The White House is the people’s building, and any changes to it should reflect thoughtful stewardship of our shared history. The proposed East Wing ballroom addition creates an asymmetrical and visually unbalanced appearance that does not align with the architectural integrity of the existing structure. Beyond aesthetics, dedicating this space to a ballroom does not appear to be the best or most necessary use, especially given the functional and preservation concerns it may now create. Alterations to such an iconic public building should prioritize balance, historical character, and genuine need.

The demolition, new program and intended build are an excessive impact on the historic White House. The scale of the intended alterations is absurd and throws the complex's composition so far out of whack that aesthetics will be a distant memory, The demolition has destroyed many spaces of historic significance. And, I'm confident that the interiors will bear no positive relationship to the remaining historic spaces. One of the USAs biggest treasures, the White House, which belongs to me and and all citizens, had its leg cut off without appropriate review. I call that criminal.

The East Wing should be restored to its original form, including the surrounding Rose Garden. It is a travesty to have destroyed and altered this building of such beautiful historical significance - simply on the whims of an emperor who has no clothes. While minor improvements (such as restroom facilities and ADA accessibility) are warranted - please restore this building to honor its past and the history of our beautiful country.

The President has already started demolition, so something must be built. However, permission should have been sought before he began this project.
His planned "event space" is unnecessary and an eyesore. He's treating the White House like his own personal property, which it is not. This ballroom he wants to build would minimize the fact that the White House is the center of our government and not the center of President Trump's social life.
Restoration of the East Wing is what SHOULD happen.

I do not believe the damage done to the east wing should have been allowed. Nobody even tried to stop it until it was already demolished. This project should not be allowed to continue. Bunker or no bunker, golden ballroom will just be yet another hideous eyesore that that tax payers will have to clean up and pay for. I believe it should be left the way it currently looks. That will be trumps legacy. In the future when he is gone proper permits, and reliable architects and contractors can be brought in and replace the East Wing as close as possible to what it looked like in December 2024. There should NOT be an oversized gold crusted ballroom that simply put shows that the USA is an arrogant self involved country with a fetish for all things gold crusted. That's not an American value I want my country to be remembered for.

I do not feel the people's house should have a ballroom added. For nearly 250 years, our country has entertained dignitaries in our White House without a large, formal ballroom. Since he destroyed our East Wing illegally, though, and now something needs to be constructed, a multi-use, functional space seems appropriate. Not oversized to dwarf our house. Not hold-filled and gaudy like a palace. A tasteful, appropriately-sized space that is compatible with our current house, reflective of our country's cultures and heritage. The President (all of them) must acknowledge that he or she is a temporary resident, a renter, if you will, and DOES NOT HAVE THE RIGHT TO DEMOLISH THE PEOPLE'S HOUSE.

I understand the need for a new ballroom and modernization. When the Office of the President holds diplomatic dinners they should not have to put a tent up on the White House lawn! However, the new structure should not dwarf the White House itself in terms of size. The White House is an important historic and cultural building, and part of the identity of the United States. Any modernization needs to be architecturally correct and not be larger than the White House itself.
Thank you for bringing this to the attention of "We the People"!

At this point in time, there does not appear to be any need for a 90,000 square foot ballroom to be attached to or to be any part of the White House. In fact, without any substantial documentation, no

ballroom at all is needed. There is sufficient room and space within the existing White House to entertain any world dignitary as needed.

The historic East Wing should be rebuilt back to its original design and features and once again opened up as the public entrance to The People's House.

Thank you for allowing We, The People a proper avenue and opportunity to give input into what is obviously an unnecessary vanity project.

The destruction of the east wing in order to build Trump‘s ballroom is such a narcissistic, ego driven project. Without any oversight by the national trust for historic preservation, Trump continues to use his playbook for corruption and total annihilation of any legal precedent. I can’t imagine that this ballroom if it’s ever completed will be anything but a horrendous sacrilege to the White House itself. He has no authority to tear tear down and historical building, except that no one will stop him. I don’t understand it, and I am very angry over his continued abuse of power.

The People's House should reflect the conditions of the majority of the American people. If the current White House dining room is too small for very large gatherings, perhaps more intimate dinners should be embraced. An East Wing where visitors can be welcomed, and which provides suitable working space for those who work in the White House should be built. The proposed ballroom is an abomination, an expensive and unnecessary piece of conspicuous consumption designed to inflate the egos of the very wealthy. Please omit the guilding! If the President's plan for a ballroom is enacted, a future President should convert it to a shelter for the homeless where it would be utilized on a daily basis.

I am writing today to voice my concerns on the new construction of the East Wing. I am not questioning the need for a larger ballroom because I do not have the facts to assess the need.But the renovation should compliment the existing structure (White House) & it should be in scale of the current structure & not dwarf the White House. It is perplexing to me how a wing could be be destroyed without following the procedures in place. If memory serves me correct it is the People's House not the President as sole owner. I actually would like to have the East Wing restored to its past glory. Once you destroy a physical historic site it becomes a faded memory. My hope is that the new construction will actually occur as it stands now the site is an abomination. My hope is the new construction reflects the stately appearance of the White House. Thank you for allowing my comment.

America has earned a unique and admired position in the world, but we did not acquire that status by being ostentatious or exhibitionist. One of the things I've most appreciated about my country is that while the White House, its grounds and attendant buildings are attractive, well-maintained and elegant – they are not flashy or excessively lavish. This is somewhat unusual in world history, since other nations often have extremely large palaces or other extravagant residences for their governing leaders.

To my regret, I have never been able to visit the White House. Nevertheless, all my life has been spent watching as this iconic, revered place was respected and preserved for future generations.

I am still bitterly disappointed and outraged that the East Wing – a relatively modest but graceful building with 124 years of American history behind it – was so childishly, illegally and abruptly leveled without a thought. (Think of the world-changing work that occurred there.)

The very thought that a massive building of 90,000 square feet, laden with the crass gleam of gold leaf everywhere the eye can see, would replace the East Wing – makes me nauseous.

I believe this proposed ballroom is the disgraceful, selfish grandstanding of a rogue, destructive President. Under no circumstances could I ever agree with its construction.

Dear Committee, I am writing regarding the proposed ballroom at the White House. I feel this project is not in line with the aesthetics of the current building or the historical architecture. I also feel that the desecration of the historic building was a horrible act. This should have never happened. No one man should have been allowed to take an excavator and tear down part of a historic building without going through proper channels. This is the people's house, not Donald Trump's house. If a ballroom was/is needed, it could have been built as an addition to, in another area or location, not in place of by tearing down part of history. My feelings are this: the money he has now to build his so-called "big beautiful ballroom" should be used to restore and rebuild the White House to the way it was pre-Trump. If a ballroom is needed, place it somewhere else, even a location off the whitehouse property, not in a place to dwarf the current building. If building a ballroom in another area proceeds, I think your organization should oversee the project and not allow him to fill it with gaudy, tacky decorations as he has with the White House. He's made a real mess there with his tacky gold accents. Also, please take his name off the Kennedy Center, his name should have never been placed on that building nor should he have been involved with any of the administration of the KENNEDY center. He has ruined everything he has touched. In summary, require his to restore the White House to the pre-demolition condition, if a ballroom is necessary, procure another location offsite, do not allow him to decorate it. I am absolutely opposed to building a ballroom as currently proposed.

You should never have destroyed the original building, a ballroom is a stupid waste of tax money. You say we can't afford free school lunches for children yet you want to spend god knows how much on a gaudy ballroom?! I say absolutely not! We have much more important and serious things that money needs to go towards.
Updating buildings to match modern technology and to preserve the safety of electrical wiring, etc is one thing. But bulldozing parts of the White House without the people agreeing us lunatic. How dare you argue over budgeting and shut down the government over and over while also building some ridiculous ballroom that is not necessary. Our government needs to rethink it's priorities

Re the proposed ballroom at thr White House

Any additional meeting space is required to be in keeping with the original White House, in scale and in decoration. It should not be finished in gold and marble, and it should not dwarf the White House.

Lacking engineering expertise my only basis for opinion on the east wing project is historical aesthetics. Dwarfing the existing building to construct an event space of this size is inappropriate. We visit the Whitehouse frequently, and turning it into a socially focused building instead of a daily workspace for ongoing government business devalues it as an historical space. Instead of attaching a ballroom to the existing building take time to find a nearby location that can be converted for international social events. Maybe there is an available space nearby that wouldn't require construction of a new building. The old post office would have been a good choice. An already built nearby space that could possibly include guest accommodations should be a consideration. If a social space is needed consider other options.

The East Wing of the White House should be rebuilt, and the adjoining grounds landscaped to their appearance and function prior to demolition to respect the historical significance of this property.

Additional event space could be provided by the addition of an appropriately scaled ballroom or event center on the White House grounds. Covered access to the event space should be provided by walkways with appropriate awnings similar to other covered walkways on the White House grounds, an appropriately scaled colonnaded walkways, and/or underground access. Facades should be coordinated in style with the extended facade of the White House. The height of the ballroom/event space should be coordinated with the current White House building and should not exceed the height of the midpoint of the top floor of the current structure.

Interior decoration of the proposed ballroom/event space should be appropriate to the role and significance of the space. They should be coordinated with the decoration and style of the main residence/ office space of the White House to reflect the historical significance and restraint expected within the residence and associated properties.

I think the East Wing was fine as it was. There is no need for a 90,000 sf ball room. The Presidency is about policy and actions to help average people. Ballrooms are for the rich and powerful. No one President should have the right to significantly modify (other than for safety) the WH or ancillary spaces without an independent review. Any money should be appropriated by Congress (not billionaires' money) and they should appoint a committee to manage those changes. Thank you.

While I can understand the desire to add an entertaining space that allows for hosting I have two major

concerns.
First is the size. To have a singular wing be bigger than the central structure is going to ruin the overall look of this national treasure. There has to be a way to create a space that can serve the purpose desired, without ruining a place that generations have visited on family trips, class trips, solo adventures and political pilgrimages. The White House has had an instantly recognizable facade for decades, protect it.
The second and equally concerning issue is funding. I don't think a Presidential vanity project should be fast tracked for funding but more importantly it CANNOT be done through "private donations." Whether anyone would ever be honest enough to admit it there clearly are implications of turnabout to the folks who are "donating" to the project. That can't be allowed to happen. And if that ballroom stands with the private funding from billionaires, it will be a billboard for corruption for its lifetime.

Donald Trump has made drastic changes to the White House and acts like it's his own personal property to do whatever he wants. He went from being a spoiled little rich boy to an entitled, egomaniacal adult. I would like to know how his ballroom is going to benefit the American people since it is owned by all Americans. Who gave him permission to make these drastic changes? A ballroom, really, I can't think of anything we need less!

Then there is, or was, the beautiful rose garden which is now a huge cement slab. Just another of Trump's whims to show he's the boss and can do whatever he wants. Who gave him permission for that?

This man is ruining everything about our country and he's moving fast to do it. If he isn't stopped soon there won't be much left to salvage. Someone has to have the guts to say no to him, which he's not used to hearing.

I am not just speaking for myself, but also for millions of other people who feel the same as I do.

Thank you,
Sandy Weber

It was a shame to tear down the East Wing! Now, we have an opportunity to rethink the best use of the space.
The proposed building
1) Should not "dwarf" the original structure (White House) It should be a smaller wing, an add-on to enhance, not distract from the WH.
2) Should be close in style to blend in with the WH and match the existing historical architecture.
3) Where possible, elements from the old East Wing should be incorporated to establish historical continuity.
4) Should not negatively impact the view from the WH or the historical view OF the WH.

5) Do the people need a ballroom? Is this the best use of the space?

I write to first lament the loss of the East Wing of our White House, with no warning to the public that such massive change was coming to the structure of the building!
I would also ask that the committee consider the fact that the planned ballroom would dwarf the rest of the White House and would not follow your own rules that any addition should not be larger than the existing building.
Ideally I would like to see the East Wing rebuilt as it was. If this is not within your powers please ensure that the new addition is within guidelines and not a 90,000 sf space that would not be in keeping with the White House.
Thank you for considering.

The new East Wing should be in the footprint of the building he tore down/removed without permission. The exterior should match the style of what was removed illegally. The new wing should have modern wiring and facilities that meet ADA compliance.

Perhaps an exterior covered portico can be added to said "ballroom" to provide additional space for events.

Questions to be answered...
How frequently is the space used for event?
What are the size of these events?

All construction should adher to a competitive bidding process.

There should be NO gold adornments. The Whitehouse and associated property is the Peoples House and temporary residence of any President not the personal palace of any elected occupant and their family.

Time, and the occupants with different needs, have guided the White House through thoughtful and vetted transformations — each shaped by the nation's growth, the people's will, and the demands of governance and security. Through every change, it has remained true to its original purpose — a house of the people.

Recognized throughout the world as a dignified and distinguished residence, it stands adorned with some of the finest architectural stone carving ever produced in America — an august house, yet a house and not a palace.

The White House stands as a powerful symbol shaped by many hands over time—its walls bearing the weight of both pride and pain and legacy. For some, it represents a history marked by injustice that cannot be ignored or softened. For others, that very history is seen through a different lens—one that justifies their own narratives and claims, sometimes at odds with the truth and experience of those who have long been marginalized.

Too often the conversation around heritage is hijacked for selfish gain, grifting, or by those who weaponize cruelty as a means to "own" their opponents.

True preservation requires honest and inclusive respect for all stories, ensuring these symbols remain a home for everyone—not a tool for division or personal agendas.

This tension reveals the complex layers of our past and the challenge of honoring a shared foundation in a way that is honest and inclusive.

As a member of a historical society that is dedicated to preserving and documenting our shared history, preservation is not just about bricks and mortar, but about recognizing all the stories that have shaped this place, ensuring it remains a home for all.

I believe that the East Wing should be reconstructed to it's prior state (before it was demolished). A ballroom is a waste of tax payer money and does not serve the American people's interests. It's both

political and architectural folly to alter the East Wing - doing so may lead other nations to view the US as being dismantled, building by building.

The Rose Garden should also be restored.

The wing should be replaced in the same or similar configuration as was originally there. Update the interior spaces, but the exterior needs to reflect the clean lines of The Peoples House. The Money pledged for the ballroom should be used to repair the damage done by the current president. A ballroom or event space can be built elsewhere in the capital.

I am writing as a concerned citizen. The White House belongs to all Americans. Not to the current occupant. If I owned a rental property and the renter tore down the garage and tried to put in a pool at my expense without my consent, I would be justifiably upset.
This is 300,000,000 times worse than that.
The current occupant needs to restore the WH to its prior condition at his own expense. No further with shorts be done to construct anything without the proper vetting and approval processes.

I as most Americans were shocked and heartbroken to see the craven destruction of the “East Wing”. Nothing but restoration of same will satisfy our wounded hearts. We don’t need a huge ballroom. The White House used to be a source of pride. How can one trust a man whose idea of decoration at parties is women in champagne glasses?
Please do all you can to keep architecture historically accurate.
Thank you.

The White House, apparently contrary to the current resident's belief, belongs to the people of the United States of America. Living there is a privilege granted to the current President by them, and said privilege does NOT confer ANY right or permission to make whatever alterations to the structure the current resident desires without their consent. Only someone who presumes that the office comes with the rights and privileges of a king would initiate massive changes such as those we are now witnessing merely on the excuse that HE believes they are necessary. The sudden destruction of the East Wing is an atrociously brazen affront, not only to the measured and legally required procedures that exist to protect the integrity of the White House, but also to the American people themselves.

At the present time, any work that is not required to preserve the remaining scraps of the underlying structural integrity of the East Wing should IMMEDIATELY be halted and the legal and proper review process should commence. No advancement of the construction of the so-called "ballroom" should be permitted unless and until the proper historical, structural and necessity reviews have run their course. If, and ONLY IF, the reviews result in the determination that the proposed "ballroom" is the optimal use of the space, the next logical and historically accepted step in the process should be a competition for design proposals, which would be rigorously and professionally vetted. Several proposals should then be offered to the American people (or, at least, their elected representatives) to select the best and most appropriate design. Throughout this entire process, the current resident should have no more say or influence on the final outcome than any other American citizen.
The White House is not just a place for the President to hang his/her hat and coat and sleep at night while serving the American people. It is an historically significant national treasure that deserves far better and deeper consideration than to be subject to whatever whims happen to occur to the current resident. Please do not permit the atrocities that are being inflicted on it to continue. Rather, give the American people their rights of ownership - let them determine what happens to their White House.

The so-called East Wing Modernization Project is in fact a desecration. You can't modernize something that

has been destroyed by a Russian asset and would-be tyrant. It's hardly an accident that the East Wing Trump brought down contained the Office of the First Lady. Why wasn't a political body able to stop this destruction of the People's House before it was completed? Are all laws inconvenient to a dictator with a tantrum-management problem just to be disregarded?

I am especially worried that Trump and his Putin-paid followers will raise money in the ball room for dangerous policies that go against this nation's interests. What's to stop MAGAts from throwing a fundraiser there to raise money for Russian troops attacking children's cancer hospitals in Ukraine? Or hosting fundraisers for his pedophile buddies who need legal representation for their heinous crimes while their attack dog and chief gaslighter, Pam Bondi, smirks in the foreground?

If this nation survive's Trump's rule, I hope the East Wing is restored along with an exhibit about the dangers of creeping fascism.

Your mealy-mouthed response to such a significant change to a historic building of this import should alert all preservers of Historic Entities. The obvious comment of “should follow a rigorous and deliberate design and review process” is unacceptable because it is a rule we all have had to memorise for survival in this career. Since the project announcement, the American Institute of Architects (AIA) has expressed concern and offered recommendations in five areas: establishing a qualifications-based architect selection process, enacting a rigorous historic preservation review, prioritising transparency and public accountability, considering “proportionality” and “design harmony”, and leveraging collaboration and expertise across the architecture profession. Laughable under this administration. The first public whisper of this happening should have sent every applicable agency, local and Federal to stop the demolition!! You either were too afraid to stop it, or you’ve been bribed.
While the White House is CURRENTLY exempt from the requirements of Section 106 of the National Historic Preservation Act of 1966 that requires federal agencies to consider the effects of federal projects on historic properties, given the exemplary significance of this site, we urge the NHPT to redefine this as a structure that MUST abide by Section 106 of the NHPA of 1966!! The deliberate and non-approval by the NHPT as well as local Planning, and the public, thus done in secret, the administration should not be allowed to continue with a ballroom, never asked for and in the requested size should be immediately reviewed, and the size equally proportioned to the White House. Did any of you even think this would happen? Most likely not. As a certified, educated preservationist and retired university instructor of Historic Preservation, I wonder just how many teeth you actually have!! If you acquiesce to Trump's demands, you will have set a precedent that will not only stain your reputations but will become fodder for the courts to battle over for

years to come!! We have abided by your “rules” for decades, now you are willing to throw them out! As the society of historic architects stated, and I quote, “Consider Broader National Impact on Historic Preservation: Known as the “People’s House,” the White House is one of the most significant and visible historic properties in the country. Any project at the White House, whether it involves interior renovation, changes to the landscape, or a new exterior addition, acts as a national precedent in the treatment of historic properties. Recognising this, we urge the White House to carefully consider our recommendations so that the project can have a positive influence on preservation practice, policies and procedures across the nation.”
Do not allow this atrocity in its current size to go forward! It is only a vanity project that does not have one thing to do with the American people!

I find that the subject "East Wing modernization project" is rather misleading. Because due to the impulses of the president. There is nothing left to modernize, other than a large hole in the ground. Demolishing a historic building, that belongs to the people of the US. Is a travesty. To do so, without a real architect plan, or permission to do so. Speaks loudly about the president's disdain for following the rules and laws. It was never about modernizing the East Wing. His actions were fueled by his own ego and pocket book. Where are the artworks from inside? Where are the billions pledged by many companies for his ballroom? And what did they want in return? The president had no right to destroy part of the people's house. Trump's ballroom, should never be built. It's an insult to the citizens who are struggling to buy groceries day to day. The people's house shouldn't be built on the foundations of one man's ego.
Thank you.

I respectfully oppose the proposed expansion of the White House East Wing. The East Wing is an important part of the White House complex and contributes to the historic balance, scale, and character of the White House grounds.

Now that the structure has been removed, I strongly urge that it be rebuilt to reflect its previous appearance, footprint, and architectural character.
Demolition should not become an opportunity for expansion that alters the historic proportions of this nationally significant site.

Preservation means maintaining the visual and historical integrity of the White House complex for future generations. Reconstruction should prioritize restoring what was there, as opposed to enlarging it.

Thank you for considering this comment.

Hello! The White House East Wing/ballroom addition should respect the historic scale and design of the White House. 90,000 sq ft is too large--it will look ridiculous for the ballroom to be larger than the residence, and it makes no sense the entertainment space would need to be that large. The exterior design should compliment the existing structure, and the interior design should be tastefully appointed in a manner that aligns with the elegance that existed before the oval office was turned into the current gold emporium it is now.

Thank you for the opportunity to comment on this matter.

Please make the current administration reconstruct the east wing of the Whitehouse back like it was. I am 70 years old and it hurts my heart more than I could have ever imagined to see the majestic "People's House" reduced to a pile of rubble. We have gone over 200 years without needing a gaudy gold Las Vegas style ballroom attached to our Whitehouse. A ballroom could have been built in any other location without destroying part of our history.

I totally agree that the size of the currently planned ballroom is way out of scale for the original historic building. It would appear that the planners are trying to keep up with the Joneses (the "Joneses" being the French with Versaille Palace or the British Royals with Buckingham Palace). We are neither French nor British. We do not need to compete with anyone. Many of our government buildings in Washington, D.C. reflect our American taste for subtle elegance. The White House should reflect the same.

I do understand that there may be a need for a larger assembly area. However, I really doubt there is a necessity for a 90,000 Sq. Ft ballroom (unless the intent is to invite a goodly amount of the entire population of Washington, D.C. to dine and dance. All at once.). An open assembly room sized to match the other wing would be appropriate. Or if that would still be too small, than take some of the construction money and expand the other wing (though not larger than the main building.) Perhaps extra space added to the other wing could be used to replace those offices of the First Lady which were razed. Then build the second wing to match the larger size of the first for visual balance. I am guessing that given our then unhappy relationship with the United Kingdom (in the 19th century) technically, this building was not intended to be constructed in the "Georgian" style, but I believe it should have the symmetrical aspect of a Georgian house as it did before all of the unapproved destruction occurred. It should have a balanced appearance.

Also, while we're on the subject of destruction, please PLEASE have the occupants remove all of the gold decoration stuck or painted onto the walls in the West Wing (and who knows where else). They too are not in keeping with the intended design period of the house. To put it in kinder terms, these glittery doo-dads (and the ridiculous signage) look like what old American society used to call "new money". The White House is neither a palace nor a bordello and should not look like either. The Peoples' House should exude nothing but graceful, period-respectful elegance.

Thank you for your attention to my comments.

To whom this may concern. I am extremely upset about the removal of the east wing and rose garden as well as the oversized ballroom plan as is. While I understand a need for the ballroom, I don't feel that it should overshadow the White House. I'm sad about the loss of the East Wing and Rose Garden because I felt they balanced out symmetry of the building and held great historic significance. The ballroom, as currently planned, makes the White House seem insignificant while the ballroom comes across as garish and crass. When I visited the White House in 2019 I walked it's hallowed halls and rooms with reverence and pride. I felt it was an honor and pride to be able to visit it. I am sick with the careless destruction it has so recently received. Our nation's home should be a place of classic taste, not an overblown example of self engradnation. Please bring back it's classic symmetry and make any additions appropriate enhancements.
Sincerely,
Candis Pomykala

I am appalled that President Trump ordered the destruction of the East Wing of the White House. He had no authority to do so without following the normal protocol in place by the National Trust for Historic Preservation. If more space was needed for large gatherings, a simple extension of the building should have been considered. As a U.S. citizen I do not want to see some gaudy gold "monument" that satisfies President Trump's enormous ego erected. The space should be done with taste that represents our great country's heritage and traditional architecture. It should match the style of the rest of the White House that all previous Presidents have honored.

I wish that Donald Trump had never touched the White House without first asking permission from the National Capital Planning Commission but because of who he is he took it upon himself, to rip the side of the White House off. I digress. I feel that we do not need a giant ball room that looks like something from the Palace of Versailles. There is enough gold in the Oval office and other areas of the White House that will have to be painted over, without adding more. glitz. Something that fits the period of when the White house was built and of course much smaller than Trump originally planned.. It should not be bigger than the White House itself. The first lady's office should be returned to that area and an entrance for the public to enter as well. In otherwards, please return the East Wing as it once was but perhaps a little bit larger.

Thank you for the opportunity to comment on the proposed East Wing.

The destruction of the former East Wing is an abomination and insult to the American people. The bad will resulting from this action makes it difficult, if not impossible, to comment without bias. This is clearly one man’s vanity project.

Ideally the appearance of the new East Wing should complement the existing structure. It should not dwarf the White House. The proposed 90,000 square foot ballroom is almost 2x the size of the existing White House. This doesn't make sense.

Please don't allow the project to move forward as is. The People's House shouldn't include a massive ballroom. It's not a resort.

The East Wing should be restored as it was. Certainly upgrades to plumbing, wiring, etc. should be done, and amenities could be brought into the 21st century. But the basic layout should be restored. A ballroom could be built on another area of the property, and should be scaled to a size that wouldn't dwarf the White House. The architecture and furnishings should be done to complement the rest of the building in the same Greco Roman style.

Before nationally significant places are permanently altered, the public deserves an opportunity to help shape the decision. The White House is a National Historic Landmark and National Park, owned by the American people and home to our presidents since 1800.

This review is also required under federal law. Major construction projects in Washington, D.C. must undergo review by the NCPC and the Commission of Fine Arts, comply with the National Environmental Policy Act, and receive congressional approval.

While expanded event space may be needed, additions must respect the historic scale and design of the White House. At 90,000 square feet, the proposed ballroom would exceed the size of the 55,000-square-foot Executive Residence. Additions to historic properties should be compatible in scale and subordinate to the original structure. Commissioners need to hear directly from the public.

Letting this unwarranted assault on an historic building that is REPRESENTATIVE of our country's executive power (not the actual power itself) seems as if it is meant as an intentional affront to the citizens of the United States and ape-ish posturing for the rest of the world. This is literally pissing away (and on) one of our nation's greatest treasures without any other desire than to leave DNA all over it. There is no desire to contribute, only to contort. Stop and reverse the damage by rebuilding the East Wing in its original form/plan, only up to code and modernized to accommodate greater activity.

I find it truly disturbing and unethical that the President of the United States took it upon himself to decide to tear down the East wing and then start a garish restoration in gold of a ballroom that has nothing to do with the people. The White House is the people's land and property. The President is graced with being housed there while in term. To start this project without notification to the people was disrespectful for the citizens of the United States. We have many more issues that need top priority than ruining the White House so that a ballroom can be reconstructed. It is a waste of the taxpayers money and time! I think it should be halted and forced to be reapproved first and then a less garish display of reconstruction. Start doing the job the American people need, not what you want in gold and trivial nonsense to entertain foreign dignitaries, only to be redone again once you are out of office by another President!

This space needs to be of the people for the people. A ball room so the elite compete with the elite is only serving the tiniest slice of humanity.
How can this space support and inspire the broadest sections of all of us?

The East Wing of the Whitehouse should not have been destroyed. Since it has been, I think a rose garden should be temporarily installed there until a new President is sworn in. Then, we can consider just how to begin repairing the Whitehouse, our nation's reputation and the relationship our citizens have with our government.

It was torn down without proper review or permission. And now he wants to build a gilded monument to himself that will dwarf the White House and likely be so ornate as to overshadow the White House in the most garish way possible. And supposedly he intends to include a bunker as part of the ballroom, probably to barricade himself in when he is forced out. This vanity project must be stopped at all cost. He must not be allowed to build something so out of proportion and character. Getting approval is not optional. Please, stop this from happening.

I am appalled by the destruction of the historic East Wing of the White House. There appeared to be no consideration in retaining the historic objects and decorations in the destroyed building. Replacing it with an out of scale, garish ballroom is an insult to the people of the US. The fact that this action was taken without any concern for the established processes and received no appropriation approvals adds insult to injury. The President is a temporary tenant of the White House. The White House is the property of the people. For this overreach, the President should be evicted, and every attempt to return the White House to its pre-Trump splendor.

Broaching the integrity of the White House for a gaudy and historically inappropriate addition that violates the nature of the building is inexcusable. Though the idea of a ballroom has been one proposed many times over the years its presumptuous of the current administration to propose one so out of scale with a building so historically important. In the scheme of Washington DC architecture the White House and Capitol building are integral parts of US history and a self proclaimed patriot should never be allowed to do such out of bounds and authoritarian proposals, let alone actually destroying the East Wing as done.
The Ballroom should be detached from the White House and as a freestanding edifice be given its own ID. That would serve both the administration and future ones better than the current proposal. Please keep the integrity of the White House closer to the intent of its original builders who knew well what their predecessors wanted and achieved and kept to that program with full respect and understanding of who we are as a nation and what American stands for. As far as I understand it they did not endorse anything like what is being proposed there. RESTORE the White House and build an independent Ballroom.

It is a travesty that this project is necessary. But now that it is necessary, please restore the East Wing to its original, historical glory -- no gaudy gold; no ostentatatious Maralago cheap look. I understand it needs to be larger to eliminate the need for tents when large groups gather. But please keep it in scale with the White House -- not as an overbearing addition for high society. This is the peoples' house and building, not a palrty palace for the Trumpstein class.

RE: NCPC File Number 8733, Applicant; Executive Residence at the White House

As a very concerned citizen for all my 79+ years and a former Navy officer who has lived and worked in D.C. and visited the White House multiple times in years past, I am grateful to the National Trust for Historic Preservation for providing me the link opportunity for this comment. I am an Ecological Planner, Designer and Builder with a Masters in Regional Planning from The University of Pennsylvania in 1975. Among my consulting project experiences in D.C., are the irrigation design for the World Bank Headquarters Streetscape and for the Western Presbyterian Church relocation landscaping, for which I also provided construction supervision.

Having watched the video of NCPC's 1/8/26 meeting with the architect's preliminary schematic presentation, I am writing to express a few primary concerns:

1. While the basic functional needs and objectives were summarily outlined and seem to have some practical sense, there was no substantive information presented with quantification of the functional program needed to justify the new building's size, footprint, mass or height on any of its elevation views. Simply stating that previous studies have been done and reviewed by the architect, with a decision having been made for the "smaller option," does not explain the rationale for that decision or why it needs to be so big and out of balance visually with the rest of the existing White House from all angles of view, especially on the south where it is viewed from the Ellipse as well as the sidewalk.

Before approving any new construction proposal, the Commission should insist on reviewing a comprehensive, detailed analysis of what functions requiring spaces of what size for how many people and what points of access are the minimum needed to serve reasonable goals and objectives. The height should be reduced by at least 10 feet or more, and the length and width should be notably reduced as well to fit the building more comfortably on the site in harmonious balance with the Mansion and West Wing.

Our President is not a monarch, so we don't need to compete with Windsor Castle. The architect also should not attempt to make it a mirror image of the Treasury Building across the street on an adjacent site. The White House is a separate distinct building with its own characteristic style developed over centuries. That historic style should be continued, not overwhelmed. Even with some trees buffering its visual mass, as currently designed, it would be much too imposing and distracting from the Mansion. at least on the south side.

2. All existing and healthy trees on the sire must be very effectively protected from any damage or losses by

the design and during construction. A well qualified urban arborist should be included on the design team to provide necessary specifications for construction documents. Not just the visible trunks, branches and canopies, but their extensive root zones also need careful protections. The feeder roots of the oldest trees likely project at least 2-3 times their canopy radii in the soil, even under any existing pavements. Those roots should not be cut by excavators. If such cuts are irrefutably unavoidable to meet the minimum program objectives, every cut root stub should be protected and treated by an expert arborist before any construction occurs and skilled pruning should be done as well. During construction, no vehicles, equipment or materials should be operated, parked or stockpiled on their root zones. That would compact the soil even more than it already is and might well damage the roots, leading to decline of the trees. Any trees that must be sacrificed to the design or irreparably damaged during construction must be replaced by large, healthy specimens of the same species at suitable locations for their mature growth.

3. The new street tree species must be carefully selected for compatibility with the urban environment, with their mature sizes given very careful consideration for each planting spot to avoid conflicts with all anticipated future users and activities. They each must be provided a substantial planting bed with enough soil volume to sustain their growth and health to full maturity. At the World Bank Headquarters, that was achieved by removing existing sidewalk paving and compacted soil, filling the voids with nutrient-rich topsoil and suspending the replacement paving across solid footings to avoid soil compaction and allow root growth. They were carefully designed around all underground utilities. A short walk down the block from the White House to inspect their current condition would inform the new design very well.

Thank you for all your thoughtful consideration.

The East wing should never have been demolished. We lost so much history of the First Ladies and the movie theater and other spaces when it was destroyed. The proposed ballroom is a monstrosity. There is no need for a ballroom that will dwarf the entire White House. If something that big was actually needed it should have been made some where else. The east Wing should be restored so it matches the rest of the white house again. The First Lady and other offices need to be returned to the White House. If there is then room for a smaller function room to be added in a manner that doesn't dwarf the entire structure it should be considered. If it can't be don't do it, only the East wing being put back is needed,

I grew up within 20 minutes drive of the White House. I toured there in elementary school. I studied the traditions of our White House, and all the Presidents. It truly is The People's House. I was aghast to see the destruction happen so fast, and with so little oversight or review by historians, architects, preservationists or the public. I am so worried that historical artifacts and momentos have been bulldozed and hauled away. The gargantuan, over-sized, overly decorated (Rococo or Baroque style) ballroom that has been proposed is better suited to Versailles than the simple elegance of the rest of the White House. At this point, I hope that, even if the rooms are not restored to something like their former use and beauty, if it is to be a ballroom that it is kept to the scale and quiet elegance of the rest of the building. One can hope.

It's important that the East Wing not distract from the White House. Therefore, the footprint and height must be visually smaller than the White House. The style should harmonize if not be identical to the White House. Most importantly it should have an interesting outline as opposed to a rectangular big box. Interior decoration should be restrained classical with a minimal color palette and without ostentatious details.

Ballroom Comments

The English word "ball" has its origins
in the Latin for dance / Once
I heard a friend explain
to a cafeteria full of elementary school kids
that the Spanish word for dance
was related to the word "ballet" /
A murmur of recognition followed / Then
a pile of lunch trays clattered
onto the counter in the kitchen
and my friend started counting
the musicians into the first exercise /
Dancers (ballerinas included) often count
in eights, cueing off at five / Maybe
this doesn't seem strange to you
but most musicians I know think
one measure at a time and "one"

is where we feel most comfortable /
I can't consider a ballroom without
imagining the famous scene
from War and Peace (although to be
honest I might be confusing that ball
with the one in the film Russian Ark / I find it
impossible to keep track of things
anymore, and especially parties
that I've never been invited to) / I can't
consider a ballroom but I feel
compelled nonetheless to comment / Once
I heard the sound of recognition
from a cafeteria full of elementary school kids
and I thought to myself "we make
the same sound our whole lives" / The shape
of a circle with our mouths and then
"Oh" / My friend explained the origin
of a word and these kids could not
help but sing the universal song
of recognition in response / I find it
impossible to keep track of things
anymore, especially when it comes
to this government / If it wants to throw parties
we're tempted to imagine that perhaps
that's a less damaging activity than others /
But I can't consider a ballroom without
imagining the famous scene
from War and Peace / Wherein the dance
and every word and glance that surrounds
it solidifies the wider social construct / Allows
the powerful to remain so / Dance is
often poeticized as freedom but also
it can be a kind of control and I wish you
wouldn't / I wish we wouldn't tear down
more than we handed out and turn
away more than we invited in / I imagine you
in your new Ark and the rest of us
immigrants outside in the snow /
Maybe we hear the sound of a waltz
or something more modern / Maybe then
all of us will recognize you for what
you are / We'll shape our mouths
into circles and together sing
the universal song of recognition /
Oh, we'll say / Oh, what they wanted
most of all was to dance

I am totally against this. This ballroom is much too large for the white house building. The east wing was a necessary section of the building,beautiful offices for the First ladies and many historical items. A ballroom should be placed on a non government piece of land,i Putting this on the White House building is disgusting. This building belongs to the US , not to Donald Trump. This is so sad to try to do. This is not his palace. Please prevent this . we need someone to stop this.
thank you

Since the East Wing has been demolished, I can see a need to build additional space. The new construction should NOT outsize the residence portion of the White House. I can see a need for an event space, but it needs to be more modest than the atrocity proposed, and definitely more stately, classy. Forget all the gaudy gold embellishments. Decor should reflect the historical design of the White House. A portion of the space should include meeting rooms for smaller conferences, or flex space where meeting room size can be modified. A space for state dinners does not need to be 30 feet tall.

