is an abomination! It should not surpass the majesty of our original White house!

He cannot be allowed to destroy, replace in his name anything he wants. The white house is not and will never be mar a logo!

It was destroyed illegally, he personally must be made to replace it to the specifications of the historical society

There are more important things to be done with the 300-400 mm he claims he had lined up to pay for it. If you believe it!

Thank you! Reasonable people are watching if the law will be upheld!

Name: Anita Powell
Date: February 22, 2026 6:59:41 pm

The Trump Administration unlawfully destroyed property that legally does not belong to them. They must pay for the damage they caused and then rebuilding the East Wing according to its exact specifications at the time of its destruction. If the Capitol Building Is ever to be changed, remodeled, replaced, it must be done legally and according to the wishes of the American people.

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

How dare the president do this without using the proper channels to get the authorization to do this. He does not get special laws and privileges because of his position. This is outrageous!

Name: Harry Werner
Date: February 22, 2026 7:01:21 pm

I'm all for the Trump Ballroom expansion project. It's an embarrassment that every time we have a large state affair that we have to rent outdoor tents. No matter what your political party, this is an issue that everyone should be able to get behind, It will benefit both democrats and republican presidents now and for years to come. I also understand that it will be constructed at no taxpayer expense. Go for it while we have the chance. It should have been done years ago.

Name: Craig Jones
Date: February 22, 2026 7:05:12 pm

I oppose this project, which was initiated without proper authorization, permits, study, or review. It is not a modernization project but rather the erasure of American history and an attempt by the President to emulate and one-up the misperceived strength and grandeur of autocrats whom he admires. This project should be canceled and the funds directed to restoring the East Wing entirely to its former design. It would be wrong to permit this project to proceed and those who broke the law by authorizing and permitting this debacle should be investigated and penalized accordingly.

Name: Marcia Stanton
Date: February 22, 2026 7:07:59 pm

I have two concerns about the Weast Wing Modernization Project.

1. As currently proposed, it seems out of scale with the rest of the structions on the White House campus, and

2. While it appears not taxpayer funds will be used for the construction, I believe taxpayer funds would need to be provided
for ongoing maintenance, HVAC [cooling and heating], and wouldn't Congress need to appropriate those fund prior to construction.
It makes no sense to build something we can't afford to maintain..

Onward!

Name: Eileen Wagner
Date: February 22, 2026 7:09:10 pm

I oppose the spending of any taxpayer money on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. This should never have happened to start with.

Name: Cheryl K. Knight
Date: February 22, 2026 7:12:48 pm

Completely demolishing a part of the Peoples' House is not really a modernization in my opinion. It is troubling that the people who committed this travesty had no authority to do so.
It seems to me that the plan being submitted to rebuild the East Wing should match the rest of the White House and could include a large multipurpose room that would serve as a "ballroom."
I would further add, it should not be "named" after anyone. Including any donor or President, past or present. It should be named, as it was previously, the East Wing.

Name: Steven Corley
Date: February 22, 2026 7:14:51 pm

I oppose the destruction of the historic East Wing and the planned construction of a ballroom.

The East Wing should be rebuilt keeping it's original exterior elevations and internally it should serve all functions that it formerly did. All plans and construction should be conducted with full review and oversight by the National Capital Planning Commission.

Name: Jennifer Stafford
Date: February 22, 2026 7:17:31 pm

I oppose the spending of millions on this project, which was initiated without the proper authorization, permits, or design review. I want this project canceled, and the East Wing rebuilt and restored to its former design. Prior rehabs of the White House – such as the West Wing and Truman Balcony - were done with bipartisan support and architectural consensus. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans. No President – who is a short-term occupant – should be allowed to raze the White House as a vanity project. Lastly, the proposed design of the ballroom is also just ugly and oversized compared to the rest of the structure.

Name: Marian Markus
Date: February 22, 2026 7:18:13 pm

The Trumps are 'Tenants' currently living in "The People's House', otherwise known as 'The White House'. .If I were renting someone else's property I would certainly be obligated to receive permission before tearing pieces of it down. I'll be honest, I cried when the Rose Garden was bulldozed. Watching history destroyed is heartbreaking. Please, rebuild OUR history..

The $300,000,000 vanity project being ‘bulldozed’ into existence by Mr. Trump and his billionaire minions is an affront to American history and the American taxpayer. The destruction of the East Wing, without any inspection, mitigation, permitting or congressional approval should be recognized as a crime. Any ordinary citizen attempting such a ‘remodeling’ project without the appropriate permitting would be fined in to oblivion. (The same could be said of unpermitted construction, if this project were allowed to continue.)
This project should be cancelled, with the East Wing rebuilt and restored to its former design.
No one is above the law. As such, all involved with this project need to be held accountable and penalized appropriately.

Name: Mary Anne Obal
Date: February 22, 2026 7:36:17 pm

I oppose the destruction and remodeling of the East Wing of the White House.
Even in our suburb, you cannot remodel your house without submitting proposed changes to our building commission and get their approval.
It should be even more important to submit plans for renovations to the White House to the appropriate regulatory groups, in order to ensure the appropriate steps are taken to maintain the history and architectural significance of such an important structure.

Name: Cynthia Axell
Date: February 22, 2026 7:37:12 pm

The razing of our White House East Wing, without proper consultation or review, represents an egregious affront to the historical preservation and care for the people's house. The very people who in haste tore it all down now demand a hasty acceptance of the new structure for 'security reasons' they themselves introduced. The symmetry of this classical structure and the restraint in its design will be lost when a gargantuan, gaudy, and over-gilt ballroom takes its place. The people's house will become a memorial to one man's hubris and unrestrained ego—a stain on our national treasure. I sincerely hope this hideous structure is never built.

Name: Kyle Ortman
Date: February 22, 2026 7:50:21 pm

Do not allow the orange menace to further desecration the people's house one bit more. History and the American people will hold you to account if you fail in your duty to protect our treasures

To the National Capital Planning Commission

I am compelled to write to voice my thoughts about the East Wing Project after reviewing the limited images and information. I have practiced architecture for over 40 years with many historic additions and remodels so, I feel well qualified to say that this proposal needs to be reworked to address the overwhelming scale that imposes on the White House. I assume the ballroom floor plans are not being shared so not to need to justify the footprint. We have all heard or seen square footage analysis that would suggest the footprint is grossly over the need. Without interior floorplans is impossible to know. One thing I have learned about "modernization" project is that more that one way to address client's needs.

We see approaches such as the Louvre Museum that places most of the modernization underground. We seen historic building celebrated by us the modernizations to focus attention on the original. The true measure of a great architect and client is restraint. Knowing when to stop or reduce. I would say the removal of the pediment in the February rendering is a move in the right direction. Placing more space program below grade and reducing the footprint and over height is the other way. Simply removing the south colonnade and grand stair might be the easiest fix. This could all be studied in 3D renderings.

I find the only information being provided is classic developer presentation. Show images that show the building as 2D elevations. Give no sense of the context. A Southeast 3D image would show that the White House is impossible to because how far it protrudes to the south.

I don't think our President will listen to public comments so this is probably be in vain but I think he would have serve himself and the public better to have a national design competition or invited the public to be involved.

Respectfully, Dan Sabatini, Sabatini Architects, Lawrence, KS

Name: Paul Vandeman
Date: February 22, 2026 7:57:52 pm

I am writing to formally oppose the demolition of the historic East Wing of the White House and the construction of the new ballroom advanced during the administration of Donald Trump.

The White House is not merely a residence or event venue; it is one of the most significant civic buildings in the United States. Its architectural evolution reflects more than two centuries of national history. While additions and renovations have occurred over time, the enduring strength of the White House complex lies in its careful stewardship, measured adaptation, and respect for the architectural language established by James Hoban and subsequently refined by generations of architects and preservationists.

The East Wing was itself a historic component of the White House complex. It played an essential role in maintaining the architectural balance of the Executive Residence grounds and contributed to the spatial composition that frames the public and ceremonial approach to the building. Its demolition erased an important layer of architectural history and disrupted the carefully evolved symmetry and scale of the campus.

The proposal to introduce a large new ballroom presents serious concerns. The White House is fundamentally a neoclassical structure defined by proportion, restraint, and human scale. A modern ballroom of significant size risks overwhelming the site, competing visually with the Executive Residence, and altering the hierarchy of spaces that currently distinguishes public, ceremonial, and private functions. Good design principles dictate that new interventions in historic contexts should be subordinate, reversible where possible, and harmonious in materiality and massing. A prominent, oversized addition—particularly one designed primarily to expand event capacity—would compromise these principles.

Preservation is not resistance to change; rather, it is a commitment to thoughtful continuity. If additional event space is necessary, alternatives should be explored that minimized demolition, preserved historic fabric, and respected the architectural hierarchy of the site.

The White House belongs to the American people. Decisions affecting its physical form must prioritize long-term cultural stewardship over short-term functional convenience. Demolishing the East Wing to construct a new ballroom represents a permanent loss to the architectural heritage of the nation and undermines sound design principles that have guided successful preservation efforts for generations.

I respectfully urge you to reject the proposed ballroom and pursue modernization strategies that honor the historic integrity, architectural coherence, and symbolic significance of the White House.

Sincerely,

Paul Vandrman

Name: Karen Boldra
Date: February 22, 2026 8:02:46 pm

Please deny permission to proceed. This project desecrates US history. Rebuilding the East Wing of the White House--the PEOPLE's house--must be in scale, proportion, design, and concept, consistent with the humble and restrained dignity of existing structures. An imitation Versailles has no place in Washington, D.C. Furthermore, had a 'ballroom' been a real necessity, such need would have been apparent before now. Please require restraint, proper planning, and input from the public before a new plan is finalized.

Thank you,

Name: Kim McLaren
Date: February 22, 2026 8:03:38 pm

Calling the destruction of the East Wing “the East Wing Modernization Project” underscores the brazen lawlessness and lies by the current regime. Now that the East Wing was destroyed without approval, regulations and appropriate standards need to be applied to the current outsized and hideous plan. This vanity project should be under the control of an

independent and historically minded group to create a suitable and aesthetically consistent building. Trump has proven his consistent lack of taste and affinity for cheap looking affects that America doesn’t need to invest in correcting in a few short years.

Name: Kevin Camfield
Date: February 22, 2026 8:07:09 pm

CANCEL THIS PROJECT! It has the needs of only one individual in mind and that is of the current president. Previous presidents have had the autonomy, within limits, to make changes to the White House complex as Trump did in his first term. This project, particularly this grotesque ballroom, is not that. It is not a current resident's interpretation of how modifications can better meet the long term needs of "the people's house". It is instead the fever dream of a person struggling with their own mortality and hoping for a lasting monument for purely personal reasons. As a result, no other metrics or considerations regarding the ongoing stewardship of the WH and Capital complex matter to those attempting to ram this project through.

If you cannot stop it, do all you can to slow it down so that it takes more than 3 years to make significant progress. That will make the effort involved in eventually tearing it down that much easier.

Name: Catherine Marzyck
Date: February 22, 2026 8:11:17 pm

Please CANCEL the East Wing Modernization Project. Trump's complete destruction of the East Wing was totally illegal. He completely ignored Federal law and democratic processes and bypassed congressional oversight and approval. He proceeded with the demolition without submitting plans to the NCPC for the legally mandated review process. Trump's total disregard of the law, national history and pride, all democratic and oversight processes, and the will of the American people is abhorrent and despicable, and should NOT be rewarded by allowing him to proceed with his plans for a huge ballroom and "bigger and better" East Wing. The East Wing should be rebuilt and restored to exactly as it originally was, with any needed updates to HVAC, electrical and plumbing systems as being the only "modernization" permitted, and the entire replacement of the East Wing should be paid for from Trump's personal funds. In addition, Trump should be fined double the value of the East Wing for the pain and suffering of the American people seeing their beloved White House treated with such evil contempt and disrespect. In fact, Trump should be in prison for the crime of unilaterally and illegally destroying the East Wing, along with all his other crimes that he keeps getting away with. JUST SAY NO to the East Wing Modernization Project!

Name: Jennifer Westdal
Date: February 22, 2026 8:23:03 pm

Please stop this project. It should never have happened to begin with. This is the peoples' house, not the President's house, and the entire concept is against that idea and an desecration of a building that is a major part of our national heritage.

Name: Ellis Heyer
Date: February 22, 2026 8:23:42 pm

The size and scale of the proposed project for the East Wing is completely out of scale with our existing White House. Should the East Wing dwarf our White House? That is not a question of style or taste, it is making a statement that the East Wing is larger and more important than our White House, WHICH IS COMPLETELY WRONG! Most Americans did not support the destruction of the former East Wing to begin with and was done without our permission and do not support this hideous replacement.
Please stand up for our beautiful and beloved buildings in Washington and DO NOT ALLOW a ballroom to be built.
Thank you for hearing my opinion.
Sincerely,
Ellis Heyer

Name: Bonnie Morris
Date: February 22, 2026 8:27:31 pm

As a professor of history whose East Coast teaching career offered me the privilege of working near the beautiful White House buildings, I am heartsick to see so much intentional and ill-conceived destruction of a heritage site. Please uphold all prevalent laws to stop further construction of an unnecessary new ballroom. Most Americans will never, ever be invited to that ballroom; but al can look with pleasure at the exterior of an historic building purported to be the people's house.

Bonnie J. Morris

Thank you.

Name: Thomas Schock
Date: February 22, 2026 8:51:33 pm

I am totally opposed to building a massive ballroom on the east side of the White House. I was involved in real estate

development for over 40 years and the projected scale and costs are both totally out of line with accepted real estate norms. A 90,000 square foot building attached to the 55,000 square foot White House will dominate the sky line, look overwhelming, and destroy the architectural integrity of the nation's most important residential building. The cost at $400 million is over $4,000/ square foot. This is a ridiculous per square foot number for a large box. The building should cost less than half that amount.

Please use your review/regulatory power to stop this destruction of a national landmark. If necessary, the ballroom should be placed underground and a restored East Wing constructed to match the existing White House.

Name: Valerie Coles
Date: February 22, 2026 8:56:32 pm

This project is illegal and unwanted. No one asked for a giant ballroom for the Epstein class. We the people want our house back.

Thank you for your attention to this matter,

VC

Name: Tamara Thomas
Date: February 22, 2026 8:58:45 pm

Please oppose this so-called modernization project. The White House is intended to be lived in by sitting presidents, not used as a foil for personal revenge. The spending of $300 million of public and bribery-obtained funds on this project is a travesty. It is another attempt by this "president" to rewrite American history for his own purposes. I want this project canceled, and the East Wing rebuilt and restored to its former design - at Trump's personal expense. He is NOT above the law and to permit this project to go ahead without penalizing him and all those who broke the law must not be permitted.

Name: LENORE LARSEN-DWYER
Date: February 22, 2026 9:02:35 pm

It is not a modernization project. The proposed palatial ballroom is not in national interest of the people's house nor is it MODERNIZATION.
The excesses of the total square footage of the proposed ballroom *(which includes lifetime maintenance and cost of utilities) is not something Americans have asked to pay for.
The East wing should represent American people not wealthy folk who prefer ballrooms. Ballrooms are not a place for the peoples's work

"I oppose the spending of $300-$600 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history.
I want this project canceled, and the East Wing rebuilt and restored to its former design with cost effective and security infrastructure.

Rapid destruction of the White House is viewed now as a "crime scene" and the proposed ballroom will also be viewed as a crime against American Citizens,
No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans."

Name: Susan Graves
Date: February 22, 2026 9:29:35 pm

The White House is the people's house. It is lived in by the president for a very short time. Mr. Trump has no business demolishing the East Wing. He knew exactly what he was doing in doing it prior to getting approval. It should be criminal to do what he did to something not his.
Furthermore, the proposal to construct a new ballroom at the White House raises serious concerns about priorities, symbolism, and stewardship of a historic national treasure.

The White House is not merely a venue for events; it is one of the most enduring symbols of American democracy. Its architectural character, shaped over centuries and preserved through moments of triumph and crisis, reflects continuity, restraint, and respect for history. Introducing a large-scale ballroom risks altering not only the building's physical integrity but also the spirit of humility and public service it represents.

At a time when the nation faces pressing challenges—economic uncertainty, infrastructure needs, public health concerns, and global instability—allocating significant resources toward expanding ceremonial space sends the wrong message. The presidency carries profound symbolic weight, and any major alteration to its official residence should be approached with extraordinary caution, transparency, and public consensus.

Enhancements to functionality are understandable, but they must not compromise heritage or appear disconnected from the lived realities of the American people. Preserving the White House as it stands is an act of respect for history, fiscal responsibility, and the democratic values it embodies.

For these reasons, I strongly oppose the proposed ballroom addition and urge decision-makers to prioritize preservation, prudence, and the long-term integrity of one of the nation's most iconic institutions.

Date: February 22, 2026 9:51:07 pm

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one President or Legislator has the right, legally or morally, to destory the historic property of our nation. To permit this project to go ahead without penalizing those who broke the law and robbed theTreasury to do so would be an affront to all Americans.

Name: Susan Smithson
Date: February 22, 2026 9:53:15 pm

Tearing down the East Wing was an abomination and should never have been allowed to happen. The wing was a important part of American history and "modernizing" was done to destroy the history and replace it with selfish desire that does not represent the American people. It should not be allowed to continue but instead, restored to the original likeness and purpose as much as possible. The funds to rebuild should come from the money currently being wasted by POTUS to further his agenda.

As an architect for over thirty years the proposed addition to the east wing is out of proportion and overpowers the White House. The main focus should always be the White House. From a design point of view there are several things that could be done to make the addition fit into its surroundings. Please provide a thorough design review and have the design team provide several options to resolve this issue to satisfy all parties. It will be a bad image for the USA if a ballroom dominates the White House grounds.

Commissioners: Thank you for the opportunity to comment on this very public and historic landmark.
After viewing the Commission's January 8th meeting and hearing members of the Commission comment on how important the White House is to the United States of America and its image, I have concerns regarding the proposed design. My concerns are that the new building (East Wing) is NOT at all to scale with the White House. It is extremely overbearing and makes the White House appear to be so very insignificant. Is that the design mission, to make the White House look small? The proposed new building is a glorifed shoebox. A two story shoebox which does not complement or fit in with one of the most important government buildings of this country, The White House.

Please, significantly decrease the size of the buildiing height and footprint, so that it is smaller than the White House.
Also, please do not destroy or eliminate the Rose Garden.
Also, as one of the Commissioners stated on January 8th, please, oh please ensure that ramps exist wherever there are stairs. How shameful it would be to have someone who uses a wheelchair not to be able to enter or exit at the same location as other participants.

Thank you

Name: Pamela Torrisi

Please put a stop to what is happening to our White House. It’s disgraceful that the building was destroyed the way it was. I totally disagree with the decision to tear the building apart to build a ballroom that will be a trashy addition just as the other things are that are being done.
Bottom line: People are required to get permits to tear down and rebuild. If we’re all required to do that, then why wouldn’t this building have the same requirements. Especially since it’s an historic building which belongs to the People, not the present tenant.
Thank you,
Pamela TORRISI

As a proud American and taxpayer, I urge you to consider a smaller, more modest East Wing modernization design than the monstrosity currently under consideration. The White House should be the focal point of the site, not the so-called ballroom. Most of us Americans will never see the inside of the ballroom; if you proceed we will be left staring at the ugly edifice you plan to build.

Name: Glen Dixon
Date: February 22, 2026 10:26:54 pm

The East Wing should, obviously be smaller than the White House Mansion. The impact and presence of the White House should not be visually diminished by a ballroom, or any adjacent structure.
Also, the view between the Arlington National Cemetery and Lincoln Memorial should be maintained as well as other historically symbolic views. These were mostly created with great forethought.
Our history is important to a vast majority of Americans and must be considered by the government WE empower.
Thank you for your consideration, I hope it's a great day!

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans. This is the people’s house and no President should get to unilaterally make major changes to it.

Date: February 22, 2026 10:59:16 pm

This project began without notice or permission. It should be put back the way it was at the expense of those who tore it down. No tax dollars should be used to do this. There must be accountability for destroying a large section of a historic building. Until such time this project cannot move forward.

Name: Janet Watson
Date: February 22, 2026 11:01:02 pm

To have undertaken this $350,000,000 “project” without submitting an application for approval or getting the funding approved by Congress, on a building that doesn’t belong to him, President Donald J. Trump has probably committed a crime by having the existing East Wing destroyed. His plan to build a ballroom should be immediately scrapped and he should be required by law to repay from his own personal money the cost of cleanup and rebuilding of the East Wing in an appropriate manner that is appropriately approved. Mr. Trump should be banned from seeing or commenting on the rebuilding plans, imposing a large fine on him anytime he mentions it! His action calls to mind his remark in 2016 when he said he could shoot someone on Fifth Avenue and nothing would be done to him. Please don’t let him get away with ‘murdering’ the White House!

Name: duane smith
Date: February 22, 2026 11:13:33 pm

I urge the NCPC to vote no to the proposed ballroom addition and to enforce the rebuilding of the original East Wing.

The proposed ballroom addition is out of scale with the site and overshadows one of the most historic and significant buildings in this young nation.

Name: Katinka Bryk
Date: February 22, 2026 11:14:47 pm

Hello,

You have to stop this illegal monstrosity.
I know your board are all tRump flunkies, but where is your sense of obligation to your duty?
Allow for a measured review of this project.

Name: Jeanie Purcell
Date: February 22, 2026 11:29:19 pm

The White House needs to be restored back to its original appearance. Permission change it was not requested and certainly not granted. The White House belongs to the people of the United States, not one man who currently resides there. It is not his house. It is OUR house and every part of it has historical significance.

If this president wants a big, beautiful ballroom, by all means, he should build it, but build it somewhere else. It should not come at the expense of desecrating an historic landmark.

No normal American wants a grand ballroom s part of the White House. It will remove the history and the symmetry of the building, nd its a waste of money.

Name: Amanda Greene
Date: February 23, 2026 12:29:11 am

America's White House is a National Historic Landmark and a National Park, owned by the American people and home to presidents since 1800. The current president at any given time is not the owner of the property or its buildings; the president is a temporary tenant whose interventions are limited by law and by respect for the people of the United States.

The demolition of the historic East Wing without review, without permits and without Congressional oversight is clearly a violation of the law. In addition, it is a violation of the trust of the American people who were given no opportunity to comment on what should have been presented as a proposal and not as a violent fait accompli.

I urge the National Capital Planning Commission to require reconstruction of the East Wing in keeping with its historic design and size.

Name: Deborah Good
Date: February 23, 2026 12:41:50 am

The East Wing should be restored to its original condition. It was illegally torn down and DJT should pay for its restoration.

Name: Martha Redeker

No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.
This vanity project for Donald J Trump is an affront to all the people who honorably served the American people in the East wing. What is built here ought not to be gold and mirrors and marble but building materials that match those found in the US and that complement the White House itself. The size of the wing should not be larger than the White House itself. This is America and we don't need or want a Versailles. The architects and builders ought to have impressed on them that they are working for the American people and NOT Donald J Trump. I'm sure he will try to withhold the money that he will say he collected from donors, but they are only bribes that he has extracted for his own benefit and not true gifts to the American people for THIER house. Every nickel that is collected and spent for rebuilding should be strictly accounted for. Whatever grandiose ideas Mr. Trump has for a ballroom he should save for his retirement home, Mar a Lago.

Thank you for your attention to this matter on behalf of the American people for generations to come.

Name: Ronald Seroka
Date: February 23, 2026 3:36:23 am

As an American, I always felt a point of pride that the White House was the 'People's House' and not a playground for the rich. There are other private areas for grand parties. This ballroom would destroy the architectural balance of the White House area. The best thing to do would be to return the East Wing to its original design before it was thoughtlessly destroyed. This reconstruction should be paid for by Trump.

Name: Debra Hempler
Date: February 23, 2026 4:03:12 am

No one should have destroyed the people's house without permission. No one wants a fake gold ballroom that none of us will use. If the billionaires have so much excess money floating around they should feed the hungry and house the homeless. Save our heritage. Thank you

The razing of the White House's East Wing is not a "modernization project" at all. It is open war against America's standards of leadership, dignity, and gravitas, not to mention taste. Stop letting this rancid gilt-covered bull in a china shop destroy even the symbols of what is meaningful to decent Americans.

Name: Shana Belsito
Date: February 23, 2026 6:42:24 am

It’s called the White House, not the White Palace. This proposed monstrosity significantly impacts the historic landscape and dwarfs the massing of the living residence. While a new space for entertaining is needed, the size and scope of this proposed project is not necessary. The proposed ballroom does not “need” to seat 999 individuals, prior tented events on the South Lawn were held approximately 400 people,
There needs to be a tasteful and sensitive design approach; scale is everything in design and this is a complete miss and mess.

Name: Krista Atkinson
Date: February 23, 2026 7:52:03 am

The title of this project is upsetting in itself. The East Wing did not require any modernization - if it did, it should have been determined by a careful and thoughtful committee made up of experts from the organization meant to oversee such projects, the National Trust for Historic Preservation. The fact that the entire East Wing of the White House was razed within days by one man's direction, with no public notice and few, if any, preservation attempts, is an embarrassing administrative failure to acknowledge and preserve our shared history. The price tag of $300 million, "donated" (sometimes annoymously) by mostly wealthy technology company CEOs, is clearly overblown and wasteful. The president may consider himself a designer, but he is not familiar with the requirements of history and taste required to make a new East Wing/ballroom that stands up to time as a model of restrained, tasteful, and balanced American design. I firmly stand against this project.

Name: Stephanie Bullard
Date: February 23, 2026 7:53:40 am

I oppose the unauthorized destruction of the East wing of the White House and the construction of a new building in its place. I think that the East Wing should be restored to its original footprint and design at the cost of the person/people who decided without permission (or input from the people) to demolish and replace it. If any legal or criminal consequence are possible for those who authorized the demolition, they should be pursued. It needs to be made clear that the people’s property (especially historic sites) is not to be altered or destroyed based on the whims of one person or a small group of people.

Name: Kristin Heckman
Date: February 23, 2026 8:17:50 am

This is not a “modernization” project. It is an illegal, unjustifiable and arrogant power grab by a fascist president acting without authority. I oppose the design and ask that the east wing be rebuilt to its former glory and that all artifacts be restored and preserved. And that the cost for restoration be covered by Trump and his friends, not the American people.

Name: Stephanie Chaplin
Date: February 23, 2026 8:18:19 am

I am opposed to the current plans for the 90,000 square foot ballroom where the former East Wing of the White House previously stood. My arguments are as follows:
1. The White House is the People's House, meaning it belongs to the citizens of the United States -- not to any one person.
2. For almost 250 years, each occupant of the People's House has respected the structure and size of the building.
3. The residence of the White House is 55,000 square feet. A 90,000 square foot ballroom would dwarf the existing structure.
4. There are ways to build a 90,000 square foot ballroom without dwarfing the current structure, such as building a part of the
ballroom underground.
5. It is required that any alterations to the People's House of this magnitude be approved by nonpartisan agencies and Congress.
This procedure was not followed.
6. Use of private funds to construct such an addition violates all procedures for planning and construction of an addition to the White

House.
7. The former East Wing was demolished without consulting any agency that should have been consulted and permission granted.
8. Each occupant of the People's House is granted permission, by the People,to occupy the White House. The occupant does not
own the building and must follow procedures for altering the structure.
For these reasons and others, permission to allow the current plans for construction of a 90,000 square foot ballroom must be denied.

Name: Meredith Moench
Date: February 23, 2026 8:22:44 am

I oppose the multimillion dollar project for a ballroom. The east wing of the White House was destroyed without any legal authority at the whim of one person. The nation does not need a giant ballroom reminiscent of the worst of Europe's monarchies. I want my grandchildren to be able to see the White House as it has been for over 200 years. It is an historical building belonging to the people, not the man who happens to be temporarily occupying it. The east wing of the White House must be rebuilt to its original design, and this so-called modernization project stopped. I also think there should be legal consequences for Donald Trump for willfully destroying a large part of an historic national treasure, which also happened to have been the first ladies residence. This cannot be allowed.

Name: Adina Steen
Date: February 23, 2026 8:22:53 am

It is an absolute disgrace what Trump has done and is planning to do to the White House. He does not own the house; the People do. Using billionaire money to do it poses enough ethical concerns, but it also completely flouts preservation rules, NEPA approvals, and required Congressional approvals. He is out of control and must be stopped.

Name: Amy Cole
Date: February 23, 2026 8:25:27 am

I oppose the spending of $300 million on the East Wing Modernization Project which was undertaken without proper authorization, permits, or design review. The razing of the East Wing was a crime and it should be rebuilt and restored to its former design at the personal expense of Donald J. Trump. The president has no respect for the People's House which should not under any circumstances be subjected to his personal desires at the expense of American citizens.

Name: Katherine Schoettle
Date: February 23, 2026 8:33:25 am

In most areas of the country, when there is proposed building in a historic district or an alteration to a structure which has been designated as historic or which is recognized as an historic structure, there is a process to follow before the project receives an ok.

The wanton destruction of part of the White House, which is unarguably a historic structure, must be viewed as illegal.

Name: Sara Jondahl
Date: February 23, 2026 8:44:30 am

To Whom It May Concern:

I am writing to respectfully express opposition to the proposed ballroom addition at the White House based solely on the merits of the application as presented.

While the functional need for an enhanced space to host and entertain world leaders is understandable and carries practical merit, the proposed scale and massing of the addition do not appear to be consistent with the existing complex. Historically, the ballroom associated with the White House has been significantly smaller then the proposed and always

secondary in form and scale to the main Executive Residence. The current proposal, as described, introduces a structure whose size and visual prominence risk competing with, rather than complementing, the primary building. As one of the most recognizable civic buildings in the world and a symbol of American democracy and governance, the White House holds exceptional architectural and cultural significance that warrants careful stewardship of any proposed alterations.

Preservation best practices emphasize that new additions to historic structures should be subordinate, compatible in massing, and respectful of established proportions and character-defining features. Based on the information available, the proposed addition does not sufficiently demonstrate this level of subordination or contextual alignment.

For these reasons, I respectfully urge reconsideration of the proposal in its current form and encourage exploration of alternatives that better align with established preservation principles while still meeting functional objectives.

Thank you for your time and consideration.

Sincerely,
Sara Jondahl, concerned US Citizen and historic preservationist.

Name: Thomas Shafer
Date: February 23, 2026 8:44:59 am

It’s hard to find words to describe the demolition of the East Wing of the People’s House. Heartbreaking, insulting, and enraging are a few words that come to mind. What Americans witnessed was a brutal assault on our legacy. We were promised as recently as July, 2025 that a proposed ballroom addition would not affect the existing structure of the White House. That, was a lie.

We have now been shown a series of ever-grandiose renderings of a ballroom that dwarfs the Executive Mansion. A building, that if completed, will irreparably alter the site lines of the White House grounds. At best, any structure that replaces the East Wing should be no larger than the footprint previously taken. If the goal is a modernized space for events, surely that can be accomplished within the shell of the East Wing’s former dimensions. A structure of the dimensions currently proposed should not be considered viable for the White House grounds.

Name: Robert Cole
Date: February 23, 2026 8:49:38 am

The White House and its land belong to the government of the Unted States, not to the (temporary) occupants. The occupants cannot legally or ethically make unilateral property decisions any more than a renter can engage in major construction on a landlord's property. There is a process for making decisions such as the East Wing construction, and that process must be fair, reasoned, guided by experts and followed.

Name: Phyllis Cousins
Date: February 23, 2026 8:50:00 am

It simply amazes me that you are allowing the illegal razing of the East Wing of the White House without repercussions. Should this blatant disregard for public property continue, what else may be lost to the American public? Please stop this NOW.

Name: Arch MacInnes
Date: February 23, 2026 9:01:54 am

Please restore the building as it was. This hasty and unwarranted “renovation “ is so inappropriate as to be laughable.

Name: Deri Dannenbrink
Date: February 23, 2026 9:03:25 am

I am requesting that the regulations regarding the use of taxpayer dollars to destroy and rebuild part of the White House,

to please a few to whom a few million is nothing, be stopped. We, the people supposedly being represented, work hard to pay for these spending atrocities. We speak for many when we say we want the historic building restored and the ballroom project stopped.

Name: Amy Pemberton
Date: February 23, 2026 9:05:55 am

The East Wing of the White House MUST be restored in full to EXACTLY how it was before Donald John Trump tore it down.

EVERY particle of the East Wing that was removed MUST be restored and replaced IMMEDIATELY. Anything that cannot be restored must be replaced with historically accurate materials.

The only "modernization" that should be allowed is changes that are required to meet modern building codes. But these "modernizations" must be made 100% invisible - meaning no one should be able to detect them visibly.

Donald John Trump must be compelled to pay the full cost of all work to repair his vandalism. "Full cost" means not only the direct cost but also 1) all legal fees for any and all legal action needed to compel his payment; 2) full cost plus interest on any funds advanced by the government to immediately begin work and stabilize the work site and restore the materials from wherever they have been removed to; 3) any and all legal cost required for civil actions against the contractors involved in the East Wing demolition, including legal cost for removing the business and professional licenses of all business and professionals involved and 4) any and all legal cost required to hold his collaborators criminally, civilly and financially liable for any future and current damage.

Restoring the East Wing in full is the moral, legal, ethical, and patriotic duty of the National Capital Planning Commission. It is also your duty to see that the taxpayers are not on the hook to pay for Donald John Trump's vandalism. There are simply no other options. You are required to treat Donald John Trump the way any landlord would treat any other tenant who trashed their property - by compelling tenant Donald John Trump to pay all costs in full and restoring the White House in full.

I look forward to the Commission doing its duty.

Date: February 23, 2026 9:08:35 am

As a student of history, I have the folliwing comments.

1. Following an act of Congress in 1961, the White House’s permanent collection and historic rooms are considered a museum, requiring cooperation with the Committee for the Preservation of the White House and the White House Curator, which often includes input from historians and experts to preserve its historical integrity.
2. During the Truman administration (1948–1952), the White House was found to be structurally unsound. Congress created the Commission on Renovation of the Executive Mansion to oversee the project, which involved significant public transparency and expert input.
3. Although the White House is exempt from certain federal historic preservation rules (Section 107 of the National Historic Preservation Act) that require public review, past administrations have traditionally submitted plans to the Commission of Fine Arts for advice, even if not strictly required.
4. In the 1960s, First Lady Jacqueline Kennedy formalized the process of restoring the White House, establishing the White House Historical Association to provide financial support and expertise for preservation, which involves collaboration with experts.
5. In contrast to these traditions, the 2025–2026 plans to demolish the East Wing for a new ballroom were criticized for lacking the standard, formal public and expert review processes.
Ultimately, while the White House is a home to the President, it is legally federal property managed for the people of the United States.

Thank you.

Name: Ryan Smith
Date: February 23, 2026 9:11:41 am

I strongly oppose the presidential administration's demolition of the previous East Wing without Congressional oversight or planning review. For the proposed ballroom and other amenities, I also oppose the administration's proposal for the ballroom structure, as being forced through a system that does not involve oversight by trained designers, landscape professionals, and heritage officials. This is public land, and the proposed private financing of the project creates structural incentives for political corruption, while foreclosing Congressional oversight. Lastly, the proposed design for the ballroom itself, a mammoth structure that threatens to overwhelm the primary residence itself, is entirely inappropriate for the setting of an important visual representation of American democracy that has stood the test of centuries as an enduring symbol of our nation's character. Please do not allow this project to proceed under the current plans and structures.

Stop the building of the ballroom on the white house. It's illegal and a waste of our money .

Name: Kathy La Plante
Date: February 23, 2026 9:19:23 am

It is with a very heavy heart that I write opposed to the building proposed by the administration to replace the East Wing, which was tragically destroyed without taking any kind of public comment. How this happened in the US is beyond comprehension. The East Wing should be rebuilt - for no new building should over-scale the White House and its surroundings. There is no funding for this type of project and do not support a lavish ballroom being built.

Name: Marylee Chamberlain
Date: February 23, 2026 9:19:48 am

I strongly oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. This action is an affront to all that came before and gave due respect to the history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans. You must not allow this to move forward.

Thank you for your careful consideration on this.

Name: Bonnie Hull
Date: February 23, 2026 9:31:34 am

This is a horrible waste of historic architecture, as well as being a project funded by billionaires with high stakes in American political outcomes. The administration should not be allowed to create a project fraught with pomp and baroque excess, signaling to the world and to the American public that we, Americans, could not be farther from the priorities of their “leaders”.
This renovation should be made into a space where the truths of the North American experience both pre and post colonization can be told and memorialized for the world.

Name: Elizabeth Satterfield
Date: February 23, 2026 9:32:35 am

As a professional historic preservationist and public historian, the "modernization" project of the East Wing of the White House is beyond troubling. It is a flagrant abuse of power on the part of the Executive Branch and clearly ignores and violates the National Historic Preservation Act of 1966, Section 106 processes, as well as many other elements of due process. Although this project claims to value the integrity of the historic site that is the White House and its cultural landscape, the demolition of the East Wing is in clear defiance of federal mandates and has forever jeopardized the integrity of the site. No "modernization" project or elaborate ballroom scheme can restore what has been lost.

I serve as the Curator at a small museum and historic site in West Virginia called Arthurdale. Arthurdale was the nation's first New Deal community, a revolutionary federal experiment aimed at lifting up the poor and vulnerable. Arthurdale was championed by First Lady Eleanor Roosevelt, who visited the community more than 30 times. Eleanor was also instrumental in the use and expansion of the East Wing for the work of the First Lady. My admiration for Eleanor and her work made the destruction of the East Wing and this "modernization" project even more painful.

Since 1985, my nonprofit, Arthurdale Heritage, has worked to preserve this community and its history. We are listed on the National Register of Historic Places and often receive state historic preservation grants (funneled from NPS) to conduct preservation work. We are required to follow many federal procedures and laws, including Section 106 and Department of the Interior's Standards for Historic Preservation and Rehabilitation. If we do not comply, our funding is withdrawn.

If a small, rural nonprofit in West Virginia is required to follow federal laws and procedures, should not the Executive Branch and the White House be required to do the same? Federal dollars, garnered through taxing the American public, are intended to fund this project. I do not support my tax dollars being spent on this abuse of power, destruction of a historic site, or construction of an unnecessary and appalling grand ballroom.

Respectfully,
Elizabeth P. Satterfield

I oppose the East Wing Modernization Project.

This project began without required National Capital Planning Commission approval, without environmental assessments mandated by the National Environmental Policy Act, and without congressional authorization required by federal law for construction on federal parkland in Washington.

The $400 million cost is funded by corporations holding billions in federal contracts with the administration approving those contracts.

This creates an unacceptable conflict of interest.

The White House is not private property. It belongs to the American people. No president should have unilateral authority to demolish historic structures and approve construction without following the law and allowing public input.

I urge the Commission to reject this proposal.

Name: Cristeen Fort
Date: February 23, 2026 9:44:28 am

The President destroyed the east wing without proper approval. This is part of the people's house and a historic part of the most iconic building that represents America. We do not want it replaced with a gaudy venue for the wealthy while thousands of Americans go without health insurance and the basic necessities.

Name: Patrick Leggett
Date: February 23, 2026 9:53:26 am

I vehemently oppose the East Wing Modernization Project. This $400 million construction began without National Capital Planning Commission approval, without required environmental assessments, and without congressional authorization mandated by federal law for construction on federal parkland in Washington. These initial WH actions were criminal hypocrisy in action. These violations should not be rewarded with after-the-fact approval.

The funding creates unacceptable conflicts of interest. Corporations holding billions in current federal contracts with this administration are funding a construction project at the residence of the president who controls those contracts. This is not charitable giving. This is an investment in access and favorable treatment- this is criminal hypocrisy in action.

The White House belongs to the American people, not any individual president and definitely no corporation. I urge the Commission to unanimously reject this proposal until full legal compliance is achieved, including congressional authorization and completed environmental assessments. No temporary occupant should possess unilateral authority to demolish historic structures without following the law.

Good morning,

I am writing with my concern of the East Wing Modernization Project. Not only was the East Wing demoed without approval, the plans were also finalized without any approval. While it is apparent that a larger meeting space is needed for the White House, it is disappointing to see architectural history of the United States of American be completely torn down without any approval. It sets a precedent in this country for historic preservation that benefits developers and lacks the proper care and attention that is needed to historical preservation. An architectural study of using the existing footprint of the East Wing with proportion additions and renovations should have been the first plan in place. Now that we no longer have the East Wing, I strongly encourage National Capital Planning Commission and U.S. Commission of Fine Arts to order to have the plans revised so that the new wing will not overwhelm the carefully balanced classical design of the White House, a symbol of our democratic republic. I hope that you respect our public's opinion and concerns to preserve the historic integrity and symbolism of the People's House for future generations.

Sincerely,
Ashley Hanley

This project is not modernization, and it did not go through proper channels of approval. The White House belongs to the American people, and at a time when people are struggling, using tax payer dollars to build a vanity project like this ballroom without permission, necessity, or consensus is unconscionable.

Name: Elizabeth Pemberton
Date: February 23, 2026 9:57:29 am

I am writing to oppose the construction of the obscenely large addition to the White House complex. The construction plans include an expensive ($400 million plus) ballroom designed for entertaining the wealthy. The ornate design is offensive as is the destruction of the East Wing without public notice and the lack of respect for our basic oversight procedures.

STOP THE CONSTRUCTION
RESCALE the design to complement the current White House complex
PROTECT OVERSIGHT of the project
ENSURE TRANSPARENCY
PUBLISH DONOR names and amounts given

Thank you for the opportunity to comment.

Name: Joanne Hutton
Date: February 23, 2026 10:00:18 am

I oppose the present plans for a gargantuan building that will dominate and unbalance the landscape of the White House grounds and add significantly to ongoing taxpayer burden for maintenance.

Should a ballroom be deemed necessary and prudent to the operations of all future administrations, a more seemly profile and scale is called for, fitting with this historic site's dignified but restrained culture.

Joanne Hutton

I love our country and I’m particularly moved by the original White House and East Wing as architecturally reflecting the simplicity and purity of thought and ideas of the founders of our country.
I had the privilege of working in the White House for six months under President Jimmy Carter. I was so proud to arrive for work in the morning and arrive through the South Gate. I loved showing my family and friends around the premises when they arrived at the East Wing for their White House tour. The halls of the East Wing were hallowed.. Historic photos of presidents and families and noted politicians graced those corridors. I used to think: how fortunate to have such a magnificent building — White House and East Wing — represent who we are as Americans. Trump is destroying our country physically, spiritually and historically. Don’t let him
Build a colossally UGLY, out of character building in the white house grounds. That means our country will never be tge same. Joanna F Caplan

The east wing should be re-built as it existed prior to demolition.

Name: Anne Kristobak
Date: February 23, 2026 10:06:53 am

As an interior designer, I would like to express my disappointment with current plans for this project. The ballroom is grossly out of scale. While I understand that a space to host events is needed, the current plans do not reflect an elegant, classical solution to the problem. We, as the American people, who will have to live with this structure for decades and perhaps centuries deserve a structure that has been well-thought out and careful considered. This is not it.
Funding this project with private donors is also concerning and brings up considerable ethical questions.

Name: Bernadette Flinchbaugh
Date: February 23, 2026 10:13:32 am

I do not believe it is appropriate to spend $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans. Razing a historical building is not acceptable Even if it is just P art of the building .

Name: Janet Egelhofer
Date: February 23, 2026 10:22:38 am

I am abject at the loss of the historic East Wing and object to the overpowering scale of this project. It dwarfs the historic White House and destroys the symmetry and balance so well represented by the Federalist architecture of the White House.

In addition to competing with the White House in overall mass, the two story design and grand entrance overwhelm the beautiful 1800 building. The designers should be asked to both scale back the dimension of the project overall and consider putting one of the floors underground.

I sympathize with the need for more entertainment space at the White House but consideration should be given to scale back the need to seat 1,000. There are, after all, a number of nearby venues in Washington, DC that accommodate large audiences

I vehemently detest that the East wing of the People’s White House has been destroyed in a brazen, unauthorized act of obliteration of history without permission or design review. I demand the East wing be rebuilt and restored in its entirety, exactly as it had been prior to its destruction. Those responsible for this heinous act must be penalized in accordance with the law.

Name: Andrea Vaughan
Date: February 23, 2026 10:24:28 am

I oppose spending $300 million plus of tax payer dollars for this Trump vanity project. Once it is built, it will stand forever as a reminder of the worst, most corrupt president ever. It will dwarf the White House and ruin the esthetics. This project was initiated without the proper reviews or permits and just like any other project started this way, it should be halted on that basis alone. Scrap this project and rebuild the East Wing.

Name: Regina Chabarek
Date: February 23, 2026 10:24:31 am

I respectfully request that any reconstruction of the East Wing be in keeping with the current architectural design of the

building in size, scope and style. I would ask the board to consider the nature of the project. Does it serve the best interests of America's citizens or will it be accessible only to the ultra wealthy? It is the people's house. How will the reconstruction serve the people as a nation? How will it blend in with its surroundings and respect our nation's historical values? How will it reflect democratic values?

I have spent more than 30 years of my life living in the DC area and have practiced architecture in DC. Several historic structures and cultural elements in DC are still standing primarily because of my advocacy for them. Historically, the NCPC has also been a large part of those kinds of efforts because of the expertise and preservation knowledge held by many of its members.

The current board makeup was installed specifically to rubber stamp this project and others like it and unfortunately have little of that expertise. This commission therefore should pay even more attention to the expertise and public comments from design and historic restoration professionals such as myself and less upon the direction they are being given by their appointer.

History will be a harsh judge if the wisdom of experts is ignored.

All of us can agree that the demolition of a major, historic, contributing structure attached to what is arguably the most iconic building in our nation's capital, without any review, is appalling, unwarranted, and unprecedented. The White House, The People's House, was essentially treated with less respect and less scrutiny than a historic one-car garage in Foggy Bottom would normally receive prior to demolition.

For many decades, the process of design review and the application of Secretary of the Interior Standards for the Treatment of Historic Properties for our nation's capital has been a non-political, professional endeavor. The members of this body and the CFA should repurpose themselves to not just rubber stamp this project and to take their responsibilities seriously.

This project has not followed ANY proper contracting or bidding regulations. The massing, scale and detailing DO NOT follow the Secretary of the Interior Standards for the Treatment of Historic Properties. Specifically, the addition to a major historic structure should be subordinate in size, height and footprint.

It is subordinate in none of the above criteria.

This building renderings publicly available show that it attempts to "create a false sense of history" by copying too many elements of the historic architecture.

Simply put, this building needs to be smaller, simpler, less conspicuous, and lower in height than the main White House structure.

Dear Stakeholders,

I am the head of the Historic Preservation Commission in Bloomington, Illinois. Our city code lays out many rules and procedures for the treatment of historic structures. For structures with zoning that identifies them as historic, a meticulous process of review is in place for owners wishing to repair, renovate, alter, maintain, or otherwise change the structure. Our board adheres to The Secretary of the Interior's Standards and Guidelines for Archeology and Historic Preservation and ensures any projects involving historic structures adhere to these guidelines, in part to maximize the structures' longevity. Additionally, our commission reviews demolition requests for structures older than 50 years to make sure that no historic structure is being demolished needlessly or arbitrarily.

Our humble municipality has procedures in place to protect and maintain irreplaceable historic structures and ensure that any additions and alterations do not interfere with their architectural and historic character. While the historic East Wing has sadly been lost forever, there is still time to make sure that the White House is not overwhelmed and overshadowed by the president's proposed 90,000 sq ft ballroom. I call on the National Capital Planning Commission (NCPC) to carefully review The Secretary of the Interior's Standards and Guidelines for Archeology and Historic Preservation and protect the People's House from this inappropriate addition.

Sarah Lindenbaum

Date: February 23, 2026 10:40:46 am

Hello. I'm writing to object to the plans for the White House ballroom. I don't object to the concept of a ballroom. But I do object to the process - without going through the proper channels to vet designs and have the proper institutions approve the plans. I also object to the sheer scale of it. It's ridiculous to have a ballroom that overshadows the White House itself. It's just another monument to fuel one man's ego and it's a complete waste of money that could be used for more important purposes. I'm asking you to shut down this current process and go through the proper channels. I think if you queried the American people for their desire to spend money on this initiative you'd find we are not interested. Thank you.

I oppose this project, even if the $300 million were donated funds. It was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Lisa Johnson
Date: February 23, 2026 10:46:53 am

What is the point of an architectural review committee if they are not included in planning the East Wing changes? NO president should have unbridled authority to change historical properties. Stop this project immediately and ensure proper steps are taken to protect the integrity and original intent of these historic monuments.

Name: Todd K
Date: February 23, 2026 10:47:27 am

I find it deplorable that a structure that will effectively dwarf the White House will be constructed next door. Further, US citizens are literally living on the streets with no food nor shelter just feet away from this $400 million project, and this is how we allocate our resources? Shame.

Name: Mark Pfost
Date: February 23, 2026 10:48:24 am

I oppose the White House East Wing ballroom modernization project for a number of reasons. But first, my wife and I toured the White House in October, 2024. As we walked through the various rooms, we joked—with black humor—that depending on the following month's election, we might never be able to replicate our visit. Little did we know how prophetic that black humor was. We would have walked through the visitor entrance and security screen areas before continuing on the Executive Residence.
Frankly, I am surprised that the president didn't order the destruction of the Executive Residence as well, so that he could guild it with gold and paper the walls with his image.
Sarcasm aside, I oppose the modernization project because: 1) it did not go through proper review process; 2) funding sources create more questions than answers about "who is in whose pocket;" 3) citizens—through established committees and review functions—were excluded from providing input prior to the destruction; 4) since we are not a monarchy with the need of kings, we do not need a ballroom-type space; 5) I suspect those selected to raze the old and build the new, may not have been properly vetted—a national security risk; 6) disposal of waste from the site has environmental risks that have not been properly managed; and 7) this is a vanity project for the President. He has as much as said so.
While the damage cannot be undone, any continuance of the project should be put on hold pending architectural reviews, security reviews, environmental reviews, citizen agreement, and complete knowledge of who is funding the project. Until such time that all of these concerns are met, I do not want to see another shovel of dirt lifted, or two planks nailed together.

Date: February 23, 2026 10:54:38 am

I DO NOT support this project, particularly given the fact that Trump has hand-chosen those who will guide the design. Also, there is zero transparency about where the funding has come from. Who knows what the "pay for play" President has agreed to do/allow for the donors. Until Trump took office in 2025 I had NEVER heard a word about the need for a ballroom at the White House; it's one more way Trump wants to put his name on a building.

Name: Mandy Charles
Date: February 23, 2026 10:57:47 am

A 90,000 square-foot ballroom additioin to the White House is totally unnecessary, a waste of taxpayer money, and will end up being another gaudy embarassment. I am commenting so that my disapproval is on the record, not because I believe my comments or those of any of the other thousands in agreement with me will make any difference considering this administration has put yes-men and women everywhere so that Donald Trump can do whatever he wants. I'm angered, saddened, and embarassed by what is going on in this country on so many levels. "Thank you for your attention to this matter." HAHAHAHAHAH!!! -Mandy Charles

I am an architect in the state of Massachsetts. My practice focuses on old house tranformations. They are not just restorations.
Old building need to be updated so that we as custodians bring them into the next century, well maintained and well loved.
This is the opposite approachfrom what Trump has taken. The White House is not his house. It is all of ours' house. He has destroyed a space of history and legacy.
Trump must be stopped. This demolition was done brazenly and illegally. We must not treat the proposed construction with a normal process of review. His program needs to be greatly reduced and pay omage to what he destroyed.

Name: Tina Mathes
Date: February 23, 2026 11:19:34 am

Thank you for opening this issue up to public comment and providing ample lead time for me to collect my thoughts, review your meeting when this topic was covered, and research concerns surrounding this proposal. My comments are below in no particular order of importance.

Summary:
I understand the need to update and modernize historical structures and I want the White House to be welcoming and showcase our country pride. However, there is a right way to make these improvements and protocol to be followed. Demolition of any part of the structure was uncalled for and premature at best. I am angry that the current administration ignored everyone else during this process. It is not okay and action should be taken to prevent similar unchecked future action for national structures, monuments, sites, etc. There needs to be accountability and consequences of rogue action, regardless of who is involved.

Questions/Comments:
> You refer to this modernization as a 'project" though it is not conforming to project protocol. Distinct project phases, including Initiating (define scope, provide justification, seek budget approval, etc.), Planning (define dependencies, identify risks, list & engage stakeholders, clarify approval protocol, process, vendor solicitation for bids, etc.) - notice all the work and discovery PRIOR to the Execution Phase (BEFORE ANY project work is done).

> Demo - if not in this Commission's purview for historic structures on federal land, then who has this oversight? Is your stance that it is not illegal to demo without oversight? So the administration could demolish the White House without your engagement and concern for oversight protocol? Who decided to start with the Execution Phase by demolishing the structure leaving no recourse or discussion for consensus?

> Segmented projects? Why isn't the commission requiring an official Scope of Work for each project, their dependencies and integration as part of an overarching "Modernization Program of the 18 Acre Property" listing each of the potential subprojects, for full transparency BEFORE this administration decides to demolish something else important to The People? This method is project management 101!

> Budget - using ANY tax dollars without appropriate consensus is wrong. Private donations still do not permit acting without the proper oversight, especially kicking off any project that impacts our historical structures by demolishing any part. These changes should be fully vetted, approved, transparent to the American people BEFORE any work begins. Even the timing and urgency of this change should be reached through consensus outside of the primary beneficiaries given all that is going on at any given time.

Generally, I want my tax dollars to work for the good of the people - affordable health care, food, electricity, and gasoline, education, caring for vulnerable people, etc. Where are the checks and balances for spending our tax dollars appropriately? (I recognize that budget may not be in the scope of this committee, though the question begs to be asked)

> Handicap/physically challenged accommodations - seriously, this is even a discussion? The people who struggle the most are limited to an single entrance in the proposal, which dictates they travel the furthest to get to the new structure! This is about more than wheelchair users. It is about anyone who struggles to comfortably walk long distances or stand for long periods, using a cane, or walker, on oxygen, etc.

Given the number of entrances, a two story internal elevator attached directly to the new structure is a basic requirement and can be constructed quite attractively. Anything less is an insult to general users and specifically to anyone in need of an accommodation. (ADA compliance is not a choice but a requirement of all structures to meet current code - The People's House should be no different and should be welcoming to all while not placing a burden on some. The new structure will be a blank slate - convenient ADA accommodations should be required)

Kind regards,
Tina Mathes

To the Commission,
As an architect that lived and worked for many years in Washington, DC, I am strongly opposed to the new East Wing design. This project is both out of character and scale to the White House, a major symbolic building in our country's history. The detailing of the addition overwhelms the Neo-Classic design of the building and the size and placement completely destroys the symmetry and balance that once graced the building.

The fact that this project completely ignored required reviews and procedures during it's conception is also disturbing in the least and is another reason for slowing the breakneck speed with which is being built.

This commission is tasked to preserve and enhance the extraordinary historical, cultural, and natural resources and federal assets of the National Capital Region and as such should have undertaken this review process long before any demolition occurred. I suggest the commission review that mission statement before making any final recommendations.

Sincerely,
William J. DeMaio
Architect

I am very opposed to plans to modernize the East Wing of the White House. This project has been fast-tracked without

full public participation;and debate concerning the authorization for such a project and without regard to the history of the White House and its surroundings. There has been no public information regarding this project especially its funding. The White House belongs to the people of the United States and not to its current occupant, who has shown scant regard for its architectural history.
In short, this protects requires much greater detail about its funding and plans.

Name: Robin McConaughy
Date: February 23, 2026 11:32:00 am

To whom it may concern:
At a time when so many Americans are struggling to make ends meet and jobs for federal workers have been cut, I am appalled at the plans for a new East Wing. It's grandiose scale, the timing, speed and unexpected nature of the demolition, and its unnecessary and redundant nature make the administration seem overtly, almost purposefully, out of touch with the financial pain Americans are feeling. How did the demolition and final plans get approved without going through the proper channels? Why now? We are all making do with what we have at this time. For this new project to move forward with no explanation to Americans, even though partially bankrolled by corporations, feels like a slap in the face.
I think it's important for all Americans to understand exactly why this ballroom is necessary and how we will benefit from the project, the funds from which could have been better allocated to directly support the American people.
Thank you for your time.

This is a terrible and absolutely unnecessary project that a king want to be wishes. We do not have the money and this man should not get his own special ballroom for his Epstein buddies. Thank you for your consideration.

Name: Nicole Lathrop
Date: February 23, 2026 12:01:12 pm

This project isnt 'modernizing'. It is a complete destruction and rebuild. Additionally the rebuild isn't for any practical use by the people. It is a massive parthenon to excessive spending and gawdy architecture of roman empire proportions. we have no need for this while our communities cant buy food. We don't need gold adornments when school fundings are cut and masked agents are kidnapping off the street. This symbolises a decline of a world power, not a celebration of it.

Name: Carl Lange
Date: February 23, 2026 12:03:52 pm

The Whitehouse is a national treasure of the people. No individual, including the president, should have the right to alter this structure without thoughtful consideration of it's historic past and future through input of the people.

Name: Bobby Rowland
Date: February 23, 2026 12:04:54 pm

I oppose this project.
It is destructive of our history.

Name: Joan McRae
Date: February 23, 2026 12:05:50 pm

The destruction of the East Wing of the White House is tragic and nothing more than a self-aggrandizing pursuit by the temporary resident of the White House. At the very least, experts in historical architecture should be included in the final design in order to keep the addition consistent with the beauty and importance of the White House.

Name: Joan Vohl Hamilton
Date: February 23, 2026 12:06:30 pm

This project is a brazen elimination of American culture and history with no input, whatsoever, from the American people. The fact that it's being paid for (supposedly) by private individuals is equally troubling. What will be expected, in return, for their financial contributions? This is not how our country does business.
This is not only a razing of history, but a shredding of democracy. The project was initiated without proper authorization, permits, or design review, and the historic East Wing was razed with no approval from Congress. This project must be canceled, THEN must go through approved routes for construction, if approved.
Better yet, rebuild the East Wing as it was. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Maribeth Krupczak
Date: February 23, 2026 12:09:40 pm

I write in opposition to the East Wing plans recently approved by the US Comm. of Fine Arts and urge the NCPC to reject the plan presented and fully comply with the process for such a project.

Organizations such as the National Trust have offered thoughtful, expert solutions to modify the plans in keeping with the fundamental design of the White House. Nuanced changes are possible which can achieve both preservation of the balance and integrity of the site and the enlarged meeting space identified as a need.

As a citizen, I am dismayed by the serious neglect of process to this point and the profound disregard of public opinion in pursuit of this project. Please protect a site cherished by Americans and recognized by the world, rather than indulging the whim of a single person with a temporary bully pulpit.

Sincerely,
M. Krupczak

Name: Deborah Thomas
Date: February 23, 2026 12:18:02 pm

My comments are not in a formal format but they are nevertheless very heartfelt. I am mortified on a daily basis by the sight of the destruction that has already occurred to this beautiful and historic building and grounds. Even the title of this project is misleading. It should be called, " The Desecration oh the White House." The size of the proposed ballroon addition is outrageous and unnecessary. Even more troubling is the fact that demolition began without first going through the proper procedures ensuring public input and review by the authorized review panels.

Nothing can be done to undo the demolition that has already occurred but I hope the members of the Capital Planning Commission will stand up for the American people and rein in this vanity project.

Sincerely,
Deborah Thomas

Date: February 23, 2026 12:21:28 pm

In August 2025, President Trump's executive order, “Making Federal Architecture Beautiful Again,” designated classical and traditional architecture the default for new federal buildings. Classical architecture is, by definition, symmetrical, proportional, and geometrically simplistic. President Trump’s proposed approximately 90,000-square-foot ballroom addition to The White House contradicts all these key components. The ballroom, even with the removal of the pediment, will be immense and completely dwarf the existing 55,000-square-foot White House. Keeping the ballroom the same height as the White House will compromise the architectural integrity of the main executive mansion and will make the White House complex appear asymmetrical and disproportional. The new ballroom renderings will also block street views of the White House due to its immense size.

President Trump is a temporary resident of The White House and does not own it. He is certainly allowed to make cosmetic changes to the building to suit his needs as have all previous presidents. He cannot and should not be allowed to make permanent architectural changes to “the people’s house” without an objective and thorough review by the National Capital Planning Commission, the Commission of Fine Arts, the National Trust for Historic Preservation, the American Institute of Architects, and the White House Historical Association. This means not stacking some of the organizations with all his appointees who then approve everything he wants… without question.

Name: Bill Haddad
Date: February 23, 2026 12:27:39 pm

The proposed ballroom is an abomination and an insult to the nation's history and values. Please do not approve of this plan or anything other than the faithful reconstruction of the original East Wing.

Name: Barbars Lucas
Date: February 23, 2026 12:27:41 pm

I oppose this project. Not only have does it destroy a historical landmark, it represents the narcsissim of one man and has nothing to do with the citizens of this country.

Name: Karen DeWinter
Date: February 23, 2026 12:28:25 pm

It's too big and ugly.
East wing should never have been torn down.
Please remove design control from the Trump administration.

Name: George Rogers
Date: February 23, 2026 12:29:59 pm

The proposed East Wing project is grossly out of scale for the site and would dwarf the White House. Any plans should obtain the necessary approvals and follow architectural guidelines

---

I want this project cancelled! I don't feel that Trump had the authority to tear the old structure down, and I don't think it's a priority....I DON"T want my tax dollars spent on this unauthorized project.

Name: Stanley Green
Date: February 23, 2026 12:55:45 pm

I oppose this project as violating the rights of all Americans. No president has the authority to destroy our American heritage. This president mistakes his tenancy for ownership

---

Name: Nora Beger
Date: February 23, 2026 12:58:15 pm

The plan for the modernization of the East Wing overshadows what should be the most prominent section of the White House - the residence. The government does need a place to host receptions but it does not need to feel like an event center. While the decor can be tastefully designed to represent the importance of dinners and events held at the White House, inviting guests to a 1000-seat venue diminishes the importance of the dinners. Find a place to hold a rally or speech for 1000-plus, but don’t create a monstrosity that overshadows everything else in DC.

Name: Tracy Barlow
Date: February 23, 2026 1:04:37 pm

In regards to the East wing modernization project, and the new ballroom, I completely oppose it. It is not architecturally appropriate for the history and legacy of the White House compound. Do not build it. Do not allow this to happen!
Tracy Barlow

Name: Elizabeth Henderson
Date: February 23, 2026 1:05:38 pm

I'm outraged by the White House East Wing modernization project. At a time when millions of Americans are struggling with inflation, housing insecurity, and healthcare costs, it’s insulting to see taxpayer money poured into cosmetic upgrades and bureaucratic conveniences instead of addressing urgent national needs. The White House is supposed to serve the people — not indulge in vanity projects that benefit a political elite already insulated from everyday reality.

This "renovation" was undertaken illegally, and irreparable historical damage has been done. environmental damage that will cost possibly millions to mitigate has been a result of this illegal activity directed by the President of the United States. The proposed "ballroom" is a hideous monstrosity for the gilded age elite Epstein class. And we know there is a "bunker" being built that is not being disclosed.

The American public deserves to know how much this will cost, who stands to profit, and why it’s being prioritized now. Every dollar spent on illegal, unnecessary renovations is a dollar taken away from Americans who actually need support. I’m fed up with the waste, the misplaced priorities, and the disregard for accountability in this administration.

Name: Robert P. Blank
Date: February 23, 2026 1:13:26 pm

Where do I start? The very idea that ANY American president, especially one as corrupt and incompetent as this one, could unilaterally knock down a part of the White House -- the people's house -- is appalling. NO president before Mr. Trump has had the gall to destroy a wing of the White House -- Trump is a temporary occupant, not the owner. He neither sought nor obtained any approval to destroy the East Wing. And now he expects to be rewarded for his lawlessness by being given permission to construct his very own self-aggrandizing monument.

Moreover, the design is hideous -- it will dwarf the building in which every former president has lived since John Adams, and it will resemble one of Trump's failed casinos. And who has approved the design? His very own, handpicked sycophants. He says the taxpayers will not pay for his monument, but even if this were true (which I doubt) and "private" citizens finance the cost of it, what influence will they demand? Everything with this man is transactional, and anyone who helps pay for his ballroom will expect (and undoubtedly get) far more in return.

What SHOULD happen is that the country get an abject apology from this narcissistic autocrat and the East Wing be restored at Trump's sole expense. Anyone who blesses this obscene project will have dirty hands, and history will not be kind.

Do the right thing and reject everything Trump is demanding.

Name: Peggy Bielby

I respectfully object to the proposed addition of a ballroom to the White House on architectural and historical grounds. As a structure of exceptional national significance, the White House has evolved through carefully considered interventions that preserve its original character, proportional harmony, and symbolic clarity. Each major modification—from James Hoban’s early design to the Truman reconstruction—was undertaken with restraint and a commitment to maintaining the building’s classical balance and its iconic place in the American architectural tradition.
Introducing this new ballroom risks disrupting this carefully maintained equilibrium. The existing layout and massing were never intended to accommodate a large ceremonial volume of this type, and any substantial new construction would likely alter key sightlines, spatial relationships, and exterior symmetry. Such a change could diminish the integrity of one of the most historically sensitive and symbolically resonant sites in the nation.
I am also concerned that this proposal appears to lack the level of professional, highly trained preservation and architectural expertise traditionally required for any alteration to a site of the White House’s historical significance. The accelerated pace of the project leaves little room for the careful, methodical evaluation such work demands, and the limited transparency surrounding the design process—particularly regarding the guiding concepts, review procedures, and alternatives considered—makes it difficult to determine whether the proposal meets established standards for stewardship and architectural integrity.
Given the White House’s role not only as a residence but also as a living historic artifact, I urge that alternatives be considered—whether utilizing existing ceremonial spaces, building a new ballroom that properly honors the historic nature of the existing architecture, or even hosting large events off-site—so that its architectural legacy can remain intact for future generations.

I oppose the spending of $300 million on what appears to be a vanity project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. The grand ballroom, as planned, will be an aberration, spoiling the simple elegance of the property and its remaining structures. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Linda Erickson
Date: February 23, 2026 1:22:34 pm

It seems a very inappropriate time for this project. For an administration who says over and over they are for fiscal responsibility, they've already spent billions of dollars on projects that no one is asking for and the American people don't support. They destroyed part of a historical building without asking for planning or permission. It's ridiculous to call this East Wing Modernization since it now is about building back part of the White House that was literally demolished. The American people are watching those we've placed in charge ignore what the people in this country want: affordable housing, affordable and safe food, quality public schools that teach actual facts, actual history and critical thinking skills.

Name: Carrie Conner
Date: February 23, 2026 1:30:25 pm

To Whom It May Concern at The National Capital Planning Commission.

I am an Aemican Citizen writing to express my dismay at the demolition of the East Wing of the White House, "The People's House." I support the The National Trust for Historic Preservation and their authority in regards to the East Wing. Therefore, I oppose the spending of $300+ million on this project, which was initiated without the proper authorization, permits, or design review. As we all know, this was a complete razing of American history. I urge you to deny this project, and restore the East Wing to the condition the xurrent Administration found it. Please uphold the law and do not permit this project to proceed as planned by those who have already defied the law. I also ask for repercussions to be levied upon the current Administration for the damage they have done.

Date: February 23, 2026 1:34:11 pm

"Major construction projects in Washington, D.C. must be reviewed by the NCPC and the CFA, comply with the National

Environmental Policy Act (NEPA), and receive congressional approval." The East Wing Modernization Project must come to an immediate, screeching halt until the public has had a fair chance to provide meaningful input, and all predefined procedures and processes for proposals, reviews and approvals have been followed to the letter. This project should not and must not be left merely to the whims of a wannabe dictator.

Name: Patrick Mulcahey
Date: February 23, 2026 1:34:22 pm

I oppose the spending of $300 million on this project — whoever and wherever it comes from. It was undertaken without authorization, permits, or design review. It is not a modernization project but rather a complete upending of our historical capital project. The White House should not subject to the whims and vanity of one temporary tenant: it is the People's house. I want this project canceled, and the East Wing rebuilt and restored to its former design. To permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans

---

Name: Audrey Hois
Date: February 23, 2026 1:34:53 pm

As a former real I always found that the addition must fit the original structure This proposed structure is too large as it will dwarf the white house I also question the need for a ballroom, especially one of this size We have had no need for such a structure for 200 years and I question the spending of 400 million dollars for a limited use structure It would seem that there could be more use for meeting and office space I believe this project is a vanity project and does not belong in the peoples house

---

Name: Rachel Bryant
Date: February 23, 2026 1:35:18 pm

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is purely ego-driven and unnecessary. I want this project canceled. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Lauren Wodicka
Date: February 23, 2026 1:38:52 pm

I write in unequivocal opposition to the proposed 90,000-square-foot ballroom addition to the White House.

This proposal represents an unnecessary and extravagant use of public funds at a time when restraint and stewardship should guide decision-making. The White House is not a private estate; it is a National Historic Landmark owned by the American people and stewarded by the National Park Service. Any intervention should be measured, deferential, and architecturally disciplined.

Beyond fiscal concerns, the scale and concept of this ballroom are deeply troubling. A 90,000-square-foot addition of this nature risks overwhelming the historic structure and disrupting the carefully balanced classical composition that has defined the White House for more than two centuries. Such a massive expansion feels excessive, insensitive, and fundamentally out of step with the dignity of this site.

The White House endures because of its proportion, restraint, and symbolic power—not because of grand gestures. If additional event space is necessary, alternatives should be explored that protect the architectural integrity of the historic complex and respect its legacy.

I strongly urge the Commission to reject this proposal in its current form.

Respectfully,
Lauren Wodicka

Date: February 23, 2026 1:43:31 pm

I expressly oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: SARAH BRASHAW
Date: February 23, 2026 1:44:21 pm

I oppose the East Wing Modernization Project. This $400 million construction began without National Capital Planning Commission approval, without required environmental assessments, and without congressional authorization mandated by federal law for construction on federal parkland in Washington. These violations should not be rewarded with after-the-fact approval. The funding creates unacceptable conflicts of interest. Corporations holding billions in current federal contracts with this administration are funding a construction project at the residence of the president who controls those contracts. This is not charitable giving. This is an investment in access and favorable treatment. The White House belongs to the American people, not any individual president. I urge the Commission to reject this proposal until full legal compliance is achieved, including congressional authorization and completed environmental assessments. No temporary occupant should possess unilateral authority to demolish historic structures without following the law.