The East Wing should be FUNCTIONAL office and administrative space. The structure should not exceed the stature of the Executive Residence.

Art should represent and respect all demographics of the United States populace. Spending should initially be 0.5% for art, the minimum allowable. SUBSTANCE over material should be emphasized, i.e. emotionally-moving works by starving artists over gilded materials. Works should be bipartisan.

The structure and its contents should be paid for by federal funds (or by fines for destroying the original structure without permission) -- as gifts to the executive office are illegal. Quid Pro Quo should not be allowed.

Bunkers should be designed to disallow communications from Presidents not heeding election results.

In regards to this wing that already has been destroyed along with its history, I would like it to be returned to its original design with a few modifications. As an elder and person trouble walking I would like to see it ADA compliant. Safely required and built with environmental agréable products. No gold decorative adornments as such has been added to other rooms. As this is the peoples house and not one persons this rebuilding should reflect that. I am sorry that this is happening after the building had already been torn down. I see no reason to have a ballroom of that size plus we have not needed one in 250 years. Please don’t let big money take this over.
Thank you
Cindy Graham

It should be rebuilt exactly as it was. Fascism was battled in that building. Mrs. Roosevelt used it. The building should reflect that, and honor it.

If the physical plant need an upgrade, that would be reasonable.

But the First Ladies of this country made significant strides in that building to empower women, minorities, and Trade Unions. Literacy and health were championed.

The East Wing was about work. It was about helping the citizens of this country.

It was not about power, privilege, or ostentation.

Please make them restore the East Wing.

Thank you

I remain horrified that President Trump alone authorized the demolition of the East Wing of our White House. I find it ridiculous that the White House has operated with its existing "event space" just fine over the decades -- no other President in decades has declared the lack of event space an emergency -- but now suddenly, under President Trump, the White House needs a huge, opulent ballroom. I disagree. I would suggest that the East Wing be restored as close to its original design as possible.

However, if it ends up that it is truly essential to the United States to build a ballroom where the East Wing was, it is extremely important that the addition to this historic property be compatible in scale and subordinate to the original structure. The ballroom should not be larger than the entire White House itself and should not vary in design.

Thank you for taking my opinion into account as a tax-paying United States citizen, one who studies history and values historic preservation of the people's house, the White House.

It is imperative that historic properties are maintained to reflect their integration with other similar structures. As a member of my local Landmarks Commission I am well aware of the rules for historic preservation and believe they should be followed to respect our United States history. The historic East Wing should never have been razed and any rebuilding in place of the former should reflect that now erased structure! No ballroom that overshadows the nation's house is warranted. No oversized behemoth will be erected to dwarf the people's house.

Project Number: 8733

Hello,
My name is Amy Denton. I am writing to speak on the East Wing Modernization Project. I think it's a great idea and I wonder why it's taken this long to create such a meeting place. This project has raised several questions for me. Questions that I hope will be answered with the completion of the ballroom.
Question 1: Why has it taken to 2025 to create such a ballroom?
Question 2: Why has it been acceptable to host heads of state in a RENTED TENT?
Question 3: Why has it been acceptable to have heads of state use RENTED TOILETS?

This is being paid for with private donations and President Trump's personal fortune. The tax payer is not paying for it. This is an idea whose time has come a while ago.

So, YES, the. ballroom needs to be built.

I do wonder what social media would have been like had it existed when President Truman completely renovated the White House and ripped everything out.

Thank you.

Amy Denton

I am strongly opposed to the ballroom that is planned to be built on the site that was formerly the location of the White House East Wing. Removing this wing from the White House was an egregious error that should have been subject to public comment. Our nation's historic buildings should be maintained and preserved, not bulldozed for vanity projects of our President.
As the White House East Wing has already been destroyed, I would request to rebuild the wing with the same footprint, rooms, and furnishings that were previously in place. The President should personally pay for rebuilding of the East wing to the exact specifications of the prior historic wing. A monstrosity of a ballroom that would dwarf the presidential residence is the worst possible plan for this site.

I think the idea of the ballroom is not the way to go. As the original rose garden has been demolished, I'd suggest the space be used as a conservatory. This combines both a gentle space to view beautiful plants along with spaces to pause the walk and relax. The public could visit, and historically, a conservatory was in the same space. A smaller garden space opening up on one end could allow wonderful "dog walk" for the sitting president.

Subject: East Wing Modernization

To: National Capital Planning Commission, the Commission of Fine Arts, and fellow Americans

The demolition of the East Wing of the White House for the construction of a Trump Throne Room is a betrayal of our nation and an international embarrassment. The work must be stopped: Dead.

1. The White house belongs to the people, past present and future. It does not belong to the current occupant or to donors extorted to contribute to the president's private and personal aggrandizement.
2. The setting and architecture of the historic 'white house' is an icon of American political identity, a home for our president, a memorial to the vision of our nation's founders and shorthand for the executive administration.
3. Congress has not discussed the need nor approved funding to create this imperial sized dance and dinner room for the Epstein oligarch class.
4. The intent of established oversight has been circumvented. All responsible oversight persons were first replaced with persons guaranteed to approve whatever plan the president may have concocted.
5. The devious demolition of the East Wing is emblematic of the worst practices of smarmy property developers memorializing their disregard for the rule of law.
6. Political Patronage dinners for hundreds are appropriate to private settings or temporary tents.
7. The scale of the throne room is incompatible with the white house, an architectural obscenity and clearly intended to pave the way for an equally obscene addition to replace the west Wing.
The architects for this abomination should be shamed for participating in this act of international scale vandalism.

The underground space designed for national security in the event of war or disaster can be buried and an

appropriately scaled East Wing reconstructed by a future administration under responsible oversight.

Imploring your assistance in terminating this travesty,

J.R. Merrick AIA

Historical buildings under the jurisdiction of the NCPC should not be renovated, let alone destroyed, without permission, approved plans, and confirmed financing. This building belonged to the people and was demolished without permission and with lies about the scope of changes. The new addition must meet all requirements, fitting within the historical context of the surrounding area. No person’s name should be attached to the building or site. Financing details must be disclosed and approved.

I was greatly saddened when President Trump rushed to demolish the East Wing of the White House. It was a grave violation of the trust of American citizens and, I believe, a violation of the law. I am vehemently opposed to the construction of Trump's ballroom and I want it to be stopped permanently. I would like to see the East Wing reconstructed the way it was before its destruction. Use the ballroom donations to pay for it. Thank you for the opportunity to express my opinion.

Trump had no right to destroy the east wing, He lied and said he wouldn't destroy it and now he will continue to lie. He feels he's above the law and will do whatever he wants. It's not HIS house - it's the peoples house. His reckless behavior must be stopped before he totally ruins this country. There are laws and regulations - for a reason. Do you know how you can tell he's lying? His mouth is moving!

Please restore the East Wing as the home for the First Lady/ First Gentleman.
Please restore the exterior dimensions and architectural style, update wiring etc. and make interior ADA accessible where possible. Follow past processes for making needed but historically sensitive changes.
If a ballroom is needed, construct it elsewhere on the grounds using input from architects, historians, and others who can make sound decisions.
The White House is the people's house and should NOT be altered without consultation with appropriate experts.
I have visited this lovely building on two separate occasions and loved doing so each time. I remember when Jacqueline Kennedy showed the renovated People's House to the nation as a television special in the early 1960s. The last time I was there was in 2023 to see the Christmas decorations, which were gorgeous.
When the East Wing is rebuilt, please ask Caroline Kennedy to do the honor of showing us what has been done.
Thank you for your time and consideration of my ideas.
Best wishes, Carol

I would like to see the East Wing restored to its former look. Since it was torn down without proper authority, I think 47 should have to pay for it, not the tax payers. He also should be barred from any input on the rebuilding. OUR WHITE HOUSE is a beautiful building, or at least it was before an unsightly hole in the ground was left by demolition crews. Restore the Rose Garden at the same time.

WE DO NOT NEED A BALLROOM at the White House! President Harry Truman oversaw a major renovation on the White House that didn't change the overall look of the building. That's what I want to see.

The White House is a cultural cornerstone of U.S. Patriotism. It is a recognizable symbol known all over the world. To demolish a section without any approval of the citizens of this country, by a temporary resident, was inappropriate. The planned replacement would look as out of place as putting a Starbucks attached to the Lincoln Memorial. Trump should be forced to build an exact duplicate of the former East wing down to every detail and forced to pay for it out of his own pocket.

I vanity project for Herr Trump. Too big and ostentatious violation of the Hatch Act.

No doubt Trump and his hand-picked committes and Boards will demand that interior design to be a reflection of his New York City home .

Trump disregards the solemnity and history of White House and the Oval Office and the physical evidence they represent of our Democratic form of government and the history that formed it.

Trump interpretation ofthe White house is just another vessel and display case for his obsession with the trapping of power embodied by German, Ancient Roman , Italian , and Liberian dictators, among others.

First Lady Jacqueline Kennedy's historic renovation of the White House public spaces stands as an exceptional interpretation of American idealism and history.

Trump's view of the White house makes no room for his predecessors or the historic events that preceding his residencies.

It is as if he desires not only to remake the White house, but a building site he purchased, demolished an existing structures and planned all the details of a golden palace dedicated to his own greatness as a king, supported by millions of devoted followers.

I implore the commission to protest vigorously and fight diligently against elements of the ballroom project they are able to impact.

I believe the East Wing should be built back according to the previous plan, using the most modern sustainable and durable building materials and designed for maximum energy efficiency and passive solar. Furthermore the building should be dedicated to the children of the United States, both citizen and non-citizen, immigrant and native born, as as recognition that every decision made in the White House affects the future generations and with that in mind, a public sculpture should be commissioned on the lawn of the rebuilt East Wing that explicitly affirms the dignity and value of all children of every race, ethnicity, and ability level. There should be an inclusive educational and recreational complex for family friendly cultural events and performances which represent the many cultures from all around the world which contribute to the beautiful diversity of the United States and make it great. Thank you for taking the time to read my comment. I will look forward to visiting Washington, D.C. in the future.

If a ballroom or event space is required, it should be architecturally compatible with existing structures - done in the same style (NO GOLD, NO GAUDY) and commensurate in size (certainly no larger than the entire residence.) The design should be done by architects committed to the preservation and honoring of historical structures. This construction is for posterity, not to reflect any single administration, after all. And put back the damn rose garden.

Washington is a city of national monuments. To have done this damage without notice, consultation, or permission to one of our most important national monuments—a shrine to, as well as a symbol of, our long history of free elections—is simply outrageous. The projected plans and this demolition are esthetically, as well as morally ugly. It's too late to repair the destruction, but luckily, we can consult historical documents and restore the East Wing to what it was before an untutored administration's shallow wants and wishes turned the structure into rubble.

It is so critical that the most important residence in this country, The White House, undergo a full and thorough planning and review process before construction resumes that would be irreversible. Changes in sizing and mass that are not compatible with the current form of the White House must be denied, despite private funding for the project. The history of this all-important building must be preserved, and any improvements proposed must be thoughtfully considered to maintain historical integrity.

The National Capital Planning Commission must exert it's responsibility to ensure any changes to the East Wing are compatible with the scale of the existing White House, and preserve this historic treasure.

The East Wing should never have been demolished in the first place. However, since it no longer exists, whatever is constructed to replace it should have the same footprint as the former construction. it should NOT be slathered in gold simply to satisfy the ego of its current occupant. If bathroom facilities were lacking in the previous structure, more accommodation should be made, but they should be gender-neutral facilities, with separate family units available for nursing mothers or parents with small children who need a bit more room than regular stall units. The style of architecture should be in keeping with the White House so it doesn't look like an addition. If adorned with artwork, paintings, photographs or other similar pieces should reflect the unadulterated U.S. history -- not a white-washed version. We should be proud of our country, but we also need to remember that we have been far from perfect in how non-white citizens, immigrants and first nation people have been treated. We must do better!

I appreciate this opportunity to provide input. It is certainly unfortunate that the proper way of handling this matter was not done in accordance with the usual methods. I certainly hope this commission will have some say in whether the triumphal arch gets built (I hope not!!!!)

The East Wing of the White House needs to be restored as closely as possible to what it was prior to this horrific destruction. It held a valuable place in our country's history, the offices of the First Lady & her staff, areas where holidays were celebrated & memories made. That it was allowed to be demolished with no respect to its storied history is outrageous. The White House belongs to the people of this land, not to any one president. As such, no president should be allowed to destroy or deface it, irreparably, Someone needs to make the current president aware of this, & stop his running roughshod over our sacred monuments & memorials. His actions are disgraceful & uncalled for.

The White House is the People's House! The East Wing never should have been demolished without prior public comment and approval of the final design. Nevertheless, the replacement structure should not exceed the footprint or height of the original East Wing. Careful consideration should be given to what functions are most needed and appropriate, and a ballroom should be included only if there is enough room after more frequently used functions are accommodated. ADA and energy conservation measures should be incorporated. The historic character of the building should be restored as much as possible. Thank you for the (belated) opportunity to comment.

Hello,
I agree with a previous post in restoring the exterior dimensions and architectural style with upgraded technology and security. Build a "Special Events" center (not ballroom) next to the East Wing that is lower in height than the White House and would accommodate around 250 people or the average number of invited guests for a White House function. The National Trust for Historic Preservation should decide on the interior furnishings, comparable to how Jackie Kennedy restored the White House. No donor names on the building_ maybe a small plaque next to the restrooms.
Thank you, I hope this is not too late to change the course that Trump has in mind.

The White House, the People's House, suffered horrendous damage with the recent demolition of the East Wing. The is the biggest and most disappointing alteration to the White is over a hundred years. in more than a century. The demolition demonstrates the loss of reverence for continuity. The East White is not original to the White House, but its lineage reaches back to Thomas Jefferson. The form of the East Wing, now destroyed by wrecking balls, began in 1902 under President Theodore Roosevelt and was completed in 1942 under Franklin D. Roosevelt. Any replacement needs to honor the history of the White House and be something that the People see as appropriate and in scale. This gilded outsized ballroom appears to serve no purpose beyond boosting the ego of our narcissistic president and should never be built. It is not in keeping with the style and scale of the rest of the existing building and looks better suited to some place like Mar a Lago. An enormous ballroom will not be used on a daily basis, unlike the destroyed East Wing which until recently served as the offices for the First Lady and other staff working in the W/hite House.

This proposal should be scrapped completely and instead the blueprints for the East Wing should be retrieved from the National Archive. They should be updated to enhance the electrical system to meet the demands of the modern age. Increased energy efficiency through better insulation, low-flush toilets, and other features to meet at least Silver certification by LEED should be undertaken. A replacement for the East Wing should be built using these revised blueprints using materials which can replicate the look. Interior renovations to floor plans can certainly be considered to increase the functionality of the building. This may include increase the size of space used to host diplomatic dinners or events to honor visiting dignitaries or celebrities but not to the scale of the proposed ballroom.

Why do I oppose this ballroom proposal?

The project required the demolition of the century-old East Wing which provided a formal entrance to the building. The ballroom will not. Architectural historians termed this "cultural vandalism," as it replaces American history with a structure designed to mimic a private resort.

The expansion proceeded without standard approval from the National Capital Planning Commission (NCPC). The administration bypassed federal preservation regulations and the National Historic Preservation Act, seemingly without any hesitation.

The funding for this proposed monstrosity of an East Wing replacement appears to be "Pay-to-Play." The project, according to the presidents, is being funded by private donations. I fear these donors—including corporations with federal contracts—receive now improper and perhaps illegal access to the president. The ballroom is unnecessary. This massive addition (designed for a thousand attendees) is an ego-driven project rather than a functional, diplomatic upgrade. Any review of plans should be paused pending resolution of legal challenges from preservation groups.

There are numerous environmental concerns. Besides the destruction of the historic Jacqueline Kennedy Garden, no procedures were to taken to abate risks of hazardous materials that were in the East Wing. Given its age, I and others are certain all the walls had layers of lead paint. It is believed asbestos was used both for noise reduction and insulation. Rather than hire a firm knowledgeabel in how to take down a building with these hazardous materials, it was simply knocked down, releasing those substances into the air and presumably coating all the surrounding area with hazardous dust (which also has not been removed by anyone with the appropriate knowledge and training). Construction workers are certain to stir up this dust and breath it while working on this ballroom at potential long term risk to their health.

So, for multiple reasons, the Ballroom should be axed for 1) lack of real need, 2) lack of resolution of legal issues, 3) lack of approval by the NCPC in accordance with the National Historic Preservation Act, 4) aesthetic reasons of scale and function, and 5) lack of attention to environmental risks to workers caused by this reckless demolition. This is the People's House. It is not Donald Trump's House. He is merely a tenant and had no right to undertake this demolition for this foolhardy effort to massage his ego (which apparently demands constant reassurance and applause).

Thank you for your consideration of my and others' comments opposing this replacement for the destroyed East Wing.

Regarding the East Wing Modernization Project--The White House is the People's House and a beautiful, classical looking building.

Any East Wing addition should be smaller than the White House itself. It should not be taller than the White House either. Otherwise, it will be out of balance, it will no longer be beautifully situated, and it goes from being the People's House to just being an annex to a big ballroom space.

It would be a shame to build an over-sized, unbalanced-looking addition, just to have future generations have to tear it down because it looks bad and out of place. Do it right the first time, make any addition in proportion to the existing White House. Bigger isn't always better.

If more space is needed, add it below ground so it can't be seen and can't dwarf the People's House. Thank you for allowing input into this process.

The White House belongs to the country, not to whoever occupies it at the moment. Demolishing a historic wing and replacing it with a grand ballroom feels more like personalization than stewardship. I don’t want to see something flashy or gaudy take the place of part of our shared history. The East Wing was part of our historic fabric. Any replacement should reflect restraint and respect for the building’s legacy. A grand, ornate ballroom doesn’t feel consistent with that tradition.

Tearing down the East Wing in the first place was inappropriate. The East Wing should be restored to as close to it's original architecture as possible, but to include handicap accessibility. If more space is required for large functions, the structure should be a respectful and modest one that complements, but does not out compete the White House. The White House must be the main building, and all other campus buildings must retain the look as submissive the White House.

I was appalled and dismayed by the wanton destruction of the East Wing of the White House as well as the murder of the Presidents' trees. The plans for a huge ballroom, which, I'm sure, will be gaudy and unworthy of our already great nation, are disgusting. I feel the construction should be permanently halted and the East Wing rebuilt. American taxpayers should NOT pay for it. It should be paid for by the person who ordered the demolition and also by the company or companies who illegally carried it out.

Thank you for the opportunity to give my opinion!

Please include ADA accessibility standards wherever possible. Please maintain the current architectural integrity of the WH. Modernize electrical and plumbing. Please decorate in a tasteful, humble, not gaudy style. Please don't make it look brand new. Since the EW is traditionally considered the 1st lady's wing, please find a way to pay homage to all First Ladies. Thank you for this opportunity to comment.

I am writing to express strong opposition to the proposed East Wing ballroom renovation.

At a time when many Americans are facing significant economic hardship — including rising healthcare costs, housing instability, and difficulty affording basic necessities — allocating substantial taxpayer funds to a lavish entertainment space reflects misplaced national priorities.

Federal planning decisions carry symbolic as well as financial weight. The White House is not a private residence; it is a public institution that represents the values and stewardship of the American people. Projects that appear primarily oriented toward prestige, spectacle, or personal legacy risk undermining public trust, particularly during periods of widespread economic strain.

The Commission has a responsibility to ensure that federal development aligns with the broader public interest. In this moment, the public interest is best served by directing resources toward infrastructure, healthcare access, housing stability, and programs that tangibly improve citizens' lives.

I respectfully urge the Commission to table or reject this proposal and to encourage fiscal restraint and prioritization of essential public needs over ceremonial expansion.

Government spaces should reflect service to the people — not self-celebration.

No public input was received before the wrecking ball demolished history. Preservation was not consulted or considered. This is a waste of money and a harsh break to the continuity of the people's house.
We do not need nor do we desire castles or monuments of nothingness. We do not need nor desire any of the gaudiness that is hallmark of the Trump brand. There is no desire for gold lacquered name branding to a would be King.
Now that the East Wing is destroyed maybe pay homage to those who constructed it, those on whose land it sits and to the constitution that native and enslaved descendants forced this country to live up to.

It is vitally important that all projects involving significant changes to the historic People's House, AKA the White House, be approached via legal and traditional methods, gaining input and approval from the people and their appointed boards and/or committees. Shortcuts must not be taken. Modernizing is an important goal as long as the heart and essence of the historic building and its contents are preserved. I was heartbroken when the historic East Wing was destroyed without public input or the proper approvals, as were millions of Americans. Going forward, that kind of destruction cannot happen again. Going forward, expert designers and historic preservationists must take part in the reconstruction of the East Wing. Great care must be taken.

1st problem The East Wing was torn down without a plan in place and with disregard to the people's house.
2. the current project proposal is a space that is larger than the actual Whitehouse. It is unnecessary and garish in size, does not fit or complement the historic building.
3. there are plenty of large spaces in Washington DC that have worked perfectly fine for large gatherings, inauguration etc. This is a waste of money to build an unneeded and unwanted ballroom on the whim of the current resident.
4. it is a quid pro quo situation to get 'donations' from people and then provide them with government favors, tax breaks, government contracts etc. it is shameful and disgraceful and not what most Americans want from their government, selling out the national monuments to the highest bidder.
5. This is a temporary residence and it is unconscionable that a leader who will be there for a 4 years is emboldened to take a wrecking ball to the history and landmarks of the American people while disregarding the laws and rules that govern updates and changes to national historic places and public monuments.
6. The design needs to be shrunken and modified. The East wing was offices for the First Lady, theater etc and that is what should be replaced, with modern conveniences and facilities to support the work of the First Lady and staff, leisure space for first family etc.
7. The design should come from the American people through a rigorous selection process just like the other recent monuments, Vietnam memorial, Korean War etc
8. it should be replaced with a design that is complimentary to the Whitehouse, not one that dwarfs it.

I, as a citizen of this country, am horrified by the attempt to diminish the stature of the national treasure

known as the White House. This residence does not belong to whomever resides in it, it belongs to the citizens of this country. He is but a temporary occupant and has done so much damage to this historic house since he took office. The destruction of the Kennedy rose garden, the tearing down of the East Wing which gave the house a symmetry and stately appearance, the classless gilding of what once were majestic rooms with a rich history. Now this obscene and tacky blight on the architecture of an American treasure is the next defacement of our house! I'm concerned that this gaudy "addition" to property that Donald J. Trump does not own will cost millions to build. It will not be useful in any way other than to please his ego. There is absolutely no need to build anything of the size he wants. If a larger room was needed to host state dinners, then a much smaller room would suffice, not one that dwarfs the original structure. In my 75 years I do not recall any other president demanding that he needed a new "ballroom". They made due with what they had to work with and somehow everything worked out just fine! I realize that Trump has been to England, France and other European countries with much longer histories than the United States of America. And, quite frankly, he was envious of the palaces he saw there, and wanted one of his own. So, if he wants a palace so badly, then let him build it on his own property and not on property that belongs the the entire country. I cannot imagine how much it will cost to undue the mess he has made of the White House once he is gone, nor can I understand how Congress sat by and did nothing. And I mean, by Congress, the spineless Republicans who have aided and abetted every illegal action he has taken. He follows no rules, and thus far has never had to pay the consequences for any of his malevolent deeds! So I am saying that as a citizen and American, I cast my vote against this defacing of the White House

The East Wing of the White House should never have been demolished. The proper process for requesting or making changes to this historic property were NOT followed. Donald Trump does not own the White House and is a temporary resident. He should NOT be making changes that extend beyond redecorating. The scale of the replacement wing should be proportional to the west wing and smaller than the main White House. There is a need for replacing the First Lady offices that were demolished as future first ladies might actually live in the White House, unlike Melania Trump who is rarely there. And other First Ladies may do work that benefits the citizens of the United Sates. I propose that the East Wing be rebuilt at the expense of Donald Trump to the specifications the National Capital Planning Commission (NCPC) recommends.

To Whom It May Concern,

The so-called East Wing Modernization Project, otherwise know as the Orange Felon Ballroom and Bunker, should never have been stated without the proper protocol and approvals. We are playing catch-up here, but catch-up it is.

Firstly, the audacity of ANYONE taking it upon themselves to destroy a building owned by the AMERICAN PEOPLE just because they think it'll be fun to host many hundreds of people in glorious golden (eye roll) splendor, is mind-blowing and shows in vivid color, the deranged mind of the afore mentioned Felon.

It may be obvious that I am not a fan of this modernization plan, and I would wager if put to a vote, the AMERICAN PUBLIC would agree. Not only do we NOT need this ridiculously expensive project, WE DO NOT WANT it…! I don't believe for a minute ^Felon will pay a personal dime for it. He will leave contractors holding he bag and leave it a shit-hole like he's left everything he's ever touched a shit hole.

Sadly, the damage has been done by the demolition of the East Wing, but please do not add insult to injury and build what ^Felon has proposed. I have an idea…put in a rose garden. Or build it back and charge ^Felon.

Sincerely,

Belinda Isley

Thank you for finally including 'we the people'. Any construction outside of safety/infrastructure improvements should be considered unnecessary at this time. There's never been more division between economic groups of Americans. Adding classless decor, garish additions and the willful destruction of history simply screams 'let them eat cake'. I fear the people will chime in with their own scream of 'eat the rich'. Let's take care of each other instead of spending senseless dollars on demo, decor or deleting historical truth. Funding or contributions from private interests, billionaires and cronies should be never be allowed. This isn't the America we want or were promised. We have bigger problems than fitting the rich and privileged onto a new dance floor. It's reminiscent of fiddling while Rome burned, or saluting Third Reich monuments while so many died. No, thank you.

The need for a ballroom constructed for the magnitude of guests entertained for formal state occasions must comply with the SOI Standards if it's to be sited in the NHL historic property vicinity. It ought to judged for its potential adverse effects to those qualities that made the NHL eligible.

Alternative sites ought to be considered if the adverse effects cannot be mitigated because of the scale, massing overpowering the architectural salient features of the White House.

The British burned down Madison's White House in an act of revenge during the War of 1812. Truman rehabbed the structurally compromised historic presidential palace. Those adverse effects were mitigated by carefully considering the needs of the occupants and the continued preservation of the character defining feature that makes the White House (WH) retain its NHL eligibility.

If the ballroom alternative is chosen at another site, far enough from the WH then the impact will not threaten the NHL listing going forward. Anything less will endanger those qualities and make the NHL listing in jeopardy of being delisted because of the adverse effect going unmitigated

This sets a precedent that puts other NHL properties in risk of being overwhelmed by overdevelopment and poor planning. Preconceived grandiosity without considering less impactful alternatives flies in the face case precedents and renders the SOI Standards weaker and without the force of the NHPA laws, guidelines and statutory history.

Thank you for allowing the people to speak on this project. I think the East Wing needs to be built just as it was before with maybe an increase in square feet of 10,000 feet max. It should not double the White House nor should it look vastly different. This was a historic building and should have never been torn down. Replace it to look as it was. Not one average citizen cares if we have an enormous ballroom. Maybe wait until after this administration is no longer there to finish construction so it doesn’t become tacky looking. Also since it was torn down without approval it needs to be built without taxpayer money. The rose garden needs restored also.

Thank you

Public Comment Opposing East Wing Ballroom Construction

Dear Committee -
The White House is not a private estate. It is a National Historic Landmark held in trust for the American people. Presidents are temporary residents. The building endures beyond any administration.

Under the National Historic Preservation Act, federal agencies have an affirmative duty to protect and preserve historic properties in their care (Section 110) and to rigorously evaluate any undertaking that may affect them (Section 106). A new ballroom in the East Wing is plainly an "undertaking." It demands transparent review, public consultation, and demonstration that historic character and integrity will not be compromised.

Precedent matters. Major interventions at the White House — from the Truman reconstruction to later restorations — were undertaken as structural necessity, not aesthetic preference. Alterations were justified by preservation of the building itself, not expansion of function.

The claim that this project would be privately funded is irrelevant. Stewardship obligations attach to the property, not the checkbook. Private dollars do not dilute federal preservation law, nor do they relieve the public of long-term operational, security, and maintenance consequences.

The White House belongs to history as much as it belongs to us. Any proposal that risks altering its historic fabric must meet the highest legal and ethical standard — necessity, transparency, and preservation first.

Anything less diminishes a landmark that is not ours to personalize.

Respectfully,

Public Comment Opposing Construction of the East Wing Ballroom at the White House

To Whom It May Concern:

I submit this comment in strong opposition to the proposed construction of a new ballroom within the East Wing of the White House.

The White House is not a private residence to be remodeled at the discretion of its current occupant. It is a national historic landmark, a living museum, and a physical embodiment of the American republic. The President is, by design, a temporary resident. The building belongs to the American people — past, present, and future.

The East Wing, though modified over time, was a part of the historic fabric of a structure that has evolved carefully and deliberately since the early 19th century. Alterations to such a site must meet the highest standards of necessity, preservation, and public transparency. The addition of a ballroom — particularly one justified as a convenience or aesthetic enhancement — does not meet that threshold.

The United States has long upheld preservation principles grounded in stewardship rather than personal preference. The National Park Service Standards for the Treatment of Historic Properties emphasize retaining and preserving historic character and avoiding new construction that alters defining features or spatial relationships. Introducing a substantial new assembly structure into the East Wing complex risks precisely such impacts.

Furthermore, the assertion that the project would be "privately funded" does not resolve the fundamental issue. Privately funded alterations to nationally significant historic properties are not thereby exempt from preservation scrutiny, public accountability, or ethical concern. Philanthropic funding does not convert a public trust into a private project. Transparency regarding long-term maintenance, security modifications, and operational costs would also be essential — as these inevitably become public responsibilities.

The White House has endured war, fire, expansion, and restoration. Each major intervention has been undertaken with extraordinary caution and national deliberation. It would be a disservice to that legacy to approve significant new construction without comprehensive public review, preservation impact studies, and meaningful consultation with historians, architects, and the American public.

Stewardship of irreplaceable national landmarks requires restraint. The impulse to build should never

outrun the obligation to preserve.

I urge that any proposal for an East Wing ballroom be halted pending rigorous preservation analysis and full public transparency — and that alternatives be explored that do not compromise the integrity of one of the nation's most important historic structures.

Respectfully submitted,

Meg Murphy

I have a degree in architecture from the University of Virginia. I practiced architecture for a few years before branching out into construction management and real estate development. I am now retired.

I am a fan of classical design. I live in a beautifully scaled and proportioned Georgian Revival home designed by a noted North Carolina architect. So my opinion is an informed one. When I heard the new architect of the East Wing speak at the recent hearings I thought he was very reasonable and he certainly has a lot of experience. But the proposed new wing is too massive. It overwhelms the Executive Residence and is the proverbial tail wagging the dog. In my opinion, it will truly be a mistake if the new structure is not scaled down. I hope there is a way to make that happen.

The White House is the American people's home, It is a historical building who's heritage should be respected and kept intact.

It was my understanding that any remodeling of a historic building had to go through a process of review before changes were made.
President Trump decided that he was going to make a ballroom and went ahead destroying the east wing without getting approval of anyone.

President Trump likes to say that the addition will not cost the American people anything as he has donors who will pay for it. We know how he likes to have his billionaire friends donate to him in exchange for his support of items they want passed. This is wrong!

President Trump does not respect history, it is time that we show him it is important to the American people and to keep his hands off! Stop his ballroom project.

The tearing down of the East Wing of the White House is both a travesty and a crime against ALL Americans. No President has the unilateral power to do this. His new 90,000 sqft "ballroom" should be stopped. You might as well put a big flashing neon sign on it saying his name with arrows flashing and pointing to the front door, on the front of it. That is how repulsive the idea of this is.

For 250 years, we have built a history of "us". Of America. Of our common past, present, and future. The White House is a symbol of our Democracy. Of our One Person, One Vote. Of our Face to the World. it took him just a few short days to completely destroy the Entire East Wing. He has destroyed a huge part of America. It Was OUR White House, not His.

It CANNOT be replaced with an atrocity like his "ballroom". America is not a cheap hotel that you rent out the conference room for holiday office parties and graduation celebrations. And now he wants to add "executive suites" !!! Is this to become our perpetual Trump Hotel??? He can't get one built in Moscow, so he will build one here, with taxpayer money??? You know that constantly increasing $350 million will never be spent on it. He does not operate that way. He has already destroyed the bathroom in the Lincoln Bedroom.

We CANNOT allow our history or our historic buildings to be destroyed on one man's whims. This Project must be stopped. We CANNOT let him continue with this ever-expanding ballroom. Currently, his plans will make it larger than the White House he has allowed to stay standing, for now. Deny him permission to build this ballroom hotel. Force him to rebuild the replacement East Wing, with the exact exterior it had before.

It CANNOT be allowed to continue. We must preserve our Historic and Iconic White House. And he must be held accountable for destroying OUR White House. He had no right to do this, and that ballroom should NEVER BE ALLOWED TO HAPPEN!!!

Thank You.

Since the east wing has already been destroyed, continue with the ball room but at just half the size. Rebuild the west wing offices, etc back so the white house returns to be what it should be, the operation center of our presidency and the first family. The size of the buildings should be appropriate to not diminish the historical white house. Priority should be returning the building to what it was originally meant to be. A place for our executive branch to work and the first family to live comfortably with the first lady having appropriate space to contribute to the presidency and our country. The first lady is important and does meaningful work and should have offices to manage it.

The White House is certainly a significant building, but its primary purpose is to be the temporary residence of the POTUS' family. Large functions can and should be held in the many enormous venues which exist in Washington D.C. The exterior of the East Wing should be rebuilt so that it appears the same as it was before its destruction. The interior should be updated with modern wiring, lighting, plumbing, etc. It should be configured to serve the same functions it served before with adaptations to improve any areas which were outdated or underused. It should be decorated in such a way that it integrates the history of our country with functional and tasteful spaces. Furnishings which were (presumably) removed should be put back into their locations in the new structure. To completely refurbish would be wasteful. The NCPC should be the agency which selects and hires anyone who does any of the reconstruction of the White House Easy Wing. Since the current administration has demonstrated a failure to follow protocol, it should have no role in the project.

It seems a bit late to open up public comments only after the east wing has been destroyed.
This project is a vanity project of a seriously disturbed temporary resident of the White House and should not move forward at all.
Tearing down a historical space without presenting the idea to the public for comment before hand is unforgivable.The ballroom plan should be scrapped and something more appropriate built there.
Something that might possibly reflect what the real values of our country should be versus being another place to fill with gold leaf and marble that signifies nothing except greed and stupidity.

Please limit the size of the East Wing to keep it in scale with the residence. It should not be larger than the residence! Perhaps it should be replaced at exactly the size it had been.

Could a ballroom be placed behind the White House so that it doesn't destroy the beautiful proportions of the existing buildings.

Public Comment Opposing Proposed East Wing Ballroom Construction

To the National Trust for Historic Preservation:

I write in strong opposition to the proposed construction of a ballroom within the East Wing of the White House, a designated National Historic Landmark.

The White House is not a private residence subject to discretionary expansion. It is a federally owned public trust property whose stewardship transcends any single administration. The President is a temporary occupant. The building belongs to the American people.

As a National Historic Landmark, the White House is afforded the highest level of recognition under the National Historic Preservation Act (NHPA). Section 110 of the NHPA imposes an affirmative obligation on federal agencies to protect and preserve historic properties under their jurisdiction. Additionally, Section 106 requires federal agencies to consider the effects of undertakings on historic properties and to afford the Advisory Council on Historic Preservation a meaningful opportunity to comment.

The introduction of a substantial new ballroom structure within the East Wing complex constitutes an "undertaking" under the NHPA. Any alteration that risks impairing historic character, spatial relationships, or integrity must be subjected to rigorous review, transparent documentation, and public consultation.

The assertion that construction would be "privately funded" is immaterial to preservation compliance. Federal stewardship obligations attach to the property itself, not the funding source. Private financing does not exempt a project from statutory review, nor does it mitigate long-term public costs, security implications, or maintenance burdens.

Major alterations to a National Historic Landmark demand necessity, restraint, and full legal compliance — not preference or convenience. Absent comprehensive preservation review and public transparency, approval of this proposal would undermine both the spirit and the letter of federal historic preservation law.

Respectfully submitted,

Cyndy L Murphy

It's hard to know where to begin with my opposition to everything about this project. Proper approvals for a structure of this scope, and the destruction that preceded it? This administration's disregard of law and propriety is the foundation for its disregard of the purpose and history of the White House itself. This monument to despotism, one man's vanity, and bad taste is un-American. It makes a mockery of the ideals on which the nation was founded. It is a bribery palace built with bribes. Its design, if that word can be used, defiles the austerity and scale of the People's House. It is a mortification and cannot be allowed.

The White House is a national monument, owned by the American people. It is not owned by Donald Trump. Renovations and demolition/replacement of a structure fall within the purview of ownership. Therefore, any significant changes to any part of the white House should be determined by the citizens of the United States. As the burden of cost for the proposed project (ie Trump's ballroom) will inevitably be borne by the taxpaying citizens, the plan also falls within of the citizens of the United States. The economy of the country is failing, as reflected in the increase of poverty and lack of affordability of the American people in their everyday lives. That and many other situations drastically indicate the need for taxpayer dollars to be spent on behalf of the people, not one man's ego.
Do not let this fiasco proceed.

Public Comment Opposing Construction of the East Wing Ballroom at the White House

To Whom It May Concern:

I submit this comment in strong opposition to the proposed construction of a new ballroom within the East Wing of the White House.

The White House is not a private residence to be remodeled at the discretion of its current occupant. It is a national historic landmark, a living museum, and a physical embodiment of the American republic. The President is, by design, a temporary resident. The building belongs to the American people — past, present, and future.

The East Wing, though modified over time, was a part of the historic fabric of a structure that has evolved carefully and deliberately since the early 19th century. Alterations to such a site must meet the highest standards of necessity, preservation, and public transparency. The addition of a ballroom — particularly one justified as a convenience or aesthetic enhancement — does not meet that threshold.

The United States has long upheld preservation principles grounded in stewardship rather than personal preference. The National Park Service Standards for the Treatment of Historic Properties emphasize retaining and preserving historic character and avoiding new construction that alters defining features or spatial relationships. Introducing a substantial new assembly structure into the East Wing complex risks precisely such impacts.

Furthermore, the assertion that the project would be "privately funded" does not resolve the fundamental issue. Privately funded alterations to nationally significant historic properties are not thereby exempt from preservation scrutiny, public accountability, or ethical concern. Philanthropic funding does not convert a public trust into a private project. Transparency regarding long-term maintenance, security modifications, and operational costs would also be essential — as these inevitably become public responsibilities.

The White House has endured war, fire, expansion, and restoration. Each major intervention has been undertaken with extraordinary caution and national deliberation. It would be a disservice to that legacy to approve significant new construction without comprehensive public review, preservation impact studies, and meaningful consultation with historians, architects, and the American public.

Stewardship of irreplaceable national landmarks requires restraint. The impulse to build should never outrun the obligation to preserve.

I urge that any proposal for an East Wing ballroom be halted pending rigorous preservation analysis and full public transparency — and that alternatives be explored that do not compromise the integrity of one of the nation's most important historic structures.

Respectfully submitted,

Meg Murphy

Any changes to any part of the White House has to approved by the people of this country and Congress. Mr Trump took the initiative to make changes to the White House and did not follow the appropriate process. I ask the he follow proper procedure.

Trump wants to add a ballroom. The gaudy

description of the changes and gaudy gold decorations are inappropriate. The White House and changes attempted to be made are
Inappropriate. These changes are gaudy and inappropriate. They cheapen the people's house. At the same time, the money used could be put to better use for example: education, research for childhood cancer, or feeding the homeless and elderly who lack resources.

Thank you for your time,
Fred Flores

I don't actually know where to start. I can't really critique the project plan, because there doesn't seem to be one. I was shocked to see the historic East Wing unceremoniously demolished after Trump said it would not be touched. And I guess that sums up my problem with this "project." There was no process. There was no concrete proposal. Just unilateral action from a transient occupant of the nation's property that feels very much like vandalism.

I am opposed to the idea of a 90,000 square foot anything on the grounds of the People's House. I would rather see a restoration of the old east wing foot print. We don't need a ballroom. No one I know of wants to see one. No President should be allowed to act unilaterally and impulsively. It's just not right, and Trumps plunging popularity underscores this.

I vehemently oppose this project and urge you to reject and oppose it to the extent of your ability.

I am writing to voice my opposition to the plans submitted for the East Wing Modernization Project.

While the White House has had several renovations and additions throughout our history, they have all been to accommodate the day-to-day business of the Executive branch; minor changes have been made to the residence side. This proposed renovation does not fall into either category.

The White House is preserved as a museum by Congress. The proposed renovation is not acting to preserve any part of the history of the building and does not show any type of modernization upgrades similar to the ones done during the Truman administration. Congress is the governing authority of Washington, D. C, and any requests to make changes to a federal museum should come from them, and this one has not.

From an economic standpoint, the proposed construction is a bad business move. Current balls or dinners that do not fit into the current spaces at the White House are held at local businesses, held at national museums with local businesses hired for the decorating and catering, or have a temporary tent set up on the White House lawn. Supporting those local businesses are a good, direct way to support the local and national economy.

The number of events you would need to take from local businesses and instead hold at the proposed ballroom in order to claim you have "saved money" on the rental costs would take decades, especially when combined with the tax revenue loss from not supporting these local businesses.

The proposed project is not preserving any of our nation's history, is not updating the White House to be able to handle the daily business of the Executive branch, and is not serving the American people in any way. The only option is to have original East Wing rebuilt.

Project Name: East Wing Modernization Project
Project Number: 8733

A ballroom that dwarfs the White House is unseemly and elitist. The destruction of the historic East Wing without oversight and proper approvals is a travesty. In a country that cannot afford necessary basics to educate, feed, and house its citizens who have fallen behind in our economy, the last thing we need is a ballroom, and justifying it by claiming it will be funded by private parties who will expect favors for their investments — how could they not, when the same administration sells access for contributions — adds insult to injury.

The fact this project was undertaken under false pretenses (a claimed renovation, in reality a total tear down), without the necessary approvals, makes it even more insulting. No one is above the law in the USA.

I strongly urge you to deny approvals for any rebuilds that are not in keeping with the architectural integrity of the original design. This is not a country where kings can do whatever they wish to governmental structures that are owned by the American people and safeguarded by you.

Dear Sirs and Madams,

I am writing today to express my strong opposition to this revolting ballroom project. As with so many other new developments in our society, I can barely bring myself to believe this is a real possibility. And yet, if we've learned nothing else in the last year, it's that the inconceivable turns out to be conceivable.

This simultaneously grotesque and tacky building has no right, on any level, to be built. It is in an affront to the country, to the law, to sanity, and to taste. In and of itself, it is hugely ugly, ridiculous, obscene and tracks exactly the features of its instigator's ego, corruption, and internal ugliness.

Please, please do not allow it to be built!

Sincerely, and with gratitude,
Hilary Brown

Like millions of Americans before and after me, I believe that the White House stands as the physical embodiment of our democracy itself: it is not perfect, but it endures. As long as the flag rises over 1600 Pennsylvania Avenue, so, too, does the dawn rise over a new day for our nation. The White House is so fixed in our country's pyschy that its very form is etched in our national consciousness. Throughout its 226 year history the mansion has faced many grave threats, from the British in 1814 to the Truman renovation of 1948. Had it not been the home of Abraham Lincoln, the White House may have fallen victim to the Victorian age of excess. It is, unquestionably, too small to accommodate throngs of people. It is, unquestionably, too old to accommodate every modern device. But that is precisely why the White House is so critically important to preserve, protect, and defend: it is among the very last structures in our nation that physically connects us to our founding. Every president since 1800 has understood that unspoken rule: do what needs to be done behind its walls, the White House must appear to remain unaltered. For two centuries no president has pierced its walls---not even Truman. And now we have a megalomanic detemined to recast the White House in his own imagine. This must not stand. This must not be allowed to proceed. The East Wing should be reconstructed as it was, the Jacqueline Kennedy Garden should be rebuilt, and a ballroom, if so desperately needed, could be built in a way which honors and blends in with the White House. This is not Mar-a-Largo, this is not Manhattan. This is the People's House, and we the vast majority of the people stand diametrically opposed to the President's plans for the "East Wing modernization." Please do what you know is right, what you know your children, grandchildren, and great-great grandchildren will thank you for: stop this ballroom and preserve our nation's heritage for your descendants.

Hello. First, a question. Did the East Wing require demolition? Was the public asked before the bulldozers rolled? The answer, sadly, is a distinct no. This treatment of the People's House is an abomination. While many First Ladies have historically worked from these offices, our current First Lady spends most of her time in NYC. But what about the next generation of earnest women leaders who want to conduct work from the White House? Will they be relegated to the kitchen?
Having lived in DC, I know of many massive ballrooms already in exiatence. The incredible and historic

ballroom at the National Building Museum comes to mind. What a gem! Return the East Wing to its original scale please. Thank you.

Dear NCPC,

I believe the proposed ballroom is a disgrace and a complete disregard for the unique history and significance of the people's house. It is a project that is steeped in the unique ambitions of one man whose greed and narcissism should not leave a more permanent record on this country than they already have on the hearts and minds of this nations' electors.

We have few historic buildings so painstakingly preserved while simultaneously adapted to modern use. The white house should not be 'flipped' at the whims of any president who so blatantly disregards those who have occupied the space before them and the consequences of their leadership.

I say this is an American who spent formative years in my early career living and working in Paris. Versailles exists as a unique time capsule and memory of the crown, which has been enduringly replaced by democratic institutions- who pay tribute to history but do not attempt to revive the opulence and repression of the past.

Advancing the ballroom project at the proposed scale, or quite frankly any scale, is fiscally irresponsible, disconnected from reality, and disrespectful to the millions of American families who are pleading for our government to provide basic human rights like healthcare and education. It sends a clear message that the elite will continue to disregard the needs of the many to serve their narrow interests, fuel their egos, and destroy any monument, institution, or individual that are at odds with their dystopian vision of public service.

What's more, should an East Wing ballroom be built that dwarfs the original structure, it would symbolically assign leisure and entertaining as superior to the painstaking work of true governance and the pursuit of better futures for our children, our planet, and society.

As we have already seen all respect for precedent and authority sidelined, the NCPC must be severe and

exacting in its review of this proposal and exercise every tool at its disposal to prevent this structure from ever marking the skyline of Washington D.C.

Thank you for your consideration of my comments.

The proposed 90,000-square-foot ballroom addition is, truly, a gaudy abomination. It is far too large in comparison to neighboring wings and to its importance. Its size makes it appear to be the principal section in the complex while, in reality, it is the least important. It is out of proportion to the rest of the complex architecturally speaking and in relationship to its role in government affairs. It also covers ground that would have far more appeal as a garden. Its ostentatiousness is obnoxious. Please, since you can't resurrect the old wing, at least reduce the size of this proposed structure to something in proportion to its neighboring wings.

My comment supports upgrading the East Wing to a room that, WE, THE PEOPLE, can be proud of when the foreign dignataries visit our Country. State dinners can then be held respectively without being crowded into the old wing. The new East Wing Ballroom will bring the United States up to the level of other Countries, which the U.S. citizens can be proud of when the visitors from other Countries visit our President...regardless of party affiliation! This project is funded from donations so the construction will not come from the taxpayers.

Make our Country respected world again! Look at Saudi Arabia and their areas, we need a room that is respectible and inpressive for our foreign visitors!

After watching the January presentation on the preliminary design for the East Wing Ballroom, I find that I agree with Commissioner Mendelssohn. The new addition is out of scale to the White House and other buildings in the area. If it was not as tall or as large a building, it would blend in better with the surroundings. The current trees on the grounds will hide part of it, but trees don't live forever. If one or two die and are removed, there will then be a large starkly white ballroom building detracting from the beauty and importance of the White House.

Commissioners and architects said that Americans deserve a large venue for entertaining visiting dignitaries and holding special events. Very few Americans will ever be in that ballroom for such events, so it really isn't for the American people. While there is probably a need for a larger venue for such events, one must keep in mind that the United States of America is not a kingdom or monarchy or other empire that needs to impress with over-the-top grandeur and size. Is it realistic to expect the American people to foot the bills for 1000 people to be entertained and fed on the White House grounds? Perhaps something a little smaller, maybe 700-800 max, would be more appropriate. The comparison to King Charles entertaining in Windsor Castle is not relevant - we are not a kingdom, empire, with a royal ruler.

Future presidents may not choose to make use of such a large facility. And the American people will foot the bill to maintain this building, without ever getting to enjoy it. With construction, energy and maintenance costs rising year-over-year, a smaller building makes more sense. Presidents could welcome and entertain distinguished guests with a well-designed, high-class, and more intimate building that could accommodate 700 people or so. if, in the future, it is determined that a larger ballroom is needed, the design of this building appears to allow an addition to be built without tearing it down and starting over.

The US sites of importance have typically been built with a little restraint, while still including class, quality and endurance. Please continue this 250-year tradition.

I do not believe that a ballroom is necessary. I do believe that he (Trump) should have the wing built back like it was before he defaced a National Monument with his own money in his pocket. I also believe that he should be punished for destroying The PEOPLES HOUSE. Just like anyone who is caught defacing any National Monument.

The White House is the People's House, and we expect it to be taken care of that way. This wing should never have been demolished. However, now that it has been, I hope very careful consideration is taken for what comes next, and a glass ballroom is NOT it. The replacement should fit the existing style of the building, and connect to the ground level as it originally did. It should not connect to the East Room.

I am outraged by how this project was started and designed with absolutely no public input. The old East Wing was demolished with no advance warning and with no firm plans in place for the new construction to follow. Secondly, the proposed new ballroom is massively oversized and not architecturally complementary with the rest of the White House. This ballroom should not be larger than the historical "People's House" of America. We do not need a gilded monument to Donald Trump.

Please demand some reason, restraint, and architectural taste into this project.

The ballroom plan, a monstrosity, should be abandoned. Any addition larger than the actual White House damages the architectural sanctity of the White House, a building used twenty-four hours a day. Furthermore, a ballroom is like a football stadium, used very few evenings a year versus the grounds that are there 365 days a year. Does everyone who goes to a White House function get a tour of the house? No! Therefore, the president and guests may gather at one of DC's many hotel ballrooms to dine and dance.

Rebuild the East wing that blends with the White House, not an UNNECESSARY ball room. It is imperative that is historically accurate to the White House design and the aesthetics as the original architect James Hoban designed it. Putting up a huge building is irresponsible with our tax dollars and our national heritage. You can modernize the inside but the outside must remain historically accurate and in design with our internationally recognized main White House structure. This is the type of design that makes the District of Columbia so special and recognizable. Having a building larger than our White House would diminish its significance which has me questioning if that is the actual goal?

The complete destruction of the historic East Wing is an abomination.

This is not Trump’s White House, it belongs to the United States of America and any and all modifications, renovations, demolition and construction should take place under the strictest supervision to pay homage to the historical significance of the building and its surroundings. Any construction should also be transparent with respect to budgeting and funding. Trump has claimed “private donors” have paid for too many projects already without any financial transparency. It’s more likely that these donors are participating in pay to play or bribery for favors in connection with their private interests.
The East Wing should be restored to its former condition and expansion projects should be halted permanently unless and until they are appropriately approved.

I feel we should respect the history of the White House and its grounds, as well as the scale and architectural style of the site and the surrounding district. I recommend the East Wing be rebuilt, with simiilar exterior style, and not much larger than what existed previousl, and with similar interior decor and finishes, and improved security and other technology infrastructure. The East Wing itself had its own history that has now been erased, though we have a chance to bring back something that respects the architecture, history, and usage of what existed for many years. The ballroom as currently conceived, is not appropriate for the site, because it is too big, wasteful, projects a level of opulence and triumphalism that most Americans can never experience, and probably will be shuttered and shunned during administrations of future Democractic Presidents. Thank you.

The White House is a National Historic Landmark and National Park, owned by the American people and stewarded by the National Park Service. No president has the right to demolish any part of the White House and certainly any remodeling must be approved by Congress. Major construction projects in Washington, D.C. must be reviewed by the NCPC and the Commission of Fine Arts, comply with the National Environmental Policy Act (NEPA), and receive congressional approval. This administration has gone rogue with our national treasures and must be stopped and held accountable.

Dear Members of the National Capital Planning Commission,
I am submitting this comment to express my deep concern and strong opposition regarding the demolition of the East Wing and the proposed construction of a 90,000-square-foot ballroom within the White House complex.
The reported removal of the East Wing represents a profound and irreversible loss to a site that belongs not to any administration or individual, but to the American people. The White House is a national historic resource and a symbol of the continuity of our democracy. Any action that permanently alters its structure, character, or historical integrity should only occur following full transparency, public engagement, and appropriate congressional authorization.
The fact that demolition has already occurred raises serious concerns about process, oversight, and stewardship. Decisions affecting a site of this national significance must follow established preservation standards, including thorough review under federal historic preservation and environmental procedures. If such review was incomplete, bypassed, or insufficient, corrective action is warranted.
The proposed construction of a 90,000-square-foot ballroom further compounds these concerns. A structure of this size would significantly alter the scale, landscape, and historic character of the White House grounds. Such a major addition does not reflect preservation—it represents a substantial transformation of a historic site whose integrity should be protected for future generations.
Additionally, the use of private funding for permanent structural changes to a national historic property raises serious ethical and governance concerns. Public landmarks must remain free from any perception that private financial interests can shape their long-term development. The White House is public property, and its evolution must be guided solely by public interest, lawful authority, and transparent oversight.
Given the circumstances, I respectfully urge the National Capital Planning Commission to take the following actions:
• Immediately halt any further construction or site alteration related to the proposed ballroom
• Conduct a full review of the demolition process, including compliance with congressional authority, historic preservation requirements, and federal review procedures
• Require full congressional authorization before any new construction of this magnitude is permitted
• Develop and require a plan to restore or appropriately reconstruct the East Wing in a manner consistent with its historic character and established preservation standards
The physical integrity of the White House is a matter of national trust. When changes occur without clear public accountability, that trust is weakened. The American people expect careful stewardship, adherence to law, and respect for the historical significance of this national symbol.
I urge the Commission to exercise its authority to protect the historic character, public ownership, and long-term integrity of the White House complex.
Thank you for your attention to this matter and for your commitment to responsible stewardship of our nation's historic resources.
Respectfully,

As a member of the Village of Frankfort, Illinois, Historic Preservation Commission I am proud to participate in the process of reviewing all external changes within our historic district. A public hearing allows comments and input from all who so desire. Most, if not all, municipalities in the nation with historic districts follow similar democratic processes to protect, change, or add to their historic assets.

Thus, I am appalled and disappointed that there was no review before the demolition of the East Wing of the "People's House" and the proposed construction of a ballroom. This was the destruction of American history without any discussion of the merits or demerits of the project. This is not a political issue but an effort to protect American material history. If there is to be new construction to replace the old site that should be held up to public review and comment. Before such national treasures are permanently changed, the American people deserve to have a voice in the process.

I urge all parties involved to stop, look, and listen before any new construction resumes. It would be nice if the new construction involved American citizens in the process reflecting the ideals of the 175 year-old Declaration of Independence. The White House is the people's house and any changes should include the people's input.

As a historian, taxpayer and citizen, I oppose the East Wing Modernization Project. I do not believe companies and donors should be permitted to fund a ballroom or other construction or renovation plans at the White House, because funders may ask for or expect special favors and lobbying. The President does not own the White House. It is a temporary residence and temporary office space during a term, not a personally owned property. Perhaps the President can purchase land elsewhere in Washington, DC with his own finances and build a ballroom, conference center and hotel. It is not clear whether workers were subjected to asbestos. The White House is a National Historic Landmark and National Park. Thank you.

The White House is the enduring symbol of the presidency. The office is bigger than the person who occupies it at any given moment. Because of this, significant changes to it should not be made unilaterally.

The changes underway are so significant that they require an unbiased analysis of their impact. From what little has been made public, it appears that these changes go far beyond modernization. They change the fundamental nature of the building. It is outsized, overbearing, and will destroy the beauty of a building that has been carefully developed over 200 years.

More importantly, it will create exactly what Washington and Jefferson did not want - a place fit for a king. The White House was designed to be modest in comparison to the homes of European monarchs. It is the home of an elected leader, not royalty.

Any addition should not compete with the central structure and be consistent with the values that drove the orginal design.

While expanded event space may be needed, additions must respect the historic scale and design of the White House. At 90,000 square feet, the proposed ballroom would exceed the size of the 55,000-square-foot Executive Residence. Additions to historic properties should be compatible in scale and subordinate to the original structure. Additionally, the design should reflect that this is the People's House. It should be modest and moderate not glitzy and flashy.

Dear Folks,

When we need desperately food for hungry children in the country, our infrastructure fixed so our bridges don't fall down, homes for the growing homeless, and healthcare for huge numbers of uninsured families, I think the ballroom plan is frivilous. That said, the East Wing and the rose gardens are already destroyed. No

one was consulted for that demolition. Now this ostentatious ballroom meant just to give a stage to the preformance of politicians who serve themselves rather than serving the people they have been elected to serve, is embarassing and demoralizing to citizens who live lives of moral integrity, of kindness to their families and to their communities and who govern their daily lives with prudence and common sense. We are seeing a structure glorifying greed and pomposity being attached to the White House, rather than any inspiration of the values of freedom and benevolent world leadership that used to charactoerize our beautiful USA. My heart is sad.

The East Wing was destroyed without thought or permission. The historic integrity of the People's House should be restored. Update the wiring, safety, and energy management systems but the historic structure should be restored. It is an American tragedy that a historical monument was destroyed without foresight. The current president does not have the authority to destroy the People's House. Our House must be respected and protected.

Thank you.

The destruction of the East Wing was a travesty. The proposed ballroom as described is out of proportion with the remaining White House building. The rebuilding of the East Wing must be in keeping with the historic and aesthetic value of the remaing structure. A significant history was lost when the East Wing was illegally demolished. The White House does not belong to its temporary tenant (the President), but to the American people. The whim of one man to destroy its legacy and build a monument to himself and his cronies must not be allowed. Federal law spells out the steps that need to be taken in order to alter historically significant and protected spaces. The White House is more than a building; it is a symbol of America recognized the world over, and as such, must be preserved and respected. Ideally the East Wing should have been modernized within, not razed. Let us hope that it will be rebuilt in a tasteful manner that reflects the historical significance of the White House and not that of a gilt crazy narcissist.

I am firm in the belief that the proposed addition of a ballroom as it has been designed is completely inappropriate in scale in comparison to the historic White House. I am not debating the need of or not needing such an addition. Rather, what has been presented is just completely out of scale when inserted into the existing White House complex. The entire historic White House complex has evolved over the centuries, reflecting the needs and tastes of current presidents. Any changes have always been thoughtful, studied, and in keeping with the dignified design of the President's House. This project does not reflect any of this.

Such a huge tragedy that the East Wing was demolished without due process. I was angry and appalled. Now, I am not in favor of a ballroom which will be built on top of a data center and other necessary facilities. I suggest the gaping wall be closed with appropriate design. Then cover the area with rich soil and build (or rebuild) a rose garden and, perhaps, an orchard of heritage fruits and nuts to preserve native species. We do not need more spectacle and merriment for the rich from around the world. We do need more natural spaces to remind the country that we are only one cog in an interlocking system that supports us and that we are responsible for.

The ballroom is the personal fantasy of an angry, evil man. Do NOT build it.

I am opposed to the addition of a large ballroom at the White House.

The White House is not merely a residence; it is a carefully evolved architectural document spanning more than two centuries. Originally designed by James Hoban in a restrained neoclassical style, the building reflects the architectural ideals of the early republic. Introducing a large new ballroom risks disrupting the proportional balance and compositional harmony that define the structure's historic character.

As a National Historic Landmark and global symbol of American democracy, the White House represents continuity, restraint, and institutional stability. Significant structural additions—particularly those driven by contemporary functional demands—may shift its identity from a preserved civic monument to a modernized executive complex, potentially diluting its symbolic gravitas.

Also, historic architecture often derives its power from restraint. The White House's scale is intentionally modest when compared to European palaces, reinforcing the American rejection of monarchy. Adding a grand ballroom could unintentionally evoke the scale and ceremonial excess associated with royal residences, undermining the philosophical foundations embedded in its design.

The White House's setting—particularly the South Lawn—is integral to its architectural composition. The building was designed as part of a broader landscape ensemble. Any significant new structure risks altering sightlines, spatial relationships, and the historic setting that contribute to its architectural significance.

It is not necessary to make such a change when alternatives already exist. State dinners and large receptions are already accommodated within existing spaces such as the East Room or at nearby venues. Expanding the building footprint for occasional ceremonial use do not justify the long-term architectural and preservation impact on one of the nation's most significant historic resources.

For these reasons, I oppose adding a large, out-of-scale ballroom to the White House.

The recent modernization proposals for the White House East Wing raise serious and legitimate concerns regarding scale, transparency, and fidelity to the historic character of the presidential complex. While modernization and infrastructure upgrades are both necessary and expected for a working executive complex, the size and scope of the East Wing projects appear to push beyond routine rehabilitation and into transformative expansion. Such expansion warrants careful public scrutiny, particularly when it affects one of the most symbolically and architecturally significant structures in the United States.
The East Wing has historically played a supporting role to the Executive Residence, housing offices for the First Lady and staff while maintaining a relatively modest architectural profile. Its scale has traditionally deferred to the prominence and neoclassical dignity of the main residence. However, current proposals suggest substantial reconfiguration, underground expansion, and structural modernization that could alter the spatial balance within the White House complex. Even when additions are largely below grade, excavation, structural reinforcement, and mechanical system overhauls can materially affect the historic fabric of adjacent buildings, landscapes, and sightlines.
A central concern is whether the cumulative massing and footprint of the modernization efforts respect the established scale of the historic structure. The White House complex was never intended to resemble a sprawling federal campus; its architectural power lies in proportion, restraint, and clarity of design. Expansions that incrementally enlarge the East Wing risk diminishing that restraint. Changes that may seem modest in isolation can collectively alter circulation patterns, landscape features, and the experiential character of the grounds.
Equally troubling is the piecemeal manner in which the broader White House complex plans have been presented. When modernization projects are segmented into discrete initiatives—mechanical upgrades here, underground additions there, security adjustments elsewhere—it becomes difficult for observers, preservation advocates, and oversight bodies to assess the total cumulative impact. Transparency requires more than isolated project descriptions; it requires a comprehensive master plan that illustrates how each component fits into a unified long-term vision.
Without a holistic presentation, stakeholders cannot fully evaluate compliance with preservation standards or determine whether the work respects the historic scale and integrity of the Executive Residence and its surroundings. Incremental approvals may unintentionally bypass deeper scrutiny that would accompany a

single, consolidated proposal. This approach risks normalizing expansion by degrees rather than confronting the architectural and symbolic implications head-on.
The White House is not merely an occupied residence or office building; it is a national symbol whose architectural continuity conveys stability and democratic tradition. Alterations to its East Wing should be guided by the highest preservation principles, including reversibility where possible, minimal intervention, and clear deference to the original design hierarchy. Modern needs—security, accessibility, infrastructure resilience—can and should be accommodated, but not at the expense of proportion and historic character. At a minimum, a comprehensive disclosure of all current and anticipated modernization initiatives within the complex is warranted. Such transparency would allow for informed evaluation of cumulative scale, visual impact, and long-term precedent. The American public deserves confidence that changes to this iconic structure are undertaken with restraint, respect, and full appreciation of its historic significance.

As a person that grew up in the DC area, I was blessed with opportunities to visit the monuments, Smithsonians and historical buildings that made me proud of our American Heritage, especially those that made these places living tributes for all to experience. When I saw the demolished East Wing, I was brought to tears that such callous destruction of American history happened and all I could think of was how it was pure greed and selfishness behind such a horrendous act! It will never be the same and unfortunately, these plans to build a "ballroom," which appears to again be due to pure greed and selfishness, will further bankrupt our glorious standards for historical places in DC, as well as add to the National Debt. Neither are good for everyday Americans. To continue to insult us by stating it's a security issue further illustrates just how removed the wealthy are from any true reality for everyday Americans. I cannot, morally or ethically, believe that any politician would support this "ballroom" plan unless that politician is inept and does not understand their position is to support their constituents, not "kiss the ring!"
DO NOT LET THIS TRAVESTY HAPPEN. TOO MUCH HAS ALREADY BEEN LOST!

While I'll understand the need for updating and modernizing the White House, I don't find a 90,000 sq ft ballroom practical. How often is a ballroom needed, 4-6 times a year, if there is a way to make the space smaller in scale,not over powering the White House itself, and design a space that could fulfill day to day needs and be converted into a larger event space as needed, it would make sense. But not as a space that will collect dust but cost money for upkeep. Come up with a better alternative that meets the day to day needs of the White House and it's staff.

As a historian devoted to the architectural and civic integrity of our nation's capital, and as one who has walked the corridors of the Executive Mansion with reverence for its layered past, I rise in unequivocal opposition to the construction of a ballroom on the site of the former East Wing of the White House unless and until it passes the full and transparent scrutiny of every appropriate architectural, historical, preservation, and congressional review body — and is funded through duly authorized public appropriations.
The White House is the People's House. It is the residence of the President; it is not his private estate. Its walls enshrine not merely the lives of individual officeholders, but the constitutional continuity of the Republic. Every brick and balustrade belongs, symbolically and legally, to the American people.

History provides clear precedent. When Theodore Roosevelt undertook the 1902 renovations that formalized the West Wing and added the third floor, he did so within the structures of federal authority and professional oversight. When Harry S. Truman confronted the near structural collapse of the mansion and authorized its comprehensive gut renovation between 1948 and 1952, he did so only after Congress approved the effort — an undertaking of immense national consequence carried out transparently and at public expense. The controversial Truman Balcony itself was debated openly, reviewed architecturally, and defended as a necessary structural and functional enhancement.

Later presidents likewise acted within institutional bounds. John F. Kennedy, working closely with Jacqueline Kennedy and preservation experts, initiated a historically rigorous restoration that treated the White House as a museum of American democracy rather than a canvas for personal taste. Barack Obama

authorized modernizations and security updates through established federal processes, subject to professional consultation and congressional appropriations. None of these changes occurred at the whim of one individual. None bypassed oversight. None were justified by ego or spectacle.

To proceed with the demolition of a portion of the White House complex and the construction of a grand ballroom without full review by preservation authorities, architectural commissions, congressional committees, and the public itself would represent not progress but desecration. The White House is not merely a functional residence; it is a national monument, a site of collective memory, and a living symbol of constitutional order.

The destruction of any portion of this historic complex absent due process would not be an act of stewardship. It would be an act of erasure.

Those who authorize such demolition — including contractors and crews who would carry it out — must understand that they would not be participating in a neutral construction project. They would be altering a protected national symbol whose preservation is a matter of public trust. Accountability must attach to all who would treat this civic inheritance as disposable.

A ballroom may flatter the vanity of an administration. But the White House was not built to glorify individuals; it was built to house the office of the Presidency within a constitutional framework that outlives them all. If expansion is truly necessary, let it proceed through lawful appropriations, professional preservation review, and full public transparency. Let it be funded by the people, debated by their representatives, and designed in harmony with the architectural and historical integrity of the Executive Mansion.

Anything less would betray the very principles the building was meant to embody.

I'm writing to oppose the 90,000 sq ft ballroom addition to the White House, which would be a blight on this historic building that belongs to all Americans. If an expansion is necessary, it should be carefully and fully reviewed by the appropriate parties BEFORE any construction starts and the scope of the project should be aligned to the building itself, not overpower it. The architectural design and decor should also be in sync with the building's history and purpose as home for democracy (not a gilded castle for a king).

This past autumn the Trump administration tore down one of the most important historic structures in Washington, DC, the East Wing of the White House. In doing so, they totally demolished a historic building built in 1902 and renovated in 1944, without regard for Section 109 of The National Historic Preservation Act (NHPA, Pub. L. 89–665, 80 Stat. 915) is legislation intended to preserve historic and archaeological sites

in the United States. The act created the National Register of Historic Places, the list of National Historic Landmarks, and the State Historic Preservation Offices.

The President now wishes to replace the East Wing with a building designed to engulf the main Whitehouse being planned at 90,000 square feet. In addition, the new building does not take into account the dignity and Thomas Jefferson concept of a presidential home fit for an elected citizen but not a king. This is a grotesque replacement without proper consideration of the historic nature of the site and even illegal under the 1966 act.

Adding to this destruction of a public national registered building is the secrecy with which this new building is being planned. It is unknown if there was proper asbestos mitigation during the demolition, proper permitting precured before beginning the take down, and proper archaeological and environmental surveys performed as per legal requirements. It is also unknown whether the architect has taken into account the appropriate respect for the Whitehouse and west wing proportions as well as the historic positioning of the destroyed historic rose garden and Jefferson visitor entrance.

This is not a renovation but a purposeful and selfish replacement and if it doesn't follow proper reviews for historical preservation and appropriateness for its site, then it should not be constructed and the money should be used to rebuild the 1944 building along with any remnants of its 1902 predecessor.

The destruction of the east wing is an affront to the historic meaning of our White House.
To turn it into the glorification of one man is an abomination.
Certainly, renovations of any building of historic significance should be reviewed and directed by the persons qualified to do so.

Historic Preservation Laws are to be upheld and not as an after thought.
The total disregard for due process and discussion about such an undertaking was deliberately ignored. The fact that it was destroyed without proper consultation for such a vital historical property, has the potential to set precedent for others to follow suit.

I do not care about a gold leaf ball room or a bunker to protect some financial contributors and their families…
I care about the future ahistorical preservation of historical property that are now at risk, due to these illegal actions on this undertaking.
Show me how this ill thought destruction of the East Wing benefited the Citizens of the USA?!!!

Dear Commissioners,

I have reviewed your project materials and watched your Jan 8, 2026 hearing on the East Wing Modernization Project. Based on the drawings presented, I considered the new East Wing to be out of scale. The addition overwhelms the original central building in both size and height. As a landscape architect, I appreciated the consideration being given to the pedestrian level views from Pennsylvania Ave NW and E St NW. I believe the proposal, if built as shown during the hearing, will look awkward and disproportionate from both streets. I was skeptical when I heard comments suggesting that the future plantings will mask the oversized addition. I don't believe this is accurate or appropriate.

The project team indicated that they will be bringing multiple items to you, including a new visitors' entrance (I may have the name wrong--apologies) to replace trailers now being used, and I believe they mentioned changes to the West Wing? I would ask that the team return with at least a schematic of their campus plan together with a revised proposal with a smaller footprint and lower height for the East Wing.

Thank you for providing this opportunity for commenting.

First off I cannot believe an entire Whitehouse wing can just be demo'ed instantly with just no approvals or anything....but here we are and what is built back needs to be the best it can be .
1. Nothing taller or wider than what was there.
2. Though I'm not a classical architecture fan the exterior look does need to fit in with what's left.
3. Create an office suite for the future First Ladies.
4. No dining room needs to be 90,000 sf.
Thank you

Modernization? What a joke. This structure and the White House is a nation al treasure. Bad enough the current admin has transformed the interior into a gaudy burlesque embarrassment. The distraction of the East Wing is an insult to the American public. We need no palace for the self-aggrandizing wanna be emperor to leave his stamp on our heritage. Spend the funds to rebuild it in the original form.

Trump said he would build a beautiful ballroom. He said it would be paid for. And HE SAID the East Wing would not be touched. Then he took a wrecking ball to it! For over one hundred years numerous presidents and their families have lived in the White House and some of them added to or remodeled the East Wing! I have not heard if the contents were saved when it was demolished. I doubt that man did anything to preserve its history. There should NOT be a ballroom. The East Wing should be built back the way it was. And shame on the people who want to buy favors from trump. This is a tacky project that won't do anything for Americans! Trump is EVIL! People have been killed by trump's followers doing his bidding. All over the world! In Gaza. In Ukraine! In the Caribbean! In Minnesota! The last year has been a disaster! NO

BALLROOM!

The destruction of the East Wing of the White House was an act of vandalism. If it were done by any other person than the individual occupying the White House, that person would be in jail and be required to pay enormous fines and be required reconstruct the destroyed building wing to exactly what it was prior to the vandalism. The work should be done, of course, under the supervision of appropriate experts and authorities.

A public building was destroyed. In effect, a national monument, a genuine symbol of America, was both damaged and destroyed. A rather beautiful scenic view was destroyed. The building needs to be restored to what stood prior to the vandalism. This was a criminal act. The perpetrator needs to pay for his criminal act.