Name: Sophie Romanik
Date: February 23, 2026 1:45:50 pm

I am a US citizen and am firmly against the east wing ballroom project. Regardless of the real reasons for the construction, the demolition was done without proper approvals and the reconstruction will cost tax payer dollars that should be spent on helping the people, not building unnecessary White House additions.

Name: Jane Wilson
Date: February 23, 2026 1:52:19 pm

I am a (young!) 81 year old woman whose family history goes back to the American Revolution but also includes Irish immigrants from the post-Civil War period. I spent my high school years in Alexandria, VA, and wandered the District of Columbia then and during my university years. The Nation's Capital is my absolute favorite city in the United States, and I make a visit every several years both to get my "DC Fix" and to visit the graves of my parents, step-parents, and grandparents in Arlington National Cemetery.

The hubris of a President, a single human being, summarily destroying the east wing of the White House to replace it with a tasteless golden ballroom is, to me, nauseating. The White House is and always before has been treated as The People's house. Its improvements have been throughly vetted before being undertaken. It has always been one of the significant, magnificent symbols of our great nation and its democracy.

I am thoroughly opposed to what has been done to the East Wing already and feel that all further change should be stopped. Just because the damage has been done doesn't mean it should be allowed to continue...and taxpayer money should not be used to repair it! Those private "donations" should be confiscated and used to restore the East Wing.

Name: Elizabeth Hopkins
Date: February 23, 2026 1:53:21 pm

My opinion for the East Wing is to restore it as it was with updates for electrical and other utilities ONLY! Washington DC offers a plethora of ballrooms/large event rooms! To dwarf the original White House is not in line with American pride. It's beauty has already been ruined enough with the removal of the rose garden and insulting presidential picture with his childish scribble beneath them (hoping those will be removed immediately after he leaves along with the cheap gold enhancements in the Oval Office that looks anything but dignified now). The WH belongs to the American people, not a wannabe narcissistic bully. He is a renter, not an owner!! He doesn't follow the rules and should not be rewarded by building a huge atrocity that will have to be heated/cooled along with maintenance year-round for a small number of events. Not needed; never was. NO to the ballroom!

Name: Andrew Huston
Date: February 23, 2026 1:55:27 pm

The White House has been known for over a century as The People's House. First Lady Jackie Kennedy said, in no uncertain terms, that "the White House belongs to the American People." Mr. Trump is swiping it from the People, and turning it into a temple to his and his cronies' own pride and decadence. He wiped out over a century of history in demolishing the East Wing of the White House without a thought. Surely there are plenty of other places with less historical signficance to place this ballroom of his. I am not alone in my disapproval; I have in fact heard not a single positive remark from a single person about this project of his, save from the talking heads he's amassed in the media. This is a shame to our nation. I am entirely in favor of having a place to host galas, celebrations, and elegant events for visitors both foreign and domestic, but not at the price of history - *our* history. I worry, too, that Mr. Trump's sense of style and taste for spraypainted gold on bottom-shelf plastic ornatements from Lowe's Hardware will also shape the aesthetic of this proposed ballroom. I have nothing against Lowe's, of course, but spraypainted gold on bottom-shelf plastic - the metaphor writes itself with this shoddy administration. As an American citizen with a shared stake in the keeping and upholding of honest and dignifying American history, I voice my deep dissent against this project.

May GOD have mercy on our country.

Name: Cristelle Baskins
Date: February 23, 2026 1:57:00 pm

I write to express my concerns about the hasty destruction of the East Wing of the White House. The action was undertaken without going through proper review, without consideration for historic preservation, and without public discussion. Sadly the architectural destruction mirrors the dismantling of our democracy at the whim of the current administration. Stop the ballroom project and restore the East Wing's architectural heritage.

Name: Jeannine Heath
Date: February 23, 2026 1:58:36 pm

A national treasure like the White House should receive a well-considered recommendation from experts in historic preservation on the shape, size, and scope of the renovated East Wing.

It is enough that the wing was torn down before anyone could lodge any protest, but the building of a new one without impartial professional input would be folly.

Please proceed with caution - this house belongs to the people, and we are watching.

Thank you.

Name: Katharine Wells
Date: February 23, 2026 1:59:42 pm

The proposed Ballroom for the East Wing of the White House is far too large and will overwhelm the historically significant main building of the White House. The modesty of the White House should be preserved by building a ballroom that is smaller in scale and simpler in decoration. The rush to approve this monstrous addition is an affront to the democratic process and ignores the expertise of professional designers and civil servants. United States citizens will be ashamed of this addition for many years to come if it is rushed through now. Stepping back and insisting on a smaller addition that is appropriate in scale to the original White House building will be a gift to the nation.

Name: Louise Jackson
Date: February 23, 2026 2:01:57 pm

I’m opposed to the East Wing project. We do not need a gilded ballroom. What we need is more help for people and families on the lower end of the economic scale: help for them to acquire decent jobs, as well as help to provide for their education, their housing, and their general welfare. The constituents of our representatives are not all wealthy individuals. There are many of us who are living from month-to-month, trying to make ends meet. We should also be represented equally.

Name: Margaret Wilken
Date: February 23, 2026 2:02:57 pm

Donald Trumps’s plans for the East wing ballroom are atrocious and in my opinion are illegal. Please stop this nonsense.

Name: Virginia Blanton
Date: February 23, 2026 2:08:09 pm

Hello--
I am appalled by the destruction of the East Wing without proper procedure and by-in by the American people. The last thing we need is a privately-funded ballroom that attempts to rival Versailles. The East Wing Modernization Project completely unbalances the WH and the West Wing, making an enormous monstrosity. This building belongs to the American people, not the President and deserves to have careful review of as a historic place. I am opposed to this project and wish to see the East Wing rebuilt as closely as possible to its original footprint and on the same scale.

Name: Deborah Holmes
Date: February 23, 2026 2:10:19 pm

I oppose the spending of any money on this project which was initiated without the proper authorization, permits, or design reviews. It is not a modernization project but rather a complete razing of American history. Please cancel this

project & rebuild the East Wing to restore it to its former design. No one is above the law & to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Has the White House Historical Society gotten involved with this project? My understanding of the project is that the east wing is gone. If so who is designing the addition, and can our architects share their ideas with them?

Name: Marie Doering
Date: February 23, 2026 2:14:53 pm

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Marie Hosier
Date: February 23, 2026 2:16:46 pm

As a United States citizen from birth, I oppose this project due to the enormous tract of land it will consume in comparison to the White House. While I am not opposed to expanding the footprint of the White House, I don't think it is crucial to lend this expansion to a Ballroom which will only be used a few times a year. The East Wing which was destroyed by the President was vital to the each incumbent First Lady and her staff. The current First Lady has very little association within the administration and she has not made herself available to the public in this her second term.

What type of usage would this ballroom receive? Currently, The President of the United States spends every weekend at his Florida estate/club and given that this monstrosity will not be complete before the end of this, his second term, what would be the point of spending such an obnoxious amount of money for a room that may not be used by any future administration? I believe this is a waste of money at a time when people are struggling with rising prices in almost every section of the economy.

Sincerely,
Marie Kennedy Hosier

I write to express my anger at what has transpired with the East Wing of the White House. The lack of notice and review of the demolition was clearly an attempt to subvert long-established processes that insured the integrity of this most significant landmark. Generally, reviews by experts in the fields of architecture, architectural history and art history generate options that should be discussed in open formats. That did not happen. The People's House was assaulted by one person.

In local communities, demolition permissions are not granted until the replacement is approved. In this case, shifting proposals regarding size, scale and relationships to the overall White House complex have resulted in a poorly designed product. Unfortunately, the American people will be stuck with what appears to be a monstrous, out-of-scale, behemoth of a building that does not respect the historic structure. The argument about the need for a ballroom is muted by the lack of any studies on where a new facility might be best located and how it should be designed to best support the existing historic building. Its construction did not have to impact the historic (yes, it is historic) East Wing. The fact that no options were presented or openly discussed leads one to the inevitable conclusion that no other options were ever entertained - public remarks notwithstanding.

The Planning Commission has an obligation to open for public comment whatever proposal is submitted. It has an obligation to affirm the review process. It has an obligation to ask for options. It must act in the interests of the historic

White House and not become a rubber stamp for bad design. To approve this proposal (whatever it is) as it stands disregards decades of careful stewardship of this priceless historic structure.

The East Wing should never have been destroyed in the first place, since the destruction never went through any channels to be approved. Anyone making decisions about rebuilding without going through proper channels must be stopped. I believe the project should be designed, planned and funded with proper approval, which should not come from a hand picked and appointed group of lapdogs who do President Trump's bidding. The National Trust for Historic Preservation should have the final word. The National Park Service should also be involved.

It is important to stop the destruction of buildings and areas that belong to the people of the United States; they do not belong to any president. Having seen the lack of good taste with which President Trump has "redecorated" the Oval Office, there is no way I want him designing anything for our country. Please take any decisions about our nation's buildings out of his hands. The Commission of Fine Arts and the Executive Residence Staff should not have any say in the matter, since they have proven by their actions and choices that they simply follow Trump's bidding. Please stop him.

Modification of any national historic site, especially of the People’s House, should occur only through careful, transparent review— never through unilateral action. Given unresolved preservation concerns and the absence of Commission and public review of the East Wing Modernization Project, I strongly oppose both the demolition of the East Wing and any subsequent “modernization” pursuits. This $300M project, funded by private donors at the behest of the sitting administration, not only opens the door to preferential treatment and influence of special interests but undermines public trust and erodes the very foundation of our government “of the people and by the people.” I want this project canceled, and the East Wing rebuilt and restored to its former design. At minimum, the public is owed clear disclosure of donor funding, environmental and design review, and accountability. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to “the people”: U.S. law-abiding taxpayers. Thank you for protecting our historical sites!

Dear Committee Members:
I write in support of very careful consideration of any alterations to our national symbol: The White House. There are few buildings or symbols that upon viewing immediately say to the viewer --The United States of America. And none foster that national understanding more often, more completely than the White House itself.

Our history shows that the Founding Fathers developed a government unique in structure and intent, not a government or system of governing ever seen before , and certainly not one that promoted kings or queens, royalty in general, and class systems. As many Americans have , I have toured the White House and been captivated as I walked through the rooms that our most famous leaders had walked these same rooms decades and decades before me. This historic link was an enormous and powerful connection for me as an American.

The question is : Do we a need a larger, more grand ballroom for state functions? A place that might reflect the best of Versailles which was built in times of opulence and grandeur reflective of its kings and governing system , but which is not at all like the story of America. I think not! Our country should not be defined by the amount of gold used in decorations bur rather by its actions for the common good.

The plans as suggested are insensitive to American history, the system of government we have , and the content of the US Constitution which clearly states that we are not to be a ROYAL country but one of equality and inclusion for all citizens. A gold filled ballroom does not echo that premise.

Any president, any elected official is and should always be a STEWARD of the historic symbols of this country. Not elected to insert his or her personal taste and whims, but rather to work with guidance to protect and continue these symbols as part of our national history.

Please reflect carefully and wisely on activities that do not promote or link directly to the historic nature of our national symbols.
Follow the guidelines already in place when changes of such significance are proposed.

Thank you,
Margaret Hauben Ed.D.

Dear NCPC,

I write to express my concern that the proposed "East Wing Modernization project" (aka New White House Ballroom) is violently out-of-scale with the existing structure.

As currently proposed, the East Wing Ballroom Project comprises 90,000 square feet, almost double the 55,000 square feet of the existing White House building. No amount of tweaking its design (except making it smaller) will the change the fact that the "addition" is larger than the original. In addition, by making such a large mass the exact same height as the existing White House further dwarfs it.

This is significant because the Secretary of the Interior’s Standards for Rehabilitation require that additions to historic structures be subordinate in scale and size, distinct from the historic building (not replicating it), and compatible with its materials, features, and massing.

There is no doubt that there is a need at the White House for a gathering space that can accommodate more than the existing 200-person room. However, there is doubt that this particular design is unsuitable, taking away from the original, dwarfing it in scale and relating it to a secondary role.

I ask that you do not allow this project to go ahead as proposed.

Thanking you for your time,

Dr. Christopher S. Wilson

Date: February 23, 2026 2:28:28 pm

The proposed (and already begun) East Wing destruction project and disproportionate ballroom addition is a blight on the historic White House landscape. Throughout the country, projects impacting the historic appearance that funded in part or completely by national or state dollars are subject to a design review. The Secretary of the Interior has a relatively simple guide to what is appropriate and what isn't. How one person can decide to demolish a large part of a historic building (the historic East Wing) to replace it with a disproportionate, completely out-of-scale addition is mind boggling.
The White House is a cherished part of our national heritage. Even the two historic wings are designed to be less imposing than the original White House. Even necessary construction (repairs and structural enhancements) have been designed to be unobtrusive, especially from the exterior. I applaud the National Trust for its efforts to stop this inappropriate construction.

I oppose the East Modernization Project because its grotesque scale and size significantly diminish the beautiful White House, both physically and symbolically (as “the people’s house”). I also oppose the project because of its lack due diligence. Because The White House is a National Historic Landmark and National Park, owned by the American people and stewarded by the National Park Service, the public deserves an opportunity to be heard and to help shape decisions that affect our shared national heritage. This is a legally required federal review process, and public participation is essential. Major construction projects in Washington, D.C. must be reviewed by the NCPC and the CFA, comply with the National Environmental Policy Act (NEPA), and receive congressional approval. The public deserves an opportunity to be heard and to help shape decisions that affect our shared national heritage.

Name: Juliette Fassett
Date: February 23, 2026 2:38:50 pm

I am writing to express my deep concern about the proposed East Wing project and to outline my objections to it.

First, the East Wing was demolished without oversight, planning, or input from the American people or the experts entrusted to manage changes, maintenance, and upkeep of our national buildings. Those responsible must be held accountable for this disastrous assault on the people's property.

The federal legal requirements for review and management of such projects by the National Capital Planning Commission exist for good reason. If they do not apply here, they do not apply anywhere. Are we not still a nation of laws?

At 90,000 square feet, this project is nothing more than a ghastly monument to a single man. The White House and what it represents extends back through history and forward into the future. Its very existence is a symbol of the power of the people — not of any single individual.

The "funding" of this project is little more than a quid pro quo for unknown favors. To suggest that taxpayers are not paying for this debacle is a fiction — we are paying for it in ways that will be felt for generations. The Commission of Fine Arts, as currently constituted, is a sham that should be transparent to anyone paying attention.

My additional concerns regarding national security, asbestos abatement, and the fact that a majority of Americans oppose this project are widely echoed in public comment.

We must not only stop this project entirely — we must demand accountability and real penalties for the unauthorized destruction of the East Wing, along with a strict, cohesive plan to address the dangerous, unsightly, and deeply troubling wound that has been inflicted on our house and on the American sense of what is right.

Thank you.

Dear NCPC: although the horse is already stolen and there's no point in locking the barn, I think the East Wing "Modernization" Project (obviously a euphemism) represents an architectural devolution of the grossest kind. The destruction of the old East Wing was an arrogant act of brutality, and its replacement merely a self-aggrandizing travesty of good taste and decorum. Nuff said, since it's probably too late to do more than raise our voices.

Date: February 23, 2026 2:40:49 pm

This grandiose and obscene use of taxpayer money is utterly despicable and a monument to one administrations ego-maniacal whims. There are much better uses of tax dollars that could represent this nations history and legacy as a leading global power. Please consider any alternative which would more tastefully reflect our nation and our history.

Name: Alex Frazier
Date: February 23, 2026 2:41:24 pm

I have significant concerns about the allocation of $300 million for this project. Based on publicly available information, it appears the project moved forward without completing all necessary authorization, permitting, and design review processes. Large-scale public expenditures should follow established legal and procedural requirements to ensure transparency, accountability, and responsible stewardship of taxpayer funds.

Additionally, I question whether this project constitutes modernization or instead represents a substantial alteration of a historically significant structure. Decisions affecting sites of historical importance should involve careful review, broad stakeholder input, and adherence to preservation standards.

I respectfully urge a pause on further spending until full legal compliance, proper review, and public transparency are ensured. If any required processes were bypassed, those issues should be addressed in accordance with applicable laws and regulations. Accountability and due process are essential to maintaining public trust.

Date: February 23, 2026 2:44:05 pm

Dear Members of the Commission,

I have been dismayed over the months since the ballroom project was begun and about the ways that this administration, in particular, the President, has defiled the White House. This is a building that has national status, it is meant to be preserved, but this administration has destroyed the integrity of the architecture to build an addition that will dwarf the People's House. If someone had written a piece of fiction about this, no one would believe it could be possible. To destroy in such a wanton way a space that does not belong to an individual, seemingly without the permission of the people who know better than he does about historic precision, is truly unforgivable. We must ask for this kind of thing to be stopped. And it must be repaired.

In the late 1970s, I worked at Bonwit Teller a year or so before a young real estate man purchased the building. At the time he promised that he would donate the art deco reliefs to the Metropolitan Museum of Art. (please see this recent

article on the subject: https://news.artnet.com/art-world/donald-trump-bonwit-teller-friezes-met-2132673). But, instead of doing so, he imploded the building and just said 'oops, couldn't do it.' I remember at the time thinking that this was truly unethical. And now he has done it again. His craven need for ego strokes has done it again with the White House. You must make him stop and you must force him to repair the damage he has created.

Yours sincerely,
Sura Levine

I strongly urge the National Capital Planning Commission to reject the plans for the White House Ballroom Project. As an art historian who published Art and Empire: The Politics of Ethnicity in the United States Capitol, 1815-1860 (New Haven: Yale University Press, 1992; reprint in paperback, Athens: Ohio University Press, 2000), I eel strongly that the plans for the new ballroom will detract from the White House in terms of its monumental size and will not be stylistically compatible. Thomas Jefferson, the architect of his home, Monticello, and of the University of Virginia, also initiated the design competition for U.S. Capitol Building. He influenced the selection of William Thornton's temple-like design with its central rotunda, and in 1805, argued again for its simplicity, preferring Doric columns for the House of Representatives. Jefferson advocated Roman classical visual language for the American republic, wanting a monumental, simple, and dignified classical aesthetic for the federal government buildings, to expresses American democracy as stable, sold, and grandiose. I do not believe that the current designs for the White House Ballroom Project adhere to Jefferson's founding ideals for D.C. federal buildings.

Name: Kathryn Tanner
Date: February 23, 2026 3:00:29 pm

Trump's proposed ballroom will not enhance the lives of the people of the United States. After the East Wing of the White House was demolished without precedent, I see no value to the American people to spend $400 million on a monument to Trump. The "East Wing Modernization Project" title is a misnomer. The East Wing is not being modernized as it has been destroyed. Spend the money on the people of the United States. If there is really $400 million being donated for this "project", then the billionaires can donate lots more money to benefit the people of the United States and make "America First".

Name: William Galloway
Date: February 23, 2026 3:00:31 pm

To Whom It May Concern:

I am writing to respectfully express opposition to the proposed ballroom addition at the White House based solely on the merits of the application as presented.

While the functional need for an enhanced space to host and entertain world leaders is understandable and carries practical merit, the proposed scale and massing of the addition do not appear to be consistent with the existing complex. Historically, the ballroom associated with the White House has been significantly smaller then the proposed and always secondary in form and scale to the main Executive Residence. The current proposal, as described, introduces a structure whose size and visual prominence risk competing with, rather than complementing, the primary building. As one of the most recognizable civic buildings in the world and a symbol of American democracy and governance, the White House holds exceptional architectural and cultural significance that warrants careful stewardship of any proposed alterations.

Preservation best practices emphasize that new additions to historic structures should be subordinate, compatible in massing, and respectful of established proportions and character-defining features. Based on the information available, the proposed addition does not sufficiently demonstrate this level of subordination or contextual alignment.

For these reasons, I respectfully urge reconsideration of the proposal in its current form and encourage exploration of alternatives that better align with established preservation principles while still meeting functional objectives.

Thank you for your time and consideration.

Sincerely,
William W. Galloway

I am unsure how this can honestly get to this point and with no accountability. The damage has already been done and heritage destroyed. I can only hope that something sympathetic can be put in its place but this seems unlikely. How well documented was the east wing documented prior to its demolition as it would be nice to see some visualization through VR or similar deliverable be availble to the public as may be a virtual walk through to at least preserve the building in a virtual world.

Name: Mala Wingerd
Date: February 23, 2026 3:09:41 pm

Tearing down an entire wing of the White House is not only wrong, but illegal! There is precedence to modernize portions of the WH, but to demolish the structure is simply not legal. Just as any citizen is required to get permits to remodel portions of their home, this is an expectation for government buildings as well. Plus, the WH is NOT owned by the POTUS, it is let to them during their term in office and there are term limits as provided by the U.S. Constitution! The current POTUS did not obtain permission from the Historical Society, Congress, or obtain local permits. He simply had NO legal right to tear down any portion of the WH. And now that it is done, it should be restored to its historical perspective.

Not only is this illegal but it is also ethically improper to do so when so many in our country are suffering due to this POTUS’s failed economic actions. At a time when his ratings are lower than any other POTUS at this time in office, he should be working to build bridges with our own citizenry and with our allies. He has made us the laughingstock of the world by his inability to be reasonable and rational. This is not about "Modernization" (like adding electricity or plumbing), it is yet another “vanity” (NPD) project that is defrauding the American people and must be reined in. I do NOT want my tax dollars going to something like this! And when he is finally removed from office – he AND this family of grifters must be forced to pay back every penny to the American people for this financial assault on the citizens of the U.S. Does the Emoluments Clause (both foreign and domestic) mean nothing anymore? He and his family have profited off this office every day he has been in office. I say ENOUGH! Congress Republicans need to grow a spine and put a stop to this grift!

NO ONE SHOULD BE ABOVE THE LAW or accountability – ESPECIALLY those elected to serve their constituents. And we are ALL his constituents, even if we did not vote for him.

Rebuild the East Wing that was illegally torn down.

Name: Natasha Seaman
Date: February 23, 2026 3:14:51 pm

The East Wing, now that the historic building has been destroyed, should be replaced with a building that will sensitively respond to the historic location while allowing functionality. While a ballroom is perhaps the most helpful space for this area, its size should be equivalent to need and not based on notions of grandeur.

Name: Susan Singer
Date: February 23, 2026 3:15:16 pm

The White House is a National Historic Landmark and National Park, owned by the American people and stewarded by the National Park Service. It has been home to our presidents since 1800 and is perhaps the most significant historic site in the United States. Before nationally significant places are permanently altered, the public deserves an opportunity to be heard and to help shape decisions that affect our shared national heritage. In the case of the East Wing of the White House, though, it seems that none of these procedures were followed. And before we knew it, the East Wing had been utterly destroyed.

Major construction projects in Washington, D.C. must be reviewed by the NCPC and the CFA. They must comply with the National Environmental Policy Act (NEPA). And they must receive congressional approval. These safeguards exist to ensure transparency, accountability, and meaningful public input.

The trump administration has a nasty habit of ignoring these processes, shows complete disregard for public input, and proceeds according to the needs and whims of one man. That should not be how ANY of this works.

I am not in favor of any modification (or, as you call it, 'modernization" of the East Wing. If I had my wish, I'd wish for them to rebuild it exactly as it was before they bulldozed it down.

Thank you for the opportunity to share my view. It's a tragedy, what this administration has done to The Peoples' House.

Please pay attention to most voters' insistence that the project as envisioned is wildly out of scale. Stop this Trumpification project from going forward. He was wrong to destroy it, wrong to forego discussion with specialists far, far more knowledgeable than he, wrong to take impulsive actions.

Yes, there's a need for a space for public gathering. But no, this is the wrong design and the wrong way to go about it.

Dear NCPC,

I write to express my concern that the proposed "East Wing Modernization project" (aka New White House Ballroom) is violently out-of-scale with the existing structure.

As currently proposed, the East Wing Ballroom Project comprises 90,000 square feet, almost double the 55,000 square feet of the existing White House building. No amount of tweaking its design (except making it smaller) will change the fact that the "addition" is larger than the original. In addition, by making such a large mass the exact same height as the existing White House further dwarfs it.

This is significant because the Secretary of the Interior’s Standards for Rehabilitation require that additions to historic structures be subordinate in scale and size, distinct from the historic building (not replicating it), and compatible with its materials, features, and massing.

There is no doubt that there is a need at the White House for a gathering space that can accommodate more than the existing 200-person room. However, there is doubt that this particular design is suitable – It takes away from the original White House, dwarfs it in scale and relates it to a secondary role.

I ask that you do not allow this project to go ahead as proposed.

Thanking you for your time,

Randall Van Schepen
Associate Professor of Art and Architectural History
Roger WIlliams University

Dear NCPC,

I write to express my concern that the proposed "East Wing Modernization project" (aka New White House Ballroom) is violently out-of-scale with the existing structure.

As currently proposed, the East Wing Ballroom Project comprises 90,000 square feet, almost double the 55,000 square feet of the existing White House building. No amount of tweaking its design (except making it smaller) will change the fact that the "addition" is larger than the original. In addition, making such a large mass the exact same height as the existing White House further dwarfs it. This is an affront to the symbolic power of the White House: as the People's House, a humble place of government compared to the European royal capitals whose tyrannies our ancestors fled. That we would entertain a grandiose pleasure chamber worthy of a king and larger than the seat of government makes a mockery of our democratic values.

The scale of the structure is also in violation of the Secretary of the Interior's own Standards for Rehabilitation, which require that additions to historic structures be subordinate in scale and size, distinct from the historic building (not replicating it), and compatible with its materials, features, and massing. This current proposal does none of that.

There is no doubt that there is a need at the White House for a gathering space that can accommodate more than the existing 200-person room. However, this particular design is utterly suitable – It takes away from the original White House, dwarfs it in scale and relates it to a secondary role.

I ask that you do not allow this project to go ahead as proposed.

Thanking you for your time,

Dr. Alison Locke Perchuk
Professor of Art History
California State University Channel Islands

Although commenting on the east wing project is obviously redundant, it does provide an opportunity to mention actions which preceded this particular one. I guess constantly claiming that the 2020 election was,"rigged" and he really won, could be considered the railings of a five-year-old; he won't be impeached for this. Other actions which would [should] result in impeachment, are:
January 6th, attempt to overturn the election.
Taking, and refusing to return, a truckload of secret documents [while they are copied].
Releasing/excusing the participants in the Jan. 6th. Fiasco.
Re-naming every thing in sight, to bear his name.
There are many more things worthy of mention, but I'm currently pressed for time, so I'll simply leave you with this. I have been a registered republican my entire [voting] life. I'm 87 years old; born in 1938, when FDR was president--at this point, I consider myself an Independent, awaiting some semblance of intelligence; I may not have the option of waiting for things to change, but I pray for their safety and well-being.

Dear NCPC,
I am writing to express my concern that the proposed "East Wing Modernization project" (aka New White House Ballroom) is violently out-of-scale with the existing structure.

As currently proposed, the East Wing Ballroom Project comprises 90,000 square feet, almost double the 55,000 square feet of the existing White House building. No amount of revision to its design (except making it smaller) will change the fact that the "addition" is larger than the original. And, by making such a large mass the same height as the existing White House will mean the addition further dwarfs it.

This is important because the Secretary of the Interior's Standards for Rehabilitation require that additions to historic structures be subordinate in scale and size, distinct from the historic building (not replicating it), and compatible with the historic building's materials, features, and massing.

There is no doubt that there is a need at the White House for a gathering space that can accommodate more than the existing 200-person room. However, this design is unsuitable: it takes away from the original White House, dwarfs the original in scale, and delegates the original to a secondary role.

I ask that you do not allow this project to go ahead as proposed.

Sincerely, Jessica Dallow

Thank you to the original author. I could not have said it better.

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

To Whom It May Concern:

I am writing to respectfully express opposition to the proposed ballroom addition at the White House based solely on the merits of the application as presented.

While the functional need for an enhanced space to host and entertain world leaders is understandable and carries practical merit, the proposed scale and massing of the addition do not appear to be consistent with the existing complex. Historically, the ballroom associated with the White House has been significantly smaller then the proposed and always secondary in form and scale to the main Executive Residence. The current proposal, as described, introduces a structure whose size and visual prominence risk competing with, rather than complementing, the primary building. As one of the most recognizable civic buildings in the world and a symbol of American democracy and governance, the White House holds exceptional architectural and cultural significance that warrants careful stewardship of any proposed alterations.

Preservation best practices emphasize that new additions to historic structures should be subordinate, compatible in massing, and respectful of established proportions and character-defining features. Based on the information available, the proposed addition does not sufficiently demonstrate this level of subordination or contextual alignment.

For these reasons, I respectfully urge reconsideration of the proposal in its current form and encourage exploration of alternatives that better align with established preservation principles while still meeting functional objectives.

Thank you for your time and consideration.

Sincerely,

Judith A. Galloway

Dear NCPC,

I write to express my grave concern that the proposed "East Wing Modernization project" (aka New White House Ballroom) is violently out-of-scale with the existing structure. The Secretary of the Interior's Standards for Rehabilitation require that additions to historic structures be subordinate in scale and size, distinct from the historic building (not replicating it), and compatible with its materials, features, and massing.

As currently proposed, the East Wing Ballroom Project is almost double the 55,000 square feet of the existing White House building. Making this "addition" larger than the original White House, and making it the same height or even taller than the existing White House, means the Ballroom will not just dwarf the White House. It will make this crucially important historical building seem insignificant relative to President Trump's structure.

There is no doubt that there is a need at the White House for a gathering space that can accommodate more than the existing 200-person room. However, there is also no doubt that this particular design is unsuitable – It takes away from the original White House, dwarfs it in scale and relegates it to a secondary role. That is an unacceptable way to treat the White House, our oldest and most historic of federal government buildings, whose very modesty is a testament to the democratic and republican principles of our nation.

I ask that you do not allow this project to go ahead as proposed. It will become an embarrassment to the American public if it is allowed to proceed and to overwhelm the historic character of the White House as a monument to the modest ideal of presidential power as distinct from the grandiose palace of a king. While the White House should adapt as history marches on, it should be adapted in ways that respect its historical legacy and allow the core structure to remain center stage in our nation's ongoing drama of democratic republicanism.

Thanking you for your time,

Dear members of the National Capital Planing Commission,

I write to express my strong concern that the proposed "East Wing Modernization project" (aka New White House Ballroom) is totally out-of-scale with the existing structure and disrespects our historic and iconic White House.

The East Wing Ballroom Project comprises 90,000 square feet, almost double the 55,000 square feet of the existing White House building. No amount of tweaking its design (except making it smaller) will stop the "addition" being larger than the original building. Making it the same height as the existing White House further dwarfs the important building and is completely inappropriate.

The Secretary of the Interior’s Standards for Rehabilitation require that additions to historic structures be subordinate in scale and size, distinct from the historic building (not replicating it), and compatible with its materials, features, and massing. These guidelines need to be respected.

Even though a larger gathering space may be needed for official functions, the current design is out of scale and disrespects and belittles the White House.

I implore you to not allow this project to go ahead as proposed.

Thank you for taking a strong stand for what is right for our country.

Sincerely,
Barbara Wolanin, PhD

Name: Luiza deCamargo

Name: Marjorie Hilliard
Date: February 23, 2026 4:08:23 pm

The White House is a historical treasure of our country. I believe the East Wing Modernization project should be stopped until there is approval of Congress and a thoughtful review by experts in historic preservation.

Name: Dennis Denenberg
Date: February 23, 2026 4:09:30 pm

The White House is THE People’s Home, not the property of the individual who inhabits it. To add a huge ballroom that is not necessary is truly an abomination and an insult to our nation- and actually to the world. The project must be stopped NOW before any construction begins.
It is truly the symbol of “government of the people, by the people, for the people.”

Name: Richard Kramer
Date: February 23, 2026 4:09:44 pm

They didn't have this category, but I would like to see an impeachment of trump as soon as possible. I also want them to stop the white house project of the east wing.

Name: Jacqueline Marie Musacchio
Date: February 23, 2026 4:10:36 pm

I want to state my great concern that the so-called "East Wing Modernization project" is shockingly and inappropriately out of scale with the remaining White House complex; it should not be allowed to continue according to the most recent plans.

This project now covers 90,000 square feet, nearly twice the size of the remaining White House. It will dwarf the White House, disrupt the entire complex, and even necesitate changes to the ellipse. The Secretary of the Interior’s Standards for Rehabilitation demand that any additions to historic structures be smaller in scale and overall size, distinct from the historic building, and compatible with its materials, features, and massing. This project does not fulfill these demands.

Of course there is a need for a larger gathering space for White House functions (although tents have more than sufficed up to this point). No one denies this. But this costly, appalling monstrosity - because it truly is a monstrosity - is not what we need. The U.S. president is not royalty. This entire project runs contrary to our country's history and subverts the law to massage the current office holder's ego. It is a ridiculous waste of money that could be spent in so many more important ways.

You cannot allow this project to go ahead as proposed.

This should not be done. The rose garden has been destroyed without consultation. The East wing is not to have a bunker and a ballroom. It's not important for national security. The president has bunkers in other places and this ballroom is a

joke. The interior of the white house is slowly being turned into a disrespectful disgrace to the people of the United States of America. The founding fathers are being disrespected everyday by what's happening now. This must be returned to its original look and function. If they don't like it they can make a new building at Mar a Lago and move the administration there.

Name: Andrea DeHart
Date: February 23, 2026 4:24:33 pm

Modernization? More like destruction! The demolition of a third of the White House is absolutely disgraceful. It should be restored to its original state. A large gaudy ballroom that will overpower the grace and dignity of the remaining part of the White House should not be allowed.

Name: Nathan Newcomer
Date: February 23, 2026 4:25:03 pm

The American people were excluded when the president tore down the East wing without congressional involvement. Private funding raises concerns about pay to influence/corruption.

Architecturally, a temporary occupant shouldn't get to make the aesthetic choices. That process should belong to the People through our Reps.

The scale of the planned ballroom is completely overwhelming to the remaining historical site.
I propose restoring the East wing as it was before the wrecking ball swung.

Name: William Harper
Date: February 23, 2026 4:25:53 pm

Dear NCPC,
I write to express my concern that the proposed "East Wing Modernization project" (aka New White House Ballroom) is immensely out-of-scale and will completely dwarf the existing structure.

As currently proposed, the East Wing Ballroom Project comprises 90,000 square feet, almost double the 55,000 square feet of the existing White House building.

This Secretary of the Interior's Standards for Rehabilitation require that additions to historic structures be subordinate in scale and size, distinct from the historic building (not replicating it), and compatible with its materials, features, and massing.

This particular design is wholly unsuitable - It takes away from the original White House, dwarfs it in scale and relates it to a secondary role.

I respectfully ask that you do not allow this project to go ahead as proposed.

Name: Gabriel Wick
Date: February 23, 2026 4:26:10 pm

The proposed expansion is completely out scale and proportion with the mansion, and threatens to overwhelm it. Such radical modifications to the people’s house should not be rushed through with such an opaque planning process. All prior presidents have been careful to make additions in a restrained and nuanced manner — preserving the overall massing of the building. This additional would obliterate that tradition. I urge the committee to reject this expansion.

Name: Anne Stanton
Date: February 23, 2026 4:26:39 pm

I write to express my concern about the proposed "East Wing Modernization project" (aka New White House Ballroom).

The proposed ballroom is much too large in comparison with the existing structure. As currently proposed, the East Wing Ballroom Project comprises 90,000 square feet, almost double the 55,000 square feet of the existing White House building. No amount of tweaking its design (except making it smaller) will change the fact that the "addition" is larger than the original. In addition, by making such a large mass the exact same height as the existing White House further dwarfs it.

This is significant because the Secretary of the Interior's Standards for Rehabilitation require that additions to historic structures be subordinate in scale and size, distinct from the historic building (not replicating it), and compatible with its materials, features, and massing.

There is no doubt that there is a need at the White House for a gathering space that can accommodate more than the existing 200-person room. However, there is doubt that this particular design is suitable – It takes away from the original White House, dwarfs it in scale and relates it to a secondary role.

As long as the White House stands as a national symbol, it should not be relegated to a secondary role in its own landscape.

Respectfully, I ask that you do not allow this project to go ahead as proposed.

Name: Janice Simon
Date: February 23, 2026 4:27:01 pm

No amount of tweaking its design (except making it smaller) will change the fact that the "addition" is larger than the original. In addition, by making such a large mass the exact same height as the existing White House further dwarfs it.

This is significant because the Secretary of the Interior's Standards for Rehabilitation require that additions to historic structures be subordinate in scale and size, distinct from the historic building (not replicating it), and compatible with its materials, features, and massing. As currently planned, this project violates these rules. It seems to me, an art historian, that the desired gathering space could be achieved without creating such a large out of scale structure that is an affront to the original White House building.

There is no doubt that there is a need at the White House for a gathering space that can accommodate more than the existing 200-person room. However, there is doubt that this particular design is suitable – It takes away from the original White House, dwarfs it in scale and relates it to a secondary role.

I ask that you do not allow this project to go ahead as proposed.

Sincerely yours,
Dr. Janice Simon
Josiah Meigs Distinguished Teaching Professor, Emerita, University of Georgia

Dear NCPC,

I write to express my concern that the proposed "East Wing Modernization project" (aka New White House Ballroom) is violently out-of-scale with the existing structure.

As currently proposed, the East Wing Ballroom Project comprises 90,000 square feet, almost double the 55,000 square feet of the existing White House building. No amount of tweaking its design (except making it smaller) will change the

fact that the "addition" is larger than the original. In addition, by making such a large mass the exact same height as the existing White House further dwarfs it.

This is significant because the Secretary of the Interior's Standards for Rehabilitation require that additions to historic structures be subordinate in scale and size, distinct from the historic building (not replicating it), and compatible with its materials, features, and massing.

There is no doubt that there is a need at the White House for a gathering space that can accommodate more than the existing 200-person room. However, there is doubt that this particular design is suitable – It takes away from the original White House, dwarfs it in scale and relates it to a secondary role.

I ask that you do not allow this project to go ahead as proposed.

Thanking you for your time

There is no real remedy for the destruction of the East Wing, which was performed rashly and without input from the public. A piece of history has been lost, along with all of the history contained within (as far as anyone can tell, no artifacts were conserved before demolition). Now the only thing that can be done is to prevent further harm by halting construction of the ghastly, gaudy, tasteless and unnecessary ballroom, which serves no purpose other than to satisfy the insatiable ego of the current president. The White House is not his personal property to deface and degrade. Cauterize the wound and hope a better steward can build something better—with input from the White House's actual owners, the American people.

Name: Linda Unsicker
Date: February 23, 2026 4:36:17 pm

The proposed ballroom where the East Wing of the people's house was, serves no purpose at all. Why spend all of that money, even if donated, just to please one man's ego? By the time it is finished this president won't be in office. If no prior president has felt a need for such an extravagance, it seems likely that it will seldom, if ever, be used. Only the rich and royal would be invited. We are supposed to be a Christian nation yet a $400 million ballroom appears to be more important than health care, education, food, and housing for honest American citizens in need. Many of those people in need are veterans who served our country, who helped protect this country, at the cost of a normal life for themselves. I should add infrastructure and FEMA should be priorities. This is absurd. This country does NOT need to build this hideous structure when so many other needs should definitely be addressed first. PLEASE do not let this project continue.

Name: Susan VandeMerkt
Date: February 23, 2026 4:37:00 pm

The East Wing of the White House has significant historical value and is integral to the overall design and preservation of the building as a whole. The sitting president does not and should not have the authority to make any alterations to the White House proper without congressional review and in conjunction with architectural review to ensure design integrity. Donald Trump bypassed congressional review and proceeded with demolition of the east wing which was well beyond his scope of authority. The White House has existed since 1792 without a large lavish ballroom garishly gilded in gold with the Trump name emblazoned on it as it is planned by Donald Trump. He is not the owner of the White House he is simply the current temporary occupant. His plan for the addition of an unnecessary massive space, unnecessary expenditure of taxpayer money and a design that is incongruent with the existing building needs to be nullified and the east wing restored to its former state at his personal expense. This current president has already desecrated the once elegant Rose Garden by replacing it with a large patio with umbrella tables that looks like an outdoor cafeteria setting. He should not be allowed to destroy national landmarks with historical significance.

Name: Elizabeth Hansen
Date: February 23, 2026 4:37:28 pm

First, I don’t believe that is an appropriate name for what he is doing. I am a historian and to see the facade destroyed like that and the rose garden concreted over, it’s disheartening. To see the artist renderings of the ballroom is just gross. This is supposed to be the peoples house not a northern extension of his tacky southern residence. So disappointing.

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design (and not at the cost of taxpayers). No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding citizens.

Name: Kimberly Campbell
Date: February 23, 2026 4:38:33 pm

As an American and a historian, I am heartbroken at the state of the Easy Wing all the history that has been lost there (especially women's history) to satisfy one VERY UNPOPULAR politician's ego. No one asked for or, indeed, approved this. Since Trump has shamelessly enriched himself at the expense of the American people, I hope he will be compelled to personally pay for the restoration of the East Wing AND the Rose Garden he destroyed.

Name: Gale Sinatra
Date: February 23, 2026 4:40:23 pm

It is historically, architecturally, financially, and in every other way completely inappropriate to build a massive ballroom connected to the White House. Stop this insane project now.

Name: Terry McDonald McDonald
Date: February 23, 2026 4:41:51 pm

I think a 90,000 sf addition is just too much, way too many square feet, to be added without overshadowing the historic White House. And not needed. A ballroom to serve the world's elites can be better handled with private money, on private land- not in any way subsidized by the US Government.

The former East Wing probably DID need a major remodel, and probably should be the future offices of the President's staff until the West Wing undergoes a similar remodel.

Thank you for this opportunity

Date: February 23, 2026 4:42:28 pm

Esthetics or lack there of, is a great worry to me when I think of what might be the build out of the new East Wing of the White House. President Trump has a low class idea of what style should be. He time after time leans towards flashy gold trimmings in his surroundings. He seems to prefer the interiors of 18th century salons of France or the Russian gold embellishments in various museums in St Petersburg.

Mrs. Kennedy during JFK’s presidency had a lovely understated style that spoke volumes. She believed in preservation. She saved the Old Post Office from being demolished. At her young age she brought grace and style that didn’t slap you in the face. Trump should have little say in how the East Wing is out fitted. Practical form and function should dictate what rises from the rubble the President has caused.

I believe Donald Trump's destruction of the East Wing of the White House was done prematurely and illegally without authorization of Congress, the National Capital Planning Commission, and any other oversight agencies. I believe any further demolition and construction on "the former East Wing" should be completely and permanently halted until such time the appropriate entities with legal authority have the chance to review and plan for further construction. Donald Trump does not have the power, authority or legal right to have destroyed the East Wing or to solely decide what is to be built in its place. That is not his property; it does not belong to him. It belongs to the people of the United States. We are allowing him just to reside there--temporatily. Along with the sudden demolition of the East Wing and Trump's plans for his "Big Beautiful Ballroom" which could hold "thousands," what plans have been made for the offices, event spaces, public areas, etc., that disappeared with the destruction? What is happening with the people who worked in the East Wing? Where are now? Where will their new offices be? Where will former East Wing functions be held? Who in addition to Donald Trump decided the United States needed, or even WANTED a new "big, beautiful ballroom?" In my opinion the Trump Administration has greatly overstepped its bounds with this East Wing Modernization Project, and they need to be reintroduced to the American system of checks and balances, following proper protocol , and most of all, behaving in a legal manner. I urge the National Capital Planning Commission to see that any further East Wing Modernization complies with the law, and the appropriate agencies and authorities for such projects. Thank you.

Name: Helen Harrison
Date: February 23, 2026 4:46:32 pm

Dear NCPC,

As the retired director of a historic site and a National Trust member, I write to express my objection to the proposed "East Wing Modernization project" (aka New White House Ballroom).

The current East Wing Ballroom Project comprises 90,000 square feet, almost double the 55,000 square feet of the existing White House building and nearly eight times the size of the original East Wing (12,000 square feet). No amount

of tweaking its design (except by making it smaller) will change the fact that it overwhelms the White House, and further dwarfs it by being the same height.

This is significant because the Secretary of the Interior’s Standards for Rehabilitation require that additions to historic structures be subordinate in scale and size, distinct from the historic building (not replicating it), and compatible with its materials, features, and massing.

There is no doubt that there is a need at the White House for a gathering space that can accommodate more than the existing 200-person room. But the proposed design is not suitable. It diminishes the historic White House, dwarfs it in scale, and relegates it to a secondary role.

I sincerely request that you do not allow this project to go ahead as proposed.

Thanking you for your time,

Helen A. Harrison

The People's house. What gave anyone the right to destroy our house without bringing these changes to the America people for their opinions, their hopes,and their dreams. How can total destruction be considered modernization when it was physically destroyed.
It is heart breaking to see what has happened to this historical landmark. And no one was allowed to state their opinion about it being destroyed.
My husband and I came to Washington last year to experience the magnitude of our history. I am so sad that no one cared enough to ask the people how we felt, or share their ideas, or allowed us to share our ideas for modernization.
It breaks my heart to see how it has been treated.
Sincerely Yours,
Nancy Kerrigan

The White House is OUR--the American people's--building, and what this administration has done to it is a travesty. There was no need to knock it down, and there is absolutely not need for the monstrosity being proposed. The White House is bigger than any single president, than any presidency, and this one should be stopped from doing this to the People's House.

Name: Steven Frankel
Date: February 23, 2026 4:54:41 pm

It is a national travesity what Mr Trump has already done to the people's house - paving over the Rose Garden, putting cheap looking gold crap every along with plaques that insult those he doesn't like but the East Wing project is a whole nother level of evil. His proposed design is totally out of scale with the main White House and he is only doing this to feed his ego. There should have been publicly approved plans before the first brick was removed. This project should be halted until a public consensus on what should be done is reached. Stop letting his ego ruin this county.

Name: Leslie Lee
Date: February 23, 2026 4:55:16 pm

Everything about this is illegal and an affront to the American people. It is your duty to stop this project.

Name: Cathy Smith
Date: February 23, 2026 4:55:33 pm

I am beyond horrified by what Trump has done to the East Wing, without approval. I am even more horrified by his monstrous "ball room/bunker." All of this is egregious.

The East Wing needs to be rebuilt, and he should pay for it from his own pocket.

Name: J Mara
Date: February 23, 2026 4:55:39 pm

Trump, without proper review or permission, destroyed a part of the people's house--not his house. Debris from the demolition was dumped at the public East Potomac Golf Links, which, by the way, Trump claims he plans to take over.

Reportedly, plans for the ballroom, which will inappropriately dwarf the White House itself, have risen in cost multiple times as the room gets bigger and bigger.

Trump is operating outside proper channels, without regard to environmental impact, esthetics, site appropriateness, or the will of the majority of the American people.

Why would any commission give this vulgar, tasteless, hubristic, self-aggrandizing, lawless, and deeply corrupt man permission to proceed with this abomination?

Shut it down.

Name: Tim + Kathleen Smith
Date: February 23, 2026 4:55:58 pm

We are opposed to the outsized ballroom being built to replace the White House's East wing. It is not in proportion to the other wings, and has not been examined by an expert in historic architecture to make sure that it is designed appropriately.

Name: Karen Clay
Date: February 23, 2026 4:56:59 pm

It is with concern that I write about the current proposal of the East Wing Modernization Project. Having worked in the historic preservation field (University of Vermont Graduate Program,1984), I know the value of protecting the architectural environment financially, historically and educationally. My concern with the 90,000 square foot ballroom is its overwhelming size in comparison to the White House.

Recognizing that the Neoclassical/Georgian architectural significance of the Executive Mansion should be considered first and foremost in regard to any proposed new construction, I am sure the Commission will evaluate not only the scale of the project, but also the compatibility of design. The importance to our history of "The People's House," as a National Historic Landmark and a National Park cannot be overstated, thus all design consideration should enhance the White House, not overwhelm or belittle it.

The need for a large event space has been made clear, but I am concerned that the East Wing Modernization Project will be dictated by President Trump without the proper consultation and guidance. Following the guidelines set forth by the Secretary of the Interior's Standards for Rehabilitation state that new additions should not take away or destroy the historic fabric of existing structures. It is my understanding that the National Trust for Historic Preservation has offered its assistance and that the National Park Service had already submitted a design plan.

I have faith that the NCPC will listen to all qualified entities who value our historic American architecture and that both a functional and compatible design can be created. The built environment speaks to us, not only of our history, but of our future. It asks us to understand the functional requirements and creative expression of generations that have gone before us. Not one generation should override another because they think their interpretation is so much better. Please stand firm against the monumental and overpowering design being proposed!

Name: Robert Swartz
Date: February 23, 2026 4:57:14 pm

This proposal should be rejected.

It is out of scale and architecturally incompatible with James Hoban's design of the President's House. In addition, it would deeply unbalance the classical composition of a main house with dependent wings.

In fact, it resembles a number of late 19th century plans to bury the White House with massive wings, all of which were soundly rejected for the same reasons.

Moreover, it is disingenuous at best to label this an "East Wing Modernization Project". The former East Wing isn't being modernized. It was destroyed in an illegal destruction of government property.

Plus, despite the government's arguments in Court recently, what is proposed here is in no way comparable to the Ford administration adding an in-ground pool, or the first Trump administration adding a tennis pavilion to the White House grounds.

Finally, no new building can be built on public property without explicit Congressional authorization, which the questionable private financing of this project does not override.

For these reasons, the NPNC must reject this proposal.

Name: J. W. Nichols

Scale back the size of the ballroom, remove all gold, include a visitors' center, and call the addition The People's Ballroom.

Name: Juile codell
Date: February 23, 2026 4:58:06 pm

Dear NCPC,

I am concerned that the proposed "East Wing Modernization project" (aka New White House Ballroom) is violently out-of-scale with the existing structure. The East Wing Ballroom Project comprises 90,000 square feet, almost double the 55,000 square feet of the existing White House building. No amount of tweaking its design (except making it smaller) will change the fact that the "addition" is larger than the original structure. Such a large mass the exact same height as the existing White House further dwarfs the White House wich is the people's building and is not the property of any president.

The Secretary of the Interior’s Standards for Rehabilitation require that additions to historic structures be subordinate in scale and size, distinct from the historic building (not replicating it), and compatible with its materials, features, and massing.

If there is a need at the White House for a gathering space that can accommodate more than the 200-person room, although I do not think such a need is there However, This particular design is not suitable and relegates the original White House toa secondary role.

I ask that you do not allow this project to go ahead as proposed please. Thank you.
Julie Codell

Name: Julie Harris
Date: February 23, 2026 4:59:48 pm

Dear NCPC,

I write to express my concern that the proposed "East Wing Modernization project" (aka New White House Ballroom) is significantly out-of-scale with the existing structure (The White House).

As currently proposed, the East Wing Ballroom Project comprises 90,000 square feet, which is almost double the 55,000 square feet of the existing White House building. No amount of tweaking its design (except making it smaller) will change the fact that the "addition" to "the People's House" is larger than the original. In addition, because the addition will be the same height as the existing White House it will further obscure it.

This is significant because the Secretary of the Interior’s Standards for Rehabilitation require that additions to historic structures be subordinate in scale and size, distinct from the historic building (not replicating it), and compatible with its materials, features, and massing. There is a reason for this: we must respect our history by preserving its most emblematic structures.

There is no doubt that the White House requires a gathering space that can accommodate more than the existing 200-person room. However, this particular design is not suitable – It takes away from the original White House, it dwarfs it in scale, and relegates it to a secondary role. The White House deserves better.

I ask that you do not allow this project to go ahead as proposed.

Thanking you for your time,

Sincerely,

Julie Harris, Ph.D.

It is shocking the disregard to preservation that the current administration has exhibited by tearing down the East Wing. What has happened to the historical artifacts? Where is the due diligence to ensure this is something the people, not the current president, want and how will we help guide this process? Something of this magnitude should follow an established and deliberate process, which apparently was not considered before ripping down the East Wing. I do not support this super "ball room" that serves no public benefit, but rather serves the egos of those in power. This is the antitheist of what the founding fathers envisioned for the presidential residence. How are tax payers considered in these decisions? If there's a proposal for outside corporate or foreign interests to pay for this, how are we to be assured there is no undue influence expected from these 'donations'. This is irregular and needs to be put under a microscope.

Name: Barbara Swan
Date: February 23, 2026 5:02:10 pm

I oppose quick approval of the East Wing Modernization Project. The East Wing was demolished without any review. The White House is the people’s house. It is the temporary home of the president, but does not belong to the president. New construction on the site of the East Wing must be reviewed and approved by the appropriate agencies, and must be visually harmonious with the existing structure.

I oppose the spending of tax payer dollars for rebuilding the East Wing. Because it was torn down without the proper authorization, permits, or design review by one person, the cost of rebuilding it should fall squarely on the shoulders of Donald J. Trump. He has made billions by using the office of President to enrich himself. So he should pay for it. As long as we are at it, let’s make it slightly bigger and better than before without dwarfing the White House. The underground bunker should also be rebuilt and updated.

Name: Mary Fekete
Date: February 23, 2026 5:04:59 pm

Dear NCPC,
I am alarmed at the scale of the proposed project. The proposal almost doubles the existing square footage of the White House. The People’s House should be showcased and not dwarfed by the proposed monstrosity. The historical architecture should also be consistent with the existing structure. Please do. It allow this project to go ahead as planned.

Thank you,
Mary Fekete

I am appalled by the brazen destruction of the East Wing of the White House. It is the people's house, which means it is my house. You had no right to flatten this beautiful, historical place. I demand that the East Wing be reconstructed as it was and that tRump pay with his own money (not money that he has extorted from the American people). Thank you.

Name: Cynthia Talmadge
Date: February 23, 2026 5:06:26 pm

The.name of this project perfectly exhibits it's lunacy.?this is not a modernization but an illegal teardown with a monstrosity planned in its place.

Rebuild it as it existed at the President's personal expense.

Name: Michele Redmond
Date: February 23, 2026 5:06:38 pm

I strongly oppose the so-called “East Wing Modernization Project” to construct an enormous ballroom where the East Wing of the White House once stood. The project should be cancelled and the East Wing should be rebuilt as it was. The White House is the people’s house, our house, not the President’s—he is only a temporary tenant. He had no right to demolish that wing and begin this project without the legally required authorization, permits, or design review. In places where such laws hold, someone who illegally demolishes a property with plans to build something else is made to restore the property.

Name: Linda Lee
Date: February 23, 2026 5:07:00 pm

I’m writing today to express concern over the ‘East Wing Modernization Project’ aka the ballroom. The proposed ballroom is completely out of scale with the existing structure.

Currently, the proposed ballroom comprises 90,000 square feet. That’s almost double the square feet of the existing White House. The ballroom as proposed will dwarf the White House and take away from its significance.

The Secretary of the Interior’s Standards for Rehabilitation require that additions to historic structures be subordinate in scale and size, distinct from the historic building (not replicating it), and compatible with its mass, features and massing.

Perhaps there is a need at the White House for a gathering space that can accommodate more than 200 people. However, this design does not seem suitable. It takes away from the White House, dwarfs it in scale, ruins the symmetry, and relegates the White House to a secondary role.

I ask that you do not let this project go ahead as proposed.

Thank you.

Linda Lee
Franklin, TN

Date: February 23, 2026 5:07:29 pm

The White House Ballroom
My name is Thomas Pheasant, I am a Washington DC base interior designer. I have been working in my field for 45 years. My work has included 12 years at Blair House where I was leading decoration and renovations. I recently completed the redecoration of The Benjamin Franklin Diplomatic Room for the State Department for which I received the 2025 John Russell Pope Award by the Institute of Classical Architecture & Art.

I am very much opposed to the proposed grandiose design being presented for the White House Ballroom. The proposed design diminishes both the scale and spirit of the White House. I do not believe this important addition to the “Peoples House” should reflect the subjective ideals of any one man in power but should be carefully reviewed and approved by our finest preservationists. After many years of travel and exploration of the finest palaces of the world, I have come to see the unique beauty within the simplicity of our American architectural heritage. This ballroom should not be seen as a jewel in the crown, but as the reflection of our American spirit.

Sincerely, Thomas Pheasant

I object to this project and want it returned to its original state before the demolition. This project did not go through appropriate approval channels and is way too costly. It also overshadows the Whitehouse.

Name: Victoria Miller
Date: February 23, 2026 5:09:29 pm

Dear NCPC,

I write to express my concern that the proposed "East Wing Modernization project" (aka New White House Ballroom) is violently out-of-scale with the existing structure.

As currently proposed, the East Wing Ballroom Project comprises 90,000 square feet, almost double the 55,000 square feet of the existing White House building. No amount of tweaking its design (except making it smaller) will change the fact that the "addition" is larger than the original. In addition, by making such a large mass the exact same height as the existing White House further dwarfs it.

This is significant because the Secretary of the Interior's Standards for Rehabilitation require that additions to historic structures be subordinate in scale and size, distinct from the historic building (not replicating it), and compatible with its materials, features, and massing.

There is no doubt that there is a need at the White House for a gathering space that can accommodate more than the existing 200-person room. However, there is doubt that this particular design is suitable - It takes away from the original White House, dwarfs it in scale and relates it to a secondary role.

I ask that you do not allow this project to go ahead as proposed.

Thanking you for your time,
Victoria Miller

The White House is a sacred space for U.S. democracy. Unlike palaces of European monarchs or Eastern potentates, those residing inside are not owners but temporary occupants — which is the point of our constitutional democracy and tradition of peaceful change of power.

The relative modest scale of the White House, including the Oval Office and its representational spaces, contrasts sharply from royal residences, and for good reason. This is a vivid reminder to our president, foreign visitors, and U.S. citizens alike that power derives from the people, in accordance with our constitution, and not from the pomp and pretensions of grand, gilded surroundings and hereditary bloodlines. The curious tradition of erecting tents for state dinners, while inconvenient, should, in reality, fill us with pride: it is our democracy, not grandiose physical spaces, that is meant to

impress. Our elected president's job is to govern according to our constitution, with entertaining guests an occasional distraction and peripheral activity, not a major part of the Article II responsibilities outlined in our constitution. The proposed ballroom destroys the symbolic importance of the relative modesty of the Executive Mansion. The exterior proportions and "faux royal" interior design features will undermine the clean break that the historic "People's House" represents between European monarchies and U.S. democracy.

Aesthetically, the ballroom as currently envisioned would dominate and likely overwhelm the complex, diminishing the centrality of the historic White House. According to released drawings, the pleasant symmetry of the existing South Lawn would be permanently disfigured by the intrusion of the ballroom onto the gently curving eastern elliptical drive, which will have to be partially relocated. (The released drawings makes it appear as though the drafter of the elliptical drive burped when drawing the new curve.) The planned doubling of the height of the wing connecting the historic White House to the new ballroom, compared to the demolished East Wing, risks making the White House appear to be a mere annex to the looming ballroom. Occasional musings about doubling the height of the arcade leading to the West Wing — to "restore symmetry" that should never have been destroyed in the first place — are not reassuring, as that would, again, detract from the centrality and distinctiveness of the historic main residence. Published renderings suggest that the passageway to the ballroom will connect to the main residence via the central window of the East Room, destroying the integrity of the interior and exterior of a room that has been the site of so many historic events since the White House's construction.

Even if promised "private" (albeit undisclosed) donations cover construction expenses, the aesthetic and symbolic cost of this ballroom vastly exceeds its utility. The ballroom will either sit empty most of the time or — worse — the presidency will be transformed in appearance and perhaps in reality to something akin to an entertainment industry. "If they build it, they will come," as is said. Do we want our president constantly entertaining those guests who will come (holding coveted invitations), or do we prefer our president to attend to the business of governing according to our constitution? One could argue that the White House has been "monetized" before, with donors having access to the Lincoln Bedroom or events with presidential access. Do we really want a permanent space in the White House complex that would appear to deepen the divide between elites with money and access and the people in whose name the president is supposed to govern?

In short, the proposed ballroom is a monstrous deviation from the symbolism of our White House as physical, architectural representation of our democracy. The lack of transparency over costs and funding further erodes confidence in our government. The ballroom promises to be an aesthetic abomination that, just like its primary proponent, serves primarily to draw attention to itself. If a tenant of a building wishes to make alterations, the tenant is required to ask the landlord for permission for the alterations. This tenant has already demolished a wing of a residence he does not own, without referring to the landlord, i.e., the citizenry. He should not be permitted to permanently disfigure this historic compound and undermine its symbolic importance.

It is astonishing to witness such unbounded arrogance leading to massive, irreversible alterations to a beloved building that has such history and such meaning for generations of Americans who have gazed with admiration through the iron fence or who had the memorable opportunity to step inside, via the now-destroyed East Wing. The awe and reverence we hold for the White House does not derive from architectural magnificence (appealing as the White House is to most of us). It derives from our knowledge, from pictures and descriptions, of the history that has occurred there. Let the presidents alter the private upper floor living spaces to suit family needs and preferences. But please make it clear that presidents must use a far lighter — and reversible touch — when considering adjustments to the historic interiors and exteriors: adjustments subject to outside review and approval, not faits accompli literally bulldozed through.

Name: Dr Kimberly Dunwoody

The decision to demolish the East Wing of the White House is not just a vanity project—it is a profound erasure of history, tradition, and the enduring contributions of America's First Ladies. For decades, the East Wing has stood as a symbol of the vital, often underappreciated work of these women, who have shaped the nation in ways that extend far beyond ceremonial duties.

Jacqueline Kennedy transformed the White House into a living museum, restoring its historical integrity and opening its doors to the American public through her televised tour. Her efforts preserved the cultural heritage of the presidency and set a standard for the stewardship of the nation's most iconic residence.

Lady Bird Johnson championed environmental conservation and beautification projects, leaving a legacy of green spaces and public parks that continue to enrich communities across the country.

Pat Nixon expanded the White House's accessibility, introducing public tours for the visually impaired and increasing the number of artifacts on display to make the People's House more inclusive.

Betty Ford broke barriers by openly discussing breast cancer and addiction, using her platform to destigmatize health issues and advocate for women's rights.

Rosalynn Carter redefined the role of First Lady by actively participating in policy discussions, particularly around mental health, and serving as an advisor to her husband.

Hillary Clinton brought a sharp focus to healthcare reform and women's rights, becoming a global advocate for equality and opportunity.

Laura Bush championed literacy and education, launching initiatives to improve reading skills and promote libraries as centers of learning.

Michelle Obama inspired a generation with her Let's Move! campaign, tackling childhood obesity and promoting healthy lifestyles, while also advocating for military families and education for girls worldwide.

Dr. Jill Biden has continued this tradition of service, focusing on education, military families, and cancer research, all while maintaining her career as a community college professor.

The East Wing has been more than just a physical structure; it has been a space where these First Ladies have carried out their initiatives, hosted events, and worked tirelessly to improve the lives of Americans. Its demolition disregards the legacy of these women and the countless staff who have supported their efforts.

This project is not about progress—it is about erasure. It dismisses the historical significance of the East Wing and the invaluable contributions of First Ladies who have used their influence to champion causes that matter deeply to the American people. Preserving the East Wing is about honoring their legacies and ensuring that their work is remembered, not wiped away in the name of vanity.

Shut. It. Down.

Date: February 23, 2026 5:12:39 pm

The illegal demolition of the East Wing was a travesty. Please do not compound it with another by allowing this grotesquerie of a ballroom to be built that will (intentionally!) overshadow the White House. We don't need "Temu Versailles" in Washington, D.C.

Don't let Donald Trump, Grifter-in-Chief, leave an indelible stain on the symbol of America and the seat of government that belongs to we, the people!

Name: Susan Moore
Date: February 23, 2026 5:16:06 pm

After reviewing the proposed materials, I urge the Commission to reject this proposal. The intended construction is not in scale with or appropriate to the style of the existing historic structures and does not integrate well with the landscape. Restoring what was destroyed in the rushed demolition of the East Wing to the highest possible standard of quality should now be the priority. While additional large event space may be desirable in new construction, what is currently proposed is not in any way acceptable.

Dear Council Members and Commissioners,
After reading all the documents related to this project, reviewing posted drawings, and watching the live Council Meeting where the new Architect of Record Presented images representing the New Schematic Phase and answering questions

from Council Members and Commissioners, I feel the Architect of Record Must Present a new Alternative Schematic Design of the East Wing Modernization Project. First, the connecting Colonnade from the White House to the East Wing should be (1) story, not (2) as currently presented. Second, the overall footprint of the East Wing should be reduced. Third, the overall Height and Massing of the East Wing should be reconsidered. The Overall height, massing, and footprint "overshadows" the White House. The White House is supposed to be the Focal Point. The current Schematic Design of the East Wing deters the "eye" away from the White House. I am in Total Agreement with the Comments provided by Commissioner Phil Mendelson. Also, I agree there are ADA and Egress Issues with the current Schematic Design. I do understand the intent of wanting and needing a "ballroom" for visitors and guests which is supposed to include the Public. However, why is a Movie theatre and the First Lady's "Office" included in this East Wing Modernization Project. Where are the code required Public and Private Restrooms for this "ballroom". Also, I am concerned about the landscaping and trees that currently exist and the addition of appropriate new landscaping and the addition of new trees. Not to be political, but I am concerned about "this" considering the Administration demolished and paved over the Kennedy Rose Garden. Also, I am concerned about the Private Donors who contributed to the East Wing Modernization Project and what "silent agreements" were potentially made in regards to the Overall Size, Height, Massing, Interior Design, Programming and Function of the "ballroom". The White House is the Peoples' House and Includes the East Wing with the 'ballroom". Lastly, Nowhere on, in, or around the new Colonnade, East Wing, "ballroom", and Landscaping Grounds should have any Naming and/ or Affiliation with the Current President and Administration and any Private Donors. This is the Peoples' House and the East Wing Modernization Project should represent "the People". Thank you.

Name: Katharine Schumacher
Date: February 23, 2026 5:19:45 pm

The proposed replacement East Wing, at approximately 89,000 square feet across two stories, would be significantly larger than the 55,000-square-foot Executive Mansion itself. The National Park Service warned that the new building's larger footprint and height "will dominate the eastern portion of the site, creating a visual imbalance with the more modestly scaled West Wing and Executive Mansion." D.C. Council Chairman Phil Mendelson, an ex-officio member of this very Commission, described a rendering of the structure viewed from the Ellipse as "disturbing" and warned that the addition risks "overwhelming" the historic building it purports to complement.

The White House's architectural character derives from restraint, which may not matter to the current administration but to the architectural and arts community, the design and steps taken are an extension of the assault of our democracy. A 90,000-square-foot event hall funded by corporate donors, conceived in the image of a private club, is not a continuation of the American tradition. It is a rupture with it and a disgrace.

I urge the National Capital Planning Commission to use its full authority to demand a scaled-back proposal that respects the historic proportions of the White House complex, to require complete transparency about asbestos abatement, donor influence, and structural decision-making, and to ensure that the American public, who are the true owners of this landmark have a meaningful role in determining its future.

The White House has been renovated before. Every prior administration understood that such changes required care, consensus, and deference to the building's historic character. This project has shown none of those qualities. It is not too late to insist on a better path.

Date: February 23, 2026 5:20:02 pm

I’m very disappointed to see the proposed plans of the east wing. It’s outrageous and provides poor context and symbolism for the suppose ballroom to be larger than the White House itself. This should never be the case. And I am personally offended that this project has moved forward with destruction of beautiful proportions of the White House grounds. A ballroom bigger than the White House itself is an offense to me and to our country.

Name: Betsy Nicoletti
Date: February 23, 2026 5:21:13 pm

The East Wing should be rebuilt as closely to the original as possible. Nothing grand. Nothing gold. Nothing extravagant. This is not what our country was built on.

Be humble. Reconstruct a modest structure, in line with the proportions of the White House.

Please, don't leave us with a large, out of scale addition.

I hope whoever is reading this is doing well. I am absolutely disgusted by the tear down of the East Wing. I worry about the history. Did they preserve anything with any historical value? Was there concern for the structural integrity of the remaining building? The fact that Americans don’t know this is terrible.

As for the ballroom that’s supposedly going up in its place…a total eye sore. Why is it bigger than the palace at Versailles? I have a feeling that this is more about creating a monument for Donald Trump, which should not be the priority as the White House belongs to the American people. I dislike this idea so much that I hope a future American president would tear it down…hopefully this time with more care for the building and the people who allow Trump to live there.

Thank you.

Name: Joy Patafio
Date: February 23, 2026 5:24:24 pm

The new ballroom is excessively large especially compared to the White House. But more importantly, any modifications to the White House should go through a proper approval process. Including ensuring that all donations and funding are fully vetted and approved. We must maintain the integrity of the White House and the United States.

Name: Elisabeth K Marshall
Date: February 23, 2026 5:24:33 pm

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Patricia Pearson
Date: February 23, 2026 5:27:01 pm

I think the National Preservation and Trust procedures should be followed to recreate the East Wing to have modest improvements in keeping with the proportions of the White House proper. All reviews that are standard should take place so all voices can be heard and all issues addressed prior to construction. Signoffs by required organizations should be obtained before construction begins.

Name: Linda Safran
Date: February 23, 2026 5:27:36 pm

The proposed "East Wing Modernization Project" (aka New White House Ballroom) is hideously out of scale with the existing White House structure. At 90,000 square feet, it is almost double the 55,000 square feet of the existing White House building. No amount of tweaking its design (except making it smaller) will change the fact that the addition is larger than the original.

The Secretary of the Interior’s Standards for Rehabilitation require that additions to historic structures be subordinate in scale and size, distinct from the historic building (not replicating it), and compatible with it in materials, features, and massing.

I accept that the White House might benefit from a gathering space that can accommodate more than the existing 200-person room, but the current design is utterly unsuitable: It undermines the visual impact of the White House by dwarfing it in scale. I hope you will not allow this project to move forward as proposed.

Name: Elizabeth Wellborn
Date: February 23, 2026 5:28:35 pm

I write to express concern that the "East Wing modernization " project is absurd and ridiculous in size and scope. It is proposed as a monument to one man's insecurity and will be an eyesore in the district.
I ask that you do not allow this project to go forward as proposed.

Name: Manuel Medeiros
Date: February 23, 2026 5:33:05 pm

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete erasing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding citizens.

Name: Sarah Petersen
Date: February 23, 2026 5:36:37 pm

I strongly oppose the proposed White House State Ballroom and urge the Commission to reject it.