We the "real" people of America have no need for a 90,000 square foot ball room. This project must be terminated. Too much irreversible damage has already occurred. The hard working people of America took pride in the East Wing and somehow it needs to be returned to "the peoples building". We must reclaim our rights and reclaim what our hardworking forefathers fought to preserve.

The new building exterior should replicate the building that was removed. The interior can be newly planned.
It is important that the exterior of the building does not intrude on the White House or other adjacent historic buildings. The scale and massing are critical.

We willmlive with these decision for generations. it is important it be done right.

I am appalled that a president demolished a part of American history without any regard for the country’s citizens or that they pay for maintenance of the White House. The average citizen will never be invited or benefit from his ballroom. It will not be used for charitable fundraisers. The president’s agenda for the White House should be voted on. The White House is America built for Americans, not for one man, but all of us. Prove me wrong and invite us all when it’s built. If you won’t, it shouldn’t be built.

National Capital Planning Commission members,

I am writing out of concern about how our tax payer dollars are being used for a project that has been touted as "donor funded." As I understand it, only the ballroom is funded by wealthy supporters of this administration. The rest of the project, which is mostly below ground, is being publicly funded. Public information regarding the accounting for this segment is scarce. There doesn't seem to be any visible oversight on any level of this major undertaking.

CNN is reporting a classified facility underneath the ballroom and there are reports that the cost swings by a hundred million dollars in a single day. An NPR affiliate reported this morning that the cost per square foot is astronomically higher than even the most posh and luxurious of all renovations complete with every high end finish, every bell and whistle.

As if these things weren't already concerning enough, the architect who rebuilt the Pentagon just picked up three federal contracts within seventeen days, all within walking distance of the White House.

My question for the commission is, why is this project not more publicly transparent? If our funds are being used, we should know the details. Where is the oversight for this project?

Even when details must remain classified, it's reasonable to expect clear authorization, defined accounting categories and a transparent explanation of who is responsible for the oversight of this project.

As a former resident of Washington DC, I was very sad when I learned of the demolition of the East Wing. As a conservationist, I was alarmed to learn that said demolition was conducted without proper permits. Abatement of hazardous materials likely did not happen. This is not acceptable. I ask that we demand better. We deserve better. Thank you.

As a National Trust member for four decades and the former owner of a National Register-listed property, I am appalled that one man could destroy a national treasure like the East Wing of the White House without anyone stopping him. A building this important and the property of all citizens deserves any alterations to be reviewed by experts in historic preservation not Mr.Trump's impressively uneducated sycophants.

Alterations to historic structures should show some respect for what exists and definitely not eclipse the original for vanity's sake, as Mr.Trump wishes to do here.

You will have more work to do if Mr. Trump goes ahead with his monstrous gold- decorated arch. Keep a watch!

Thank you.

The White House is the people's house and the east wing should follow the required guidelines for completion. I am disappointed that the east wing was demolished before careful consideration and planning was taken to ensure the process was followed. So much history has been destroyed already from the rose garden to displays being removed to the current president adding his name to the Kennedy Center

which is a legacy to honor Kennedy's support of the arts. That this administration is trampling history, protocol, processes, and congress is abhorrent. The "ballroom" if built onto the White House should not exceed the size and adhere to the architectural style and decor. The country deserves for rules to be followed and no one needs a "palace" or palatial ballroom on White House grounds. Looking forward to seeing the plans and final outcome.

I was amazed he could get away with destroying the historic peoples' house! No oversight, no brakes, no reprimands. This should have first been discussed and then approved by the historic society—which hopefully would never occur. The size is out of proportion, the design is gaudy. This is a waste of money, donated or not. (Bribes we know of course). The rose garden and new patio were bad enough but this is a charming old building. He needs to be stopped before he ruins everything good about our nation.

I strongly urge the National Capital Planning Commission to reject the proposed 90,000 square-foot ballroom addition to the White House. This proposal is an architectural and civic monstrosity that would irreversibly damage one of the most important historic sites in the United States.

The White House derives its power and dignity from proportion, restraint, and symbolic clarity. A structure of this scale—larger than many convention centers—would grotesquely overwhelm the Executive Mansion and obliterate the carefully composed relationship between building, landscape, and public space. Once constructed, the harm would be permanent and impossible to undo.

This proposal reflects a fundamental misunderstanding of the White House's purpose. It is not an event venue to be expanded at will, but a historic residence and civic symbol whose meaning depends on continuity and limits. Introducing a massive ballroom on its grounds would reduce a national icon to something closer to a private resort or luxury complex, diminishing its civic gravitas and historic integrity.

Approving this addition would also establish a dangerous precedent: that even the most protected and symbolically charged site in the country is subject to oversized, unnecessary expansion. If the White House can be altered in this way, no historic landmark is truly safe.

The Commission exists to prevent precisely this kind of overreach. Stewardship of the nation's capital requires judgment, restraint, and respect for scale—not acquiescence to excess.

I urge the NCPC to categorically reject this proposal and reaffirm its duty to protect the architectural dignity, historic integrity, and symbolic meaning of the White House for future generations.

Project Name: East Wing Modernization Project
Project Number: 8733

As I understand it, part of the required design for any addition to the White House includes approval by the NCPC committee. The proposed addition must harmonize with the existing structure of the White House. In that case, any architectural design that dwarfs the White House would be unacceptable. It appears that the current proposed design for the East Wing replacement will violate that rule. Moreover, the architectural drawing of the interior appears to show a room whose opulence exceeds that of the Palace of Versailles. Is this appropriate in a building that demonstrates United States' citizens' devotion to democracy?

Finally, this entire project was developed without public or proper governmental authority input. The claim that the U.S. taxpayer will not have to finance any part of it is unverified. Also, the supposedly "private" donors who may fund it are not identified. This leads to the suspicion that the entities who do so may view their contributions as a quid pro quo. Considering this President's history of rewarding bribers and bestowers of medals with whatever they want, I'm afraid this ballroom will become just another opportunity for the President to stamp his name on a monument.

Please deny the president's application for the modernization of the East Wing by replacing it with a gigantic ballroom. His proposed project is too large in scope to the rest of the White House; it will be inconsistent with the historical style of the rest of the White House, and if a ballroom is truly needed there are other locations that can be considered. The ballroom does not have to be in or connected to the White House.

The president should be made to replace the East Wing that he had demolished, without proper authorization, with the millions of dollars he raised for the ballroom from the donors who are buying his favor. Any structures replacing the East Wing or any other historical building or structure must go through the proper and required steps to obtain approval before the structure is altered in any way. It should be in proportion and style matching the White House. One should not have to look at the complex and wonder which is the main building. And please oversee the decor to ensure that we do not end up with gaudy gold accent pieces, wall, rugs, and window coverings like he has used in and near the Oval Office. Thank you.

The destruction of the East Wing of the White House was and is a national tragedy. it is a direct slap in the face of the American people and is an illegal and deliberate act of political sabotage. All activity in this location must stop until proper procedures are followed to clean up this mess. This site should remain fallow until it can be reclaimed in a legal, ethical and non-political manner. There should be an immediate moratorium to stop any further work at this site for a significant period of time. Congress must act now to stop all activity that is not legally authorized. This is our national heritage that is being systematically destroyed only for reasons of self-serving presidential vanity.

First - this project is rather “cart before horse,” is it not? If done correctly, the current administration would have gotten the feedback and permission about the project first, not after they tore the East Wing down. Given that the damage is done to the people’s house, I want to say that I am completely and totally against this “modernization” project, as would be anyone who believes in our democracy. The only thing I would suggest for that space now, except for rebuilding it exactly as it was before, is a hall for a “Museum of Democracy,” a place that documents the lies and crimes of the Trump years as we come to know the full scope of them, the gaps in our laws that allowed he and his cronies to exploit, and warnings to future generations of what we had, what we lost, and what we must never, ever do again.

Dear National Capital Planning Commission,

The White House is not only an executive workplace. It is a civic symbol, a living historic site, and a public trust held on behalf of the American people. That is why the East Wing modernization should be evaluated not merely as a construction decision, but as a statement about national values, including women's leadership, democratic legitimacy, and the standards we expect of public institutions even when technical exemptions exist.

I recognize the project narrative's stated rationale: long-term water intrusion and deterioration, extensive mold contamination, security limitations, and deficiencies in ADA compliance and life-safety performance. I also recognize the government's assessment that, following removal of the East Colonnade and the East Wing buildings, the east façade of the Executive Mansion is "excellently preserved." These are serious operational concerns that deserve serious solutions. Modernization, accessibility, and occupant safety are legitimate goals.

At the same time, the East Wing's meaning cannot be reduced to its building systems. For 83 years, the East Wing has functioned as the operational home of the First Lady and her staff, and as a visible locus of women's civic leadership within the White House complex. In the modern era, the Office of the First Lady has been a professionalized institution, not a decorative accessory. When the physical seat of that work is treated as interchangeable, the public receives a message that the work most closely associated with women's leadership at the White House is secondary and easily displaced. That symbolism matters, particularly at a moment when women's equality remains contested in both law and culture.

This project also implicates public-trust norms. The White House may be exempt from certain statutory preservation review requirements, but exemption is not the same as best practice. The nation expects the presidency to model accountability and transparency, especially when decisions affect spaces that carry civic meaning. The project narrative notes an informational session with the NCPC on January 8, 2026, and subsequent engagement with NCPC staff. That engagement should now be strengthened and formalized through clear, public-facing documentation and enforceable commitments, because demolition and removal have already occurred and the remaining decisions will define what is restored, what is interpreted, and what institutional messages the rebuilt East Wing will carry for decades.

I am encouraged that the project narrative describes salvage and preservation intentions, including retaining significant architectural and historic elements and stating that the historic Kennedy Garden and other significant trees were preserved offsite or relocated within the grounds, and that the I. M. Pei–designed pergola from the East Garden was preserved. Those statements should be paired with a transparent, public mitigation and interpretation plan that allows the public to understand what "preserved" means in practice: where elements are stored, what will be reinstalled, what will be displayed, what will be replicated, what will be permanently lost, and how decisions are being made.

Accordingly, I respectfully request that the National Capital Planning Commission exercise its oversight role by conditioning project advancement on the following:

1) A clear, public statement of need and program impacts, including how the rebuilt East Wing will preserve the dignity, functional capacity, and institutional standing of the Office of the First Lady and its staff during and after construction.

2) Publication of final design materials at a level sufficient for meaningful review, including site, massing, circulation, accessibility, and security-driven design impacts, along with a transparent explanation of what choices were made and why.

3) A public mitigation, salvage, and interpretation plan with enforceable commitments: what historic fabric

and features were removed, what was salvaged, what will be reintegrated into the new structure, what will be interpreted for visitors, and where these elements will be located.

4) Clear disclosure of decision authority, funding sources, and schedule/phasing impacts to public access and the visitor experience.

Modernization that protects safety and accessibility while honoring women's civic leadership and the White House's historic character is possible. Modernization that diminishes the institutional stature of the Office of the First Lady, and/or that proceeds without meaningful public-facing accountability, is a choice. The NCPC has an important role in ensuring that the rebuilt East Wing reflects not only operational requirements, but the democratic values and civic symbolism that the White House is meant to embody.

Thank you for your consideration.
Kevin

Please, please keep the ballroom in concert with the original design of the White House. It should NOT be so large as to create an imbalance of the building's design. This is an abomination to the American people and does NOT belong in a country that is no ruled by a king. The original design should have been approved in advance before the wing was destroyed .

It is not too late to correct this mess. Please, please have a group of architects involved that are NOT under the thumb of President Trump correct the course of this mess.

Thank you.

The NCPC website couldn't be more user UNfriendly! It invited comment on the East Wing desecration of our national treasure and then makes it impossible to comment.
You need a more accomplished computer nerd working on this comment page.
BTW, every construction project the Orange Man has and is proposing for our capital is likely illegal but very expensive to reverse when he is no longer in residence in Washington and the White House.

Dear committee,

I was very disappointed that the wing was demolished prior to input and approval. I feel the President and the American people would be better served by restoring the East Wing and, if a ballroom extension is needed, plans should be submitted for that separately.

Sincerely,
Sylvia Cumming

The current president is not the owner of the White House, just the current tenant. The property is owned by the people. The demolition of the East Wing is a violation of the law.
I urge the National Capital Planning Commission to require reconstruction of the East Wing, compatible in form and subordinate in scale to the original structure of the Executive Mansion.

I am writing to express my strong opposition to the proposed "East Wing Modernization Project." This project represents a radical and irreversible departure from the architectural integrity of the White House and its symbolic standing as the "People's House."

Architectural Bastardization
The demolition of the historic East Wing, completed in October 2025 without prior public notice, has already stripped the White House of a structure that was integral to its operations and aesthetic for over 80 years. The proposed 90,000-square-foot replacement—a massive ballroom addition—is out of scale with the historic Executive Mansion. By matching the height of the main residence and significantly increasing the building's footprint, this project creates a visual imbalance that diminishes the prominence of the original James Hoban design. This is not a "modernization"; it is an architectural bastardization that replaces historical stewardship with ostentation.

Erosion of Democratic Meaning
The White House is more than just a residence; it is a public monument and a symbol of American democracy. Proceeding with this construction without the transparency of a full public review process—and before receiving necessary congressional authorization—undermines the democratic principle that the "People's House" belongs to the nation, not any single administration. The secretive nature of the initial demolition and the reliance on private funding for a public federal landmark further erode public trust.

I urge the Commission to reject the current plans and require a design that respects the established historical scale and the public nature of the White House campus.

As a kid our elementary school class would visit the Nations Capital city and take in the history and view the historic buildings. Washington DC continues to be one of my favorite cities to visit and reflect on our nations history. Updates to any of these historic treasures should follow guidelines and go through a formal approval process to ensure integrity is maintained. We do th is for any other historical site. The White House should not be an exception to the rules. Thank you for your efforts.

Modernization? Modernization does not involve tearing down an existing building of historic value and replacing it with something far larger that is out of scale with the rest of the building on the site.

The White House is a National Historic Landmark and National Park. The project defiles the historic value of its neighbors and its context.

90,000 square feet? Why the excessive size?

These issues are fundamental and obscure the issue of design quality. We cannot get the old East Wing back. It's replacement needs to be smaller and more in keeping with its surroundings.

Not to mention less expensive.

Thank you for taking public comments.

This plan is a travesty.

The very last thing this country needs is an expensive, palace dining hall with gold paint everywhere. Our country is facing very serious problems that need to be addressed before the building of a superfluous dance hall. There are many hungry children some without homes or medical care. Mothers and fathers scared for their family's' survival. Disabled people are facing dire circumstance's and our White House has been decimated prior to anyone asking anyone for approval or plans.

Corporations coerced into spending untold amounts of money should instead pay their fair share of taxes, supporting the nation we all enjoy plus the future generations as well.

I would rather see the building vacant than the government spending our hard earned money on such a frivolous, unneeded expenditure. It will add nothing to the American society but it will be a money pit for us all.

Thank you for listening and I hope your committee considers what's best for the average citizen and the vast majority of us hard working people. I have and continue to contribute as best I can towards a better life for all.

The destruction of the East Wing was a crime against the people of the United States. Rebuild it as it was. The proposed ballroom is grotesquely large, a tasteless architectural growth.

History, traditions, memories, culture, refinement, modesty: these, too, are victims of Donald Trump's megalomania.

The White House is The Peoples' House, not some piece of real estate owned by the Trumps.

Delay this project until someone with more decency and humility and understanding of and respect for history is our president: delay, and then rebuild the East Wing as the gracious, restrained symbol of our American roots, in our turning away from the gilded grift of royalty.

Thank you and all good wishes with undoing the monstrously gaudy vision that is the ballroom plan.

The proposed East Wing Modernization Project is hopelessly out of scale with the White House itself and would dwarf the White House itself. It also appears too imperial to belong to the White House. Versailles was built for a monarchy, but or country is a constitutional democracy, and the USA should not have a ballroom that is appropriate for an empire. The White House is the people's house, and it is a visual representation of the principles on which this nation was founded. I implore you to reduce the East Wing Modernization Project to an appropriate size and scale!

The project, beginning with the title, is offensive. Trump has pocketed $400M in 'donations' and turned the WH into a grotesque version of Mar-a-Lago (located next to a strip club in a gross commercial district of FL). The gardens now look like a cheap version of Costco outdoor seating. Repair the entry and seal it off. After the criminal is removed from 'the people's house', there can be a reasonable conversation about how to repair the damage.

While I have no problem with modernizing the East Wing and the underground bunker, building a ballroom is a waste of government funds. Trump just wants something for the rich and powerful. He wants to stamp his name on federal buildings, which is not called for. His catering to the rich needs to stop. We don't need a ballroom. We need to fund stamps, Medicare and Medicaid. We need lower taxes for the working class. Trump lied when he said the East Wing wouldn't be touched. He didn't have the proper permits nor did he go through the correct planning committees. Trump should pay to rebuild the East Wing out of his own money that he has made illegaly while in office.

Respectfully,

Sharon Gilbert

Architecturally, the White House is an expression of the balance and restraint that the United States achieved through its Constitution with its checks and balances. The proposed so-called modernization would disfigure the quiet elegance of the White House with a bloated appendage that projects to most sensibilities grandiosity and excess. The securely grand do not need to stow off. The lowest common denominator should not be the standard for enlarging the grandeur of our Capitol city. Please reject this project.

First, the White House is an intrinsic part of our national heritage, in effect "owned by the American people," and loaned every four years to the current president. Hence any significant change should be reviewed and vetted by the people and their representatives,
not thrust on us by a transient occupant.
Second, the design is clearly awful, an uninspired hulk, dwarfing the Jeffersonian monument.
Third, is there really a pressing need for a huge ballroom, more suggestive of Versailles, than American democratic humility?
Ugly, out of scale, unnecessary, in a basic way, unAmerican.

I write in opposition to the proposed new White House ballroom. Its size is way out of proportion to the rest of the White House. Instead, the original East Wing should be reconstructed, with any original elements that were salvaged reinstalled. The White House is an iconic symbol of our country and a large, garish ballroom will destroy the beauty of that symbol and require a future administration to spend a great deal of money to tear it down.

The White House belongs to the American people and is a symbol of our democracy. I don't think it should be overshadowed by a new building, especially one created without buy-in from the public. Doing this right means investing in transparency, research, and deep consideration. The size, character, position, and style of any new building should fit into and enhance the current White House instead of dwarfing it. At a time when so many people in the US are struggling to afford food, health care, rent, and basic costs, I think it would be appropriate for any new structure to be created in an efficient and economic way with sustainability in mind. What about a an open design process? The 250th is approaching and this would be a great way to get students and historians involved.

I strongly believe in historic preservation, I support the work of the National Trust for Historic Preservation, and am always sad and disappointed when a beautiful old building is razed or modernized beyond recognition. However, I am in favor of the renovations being done at the White House, as the design fits with the White House, is being done respectfully and looks like it will blend seamlessly with the building.

It is an embarrassment that there is no official ballroom at the White House, that dignitaries have to be relegated to tents and port-a-potties on the lawn. This country can do better when hosting world leaders, and having an addition that is an architectural fit with the main building is the right thing to do. I hope there are no further objections to the ballroom being built, as long as the design remains as proposed.

Trump does not own the white house. he is only a temporary guest and does not have the authority to demolish or renovate any part of the white house and its grounds. It has to go thru the historical and the national parks, before any changes can be made. HE DID NOT! He should be forced to rebuild the east wing back to the way it was and never be allowed to make any other changes for the rest of his life. also he has to pay for it all, not the taxpayers like he is doing now. who ever allowed him to do this should fired and jailed.

This is a travesty. Tearing down the East Wing should never have happened. This man thinks he owns the white house and he does not. Something like that require, minimally, congressional action. I have had enough of this pompous ass. I do not support spending any of my tax dollar on his golden wet dream. Can't say anything else. It's pure bullshit. I have no clue what will happen but now, congress must act, get appropriate, not over the top crap, plans for rebuilding the East Wing and that pompous ass needs to stay the hell out of the discussion. The oval office looks gaudy and just plain ugly. Enough up there for crying out loud..
Bryan Pierce. Call me a traditionalist who gives a crap about the constitution and trumps lack of respect for same.

The proposed 90000 square foot Ballroom to replace the already demolished East Wing of the White House would forever destroy the aesthetic balance of the White House complex by overwhelming, in sheer size, the central focus of the complex, the President's home. It should not be built per the current plan. Should a Ballroom be considered through approved processes for the complex rather than executive fiat, a reasonable structure might have a single story above ground with the Ballroom floor below ground.

I am writing to express my opposition to the creation of such a large ballroom at the White House. There is no need to have a ballroom that will accommodate 1000 guests. On the few occasions when large events like that are needed, it would be far better utilization of taxpayer funds to use external commercial venues. The maintenance of such a large facility for the few times it is needed is a waste of taxpayer dollars. Since the East Wing has been demolished without proper authorization, and since there have been donations the location of which is unknown, the Commission should require that all donations be deposited in an escrow account controlled by the Commission. America cannot trust Trump to manage this renovation and the funds that have been donated. I would have opposed the creation of a ballroom in the first place. How are the functions served by the former East Wing going to be accomplished? I believe that construction of a replacement of the East Wing should accommodate both the old East Wing's purpose and include a ballroom seating no more than 600 people. Additionally, the construction of such a replacement should be consistent with the architectural style of the White House and be sized in a manner that is consistent with the proportions of the White House. The plan shown by Trump was ridiculously out of proportion to the scale of the White House itself. Finally the materials to be used should be consistent with those already employed in the White House. There should be NO ostentatious gold plating or tasteless gold accents in the interior spaces.

Because it will likely take a fair amount of time to finalize the plans, in the meantime, the destroyed wall leading to the East Wing should be sealed and all construction halted. President Trump has done a

disservice to the American people with his aggressive destruction of the East Wing withou having proper approvals and detailed plans for the replacement structure. This is not a commercial building situation where developers control the nature and configuration of a building. This is the Peoples' House. Public input should be solicited and the public's views should be reflected in the final plan. As an aside, there should also be no other alterations to adjacent buildings like the Old Executive Office Building without PRIOR review and approvals by the Commission. There is also no justification for the erection of an arch on any of the main avenues in DC. That has been conceived as a tribute to this egotistical, narcissist president. America does not want such a structure.

In reference to the East Wing Project, which I assume means "The Ballroom,"" this strikes me as an absolutely tone deaf undertaking. at a time when millions of Middle-Class Americans are trying to scrape up the resources to pay rent, buy food and take care of their children, the contemplation of building a high end entertainment structure on the White House grounds seems callous, uncaring and unwise, if not to say degenerately decadent. Far better that the funding volunteered be used to house the homeless and add to the educational infrastructure of this nation. This also doesn't even begin to address the considerable aesthetic difficulties of blending different architectural styles and scales. In all, it's a terrible, wasteful, useless undertaking that needs to be stopped immediately.

The White House is a National Historic Landmark and National Park, owned by the American people and stewarded by the National Park Service. Before nationally significant places are permanently altered, the public deserves an opportunity to weigh in on decisions that affect our shared national heritage, especially for this most important historic site. Moreover, major construction projects in Washington, D.C. must be reviewed by the NCPC and the Commission of Fine Arts, comply with the National Environmental Policy Act (NEPA), and receive congressional approval. These safeguards exist to ensure transparency, accountability, and meaningful public input.

As an American citizen and a historian, I strongly oppose the White House ballroom proposal, which is inappropriate and has been acted upon without regard for the People's House and its history. Though I can understand the desire for different event space, the project should not be approved as currently proposed, and any additions should be stewarded in coordination with a wider community of constituents.

Please respect the size and architecture of the main White House and West Wing in the design of the new East Wing. The new structure should recreate the same thoughtful balance that the destroyed East Wing provided for more than a century. The new ballroom and modernized security facilities can be both functional and aesthetic without overpowering the iconic style of the White House. All exterior and interior plans and designs must be reviewed and modified in the spirit of historic preservation, not according to the vanity and whims of one individual. The White House belongs to the people of the United States. We entrust changes to experts in the National Capital Planning Commission and their knowledge of White House history. Rather no new building on the site of the president's illegal demolition than a permanent, gaudy, overpriced eyesore demanded by a failed casino owner.
Sincerely,
Susan Tellman

I am a US Citizen and Pennsylvania voter. I care deeply about the historic fabric of our country. As a member of the National Trust with a degree in Historic Preservation, I am appalled by the careless, haphazard, and deliberate destruction of an historic building without following the required protocols and seeking appropriate approvals. Simply as a home owner, we have to follow all required permit processes in order to make modifications to the home we own. The fact that the president took these actions on a home that he doesn't own which is a National Historic property is egregious at best. The sad reality is that we

cannot recover what has been destroyed. That is the careful intention that the National Trust engenders and why they have been a party to ensuring that this illegal action is reviewed. Once an historic property is gone, it is gone forever. Donald Trump is not someone who cares about history and shared memory. I, as an American, do care about those things. It would be my request that the East Wing be restored to its prior state. I am vehemently opposed to the building of the so-called ball room.

The President or any elected official should not have the authority to change the outside of any building that is a National Historic Landmark and National Park. The White House is owned by the American people and stewarded by the National Park Service.

The plan for these changes should have been submitted to the National Capital Planning Commission and without approval from Congress, as required for construction on federal park land in Washington, D.C. The demolition of the East Wing was completed without submitting these changes and receiving the approval to start construction. President Trump always wants to do things his way, then "ask for forgiveness" and get approval afterwards.

The White House has been around for over 200 years without any major changes to the outside, except maybe when it was reconstructed after being burned during the War of 1812, so why change it now? These changes will affect the symmetry and balance of the entire structure.

I am a member of the National Trust for Historic Preservation organization. In each magazine they show changes being made to all types of historical buildings without damaging the balance and symmetry of the original building. I am sure that the same could have been completed to the White House by contacting experts in preservation construction.

I am angry and sad that damage has already been done to the White House with the demolition of the East Wing. These changes could cause irreparable damage to the White House.

PLEASE stop the damage from happening by NOT allowing President Trump to continue with his "ballroom" plans.

The former wing needs replacing because demolition is a fait accompli. If there is consensus in your Committee that a reception facility is essential (as it has not been so far), I propose that it be half the size now planned or less than that. That will allow hundreds of guests to take part in ceremonies, dinners, etc. but it will not dwarf the White House residence as the present plan will do. The house is a national symbol; a reception area is not. Preserve the integrity and prominence of the national symbol. It is also disturbing to learn that private donors who are allied in business with our current President's family are financing the present very extravagant plans; the influence of unknown donors with unknown quantities of donated money needs to be restricted to assure the public that the new building is really needed and is being financed in the most honorable way.

This is not a modernization project, it is a gaudy, gold leaf filled, folly to show djt is a showman, not a politician. His taste is all in his mouth; he has NO taste, or decorum, when it comes to decorating. He has diminished the former elegance of the White House with his hall of shame, horrendous pictures of himself, negative, whiny diatribes to former presidents whose portraits are no longer inside the residence. He tore down the east wing without going through proper channels.

HE DOES NOT OWN THE WHITE HOUSE; the White house belongs to the country and is an iconic residence. He has turned the Oval Office into a gilded, tacky mess - which actually suits only him!

He is now labeling this project "modernization", when it is really going to be a ball room?!?!?! The White House already had a ballroom, one that was elegantly designed and decorated. However, he wants his kind of ballroom, Big and Gaudy; just like him.

Talk about wasting taxpayer money; he won't save much since he will still go to Mara Lago to play golf????

Put a net on this psycho with an ego bigger than Air Force One, preferably before he bankrupts the country and turns us into a no mans land, as he has alienated what used to be allies.

At 75 he has caused me to be ashamed to talk with friends in other countries, ashamed of being an American.

The President's desire to modernize the White House is a good motive. As a temporary resident, his improvement activity should be limited to uses he will need during his tenancy. Any modification that will have a long term effect beyond his tenancy should be subject to a government review process comparable to other projects.

Construction of a large ball room or meeting room beyond the facility that existed prior to his tenancy, which affects the appearance and/or functionality of the historic building should be subject to review.

The fact that private parties will pay for improvements, although altruistic and deserving of appreciation, does not mitigate the project's need for peer review. The public will be ill served if the next President chooses to tear down the improvement because its design is neither aesthetically pleasing nor functionally desirable.

The White House is one of the most beautiful buildings in Washington D.C. While I do not have outright opposition to improvement, keeping the modification architecture in conformance with the existing structure is of great concern.

I strongly oppose the demolition and proposed transformation of the East Wing of the White House. This is a nationally significant historic structure that belongs to the American people. It should be restored to its original character and public-serving functionality — not rebuilt as an ornate, gold-embellished ballroom.

The East Wing has long served practical and institutional purposes within the White House complex. It should not be converted into a personalized ceremonial or entertainment space. Under the National Historic Preservation Act, federal agencies are required to consider the effects of their actions on historic properties and ensure meaningful public review. I urge the Commission to require that the East Wing be returned to its prior scale, appearance, and function, with full transparency and adherence to preservation standards.

I am supportive of this project as I think the current facilities are lacking. I am also supportive of the design being architecturally integrated with the current white house architecture and that the end product is seamless and balanced. I understand many are concerned about this project but I am not sure why unless they think it's just too big or too imbalanced, which I am supportive of it being neither. It is clear that the executive branch/the president needs better facilities and there is great precedent for additions and modifications over the years, so I believe this is a good thing and again with the caveat that it is integrated, seamless and balanced in design.

Name: Leanne Kirk
Project Name: East Wing Modernization Project
Project Number: 8733

Dear Commissioners:
My name is Leanne Kirk. As an American citizen who values historic preservation, I feel very strongly that the White House, the National Park Service, and relevant review agencies should work with The National Trust for Historic Preservation in exploring design alternatives and modifications that would accomplish the objectives of the Administration while preserving the historic integrity and symbolism of the White House.
I concur with The National Trust and am deeply concerned that the massing and height of the proposed new construction will overwhelm the White House itself and may also permanently disrupt the carefully balanced classical design of the White House with its two smaller, and lower, East and West Wings.
The federally recognized Secretary of the Interior's Standards for Rehabilitation offer clear guidance for construction projects affecting historic properties. The Standards provide that new additions should not destroy the historic fabric of the property and that the new work should be compatible with existing massing, size, scale, and architectural features.
Once a historic building is destroyed, it is gone forever. It can only be a "reconstruction" of the original.
Please do not rush this 90,000-square-foot ballroom addition to the White House complex. Please work with The National Trust for Historic Preservation to preserve the architectural and historic integrity and structure of the White House.
Thank you very much.
Leanne Kirk

The White House is the people's house. Its modesty is distinctly "American" in contrast with the grandiosity of the European palaces of the 18th century. That symbolism is profound. The East and West wings were designed to play supporting roles to the people's house; they support it and don't overpower it. The proposed ballroom is intentionally designed to overpower everything else on the White House campus including the White House itself. Its symbolism is clear: its all about the supremacy of one man, Donald Trump, and is distinctly unAmerican. In addition, as soon as the initial plans were revealed, the resulting asymmetry of the White House complex (because of the ballroom's enormous size) made it clear that the Administration would propose that additional height would need to be added to the arcade to the West Wing in an attempt to restore some semblance of symmetry. All of this is unnecessary and must be stopped or at the very least significantly scaled back to maintain the values and symbolism that were so important to our founders.

As an architect and someone deeply interested in the built environment, I am concerned that the proposed new East Wing completely overwhelms the original Residence. As an addition to an historic structure, it is important that the new addition is designed as to be secondary to the primary structure, both in scale and ornamentation. I am further concerned that the design of the new addition does not comply with the Secretary of the Interior Standards for the Treatment of Historic Properties. The proposed addition seems detrimental to the historic landscape and setting of the original White House building. I remain unconvinced that alternative solutions were not appropriately explored and that the proposal as submitted represents the best interest of the American people.

I believe that the East Wing project should reflect the past elegance and simplicity of the people’s house

and not a cheap gaudy imitation of a European palace. It should never have been demolished the way it was and any rebuilding should reflect the proportions and history of the previous building. The designs should be overseen by qualified historians and architects overseen by the proper authorities rather than the executive branch and persons with gaudy taste.

The White House is a National Historic Landmark and National Park, owned by the American people and stewarded by the National Park Service. It is and should never be a piece of property that any President of the USA has a right to renovate, add on or demolish.
It is the people's house and we the people should decide on any renovations, additions and demolitions.
Pleas Do not let D. Trump destroy this historic property that belongs to us.

As drawn, the proposed new "ballroom wing" of the White House makes the structure look lopsided. It is a bulky, ungainly addition to the delicate, spry lines of the original structure. The need for a larger entertainment venue is clear, but this is not the answer. Send it out to bid to other, renowned architects to come up with a better solution.

The White House belongs to the American people, not to its current occupant. Demolishing the East Wing was a rogue operation without even a pretense of legitimacy. Every conceivable measure must be taken to ensure that no further demolition or construction be undertaken without consulting the National Trust for Historic Places and securing full approvals from the National Capital Planning Commission and any other applicable public bodies. If necessary, call in the National Guard to protect public property from further vandalism.

Dear Commission members,
I would like to see the East Wing restored to the exterior proportions and architectural features it had before being demolished in 2025.
Modernization of interior heating, cooling, insulation, and wiring for technology would be desirable. Rooms, hallways and bathrooms should be reconfigured to meet ADA standards, perhaps resulting in somewhat fewer rooms but better function.
I strongly object to replacing it with a huge ballroom or other facility that dwarfs the rest of the White House. It would be a jarring eyesore, and an insult to the graceful, iconic people's house.
Please follow the law. This wing was demolished without following law and procedure. It should be restored as much as possible, and only be updated in ways that are sensitive to the original design of the wing.

The East Wing should be restored to its former condition as proper channels and rules were not considered or followed. These funds should come out of the so called "donor fund".

Tearing down of the East Wing minimizes the roles and achievements of every First Lady that has walked those halls and served along with the acting President. It is a slight to former administrations, to progress and to the value of women in our society.

Not many Americans care if there is a ballroom tackily adorned in gold for elite parties. We care about initiatives First Ladies bring to the White House. We care about the work. The substance. The programs that actually touched people's lives like literacy efforts, military family support, anti-bullying campaigns, historic preservation, public health initiatives, arts and culture. The East Wing wasn't about glamour. It was about purpose.

That space represented the office of the First Lady which is a role that, while unelected, has consistently shaped national conversations and quietly moved meaningful work forward. It housed staff, strategy, meetings, and momentum. It was a working wing, not a decorative one.

When decisions are made without proper process, transparency, or respect for precedent, it undermines more than architecture. It signals that tradition, collaboration, and institutional stewardship are optional. They aren't.

If a change truly serves the American people, it should withstand scrutiny, follow established channels, and be funded responsibly. If it doesn't, it deserves to be reconsidered.

Restoring the East Wing is not about nostalgia. It’s about honoring the continuity of leadership, the dignity of the office, and the legacy of the women who used that space to serve this country.

We can modernize without erasing. We can improve without diminishing. And we can celebrate progress without sidelining the very people who helped build it.

Please stop the building of the ballroom. It would be a huge waste of money & it is not needed. We have gotten by for all this time without a ballroom & have managed to entertain guests very well without it. More importantly, please preserve the integrity, the structure & the history of the White House. The proposed ballroom would be an gaudy eyesore. It's size would completely overwhelm the White House, which was never meant to be this scope or style. The White House was supposed to be the people's house, not a carbon copy of Mar Lago. We did not ask for this & we do not want it. I would also like the East Wing to be restored. It should never have been torn down in the first place without any input. I don't believe that its demolition was done legally. We lost some very important American history & our history matters!

The president is a temporary resident of the White House. He unlawfully tore this down without going through proper channels. He should have to pay to fully restore it from his own money. This is the peoples house, not his, not just one parties all of us who pay taxes.
Who wants a gold gaudy ballroom. If it go forth it should be in keeping with the historic accuracy of the rest of the building. Not a monument to one person. A committee of historians and those in the business of historic preservation should be doing this project not one persons whim with a team of yes men. Historic accuracy is key to keeping the tradition of period buildings. Stop this insane behavior from a demented egotist. He should be fined and arrested for doing the irreparable harm that we can now never replace to it’s historic significance.

The fact that the East Wing was torn down outside the normal process for making changes to the White House makes this project invalid from the start. Those actions by this administartion were irresponsible and insulting to the American people. Suffice it to say that as an American citizen I am appalled by the wanton disregard for this icon of American history and culture.

That said, something has to be built in it's place. The size and gaudiness of the planned ballroom is not in keeping with the historic nature of the People's House. This project needs to be redrawn to reduce the size so it doesn't overshadow the house itself. It must be design compatible and historically accurate. It should be taseful (no excess of gold and marble) and incorporate areas, such as the bunker, that were destroyed and must be rebuilt.

This oversight body must exercise it's mandate to ensure that the White House is preserved for generations to come.

Thank you,
Linda David

I am adamantly against the 90,000 square foot ballroom. It is a massively expensive facility that is not needed. I understand the need to renovate/upgrade underground features/bunker but the above ground structure should not detract from or overwhelm the White House. The East Wing should be rebuilt as it was (again, with the understanding that below ground structures would be upgraded) to the same design, size, and scale as originally existed. There is no need for the insanely oversized ballroom. The routine functions of the rebuilt space can be re-evaluated if the First Lady doesn't feel the need for that space but it should remain open to the public for Xmas and special events. I was fortunate to visit in December 2024 and the experience was patriotic and emotional. Rebuild the East Wing as it was!

The project name--East Wing Modernization-- is a joke. It's demolition and replacement, not modernization.

The destruction of the East Wing has caused extremely significant damage to our nation's most important historic buildings-- the White House. This destruction brings shame to our country and cannot be ignored.

However, since the damage is done, the replacement should be carefully designed to be compatible with the remaining historic structure. Most importantly, it should be compatible in size, massing and overall character and designed to enhance rather than overwhelm the historic building.

Our nation and its capitol city will have to live with this building for decades. We need something that we can be proud of.

I am disgusted that this administration destroyed history without the consent of the People. The gaudy changes meant to resemble other foreign government buildings that have been made all over the White House cannot continue with this project, that is now a rebuild. Additionally, the famed and sentimental rose garden was also destroyed. So heartbreaking that history has just vanished with the assistance of people who don't want history to tell the truth about them.

Do not allow another nail to be pulled or driven from this building or grounds until this spectacle of an administration is long gone. In fact, I don't think a dime should be spent on any construction in the Capital period until a law suit or settlement from the responsible party for the unauthorized demolition is reached.

And that goes for the proposed and unnecessary arch as well. You can build an arch when and if all Americans have healthcare. Until then, the administration should be made to sit out construction of anything in penance for acting without proper authority.

Project Number: 8733

This project represents a profound misallocation of resources and sends the wrong message to the American people and the world. The White House is the people's house and a working symbol of democratic government—not a venue that prioritizes luxury event space.

A large "ballroom" addition reads as a facility optimized for elite galas and high-dollar social functions. Even if privately funded, the physical and symbolic footprint attaches itself permanently to a national icon, shaping how the presidency and the country present themselves. That symbolism matters.

Given that the East Wing has already been demolished as part of this plan.the path forward should elevate a broader public purpose: a design process led by a bipartisan team of architects, historians, accessibility experts, and civic representatives to create a replacement that honors the full diversity of the United States—across race, class, age, and ability—and that strengthens the White House as a public institution rather than an exclusive venue.

A lavish ballroom is not a worthy emblem of our democratic heritage. A redesigned East Wing can reflect service, history, accessibility, and civic education—something all Americans can feel proud of.

Thank you for the opportunity to share my opinion.

Matthew Baya

We are totally aghast at the President's unitary and unlawful action of changing the context of the White House , the people's house, into a megalomaniac statement about his personal, individual and distorted view of what he thinks he is. An emperor. The changes to the White House interior we have seen on tv coverage are overstated and not fitting for the chief executive of a republic. The president deems himself to be an emperor. He is sadly mistaken. We are Republicans, have never voted for him and are completely disappointed by his performance, The White House is a shining symbol of our republic and the unilateral decision to add this ballroom monstrosity overshadows and cheapens the long term respect the White House has created for sure nation. This is merely another effort by a failed personalty to convince himself that he has been a significant leader.

I feel that President Trump has had a lot of success in the first year of his second term. However, I am concerned about his attempt to remake the White House East Wing without the input of qualified architects well versed in historical American renovations.

Having lived in Paris for many years in the 90's, I witnessed the care & careful renovations that have kept the city's historical buildings & monuments in tack & made the city a veritable jewel that attracts visitors from all over the world. Please impress on the President that we need to follow the lead of this venerable nation which came to our assistance during the American Revolution. Let them come again, so we can learn from this great nation how to protect our own historical treasures.

There is no rush to get this finished as quickly as possible. Let's take our time & keep the country involved so that we feel that this has been a well thought through plan, & that the architects have created the most appropriate resolution. After all this is the peoples' house.
c.c.

Over 100 years ago, President Theodore Roosevelt changed the name of what had previously been called the "President's House" to the bland descriptive, "White House," in order to make it clear that, in his mind, the seat of our national government did not belong to the president; it belonged to the people of the United States. The current president, D.J. Trump apparently doesn't share that vision.

Trump took it upon himself to proceed with the demolition of part of the White House in order to construct a white marble and gilt "ballroom" - this without notice to the people of the United States, and without consultation with any of the responsible agencies. After the demolition, he announced that he intended his "ballroom" to dwarf the White House itself, that he would personally decorate this huge vanity project as a Temu version of his tacky Florida resort, and that it would all be funded by payoffs from various unnamed billionaires hoping to seal lucrative government deals with his administration.

For God's sake, he's going to hold bloody boxing matches on the White House lawn to celebrate his birthday! Maybe he can get Kid Rock to sing his patriotic anthem "Balls in Your Mouth" between rounds. He plastered his name on the Kennedy Center and has plans for a coin bearing his likeness. He threatens to build a huge, gilded Arc de Triomphe knockoff on the Mall! He PAVED the Rose Garden and covered it with patio furniture!

Do not, I beg you, do not sanction his corruption, his insane egotism, his horrible, horrible taste. Stop the construction of the Trump Ballroom.

I am very much against the destruction of the East Wing. Destroying the East Wing for a presidential project was illegal as he doesn't own the White House and he did not submit any plans or requests to the correct commisions, He even facilicitated the destruction after telling the country that his plan would not affect the White House. The country has been bullied by this destruction and it must not be allowed to continue.
My demand is that the East Wing be returned to its original construction. I do not condone any modernization of the interior of the original East Wing. I pray that the Commission will NOT authorize any change to the East Wing and will only instruct the current resident to restore the East Wing to it's original construction.

The scale of what is being proposed is monstrous and completely out of character with the rest of the White House complex. Reduce the size greatly - or better yet, restore the East Wing to its original size and abandon the ballroom altogether.

I agree with the comments of Comissioner Mendelson made at your 2/5/26 meeting. I think that the ballroom structure should be reduced in height by at least 10 feet, or more if possible. Because it extends southward, its height appears much taller than the White House from that view. The scale of the whole structure is visually disturbing. A reduction of at least 20% of its mass would be more respective of the context. The massive entryways are also excessive. The south entry portico in particular is too massive and extends too far outward from the building. Shorten it, pilasters instead of columns!
The floor plan of the lower level, with the First Lady's suite adjacent to an inordinately large kitchen complex, seemed to be an odd juxtaposition. It would seem that noise and security would be significant issues as a result.
I am also very concerned about the interior of the building, given the "gilt taste" exhibited in the current Oval. This is not the kind of royal decor that should represent our republic. Gold leaf should be outlawed both inside and out of this new structure.

What is being done to the White House is a disgrace. This. is a historical building that has housed presidents and their families since the early 1800's. Yes, the building needs to at times be maintained and improved on, but what was done to the East Wing and the prospective ballroom are way outside reasonable guidelines. Enough tacky gold trim has already been painted all over the interior. The last thing we need is a gold plated monstrosity of a ballroom.

Hello,

Arbitrarily demolishing the East wing of the White House was an offensive and needless act that violated countless rules and regulations.

Going forward, every step of the replacement of that historic wing should be under the greatest scrutiny and review, as the current occupant cannot be trusted to act within the bounds of legal or moral limitations.

Thanks

The White House's plan for East Wing Modernization should NOT go forward. The project is far too large, grossly altering the historic aesthetic of "the People's House." It is clear that the vision and planning for the new Ballroom disregarded the importance of design, existing scale, meanings conveyed by federal monuments, and, worst of all, the legal processes for making changes to "the People's House." On no authority, the current administration chose to destroy federal property. This is wrong. And going forward with the plan would only reward the wrong doing. Rather than build the new abominable design, the White House should be required to REBUILD the East Wing, as it stood before they tore it down. They should also be required to return the artifacts that were (hopefully) removed before the building's destruction. Then, and only then, should the current administration be permitted to submit plans for renovations to the East Wing or any other part of this essential national structure. And needless to say, the cost for this rebuild/restoration of the East Wing should not be born by tax players, who were denied the due process that this current review seeks to institute.

Thank you for receiving these comments.

It is an absolute outrage that the White House has been desecrated in the manner it has in recent months. At no time in the 226 years of Presidential occupancy has the house been inadequate for official functions.

And while there have been alterations in its size since first constructed, NEVER has such an over-sized and garish addition been seriously considered. I cannot believe that anyone would approve the destruction of the existing wing in the first place, And to propose such a building that is so totally disproportional and totally in contrast to the dignity of Hoban's original design should never have even been CONSIDERED, let alone gotten to the phase that allowed actually tearing down a portion of the extant building, Please abandon this ill-conceived alteration to the White House,

I am an Architect, with 45 years professional experience, although no longer considered a 'professional' by the Trump administration Department of Education. I also reside in a National Historic Landmark property and strongly believe in the importance that historic preservation plays in supporting our architectural heritage. As such, I beseach our President to take a page from Paris' Louvre Museum, whose enlargement by I.M. Pei neither detracted from nor debased the beauty of the original 'palace' the way Trump's horrible and tasteless plan will make OUR beautiful White House insignificant to his way-out-of-scale, overly ostentatious, and historically inappropriate Ballroom. In other words, OUR White House complex will become an outsized Ballroom with a relatively small residence attached. Trump's conception of Historic Preservation is a Disneyland-level solution. Contrary to Trump's belief, bigger is NOT always better; it's simply just a more in-your-face horrible mis! take!

The stately White House has occupied its present footprint for quite a long time. It exists in harmony with its setting: its trees, lawns, bushes and drives. In all, the building and its perspectives, the iconic structure and the clearings (Olmstead) that surround it, are special and unique.
To mess with such balance and perfection to build a ballroom that benefits not the nation, but a very few, would be a national embarrassment. It appears to be a vanity project to entertain the rich and powerful at the expense of average Americans. That wrecking crews were allowed to begin their work before the project was reviewed, shows the disdain the current Administration has for history, architecture, the arts, and your organization.
Please stop this project, restore the building and grounds, and admonish and fine the perpetrators .
Disgusted.

My comments pertain to the demolition and rebuilding of the East Wing of the White House.

It is unconscionable that this historic building was defaced and demolished without citizen or Congressional input, and historic protection.

The rebuilding must keep the scale of the original building in mind and adhere to the principle that this is the People's House, and not a gilded monument to one individual.

To whom it may concern,

The east wing should be restored to its prior glory using the bribe money the president has gotten since it was demolished without following any proper processes. We do not need a vanity project paid for by big

companies. If there is no way to do that first, then it should be one of the options considered and is what I, and many people I know, would vote for in a heartbeat. After that, we can consider the options and choose the best one... But we should not reward how it was lawlessly demolished without making sure it doesn't happen again by restoring it first.

Sincerely,
Thomas Acharya

The White House is paid for by tax dollars by the American People. We cannot afford this modernization project. The White House is a historical building that a current president occupies during their term, it does not need a ballroom or the expenses that would come with that. If Universities are having to cut back and that is going to effect education of students, I believe the White House current administation could wait to make these changes.

The White House does not need a 90,000 sq. ft. ballroom; it needs its East Wing back. There are many facilities in the metro Washington, D.C. area that are available and perfectly acceptable to host foreign dignitaries, other notables and unnecessary gala parties. We are not European, Middle Eastern, Saudi Arabian, Asian, etc. -- we do not need grand buildings and castles that benefit just the few. And to abolish the historical East Wing without proper authorization is reprehensible.

The White House is a National Historic Landmark and National Park, owned by the American people and home to presidents since 1800. The current president at any given time is not the owner of the property or the structures thereon; the president is a temporary tenant whose interventions are limited by law and by respect for the people of the United States.

The demolition of the historic East Wing without review, without permits and without Congressional oversight is clearly a violation of the law. In addition, it is a violation of the trust of the American people who were given no opportunity to comment on what should have been presented as a proposal and not as a violent fait accompli.

I urge the National Capital Planning Commission to require reconstruction of the East Wing in keeping with its historic design and size. Anything constructed on the demolition site going forward must be compatible in scale and subordinate in form to the original structure of the Executive Mansion.

Imagine you're the landlord of an historic home. You've been renting out the home to a new tenant every four years.
Your current tenant tells you he needs a new toilet because the one in the master bath is leaking. Understandable, things
get old, start to leak. He assures you, it's just minor. Other tenants before him have had minor work done around the home.
People's shoes are getting wet. You call a contractor to do the minor repair work.

You then get a call from your neighbor. Astonished, he informs you, "the contractor said the renter ordered him to tear the whole
thing down". The contractor continues: 'the renter said the owner won't mind' as well as 'the renter didn't like the paint job. He wants it gold. He said he lives there now, and he may not let you rent it to anyone else. Ever. Also, he wants to do more 'work' on different parts of the house. In fact, he wants to put up a huge monument to himself on your lawn. And you can't stop him.'

The renter doesn't own the home.

YOU own the home. And now your home, the one with centuries of history, is demolished. Your posessions, handed down for generations, destroyed.

And that renter, well, he claims he's going to pay for the repairs, but you know that's never going to happen. You'd kick out the renter, but his extended family starts sending you threatening messages.

That's how America feels about this obscenity. Angry. Nauseous. Disgusted.

Thank you for accepting my comments.
The White House is the people's house and should be treated as such.
There are policies and procedure to dictate how changes should and can be made.
It's my understanding this has not been done so far with this project.
Any addition should fit with the size and scale of the main building. This project far exceeds that and will detract from the grandeur of the building.
I am a proud American and am extremely displayed at the proposed project.
A huge ballroom is not necessary and the project should be scaled back to fit all set requirements.

First, I would like to state that destroying the East Wing without a plan to replace it, was a stupid decision and obvious disaster. Did anybody check the legality of this? Was there any oversight?
Any replacement should be designed by historicaly trained architects to place it in context with the White House, not to overwhelm it.
Secondly, since our country does not have a record of giving balls, except at inaugurations, I certainly

question the need for a ballroom at all.
I feel that this ballroom idea is a terrible waste of our tax dollars and that the space should be used as a place for visitors to the to the White House to gather and discuss the historic importance of the White House and for White House staff to work for our country.
Our tax dollars should not be used for his play pen.

To Whom It May Concern:

First, this is hardly a "Modernization Project". It is a total replacement project both in terms of physical building and purpose.

And it is a total replacement project that is unnecessary in purpose. Maybe the East Wing needed to be modernized or even replaced but not with a Ballroom.

The US Government and/or the White House are not simply party organizations. Certain celebrations are appropriate. Thousand-people gatherings in a gilded ballroom are not needed or desired.

No ballroom. Legitimate White House offices only.

Sincerely,

Gregory J. Clark

The law has already been violated by demolishing the wing. The White House is a National Historic Landmark and National Park, owned by the American people and home to our presidents since 1800.

Major construction projects in Washington, D.C. must undergo review by the NCPC and the Commission of Fine Arts, comply with the National Environmental Policy Act, and receive congressional approval. This was not done, so as far as I am concerned, the 47th administration has forfeited any right to make more changes.

Additions must respect the historic scale and design of the White House. At 90,000 square feet, the proposed tacky, gaudy ballroom would exceed the size of the 55,000-square-foot Executive Residence. Additions to historic properties should be compatible in scale and subordinate to the original structure.

So NO.

The White House is a National Historic Landmark and National Park, owned by the American people and stewarded by the National Park Service. The damage Trump has already done is horrific. I do not want to see our White House turned into a stage for showboating and such. This ballroom is unnecessary and wasteful. It has also become another bribe opportunity for Trump.
Please stop this madness and give the White House back to the American people.

East Wing must have approval of NCPC & Commision of Fine Arts, comply with NEDA & receive congressional approval. None of this should be bypassed. Since much destruction has already occurred & construction already started things MUST be rolled back. Ballroom way out of scale & proportion to White House.
Something must be done to mitigate damage already done, to modify & scale back ballroom proposal & to rein in executive branch so they follow appropriate procedures....approval must come before action. This goes for all all changes to the White House & it's grounds.
Not sure how to hold back strong executive branch from imposing will on these extreme alterations
I guess it's up to Congress to rein in the Executive branch of government. But they do not seem to be doing their Job. We all have a responsibility to vote for congresspersons who will use their ability to rein in the Executive Branch.
Concentration to rein back executive branch power in these matters should focus mainly on architectural changes interior & exterior landscape. Interior design elements like what pictures hang in the White House or how they are hung are not as important because they are easily reversible.
Congress must get on this quickly. Much damage has already been done to the people's house.

I oppose this proposed change to the East Wing Modernization Project. To add an addition such as this is a tasteless plan. There are many other places where we could work to "improve" the White House's layout, meaning making it more environmentally conscious and showing how we can move toward cleaner forms of living. Adding a 90,000 sq ft ballroom is essentially inflating an ego that isnt meant for the people. The White House itself is roughly only 55,000. This sends the wrong message not only to our home base but also abroad. How are we as a country, with an already growing homeless population, to show we care for the people in this great country? We could focus on the idea of the white house as a place of focus and openness. Closing off a section with a giant fixed, single-use place, such as the ballroom, is unbelievable to see.

I want to repeat my strong opposition to this being approved. This is unnecessary and wasteful.

The damage has already been done to destroy a National Legacy, the East Wing of the White House- the People's House. So under these circumstances I'd like to have the Rest Wing re-constructed to the exact way that it appeared before it was torn down, only to appear to have been restored to its original model. I DO NOT WANT TO HAVE A MASSIVE BALLROOM BUILT THAT WOULD BE OUT OF PROPORTION WITH THE EXISTING BUILDING. The tax payers dollars should NOT be used to construct anything other than restored East Wing. Personally, since our current President did NOT get Congressional approval to tear down the East Wing, I'd vote to have the current President reimburse the U.S. Treasury for the cost to rebuild the East Wing.

The destruction of a portion of the Peoples House, the White House is reprehensible!
By-passing all oversight from the Congress and other preservation groups prior to the destruction commencing, is an example that this president is arrogant, he doesn't believe he is responsible to the rule of law and is planning to erect an edifice, in the image of a former French KING, and name it for himself because he thinks he is omnipotent and everyone and everything is subject to him and is impulses. Like a dictator or King!
Once it is completed it will look garish, gaudy and ostentatious, better described as UGLY! As the saying goes, "All his taste is in his mouth of lies!"

I am writing in opposition to the plan for a 90000 sq ft ballroom. I believe that this addition will look out of place with the historic White House. Any addition should have balance and be thoughtfully added to not take away from the beautiful building. I do not believe that a ballroom of this size is necessary and should be scaled back.

This is the People's House, not one president's. It belongs to all citizens.

This isn't a "modernization project," which implies renovating the existing building. Oh wait! There is no existing building. We should have been given the opportunity to comment BEFORE the building was demolished. This was an egregious violation of the public's trust in the government. There's no way to come back from this. The historic East Wing is gone, and anything built in its place is going to be awful.

I do not support the oversized ballroom project to replace the East Wing. The planned ballroom will dwarf the White House and make it secondary to the new wing. It is inappropriate for the symbol of the American presidency to be out shined by a giant entertainment space. I have no objection to a ballroom in general and I understand the importance of a space to hold state dinners but the way the project is now conceived will
destroy the dignity and significance of the People's House itself. Please require that the East Wing "modernization" be reduced dramatically in scale to honor the historic building that all Americans treasure.

The wanton destruction of the East Wing of the people's house was a brutal attack on our USA tradition. We value our historic places. They remind us of how our nation created a way to live inclusively, without kings or dictators leading us by the nose. There is a proper way to bring those historic reminders up into present day use, and that process carefully examines and respects the value of these treasures.

The continued brutal destruction of this building must stop and stay stopped until all proper, and thorough historic, architectural and engineering aspects have been carefully examined and the best options for repair have been placed on the table before even a splinter is moved again!!!

The current President is not the homeowner. He is measly a guest! He must step away from this issue immediately!

I am appalled by the wanton and careless destruction of the East wing under the pretense of the need for a huge ballroom without due regard for architectural planning, authorization and any attempt to preserve and protect the historical artifacts present in the wing. This was a petulant act by a president who thinks that the laws do not apply to him. While modernization is required at times, there are guidelines and laws that should be followed, and architectural oversight provided at all times.

The White House has historical significance and any additions need to be thoughtfully done so that they are in a scale and style that harmoniously blends with the current (or what is left of) the current building. Additionally, the need for banquet and ballroom space needs to consider already existing space in buildings that can be used for such purposes, such as the National Portrait Gallery. The White House belongs to the people of this country and should reflect their values. We do not want nor require a palace covered in gold.

Additionally, NO tax payer money should be used to rebuild. Enough money has been pledged to this project by billionaires hoping to curry favors from this president to rebuilt with no expense sparred. Any attempts by Trump and his sycophants to siphon off money from the amount already raised should be prohibited. Any remaining money can be held in a trust for future repairs and maintenance. Under no circumstances should Trump be allowed to put his name on any part of the Whiter House, IT IS NOT HIS.

I support the addition of a ballroom to the East Wing of the White House. From the proposals I have seen, the addition looks amazing, harking back to the styles I love from the early 20th century, where builders and architects put care and detail and actual pride into their magnificent designs. I understand that nothing like the ballroom proposal currently exists, and that many presidents have wanted to do this, but none made it a priority. It sounds like an incredible improvement to the White House that the taxpayers don't even need to fund! Brilliant.

For numerous legal, procedural, historical, aesthetic, and ethical reasons the Trump ballroom project should not go forward. President Donald Trump lied about his intentions and demolished the East Wing of the White House while trying to hide what was being done from the American people; he moved forward with plans for a 90,000 square-foot Mar-a-Lago style ballroom, which would be totally out of harmony with the classical design of the White House itself, without gaining Congressional approval or submitting plans to the National Capital Planning Commission and the Commission of Fine Arts; he sourced funding for this unapproved project from private companies, thereby prompting ethical questions about what Mr. Trump might offer the funders in return; he then refused to name all the donors, thus keeping secret any pay-to-play deals that might occur. The ballroom is a poorly conceived and unnecessary project that would greatly

overshadow the 55,000 square-foot White House, which is a beloved National Historic Landmark and museum of the presidency and American government. Finally, and most important, the White House is the People's House, not Mr. Trump's house, and is an important symbol of the American republic. The American people have no interest in downgrading its status to that of an outbuilding attached to a garish monument to Mr. Trump's personal vanity.

The East Wing modernization is an abhorrent deviation of the Neoclassical style and of the principles of the United States of America.
The plans are instead the delusions of a narcissistic and immature idiot with no understanding of the history of the building, the tenets of Neoclassical architectural style, or taste in general.
He has demonstrated that he has no regard for the history of the building, its artistic and architectural relevance, or its meaning to the citizens of this country.
These plans should be rejected until a more knowledgeable person can somehow repair what has been destroyed and draft a plan that properly respects the building, the history, the architectural style, its cultural significance, and without including the ego and idiocy of the man who is intent on destroying the USA.

I am writing as a loyal American who has always valued our history. I find it reprehensible that the current occupant had taken it upon himself to destroy MY AMERICAN HISTORY w/o thought or favor over how this would affect all Americans. There was nothing wrong w the East Wing & absolutely no reason to spend millions & millions of dollars to satisfy the whim of someone who will only have, dare I say the honor of living there for 3 more years. No one in all our history has wanted to erase what is truly the People's House like the current occupant. I do in fact want the People's House RESTORED to what it was before backhoes & heavy machinery were used to demolish it. I know my comment will have no effect on the current occupant's heavy handedness on the demolition of the People's House but as a faithful American who loves her country & its rich history I needed to submit this comment anyway.

As a citizen, a constituent and a voter, I strongly oppose the project.
1. The destruction of the East Wing and the proposal to replace it with "something" was done without the proper notice and approval by Congress, by the NCPC, by anyone.
2. Any proposal to change or alter any national monument should be made, in detail, and approved by the appropriate authority before any action of construction, remodeling, or demolition takes place.
3. The White House belong to all Americans, not to the occupant of the White House, and it belongs to history. It cannot be treated as the plaything of the current president.
4. Private funds to make a major change in a public monument should be made only through legally approved channels to avoid impropriety.
5. Any notion that the White House is the "president's house" is false. The president occupies the White House as a guest of the people of the United States and only for the term of his presidency.

My first concern is that the ballroom project began without congressional approval: it tore down the existing wing without due process and has plans to construct a too-large ballroom, out of proportion to the existing White House -- it dwarfs the White House. This appears to be one man's preoccupation with his own aggrandizement with no regard for the opinions of others. I'm opposed to the building.

I respectfully submit this comment in opposition to the proposed East Wing modernization project.
The White House is not merely a residence or event venue; it is one of the most symbolically and architecturally significant buildings in the United States. Its historic fabric carries national meaning that extends far beyond functional considerations. Any alteration—particularly large-scale additions such as a new ballroom—must be approached with extraordinary restraint.
The reported demolition of portions of the East Wing raises serious concerns about adherence to established historic preservation standards and federal stewardship responsibilities. The proposed new construction appears disproportionate in scale, inconsistent with the architectural character of the existing complex, and unnecessary given the availability of alternative venues for large gatherings.
Preservation is not opposition to progress; it is a commitment to continuity. The White House belongs to the American people across generations. Its architectural integrity should not be compromised for short-term convenience or expansion. I urge decision-makers to halt further alterations, ensure full transparency

and compliance with preservation law, and prioritize restoration and conservation over expansion.

I think it's a national disgrace. This renovation should have been brought before The Citizens of this Democracy and Congress. This is the Peoples' House. The Peoples House is being assaulted in many ways. Our President wants to convert it into a Place for the President. Just another assault on Law and Justice and a circumvention tradition, preedence. Also a misinterpretation of law and limits of power. One can only hope the voices of the people and Congress put us back on the democratic path our forefathers set us on and away the autocratic the path the present administration is taking us. God Bless Country and it's Democracy and it's People.

It is appalling that the East Wing of the White House, the People's House, was demolished without any prior input from historic preservation entities. How this ever could have happened before the wrecking ball destroyed this wing of the White House seems unfathomable. The historic importance of this structure cannot be minimized. A President with only 3 years left in his term (per the US Constitution) cannot act without respect for the bodies that ensure appropriate preservation of OUR historic national buildings.

Please protect our national historic structures from further destruction. Now.

Thank you for your consideration of this important matter.

The destruction of the East Wing of the White House and the MAGA Regime dictator-wannabe's project to build a garish ballroom that would be nearly double the size of the adjacent historic Executive Mansion is a low low point in our nation's history.

Trump had no right to do what he did.

The White House is a National Historic Landmark and National Park, owned by the American people and home to presidents since 1800. Trump is not the owner of the White House: no president is.

The president is only a tenant, whose interventions are restricted by law and by respect for the people of the United States.

Of course the idiot Trump has no respect for anything, or anyone.

The demolition of the historic East Wing without review, without permits and without Congressional oversight is a violation of the law and a gross violation of the trust of the American people who were given no opportunity to comment on what should have been presented as a proposal and not as a violent fait accompli.

I urge the National Capital Planning Commission to require reconstruction of the East Wing in keeping with its historic design and size. Anything constructed on the demolition site going forward must be compatible in scale and subordinate in form to the original structure of the Executive Mansion.

I am sorry I even have to submit this comment.

To whom it may concern,

I would like to express my deep disappointment with the "East Wing Modernization Project." This project has not followed the National Trust for Historic Preservation Act because there was no review presented before demolition of the East Wing.

The failure to present a proposal before demolition has also prevented the public from providing valuable input into the design of the new structure. Such a review often improves the quality of any project of a historic property.

The design of this new structure fails to meet standard #9 of the Secretary of the Interior's Standards for the Rehabilitation of Historic Structures. In particular, the mass and scale are not proportional to the rest of the historic structure. Also, the new structure appears to be larger than the original White House, further failing to meet standard #9.

Furthermore, the President does not have the authority to make changes to the White House. He does not own it. The people, through our representatives in Congress, own it and we ALLOW him to live and work there. If Congress had approved this project, no matter how terrible it would be, I would have no objection. Instead, the President did what he wanted to property he does not own.

Due to these reasons, this project should not be allowed to move forward.

Finally, this project is just plain ugly. There is not architectural style. The new structure would overshadow

the beautiful building it is attached to and make the White House a much less appealing place. The faux gold interior accents are fifty years out of date. If it is built, I sincerely hope a future Congress will approve its demolition.

Where does one begin?

That tearing down the East Wing was done without concern nor comment, and with complete disregard for history?

That the "donations" are simply pay-for-play for an Administration that considers grift standard operating procedure?

That the proposed ballroom at 90,000 feet is unnecessary and will dwarf that mansion?

My father worked for NCPC in the 50's and 60's. He taught us the value of architecture, history and preservation. The plans for Trump's ballroom respects none of that. This Administration respects none of that.

This is not a security issue. This is an ego-driven, out-of-control project that is not well designed, not well thought out and not needed.

Judge Leon is right. The White House has attempted an end-run around Congress and around the organizations that should have been consulted prior to demolition of the East Wing. None of the laws on the books cover a 400 million dollar vanity project for a president that has delusions of golden grandeur.

This is not the swimming pool nor the tennis court. It's not the movie theatre or the cabana. It's not needed to support the structure of the Mansion. This is a gilded monstrosity designed only to feed the ego and arrogance of a billionaire who has to mark his territory throughout Washington.

The White House is the "People's House", not Donald Trump's. This is not a needed addition. America is not judged by the size of its State Dinners but by the character of the leader in the Oval Office.

It's time to say no. There is no security concern and if there is, it's because they chose to move ahead with the East Wing demolition without approval.

It's time to say no because a 90,000 square foot gold-encrusted ballroom is not essential.

It's time to say no because Donald Trump does not have the right to change the face of Washington, D.C. and its history just because he wants to. We've already lost the East Wing, the Rose Garden and the White House is a golden sign covered monstrosity now.

Enough.

I am deeply disturbed by and strongly opposed to the tearing down of the East Wing and its replacement by a structure. that is entirely out of scale with and dwarfs the historic White House. The White House is owned by the American people and is the American people's house. The President and his family are stewards of this important historic structure. All decisions with respect to alterations must be made by respected architects and architectural historians who understand and act consistently with the historic significance of the White House and its restrained, balanced design.

As a citizen of the United States, I value the historical buildings and monuments of our nation that stand as records of our past.
The White House belongs to the American people. It serves as a temporary residence for presidents we have elected to serve us.
Washington DC is beautiful in that the older buildings have been maintained and the horizon has not been destroyed with high rises. Demolitioning the East Wing of the White House should never have happened in the way that it did without transparency and public consent. Rebuilding the wing should keep in mind the character of the White House and not be dominate in form or size, but retain the profile of the original wing.
Thank you for the opportunity to contribute.

I believe the functions of the White House, which necesarily include formality, gracious elegance, and large numbers of guests, make a new ballroom entirely appropriate. The earliest comfortable Americans accommodated ballroom entertaining by allotting huge propoertions of their private homes for the purpose; see the Powel House (1765), Philadelphia. Most houses, even historic ones, get some kind of remodeling from time to time. It has been pointed out that features like the balcony are not original to the house. As lifestyles change and hospitality tries to be graciously inclusive and diverse, a big ballroom makes

total sense, for the symbolism as well as the functioning of our National House.

Public understanding is that the President has found funding that will not come from public funds; that's all the better and a wonderful gift for an important project.

This building project is out of proportion and will destroy the symmetry of this historic building, whereas previous additions have preserved it. There is no way to build such a huge ballroom unless it is entirely underground or not on the White House grounds at all. If Trump pressures the architect into building it to his personal taste - which he undoubtedly will - it will be an overdecorated, ostentatious disaster inside and out. And it is not necessary. Not necessary.

Please do not approve any part of this nasty monument to Donald J. Trump's ego and desire to mark his territory.

Our White House is an historical landmark that breathes history and presents a beautiful place in the Untied States of America. To address my comment to this committee, no one person that thinks they have any ounce of privilege , NO ONE, to alter, change, tear down, refurbish, renovate, redevelop, reconstruct a building that belongs to the people of the United States of America. It is a landmark of the National Park Service.

I AM FULLY AGAINST ANY FUTURE CHANGES TO THE EAST WING OF THE WHITE HOUSE.

I AM FULLY AGAINST ANY CHANGES TO THE EAST WING OF THE WHITE HOUSE.

I DO NOT AGREE TO MAKING CHANGES TO THE WHITE HOUSE.

THIS IS AN UNACCEPTED MOVE TO MAKE ANY CHANGES TO THE WHITE HOUSE.

I AM AGAINST THE CHANGE IN THE WHITE HOUSE.

STOP ANY FURTHER ALTERATION, CHANGE, REFURBISHMENT, RENOVATION, REDEVELOPMENT , RECONSTRUCTION TH THE WHITE HOUSE.

To the National Capital Planning Commission,

I am writing to express my objection to the proposed 90,000\u8209 -square\u8209 -foot ballroom addition to the White House complex. While I understand that portions of the East Wing are already undergoing demolition, I believe it remains important for the public record to reflect concerns about the long\u8209 -term impact of this project.

1. Legal Authority and Separation of Power
Does the president have the legal authority to undertake such a major East Wing renovation without congressional approval.
His action certainly raises many questions about:
- Whether the executive branch can unilaterally authorize a large structural expansion
- Whether the funding mechanism complies with federal law

2. Funding Transparency and Donor Influence
A central objection concerns the administration's plan to rely on private donors—including corporations with business before the federal government—to fund the estimated $400 million project. I think this raises question about:
- Transparency issues
- Potential conflicts of interest
- Concerns about bypassing congressional oversight

3. Historic Preservation Concerns
I support the National Trust for Historic Preservation and its effort to stop the project, arguing that the expansion threatens the historic integrity of the White House complex. Their objections include:
- The scale of the 90,000\u8209 -square\u8209 -foot addition
- Potential alteration of the East Wing's historic character
- Insufficient review under preservation laws

4. Oversight and Accountability Issues
I add my voice to many who have raised concerns that:
- The project's financing structure lacks adequate public accountability
- The nonprofit intermediary handling donations stands to profit from fees
- The administration has not provided sufficient detail about the project's cost and oversight mechanisms

5. Procedural and Planning Concerns
I believe these objections also deserve attention, namely:

- The size and height of the proposed structure
- Its visual impact on the White House grounds and surrounding federal buildings
- Whether the project complies with federal planning standards

The White House is not only the residence of the president but also a historic structure of national significance. A major expansion of this scale risks altering the architectural character of the East Wing and diminishing the integrity of one of the most symbolically important buildings in the country. Such a substantial addition warrants a more transparent and deliberative process than has been evident to date.

For sure, I am concerned about the precedent set by undertaking a project of this magnitude without clear congressional authorization or full public accountability regarding funding sources, oversight, and long\u8209 -term maintenance obligations. Decisions affecting the White House should be made with the highest degree of openness and bipartisan stewardship.

For these reasons, I respectfully urge the Commission to withhold approval of the proposed ballroom addition and to require a more thorough review of its historical, architectural, and civic implications.

Thank you for considering these comments.

Sincerely,

Bud Russell

The White House and the President's Park are owned by the American people. No president or other official can be allowed to alter them without assent of the National Capital Planning Commission and the Commission of Fine Arts and the National Park Service.
It's not a tough question but very plain.
The East Wing must be restored.

I'm commenting on the East Wing's destruction and intended expansion and "restoration".

I think it is appalling that destruction began in the middle of the night with no plan submitted for approval in advance and with no notice, no opportunity for input from the public, no discussion of the estimated cost and with the "concept of the plan" only known to the president and maybe a dozen other individuals.

My first reaction was outrage and this was followed by dread when a visual concept was presented.

No one person, even the person holding the highest office, should be given the unchecked power to make such a decision.

In my opinion the proposed space is far too big for the property and dwarfs the White House in a disturbing way. Principles of proportion have been ignored and if this structure is approved the effect will be discordant and no doubt the subject of criticism and ridicule for generations-not only from U.S. citizens but worldwide.

If the East Wing has legitimate need for expansion and security upgrades I hope a team of trained architects, rather than one or two, would be assembled to carefully design the renovation inside and out while keeping it in character to the existing structures that share the property.

I would fully expect the same scrutiny and consensus would be applied to the interior details and decor. The White House was not intended to be a palace and the ballroom was not intended to be a venue for spectacles tailored to Mr. Trump's interests.