THE APPROVAL PROCESS HAS BEEN DELIBERATELY SUBVERTED. The administration demolished the historic East Wing before submitting plans, before public comment, and before any NCPC or Commission of Fine Arts review, ensuring this Commission cannot meaningfully evaluate alternatives. The claim that NCPC jurisdiction attaches only at "vertical build" is a legal fiction; foundations and below-grade work directly determine the building's ultimate scale and footprint. Approving this project rewards a strategy of demolish-first, seek-approval-later and sets a dangerous precedent for future administrations.

THE COMMISSION'S INDEPENDENCE IS COMPROMISED. NCPC Chair Will Scharf simultaneously serves as White House Staff Secretary, the office managing this very project. Any approval rendered under this conflict of interest lacks legitimacy.

PRIVATE FUNDING IS NOT A SUBSTITUTE FOR PUBLIC PROCESS. Donor-funded construction at a national landmark raises serious ethical concerns about access and influence. Private dollars cover only construction; taxpayers will bear maintenance, security, and operational costs for a 90,000-square-foot facility in perpetuity, a public obligation

that demands public input.

THE PROJECT'S SCALE IS INCOMPATIBLE WITH THE SITE'S HISTORIC CHARACTER. At 90,000 square feet with capacity for 999 guests, this is not an addition but a wholesale transformation of the White House grounds. The East Room has served the nation for over two centuries. Its loss is irreversible. No claim of entertaining necessity justifies it.

The Commission must act with independence. I urge rejection of this project until all legal and procedural deficiencies identified by the National Trust for Historic Preservation and the federal courts are fully resolved.

Name: Abigail Bailey
Date: February 23, 2026 5:38:33 pm

I am writing to express my strong disapproval of the proposed demolition of the East Wing of the White House and the construction of a new ballroom. As a resident of a rural New England town, I understand the importance of adhering to the review process, especially when it comes to maintaining historic districts. It is concerning that the president did not follow proper protocol, regardless of the recommendations from his hand-picked Commission on Fine Arts.
Initially, the project was estimated at $250 million, which has now been corrected to $400 million. While Mr. Trump presents himself as a businessman, his history includes multiple bankruptcies—at least six, to my knowledge. This raises questions about the reliability of his financial projections. Furthermore, he has stated that the project will be funded by a group referred to as “The American Patriots,” yet there is little transparency regarding this organization.
Mr. Trump has demonstrated a transactional leadership style; this raises concerns about what he may be offering in return to those “patriots.” At a time when our nation faces pressing issues—outdated infrastructure, crumbling roadways, and environmental concerns, such as raw sewage spilling into the Potomac—spending on a gold-encrusted ballroom seems misplaced.
This project does not reflect the values or needs of the People’s House.
Thank you for considering my concerns.
Sincerely,
Abigail Bailey

Name: Steve Portigal
Date: February 23, 2026 5:39:13 pm

I write to express my concern about the proposed "East Wing Modernization project" (aka New White House Ballroom) as it is tremendously out-of-scale with the existing structure.

As currently articulated, the East Wing Ballroom Project is 90,000 square feet, almost double 55,000 square feet of the currently existing White House building. No amount of tweaking the design (except making it smaller) will change the fact that the "addition" is larger than the size of the original!

This is important specifically because the Secretary of the Interior’s Standards for Rehabilitation states that additions to historic structures must be subordinate in both scale and size, as well as distinct from the historic building (not replicating it), and compatible with its: i) materials, ii) features, and iii) massing.

While there is a need for the White House to have a gathering space that can accommodate more than the current 200-person room, there is also doubt that this particular design is suitable because again it takes away from the original White House, dwarfs it in scale and relegates it to a secondary role.

I ask that you do not allow this project to go ahead as proposed.

Thanks to you for your time

Name: Bradford Patrick
Date: February 23, 2026 5:41:38 pm

The destruction of the East Wing was unprecedented, illegal, and most importantly, a moral abomination. The POTUS is not the owner of the White House, he is a tenant in the People's House. The Executive Mansion is not his to do with as he pleases. What authority exists due to the office he occupies, and should be exercised solely in conjunction with the myriad interests who have historically consulted on such things. Today it seems quaint to remember the degree to which

First Ladies consulted with the White House Historical Society, the National Park Service, and others to take any action affecting the East Wing or the White House grounds. This president literally took a wrecking ball to history. This destruction is a betrayal of generations of citizens who held fast to the principles and laws securing the blessings of liberty.

TL; DR - To hell with this president and his @#$! plans. He should be personally liable for its rebuilding and restitution. No ballroom!

Name: Judy Sizemore
Date: February 23, 2026 5:42:01 pm

I am against the plans that have been released publicly.
The planned space doesn't fit with the design of the existing building. In my mind, to construct a space of the size planned, one should consider the Capitol Visitor's Center. The space was designed to not detract from the Capitol, but give the space needed for support of the capitol. This idea can also be sued here.
Efforts should be made to replace the office spaces and welcoming area for visitors that was destroyed when the East Wing was demolished. Since the symmetrical visional effect has been lost, the new addition should address the overall capitol campus and the appearance to people passing by.

Name: Karen Gutmann
Date: February 23, 2026 5:42:01 pm

I presume the “East Wng modernization Project” is the ballroom construction proposed by Donald Trump.

I am writing to express my opposition to the proposed design. Trump has experience in constructing imposing, modern urban towers and golf courses. He has no experience in historic preservation, architecture or any aesthetic other than bold and gold.

The White House belongs to all of us who are citizens of this country. A large majority of Americans are opposed to the massive, garish addition that Trump champions. He is notoriously someone who builds to honor and please himself. He is president today. but at the end of the day, he is just one citizen whose time here is nearing an end.

Please make this decision based on its effect on the image of our nation’s capitol, on the principles of historic preservation and aesthetics, and on the strong opposition of a majority of U.S. citizens.

Let the White House remain the People’s House.

Thank you.

Name: Bryan Wolf
Date: February 23, 2026 5:45:43 pm

Is this really a necessary addition to a White House that has worked fine without it since the early 19th century? Or is this simply the place where architecture and (pathological) narcissism meet? I suspect the latter.

Name: Terri Tauber
Date: February 23, 2026 5:46:06 pm

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

These may not be my original words (shared with permission), but they perfectly summarize my feelings about this project. I was horrified to see the East Wing demolished. Some things just can't be undone, but this needs to go back to the original East Wing.

Name: Tracey Herzer Huston
Date: February 23, 2026 5:48:13 pm

I brought my 12-year-old daughter to Washington, D.C. recently. She is homeschooled and we'd been learning about the structure and functions of our government. I was heartbroken to show her (from the street) the White House, surrounded by trucks and dirt, so instead we went to The People's House museum across the street. Even the name of that place made me tear up because the iconic White House is supposed to belong to the people of the United States, not a single party, not a single administration, not a single person. I understand the need for renovation and additional space, but to do it in this manner without going through proper channels is unconscionable. The current proposal is ludicrous and will leave the whole structure looking unbalanced. Please, PLEASE rethink this project and then go about it in a different way.

Name: Susan Huppert
Date: February 23, 2026 5:48:32 pm

I am absolutely amazed that the president is being allowed to build a ballroom (after tearing down our beautiful East Wing of the White House). This is the people's house, not his. He should have been stopped immediately the very minute those bulldozers arrived. Most of the nation does not want a gaudy gold ballroom. This should never have been one man's decision to build. Because it is our house, not his, it should have gone through the appropriate channels. I'm just so ashamed of our congress who allow this president all these powers without checks and balances.
Stop this immediately until the people get a say in it.

Name: Julie McGee

Dear NCPC,

I write to express my concern that the proposed "East Wing Modernization project" (aka New White House Ballroom) is violently out-of-scale with the existing structure.

As currently proposed, the East Wing Ballroom Project comprises 90,000 square feet, almost double the 55,000 square feet of the existing White House building. No amount of tweaking its design (except making it smaller) will change the fact that the "addition" is larger than the original. In addition, by making such a large mass the exact same height as the existing White House further dwarfs it.

This is significant because the Secretary of the Interior’s Standards for Rehabilitation require that additions to historic structures be subordinate in scale and size, distinct from the historic building (not replicating it), and compatible with its materials, features, and massing.

There is no doubt that there is a need at the White House for a gathering space that can accommodate more than the existing 200-person room. However, there is doubt that this particular design is suitable – It takes away from the original White House, dwarfs it in scale and relates it to a secondary role.

I ask that you do not allow this project to go ahead as proposed.

Thanking you for your time.

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

I guess someone from your organization forgot to inform White House staff of the preliminary requirements in paragraph one under the heading “Why This Moment Matters”, in the article on Facebook with a link offering this opportunity to comment before your March 5, 2026, meeting. Kind of a “cart before the horse” deal, isn’t this?
Moving on. My strong belief is, now that the East Wing is completely demolished, any new structure should outwardly conform to the existing design of the White House, “the People’s House”. It should not be larger than either the White House proper or the West Wing. Outwardly the three areas should present a symmetrical appearance, symbolically representing the triad of US government: the Executive, the Legislative, and the Judicial branches.
Inside, there should be a sufficient number of offices needed for future First Spouses and their staff to conduct business. There should be an adequate number of updated ADA restroom facilities inside. There should be at least two ADA entrances-and-exits to the outside, for fire and other safety concerns. Any outside-facing windows should of course be bulletproof. Any remaining space, if there is any, could be used for functions not related to White House daily business, such as White House gatherings.
The decor should be tasteful and in line with what the public would expect of our White House, the People’s House, as it existed BEFORE the present occupant filled the walls with cheap, gaudy, gold-colored plaques and decorations.

My comment is about the proposed ballroom, which is supposed top be erected to replace the demolished East Wing.
It's a terrible idea.
Initially the E wing was going to be 'renovated', then without warning (or justification) it was totally demolished.
Now a gaudy 'golden ballroom' is to be erected in its' place. The proposed structure will dwarf the remaining buildings, and the style will be incongruent with the W.H.
This is more a vanity project for the current president than it is a needed upgrade.
We should replace the East Wing with a building congruent with the size and style of the current structures, and the president can build a ballroom somewhere else. If it's about the underground bunker, that can still be accommodated by a structure more in keeping with the size, style and image we want to project to the world.
Thanks for letting me offer my opinion.

Whoever is living in the White House is there with permission of the people of this country, and any changes should be approved by the people of this country. The destruction of the East Wing, without permits and permission, is an affront on the people of this country. It should be rebuilt to return it to its original state before any deconstruction happened.

Name: Coleen Neary
Date: February 23, 2026 6:41:47 pm

The destruction of the East Wing without a viable plan and destroying the building is without doubt an impulsive and horrible plan. No one should be able to make changes to the White House without having the paperwork in order.

A WH ballroom is not needed and is nothing more than a vanity project.

Please reject the ballroom.

If the bunker below is what needs addressing then this should be fixed. A gilded ballroom is not needed by any President!

There is something profoundly rotten about proposing a 90,000-square-foot ballroom at the White House while the country is grappling with crises that demand seriousness, restraint, and integrity. After the apparent illegal demolition of the East Wing, this administration now wants the public to accept a monument to ego funded by billionaires operating “without public cost” and, conveniently, without meaningful public oversight. That alone should set off every alarm bell in a functioning democracy.

This isn’t about architecture. It’s about character.

Donald Trump has spent years under a cloud of legitimate public concern about ethics, transparency, and judgment, including his documented association with Jeffrey Epstein. Americans were told there was nothing to see. We were told to move on. We were promised disclosure and clarity. Yet the full accounting the public deserves has never materialized in a way that extinguishes doubt. In that context, the spectacle of constructing a palace-scale ballroom feels less like celebration and more like defiance: A signal that accountability is optional and optics don't matter.

And then there's the money. When oligarchs step forward to finance structural changes to the executive residence of the United States, it is not a charming civic gesture. It is influence seeking a return. It is power consolidating itself. Nobody spends tens or hundreds of millions of dollars for nothing. Access is purchased. Loyalty is rewarded. Favors are remembered. That is how systems decay.

Americans are not angry because they dislike chandeliers. We are angry because this reeks of entitlement. Because it feels like a ruling clique reshaping public property to reflect private vanity. Because it sends the message that while ordinary citizens are asked for sacrifice and patience, those at the top are busy expanding their banquet halls.

This proposal embodies a governing philosophy that equates grandeur with legitimacy. Bigger room, louder applause, brighter lights. But real leadership doesn't require a 90,000-square-foot echo chamber. It requires humility, transparency, and fidelity to the public trust, all of which feel in dangerously short supply here.

The White House is not a stage set. It is not a reward for loyalty. It is not an oligarch-sponsored monument to self-importance. It is the People's House.

And the people are fed up with watching it be treated like a gaudy development project for the powerful.

Reject this proposal. What this country needs is accountability and restraint, not another gilded room built to celebrate those who already have far too much.

As an urban planner with a background in historic preservation, I would like to register my comments about the East Wing Modernization Project. While tearing down the East Wing without public review was both shocking and tragic, now that your Commission is at this juncture, I implore you to pause and direct the design team to return with options that reduce the size and massing of this modernization project. The proposal as currently designed, overwhelms the White House and should be scaled back in size.

Furthermore, the massing, treatment of the fenestration, portico design and details of the facades should be distinctive from the White House and west wing in order to avoid a "false sense of history". From the current plans it seems that the facades are trying to the mimic a neo-classical design. I urge you to carefully consider the placement of the new addition in relationship to the White House so that it is clearly subordinate to the White House.

Finally, please consider the treatment of the landscape surrounding this addition to ensure that important features of the site are retained and preserved.

A project as significant as this should be carefully considered. I hope you will be able to say that you were on the right side of history when this project comes before you in March, 2026,

---

I oppose spending $300M and probably more on this project. It was done with proper permits or design review. No one is above the law. Had a citizen done this to a personal property they owned it would be torn down until proper laws were followed.

Name: Lynda DeWitt
Date: February 23, 2026 6:57:06 pm

As a 50-year resident of the DMV and a lifelong American, I strongly oppose the current plans for the East Wing of the White House. Its grotesque scale — nearly twice the size of the Executive Residence — will make 1600 Pennsylvania Avenue a complete eyesore.

I urge you to preserve this historic complex -- especially with our nation's 250th anniversary coming up. Like many others, I revere this iconic place and would not want it ruined in this way. Allow historic preservationists to make primary decisions about siting and design. Please ensure that this project will result in a timeless and beloved addition to the People's House.

Thank you.

Dear Members of the NCPC,

I write regarding the proposed 'East Wing Modernization' project. I am frustrated for many reasons and ask that you please stop work on the currently proposed White House Ballroom.

I believe deeply in the power of architecture (including classical architecture!). I also believe deeply in historic preservation, scale, and context. A structure nearly twice as the existing White House building is not simply an 'addition'; it is a major revision to the entire site.

I am appalled that the previous building was razed with such little care. I am appalled that the current project is being rushed with such disregard for process. An architect is being asked to deliver a plan and start on a building in less time than it might take to remodel a kitchen.

The proposed Ballroom is far too large and will mar the White House permanently—or until the Ballroom is torn down, a real possibility given the partisan swings the country is currently plagued with.

Please slow down, and listen to the public. Voters across the political spectrum are overwhelmingly opposed to the proposed Ballroom. We are better than this as a nation. We deserve meaningful architecture at the 'People's House', not a convention center.

This could be an opportunity for an effective, thoughtful addition. What's been proposed is not that.

The horrifying destruction of the East Wing sent a very clear message to all of us that this administration has no respect or regard for the laws that apply to National Historic buildings or the history of our country. We do not need a gold ballroom hulking over the White House. The design for this projects shows no respect to the original building. The East wing needs to be rebuilt as a replica of the building that was destroyed with , of course , modern wiring/technology, plumbing etc in the interior. Any ballroom space needs to go through all of the proper project reviews, committees and permitting procedures required by law. If additional venues for events is necessary it should be behind the front facade of the White House and east and west wings and be in proportion to the rest of the structures and carefully reviewed and approved by historians, architects, preservationists and other experts who need to give approval for a project of this size.

Name: Jack Foy
Date: February 23, 2026 7:17:54 pm

Dear NCPC,

I am writing to voice my concerns over the proposed East Wing Modernization Project.

The White House belongs to the American people, not to any single President or administration. Its profile is iconic of the American republic and its democratic governance. It is, by design, a modest building: an executive mansion, not a palace. While the structure has been modernized and extended over its history to fit the needs of various administrations, those improvements have been made with an eye towards preserving the historic character and scope of the building and grounds.

In contrast to this thoughtful historic evolution, the East Wing Ballroom Project as currently envisioned is massively out of proportion to the existing structure. It would be almost twice the size of the existing mansion and would destroy much of the symmetry and elegance for which the White House is famous. It is, in short, gaudy and ugly, unworthy of a place in Lafayette's Washington: grandiose rather than grand, closer in spirit to fascist grotesques like the Victor Emmanuel II monument in Rome.

The need for additional function space at the White House is perfectly understandable, and the building can and should continue to change to serve the requirements of the people's elected government, but the current design proposal is fundamentally unsuitable. I ask that you do not permit it to proceed.

Cordially,
Jack Foy

Date: February 23, 2026 7:22:32 pm

Beyond the grotesque overbuilding of this structure, the private funding surfaces questions of ownership. Are Trump and his corporate benefactors the true owners here? And you must conduct a serious investigation of how the old east wing was leveled without a public process before you move forward.
Also please no Arc D'Trump for 250th birthday.

Name: Suzanne Jones
Date: February 23, 2026 7:23:12 pm

Please restore the White House East Wing and surrounds, i.e., Rose Garden to the state prior to the time that the Trump Administration decided to destroy and replace them. Just the other day, I was watching the movie, The American President, and the East Wing, the Promenade, and the Rose Garden were all featured/replicated. It was SPLENDID to see, Americana at its most simple, graceful and RECOGNIZABLE elegance. There was none of the cheap, gawdy gold embellishments, none of the paved-over gardens, and all architecture was proportional and preserved. AMERICA, its historic White House, does not need to be destroyed by an outsized physical paean to the vanity of one man, Donald J. Trump.

Name: Rachel Mic8ja
Date: February 23, 2026 7:23:13 pm

The destruction of the East Wing of the People's House is a criminal disgrace. It needs to be rebuilt as it was before, at the expense of the person who illegally tore it down. If the government can attach the wages of workers for unpaid taxes, child support, or student loans...it can extract the money from the perpetrators to rebuild the visitors entrance, collonade, and first lady's offices.

Name: Kyle Copas
Date: February 23, 2026 7:23:13 pm

Dear NCPC members:

I wish to express my concern that the proposed "East Wing Modernization project" (aka New White House Ballroom) is

disproportionately out-of-scale with the existing structure.

As currently proposed, the East Wing Ballroom Project comprises 90,000 square feet, nearly twice the size of the existing White House building's 55,000 square feet. No adjustments to its design will alter the fact that the so-called addition is larger than the original. Making such a large mass the exact same height as the existing White House further dwarfs it.

This fact is significant, given that the Secretary of the Interior's Standards for Rehabilitation require that additions to historic structures be:
• subordinate in scale and size
• distinct from the historic building (not replicating it), and
• compatible with its materials, features, and massing

While programming needs undoubtedly justify the need for a space at the White House that can accommodate more than the existing 200-person room, this particular design is unnecessary and unsuitable, because it takes away from the original White House, dwarfs it in scale and relates it to a secondary role.

I urge you to decline approval for this project as proposed.

Name: Robert Linett
Date: February 23, 2026 7:25:03 pm

The White House is owned by "We the People" not any single president, who are occupants of the House for defined, limited terms.

The deconstruction of the East Wing occurred prior to any review by representatives of said owners of any plans for remodeling, revision, or redevelopment. Now, the representatives of the people have been presented with a fait accompli.

Consequently, an extensive, detailed, comprehensive review is warranted. Should the occupant seek a more speedy, accelerated review, the plan should mimic the pre-existing East Wing as close as possible allowing for modifications related to safety, energy efficiency, and other minor adjustments that do not impact the Wing's former aesthetic.

Any significant departures in the style, height, breadth, and function of the revisions will require a more detailed review involving considerably more time and public comment. Additionally, no significant departure from an approved plan should be allowed.

Moreover, as the White House is owned by We the People, than any expenditures in excess of those for these minor adjustments should be borne by the occupant not by the American taxpayer, particularly in that the occupant destroyed the building without first discussing his plans with the public's representatives.

Nor should the funding be provided by and private person or organization with business before the US Government, such as a government contractor or business with regulatory approvals before the Government. Any expenses other than those for minor adjustments should be paid by the occupant in just compensation for the East Wing's destruction.

Thank you for the opportunity to comment.

Name: Karma Anderson

This is an abomination and should not be allowed to proceed. This is the people's house and any significant changes should be approved by the American people.

Name: Richard Warnick
Date: February 23, 2026 7:28:42 pm

The White House is a National Historic Landmark and National Park, owned by the American people and stewarded by the National Park Service. It is not the personal property of the current occupant. The sudden demolition of the century-old East Wing without any public process was a violation of the law.

Current (and ever-changing) plans for a $400 million ballroom and a secret underground bunker threaten to overwhelm the White House itself, with a building much too big for the site. The absurdity of this project is akin to a "Saturday Night Live" (SNL) comedy sketch. Oh wait, it actually WAS an SNL sketch.

Let's build a new East Wing at the proper scale, please.

Name: Linda Trader
Date: February 23, 2026 7:30:21 pm

I'm an american who is upset that the east wing was bulldozed without any public input. There was no opportunity as a country to discuss and debate what should happen to the east wing. I am against the building of an enormous ballroom funded by private donations. I don't believe the inauguration needs to be held indoors and am unhappy about overturning our traditions.

We value our history and it's wrong that our history has been trampled on. We have three branches of government and there should be oversight and conversation about what the future holds for the former east wing. Construction of this project should be funded by the government in a non partisan fashion, not by private donors trying to curry favor with the president.

This is a shameful moment in the history of the white house. Congressional oversight and public input about what happens next is the bare minimum. Please do not allow this to proceed . Please enforce some checks and balances and reach a reasonable compromise that includes public input and honors tradition. Please do not build a privately funded monstrosity

---

"Modernization" my Aunt Fanny. I do NOT want MY tax money used to construct what will no doubt be a gilded monstrosity when it is finished. I am furious that no one seems able to say "no" to 47 although he is clearly demented. I am furious that he was allowed to destroy the East Wing in the first place. Where was the commission then? There are many Americans who are cold and hungry. Use this money to comfort them.

Name: Joseph Felker
Date: February 23, 2026 7:31:44 pm

Dear NCPC,

I am writing to express my grave concern about the proposed changes to the East Wing. Despite the administration stating that no structural changes would be made, they proceeded to tear down the entire East Wing. Since they cannot be trusted to speak truthfully and follow simple rules, they certainly shouldn’t be trusted with the “renovation.” Furthermore, the proposed “renovation” would dwarf the size of the existing People’s House. I urge you to reject the renovations in their entirety; We the People, who the People’s House is named after, do not want our tax dollars to go to a pointless vanity project.

Sincerely,
Joseph Felker

Name: Susan Flowers
Date: February 23, 2026 7:32:13 pm

As a U.S. citizen, I object in the strongest possible terms to Donald Trump’s planned ballroom project. The destruction of the East Wing is an outrage; the construction of a ballroom which would dwarf the White House itself would just add to the ongoing desecration of this historic space.

Despite what he believes, the White House and its grounds, like all federal buildings, belong to the American people, not to Donald Trump.

In addition, any changes to this house should be paid for out of taxpayer funds, not private donations. This entire project should be dropped immediately.

Name: Wendy Givens
Date: February 23, 2026 7:32:26 pm

The demolition of the east wing is not something the American people want. It is part of our country's history. Using our tax dollars for the demolition and building a ballroom without any say from the citizens of this country is a disgrace.

Name: Mary Shimp
Date: February 23, 2026 7:33:31 pm

While this project may not have gone through the normal process, there was nothing about the East Wing that was historical or important. It held offices built by the FDR Administration.

It is embarrassing to have foreign dignitaries come to the US to attend a State Dinner...in a tent. And do we even need to debate how embarrassing it is that they have to use port-o-potties? This is the United States of America. We should have a ballroom that represents both our power and beauty and that imbues visitors with the grandness that is America.

Name: Mitch Powell
Date: February 23, 2026 7:34:42 pm

Dear Members of the NCPC,

I am writing to register my objection to the proposed "East Wing Modernization Project" (also referred to as the New White House Ballroom). As designed, the project is dramatically out of proportion with the existing White House structure.

The current proposal calls for a 90,000-square-foot addition—nearly twice the size of the White House itself, which encompasses approximately 55,000 square feet. Regardless of aesthetic refinements, the fundamental issue remains: the addition would exceed the original building in size. Making a structure of that magnitude the same height as the White House only intensifies the imbalance, visually overwhelming the historic building.

This concern is not merely aesthetic. The Secretary of the Interior's Standards for Rehabilitation clearly state that additions to historic properties must remain subordinate in scale and massing, be distinguishable from the original structure rather than mimic it, and remain compatible with its defining materials and architectural character. The proposed design appears inconsistent with these principles.

While it is understandable that the White House may require a larger event space beyond the existing 200-person capacity, that need does not justify a design that diminishes the prominence of the historic building. In its current form, the proposal shifts visual and symbolic focus away from the original White House and reduces it to a secondary presence.

For these reasons, I respectfully urge you not to approve the project as presently proposed.

Thank you for your consideration.

Name: ignatius Lynch
Date: February 23, 2026 7:37:39 pm

Dear United States Government,

I hope that you remake the origininal East Wing. Tearing down a historic house of the people of the United States with no plan is akin to just plain hair brained. At best it should be rebuilt.

IL

Name: Greg Shackleton
Date: February 23, 2026 7:41:37 pm

Dear NCPC,

I am writing to oppose the proposed “East Wing Modernization Project” . It's nearly twice the size of the White House making it clearly out of scale. Making it the same height diminishes and visually overwhelms the White House.

The Secretary of the Interior’s Standards for Rehabilitation require additions to be subordinate in size and scale, distinct from the historic structure, and compatible in massing and materials. As proposed, this project does not meet those standards.

While there is a legitimate need for a larger gathering space, this design is not appropriate. I respectfully urge you not to approve the project as currently proposed.

Thank you for your consideration.

Name: Anne Williams
Date: February 23, 2026 7:41:53 pm

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I would like to see this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.
Thank you

I get that having tents set up for every event at the White House is not ideal, and so expanding the East Wing is necessary, and I'm fine with that. But please make sure to not build it too big, or have it jut out too far to the South. For so many of us, the iconic view from E St NW across the South Lawn is sacrosanct; it gives us an incredibly patriotic feeling just standing there, to think "this belongs to all of us, we are all part of this great endeavor." Having lived on the East Coast and the West, I always make it point to take in that particular view of the White House whenever I have a chance to visit. Having a giant box--however beautiful it might be--to the right (East) of the main building would interfere with that. So please, don't make it too big, keep the visual focus of someone standing there directed at the main building so that generations to come can have the same feeling so many of us do when we're there.

I am against this. The White House is turning into a gaudy mess. Put it back to the way it was.

Name: Ellen Hansen
Date: February 23, 2026 7:44:24 pm

I am opposed to the East Wing Modernization project/Ballroom. First, because the size and scope of the proposed project is beyond the needs of the White House for gatherings. Secondly, the proposal has not taken the advice of any historical agency. And thirdly, the project smacks of a vanity project of the current president who is not adhering to his constitutional mandate to represent the people of the United States, but rather chooses to represent his own personal preferences.

Dear NCPC,

I write to express my concern that the proposed "East Wing Modernization project" (aka New White House Ballroom) is violently out-of-scale with the existing structure.

As currently proposed, the East Wing Ballroom Project comprises 90,000 square feet, almost double the 55,000 square feet of the existing White House building. No amount of tweaking its design (except making it smaller) will change the fact that the "addition" is larger than the original. In addition, by making such a large mass the exact same height as the existing White House further dwarfs it.

This is significant because the Secretary of the Interior's Standards for Rehabilitation require that additions to historic structures be subordinate in scale and size, distinct from the historic building (not replicating it), and compatible with its materials, features, and massing.

There is no doubt that there is a need at the White House for a gathering space that can accommodate more than the existing 200-person room. However, there is doubt that this particular design is suitable – It takes away from the original White House, dwarfs it in scale and relates it to a secondary role.

I ask that you do not allow this project to go ahead as proposed.

Thanking you for your time,

Marcia Miller
U.S. Citizen

I am very upset that President Trump took unapproved and likely illegal action to destroy a portion of the White House. The White House does not belong to him and he had no right to demolish it. It is irreplaceable and he has caused damage to all Americans now and every generation in the future. Now he plans to build a ballroom using "donated funds". We, the people, have no need for a ballroom. I am opposed to the building of this structure. It will forever change the historical value of the White House grounds and scar the legacy of the area.

Name: Shaenon Garrity
Date: February 23, 2026 7:54:07 pm

I'm horrified by the sloppy, disrespectful, unpatriotic demolition of the White House's East Wing by the current administration. I have no confidence in the administration's plans to "modernize" it. The proposed blueprint is childish. If, heaven forbid, someone managed to actually build it, it would be grotesquely out of proportion to the rest of the building, ruining the Neoclassical symmetry and elegance for which the White House is known and loved. You insult Americans' intelligence and waste our time by forcing us to indulge this nonsense for a second.

Repair the portion of the East Wing that you ripped down, paying full respect to the original building and the country it represents. And then get your hands off our house.

Thank you!

Shaenon K. Garrity

Dear NCPC,

I am writing to express my concern that the proposed "East Wing Modernization Project" at the White House is violently out of scale with the existing structure.

As currently proposed, the new East Wing Ballroom covers 90,000 square feet, almost double the 55.000 square feet of the existing White House. This is significant because the Secretary of the Interior's Standards for Rehabilitation require that additions to historic structures be subordinate in scale and size, distinct from the historic building, and compatible with its materials, features, and massing.

It does not seem possible that the proposed structure could be made compatible with these requirements.

As a homeowner of one of the historic neighborhoods of DC, and a native of one of the oldest cities in the US, I ask that you protect the historic beauty of our national capitol by blocking this project.

thank you,
K. Willis, Ph. D.

One of the fascinations of the National Mall is its insistence on proportion and understatement. The Washington Monument, for example, isn't an avalanche of gold filigree and carved foliage. Instead, its message and majesty is rooted in its astounding simplicity.

Proportion and understatement, unfortunately, are concepts foreign to our President, a man apparently capable of neither. He wants to build a colossal monument to himself at taxpayer expense — a ballroom! — with as much gold leaf bric-a-brac and polished marble as he can wrangle out of the national budget. An echoing cavern with impossibly bad acoustics.

Please do not approve this tribute to idiocracy. But if you must, engrave into the marble over the entrances with lettering lined in some tacky gold leaf: LET THEM EAT CAKE.

If not that, then: MR PRESIDENT, TEAR DOWN THIS BALLROOM.

Name: Keith Kennedy
Date: February 23, 2026 8:00:37 pm

No please. No huge gaudy, gold crusted abomination. No Mayfair trinkets. No record crowd size. Just no.

Name: Zack Davisson

Dear NCPC,

I write to express my concern on the proposed "East Wing Modernization project" (aka New White House Ballroom). As presented, the proposed building is massively out-of-scale with the existing structure and if built along this design will overshadow the original historic building. The Secretary of the Interior’s Standards for Rehabilitation require that additions to historic structures be subordinate in scale and size, distinct from the historic building, and compatible with its materials, features, and massing. This proposed design in no way meets those requirements.

The White House has changed through our country's history, but always with a respect to that history and to the idea that the White House belongs to the American people. It is not a palace and does not belong to one president or administration. This new building makes a mockery of that foundational idea.

When thoughtfully and deliberately done, change can be good. This change is not thoughtful, does not respect the history of the White House or the American people, and will create an ugly mess of a building instead of the graceful structure that once stood there.

I ask that you do not allow this project to go ahead as proposed.

Thank you,

Sarah Ramsey

The damage already done at the White House is inexcusable. I believe the East Wing should be rebuilt in the same footprint, as close to the original as possible. There is no need for a ballroom. This is the people’s house and the public should have been consulted before this ever began. Building a garish structure, outflanking the original beautiful, historic and iconic symbol of our Democracy is a travesty. All to stroke one man’s ego. Please stop this disgusting project.

Name: Nicholas Martin
Date: February 23, 2026 8:09:16 pm

This is contrary to everything our nation stands for. This new addition is a monument for a wannabe king. There are steps and protocols that we follow in this nation, especially in respect to The People's House. The current occupant neither understands nor respects what this house stands for.

Do not accept their plans. Reject them. They are antithetical to all that we, as a nation, should stand for. Stand strong. Stand up for We, the People.

Name: robert atkinson
Date: February 23, 2026 8:09:47 pm

To even call this atrocity a modernization project only adds to the illegality of trump tearing the east wing down. It was not his house to destroy, it belongs to the American people. No hearings, no permits no approval from the Park Service or other agencies with jurisdiction over this treasured national monument. He has destroyed our house for the sake of building himself a vanity enclosure that will no doubt be full of his home depot gold painted decor. A blight compared to the historical treasure that was the East Wing of the White House.

Name: Katherine Wertz
Date: February 23, 2026 8:10:23 pm

I'm completely horrified by the wanton destruction of the east Wing, undertaken with no respect for the White House's history, structural integrity, or the will of congress or the people of the United States. The White House belongs to the people of the United States, and is not subject to the whims of any one president. Any significant changes to the building must be approved by congress and thereby the people of the United States. It is a historical monument as well as a residence, and to take a wrecking ball to it without any consideration for the historic structure was crass, unethical, and a slap in the face to every American citizen.

The proposed ballroom dwarfs the rest of the White House, and is an unnecessary addition to the building. The plans for the ballroom itself are slapdash, not clearly thought out, and do not take into any consideration the needs of the historic building itself. This is a waste of our time, an insult to our intelligence, and an gross insult to our country and our history.

Repair what you have broken, with utmost respect to the building itself, and then get your filthy hands off of our people's house.

With all due respect.

Katherine Wertz

The White House is known as the "Peoples House" for a reason. It belongs not to the President or to Congress but to the

American people. The American people, guided by the National Trust for Historic Preservation and National Capital Planning Commission should be making decisions on the ballroom, not the cronies that Trump has lined up to provide a stamp of approval for whatever he wants.

Name: Delanie Tucker
Date: February 23, 2026 8:16:01 pm

I am writing to express my level of utter disgust at the so-called renovation and ballroom. Initially we were told it wouldn't touch the East wing--only to see that once again the Mad Toddler-King lies more easily than breathing. This renovation was neither asked for nor actually approved by anyone beyond a handful of puppets installed as yes-men. It shows an absolute contempt for history, for respect to the White House, and to the people of our great nation. While updates are certainly in order, at this juncture the plans show a monstrosity dwarfing the entire White House for zero reason other than as a glittering edifice to Trump's ego. I have yet to see any reports as to who catalogued the antiquities and artifacts previously contained in the East Wing, nor yet where they have been stored. Did they actually remove anything or just commence tearing down the structure with the same enthusiasm they show for tearing down the Constitution?

The American people did not ask for and do not want this brobdingnagian ballroom destroying what is The People's House. The very simplicity contained therein has always been a solid reminder that opulence is for kings but we the people as a republic have better uses and needs for our money. It's bad enough he's tchotchked up the Oval Office like a Temu Faberge egg, but at least those can be chiseled off and repainted. His befoulment of the White House with this unnecessary paean unto himself and his ego should not happen. It's an embarrassment and affront to everything America should stand for.

Name: M Burton
Date: February 23, 2026 8:18:30 pm

I would like to register my objection to the East Wing project/White House Ballroom), if for no other reason that it is ridiculously out-of-scale with the White House.

As currently proposed, it is almost double the square footage of the existing White House building. By making such a large building the same or bigger height as the existing White House, it dwarfs it. If there is a need at the White House for a gathering space that can accommodate more than the existing room does, a more balanced addition could be designed.

I ask that you do not allow this project to go ahead as proposed.

Name: Alberta Chirico
Date: February 23, 2026 8:19:30 pm

I strongly oppose the spending of over $300 million on this project. It was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. This project should be canceled, and the East Wing rebuilt and restored to its former design. The White House does not belong to any president or administration. It belongs to the citizens of the United States. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans. This money should be spent on improving the lives of the citizens of the United States.

Name: Deborah Chasse
Date: February 23, 2026 8:21:27 pm

I am writing to express my profound concern about the demolition of the East Wing of the people’s house, and the plans for construction of a ballroom in its place.

Words can’t express the horror with which I watched the East Wing demolition. In less than a week, an important piece of American history was reduced to rubble. The current administration showed no regard for the history of the building, the treasures contained within its walls, or the fact that they are temporary tenants of an historic landmark; a landmark that represents centuries of diplomacy and democracy.

The plans for the proposed ballroom illustrate a building that is too large, too gaudy, and represents the antithesis of culture and decorum. There is a regal aesthetic to the public buildings in our nation's capital that this administration neither respects nor understands. It would be a further blow to national pride to erect a grotesque monstrosity of a building that dwarfs the White House.

I implore you to consider public input on this project. The vast majority of Americans oppose this project and we should not be ignored. We are the landlords of The White House, and as with any rental the tenant is not allowed to make changes without careful consideration and prior approval. Please put an end to the indiscriminate changes to this national treasure and prevent the current ballroom plan from going forward.

Thank you for your time and consideration.

Dear National Capital Planning Commission,

I am writing as a US citizen deeply concerned about the current proposal by the Office of the Executive Residence for the construction of a 90,000 square-foot ballroom addition to the White House. The Secretary of the Interior's Standards for Rehabilitation offer clear guidance for construction projects such as this one that affect historic properties. The Standards say that additions should 1) not destroy the historic fabric of the property and 2) be "compatible with the historic materials, features, size, scale and proportion, and massing" of the existing structure.

Regarding point 1, the White House is a National Historic Landmark and a National Park. It has been home to our Presidents since 1800. In a competition for the design of the home of this young nation's first president, Irish architect James Hoban's submission won. His design demonstrates Georgian and neoclassical architectural principles, with its emphasis on balance and symmetry. This new construction proposed by the Office of the Executive Residence would grossly disrupt that carefully balanced classical design and disregard the 200-plus-year history of the birth of this property, its stewardship by the National Park Service, and its ownership by the American people.

Regarding point 2, the proposed 90,000-square-foot ballroom would dwarf the Executive Residence, which is only 55,000 square feet. A 90,000-square-foot appendage clearly would not be compatible in scale and massing with a 55,000-square-foot existing structure.

Any new addition to the White House complex should have a smaller footprint and be lower than the Executive Residence to retain the balanced classical design of the complex with its two smaller, lower, and approximately symmetrical East and West Wings. If this does not afford enough space for the functions that are envisioned to take place in the addition, then perhaps some of the addition can be built underground, as the National Park Service and the National Trust for Historic Preservation have recommended.

Thank you for your consideration.

Sincerely,
Alice Yang

Have you no shame?

NO to East wing modernization project.Tearing it down was illegal. Restoring it is the only option.

Name: Chris Rumsey
Date: February 23, 2026 8:36:46 pm

I think that the East Wing should be restored to what was there before it was destroyed without the required federal reviews and approvals, violating historic preservation laws.

Name: Jody Timmins
Date: February 23, 2026 8:37:08 pm

Dear NCPC,

I write to express my concern that the proposed "East Wing Modernization project" — the new White House Ballroom — is completely out-of-scale with the existing structure.

The architects are proposing a 90K square foot building on the east side of the White House; it will dwarf the 55K square foot White House itself, and ruin the symmetry of the site.

The Secretary of the Interior's Standards for Rehabilitation require that additions to historic structures be subordinate in scale and size, distinct from the historic building (not replicating it), and compatible with its materials, features, and massing. This new building meets none of those standards, and has followed none of the established procedures for approval up to now.

I ask that you do not allow this project to go ahead as proposed.

Thank you for your consideration.

Sincerely,
Jody Timmins
Madison, WI

Hello,
I am absolutely against the horrible ball room trying to be built. I would like the east wing restored to its design before it was illegally torn down. Everyone involved in the destruction of the east wing without prior consent should be held accountable.
Laura Obregon

Name: Mary Chalmers
Date: February 23, 2026 8:41:41 pm

The White House only has a foot print of about 14,000 square feet. Putting a building with a 90,000 square foot footprint next to it will overwhelm the historic building. Replacing the illegally demolished East Wing should balance the Residence with the current West Wing in scale.

Name: Marcia Cuccaro
Date: February 23, 2026 8:44:41 pm

The nation’s White House is a national historical landmark in which duly elected Presidents are allowed to live in. Construction began in 1792 and was completed in 1800. Since then minor changes to the structure (compared with tearing down an entire wing secretly in the dead of the night) have been done. Always in keeping with the original integrity of the building.

It was my understanding that changes were pre approved by a historical committee.
The current proposed addition was not evaluated prior to the demolition of the East Wing. The proposed addition is totally out of course and scope of the original building. It will diminish the original building due to its proposed size which seems to be getting bigger and bigger. There is no current nor anticipated need for this building. It is being thrust, unwanted, on the American public. It is a huge “Golden” vanity project.

Any future construction on the White House should be restoration of the East Wing. Any future construction should be evaluated and approved based on complimenting the original building and not overshadowing it.

The proposed “Trump Ballroom” should be denied. And in reality, how many Presidents in 2025 or in the future, actually have use of a 4-6,000 sq ft Ballroom. I doubt the ballroom at the Versailles was that big and that was a time when “balls” were held. In today’s time - not so much. And if it is to be used as a convention center, distasteful as it sounds for the White House, I’m more than sure, the D.C. has ample convention centers available for the amount of use this proposed ballroom would receive.

Thank you for considering my though. This matter.

Name: Candy Shirey
Date: February 23, 2026 8:47:14 pm

Lack of Legal Authorization:
The National Trust for Historic Preservation states the project did not receive necessary Congressional approval and failed to undergo proper environmental and historic reviews.
Destruction of Historic Structure:
The project involved demolishing the existing East Wing, is "garish disfiguring" of the White House and a "bulldozing of American heritage".
Immense Scale and Impact:
The proposed 90,000-square-foot, 999-person capacity structure is considered too large, it would disrupt the architectural balance of the historic White House complex.
Financial and Timing Concerns:
The project, with costs reaching $400 million funded by private donations, are too "lavish" nature during times of broader economic concern.
There is no viable need -
Existing, nearby facilities like the Andrew Mellon Auditorium already exist for large-scale events.

Name: beth w scully
Date: February 23, 2026 8:48:19 pm

Enough is enough. This is the people’s house and we should have our comments and concerns considered in this review process. This administration only operates in darkness and unlawfulness.This addition to the White House should be reviewed by qualified architects with an interest in historical preservation. Not by the president’s “yes men”.

Name: Andrew Schell
Date: February 23, 2026 8:56:02 pm

In regards to the East Wing Modernization project (aka New White House Ballroom) is grossly out-of-scale with the existing structure.

As currently proposed, the East Wing Ballroom Project is almost double the 55,000 square feet of the existing White House building. No amount of tweaking its design (except making it smaller) will change the fact that the "addition" is larger than the original and by making such a large mass the exact same height as the existing White House further dwarfs it.

This is significant because as I understand, the Secretary of the Interior’s Standards for Rehabilitation require that additions to historic structures be subordinate in scale and size, distinct from the historic building (not replicating it), and compatible with its materials, features, and massing.

There is probably a need at the White House for a gathering space that can accommodate more than the existing 200-person room. However, there is doubt that this particular design is suitable – It takes away from the original White House, dwarfs it in scale and relates it to a secondary role.

I ask that you do not allow this project to go ahead as proposed.

Thanking you for your time.

Why has Trump been allowed to destroy a piece of our national heritage and history, to build a monstrosity that will dwarf the White House and ruin our legacy? I'm furious and upset. Stop letting this egomaniac destroy a beautiful piece of history and architecture because he is a spoiled toddler that wants his name on everything. This White House belongs to we, the people.

Name: Laurene Poole
Date: February 23, 2026 9:00:04 pm

I feel very strongly that any modernization project of any official Washington DC national government buildings, as well as, National Historic Landmarks including the White House, Parks, museums and monuments should not be undertaken until approved review by the NCPC and the Commission of Fine Arts, comply with the National Environmental Policy Act, and receive congressional approval.
I feel that the currently proposed enhanced ballroom will overwhelm and denigrate the current White House.

Name: Priscilla Jane Frank
Date: February 23, 2026 9:03:04 pm

STOP!! Have the courage to stand up and say NO. Do not proceed with the building of the ballroom without going through the proper channels. Trump already tore down a historic landmark in a fit of disinhibition. Out came the bull-dozers, down came the walls without any signs of preparation. Where is the art? Where are the historic artifacts? Who kept the area safe from lead or asbestos contamination. This was simply a slap across the face to Americans. Or shall I say another slap across the face. Every morning we face yet another moral injury.

The White House is a National Historic Landmark and National Park, owned by the American people and stewarded by the National Park Service. It has been home to our presidents since 1800 and is perhaps the most significant historic site in the United States. Before nationally significant places are permanently altered, the public deserves an opportunity to be heard and to help shape decisions that affect our shared national heritage.

Major construction projects in Washington, D.C. must be reviewed by the NCPC and the CFA, comply with the National Environmental Policy Act (NEPA), and receive congressional approval. These safeguards exist to ensure transparency, accountability, and meaningful public input.

Public input should occur before construction makes the outcome irreversible. As National Trust President and CEO Carol Quillen has stated:
“The American people deserve an opportunity to provide comment and shape the project.”

Signed,
Priscilla Jane Frank

This process is lawless, capricious, and filled with one man’s apparently endless appetite for monuments to himself. See also, the planned Arc d’ Trump, another nightmare.
I oppose the demolition and reconstruction of this hideous folly. The White House belongs to Americans. Trump’s vandalism must not stand.

Name: P J Evans
Date: February 23, 2026 9:03:38 pm

I'm writing because the proper procedures have NOT been followed in "modernizing" the East Wing. It was demolished without planning or permits, and asbestos mitigation doesn't appear to have been done. There don't seem to be plans for

the proposed building, either: we've been shown several architectural renderings, each of which shows a different design and none approved or even in the permitting process, and the only thing *I'm* sure of is that it's far too large for the location. (I also don't think we need a ballroom the size of a convention center main hall. There are plenty of halls big enough for a ball, and previous presidents have used them.)

Name: Breanne Robertson
Date: February 23, 2026 9:08:39 pm

Dear NCPC,

I write to express my concern that the proposed "East Wing Modernization project" (aka New White House Ballroom) is violently out-of-scale with the existing structure.

As currently proposed, the East Wing Ballroom Project comprises 90,000 square feet, almost double the 55,000 square feet of the existing White House building. No amount of tweaking its design (except making it smaller) will change the fact that the "addition" is larger than the original. In addition, by making such a large mass the exact same height as the existing White House further dwarfs it.

This is significant because the Secretary of the Interior's Standards for Rehabilitation require that additions to historic structures be subordinate in scale and size, distinct from the historic building (not replicating it), and compatible with its materials, features, and massing.

There is no doubt that there is a need at the White House for a gathering space that can accommodate more than the existing 200-person room. However, there is doubt that this particular design is suitable – It takes away from the original White House, dwarfs it in scale and relates it to a secondary role.

I ask that you do not allow this project to go ahead as proposed.

Thanking you for your time,
Breanne Robertson

Dear NCPC - I am writing to express my concern and dismay regarding the 'East Wing Modernization Project' (the new White House Ballroom). The project as proposed, at 90,000 sq ft, is approaching twice the size of the existing White House at 55,000 sq ft. No amount of redesign tweaking will keep it from dwarfing the White House proper and draw the focus away from the historic mansion, making the historical and symbolic Home of the President a secondary feature of the site. As I understand it, this is contrary to the standards established by the Secretary of the Interior for rehabilitation of historic sites, which state that additions must be subordinate in scale and size to the existing building.

If a space to accommodate groups larger than the existing 200-person room is truly needed, surely a design can be found that will not obscure the building that has become a symbol of our country all over the world. As it stands, the proposed design is perceived by many as a testament to the current President's ego more than a needed improvement. Similarly, the fact that funding for the ballroom project has been raised by corporate and billionaire donors to Mr. Trump himself, rather than going through appropriate channels, makes the entire project seem steeped in corruption. The fact that the existing East Wing was demolished with no warning and little care for the possible destruction of historical artifacts or safeguarding public health (there were no visible attempts to contain asbestos or lead paint, for instance) further makes the ballroom look like a vanity project pushed forward haphazardly to occupy a deteriorating and self-aggrandizing man.

The National Mall area deserves to be treated with respect and keen reverence for the history it represents, not treated like a personal sandbox for one person's ego. The ballroom as proposed will take focus away from the White House and the solemn responsibility that mansion represents by making it the poor little sidekick to a much bigger addition dedicated to extravagance. It should not go forward as proposed.

Thank you for your time,
Kim Pinkham, citizen

Historic preservation is a vital expression of the American story. Protecting our history connects communities, bridges generations, and strengthens public understanding. The White House is perhaps the most significant historic site in the United States. Before our historic places are permanently altered or lost, the American public should have an opportunity both to be heard, and to shape the decisions that affect our shared national heritage.

For ANY president who is currently a resident of this historic building to start demolishing a part of it without seeking approval/authority from the people (i.e. Congress) is outrageous!! This iconic building in the middle of our nation's capital should not be "modernized" or changed in any way until a lengthy approval process has been adhered to. Shame on this president for believing he is above the law and has no need to adhere to processes that have been laid out long before he took office. Shame!

Name: Mary Carr
Date: February 23, 2026 9:10:00 pm

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design with the "donor" money, not the tax money from hard-working Americans. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Mary Ellen Alexander
Date: February 23, 2026 9:14:49 pm

The dignity and historical significance of the White House MUST be preserved. The proposed 1000 person capacity of the East Wing ballroom is totally out of scale with the rest of the White House, and it will destroy the classical integrity of the White House. The White House belongs to the American people, not to any single president, and any modifications need to be at an appropriate scale and with an integrated design that complements the existing White House, and preserves the historical significance of this present structure.

I support only a much smaller addition, not the proposed 90,000 square foot monster now under consideration.

I implore the National Capital Planning Commission to veto the proposed monstrosity and only allow a project that retains and preserves the White House for all Americans.

Name: Harriet Davidson
Date: February 23, 2026 9:19:38 pm

Please do not compromise the architectural integrity of this historical building. As the plans show, this renovation will dwarf the rest of the White House. This is the people’s house, honor this buildings architecture and not turn it into a golden shrine, glorifying the current administration.

Name: Sarah Cihat Grant
Date: February 23, 2026 9:24:57 pm

To the Commissioners of the National Capital Planning Commission,

I am writing to provide comments regarding the proposed alterations to the East Wing of the White House and the addition of a new ballroom.

The White House is not the private residence of any one president. It is the People’s House — a symbol of democratic governance that belongs to the American public, not to a single administration. Unlike a monarchy, our system does not confer personal architectural legacy rights upon temporary officeholders. Permanent structural changes to this historic

building therefore demand extraordinary restraint and justification.

My concerns are as follows:

1. Historic Integrity and Preservation
The White House complex represents layers of architectural and national history. Significant structural additions risk altering the integrity, proportion, and historic character of both the Executive Mansion and its surrounding grounds. Any intervention should preserve the architectural balance and symbolic clarity that have defined this site for generations.

2. Scale, Massing, and Design Compatibility
One of the most troubling aspects of the proposal is its scale. The disproportionate size of the proposed ballroom appears to overwhelm the existing East Wing and disrupt the symmetry of the main drive, originally designed by Frederick Law Olmsted. The Olmsted plan established a careful sense of approach, balance, and procession. Pushing that drive out of symmetry through an oversized addition would fundamentally alter the historic spatial composition of the grounds. The architectural power of the White House derives in part from its restraint and proportional harmony; a large-scale ballroom risks undermining that carefully evolved balance.

3. Precedent and Long-Term Impact
Approving a major permanent addition establishes a consequential precedent. Because the White House is a national symbol central to our constitutional system, alterations should meet the highest threshold of necessity and design excellence. Alternatives — including smaller-scale, reversible, or off-site solutions — should be thoroughly evaluated.

4. Federal Interest and Public Trust
This proposal implicates core federal interests: preservation of nationally significant historic resources and protection of the symbolic seat of the Executive Branch. The building's meaning transcends any single presidency. Decisions made today will shape how future generations understand and experience this defining symbol of American democracy.

I respectfully urge the Commission to exercise great caution and require rigorous preservation analysis, meaningful alternatives review, and exceptional design scrutiny before approving any substantial addition.

Thank you for your consideration.

Sincerely,
Sarah Cihat Grant

The East Wing Ballroom should not be larger than the actual White House. The construction should be guided by experts and have Congressional approval. Anything less is taking the American people's trust and trashing it.

Name: Betsy Anderson
Date: February 23, 2026 9:32:12 pm

Please do not let this unreviewed, unauthorized, illegal destruction of our nation's White House proceed! The White House does not belong to Mr. Trump. It is not his to destroy.

The Trump administration is engaged in an all-out effort to erase invaluable pieces of our history. Please protect the East Wing from this "modernization" - really, ruination - plan.

Thank you.

Name: Gary McNeil
Date: February 23, 2026 9:34:33 pm

Laws are being broken to ruin the East Wing. Many years of American history have occured in the East Wing of the White House. To spend $300 million to tear it down and put in a ballroom is a outrageous and unlawful act. It is being

done without proper authorization, permits, and design review. It must be restored to its original design before it is too late. Please do not let an evil dictator break laws in order to get what he wants.

Name: CJ Mlsna
Date: February 23, 2026 9:41:03 pm

From concept to execution, the so-called East Wing modernization project is a gaudy, unnecessary, and potentially corrupt or corrupting vanity project. If there were a real and immediate need to expand or rearrange the East wing, it would have been executed in a way that treated the White House in its entirety as the historic building it is and had a minimal impact to the whole, not bulldozed without proper oversight and public input. The project should come to a halt and new designs drafted and put before the public that are more in line with the remaining structure and the original East Wing dimensions and scale. The largest part of a symbol of American governance cannot be a gilded symbol for entertainment and wealth.

The White House is the people's house -- not the president's. He had no right to demolish part of it and destroy the history of the East Wing. He has turned the White House into the epitome of bad taste -- destroying the rose garden and decorating it like a bordello. I know this won't count for anything and the people will be ignored, but we have to try to fight such desecration.

By bypassing the Congressional appropriations process, the proposed ballroom avoids the checks and balances designed to prevent special interests from literally buying a piece of the White House. Because the funding sources for this garish ballroom are obscured, it undermines public trust.

The White House should of course evolve, but it should do so with the prior consent of the governed, and through the proper legal channels. All changes should also show a deep respect for the past. The proposed ballroom represents a fast-tracked, oversized, and opaque departure from those values. We should be building for the next century of democracy, not for the temporary vanity of a single person.

Name: Stephanie McLaughlin
Date: February 23, 2026 10:00:45 pm

The East Wing Ballroom Project plans a huge 90,000 square feet addition the nearly doubles in size of the existing White House! It is unconscionable that this addition will dwarf the White House. And, to date, there has been no public input on the egregious demolition of the East Wing of The People's House and this proposed gargantuan replacement.

The Secretary of the Interior's Standards for Rehabilitation mandates that additions to historic structures be subordinate in scale and size, different from the historic building (rather than imitating it), and compatible with its materials, characteristics, and mass.

I understand there is much debate whether this project's specific design is appropriate. As such, it detracts from and drawf's the original White House and reduces it to a secondary position. This is an unacceptable, super-sized addition to The People's House!

I request that you do not allow this project to proceed as intended.

Thank you.

Name: Melinda Ellis
Date: February 23, 2026 10:13:39 pm

I am a daughter of a Major General of the US Army, who served 29 years including many years in Washington, DC. We were raised with respect for the White House, its national history, and its architecture.

I encourage the National Capital Planning Commission to NOT extend federal planning authorization to the White House East Wing Modernization to move above grade as construction and litigation proceed in parallel. I oppose this project, which initiated and carried out the demolition of the White House East Wing, without proper design review and without authorization. Historical structures are not demolished, their structures are analyzed, extended, and balanced with sizing. Even if the White House, Capital, and Supreme Court buildings are exempt from the National Historic Preservation Act (NHPA), previous Presidents have followed design reviews and authorization. Just because you can do something, doesn't mean you should do it. If the President can raze the White House, does that open the door to razing the Capital and the Supreme Court building?

I ask that this project be canceled, and the East Wing be rebuilt and restored to its appropriate size. This project does not link with our national history. The architecture dwarfs the mass of the White House. The White House currently has a carefully balanced classical design with its two smaller and lower East and West Wings. Will the next project be an enlargement of the West Wing, without design review and authorization? Does the East Wing project plan consider its adjacent impact on the community? Are plans available for logistical impact, such as traffic flow for 900 invitees, parking for 900, water usage and volume of sewage? Has it been analyzed for heating, cooling, and maintenance cost? How does the project dwarf the current allocated funding for White House maintenance? Please do not authorize this project. Listen to the many voices that are calling out for this dire action.

Name: Laura Hughes
Date: February 23, 2026 10:13:47 pm

I am concerned that the proposed "East Wing Modernization project" (aka New White House Ballroom) is inappropriate considering the existing structure.

As currently proposed, the East Wing Ballroom Project comprises 90,000 square feet, almost double the 55,000 square feet of the existing White House building. No amount of tweaking its design (except making it smaller) will change the fact that the "addition" is larger than the original. In addition, by making such a large mass the exact same height as the existing White House further dwarfs it.

This is significant because the Secretary of the Interior's Standards for Rehabilitation require that additions to historic structures be subordinate in scale and size, distinct from the historic building (not replicating it), and compatible with its materials, features, and massing.

It also feels like a violation that the original East Wing was demolished without any agreed upon, structurally appropriate plan being in place for its replacement. Allowing a violently inappropriate monstrosity of a building to be constructed in its place feels like adding insult to injury.

I ask that you do not allow this project to go ahead as proposed.

Name: Judy Briar Kolp

Date: February 23, 2026 10:22:39 pm

Dear Chairperson and Members of the Commission,

I am writing to formally express my strong opposition to the proposed "East Wing Modernization project," also referred to as the New White House Ballroom, in its current form. While the need for enhanced gathering space at the White House is understood, this specific proposal fundamentally violates the core principles of historic preservation and would cause irreparable harm to one of our nation’s most significant and cherished landmarks.

My primary concern is the project’s complete disregard for the Secretary of the Interior’s Standards for Rehabilitation, which serve as the benchmark for any work on historic properties. This proposal fails to meet these standards in several critical ways:

Grossly Out-of-Scale Addition: The project proposes a 90,000-square-foot structure, which is not an addition but a massive new building that would nearly double the footprint of the original White House (55,000 square feet). The Standards require that new additions be subordinate in scale and size to the historic building. An addition that is larger than the original structure itself is, by definition, not subordinate. It would overwhelm the historic building, making the iconic White House appear as an appendage to a modern construction.
Inappropriate Massing and Replication: The design’s attempt to make this massive volume the exact same height as the existing White House further compounds the problem. Instead of creating a harmonious relationship, this choice visually ties the two structures together in a way that dwarfs the original. The Secretary’s Standards mandate that new work be distinct from the historic building to avoid creating a false sense of history. Replicating the height of the existing structure while dramatically expanding its width does not achieve compatibility; it creates a distorted and dominating partner that relegates the historic White House to a secondary role on its own site.
While we acknowledge the functional need for a larger gathering space beyond the current 200-person capacity, this practical requirement cannot justify a design solution that actively diminishes the architectural and historic integrity of the President's Park. The current proposal is not a matter of minor design tweaks; its fundamental flaw is its colossal size. No amount of refinishing, material changes, or landscaping can mitigate the fact that a 90,000-square-foot addition will be the dominant feature on the site.

Therefore, I urge the Commission to reject the current proposal. We ask that you not allow this project to go ahead as planned. Instead, we encourage a return to the drawing board to develop a solution that truly respects the scale, materials, and massing of the original White House, providing necessary functions without compromising the very character that makes this building an American icon.

Thank you for your time and for your essential role in safeguarding the nation's capital.

Name: Gina Bates
Date: February 23, 2026 10:35:09 pm

I am writing to demand that someone put a stop to the unlawful demolition of the White House by Donald J Trump, Sr & his Administration.

What he is doing under his egregiously misnamed 'Modernization Project' is ILLEGAL as per 18 USC 1361. Therefore, I am quite curious as to why there have been no injunctions or cease and desist motions filed against this administration for

the Destruction of Government Property.

Donald J Trump Sr needs to be held accountable, including prosecution, for committing this illegal action against the White House.

Meanwhile, immediate injunctions and cease and desist motions must be filed in order to halt any more destruction of the White House. Once said injunction, etc., is in place, please ensure that it is enforced & that severe legal consequences are imposed if the Administration does not comply.

Thank you very much for your time and consideration.

I have a Masters degree in Design & Curatorial Studies from the Smithsonian’s Cooper Hewitt National Design Museum. I am opposed to the overly-large scale of the architect’s proposed design for the East Wing Modernization, and it’s very rudimentary, chunky aspect. I am also opposed to changing the circular drive.

Greek-revival elements (like a pediment) are essential to creating a unified whole with the White House. Seek guidance from a panel of architects and DO WHAT THEY SUGGEST.

The design lacks sophistication and worse, the committee is missing a golden opportunity to engage the public, to win hearts with this project.

Name: Greg Jones
Date: February 23, 2026 10:44:09 pm

I am opposed to the ballroom. Its size, style and proportions are inappropriate for the location.

Name: Bob Frank
Date: February 23, 2026 10:49:50 pm

I am absolutely against this project. This is our history that this man want to destroy, this is the house the we the people built, our founding fathers, it should be treated as a national treasure, a place of reverence, a place that carries the weight of centuries, carries the lessons, the trials, the sadness, and the triumphs of all the presidents that have occupied it since John Adams. Who does this arrogant man think he is! It's appalling he thinks he has a right to just tear down like it's his dog house.

Name: Sue Poovey
Date: February 23, 2026 10:52:11 pm

I’m sorry it has taken me so long to express my disgust with the decision of our president to dismantle the east wing of our White House and replace it with a ballroom. I totally agree the east wing should be reconstructed to it’s former beauty and importance to those of us who still consider ourselves fortunate enough to be proud citizens of the United States of America. Donald Trump has no respect for any of our country’s history, values or its citizens. God willing he will be replaced and erased from our memories in due time.

Name: lois crozer
Date: February 23, 2026 10:58:28 pm

East Wing Modernization Project!!?? This is the name for the 90,000 sq ft ballroom!?

You've GOT to know this is just one of Trump's egotistical follies. I do NOT support this in any way, shape or form. Why did you let him tear down the East Wing without any congressional approval? Please do your job. This is a disaster, just like Trump's presidency. It should never have been allowed. Now that it is under construction, I hope someone has the decency to limit it's ugliness and waste of money.

Name: Karen Mueller-Harder
Date: February 23, 2026 10:59:22 pm

This project is a travesty! Renovations to the White House should be done thoughtfully, with respect to the history of the building, and in proportion to the other elements of its structure, not in a frantic rush and without consultation with experts. The scale of the proposed addition is much too large, and destroys many aspects of the White House, as well as the Rose Garden, and costs way too much when food banks do not have enough money to feed people.

Name: Cristina Mathews
Date: February 23, 2026 11:02:37 pm

I oppose this project at every level. The proposed East Wing destroys the proportions of the White House. For now, it creates a lopsided building, hideous for its hodge-podge of styles and gross imbalance. If the West Wing is eventually supersized to match the monstrosity planned for the East Wing it will leave us not with the People's House, but with a grotesque compound that elevates the presidency over the other branches of government and over the people. The White House is big, but it is not the seat of government. It is where the head of one branch lives and works. This vanity project converts the White House into a hideous symbol of a bloated executive branch. It broadcasts an executive branch that is self-involved and self-important, and that sees itself as independent of its coequal branches.

Do not permit this executive to indulge his whims by giving him forgiveness when he should have asked permission. It is

not his house.

Also, please do not neglect the question of funding. An East Wing built with private money donated to curry favor is un-American and further damages the White House as a symbol of our nation.

I urge you not to approve this project.

Name: Joseph Beck
Date: February 23, 2026 11:12:12 pm

The theft of our shared heritage from the children of the future is an abject stain on the character of anyone who abets it. A penitent restoration of the historic East Wing should by all rights begin immediately, but failing that, no person currently involved in this national crime should let an hour pass before they resign in shame.

Name: Sarah Kayle
Date: February 23, 2026 11:14:54 pm

I'm writing to express my concern about the proposed East Wing Modernization project. I feel the scale is far too grandiose and completely overwhelms the existing White House structure. I hope you will reconsider drastically altering the appearance of this American icon and choose a more appropriate plan. Thank you so much.

Name: Becca Pheasant
Date: February 23, 2026 11:15:33 pm

Dear NCPC;

Thank you for the opportunity to comment on the proposed changes to the White House. Public and professional comments are critical to ensuring the integrity of our historic places that represent our entire nation.

1. The design of any modifications to the White House should have been thoroughly reviewed and approved by qualified professionals and representatives of the public prior to any work. The demolition of the East Wing without approval was in direct opposition to precedent and best practices for historic buildings. Litigation is currently moving through the judicial system that questions the legality of the process up to this point.

2. All historic buildings must be reviewed for hazardous materials and properly abated prior to demolition. By not following proper procedures, the health and safety of the public was put at risk. A full investigation into the possible harm caused by demolishing the East Wing without prior abatement should be undertaken immediately.

3. Review of government projects should be impartial and free from influence from those being reviewed. Any reviewer with ties to the current administration should immediately recuse themselves from the process. Project review should be delayed until an impartial review commission can be selected through a transparent process.

4. Information has been provided by the administration indicating that a halt in work would jeopardize "security." This raises serious questions regarding the security planning of this project. Any security threats appear to be a direct result of the haphazard way this project is being conducted and did not exist prior to the start of the project. The administration should be responsible for mitigating the security risks created by their actions. Security risks should not be used as an excuse to require the project to move forward.

5. No studies regarding the size of White House events have been provided. The size of the new addition appears to be based on arbitrary numbers without studies identifying how often events requiring space for 650+ (1000?) people would be held vs the time when the hall would be vacant or underutilized. The actual number of guests to be accommodated has shifted throughout the design process. A formal study should be provided on the actual guest needs of the white house prior to reviewing the design.

6. Since the size of the hall at maximum capacity will be used to size all other spaces and systems within the addition (such as kitchens, restrooms, trash, mechanical, etc.), oversizing the space will have a severe impact on the ongoing maintenance effort and cost for the life of the building. A full financial impact study of the maintenance, energy, and other ongoing costs of the addition should be required prior to reviewing the design.

7. The design as proposed is out of compliance with the government's own guidelines for additions to historic properties. According to the Secretary of the Interior Standards and Guidelines for Historic Properties, constructing a new addition that is as large as or larger than the historic building is not recommended. The new addition is exceptionally out of proportion to the White House. It overwhelms the building to such an extent that additions to the West Wing are contemplated to regain some semblance of balance.

8. Based on the renderings provided, the new addition is exceptionally visible and overwhelming from every view that is not directly blocked by trees or another building. From the East, the building completely blocks all views of the main White House Building. The design impacts the symmetry of the campus, even modifying the symmetrical drive into an amorphous blob.

9. Finally, the funding of the new wing through private donations should be thoroughly investigated and transparent. Any opacity in the funding process could be viewed as a sign of corruption and bribery. This is particularly the case for those providing funding for the addition that have public contracts with the government or private contracts with public officials, such as the president, who are associated with the project. Full assurance that all funds have been secured should be a requirement prior to any approval of a new East Wing. Promises of funding without fully securing the funding should not be accepted.

Other experts have already done an exceptional job at identifying concerns surrounding accessibility, security specifics, historic incompatibility, and other design choices that appear to be symptoms of a poorly thought-out process. The overwhelming primary issue is that of a rushed process without full public review, without the necessary studies, and without adherence to the government's own requirements and guidelines. I request that you deny approval of the project as presented until there is a full investigation into the disregard for health and safety during the demolition, the ongoing security risks, the long-term maintenance costs of the new building, and the funding sources for the construction.

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled and the East Wing rebuilt and restored to its former design. No one is above the law, and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Trashing the east wing without consultation was vandalism a simply not the presidents prerogative. The demolition was unsafely done and emptying the debris at the public golf course is hazardous and irresponsible. This is not trumps property and he has horrible taste anyway and no respect for history or law.
There is no need for the bordello ballroom. Think of the people instead of the billionaires you want to party with at my expense. Do that on your own dime at magatlargo.
Restore the east wing without input from Trump. Make him pay for the damage he has done and the contractors have liability as well.

Name: Andrew Burnett
Date: February 24, 2026 12:14:25 am

Respectfully, it’s an absolute disgrace that we only have time to comment after a piece of our history is torn down, but here we are.

I think the best case scenario for rebuilding at this point is to halt all progress until the American society can vote on how to move forward. We did not vote or have a say in tearing down a piece of our history, our narcissist president made the decision on his own. It’s time to allow the people’s say in America again and halt any rebuilding decisions until there is a wide consensus on how to proceed.

Name: James Muse
Date: February 24, 2026 12:17:43 am

I am appalled that demolition was started without an approved plan. A giant ballroom will dramatically outscale the executive wing of the White House making it look asymmetric, bizarre, and as if the ballroom is the most important part of the whole place. It should be dramatically scaled back to fit within a more balanced scale of the entire complex if it must be done at all (this did not appear to be truly needed in the first place)

Name: Leila Belhadjali
Date: February 24, 2026 12:19:13 am

The ballroom is slated to be a gilded monstrosity that will dwarf the White House and look both ugly and ridiculous. In addition, the project is being overseen by a corrupt president is bound to be full of kickbacks and will not doubt result in the US taxpayer having to pay to fix the inferior but no doubt full of gold leaf construction. I ask that this project not be approved as proposed and that if a structure is needed, the process that usually guides this type of endeavor be followed.

Name: Tobin Hahn
Date: February 24, 2026 12:21:08 am

Dear NCPC,

I am writing to voice my concern regarding the modernization of the East Wing of the White House (also known as the Ballroom).