I urge you to widely broadcast your appeal for comments so that those concerned/ interested in voicing their own opinions will have the opportunity in time to do so.

The White House is not one person's private living quarters - it is a historic property maintained by the National Trust of Historic Preservation and the American people and any changes to this historic property needs to be sensitive in nature and appropriate for the building and approved by a committee of preservation architects and engineers who are well-versed in maintaining the integrity of the building and the needs for future use of the structure, rather than the plaything of an over-zealous person who has no taste or experience in designing a building with over 200 years of history.

It is appalling that this project has been undertaken without following the proper protocol. This is the nation's house and no president has the right to blindly proceed with what is clearly a vanity project. A gaudy gigantic ballroom isn't "what everybody has always wanted ". It's what he wants without caring at all if it is appropriate. This project should be stopped. Sadly, the east wing is destroyed, but if informed, intelligent people take control perhaps it can be salvaged. Or, at least a structure more in keeping with the existing building can be designed.

Good luck getting rid of all of the tacky gold embellishments once the White House ejects its current resident.

Capriciously tearing down the historic East Wing without checking the will of the people or organizations charged with overseeing historic buildings and monuments in order to construct a ballroom that nobody asked for are two acts beyond the pale. Carelessly exposing White House occupants to possible contaminants from unplanned demolition and improper disposal of debris are two distressing consequences. As well, having only concepts of a construction plan that grows monthly and is unchecked by any organizations overseeing historic building repair and construction is outrageous. Furthermore, how does a ballroom benefit We, the People? Additionally, the proposed funding of the ballroom suggests nothing but legislative influence for rich individuals and corporations offering the money.

The White House belongs to the citizens of this nation. As a National Historic Landmark, no one - including the President - has authority to make dramatic changes without going through the reasonable process of consulting those who are charged with preserving such a landmark. Other citizens who preemptively bulldoze buildings in order to avoid such consultation could be jailed for such an action. Of course, with recent Supreme Court findings that make such a consequence impossible for the sitting President, Trump will not be held accountable for such a flagrant disregard of the law.

But the size and design of the new building should be reviewed and approved by the appropriate bodies before any further construction work takes place. I would even approve of an armed standoff of appropriate law enforcement body to prevent further work at the site, since Judicial rulings themselves do not stop Trump.

Having said all this, I don't have much hope Trump will be stopped. But I encourage the appropriate bodies to begin visualizing how to strip the resulting ballroom of whatever gaudy gold chandeliered monstrosity Trump builds, and create a plan for how to redecorate in a manner deserving of an historic landmark of the American people. Trump may be able to get away with unilaterally doing things while in office, but we can strip away most of those things as soon as he leaves office. Let's begin plans for doing just that!

Hello,
I am not in favor of the destruction of the Capitol to renovate for a Ballroom.
I am in favor of restoration to the destruction that has occurred prior to following procedures re: Historic Places.
Please get this restored to the best possible work that can be done.
It was a travesty to see this monumental destruction on TV.
I urge you to consider the costs to the public to heat and cool and clean, etc. this massive ballroom addition which is not needed. Additionally, the costs to host such massive events which could have additional costs for security; again, costs borne by taxpayers.
Please restore the damages as soon as possible. Do not build this mega ballroom. Such a facility could be built elsewhere but NOT at the HISTORIC Capitol.
Thank you for consideration of these comments.

First of all, I am still irritated that the Trump administration proceeded to tear down the East Wing without the proper authorization.
Did the contents get preserved? Donald Trump should be required to replace the Esst Wing. The White House looks bad without the East Wing. Will it be functionable as the home for future presidential families?
Second a ballroom is out of place in that location. It eould look out of place. A congressional decision needs to decide the necessity of a ballroom and a better location if it is a priority.
A ballroom costs too much when we do not have the will to help hungry families with children.
Also we have hungry college students that I take my turn to help feed a weekly meal.
This whole ballroom issue makes me want to withhold a percent of tax money.

The White House is too unique & historic of a structure for any unnecessary “modernizations”. It is not meant to be a luxurious hotel, rather a symbol of the American people & our country. Adding a ballroom would not only severely “cheapen” the estate, but alter it significantly to the point of irreversibility. Let history be.

The destruction of the White House East Wing was illegal and in disregard of planning regulations pertaining to public buildings. Congress did not appropriate money for construction of a ballroom nor authorize this abomination, nor is there any demonstrated need for a formal ballroom. There is a former post office building adjacent to the White House that has a large ballroom space, and there are many large halls in Washington suitable for formal public events. The legitmate uses of the White House are as an executive mansion, and as a site for diplomatic meetings with world leaders and diplomats. Donald J. Trump is a discredited authoritarian leader, who should be excised from public memory after his death, which should come within a few months as evidenced by obvious signs of his failing health and declining mental capacity. His estate should be required to pay for reconstruction of a White House East Wing within the footprint of the former structure, and having an exterior design like that of the destroyed wing. The new structure should be utilized as a greeting area for diplomats and world leaders, and not as an entertainment area for oligarchs. Trump's White House decorative scheme, evident in the Oval Office, is evocative of Hitlerism and Nazism--especially the Nazi eagle evident in many Oval Office photgraphs. All of the tasteless Trumpian gold-plated doodads should be removed and destroyed as soon as Trump is impeached and removed from office, is deemed incompetent and removed from office, or dies.

I think the East Wing Modernization Project / Ballroom is a great idea. Apparently some think there should be a design committee with multiple ideas that have to be thought about and factored. I have been on those committees and there are delays because of 'better' ideas that have to be redrawn into the plans, usually several times and by then those who will do the building have figured out ways to charge more, and in the end most of the committee is beyond upset with the whole project because their idea is not fully intact. So please, avoid all that and let the President build it the way he and future Presidents will use it.

The addition of a huge ballroom to the White House is an abomination and should not be approved. The fact that the East Wing was razed before plans for this addition is an affront to the American people. This ballroom will change the entire character of the White House. This beautiful symbol of our country should not be overshadowed by an addition. We have much more serious issues to deal with. The President should be requesting donations from our wealthy citizens for things that will have a real benefit to our country, not an unnecessary grandiose ballroom that would be totally inappropriate for our nation.

Subject: Formal Objection to the White House Ballroom Expansion Project
I am writing to express my strong opposition to the proposed ballroom addition to the White House. This project represents an irreparable blow to our nation's architectural heritage.
My concerns are threefold:
• Loss of Historical Integrity: The demolition of the East Wing erases years of history for a project that prioritizes luxury over preservation.
• Scale and Symmetry: At nearly double the size of the original Executive Residence, the addition dwarfs the historic structure, destroying the visual balance of the South Lawn.
• Procedural Transparency: The decision to bypass standard federal reviews, such as those by the Commission of Fine Arts, sets a dangerous precedent for how we treat our most significant national landmarks.
I urge you to advocate for a more transparent review process and a design that respects the scale and history of the People's House.
Sincerely,
P. Rodriguez

The ballroom proposal should not be approved. It is an inappropriate design for the sight and for the purpose of the White House & its environs.
(1) The size is too large for the site, especially given that it exceeds the size of the White House, itself. The purpose of these grounds is not reflected in an oversized and conspicuous structure such as this ballroom proposal.
(2) The internal design reflects a gaudy and in fact tawdry perception of "luxury". It is not at all in keeping with the aesthetics of the United States of America. Someone has designed a room trying to look like an amateur's perception of the Versailles Palace.
(3) Finally, it is without integrity for whatever committee makes this decision to enable the clumsy thumbprint of the current president to be imprinted on and to desecrate this priceless American legacy of the center of our government.

The White House is a National Historic Landmark and National Park, owned by the American people and home to presidents since 1800. The current president at any given time is not the owner of the property or the structures thereon; the president is a temporary tenant whose interventions are limited by law and by respect for the people of the United States.

The demolition of the historic East Wing without review, without permits and without Congressional oversight is clearly a violation of the law. In addition, it is a violation of the trust of the American people who were given no opportunity to comment on what should have been presented as a proposal and not as a violent fait accompli.

I urge the National Capital Planning Commission to require reconstruction of the East Wing in keeping with its historic design and size. Anything constructed on the demolition site going forward must be compatible in scale and subordinate in form to the original structure of the Executive Mansion.

I am writing to comment on the East Wing Modernization project AKA the Ballroom.
I think Mr. Trump should be prosecuted for illegal destruction of federal property. He had no authorization to destroy part of the White House and did no processes to protect any of the security features inherent in a building of this type. This is not his personal property or one of his hotels. He will not be there after the next election cycle. The offices that were destroyed should be rebuilt with proper processes and research to determine what kind of space is needed for the White House and its future occupants. Mr. Trump should personally pay for the full replacement costs. This was ridiculous, unnecessary and totally illegal. He continually violates the trust of the American people.
Whatever building is built should use green energy and be a showplace for scientific, environmentally friendly building.
Thank you,
Sharon Shortridge

I echo the many sentiments below, as expressed by Stephen Fortunato in the article "Mr. Trump, Your Ballroom Will Not Stand," published February 1, 2026 on the website, Barn Raiser (https://barnraisingmedia.com/trump-white-house-ballroom-violates-common-law/)

"It is not just that the ballroom-East Wing project is a garish disfiguring of the White House and its grounds, it is absolutely unnecessary. The Andrew Mellon Auditorium is owned by the federal government and is a short distance from the White House next to the National Mall. Trump surely knows this, as it was the site of much of the 2020 Republican National convention. Dedicated in 1935, the Mellon Ballroom can seat close to 700 people for dinner; and its neoclassical style has impressed architects and visitors alike...But

whatever the seating capacity or perceived aesthetics of this undertaking, it is clearly unlawful....

"Since the 13th century, under our common law adapted from the English, the doctrine known as Waste has prohibited anyone who is not the absolute owner of real estate from destroying or substantially altering it without permission from the titled owner...Though there have necessarily been modifications and refinements to the doctrine of Waste, its core principles remain unchanged in contemporary American law. If you rent a house with a large garden, you cannot lawfully rip out the garden and construct a workshop without permission of the owner. You cannot dig up your landlord's driveway to install a swimming pool. The fact [Trump] expends [his] own money "improving" the land or buildings does not miraculously make [his] conduct legal...

"Trump is not the owner of the White House any more than Abraham Lincoln or Ronald Reagan were. He is neither a tenant of the White House under a rental agreement, nor does he have a life estate in the property. The owners of the White House are the American people. Trump temporarily occupies the White House with the permission of the American people and holds it in trust for their benefit until another temporary occupant moves in; management of the site is entrusted to the National Park Service, the National Capital Planning Commission and other government bodies. There is no evidence that Trump sought guidance or permission from any of these entities. Trump has, of course, installed worshipful loyalists in positions of authority in virtually all government bodies, thus guaranteeing no opposition to his wishes. On October 28, 2025, with his project already underway, Trump fired all members of the Commission of Fine Arts, one of the oversight groups....Trump has demonstrated during his time in office that he views the law—along with the opinions of other people—as mere suggestions he can accept or disregard as his unbridled ego chooses. According to reporting by the New York Times, Trump has told workers on the ballroom project that "he does not need to follow permitting, zoning or code requirements because the structure is on White House grounds and he has the final say....Despite his disdain for the rule of law or the validity of customary norms, under the doctrine of Waste, Trump has no lawful right to do what he has undertaken...

"Trump will ultimately vacate the premises he has vandalized. When he does, and more rational and historically sensitive people are in charge of our government..." if this ballroom is ultimately constructed, "the ballroom should be torn down and the East Wing rebuilt. And, as the Waste doctrine allows, the federal government should sue Trump for the costs of removal and repair."

Do not de-face the re-imagined rooms of the new East Wing with a gaudy display of gold nor with photographs or paintings larger than appropriate for scale of the room(s). The White House is the "people's house"and the East Wing an extension.
It should reflect the historical nature of the edifice.
Presidents come and presidents go, but the WH and bldgs remain as edifices reflective of the nations long history-not one particular era.
The building can be grand & elegant but never grandiose.

Fellow Americans:

I am completely and utterly opposed to the aforementioned project as it is currently proposed, both to the Project itself, and the proposed method for financing.
1) the size and scope of the Project is completely out-of-scale with the complex and would overwhelm the Mansion. It would also destroy the historical composition (i.e. symmetry) of the compound..
2) The proposal to fund construction with "voluntary contributions" has no proper precedent and would be an open invitation to bribery and favoritism.

Regards,
Craig A. Sundstrom

The White House and its entire site belong to the people, not just one administration. Occupants are simply on loan to the country's property. One needs to show respect for their temporary stay at a nationally registered historic property. The East Wing should never have been demolished and the lack of respect shown to the entire White House property is unacceptable.

Thank you for soliciting comments: I am an architect, a Fellow in the AIA, past president of major national architectural practice RNL, now bought by Stantec. We had a Washington DC office and have been involved with many government projects including the National Renewable Energy Laboratory in Denver. I am also involved in historic preservation as a trustee of Historic Denver. First, let be say that the project title says it all as to the scope of the project. The "East Wing modernization" is beyond ironic since the real name should be the East Wing Demolition, and the merits must be evaluated in regards to that demolition. This is the demolition of a national treasure, and a lie to the citizens of our nation and to the Commission charged in reviewing these federal projects. The demolition was done without review, without permit and without any authority. Proper procedures were not followed in regard to authorization, demolition process, abatement of toxic materials, destruction of the historic artifacts in the East Wing structure, and without proper protection of historic landscape including numerous legacy trees. And the entire project was premised on a series of false justifications such as "the Ballroom will not touch the existing East Wing" and that the ballroom is needed and has been wanted for decades.

The original Ballroom proposal was for a building half as large on a much smaller footprint for nearly half the cost. This design as drawn conceptually is boated, out of proportion, and not in any way compatible with the architecture and style of the White House main building. The height is too high, and the classic detailing in no way follow principals of sound classic architecture. The excuse to build for National security is completely fabricated. The bunker, under the ballroom, can be completed and a new East Wing created that better fits the site, the scale and the context of the White House grounds. If the bunker footprint is larger, that can be solved by building in what is appropriate, decking the rest, and landscaping over the deck. The bunker should not become an excuse for building the monstrosity of the White House structure that is completely out of scale and proportion with the rest of the complex in height, size, footprint, and materiality.

If in fact there has been a real program created, this should be shared with the public. The excuse that this is much needed just does not seem plausible as there are numerous venues in DC, many of which I have attended, that can easily accommodate the projected uses. The National Building Museum comes to mind. And if a ballroom really is needed, there are numerous locations in proximity to the Mall that could accommodate a better building and a more sensitive design. I also question the funding, how it was obtained, and what the strings were attached in making what are reported to be extremely large contributions, with most donors holding large existing contracts. But even if the funding is appropriate, the proper project management has not been identified, drawings have not been completed and cost estimates are strictly back of envelope at this point of the process. A project of this magnitude must have disciplined scope, sound project administration, and complete contract documents to assure that there are no over-runs and that there are not major errors and omissions that in the end would result in delay cost over-runs and the risk of the public holding the bag. A project of this magnitude should have congressional oversight, approvals and thorough project scrutiny.

There has not to my knowledge been a $400,000,000 project awarded without a competition for architect, contractor, and project manager. How was the architect selected, what are his qualifications? Has the contractor built anything of this magnitude? Was the first architect McCreary fired, and has he been paid? Has he released his drawing or does he retain intellectual copyright for his design? Who are the consultants-structure, MEP, civil, landscape, lighting, furniture, fixtures, equipment, technology, security. Is there a geotechnical report? I final approved cost estimate? Is there a project being completed by bid, fast track design construct with a guaranteed maximum price? Or is it CMGC (construction manager, general contractor?

The point is that as the project as constituted today, there just is not enough information made available to the Commission to approve this project moving ahead. Without any of the proper procedures, no guarantees, and a bunch of bad practices for government and public owned construction, this is a project that is likely to be in trouble before it ever starts. The project has been ill conceived without program and without justification. The size has shifted numerous times and the design has not been locked appropriately for construction. The demolition of the existing building was ill conceived and executed without any of the normal approvals. The architect and contractor hired without any normal process, RFP, proposals and interviews. The funding and budget is still not locked down and is being run without any project management or fiscal administration, The design is just wrong-the wrong building in the wrong place! And all of this being done without any process, legality or normal government procedure for projects of this magnitude.

Therefore, I support the National Trust and ask that the Commission find the project inappropriate to proceed, not to be delayed, but rather to be cancelled, and that an appropriate rebuilding of a similar project similar to the original East Wing be designed and completed and that the historic lawn be restored. What cannot be remedied is the fact that the East Wing should never have been demolished in the first place. This is sacred ground, owned by the Citizens of the United States Of America. The entire idea, "the modernization of the East Wing" probably would have been approved, but when "modernization" became "demolition" the project became something totally unacceptable. Please do the right thing. Understand that this is a catastrophic project that in every way it can go off the rails in scope, budget and appropriateness. The only action acceptable at this juncture is to cancel the ballroom, and proceed to start a normal government procurement process for the "East Wing Rebuilding Project".

Thank you for this opportunity to comment

Respectfully
Richard L von Luhrte FAIA

This is a case of closing the barn door after the horse has escaped. The East Wing was leveled without any opportunity for public comment and in complete disregard for the permitting process. The White House belongs to the American public, not the current occupant. The proposed ballroom will apparently overshadow and therefore diminish the significance of the White House. For what purpose? To enhance and streamline the important work of government on behalf of the American people? No.

I oppose this project in its entirety, but the damage has been done. It's ironic that the last time damage was done to the White House on the level of what has occurred in the demolition of the East Wing, we were at war, and it was an invading force that perpetrated it.

I am ABSOLUTELY DISGUSTED AND STILL HORRIFIED that Trump tore down part of The People's House without going through the proper review process!!!!!
He should be IMPEACHED AND REMOVED from office for this and MANY, MANY other things! Also, WTF happened to all of the priceless items that were housed in the East Wing? Did they get bulldozed under and taken away with all the other rubble!??????

If it ever gets rebuilt, it shouldn't be for an f'ing ballroom for events that only the richest of the rich will be invited to. It should be rebuilt AS IT WAS, and hopefully, the items that were taken out put back in their rightful places!!!!!!!! \u-10178 ?\u-8916 ?\u-10179 ?\u-8668 ?

The White House is known as "The Peoples House". Each President is a temporary resident. In the White House's history there have been needed repairs and things to modernize the building. Examples include a swimming pool and a movie theater. But they were done with the keeping the spirit of building, and with architects and historians. In 2026, America is celebrating 250 years of democratic Republic. No single individual runs the whole of the government. Any additions or renovations need to reflect that. The proposed East Wing and Ballroom are an affront to what previous generations fought and died for. We never subscribed to royalty and the aggrandizement of a single living individual. We should scale back any additions in the keeping of 250 years of humility.

Trump ordered the East Wing torn down with no due process. This is not "Modernization" it is large scale destruction of public property.
The White House is the Peoples' House. Trump is not the owner. He is more like a tenant who wrecks a rental property, or an employee who steals. Bill him to have the building restored exactly as it was. If he has

to be sued to insure payment- do that.
And provide an inventory of furnishings and decor that may have been destroyed or appropriated, so that compensation can be accurate and complete.
Any future ballroom or other buildings contemplated for the property must be vetted in a normal, legal procedure.

The proposal for a monstrous "ballroom" on the White House grounds is an insult to the American people from the worst president - by every measure - we have ever been forced to endure. The way he has tarted up the Oval Office is a preview of what the "ballroom" will be. Destroying the East Wing was a travesty he should pay to rebuild with all of the grift he has corruptly taken since January 20, 2025. The "ballroom" should be stopped cold.

Hello, and thank you for your time considering this proposal. I am upset that we are here now seemingly following the legal process after the historic east wing was destroyed without permission. I am dubious as to whether or not this process will make any difference in the design, but will register my thoughts regardless. I have seen renderings of a design with classical columns and arched windows that looks very nice, but it is better for another location because it seems to overwhelm the White House in scale.

Of course, the best solution would be to demand reconstruction of the razed historic structure and advocate for construction of the ball room elsewhere. Since that will likely not happen, how about a compromise proposal. Would it be possible to keep the same basic design at 3/4 the size? It will still be a monumental addition to an historic building, it will still significantly increase the capacity for dinners and balls, its architecturla style will mesh with the other public buildings in DC, AND it would be at a scale that does not over power the main wing of the People's House.

Thank you

The East Wing of the White House has long stood as a symbol of continuity — the quieter counterpart to the West Wing's theater of power. It houses the offices of the First Lady, serves as a ceremonial gateway, and represents a softer, more civic-facing side of the presidency. To treat it as disposable, ornamental, or expendable is to misunderstand its purpose entirely.

What critics see in Donald Trump's handling of the East Wing is not simply a matter of aesthetics or renovation choices. It is emblematic of a governing philosophy that prizes spectacle over stewardship. The White House is not a private asset to be branded, refashioned, or hollowed out according to personal taste. It is a living museum, a constitutional workplace, and a public trust.

The East Wing in particular represents institutional memory. It has historically been a space where initiatives around literacy, public health, military families, and children's welfare were coordinated. Diminishing its role — structurally or symbolically — sends a message that the civic and humanitarian aspects of the presidency are secondary to power politics and personal image.

Leadership requires reverence for institutions one temporarily occupies. When historic spaces are treated as backdrops rather than inheritances, the damage is not merely architectural — it is cultural. The East Wing's significance lies not in marble or drapery but in the idea that public service has dimensions beyond dominance and headlines.

To erode that understanding is to chip away at something larger than a wing of a building. It is to blur the line between stewardship and ownership — and that line is fundamental to a functioning republic.

I would like to see it returned to its original build except maybe add a special room or section that would highlight the Constitution, that would display the foundation of our Democracy, reminders of the checks and balances, a reminder to all politicians what their role is - that of representing the people, and perhaps some space allowed for potential consequences...just as a reminder to our current administration and his party what the office of President stands for and give those visiting a history lesson. Above all else, make trump pay for the re-build out of his own pocket, and of course, pay back the corporations who supposedly sent him money for the ballroom. He's got the assets.

Since this wing was also meant for the First Lady and her staff, then maybe dedicate the walls to the First Ladies of the past and the work they did for our country, causes and accomplishments, not including the current First Lady.

And above all else, NO GOLD!

I am broken hearted that the East Wing was torn down without review from the agencies responsible for historic preservation. There is no reason to build a massive ballroom at the White House. The original footprint of the East Wing should be used for the renovation. Past presidents should be polled to find out what would be the best plan for the new wing. The construction should be energy efficient and be built in the style of the rest of the White House.

It looks as if an ego needed to be satisfied by, with bad taste, vandalizing the east wing by supersizing it out of proportion to the White House. It is tastelessly designed. And since the unpermitted destruction is a fait accompli, he seeks to get what he wants without
legally required permission. He should be required to rebuild it as was done for the Campanile di San Marco - where it was and as it was. BTW, because the East Wing would imbalance the White House complex, he wants to alter the West Wing too. Require reviews and approvals for that to avoid going down this muddy road again.

A gigantic, ostentatious triumphal arc would be a blight and not really what America is about. no doubt he will want to have his name or visage on each of these; that should not be permitted. Nor should the EOB be painted white.

Thanks for doing this.

All comments with APPROVED cad drawings should have been addressed PRIOR to the destruction of any

part of the white house, with funding approved by Congress as appropriate. Funding should not come from pay to play billionaires or their interests. We now have a shambles of a White House, unknown budget, unknown plans, and they're already talking of some ridiculous arch. America needs so many programs, such as universal health care, education funding, reinforcing safety nets like the Social Security trust fund than a grotesque ballroom that offers no benefit to 90% of its citizens. He broke it, let him pay to fix it. And if we're going to give tax breaks, how about at least insisting you get no tax break if your business doesn't offer all employees health care and ensures none of them qualify for welfare based on paid wages. And lift the damn FICA cap, so all workers pay their share into the trust fund to keep it afloat at full benefits.

No U.S.President should be allowed to tear down any part of the White House. No U.S.President should be allowed to use private donations to build onto the White House. The design of any White House addition should be created and administered by a government-funded agency - not the President. This is America's house - not Donald Trump's house.
The attempted speed of this effort demonstrates that Trump does not want the public's input or any consideration from historians or preservationists. This addition requires a thoughtful, patient, and independent review - not a rushed review by Trump loyalists acting as Yes Men.

Over the years, the White House has evolved to suit the needs of the country as it has grown and developed. However, changes and growth need to be done with thought and care, taking into consideration the existing building, its functions, and condition. Renovations and/or additions should be proportionate in size and blend with the style of what is already in existence. By all reports, the proposed ballroom does not take any of these points into consideration.

While the original East Wing has been destroyed - without proper review and approval - it should not be replaced with an addition that does match the building it will be attached to. A large formal reception/banquet space may be needed, but it should be more in line with the style and scale of the White House.

Please do not approve the addition of the proposed ballroom.

The White House is a National Historic Landmark and National Park, owned by the American people and stewarded by the National Park Service. It has been home to our presidents since 1800 and is perhaps the most significant historic site in the United States.

The demolition of the East Wing was an illegal affront to We The People, and a violation of a National Treasure, at taxpayer expense without taxpayer input (I know he said he had it paid for himself, but past behavior tells us he doesn't operate that way, and he lies about it.). The proposed abomination is a further insult, destroying the most iconic representation of our democracy.

I, a taxpaying citizen of this country, vehemently oppose constructing this monstrous abomination. I assert that trump, who singlehandedly destroyed it, must be forced to pay up front, in US currency, the total cost of replacing the East Wing as it existed prior to its unauthorized destruction to make room for his narcissistic, empirical debacle of a monument to himself and his wretched excess. Further, he must be forced to reimburse (or, more likely, finally pay for) the cost of its unauthorized destruction, and for any asbestos abatement that may be necessary at the site as well as the location where the rubble was placed..

Dear Sir/Madam-

I am utterly opposed to, and aghast at, the heinous and illegal actions taken by the Trump administration with respect to the sacrilegious destruction of the East Wing.

As a Registered Professional Archaeologist and Certified Planner, I clearly see that this action amounts to a foreclosure of the Advisory Council on Historic Preservation's opportunity to comment, as enshrined in, and required by, 36 CFR Part 800. The White House, as a singularly important historic property that is owned by all Americans, deserves the highest and strictest level of federal review of an undertaking prior to undergoing adverse effects to its significant historical qualities. The destruction of the East Wing is the most acute and egregious example of a thoughtless action that is inconsistent with federal preservation law and practice that I have seen in my 32 years of experience in Cultural Resources Management. It offends my sensibilities as a seasoned preservation professional, and pains my heart and strikes to the heart of my American identity as a citizen of this nation.

Please take a vastly heightened review of this proposed action before the historical setting and dignified nature of the White House and grounds are irreversible stained by this gaudy temple to self-aggrandizement and privilege....at the People's house, no less.

Sincerely,

Andrew Pulcheon, MA, RPA

As an Architectural Historian, I am appalled and disgusted at this administration's selfish and shortsighted demolition of the East Wing of the White House. The White House belongs to the people of this country, not to the office of the president, nor any single person occupying that office for a time. Furthermore, the proposed "ballroom" does not adhere to any of the federal standards for new additions to historic

buildings. While I understand that certain buildings at the capitol are subject to different regulatory processes than standard historic resources, nonetheless as proposed the addition doesn't even come close to the bare minimum requirements for stewardship of historic buildings. The "ballroom addition" is massive in scale, dwarfing the original White House and completely skewing the proportions, symmetry, relationship of buildings and additions to one another, and the overall site plan. Furthermore, both the purpose and function of this new addition do not serve the public good, they serve the ego of the White House's current occupant, who despite what he may think, will not be its permanent occupant.

The American people neither need nor want a ballroom at the White House, and there are already existing locations where leadership can meet with foreign dignitaries, but a ballroom is something reminiscent of royal estates or the palaces of Russian oligarchs, and has no place in the heart of our democratic government. Finally, while our current president claims that public funds will not be used for its construction, there is little evidence of that. The public deserves full accountability for all funds being used in the construction of this un-American, unsightly, and entirely historically incompatible monstrosity and where exactly they are coming from. This means not only a line item stating "donation", but a full accounting of where said donation originated, whether the donor has received any government contracts, government positions, or been awarded sale of businesses or other organizations under the purview of Donald Trump, his family, or any of his associates and friends. The current occupant of the White House is the most corrupt, amoral, and criminal person to ever hold public office at this level, and construction of his vanity ballroom with funds that came from bribes, corruption, or the illegal looting of American taxpayer dollars through funneling said funds through contracts, illegal sales, or quid pro quo, should be made public.

To reiterate, I am an Architectural Historian who has worked in the field of Historic Preservation for over two decades and I am firmly OPPOSED to the proposed East Wing "Modernization", whose sole purpose is to stroke the ego of a pathetic madman.

The White House is a National Historic Landmark and National Park, owned by the American people and stewarded by the National Park Service. Demolishing this wing before even reaching out to the National Historic Landmark committee or the US citizens is egregious. The idea that the White House should erect a ballroom when there are plenty of rooms that already serve the function is absolutely ridiculous given the state of the economy and the issue of bloated budgets that the POTUS brought up several times during his campaign for presidency and during the first year of his second term. Let us be crystal clear, this modernization of the White House at all is unwarranted and should be scrapped and the walls replaced and

made into a room dedicated to accomplishments of black and brown immigrants and slaves that brought art, commerce infrastructure and wealth to the United States.

I do not believe one individual no matter the office or status in the United States that person holds should have the ability to change any government building, protected landscape, including said naming of spaces or buildings, especially those with historical significance to our country in any way without an approved process that has input from many different stakeholders. What President Trump has began in Washington DC with the minor White House changes, renaming the Kennedy Center, and tearing down the East Wing to construct a ball room should all have to be approved through a formal process. The need for this process should become a "Heritage Law" in order to protect such historic spaces and landscapes from suffering irreversible harm or change by one individual.

Unfortunately the East wing of the White House, the people's house, was demolished without input from the people of the United States and information that has been released regarding the addition of a ballroom-massive in size and gaudy in decoration must not proceed without oversight by the preservation and planning organizations as well as by the public. Given what has happened to the Oval Office - now covered in gold ornaments on as many surfaces as possible, is tasteless and gaudy and this desecration of the White House has to be stopped and reversed back to its former understated elegance.

As an American citizen , we (the collective citizens of the United States of America) OWN the White House. It is not, in any way shape or form, "owned" by the First Family that resides in the White House. They are no more than renters. Minor upgrades, such as plumbing modernization, lighting upgrades - and so on - are, of course, within the rights of those 'renters'... they have no more rights than the renters of my homes! There is no grey area here, and Trump administration knows that. The DESECRATION and DEMOLITION of the East Wing is an unpardonable offense to the American people. Personally, I wept seeing the symbol of national unity carelessly bulldozed - without so much as a single citizen being asked if that is what we (collectively) wanted. WE DO NOT WANT A BALLROOM. Ever. We expect the demolished East Wing to be RESTORED to

its original grandeur. IMMEDIATELY, and at 100% the current administration's (personal) expense. Aside from all of the (other) illegal atrocities that this current administration has malignantly wrought upon our people - this one is easily remediable by the Historic Foundation and other historical preservation societies in the USA. The fact that such an attack against our collective heritage and the preservation of our most sacred and honored artifacts and buildings was perpetrated so purposefully, so swiftly, and so unwisely is a damning testament to the lawlessness and carelessness -- and the outright contempt this current administration has for our precious and beloved building and nation.

To whom it may concern

As the functional hub for the Office of the First Lady for more than 80 years, the East Wing is a site of enormous historical importance. Its destruction is a slap in the face to women's history, as I suspect was the intention. A 90,000 foot ballroom is entirely OUT of keeping with the both the solemnity and history of the White House, not mention out of keeping with its scale. The memory of our past Presidents and First Ladies deserves better. Please engage a competent architect well versed in renovations to historic building to design a historically appropriate solution. For the sake of our children and grandchildren, I deeply mourn the terrible damage that has already been done to this historically significant space, and beg you to do better going forward.

Thank you for your attention,
Leslie Robertson

This should not be a rushed project! While I agree we need a larger space for gatherings, I deplore the destruction of the old East Wing as a beginning. I question the need for a space as large as what has been seen in the papers. I would hope that any addition would take into consideration the White House and surrounding buildings. I wonder if part of it could be below ground level? It must blend in and be part of the current Executive Office Building and surrounding buildings. It should have "sign-off" by all necessary parties before construction begins.

First of all, the title. "East Wind Modernization" doesn't really describe the project, does it? "East Wing Destruction" would be more accurate. Secondly, the design. The architectural style of the White House is based on classical norms, and fundamental to these is a sense of balance. The new version of the East Wing is utterly unbalanced with the rest of the building. Its radical lack of symmetry destroys the classical norm essential to the White House's architectural style. Third, the interior. The White House was built for and inhabited by men who rebelled against European monarchy. The present design is a gimcrack version of European monarchical style. Washington, Adams, Jefferson--especially Jefferson, a superb architect himself--would retch at the sight of it. And European monarchs of the time, seeing it, would laugh at its pretension.

For it to be begun, and then left unfinished, would be the best possible monument to Donald Trump's second term.

I have been a member of the National Trust for Historic Preservation for years because I believe historic preservation is necessary to preserve our country, our history and our culture for future generations. NTHP serves a valuable role in this mission.

I am also an avid National Park Service visitor and proponent of the valuable work that this government agency does for the American people. Again - to preserve, conserve and protect our country physical landmarks, our history and our culture for future generations. I HAVE PERSONALLY VISITED 402 OF THE 433 NPS sites and it has been my mission to see all of them if I continue to be of good health.

Because of what a National Historic Landmark means in this country, it belongs to the American people. And we have the right to voice our opinion on what is done to change that landmark. That is why we have deliberate and well-established processes followed by experts to determine what can and should be changed and the guidelines around that. NOTHING that has been done followed this process, which means Americans had no voice. I believe the people who destroyed the East Wing should have to rebuild it to its original specifications, design and purpose. This administration does not have the American people in mind. It is only trying to aggrandize one man who has never built anything - he has only destroyed. Do not let this project continue, and return the White House to the state it was in before its destruction.

The East Wing was demolished without any consent or notification to the people. The White House is the people's house. No other president in the history of the United States of America have demolished a part of the White House with no oversight. This is not Mr. Trumps personal residence. It is a national monument paid for by the people. He has the honor of living there as a guest. His plans for the East Wing are not FOR THE PEOPLE, it is for him. I strongly oppose any ballroom. He destroyed a part of American History and a historical monument for HIS OWN whim and fancy. The White House has policy and procedures that he ignored that are now irreversible. Trump should personally pay for the restoration of what he has destroyed without any consent, permit or due process.

Public Comment to the National Capital Planning Commission

I am writing to express my very strong opposition to the proposed 90,000-square-foot ballroom addition to the White House, reportedly costing more than $400 million.

The White House is not merely a residence; it is a national historic landmark and a symbol of American democracy. Any substantial structural addition to this historic property must be approached with the utmost care, transparency, and respect for preservation standards. A project of this magnitude demands thorough review, proper permitting, Congressional oversight where required, and adherence to established historic preservation processes.

At a time when the nation faces pressing domestic and international challenges, allocating over $400 million to construct a ballroom raises serious concerns about fiscal responsibility and priorities. Public resources should reflect national needs and public benefit, not discretionary expansions that may alter the historic character of one of America's most significant public buildings.

I respectfully urge the Commission to:
1. Ensure full compliance with historic preservation laws and review procedures.
2. Require transparent disclosure of funding sources and long-term maintenance costs. We need to know the identity of all private investors & their financial commitments (guid pro quo) to assure their are no conflicts of interest or promises from Trump to investors.
3. Carefully evaluate whether the scale and scope of this addition are appropriate to the White House's historic and civic significance. Concern should be over the imbalance of this ballroom over the rest of this historic bldg.
4. Consider the precedent such an expansion would set for future alterations to nationally significant landmarks.
5. Should NCPC deny or amend the bldg & design plans for this ballroom I truly believe that Trump & his investors should be assessed a substantial penalty for the demolition already done to this historic bldg without proper approval & authorization & delay any subsequent approval & permits until this penalty has been paid in full.

The White House belongs to me & to all the American people. We, the People of America, should have a say in this major capital improvement. Any permanent alteration should reflect broad public interest, fiscal

prudence, and reverence for its historic integrity.

Thank you for the opportunity to submit public comment. Should you have any questions in this regard, please do not hesitate to contact me at any time.

Sincerely,
Jim Lopes

Dear East Wing Modernization Committee,
I'm writing to express my view on the East Wing Modernization Project. I am very disappointed that the demolition of the East Wing did not follow the proper procedure of being presented to the legislative representatives, that there was no Environmental Reviews conducted, and the public had no opportunity to comment prior to the demolition of the East Wing, and lastly there was no oversight committee too.
The White House, I was taught in Civics, belongs to the American people and that the American people are our partners in Democracy.
Donald Trump has been allowed to run roughshod over the rules and etiquette that are part of being President. And, I've heard, been able to shakedown certain corporations in contributing to the project.
As a citizen, I would like to know who the contractors and construction companies are. Are they part of Donald Trump's business empire, who's benefitting from all of this.
I would also like to be assured that there's no conflict of interest involved and if there is who's going to be liable and accountable for this
Thank you,
Lesley R Schott

The demolition of the East Wing was a shocking, seemingly dictatorial violation of Americans' understanding of the White House as "ours." Over a hundred years of our history disappeared in a few days, crudely and brutally. The disregard for public input and for longstanding procedural norms was an insult to citizens.
Almost as bad is the gross violation of the approximate symmetry which has guided all previous exterior modifications to the White House. The proposed ballroom creates a lopsided profile which dwarfs the central, oldest, most historic, and most sacred parts of the building.
Finally, the proposed décor evokes royal and imperial residences of the 18th and 19th centuries in Europe and Russia. It has no place in a building which represents American principles of shared governance and equality before the law.

Why is all that money being wasted on the East Wing Modernization Project when retirees can hardly eat and pay their bills due to wasteful spending and Social Security is in jeopardy of being deleted after we've paid into it all these years. Prices are increasing in every area from mortgage to everyday bills like heating and electricity. We can hardly eat and food banks are not doing well either. Taxes are not going down but the government can waste money while people continue to struggle.. Homelessness is on the rise. I'm being threatened for not paying my bills on time after I've work for 34 years. There's no help for us so why do people keep saying "there is help". There's no help, and no one cares about the working class, only the billionaires profit. I'm looking for work at age 72, who will hire me and how long can I keep working if I find a job. My health is failing, I'm tired of worrying about if I can keep my house after my husband passed away. Where is the REAL HELP?

To whomever is in charge

I am writing in absolute opposition to the reported $400 million East Wing renovation at the White House.

Four hundred million dollars.

At a time when Americans are stretching every paycheck to cover food, rent, insurance, utilities, and medical care, committing $400 million to alter or expand facilities on historic public grounds is indefensible. Families are being told to tighten their belts while the federal government moves forward with a project of this magnitude.

The White House grounds are part of our shared national heritage and are stewarded by the National Park Service. They are not expendable real estate. Any destruction, encroachment, or alteration of historic national park property for administrative expansion betrays the principle that these lands belong to the American people.

Unless this renovation is absolutely essential for structural integrity or critical security needs—and that necessity must be proven with full transparency—this project represents misplaced priorities and a profound disconnect from the economic reality facing citizens.

When every dollar households receive is already insufficient, $400 million for modernization sends the wrong message about leadership, restraint, and respect for taxpayer resources.

I demand a full public accounting of the scope, funding source, justification, and long-term impact of this project, and I urge its immediate reconsideration. NOW.

Sincerely,
LM Harris

Listening to the Planning Commission Meeting from January 8, 2026, I agree with Commissioner Phil Mendelson's concerns that the ballroom does not visually re-enforce the special importance of the White House. By setting the height of the ball room to be the same as the White House, the new addition would be come a twin - equal to the White House and thus not enhancing - but rather diminishing the White House as the central visual focus. The proposed height does not nicely frame the White House, but rather competes with it.
I feel the plan should have the Ball Room be on the ground floor and the current proposed ground floor be under ground. Most of the function of the current proposed ground floor is for supporting activities such as food prep which does not have to have nice views.
Or lower the roof of the Ball Room - so the new building does not over whelm the White House.
Since the First Lady's office spaces were in the East Wing and the East Wing will now become the location for hosting visitors, why can't the current State Dinning Room become the new location of the First Lady's Offices?
With out final approval - how can they continue with moving forward on the work (or even have torn down the old east wing)?

So your commission does not have any say in demolishing historical buildings and monuments? WOW!

To begin with, the title of this project is a misnomer when the space is clearly a replacement. There was no submitted documentation of the existing space which was clearly older than 50 years and though it might not have been designated as a national registered property it was clearly associated with and part of a designated property-the White House. The size of the project begins to beg questions of relatable size and siting relevant to its position on the existing landscape. There are no drawings showing design intent on the site in context to the existing structures in the site and related to adjacencies. This is so outside the standards of building planing codes and design that it's untenable much less for a historical site recognized by virtually every person living in our country and most people around the world! In context, it's comparable to removing a wing from the Lourve in Paris or dropping a wing off the parliament buildings in the U.K. There was no reason for this desecration. There is a process for design and it is required for all buildings and sites. Those responsible for this should bear the fines for the public desecration. However, that's a separate process. Moving forward the design review process should prevail with the normative benchmarks and design reviews for context, relevance, design purpose, and in this case appropriateness. A single use assembly space building is NOT relevant to the White House adjacency. A once every 4 years event space for private use for the Executive branch is not part of the executive job description requirements. This is not a relevant program and the loss of this wing of the White House without documentation relative to process is an unmitigated resource loss to all Americans. And done on the eve of our 250 th year anniversary is a slap in the face of us all. Ever use your jurisdictional power over this project and redeem what you can in the nsme of the American people!

These comments should have been sought BEFORE any demolition took place. Anyone who participated in the destruction of the East Wing should be prosecuted. Any new ballroom should be tasteful and dignified, not a gaudy, fake-gold, tacky abomination like Mar-a-Lago.

It seems that the destruction of the East Wing, and now proposal for a new ballroom, were made with an intentional disregard of process or public opinion. Who made all the decisions to date? In our democracy, a president should not act alone and impose his or her taste on our country without extensive feedback. This has not happened, and the destruction of the East Wing was a surprise to almost all American citizens.

Any new building to replace the East Wing should undergo an extensive process, and construction should not happen in the term of the current president. Such a building attached to the White House is not the property of any president; it is property of the American people.

"The White House is a National Historic Landmark and National Park, owned by the American people and stewarded by the National Park Service." Period. Full stop.

The POTUS is NOT a king. The U.S. is NOT a monarchy. We do not need a ballroom. We cannot submit to DJT's ego. His destruction of the East Wing was illegal.

The proposed project is NOT modernization, it is desecration.

Stop this project now, and for good.

Dear Sir or Madam:

We, as taxpayers, do not wish for the East Wing to be changed in any way, other than back to the original design. It should have never been torn down before this public comment period and just as with every historical building, it should be put back right and then altered after the public has weighed in. Ideally, construction should begin well after 2028. May we all adhere to the rule of law and especially to the Constitution, and always always strive for a more perfect Union. Thank you for your attention to this matter!

To whom it may concern,
I am the Director at a small museum and trying to do the preservation the correct way for my artifacts and building.
When I saw the devastating treatment of the East Wing my first thought was it done through the correct channels. Did the debris from the building be cared for correctly. If there was asbestos in the building, was it delt with correctly. My thoughts swirled because of all the waste of this building, was there any of the old structure preservable, to show some sort of history of the original building. I understand all building need to have updates, but I am very consentience of trying to preserve some sort of the history of the original building.
I am half the country away and felt the devastation of the utter destruction of this historical building.
I am watching to see what will be happening with this project.

The White House does not belong to Donald Trump. He has violated the White House by tearing down the East Wing. As far as I am concerned it is his responsibility to rebuild the East Wing at his expense. It is also his response to pay for the demolition of the East Wing. No other President has demolished any part of the White House. I am infuriated that he thinks he is entitled to destroy public property.

I am shocked and dismayed. How can anyone tear down a National Monument and get away with it and without talking to anybody for proper approvals. Also as the people's house, I find it shocking that individuals with a great deal of money are donating to this destruction. Mainly I might add high up individuals in the tech world. That really makes me feel unsafe and like there will be technological overreach. I think the president needs to clean up his mess and get an appropriate company to rebuild our East Wing to spec. He did not have permission to do this. And then I want him arrested for the destruction of the East wing.

The unauthorized modifications and potential damage inflicted upon the historic White House represent a significant breach of governmental property and ethical standards. The actions in question raise serious concerns about accountability and the preservation of national landmarks. Legal experts and political analysts suggest that a thorough investigation into the circumstances surrounding these alterations is necessary to determine the full extent of potential misconduct and to ensure appropriate consequences are implemented for any responsible parties.

As an architectural historian with more than 20 years of professional experience, I look to Washington, DC, particularly the National Mall and the White House, as touchstones for how historic preservation review should be conducted in this country. These places set the standard for stewardship, transparency, and adherence to federal preservation law.

I deeply respect the role of the National Capital Planning Commission and the oversight it provides in ensuring that changes to nationally significant resources are carefully reviewed and publicly vetted. For that reason, I was alarmed to learn that a portion of the White House complex was demolished without undergoing the required federal review processes. The White House is a National Historic Landmark of unparalleled significance. It must be safeguarded through consistent application of established preservation frameworks, not subject to political whims.

Federal review requirements exist to protect irreplaceable historic resources for future generations. Any alteration to such a significant landmark must model the highest standards of compliance, transparency, and professional review. I urge all responsible agencies to reaffirm their commitment to these principles and to ensure that legally mandated preservation procedures are followed in full.
In addition, the proposed 90,000 square foot addition is fundamentally incompatible with the White House complex. Its size, massing, and proportion are grossly out of scale with the historic structure and would irreparably alter the character of this National Historic Landmark. A project of this magnitude constitutes an aggressive expansion that overwhelms the historic fabric and setting.

The National Capital Planning Commission must not legitimize a project that compounds an unlawful demolition with an oversized and incompatible addition. I urge NCPC to require that a SOIS qualified historical architect be engaged to prepare a full reconstruction of the East Wing grounded in documentary and physical evidence and carried out in strict accordance with the Secretary of the Interior's Standards for Reconstruction. Reconstruction, not expansion, is the appropriate remedy. Anything less would signal that federal preservation law can be disregarded at the nation's most significant historic site. The White House must model the highest standard of stewardship in the country. It cannot become an example of how preservation protections are set aside for political convenience and grandstanding.

The bulldozing of the old East Wing without the usual review process for such major work on a building of so much national importance was already an abomination, but it cannot be undone. I am completely opposed to replacing it with a structure, such as the proposed ballroom, that would rival or exceed the scale of the main structure of the White House. If nothing else, the symbolism is appalling: a ballroom to be used only by a small elite rivaling or dwarfing the People's House.

I don't support any one plan for what should replace the old East Wing, but either it needs to be something of roughly similar scale to what it replaces, to serve a much more public purpose, or both. If it is to be on a massive scale, it should be more like the greenhouses that stood on the White House grounds in the 19th Century and less like a two-bit Versailles.

I have tried for weeks to figure out the value of the "Grand Ballroom" that President Trump is planning on building on the site of the former East Wing... I was angry when the East Wing was demolished without following the proper procedure... Whether the funding for the ballroom will be "donated $$", does not change the fact that the ballroom has no value to the American people and is simply another "monument" that Trump wants to bolster his ego and image to foreign leaders, especially those from countries where they have palaces and rulers are kings... There is no legitimate reason or value for this ballroom and the destruction of the East Wing should never have happened. Trump is treating the White House as his personal property, instead of the American peoples house and seems to believe that he can do whatever he wants with it... This destruction of the property, history and heritage of the United States needs to be stopped!!!!

It is a tragedy that the historic East Wing has been demolished without consideration by the public. This is the People's House, and the people should have had a say from the outset. That said, I beg the powers that be to build a replacement that is appropriate to the space and purpose, and that is in harmony with the existing structure. A 90,000 sq foot ballroom is none of these things. And let's not forget that the East Wing was built to accommodate the First Lady and her staff, an acknowledgement of the important role of women in the governance of this country.

I do not think this East Wing Modernization project should be allowed to proceed.
The existing wing was demolished without the proper authority, removing historic areas of the white House, and not preserving any architectural features which should be used as appropriate, with any new construction.

The modernization project is vastly out of scale with the actual White House, and as stated will not

incorporate existing architectural features.

The people of the US ought to be able to have some say in what is done to alter the White House. The current resident acts as if he owns the White House, and needs to be reminded it is the Peoples' House.

Why in the world does the White House even need such an oversized and gaudily decorated monstrosity as this? It cheapens the White House as a whole.

This was not an EAST WING Modernization project, this was a demolition of our American History. The East Wing was the site of the offices' of the First Ladies . Women like Eleanor Roosevelt, Nancy Reagan, Jackie Kennedy and more did their work to help the people of our country. Mrs. Roosevelt contributed greatly to efforts to help the poor as we dug out of the depression. She was a representative who promoted our nation and provided assistance to the president during WWII. Mrs. Reagan promoted a war on drugs. Lady Bird Johnson helped beautify the capital. Both Mrs Bushes' promoted literacy and a love of learning.These are only a few examples of the important work of the First Ladies.
All other renovations were done under strict supervision of the Departments that advise and consent to renovations of the People's House. This is not the property of Mr. Trump. He has the use of the house during his term and any changes should be approved by the proper agencies as has happened in the past. The people have never requested or even talked about the need for a ball room. I have been to the White House many times and there is space for any reasonable large event. What Mr. Trump did was an insult to American History and Culture.
He should pay compensation and reconstruct the EAST WING as it formally stood. Trump has stolen a large piece of our history for his own vanity.

As it was illegal for the President to have the East Wing of the White House demolished without Congressional approval since it is a designated National Treasure and does not belong to him, the request to erect a ballroom on the site should be denied.

The White House does not belong to him - it belongs to all citizens of the United States! Any structural changes to it must be approved. Just because he already demolished the Wing does not give him the right to build anything!

I truly believe he should be prosecuted for the destruction of a National Manument.

I have worked in Architecture and Design for over 45 years. I know about historic preservation and staying true to a building's history .
It is appalling to me that someone would take a historic building and destroy a portion of that history without a thought about the ramifications of that act of destruction. The White House belongs to the people of this country and is not the personal property of the short term current occupant. By demolishing the East Wing, you have descreated a sacred part of the U.S. History. You are turning a classically designed structure into a garish, trashy ballroom which serves only to support your ego.
This is a reckless erasure of history .

The reckless destruction of a beautiful building was done without any consultation from historic preservation commitees or any authorization. The cost to rebuild that portion into a ballroom room is a senseless waste of money and will ultimately be a tax payer burden.

WHITE HOUSE BALLROOM

PLEASE RESTORE THE WING THAT WAS DESTROYED BACK TO ITS ORIGINAL CONFIGURATION: THIS WING HAS HISTORIC VALUE AND SHOULD NOT HAVE BEEN DESTROYED; PARTICULARLY WITHOUT YOUR PATRIOTIC COUNTRYMEN AND WOMENS INPUT:

FOR A BALLROOM; AN ADDITON TO THE WHITE HOUSE THAT FITS IN WITH THE ARCHITECTURAL STYLE WOULD BE WONDERFUL: A REMINDER TO THE PRESIDENT TO STOP DESTROYING OUR PROPERTY:::THAT IS THE PROTERTY OF ALL US CITIZENS; AND THAT HE WISHED TO BRING BACK CLASSICAL; BEAUTIFUL ARCHITECTURE::::ARCHITECHTURE THAT IS BEAUTIFUL TIMELESS AND MAKES US FEEL WONDERFUL:: kUDOS FOR YOUR IDEAS THERE MR PRESIDENT: NOW PLEASE RESTORE THAT WHICH YOU HAVE DESTROYED AND ADD BEAUTIFUL ARCHITECTURE FOR ALL OF US CITIZENS:
PS IF YOU WANT TO USE A GOLD LOOK; PLEASE LOOK AT THE AMBER ROOM-ORIGINAL-INSTEAD OF GAUDY GOLD:

Please also restore the rose garden lawn. THe current concrete patio reminds me of a concrete parking lot- as Joni MItchell said years ago, we paved paradise and put up a parking lot.

And lastly, please leave the Kennedy-Trump Center Building alone. No, it is not my favorite building either, but it has historical significance.

Thank you,
Denise-and Steve

It is difficult to understand how a narcissistic fool becomes president and immediately acts and behaves as if he has been selected as the King of the world. How can he tear down an historic building that does not belong to him and everyone just watches? The time to stop this was when the destruction crews arrived, not after so much damage is done. He swore an oath to defend the constitution, yet he has no idea what

the constitution is, let alone that he could comprehend what that document says and represents to this country he so proudly misrepresents and fails to uphold.
Please lend some credibility to the office of the great honor of being the president of the United States of America and promptly stop him. Restore all he has destroyed and prevent him from further damage to Our house.
Sincerely,
Rick Chapman

I am not an architect or designer or a preservationist. However, I am an American taxpaying citizen and I believe the voices of many Americans should be considered in the Ballroom East Wing project.
It is a misnomer to call it a Modernization Project as there remains nothing to modernize.
I don't believe that one person, the President of the United States, or a small group chosen by that one person should have final say in the design of whatever gets constructed.
True preservationists and architectural historians should be consulted on the design. Like most government projects in Washington D.C., commissions are formed to consider different designs and debate the merits. Generally a vote is taken to approve building projects. Sometimes this takes years of work. I worry that this east wing project will be rushed through the design and approval process.

The design that I saw personally appears way out of proportion to the size of the White House. I don't believe such a large ballroom is necessary to carry on the duties of government.
It feels like a massive vanity project.

I believe that the American people should carefully consider what will replace the demolished East Wing. It is the American people's house.

Sincerely,
Lynn Valeri

Unlawful demolition of East Wing of White House:
The Demolition of the East Wing by donny " the dictator" trump was unlawful in the eyes of most citizens of this country.
The fact that it was not reviewed by anyone before demolition started was an affront to the nation.
We DO NOT NEED A BALL ROOM FOR PARTYING OLIGARCHS (sp).
A minor renovation may have been needed, but to tear down and the replace with a Hitler type ball room is traitorous.
Why does donny seem to want to be the modern day Hitler (VP JD Vance even called trump, America's Hitler). We all know donny's love of gold comes from his love of his puppet master Putin's elaborate gold trappings.
Amazing we have a president who's heroes are Hitler and Putin.
Please stop this wasteful expenditure of money. We have thousands of citizens who need food and housing.
If the oligarchs want to spend their ill gotten tax cuts on something, do what Jesus would do help the poor.
But unfortunately we know these oligarchs are not followers of Christ but are followers of the CULT of trump.

Oh, also please stop donny's destruction of the Kennedy Center !!!!!!!!! !

The White House is the people of the United States of America property and not anyone’s property, including the sitting President.

The East Wing should be restored back to the original size and shape. An upgrade to a more modern theme

would be the only appropriate theme. It definitely does not need to be adorned in gold and gaudy fixtures.

Also, the rose garden needs to be put back in and in the condition it was before this mass destruction.

Any sitting president is a tenant in the White House and not an owner to do what they want to the structure and landscape surrounding it. As a tenant, would this be allowed to happen in any of President Trump's properties? I think not.

The East Wing needs to be put back together to its original size and grandeur.

I believe this whole project is a travisty. Clearly the legal process was not followed and the public was not given an opportunity to give input on the removal of the building nor on any of the architectual plans for the proposed replacement of the East Wing. These buildings belong to th people of the US not this administration as such the people should have been informed and give an opportunity to review any proposal. I am commenting on the project now. But clearly as the building has already been removed, I believe any architectual plans for the new building needs to be reviewed by the public. Also, what has not been discussed is the massive historic integrity impact on the other historic buildings within proximity of the Eastwing and the White House. Its important to take in to consideration the adverse effects on all integrity aspects in accordance with NPS Guidelines and that information need to be made available to the public for review.

Thank you for the opportunity to comment and I expect to be able to review all future plans and all information association with this project through out the length of the project.

Power is a responsibility, not a privilege. I object to the way the chief executive's power has been used irresponsibly to create this monstrously expensive, oversized, backward-looking building. This project is not being created in a transparent method at the request of the nation. Citizen's should know who's donating money for this and what private donors expect to receive for their gifts. The size of this pleasure building threatens to eclipse the scale of the White House itself and the wing in which actual work is performed. If this is to be built, I object to this style, resembling empirial Rome and not the best expression of our modern values and imagination. This is a ridiculous way of turning the people's house into the President's palace. Worst of all, I feel that the majority of objections to this plan will not matter to those overseeing and responsible for this.

I strongly oppose this project - The East Wing of the White House had been totally bulldozed to a pile of rubble without any notice presented to the public. Had it been a structure personally belonging to the President himself, that would have been his prerogative. However, the White House complex is "The People's House", and any major renovations (or obliteration!) should hinge on presentation-to and approval-of the people's representatives (i.e. Congress). In addition, the proposed renovation (or rather, COMPLETE REPLACEMENT) appears to "over-power" and "diminish" the status of the actual White House, itself. The historical significance and standing of the White House will be diminished and overshadowed by the planned mega-monster ballroom. I believe that the American people, through their representatives in congress, should have a say in the final resolution to repair this unapproved demolition of a piece of American history.

Since the president is only a tenant in the White House residing there rent free during his term and not the owner, it is my assertion that the demolition that Donald Trump ordered is nothing short of fully illegal and therefore he must personally pay from his own funds to restore the property to its previous state immediately and held to account for blatant criminality!

The demolition and plans for the East Wing is a crime and a travesty. Then proposed design is an abomination of any sense of style, ascetic, historical preservation, or architectural integrity.The East Wing should be restored to its original design at Trump's expense. He did this to appease his own ego as if he was a king, with out, building, demolition, permits, historical or architectural commission review or approvals. We have no kings in America since 1776. Restore the East Wing to its original design at Trump's expense.

I am assuming this is the white House Ballroom project.
In my opinion this project should not be approved. There are plenty locations in the DC capitol that can accommodate formal events. The white House is an historic building that should remain within the context of why it was built. It was not meant as a grandiose entertainment venue.
By two cents

The People's House does not need a ballroom for the rich and powerful. We are not a monarchy and the White House is not meant to be a Versailles. If anything is to be constructed there, it should be a museum dedicated to the people of the United States--all of them. In addition, it should be open to the people. A duly elected leader who is making decisions that are caring and just should not be afraid of his or her own constituents.

As an American citizen, I was shocked when Donald Trump unilaterally acted to demolish the East Wing of our White House. My wife and I were brought to tears when we saw the videos of the demolition of the East Wing.
I am concerned that Trump believes that he can do whatever he wants because he allegedly won the election. Yet, he disregards the Constitution, laws, regulations, historic preservation, and common sense. With respect to the East Wing, he should have sought a consensus for the need to make any changes. A ballroom for 999 doesn't seem to meet the criteria.
Afterwards, he then solicited donations from corporations and the wealthy, which may be illegal. They are likely expecting something in return for supporting his self-serving project.
It is clear to me that every day we are witnessing the destruction of our country, economy, and democracy at the hands of Trump and his enablers. The destruction of our beloved White House is a disturbing reminder of what Trump is doing to me and my fellow 348 million Americans that he should be serving, not attempting to rule.

It is abhorrent and irresponsible that Mr. Trump tore down the East Wing of the White House, completely and without a concern for the historic value of this building. He did not seek permission from congress. He did not ask the American Public if they would permit this destruction of our property. No materials were salvaged to permit reconstruction of historically significant areas of the East Wing. It appears he used the razing of the building and purported plan to build a ballroom as another criminal enterprise, to which he was able to get money from private donors that ultimately ended up in his own pockets. Never before have we witnessed so much corruption and grift. This building must be rebuilt with the money Trump took, and make it historically accurate. This is the People's House! Enough is enough! He must face consequences!

As an architect with extensive experience in adaptive reuse and historic preservation, I write to express my strong objection to the proposed ballroom project. In my professional judgment, the scale and massing of the addition would overwhelm the existing structure and cause lasting harm to the historic character of the White House.

From the initial presentation materials, it is clear that, in plan, the proposed east wing ballroom significantly exceeds the scale of the historic White House and ground in general. In elevation, the assertion that the new structure would meaningfully defer to the original building by matching cornice lines is ludicrous. The proposed addition appears substantially out of proportion to the existing complex and incompatible with its architectural integrity.

I am also deeply concerned that the existing East Wing was effectively removed without a transparent process of oversight or review. A project of this magnitude, affecting one of the nation's most important historic structures, warrants rigorous evaluation and adherence to established preservation standards.

Taken together, these issues raise serious concerns about the impact of the current proposal on the White House as a historic, civic and cultural symbol.

I think that the failure to follow correct procedures prior to to the destruction of the east wing of the White House is both disturbing and disgusting. Shame on the dimwit who thought the destruction of historic structures without following the law and without following carefully thought out preservationist principals and procedures would be okay!

Furthermore, what's going to replace this lost historic structure? A huge "ballroom" that will only be used a few times a year and then only by the wealthiest donors to a president's campaign. So what will the vast majority of American citizens get out of this unnecessary extravagance? Nothing! Zilch! Not even the best wishes or the thoughts and prayers of the ultrawealthy who will be lazer-focused on what their government can do for them. Okay, maybe what the uninvited rest of us will get out of this "ballroom" is the certainty that their government is completely out of touch and the suspicion that it is also utterly corrupt.

What really needs to be decided today is how best to undo the damage that has been done, how to restore what has been taken from the American people. And, oh yeah, who's going to pay for this restoration. I say it should be the plutocrats who dreamed up and condoned this desecration, with punitive damages thrown in, enough to make sure something like this never happens again.

I believe that regardless of who is residing within the White House it is extremely shameful that in 2026, that as modern of a nation as the United States is, we have no type of Grand Ballroom to host foreign dignitaries. How embarrassing is it to host Heads of State along with their wives as well as members of our government in tents erected just days prior, with the women and men dressed in formal gowns and tuxedos or formal suits having to use port-a-potties as indicated in years past by MSNBC during the Obama presidency. I personally am of the opinion that a ballroom built and designed in similar architecture for State and Formal dinners at the White House can and will add to the overall elegance of the entire surroundings. Thank you, Cindy Sonsini

I am appalled at what our President is doing to Washington in general and the White House in particular.

When my husband was alive, we were honored to have a few pieces of our antique furniture purchased for the White House and the Diplomatic Reception Rooms.

President Trump seems determined to leave his mark everywhere. I think the East Wing construction is totally unnecessary at a huge cost, which could have been used to feed the hungry in this country, among many other things.
The gilt in his office is garish! The thought of something resembling the Arc de Triomphe being built in his name
makes me sick.

I don't understand how he's getting by with all this, but as you can see, there's no question but what I think it's dreadful.

Sincerely
Virginia Jacobsen (Mrs Valdemar F.)

Dear National Capital Planning Commission,
I am writing to question the value, cost, and public rationale for the proposed 90,000-square-foot ballroom addition to the White House.

Whether this project is privately or publicly funded is relevant, but it is not the core issue. The fundamental question is how this ballroom serves a clear public purpose that aligns with current national priorities. At a time of historic federal deficits, growing inequality, and the continued erosion of our social safety net, it is difficult to justify a major expansion of ceremonial or event space as a necessary or responsible investment.

Several issues warrant greater scrutiny and transparency:

Public purpose and necessity: What specific public need does this ballroom address, and why is it necessary now? What problem is being solved that cannot be addressed through existing facilities?

Cost and opportunity cost: What is the full projected cost of the project, including long-term operations and maintenance? What alternative public uses of these resources were considered?

Procurement and contractors: Which builders, architects, and contractors are being used? How are they being selected, and how will compliance with federal procurement standards and labor laws be ensured?

Climate and environmental impact: How much embodied carbon will be generated through the construction of this addition? What materials are being used, and how does the project align with federal climate commitments, sustainability standards, and emissions-reduction goals?

Transparency and public input: What disclosures will be made regarding design principles, materials, contractors, and environmental impacts? Will there be any opportunity for public comment or discussion prior to final approval?

Given the scale of this project and its symbolic importance, the administration should hold itself to the

highest standards of fiscal responsibility, environmental stewardship, and democratic transparency. At minimum, there should be clear public disclosures and an opportunity for meaningful public feedback before proceeding.

I respectfully urge decision-makers to reevaluate this proposal in light of taxpayer priorities, climate commitments, and the expressed needs and values of the American people—and to consider whether this project is truly necessary at all.

This project should not be controversial and should be approved promptly for a number of reasons:

1. The ballroom is greatly needed will enhance the whole White House complex. It is embarrassing that any President does not have a stunning indoor ballroom-type space for entertaining foreign and other dignitaries and for other events. Having attended a few functions at the White House some years ago, I remember being struck by how cramped the existing spaces were.
2. This is not the first time a president has made changes to the White House site.
3. The renderings show this to be a fitting design that complements the site.
3. The East Wing that has already been removed was not an original part of the White House. It had grown tired and needed major upgrading. This project will provide upgrades as well as adding a much-needed large event space.
4. This is being funded by private donations unlike previous changes made by previous Presidents: What a gift to the taxpayers!
5. Having an indoor space will provide a more secure location for large events, unlike having them in a tent.
6. This addition will be of benefit to all presidents regardless of party affiliation. If the current President had any other surname than Trump, this project would have been hailed as outstanding, much needed, and a welcome gift to the country.

I urge the Commission to approve this immediately.

Thank you for your consideration.

February 13, 2026
National Capital Planning Commission
401 9th Street, NW
North Lobby, Suite 500
Washington, DC 20004
Attn: Marcel Acosta, Executive Director
RE: NCPC File Number 8733 – East Wing Modernization Project (Proposed White House Ballroom)
Dear Commissioners,
As a citizen concerned with the preservation of our national heritage, I am writing to formally provide comment on the proposed 90,000-square-foot ballroom addition to the White House. The White House is not merely a residence; it is a National Historic Landmark, a National Park, and a site owned by the American people, stewarded on their behalf by the National Park Service.
While I recognize the stated need for expanded event capacity to host official state functions, I urge the Commission to exercise its full oversight authority to ensure this project does not cause irreversible harm to the architectural integrity and historic scale of the executive mansion.
Concerns Regarding Scale and Historic Integrity
The proposed construction presents several significant threats to the character of the White House grounds:
Disproportionate Scale: At 90,000 square feet, the proposed addition is nearly double the size of the 55,000-square-foot Executive Residence. National Park Service assessments have already noted that a structure of this size will dominate the eastern portion of the site, creating a "visual imbalance" and disrupting the "design, setting, and feeling" of the grounds.
Erosion of Symmetry: To compensate for the ballroom's mass, the project architect has suggested adding a second story to the West Wing colonnade to restore "symmetry". This would fundamentally alter the iconic space outside the Oval Office and the balanced classical design of the original wings.
Irreversible Loss: Demolition of the 1902 East Wing began in October 2025, and two commemorative trees planted for Presidents Harding and Roosevelt were reportedly removed. Further construction must be paused until the public has a meaningful opportunity to shape the final outcome.
Necessity of Public Input and Legal Review
Public participation is a cornerstone of the National Historic Preservation Act (NHPA) and the National Environmental Policy Act (NEPA). Specifically:
Section 110(f) of the NHPA mandates that federal agencies minimize harm to National Historic Landmarks to the "maximum extent possible".
Transparency: Decisions of this magnitude should be made with robust public engagement, a value that has guided White House preservation since its original design competition in 1792.
Ongoing Litigation: The National Trust for Historic Preservation has filed suit, arguing that the project bypassed required congressional approval and environmental studies. Construction should not proceed while these fundamental legal questions remain unresolved.
Recommendation to the Commission
I respectfully request that the National Capital Planning Commission:
Reject any "Delegated" or "Consent" status for this project, ensuring it remains an "Action Item" subject to full public testimony.
Require a comprehensive Environmental Impact Statement (EIS) that specifically addresses the long-term impact on the "People's House" as a National Park.
Encourage a design revision that is compatible in scale and subordinate to the original 18th-century

structure.
The American people deserve the opportunity to provide comment and shape a project that will permanently alter the most iconic symbol of our democracy.
Sincerely,
Laurence Welsh

Name: James Satola
Project Name: East Wing Modernization Project
Project Number: 8733

I will start by saying that calling this the "East Wing Modernization Project" is inappropriate. It is not a proposed "modernization" but is in fact an attempt to post hoc "legitimize" what was clearly the illegal complete destruction of the East Wing, so that an architectural abomination can be raised in its place under the guise of "modernization." Frankly, that alone should disqualify this "project" from going forward.

Second, anyone with a whit of honestly and common sense can see this ill-named "modernization project" for what it truly is — a shameless vehicle for Donald Trump to solicit thinly-disguised bribes from persons and entities seeking Executive Branch "favor." Those from the private sector "donating" to this project know full well that it is done so that Donald Trump can than call the planned architectural monstrosity the "Trump Ballroom," almost surely to be filled with the gaudy and embarrassingly tacky and tasteless crap that is a hallmark of the "Trump taste." The obvious illegitimacy of the entire project too should disqualify this project from proceeding further.

Third, the idea itself of an oversized, gaudy, and unneeded "giant ballroom" would be both an abomination visually as well as a preposterously self-aggrandizing action that is diametrically opposed to everything this country stands for. The White House is THE PEOPLES' HOUSE, and NOT "TRUMP'S HOUSE," and this vile stain of a "project" should end NOW.

The National Park Service should CONDEMN this "project," and refuse to acquiesce in this proposed "personal aggrandizement" defilement of a National Landmark.

The proposed ballroom on the site of the East Wing would be wholly out of character with the White House itself and its surroundings. There are lots of places in Washington where balls and events can be held. The pension building, which has hosted inaugural balls, is one option where events could be held under tight security. The concept of private funding for this public building is also deeply troubling. I urge the commission to oppose this project as currently envisioned.

The White House is a National Historic Landmark and National Park, owned by the American people and stewarded by the National Park Service. It has been home to our presidents since 1800 and is perhaps the most significant historic site in the United States. Before nationally significant places are permanently altered, the public deserves an opportunity to be heard and to help shape decisions that affect our shared national heritage. The section of the White House that was demolished was equally as important and historical as any other part of the White House. The White House deserves more than to be yet another vanity project to an egocentric individual. We, the people, should be the ones to determine any demolition or additions to this historical landmark; not a despot administration and their corrupt backers. Thank you.

Now that Trump has illegally torn down a part of the White House, a committee of citizens should be dispatched to the White House to be shown what the current and proposed changes to the White House are.The citizens work should be presented to the public.

The money Trump claims he has secured from friends, the citizens committee should request that the full amount be received by a date the committee decides. Funds must be made to the government--not to Trump. The name of the wing should keep the term EAST WING, not Donald Trump's--our disgraced president's name by no means.

Since Trump has defaced President Obama's name on the wall and it cannot be repaired easily, Trump should be required to pay for any defacing of President Obama's photograph.

Trump should also be heavily fined for tearing down the East Wing because he had no authority to do so.

Seeing Donald J Trump unilaterally dictate the destruction of the East Wing of the White House was horrifying. It is not Mar a Lago—it isn't HIS HOUSE! It belongs to all of the people of the United States. He did not ask our permission as would have been appropriate. He should have done environmental impact studies, opinion polls, proper permits, Architctural Board of Review, etc etc before touching one brick on the building.

He did the same thing at the Rose Garden, turning a beautiful meaningful space into an Olive Garden patio.

Sadly he has destroyed the East Wing already so now we are left with what he will put in the space. 1) it should NOT overshadow the White House in mass and size. 2) it should not be a pay to play situation where billionaires pay for it so they can have access to the President which is the current plan. It should be as eco friendly as possible. 3) it should not be cheap looking with a bunch of fake gold crap everywhere. It any photos are posted they should represent ALL presidents—not just one.

I have many objections to the project of rebuilding the East Wing ballroom. The steps taken so far have been undertaken illegally, without consulting legally required stakeholders or disclosing the details to the public. While minor renovations for the sake of repair and restoration are understandable in a building this old, I am not confident that the history and character of the building will be preserved; in fact, considering President Trump's characteristic disregard for cultural heritage, art, history, and scholarship, I expect the resulting construction to be in poor taste. Furthermore, the contributions from wealthy donors amount to

an emolument, which is unconstitutional. Therefore, the proposed changes are completely unacceptable, and the legal action should be taken to force the Trump family to pay the costs of restoring the East Wing, to the extent the damage can be repaired. Thank you for considering my views.

First, it should never have been torn down.

Second, the new addition should not be designed by President Trump or his administration, but by an outside architect selected by competition and with appropriate jurors.

Third, the process and basic interior design should be likewise handled.

My concern is a 90,000sf Ballroom is a waste of money that could be used wisely for healthcare, food sustainability, infrastructure, roads, bridges, FEMA, to name a few. This man's head is soooo big on self and wants his name on everything! What has he done to earn it? I have never seen like this in my life. What happened to earning recognition? I've never witnessed a president tearing everyone down to gain accolades. The United States of America has always been a proud nation.