This project is incongruous with the existing historical structure of the White House in that it clearly violates design protocols laid out in the Secretary of the Interior's Standards for Rehabilitation. In particular, its relative large size to the existing structure.

The "ballroom" design is more fiddler crab than fidelity to any architectural standard of balance and is as such questionable in enduring architectural relevance and value.

The project should proceed with a more balanced design (a smaller East Wing) that maintains an emphasis on the People's House.

Sincerely,

Tobin Hahn

Name: Dana Micklethwait
Date: February 24, 2026 12:22:27 am

Dear NCPC,

I write to express my concern that the proposed "East Wing Modernization project" (aka New White House Ballroom) is absurdly large and not proportional to the other buildings, making it out-of-scale and unharmonious. Bigger is really not often better, and a ballroom bigger than the other structures is not aesthetic and diminishes the import of the history and work done in the other buildings.

As currently proposed, the East Wing Ballroom Project comprises 90,000 square feet, almost double the 55,000 square feet of the existing White House building. That is honestly ridiculous.

The Secretary of the Interior's Standards for Rehabilitation require that additions to historic structures be subordinate in scale and size, distinct from the historic building (not replicating it), and compatible with its materials, features, and massing.

The proposed design is NOT suitable – It takes away from the original White House, dwarfs it in scale and relegates it to a secondary role. This is not acceptable. It disrespects history, cheapens the White House complex and doesn't comply with stated requirements.

I ask that you do not allow this project to go ahead as proposed

Please do not build a ball room, return the East wing to its former architectural glory, the ball room is not needed nor respectful of the people's house

---

Name: William Frazier
Date: February 24, 2026 12:25:32 am

I believe the new wing will be in tension with the existing architecture. It's likely to be a divisive symbol in the years to come. Any ballroom or large hosting location should be built elsewhere to preserve what's left of the historic building.

Name: Regina Eury
Date: February 24, 2026 12:26:09 am

The current President demolished part of the WH like he was a King.

WE HAVE NO MONARCHS IN THE USA.

No more work

Name: Emma Helper
Date: February 24, 2026 12:31:41 am

This is so incredibly fucked, it's stupid and shortsighted and has no justification. I hope no one comes to your ballroom and you rot in hell.

Name: Susan Kahler
Date: February 24, 2026 12:31:51 am

I am very concerned about the proposed ballroom addition to the White House.

The proposed 90,000 square foot ballroom is nearly double the size of the White House and will dwarf it. The project should not be allowed to continue as is. Any design must go through proper review channels. After all, the White House is the People's House, it is not a personal residence and should not be treated as such.

Name: Susan Humiston
Date: February 24, 2026 12:40:29 am

Dear NCPC,

This comment relates to the project called East Wing Modernization. I urge you to deny approval or support for the creation of a wing to the White House that dwarfs the size of this historic building complex. The East Wing should not have been torn down and the effort to replace what was wrongly gutted with a ballroom that far exceeds architectural standards for historic buildings should not be supported. If a common space (ballroom) is needed, it should meet applicable standards and be no larger than the wing wrongfully removed and otherwise watch the size, structure and material of the preexisting building.

T
Please do not allow the planned installation. Thank you.

Name: Sandy Scott
Date: February 24, 2026 12:43:32 am

Please do not let this project go forward as planned. The scale is entirely too large. Also, no approval procedures have been followed to date. This project should be carefully considered as it is such a symbolic and historical building. It belongs to everyone, not just to the president.

Name: Gail Fugett

The destruction of the East Wing of the White House is so dishonorable to the United States of America. It had historical significance any it was just destroyed. How can you do something like this and say you love America and want to make it better. We are 250 years old this year and you just wiped out a third of it's history.

Name: Karyl Newman
Date: February 24, 2026 1:19:27 am

A number of writers have recently compared a building or home to a poem. Perhaps in the way spaces unfold like ideas, some familiar and some surprising due to time of day and light

or old things revealed in new places. When the edifice is ripped away, without the consent of the owners or any reverence for a shared history, all of this stored energy and potential power is lost. Forever.
Can there again be poetry in its place? Perhaps only if the walls and roof of this wing are replaced with glass revealing the gaping wound inflicted on people and place, for posterity.

To the National Capital Planning Commission:

I am writing to implore the Commission to compel the Executive Branch staff, consultants and architecture team at the White House to reconsider the size, location, and massing of the "proposed" new construction of the East Wing. While all of this planning should have already been considered, I'm advocating for making the best out of this situation. The current plans will overwhelm the existing White House and are completely out of scale with original building. With the East Wing and its history already partially lost, what recourse is there for the Commission to be able to approve the final design to ensure that this modernization project will respect the original White House for future generations? Can you inform the public if there are plans to reestablish landscaping to mimic what was also summarily removed. Thank you for your consideration.

Name: Tatyana Seroka
Date: February 24, 2026 3:29:10 am

The addition of a ballroom to the East Wing of the White House without congressional authorization raises serious constitutional and ethical concerns. The White House is not a private residence—it is a national historic property held in trust for the American people, and any major structural changes must follow established legal oversight and preservation procedures.

Equally troubling is the reported use of private “donations” to fund such construction. When wealthy individuals finance alterations to a government building outside transparent congressional approval, it creates the appearance of influence-buying rather than civic generosity. Public institutions must remain free from even the perception of quid pro quo.

Because this alteration was undertaken outside proper legal and preservation channels, it should be removed and the East Wing restored to its original historic condition. Any restoration costs should not fall on taxpayers, who neither authorized nor approved the change. Those responsible for the unauthorized construction should bear full financial responsibility for returning the building to its lawful and historically protected state.In

I was glad to be able to view the presentation to the National Capital Planning Commission on the East Wing Modernization Project.

Watching the presentation, it seems that people have tried to make the best of getting backed into a corner. I understand that there is a need for a larger venue to host foreign dignitaries, but a project of this size and importance should have included study and planning prior to breaking ground. The fact that demolition occurred before plans for construction were presented for public review is egregious.

I am specifically concerned about how the proposed project overwhelms the White House itself. While there are trees to mitigate the view from the south, trees are temporary--far more temporary than this structure. I appreciate the effort to balance out the west side--and I appreciate that the visitor entrance will be modernized. That is definitely needed.

However, due to the lack of planning up front, the modernization project underway leaves the impression of a rushed project that is a disgrace for our country.

Name: Leslie Miles

EAST WING MODERNIZATION PROJECT (White House Ballroom Proposal)
TESTIMONY OF LESLIE K. MILES 202.270.5151 lmiles@topsidedc.com

Good morning, and thank you to the members of the National Capital Planning Commission for considering my testimony today. I write as the former longtime Chair and Member of the Montgomery County, Maryland Historic Preservation Commission 2007-2020, longtime Chair and Member of Advisory Commission 2F of Washington, DC 1997-2002 (Logan Circle), longtime Chair and Member of ANC 2F’s committee considering new construction and renovation in the Logan Circle Historic District, and longtime President of the Blagden Alley Naylor Court Historical Association (DC). I am well aware of the standards for historic preservation found in the Secretary of the Interior Guidelines, which guide my comments. For your information, I am also an alumna of Leadership Montgomery, and a former Board Member of the Kennedy Center Circles Board and the Women’s Campaign Fund, and have chaired other philanthropic organizations including the Tikkun Olam Women’s Foundation and Adventure Theatre.

The White House is, without doubt, the most significant historic structure on the continent, based upon each criterion. More events of historical importance have taken place in that building than in any other. It is instantly recognizable as the seat of the Executive Branch. It was designed by a notable architect and built in the early 19th century. It is the temporary home of each President of the United States. It is part of the Federal Triangle. It retains its original design and materials, with only one full-scale modernization undertaken to preserve the building. It goes without saying that the wholesale demolition of an entire 20th century wing of this structure, violence done to the White House by bulldozer without authority, consideration or respect, was a grotesque usurpation of the public role in a public building.

We now must turn to what should properly replace this substantial structure. The term “renovation” is utterly inapplicable, as there is no brick or bracket remaining. The proposed replacement, which in scale, massing and style, would dwarf the White House, is so outside the realm of what would be suggested, let alone permitted, under any other Administration that it cannot be seriously evaluated. It is inconceivable that such a proposal would receive any consideration by any body with any training or insight into historic preservation, the importance of this structure, or even the most rudimentary familiarity with architecture.

Without even considering the manifold inappropriate and dangerous issues presented by a structure attached to the White House, privately paid for by those who seek the attention of the President, housing a ballroom in which the President can entertain thousands of paying guests, also housing an actual bunker, this proposal must be immediately and summarily rejected as a farcical and horrific destruction of the public building in which a public servant temporarily resides. I urge you to fully and formally refuse permission for anything like this project to proceed. No “wing” can overwhelm a main structure and still be considered subordinate to it. For anything to overwhelm the White House—and let me say it again, the WHITE HOUSE, is a crime against the American People. Say no and make it stick. Thank you for your consideration of my views.

Name: Nancy Higginbotham
Date: February 24, 2026 5:20:33 am

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Laura Greenblatt
Date: February 24, 2026 5:41:24 am

I am completely opposed to the constitution of the ballroom. The East wing should be reconstructed as it was. It never should have been torn down. There was no congressional approval.
The ballroom is a offense to the people of the United States. Such a ballroom fits in a country ruled by a dictator not a president.
As an American citizen. I am profoundly disappointed and disgusted.

Name: William Middleton
Date: February 24, 2026 5:43:09 am

I am deeply concerned that the sheer massing and height of the proposed 90,000 square-foot new ballroom construction will overwhelm the Executive Residence, which is only 55,000 square feet.

I am also deeply concerned that, as proposed, the new construction will permanently disrupt the carefully balanced classical design of the White House complex, which emphasizes the prominence of the Executive Residence in contrast to its two smaller, and lower, East and West Wings.

The Secretary of the Interior’s Standards for Rehabilitation offer clear guidance for construction projects such as this one that affect historic properties. 36 C.F.R. § 68.1 et seq. The Standards provide that new additions should not destroy the historic fabric of the property, and that the new work should be “compatible with the historic materials, features, size, scale and proportion, and massing” of the existing structure.

Any proposed new addition to the White House complex should accommodate and respect the primary historic importance of the original Executive Residence. The ballroom addition should be subordinate in scale to the Executive Residence.

I recommend several modifications to the proposed project, including:

• Reduce Overall Size and Visibility. The size, volume, and massing of the proposed new construction (90,000 square feet) should be reduced or disguised (such as by placing portions underground, as recommended in the 2000 Comprehensive Design Plan) so the new building appears smaller than the Executive Residence itself (55,000 square feet). Its height should also be substantially lower than the Executive Residence.

• Reduce Footprint and Protect Key Views. The footprint of the proposed building should not extend past the existing south-facing façade of the historic Treasury Building, nor further interrupt the views of the Executive Residence from Pennsylvania Avenue.

• Respect the Established Classical Composition of the White House Complex. The new addition should retain the carefully balanced classical design of the White House complex with its two smaller, lower, and substantially symmetrical East and West Wings.

• Preserve the Historic East Facade of the Executive Residence. The connection of the colonnade to the Executive Residence should protect and preserve the original historic materials of the east façade of the Executive Residence and should not cover or demolish the existing fenestration and detailing of the east façade.

• Ensure that the Proposed South-facing Portico Is Subordinate in Scale to the White House South Portico. The proposed portico on the south façade should be smaller and less grand in scale than the existing portico on the south façade of the Executive Residence.

Adopting these recommendations will help ensure that the project both honors the exceptional historic significance of the White House complex and acknowledges the investment that the American people have in the preservation of this beloved place.

As we approach the 250th Anniversary of our country’s founding, the preservation of historic places that represent our nation’s history has never been more relevant or important. I urge you to consider the deep reverence that I and all Americans hold for this iconic place and undertake a review process that ensures the protection of the historic White House complex for future generations.

Name: Diane Sklar
Date: February 24, 2026 5:46:41 am

Please ensure that the architectural drawings for this project are made public. Please also ensure the design is in keeping with the FEDERAL style of architecture. This style demands simple lines, symmetry, order, and RESTRAINT which was the spirit of our founding fathers, NOT the regal Louis XIV ornamental style that Mr. Trump prefers. This is the PEOPLE's house and should reflect the founding principles of our country.

Name: Polly Moore
Date: February 24, 2026 5:57:11 am

I oppose the destruction of the historic East Wing of the White House. Our current president overstepped his authority by demolishing it without proper authorization. The facility should be restored using the money he raised to build the new structure.

Name: Nina Tichman
Date: February 24, 2026 6:09:13 am

I oppose the spending of $300 million on a ballroom to replace the destroyed East Wing of the White House, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Megan Lutz
Date: February 24, 2026 6:20:32 am

The fact that the East Wing Ballroom is here referred to as a "modernization" project is Orwellian doublespeak. The East Wing has been torn down without input or consultation. It is not being modernized or renovated for office space, or updated for administrative use. It was torn down illegally on the whim of a madman for the narcissistic purposes of a hideous ballroom.

I do not support the reconstruction of the East Wing for the outsized, vanity project of the ballroom, built with bribe money and made without public input or architectural consideration for the White House. No possible change to the proposed design, except making it smaller, will change the fact that this purported "addition" absolutely swallows the White House itself.

The proposed structure dwarfs the White House, is incompatible with it and violates the Secretary for the Interior's standards that the addition be subordinate in scale and size to the original building, distinct from the original building, and compatible with the original building with regard to features, materials, and massing. This ain't it.

Do not allow this project to proceed.

Megan Lutz

Name: Heather Curtis
Date: February 24, 2026 6:25:05 am

The White House is the people's house, not Donald Trump's house. Changes to the White House should go through the proper process. His time in the While House is temporary. The East Wing should visually look more subdued than the current proposal. His tearing down of the existing wing should demonstrate his lack of consideration of process and procedures and be considered a warning of what he is going to do.

The proposed East Wing is too big and too garish to go with the White House. The proposal should be rejected and a new proposal should be submitted.

Name: Ana Connolly
Date: February 24, 2026 6:27:43 am

The reward for tearing down the people's property on a whim, without proper permission, should not be for the administration to get what they want. The East Wing of the White House should be restored to its pervious condition, and the people who ordered the unauthorized demolition should be fined.

Name: Maryann Fagan

I write to express my strong opposition to the plans to build a ballroom addition to the White House. The current design detracts from the stately symbolism of the White House. As an American citizen, it was heartbreakingly tragic to witness the rapid demolition and complete lack of care for one of America’s most important buildings. Much more consideration must be put into the design and rebuild to make it a suitable size and style. Such an important project should not be rushed and needs input from professionals devoted to historic preservation and people who respect and understand the significance that the White House has to the American people.

Name: Karen Fanale
Date: February 24, 2026 7:03:58 am

First and foremost, any construction to be done needs to be approved by Congress and the proper and lawful commissions and not just by the president, as has been the case for previous remodeling. Everything needs to be transparent to the public and not done in secret or in the dead of night.
No one has been asking for a grand ballroom for 150 years. The former East Wing served a function, especially when we had a First Lady who lived at the White House. I suggest you try and reconstruct something similar, since it should never have been destroyed in the first place. It should not be so huge that the White House is small in comparison nor should it contain a wrestling ring. It should not be palatial, since this is part of the people's house, nor should it be constructed with bribe money. If it also includes remodeling the bunker, let the people know. If it also will hold a database full of everyone's information, let the people know. I am already sick and tired of this administration's flagrant use of taxpayer money for their personal vanity projects such as a ballroom or triumphal arch, use of private jets and funds to party or conduct extra-marital affairs or chauffeur their girlfriend, and taxpayer funded vacations to Italy, etc.
I also suggest that at the very minimum you replant some trees, since very old magnolias were felled for no reason. So in summary, rebuild the old East Wing and plant some trees, and every step of the way in this process must be approved and transparent to the people.

Name: Julie Sutherland Platt
Date: February 24, 2026 7:17:34 am

The Eat Wing expansion should not be allowed to expand as large as proposed.
The expansion completely changes the original proportions of the original White House lawn and garden approach area.
Also there is no need to have an indoor space that is as large as proposed.
Please do everything possible to make sure this addition is at least more to scale and doesn’t disrupt the original plan by Frederic Law Olmstead.

Thank you

Name: Suzanne Hodgson

The current proposal is not at all in keeping with the historic character of the White House as a whole and should be rejected. An independent commission of experts, not appointed by those with an interest in the project (i.e., the current occupant of the White House or his appointees) should be tasked with developing a proposal for what should be built on the footprint of the East Wing.

Name: Joanie Hahr

I strongly disagree with the destruction of our National Treasure. Why is this administration allowed to destroy this building?

Name: Michael Hurd
Date: February 24, 2026 7:30:43 am

Dear NCPC,

I write to express my concern that the proposed "East Wing Modernization project" (aka New White House Ballroom) is completely inappropriate and likely illegal.

While the previous East Wing was subordinate to the main White House building, the proposed ballroom is completely out of proportion. The Secretary of the Interior’s Standards for Rehabilitation require that additions to historic structures be subordinate in scale and size, and compatible with its materials, features, and massing. The new structure would fail almost all of these standards.

All of which is beside the fact that the East Wing Ballroom will be nothing more than a monument to Trump's ego. Such a man is undeserving of the White House as it was, and certainly does not deserve to be 'immortalized' by constructing such a grandiose structure.

I ask that you do not allow this project to go ahead as proposed.

Thank you,
Michael Hurd

Ceterum censeo saltatorium esse delendum

At a time when so many Americans are suffering and need financial assistance, this project is a waste of money. The White House is a historical monument and should be treated as so. The addition of a ballroom is unnecessary and will harm the history and aesthetic of a symbol of democracy known around the world. The People's House should not be at the mercy of the whims of one person.

I am writing to you today in opposition of the spending of $300 million on this "modernization" project, due to it being initiated without the proper authorization, permits, or design review.Rather than modernizing this space, it appears to instead be razing American history. I hope that with enough public comment and outrage from Americans, this project will be canceled, and the East Wing and rose garden might be able to be rebuilt and restored to its former design. Every project, and every leader must comply with the procedures set out, and to permit this project to go ahead, despite the lack of using the correct channels to initiate it, without penalizing those who broke the law is, a bad precedent to set, and an affront to all law-abiding Americans.

Name: Jill Wright
Date: February 24, 2026 7:48:40 am

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Vernon Bush
Date: February 24, 2026 7:53:06 am

Please cut the size of this ballroom down by at least 70%. Its to large. It looks out of place, it overwhelms everything around it. What I'm saying is be tasteful, respectful and measured with our most historic house.

I am writing to express my concern that the East Wing Modernization Project (aka The Ballroom) is hideously out of scale with the existing White House, and to urge that you not allow the project to proceed as proposed.

The Secretary of the Interior's Standards for Rehabilitation require that additions to historic structures be subordinate in scale and size, distinct from the historic building, and compatible with its materials, features, and massing. At a proposed 90,000sf, the "new ballroom" would dwarf the White House's 55,000sf.

To build a ballroom that dwarfs the White House sends a message—one that is incompatible with the idea of "a people's house" as an accessible residence for the people of the U.S.

I urge you to require the Modernization Project's amendment and a reduction in size that brings it into compliance with the Standards for Rehabilitation.

THANK YOU FOR YOUR ATTENTION TO THIS MATTER!

Claire Tondreau

The White House is a National Historic Landmark and National Park, owned by the American people and stewarded by the National Park Service. Before nationally significant places are permanently altered, the public is given an opportunity to help shape decisions that affect our shared national heritage. This is a legally required federal review process, and major construction projects in Washington, D.C. must be reviewed by federal agencies, comply with the National Environmental Policy Act (NEPA), and receive congressional approval. These safeguards exist to ensure transparency, accountability, and meaningful public input.

This project is such a perfect metaphor of what's going on in the country. Taking a wrecking ball and smashing to pieces the very principles we live by, or at least aspire to, as a nation, including equal justice under the law. This "modernization" has not gone through the legal process required for demolishing a government building and replacing it with a 400-million dollar structure which was desired by no one. Put a stop to this now, please. It is an unlawful action. And the Whitehouse will be next. Or the capitol. And soon we'll see "DONALD J. TRUMP" in gold letters on buildings throughout the land. Is this our country? Are we really going to allow him to tear down the East Wing, and the very rule of law with it? Can he truly do whatever he wants with impugnity? Check the Constitution and find out. Go ahead, I'll wait.

Dear NCPC,

I write to express my concern that the proposed "East Wing Modernization project" (aka New White House Ballroom) is violently out-of-scale with the existing structure.

As currently proposed, the East Wing Ballroom Project comprises 90,000 square feet, almost double the 55,000 square feet of the existing White House building. No amount of tweaking its design (except making it smaller) will change the fact that the "addition" is larger than the original. In addition, by making such a large mass the exact same height as the existing White House further dwarfs it.

This is significant because the Secretary of the Interior’s Standards for Rehabilitation require that additions to historic structures be subordinate in scale and size, distinct from the historic building (not replicating it), and compatible with its materials, features, and massing.

There is no doubt that there is a need at the White House for a gathering space that can accommodate more than the existing 200-person room. However, there is doubt that this particular design is suitable – It takes away from the original White House, dwarfs it in scale and relates it to a secondary role.

I ask that you do not allow this project to go ahead as proposed.

Thanking you for your time,
Tom Borton

The defacing of the White House by the current resident is deeply disturbing.The White House is not a permanent residence,therefore any updating or remodeling needs the permission of the owners. That would be We The People Of the United States. Our representatives should be doing just that, Representing and safeguarding what the White House was meant to be. We are not a nation of wealthy white men yet. Our country was built on the back of the working class ,the White house was built on the back of slaves. Let's stop rewriting history. Gold and opulence have no place in our nation's capital.It does not respect our history of where we started and what we wanted from our revolution. The current resident has all the gold he needs at his Mar A largo home. Leave the nations Capital alone

Stop this insane illegal demolition. Restore the beauty and history of the East Wing.

Name: Stephen Smithers
Date: February 24, 2026 9:05:08 am

I am deeply concerned that the sheer massing and height of the proposed 90,000 square-foot new ballroom construction will overwhelm the Executive Residence, which is only 55,000 square feet.

I am also deeply concerned that, as proposed, the new construction will permanently disrupt the carefully balanced classical design of the White House complex, which emphasizes the prominence of the Executive Residence in contrast to its two smaller, and lower, East and West Wings.

The Secretary of the Interior’s Standards for Rehabilitation offer clear guidance for construction projects such as this one that affect historic properties. 36 C.F.R. § 68.1 et seq. The Standards provide that new additions should not destroy the historic fabric of the property, and that the new work should be “compatible with the historic materials, features, size, scale and proportion, and massing” of the existing structure.

Any proposed new addition to the White House complex should accommodate and respect the primary historic importance of the original Executive Residence. The ballroom addition should be subordinate in scale to the Executive Residence.

I recommend several modifications to the proposed project, including:

• Reduce Overall Size and Visibility. The size, volume, and massing of the proposed new construction (90,000 square feet) should be reduced or disguised (such as by placing portions underground, as recommended in the 2000 Comprehensive Design Plan) so the new building appears smaller than the Executive Residence itself (55,000 square feet). Its height should also be substantially lower than the Executive Residence.

• Reduce Footprint and Protect Key Views. The footprint of the proposed building should not extend past the existing south-facing façade of the historic Treasury Building, nor further interrupt the views of the Executive Residence from Pennsylvania Avenue.

• Respect the Established Classical Composition of the White House Complex. The new addition should retain the carefully balanced classical design of the White House complex with its two smaller, lower, and substantially symmetrical East and West Wings.

• Preserve the Historic East Facade of the Executive Residence. The connection of the colonnade to the Executive Residence should protect and preserve the original historic materials of the east façade of the Executive Residence and should not cover or demolish the existing fenestration and detailing of the east façade.

• Ensure that the Proposed South-facing Portico Is Subordinate in Scale to the White House South Portico. The proposed portico on the south façade should be smaller and less grand in scale than the existing portico on the south façade of the Executive Residence.

Adopting these recommendations will help ensure that the project both honors the exceptional historic significance of the White House complex and acknowledges the investment that the American people have in the preservation of this beloved place.

As we approach the 250th Anniversary of our country’s founding, the preservation of historic places that represent our nation’s history has never been more relevant or important. I urge you to consider the deep reverence that I and all Americans hold for this iconic place and undertake a review process that ensures the protection of the historic White House complex for future generations.

Name: Anthony Chiodo
Date: February 24, 2026 9:07:19 am

The White House is an historically important structure for the American people and the country. The project must adhere to the historical balance of the footprint of the White House to maintain its aesthetics as the people's house. The addition of non-historical embellishments is against the aesthetics of this as the People's House and restraint should be used to avoid their inclusion. If there are space needs for executive branch activities identified that would not be properly addressed in a balanced White House footprint, those needs could be addressed in another project at another site that would not detract from the White House. These needs cannot be new; if they were not needed in prior recent administrations and likely would not be seen as vital in the future, then the needs of this current administration should not drive this modernization project as being excessive. Other temporary measures at other locations can be utilized for these current demands.

To whom it may concern,

I am writing as a concerned citizen to urge your opposition to the East Wing Modernization Project. It has completely diminished the historical integrity of the Eastern Wing of the White house and myself and many others do not want to see this defamation continue. When the President of the United States initially proposed this project, he claimed “[it] will be near [the East Wing], but not touching it and it will pay total respect to the existing building.” (Archpaper.com, para. 4, 2026); this statement has been completely discarded as a demolition team bulldozed the Eastern Wing last October. Another fact of the matter is that the President himself, no matter which one, doesn’t actually own the White House nor bother with its maintenance. The people of the United States are the ones who actually own the White House, and as you know, it is the National Park Service that maintains it. Throughout the entire history of the White House, it has been a symbol of the American people and the Democracy that we wake up every morning and choose to believe in, “Demolishing the East Wing is altering our history and erasing what really matters-legacy” (C. Mischke, personal communication, 2/20/2026).

Such large changes to our Symbol of Democracy can only go through with your approval. I beg of you to deeply scrutinize this project and heavily consider the implications of its finalization.

Name: Karen Gilbert
Date: February 24, 2026 9:15:42 am

I am writing in opposition to the proposed construction of a ballroom in place of the historic East Wing of The White House. The design is too large and destroys the previous symmetry of the two wings of The White House. Additionally, I fail to see how such a large structure, which will sit empty and unused most of the time, contributes to the efficiency or functionality of the federal government. Isn’t that the purpose of our national capitol? Please do not approve this eyesore and require the Trump administration to rebuild the East Wing in its original scale with modernizations that enhance its functions as a building of the Administrative arm of the United States government.

Name: Daniel Betz
Date: February 24, 2026 9:16:15 am

I’m writing to voice my strong opposition to the "East Wing Modernization project." To put it bluntly: a 90,000-square-foot ballroom is wildly out of scale for the White House.

We’re looking at an "addition" that is nearly double the size of the original 55,000-square-foot building. You can’t "tweak" a design into compliance when the massing itself is the problem. By making the addition the same height as the existing structure, you aren't just adding to the White House—you're dwarfing it.

This proposal clearly ignores the Secretary of the Interior’s Standards, which require additions to be subordinate in scale. While I agree the White House needs better event space, this shouldn't come at the cost of the building's historic integrity. We shouldn't be turning a national landmark into a secondary wing of its own ballroom.

Please reconsider this project. It simply doesn't fit.

Name: Carmel Cafazzo
Date: February 24, 2026 9:21:14 am

This project is so totally wrong. This is one of the most national historic buildings and part of it is destroyed. Without consent of her people no less.
I was of the understanding that the president worked for the people of the United States of America. He is not , under the guidelines set forth by our constitution, to take action for his own benefit. I believe that this was only his decision, therefore it would only benefit to his benefit.
Historical landmarks are to be preserved and protected. Not demolished or destroyed and replaced.
We lose so much of what made our country who we are if we erase the past. Better that a whole new place be built, upon approval, than to destroy an historical landmark.
Mr Trump has lost my confidence entirely through his own actions and one else's.
He will be remembered, but not for good. He is in the history book right next to Hilter, Mussolini, Stalin, Zedong, etc….
Sincerely a patriot,
Carmel Cafazzo

Name: Katherine Jeffries
Date: February 24, 2026 9:28:19 am

I wholeheartedly and strongly disapprove of Donald Trump’s desire to destroy the East Wing of the White House to erect a ballroom. It’s embarrassing that this is one of his many inappropriate areas of focus. He sadly neglects to respect that The White House is not his personal permanent residence. He is a temporary resident of the people’s house. With all the deplorable things that are occurring in the country and world, the mental state of the economy and the outright hypocrisy and corruption of the Trump Administration, I can’t fathome why an East Wing Modernization project should be supportable. Shame!

Name: Betsy Lawrence
Date: February 24, 2026 9:28:46 am

I oppose any construction of a ballroom where the East Wing stood. This project was begun without proper authorization or funding. The historic and beautiful East Wing should be rebuilt as it was!

Name: Alice Murphy
Date: February 24, 2026 9:39:28 am

I object to the White House ballroom project for several reasons, the most important being the complete disregard shown by the current administration for due process in altering a historic structure of supreme significance. In addition, the proposed design is of dubious architectural merit, being a pastiche of classical architecture, and is also completely out of scale compared to the rest of the White House.
Please do everything in your power to stop this travesty from going any further.
Many, many thanks for your service to the people of the United States.

Name: casey briskin
Date: February 24, 2026 9:39:35 am

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Casey Briskin

Name: Monica Van der Vieren
Date: February 24, 2026 9:46:24 am

To whom it may concern,
While the need for larger event space at the White House may be needed, as the President claims, the proposed size and visual display of the East Wing is disproportionate and should be changed to fit the existing West Wing and residence. It appears to be feasible to design a modernized East Wing partially underground to maintain a lower, more balanced profile and maintain visual focus on The People's House. I am opposed to an out-of-balance above ground structure that is intended to pull attention away from the structure of most importance to the American people.

I am also opposed to a distinct architectural style that will make the new East Wing appear a distasteful sore thumb against the other buildings. Based on the garish appearance of the Oval Office, I fear that the East Wing architects will be forced to follow some mutation of architectural design to represent the whims of someone clearly intending to force a manufactured legacy on Americans for generations to come. Temporary images on government buildings, and self-named facilities can be changed if democracy heals, but it's much harder to change an oversized, ill-fitting structure after the current occupant is gone. The center of American democracy was never meant to reflect one individual in office.

Landscape restoration needs to establish a balance of concrete with greenery, and greenery that reflects the diverse beauty of nature across the United States. The current president appears to prefer concrete landscapes with entertainment features that resemble outdoor strip mall eateries. While these places are reflective of an element of place in the US, they are not the best of what we offer. This is a place of importance and dignity for the American people, and the landscaping should reflect that. It is possible to lay temporary carpet over grass areas if the president is worried about wet shoes.

Thank you.

Date: February 24, 2026 9:49:29 am

Dear NCPC,

I am concerned that the proposed “East Wing Modernization project” (aka New White House Ballroom) is drastically out-of-scale with the existing structure. As currently proposed, the East Wing Ballroom Project is over 90,000 square feet, almost double the 55,000 square feet of the existing White House building. No amount of tweaking its design (except making it radically smaller) will change the fact that the “addition” is larger than the original. Furthermore, by making this new building the exact same height as the existing White House, the new addition overshadows the historical White House. The Secretary of the Interior’s Standards for Rehabilitation require that additions to historic structures be subordinate in scale and size, distinct from the historic building (not replicating it), and compatible with its materials, features, and massing. This design breaks these requirements. There is little need at the White House for a gathering space that can accommodate more than the existing 200-person room. And this specific design takes away from the original White House, dwarfs it in scale, and relegates it to a secondary role. I ask that you do not allow this project to go ahead as proposed.

Sincerely,
Michael Mand

To Whom It May Concern,

I am strongly AGAINST the proposed East Wing 'Modernization' Project. The president had no right to tear down the East Wing in the first place. This is the People's House and must be respected as such. It is the most iconic building in our nation and any addition must be architecturally appropriate and to scale, not dwarfing the existing structure. Further, I question the interior design, its function and aesthetics. This should not be to the fancy of one man but must be appropriate for all future presidents, their families and staff. This must be a building that Americans are proud of and respects our democratic values.

Respectfully,
Kelly Hart
Virginia

Name: Skyler Dunbar
Date: February 24, 2026 10:10:02 am

Dear NCPC,

I write to express my concern that the proposed "East Wing Modernization project" (aka New White House Ballroom) is violently out-of-scale with the existing structure.

As currently proposed, the East Wing Ballroom Project comprises 90,000 square feet, almost double the 55,000 square feet of the existing White House building. No amount of tweaking its design (except making it smaller) will change the fact that the "addition" is larger than the original. In addition, by making such a large mass the exact same height as the existing White House further dwarfs it.

This is significant because the Secretary of the Interior’s Standards for Rehabilitation require that additions to historic structures be subordinate in scale and size, distinct from the historic building (not replicating it), and compatible with its materials, features, and massing.

There is no doubt that there is a need at the White House for a gathering space that can accommodate more than the existing 200-person room. However, there is doubt that this

particular design is suitable – It takes away from the original White House, dwarfs it in scale and relates it to a secondary role.

I ask that you do not allow this project to go ahead as proposed.

Thanking you for your time,
Skyler Dunbar

No president has the right to destroy demolish deface (the Rose Garden) or renovate modernize " improve", The People's House with out consent of the proper authorities or including the numerous authorities that keep up and preserve the White House Historical Association & the committee for preservation of the White House
The President should have announced and open for discussion before swinging the wrecking ball.
Another example of our current president, absolute disrespect and disregard for history and tradition, as well as his duty to serve the people not some made up power of ruling over them.

Attachment

Name: Erin McCleary
Date: February 24, 2026 10:17:38 am

It feels like this process is a bit backwards as the people's house has already suffered what appears to be an unprecedented and severe blow - an illegitimate destruction of an entire wing at the whim of our current president. History, precedent, the will of the people and basic aesthetics have been compromised and ignored leaving us all in a position that feels very helpless.

As the rebuilding begins, I can only hope there is some guidance and input from those who would like historical architecture and gracious design to win over what seems to be a gold obsessed, ostentatious display of questionable and very singular taste.

I am a 30 year resident of DC and it is literally heartbreaking to see the White House morphing into one man's idea of what it means to lead and have power and leave an indelible mark on this national treasure.

Please do the right thing as this new build begins. Do it with sustainability in mind and know that we are all watching with tentative hope and heavy hearts.

Thank you.

TO: The National Capital Planning Commission

Remember the East Wing of the White House — the one with history in every beam, the one generations trusted as part of the nation's living memory. Now imagine it stripped away and replaced with a billionaire-funded ballroom. That is what stands before you now. The National Trust for Historic Preservation is fighting this because they fight for the people's house — for the stories, sacrifices, and identity held within those walls.

To erase America's history without the voice of its citizens is not just misguided; it is a travesty. Billionaires pushing this so-called "East Wing Modernization" do not speak for the millions who cherish our shared past. You must speak for the rest of the country. Cancel this project. Restore what can still be saved of the East Wing's original design. And those who broke the law in its destruction must be brought before the courts. Standing firm now will honor the nation, protect its heritage, and America will remember your courage.

Name: Thomas Forte
Date: February 24, 2026 10:28:06 am

I am writing to express my deep concern and disappointment regarding the proposed renovation of the White House East Wing. As a citizen who believes strongly in the symbolic and historic importance of this building, I feel compelled to speak up.

The White House has long stood as a physical expression of our shared national story. It is more than an address or a workplace for any single administration—it is the People's House, a place that embodies continuity, democratic values, and the collective memory of generations. Any major alteration to its historic fabric deserves the highest level of scrutiny, transparency, and public engagement.

Recent reporting has raised serious questions about the scale and intent of the proposed changes, and many Americans—myself included—are alarmed by the possibility that significant portions of the East Wing's historic character may be lost. Regardless of who occupies the Oval Office, no administration should unilaterally reshape a national landmark in ways that diminish its heritage or alter its identity for future generations.

I urge the Commission to exercise its full authority to protect the integrity of this irreplaceable site. The public deserves a clear accounting of what is planned, why it is necessary, and how the historical, architectural, and cultural value of the East Wing will be preserved. The White House belongs to all of us, and decisions of this magnitude must reflect that responsibility.

Thank you for your attention to this matter and for your stewardship of our nation's most important civic spaces.

Sincerely,
Thomas and Margaret Forte

Date: February 24, 2026 10:31:49 am

Hello NCPC,
I am writing this morning about the East Wing Modernization Project, also known as Trump's ballroom. I believe that the design, as currently proposed, should not be allowed to proceed. It is far too large in comparison with the actual White House. The Standards for Rehabilitation require that additions to historic structures be smaller and distinct from the historic building. This would instead dwarf the White House, signaling to the world that we are more preoccupied by theatrics than official government business.
Please stop this project.
Thank you,
Alex

Name: John Gerth

Apologies for commenting so late in the cycle, but my understanding is that even you were not informed prior to the demolition.

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Colin Kimbrell
Date: February 24, 2026 10:50:15 am

Dear NCPC,

I am writing today to express my opposition to the plans to construct a ballroom on the site that was formerly occupied by the East Wing of the White House. The proposed ballroom seems grossly out of scale with the existing structure, creating an appearance that would be laughable if not for the importance of the matter, and also much too large for its stated function. In the event that such a facility is genuinely needed for some additional, as-yet-undisclosed purpose, it should be constructed in a separate location and the current site should be used for a reconstructed version of the recently-demolished East Wing, matching the former design as closely as possible to preserve the form and function of this important historic structure, while incorporating unobtrusive modernizations where such would be beneficial to the structure as a whole. Perhaps a plaque or other historical marker could also be added, providing a brief summary of the history and process behind the destruction of the prior East Wing, and of any important features and/or artifacts lost in its demolition.

Thank you for your consideration in this matter.

Date: February 24, 2026 10:54:19 am

The East Wing project must be conducted with complete transparency and public engagement. Washington’s architectural heritage is a national treasure, and any new construction must honor that legacy. The design should complement—not compete with—our historic monuments. This is the people’s house, and its expansion must reflect dignity, purpose, and respect for the nation it represents.

My six grandchildren, ranging in age from 14 to 23, all learned about Rules & Regulations, and Checks and Balances as they attended public schools in our home state of Indiana.
Imagine MY surprise when they asked, “How can a president just tear down part of the White House without any permission?”
Imagine THEIR surprise when Grandma replied, “He can’t, but he just did.”

We cannot and will not allow this to continue. This “project” must now go through proper channels and be restored.

Thank you.

To the members of the National Capital Planning Commission:

I write to express my concern that the proposed "East Wing Modernization project" (aka New White House Ballroom) is absurdly out-of-scale with the existing structure and in violation of the Secretary of the Interior’s Standards for rehabilitation.

As currently proposed, the East Wing Ballroom Project comprises 90,000 square feet, almost double the 55,000 square feet of the existing White House building. In short this "addition" is larger than the original and–because of poor design choices–dwarfs the existing White House. This is significant because the Secretary of the Interior’s Standards for Rehabilitation require that additions to historic structures be subordinate in scale and size, distinct from the historic building (not replicating it), and compatible with its materials, features, and massing. If you care about the capital and follow the established standards you will inevitably come to the conclusion that the proposal must be rejected wholesale. This is not about tweaking designs, altering setbacks, or trying to find a way to salvage this project.

There is no doubt that there is a need at the White House for a gathering space that can accommodate more than the existing 200-person room. However, there is doubt that this particular design is suitable – It takes away from the original White House, dwarfs it in scale and relates it to a secondary role. Moreover, it is in direct violation of the Secretary of the Interior's established standards which for nearly six decades have guided preservation and rehabilitation efforts across the nation.

I ask that you do not allow this project to go ahead as proposed.

Thanking you for your time,

Jonathan Clancy, PhD
Executive Director
The Stickley Museum at Craftsman Farms

Date: February 24, 2026 11:22:44 am

The East Wing needs to balance the West wing and the main building (and no - do NOT make West Wing bigger). The ballroom will only be used once or twice a year - it is NOT needed and architecturally a mess.

Name: Barbara Burzillo
Date: February 24, 2026 11:36:42 am

That house belongs to the people! How dare he demolish one of our most historically significant landmarks without approval. (Not that he ever considers “due process”) Hopefully our other two branches of government will remove this wanna be king before the people do.
God bless America!

Name: Therese Martin
Date: February 24, 2026 11:40:35 am

Dear NCPC,

The extraordinary rebuilding of the White House, called here the "East Wing Modernization project" (aka New White House Ballroom) should not be allowed to go forward.

As currently proposed, the East Wing Ballroom Project comprises 90,000 square feet, almost double the 55,000 square feet of the existing White House building. The misnamed "addition" is significantly larger than the original and, at the same height as the existing White House, inappropriately dwarfs the historical building.

As you know, the Secretary of the Interior’s Standards for Rehabilitation require that additions to historic structures be subordinate in scale and size, distinct from the historic building (not replicating it), and compatible with its materials, features, and massing.

While there may be a need at the White House for a gathering space that can accommodate more than the existing 200-person room, the proposed design takes away from the original White House, dwarfs it in scale, and relegates it to a secondary role.

I ask that you do not allow this project to go ahead as proposed.

Sincerely,

Therese Martin

Date: February 24, 2026 11:56:16 am

Dear NCPC,

The Secretary of the Interior's Standards for Rehabilitation (link below) require that "The historic character of a property will be retained and preserved. The removal of distinctive materials or alteration of features, spaces and spatial relationships that characterize a property will be avoided." Additionally, "New additions, exterior alterations, or related new construction will not destroy historic materials, features, and spatial relationships that characterize the property."

The proposed "East Wing Modernization Project" is terribly out-of-scale with the existing structure. Any new design must not overshadow the original White House.

I ask that you do NOT allow this project to proceed as proposed.

Thank you,
Lisa Nelson

February 24, 2026

To whom it may concern-

Heritage Ohio, a state-wide nonprofit organization focused on historic preservation and downtown revitalization, is writing to express our serious concerns over the demolition of the East Wing of the White House, and the subsequent planned addition of a ballroom.

Our mission is to save the places that matter; build community; and live better. All of these are basic yet key parts of historic preservation, and we feel that the current projects underway at the White House are in direct opposition to the will of the preservation community.

The White House is one of the most important and historic buildings in the United States of America, and belongs to the people of the USA. The President who lives in the White House does so at the will of the citizens of the USA, and does not have the autonomy to make significant changes without public input.

Our key concerns are several, including that the entire process was done behind closed doors with no opportunity for public input and review. There has been an overwhelming amount of public opposition which should warrant reconsideration of the current plan. As the White House is a Federally owned property and subject to Federal guidelines for review, we must insist that this entire process be open and those involved be held accountable to the public.

The proposed modifications to the White House are out of scale in size and character to the historic property, and do not compliment the character defining elements of the façade. Again, there are supportive review processes in place, yet those processes were categorically excluded from any input to help guide the proposal to something more agreeable and compatible.

How we treat the White House should set the standard for how we treat other historic Federal historic landmarks nationwide, including National parks, monuments, and buildings, all of which were paid for by the people, for the people.

Several alternative plans have been proposed which would meet the needs of the Federal Government for a larger banquet hall, yet would be complimentary to the existing structure. Alternative plans would reduce the overbearing impact of the proposed current addition, would be more harmonious with the historic White House structure and surrounding environment, and would support a more balanced solution.

We are writing to urge you to delay any final action until there has been meaningful engagement with the preservation community and concerned citizens; to consider design alternatives that would meet the needs of the Government yet be complimentary to the property; and to ensure that accepted preservation standards are upheld as best practices in historic preservation for the Nation.

Sincerely,
Matthew Wiederhold
Heritage Ohio, executive director

I am writing to voice my support for the White House ballroom addition. While I do value historic buildings and especially the White House and what it represents, I do feel that buildings do evolve over time. I think it is okay to have modifications and additions. It isn't usual, and the project does not take remove the original portion of the White House, which I feel is the most important portion. There are so many examples all over the world of some of the most recognizable historic building in existence having been modified far beyond what was constructed originally. Windsor Castle was not made up of the multiple structures that it is now becoming the behemoth of a complex that it has when it was originally constructed. It grew over time, and parts of it were demolished in the process. Yet, we are left with the amazing and recognizable structure that is present today. The Louvre originally was just the small structure that is now the eastern facade, but large wings were added that dwarfed the original building making it practically a hyphen. Yet, who would criticize today what it has become. Buckingham Palace was given a large addition that completely obscured the original facade. These most recognizable of historic buildings have changed through the years in very significant ways, and that is okay, and the addition of this ballroom is okay.

I have been involved in Historical Preservation for 40 years. Here are a few observations I have garnered over the past 6 months and some entities that might be able to make the East Wing Renovation truly historical! One, the new East Wing appears to be out of scale to the rest of the White House, also is it too large for the plot? There is an app you can put on your phone to check this. Two, I would recommend various artisans and material be gathered from the 50 states. For example bricks from North Carolina, Hard Woods from Hurricane Helene storm damage. Wood-wrights and brick masons from Colonial Williamsburg and Poplar Forest. Terracotta facades an ornamentations from Gladding an McBean (Lincoln, CA). During the Chester A. Arthur administration, Tiffany Stained Glass Windows/Panels were installed in the White House. If they are still intact you might find a place for them in the new East Wing. If they need to be repaired or replicated then my friend David Judson (Judson Studios, Baldwin Park, CA) can do the job.

Finally I am an art historian and painter. If what President Trump has done to the Oval Office is any indication then the committee needs to get an American Art Historian to temper the President's Midas Touch with Jeffersonian Enlightenment. The University of Virginia, Poplar Forest and Monticello can help you with this. I am also willing to help in this regards. I started the Historical Preservation Movement in Sacramento in 1986. In those days Developers were replacing the City's historical architecture with East German title-up concrete, curtain-class bunkers. I created an apartment house that used artifacts from historical building the city was tearing down and incorporated them in an on the tilt-up concrete bunkers that sat in historical neighborhoods. My concept received the "Governor's Award" for best design in 1996. Respectfully, Thomas Mark Powers, MFA

If you need a large ballroom in a city with lots of large rooms, put the thing underground and restore the balance that was in the east and west Wing in Central part of the White House.

Name: Nicole Rasmussen
Date: February 24, 2026 1:06:09 pm

I oppose the spending of $300 million on a project which was initiated without the proper authorization, permits, or design review. It is not a modernization but rather, a complete destruction of American history. I want this project canceled, the East Wing rebuilt and restored to its formal design. No one is above the law and to permit this project to go ahead without penalizing. Those who broke the law would be an affront to all law-abiding Americans.

Name: Kathryn Rile
Date: February 24, 2026 1:06:49 pm

I strongly oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history.

Cancel this project, and rebuild and restore the East Wing to its former design. This should not be paid for by the American people, but rather by the billionaire who ordered its unlawful destruction.

No one is above the law, and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Martha Demetrion
Date: February 24, 2026 1:09:55 pm

The East Wing "modernization" project must be conducted with complete transparency and public engagement. Washington’s architectural heritage is a national treasure, and any new construction must honor that legacy. The design should complement—not compete with—our historic monuments. This is the people’s house, and its expansion must reflect dignity, purpose, and respect for the nation it represents.

Name: Kim Osborn
Date: February 24, 2026 1:11:47 pm

The East Wing does not need modernization. Donald John Trump's Ballroom Project is a travesty. It endangers US national security in service of his ego. Demolition began without Congressional approval. That should have been a signal for the 25th Amendment to be enacted. The East Wing is a special historical site that should be restored to its 2024 condition ASAP.

Name: Michael Campo
Date: February 24, 2026 1:12:10 pm

I think the ballroom is completely unnecessary and should not be built. Furthermore, it stinks that the East Wing was torn down. This whole thing has been a nightmare.

Name: Edward E Mabrey
Date: February 24, 2026 1:12:56 pm

A 90,000-square foot ballroom addition on the White House grounds is all out of proportion and should be drastically scaled back. White House architect James Hoban would have been appalled to see his original design so dwarfed by a ballroom of this size.

Name: Paul Vetter
Date: February 24, 2026 1:15:14 pm

The project has not passed through necessary statutory reviews of proposed constructions on federally-controlled properties, and we all know it. The project has begun with an attitude of "shoot first, ask questions later," typical of the types of crooked real-estate development which blights so much of our country to the benefit of only a tiny number of affluent jerks.
The project seems to have very poor definition and has not made any serious plans or drawings available for perusal by the public.
The project seems to have been performed without adequate review of environmental impacts.
I am particularly disturbed by reports that demolition materials have been improperly handled and dumped on publicly used lands without proper oversight.
From available sketches and descriptions of the project, the proposed construction seems to have very little benefit to the public -- there seems to be little need to have a large event-type entertainment space attached to the White House. The sketches seem to present a construction that is out of proportion to the remaining White House structure and footprint, and is architecturally only dimly related to the remaining structure. The proposed construction seems to be animated by an aesthetic of Monumentalism, which is inappropriate for the purpose. Despite Mr. Trump's opinions and inflated ego, the United States is not an autocracy or monarchy, and we do not need or want a grand ballroom where potentates pay obeisance to the despot. There will come a day when Mr. Trump is no longer President of the United States, and should the proposed construction go forward, we will be stuck with a ridiculous adhesion to what is supposedly the residence and offices of the President of our democracy. The proposed designs are risible, ugly, vulgar, and clearly intended to gratify the ego of a single person. They are out of character with the needs of the office of the President, and have an unmistakably dictatorial look and purpose. This whole undertaking should never have begun, and I urge any appropriate bodies to reject further plans on construction of what used to be the East Wing of the White House, until such time as competent and neutral review can be undertaken. I see no indication that any of the review of this project has not been impacted by opinions of toadies and lickspittles who serve at the whim of the current President, and more is the shame.

Name: Theresa Cooney
Date: February 24, 2026 1:15:36 pm

I am writing to express my concerns regarding the restoration of the East Wing and the proposed new addition. I hope these developments will not dwarf the existing structures or compromise their historical integrity.

Based on the design illustrations I have seen, the new addition appears to be out of scale and does not align with the architectural style of the White House. The current designs do not reflect the simple dignity or the historical period of the original building. Furthermore, I believe an excessively large and elaborate structure—reminiscent of European monarchical architecture—is inappropriate for this site. This country was founded on a separation from such kingdoms, and our architecture should reflect those democratic values rather than emulating styles built to glorify royalty.

I hope you will consider these perspectives as the project moves forward.

Name: Kurt Feichtmeir
Date: February 24, 2026 1:16:23 pm

Dear NCPC,

President Trump's blatant disregard for historic preservation norms is appalling. His demolition of the White House East Wing and his plans to replace it with an out-of-scale structure are incompatible with appropriate consideration of architectural integrity. It's time to remind the president that the nation's capital is not his to change on a whim. He must be guided by established standards. I urge you to demand that the proposed project be stopped and carefully reviewed by historic preservation planners.

Thank you for protecting our capital's history.

Name: Leigh Chapman
Date: February 24, 2026 1:16:39 pm

This project has several features that I cannot support. The redesigned East Wing simply dwarfs the rest of the White House and looks out of place, asymmetric. It offends the eye and creates a very imbalanced look (South Elevation). The size of the redesigned wing overpowers the strength projected by the White House itself, creating an overall site that looks haphazard and ill-planned. The majesty of the White House is depleted as seen on p. A27 of the East Wing Modernization Project Submission Materials. The gigantic portico of the new East Wing becomes the focal point, which is shame.

I do not agree with the outsized redesigned East Wing.

Name: Karen Good
Date: February 24, 2026 1:20:37 pm

I am deeply disappointed in the actions of the current administration in completely ignoring historic preservation and public participation standards as related to the East Wing Modernization Project. The White House is a significant historic landmark that is intended to be a resource for generations - both past generations and future generations of Americans. Demolishing an entire wing of the White House with no public input or proactive communication is an act of criminal vandalism to the White House and the American people. This project should be halted indefinitely to allow for due process and public input from not just the public in DC, but the nation as a whole as this is theoretically the showplace and cradle of American Democracy and the People's House. It is also critical for the elements that have been lost to be documented and provide appropriate interpretive signage and documentation of what was lost as long as an explanation of the reasons why it was demolished with no due process. In addition a architect with standing in the National Trust for Historic Preservation and other experts in architecture and historic preservation should be including in the design & planning moving forward.
Thank you for offing an opportunity to provide input.

Name: Britta Nelson
Date: February 24, 2026 1:25:52 pm

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history.

The White House is a National Historic Landmark and a National Park, owned by the American people and home to presidents since 1800. The current president at any given time is not the owner of the property or the structures thereon; the president is a temporary tenant whose interventions are limited by law and by respect for the people of the United States.

The demolition of the historic East Wing without review, without permits and without Congressional oversight is clearly a violation of the law. In addition, it is a violation of the trust of the American people who were given no opportunity to comment on what should have been presented as a proposal and not as a violent fait accompli.

I urge the National Capital Planning Commission to require reconstruction of the East Wing in keeping with its historic design and size. Anything constructed on the demolition site going forward must be compatible in form and subordinate in scale to the original structure of the Executive Mansion.

Name: Harold MacLaughlin
Date: February 24, 2026 1:25:57 pm

I was unhappy to hear of the presidential commission to renovate the handsome White House.
I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review.
It is not a modernization project but rather a complete razing of American history.

I want this project canceled, and the East Wing rebuilt and restored to its former design.

No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

The proposed modernization appears to be not a tribute to our capital but a fulfillment of an unrefined ego.
I beg you to rethink such a destruction of tradition without input from a greater panel of experts and artists.

Name: Bailey Van Hook
Date: February 24, 2026 1:29:05 pm

Dear NCPC,

I write to express my concern that the proposed "East Wing Modernization project" (aka New White House Ballroom) is way out-of-scale with the existing structure.

As currently proposed, the East Wing Ballroom Project comprises 90,000 square feet, almost double the 55,000 square feet of the existing White House building. No amount of tweaking its design (except making it smaller) will change the fact that the "addition" is larger than the original. In addition, by making such a large mass the exact same height as the existing White House further dwarfs it.

This is significant because the Secretary of the Interior's Standards for Rehabilitation require that additions to historic structures be subordinate in scale and size, distinct from the historic building (not replicating it), and compatible with its materials, features, and massing.

There is no doubt that there is a need at the White House for a gathering space that can accommodate more than the existing 200-person room. They should not have to put up tents for state dinners. However, there is doubt that this particular design is suitable – It takes away from the original White House, dwarfs it in scale and relates it to a secondary role.

I ask that you do not allow this project to go ahead as proposed.

Thanking you for your time,

Bailey Van Hook

The White House belongs to the American people, not any one president. Making changes to this historic property must be carefully conceived and executed. Rushing to demolish parts of this building, for whatever reason, is never the answer. We owe it to future generations to preserve our history and thoughtfully update any building of this historic nature. None of this seems to be considered in the current occupants plans. Please work with the historical experts on this building to insure new construction is done appropriately, and not at the direction of some one's whim.

Name: Jenna Baiocchi
Date: February 24, 2026 1:35:43 pm

I am writing to express my deep concern regarding the President's recent decision to proceed with the demolition of the East Wing in order to construct a very large ballroom. While I recognize that updates and changes are sometimes proposed to meet modern needs, the manner in which this action has been carried out raises serious procedural and preservation concerns.

The White House is more than a residence or event venue—it is a living symbol of our nation’s history. Since completion in 1800, it has served as both the President's home and a tangible link to generations of American leadership. The East Wing, added in the early twentieth century and refined over successive administrations, carries its own historical and architectural significance. Alterations to such an iconic structure demand transparency, expert review, and strict adherence to established preservation laws and review processes.

Organizations such as the National Capital Planning Commission, the National Trust for Historic Preservation, and other preservation authorities exist precisely to ensure that changes to historic properties are approached thoughtfully and lawfully. Circumventing established procedures not only undermines public trust but also sets a troubling precedent for how nationally significant landmarks may be treated in the future. Even the appearance of bypassing proper channels erodes confidence in the stewardship of our shared heritage.

History is not an obstacle to progress; it is the foundation upon which responsible progress is built. Any substantial modification to a site as significant as the White House should involve consultation with preservation experts, public disclosure, and compliance with all applicable federal preservation statutes and review boards. Respect for process is inseparable from respect for history itself.

I urge the National Capital Planning Commission to review this matter carefully, advocate for full transparency, and reaffirm the importance of established preservation procedures. Our national landmarks deserve stewardship that honors both their past and the rule of law.

Thank you for your continued dedication to protecting America’s historic treasures.

The scale of the proposed plans for a new ballroom show a structure that overwhelms the historic existing profile of. the White House. The historic landscape (the elliptical drive designed by the Olmsted Brothers) is also ruined without any input from a landscape architect. While modernization may be needed, the building simply does not need to be this big. It is inappropriate…. This is the White House, Not the White Palace. It shouldn’t mirror Versailles. Additionally the entire review process has lacked transparency and has been rushed. Like the old wing itself, the plan has been bulldozed through.

First time submitting a comment. The destruction of the People's East Wing, among other things that this current admin has demolished with any over site, is heartbreaking. As a symbol of the American People, the White House is the People's house, it does not belong to any admin. The gross neglect for history, and the ordinances of rule have been over looked, or in my opinion disregarded. This admin seems to do whatever they feel they want to do and sadly congress is allowing it, or one side of congress. As I had wanted to take my family there on a trip, this White House is not the one I would let my children be in, or around. If the proper rules of request where submitted and approved then that would be one thing, yet they were not. We as the People should not have had to watch a piece of history be demolished, not remodeled, demolished on live TV. Yet I feel that is also a symbol of what this admin has done to our country. Rules do not apply here, and it is incredibly sickening to watch. Please restore the East Wing.

Dear NCPC,

I write to express my concern that the proposed "East Wing Modernization project" (aka New White House Ballroom) is violently out-of-scale with the existing structure.

As currently proposed, the East Wing Ballroom Project comprises 90,000 square feet, almost double the 55,000 square feet of the existing White House building. No amount of tweaking its design (except making it smaller) will change the fact that the "addition" is larger than the original. In addition, by making such a large mass the exact same height as the existing White House further dwarfs it.

This is significant because the Secretary of the Interior’s Standards for Rehabilitation require that additions to historic structures be subordinate in scale and size, distinct from the historic building (not replicating it), and compatible with its materials, features, and massing.

There is no doubt that there is a need at the White House for a gathering space that can accommodate more than the existing 200-person room. However, there is doubt that this particular design is suitable – It takes away from the original White House, dwarfs it in scale, and relegates it to a secondary role.

I ask that you do not allow this project to go ahead as proposed.

Thanking you for your time,

Natalie

To whom it may concern:

As a preservation professional and construction specialist, I have many concerns about the proposed expansion of the east wing of the White House. It does not appear that full a design

review and competitive bidding process was performed following usual government procedures, nor does it seem as though there was full mitigation of hazardous materials such as asbestos before starting demolition. The loss of historic finishes and furnishings as well as the historic use of the space makes the sudden demolition of the east wing all the more tragic.

At the Cleveland Restoration Society we follow basic guidelines for additions and alterations of historic homes and structures as set forth by the National Park Service Standards for Historic Rehabilitation, and any alteration to a home that changes the historic and architectural character of the street-facing elevations is typically not permitted when projects are financed our Heritage Home Program Loans because they are funded in part by the local government. I would expect equal or better standards for a prominent government building and a project that utilizes tax dollars.

As for the new design, the overall scale of the project dwarfs the original structure and significantly alters the architectural character of the site. One could also argue that the project utilizes tax dollars to create a facility that duplicates the function of multiple other facilities in the area. Therefore, I do not approve of the current design as submitted.

Sincerely,
Doreen Katz
Lead Construction Specialist

Date: February 24, 2026 2:13:57 pm

The Secretary of the Interior’s Standards for Rehabilitation offer clear guidance for construction projects such as this one that affect historic properties. 36 C.F.R.§ 68.1 et seq.

That the existing East Wing was demolished without regard to these standards or any reasonable decision-making process, and instead exercised for the hubris of the current president, is moot at this point, but cannot be disregarded. This was never intended as a modernization project, but as a pet project of a single individual. In short, the current height and footprint of the proposed structure are grossly out of proportion to the other buildings of this historic "People's House" complex and are intended to intimidate and impress rather than represent the spirit of our nation, our constitution, and the subservience of the Executive branch to the will of the people.

That some sort of structure to replace the former East Wing is now inevitable, I recommend the following restrictions on any design:

* Maximum footprint: Less than the Executive Residence.

* Maximum height: proportional to the West Wing and substantially lower than the Executive Residence.

* Historic views should not be impeded.

* Ensure that the Executive Residence remains the focal point of the complex (East and West wings are proportional and balance the facade from Pennsylvania Avenue)

* Retain the architectural style of the Executive Residence and the West Wing.

It is imperative to vet the design and construction of this replacement by following established laws and guidelines via this agency. The president can have an opinion, but this is not his house to do with as he pleases. Bending to his preferences over the preferences of the people he serves sets a precedent for future presidents to do what they want with a building they are only occupying as a privilege granted to them by the people. He or she may use but not abuse that privilege.

I wish to register my objections to what has happened with the East Wing of the White House and what has been proposed.

The current administration has not followed the required procedures for making a change on a building that is a National Historic Landmark, beginning with demolition of the East Wing as it was when the White House was designated a a National Historic Landmark. In addition, there has been no review of plans for what is to go in the place of the demolished East Wing. As a building complex that belongs to the people of the United States, not to the President, public comment about not only what may go up but whether or not to take down part of a National Historic Landmark should have been sought and approval given for the project as a whole.

Speaking to what plans have been put out by the current administration for what they want to build, almost everything about them seems inappropriate. The exterior size of the proposed East Wing/White House State Ballroom visually dwarfs the rest of the White House rather than being a balanced neoclassic space with the residence as the main element, the focal point. As for the interior space of the proposed East Wing/White House State Ballroom, the images that have been released show it to be nothing more than a glorified hotel conference room. Except for the occasional large state dinner or similar event, it would be wasted space. In addition, with the tall ceilings and large windows, it will be difficult and expensive to maintain, both in terms of heating and cooling as well as regular maintenance, like washing windows, painting, etc.

Buildings are living, changing entities, and the White House has gone through several changes since it was built in 1800. However, those changes should be done with the advice and consent of the people who own the house, the American people, and should appropriate to the White House complex as a whole. Neither how the changes have begin nor the proposed changes meet these criteria.

We need a ballroom, how does it look to host events with dignitaries from all over the world in a tent with porta potties! The construction will be done professionally & add to the White House, much better project than a basketball court. It has been started what are you going to do make him put it back the way it was, that would just be a waste of money & stupid.

Name: John Hayes
Date: February 24, 2026 2:36:08 pm

Please do at least these three things

1. Press the new building into the ground by one story to retain the primacy of the White House. Because of the sloping site, the Ballroom floor will still be well above grade

2 Remove the portico st the South end. There is no entrance to the building at that end so it is a contradiction. Removing it will reduce the length and bulk of the building and the crowding shown on the landscape plan

3 Restudy the East Portico. Why does this have fluted columns when the White House has smooth columns spaced much further apart. Why are the capitals different?

Name: Dana Jacob
Date: February 24, 2026 2:37:06 pm

This comment opposes the current proposed design for a new East Wing ballroom because it is outsized and will detract from the existing White House by reducing its sense of dignity and historical importance. The new structure may not be taller than balustrade of the White House and parts of it may be obscured by trees, but the ballroom's overwhelming presence will not be disguised.

The "People's House" was never intended to exude opulence. Attempting to do so now by way of an attached, oversized ballroom is simply silly.

In my view, the East Wing design should be reduced to reasonable proportions.

Re: White House Complex, 1600 Pennsylvania Avenue, NW, Washington, DC.
East Wing modernization and ballroom addition. Concept.

Dear Mr. Cook:

I believe the East Wing was demolished in haste and there was no pressing reason to replace it. I suggest the the East Wing be rebuilt in its entirety. Non-visible structural details can of course be changed to accommodate new building codes and materials. Otherwise I would like it be an identical copy of the original East Wing.

Thank you
David Cuthbert, Pahoa, Hawaii

I would like to protest in the strongest possible terms my objection to the planned East Wing Ballroom. It matters not to me that it's supposedly paid for by private funds, what matters is that it was never Mr Trump's right to order the demolition, and it's not his right to order a new building put up without FIRST going thru proper channels. It's my hope that the original wing will be rebuilt in its original design and replaced as it once was. The majority of Americans disapprove of the demolition and the ballroom, and that should be the deciding factor. Please do not let this happen!

Donald Trump destroyed the East Wing, without Congressional approval on a Monday, just days after the successful No King demonstrations throughout the United States. No plans for demolition nor reconstruction were approved. In fact, it appears he had no plans at all in place when he ordered the East Wing torn down. He just knew he wanted a big ballroom! He carried out this despicable act to demonstrate his power to achieve destruction, just like Kings of centuries ago. Trump refuses to see himself as an elected official of the United States whose responsibility is to citizens of this country and instead, sees himself as our Supreme Ruler who has unlimited power. This evil man must be stopped.

Donald Trump has been President for only one year, since January 2025, but during this time 2026, his presidency has been characterized by critics as displaying reckless behavior through aggressive rhetoric, defiance of institutional norms, disruptive policy shifts and personnel vendettas against individuals, threats against political opponents, the handling of classified documents, significant deregulation, and actions seen as weakening democratic institutions and international alliances. He is interested only in what benefits his family and himself. The exceptionally large ballroom he envisions and his atrocious decorating style are not compatible with the rest of the White House.

He had been vocal that all costs associated with ithe East Wing renovations and ballroom will be paid for with donations. In reality his methods for acquiring private donations are payoffs by wealthy individual and corporations in return for his favors. Several large corporations who pledged millions of dollars for this pet project of his are concurrently laying off thousands of employees, saving money to offset their contributions. These corporations' employees are angry, morale is beyond bad and productivity is seriously suffering. Is this manipulation representative of a leader? Certainly not!

He has also been very vocal about the golden arch he plans to build. Not only is an arch also unnecessary it would restrict views of certain monuments and ruin the well planned aesthetics of our Nation's Capital.

Trump, instead of being their Commander in Chief, treats US Military personnel like they are his toy soldiers. One day he discusses sending them to Greenland to take over that country, another day they are going to Sierras, a few days later he had them invading Iran and, send troops to Africa and it never ends! Does he know the size of our military? He's going to govern Venezuela but he can't even lead the country he was elected to serve.

Trump is passing through Washington despite his belief that he should be President for Life. He's going to live in the White House, at most, another 3 years. I pray he hasn't destroyed all the wonderful things about our glorious country by the time he leaves. Let us not allow him to Trumpify the White House, destroy our history or allow his name or likeness to be displayed on anything of significance on the Inited States.

Date: February 24, 2026 2:51:34 pm

Please do your best to stop the ballroom project. It is being conducted without approval by the people who own it and the offices that protect it. The building has legal protections and the president is known in his past to do his best to get around rules and regulations. I am retired from the NJDEP and have first hand knowledge about how he tried to get around environmental protections for areas he wanted to destroy by development. Regulations stopped him from doing his anti environmental views trying to stop windmills that could be seen from his Golf course in Scotland and he couldn’t find a way around it no matter how much money he used. Please stop this ridiculous project now! He needs to follow protocol first just like everyone else.

Name: Michael Ratway
Date: February 24, 2026 2:52:50 pm

My wife, Marie Nugent, and I are completely opposed to the project due to its size and scale. Please see additional comments in the attached pdf file, which contains two figures further making our point.

RE White House construction.
I am horrified at what has happened at the White House- the total disrespect for the historical importance of the building, not to. to mention the illegal of tearing down a historical building without getting appropiate permission.

I am deeply concerned that, as proposed, the new construction
will permanently disrupt the carefully balanced classical design of the White
House complex, be in horrible taste and be an eyesore- and an embarrassment to the USA.

Please do not let this abomination continue.

Thank you for your attention to this matter.
Grace Hutchinson
USA. Citizen.

Date: February 24, 2026 3:01:53 pm

To whom it may concern,

I am writing as a citizen concerned about the future of the White House - the people's house.

I am dismayed and disappointed that the demolition of the historic East Wing of the White House, one of our National Parks properties and belonging to the people of the United States proceeded without consultation with and approval from the National Capitol Planning Commission and other pertinent organizations, and of the general population.

I oppose the building of a ballroom on the site, especially one that would be out of scale with the size and history of the White House itself. I think I share the desire of the majority of citizens that since the old East Wing was destroyed, a new East Wing that is in keeping with the history and scale of the White House should be rebuilt instead, after careful and thoughtful consideration.

I am also opposed to the exorbitant cost of the currently proposed ballroom and I am concerned that by soliciting private sources of funding for the currently proposed project, there is a transactional relationship being created whereby private entities would buy the favor of the current administration by contributing. Instead, for an historically and scale-appropriate rebuilding of the East Wing, taxpayers and citizens, should be made fully aware of the cost and sources of the funding.

There should be more robust oversight going forward regarding proposed building, demolition, remodeling and rebuilding of monuments and other historical buildings in Washington DC and regardless of who the occupant of the White House is, that person should not be allowed to proceed unilaterally unless such buildings or monuments were created without the necessary oversight in the first place. The buildings and monuments in Washington DC belong to the people of the United States after all.

Thank you for your attention to this matter,

Stefan Gabriel

Dear NCPC,

I write to express my concerns regarding the proposed "East Wing Modernization project" (aka New White House Ballroom), specifically regarding problematic aspects of design related to the scale of the "renovated" structure.

If executed according to the current proposal, the East Wing Ballroom Project will be 90,000 square feet, almost double the 55,000 square feet of the existing White House building. This size is drastically out of step with the current building. This outsize "addition" relative to the comparatively modest "original" will be exacerbated by the plan to make the structures the same height. Such a large mass as the planned additional will dwarf the existing structure, and will, in time, supplant it as a focal point of one of our nation's most significant political landmarks.

Moreover, the proposed ballroom design seems to violate the Secretary of the Interior's Standards for Rehabilitation, which require that additions to historic structures be subordinate in scale and size, distinct from the historic building (not replicating it), and compatible with its materials, features, and massing.

The White House may well need a gathering space that can accommodate more than the existing 200-person room. However, the design now proposed goes well beyond a remedy to an issue of capacity. If allowed to go forward as planned, this project will become not a modernization of a portion of the White House, but a reconfiguration that relegates the White House core as a vaunted symbol of democracy to a secondary role.

I respectfully ask that you do not allow this project to go ahead as proposed.

Thanking you for your time,

Dr. Elizabeth Pugliano
Art Historian
University of Colorado Denver

The East Wing belongs to the People, not the president. The reckless destruction of the former building should be investigated as a criminal offense for which the president should be prosecuted. The reconstruction should be conducted in accordance with applicable laws and regulations, with strong cooperation with diverse stakeholders.

Name: Erin Whittaker
Date: February 24, 2026 3:13:39 pm

No! The gaudy, expensive, and wasteful project doesn't reflect American values. As a US citizen and veteran of the military, I want my president to follow the policy for changes to buildings and monuments. I am not opposed to changes and upgrades, but I want my president and government to follow policy rules for how these changes are proposed and made so that money isn't wasted. President Trump ran for president on being efficient and not wasting tax payer dollars. This project flies in the face of your promise. I don't want my government to build the Peoples' buildings and monuments to look like gaudy tacky structures that idolize dictators. Stop!

Name: Lacey Logan
Date: February 24, 2026 3:13:47 pm

To National Capital Planning Commission,

The White House is the People's House. It is not the personal property of the President nor does his garish taste reflect that of USA.

Design guidelines for the White House and President's Park were issued by the National Park Service in 1997. "The White House and President's Park are first and foremost a Public Trust," and are important features of our national heritage and should not be gutted by an individual administration regardless of party.

The current proposed project foot print is 90,000 square feet (SF) including a 22,000 SF, 1,000-person ballroom is totally out of scale with The White House which is only 55,000 square feet (on multiple levels not all on ground floor). Although I recognize the need to build a dinner space rather than pitching a tent every time a dinner is to be held, the project is grossly out of scale to the White House.

There are extreme concerns regarding massing, height, scale aka proportionality and design harmony. Please stop this build and allow a non-partisan historic review occur.

Sincerely,
Lacey Logan
Concerned Citizen

Name: Patricia Tanttila
Date: February 24, 2026 3:24:56 pm

We were horrified by the hasty destruction of the East Wing of the White House, with no input from the National Trust for Historic Preservation, no input from Congress or the citizens of the US, and no environmental impact considerations. Now that it is destroyed, we believe that it is necessary to rebuild a wing that will be aesthetically appropriate for that space. A huge grandiose ballroom would be an eyesore. The modernization of the wing should be done with the guidance of the National Trust for Historic Preservation and be not only done aesthetically but also with careful consideration of the environmental impact. It needs to be done within the framework of the laws and regulations of our country, our national parks, and the zoning of DC.
Thank you,
Patricia Tanttila and Daniel Yansura

Date: February 24, 2026 3:26:35 pm

I strongly object to construction of the East Wing replacement as currently designed. For the ballroom to be larger than the White House is objectionable. The scale of any redevelopment for a historic property should not overwhelm the important aspects of the historic structure(s). In this case, the proposed ballroom has too great a height and overall size for its location next to the White House. It is imperative that a smaller design be considered. Or put more of the proposed ballroom below grade. Or move it away from the White House.

Name: Dawn Todd
Date: February 24, 2026 3:34:02 pm

I oppose the spending of $300 million on this project, I feel it is a vanity project for one person. It was was initiated without the proper authorization, permits, or design review. The fact that it was allowed to proceed as far as it has is criminal in my opinion. It is not something I feel was ever in the minds of the original builders, or it would have been put there long before now. The fact that a whole section of the people's White House has now been destroyed, is a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans. Thank you for listening to my thoughts.

Sincerely,
Dawn Todd

This is a huge project that is making a huge change to our national White House - yet it has received almost *no* consideration by the public before going ahead! This project should be considered by Congress and by the residents of Washington, DC, who will have to live with the fallout. It seems simply to be a vanity project by our current President.

Please show the public benefit of the project before authorizing it!

Also, I do not know the law on this point, but *private financing* seems wrong to me - an open invitation to corruption. Let it be publicly financed, once it is shown that it has public benefit and has been approved by the American public through our ;awful representation.

Thank you!

Reid

Date: February 24, 2026 4:01:03 pm

As someone who is both a longtime resident of the DC area and respectful of its role as the nation's capital, it is important that our city projects the image of the world-class seat of democracy that it should be. Rushing to desecrate the White House with a personal vanity project as the current president is doing does not align with that. Any changes or renovations to the structure need to fit with the building's historical character.

The East Wing should be restored to its former look. The "People's House" does not belong to any one person and should not exist as a memorial to any of its singular but transient residents. This needs to be a building that stands the test of time and functions as a symbol of democracy, not as a continuous reminder of one man's overinflated ego and the damage and division sown in our nation writ large.

Name: Kristine Hanson

The current plan must be stopped. None of this was properly vetted or authorized. The space must comply with the historical intent that enforces and supports the Constitutional mandate of our government not the social whim of one individual.

Name: Kimberly Pickens
Date: February 24, 2026 4:12:27 pm

My husband, Ernest Gibson, and I oppose the spending of any amount on this project, which was initiated without the proper authorization, permits, or design review. We do not consider it a modernization project but rather a vanity project, grossly oversized and totally out of proportion to the aesthetics of our beautiful White House. We want this project canceled, and the East Wing rebuilt to complement the West Wing. We understand the importance of a ballroom and would support a project to build one of proper proportions; but this eyesore is not it. And please don't tell us no taxpayer money will go into this project. Even if we believed that, which we don't, taxpayers will forever be on the hook for its maintenance and utilities, not to mention the likely extensive and very expensive repairs that will have to be made once the actual shoddiness of this hastily constructed monstrosity become known. This entire project was done in an underhanded, illegal, and chaotic manner. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding and tax-paying Americans.

Name: HUGH ECKERT
Date: February 24, 2026 4:24:19 pm

I am writing to express my concern about the demolition of the East Wing in order to construct a ballroom. The proposed addition is grossly out of scale with the rest of the White House- nearly twice its size. There's no way to fix this except stopping the project and restoring things to the way they were. The demolition itself was horrifying, especially because the decision to do it was made by executive fiat without public input. The White House belongs to the people of the United State, not to the President.

The way this has been handled is disrespectful and disgusting. Restore the East Wing and leave it be.

sincerely,
Hugh Eckert

Aloha,
The addition of a 90,000 square foot ballroom to the East Wing will overwhelm the Executive Residence, which is only 55,000 square feet. It will destroy the thoughtfully balanced classical design of the White House complex.

The Secretary of the Interior's Standards for Rehabilitation offer clear guidance for construction projects such as this one that affect historic properties. 36 C.F.R. § 68.1 et seq. The Standards provide that new additions should not destroy the historic fabric of the property, and that the new work should be "compatible with the historic materials, features, size, scale and proportion, and massing" of the existing structure. Id. § 68.3(a)(9)-(10). To that end, the National Park Service's Comprehensive Design Plan for the White House, issued in 2000, recognized the need for expanded event space — yet proposed locating such facilities in "new underground structures" so as to "minimize any new intrusions on the surface" and ensure that "the integrity and character-defining features of the White House and its grounds … are preserved and maintained."1

Therefore, any proposed new addition to the White House complex should accommodate and respect the primary historic importance of the original Executive Residence. To do so here, the ballroom addition should be subordinate in scale to the Executive Residence.

Please consider the following:

• Reduce Overall Size and Visibility. The size, volume, and massing of the proposed new construction (90,000 square feet) should be reduced or disguised (such as by placing portions underground, as recommended in the 2000 Comprehensive Design Plan) so the new building appears smaller than the Executive Residence itself (55,000 square feet). Its height should also be substantially lower than the Executive Residence.
• Reduce Footprint and Protect Key Views. The footprint of the proposed building should not extend past the existing south-facing façade of the historic Treasury Building, nor further interrupt the views of the Executive Residence from Pennsylvania Avenue.
• Respect the Established Classical Composition of the White House Complex. The new addition should retain the carefully balanced classical design of the White House complex with its two smaller, lower, and substantially symmetrical East and West Wings.
• Preserve the Historic East Facade of the Executive Residence. The connection of the colonnade to the Executive Residence should protect and preserve the original historic materials of the east façade of the Executive Residence and should not cover or demolish the existing fenestration and detailing of the east façade.
• Ensure that the Proposed South-facing Portico Is Subordinate in Scale to the White House South Portico. The proposed portico on the south façade should be smaller and less grand in scale than the existing portico on the south façade of the Executive Residence.
Respectfully, the CFA should be urged to consider these recommendations. Doing so will help ensure that the project both honors the exceptional historic significance of

the White House complex and acknowledges the investment that the American people have in the preservation of this beloved place.

Thank you for your consideration of these suggestions.

Sincerely,
Eva Andrus-Price
A concerend and loyal citizen of the Unites States of America and it's constitution.

I think we can all agree that the demolition of the East Wing should never have happened as there was not approval by all of the proper authorities.

Because I truly don't see how a way to make a ballroom in keeping with the scale and symmetry of the White House, I think the ballroom project should be scrapped and the East Wing rebuilt as it was.
The White House has never had a ballroom. It's been 234 years-- I don't think it needs one now.
And doesn't the White House have authorization to host dinners in one of the MANY Smithsonian buildings? Let's use the amazing cultural institutions that we already have for larger occasions.

Name: Amy Shock
Date: February 24, 2026 4:56:21 pm

This project should not happen unless it follows all legal requirements and approvals. It’s absolutely unnecessary and a huge waste of taxpayer money.

Name: Renee Ramsey

Please consider the guidelines outlined in the attached letter below from the National Trust for Historic Preservation. I agree whole heartedly with their comments concerning the current proposal by the Office of the Executive Residence (EXR) for the construction of 90,000 square-foot ballroom addition to the White House. I urge you to protect the historic White House complex for future generations.

Date: February 24, 2026 5:07:51 pm

To Whom It May Concern:

I am very disturbed at the destruction of the East Wing, which seems to have happened completely outside the usual approval process. Ignoring this process is an unfortunate breach.

The Secretary of the Interior’s Standards for Rehabilitation offer clear guidance for construction projects such as this one that affect historic properties. 36 C.F.R. § 68.1 et seq. The Standards provide that new additions should not destroy the historic fabric of the property, and that the new work should be “compatible with the historic materials, features, size, scale and proportion, and massing” of the existing structure.

Any proposed new addition to the White House complex should accommodate and respect the primary historic importance of the original Executive Residence. The ballroom addition should be subordinate in scale to the Executive Residence.

I suggest reducing the size of the proposed project. It is currently out of scale, and destroys the look of the White House.

This house is not the private property of the president and should never have been treated as such.

Sincerely,

Jennifer Barber

I oppose the spending of $300+ million (quid pro quo for corporate tax cuts) on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law is unethical.

If the Founders wanted Versailles, they would have built it even grander…this is the most important house in America, the equivalent to the Petit Trianon at Versailles - intentionally designed with Dignity, Symmetry and an avowed intent to state that WE, THE PEOPLE ARE AMERICA, and thus its scale brings Humanity to THE PEOPLE’S HOUSE!
THE DESECRATION OUR HISTORY MUST BE STOPPED - the current occupant must be reminded this is THE PEOPLE’S HOUSE, not his own to desecrate at will.

I'm an old grandmother. In all my years, living through many administrations I totally believed the President temporarily occupied the people's house And that the White House is a national historic landmark, part of our National Park Service.
I am shocked, appalled and disgusted that an elected official, a public servant would destroy part of the people's house.
That he disregarded the people's respect, that he selfishly believed he could take advantage of the Presidency and carelessly destroy what doesn't belong to him.
This is wrong in every way.
I want him held accountable for destruction of property.
I don't want him to be able to build what he wants in its place.
I want a thorough investigation of what unlawfully happened, where the money went that was raised,
And I want consequences for all involved.
No one is above the law.
Thank you.

Date: February 24, 2026 5:33:50 pm

The way that this process has progressed is a travesty. It is unbelievable that a portion of the White House has been demolished based on the whims of one man before the appropriate approval process has been completed. That is not how our government works in the United States of America. One man does not get to take over an historic public icon and reimagine it in his image. Although the president and his family occupy the White House for a few years, major renovations should not be made without bipartisan approval and oversight. This is a building that will be used for centuries to come by a variety of administrations elected by the American people. It should NOT be designed to please only one person. Funding for the White House should not be coming only from private donors, giving undisclosed amounts, who may use the donations to curry favor with an individual or an administration. Most importantly, the proposed design is absolutely excessive. Why is this being designed in such extravagant manner? Who actually finds this design appealing? Does it really reflect the principals of America? Additionally, the amount of money being spent for this project could be better used in so many ways? Who is actually going to benefit from this expense and who is actually going to use this space? Seems to me only the rich and famous will ever enter through the doors. This project should have never been started but now that it has it definitely needs to be scaled down in size and redesigned in a more sustainable and appropriate style. A long pause needs to be implemented. The plans need to be reviewed and revised with input from the those in Washington DC who have the trust of the American people, the expertise and the wisdom to incorporate the redesign of the White House, which is what this really is, into the already historic Capital of the United States
of America. Please do NOT approve this potential albatross as it is currently planned.

STOP this disgrace. Trump is dismantling our constitution, our country and now OUR HOUSE. He cannot DESPTROY a national landmark, because he wasn't to party on our dime. NO MORE!

Name: Nora Privitera
Date: February 24, 2026 5:56:38 pm

The White House is a National Historic Landmark and National Park, owned by the American people and stewarded by the National Park Service.

I am opposed to the East Wing Modernization Project as presently constituted. The replacement of the East Wing would be far out of proportion with the rest of the White House and thereby diminish its importance. This is extremely inappropriate, as it does not properly honor our history and our heritage.

I am also opposed to this project because it is relying on private funding for the People's House, which gives outside influence to to the donors to this project, and lends to the appearance of outside private influence asserting ownership of what is the property of the People of the United States.

Proportionality and adherence to the architectural integrity of the White House should be paramount to this project. Instead I see an effort to build an outsized, opulent and wholly inappropriate edifice that dwarfs the original building and that would look grotesquely out of proportion.

A ballroom of that size is both inappropriate and unnecessary and should be scaled down to fit the architecture of the original building.

Name: Alan Wallach
Date: February 24, 2026 5:57:47 pm

Dear NCPC,

I write to express my concern that the proposed "East Wing Modernization project" (aka New White House Ballroom) is violently out-of-scale with the existing structure.

As currently proposed, the East Wing Ballroom Project comprises 90,000 square feet, almost double the 55,000 square feet of the existing White House building. No amount of tweaking its design (except making it smaller) will change the fact that the "addition" is larger than the original. In addition, by making such a large mass the exact same height as the existing White House further dwarfs it.

This is significant because the Secretary of the Interior's Standards for Rehabilitation require that additions to historic structures be subordinate in scale and size, distinct from the historic building (not replicating it), and compatible with its materials, features, and massing.

There is no doubt that there is a need at the White House for a gathering space that can accommodate more than the existing 200-person room. However, there is doubt that this particular design is suitable – It takes away from the original White House, dwarfs it in scale and relates it to a secondary role.

I ask that you do not allow this project to go ahead as proposed.

Thanking you for your time,

I suggest repurposing the proposed ballroom to be a shelter for the homeless and for other people in need.
As such it could be designed with advanced air handling to limit spread of respiratory diseases, thus circumventing the need to vaccinate the residents.

Name: Carol Keig
Date: February 24, 2026 6:12:26 pm

Mr. Trump had no business dismantling the East Wing without going through a review (a review his project could never have reasonably passed). The White House is NOT his house, it is our house. Put it back the way it was. We do not need a ballroom for billionaires. We need a place where American families, children, military servicepeople of any rank, and all others are welcome.

Name: Lauren Natale
Date: February 24, 2026 6:26:43 pm

As a renovation design/ builder myself, I know how very inappropriate it was for this administration to tear down the East Wing before permitting a replacement. A "developer" should know better. It is ridiculous that such callous destruction was carried out on the orders of the occupant, not the owner, of the White House. That building belongs to the American people, not to Trump. Whether he uses corporate bribes to fund the construction or taxpayer dollars, the East Wing should be restored to its original form, as would be required for any other criminally negligent developer found to have demolished property without permission.

Name: Douglas Hardy
Date: February 24, 2026 6:35:57 pm

I strongly object to the unilateral destruction of the East Wing of the White House. It was done without proper authorization -- no less than destroying public property. Further, the proposed ballroom is grotesque. To call it a "modernization" is nothing but a sham cover for a out-of-scale vanity project. The commission might be made up of political appointees, but my hope is that some shred of conscience remains in members to put this aggrandizing project on hold.
Thank you.

To Whom It May Concern,

Responsible updates or even a drastic evolution could have be achieved through proper channels, reviews, and established processes with respect for the history and architecture of the East Wing.

Instead, the reckless and unpermitted sudden demolition of the East Wing needs to be framed clearly for what it was. A temper tantrum from a man unfit to hold any office much less one with so much power and influence. A psychological attack on the American people - because that is OUR house and seeing it demolished on a whim was intentionally traumatizing. A disastrous photo op with NatSec implications beyond the WH grounds telling all the authoritarian leaders of the world that our democracy is under attack from within.

Any further projects under this administration are potentially a pipeline for open bribery from the rich as the President “saves the taxpayers” and takes “private donations”.

In addition, from an architectural standpoint, the alleged “plans” for the ballroom/bunker are entirely off-scale, inappropriate for the property, and ridiculous.

Any improvements or restoration should be paused until all the corruption and ineptitude of this administration has been addressed.

Thank you for your attention to this matter.

Name: Max Rishell
Date: February 24, 2026 7:39:19 pm

I believe this project is a monumental ignorant disgrace. The beginning statements were it would not touch the East Wing, then it was torn down. This project is based on lies, blunders and treachery, it should be abandon and the East wing rebuilt.

I find it shocking that the current president of the United States can sneak in on his own "authority" and destroy years of history with the destruction of the East Wing of the People's House. And build a monument to himself with no consideration of his right to raze the legacy he is destroying, or the out-of-scale, questionably funded "modernization project" we will have to live with after he is out of the White House.

Any addition to the White House would require careful consideration of protecting such a remarkable legacy. The team should include historians, historic preservationists, architects, artists and citizens. The damage is done. Any further work needs to be done after a careful study of its purpose and impact on all of us and future generations.

Name: Lynda Holmes
Date: February 24, 2026 10:03:47 pm

To Whom it May Concern:

The President has already destroyed the White House East Wing. The addition of a 90,000 sq ft ballroom will be unsightly, impractical, and asymmetrically incorrect. The entire White House before the destruction was 55,000 sq ft. A 90,000 sq ft addition would be ridiculous. Please have the East Wing replaced to it's historical dimensions.

Thank you,
Lynda Holmes

The proposed new White House ballroom to replace the East Wing that was unlawfully destroyed should not be built.

The White House is a National Historic Landmark and National Park, owned by the American people and stewarded by the National Park Service. It has been home to our presidents since 1800 and is perhaps the most significant historic site in the United States. Before nationally significant places such as this are permanently altered, the public deserves an opportunity to be heard and to help shape decisions that affect our shared national heritage. They should not be despoiled at the whim of one person.

Major construction projects in Washington, D.C. must be reviewed by the National Capital Planning Commission (NCPC) and the Commission of Fine Arts (CFA), comply with the National Environmental Policy Act (NEPA), and receive congressional approval. These safeguards exist to ensure transparency, accountability, and meaningful public input. To date, none of these have been done.

Without congressional approval, Mr. Trump has bypassed proper funding procedures for this type of undertaking. The donor system of funding seems more like bribes than anything else. And as we've seen, it also means there is no cap on costs since the price of the ballroom has doubled in the last few months.

This proposed monstrosity must not proceed. Do not approve it.

Dear NCPC,

I write to express my concern that the proposed "East Wing Modernization project" (aka New White House Ballroom) is violently out-of-scale with the existing structure.

As currently proposed, the East Wing Ballroom Project comprises 90,000 square feet, almost double the 55,000 square feet of the existing White House building. No amount of tweaking its design (except making it smaller) will change the fact that the "addition" is larger than the original. In addition, by making such a large mass the exact same height as the

existing White House further dwarfs it.

This is significant because the Secretary of the Interior's Standards for Rehabilitation require that additions to historic structures be subordinate in scale and size, distinct from the historic building (not replicating it), and compatible with its materials, features, and massing.

There is no doubt that there is a need at the White House for a gathering space that can accommodate more than the existing 200-person room. However, there is doubt that this particular design is suitable – It takes away from the original White House, dwarfs it in scale and relates it to a secondary role.

I ask that you do not allow this project to go ahead as proposed.

Thanking you for your time,
Dr. Rachel Buller

Dear NCPC,

I write as a retired professor of art history to express my concern that the proposed "East Wing Modernization project" (aka New White House Ballroom) is absurdly out-of-scale with the existing structure of the White House.

As currently proposed, the East Wing Ballroom Project comprises 90,000 square feet, almost double the 55,000 square feet of the existing White House building. No amount of tweaking its design (except making it smaller) will change the fact that the "addition" is larger than the original. In addition, by making such a large mass the exact same height as the existing White House, there is a loss of symmetry to the building's overall original design, which goes against classical norms of architecture which our Republic smartly sought to emulate in the past, and still professes to do so in other current projects.

Moreover, the size discrepancy is significant because the Secretary of the Interior's Standards for Rehabilitation require that additions to historic structures be subordinate in scale and size, distinct from the historic building (not replicating it), and compatible with its materials, features, and massing. A clear violation there, and one which, if it moves forward, will risk the project's existence altogether.

There is no doubt that there is a need at the White House for a gathering space that can accommodate more than the existing 200-person room. However, this particular, oversized design is unsuitable – It takes away from the original White House, dwarfs it in scale and relates it to a secondary role. Is a ballroom to now symbolically take precedence over the executive actions of the President? Think about this, please.

I ask that you do not allow this project to go ahead as proposed, and to think about historical legacy (including that of this commission). Please stand up for the tradition of harmonious, meaningful, classically-inspired federal architecture in our nation's Capitol.

Thank you for your careful consideration of this matter.

Greetings,

I am writing to express serious concerns regarding the funding structure and ethical implications of the proposed White House East Wing/ballroom project, particularly as it relates to the Trust's role in accepting and administering private donations for this effort.

While private philanthropy can play an important role in supporting public spaces, this project presents uniquely sensitive issues given that it involves structural changes to the White House — a symbol of American democracy and the official residence and workplace of the President of the United States. The scale, visibility, and political context of this undertaking elevate the importance of transparency, accountability, and public trust.

Several concerns merit careful consideration:

1. Risk of Undue Influence (Pay-to-Play Concerns)
The reported reliance on substantial donations from corporations and wealthy individuals — some of whom may have ongoing regulatory, contractual, or policy matters before the federal government — creates at least the appearance of potential conflicts of interest. Even absent explicit quid pro quo arrangements, the perception that financial contributions tied to a presidential project could confer influence or access undermines public confidence in impartial governance.

2. Transparency and Disclosure
There has been limited public clarity regarding the terms under which donations are solicited and accepted, whether any conditions are attached, and how donor relationships are managed. As a steward of charitable funds connected to a federal landmark, the Trust has a heightened responsibility to ensure full transparency regarding donor agreements, administrative fees, and decision-making processes.

3. Circumvention of Congressional Oversight
Because the project is privately funded rather than appropriated through Congress, critics argue that this structure may sidestep traditional oversight mechanisms designed to safeguard public assets. While private funding may reduce taxpayer burden, it should not diminish democratic accountability for modifications to a national historic site.

4. Precedent for Future Administrations
The model established here could set a precedent for future presidents to reshape federally owned historic properties through privately financed initiatives. Without clearly articulated guardrails, this risks normalizing a system in which significant changes to public institutions are driven by private capital rather than public deliberation.

5. Protection of Institutional Integrity
The White House is more than a building — it is an enduring national institution. Any fundraising model associated with it must reflect the highest ethical standards to avoid even the appearance that access to the presidency or influence over national symbols can be enhanced through financial contributions.

6. In addition to the funding and governance issues, there are significant concerns raised by architectural review bodies and historic preservation advocates regarding the impact of this project on the integrity of the White House complex as a designated historic landmark. Critics argue that demolition of existing East Wing structures and construction of a substantially larger ballroom risks altering the historic scale, massing, and classical proportions that define the White House grounds. Preservation experts have emphasized that changes to such a nationally significant site should adhere to established federal preservation standards, including careful review of visual impact, historical continuity, and architectural harmony. When alterations appear to outpace or bypass traditional preservation processes, it raises legitimate questions about whether long-standing safeguards designed to protect America's most iconic civic architecture are being fully respected.

In light of these concerns, I respectfully urge the Trust to:
• Provide full transparency regarding donor identities, contribution amounts, and any associated agreements or conditions.
• Clarify governance safeguards to prevent conflicts of interest or undue influence.
• Publicly outline how the Trust ensures compliance with ethical best practices when fundraising for projects connected to federal institutions.
• Consider whether additional independent oversight or review mechanisms are appropriate given the project's scope and sensitivity.

The Trust for the National Mall plays an important role in preserving and enhancing America's most visible civic spaces. That responsibility carries with it a duty to uphold not only legal standards, but also the broader principles of public accountability and democratic integrity.

Thank you for your attention to these concerns. I appreciate your consideration and would welcome further clarification regarding the safeguards and transparency measures in place.

Sincerely,

Jeremy

The East wing project was done without permits or planning or consulting with a historical society. It is overpriced and over-ambitious at a time when we should be learning from our past, not trying to erase it. The people responsible for the project should be held accountable and fined or otherwise prosecuted for doing this without the proper procedures.

Name: Rebecca Black
Date: February 24, 2026 11:21:36 pm

I write to express my concern that the proposed "East Wing Modernization project" (aka New White House Ballroom) is violently out-of-scale with the existing structure.

I was born in Washington, DC and grew up walking past and showing off the White House to family and friends. I loved it as it was stately and balanced, avoiding gaudiness in favor of a proud simplicity that represented our country. I fear that the design as currently proposed, undermines that simple grandeur. The East Wing Ballroom Project comprises 90,000 square feet, almost double the 55,000 square feet of the existing White House building. No amount of tweaking its design (except making it smaller) will change the fact that the "addition" is larger than the original. In addition, by making such a large mass the exact same height as the existing White House further dwarfs it.

This is significant because the Secretary of the Interior's Standards for Rehabilitation require that additions to historic structures be subordinate in scale and size, distinct from the historic building (not replicating it), and compatible with its materials, features, and massing.

There is no doubt that there is a need at the White House for a gathering space that can accommodate more than the existing 200-person room. However, there is doubt that this particular design is suitable – It takes away from the original White House, dwarfs it in scale and relates it to a secondary role.

I ask that you do not allow this project to go ahead as proposed.

I am absolutely disgusted that the East Wing was torn down. This is the People's House, not Trump's to do with as he pleases. The Whitehouse needs to be fully restored, and everything that was in it accounted for. Trump needs to be fined for tearing it down in addition to paying for the entire restoration of the original structure.

Name: Shaun Kelly
Date: February 25, 2026 12:35:05 am

This is a totally self serving act of desecration on a national landmark and a total disregard to the governance of our country. We the people say no to being trodden on by a wannabe dictator and demand that the building and all of its fixtures be returned to the country at the cost of Donald Trump

---

The plans for the East Wing ballroom is an ugly and out-of-scale monument to a wannabe king. If approved, this monstrosity would be an atrocious symbol of fraud and corruption in our nation's capital for generations to come. As is, the pile of rubble left in the wake of Trump's wrecking ball is a perfect metaphor of all the chaos and destruction he has sewn since his 2025 inauguration. Just stick a flag on it to memorialize the stupidity and fraud he continues to generate at the expense of the American people. Please do not let him build this gigantic gilded ballroom! Let the next administration take the lead in planning a space that better meets design criteria, and scaled to fit the surrounding buildings. He destroyed the people's house and should now bear responsibility to live with the mess he made.

America is watching.

I oppose the East Wing Modernization Project. This $400 million construction began without National Capital Planning Commission approval, without required environmental assessments, and without congressional authorization mandated by federal law for construction on federal parkland in Washington. These violations should not be rewarded with after-the-fact approval.

The funding creates unacceptable conflicts of interest. Corporations holding billions in current federal contracts with this administration are funding a construction project at the residence of the president who controls those contracts. This is not charitable giving. This is an investment in access and favorable treatment.

The White House belongs to the American people, not any individual president. I urge the Commission to reject this proposal until full legal compliance is achieved, including congressional authorization and completed environmental assessments. No temporary occupant should possess unilateral authority to demolish historic structures without following the law.

Do the right thing by America.

Name: Rosa Canas
Date: February 25, 2026 6:11:52 am

As a conscious citizen of this country, I oppose the continuation of the East Wing Modernization Project, and I request that the original East wing be rebuild to its original architecture.

Name: Thomas Manning
Date: February 25, 2026 6:39:36 am

No, no, no. A ballroom is NOT needed or required at the White House. That is a completely colossal waste of money, time and space.
The East Wing should never have been torn down, and I disapprove, as an American citizen and taxpayer, with the changes made and proposed by the current President and administration.

Name: MICHELLE HOGGATT
Date: February 25, 2026 7:03:07 am

I was appalled and sad when the East Wing was demolished, and I was angry that this was done apparently without any public input. We have lost a great deal of history with that destruction.
I am equally appalled at the plans I have seen for the proposed ballroom. The drawings I have seen show an immense box that overshadows the White House. I have seen nothing in the proposal that shows an attempt to blend or coordinate with the existing structure. This ballroom seems to ignore the history of the White House.
This whole project has shown disdain and contempt for the American people. The White House is one of the most recognized buildings in our country, and I wholeheartedly oppose the proposed ballroom. The White House does not belong to the current resident; it is held in trust for the American people. Vanity projects should not be allowed to distort this building.

Name: wes mutter
Date: February 25, 2026 7:31:21 am

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Anita Blackman
Date: February 25, 2026 7:39:38 am

I write to wholeheartedly criticize the Trump administration for both destroying the historic East Wing and for pushing forward with an ego-driven, oversized, unnecessary and wasteful ballroom project regardles of who or what is paying for it. I further object to the lack of transparency with this pet project and how the President has bypassed democratic processes to get what he wants with total disregard and respect for the proud history of the the people's White House. The National Capital Planning Commission (NCPC) needs to protect the integrity of this iconic, historical place and not approve any plans for this ballroom. In fact, you should insist on restoring the former East Wing to it's historic splendor. Thank you.

Name: Helena Snow
Date: February 25, 2026 8:03:32 am

As an American citizen who loves her country and embraces it's history, I find completely unacceptable the unauthorized and illegal razing of the East Wing in order to accommodate an oversized ballroom that will dwarf the rest of the People's House. The Trump administration's lack of respect for the building's integrity and historical significance, to say nothing of it's disrespect for the administrative procedures which legally govern a renovation project of this nature is shocking and profoundly disturbing. I am writing to explain that in my view, the only acceptable resolution of the current situation would be to restore the East Wing to it's former state. Any other outcome will constitute a stain on our great nation's history.

-Helena SNOW

Name: Anna Shallenberger
Date: February 25, 2026 8:45:45 am

What an ironic misnomer. The ultimate oxymoron.

It's not modernization. It's a step back to Nero.

It destroys something beautiful and historic. Without the approval of the citizens representatives. Because the misogynistic, racist, xenophobic, draft dodging, grifting, pedophilic traitor despot -- who's only actual skill is manipulating. He's never had a successful business without the help of daddy or going around the emoluments clause. Wants to be a king, but instead he's just an obnoxious obese oligarchy. Who has no interest in governing or serving the American people.

He can slap his name on whatever he wants it will be gone soon enough just like how it was taken off buildings throughout New York City

I oppose this ridiculous and un-American vanity project

The $400 million construction began without National Capital Planning Commission approval, without required environmental assessments, and without congressional authorization mandated by federal law for construction on federal parkland in Washington. These violations should not be rewarded with after-the-fact approval.

The funding creates unacceptable conflicts of interest. Corporations holding billions in current federal contracts with this administration are funding a construction project at the residence of the president who controls those contracts. This is not charitable giving. This is an investment in access and favorable treatment.

Our White House belongs to the American people, not any individual president. I DEMAND the Commission to reject this proposal until full legal compliance is achieved, including congressional authorization and completed environmental assessments. No temporary occupant should possess unilateral authority to demolish historic structures without following the law.

The East Wing is already demolished. What ACTUALLY needs to happen is to IMMEDIATELY reverse and tear down the monstrosity that this wannabe dictator has inflicted upon the citizenry. Leave it ugly as a reminder to the his shallow toxicity. With plans to rebuild / restore our (not his) east wing and rose garden starting 1/20/2027-- Goddess willing.

Your vote March 5th matters. But the record of public opposition matters. Commission can do the right thing or the easy thing --,there's no in between.

Name: Lucy Ackert
Date: February 25, 2026 8:55:48 am

Dear National Capital Planning Commission,

As did many Americans, I found the demolition of the East Wing gut-wrenching. The White House is the people's house, and changes should be made with the utmost care and consideration. Our history is literally embedded in the walls of the building. It is as important to our future as it has been to our past. The renovation plans seem to be constantly in flux, which certainly does not give me confidence that care or consideration has been exercised. I do not believe the most recent design reflects the best interests of the American people. Please stop this charade.

Thank you for your consideration.

Respectfully,
Lucy F. Ackert

Name: Anne McLaughlin
Date: February 25, 2026 9:07:59 am

The Secretary of the Interior's Standards for Rehabilitation offer clear guidance for construction projects such as this one that affect historic properties. 36 C.F.R. § 68.1 et seq. The Standards provide that new additions should not destroy the historic fabric of the property, and that the new work should be "compatible with the historic materials, features, size, scale and proportion, and massing" of the existing structure.

Any proposed new addition to the White House complex should accommodate and respect the primary historic importance of the original Executive Residence. The ballroom addition should be subordinate in scale to the Executive Residence.

I recommend several modifications to the proposed project, including:

• Reduce Overall Size and Visibility. The size, volume, and massing of the proposed new construction (90,000 square feet) should be reduced or disguised (such as by placing portions underground, as recommended in the 2000 Comprehensive Design Plan) so the new building appears smaller than the Executive Residence itself (55,000 square feet). Its height should also be substantially lower than the Executive Residence.

• Reduce Footprint and Protect Key Views. The footprint of the proposed building should not extend past the existing south-facing façade of the historic Treasury Building, nor further interrupt the views of the Executive Residence from Pennsylvania Avenue.

• Respect the Established Classical Composition of the White House Complex. The new addition should retain the carefully balanced classical design of the White House complex with its two smaller, lower, and substantially symmetrical East and West Wings.

• Preserve the Historic East Facade of the Executive Residence. The connection of the colonnade to the Executive Residence should protect and preserve the original historic materials of the east façade of the Executive Residence and should not cover or demolish the existing fenestration and detailing of the east façade.

• Ensure that the Proposed South-facing Portico Is Subordinate in Scale to the White House South Portico. The proposed portico on the south façade should be smaller and less grand in scale than the existing portico on the south façade of the Executive Residence.

Adopting these recommendations will help ensure that the project both honors the exceptional historic significance of the White House complex and acknowledges the investment that the American people have in the preservation of this beloved place.

Name: Margaret Allen
Date: February 25, 2026 9:26:53 am

I very strongly oppose this project. The American people were lied to about the scope of it before it began and the White House did not seek approval from the multiple federal agencies in charge of such projects before starting the demolition. (Including the National Capital Planning Commission (NCPC), the Commission of Fine Arts (CFA), and the Committee for the Preservation of the White House (CPWH). No authorization, no permits, no design review. It's not a modernization project but rather a total razing of American history for all the wrong reasons. I want this project canceled, and the East Wing rebuilt and restored to its former design.

Name: Patsy Ramsey
Date: February 25, 2026 9:33:25 am

Now that the East Wing has been destroyed, I want to see a plan designed by and overseen by those persons responsible for the care and upkeep of our nation's presidential residence. The current president, indeed, any president, resides there as a benefit and requirement of a rather temporary job. Please take back control of this project and keep it in the hands of the American people.

Name: Terrence Fagan
Date: February 25, 2026 9:44:08 am

To call it the "East Wing Modernization" is truly Orwellian Newspeak. Trump destroyed the beloved East Wing, without warning and without permission, to replace it with yet another gold plated abomination to his ego. The only right and just answer is to refuse and block any permits to the construction of any edifice in its place until the nation returns to sanity with a new leadership. Only then should we rebuild on that ground, restoring the true East Wing.

Name: Betsy Godwin
Date: February 25, 2026 9:50:26 am

Preserve the Historic East Facade of the Executive Residence. The connection of the colonnade to the Executive Residence should protect and preserve the original historic materials of the east façade of the Executive Residence and should not cover or demolish the existing fenestration and detailing of the east façade

---

Name: lucy wyman
Date: February 25, 2026 9:51:12 am

This is a euphemism for sure: tearing down historic structures to indulge in self aggrandizement can hardly be called "modernization". In fact, it seems to me to be a major regression: this sort of thing takes us back to provincial, dictatorial modes that one would hope we have moved beyond.

Now that the East Wing has been torn down (don't know WHY that wasn't stopped at the time???) replacing it should be a team effort with historians, archivists, and progressive thinkers all of whom should consider that it is "the people's" house and try to anticipate how this new structure can serve the people as we move into the future.

It should be environmentally efficient--that's a gain that could be one positive outcome--and balance the historic structure as the old wing once did.

Thank you for the opportunity to comment. I hope you will all arrive at the best possible decision for the country, NOT the current occupant of the White House!

Name: Brent Jones
Date: February 25, 2026 10:12:59 am

The proposed design is far too large. It’s scale dwarfs the executive residence and changes the landscape too significantly. It could easily be half the size that it is proposed to be and still accommodate large state dinners and events. Anything larger than five or 600 guests should be moved to an event center anyway. I also see a large staircase that just leads to grass, as well as a brick or paver pathway or patio area that does not seem to fit with the aesthetic of the grounds or even the new design of the ballroom.
This house is a vital piece in the story of America, any and all changes should be made with the utmost care and consideration, mindful of its history, place and importance.
Thank you for your consideration.
Brent Jones
Boise, Idaho

Name: Lois Hughes
Date: February 25, 2026 10:16:19 am

I do not support the new ballroom. It is not what taxpayer monies should be spent on when there are economic issues far more pressing. Also, it is disrespectful of the White House and it's historic representation of our country's history.

Name: Lisa Shofnos
Date: February 25, 2026 10:22:06 am

How was approval obtained to demolish the historically important East wing of the White House? No permits were issued. No design review. I oppose the spending of $300 million on this. The project must be canceled, and the East Wing rebuilt and restored to its former design.

Name: Brenda McGowan
Date: February 25, 2026 10:24:04 am

Tearing down the East Wing without permissions is totally unacceptable! Did he get a permit to do it legally? Or a permit to build said ballroom? If I were in charge he'd be spending the ballroom money to put the East Wing BACK TO ITS ORIGINAL CONDITION

Name: Mary Sapp
Date: February 25, 2026 10:24:11 am

The proposal and plans to renovate the East Wing of the White House should have been carefully reviewed by non-partIsan experts and worked through the proper channels. The design for the outside and the inside should be consistent with the rest of the building and be refined rather than over-the-top opulent. It should not reflect the tastes of just one president (the White House is supposed to be the People's House not the current occupant's house) and the new wing should not be named for for a living president.

Name: Lynn Robbins
Date: February 25, 2026 10:32:16 am

The Secretary of the Interior’s Standards for Rehabilitation offer clear guidance for construction projects such as this one that affect historic properties. 36 C.F.R. § 68.1 et seq. The Standards provide that new additions should not destroy the historic fabric of the property, and that the new work should be “compatible with the historic materials, features, size, scale and proportion, and massing” of the existing structure.

Any proposed new addition to the White House complex should accommodate and respect the primary historic importance of the original Executive Residence. The ballroom addition should be subordinate in scale to the Executive Residence.

I recommend several modifications to the proposed project, including:

• Reduce Overall Size and Visibility. The size, volume, and massing of the proposed new construction (90,000 square feet) should be reduced or disguised (such as by placing portions underground, as recommended in the 2000 Comprehensive Design Plan) so the new building appears smaller than the Executive Residence itself (55,000 square feet). Its height should also be substantially lower than the Executive Residence.

• Reduce Footprint and Protect Key Views. The footprint of the proposed building should not extend past the existing south-facing façade of the historic Treasury Building, nor further interrupt the views of the Executive Residence from Pennsylvania Avenue.

• Respect the Established Classical Composition of the White House Complex. The new addition should retain the carefully balanced classical design of the White House complex with its two smaller, lower, and substantially symmetrical East and West Wings.

• Preserve the Historic East Facade of the Executive Residence. The connection of the colonnade to the Executive Residence should protect and preserve the original historic materials of the east façade of the Executive Residence and should not cover or demolish the existing fenestration and detailing of the east façade.

• Ensure that the Proposed South-facing Portico Is Subordinate in Scale to the White House South Portico. The proposed portico on the south façade should be smaller and less grand in scale than the existing portico on the south façade of the

Executive Residence.

Adopting these recommendations will help ensure that the project both honors the exceptional historic significance of the White House complex and acknowledges the investment that the American people have in the preservation of this beloved place.

Leave it alone restore to its original condition. This is an abomination of process!

Name: Marcella Wilkerson
Date: February 25, 2026 10:44:13 am

The correct protocol for razing and building a new East Wing has not been followed. Any building erected in this space should be built with the same proportions and in the same style as the other buildings there. I have seen photos of the new wing that has been planned so far. Simply putting columns on the outside does not meet that criteria. Please be guided by the National Trust for Historic Places. They are quite knowledgeable about different building styles. I'm quite sure they'd

be delighted to guide this project.
Thank you

Date: February 25, 2026 10:44:42 am

I strongly object to building a ballroom on/near the site of the former East Wing. The East Wing should be restored as the historic building it is. Taxpayer or corporate money should not be spent on the ballroom monstrosity, which would mar and cheapen our historic White House. Corporate names should not be displayed. It is a vanity project of the worst sort.

Name: Sue Kuchman
Date: February 25, 2026 10:46:06 am

What right does anyone have to destroy part or all of a national monument? The East Wing should be rebuilt and, if truly necessary, build a much smaller ballroom in another location.

Intentionally damaging a national monument or any federal property is illegal under several federal laws, punishable by heavy fines and up to 10 years in prison. Key statutes include the American Antiquities Act of 1906 (for historic sites), 18 U.S.C. § 1361 (depredation of government property), and the Veterans' Memorial Preservation and Recognition Act of 2003.
Congress.gov
Congress.gov
+4
Key Legal Consequences and Protections:
Federal Property Damage (18 U.S.C. § 1361): Intentionally injuring federal property can result in up to 10 years in prison if damages exceed $1,000.
Antiquities Act of 1906: Protects historic ruins, monuments, and antiquities on federal land, allowing for fines and imprisonment for damage.
Veterans' Memorial Preservation Act (18 U.S.C. § 1369): Specifically targets the destruction of federal monuments commemorating service in the armed forces.
National Park Service Regulations (18 U.S.C. § 1865): Prohibits the destruction, defacing, or removal of monuments in national military parks.
State and Local Laws: In addition to federal charges, vandalism of monuments may violate state-level criminal damage or destruction of property statutes.
Congress.gov
Congress.gov
+7
Acts of vandalism are considered "cultural violence" by the National Park Service, which is mandated to protect these sites

This expensive, hideously enormous Trump vanity project was not approved by any legal entity and certainly not by the people of this country. We do NOT approve.
The White House is OUR house!
Pat Tonnema

Name: William Hutchins
Date: February 25, 2026 10:46:41 am

Our sacred White House has been destroyed by our present President simply to build a gaudy ballroom so he can appease his own ego and satisfy his desire to become in his mind equal with the other Authoritarian leaders in the world who he looks up to and emulates.
He proceeded with this project without any permission from not only the American people who are the actual owners of the White House, but your own organization.

Trump must be denied permission to proceed with this project and compensate for full restoration with his own money. He must be taught a lesson that he can not just simply destroy, change, or put his name on any structure that is related to the people's Government simply to try and enhance his stature or other mental requirements.
I will take many years for our Country to recover from the damage that has been done by the President.
It's time to assure no more damage is done.

Name: Cynthia Foerster
Date: February 25, 2026 10:46:47 am

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding citizens.

Name: Joni Casimiro
Date: February 25, 2026 11:06:31 am

STOP the ridiculous oversized ballroom for Trump. It's fit for a dictator.

Name: Linda Freedman
Date: February 25, 2026 11:09:54 am

I oppose the spending of $300 million on this project, which was initiated without proper authorization, permits, or design review. It is not modernisation, It is a complete razing of US history. This project should be canceled and the East Wing rebuilt and restored to it’s former design. No one is above the law and to permit this project to proceed without penalizing those who broke the law would be an affront to all law-abiding citizens.

Name: Lynn Hillman
Date: February 25, 2026 11:15:12 am

Please note that the proposed East Wing re-build is too large and too ornate to compliment our beautiful White House. Any changes should be in character with and not stand out against the existing beautiful architecture. The White house is old and probably needs occasional renovation, but that renovation should always be guided by our existing beautiful historical building. It is truly the "People's House" and not to be used as a glorification of any one resident.

Thank you,
Lynn Hillman

Name: Christine Cahill
Date: February 25, 2026 11:27:46 am

Please halt this project. The reconstruction if the East Wing of the White House needs to be in keeping with historical proportion and with approval of the people. It is the People's House, not the Trump House. This proposed ballroom I nothing but a vanity project for the current resident, and a boondoggle for the American people.

Name: Leigh Hoppe
Date: February 25, 2026 11:28:07 am

Add the TRUMP ballroom construction to the list of outrages perpetuated on the American citizen by this bloviator-in-chief. Shut down the project any way that you can and force this administration to reconstruct the East Wing with their own money.

Name: Randal Stephens
Date: February 25, 2026 11:28:56 am

As a constituent who views the White House as a valued landmark for the Nation, I’m concerned at the extreme and accelerated timeline for such a large modification.

Ensuring the appropriate timeline for historical and architectural review by qualified professionals is of the utmost importance to preserve this national treasure for years to come. It would be tragic to lose any of the integrity or historical elements of the building by not adhering to the appropriate process which any other landmark would be held to.

Name: Yvette Weathers
Date: February 25, 2026 11:28:59 am

I am still angry about the dismantling of the historic East Wing of the People's House, done without the permission of the people. Would I'd like to see is restoration of what was destroyed, with appropriate attention to historical detail, and modernization is needed. A panel should produce data on the average number of attendees at the larger "tent" gatherings, and consideration can be given to the addition of an appropriate, proportional space. If this larger space is added, it must not obliterate the historical footprint of the East Wing building, and must be done in a way that is seamless to that footprint. I also want transparency on the location and preservation of the original contents of the East Wing since this travesty occurred.

Name: Cathy Myers
Date: February 25, 2026 11:37:17 am

Please stop this obscene project. While children are going hungry and sick citizens are going without medical care, because of our presidents policies, he wants to spend money on a vanity project. The East Wing was torn down illegally. The president should suffer the legal consequences for his criminal action.

Name: Joan Wilson
Date: February 25, 2026 11:39:07 am

It’s tragic that the East Wing was demolished - with no oversight, no notice, no regard for history or norms.

It’s beyond tragic if the monstrosity the current president plans to erect goes forward. We the people certainly will not benefit. The individuals and companies ‘paying to play’ with this grift-filled administration should not be rewarded and hopefully will be stopped.

Name: Karen Sweeney
Date: February 25, 2026 11:47:34 am

It makes no sense that one person should revamp the White House and other important structures and facilities in the nation’s Capitol. I applaud any steps you can take to stop this individual’s takeover. Otherwise it appears there is no stopping this desecration. Thank you.

Name: Rita and Sean Burke
Date: February 25, 2026 11:51:10 am

We are writing to oppose spending $300 million on the East Wing Modernization project. In my opinion, it razes an important era in American history, when the White House became a place that embraced the work of the First Lady and her staff. This proposal was initiated without proper authorization, or permits, or design review. The East Wing was destroyed with no warning, no Architectural & Engineering Request for Proposals, no bids from contractors, and no abatement of hazardous materials; all as required by federal law.

We would like to see the East Wing rebuilt to its former design (that was scaled and in proportion to the rest of the building) and the administration’s project canceled. The current design is for an out-of-scale, out-of-place, and out-of-time pseudo-historical building.

No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Sincerely,
Rita and Sean Burke
Massachusetts

Date: February 25, 2026 11:54:20 am

I thought there were restrictions on changing historic buildings. As I understand it, there was no application submitted or permission given to modify the White House. This isn't modernization, it's complete destruction and as a taxpayer I refuse to agree to this.

Name: Mary Avery
Date: February 25, 2026 11:55:58 am

I am appalled at the destruction of the historic East Wing of the people's White House!! To glorify a malignant narcissists dreams of grandeur for himself! It's stealing from the people and he should restore it on HIS dime! Not the taxpayers!!! Just disgusting !

Name: Jennifer Benson
Date: February 25, 2026 11:57:15 am

President Trump has proposed the construction of a 90,000-square-foot ballroom on the east side of the White House campus, adjacent to the historic Treasury Building. Site preparation is already underway, including the demolition of the existing East Wing.

I am deeply concerned that the massing and height of the proposed new construction will overwhelm the White House itself—it is 55,000 square feet—and may also permanently disrupt the carefully balanced classical design of the White House with its two smaller, and lower, East and West Wings.
The federally recognized Secretary of the Interior’s Standards for Rehabilitation offer clear guidance for construction projects affecting historic properties. The Standards provide that new additions should not destroy the historic fabric of the property and that the new work should be compatible with existing massing, size, scale, and architectural features. The administration's plans would do just that. I urge you to reject the administration's ballroom plans.

Name: Dana Tomasello
Date: February 25, 2026 11:58:05 am

As a taxpayer I do not want a dime of my tax dollars going to rebuild the Eastwing into a gilded gold vanity project for this criminal president. The project should be delayed until Trump is out of office and a better purpose for the property should be decided after the public are allowed to submit opinions and ideas. The people then need to sue Trump for the destruction he caused and make sure he pays for whatever restoration We the People decide is a best use OUR Peoples’ House.

Name: Joni Rolenaitis Rolenaitis
Date: February 25, 2026 12:00:21 pm

As a US citizen and resident of California, I strongly object to Trump's plans to build a new 20,000 share foot ballroom in place of the East Wing of the White House. From an esthetic perspective, the monstrous structure overwhelms the remaining areas of the White House and presupposes a use for Epstein-class affairs with an attendance far larger than is

appropriate for state functions. Further, the ornate and useless accommodations for such a gargantuan building, e.g. the long entrance corridor, is unbecoming of a public space especially one that previously served FLOTUS.
Perhaps more importantly, the extravagant use of money, public or private, when so many citizens suffer from lack of adequate Healthcare (thank you Big Ugly Bill) smacks of corrupt crony capitalism.

Please do not approve the building of this ballroom.

Joni Rolenaitis
Costa Mesa, CA

It's called the People's House for a reason.
Guardrails in place to make sure it remains the People's House have been ignored.
History has been destroyed.
I beg you, if you have any power in this, to restore House and History to the People.

Name: Srishti Patel
Date: February 25, 2026 12:18:55 pm

There has historically not been a ballroom within the White House because of the association to monarchies. To demolish the East Wing, which has historically been the First Lady's domain, to build a space that will only be occupied on OCCASION is not wise, since all that money and those resources being used to build something that will collect dust until the next big reception will be wasted. This is also not in line with the ideas of conservatism that the dominant party right now likes to preach. Why would this be the next step and why would we use taxpayer dollars for something that most citizens would never benefit from?

Name: Sheryl Andress
Date: February 25, 2026 12:22:18 pm

Any project plans MUST go through Congress. Everyone involved in this illegal project should face criminal charges. Shame on you all

---

Date: February 25, 2026 12:24:39 pm

There needs to be serious consequences for the unauthorized destruction of the people’s house. The current administration should not be rewarded by getting to alter the structure in any manner. There needs to be a national discussion and perhaps a competition of renowned architects to propose and properly design any changes. The current administration should not have any say in the naming, management, or design as a consequence for their actions.

Date: February 25, 2026 12:29:58 pm

Dear commissioners:
As an American who believes preserving the history of our predecessors is vital, I'm devastated about how the White House East Wing project has been handled thus far. There has been little to no transparency. The destruction of The People's House is not "modernization"--it's erasing First Ladies... their histories and contributions to our country. The destruction has happened, from what I can tell, without authorization (maybe some, but after construction began) and NO permits. The design was not reviewed by the proper authorities, as is procedure--indeed, law. As I understand it, the East Wing was torn down with no RFP, no contractor bids, no study to determine if hazardous materials were present, and no attempt to protect workers in case there WAS material such as asbestos. I think all of these steps are required by federal law.

Why are we allowing this president to run roughshod over all procedures and laws, designed to preserve and honor the history of our great nation, just because he wants a ballroom for parties? No president, of any party, should be allowed to do this. It's up to you to stop this project and have the East Wing rebuilt in a style and size that is proportional to the rest of the White House and using a process that follows all laws.

I thank you for standing up for history and the preservation of our great capital city, which takes my breath away every time I visit.

Name: Karen Williams
Date: February 25, 2026 12:40:23 pm

The East Wing Modernization Project desecrates the tradition of the White House. It is unnecessary and illegal since it was not authorized by Congress. It is an irresponsible use of taxpayer money. I am totally against the project.

Name: Karel Zide
Date: February 25, 2026 12:42:21 pm

This is an assault on our American history and all the slave labor that was abused to build this house, nevertheless, it is the people’s house and no one has the right to tear down our revered history!
Shame and no excuses-
Thank you

Name: James Nation
Date: February 25, 2026 12:47:39 pm

The destruction of the East Wing is an affront to all Americans. That the project is funded by corporate bribes, rather than taxpayer dollars, just makes it worse. Moreover, two important details have not been adequately addressed. Were proper asbestos removal protocols followed? Were proper plans for debris disposal submitted and approved? If NO in either case, it should be dealt with in the same way as any other construction project. Particularly as the proposed monstrous ballroom has no merit in the first place, but rather would detract from the Capitol area.

Name: Caitlin Anderson Beam
Date: February 25, 2026 12:49:06 pm

The East Wing "Modernization" should have been initiated through protocol as per previous administration renovations/projects. That stated, now the focus of this project must be restoring the balance and symmetry to The People's House. The design must incorporate engineering soundness with architectural design that is consistent with White House neoclassical style. Erecting a ballroom the size the current tenant of the White House desires would result in

an aesthetically displeasing and garish incarnation of what is The People's House and runs counter to our democratic republic ideals.

Name: Sandra Walters
Date: February 25, 2026 12:51:06 pm

This over-reaching effort should not be condoned, encouraged or aided. Rather, all appropriate channels should be used, and should have been used. This is a case of "better to ask forgiveness than permission" and that attitude is not in keeping with American values and respect for history and the peoples' property.

Name: Ira Bryck
Date: February 25, 2026 12:58:05 pm

President Trump "modernizing" the East Wing of the White House is as ridiculous as most other things he is doing. His work should be cut out for him - help people, help the world, increase fairness, justice, opportunity; make the Earth healthier, end war, restore democracies, the list goes on. For him to build an enormous ballroom that Putin or Kim would enjoy is one more sign Trump has Tyrant Derangement Syndome- he wants to be president of that club. At his life stage he should be using his experience and wisdom to build - sad that he is a "builder" whose main construction skill is demolition.

Name: Ellen Ruberg
Date: February 25, 2026 1:02:34 pm

It is outrageous that the east wing of the White House has been demolished to lead way to a monstrous, gaudy ballroom to throw parties for the Epstein class.
Plans to restore The People's House should be orchestrated by competent, non-partisan historians and architects.
Thank you.

Name: Silvia Campos
Date: February 25, 2026 1:12:11 pm

My objections to the White House east wing expansion project are several fold. First & primarily is that the demolition was done on false pretexts by the current executive without oversight or prior approval as if the WH is not the people’s house but rather at the sole discretion of a temporary holder of the executive office. Second, that no sacred honor nor reverence was given to the historic nature of the property in preserving its original design aesthetics & sight lines. Third, the poor design. A once beautifully symmetrical structure is now rendered piecemeal & asymmetrical with a gargantuan winged edifice that morphs the iconic central structure while leaving the axis largely in shadow. Fourth, the lessening of green space (inc the historic rose garden) does not commiserate with preservation standards that interpret both building & site. Fifth, the cost of maintaining & using such a space is an extravagance for which the people’s money could be much better spent, and risks its practical use when plenty of other off-site rental options have been utilized as needed in the past. I am against the ballroom project & conclude in summation that the new design lends to the people’s house a palatial air which is in direct conflict with this nation’s founding ideals and principles, and thereby, combined with its implementation, renege on the founders’ pledge to future generations of citizens of these United States.

Name: Katherine Roark-Schwartz
Date: February 25, 2026 1:19:32 pm

Why are you letting this man destroy our historic buildings? We don’t need a ballroom or any monuments for an evil dictator! Stop him as enough wasting tax dollars for golden bs

---

Name: Mary Chandler
Date: February 25, 2026 1:22:58 pm

I oppose the building of this monstrosity of a ball room.
The East wing should be rebuilt as it was and legislation should be put in place to severely punish any president that makes changes (or flat out destroys) parts of THE PEOPLES HOUSE without going through the proper channels.
Donald Trump should have to put it back as it was on his personal dime.
Such a shame, I'm heartbroken over what he's done to this piece of our country's history.
Please listen to the people and stop this madness.

Name: Barbara Pratt
Date: February 25, 2026 1:28:57 pm

Funding
* Although donors have signed up to fund this new construction, from past behavior of this president, the final costs will be significantly higher than any current estimate; regardless, this president will use taxpayer dollars to fill any donor shortfall.
* He has many precedents for this, going back to his earliest campaign promises that 'Mexico will pay for the wall'… then immediately reneging on that promise and spending unending billions of working Americans' dollars on that wall.

Inappropriate Message / Brand
* This president has been notorious to Americans and the world for decades as being THE symbol of gaudy and tacky displays of wealth and excess in all his residences.
* His extravagance celebrates the 'haves' over the 'have nots', which is in defiance of a nation whose foundation is 'all men are created equal'.

Dispiriting
* Trump's personal tastes are shamelessly emperor-aspiring, and a visual embarrassment - and joke - to everyday citizens.
* Allowing this proposed new construction to continue as planned would result in daily humiliation to the people of this nation.

Name: Ellen Hornstein
Date: February 25, 2026 1:49:42 pm

I strongly oppose the proposed White House ballroom project.

The proposed project is subject to the National Environmental Policy Act and requires an environmental assessment or environmental impact statement that analyzes environmental impacts of the proposed project, including its cumulative effects, compared to the environmental effects of a range of alternatives, including a no action alternative. Any selected alternative would need to mitigate adverse environmental effects, including effects from toxic substances like asbestos.

The proposed ballroom is not necessary or appropriate, particularly given its high and continually increasing cost, in light of much more pressing needs of our country, like health care and social welfare programs. A gold ballroom serves the wealthy and the privileged, not the people, and should not be part of the White House, which is the people's house. The proposed ballroom will eclipse the existing White House structure and is inconsistent with its primary purpose as the president's residence. A fancy ballroom is associated with large conventions for the social elite or rich corporations at resorts or hotels and has no place in the people's house.

Federal buildings must be funded by federal appropriations allocated by Congress. The ballroom is being funded by private donors with close personal ties to the president. The funding mechanism for the ballroom is thus not only illegal but improper and raises serious questions of conflict of interest and misdealing.

The proposed ballroom should not be approved.

Name: Jean Davis
Date: February 25, 2026 1:50:20 pm

Please disapprove the East Wing Ballroom project. The White House is the peoples' house and it should, therefore, be up to the people to authorize a proposed massive change. I would hope a president would be busy governing rather than managing pet vanity projects.
What a disgrace.

Name: Jennifer Vellinga
Date: February 25, 2026 2:02:21 pm

President Trump has proposed the construction of a 90,000-square-foot ballroom on the east side of the White House campus, adjacent to the historic Treasury Building. Site preparation is already underway, including the demolition of the existing East Wing.

I am deeply concerned that the massing and height of the proposed new construction will overwhelm the White House itself—it is 55,000 square feet—and may also permanently disrupt the carefully balanced classical design of the White House with its two smaller, and lower, East and West Wings.
The federally recognized Secretary of the Interior's Standards for Rehabilitation offer clear guidance for construction projects affecting historic properties. The Standards provide that new additions should not destroy the historic fabric of the property and that the new work should be compatible with existing massing, size, scale, and architectural features. The administration's plans would do just that. I urge you to reject the administration's ballroom plans.

Name: Deborah Carr
Date: February 25, 2026 2:08:43 pm

As this project advances in some form, I would like to remind everyone that this will impact not only the function of the building but the aesthetic qualities for years to come. The current renderings I have seen are not in keeping with the architectural balance between the Executive Mansion and the proposed new wing. The new East Wing building would dominate, rising to a height and volume that would dwarf the White House. Adding a second story to the Colonnade and steps to the reworked garden would not bring the much needed balance.
Please reconsider the scale of the project to bring it more in keeping with the remainder of the complex. The People's House deserves a better presentation for the future.

Name: Carla Tollefsrud
Date: February 25, 2026 2:30:02 pm

This entire project is unnecessary! And to prioritize it over healthcare and other needed resources for citizens is shameful. And the gilded gold theme is so tacky, its an embarrassment. Ug.

Name: Peter Nordgren
Date: February 25, 2026 2:36:30 pm

The rape of the East Wing of the White House deserves, first, the condemnation of this commission, since the actions taken fly in the face of your purpose. It is a violation of public trust in every respect.

Second, the replacement of the demolished historic building must be done in full and thorough consideration of maintaining a balanced design of the overall building. Furthermore, program needs and user data must be central to this planning process, using well-established space needs methods.

Lastly, decorative approaches, inside and out, must be done in accordance with the existing White House, the West Wing, and that of the late East Wing. The gaudy, tasteless designs that have been circulated by the Executive Branch have NO PLACE IN THE PEOPLE'S HOUSE. Please use your full authority to ensure the White House reflects egalitarian American values.

Name: Antonia Khanian
Date: February 25, 2026 2:54:07 pm

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. The Secretary of the Interior's Standards for Rehabilitation offer clear guidance for construction projects such as this one that affect historic properties. 36 C.F.R. § 68.1 et seq. The Standards provide that new additions should not destroy the historic fabric of the property, and that the new work should be "compatible with the historic materials, features, size, scale and proportion, and massing" of the existing structure.

Any proposed new addition to the White House complex should accommodate and respect the primary historic importance of the original Executive Residence. The ballroom addition should be subordinate in scale to the Executive Residence.

I recommend several modifications to the proposed project, including:

• Reduce Overall Size and Visibility. The size, volume, and massing of the proposed new construction (90,000 square feet) should be reduced or disguised (such as by placing portions underground, as recommended in the 2000 Comprehensive Design Plan) so the new building appears smaller than the Executive Residence itself (55,000 square feet). Its height should also be substantially lower than the Executive Residence.

• Reduce Footprint and Protect Key Views. The footprint of the proposed building should not extend past the existing south-facing façade of the historic Treasury Building, nor further interrupt the views of the Executive Residence from Pennsylvania Avenue.

• Respect the Established Classical Composition of the White House Complex. The new addition should retain the carefully balanced classical design of the White House complex with its two smaller, lower, and substantially symmetrical East and West Wings.

• Preserve the Historic East Facade of the Executive Residence. The connection of the colonnade to the Executive Residence should protect and preserve the original historic materials of the east façade of the Executive Residence and should not cover or demolish the existing fenestration and detailing of the east façade.

• Ensure that the Proposed South-facing Portico Is Subordinate in Scale to the White House South Portico. The proposed portico on the south façade should be smaller and less grand in scale than the existing portico on the south façade of the Executive Residence.

Adopting these recommendations will help ensure that the project both honors the exceptional historic significance of the White House complex and acknowledges the investment that the American people have in the preservation of this beloved place.

Respectfully,
Pamela Dent

1. Reduce the height significantly so the ballroom wing is noticeably lower than the main house. Suggestion to achieve this: lower the entire structure so the kitchen is in the basement, and the ballroom is at grade.
2. Shorten the length of the building by at least 33%, including enough to not disrupt the geometry of the symmetrical driveway on the south lawn. It would be acceptable to me to extend it slightly further north even if a tree is lost.
3. Make this a ballroom for the 21st century, not the 18th. Be less heavy-handed with the neoclassicism. Even if that is the overall tenor, let secondary elements such as the walls behind porches and the interiors express how our nation has evolved in 250 years, not stuck in a Euro-inherited rut.

Name: John Shaw
Date: February 25, 2026 3:09:46 pm

This project is a horrible idea. It's an unnecessary project that only benefits politicians and billionaires not the American people. From a planning standpoint, the process is being forced through without proper process.

1. Historic Integrity and Architectural Harmony

Large additions can disrupt the original architectural proportions, symmetry, and design intent.

A new structure may visually compete with, rather than complement, the historic building.

Changes can diminish the symbolic and aesthetic coherence that gives the building its cultural significance.

2. Preservation Standards

Additions to landmark buildings are often evaluated against preservation principles such as reversibility, compatibility, and minimal intervention.

Critics may argue that a substantial new footprint alters the historic fabric beyond what is necessary.

3. Visual and Civic Impact

Prominent civic buildings carry symbolic meaning; visible alterations may affect public perception.

Scale and massing of a new addition can overwhelm the existing structure or surrounding landscape.

4. Financial Considerations

High project costs may be questioned, especially if the functional need is unclear.

Long-term maintenance and operational costs can add to taxpayer burden.

5. Functional Necessity

Opponents may argue that space needs could be addressed through renovation, reconfiguration, or off-site solutions rather than expansion.

Temporary or modular solutions may be less disruptive.

6. Precedent

Approving a major addition to a nationally significant landmark could set a precedent for future expansions.

Some argue that iconic structures should remain largely unchanged to preserve historical continuity.

7. Public Input and Transparency

Concerns sometimes arise about whether adequate public consultation or design review has occurred.

Major changes to nationally significant properties often prompt calls for broad civic dialogue.

Anara Guard's comment captures my thoughts exactly and she gave me permission for others to use her language:

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Pamela Herrick
Date: February 25, 2026 3:15:09 pm

The White House is both a National Historic Landmark and a property of the American people, and it is a tragedy that the President of the U.S. has demolished the East Wing to be replaced with a garish, over-large, unnecessary and expensive ballroom. The process of review, design, and historic preservation considerations has been ignored. Congress has stood by mute as our history has been destroyed before our eyes. THIS MUST STOP. The White House Ballroom should not be built.

Name: KATHERINE EMERSON
Date: February 25, 2026 3:24:15 pm

This is not a modernization project, but rather a razing of history. I oppose the spending of 300 million on this project, which was initiated with proper authorization, permits, or design review. I want this project stopped and the East Wing rebuilt and restored according to the former design.

No one is above the law and to permit this project and go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Thank you.

Name: Kaye Martin
Date: February 25, 2026 3:24:51 pm

I am a concerned citizen in California and oppose the spending of $30 million on the East Wing project. Sadly the East Wing has already been destroyed, which was initiated without the proper authorization, permits or design review. To me, preserving the history of our nation is more important than modernizing, especially when it comes to the people's White House. I ask that the "modernization project" be canceled, and the East Wing rebuilt and restored to its former design, including all the historical memorabilia that was previously on the site. The total destruction of the East Wing by the current president should never have happened and permitting him to do what he will with the East Wing should not be allowed. He needs to follow the rules like everyone else in this country should. Thank you for your consideration.

Name: Janice Reynolds
Date: February 25, 2026 3:30:47 pm

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project cancelled, and the East Wing rebuilt, using the money that was donated for this illegal project. It needs to be restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans. The sheer size of the building is just a monument to one man's ego, not to mention all the gold trim planned. Complete monstrosity.
Thank you for your time.
Janice Reynolds

Date: February 25, 2026 3:35:57 pm

Please restore the White House as much as we can to it's pre-Trump set up. Noone wants this monstrosity he is building.

Name: Marilyn Donovan DVM
Date: February 25, 2026 3:38:55 pm

The preposed new ballroom is much too large and over whelms the White House!
I believe a ballroom smaller in scale would be more appropriate.
I have distaste for how this project was crammed down the public’s throat, without appropriate and legal input before the demolition of the East Wing.
I can only pray saner heads will prevail.
Marilyn Donovan DVM

Name: Paul Bowman
Date: February 25, 2026 3:45:47 pm

The White House is both a National Historic Landmark and a property of the American people, and as such - the prposed expansion is not an appropriate use of resources. I oppose the project as currently proposed.

Name: Terry S Johnson
Date: February 25, 2026 3:54:04 pm

I oppose the East Wing Modernization project.

1) The project was initiated without proper authorization, permits and design.

2) The East Wing was destroyed with no warning, no bids from contractors and no plans for the safe abatement of hazardous materials. In other words, it was destroyed illegally.

3) The new plans, which seem to change weekly, are out of scale, ruin the symmetry of the People's house and property and are unnecessarily expensive.

4) The funding for the project is suspect as donors may be expecting executive favors in the future.

5) The Rule of Law needs to be upheld.

6) Any plans for rebuilding the East Wing must go through all the legal and necessary processes no matter how long it takes.

Thank you.

Sincerely,

Ms. Terry S. Johnson

The Secretary of the Interior's Standards for Rehabilitation offer clear guidance for construction projects such as this one that affect historic properties. 36 C.F.R. § 68.1 et seq. The Standards provide that new additions should not destroy the historic fabric of the property, and that the new work should be "compatible with the historic materials, features, size, scale and proportion, and massing" of the existing structure.

Any proposed new addition to the White House complex should accommodate and respect the primary historic importance of the original Executive Residence. The ballroom addition should be subordinate in scale to the Executive Residence.

I recommend several modifications to the proposed project, including:

• Reduce Overall Size and Visibility. The size, volume, and massing of the proposed new construction (90,000 square feet) should be reduced or disguised (such as by placing portions underground, as recommended in the 2000 Comprehensive Design Plan) so the new building appears smaller than the Executive Residence itself (55,000 square feet). Its height should also be substantially lower than the Executive Residence.

• Reduce Footprint and Protect Key Views. The footprint of the proposed building should not extend past the existing south-facing façade of the historic Treasury Building, nor further interrupt the views of the Executive Residence from Pennsylvania Avenue.

• Respect the Established Classical Composition of the White House Complex. The new addition should retain the carefully balanced classical design of the White House complex with its two smaller, lower, and substantially symmetrical East and West Wings.

• Preserve the Historic East Facade of the Executive Residence. The connection of the colonnade to the Executive Residence should protect and preserve the original historic materials of the east façade of the Executive Residence and should not cover or demolish the existing fenestration and detailing of the east façade.

• Ensure that the Proposed South-facing Portico Is Subordinate in Scale to the White House South Portico. The proposed portico on the south façade should be smaller and less grand in scale than the existing portico on the south façade of the Executive Residence.

Adopting these recommendations will help ensure that the project both honors the exceptional historic significance of the White House complex and acknowledges the investment that the American people have in the preservation of this beloved place.

Name: Marquis Smith
Date: February 25, 2026 3:57:00 pm

This is an excellent idea. The White House needs something like the to accommodate the amount of people the ballroom will hold.

Name: Cheryl Genet
Date: February 25, 2026 3:58:22 pm

Hello - I am using words of a friend here, but they perfectly reflect my sadness about the historic East Wing demolition and Trump's brazen use of power even when he doesn't have it!

"I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. Thank you for your attention to this,
Dr. Cheryl L. Genet

Name: Donna Williams
Date: February 25, 2026 4:04:33 pm

The destruction of the east wing was performed outside of all project review protocols. The developing ballroom project is again outside of all review protocols.

I can't imagine the outcry if President Obama had initiated such a project in such a fashion. You all have in front of you the accepted laws and protocols. I expect the White House will be next for the wrecking ball once the new ballroom over shadows its surroundings.

I hope the commission can exert leadership where it is desperately needed.

Name: Gary Briggs
Date: February 25, 2026 4:06:12 pm

I'm writing to express great displeasure over the East Wing Modernization. In addition to serious questions about the legality of the demolition of the original East Wing, this project underscores the fact that the current Administration and the National Capital Planning Commission have forgotten that the White House (and all other monuments in Washington, DC) belong to the people. How were citizens advised of their opportunity to comment on these types of projects? I learned about this through a letter to the editor in our small town paper who gave instructions on the comment process. How specifically did the National Capital Planning Commission advise on the opportunity and mechanism to comment? The lion share of comments and discussions regarding the East Wing Modernization Project have been negative and have questioned the project's benefit and legal standing. Social media blew up over demolition of the existing East Wing. And before you think, "we shouldn't rely on social media to determine public opinion", you might want to remember that President Trump is a master at using social media for his personal and professional gain. Where is the date that shows the people believe a massive ballroom is necessary? It's laughable to hear that the East Wing Modernization Project will be funded by private donors. First off, there are already concerns raised about mismanagement of these funds. And after the building is finished and the private donors are gone, who will fund the daily upkeep of this massive structure? Are private donors lined for up the next 50 years to pay for the staff needed to manage the facility, the security needed to secure the facility, the daily maintenance of the facility, the longterm structural needs of the facility? The answer is clearly "no". What hasn't the National Capital Planning Commission provided any information about the ongoing cost of the new East Wing? This project is not necessary. This project is not supported by the American people. This project is nothing more than an attempt to turn the White House, and Washington, DC, into an eyesore of new, decadent, facilities that speak to privilege, power, opulence and demigods with total disrespect for the history and heritage of our great country.

Name: Gina D'Angelo
Date: February 25, 2026 4:22:35 pm

Dear NCPC,

I write to express my concern that the proposed "East Wing Modernization project" (New White House Ballroom) is violently out-of-scale with the existing structure.

As currently proposed, the East Wing Ballroom Project comprises 90,000 square feet, almost double the 55,000 square feet of the existing White House building. No amount of tweaking its design (except making it smaller) will change the fact that the "addition" is larger than the original. In addition, building such a large mass the exact same height as the existing White House further dwarfs it.

This is significant because the Secretary of the Interior's Standards for Rehabilitation require that additions to historic structures be subordinate in scale and size, distinct from the historic building (not replicating it), and compatible with its materials, features, and massing.

There is no doubt that there is a need at the White House for a gathering space that can accommodate more than the existing 200-person room. However, there is doubt that this particular design is suitable. It takes away from the original White House, dwarfs it in scale and relates it to a secondary role.

I implore you to not allow this project to go ahead as proposed.

Thanking you for your time,

Gina M. D'Angelo, Ph.D.
Independent Art Historian

Name: Georgia Delbridge
Date: February 25, 2026 4:27:25 pm

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is a complete razing of American history. How dare he! I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans. This is The People's House, NOT the Trump House!

Name: Adriane Marcellino
Date: February 25, 2026 4:30:29 pm

I oppose this project. First, it was done without normal approval. Second, being done by funds from wealthy businessmen allows for corruption.

Lastly, a large ballroom not a needed renovation. It isn't a great look while a large amount of Americans are financially struggling. Pretty much saying "Let them eat cake."

Name: Kory Stuer
Date: February 25, 2026 4:39:59 pm

I urge the Commission to do everything it can to preserve and respect history in this project. I have been shocked by the disregard for our country's history in the demolition of the East Wing and all it represents. In August 2025, I hosted my brother's family in DC, including taking a walking tour by the White House with my 5 and 3 year old nephew and niece. It was a profound moment when my brother explained to his young children that the building in front of them belonged to THEM as citizens of this country, and the peaceful transition of power that occurs as one tenant of the White House makes way for the next. When I took a picture of them in front of the White House that day, little did I know then that they were only just barely getting the opportunity to see the East Wing before it was torn down.

The East Wing represented many significant historical events and developments, particularly related to the important role of the First Lady in our country. From Eleanor Roosevelt to Rosalyn Carter, with many other between and since, the East Wing has symbolized the importance of women's civic engagement and political participation. Please do whatever you can to honor that history and ensure that the administration does not succeed with erasing these historical figures and events. American women's history is at stake in this project.

It cannot be an acceptable precedent that a president can unilaterally decide to demolish or otherwise alter the physical structure of the White House and other federal buildings. The White House does not belong to any individual president. It is not a palace to be reconstructed based on royal whims. There should have to be some approval by Congress, representatives of the people's voice, in order for a project to be valid. Please take action to protect the White House as the people's instutition that it is and must be.

Name: Kathryn Lage
Date: February 25, 2026 4:40:19 pm

I am writing to oppose the East Wing Modernization project. It is a waste of taxpayer money and tears down the building from an important era in American history, when the White House became a place that embraced the work of the First Lady and her staff. This proposal was initiated without proper authorization, or permits, or design review. The East Wing was destroyed with no warning, no Architectural & Engineering Request for Proposals, no bids from contractors, and no abatement of hazardous materials; all as required by federal law.

I would like to see the East Wing rebuilt to its former design (that was scaled and in proportion to the rest of the building) and the administration's project canceled. The current design is for an out-of-scale, out-of-place, and out-of-time pseudo-historical building.

No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Alisa Baker

This is again one of the ridiculous selfish announcements from Trump
The country is struggling with paying bills - high health care costs etc
this needs to stop - Trump acts as dictator
i cannot believe the state of our country right now
I am 75 year old woman - all my life a Democratic
Please do all you can to stop this action

Name: Shane Taylor
Date: February 25, 2026 5:00:45 pm

The East Wing of the White House — having been illegally razed by the Trump administration — should not be rebuilt or "modernized."

In its place, the footprint of the former wing should be memorialized by a terrace of black granite flagstones etched with reminders of grievous errors committed by the United States. A committee of historians and artists should be empaneled to recommend events to so memorialize and the text of each stone.

Obvious candidates for inclusion would be slavery, the displacement and genocide of indigenous peoples, internment of Japanese Americans during WWII, and our long history of discrimination based on gender presentation and sexuality.

The purpose of such a dark memorial is not to denigrate the United States but to soberly remind ourselves that of the sins of our history and that we are not above reproach as a nation, but must ever work to fulfill our promise.

Name: Susan Fischbach
Date: February 25, 2026 5:11:36 pm

I am very concerned that the new addition to the White House will be out of proportion with the existing main building of the White House. A Ball Room wing should not belittle the all important main building. Symbolism is the key for the Executive. The importance of the main building symbolized in its central, larger stature denoting the importance of the actions that occur there.

I am horrified that the East Wing was torn down without authorization, nor consideration for its historic relevance.

Name: Leslie Littell
Date: February 25, 2026 5:15:30 pm

Typical grand rooms use the practice of compression for entry areas so that when guests actually enter the main room it opens up and feels even more of a 'grand' surprise. With a 14' enter floor ceiling height you would loose that sense of movement into an important space. I also wonder at the scale of ceiling height relative to human scale. The exceedingly high ceilings make all guests feel / seem diminished. This would seem to be contrary to the purpose of hosting national and international visitors and letting them still feel important.
From another practical perspective, setting up a large space that could hold 15,000 people seated, (which you could never serve dinner / formal lunch to that many people practically) then only set up for the aforementioned need for 1,000 people - will again seem like the guests are being swallowed up by the space.

It also seems awkward to have guests enter on a low level and then have to internally use an elevator or stairs to get to the main room. That seems like it would become a problem for any emergency situation in terms of safe exit strategy. Has a fire marshal signed off on this?

Name: Heather Sustersic
Date: February 25, 2026 5:20:05 pm

I am writing to formally submit my comments regarding the proposed East Wing Modernization Project. While I understand the necessity of upgrading the White House’s infrastructure, the current proposed architectural direction represents a significant departure from the dignity, history, and symbolic integrity of the Executive Mansion.

The proposed design, as currently drafted, fails to honor the classical vernacular of the site and introduces several points of deep concern:

1. Massing, Symmetry, and Symbolic Alignment
The proposed addition exhibits an unbalanced massing that disrupts the site’s historical equilibrium. Most distressingly, the scale and placement of the structure interrupt the direct symbolic vista between the U.S. Capitol and the White House. This visual axis is a fundamental tenet of the 1791 L’Enfant Plan; to obstruct it suggests an apathy toward the civic geometry that defines our capital. Furthermore, the ballroom should not be treated as the most architecturally "important" volume in the city; its prominence should remain secondary to the historic core of the mansion.

2. Classical Integrity and Material Authenticity
The design displays a lack of adherence to the classical principles that the White House embodies:

The Portico: The proposed "fake" portico, featuring non-functional doors and excessive columns that render the space useless for assembly gatherings, should be removed entirely.

The Order: The use of Corinthian columns is inappropriate for this context. I request that these be replaced with Ionic columns to maintain a cohesive architectural language with the existing White House elevations.

The Palladian Window: Placing restroom facilities directly in front of a Palladian window is an affront to classical design. This feature should be expressed respectfully and kept clear of utilitarian obstructions.

3. Spatial Efficiency and Resource Management
The current proposal reflects a level of spatial wastefulness that is inconsistent with a project of this magnitude. I recommend the following adjustments to improve efficiency and aesthetic harmony:

Subterranean Integration: The kitchen and support spaces should be recessed into the ground. This minimizes the building's footprint and preserves the historical landscape.

Vertical Scale: The floor-to-floor height of the third floor is excessive and contributes to the overbearing massing of the addition. This height must be reduced to bring the building into a more appropriate human and historical scale.

Oversized Ballroom: Reduce the size of the ballroom to permit more flexible use. Its current configuration is only appropriate for extremely large gatherings and will feel empty for a smaller number of attendees.

Conclusion
The White House is not merely an office; it is a symbol of our Republic. The current White House East Wing Modernization design prioritizes selfish, modern grandeur over the disciplined beauty of American Neoclassicism. I urge the committee to revise the plans to reflect a more humble, symmetrical, and historically literate addition that honors the site's heritage rather than competing with it. The United States is better educated than this. We know better and can do better.

Name: Elizabeth Vincenzi
Date: February 25, 2026 5:21:14 pm

I am writing to express my disapproval of the proposal to add a ballroom to the White House. I was shocked to see the East Wing destroyed without the people having a say. It is so important that we preserve our history and George Washington's original plan for the city and the People's House. The scale of the proposed ballroom dwarfs the White House, ruins the historical axial connection between the Capitol building and the People's House, disrupts the classical symmetry of the White House and Olmstead grounds, and ruins the public's view of the People's House, which we as taxpayers pay for! I think there should be NO ballroom, but at the very least, the height and scale need to be greatly reduced. We have a Democracy not a Monarchy and the humble scale of our White House and grounds reflects that.

Name: Christopher McLaughlin
Date: February 25, 2026 5:21:38 pm

There are serious issues with the East Wing Modernization Project that should prevent the proposal from moving forward at this time. The changes will irrevocably harm the grounds of the White House campus designed by our nation's greatest designer of outdoor spaces Frederick Law Olmsted. In addition, architect James Hoban carefully balanced the east and west wings, the proposed changes will destroy all sense of balance. The ballroom space is also impractical, it would be too large to be cordoned off for smaller events. Finally, Pierre Charles L'Enfant designed Washington, D.C., to create views of the White House that this proposal would completely block.

Name: Audrey Alvarado
Date: February 25, 2026 5:22:27 pm

As an American citizen who had lived in DC for 20 years I was so proud when viewing the majestic White House, the people's house. I cannot say that today. The grotesque razing of the East Wing to build an unnecessary, wasteful, and unlawful Ballroom is appalling and disgraceful. A project that was started without the proper authorization, permits, or design review as REQUIRED by our laws. I want this project canceled and rebuild the East Wing to its former design. Respectfully, Audrey R. Alvarado

---

Name: Gail Gladstone
Date: February 25, 2026 5:25:59 pm

The proposed ballroom introduces harmful design, view, and landscape impacts on the White House, the people's house and all of Washington D.C. The massing is completely out scale with the rest of the White House campus architecture. The proportion is out of balance with L'Enfants Plan for Washington D.C., commissioned in 1791 by President George Washington. It breaks the important axial connections and views that were intended from the very beginning of the design of our nation's capitol. It will destroy the proportions of the historic landscape designed by Fredrick Law Olmsted, the father of Landscape Architecture. The historic views are destroyed. Literally, our history will be destroyed. It is imperative that this ballroom be scaled appropriately to preserve the legacy of the beauiful and historic city plan and the historic architecture. I'm from Maine so I'm not that familiar with the city of D.C. but I know what out of balance, out of scale, and out of proportion looks like. I have attached an image in pdf of how ridiculous this new proposed ballroom looks to me.

The demolition of the East Wing of the People's House was illegal and an affront to every U.S. citizen. The East Wing should be rebuilt as it was before it was torn down with modernized infrastructure, if needed.

Name: LARRY May
Date: February 25, 2026 5:28:20 pm

Although I understand the desire to have a larger public space for state functions, the east wing addition as proposed completely dwarfs the existing historic White House, which should be the center piece of the site, destroys the symmetry of the White House complex, and finally destroys the historic visual link between the White House and the Capitol. Please reject the current proposed design to allow the architects to design a smaller, less intrusive design that will accomplish most, if not all, of the desired needs stated while respecting and blending in with the historic complex. There is no need to rush to approve an inferior design for such an important public property. The history of White House is integral to the history of our great nations and we, the people, who own this property deserve the best solution possible.

Name: Ann Humphries
Date: February 25, 2026 5:38:27 pm

I want the East Wing rebuilt to match the original and to scale the ballroom to the White House and not have it overpower the White House. Consider locating it elsewhere.

Name: Diane Jadlowski
Date: February 25, 2026 5:42:52 pm

Please take into consideration the following:

This building should be no larger than a standard building for 1,000 guests.
How would you make the space smaller for smaller groups?
This building should be behind the White House.
Not blocking the view from the Capital Building.
Not be taller than the White House
Be as L'Eufont's design details.
It should match the facade of the White House.

Most importantly determine where the money is coming from to build it.
I do not believe the private donors will pay for it.
Is it Congress approved? They have to appropriate the money.

Respectfully submitted

Name: John Henderson
Date: February 25, 2026 5:44:12 pm

The East Wing Ballroom addition as presently designed will forever alter and destroy the beauty and classical integrity of the L'Enfant master plan for Washington, the Hoban design for the White House, and the Olmstead landscape plan of the White House grounds. The size and scale of the Ballroom addition is ghastly and should (and can easily) be reduced to appropriately accommodate 1000 seated guests as intended, both in height and footprint. In doing so the sacred Capitol-White House axis of the L'Enfant plan can be preserved and the Olmsted drive left intact without compromising the functionality of the addition. The east portico of the Ballroom addition should be reduced to equal the portico of Mills' Treasury Department in size and height. Use of the classical Corinthian order columns on the addition is inappropriate

and should be changed to the Ionic order to match both the White House and Treasury Department.

The White House needs a new ballroom, but this is not the way to go about it and I strongly object!

Name: Joyce DiChristina
Date: February 25, 2026 5:45:00 pm

Please reconsider the size and scale of this ballroom! How many times will room be needed for 1,000 plus people! It is the peoples house and it should continue to abide with style and size from the last 200 plus years!! Are there any architects being consulted as to the fake doors and view with the columns!
Why does the kitchen have to be so large?
It could be toned down to better fit in.
Please consider other options
Thank you
Joyce DiChristina

Name: Timothy Mitchell
Date: February 25, 2026 5:45:16 pm

The present White House configuration deserves to be respected in height, scale, and style. The proposed ballroom plan is brazenly disrespectful. So much about it is wrong.

If the Administration insists on adding a ballroom, it could easily be two thirds of the proposed foot print, and half the height, and still allow for 1000 people. The interior could also be designed in a way to accommodate smaller groups...otherwise, the cavernous room will stand empty for 97% of the time, a huge waste of energy.

The NCPC should say "no" to this plan as currently proposed and require a major revision which fits into the design of the Federal District. Slow this down and make it right.

Date: February 25, 2026 5:45:25 pm

It's important that we keep up with the times while also maintaining our historical integrity. It's wonderful that we do have architectural archives that we can refer to and be able to utilize them in design. The incredible fact is that we now are celebrating this year our 250th as a great nation, although very young in comparison to other nations. We are a nation, now, that the world depends upon in every way, very in-contrast to back in time of George Washington days! Presentation is key, I believe, with respect to this proposed structural change, to be able to share with our distinguished guests of other nations luxurious comforts and power that our United States provides. We have more than earned our standing on the globe, why not be able to live it? Not for nothing, England is a good example that speaks to this point. And, of course if our First Lady needs work space to be that effective partner in service to our great nation, she shall have it!
Thank you

The White House is the People's House, and therefore, the people, such as myself, should have a say in how it is significantly altered.

The proposed ballroom is three times the size of the White House! Why is that necessary? Not only does is significantly alter the original historic design, but it's enormous scale totally alters LaFont's 1791 plan of Washington, DC! It will totally block the axis from the Capitol to the White House. The original Landscape design by Olmsted will also be changed! Why are we doing this?!

I do not believe this is necessary. If a ballroom is needed, then it should be scaled back so that it not only makes more sense, but more closely preserves the history of the White House, Washington, DC and our country. It should also be of a size where the space would be more frequently utilized. As currently designed, it would only be for sit-down events for 1,500 + people.It should also be designed to be ADA compliant.

I am a tax payer and so I'm paying for this.

I am very concerned about the proposed changes to the East Wing because they do not honor the architectural history of our nation's capital and the people's house, the White House. I am especially interested since it appears the designs abandon designs developed and commissioned by our first president, George Washington, by the architect of the White House, and the historical landscape architectural designs for the grounds. I would like to see all this history respected in the development of a new design. I believe we can balance the needs of the modernized new wing with its impact on the historical designs and have the best of both worlds.

There are many issues with the published design including the lack of symmetry in maintaining the classical architectural intent, the immense scale that defies industry standards and the needs for the number of people served, the visual interruption of the sight line connection down Pennsylvannia Ave. of the White House and the Capitol Building and the unnecessary portico with no function, or access. There are other things which I am sure that architects familiar with historical preservation can attest to as needed changes.

Architects, much smarter and knowledgeable than me could design a building that would allow for all of these concerns to be addressed while still developing a building that meets the needs of our administration.

We have already lost the history of the West Wing of the White House in its demolition. Please preserve our nation's history for future generations and don't let it, too be lost.

Sincerely,

American Citizen and person who loves historic perservation,

Suzanne Mortimer

The Secretary of the Interior’s Standards for Rehabilitation offer clear guidance for construction projects such as this one that affect historic properties. 36 C.F.R. § 68.1 et seq. The Standards provide that new additions should not destroy the historic fabric of the property, and that the new work should be “compatible with the historic materials, features, size, scale and proportion, and massing” of the existing structure.

Any proposed new addition to the White House complex should accommodate and respect the primary historic importance of the original Executive Residence. The ballroom addition should be subordinate in scale to the Executive Residence.

I recommend several modifications to the proposed project, including:

• Reduce Overall Size and Visibility. The size, volume, and massing of the proposed new construction (90,000 square feet) should be reduced or disguised (such as by placing portions underground, as recommended in the 2000 Comprehensive Design Plan) so the new building appears smaller than the Executive Residence itself (55,000 square feet). Its height should also be substantially lower than the Executive Residence.

• Reduce Footprint and Protect Key Views. The footprint of the proposed building should not extend past the existing south-facing façade of the historic Treasury Building, nor further interrupt the views of the Executive Residence from Pennsylvania Avenue.

• Respect the Established Classical Composition of the White House Complex. The new addition should retain the

carefully balanced classical design of the White House complex with its two smaller, lower, and substantially symmetrical East and West Wings.

• Preserve the Historic East Facade of the Executive Residence. The connection of the colonnade to the Executive Residence should protect and preserve the original historic materials of the east façade of the Executive Residence and should not cover or demolish the existing fenestration and detailing of the east façade.

• Ensure that the Proposed South-facing Portico Is Subordinate in Scale to the White House South Portico. The proposed portico on the south façade should be smaller and less grand in scale than the existing portico on the south façade of the Executive Residence.

Adopting these recommendations will help ensure that the project both honors the exceptional historic significance of the White House complex and acknowledges the investment that the American people have in the preservation of this beloved place.

Date: February 25, 2026 5:54:18 pm

The White House was never intended to become a monument to its occupant. It's been the people's house from the beginning at the direction of George Washington and the Founding Fathers. The current proposal for the East Wing ballroom reflects the arrogance and extravagance of the Gilded Age where the obvious display of wealth was king. It totally disrupts the layout of the city and the aesthetic balance of the White House grounds. I do not question the need for an upgrade. However, the secretive nature of the project and it's funding, the scale of the building with massive ceiling heights and a decorative portico call into question the speed and manner of its approval. I urge the Commission to adhere to the deliberative approval process that has unified the District for over 200 years. Please find a solution that meets the needs of the presidency on a scale that befits the presidency.

Name: Susan Miner
Date: February 25, 2026 5:59:23 pm

I urge members of the National Capital Planning Commissions to respect the history, architectural integrity, and visual/spatial relationship to the Capitol Building of the White House as you review the plans for such a massive enlargement of the East Wing. The proposed size of the ballroom is well above the recommended square footage per person for such a facility and is incapable of being subdivided for groups smaller than the anticipated 1,000 attendees. Imagine the awkwardness of attending a dinner for 350 in a vast room meant for 1,000.
Using Corinthian columns on an "addition" to the White House, which has Ionic columns, is a serious breach of traditional architectural practice which must be corrected if you intend the plan to observe any standard rules of appropriate design.
Above and beyond the multiple design flaws of the plan, please heed the concerns of millions of Americans to whom the People's House truly belongs. This most historic house, so widely recognized throughout the world, requires your protection from the destruction of its pivotal place in the original plan for our nation's capital. Worthy architecture seeks to balance need with impact. The need for a larger ballroom can be reasonably met with a smaller, more sensitively designed building with a significantly reduced negative impact on the White House, its surroundings, and the faith and trust of the American people.

Name: Nancy Mattina
Date: February 25, 2026 6:05:40 pm

Dear Commissioners,

I write to express my objections to the so-called modernization of the now destroyed East Wing of the White House. The very fact that the East Wing was demolished prior to securing public input about the president's intention to replace it with a "privately funded" ballroom should disqualify the project. The White House belongs to the American people in the same way that our national museums, parks, and monuments do. Through our taxes, we pay the utilities, upkeep, and improvements based on the promise that we are, in effect, the president and vice-president's landlords. No doubt some of you on the NCPC have been private landlords. Can you imagine turning a blind eye if one of your tenants bulldozed a portion of your property and when confronted with it said, "Don't worry, I'll pay to have something else built in its place"? Few Americans have the luxury of owning luxury rentals but every one of us understands that property rights are

a cornerstone of civil society. That is, we know vandalism, theft, fraud, and malice when we see it. Allowing this project to go forward creates a precedent for abolishing the property rights of the public at the whim of the party (temporarily) in power. That is not stewardship. It is failure to honor your responsibility to the American people.

The East Wing project also constitutes an assault on our national history. We've raised monuments to our national story over two hundred and fifty years for good reason. Symbols of honor, pride, shame, and regret are crucial sign posts to guide us on the road to achieving progress. When such symbols celebrate the worst of us, by consensus they are removed. No such infamy pertained to the East Wing. In fact, over time it was revered as a symbol of the dedication and patriotic service of our First Ladies. By callously bulldozing the East Wing without any public input, the president showed contempt for the First Ladies legacy as well as our national history of striving for a more perfect union. In Iraq and Afghanistan ISIS and the Taliban attempted to erase history by destroying museums, archeological sites and religious sites. To approve the president's erasure of the East Wing would be tantamount to condoning acts we label 'terrorism' in countries known for their brutality, corruption, and lack of civic institutions.

Finally, while the preemptive demolition of the East Wing disqualifies the "modernization" project on any pretext, the president's intention to erect a splendiferous ballroom paid for by wealthy donors is an insult to the American people. Conceived as an arena for the wealthy and powerful to mingle elegantly while millions of Americans struggle to house, feed, and care for their families, the ballroom would replace a legacy of service with a prescription for the perpetual servitude of ninety-nine percent of Americans. It announces that we Americans are subjects, not citizens. It turns the people's house into a pleasure palace where elites converge to decide our fate over champagne and caviar. It will become a symbol of the triumph of personal greed over public service.

I urge you to fulfill your patriotic and administrative duties by preventing further desecration of the White House complex on the unilateral orders of its current occupant. Presidents come and go. But the stain on your honor as stewards of our national historic treasures will never disappear if you should decide to ignore the people's wishes and proceed with his shameful despoiling.

Thank you.

Date: February 25, 2026 6:07:08 pm

I am writing in opposition to the proposed White House ballroom project. At a time when Americans struggle to pay for food, health care, and college, we don't want our tax dollars going to pay for the ballroom or all the parties and events that will happen once a large scale ballroom is built. I also care about historic preservation and was shocked when the East Wing was demolished, because I had gone through that entrance, I believe, when I toured the White House in the 1990s. We should not be building a ballroom that is so large that it dwarfs the White House, ruins the classical symmetrical architecture, or blocks the public's view of the White House from that side. Also, Washington DC and the White House was designed with intention, by our founder, George Washington, to have an axial, symbolic connection between the Capitol building and the White House. If this massive ballroom is allowed, that axial connection will be destroyed forever. I was also dismayed that the huge scale of the ballroom will disrupt the symmetry of the White House grounds and circular drive, designed by Frederick Olmsted. I grew up in Spokane, WA near a park designed by the Olmsted Brothers and always liked knowing that Frederick Olmsted also designed the white house grounds. Symmetry brings peace and calm to the eye and having that in the People's House helps show the nation that our leaders are calm and solid and there for us. This country is a democracy run by and for the people, not a monarchy, and the People's house should reflect that humility, not one President's lust for grandiosity.

Name: Sarah Frazier
Date: February 25, 2026 6:13:33 pm

Please reject the proposed plan for a ballroom. As shared with the public, its scale and function are out of line, throwing off symmetry and histpric design such that beauty is also marred. With this design, we would lose the triangle lines connecting the three branches of government with the White House at the center. We would lose the beautiful oval shape Olmstead designed for the White House grounds. The ballroom is at points actually taller than the White House. It's composed largely of a bunch of walls with fake windows, has a kitchen 3x the needed size for 1000 guests, plus a portico beyond the ballroom windows that cannot be accessed from the ballroom. it has no provisions for making a too large space more intimate. It confuses column styles without any greater purpose. An original adjoining Palladian window will be lost. It's a disaster that succeeding generations can only regard as a painful reminder of (hopefully past) excess and authoritarianism.

I'm a Republican who will never vote for the party that lied to us about Biden's ability & gave us open borders & taxpayer-funded abortion thru the 9th month. And after watching the National Trust's presentation on 2/25/26 on Trump's Ballroom, I want Trump to be impeached.
It's an abomination in every way that Americans will regret for centuries. Please DO NOT APPROVE IT! PLEASE MAKE THEM REDUCE ITS SIZE AND IMPROVE ITS DESIGN TO ALIGN BETTER WITH THE PRINCIPLES OF CLASSICAL ARCHITECTURE.

Name: Duke Lokka
Date: February 25, 2026 6:15:28 pm

I think it is a travesty that the President destroyed the East Wing without following proper procedures. It shows a level of arrogance and disregard for history and custom that should not be allowed to succeed. I urge the Commission to prevent further destruction to this national treasure.

Name: Lindsay Suter
Date: February 25, 2026 6:17:56 pm

First, it should be known that I am a US citizen, registered architect, have practiced in the US for more than 30 years, and have taught at many institutions, such as Yale University and the University of Hartford. I have received many professional awards, and have a distinguished list of clients, among them King Charles.
This project has a major impact on the “people’s house”, the White House, and as such it is under the highest scrutiny. This is as it should be. Unfortunately, there has been woefully little for ‘the people’ to see, read or understand about the proposed changes to our beloved White House. Demolition of the previous East ballroom structure happened without enough warning, and without careful consideration. This is an abomination, and should not be followed by an equally hasty rebuilding.
The important message here is: slow down. Give the people a chance to contribute their significant expertise for this important effort. What little design information has been provided so far raises serious concerns:
• The proposed design is badly out of scale – too large, too ostentatious. Look at it – it is larger than the White House. It is the “Tail wagging the Dog”.
• It is in conflict with accepted, time-honored, federal standards.
• It is, especially on the South side, unresponsive to the White House: disconnected, out of proportion, and offers fake doors & windows, and has no relation to the street, the people.
• From an urbanist's standpoint, the massing of the building cuts off the visual axis from the Capitol to the White House – an egregious error! L'Enfant’s plan of DC is violated by this intrusion. Access, both visual and symbolic, must be kept in the view corridors and connections in our nation’s capitol.
• Frankly, it is an egotistical endeavor by an arrogant President, to put a mark on the US before he deserves it. No. Let future generations decide if he deserves memorializing. That’s how we did it for Washington. That’s how we did it for Jefferson. That’s how we did it for Lincoln. And that’s how we need to do it now.
Humbly submitted,
Lindsay Suter, AIA, LEED AP, NCARB

Hello and thank you for the opportunity to comment. The so called Modernization appears to be a complete destruction of the past in favor of the current President's somewhat gaudy and gilt approach to the subject. While I don't advocate for a complete restoration of the former wing, I think many elements of the destroyed structure, which I understand have been saved from the wrecking ball, should be featured in the new building to give a sense of continuity. I also think architects not under the sway of the President should have meaningful input into the design of the new structure, with particular regard for it not detracting from the White House main building.

Name: Veree Hawkins Brown
Date: February 25, 2026 6:26:06 pm

I am completely against the current plans to build a unnecessary ballroom and office complex that overpowers the architectural significance and scale of the rest of the White House. This project has not followed the rules of getting the appropriate approvals from government agencies prior to any construction activities. The tear down of the East Wings appears to be an illegal executive action and has destroyed vital historical significance of the building. I encourage all voting members to reject approval of the plans that have been shown publicly at this time. This ballroom appears to be a pay for play project that enriches the President and seems to run afoul of any sense of integrity surrounding the office of the president.

Name: Weslie McLaughlin
Date: February 25, 2026 6:28:55 pm

I am shocked that the East wing of the White House was torn down without the agreement of congress and we the people who own it. The planned ballroom is too large and not proportional with the rest of the White House. The plan shows an area that can hold much more than the stated 1,000 people.. the original plan and architecture of our founding fathers should be maintained. You need to require a plan that will maintain the symmetry and dignity of this historic building.

Name: Mary Elgin
Date: February 25, 2026 6:29:29 pm

The East Wing Modernization plan creates a travesty of uselessness. We should rather restore the East Wing to its former state and citizen-friendly use as an entry point for visitors, and as offices for our First Lady. We certainly do not need to spend money from donors whose motives may be questionable upon a monstrosity of a ballroom which dwarfs the size of our original White House.
Please reject any plans which are not in keeping with The People’s House. After all, we only lend it to the current occupant for four or eight years.

Name: Lorraine Lietzman
Date: February 25, 2026 6:39:00 pm

The building of a Ballroom attached to the White House is not a good use of space or taxpayer money. It should not be attached to the White House and it definitely does not need to be the size projected. The money would be better spent improving the education, health care, and infrastructure of this country and the majority of the people living here. That is what could help make the United States a better nation.

Commissioners,
I join the National Trust for Historic Preservation in requesting that the integrity of the original section or central element, of the White House, be honored by any and every proposed change. The 1792 winning design was by Scottish architect James Hoban, whose exterior elevation design and architectural plans for the President's House, as the White House was originally known, won the approval of President George Washington. Its Classical symmetry and scale; its type: a Mansion House, not a palace or a Greek or Roman temple; its neatly tailored style (note the use of the simple and modest Ionic, rather than ornate Corinthian order for its column capitals); and its balance and proportion, by which the north portico bay relates the whole facade (leaving equal portions on either side to complement the central feature) was felt to appropriately symbolize the "Republican Simplicity" and represent the ideals of our new nation, a Democracy governed temporarily by elected officials who served at the pleasure of the citizens who had elected them.

This addition to the east side of the building is shocking in its proportions, its lack of respect for the architectural integrity of the existing White House, and the unnecessary use of a first floor story for essentially private functions (kitchen and other) as witness by the addition of false/blind windows and doors along its length and width in order to give the appearance of a true first floor of the building--all of this could be moved below grade, which would solve a number of the problems detailed here:
1) this massive structure as now planned will extend higher than the roof line of the original section
2) this protruding extension is projected to extend so far in front of the original building that it will intrude upon the axial design of streets and vistas laid out by President Washington's architectural planner for the City of Washington, Pierre L'Enfant, in 1791, which created an unobstructed view down Pennsylvania Avenue from the U.S. Capitol to the President's House
3) create massive interior spaces for still to be justified functions -- what has been proposed goes way beyond the projected usage: a second floor ballroom that will accommodate 1000 people at a seated dinner and, because of the massive, non-functional, Corinthian portico with its 24 large columns that has been appended to the three story addition, the honored guests would blocked if not almost entirely obscured views of the Washington Monument and the National Mall, but there is also a nearly equal sized third floor whose function has not been announced
4) the proposed addition would stick out so far in front of the existing White House footprint that it cover and destroy the arc of the circular drive and walking paths of the south lawn, the esteemed Frederick Law Olmsted Jr. landscape design that informs the largest portion of the White House National Park grounds.

While the need for an appropriate and convenient public banquet space at the White House is not in question, this massive proposed structure is far beyond the stated need (a seated dinner for 1000 people), is so far out of proportion as to create striking and intrusive disharmony with the surrounding architecture, intrudes upon both the city plan of Washington DC from 1791 and the park-like setting designed for the President's House for all to enjoy. Please consider the constructive suggestions that are being offered in terms of a reduction in scale, and adherence to classical style and balance for the proposed new East Wing. One of the tenets of good architecture is how it balances need with visual and physical impact. In this case, a reduction in scale and the simplification of extraneous exterior features (elimination of the three story non-functional south portico with its unnecessarily showy Corinthian columns) will provide a much more pleasing and appropriate solution to the identified need.

Thank you for your careful consideration of these and other submitted comments.
Yours truly,
Susan W. Knowles PhD

Restore the East Wing to the original structure. Preserve our White House!

Name: Susan Gerbi McIlwain
Date: February 25, 2026 7:15:49 pm

TO: National Capital Planning Commission (NCPC)
DATE: 2/25/2026

I am writing to you in my capacity as a private citizen with my concerns about the design of the proposed ballroom for the White House. I adore colonial architecture, especially from the late 1700s, and in fact I designed and built our own home with authentic details from 1790-1810. Symmetry is a basic tenet of Palladian architecture, and this is violated in

the proposed design for the ballroom. Typically, the main entrance to the building has the greater mass and can be flanked by smaller wings on each side, as was true for the White House and also Jefferson's Monticello. Instead, the proposed ballroom overpowers the main facade of the White House.

The architectural details of the wings or additions should mimic that of the main structure, but this is not adhered to in the proposed design. For example, there are Ionic columns on the main part of the White House, but the proposed ballroom has Corinthian columns that are more elaborate and overshadow those of the main building.

The space inside the proposed ballroom is too large if a smaller event would be held there, and the 40 foot ceilings preclude a sliding partition to make the space smaller and more intimate for a smaller gathering.

l'Enfant's vision of his beautiful design for Washington DC is ignored and ruined by the proposed ballroom that obstructs the axis and view running between the White House and the Capital.

Finally, Olmsted's classic design for the White House grounds is encroached upon by the proposed ballroom.

For all these reasons, I sincerely hope that the design and scale of the proposed ballroom can be redone to correct the problems noted above. This should be possible while still meeting the functional need for the ballroom.

Thank you for your consideration of these comments.
Sincerely yours,
Susan Gerbi McIlwain

To Whom it May Concern:

I am deeply troubled by the size and scope of the East Wing Mondernization project. Below are my comments:

Please explain the use of Corinthian columns (very decorative) in the new ballroom wing vs classical Ionic columns as used in the White House and Treasury buildings. Why not all Ionic? To use the Corinthian decorative columns would seem to diminish the other monuments.
In most cases these columns eclipse seated guest views from the interior space and block any movement on the terrace as they are so closely placed together, Why are there so many columns?

Why are we allowing a building so large as to block and distort views of the White House from the Capitol Steps and Pennsylvania Ave. This enormous building destroys the symmetry & the symbolic connection between other branches of government, implied in Pierre L'Enfant's original design, ie the centrality of the WH with spokes (one being Pennsylvania Ave) connecting the Capitol and other government entities. The Ballroom footprint totally destroys that symmetry as well as alters the Olmstead driveway/roundabout design.

Why was there such lack of transparency and brazen destruction of the East Wing without public involvement, information of whether/where/how contents were preserved. Was the Palladian window in the East wing preserved and is it part of the new renovation? Where will it appear? How can one president secretly decide the fate of all of these historical items?

The new portico has no connection to the ballroom. It has a stairway to nowhere and no way to enter the building. The south elevation doors are fake & lower floors have mostly blind windows. Why this waste of money?

The kitchen is 13K square feet - why? This is 2-1/2 times what is needed for a 1000 person event. Why is the upstairs so large and the ceilings so high? Is there a plan including offices, kitchen, and other areas, which has been presented to the public, and which would hopefully justify such a large 90K square foot space and odd ceiling heights?

I recently read that now instead of a 1,000 seat ballroom it will be for 1,350 guests. And that the cost will not be $200 but $400 million. Why not something more modest and if there is an overage of donations, use them to pay for utilities, maintenance, security and other expenses?

Sincerely, Kathy Cornelius

I write today as both a decorative art and architecture historian and as a concerned citizen.

The classical architecture of our nation's capital is intended to reflect our historic values while meeting contemporary needs. The proposed East Wing Ballroom does neither.

From the historic perspective:
- The original city plan, designed by Pierre Charles L'Enfant and presented to George Washington, is based on four sight lines to the people's house. The proposed ballroom would obstruct the vista from the Capitol to the White House, violating the classical principles of harmony and balance.
- The White House grounds were designed by Frederick Law Olmstead, calling for circular and semicircular drives. The proposed ballroom would break the lines of the circular drive and violate yet another classical principle of harmony and balance with nature.
- The White House itself, was designed in the Neoclassical style by James Hoban, demonstrating a mastery of balance and proportion. The proposed ballroom upsets this balance and proportion in a multitude of ways—from its overpowering height, length, and width in relation to the main structure, to its oversized dead-end portico and false windows, to the inappropriate use of Corinthian columns in relation to the Ionic columns on the main structure.

From the contemporary perspective:
- The proposed ballroom does not meet practical needs. It was intended to provide space for up to 1,000 guests, yet the current plan impractically provides enough square footage per person to accommodate 1,500 people. If its size were reduced to comfortably accommodate 1,000 people, the aforementioned classical sight lines and circular drive could be maintained.
- The proposed forty-foot ceiling height and number of windows do not allow for the ballroom to be subdivided for smaller events, thereby rendering the room impractical and likely to sit idle a majority of the time.
- The proposed portico is non-functional as there is no access to it from the ballroom, and the inappropriate Corinthian columns would prohibit the use of the space for gathering while blocking window views. Elimination of the portico would lessen the dwarfing effect on the main White House and put an end to the mismatch of column capitals in relation to the current Ionic capitals in violation of the classical principles of harmony and balance.
- The third floor of the building calls for nineteen-foot ceilings, which far exceed the height necessary for office or other practical spaces. If the ceiling height were lowered, the overall height of the building could be lowered, thereby no longer dwarfing the main White House structure to the proposed extent.
- The proposed kitchen is larger than is necessary to service up to 1,000 people and sits nine-feet above ground level yet has no exterior windows. Should the kitchen be reduced in size and submerged, the height of the building could in turn be reduced, thereby no longer dwarfing the main White House to the proposed extent.
- It appears that ADA compliance has not been fully considered.

I implore the National Capital Planning Commission to take these points under consideration and to prevent the proposed East Wing Ballroom from being constructed without considerable revision to preserve the classical principles of harmony and balance originally envisioned for the White House and to create practical and accessible spaces for the future.

Respectfully submitted,

Diane VanderBeke Mager

Name: Linda Lovaas

I am totally against the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this

project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding citizens.

Name: Richard Cornelius
Date: February 25, 2026 7:44:40 pm

To Whom it May Concern:

I am writing to express my opposition and deep concern to the currently planned East Wing/Ballroom of the White House. This proposed project is totally out of proportion with the historic White House and destroys the perspective and architectural nature of The People's House.

The National Historic Preservation Act has been totally ignored during this process. The White House is an iconic piece of American History and should not be allowed to be manipulated because of one President's ego.

The East Wing must be rebuilt now that it has been destroyed, but it needs to be rebuilt so that it reflects the historical intent of its architect and the history that it signifies. Please ensure that its size is proportional and fits the need for a reasonably sized ballroom facility.

Sincerely,

Richard M Cornelius
Rancho Mission Viejo, CA

Name: Carolyn Smith-Gerdes
Date: February 25, 2026 7:48:22 pm

I believe that this expansion project violates historic preservation standards, lacks transparency, and may necessitate further unwanted and drastic changes, such as adding a story to the West Wing colonnade.

While expanded event space may be needed, additions must respect the historic scale and design of the White House. At 90,000 square feet, the proposed ballroom is too large and must be appropriately reduced in size so it would not exceed the size of the 55,000-square-foot Executive Residence. Additions to historic properties should be compatible in scale and subordinate to the original structure.

Thank you very much for this opportunity to give feedback on this project.

Name: Suzanne Hren
Date: February 25, 2026 7:52:42 pm

I watched today's online meeting, Crucial Insights and Viable Alternatives for a More Sensitive White House Ballroom and concur with all of the points described.

Besides the numerous architectural design goofs, both on the interior and exterior, the proposed site plan is completely disrespectful of the L'Enfant site plan and is, to me, one of the most egregious design violations of those mentioned by the distinguished team of architects.

As an architect AIA Emerita with much experience submitting Federal projects for design review to NCPC, it is my sincere desire for the approval process to slow down until there is consensus among the most interested parties, namely the National Trust for Historic Preservation and the AIA, and other design professionals like me.

This East Wing project is too important to the American people to treat this step lightly and rush through a terribly bad design. The office of the President of the United States changes, and so this ballroom should be one that will serve future presidents for many years to come.

Name: Pamela Kneisel
Date: February 25, 2026 8:08:36 pm

The White House is one of the most important buildings in the United States. If there is to be a ballroom...and I have not been convinced of the need...it should not detract from the White House itself. It is up to the architects and the historians to insure that the White House continues to be the central and dominant structure in the collection of buildings in that White House complex. It would be a travesty to have a building of limited need and use...one man's vanity project...dwarfing the White House.

Thank you for all efforts to have this project be reasonable, tasteful, and historic in a positive way.

My comments will be brief primarily because it is so painfully obvious that no policies, procedures, nor rules were followed before the historic East Wing was demolished and yet, such guidelines are clearly in place. This isn't a "renovation" nor a "revamping" nor a "modernization." It is the obliteration of a critical part of one of the most iconic, historic, and beloved structures in the United States. And, it is being done on the whim of one administration. If any structure deserves to be respected and sensitively changed only after thoughtful review and input, it is, or should have been, The White House.

I cannot voice my opposition strongly enough to what as transpired thus far. And, I shudder to think how the monstrosity that is being proposed will change, and destroy, not only the entire look of The White House, but of Washington DC itself. No man nor any administration should be able to so drastically alter one of the most recognizable buildings in the world simply because they want to do so. If that were the case, the very architectural fabric of Washington DC would be in tatters. The city would become nothing more than a hodgepodge of ill-conceived and pompous "temples" based on whoever is in power at the moment. Allowing free-for-all destruction and building would leave DC stripped of the inspiration it has always embodied, at least until now..

Thank you for trying to stop the thumbing of noses at longstanding procedures that are in place for this very reason..

John C. Perkins, Jr.

Please reject the current plan for the replacement of the East wing of the White House. The current ballroom plan is unacceptable.

Considering that the current administration claims to support the use of classical architecture in all federal buildings, the disregard of basic concepts in this current design is glaring. The addition is totally out of scale. It is excessively large (in both square footage and volume) for accommodating the proposed 1000 guest and related support spaces. It can easily be scaled back to a size more consistent with the proportions of the White House. The current plan has a large portico that has no function whatsoever - in short it has no utility. Another principle disregarded in the current plan. Why doesn't it use the same style columns as the current White House? That's another easy fix.

The size and siting the ballroom structure also disrupts the historic siteline along Pennselvania Avenue from the White House to the Capital as laid out by L'Efant and alters the symmetrical drive of Olmsteads' landscape plan. Both of these are also unnecessary if a more thoughtful plan is developed.

Please reject this clumsy, destructive plan which will forever alter not only the White House building and grounds but also how it fits into the greater community of our beautiful Capital.

Please please please consider the scale of this project and the way it dwarfs the existing historical structure. It almost makes a mockery of the building that represents our country and democracy. And to me, that is shameful.
I have read that there is ample space to build a new ball room on the grounds, but not connected to the existing building- that would be preferable and allow the new design to exist more “on its own” and take more liberties with scale etc.
Please consider the voices of historical presevationists and concerned citizens.
Thank you,
Lark Champion

How dare Trump break every norm, tradition, policy, and law to destroy the historic East Wing and waste money on that fake gold monument to himself. Trump is telling struggling Americans to just get over themselves and let him build gaudy building that looks like Saddam Husein's palace. $400 million dollars would pay for a lot of college, or preschool, or food for children, the elderly and the disabled.
Do NOT approve this monstrosity and the huge waste of money. And I would bet the Trump organization will make money off of the project because is is openly corrupt.
If you have brains or a soul, do not put up a monument to someone who wants to cancel elections and is openly and proudly racist and sexist. Given what we have seen of the Epstein files that have been released so far and the lawsuit, and allegations by girls, he is also likely a pedophile and is engaged in a cover up.

“I oppose the ballroom! The out-of-proportion visual scale, the expense of forever maintaining the structure that was initiated WITHOUT proper authorization, permits, or design review.

It completely razes American history. CANCEL the ballroom. REBUILD & RESTORE the East Wing to its former design.

NO ONE IS ABOVE THE LAW. PENALIZE those who broke the law and destroyed the historic East Wing. To allow and go forward with the ballroom is an insult and affront to all law-abiding Americans.”

Name: Claudine Chavanne
Date: February 25, 2026 8:29:11 pm

The proposed design of the South Portico and Ballroom is grossly larger than necessary, ignores critical components of Classical Architectural design, obscures views of the White House, is not ADA compliant, and disrespects the legacy of this historical People's House site.

A smaller scaled version (without fake windows and doors) that aligns to the Secretary of Interior's standards for the treatment of historic properties would clearly be more appropriate.

We do not need an addition that satisfies a megalomaniacal desire for glitz and grandeur over more appropriately scaled and historically respectful construction.

The design for replacing the demolished East Wing, East Colonnade and Jacqueline Kennedy Garden should be discarded and a new design submitted.

1, The proposed plan is inconsistent with President’s Park Master Plan for needed new facilities. The priorities identified in this most recent master plan for the park included more West Wing office and meeting space, a new press briefing room and offices, underground parking, new off-campus visitor center facilities, and support utilities for outdoor events at the Ellipse. A new ballroom was not identified as a need. Most importantly, the master plan calls for these new facilities

to be constructed underground.

The primary argument for the new ballroom is to replace the use of tents for state dinners. This is an inadequate rationale for constructing a very large ballroom. For decades, state dinners have declined as an instrument of diplomacy. The numbers of state dinners is nearly a bell curve, starting with two during the four-year term of Herbert Hoover, rising in frequency to nearly one per month during the terms of Gerald Ford and Jimmy Carter, and falling gradually to two during the first term of Donald Trump. A large ballroom for holding state dinners will stand empty for years between possible future state dinners.

The existing State Dining Room and the East Room have been used for the overwhelming majority of the more than 300 state dinners that have been held in the U.S. Nearly a score of state dinners has been held outside the White House, and starting with Gerald Ford's presidency, about a score of state dinners have been held outside in the White House Rose Garden or on the South Lawn. About a dozen have been held in temporary tents or more recently in glass structures erected for these state dinners. Presidents, or the First Ladies, have elected to hold some state dinners in outside rather than in the State Dining Room or East Room. From pictures taken of events, the tents or glass structures provided opportunities for very elegant décor that differed but matched or exceeded the ambiance of the rooms inside the White House. Of the more than three hundred state dinners held at the White House, I could only identify two that would have filled the proposed size of the new ballroom.

President Trump has also stated that the proposed ballroom had been scheduled for future presidential inauguration ceremonies. Presidential inaugurations are planned by a bipartisan committee of Congress, not the President. Normally the inauguration is held at the Capitol and attended by tens of thousands of people. The proposed ballroom would be inadequate as a setting for presidential inaugurations.

2. The proposed design for the "East Wing Renovation" project is inconsistent with historic Palladian scale of outbuildings which flank a central residence. The basic design is to have small out buildings balanced on either side of a central residence building. The East and West Wings that flank the central Executive Residence were designed to remain subsidiary in size and attention to the central building, in the initial 1904 design and as well as through later reconstruction. Those designs resulted in rooms that were small but were efficient and heavily utilized. The proposed design for the ballroom destroys basic concept of East and West Wings that are subsidiaries to the central White House building. The proposed East Wing structure would be nearly three times the size of the White House residence. It would become the dominant building in the White House complex.

3. The East Wing has served as the primary entrance for visitors to the White House since it was built in 1904. It was a modest one-story building that was inviting rather than imposing for approaching visitors. Even when the East Wing was redesigned in 1942 as a two-story structure, the entrance remained a one-story structure in the form of a porte cochere. Most visitors walked through the covered walkway, but important visiting officials arriving by motorcade would drive through the covered entranceway, where they were greeted by the President. The proposed design for the new East Wing eliminates this human-scale entrance with an imposing five-story portico. The heavy, tall Corinthian pillars are larger than the slimmer and simpler Ionic pillars on the North Portico of the White House. The North and South Porticos of the White should remain the dominant entranceways, not the East Wing's portico. The entranceway will also be less functional than the old East Wing porte cochere. Dignitaries will no longer drive up to the entrance. Everyone will walk up a large staircase to reach the entrance. It is unclear how people with disabilities will enter East Wing and the White House, but they will not enter through this entrance.

4. The East Wing has also served as the principal space for the Office of the First Lady. Although the proposed East Wing is many times larger than the demolished East Wing that it seeks to replace, the office space for the first lady and her staff is reduced substantially in the new building. The proposed design also eliminates the office space for the White House Military Office, Office of Legislative Affairs, and White House calligraphers. Instead of expanding the supply of office space in the White House complex, the proposed design would reduce the supply of office space, which is already a scarce resource there. The proposed design would allocate far more space for a large kitchen than for office space. As noted above, the frequency of large state dinners that would require use of the ballroom is so low that the kitchen below might remain unused for many years. The proposed design also devotes about 1/3 of the second level to a large foyer that would be a gathering place for guests before a state dinner. This space would also remain unused for long periods of time between dining events in the ballroom. Unlike highly utilized space in the White House and West Wing, a large majority of space in the proposed East Wing replacement would stand idle most of the time.

5. The proposed design of the East Colonnade is inconsistent with Jefferson's designs of low colonnades that should remain unobtrusive, almost totally out of view when seen from the north The Jeffersonian design of low, unobtrusive colonnades was maintained in the 1904 reconstruction, as well as later modifications. The current design of a two-story

East Colonnade destroys the long-established design by Jefferson and subsequent architects. The second story would not only be highly visible from multiple viewing points but would also destroy the balance with the one-story West Colonnade. The proposed addition of a second story on top of the West Colonnade to provide “balance” would only exacerbate the departure from the historic design. A West Wing Colonnade would be even more visible from multiple vantage points than the East Colonnade.

6. The south portico on the proposed ballroom is superfluous. A portico is supposed to provide cover for an entrance to a building, but this “portico” serves no purpose---there is no entrance to either the ballroom or floor beneath it. The “portico” is extremely large, with 24 huge pillars arranged in a double row extending across the entire south façade. This south “portico” on the ballroom structure is 12 feet higher than the South Portico on the White House itself. It, rather than the South Portico, would become the principle attraction when viewed from the south.

7. The proposed design shows a grand staircase descending from this south portico onto the South Lawn. It is not connected to any pedestrian route on the South Lawn and as mentioned above, the “portico” does not have an entrance to the building. This staircase is nonfunctional and superfluous.

8. The proposed design shows an elevated walkway on west side of ballroom. This walkway connects the “portico” but it is superfluous because it leads from nowhere and leads to nowhere for both the White House staff and visitors.
9. The proposed design for the South Colonnade also shows an elevated walkway. It is located on top of the walk in the first level of the colonnade, the primary route that visitors and staff will use to walk between the White House and the East Wing. This elevated walkway is both redundant and superfluous. The elevated walkway has no entrance into East Room on the State Level of the White House.

10. The proposed design shows a covered second-story walkway parallel to the uncovered second-story walkway. Both the covered walkway and the uncovered walkway are redundant to the walkway on the first level of the colonnade. This addition of this second story also makes it highly visible and destroys the historic low profile of the East and West Colonnades that was originally designed by Thomas Jefferson, as noted in point 4 above.

11. The proposed design shows a grand staircase descending from the uncovered elevated walkway to the center of the former Jacqueline Kennedy Garden. This grand staircase serves no purpose for staff or visitors. Like the grand staircase descending onto the South Lawn, this staircase is not on any route that will be used for staff or visitors.
The staircase will also be an eyesore from inside the colonnade walkway that will be used by staff and visitors. From inside the colonnade, the bottom of the grand staircase will obstruct the view of the garden. For millions of visitors who traversed the old East Colonnade on their way to the White House, the view of the Jacqueline Kennedy Garden through the windows was an outstanding feature of their tour of the White House. The superfluous grand staircase will obstruct any view of a garden replacing the destroyed Kennedy Garden.

12. The proposed design for the garden to replace the Jacqueline Kennedy Garden is an embarrassment. The Kennedy Garden was designed by Rachel “Bunny” Mellon as a complement to her design of the Rose Garden, and the garden was named in honor of former First Lady Jacqueline Kennedy for her substantial contributions to improving the décor of the White House. The Park Service Environmental Analysis (EA) purported to examine the effects of the proposed East Wing renovation project, including the garden to replace the Kennedy Garden demolished at the same time the East Wing and East Colonnade were destroyed. The EA stated that the Kennedy Garden would be fully restored, including the I. M. Pei pergola that had been a prominent feature at one end of the beautiful garden.

The proposed garden bears no relationship to the Kennedy Garden.
• It does not feature the Pei-designed pergola. Instead, it features the superfluous grand staircase, which projects into the center of the garden and totally dominates it.
• The proposed plan says that “Mount Vernon” bricks will be reused is a large circular landing for the staircase. The bricks used for the walkways in the Kennedy Garden were from Colonial Williamsburg, and it is unclear if these are the bricks referenced in the proposed garden design.
• The Kennedy Garden was laid out featuring a long, rectangular core of grass, surrounded by flowing beds of flowers and shrubs. The proposed design of the garden is chopped up into six awkwardly shaped parterres by a series of walkways and the circular brick staircase landings. Unlike the Kennedy Garden, the proposed garden has no aesthetic flow.
• The proposed design for the garden includes a long retaining wall that further disrupts the flow of the garden. The area elevated by this long retaining wall includes a long, paved walkway and six connecting paved walks to entrances into the offices on the first floor of the new structure. These walks create six narrow planting areas of irregular size. Three of the six areas include a wrought iron bench recycled from the Kennedy Garden. They are more art objects than seating for views of the garden. Unlike Mellon’s design, this part of the proposed garden lacks any symmetry.

• The Kennedy Garden featured little leaf linden and American holly trees in beds which framed the grass core in wide planning areas. The proposed garden design reuses four of these trees, placing one recycled tree in the center of four of the six parterres. The placement of the trees clutter up the garden rather than frame it.
• The huge footprint of the proposed building would necessitate the redesign of the symmetrical drive through the South Lawn to the South Portico of the White House. The redesigned drive would be moved to accommodate the building, breaking the symmetry of the South Lawn drives. The drive dictates irregular shapes to these parterres. There are no trees that would visually separate the garden from the drive.
• As noted in point 10 above, the proposed garden would no longer be an attraction viewed by the millions of tourists passing through the colonnade on a White House tour.
The proposed garden would be a huge aesthetic and functional liability rather than an asset to the White House complex. In summary, the proposed ballroom building, colonnade, and garden would degrade rather than enhance the White House complex and surrounding grounds. The proposed design would radically break from the historic Palladian, neoclassical design that has served as the basis for successive adaptations over a period of 225 years. Many of the features are unnecessary and nonfunctional and much of the space would be utilized only sporadically. Rather than the restrained size and ornamentation that symbolizes the nation's republican and democratic values, the proposed design would feature overpowering size and ostentation that symbolize aristocratic excess. The proposed plans should be discarded.

A new plan for the East Wing, East Colonnade, and East Garden should be developed. consistent with the historic principles that have guided adaptation and expansion of facilities on the White House grounds. A redesigned East Wing building should be a subsidiary outbuilding of the White House complex, not the dominant structure. As outlined in the Master Plan for the President's Park, new construction that would exceed the historic design principles should be located underground. A redesigned colonnade should be consistent with the historic, one-story structure. A redesigned East garden should be consistent with the lofty standards set by the Kennedy Garden. The American people deserve White House facilities which make us proud.

Respectfully submitted,
James Loesel

As the white house is known to be the people's house. This large space should be repurposed to accommodate food distribution for unhoused individuals in the area on weekends. During the week, I recommend having underserved families utilize the space a preschool alternative or public space for children.

Name: Nom dePlume
Date: February 25, 2026 8:59:34 pm

The proposed 90,000-square-foot ballroom addition to the White House is not merely tasteless excess: It is a blatant violation of federal law and administrative process. The apparent demolition of the East Wing without proper statutory review was not a "bold executive decision." It was an unlawful circumvention of the very oversight mechanisms designed to protect historic federal property from exactly this kind of reckless executive abuse.

The White House complex is not a private holding of the sitting president. It is federally owned property subject to preservation statutes, procurement law, appropriations constraints, and mandatory review by responsible agencies. Projects of this scale require compliance with the National Historic Preservation Act, environmental review under NEPA, consultation with preservation authorities, proper congressional authorization where applicable, and transparent procurement oversight. Skipping or manipulating those processes is not efficiency, it is illegality.

If this administration initiated demolition or expansion activities without the required consultation, documentation, environmental impact analysis, and congressional notification, that is not a gray area. That is a violation. The Executive Branch does not get to suspend statutory requirements because the President wants a larger ballroom for optics and ego.

And the funding scheme only deepens the legal rot. Allowing private oligarchs to finance structural alterations to the executive residence without transparent statutory authorization raises serious constitutional concerns under the Emoluments framework, federal ethics statutes, and anti-corruption principles embedded in procurement law. Public property cannot be reshaped through back-channel private financing arrangements that evade appropriations oversight. That is precisely the kind of influence-peddling structure federal law is meant to prevent.

This is what lawlessness looks like in real time: demolish first, rationalize later. Build first, ask forgiveness never. Ignore the statutory guardrails and dare Congress or the courts to catch up. It is arrogant. It is reckless. And it is profoundly corrosive to constitutional governance.

The American people are not just angry about the aesthetics. We are furious about the contempt for the rule of law. Every administration swears to faithfully execute the laws of the United States. That oath does not contain an exception for vanity construction projects.

If required preservation review, environmental compliance, congressional authorization, and ethics oversight were bypassed, this project must be halted immediately and subjected to full legal scrutiny. Any contracts executed without proper authority should be investigated. Any officials who knowingly ignored statutory requirements should be held accountable.

The White House is not above the law. The President is not above the law. And a 90,000-square-foot monument to ego does not magically exempt this administration from compliance with the statutes it is sworn to uphold.

Stop this project. Enforce the law. Restore constitutional order before spectacle and impunity become the new normal.

I am writing to oppose spending $300 million on the East Wing Modernization project. In my opinion, it razes an important era in American history, when the White House became a place that embraced the work of the First Lady and her staff. This proposal was initiated without proper authorization, or permits, or design review. The East Wing was destroyed with no warning, no Architectural & Engineering Request for Proposals, no bids from contractors, and no abatement of hazardous materials; all as required by federal law.

I would like to see the East Wing rebuilt to its former design (that was scaled and in proportion to the rest of the building) and the administration’s project canceled. The current design is for an out-of-scale, out-of-place, and out-of-time pseudo-historical building.

No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Matthew Jasinek
Date: February 25, 2026 9:30:44 pm

What a godforsaken waste of money. Nobody wants this.

Name: Anna Bell
Date: February 25, 2026 9:33:48 pm

Restore the East Wing. Taxpayers do not need to pay for the upkeep and maintenance costs associated this structure.

Name: Emily Awerkamp
Date: February 25, 2026 9:35:57 pm

I oppose this project because it lacks proper authorization, destroys historic integrity, and disregards overwhelming

negative public input. The American people did not want the easy wing demolished and do not want to see our tax dollars spent to continue this project

---

Date: February 25, 2026 9:44:02 pm

The East Wing was a priceless and historic part of the People's House. Tearing it down was an outrage, and allowing Donald Trump to re-imagine and rebuild it as his ballroom would make that outrage permanent. And taxpayers will almost certainly foot the bill for hundreds of millions of dollars. The East Wing should be restored and Trump should have to pay for it.

I say NO to this project.

Maura Mandyck
Mobile, AL

Name: Scott Myers-Lipton
Date: February 25, 2026 9:46:35 pm

Dear Committee,

Please ensure that the law is followed when it comes to the East Wing Modernization Project. The White House is the People's House, and while a President can make changes if s/he follows the process and procedures, a President cannot unilaterally make changes.

Kindly,

Dr. Scott Myers-Lipton

Name: Margaret Cole
Date: February 25, 2026 9:49:25 pm

Modernization is a euphemism for uglification… the plans for the East Wing are deplorable, expensive, pointless, and have so far been nothing more than a mechanism for this administration to line its pockets. Please decline these plans and require the petitioner to return all funds delivered for the building of this atrocity. Thank you.

Name: Ann Halpin
Date: February 25, 2026 9:53:50 pm

I oppose the spending of $300 million on the East Wing Modernization project which was initiated without proper authorization, permits or design review. It is not modernization, it is a razing of American History. The proposed ballroom should be cancelled and the East wing rebuilt and restored to its former design. It is, and should remain The People’s House.

Name: Debbie Melendez
Date: February 25, 2026 9:54:07 pm

I oppose the East Wing Modernization Project. This $400 million construction began without National Capital Planning Commission approval, without required environmental assessments, and without congressional authorization mandated by federal law for construction on federal parkland in Washington. These violations should not be rewarded with an after the fact approval.

The funding creates unacceptable conflicts of interests. Corporations holding billions in current federal contracts with this administration are funding a construction project at the residence of the president who controls those contracts. This is not charitable giving. This is an investment in access and favorable treatment.

The White House belongs to the American people, not any individual president. I urge the Commission to reject this proposal until full legal compliance is achieved, including congressional authorization, a completed environmental assessment is done and an open bid process for construction is completed. No temporary occupant should possess unilateral authority to demolish historic structures without following the law.

Thank you for consideration.

The Secretary of the Interior’s Standards for Rehabilitation offer clear guidance for construction projects such as this one that affect historic properties. 36 C.F.R. § 68.1 et seq. The Standards provide that new additions should not destroy the historic fabric of the property, and that the new work should be “compatible with the historic materials, features, size, scale and proportion, and massing” of the existing structure

---

Name: Pamela Wilkinson
Date: February 25, 2026 10:18:46 pm

The following are very polite and helpful suggestions in the East Wing rebuilding project. I would prefer to say that the proposed "ballroom" is an abomination, and it is outrageous that the East Wing was torn down without proper review and saving of historical items. However, here are my official comments:

The Secretary of the Interior’s Standards for Rehabilitation offer clear guidance for construction projects such as this one that affect historic properties. 36 C.F.R. § 68.1 et seq. The Standards provide that new additions should not destroy the historic fabric of the property, and that the new work should be “compatible with the historic materials, features, size, scale and proportion, and massing” of the existing structure.

I recommend several modifications to the proposed project, including:
• Reduce Overall Size and Visibility. The size, volume, and massing of the proposed new construction (90,000 square feet) should be reduced or disguised (such as by placing portions underground, as recommended in the 2000 Comprehensive Design Plan) so the new building appears smaller than the Executive Residence itself (55,000 square feet). Its height should also be substantially lower than the Executive Residence.
• Reduce Footprint and Protect Key Views. The footprint of the proposed building should not extend past the existing south-facing façade of the historic Treasury Building, nor further interrupt the views of the Executive Residence from Pennsylvania Avenue.
• Respect the Established Classical Composition of the White House Complex. The new addition should retain the carefully balanced classical design of the White House complex with its two smaller, lower, and substantially symmetrical East and West Wings.
• Preserve the Historic East Facade of the Executive Residence. The connection of the colonnade to the Executive Residence should protect and preserve the original historic materials of the east façade of the Executive Residence and

should not cover or demolish the existing fenestration and detailing of the east façade.
• Ensure that the Proposed South-facing Portico Is Subordinate in Scale to the White House South Portico. The proposed portico on the south façade should be smaller and less grand in scale than the existing portico on the south façade of the Executive Residence.
Adopting these recommendations will help ensure that the project both honors the exceptional historic significance of the White House complex and acknowledges the investment that the American people have in the preservation of this beloved place.

To whom it may concern:
Watching Trump's illegal destruction of the beautiful East Wing of the White House was heart-breaking. Doing that horrible deed without review, permits, or Congressional oversight VIOLATED THE LAW.
The White House is a National Historic Landmark and a National Park. It is, as President Lincoln described it, "the people's house." Yet Donald Trump acts as if he owns the White House. Has no-one explained to him that he is merely a temporary resident? He should be billed for any and all costs of reconstruction, but have absolutely no other part in design or oversight of the rebuilding.

Although the priceless original building can never be replaced, any reconstruction should be overseen by the National Capital Planning Commission. Any future reconstruction of the East Wing must match the historic design and size of the original structure and be funded only by Congress, interior and exterior. If Congress does not approve funding and a design in keeping with the building’s historical character, the land should be left vacant. That means NO BALLROOM.

Thank you for the opportunity to submit my thoughts on this subject.

Name: Justin Sanders
Date: February 25, 2026 10:28:31 pm

The proposed addition to the White House campus should be denied due to the disproportionate massing and scale of the proposed structure. While there may be a need for additional space for functions at the White House, the proposal would dwarf the Executive Mansion and create an imbalance of scale of the entire complex.

It should also be noted that the Administration has bypassed multiple steps in the stated approval process and unilaterally destroyed the historic East Wing prior to getting any approvals.

The National Trust’s court filing, as the Nation’s premier advocates for historic preservation principles, should be heavily considered by the Commission in its deliberation.

Allowing these violations of process and rubber stamping bad architectural design establish a dangerous precedent for future development in the District and undercuts sound and deliberate public input and participation in the design of the People’s House.

Dear Planning Commission Members,

While I can understand the desire to create a space at the White House that can comfortably accommodate large numbers of guests, it is a painful message to be sending to everyday Americans who are struggling to pay their bills. It's like having parents buy themselves a new car when their children don't have clothes to wear. I encourage you to scale back the plans to something more modest, or even considering postponing the project until there is more economic equality in this country. Right now, it feels like our government supports only the billionaires and millionaires. Please remember the rest of us.

Name: Mike Rosen

I humbly object to the current plans for the monstrosity of a ball room that will throw off the careful proportions of the White House property. The President of the United States is not a king, and “the people’s house” should not be permanently marred by the egoistic whims of a megalomaniac. Such an outsized ballroom in place of the old East Wing serves no good purpose. A better proportioned and more thoughtful plan should be created in place of current plans.

Name: Christine Hines
Date: February 25, 2026 11:28:27 pm

The east wing of the White House must not out-scale or overwhelm the existing historical building. The proposed ballroom should be designed to be in harmony with its surroundings, and it should respect the history of the White House. If the ballroom needs to be as large as has been proposed, it should be constructed at a different location, not on White House grounds.

The White House and the land it stands on belong to the American people, not to one man or one administration.

Name: Lawrence Fisher
Date: February 25, 2026 11:53:49 pm

The Secretary of the Interior’s Standards for Rehabilitation offer clear guidance for construction projects such as this one that affect historic properties. 36 C.F.R. § 68.1 et seq. The Standards provide that new additions should not destroy the historic fabric of the property, and that the new work should be “compatible with the historic materials, features, size, scale and proportion, and massing” of the existing structure.
Any proposed new addition to the White House complex should accommodate and respect the primary historic importance of the original Executive Residence. The ballroom addition should be subordinate in scale to the Executive Residence.
I recommend several modifications to the proposed project, including:
• Reduce Overall Size and Visibility. The size, volume, and massing of the proposed new construction (90,000 square feet) should be reduced or disguised (such as by placing portions underground, as recommended in the 2000 Comprehensive Design Plan) so the new building appears smaller than the Executive Residence itself (55,000 square feet). Its height should also be substantially lower than the Executive Residence.
• Reduce Footprint and Protect Key Views. The footprint of the proposed building should not extend past the existing south-facing façade of the historic Treasury Building, nor further interrupt the views of the Executive Residence from Pennsylvania Avenue.
• Respect the Established Classical Composition of the White House Complex. The new addition should retain the carefully balanced classical design of the White House complex with its two smaller, lower, and substantially symmetrical East and West Wings.
• Preserve the Historic East Facade of the Executive Residence. The connection of the colonnade to the Executive Residence should protect and preserve the original historic materials of the east façade of the Executive Residence and should not cover or demolish the existing fenestration and detailing of the east façade.
• Ensure that the Proposed South-facing Portico Is Subordinate in Scale to the White House South Portico. The proposed portico on the south façade should be smaller and less grand in scale than the existing portico on the south façade of the Executive Residence.
Adopting these recommendations will help ensure that the project both honors the exceptional historic significance of the White House complex and acknowledges the investment that the American people have in the preservation of this beloved place.

President Trump has proposed the construction of a 90,000-square-foot ballroom on the east side of the White House campus, adjacent to the historic Treasury Building. Site preparation is already underway, including the demolition of the existing East Wing.

I am deeply concerned that the massing and height of the proposed new construction will overwhelm the White House itself—it is 55,000 square feet—and may also permanently disrupt the carefully balanced classical design of the White House with its two smaller, and lower, East and West Wings. The federally recognized Secretary of the Interior's Standards for Rehabilitation offer clear guidance for construction projects affecting historic properties. The Standards provide that new additions should not destroy the historic fabric of the property and that the new work should be compatible with existing massing, size, scale, and architectural features. The administration's plans would do just that.

I urge you to reject the administration's ballroom plans.

I oppose the spending of ANY taxpayer money on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled and any future plans for this location shelved until 2030. At some future time I would like to see the East Wing rebuilt and restored to its former design, but that process should be left to the successors of this administration, not those currently in power. The damage is already done, let the perpetrators live with the destruction they have caused. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

The White House is not simply a residence — it is one of the most significant historic buildings in our nation and a symbol recognized around the world. Any proposed addition should be approached with the same rigor, restraint, and formal design review required of other nationally significant landmarks.

A ballroom of this scale risks overwhelming the architectural integrity and proportions of the existing White House. The original structure is defined by balance, clarity, and restraint. An addition that competes with or dominates that composition would fundamentally alter its character.

Major interventions to buildings of this historic importance should undergo thorough preservation review, transparent public dialogue, and careful architectural study. The White House deserves nothing less than the highest standard of stewardship and design excellence.

The destruction of New York's Penn Station in 1963 is the event to which the East Wing Modernization Plan is most likely to be compared in years to come. The absence of Penn Station may prove less disturbing than the presence of Trump's Folly.
The silliness of its size is reminiscent of the sets constructed for Hollywood operettas of the 1930s. The set designers of The Great Waltz and The Merry Widow, however, never stooped to the crude asymmetries required to squeeze Trump's grandiose ballroom into the snug campus of the White House. The East wing expansion will ignore and degrade the landscape designed by Olmstead. It will obstruct the view the president has of the Capitol building, and the view Congress has of the White House. The brilliant plan of L'Enfant -- for a Washington whose avenues and vistas would embody the exchange of views and the balance of power essential to democracy -- is about to be refashioned by a president who fancies himself a distinguished builder.
On the contrary. If this Modernization Plan goes forward, history will have yet another reason to regard Donald Trump as a laughingstock.,

Thank you for this opportunity to comment about the ballroom project that is being considered for the Peoples‘ House. As a citizen and preservationist, I have some serious concerns. When President George Washington appointed Architect Pierre Charles L‘Enfant to plan the new "Federal City" in 1791, great care was put into the development of our new capital, designing the city master plan and the buildings. L‘Enfant‘s plan and that of renowned landscape architect Frederick Law Olmsted for the grounds of the capital district are time honored, have served our country well and all aspects of it should be considered before this moderization project moves forward.

The proposed ballroom size completely overwhelms the White House, overshadowing it at a scale of 47% larger than industry standards. At 90,000 square feet, it is in direct contradiction to the Secretary of the Interior‘s treatment of historic structures of scale and symmetrical design.

To insure the preservation of the time tested L‘Enfant and Olmsted plans, the industry standards of today should be utilized to bring the scale of the proposed ballroom down to a reasonable size, and in the process, the viewplanes that create the visual connection of the Capitol and the White House will be preserved. As I learned today, the symbolic and axial connection of these two buildings were strategically planned at the request of George Washington as locations were being considered back in 1791. The view of the White House from Pennsylvania Avenue will be forever partially blocked if the size of the proposed project is not scaled down. And not only will the new building block visual views, but the symmetry of the classical architecture of the White House will be compromised losing its proportional balance.

One last observation from today‘s webinar is something to also seriously consider as we think to scale down. The size of the proposed ballroom is being built for attendance of 1500 people. What if an event only has 300-500 people, or worst yet, 200 people. How do you avoid the cavernous feeling of being is a huge room with but a few attendees. You cannot

resize the empty spaces! A 40‘ high folding partition to decrease room size?

Let‘s balance the need of this facility with the impacts on the Washington, DC situate and the long and thoughtful architectural history of our country. The original intent for the Peoples‘ House must be respected.

Thank you, Linda Legrande

I do not feel that we need a ballroom at the white house, and it is not a good use of taxpayer money. Especially not something that dwarfs the existing white house in such a way as the rendering was shared. This is the "people's house", not a monarchy's palace.

Name: Florence Moore
Date: February 26, 2026 6:55:05 am

I adamantly oppose this project. It IS Cultural Vandalism: "Tearing down a historic part of the White House to build a, opulent ballroom is cultural vandalism and a monument to ego, not a necessary renovation.".
Lack of Transparency/Oversight: "This demolition happened without Congressional approval or environmental studies, bypassing the necessary oversight required for protecting a national landmark Finally it smacks as an anathema to our Democracy and encourages That Man's abuse of power.

Restore east wing to previous size and structure and make Trump pay for the damages he has done to our country’s historic building. He does not own the White House and had no right to destroy it.

Name: Mandy Yokim
Date: February 26, 2026 8:25:36 am

Dear Commission members,

As a citizen of this country, I was horrified to see the photos of the destruction of the East Wing of the White House. I do not support the modernization project as is being a 90,000 square-foot ballroom addition that would effectively overshadow the 55,000 square-foot executive residence. What happened to it being a National Park that is owned by the federal government and its people? Right now, it feels like this current administration is taking no long view of the historical significance of the building or its classical design. Can no one stop this current administration or do we just all have to sit back while our landmarks are changed before our eyes with no regard for the history? It's the 250th anniversary and it doesn't feel very celebratory right now.

Name: Robert Nieweg
Date: February 26, 2026 8:33:11 am

To the National Capital Planning Commission:

I am opposed to the plan for the White House ballroom ("East Wing Modernization Project").

Aesthetically, the planned new building would loom over and dwarf the surviving elements of the historic White House. Practically, the planned new building is far bigger than necessary to host 1,000 guests at the White House. It is a shame that the historic East Wing was demolished before a good plan was created for the "People's House."

The Administration's plan for a White House ballroom must be brought to Congress for approval.

Sincerely,

Robert Nieweg

I urge you to respect existing White House architecture and proportions when building out the East Wing. Follow industry standards as to size, location, and proportions. Kitchen area should be underground. Ballroom should have direct access to portico and at same grade. Thank you for your attention to this matter.

Name: Chris Klein
Date: February 26, 2026 8:52:19 am

I write to express my unequivocal opposition to the East Wing modernization project as currently designed. I don't disagree with the need for a permanent ballroom at the White House, but certainly not one of the sheer size being proposed.

The White House has, of course, evolved over time to meet history's changing needs--but no modifications have ever approached this scale. This would not be the addition of a modest tennis pavilion or balcony or even the original East Wing. By volume, the proposed ballroom would be nearly three times the size of the original White House itself! This proposed structure is an "addition" in the same way that a 10-gallon-hat on a chihuahua could be considered an "accessory." It is dramatically out of proportion with James Hoban's original design.

Such a structure would erase the classical architectural balance between the Executive Mansion and the West Wing and compromise the carefully composed view of the White House from the steps of the U.S. Capitol, a sightline embedded in Pierre L'Enfant's plan for the federal city as a symbolic link between the branches of government. (It's not hard to wonder if there's a psychological subtext at work.)

The demolition of the 1942 East Wing without meaningful public input was itself deeply troubling. To proceed now with a privately financed project so primed for graft it would make Boss Tweed giddy would only compound the offense. I would urge the commission to reject any modernization of the East Wing that is not paid for with public funds and to require the East Wing modernization project to be reduced in scale to respect the architectural integrity, historic context, and symbolic significance of the White House before any further action is taken.

Respect the Established Classical Composition of the White House Complex. The new addition should retain the carefully balanced classical design of the White House complex with its two smaller, lower, and substantially symmetrical East and West Wings.

Reduce Overall Size and Visibility. The size, volume, and massing of the proposed new construction (90,000 square feet) should be reduced or disguised (such as by placing portions underground, as recommended in the 2000 Comprehensive Design Plan) so the new building appears smaller than the Executive Residence itself (55,000 square feet). Its height should also be substantially lower than the Executive Residence.

I am both deeply sad & very angry, & I want this horrific demolition/destruction stopped. I want the East Wing restored to as close to the original as possible. Musk, Besos, Zuck—whoever—can pick up the bill. This is “The People’s House.” Of course he knew about prior legal steps + permits + this feedback from the public. He should NOT be REWARDED for just doing whatever he wants, Art & history mean zero to him. And what has happened to EVERYtHING inside of the East Wing? Was anything preserved? Please, please cease this. This man spends his time watching TV, rage-posting, golfing, traveling for business deals enriching himself even further—-all while taxpayers he cares nothing about pays for it. Taxpayers don’t need to then pay for him to nightly wine, dine, & “dance” w/billionaires, dictators, etc. in a monstrosity of a ballroom.

Please VERIFY if the submissions you receive are from the actual public—-not R Senators & Reps & others repeatedly submitting positive comments to do whatever he wants.

Thank you for the opportunity to comment. Hoping the genuine comments (like this) actually mean something, & are read. This should not proceed & should never have occurred.

This 'modernization' began as a desecration of the 'people's house' by tearing down the East Wing without NCPC oversight. The fact that this esteemed Committee, long tasked with oversight to safeguard our history and built legacy of our Capital Region, is now considering the 'modernization', will in my opinion, ratify the prior acts of this President. Defy this desecration. Reject this proposal since prior acts alone are cause for rejecting any proposal to build on this site. Violations of the rule of law, must not be rewarded.

While the history of the White House may not all be clean, a President who is actively whitewashing history and also demolishing our built legacy, is not honest with the American People, and will not be honest with those of you who nobly

serve this Committee.

Furthermore, this addition to the White House, funded by opaque interests will be a permanent visible monument to special interests seeking favor with a President. Do not immortalize grift on this site of immeasurable importance to American democracy. Future generations will point to this 'modernization' as a visible monument of shame.

Do the right thing, regardless of architectural merits, which are extremely dubious at best and better left to others to address. If this project, a ballroom where 'the people' will not be invited is approved, it will be, as Prince Charles once said, a 'monstrous carbuncle on the face of a dear friend' - and auger the collapse of the guardrails that NCPC has provided for generations.

Name: Joyce Jones
Date: February 26, 2026 9:41:36 am

The White House belongs to the "people" and it does not belong to the President, including Donald Trump. I was appalled when Donald Trump bulldozed the East Wing with total disregard for policies in place for any changes to be made to the White House. His Ballroom plan is an abomination with total disregard for Classic Architecture, the historic nature of the White House and the Historic Plan made for Washington DC. I believe all efforts must be made to stop the construction of this edifice.

Name: David Gosnell
Date: February 26, 2026 9:44:58 am

To the Members of the Commission,

I am writing to formally express my strong disapproval of the current design proposal for the new White House ballroom. While the need for modern functional space is understood, the current iteration fails to meet the standard of excellence required for a site of such immense historical and architectural significance.

My concerns are centered on three primary issues:

Disproportionate Scale: The proposed structure is significantly out of scale with the existing grounds. Its massing threatens to overwhelm the delicate balance of the South Lawn rather than complementing the landscape.

Architectural Incongruity: The design lacks a respectful dialogue with the main building. Instead of a harmonious addition that honors the Neoclassical heritage of the Executive Residence, the proposal feels like a disjointed insertion that diminishes the integrity of the original architecture.

Procedural Failures: Most concerning is the apparent bypass of established approval processes. A project of this magnitude, impacting a National Historic Landmark, demands full transparency, rigorous public oversight, and adherence to the standard federal preservation reviews which, to date, appear to have been insufficient.

The White House belongs to the American people, and any permanent addition must be a testament to architectural restraint and procedural integrity. I urge the Commission to reject the current proposal and call for a design that is both appropriately scaled and developed through the proper, transparent channels.

Sincerely,
David Gosnell

Name: Elizabeth Loring
Date: February 26, 2026 9:45:10 am

The teardown - without any review of any sort - was an abomination and an affront to the American people. (Even the name "Modernization" is misleading - there's nothing left to modernize.) What is built in its place must of course, meet contemporary security standards and all applicable building codes. However, the design must be given proper oversight by all relevant organizations and laws.
It should be designed to respect the White House's proportions and architectural language. Gaudy faux gold and the current obscene proportions should not be part of the new wing. Further, it should have NO input by the current White

House resident or his advisors as they have shown themselves in capable of putting the people's interests first. There should be - somewhere accessible to the public (even if only digital) a properly curated set of exhibits paying tribute to the people, including those held in enslavement, who contributed to the White House's construction and upkeep. The design must be a repudiation of the oligarchic ambitions and behavior of the tRump administration. If it has the faintest whiff of the current administration, I expect that, down the road, the replacement wing will itself need to be replaced as part of the future reforms and reparations of these dark times in our country. This building can NOT be a tribute to one man, but an honoring of ALL Americans.

Name: Robert Ellis
Date: February 26, 2026 9:46:18 am

The proposed ballroom would dwarf the White House and be inappropriate for the site. The previous East Wing was dignified and made the White seem a truly historic building. The replacement should be sized such that it would uphold the historic nature of the complete building.

Name: David Sing
Date: February 26, 2026 9:53:12 am

I am outraged that the administration lied to the American people about the scope of this project. It was initially reported as a addition which would not impact the current structure. It was not until the wrecking ball had swung that the projects true objective was apparent, the complete destruction of the historic East Wing of the White House and replacement with a oversized monolith which dwarfs the historic Executive Mansion. This construction of this monument to the ego of the current occupant of the White House should immediately halted and the former East Wing should be rebuilt in a manner consistent with the esthetics of Executive Mansion and the West Wing.

Name: Joan Bolduc
Date: February 26, 2026 9:53:13 am

The East Wing needs to be rebuilt. They should have never tore it down. The proposed ballroom is way too large and will dominate the historic site. Either bury it underground, or scale the project way back.

Name: Laura O McGowan
Date: February 26, 2026 9:53:30 am

The devastating destruction of the East Wing is done But now is time to mold the future wing of the White House, the house of the people. Since the current administration has no regard for decorum it is my suggestion that an oversite group consisting of bipartisan members, National historic preservation members dictate an architectural plan for the future disregarding the gaudy embellishment of this administration (example: oval office) and create something future politicians will be proud of. It is tradition that each administration puts its "stamp" on the White House, whether a bowling alley, a vegetable garden or a concrete mall that destroys the rose garden, destruction should not be the hallmark of this time, this opportunity. Create balance, both in the White House facade and use of space for the future.

Name: Roxanne J Evans
Date: February 26, 2026 9:53:43 am

Greetings.

I am a 74 year old taxpayer who lived in D.C. on two occasions: 1975-76 (during the Bicentennial) and again in 2002-2006.

I always took great pride in the White House and whenever we had visitors, I made sure we went by the White House. I have toured it on several occasions.

I live in Texas and I serve on the City of Austin Historic Landmark Commission. As a former D.C. resident and as someone who works to preserve historic properties, I am truly dismayed at the damage that has been done and is being

done to the White House. I ask the National Capital Planning Commission and any other entities with authority, to stop this project and to prevent our national treasure from being tricked out to look like a cheap casino.

Thank you for your efforts.

Roxanne Evans, Austin, Texas

Name: Holly Hook
Date: February 26, 2026 9:54:44 am

Dear Madam or Sir,
I am absolutely opposed to the "East Wing Modernization Project". I do not wish any money to be used to build an outrageously large Ballroom. Nor do I think that we should have destroyed the East Wing next to the White House. This is an egregious waste of our government dollars!!

Sincerely,

Holly H Hook

Name: Christopher Dovi
Date: February 26, 2026 9:57:11 am

This is project is a bizarre affront to the American people. Regardless of what obfuscation may be attempted to suggest that this is being funded privately - it is, in fact, a pay-to-play means of currying favor with a president who requires favors and fealty - this project shows how badly President Trump has lost the script. Projects such as these should go through lengthly processes of public comment and approval before anything begins. Instead, Trump ordered the bulldozing of public property - historic public property - with no process whatsoever. And now he demands that he can build pretty well whatever he damn well pleases. He is a president. The presidency does not convey ownership. Frankly, what should happen is that this project should be permanently paused, as he has essentially forfeited the public trust. Congress should oversee any future project, and it ought to proceed by appointing a bipartisan - or clearly nonpartisan - group to make BINDING recommendations on how to proceed with respect to the historic - and public - nature of the White House grounds.

Name: Claire Gudewich
Date: February 26, 2026 9:59:43 am

I strongly oppose the proposed construction of a 90,000-square-foot ballroom addition to the White House complex.

The White House is one of the most significant historic sites in the United States and a National Historic Landmark owned by the American people. While buildings must evolve to meet functional needs, an addition of this magnitude risks overwhelming the historic scale, character, and setting of the existing complex.

A ballroom of this size represents a substantial physical and visual expansion. Such a major alteration raises serious concerns about architectural compatibility, impact on the historic landscape, long-term preservation integrity, security implications, and precedent for future expansion. The White House is not simply an event space; it is a symbol of national history and continuity.

The legally required review process — including NEPA compliance, review by the National Capital Planning Commission and the U.S. Commission of Fine Arts, and congressional approval — must involve rigorous analysis and genuine public engagement. Alternatives that meet functional needs without dramatically expanding the historic footprint should be fully explored.

Decisions affecting a site of this importance must prioritize stewardship, proportionality, and preservation for future generations.

Thank you for the opportunity to comment.

Name: Renee Magee
Date: February 26, 2026 10:02:02 am

Do not approve the ballroom project proposed to be adjacent to the White House. The scale, size, and location of the ballroom dwarfs the White House, disrupts the lines of sight created by the historic plan for Washington D.C. commissioned by George Washington, and proposes a first floor of walls without windows, a design unfriendly to visitors to White House grounds. The size and scale is totally unnecessary to provide a ballroom on the White House grounds. This design violates the principles of Classical design it purports to advance by destroying symmetry and balance. It simply overwhelms the White House, the residence of the President. Thank you.

Name: Laura Sanburn
Date: February 26, 2026 10:02:27 am

Good Morning National Capital Planning Commission,

The East Wing is gone, we need a new one. What will the new one be? Will it forever be at odds with it's surroundings, as a growth alongside one of our most meaningful symbols of the stability of the USA? Or will it work in tandem with it's surroundings, bolstering the White House, working together to become more powerful?

Since when did entertainment and entertaining become the core goal of our presidency? That's what the proposal is demonstrating.

An out-of-balance East Wing, as proposed, does little to send a unified image of strength, tenacity, and power. It takes away all of those core American values.

Name: Mary Brush
Date: February 26, 2026 10:04:41 am

The East Wing new construction project requires oversight and public comment. Private and public projects all have a system of oversight, code compliance, public review. The more public the project the more oversight as that is how our building code, zoning, land use and construction systems are regulated. The East Wing of the White House is not the property of the President, it is the property of the Federal Government. Presidents can modify their personal spaces, but the demolition and new construction is not within their purview.

Since a new wing is now needed, the new one should - as all other federal buildings - be designed and constructed to the 'best of the abilities of the day'. That is why GSA has the Design Excellence standards. Classical is appropriate as that is the language of the White House. Classical architecture is extremely strict on its hierarchies and proportions. That is why it has been popular throughout time. When it works, it is elegant. The proposed design is not elegant. it is loud.

The proposed new wing is out of proportion to both the White House and to the immediate campus. It is possible to create a ballroom, new offices, and all of the services and sub grade needs proposed and make it secure, accessible, functional, formal, AND in proportion to both the building and classical design. If the administration wants to be remembered for naming objects and for building buildings, then make them excellent design - this is not intelligent design, it is not aesthetic design, it is just loud.

Name: Susan Bailey
Date: February 26, 2026 10:07:48 am

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Susan Newton
Date: February 26, 2026 10:11:01 am

I respectfully request that the new ballroom be redesigned if not disapproved. The scale of the ballroom does not compliment the existing White House structure. It is overbearing and presents a lopsided look to the Whitehouse. The size of this ballroom does not need to hold 999 people. Please protect and preserve the historical integrity and the elegant architecture of the White House which is " the people's house" after all!
Thank you,
Susan Newton

Name: Max Lester
Date: February 26, 2026 10:14:07 am

I have reviewed the East Wing proposal and believe the design is not consistent with the Secretary of the Interior's Standards. The East Wing should not cause the White House complex to be architecturally unbalanced, block important sight lines, or clash with adjacent federal buildings. The concept of a larger event space is not objectionable, however, the current design is inappropriate and can be reduced in size to ensure the project does not overwhelm the main White House building. Other design decisions are not necessary, such as a portico and grand staircase leading to fake doors (south entrance).

Please note my opposition to the proposed structure.

Name: Melanie Bourbeau
Date: February 26, 2026 10:15:58 am

Having just viewed the YouTube recording of the National Trust's Crucial Insights and Viable Alternatives for a More Sensitive East Wing Modernization and Ballroom Addition webinar, I am even more appalled at the proposed ballroom plans. Key takeways for me are the obstruction and obliteration of historic sight lines along the Pennsyvania Avenue corridor from the White House to the Capitol and destruction of the Frederick Law Olmstead-designed White House grounds -- both of which have stood untampered with for generations. The obscenely large ballroom concept with a completely non-functional portico exemplifies Trump's (and I puposefully did refer to him as "President" because I haver no respect for him whatsoever!) ego-manical personality and this "self-designed" (I do understand he worked with trained architects, but clearly persons who have no understanding of classical design and proprorations related to historic structures, as outlined inthe Secretary of the Interior's Standards) monument ot himself.

The National Trust's proposed plan illustrated in the webinar achieve's the goal of a ballroomn, which i do believe is necerssary for offical functions, in a sympathetic manner to a historic site in our nation's seat of government. I fervently wish that the present plans will be ammended and that a more fitting plan and appropriate design will prevail.

With thanks for this oppportunity to voice my opinion.

Name: Susan Campbell
Date: February 26, 2026 10:16:53 am

The White House is not Donald Trump's house, it is the People's House. The East Wing HAD an important history and function. If it needed updating, then those updates should have had careful, thoughtful, historical and practical considerations before being APPROVED by the proper channels. To just recklessly tear the thing down was like a gut punch to so many of us. And then to add salt to the wound, the idea that a ridiculously over-sized, over gold-guilted ball-room will take it's place is horrendous. Maybe the Nation doesn't want Donald Trump's garish, narcissistic taste stamped on our national monuments. And now, to further add insult to injury, we'll have to waste even more money in tearing that monstrosity down. What a shame. What a WASTE. Do not let him proceed with this plan PLEASE!

Name: Ronald Herbert
Date: February 26, 2026 10:20:20 am

Want the White House returned to the people!
Never asked for gold! Never asked for Presidents Hall with any negative or positive comments about any past or present Presifents.
Would like to have the East Wing rebuilt as a modern version of what was there.
Never asked for a ball room. Don't need it!
Would like to have the office returned to the people, not a gold display room.

Date: February 26, 2026 10:20:57 am

At the very least, the proper procedure for making any alterations to this historic building should be followed. It should also that be remembered that the building and grounds belong to the American people. At a time when we hear about the budget deficit constantly, why undertake an expensive project such as this?

Name: Rosemary Sullivan
Date: February 26, 2026 10:21:06 am

I am extremely upset at the lack of attention to the proposed overwhelming scale of this project to the original White House as well as the buildings surrounding the White House, the Treasury and the Capitol Building. My first reaction is that the current design sets forth a narrative to anyone looking at the project that intimates that entertaining is the most important job of the White House occupants. On the contrary this addition should be considered to have a very secondary purpose and not stand out as the main purpose of the building and its occupants. The design should reflect the seriousness of the job of running this country and being the custodian of the peoples' trust as well as their hard earned dollars. Even if taxpayer dollars aren't used to build this monstrosity, it will be taxpayer dollars to maintain it. I agree there is a need to build a banquet type hall for entertaining visitors to the White House and it should look as impressive as the present historical building. But this needs to be done in good taste following the parameters of the guidelines that have been previously established to insure the new wing honors and complements the existing structure. We don't need a structure as big as several football stadiums. Big isn't always better! Please honor the the vision and good taste of the designers and architects that preceded you and scale down this project.

Date: February 26, 2026 10:22:11 am

To the Honorable Members of the National Capital Planning Commission:

I write today as a patriot with grave concerns about the effect the East Wing Modernization Project will have on our National Historic Capital. The new building, as conceived, will interrupt the visual connection between the White House and the Capitol Building. One will no longer be able to see the White House as the terminus of Pennsylvania Avenue - one will instead see the side of the ballroom. This will harm Pierre L'Enfant's 1790 city plan.

The ballroom also adversely affects the landscape designed by Frederick Law Olmsted, America's first and arguably greatest landscape architect. The graceful and symmetrical White House front drive will need to falsely dog-leg around the new ballroom.

The size, position, and decoration of the ballroom harms the classical symmetry of the White House, where the central mass should be the dominant element.

The architecture of the White House and the L'Enfant city plan communicates our American history and is a valuable legacy endowed to us from past generations. Protecting our heritage is a fundamental tenant of conservatism.

Please recommend that this new ballroom be reduced in its above-ground visible size so that the L'Enfant and Olmsted plans be left intact and the classical symmetry of the People's House, which has endured for centuries, be maintained. Preservation of American treasures is our patriotic duty – the actions we take today will be judged by future generations. Thank you for your consideration.

Sincerely,

Hillary Hedges Rayport

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Donna Phillips
Date: February 26, 2026 10:24:23 am

For the meeting on March 5, 2026: The East Wing Modernization Project

The White House does not belong to Trump. He is a renter and should abide by what the owners agree can be changed. The American people are the OWNERS. I imagine that since Congress represents us, THEY need to agree to changes on the property; especially HALF OF THE WHITE HOUSE. Was that done? NO.

The destruction of the East Wing demonstrates complete disregard for the historical significance of the White House, the wishes of the OWNERS (citizens), and honoring the procedures that should have taken place regarding such a massive change. The East Wing cannot be brought back to us, but why was there no repercussion for Trump's demolition? No penalties were assessed, no warnings that these actions CANNOT continue to occur, and no public statement from Congress that the White House is a meaningful structure that was not held in high regard by Trump.

In moving forward, please ensure that the historical relevance of the White House and its grounds is considered and held to the highest standards.

Name: Jacqueline Urso
Date: February 26, 2026 10:26:58 am

As an American citizen who believes in lawful acts, I wish to register my comment regarding the shameful deconstruction of the East Wing of the White House…otherwise know as " The People's House".
Laws are made to follow in a civil manner and history is recorded to make certain that we do not repeat costly errors. Therefore, President Trump's Ballroom construction is unlawful and should IMMEDIATELY be stopped and reconfigured to its original configuration…it is without permission or legal rights!
Secondly, it is an attempt to remove history that belongs to the PEOPLE not to the occupant of the White House.
Thank you
Jacqueline Urso

Name: Paul Porter
Date: February 26, 2026 10:33:03 am

First off, thank you for all the time and effort that you have put into trying to redesign the ballroom to be in compliance with the historic design of Washington DC that exemplifies the balance of the three branches of government. The existing proposal clearly physically usurps the other two branches of government and the executive branch reigns Supreme over them like a king. I am certain that that is what Donald Trump's intent is in the design. To say what he is initially proposed is grotesque would be a vast understatement. In my opinion, I think as most Americans like myself would prefer to see the East Wing reconstructed brick by brick and put back exactly as it was out of his own pocket. He demolished that without any consent from anybody. That is the people's house and I'm sure that like myself, many Americans are plenty angry about that. We all see it as a distraction from the Epstein files. That being said, if you can get the negotiations to the size and proportions that you're proposing that are in keeping with the architectural order of Washington DC and keep everything proportionate and the three equal branches of government buildings reflecting the equal powers that they each

have, then I guess I can live with it. But I also think that using taxpayer dollars to build this atrocity is absolutely dead wrong. He should have to pay for this himself since he destroyed that historic East Wing of the White House. It also angers me greatly that he tore down the wing that has always been devoted more to the First Lady. Granted I don't hold a very high opinion of Melania, however, all the other first ladies who were before her who used that East Wing of the White House have certainly had their legacies stained by the demolition of the physical reminder of their presence. It just says to me that women aren't important, and given all the girls that he has been credibly accused of raping, and the women that he is credibly accused of sexually assaulting, that is certainly true. For him, tearing that wing down is just a big middle finger to women in general. I think that is absolutely DEAD WRONG. Don't even get me started on what he did to Jackie Kennedy's Rose garden. Concreted over? That is a HUGE insult to her legacy. Hopefully he will be out of office one way or another before this ballroom project ever gets off the ground. I would like to see it scrapped and the East Wing rebuilt as it was, and restore the East Wing to its original purpose of serving the First Lady. The federal government should seize his assets to pay for that. While we're at it, that god-awful remodeling that he did of that bathroom off the Lincoln bedroom should be put back as it was as well. In fact, every disgusting thing that he has done to that building should be removed. The Oval Office is a mockery of what it once was. It looks like Emperor Nero's cheap movie set. Everything covered in gold is just disgusting to look at. I don't think there's enough sage on the planet to get all the bad juju out of the White House that he has put into it. All I know is that I am certain that the founding fathers and the architects who worked so hard on all this to begin with are spinning in their graves. This whole thing makes me so nauseous that I want to throw up. I am quite certain that many other Americans have the same exact feelings about this. I guess we'll keep Pepto-Bismol and Mylanta in business for the time being until this creep is gone.

Name: Michael Hustedde
Date: February 26, 2026 10:33:26 am

I have viewed the materials/videos related to the East Wing Modernization Project/Ballroom Construction. The arguments in favor of building a sizable ballroom are understandable. The process we have gone through to get to this point is not. I sit on our local Historic Preservation Commission which works to celebrate the historic structures in our city through support of homeowners who take pride in ownership of structures built before they were born and who hope to pass along to the next generation of owners structures that reflect the values of our community. We have codes that determine how restoration or adaptive reuse are to be conducted...not to hogtie the owners but to maintain the quality of the strutures and be sure appropriate materials are used and processes are followed. In the case of the EWM/B, the guidelines for historic preservation do not appear to have been followed, and I find that deeply concerning given the historic importance of the White House and its grounds. The project sets a horrible precedent for historic preservation in the United States.

Name: Kathryn Hund
Date: February 26, 2026 10:40:25 am

To the esteemed Members of the National Capital Planning Commission,

As a public historic site manager with a deep commitment to preserving our nation's most significant cultural resources, I write to express my strong opposition to the proposed East Wing Modernization Project, specifically the construction of a new ballroom addition to the White House complex.

The White House is not merely a government building; it is the most potent symbol of American democracy and cultural heritage. Every modification to its structure must be weighed against the principle of preserving its historical integrity and the layers of history it embodies. The proposed addition represents an irreversible and, in my professional opinion, unnecessary compromise to this integrity.

It is disheartening to recall the precedents set by past demolitions of the complex, which—in hindsight—are often viewed as an atrocity born of a lack of foresight and a disregard for the structure's historical significance. We, as stewards of the nation's past, have a solemn obligation not to repeat these mistakes. The proposed ballroom addition, while framed as a modernization, risks further diluting the authentic historical narrative and structural honesty of the White House complex, compromising what it means to the American people and world culture.

I urge the Commission to reject this proposal. I recommend pursuing design alternatives that prioritize sensitive preservation, maintain the historic fabric of the East Wing, and ensure that any necessary functions are accommodated in a manner that honors, rather than diminishes, the authenticity of our most important national monument.

Sincerely,

Kathryn Hund
Public Historic Site Manager

Date: February 26, 2026 10:40:40 am

Do NOT let this project go forward!!! Trump has already RUINED a building of OURS with no input from us. He is a CARETAKER of our national property—NOT an owner; he had NO right to raze the East Wing and CERTAINLY no right to build ANYTHING on that site—most particularly NO “ballroom” to his ego!!! STOP this now!!!

Name: Debra Guida
Date: February 26, 2026 10:44:41 am

I think what Trump did in removing the East Wing was a travesty and the new ballroom is an abomination. The wing should be replaced with one similar to what was taken down (at his cost) and the White House should be restored to what it has always been. The peoples house. If a ballroom is needed.....build it somewhere else. And the ballroom should have a generic, positive, inclusive name. Under no circumstances should his name nor a banner with his face on it, be placed on it.

Name: Sarah Broomfield
Date: February 26, 2026 10:44:50 am

Please reject the current proposal for an East Wing ballroom on the White House. Here are some reasons for that request, and standards that a revised footprint must comply with.
* The currently proposed size is 47% greater than industry standard for occupation of 1,000 people.
* The current design is not ADA compliant and must not be approved until the design is compliant.
* The fake south portico has no direct access to the ballroom, which is 12' above the portico, and it obscures the view on the axis from the White House to the Capitol building. That axis represents an historically important feature of our American democracy.
* The proposed kitchen is 2.5 times the industry standard for serving 1,000 occupants and must be reduced appropriately.

Name: Sarah Parmelee
Date: February 26, 2026 10:46:37 am

I respectfully voice my opposition to this project. The White House is a symbol for our stability and longevity as a nation and altering this keystone structure without following well-established procedures including seeking public input, not only sets a dangerous precedent but also reflects poorly upon our nation. The beautiful proportions maintained for over a century should be restored and not thrown into array simply to suit the tastes of a temporary resident. This building belongs to the American people and should be preserved and restored.

Name: Dan Sarvis
Date: February 26, 2026 10:51:12 am

I support a scaled down version of the addition to the east wing of the White House in Washington DC. I support a version that does not interfere or interrupt the view of the White House from the Pennsylvania Avenue axis street view, as designed into the original plan for the city of Washington DC.

Respectfully & Sincerely submitted,

Dan Sarvis
Akron, OH

Name: J Thomas Brown
Date: February 26, 2026 10:54:43 am

The demolition of the East Wing, a national historic landmark, was carried out in a chaotic manner without first submitting plans or forethought. Now it appears a second story may be added to the East Wing in order to maintain symmetry. Where has the "Planning Commission" been all this time? Gaudy coffered ceilings dripping with gold will only impress other Epstein class playboys. NO THANK YOU!!!

The new construction is to be paid for with donations by the heads of corporate America. This is graft at its worst! This is pay to play. The White House and its wings are the people's house, not the playtoy of the president.

- J Thomas Brown, American Citizen

Name: M Langelan
Date: February 26, 2026 10:59:04 am

I am appalled by Trump's profound disrespect for the White House, American history, and the American people.
No one voted for him to destroy the East Wing.
No one voted for a monstrous gilded ballroom.
No one voted for him to use our historic public spaces for his own insatiable vanity.

In a further display of contempt for the American people, Trump has had the toxic debris from the East Wing project dumped in a beloved public park. East Potomac Park does not belong to him. How much lead paint and asbestos is in that debris? How much is now in the air, soil, and water there?

Please refuse permission for this travesty in any form. Require Trump to pay full compensation to the American people and cover the full costs of remediation -- with punitive damages for both the East Wing destruction and the harm done to East Potomac Park.

We own the White House and the Park. He has massively damaged our property.

Millions of families lack food, decent housing, and health care. Trump's ballroom is a moral obscenity.

Name: Amie Redding
Date: February 26, 2026 11:00:29 am

While I am not in opposition to the idea of modernizing the East Wing Ballroom, I absolutely disagree with the size and scope of the proposed project.

The White House should be the focus. It is the People's House and is the symbol of our democracy. To overshadow it with a ballroom would be a desecration of that symbol. Additionally, hindering the sight lines and city planning that George Washington commissioned would be a huge mistake.

The entire White House complex was designed with such care and consideration, emphasizing the symbolism of our new nation. The size and scope of this project unmines all of that care, consideration, and planning.

Name: Marc Bendick Jr
Date: February 26, 2026 11:02:18 am

As an advocate for historic preservation as well as a US citizen and taxpayer, I wish to oppose the plan for an East Wing ballroom that is out of scale and stylistically discordant with its context, as well as repeatedly in violation of the Secretary of the Interior's standards for renovation of historic buildings.

If a ballroom is to be built at all -- a project for which the necessity is not at all established -- then it needs to be scaled back by approximately 38%, which would bring it into architecturally standard scale to accomodate the 1,000 seated attendeees it is supposedly to serve. It also needs to eliminate the non-functional south portico, move kitchen and service

areas below grade, reduce the height of the colonnade to match that of the West Wing, and ensure that all architectural features are consistent with the style and scale of both the White House and adjacent Treasury Building.

The final design needs to respect the historically-important L'Enfant Plan for the Capital City (especially the symbolically essential sight lines between the White House and the Capital), the Hoban classical design of the White House, and the Frederick Law Olstead landscaping plans for the the White House grounds. The present design fails on all these counts and must be rejected.

Name: Susan Kohlhagen
Date: February 26, 2026 11:11:14 am

I am opposed to building some huge, expensive new addition to the People's White House and feel sickened that the East Wing was knolcked down before the public had any knowledge or way to make comments or oppose. The Administration did not take the proper steps for this. Even if it is said it wall be paid fro by the many donors, I am skeptical and believe that it will still cost tax payers to build it and then maintain it and cover utilities. There needs to be many proposals to fix what has been done that the taxpayers need to weigh in on.

Name: Midge Pierce
Date: February 26, 2026 11:14:30 am

The American Public should be allowed to testify on any and all reshaping of the People's House - the White House. The East Wing reconstruction is in violation of the people's trust. Moving forward, the National Preservation recommendations should be sought our and followed.

Name: Sarah Weinman
Date: February 26, 2026 11:15:30 am

Dear NCPC,

I write to express my concern that the proposed "East Wing Modernization project" (aka New White House Ballroom) is inappropriately out-of-scale with the existing structure.

As currently proposed, the East Wing Ballroom Project comprises 90,000 square feet, almost double the 55,000 square feet of the existing White House building. No amount of tweaking the addition's design (except making it smaller) will change the fact that it is larger than the original. Also, if the addition is the exact same height as the existing White House, this will dwarf the original historic building.

This is significant because the Secretary of the Interior’s Standards for Rehabilitation require that additions to historic structures be subordinate in scale and size, distinct from the historic building (not replicating it), and compatible with its materials, features, and massing.

There is no doubt that there is a need at the White House for a gathering space that can accommodate more than the existing 200-person room. However, there is doubt that this particular design is suitable – It takes away from the original White House, dwarfs it in scale, and relates it to a secondary role.

I ask that you do not allow this project to go ahead as proposed.

Thank you,
Sarah Weinman
St. Louis, Missouri

Name: Mary Day
Date: February 26, 2026 11:18:53 am

I strongly oppose the construction of a ballroom in place of the east wing of the White House. I understand that the destruction of the east wing was done without proper approval and necessary permits.How in the world did this travesty

happen?A national treasure and legacy for the American people was torn down. Those who are responsible (namely Trump) Must be held accountable for such an outrageous act! The east wing needs to be rebuilt to an exact representation of what it once was.
Please give this consideration. Thank you, M Day

Name: MaryAnne Weatherwax
Date: February 26, 2026 11:19:12 am

I am opposed to the ballroom renovation. How could this happen without any approval. The people's house is supposed to be long to all Americans, not just President Trump! This is just another example of his overreaching and ignoring established rules regarding this type of change.

Name: Chet Hepburn
Date: February 26, 2026 11:20:40 am

The destruction of the east wing and the proposed "ballroom" is a travesty and the erasure of part of America's history and identity.

The proposed abomination should not go forward and the old east wing should be reconstructed.

Name: Linda Clark
Date: February 26, 2026 11:20:51 am

There is a process clearly stated that is to be followed before any changes can be made to the White House. It is unconscionable that the East Wing was suddenly torn down at the whim of the current president. NO FURTHER CHANGES SHOULD BE MADE WITHOUT FOLLOWING THE PROCESS. It is as simple as that. The president must be held to the same rules that govern any changes to our nation's historical properties. The White House is not his house; it is the house of the American people.

Name: Paul Zaengle
Date: February 26, 2026 11:21:30 am

I am staunchly opposed to our (not my) president's plan to build a ballroom on the grounds of the White House. This president's budget and free spending created the largest budget deficit in history last year ($2 trillion+), and as a result has grown our national debt to new highs as well. As a result of the above, as well as all of the carnage him and his adminisration has created, the very last thing we should be doing is tearing down important historical buildings, and spending any tax dollars to replace them. And please don't tell me that corporations are footing the bill for this build. The rampant corruption within this administration makes it hard to believe anything they are telling us. It is very well known that the trump family has profited more than $4 billion since the election.

Please do the right thing, and stop the madness until we can regain our footing as a nation, and begin the cleanup from the mess of this administration.

Sincerely,

Paul Zaengle
Father, CEO, & Patriotic American

Name: Debbie Groveman
Date: February 26, 2026 11:25:21 am

The demolition of the East Wing, without conversation, approval or great thought was a tragedy. Now in order to ‘fix’ this betrayal to the American people, I urge you to reject the current plans and update to consider balance, scale, sustainability as a new plan is formed.

This is the People’s House; our President’s residence, not a gold Palace thrown together to flaunt wealth. This house will stand, hopefully, for another 100 years, long after this president leaves it.

Reject the current plans. Go back to the drawing board and create an East Wing that serves the American people.

Name: Bruce Hlodnicki
Date: February 26, 2026 11:28:05 am

President Trump has not and is not "modernizing" the East Wing of the White House.
He razed it to the ground without permission or plan to replace or rebuild it.
Isn't that ILLEGAL?

I have no idea what President Trump plans from here on.
He is building a gigantic/god-awful golden ballroom leaving no room to rebuild the East Wing of the White House.

Trump only cares about Trump...

Name: Shasta Willson
Date: February 26, 2026 11:31:18 am

I was horrified by pictures of the East Wing in wreckage. Trump broke every promise he'd made and razed American history for a vanity project that didn't stand up to even cursory architectural or historic review. Trump should not be involved in the effort to repair his damage. A team of historians and architects specializing in historic preservation and monuments should decide what the East Wing space will become. This team should be composed with at least 20% Black members, with at least one member with expertise in the history of skilled slave labor in this nation, and White House construction in particular. Whatever they build should stand as a monument to the true history of our nation, and the diversity of excellence under imperfect but aspirational democracy.

Is there anything that the USA has constructed, preserved, and loved that this administration doesn't want to defile and destroy?!?

Name: Virginia Becker
Date: February 26, 2026 11:34:29 am

No.

Name: Amy Boone
Date: February 26, 2026 11:35:39 am

I watched with the rest of the country as an unauthorized demolition of OUR house occurred. The President seems to think he has the right to do whatever he wants with OUR house and he actually does not. The idea of a ballroom is not, in and of itself, a bad idea. The way he is going about it is a very bad idea. I actually would WANT the ballroom to be built with taxpayer money so that the President isn't beholden to any donor for special favors. The grift is already off the charts

with this administration and we don't need another place for this to happen. The proper channels should be used at this point and the historic commission and other entities need to be a vital part of the conversation and plan. If it is deemed that the President's reckless behavior will result in an unfinished part of the White House, so be it. It is fitting for this abhorrent administration.

Name: Mary Connor Taylor
Date: February 26, 2026 11:36:32 am

Please stop this project for re-evaluation
It seems to me that the tearing down of the east wing without proper oversight and consideration is a punishable offense .

Name: Lee Perkins
Date: February 26, 2026 11:37:02 am

This is an historical building not a ballroom. We are a democracy yet we had no say in this demolition. It should be returned to its original design and purpose. This project is a slap in the face anyone interested in preserving our country's history.

Name: Phyllis Irby
Date: February 26, 2026 11:40:48 am

The White House is the American people’s house. It represents us and our history. It has always been a source of pride. It makes me sad what is happening to it with this administration. The proposed “ballroom”addition will be so disproportionate as to look strange and take away from the historical White House. It is like if one built an extra “party room addition” to one’s house that was so much larger than the actual home that it looked ridiculous. Thank you for hearing my concerns.

Name: Linda Snyder
Date: February 26, 2026 11:41:27 am

“I oppose the ballroom! The
visual scale, the expense of forever maintaining the structure that was initiated WITHOUT proper authorization, permits, or design review.

It completely erases American history. CANCEL the ballroom. REBUILD & RESTORE the East Wing to its former design.

NO ONE IS ABOVE THE LAW. PENALIZE those who broke the law and destroyed the historic East Wing. To allow and go forward with the ballroom is an insult and affront to all law-abiding Americans.

Name: John Wees
Date: February 26, 2026 11:46:17 am

A vanity ballroom of this size would be a grotesque monstrosity to add to the people's house. Nothing about the proposed design makes a statement about the America I know and love. It only appears to feed the ego of an emperor who refuses to acknowledge that everyone knows he has no clothes.

This would only appropriately represent the United States of America if it were redesigned to be a homeless shelter, to demonstrate the compassion and humanity that this historic property deserves and demands.

Name: Julie Brock
Date: February 26, 2026 11:46:46 am

While I understand the need for the function and utility of a ballroom, and am not writing to ask you to throw the project out altogether, I do not understand the excessive size currently in the plans. I am asking that you please move the kitchen underground (a normal location for most buildings like this), and remove the enormous portico that serves no functional purpose. This would allow Olmsted's original landscape design and L'Enfant's original urban plan to remain intact, both of which are historically significant and protected. I would be thrilled if you would also reconsider the ceiling height of the third floor and the size of the ballroom itself, which will be far too large to host smaller events, but if nothing else, I would be very happy with a compromise on just the portico and kitchen alone. These sacred sites are not Trumps, or the Republicans', or the Democrats', they belong to all Americans. As such, I hope you do not allow irreparable harm to be done, especially considering what we have already lost.

Name: Colleen Callahan
Date: February 26, 2026 11:47:00 am

The proposed ballroom is an architectural abomination. It is totally unnecessary for White House entertaining and if built, it's maintenance will be a drain on the national budget.

Name: Richard Cromie
Date: February 26, 2026 11:48:18 am

I watched the video. This "ballroom" is an insane, poorly planned, illegally funded, monstrous eyesore that rapes the White House in order to aggrandize a not-well president. I respectfully suggest construction needs to be immediately stopped.

Name: Neda Zayer
Date: February 26, 2026 11:49:29 am

National Capital Planning Commission,

I am writing to express my concerns with the proposed design of East Wing Modernization project. The proposed design would significantly impact this historic landmark that is a symbol and institution of governance of this great nation. The new addition will dwarf the White House in physicality and presence. The White House is the structure of signature and importance a should remain the dominate structure onsite.

I implore the National Capital Planning Commission, in your wisdom and authority, to require the project to be redesigned to honor the history, legacy, and design of the White House.

It is detrimental that the previous East Wing was demolished without the decision making process it deserved. Please don't allow the public's voice to go unheard and their concerns unaddressed.

Thank you for your consideration and stewardship.

Neda Zayer

Name: Mary Lou Egan
Date: February 26, 2026 11:50:48 am

The Trump ballroom should not be built. Besides the obvious facts that the design is an abhorrent mixture of fascist statements and out of scale and character of the "peoples' White House, it blocks sight-lines and destroys the existing landscaping design.

The White House is not a personal palace as assumed by Trump. There are procedures and laws that protect it. Trump has already broken those and will continue if not stopped. He has torn down the East Wing and packed committees to get his way. He should not be allowed to continue regardless of the design. STOP this bully and preserve the White House until he is gone.

Name: Tracy Ellis
Date: February 26, 2026 11:52:58 am

I strongly oppose the Trump Administration's plan to construct a massive new ballroom that would dwarf the White House's Executive Mansion and West Wing combined.
The White House is not a private development project. It is a historic national symbol that belongs to the American people. Its architecture reflects continuity, restraint, and democratic values — not personal grandeur. A structure larger than the White House itself fundamentally alters the character, scale, and historical integrity of this site.
The demolition of the East Wing before full public review was deeply troubling. Proceeding with construction while oversight bodies and courts are still evaluating the project undermines established preservation processes designed to protect national landmarks. The National Capital Planning Commission exists to safeguard the long-term integrity of our federal spaces, not to fast-track projects that permanently reshape them without broad public consensus.
Integrating salvaged architectural elements does not mitigate the impact of replacing a historic wing with a much larger, visually dominant structure. Nor does adding additional floors elsewhere to "balance" the scale solve the core issue — it compounds it. The White House complex should evolve thoughtfully and minimally, not through dramatic expansions that overwhelm its historic proportions.
At a time when the country faces significant fiscal and civic challenges, dedicating resources to a grand ballroom described as "the finest anywhere in the world" sends the wrong message about priorities and stewardship.
I respectfully urge the Commission to reject the final plans and require a comprehensive, transparent review process that includes preservation experts, architects, historians, and meaningful public input. The White House must be preserved as a symbol of democratic continuity — not reshaped to reflect the ambitions of any one administration.

As a member of a local Historic Preservation Commission (a state of Iowa CLG), and as someone who has studied the minimal White House Ballroom plans that have been made available, I am rather stunned that an addition of this scope is even being considered.

The proposed building is hugely out of scale with the White House--it obscures where it should reveal, it overwhelms where it ought to defer. In addition, it destroys several key sightlines and landscape features.

This whole bombastic plan involves the destruction of some key features of our historic legacy. In other words, it is in direct contradiction to the 1966 National Historic Preservation Act that has for fifty years served as a template for all national/regional/state/local historic preservation action.

Be brave: insist on reducing the height, length, and total mass of this proposed building.

Name: Nancy Press
Date: February 26, 2026 11:53:50 am

The design and scale of the proposed east wing are inappropriate, tasteless, and shameful.

The NCPC should recognize and adhere to recommendations of the National Trust for Historic Preservation, as the experts within that organization obviously have much greater insight than the designers of the proposed East Wing.

The proposed square footage is half again as much as needed for the 1000 people supposedly to be accommodated. The mass of the current White House is 875 thousand cubic feet but new proposed addition is 2.36 million cubic feet—3 times the size of the White House.

The proposed portico is non-functional. There is no connection between the portico and the ballroom, the design includes fake doors, and the grandiose pillars block the view in and out of the ballroom. The grand stairs do not lead to an entrance and the portico is not ADA compliant. The lack of connection, the lack of entrances, the elimination of views to the outside, and the use of fake elements are all emblematic of the current administration's false and remote relationship with the American people.

The proposed ballroom would cut off the view between the White House and the Capitol Building. The real and symbolic connection between two branches if government will be blocked.

To summarize, the new ballroom is unnecessarily large, incompatible with size and scale of White House, disconnects the White House from the people of America and the other branches of government, and violates historical symmetrical design. The NCPC should consult the National Trust for Historic Preservation.

Date: February 26, 2026 11:56:45 am

I am writing to register my objections to the East Wing Modernization Project. The proposed design would completely dwarf the remaining structure of the White House. It would be a nod to the corruption of the Epstein class and does a disservice to the serious, stately presidential home and office. Please change course now and change the design to something more stately and appropriate rather than building a huge ballroom. While millions of Americans are struggling with health care and rising costs in general, moving forward with this project seems completely inappropriate.

Name: Patricia Reynolds
Date: February 26, 2026 11:59:40 am

The Administration's plan for the Ballroom is shameful. It will so 'out size' the White House as to appear as an ugly and ill thought addition to something that was once 'balanced' and beautiful.

The Ballroom addition needs to be stopped and redesigned by an architect determined to preserve the beauty of the entire site.
Stop this eye sore from moving forward.

Name: Christopher VerPalnck
Date: February 26, 2026 12:00:27 pm

What can be said that hasn't already been said. The criminal destruction of the East Wing of the White House by Donald Trump was a profound act of vandalism perpetrated by an out-of-control autocrat against the people of the United States. The White House does not belong to the Trump Corporation. Nor does it belong to Elon Musk, Larry Ellison, or Mark Zuckerberg. It belongs to all of us. What this regime has already done to the White House is beyond the pale. At this stage I have no interest in tweaking the design of the behemoth that will replace the East Wing. My only hope is that a future president will demolish it and rebuild the East Wing the way it was. Every vestige of this fascist regime must go.

Name: Lisa Frost
Date: February 26, 2026 12:11:40 pm

The proposed ballroom addition to the White House is so out of proportion. It’s a monstrosity and an embarrassment. Please scale back everything about this plan before we ruin The People’s House. The proposed ballroom will obscure the view from the Capitol and will destroy L’Enfant’s plan.
Thank you.

Date: February 26, 2026 12:13:15 pm

After viewing the February 25th webinar on the East Wing project presented by the National Trust for Historic Preservation, I wanted to follow up with a comment to the National Capital Planning Commissions. While I am no authority on the subject, after absorbing the information shared by the NTHP, I was emotionally moved by their thoughtful and careful comments. In particular, they made it clear that while they are not against the ballroom project per se, they are genuinely concerned about the design and scope of the structure and its impact on the existing, historically priceless property around the White House (the "Peoples' House). I am adding my voice to others who have submitted comments in the hopes that common sense and reason will prevail before irreparable harm is done to our treasured history.

Thank you,

Patricia Grove
A proud member of the National Trust for Historic Preservation

I firmly object to the destruction of the East Wing in order to build a ballroom. The White House may be home to the current president, but it belongs to the people. It's a symbol of our country's history; it's a place of diplomacy. It's called the People's House for a reason.

While there may be a need for a larger meeting and gathering space here, to create a ballroom (one even larger than originally proposed) turns the People's House into a palace, and last I checked, we're not a country of royalty. We may welcome royalty in those walls, but any larger space should also be a symbol of our country's virtues and ideals. The grandiose ballroom proposed does not meet that objective.

This ballroom also shatters the classical design of the White House complex, designed to emphasize the Executive Residence. If a larger space is required, then I support the suggestions of the National Trust for Historic Preservation, submitted 2/23/26, to better follow the Secretary of the Interior’s Standards for Rehabilitation guidelines and to better preserve the symbolic and historic nature of the site.

There are better ways to serve the modern needs of a larger space while preserving the site's historic integrity and legacy. The current ballroom plans do none of those things. And to be quite honest (and, I think, truthful), this ballroom only serves the whims of the president currently residing in the Executive Residence. It does not in any way serve the needs, values, and ideals of Americans and our country.

Thank you.

Name: Cristina Amarillas
Date: February 26, 2026 12:20:12 pm

The White House, including the East Wing, is part of the American story and belongs to the American people. Public opinion has been a vital and necessary opportunity in all aspects of government. The public is allowed to actively participate in this living democracy, and the historic and public monuments, including the White House is no exception. Personally, I would like the plan proposal to include:
Reduce Overall Size and Visibility.
The size, volume, and massing of the proposed new construction (90,000 square feet) should be reduced or disguised (such as by placing portions underground, as recommended in the 2000 Comprehensive Design Plan) so the new building appears smaller than the Executive Residence itself (55,000 square feet). Its height should also be substantially lower than the Executive Residence.
Reduce Footprint and Protect Key Views. The footprint of the proposed building should not extend past the existing south-facing façade of the historic Treasury Building, nor further interrupt the views of the Executive Residence from Pennsylvania Avenue.
Respect the Established Classical Composition of the White House Complex.
The new addition should retain the carefully balanced classical design of the White House complex with its two smaller, lower, and substantially symmetrical East and West Wings.
Preserve the Historic East Façade of the Executive Residence.
The connection of the colonnade to the Executive Residence should protect and preserve the original historic materials of the east façade of the Executive Residence and should not cover or demolish the existing fenestration and detailing of the east façade.
Ensure that the Proposed South-facing Portico Is Subordinate in Scale to the White House South Portico.
The proposed portico on the south façade should be smaller and less grand in scale than the existing portico on the south façade of the Executive Residence.
Thank you,

Date: February 26, 2026 12:24:22 pm

I have no doubt that a new and larger ballroom is needed as part of the East Wing Modernization. However, I question the

process that was used to be sure that the newly designed space meets the needs of the country and fits in well with other Washington D.C. architecture.

From what I have seen it looks too large and out of scale.
How about including past US Presidents in the plan? They would be the very best at offering opinions regarding what is needed and not needed in the new building.

Name: Christy Manso
Date: February 26, 2026 12:32:14 pm

As former East Wing staff, I was so upset to see the bulldozing of a space that held so many fond memories for me. I do understand the need for additional space to entertain - I worked on several events at the White House - but I have been appalled by the way this administration has gone about accomplishing that goal. But, I'm also a NYer so I guess I shouldn't be surprised by the way this President destroys under the guise of "progress". That being said, the train has left the station so I want to add my comments on the new ballroom. My preference would be for a new space that is more modest than the plans that I have seen. The current plans dwarf the existing White House structure and also make it look lopsided. This is not esthetically pleasing, nor is it historically accurate. It's the people's house, not a palace. I would prefer to see something that is one level as opposed to the 2-3 level structure that is currently proposed. This would still provide line of site to the White House from east executive drive. I recognize that the office space that is now gone needs to be included in the space, but the east wing offices were pretty small and we got along fine, so I don't think there needs to be a tremendous addition to office space. The purpose of this "project" was ostensibly to create more space to entertain, so the space should be dedicated to that and little else. I also think a ballroom that seats 500 should be sufficient. When I worked at the WH, there were very few events that were larger than that number and to my mind, if it's larger than that, then the guest list should be cut. A 1,000 person event is a rally, not an elegant White House dinner and can take place elsewhere.

As an Architect, I have concerns regarding the functionality as well as the related scale of the proposed Ballroom. I don’t feel strongly that a ballroom would not be appropriate, but feel the scale presented is excessive and inappropriate. The East Wings demolition without prior approvals or permitting appears indicative of a rogue approach those of us in the industry could NEVER get away with. The Permitting process and architectural reviews BEFORE the fact are the norm; proceeding with no prior approvals IS NOT. And to be clear, this is the PEOPLE’S House.

From a practical approach, the proposed scale appears to significantly exceed the industry standard amount needed per person (10 to 15 SF per person would be the norm) and will likely seem so grand as to seem uncomfortably excessive to any user, especially for any smaller gatherings with less than 1,500 people in attendance. A smaller scaled addition could provide the same desired solution.

The location of the addition due to its shear size will alter the Olmsted site design. The fake / applied East portico appears to have no functional purpose. There seems no apparent regard for ADA accessibility at that portico, and its purpose merely becomes a billboard of sorts. The overall height and shear scale of the proposed addition does not seem sympathetic to the historic architecture of the White House itself and frankly dwarfs the people’s house. It’s like they’re adding a house to a 3 car garage, the house seems lost in the scale of it.

Further, the proposed overall building addition's shear scale and siting will block the historic Pennsylvania Ave. main axis sight lines as originally established by L’Enfant, and will forever affect the historic connectivity of the people’s House and the Capital on our National Mall. L’Enfant’s vision for the city design was based around the idea that every citizen was equal, and the mall was open at all corners. Blocking a key axis seems very inappropriate, lacks vision (figuratively and literally), is very unsympathetic, and simply should NOT be allowed.

A more sympathetic and proportionally scaled ballroom is required and a more appropriate approach warranted. Further design considerations should absolutely be entertained BEFORE this project is allowed to proceed at the PEOPLE’S HOUSE. Maintaining the L’Enfant sight lines, maintaining an appropriate scale as an addition to the White House, maintaining contextual sympathy to surrounding buildings (height and massing), PROPER approvals and customary checks and balances regarding established historical norms / guidelines, consideration of original design intent, as well as current codes and ordinances MUST all be considered . Certainly none of it should be simply disregarded by any individual or group.

Date: February 26, 2026 12:37:20 pm

I am strongly opposed to this East Wing project and distressed that a historical portion of a historical building was torn down without public input. Given that it has already happened, I want to minimize impact as much as possible to include:

1. reducing the size of it - 90,000 sq feet is visually and functionally unwarranted. More importantly, the bigger the space, the more taxpayer money required to maintain it.

2. Heavy influence and involvement by a historical oversight commission to protect against bad actors.

3. The destruction of the rose garden (at least 75 yo) is a concerning precedent and historical elements of the garden space around said ball room should protected as part of any plan.

Name: Catherine Armington
Date: February 26, 2026 12:43:34 pm

This oversized monstrosity needs rethinking. If one accepts the original premise that the president needs a huge ballroom in order to appropriately entertain large crowds, the floor area of the ballroom should be reduced by a third to handle no more than 1000 guests, and the height of the building should be reduced by at least 15 feet to reduce its negative visual impact on the original White House structure. The size and height of the lower level kitchen seems excessive for the purpose, and use of much of that level for offices with windows should have higher priority. We are lacking any explanation for use or need for the third floor. The completely false grand entry columned porch with 40 foot wide stairway should be removed, so that the view of the White House from the east is preserved and the remaining landscape is not distorted.

No details have been provided for the interior of the ballroom itself, but it appears to lack flexibility for any suitable adjustment for entertaining smaller parties or conferences, so that its usefulness the the president will be extremely limited. Surely with further thought about how those spaces could be used fora variety of government functions a more functional plan could be designed to expand the White House.

Project: White House East Wing Modernization Project (NCPC File No. 8733) To: National Capital Planning Commission

I am writing as a concerned citizen, an attorney and former Executive Director of the Conservative Society of San Antonio, one of the oldest historic preservation organizations in the nation. I wish to express my opposition to the current design for the proposed ballroom addition at the White House. While I recognize the utility of a dedicated event space for official state functions, the current proposal fails to respect the historic integrity and architectural balance of this National Historic Landmark.

My specific concerns are as follows:

Scale and Massing: The proposed 90,000-square-foot structure—nearly twice the size of the Executive Mansion itself—is out of scale with the historic campus. An addition of this magnitude will overwhelm the primary residence, diminishing the White House's standing as the central, iconic symbol of our nation.

Visual Impact: The height and volume of the ballroom will permanently disrupt the carefully balanced classical design established by James Hoban and subsequent historic expansions. This "massing" threatens the vista of the White House

and the Treasury Building, altering a historic landscape that belongs to all Americans.

Compatibility with Secretary of the Interior’s Standards: Federal preservation standards require that new additions be compatible with the existing building’s size and scale. The current "pseudo-historical" design and immense footprint appear to disregard these principles, prioritizing a "casino-style" aesthetic over the dignified restraint of the original Georgian and neoclassical architecture.

Lack of Transparency: I am deeply troubled that the East Wing was demolished before a full public review, environmental assessment, or congressional approval was completed. The NCPC must ensure that this project undergoes a rigorous, transparent review that includes meaningful consideration of design alternatives that are smaller and less intrusive.

Conclusion: I urge the Commission to reject the current final design and require the applicant to explore modifications that significantly reduce the ballroom's height and footprint. We must preserve the historic character of the People’s House for future generations.

Name: Carl Gerhold
Date: February 26, 2026 12:51:55 pm

I urge you to reject the proposed East Wing modernization plan in its current form and to adopt a more appropriate design. Please see the attached document.

The landscape of our nation's capital is beautifully designed and proportioned to emphasize our most historic structures and memorials. There is no place for massive, hastily designed, self aggrandizing and improperly vetted buildings, particularly attached to our People's House, the White House. Tearing down the East Wing was a horrible thing to do, and the "modernization" plan is terrible, ugly, being pushed through by cronies of the president and illegally funded, and would be a blight on our city and on the reputation of our country for generations to come, until it is torn down. Which will have to happen to get our lovely city back.

Name: Karen Johnson
Date: February 26, 2026 12:59:14 pm

It is imperative that we protect the integrity of our historic properties and not accept the proposed plan for the White House Ballroom that clearly violates historical symmetry in it's environment. The proposed plan for the new White House Ballroom proportions show it to be oversized to the existing size and scale of the Classical White House.

As such, this proposed plan is in direct contradiction to the U.S. Secretary of the Interiors standards for treatment of historic properties.

I strongly recommend considering and accepting other plans for a new ballroom, such as those proposed by the National Trust for Historical Preservation and resize the plan for the the new ballroom so that it accommodates the 1000 seated guests need of the administration.

Attachment

Name: Margot Smith
Date: February 26, 2026 12:59:34 pm

The proposed ballroom for the East Wing of the White house is not appropriate for the white House property. The White House is the hub of our national government, not an entertainment center. We had the offices for the First Lady and other government officials in the East Wing, not dance halls. Please oppose the plan for a ballroom on the White House site, it could go somewhere else if really needed. Why is it needed? Having balls at the White House? So wrong.

Name: Katy Carlson
Date: February 26, 2026 1:00:05 pm

The East Wing didn't need modernization. The White House doesn't need a tacky oversized ballroom. This president doesn't own the White House, no other president did either, and should not treat it like his own gaudy real estate. Close up the massive hole he created and build something tasteful, in keeping with the design of the White House. The American people should not be subsidizing a ridiculous ballroom for the Trump family to entertain billionaires in.

Name: M Judith Wilson
Date: February 26, 2026 1:09:27 pm

This project is nothing but a vanity project for the current president. It totally destroys the beautiful balance of scale & design created when our capital was created. The White House is the People's House, not the President's. We have had 250 years of beauty and function, please don't let one person's ego ruin those important components of the capital.

Name: Kathleen Snyder
Date: February 26, 2026 1:10:00 pm

The East Wing of the White House was destroyed without permission. It is not legal to tear down a structure that does not belong to you. If I moved into a rental home and promptly tore down part of the house in order to replace it with something I preferred, the owner would most likely not be any more enthusiastic than we, the public, are about the razing of the East Wing, especially if the owner’s home had historical significance. Now that Mr. Trump has robbed us all of a piece of history and seems to have so many wealthy individuals willing to throw money at him, let them pay for the restoration of the house that belongs to all Americans. Or, maybe, since it was HE who took it upon himself to act without permission from the owners, HE should use some of the money he has used his present position to line his pockets with to pay for the restoration. If he is eager to “modernize” the White House, I suggest he step down from the presidency.

Name: Jim Anglesey
Date: February 26, 2026 1:11:49 pm

This project should honor the classical symmetry of the white house complex. the proposed ballroom is out of balance with the historic white house. The false portico is not appropriate for this style of design. The axial design of the L'Enfant Plan of the City of Washington must be preserved to enable the vista between the Historic White House and the U.S. Capitol must be preserved. Lower the proposed east colonnade to match the west colonnade and maintain the historic Palladian window on the Historic White House. The Historic White House should be the tallest structure within the complex. reduce the height of the proposed ballroom. Maintain the Olmsteadian configuration of the elliptical drive on the complex grounds. Resize the ballroom to rebalance the symmetry and size of the historic complex and make the south portico a functional entry to the ballroom. Move the non-public kitchen and service spaces below grade. Reduce the size of the ballroom to the high industry standard to accommodate 1000 people (15,000 sqft). Eliminate the non-functional south portico.

Please respect the history of this great nation and the "People's House" by creating a more authentic and appropriately sized East Wing.

Name: Jan Emerson
Date: February 26, 2026 1:18:04 pm

Please do not destroy the people's house by turning the East Wing that housed the first lady's important office and projects into a ballroom that outsizes the importance of the presidential office. Now that you have destroyed the East Wing, at least do something tasteful and appropriate to purpose of the presidential residence, not a gaudy attempt to have balls in a gold-painted badly overdesigned oversized ballroom. The president's job is a serious one, not a party one. Thank you.

Name: Dana Hubbard
Date: February 26, 2026 1:22:36 pm

The Trump Proposal is much too big. Any new building should not dwarf the White House in any way. The new building should not be more than one story high, classical in design and aesthetically pleasing to the eye. Reconstructing something similar to the old and now demolished East wing would be appropriate, it should not block the view from the Treasury side of the grounds.

Name: Nicole Sheronas
Date: February 26, 2026 1:31:00 pm

Dear National Capital Planning Commission,

I am extremely opposed to the proposed East Wing Project. The proposed plan does not respect the legacy that we have inherited as Americans. There are several glaring features of the building that are alarming. First, it would forever obstruct the visual connection between the White House and the Capitol. L'Enfant's axial connection between the two buildings is deeply symbolic as it unites the legislative and executive branches of our government. Second, the sheer scale and mass of the proposed ballroom dwarfs the White House. The scale is not only grandiose but also wildly exceeds industry standards. It ignores the principles of symmetry that are foundational in Hoban's design for the White House. Third, the siting of the proposed East Wing would forever ruin the beauty of the elliptical drive in the South Grounds which was designed by the Olmsted Brothers. Unfortunately, this is only a short list of the proposed changes that would forever negatively impact the meaning and experience of the People's House.

It was devastating to watch the East Wing demolished without warning or an opportunity to comment. The White House is one of the most, if not the most, recognizable buildings in our country. While a new space for entertaining is needed, it is imperative that design decisions are made in a way that honors our history. Moreover, the East Wing should have a tasteful design that functions appropriately for the intended number of guests. The proposed project falls short, very short on all these accounts. I request that you oppose moving forward with this plan.

Regards,

Nicole Sheronas

Date: February 26, 2026 1:41:42 pm

Dear Members of the NCPC,

In regard to the East Wing Modernization Project, I'm concerned about the neglect to follow the required design submission, review, approval, and funding process for these plans. These are not only my questions and observations. They're questions and observations gathered from many members of the public. I've compiled them here for you to kindly consider.

- The plan appears to be out of scale with the adjoining structures, diminishing the traditional aesthetics of the White House grounds.

- Have the plans been evaluated by structural, environmental and civil engineers for soundness and impact?

- The sources of funding are questionable and potentially expose the U.S. to unnecessary national security risks. Why are they all weapons manufacturers, bunker and surveillance center builders, military contractors, etc.? Why are there no furniture, chandelier, drapes, fine china or other manufacturers that one might reasonably expect when constructing a ballroom? A public federal building should be publicly funded through Congress for transparency and national security.

- The president has proven to be an unreliable source of accurate information regarding basic details of this project, stating that the new structure would be adjacent to existing publicly owned federal structures, then unilaterally and quickly demolishing a significant existing federal structure.

- The rendering of the project released publicly appears to be inconsistent with what has been said about the project. It's been said repeatedly that the ballroom will be 90,000 sq ft, but the rendering drawn at scale next to the White House appears to be approximately 22,000 sq ft. Where is the remaining sq footage? Will it be underground? What will be located in those underground levels, and what is their purpose?

- Allegedly, the water and electrical supplies to this location were vastly upgraded. Why? What is being built that would require so much more electricity and water than the previous structure? A ballroom is basically a big empty room with some lights, some restrooms, and a kitchen. The water and electrical needs can't be that much greater than what was required by the former East Wing.

- The quoted cost per sq ft for this project is at least 10x the cost of any other construction anywhere in the world. Either the public is not being told the accurate scope of the project, the project is nothing but a gigantic grift, or both could be true.

- The current president will only be in office for less than 3 years. It may not even be feasible to complete a project of this scope before the end of his term. This makes it all the more important to go through the proper funding and design approval channels, for the sake of continuity. That way, the next president isn't left with the mess of an uncompleted privately funded project to deal with when our nation has many more pressing issues at hand than a ballroom.

Thank you for your kind consideration of these issues.

Name: Joann Constantinides
Date: February 26, 2026 1:44:20 pm

I oppose the spending of $300 million on this project, which was initiated without proper authorization, permits, or design review. It is not a modernization project, but rather a complete razing of American history. I want this project cancelled and the East Wing restored to its former design.

No one is above the law and to permit this project to go forward without penalizing those who broke the law would be an affront to all law-abiding Americans. Please hold the current administration to the rule of law, which it too often, and flagrantly, ignores and abuses in pursuit of it's own selfish interests and not those of the American public whom it represents and is beholden to. Enough is enough!

Thank you.

Joann Constantinides

Name: Pamela Elbe
Date: February 26, 2026 1:47:34 pm

I am writing to express my strong opposition to the proposed 90,000-square-foot ballroom addition to the White House.

First, the scale of the proposal is fundamentally out of proportion to the historic core of the complex. The footprint of the new ballroom would significantly exceed that of the Executive Residence and the West Wing, visually and physically dwarfing the very structures it is meant to serve. Such a dominant new volume would inevitably diminish the legibility of the original White House and its wings, rather than preserving them as the primary architectural and symbolic focus.

Second, the process to date appears to have been conducted with great haste and minimal public input. For a project of this magnitude, in the most symbolically important civic ensemble in the country, the public, preservation community, and design professionals should have meaningful opportunities to review alternatives, comment on impacts, and consider

less intrusive options. Proceeding rapidly, without robust engagement, undermines public confidence in both the proposal and the review process.

Third, the reliance on private donor funds raises serious concerns about influence and precedent. When such a consequential permanent alteration to a national symbol is largely financed by private donors, it invites the perception that access and influence are being purchased. This is especially troubling for a project that will permanently reshape a central icon of American democracy and that, once built, will be maintained with public resources.

Finally, the White House is a neoclassical building whose enduring power comes from its clarity, restraint, and balance. Any addition or alteration should respect and extend that neoclassical character, not overwhelm it. The introduction of a large, highly ornamented, quasi-baroque aesthetic would be incompatible with the White House's established architectural language and the broader classical composition of the grounds and surrounding federal core. Additions should be deferential in massing, proportion, and detailing, reinforcing the primacy of the historic structure rather than competing with it.

For these reasons—the excessive scale of the proposed ballroom, the rushed process with limited public engagement, the troubling reliance on private funding, and the lack of clear commitment to a contextually appropriate neoclassical design—I respectfully urge the Commission to withhold approval of the project as currently conceived. I encourage you instead to require a more transparent, deliberative process and to insist on alternatives that preserve the White House's historic character, architectural integrity, and symbolic primacy.

Thank you for your consideration of these comments.

Date: February 26, 2026 1:50:12 pm

The White House has always been "the people's house." It does not belong to the President. He is elected for four years, perhaps eight at the most, then he retires and another president takes office.
Any architectural change to the White House should be considered in a public way and should reflect democratic values as befits the world's leading democracy.
It should not reflect the megalomania of one man.
How terrible it would be to follow Donald Trump and not Thomas Jefferson.

Name: Brian Broadus
Date: February 26, 2026 1:56:08 pm

I am an architect of 40 years practice, much of that work for public institutions and for the conservation and preservation of buildings of the same vintage as the White House. I have a graduate degree in architectural history, where my work focused on the political import of architecture, including work by Thomas Ustick Walter, fourth Architect of the Capitol. So, I am a subject matter expert on this matter.

I will allow other architects to condemn the size and scale of the Ballroom. I will point out that the United States suffered through our first Gilded Age without punishing the Executive Mansion by wedding it to an adjacent colossus. We don't need to rethink choices made 125 years ago and before, when we decided that our public buildings were to celebrate our republic and not a single person. We chose not to construct a throne room or audience hall. We chose the White House to be a combined residence and a set of rooms and outbuildings, and a subservient annex. We celebrate the continuing history of the White House and not one occupant. We have other memorials to honor worthy presidents. The architectural scale of the proposed addition is a mere demonstration of its programmatic error--trying to turn the Pennsylvania Avenue side of the place into Versailles.

Name: Kathleen Samsel

Public Comment to the National Capital Planning Commission
Re: Proposed White House Ballroom Addition

I respectfully submit this comment as an American citizen concerned about historic preservation, civic symbolism, and responsible stewardship of public resources.

I concur with the comments submitted by the National Trust for Historic Preservation and share their concern that the proposed ballroom risks overwhelming the historic Executive Residence in scale and massing. The White House is a National Historic Landmark whose classical design—defined by balance, proportion, hierarchy, and restraint—has been carefully maintained for more than two centuries. Any addition must remain clearly subordinate and compatible under the Secretary of the Interior's Standards for Rehabilitation.

I am particularly concerned about the axial visual connection between the White House and the U.S. Capitol. This alignment is not incidental; it expresses the physical and symbolic relationship between the Executive and Legislative branches. That clear sightline is a powerful representation of constitutional balance and democratic continuity. A large, visually dominant ballroom that obstructs or diminishes this axis would erode an important civic meaning embedded in the capital's design.

Beyond preservation and symbolism, the proposed scale raises fiscal concerns. Oversized construction carries long-term costs in materials, embodied carbon, energy consumption, maintenance, staffing, and eventual capital replacement. Event space that significantly exceeds typical attendance needs risks underuse while imposing ongoing operational burdens. Facilities of national significance should be right-sized, efficient, and clearly justified.

The White House belongs symbolically to all Americans. I urge the Commission to require revisions that reduce the scale of the proposed ballroom, protect the historic visual axis, respect classical design principles, and ensure long-term fiscal and environmental responsibility.

Respectfully,
Amy Olson

As a person who owns a share of "The Peoples'House", I strongly object to the Ballroonm's size , the scale, the cost and wonder who is really paying for it and why.
What next, the former Wahington monument renamed the Trump Tower II? At 86, I need some reassurance that my country and the buildings which represent it will endure as relateable to us all. Please exert any pressure possible to insure this.
Thank you.

I just watched the webinar reguarding the proposed archetechure of the ballroom project. Considering the careful consideration of the original archetech of the White House and surrounding capital buildings I would find the new proposed structure is way too much imposing and a huge deviation of the original concept. I feel there needs to be limits and guidance to the proposed structure and the archetect needs to respect the will of the people and not the ego of a current administration

I am a long time member and contributor to the National Trust for Historic Preservation and I value the work it does to preserve historic places of national significance, like the White House Complex, and protect the history of the United States. I was appalled by the unannounced destruction of the East Wing of the White House. The citizens of this country should have had the chance to weigh in on this major destructive event and their views should now be given full consideration regarding the so-called East Wing Modernization Project. This "modernization" is a proposed massive ballroom that is entirely out of context of the now gone historic East Wing and the White House Residence itself. I acknowledge that there may be a need for a larger venue space for White House events but the plans that have been made public, even with the reduce pediment, show a building that is inconsistent with this significant historic complex and will overwhelm and diminish the White House. I object to moving forward with approval of the ballroom as proposed and urge the Commission to consider and adopt the modifications to the proposed project recommended by the National Trust for Historic Preservation.

To the Valued members of the National Capital Planning Commission – I write to lodge my objection to the current White House East Wing Modernization Project. I am a university educator and museum professional, and it is my strong opinion that this proposal is a literal and figurative blockade of democracy. It violates issues of access: no ADA compliance, fake doors, blind windows, an isolated portico and stairs that go nowhere. It is the product of a rushed and opaque process with dubious financial claims. More importantly it obliterates the embodied symbolism of democracy with its grotesque proportion. Its gargantuan scale disrupts the visual and intellectual relationships of the building to its site, blocking sight lines of the surrounding government buildings on the crisscrossing axes. The White House is the people's house and represents a co-equal relationship to our government. The existing proposal is a literal plan to consolidate power using scale, visual obstruction, denied access, and concrete as its language.

I join all Americans asking the National Capital Planning Commission (NCPC) to choose an appropriate, more American design for the White House East Wing.

Since the White House is a National Historic Landmark and National Park, owned by the American people and stewarded by the National Park Service, it's appearance should reflect us, Americans. It has been home to our presidents since 1800 and is perhaps the most significant historic site in the United States. Before nationally significant places are permanently altered, the public deserves an opportunity to be heard and to help shape decisions that affect our shared national heritage.

In addition, as you know, this is a legally required federal review process, and public participation is essential. Major construction projects in Washington, D.C. must be reviewed by the National Capital Planning Commission (NCPC) and the U.S. Commission of Fine Arts (CFA), comply with the National Environmental Policy Act (NEPA), and receive congressional approval. These safeguards exist to ensure transparency, accountability, and meaningful public input.

I hope you will respect the suggestions provided by National Trust trustees and fellows of The American Institute of Architects, David Scott Parker and Bill Bates, who have shared design modifications to protect the carefully balanced classical design of the White House.

Thank you for all your work for Americans.

Name: Karen Goodman
Date: February 26, 2026 2:09:04 pm

Thank you for the opportunity to comment.

I am appalled by the President's continued efforts to destroy meaningful monuments/buildings/parks that belong to the American people. These same places have been protected by appropriate laws and regulations to be followed in the event of any requested changes. Donald Trump feels he is above the law when it comes to most things, but in particular, when he wants to transform the People's house into a garish, gold-laden country club. The beautiful rose garden replaced with what looks like a poolside lounge. So tacky. Most rooms in the White House are dripping in the cheapest looking gold

trim. Little does he know, he can’t become “classy” by slopping gold paint all over the room.

As for the East Wing, I’m all for having modern capabilities, even in historical buildings. But ordering the demolition before going through appropriate process is not only offensive, it is likely illegal (which, given his track record, doesn’t seem to bother him.)
I hope that the design of the replacement building will be kept at a size SMALLER than the Main White House building so that the new building doesn’t detract from the White House’s historical importance to our country. We don’t need a massive, gilded ballroom. I’m sure there are many people who worked in previous administrations over the past 30 years who could suggest an appropriate size - maybe a room to seat 300 people for dinner? It’s OK to NOT invite huge numbers of people. Especially when the WH has control over who they invite. Keep guest lists smaller - spend less taxpayer dollars. And, please, make the design features of any proposed building be elegant - it is not a palace for one person to decide how it should look.

I appreciate being able to voice my opinions on this matter.

Name: Hetty Startup
Date: February 26, 2026 2:12:14 pm

I am writing to oppose spending $300 million on the East Wing Modernization project. In my opinion, it razes an important era in American history, when the White House became a place that embraced the work of the First Lady and her staff. This proposal was initiated without proper authorization, or permits, or design review. The East Wing was destroyed with no warning, no Architectural & Engineering Request for Proposals, no bids from contractors, and no abatement of hazardous materials; all as required by federal law.

I would like to see the East Wing rebuilt to its former design (that was scaled and in proportion to the rest of the building) and the administration’s project canceled. The current design is for an out-of-scale, out-of-place, and out-of-time pseudo-historical building. Any design modifications for the new addition should, among other considerations, protect the carefully balanced classical design of the White House.

No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Clive Siegle
Date: February 26, 2026 2:16:26 pm

I am writing in support of the design proposals submitted by the National Trust for Historic Preservation as an alternative to the current design proposed by the Trump administration architects. The current design as proposed proves that "bigger is NOT better," and that hubris at the expense of compromising a historic and elegant structure is folly at best. The National Trust's modified design suggestions to the existing proposal provide a sensible and elegant compromise. Bravo to them.

Date: February 26, 2026 2:17:04 pm

How to make the White House Ballroom awesome for all:
Follow the process. Reflect America. Design selflessly. Exert professionalism. Make it last.
1. Adhere to your rules. As the federal planning agency, the NCPC no doubt has a manual, maybe two or sixty! Do not skip steps. Then you can boast America's law and order.
2. Pronounce that it belongs to We the People. Do not add signage indicating any one person's name or likeness. Then you will attain America's consensus.
3. Command compatibility. Use one of the design alternatives that accommodates scale and functionality. Trim the ego and make it remarkable. Then you will illuminate American integrity.
4. Exhaust expert input and resources. We've got this if we work together. Remember the We the People part? Research. Listen. Revise. Then you will gain America's trust.
5. Prove that the White House will change hands often. Refute the passing bigly aesthetic. Then it will endure and you will earn America's pride.

Date: February 26, 2026 2:25:23 pm

On behalf of Save Our Heritage Organisation, (SOHO), one of the nation's oldest and largest historic preservation groups.

The original character defining Palladian windows on the East and West ends of the White House must not be damaged, modified, hidden or obscured by any new construction for this project. This window in the East room is extremely important for the light and the architectural grander of this most important room in the White House. The East and West connecting wings must not exceed their previous dimensions in height or width so as to not destroy the historic massing of the Main Residence.

Additionally the new ballroom must be reduced in size to the maximum extent possible. The new ballroom must not block the the historic views to and from the Capitol and it must not overwhelm the overall massing and scale of the site. The architectural details, ornament and massing of the new construction must be subordinate to and respectful of the original main block of the White House.

Thank you for the opportunity to comment on one of the most important decisions to ever be made in the history of this site, a place of the utmost importance to the nation and the world.

Hello, I am writing today because I have great concern about the destruction of the East Wing and the proposed Ballroom. The White House is the Peoples house, it is a historic landmark and to add a ballroom at such a large scale is the wrong thing to do. The East Wing should have never been destroyed. It should be replaced. If there is to be a ballroom instead it needs to be appropriate in size in relation to the house itself.
This is not the President's property he is borrowing it. He cannot just change it any way that he would like. The people should be the ones who get to decide what is done to such an important and historical building.
Thank you,
Mark H

The vanity project proposed by POTUS is not only unsightly, unbalanced and unwieldy, but it is prohibitively expensive and not at all necessary. If Trump wants a monster ballroom, it should be constructed elsewhere. For example, a good alternative site would be the under-used hotel near the White House. Presently it does not pay its own way. A new ballroom could be built on the footprint of that hotel. Accommodations or apartments built above the ballroom, when rented, could bring in more predictable revenue the present hotel. A multi-floor parking garage below the new ballroom/hotel complex could serve daily public as well as guest needs. The present plan presented by POTUS is an abomination.

Donald Trump lied about his intentions and then destroyed the East Wing without approval. Clearly something now needs to be done to replace the East Wing. Trump and his entire administration should not be allowed to provide any input for the design, nor should any of his announced plans be implemented; that would simply reward his illegal action of destroying part of our house. I strongly oppose the ballroom, especially a 90,000 square foot ballroom. I would like to see the original East Wing rebuilt to the way it was when Trump destroyed it. At a minimum, the exterior should be the same as it was. Unfortunately, it may not be feasible or even possible to rebuild the interior to its former elegance. Whatever is built must be properly scaled; clearly a 90,000 square foot ballroom would be completely out of scale with the rest of the White House. Also, the architectural styles must match so that the White House can be restored to its former glory and elegance. The design should be selected by experts not beholden to Trump; rather they should be selected for the quality of their expertise and work.

Date: February 26, 2026 2:48:28 pm

Dear Commissioners:

I am writing to express my opposition to the proposed new ballroom wing of the White House. The proposed addition is grossly out of scale with the original building and its design reflects either ignorance of, or willful disregard for, the architectural history of the property. Moreover, the most recent drawings released to the public reveal that the addition will disrupt the landscape of the White House South Lawn by forcing an inexcusable distortion in the driveway leading to the South Portico.

Architects of previously completed additions to the White House went to great pains to preserve the primacy of the original structure by maintaining a low scale and a deferential architectural vocabulary. Early 20th-century additions by the firm of McKim, Mead & White, for instance, were barely noticeable from Pennsylvania Avenue due to their modest height, while their details--including Doric column capitals--were simpler than, and clearly subordinate to, the predominant Ionic order of the main house. By contrast, the various versions of the proposed new ballroom wing equal or exceed the height of the original mansion while relying heavily on Corinthian columns, which, by classical tradition, "outrank" the Ionic order. The use of the Corinthian order suggests a deliberate effort to overshadow the main building and its earlier additions. The row of arched windows on the west facade of the proposed addition would further divert attention from the main house when viewed from the South Lawn. Meanwhile, the proposed east facade is a disjointed composition including an asymmetrically placed and bombastically scaled pedimented portico, which, when viewed from the northeast, would overwhelm the White House's historic North Portico.

The latest proposal would also entail an almost comically inept diversion in the route of the South Lawn driveway, which

would have to swerve to avoid the southwest corner of the gargantuan addition. Almost as curious is a grand staircase on the south facade of the addition that appears to lead not to a terrace or walkway but instead to an orphaned patch of lawn. The hulking, flat entablature over the ballroom wing's south-facing portico, marked by no less than 24 (!) massive Corinthian columns, would be the proposal's final, fatal thud.

The proposed project has been tainted by clear efforts to avoid long-established design review processes or even to avoid releasing candid and complete information about the proposal to the public. The previous East Wing already lies in ruins, having been unconscionably and hastily demolished well before proposals for its replacement were even fully publicized. Of course, there are lingering and legitimate questions about cost, funding sources, and potential conflicts of interest should the project proceed.

Perhaps the most frustrating aspect of this circumstance is that Washington already has a variety of grand, elegant, and easily secured venues for large dinners and other events, such as the newly restored Mellon Auditorium just a few blocks away from the White House.

This proposed project is simply not needed.

Sincerely,
Martin Moeller

Date: February 26, 2026 3:13:26 pm

I’m writing to protest the new East Wing project which seems to be circumventing all the controls that were required when I was working as an architect in DC.

Name: Anne Junkerman
Date: February 26, 2026 3:14:02 pm

Dear NCPC,

I write to express my concern about the destructions carried out at the White House and that the proposed "East Wing Modernization project" (aka New White House Ballroom) is violently out-of-scale with the existing structure.

As currently proposed, the East Wing Ballroom Project comprises 90,000 square feet, almost double the 55,000 square feet of the existing White House building. No amount of tweaking its design (except making it smaller) will change the fact that the "addition" is larger than the original. In addition, by making such a large mass the exact same height as the existing White House further dwarfs it.

This is significant because the Secretary of the Interior's Standards for Rehabilitation require that additions to historic structures be subordinate in scale and size, distinct from the historic building (not replicating it), and compatible with its materials, features, and massing. If there is a need for a ballroom it should be in scale with the existing, deeply historic building and not subject to the whims and taste of one man.

I ask that you do not allow this project to go ahead as proposed.

Respectfully,

Dr. Anne C. Junkerman
Department of Art History (Retired)
San Jose State University
San Jose, CA

Date: February 26, 2026 3:16:08 pm

As a career Facility Administrator for Historic Properties and Cultural Institutions (currently Building Superintendent, of a National Historic Landmark Building, my second National Historic Landmark, my other building was on the National Historic Register.) in oproffessional opinion THIS PROJECT MUST BE STOPPED. This is the peoples house, and where the current President lives, it is NOT the President's house to do with what he feels. It is inappropriate and unacceptable for construction to have been started with out any studies, vetting of plans, public comment, or transparency for funding, and plans for the long term management and expense of keeping and maintaining the addition, even if the project is privately funded, the the extra costs of staffing and upkeep, will come directly from the taxpayers. There appears to be no need for this project other than to stroke an ego. Permanente changes to the architecture, facade, and layout should never be made without the buy in from the American people. America was not consulted. I cannot alter my historic property on a whim, and that is for good reason. I am not complaining, I suggest, because I am correct, that the White House and the East wing Project fall under the same jurisdictions and carry the same limitations that the property in my care does. The lack of process this project has gone through, lack of congressional approval and an approval from an art commission that is nothing but a rubber stamp. Professionally and as a US citizen I am ASHAMED and DISGUSTED by this project and how it has been rolled out.

Name: Joseph Jarzen
Date: February 26, 2026 3:18:23 pm

To whom it may concern,

Briefly stated, the White House is the people's house. It represents 1/3 of a form of government that when established flew in the face of common governing practices. It was a time palaces and ballrooms served monarchs and autocratic regimes that dominated, but by contrast the United States put its executive leader into a home that was relatively modest. High style indeed, but reflective of a representative form of government, not the austereness of other leaders that take advantage of its subjects and rule by dominance.

In the recent past of our republic, we placed protections upon our historic landmarks so that all stories of our people and past are told. These protections exist so that stories are not lost and actions taken are not without serious considerations. It is a pragmatic approach required when handling spaces that mean a lot to so many and represent so much more across the world.

The actions taken thus far fly in the face of both. The new addition does not reflect the original intention of the home and symbolically aligns our government with those forms that the nation originally opposed. Furthermore, the demolition

work occurred without considering the protections in place.

While the White House is exempt from the Preservation Act of 1966, out of common courtesy and respect of the people and our system of government, changes to the landmark should occur through a conversation and rash decision making.

It is critical to pause further damage to the character of the landmark and our nation and simply consider next steps carefully to restore a culture of Democracy.

Sincerely,
Joseph Jarzen

Date: February 26, 2026 3:20:58 pm

I was distressed when the East Wing was destroyed. I had had an opportunity to visit the White House about 20 years ago, and cherished my time there visiting a historic site that represents this country.
That being said, now that it is gone we might as well use the opportunity to build something better. However, building the East Wing bigger than the West Wing is not it. We should build something esthetically pleasing and balanced with dimensions of West Wing.
Also, it doesn't appear we need a ball room as big as Trump proposes. I think I read that we have entertained 400 on the grass, about half what Trump proposes. That should be the limit.

Name: Judy Dobles
Date: February 26, 2026 3:28:53 pm

To the National Capital Planning Commission, as you prepare plans for the the East Wing Modernization Project, please consider the following:

[1] There is an existing esthetic to the White House -- the People's House. Please honor the existing architecture and history of the East Wing -- both internally and externally. We want to have a space that we, as Americans, can be proud of. It should be beautiful but not gaudy or lavish.

[2] America has a long history of welcoming people from all over the world to our country. In addition, Native Americans were here long before settlers from Europe sailed to our shores. It would be fantastic to incorporate this history as you consider the interior design and decoration of this space. All Americans contribute to the success of our nation.

[3] Inscriptions can be a meaningful part of interior design. As we look to the future, it would be wonderful to have guiding principles that can inspire the youth of our nation.

Thank you.

Name: Randall Quinn
Date: February 26, 2026 3:31:53 pm

I oppose this project, which was initiated without the proper authorization, permits, or design review.

The proposed new building will be six times larger than the former East Wing and will eclipse the White House's main building. This will have a major architectural and historical impact on the White House.

No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law- abiding Americans.

Name: Margaret Mikelson
Date: February 26, 2026 3:40:55 pm

I viewed the zoom meeting regarding the ballroom addition to the White House. I am concerned about the size of the

ballroom as well as the useful purpose for a building of that size. It seems the purpose of the ballroom is to diminish the size and importance of the White House and appear as more important and powerful.

The rendering appears to be done with little knowledge of architectural design relative to the White House and destroys the integrity of the design of the White House. The White House was designed during an era when many men had knowledge of history, architecture and the significance of various features. The original intent of the design was to denote it had great importance but it's simplicity denoted that our country was a democratic republic that welcomed all of the nation's citizens.

The ballroom addition portico has no useful value or purpose. I question how often the building will be of use for events that would necessitate needing anything of that size. The East Wing provided an entrance for visitors to enter to see the White House. Where is the entrance going to be with this addition and how easily accessible will it be? If they provide offices there, including one for the First Lady it appears it will be much more remote to the White House or West Wing making it seem rather inefficient for the working relationship with the White House.

This addition comes across as trying to compete and diminish the historical image of the White House as well as being accessible to a more selective group of citizens, instead of continuing as a design that compliments the People's House.

It would be very disappointing to see this current plan implemented considering all it would do to destroy the architectural balance, the landscaping and the view from Pennsylvania Avenue.

Name: Marjorie McMann
Date: February 26, 2026 3:44:01 pm

I concede that there is an argument for constructing a ballroom to host larger dinners and other gatherings than the White House can accommodate. Having said that, the proposed monstrosity is not the solution. It’s too large, too ornate and not in keeping with Lenfant’s design.

The revised plan or something similar is a better design both in scale and function. I hope your more rational design will prevail! Thank you.

Name: Patricia Burke-Wey
Date: February 26, 2026 3:51:54 pm

Dear National Capital Planning Commission,

I was surprised by my visceral response to seeing bulldozers demolish the East Wing of the White House earlier this year. As a citizen of the United States and therefore part owner of the White House, I am deeply opposed to the current planned ballroom expansion project that was initiated without the proper authorization, permits, and planning. The current project and demolition is a total disregard for the history, function, and significance of the White House to American citizens. Given that there is now a gaping hole in the White House I would like to see restoration and if needed modernization of the East Wing. The RESTORATION should be in proper architectural scale with the current White House structure and the surrounding capital area.

One big question to ask is a ballroom even necessary?

Thank you for your consideration.
Regards,

Patricia Burke-Wey

To Whom It May Concern,

I write to express my strong opposition to the proposed construction of a new ballroom at the White House.

The White House is not a private residence, nor is it the architectural legacy of any one president. It is a national historic landmark, a symbol of democratic continuity, and a structure that belongs to the American people. Its preservation is not a matter of personal preference, convenience, or even generosity. It is a matter of stewardship.

Throughout its history, careful changes to the White House have been undertaken with restraint, scholarly review, and deep respect for its architectural heritage. Major preservation efforts—most notably under Jacqueline Kennedy Onassis—were guided by historians, architects, and preservation experts to ensure that updates honored the building's historic character rather than reshaped it according to contemporary tastes.

The proposal to construct a large new ballroom—particularly if it involves significant alteration to historic fabric or the East Wing—raises serious concerns. The White House's proportions, symmetry, and restrained classical design are central to its symbolic power. Introducing a massive new structure risks disrupting the architectural balance that has defined the Executive Mansion for over two centuries.

The fact that private funds might be used does not resolve the concern. The issue is not financial burden; it is ownership and authority. The White House does not belong to any president to redesign at will, even at personal expense. It belongs to the American people—past, present, and future. Decisions affecting it should be guided by established preservation standards, transparent review, and bipartisan respect for history.

If additional event space is needed, alternatives should be explored that do not permanently alter one of the nation's most important historic structures. Preservation is not resistance to change; it is a commitment to continuity.

We are temporary occupants of public trust. The White House endures beyond administrations. That endurance deserves humility, restraint, and reverence
Respectfully,
Denise Fryburg

Name: Cheryl Hoerneman
Date: February 26, 2026 3:57:31 pm

The proposed East Wing/ballroom project should keep in mind the already existing architecture of the White House and compliment the WH. But as proposed it will overwhelm the WH. What is the purpose of such a large building and how would this large building be fully funded? Also how often would such a large building be needed to house guests? Once a year, twice a year or only once a term? I believe this project needs to be totally reviewed from the beginning to answer fundamental questions on the necessity of such a large space, projected use, how often and how many guests are usually invited to the WH and if only fully used once a term for an inauguration wouldn't that be unnecessary, cost of upkeep and yearly use of taxpayer money, what is the Return of Investment when it's very seldom utilized at the current planned capacity?

As the proposal stands now, I am not in favor of it.

Name: LESLIE Baber

I wish to formally voice my complete opposition to the East Wing Modernization Project including a onstruction of a "Grand Ballroom" at the White House complex. The failure to proceed with appropriate review for a new ballroom and destruction of the East Wing is unconscionable. There has been no authorization by Congress as required for any such changes to federal property. That is basis enough, in my opinion, for denying permission to build the proposed structure. That being said, there also are many design features that are unappealing.

The proposed building negates the historical significance of the well-designed plan for Washington DC commissioned by George Washington, the classical structure and proportion of the White house itself, and Frederick Olmstead's plan for

the grounds. The massive size of the building and a portico taller than the White House itself will overwhelm the scale and balance of our government center. Creating a huge portico of no utility (fake doors and no entry from the ballroom) makes no sense. The size of it and the proposed ballroom will destroy an important visual and symbolic open view to the Capitol.

Architects originally involved courageously stepped away from the project for valid professional concerns. Industry standards for sizing the room are being ignored. Oversizing the ballroom will mean people attending smaller gatherings would feel like the room is quite empty, suggesting poor attendance. The number of time it is used will be affected. The People's House belongs to every citizen. This proposed ballroom violates laws that protect and preserve our historic public buildings.

I urge you to stop any further construction until all legal and historical preservation reviews have been completed in a satisfactory manner.

I strongly urge the NCPC to reject the East Wing Modernization Project as currently presented for the following reasons:

The mass of the proposed construction dwarfs the historic President's House, while (a) the square footage of the ballroom is twice what is needed to accommodate the stated needs of the Administration, (b) the massive portico and exterior stair serve no functional purpose, (c) and the ceiling height on the kitchen level is excessive and unnecessary. Addressing these three issues alone would enable the footprint, height, and overall mass of the addition to be greatly reduced.

As proposed, the ballroom building will completely block the historic view of the White House from Pennsylvania Avenue and break the intentionally designed and historic connective axis from the White House to the U.S. Capitol.

Additionally the symmetry of the drive to the White House will be destroyed as it must now "dog leg" to avoid the corner of this new building.

Process violations aside, the need for a ballroom facility as part of the White House complex is real, but it should not be allowed to be a rushed ego project that dominates and diminishes centuries of careful design. Scaling back the size of the structure can be accomplished while still meeting the Administration's stated needs, and therefore should be strongly encouraged by the NCPC.

Thank you.

Thank you for allowing public comment in this format. Without knowing all the discussion that has already transpired, my thoughts are as follows:
1. I think the wings of the White House should remain symmetrical to maintain its historical character. If the East Wing ballroom is specified at "x" sf, then plans to renovate the West Wing to the same size as the East Wing should be considered. At this time, I am unaware of additional space requirements that a West Wing expansion could accommodate (not to mention its cost but I hope it could be privately funded as well). Perhaps if smaller functions need smaller spaces, the West Wing, in part or in whole, could accommodate that gap along with any other needs.
2.Request the architects to be sensitive to exterior sight lines from both the White House perspective and from neighboring buildings. To me, the White House should be the focal point.
3. The White House grounds deserve to be the best cultural garden(s) in America paying homage to the various cultures that make our country the best in the world.

The new ballroom is akin to constructing a Wal Mart parking lot in the middle of Gettysburg Battlefield. It's tacky and disservice to the American taxpayers who will pay for its construction and upkeep. Demand something more classy and less tacky.

I am a U.S. Citizen commenting on the proposal to rebuild the Whitehouse East Wing into a guided ballroom. I strongly speak out in opposition to the current plan put forth by the President.

My concerns:
- The East Wing, owned by The People, was demolished without proper approval or process. This should disqualify ANYONE involved in this illegal act from proceeding with a vision for replacement.
- The Whitehouse grounds serve two purposes for the United States -- as a formal residence for the President (The residence structure) and the Administrative Branch headquarters (the wings.) It is NOT an entertainment complex. How many gala's per year would need to be held to justify the proposed primary purpose of this guided ballroom and its related personal expenses?
- The parking and security nightmares that would ensue from such an entertainment venue would be prohibitively expensive and overly complex.
- If a grand Presidential ballroom is truly needed it should be authorized by Congress and can be located elsewhere, outside the security perimeters of the Whitehouse grounds, such as the Mall, among with the Smithsonian complex.
- Guilding is not a design guideline in compliance with the United States culture or customs. It is a design choice of Monarchies -- not of responsible Democratic Governance.
- The East Wing should be rebuilt to support its original purpose, size and height above grade. Additional space, if needed, could be achieved through subterranean construction.
- The National Park Service cannot condone modification of this crown of all park properties to be massively modified at the whim of every new President. This is The Peoples House, which is provided for the elected President's use. The President is a tenant.

We want the ball room put back exactly the way it was!!! No one was given permission to destroy it. What a waste of money!!
Also the Kennedy Center should not be touched. It is in memory of President John F. Kennedy. No one has the right to destroy this buiilding which was built in memory of President John F. Kennedy who died by an assasin's bullet!!!! It belongs to the citizens of the United States.

I urge you to deny the application to proceed with this project.
The proposed design is incompatible with the existing White House and the general plan for Washington DC.
It is out of scale, too massive and too high.
It is like parking a 2026 Cadillac Escalade in front of a 1957 Thunderbird.

Name: Jeanie Fields
Date: February 26, 2026 4:32:48 pm

I want to say that it seems unjust that the Public has such a short period of time to voice their comments when this project was started so long ago. Transparency wasn’t part of the dialogue.

This project was started without any notice to the public until recently and even now it’s minimal. This is the “Peoples House”. The president only resides there for his 4 year term.

I think everyone should be made aware of which people on the review boards are appointed by Trump.

The Commission of Fine Arts are all appointed by the president.

The National Capital Planning Commission has 12 members and 3 of them are appointed by the president. They are:
William Scharf – Chairman
Stuart Levenbach – Vice Chair
Michael Blair – Commissioner

Trump as a developer, as well as his architects, knew the rules/laws with regard to working on historic sites. The INTENT should be discussed in the court and Congress should be held responsible for the destruction of the most historic building in the United States. Let it be known to all that have watched this unfold that breaking the law and dealing with it later is Trump's modus operandi (M O). I won't cloud this issue with his history of being above the law.
The cost of the ballroom has changed from $200 Million to $400 and as we all know the rule of thumb is to double the cost and the time. My question is, what exactly will the investors be receiving in return for their donations???

Think of what this money could be used for instead. To help society and still leave Trump the legacy he so desperately needs. Homelessness, and Research for Medical issues, etc.

Excuse Number 1
Any awareness of the building having structural issues should have been studied thoroughly before destruction began. The cost to restore the building would have been far less than the expansion will cost. By the way, the maintenance and security that this enormous building will need will continue for years to come. Is that when the taxpayers will be held responsible?

Excuse Number 2
Trump says when he travels to other countries, they have the finest places to entertain him and all he has is the lawn and umbrellas. Is there really a need to impress these foreign dignitaries. Let us not forget that the United States of American has helped many countries with military aid in the past. Wouldn't it seem they would be grateful to see how we humble ourselves in order to provide for their needs.
At the latest National Capital Planning Commission, William Scharf – Chairman, may have slipped by saying "they plan to do additional work on the West Wing later". Nothing has been presented on this area at all. Everything has been "piecemealed" to quote Commissioner Mendelson. It is not considered professional to present until you have the whole picture. It requires less time and fewer questions overall. The Commission of Fine Arts requested a 3-D model and a computer fly-by to see how this is going to work and were told by the architect, Shalom Baranes they would be able to provide these items.

I'm sure there are other locations that would be suitable for the intimate dinner of 1,000 people without destroying the White House.

The proposed East Wing Ballroom should be a much smaller, ecologically friendly ballroom/conference room and of a style much more compatible with the existing White House architecture. This is an American structure and not a French structure. The remaining space should be spectacular, ecologically friendly gardens.

Name: Mitchell Hamilton
Date: February 26, 2026 4:44:25 pm

I am disgusted that The White House "project" is to proceed. Whether there is the right to build is not the issue. The issue is rather should it be done. The opinion I hold is no. This is not like when the third floor was added or when either east or west wings were created. What is happening is that a monstrous building is being created on government property. Both the east and west wings blended seamlessly into the main building and the third floor is hardly visible.
This is a demonstration of gaudy bad taste. Personally, I did not like what McKim, Meade and White did in the Theodore

Roosevelt administration nor did I like all that was done during the reconstruction under President Truman. But these were, at least, not so extreme as to totally disfigure the grounds or the house.
I cringe thinking of the work done by Mrs. Kennedy and Mrs. Nixon to restore and bring true American antiques into The White House only to now be dwarfed by a ghastly building.
If the correct historians and architects been consulted, I'm certain I reasonable plan could have been made, but even that is unnecessary. I will paraphrase what Mrs. Eisenhower said according to the book written by J.B. West.
"We just won't invite any more people than we have room for."

Please reject this horrendous proposal! We The People in theory own the White House, and we never said we want a portion of it torn down (done without permission) to be replaced with a monstrous Ballroom For Billionaires. The building plans offered so far have been very incomplete and unbuildable from an engineering perspective. Another thing: Where did all the art and artifacts disappear to that graced the former East Wing?
Thank you

Thank you for this opportunity to comment. As someone who has spent their life in matters of history, historic preservation, and urban planning, I am sharing my thoughts or rather concerns regarding the current proposal for the new White House Ballroom. The proposal is out of scale, both the height and the footprint, in comparison to the Executive Mansion, it is overly, or more ornately detailed, it blocks the viewshed from the US Capitol, and compromises the equally important White House grounds concept plan.
There are, however, very easy solutions to these problems. The footprint can easily be reduced, still allowing for generous space for the intended number of guests by removing the completely decorative, overscaled and non functional portical along with reducing the event space "Ballroom" itself using a 15 square foot per guest figure. This will allow for up to 1000 guests, three times the largest number typically served in the US presently and and nearly six times those served at British State Dinners. Secondly, the height can be significantly reduced by placing the service/kitchen level below grade, perhaps including the rest rooms there, a logical configuration, so that the mass of the hyphen between the Executive Mansion and the Ballroom wing can be reduced by a level. An additional matter of importance, as viewed from the street, the hyphen, itself is more than a little overwhelming. Again, there is no reason why, if deemed absolutely necessary, parts of this support use cannot be below graded beneath the hyphen. Lastly, I have not seen a roof detail, but presume it to be a flat roof. From a historical perspective, classical buildings did not typically have flat roofs but rather hipped or pedimented roofs hidden behind a balustrade. In order to accomplish this on a large structure, one might have to use a series of hipped roofs so as to keep the height low, a process used historically in larger US and British neoclassical structures and given the elegance the proposal seem to strive for, overlooking this important detail, is a disservice to the client.
Again that you for this opportunity to comment.

America's White House has been dilapidated, burned, remodeled and yet it remains a majestic symbol of freedom. Presidents have altered it, built and removed different structures such as bowling alleys and swimming pools and still the White House stands strong.

President Trump knows quality building/construction guidelines. Future Presidents can enjoy the transformation and beautification! Who questioned Jackie Kennedy when she used her talents and good taste to upgrade the White House?

Time for the nay-sayers to go away and allow the construction to be completed.

Americans can be proud that our President cares about the future of the President's home.

To the Members of the National Capital Planning Commission:

I respectfully urge the Commission to delay or reject approval of the proposed East Wing Ballroom expansion on the grounds of fiscal responsibility, long-term stewardship, and bipartisan accountability.

The federal government currently carries a national debt exceeding $30 trillion. Annual deficits continue to widen. Americans across the political spectrum — including fiscally conservative Democrats, independents, and Republicans — consistently express concern about wasteful or unnecessary federal spending.

In that context, a multi-hundred-million-dollar ceremonial expansion at the White House demands the highest level of scrutiny.

This project represents:
- A substantial increase in federal capital spending for non-essential purposes
- Expanded operational and security costs that taxpayers will shoulder indefinitely
- A symbolic signal that government expansion continues even when restraint is urgently needed

The White House has functioned for more than two centuries without a ballroom of this magnitude. The burden of proof rests with proponents to demonstrate necessity — not preference, not convenience, not aesthetic ambition — but genuine operational need.

Fiscal responsibility is not partisan. It is foundational.
Budget discipline, prioritization, and respect for taxpayer dollars are principles shared by Americans who may disagree on many other issues.

Approving a project of this scale during a period of sustained federal deficits risks reinforcing public perception that government leadership is insulated from the tradeoffs families and small businesses must make every day.

Moreover, this proposal establishes precedent. If the most historically significant property in the nation can be expanded for ceremonial purposes at this cost, it lowers the threshold for future federal expansions elsewhere.

True stewardship of national resources requires restraint — especially at the most visible address in the country.

Before any approval is granted, the Commission should require:
- A transparent and independently verified accounting of total project cost, including long-term maintenance and security obligations.
- Clear statutory authority and documented congressional appropriation through regular order.
- A serious evaluation of scaled alternatives that achieve functional goals without committing taxpayers to an unnecessary expansion.

Demonstrating fiscal discipline at the White House would send a powerful message: that responsible governance begins at the top.

I urge the Commission to apply the same standard of prudence here that millions of Americans apply in their own households — prioritize essentials, avoid unnecessary expansion, and respect long-term financial consequences.

Respectfully submitted,

Kim Lynch

Dear Commission Members:

First, the East Wing should never have been torn down without the proper study through the proper channels. This was a historic site that needed to be preserved.

At this point, if anything can be done to preserve the history, that must be done first and foremost. As our country is a continuing experiment in American democracy, all sites that speak to our past must be preserved so that those in the future may learn from our past. Some of that past includes the staffs of many of the first ladies who used the East Wing. It was also a place for social functions. During wartime, it was a shelter for security. To tear all of this history down was senseless.

Please ensure that whatever goes in its place is deserving and respectful of our history.

Thank you,
Carolyn Elliott

Dear sir/madame:
The Standards for rehabilitations of the Secretary of the Interior provide that new additions should not destroy the historic fabric of the property, and that the new work should be “compatible with the historic materials, features, size, scale and proportion, and massing” of the existing structure. I believe that any proposed new addition to the White House complex should accommodate and respect the primary historic importance of the original Executive Residence which is owned by the people of the United States and maintained by the Parks Department. In order to maintain the integrity of the White House, the new proposed ballroom addition should be subordinate in scale to the Executive Residence. The size, volume, and massing of the proposed new construction (90,000 square feet) should be reduced or disguised (such as by placing portions underground, as recommended in the 2000 Comprehensive Design Plan) so the new building appears smaller than the Executive Residence itself. The footprint of the proposed building should not extend past the existing south-facing façade of the historic Treasury Building, nor interrupt the views of the Executive Residence from Pennsylvania Avenue. The new addition should retain the carefully balanced classical design of the White House complex with its two smaller, lower, and substantially symmetrical East and West Wings. The connection of the colonnade to the Executive Residence should protect and preserve the original historic materials of the east façade of the Executive Residence and should not cover or demolish the existing windows and detailing of the east façade. Also, the proposed portico on the south façade should be smaller and less grand in scale than the existing portico on the south façade of the Executive Residence. This structure does not belong to Mr. Trump. Thank you.

Name: Gina Bondurant
Date: February 26, 2026 5:37:30 pm

I feel it is important to maintain the integrity of the classical design of the White House. Disruption of balance and lines do not seem in keeping with the history of the building. I strongly question the need for a 1,000 person seated dining room/ballroom. Unfortunately the damage has been done when the East Wing was demolished without the normal processes that maintain the integrity of a historic structure. I believe restoration of the East Wing should be a priority and of course with the necessary modernization in mind.

Re: East Wing Modernization Project
To: National Capital Planning Commission
From: Elizabeth Cwik, AIA

Madison WI
[redacted]

Please. Please, do not approve the ballroom as it is currently designed.
The building’s size must be reduced by at least a third.
The destruction of the White House’s position in the L’Enfant plan would be irreversible.
The symmetry of the Olmstead landscape plan would be destroyed.
The addition is out of scale with the White House and surrounding buildings and does not adhere to the Secretary of the Interior’s Standards for the Treatment of Historic Properties.
Even at two-thirds of the current size, the addition would function as needed for seating 1000 people.
Thank you for your consideration of these comments.

Stop wasting tax payer funds on such a bogus, unnecessary project as a golden grand ballroom!!

Name: Karen Czarnowski
Date: February 26, 2026 6:01:29 pm

I'm writing because I'm a US citizen and the White House is a National Historic Landmark and National Park, owned by the American people.
I believe rules need to be followed. No one is above the law and the POTUS should be a role model for citizens. The review is required under federal law. Major construction projects in Washington, D.C. must undergo review by the NCPC and the Commission of Fine Arts, comply with the National Environmental Policy Act, and receive congressional approval.
At 90,000 square feet, the proposed ballroom would exceed the size of the 55,000-square-foot Executive Residence. As a US citizen I say that's not acceptable.
We need the President to focus on the needs of the everyday people and not the needs of the elite.

Name: Karen Prior
Date: February 26, 2026 6:04:34 pm

As a voter and tax payer I am absolutely so disheartened that the East Wing has been demolished to the point that it already has. The White House is the people's house it is not a private mansion. The current President is only a temporary tenant of the White House. I do not want to see my tax dollars, or those of any other American, paying to turn the East Wing into a gilded ballroom! This is not a 'modernization project' it is a downright insult to the American people. The East Wing has always been a space that reflects our nation's values, a special space that honors our culture and our history. Please DO NOT allow this project to go forward but rather return it to its previous state before it was destroyed OR at the very least have any 'modernization' done be reflective of WE THE PEOPLE. Thank you.

Name: Susan Acton
Date: February 26, 2026 6:20:15 pm

I am horrified and disgusted by the abuse the current resident has given to the White House. Every attempt must be made to slow this project down and to find sane people to make recommendations on restoration.

The American people do not believe that "we've needed/wanted a ballroom for 150 years."
The American people do not want to see the White House dwarfed by this proposal for a giant building.
The American people do not want a room that looks like the Kremlin with gold decorations everywhere.

We DO believe that this destruction was undertaken in a fit of pique by a president who hated the protests against him.
We DO believe that this project creates an incredible opportunity for grifting money from corporations that will directly benefit the President.
We DO believe that there are enough regulations in existence today to put a pause or stop to this until an impeachment can happen and real architects can propose a suitable restoration.
We DO believe that this destruction was NOT a function of the President's role as president, and he should be sued for all costs associated with the restoration.

Date: February 26, 2026 6:31:18 pm

The East wing project is poorly conceived, improperly planned, and funded in such a way that the "gifts" amount to bribes - there is a ban on emoluments in the constitution! It is a scar on the white house grounds, but it should not be "fixed" with the current administration nor without a public architecture competition.

Name: Melissa Grinnell
Date: February 26, 2026 6:46:40 pm

The razing of the White House East Wing was an abomination to history. It showed a complete lack of respect fo protocol, for tradition and for the office of FLOTUS. Please scrap plans to build a ballroom and instead make plans to restore the East Wing to its former glory.

Name: Elizabeth Merrick
Date: February 26, 2026 6:48:15 pm

I strongly urge the NCPC to require that the new "ballroom" project be done in a way that respects the balanced proportions of all parts of the White House - as it was before the inexcusable destruction (without proper oversight) of the historic East Wing. This demolition was a civic and preservation travesty that will live on as a shameful event.

The whole world watched, appalled and amazed, as this administration unilaterally and precipitously destroyed part of our most treasured historic site, synonymous around the world with the USA itself. With no consequences or repercussions, I might add.

Now we face another potential travesty - a wildly inappropriate and gaudy ballroom. The White House, including the proposed addition of the ballroom, must NOT exist only according to the current president's whims. This belongs to the people of the USA, this is OUR treasured historic site. The new addition must be harmonious with the remaining historic sections of the White House.

I am not an architect but I know that there are talented experts who can ensure the most sensitive and harmonious design. I urge the NCPC to resist the political pressure that will surely come from this administration, and do the right thing! The White House must stand for future generations, far beyond this president's remaining three years - regardless of how much destruction has already been done.

February 26, 2026

Mr. William Scharf
Chair
National Capital Planning Commission
401 Ninth Street NW, Suite 500N
Washington, DC 20004

Re: Proposed Construction of White House Ballroom NCPC File Number 8733

Dear Mr. Scharf:
I write to you as a concerned citizen about the proposed Ballroom project at the White House. Until I recently retired, I was professionally engaged in historic preservation having worked at the California Office of Historic Preservation, the National Park Service in the Preservation Tax Credits office and as staff to the City of Pasadena Cultural Heritage Commission. I finished my career with 31 years leading the Los Angeles Conservancy, non-profit which advocates for the preservation of historic places throughout Los Angeles County.

During that time, I spent significant time reviewing projects for compliance with the Secretary of the Interior Standards (Standards). Looking at the proposed Ballroom project, I do not believe the project currently meets the Standards. And given the historic significance of the White House to all Americans, this project should meet the Standards.

Specific areas of concern include:
• The size of the Ballroom compared to the White House. As proposed the Ballroom becomes the primary element due to height, width and massing.
• Given the size of this project, every design element should be necessary from a use requirement. Currently, the portico does not have a purpose as there is no entrance from the portico into the Ballroom. Removing the portico would reduce the footprint and enable the White House to regain at least some of its prominence from public views.
• Views of the White House from key points off of the property are how most people experience the White House. As currently proposed, the Ballroom will interrupt the axis view between the White House and the US Capital as designed by L' Enfant's plan of 1791. The Ballroom will almost completely obscure the White House from view from the Capital.

In my over forty years of work in historic preservation, I know that there is a win-win solution here to build a Ballroom AND maintain the visual prominence of the White House. There are examples of these solutions throughout the fifty states. Every day, preservationists, governments and developers are working to find these solutions to meet the needs of the future while preserving the history and places that define our communities and collective identities.

I ask sincerely that the NCPC treat the White House with the respect that it deserves.

Sincerely,

Linda Dishman

To whom it may concern:

I am writing to express my strong opposition to any further resources being put into the “East Wing Modernization Project” without a full investigation into how Donald Trump was able to thoroughly destroy the entire East wing of the White House without any oversight or interference from any other governmental agency. No one is above the law yet, time and again, Mr. Trump is apparently getting away with committing violation after violation with no consequence. The architecture of the new “ballroom” is gaudy, flamboyant, ostentatious, and completely lacks the spirit and humility of “The People’s House”. It’s only purpose is to feed the bloated ego of the Donald Trump. Please do not let that monstrosity be built.

Name: Charlie Cunov
Date: February 26, 2026 7:19:48 pm

The proposed East Wing Modernization Project "modernizes" nothing. It has destroyed the previous, historic East Wing leaving nothing to "modernize" while creating space for a proposed immensely out-of-scale, historically disruptive, programmatically questionable assault on the heritage of our country, the visions of our early leaders and, the physical thrust of our democracy. Recently made public drawings of the proposed project illustrate a massive structure; purposely overpowering its historic (and more respectful) neighbors in the White House and Treasury Building; with immense height and girth enclosing unnamed or vaguely described swaths of space. Clearly the "program" for this proposed edifice is not one of functional use but of an egotistic, display of perceived monumental power and authority. The drawings (and accompanying renderings) show that the plan of the proposed building extends southward far enough to cutoff the purposeful and meaningful sight line between the Executive (White House) and Legislative (Congress/Capital Building) branches of our government (purposely planned by L'Enfant) while also destroying the stately symmetry of the "President's Park" created by the iconic American landscape architect, Frederic Law Olmsted. The proposed building thus ignores historic context both within the White House grounds and the overall city planning; and deteriorates symbolism of the value and expectations of our working democracy. The eloquent stature of the White House and a meaningful, symbolic visible connection to Congress are obliterated. I would ask the NCPC to reject this proposed replacement building and, request that a new design and plan be submitted for review with aspirations towards a more sensitive, contextual and patriotic vision.

Respectfully submitted.

I. Scale, Massing, and Architectural Hierarchy
The proposed addition is exceptionally tall and large. Its mass competes directly with the White House rather than serving as a complementary, subordinate element.
The scale of the ballroom wing dwarfs the White House in height, length, and volume. As presented, the addition disrupts the intended architectural hierarchy, making it difficult for the original structure to remain the focal point.
The overall design reads as overly forceful and nearly brutalist in its interpretation of neoclassicism. While it attempts to employ similar architectural vocabulary, it lacks sufficient restraint and contrast. As a result, it appears awkward and massive rather than harmonious.
The White House must remain the dominant architectural and symbolic presence on the site.
II. Architectural Language and Façade Treatment
The new east and south façades incorporate substantial porticos filled with columns. These elements compete with and overshadow the front and rear porches of the White House.
This inversion of hierarchy causes the ballroom addition, intended to be secondary, to become the principal visual focus.
Additionally, the introduction of arched windows on the east and west elevations is inconsistent with the established architectural language and does not align with James Hoban’s original design framework. These elements appear out of place within the historic context.

There are established architectural strategies for accommodating significant building volume while reducing visual impact, including:
• Lowering the primary floor elevation,
• Segmenting the building mass,
• Employing restrained façade articulation that reinforces hierarchy rather than competing with it.
III. Historic Landscape and Urban Context
The historic planning principles established by Pierre L'Enfant must be preserved. The diagonal visual connection between the White House and the U.S. Capitol via Pennsylvania Avenue is fundamental to Washington's symbolic urban composition.
The proposed project appears to obstruct or significantly diminish these critical viewsheds.
Furthermore, the South Lawn, shaped by Frederick Law Olmsted's landscape design, must not be disturbed or modified.
The proposal impacts this iconic landscape, which is integral to the White House's historic setting.
Preservation of both viewsheds and the Olmsted landscape should be non-negotiable design parameters.
IV. Functional and Operational Concerns
Several functional issues require further examination:
• Circulation between the north portico and the proposed ballroom appears unresolved.
• Blind windows and certain façade elements raise questions about authenticity and functionality.
• The size of the ballroom and its supporting kitchen far exceeds typical standards. The space allocation substantially surpasses the commonly accepted benchmark of approximately 15 square feet per occupant.
The program appears significantly oversized relative to demonstrated need.
V. Traffic and Parking Impacts
The published documentation does not include a traffic impact study. Nor does it provide clarity regarding parking and guest logistics for events of this scale.
Without these analyses, the Commission cannot fully assess operational feasibility or broader site impacts.
Conclusion and Recommendation
In conclusion, the proposed addition:
• Competes visually and symbolically with the White House,
• Disrupts architectural hierarchy,
• Conflicts with established Federal-style design language,
• Impacts historic viewsheds and Olmsted's landscape,
• Raises unresolved functional and operational concerns.
I respectfully recommend that the Commission require:
1. A significant reduction in scale and footprint,
2. Preservation of all historic viewsheds,
3. Protection of the Olmsted South Lawn,
4. Architectural refinement that clearly establishes the addition as subordinate,
5. Comprehensive traffic and operational studies.
The White House must remain the dominant and iconic focal point—architecturally, symbolically, and visually. It is the People's House!

Very thankful to president Trump for expanding the ballroom at the White House. A much needed expansion for important meetings and dinners to dignitaries around the country and world. The project will match and look the same as the white house that already exists. As a builder and developer I trust his project will be done with perfection and in record time. I am in complete favor or this project.
Thank you for commiting to continue to bring the project to completion.
Sincerely,
Susan Hargis

The White House is a nationally significant historic structure that represents continuity of governance across generations. Major alterations, particularly those driven by aesthetic preference or personal legacy, undermine that continuity.

Given the removal of the prior East Wing structure, I recommend that the National Park Service commission qualified architectural historians and preservation experts to develop and oversee a historically accurate reconstruction of the original structure on its former footprint, guided by established federal preservation standards.

Rebuilding what previously stood there would affirm that the White House is stewarded for the American people as an enduring civic landmark, not reshaped according to the preferences of any one administration.

The White House belongs to the country, not to an individual president. Its architectural integrity should reflect that principle.

Thank you for considering this comment.

To Commission Members:
Thank you for providing the opportunity for the American People to express their opinions on this topic.

First: We had no opportunity to comment BEFORE the destruction of the East Wing and all the history attached to it. This shows wanton disregard for the people of the United States and what we think is historical and important. Since when does a President just go ahead and decide to take an action that has not been discussed with the proper authorities beforehand nor been subject to review and comment by those of us affected...The Trust and the American People? Firing of Members of the original Trust is troubling.

Two: There should be no further action taken on this project nor any work undertaken until a thorough review and assessment of the "project" has been performed. If we look at Mr. Trump's "projects" of the past there seems to be an inordinate amount of (in my opinion) tackiness and gold fixtures involved. I am quite upset that I cannot bring my children and grandchildren to the historic East Wing as it was.

Three: What's the big rush? We are talking about historical buildings here even though there have been revisions and updates in the past. The size and scope of this "project" are huge and will echo far into the future. Don't we owe it to the country to take our time and have a thorough examination of all plans and payment sources?

Four: "We The People" don't like to be bullied and that's exactly what it feels like is happening here. This should not be used as an opportunity for the wealthy to curry favor with their donations or for the President to solicit private money to show off with a vanity project in the name of Modernization.

Let's take a deep breath and a close look before we proceed.

Let's take a deep breath and a very close look before we proceed.

Trump should be made to re-build the East Wing, with his money but with very careful over seeing since he seems never to pay people who work for him. He moved forward without consulting anyone, did not get permits or permission so he NO 90,000SF ballroom for him.

Stop the madness. No ballroom.

Date: February 26, 2026 7:37:34 pm

I strongly object to anything the Orange Monster does to desecrate our property. Trump should be arrested and fined for what he has done to American property! Not only has he illegally torn down part of the White House he has also shown his terrible taste with all the gold bling and tacky decorations with out consideration to the law. Everything about his ballroom is wrong and criminal from his bribes for his vanity and profit to the over sized, poorly designed abomination. End all projects and ruin by this ego maniac!

Dear NCPC members,

I am appalled by the thoughtless planning for the construction of the new ballroom on the east side of the White House. The ballroom will be an affront to all the careful strategy that went into the design of our nation's Capital by President George Washington and Pierre Charles L'Enfant. If the ballroom is built the way it is proposed now, it will block the strategically planned view from the Capitol building of "The People's House"--the White House. It has been designed to a scale that is completely out of proportion to the White House and will make the Main Thing--the White House, one of America's most recognizable residences--no longer the Main Thing. Please allow the committee to consider the National Trust for Historic Preservation's suggestions for a more thoughtful design, in keeping with time-honored architectural principles, that will achieve the goals of entertaining more guests yet will eliminate some of these concerns. Thank you.

Sincerely
Kay Moore

The White House, first floor plan, before East Wing demolition, presents a way of seeing this sad story—a crime story & gross
DOB-type violation—as a tale of historic preservation.

While the giant iron jaws chomping clumps of the First Lady’s wing make for emotional and essential images of the event, freehand, annotated pencil drawings provide context, showing various architectural angles on the story. Here it’s a diagram, not of destruction, but mapping a walk through it, as in a board game, or time tunnel.

This drawing argues for preservation, adaptive reuse and looking at the life cycle of the building by placing it in its fuller space & time, and etching only lightly (as it’s not realized as of this view) the general proportions of the proposed ballroom. It is a massing diagram, documenting different wings & times in the life of The White House; and indicating a proposed addition that is out of scale with the landmark.

I hope this picture will interest America in preserving what remains, and is still threatened. (And I would remind them that buildings and monuments can be moved.)

If this Trump ballroom goes forward you might consider a circus theme and hiring full-time clowns to welcome guests, who I'm sure will be paying for the privilege of their presence there...the proceeds pocketed by the ballroom's priggish originator. This should NEVER have been allowed to happen. It is a crime!

This process is being rushed in a way no addition to the White House should be rushed. It is not the remodeling of a fast food restaurant or repaving of a parking lot. Planning for all construction in the nation's Capitol should be a deliberate, respectful thoughtful process with input from people across the country in the design, the construction elements, placement, and security. The process needs to stop and do a proper study of the history and importance of the place and its future before any design is approved. Bidding on construction must be competitive, not based on favoritism.

I think the destruction of the Rose Garden and the East Wing were acts of vandalism whose costs should be borne by the culprit.

Name: Jas Hohnstine
Date: February 26, 2026 8:37:54 pm

STOP THIS TRAVESTY! The trump ballroom should NOT. BE. BUILT.. In fact he should be forced to restore the East Wing with his own money by attaching one of his bank accounts and/or seizing and selling some of his properties to cover the reconstruction.

The money from all ballroom donors should be seized and redistributed to USAID or given to the UN to feed the poor and staving around the world. Or at least fund some green energy projects in a few needy countries.

Also charges against trump should be filed and prosecuted re his willful and intentional destruction of government property.

NO BALLROOM EVER!

PS: If it ever gets built the next president should have it bulldozed on day 1.
Ditto with removing any thing attached to trump. All names removed, all other structures demolished, etc. Erase him 100%.

Name: Elizabeth Dunkle
Date: February 26, 2026 8:38:49 pm

How was approval obtained to demolish the east wing of the White House. No permits were issued. There was no design review. I oppose spending $300 million on this project. The east wing needs to be rebuilt as it was.

Name: Dominic LoGalbo
Date: February 26, 2026 8:48:33 pm

To the members of the National Capital Planning Commission:

In both process and product, the proposed design for the new White House ballroom undermines our capital city's ability to physically represent the founding ideals of our republic: the separation of powers and the importance of integrity.

The Architecture of Checks and Balances
The Founding Fathers established three co-equal branches of government to ensure a permanent system of checks and balances. The design of Washington, D.C., commissioned by George Washington, embodies this equality by granting the Executive Mansion and the Capitol Building equal prominence. Crucially, the clear sightlines between these structures represent the oversight role of Congress. By blocking this sightline, the ballroom design communicates—intentionally or not—that the Executive Branch is choosing to hide from legislative scrutiny. This symbolic obstruction of transparency is unacceptable in a democratic landscape.

The Erosion of Integrity
In the Federalist Papers, James Madison emphasized the need to transmit to each generation the virtues of honesty and integrity. The current design lacks architectural integrity. The portico added in the most recent iteration is a superficial element with no true function; its formal stairs lead nowhere, and the floor area is so congested with columns that the space is virtually unusable. This design is a falsehood that violates the fundamental rules of classical architecture. It also suggests that America values shallow imagery over structural or moral truth.

The Commission's Mandate
The Commission has both the opportunity and the obligation to demand better. Your authority is derived from Congress, not the Executive Branch. As established in Article IV, Section 3, Clause 2 of the Constitution, "The Congress shall have Power to dispose of and make all needful Rules and Regulations respecting the Territory or other Property belonging to the United States." You are not beholden to the preferences of any single resident of the White House, but to the Republic itself.

Furthermore, the design fails to meet the Secretary of the Interior's Standards for the Treatment of Historic Properties (36 CFR 68.3.b.9). These standards mandate that new construction must not destroy the "spatial relationships that characterize the property" and must be "differentiated from the old" while remaining compatible in scale and massing. The current proposal fails on both counts, threatening the historic integrity of the site.

Conclusion
I urge the Commission to fulfill its responsibility to safeguard our collective identity. As proposed, this ballroom rejects the precepts of our Founders and signals to the world that integrity is no longer a primary American value. The design is significantly flawed and requires a dramatic reconsideration to align with the weight of its context.

Thank you.

It was heartbreaking that Mr. Trump destroyed a section of our historic whitehouse without going through proper consideration and consultation with appropriate agencies or Congress.
The scale of the proposed gathering room is too ostentatious. It may serve as above ground cover structure for important, hardened facilities, but it doesn't have to dwarf a historic and iconic building. It ought to express humility at the service to America's people, not grandeur that one tyrannical man believes he is owed.
Scale back the ambitious, overpriced, grandiose building plan to reflect the humility and grace befitting a Presidential Mansion and workplace.

Name: Katharine Williamson
Date: February 26, 2026 9:24:40 pm

I do think the renovation of the East Wing should be carefully considered by a committee with the knowledge and aesthetics of the history it embodies. I hope that it will resonate with restraint and the authenticity of reliable government. Please contain the nouveau riche style of the current President.

Name: Cynthia Zenner
Date: February 26, 2026 9:26:53 pm

I object to the courts rejected of a request to halt the construction of the $400M ballroom project. This is an illegal and outrageous use of taxpayer money to undermine the purpose and integrity of the White House, the People's House, for personal gain of President Trump and his administration. I demand accountability for this misuse of public funds.

Cynthia Zenner

Date: February 26, 2026 10:14:08 pm

Hi.

I’m writing due to concern over what is to be built outside of our “People's House.”

I am not against modern updates by any means but would appreciate if they are planned in accordance with due respect to what we already have in Washington.

My immediate concern is the size of the ballroom. The exterior appears much too large in relation to the White House itself. It is out of scale and consequently rather than a sense of magnificence that would be admired, I see a sense of the monstrous that would be an embarrassment to our American sense of style. The scale of the addition is absurd.

The interior dimensions as well seem much to large for a mere ball room for hosting events. A ballroom that size would be embarrassingly “empty” in relation to the number of guests that could be hosted on a regular basis. We are not a pomp and circumstance people. We are a land of hard working, pragmatic, tasteful individuals and I think that needs to show in the very Capitol that represents us.

The use of the ballroom also comes into question. Do we really think that something that large should be built for dancing and entertaining? The return on investment for an area for entertainment for the, let’s face it, wealthy, is ostentatious. We are not a wasteful people. We are a compassionate nation who can find much more productive ways to spend money and show our largese, if that is the goal.

Finally, in relation to my first point, I think having a building that large, one that blocks the view to the White House itself, is symbolically inappropriate. Why would we want to dwarf the symbol of our “House” and its traditional values with an over-the-top dance hall?

Thank you for your time and consideration, Kendra

Name: Vivian Jordan

Please reconstruct and restore the east wing of the White House to what it was before. Thank you.
Vivian Jordan

Name: Jonathan Moll
Date: February 26, 2026 10:31:45 pm

I am opposed to the ballroom construction. The design is arrogant. It destroys the beautiful symmetry and grace of the building. The Whitehouse is a treasure, one that is offered for the president’s use by the American people. All presidents reside there for a maximum of eight years. No president should have the right to destroy what is not theirs. The American people should have a greater roll in deciding its fate of the Whitehouse.

Name: Fran Sing
Date: February 26, 2026 10:41:27 pm

Not even $1 should be extended to complete this embarrassment of a project. This was a historic building and not one brick should have been removed without approval through the proper channels. The structure should be restored as close as possible to the original structure. No one person, no matter how important their own imagination allows them to think they are, has any right to take this action on their own. The centuries of memories in the building fell under the Historic Preservation regulations and should never, never have been allowed to be destroyed. What a disgraceful action. The American people demand legal accountability.

Name: Jessie De Santiago
Date: February 26, 2026 10:48:14 pm

The large size of this proposed ballroom is massively out of scale with the original historical building. A historic establishment so linked to our American history. We should treat the White Hoyse with more respect and taste. Please consult architectural historians before continuing with this grave mistake.

Name: Philip Pumphrey
Date: February 26, 2026 10:56:43 pm

First, the President should have followed the law(s) and regulations about Publicly owned and nationally historic buildings, demolition and renovation. More importantly, now that they tore down the East Wing of the White house they should consider taking public input on the need for, the size of the project and scale to fit in the scale of the current building. (white house and west wing). This project's current propose scale is bigger than any other countries buildings used for state dinners and events.
Supposedly this project is paid for by public companies which is a violation of the US Constitution.

Name: Naor Miscia-Aziz
Date: February 26, 2026 11:00:10 pm

Build in line with the classical architecture of the White House. Shrink the overall size of the proposed building so that it better aligns with the architecture and footprint of the Whie House.(Frankly, the destruction of an historic wing of the Peoples' House is unwarranted and a travesty. Unconscionable. America does not need a poor imitation of Versailles or any version of it at all).

Name: Taylor Shechet
Date: February 26, 2026 11:29:58 pm

I strongly urge the Commission to reject the proposed “renovation” of the East Wing of the White House advanced by Donald Trump.

The White House is a historic federal building of unparalleled national significance. Reports and public record indicate that substantial and damaging alterations have already been made to the East Wing. Any destruction or irreversible modification of historic fabric is unacceptable and directly implicates core federal interests in preservation, stewardship of public property, and protection of nationally significant civic architecture.

Given President Trump’s documented history of ethics investigations, legal findings, and conflicts of interest, the Commission has a heightened obligation to apply strict, independent scrutiny. Federal property must not be treated as a vehicle for personal legacy building or political spectacle. Allowing this project to proceed after apparent damage has already occurred would undermine public trust and weaken the credibility of federal planning oversight.

I respectfully request that NCPC conduct a full and transparent review, require comprehensive documentation of all work already undertaken, enforce all applicable preservation laws and standards, and deny approval for any further alterations that compromise the historic integrity and public purpose of this federal building.

Name: Ron Kaminski
Date: February 26, 2026 11:37:29 pm

This project is an abomination! It should never have been started without prior approval. It should be more in line with the dignity of the White House and other D.C. structures, rather than a garish construction more suitable to a Las Vegas casino.

Name: suzanne tsch
Date: February 26, 2026 11:49:08 pm

It is a CRIME that the East Wing was demolished without an approved plan and without your watchful prevention!

The PERPETRATOR cannot be allowed to design its replacement!

I, therefore, submit that you follow the guidelines proposed by the National Trust for Historical Preservation architects regarding scale, style and history of the building and surrounding landscape including any “bomb shelter” security design.

The building is not owned by Trump or any individual, but by ALL THE AMERICANS and my expectation is for you to follow The National Trust proposal as it is a MEMBERSHIP OF AMERICANS concerned with maintenance of decorum and respect.

Not some flashy ostentatious gold memorial!

BE GOOD CITIZENS-FOLLOW EXACTING ARCHITECTURAL PRACTICES & DO YOUR JOBS!
THANK YOU.