It's essential that large-scale changes to historic public buildings be carefully considered and planned. Whether the East Wing needed to be demolished is a moot point. But whatever replaces it must go through the normal process for new construction at a historic site, with full public review of any plans.

The White House is a national treasure. Around the world it is recognized as the home and office of the President of the United States. The current president is destroying the beauty and dignity of the building. It may or may not be a crime what has been done to the White House grounds, but it is immoral what has been done to the Jackie Kennedy Rose Garden. The destruction of the East Wing without proper oversight and approval is a violation of regulations and laws as I understand it.
The proposed ballroom does not comply with guidelines for construction. It is taller than allowed and overall dwarfs the remainder of the residence. This construction must not be allowed. In addition, the Commission has to require the construction of a similar structure as was previously in place.

It is sad that the East Wing was taken down BEFORE public comment. I do not fully understand the need for a gigantic ballroom as for many, many years the old facility was used often and appeared to be fine. A small "refresh" or modernization of the behind the scenes areas might be justified. The renderings I have seen of the proposed building is gigantic. Far too large and out of scale with the White House. The time and money being used for this could be more wisely spent on other more needed projects. The room does not seem to match the stately and unstated grandeur of the old ballroom.

The East Wing should never have been demolished without the consent of the people. Given that the ship has sailed on that, I want it documented that all construction undertaken should adhere to the strictest standards of sustainability and environmental protection. Rather than a ridiculous ballroom, the construction should benefit THE PEOPLE. A community space, a place to exhibit American artists - literally anything but a gold-encrusted, disgusting display of opulence and the billionaire class, who do nothing but run this country and its people into the ground. The space should celebrate, honor, and reflect the people that actually keep this country running.

HOLD DONALD TRUMP ACCOUNTIBLE FOR DESTROYING THE WHITE HOUSE WITHOUT APPROVAL.

The unauthorized ballroom renovation at the White House represents a serious breach of federal preservation standards and executive responsibility. The White House is a protected historic structure owned by the American people—not a private asset subject to unilateral alteration.

Donald Trump proceeded with substantial demolition and renovation activities without lawful approval or required oversight. Any structural modification to the White House is subject to strict compliance with historic preservation law, established review procedures, and proper materials handling protocols. Bypassing these safeguards is not merely inappropriate—it is a direct violation of public trust.

Now that it has been made clear that such renovation activity was not authorized, accountability must be directed squarely at Donald Trump. He alone initiated and oversaw these actions, and he alone should bear full financial responsibility for restoring the White House to its prior condition. Taxpayers should not be forced to subsidize unauthorized alterations carried out at the discretion of one individual.

The integrity of federal preservation law demands enforcement. Failure to hold Donald Trump personally liable would set a dangerous precedent that public property can be altered without consequence. The restoration costs must be paid by him in full, and a formal review should ensure that such overreach cannot occur again.

I am opposed to the ballroom project. I am concerned that it will dwarf and diminish the White House itself. There is not sufficient need for a ballroom to justify the damage it will do to the facade of the White House itself. Additionally, the grotesque, gaudy interior is totally out of sync with the main building. I also believe that when the ballroom is cancelled, the east wing should be rebuilt as it was before it was demolished. Thank you for your attention to this matter.

I don't really approve of the changes being made to the East Wing. Though in terms of the building belonging to the people, it would certainly have made more sense to have an Open Comment before the demolition of the existing building took place, rather than simply before new construction began. The proposal for a new building would require the demolition, but instead of going through the process in a timely manner, allowing the people a voice in whether to destroy a portion of the White House estate, they instead were forced to suffer the loss of a historic building with no voice or opportunity to object, and only

now speak on whether the new construction goes forward. Presumably, if the majority of the people object and are against it, they will have no remedy, and the previously existing building will remain destroyed, with nothing in its place.

The wanton destruction of the East Wing of the White House is a desecration of the symbol of the people's house. The White House belongs to all the people, and should not be subject to the whims and egomaniacal delusions emanating from the current administration. There are processes in place that protect the dignity of our hallowed institutions, including our architectural heritage, and this administration has ignored and even blatantly violated the laws and regulations designed to insure that legacy. All of the proposed "renovations" and "modifications" should be reversed and the buildings and grounds restored, and the

perpetrators of this desecration should be subject to the harshest penalties available under the law.

There is not a need for a ballroom. The First Lady or Gentleman needs office space and there can be a reasonably sized meeting room for the press and other Americans. Every building plan should be originated and executed by the proper designated federal overseers. The president is not a permanent resident of the White House and he has completely stepped over the line by designing a ballroom and demolishing the existing building. We also need the rose garden back.

The proposed building is far too large. It will overwhelm the White House and is clearly inappropriate for the site. Numerous other sites are available in the Washington DC area for dances and dinners. A federally-owned facility of this nature, at this location, is a waste of money that will detract from "the people's house."

If it is built, it will likely need to be torn down in the future in order to remediate the site. There are no good reasons for this facility, and hundreds of reasons not to build the ballroom.

I support the construction of the ballroom and changes to the East wing. The addition of the ballroom on the White House is long overdue. Jackie Kennedy wanted to do this but due to President Kennedy's assassination she was not able to complete this project. I have been to the White House for several Medal of Honor presentations , receptions and formal dinners. The current rooms are totally inadequate for these large gatherings. For State dinners the situation is even worse. We absolutely need a larger space/ballroom for entertaining foreign dignitaries and large gatherings. Given that President Trump is a master builder the ballroom will be magnificent. It should be supported by your organization. It will be an addition to be proud of!

Dear Sir or Madam:

No construction of any addition or modification to the White House should proceed without extensive public input and review. Plans for any such addition must first be approved by the appropriate authorities governing modifications to historic structures owned by the American people following such public input. Any addition thus approved should be of a size and design consistent with the size and aesthetics of the White House itself and the grounds around it. The White House, in the event any addition is properly approved, should remain the dominant structure. No addition, if approved, should compromise the historic integrity of the White House.

I am very disappointed that the administration did not follow protocol when deciding to tear down the east wing and build a ballroom in its place. I understand the need for a larger room, but the building does belong to the people and we should have been involved from the very beginning. I am also hoping that this does not come at the expense of the American people. With the BBB cutting funds to many of the most vulnerable citizens in our country, it would be despicable of this administration to use tax payer money for this project, instead of supporting children, seniors and the poor.
I hope the administration follows protocol from now on and takes our comments seriously, so that this project is complimentary and a well thought out addition to the White House. And PLEASE, cut back on the gold embellishments.

I strongly oppose the proposal to construct a new ballroom at the White House. The White House is the People's House — a historic symbol of our democracy — and it should not be altered to suit the personal preferences or legacy ambitions of any individual.

A ballroom is not a necessity. It is a luxury. At a time when Americans are facing real economic strain and when there are urgent national priorities demanding attention, this proposal reflects a troubling disconnect from the public interest.

It is also deeply inappropriate for wealthy private donors or billionaires to underwrite structural changes to the White House. The integrity of this historic residence must never be influenced — or appear to be influenced — by private wealth. Allowing those with immense financial power to shape the physical character of one of our most important democratic symbols raises serious ethical concerns. The White House does not belong to donors, benefactors, or any administration. It belongs to the American people.

Major architectural changes to such an iconic structure should be guided by preservation, transparency, and broad public consensus — not by ego, excess, or the ability to write a check.

I urge you to reject this proposal, restore the East Wing to it's natural habitat, and protect the historic integrity and democratic meaning of the White House.

To whom it may concern,

The White House is a National Historic Landmark and National Park, owned by the American people and stewarded by the National Park Service. It has been home to our presidents since 1800 and is perhaps the most significant historic site in the United States. It is appalling that demolition has already begun without a public comment period.

I am against the construction of a needless, vain, money-wasting 90,000-square-foot ballroom addition to the White House. I ask not only that construction be prevented, but also for all involved in the premature demolition to be held accountable, and for the funding of the ballroom to be investigated.

Thank you for your time.

Frankly, it's a little late for a modernization project since the East Wing has already been destroyed illegally. Maybe modernization needed to be done, but not by destroying the East Wing. This plan for a 90,000 square foot ballroom will not benefit the majority of the American people. The only people this will benefit are some politicians and billionaires at the American taxpayer expense. Yes, I understand that supposedly donations are going to cover the initial expense, but what if it doesn't? And, this will increase the cost of using the big ballroom, and NO it's NOT a big beautiful ballroom. We have a lawless president who doesn't follow the rules and doesn't care that he doesn't follow the rules. And, there shouldn't be a name to the ballroom (especially NOT Trump!). It's supposed to be part of the people's White House.

Project Number: 8733

Ruins the classical design of the White House. The immense scale of the ballroom would how it would integrate with the existing White House architecture. The rushed process and lack of proper reviews and public input before the demolition of the East Wing and the ongoing construction are concerning.The destruction was done before the planning. What historical items were lost?
No cost to taxpayers-where is the evidence of this?

The White House belongs to the American people. The President is expected to provide responsible stewardship of this quintessential American historic site.

The Executive Mansion should NOT be subject to one man's vanity and poor taste. Nor should it become a means by which tech billionaires buy influence with the President.

If a grossly oversized Ballroom is allowed to replace the East Wing, the American people will be stuck with a gilded monstrosity that will stand as a symbol of "waste, fraud, and corruption."

To Whom it may concern:

I would like to see the East Wing of the White House returned to it's former glory and the ballroom forgotten about. I personally feel there is no need for something this ostentatious, that would more than likely only be used once or twice a year at most. What historically have past presidents done for ballrooms at inauguration parties/balls? Has that not sufficed?

Returning the East Wing back to the First Lady for her use makes sense since projects she may like to pursue could be held there. Besides meetings, luncheons, charitable organizations, historical organizations all need space which could be put to much better use than a ballroom.

I also feel that since President Donald Trump tore down the East Wing without permission, especially from the people of the United States, he should have to restore it back at his own cost.

Thank you for reading my opinion,

LaDonna G. Puryear

The plans for the new East Wing ballroom are horrible. The size of this ballroom will dwarf the White

House. It is not necessary and it is a waste of space and tax payer money. The demolition of the East Wing never should have happened without the required feedback from Americans. The whole thing is an absolute disgrace. The convicted felon should be forced to personally pay for the damage he has caused.

Wasteful spending. It's a reckless vanity project ignoring safety concerns about how to deal with older buildings in order to maintain their historical integrity. He just sent in bulldozers and knocked it down to make a point the way a dog marks territory. It isn't Donald Trump's personal home. He is a temporary resident, and actually should have been removed due to his obvious unfitness for this office. He is the most corrupt individual ever to take this office, and Congress is doing nothing to prevent his insane decisions wrecking this country and its infrastructure. He doesn't care about pollution, says scientists are wrong, based on what? Not what is true or not true, but based on what he thinks is good for big business. Someone who doesn't have the depth of knowledge about environmental issues should not be in charge of anything that affects it. There is also a lack of respect for actual American values, so we know he can't be trusted with this project. He will be looking for a way to enrich himself and will not care about future consequences. This project needs to be stopped immediately and those who actually know what they are doing should be hired to restore it in its original condition. There was already a ballroom in the east wing, and it was adequate.Trump's judgment cannot be trusted. Once he posted that ape meme, he should have immediately been removed from office. He is unfit and is destroying this country.

Plans by Donald Trump to construct a new ballroom at the White House raise serious concerns about priorities and stewardship. The White House is not a private resort or personal estate; it is a historic public building maintained with taxpayer dollars and it has symbolic meaning for the entire country. Major structural additions risk altering the architectural integrity of one of America's most recognizable landmarks. Preservation, not expansion for grandeur's sake, should be the guiding principle when it comes to nationally significant sites.
The White House has always balanced dignity with restraint; its architecture reflects continuity and stability rather than spectacle. Introducing an expansive new ballroom could overwhelm the proportions and historical footprint of the property, altering the visual and spatial harmony that preservationists have carefully maintained for generations. The White House already contains multiple formal reception spaces—including the East Room, State Dining Room, and other ceremonial areas—designed specifically to host major events. Expanding the complex with an oversized ballroom risks shifting the residence away from its historic character as a working home and office and toward something that feels more like a convention venue than a presidential residence.
Further, expansion could affect the internal layout of the White House grounds. The East Wing borders areas such as the Jacqueline Kennedy Garden, visitor entrance facilities, and support structures. A significant enlargement could reduce green space, alter garden layouts, and meaningfully reshape the character of the White House grounds.
Finally, there is the question of precedent. Transforming historic public spaces to reflect the aesthetic preferences or event ambitions of any one administration risks politicizing and personalizing institutions meant to outlast individual leaders. The executive residence has evolved carefully over more than two centuries, with changes typically driven by structural necessity or historical preservation—not spectacle. Any proposal of this magnitude deserves rigorous bipartisan review, transparent cost analysis, and input from preservation experts before moving forward.

The White House is a National Historic Landmark and National Park, owned by the American people and stewarded by the National Park Service. Major construction projects in Washington, D.C. must be reviewed by the NCPC and the Commission of Fine Arts, comply with the National Environmental Policy Act (NEPA), and receive congressional approval. The East Wing of the White House was torn down without any of this review and approval. The East Wing has historic and cultural significance equal to the White House itself. The East Wing was torn down without proper review, public input, or congressional and NCPC approval. The proposed "Ball Room" is a vanity project of the President. The proposed structure will dwarf the existing White House and violate the architectural integrity of the White House. The East Wing Modernization Project should be rejected, and the East Wing should be replaced as it originally existed. Asking for comments now is akin to closing the barn door after the horse has escaped.

To whom it may concern,

I am writing to express my deep disappointment of the decision to demolish the East Wing which dated back to World War II. This was of historical significance and previously President Trump stated that "a new White House ballroom won't inertere with the current building". (East Wing) I am aware that past Presidents had made changes and major remodels of the White House but to actually demolish the East Wing is beyond comprehension. In my opinion this demonstrates that President Trump did not see or concern himself of historical significance of a structure that was built during one of the most critical times in our country's history. With such a major decision, I believe asking the American people for their thoughts would have been in order and demonstrated the President's concern and value of the opinions the people. Again, I cannot express my extremen disappointment in this decision.

Respectfully,

Joseph Sebastian

The White House and its grounds are a national historic site. While modernization such as HVAC, electrical systems, security and other utilities are necessary to keep a site safe and up to current code, and to accommodate changes in work and lifestyle habits, such as digital/virtual access or other upgrades. However, historic buildings and grounds are to be preserved with an eye to restoration, not wholesale destruction of our nation's history. The East Wing project should restore the East Wing and grounds, with any proposed changes vetted through official channels, which may include the legislature and entities such as NCPC from the inception. Any interior design choices should be stately, not gaudy.
Thank you for your efforts to encourage input from the public.

I'm submitting this comment to ask the National Capital Planning Commission to immediately halt any further demolition, removal, or irreversible construction activity at the White House complex until the full, proper review process is completed and the public has real transparency.
The White House is a national symbol and a public trust. It belongs to the American people—not to one man or one administration. Major changes to a site of this importance should never be treated like a private construction project. If demolition or large-scale alterations are being pursued, the public deserves clear, accessible information and proof that the required oversight is happening before anything permanent moves forward.
At minimum, please require a public record of the exact scope of work, the justification, the timeline, the funding source, and confirmation of all necessary approvals. I'm asking you to stop this now and prevent it from going any further until accountability and lawful review are in place.

I'm writing as an Architect, Urban Planner, retired Air Force Officer and retired Los Alamos National Laboratory employee. I've dedicated my life to the service of our country and improving the environment supporting others who serve. From the beginning, I've been appalled by this administration's willful disregard for long established norms, processes or the rule of law. There is no more visible example of this than the destruction of the East Wing of the people's house (white house). The damage has been done and can never truly be undone. Instead of building a monument to the greed of this president, there should be a competition open to the public to design the replacement. The money the president's cronies donated for the construction of his shameful edifice should, instead be directed to the National Parks for long overdue maintenance. We can't let the selfish ego of a spoiled child who wants to be king deface the people's house (white house) more than it already has.

I am commenting on the "Ballroom" at the White House.
First, I have saved 5 historic structures from an historic century-old log barn on the White Grass Ranch in Grand Teton National Park, to the Lehrkind Mansion in the Brewery District in Bozeman Montana, to now Goode House in Portland Oregon. I have been awarded two Historic Preservation Awards; one from Montana and one from Wyoming.
Each of these projects required plans to code, public reviews by planning and preservation authorities, public input and comment - the works. For each project, I could not just 'do whatever I want' with the history with which I was entrusted.
Now for this "ballroom" at OUR WHITE HOUSE. I am as outraged as an American citizen can possibly be. Trump should absolutely be required to rebuild the East Wing as it was, paying for this work with his own funds, and be fined and prosecuted for demolishing the East Wing with no reviews, no comments, and no authority to destroy this VERY SIGNIFICANT part of OUR WHITE HOUSE. This structure, OUR WHITE HOUSE does not belong to trump. He has no authority to do ANYTHING to this structure beyond what is allowed ANY OTHER OCCUPANT. Beyond that, he needs to make this very historic structure whole again, at his expense and pay all expenses, be fined accordingly as would any other citizen would be for destroying a historic structure without approval to do so.
Thank you.

I do not feel that a ballroom that dwarfs the original White House building and is funded by private donors

is in the best interest of the preservation of American history. Regardless of which party holds the presidency or wields the most power in Washington, the White House is the People's House and should not be demolished or extensively renovated without full public input and support.
Furthermore, the potential for abuses of the public trust by funding the ballroom project with private money is of great concern. At a time when healthcare, housing, and food costs are rising for average Americans on all sides of the political spectrum, an oversized, ornate, and unnecessary ballroom funded by foreign and domestic millionaires and billionaires is not a testament to American history and patriotism but a capitulation to ego and greed. I request that my public interests as an American be served by terminating this project and using the donated funds to restore the East Wing to its original state and make necessary and needed infrastructure improvements to the White House, as approved by the National Capital Planning Committee and the public.

I strongly oppose the construction of the new 90,000 square foot ballroom on the White House grounds for the following reasons:
1) Plans were not submitted for review to the NCPC and the US Commission on Fine Arts prior to demolition of the East Wing;
2) The environmental impact of such construction was not evaluated;
3) Congress has not authorized such construction;
4) The public has not had the opportunity until now to express opinions on changes to the People's House of the United States.

Please halt any further work on the project until the proper review, comment, and authorization have occurred.

The modernization of the East Wing is a travesty in the making. We do not need an ORNATELY designed ballroom. In a country where so many go without health care, have inadequate living facilities and have to depend on food handouts to live even while working full time, the thought of spending American dollars the "events" that would be held in such a room is untenable. Even if the actual building is paid for by donors from that day on the taxpayers of the United States will foot the bill for the massive events that would take place, events that exclude the everyday American.

The entire process of demolition and decision to this point has been UnAmerican. The process of stomping on our American principals has got to stop. Whatever happens to the East Wing needs to be referred back to an impartial, unpolitical committee before it is presented to congress for approval. Executive orders should have no part of the process. This is not picking new carpet and furniture, this is about the preservation of historic buildings and values.

Please stop all work on this project and send it back through the process that such a project would have been subject to in the past.

As President of the Board of Landmarks Association of St. Louis, I am often asked why historic buildings matter. The answer is simple: they are the physical memory of our communities.
Historic buildings anchor our neighborhoods. They tell the story of who we were, how we grew, and what we valued. In a city like St. Louis, our architectural heritage is inseparable from our identity. From corner storefronts to grand civic landmarks, these structures provide continuity in a world that changes quickly. They foster pride, stability, and economic vitality. Studies consistently show that preservation strengthens property values, supports local businesses, and encourages sustainable development by reusing existing materials rather than discarding them.
But beyond economics, historic places create belonging. They are where generations gather, celebrate, mourn, and build community. When we protect them, we are not just saving bricks and mortar—we are safeguarding shared memory.
This principle applies nationally as well. The East Wing of the White House is more than an addition to a famous building; it is part of the Nation's home. It has welcomed world leaders, supported First Families, and served as a working space that enables the executive residence to function with dignity and grace. As such, it deserves thoughtful stewardship, careful preservation, and the highest level of consideration.
Just as we advocate for treasured places in our own neighborhoods, we must extend that same respect to our country's most symbolic structures. The White House belongs not to any one administration, but to the American people. Its historic fabric—every wing included—should be protected with deliberation, transparency, and reverence.
Preservation is not about resisting progress. It is about honoring legacy while shaping the future responsibly. Whether in St. Louis or in our Nation's capital, historic buildings connect us to one another and to the enduring story of who we are.
Respectfully
Jean Larson Webb
Board President
Landmarks Association of St Louis

Members of the NCPC,
As a resident of a community listed on the National Register of Historic Places, and a locally designated historic district , following established guidelines for review of new construction ensures that projects maintain the importance of landmark buildings as part of our shared history. Nowhere is this more important than the White House, the People's House.
Modernization and growth are not in conflict with honoring the historic significance of buildings but reflect the journey of these structures.
I urge a deliberate and thoughtful evaluation of the needs for those utilizing the building, needed modernization while honoring the role of the East Wing as a part of the overall White House and its grounds.

Thank you for your consideration.

I suggest that the East Wing be put back the way it was, and that whenever the President needs to host a gala event, he uses a publicly available ballroom, probably at a Washington hotel. Or, put it back the way it was and build a ballroom away from the White House.

I am assuming that the East Wing has some utility the way it was. If not, plant a garden or grass where it used to be, and implement one of the other means of hosting a gala: hotel or offsite ballroom.

The White House is the property of the U.S. Government and thus the U.S. people. Thus, following rules and guidelines set forth by the Department of the Interiors NPS Guidelines for Historic Preservation is required before any changes take place.
Before any changes were made a public comment period is necessary.

The current executive branch obviously have no respect for the rule of law. There demolition of the East Wing area is a 'rape' of the Historic Peoples House. Raping is what a rapist does, so it's not surprising but it is certainly unacceptable.

I public comment ought to be held and a collective review of the White House grounds and facilities. To determine if any respectful updates are warranted. If so, the design process must be an open and democratic operation. It may be that the East Wing is best returned to its condition pre-violent destruction (rape).
Thank you for your efforts in this matter.

Like most Americans, I consider the White House a nationally significant symbol of the world's oldest

constitutional democracy. Even the newest part, the East Wing, having been constructed during the administration of a great President, had symbolic value. Its destruction struck me as a wanton act of vandalism. The proposal to add a huge ballroom to the White House adds insult to injury. The home of the President has no need for a prosthetic codpiece. The proposed ballroom is out of scale with the existing building and will only diminish it further.

The best course of action would be to reconstruct the demolished East Wing iso as to return the White House to a semblance of its former historic status.

I wish this opportunity had been given to the public prior to the East Wing demolition. That being said, any new addition that will dwarf the main residence should not be allowed. The main portion of the White House is historic and should remain the focus. The public should be able to review the plans and provide input. The addition should be in the same architectural style as the current building. Thank you.

The Trump Administration's proposals for a new East Wing and White House Ballroom are wildly inappropriate, on several levels.

The proposed gallery from the main entry hall to the proposed addition will seriously distract from scale of the White House and the aesthetics of the front facade. A similar proposal for a galley on the west side is equally problematic and offensive.

The height and mass of the proposed addition are inappropriate and architecturally out of proportion with the existing White House, and will dwarf the historic structure, eliminating the elegant proportions we associate with that campus.

The sheer size of the proposed ballroom is garish, inelegant, and historically inappropriate. Even the most

liberal Historic Preservation Commission anywhere in the nation would send this application for a Certificate of Appropriateness back to the applicant.

The proposed interiors are garish and out of character with the architecture of the White House, as well as the very idea of "the people's house." The current administration should be reminded they are but temporary tenants, and the White House belongs to the American people in perpetuity. The White House may need some modest additiional entertaining space, but it does not need a convention center sized hotel ballroom.

What will be the ongoing maintenance, and energy costs? Will there be competitive bidding? Will the materials be sourced in the United States? Will they be durable and servicable over time?

To reward the destruction of an American historic asset with what is currently being proposed sends a chilling message to all those who champion historic preservation all over the country. Destruction of this scale with no historic preservation oversight should be stopped. Where did all the historic elements of the East Wing go? Were the windows saved, doors, hardware?

As a citizen I am deeply troubled by the financing of this proposed addition. The mammouth size of the "contributions" make even casual observer question whether the donors are seeking special treatment.

Please return the Eastwing and the rose Garden to their original specifications prior to inauguration of Donald Trump. This is the People's house not Trump's house and while asking for comments is nice, it is too late since the rose Garden and the east wing have already been destroyed.

Please put them back exactly as they were prior to Trump's inauguration.

While I have disagreed with the demolition of the East Wing as well as the plans for a sumptuous ballroom, I know that is moot now.
I believe that destroying the East Wing and planning for a ballroom without proper vetting and permission is outrageous.
However since the destruction has been done, I'd like to ask...
-please do not "decorate" the new ballroom with icons to any President, current or past,
-refrain from displays of "gold" a la the Palace at Versailles,
-hire someone to decorate who has tasteful and modest designs,
-decorate with the people of this country in mind...very few are millionaires.
Thank you.

As a taxpaying member of the American public, I would like to comment on the East Wing "modernization" project. I understand environmental laws were violated when the East Wing was demolished without proper asbestos and other inspections. The historical authorities responsible for input into changes to historic buildings were not consulted. The vanity, waste of money, ugly and disproportioned design and the way the project was begun are all a shocking disaster and misuse of Presidential power. The solicitation of money from corporations to "sponsor" the project is also objectionable and represents corruption. The history of the East Wing as "the people's wing" has been disrespected and we want it back. The project reminds me of what people in Russia joke about regarding some of their buildings: They joke about "the great architect Stalin", whose ugly buildings stand as a testimonial to the madness and vanity of that authoritarian. Let us not make the same mistake. Let the historical societies and architects design a replacement in proportion to the rest of the Capitol buildings, and for the purpose of use by THE PEOPLE, not by rich party goers.
Thank you for your kind attention, Sharon Paltin, MD

I am writing to express concern about the exterior design and scale of the proposed White House ballroom addition. The White House complex is one of the nation’s most recognized historic buildings, valued for its carefully balanced proportions and restrained neoclassical character. Preservation experts have warned that a ballroom wing of this size risks overwhelming the existing structure and permanently disrupting the historic relationship between the Executive Residence and its smaller East and West Wings.

At roughly 90,000 square feet, the proposed addition appears comparable to or larger than the main White House itself, raising serious questions about visual dominance and compatibility. Federal design reviewers have already asked for further modeling to understand the project’s massing and integration, underscoring that these concerns remain unresolved.

Any addition to this landmark should be clearly subordinate in scale and harmonize with its architecture. As

proposed, the ballroom appears out of proportion to the elegant White House and risks diminishing its historic character.

Thank you for your attention to this matter.

This was an illegal demolition of a building that isn't under the purview of the executive branch of government. They sought nor received any feedback from the White House Preservation Committee. Through the destruction, They demolished forever certain artifacts that may have had significant historical impact. The scope/size of the building will overshadow all the other far more important buildings in and around the National Mall. It is an unnecessary building and the billions used to build it (regardless of whether private or public) could have gone to far better uses.

It is my belief that a ballroom conceived on the scale of the project currently under consideration would destroy the classical appearance of The White House. Furthermore, the need to seat 400 more people at a White House function does not seem to me pressing enough to merit the kind of cost involved in constructing such a ballroom, even if it did not intrude on the appearance of The White House. This project should either be re-designed on more modest lines, or eliminated altogether.

I write in unequivocal opposition to the proposed construction of a 90,000-square-foot ballroom addition to the White House complex.

The White House is not merely a residence or an event venue—it is a National Historic Landmark of unparalleled symbolic, architectural, and civic significance. It belongs to the American people. Any permanent, large-scale alteration to this historic complex must be approached with extraordinary restraint, humility, and transparency. This proposal fails that test.

A 90,000-square-foot ballroom is not a modest modernization. It is an immense and transformative expansion that risks fundamentally altering the historic character, spatial relationships, and visual integrity of one of the most significant public buildings in the United States. The White House has evolved carefully and deliberately over more than two centuries. That evolution has been guided by preservation principles that recognize its singular role in American history. This proposal represents a dramatic departure from that tradition of stewardship.

The White House is not a convention center. It is not a hotel. It is not a private estate. It is a living historic site embedded in the cultural memory of the nation. The scale of this proposed addition raises serious concerns about proportionality, necessity, precedent, and long-term impact. Once built, such a structure cannot simply be undone. The harm to historic integrity would be permanent.

The legally required federal review process exists precisely to prevent irreversible mistakes of this magnitude. The National Environmental Policy Act (NEPA), review by the National Capital Planning Commission and the Commission of Fine Arts, and congressional oversight are not procedural formalities—they are safeguards designed to protect the public interest and our shared heritage. Public participation must be meaningful and must occur before construction renders public input irrelevant.

Before any further advancement of this proposal, the public deserves a comprehensive and transparent assessment of alternatives, including significantly smaller-scale options and off-site solutions; a full accounting of impacts on historic fabric, sightlines, security perimeters, landscape, and surrounding context; clear justification demonstrating why a ballroom of this unprecedented size is necessary within the

White House complex itself; and independent historic preservation analysis consistent with the Secretary of the Interior's Standards for the Treatment of Historic Properties.

The White House has endured war, fire, expansion, restoration, and modernization—but always with a recognition that it is more than a building. It is a symbol of democratic continuity and restraint. Monumental expansion for the sake of ceremonial capacity risks undermining that symbolism.

As National Trust President and CEO Carol Quillen has stated, "The American people deserve an opportunity to provide comment and shape the project." That opportunity must be substantive, not perfunctory. Decisions that permanently alter our most significant historic site must reflect broad public consensus, not narrow administrative preference.

I urge the National Capital Planning Commission to reject this proposal in its current form and to require a significantly scaled-back, preservation-centered approach that prioritizes the long-term integrity of the White House over short-term programmatic ambitions.

The White House belongs to the American people. Its stewardship demands caution, restraint, and reverence—not expansion on a scale that risks compromising its historic character for generations to come.

This project does not comply with several of the Secretary of the Interior's standards for rehabilitation, including:

2. The historic character of a property shall be retained and preserved. The removal of historic materials or alteration of features and spaces that characterize a property shall be avoided.

3. Each property shall be recognized as a physical record of its time, place, and use. Changes that create a false sense of historical development, such as adding conjectural features or architectural elements from other buildings, shall not be undertaken.

4. Most properties change over time; those changes that have acquired historic significance in their own right shall be retained and preserved.

5. Distinctive features, finishes, and construction techniques or examples of craftsmanship that characterize a historic property shall be preserved.

6. Deteriorated historic features shall be repaired rather than replaced. Where the severity of deterioration requires replacement of a distinctive feature, the new feature shall match the old in design, color, texture, and other visual qualities and, where possible, materials. Replacement of missing features shall be substantiated by documentary, physical, or pictorial evidence.

9. New additions, exterior alterations, or related new construction shall not destroy historic materials that characterize the property. The new work shall be differentiated from the old and shall be compatible with the massing, size, scale, and architectural features to protect the historic integrity of the property and its environment.

The project has already destroyed historically significant material and showcases a design which will overwhelm the rest of the structure. Its design and scale are not at all compatible with the existing building

and site, and invoking past plans for a ballroom is a farce. This project represents a monument to the ego of one man, insulting the shared history of all Americans. The White House belongs to the people, not the president.

I am 100%, completely and totally horrified and disgusted by the bulldozing of the East Wing and the proposed addition of the ballroom, both as a citizen and as a historic preservation professional. This project, undertaken without public review (until now, and following the destruction of a property OWNED BY THE PEOPLE, is a travesty of imperial might by a President who cares for nothing but himself.

The scale of the proposed ballroom will dwarf the White House.

It's also a waste of money; and to counter the argument of private funding: the people's house should not be for sale to the highest bidder who hopes to curry favor with the president who thinks he is a king.

No kings, no palaces, no gilded ballrooms.

This is one of the saddest things I have seen in my 62 years on this planet. I can't even think of enough bad words to describe it and the administration who is doing this.

Historically, the White House represents the people of the United States. As a temporary residence for a President, and a permanent symbol of our democratic republic, it must reflect to the world the identity of our nation, not one person.

A 90,000-square-foot ballroom already declares pride. Perhaps the space can still be tipped away from individualistic egotism.

I'm so disappointed in the process one person in power has taken to demolish a historic wing. Going forward, I do hope the East Wing can represent modesty, reverence, and fellowship to the world. It is not the place for our tax dollars or our global reputation to be spent on the whims of one individual.

There is no need for a ballroom housing nearly 1000 diners, because there really is no need for such extravagant taxpayer supported events. The White House has a State Dining Room that is more than adequate for any legitimate diplomatic activity, and there's the East Room for anything tastefully larger.

Furthermore, proposed financial arrangements for construction reek of corruption. In this time of economic hardship. The administration needs to be directed to restore the East Wing with all necessary funding provided by the vandals who destroyed it.

Like most Americans, and before you say I am not American for saying this, understand that the building that houses the most powerful people in the world are elected by the people and therefore are succumbed to detail their actions. There is little privacy and you are not entitled to do as you wish.

The White House stands as a testament to the people showcasing our strengths, our weaknesses as well as triumphs and our failures. Humans who fought for the belief in simplicity as well as a grandeur of a life that's free from harm and a threatening government and hope.

What the current administration fails to see is the symbolic nature of the White House. Instead feel the need to build to their lifestyle and not that of the people they represent.

This build is not representative of everyone. The historical value lost is pure ignorance to those it represents.

Please do not approve the current ballroom project submitted to replace the East Wing of the White House.

The White House (East Wing, West Wing, whole complex) belongs to the American people, not to Donald Trump. He ignored and disobeyed the rules (also the laws?) governing this National Historic Landmark in demolishing the East Wing before having his plans reviewed and approved. Trump should be fined severely, if not impeached, for acting without approval.

His proposed replacement for the East Wing MUST NOT be approved -- it is much too large and out of scale and its bulk will unbalance the complex that is the White House. Every United States president except George Washington has resided in the White House -- in no way can the White House ever be a monument to Donald Trump. The White House is our nation's history and architectural heritage, not Donald Trump's personal property. His plans must be thoroughly reviewed and approved -- to be in scale with the White House and architecturally compatible -- before he can order anything more to be constructed.

I am counting on the members of the National Capital Planning Commission to preserve the integrity and heritage of the White House.

As a US citizen I want to clearly state this violation of the White House East Wing needs to stop. My standing is the project was done without proper authorization and consent of the people of the United States. Due process is the foundation of our democracy. The current administration needs to stop this action and restore the East Wing as it was. This desecration appears to be another “trumpization” of our country. His distain for our government and country with this action is not in any way acceptable
Sincerely
Karla Gesslein, US citizen

I think this ballroom is inappropriate! This will ruin the facade of our Whitehouse, it is the people’s house, not the DC version of Mara Lago!
This is despicable! I am embarrassed that we elected a felon to be president, he is completely out of control! He said he would lower the national debt, but, instead he has increased it ten fold!
Our tax dollars should not go to help him and his billionaire friends get richer!
Someone needs to stop him before he completely overthrows our government!

Sincerely, Sherrill C Faunce

Dear NCPC,

Thank you for the opportunity to submit comments to this project.

There are legal ways to go about this renovation process of the White House which have been ignored and violated. Now that we have a demolished East Wing, please use your strength and all the tools you have to oversee the project as it goes forward. I ask that we honor the historical nature of our nation's capitol. The

president has taken complete control of the creation of the new wing and this is completely wrong. One person ought not have the ability to change the character of our national buildings, most of them historic. Washington, D.C. is a precious area and I ask that you interfere - in a good way - with the president's desire to remake the town in his own image.

Respectfully,
Andrea Eisenberg

The East Wing should have never been torn down. It functioned as a multi-use space and should be replaced. Please design and rebuild an updated version of what was there prior to the unwarranted and unapproved East Wing demolition. Most importantly, please design it so that it is in scale with the existing White House buildings and campus. The last thing this country needs is a an outsized ballroom for the wealthy donors and supplicants to the US President whoever the president may be.

The White House is publicly owned and belongs to all the American people! So we should all have had a chance to comment prior to the start of demolition and construction.

The proposed Ballroom is embarrassingly out of scale with the rest of the White House. It is also unnecessary because there are many large meeting spaces conveniently located in Washington, DC.

The White House is a source of pride for all Americans. The size and dimensions of the proposed ballroom will distract from the majesty of the existing White House and West Wing. The process should be slowed down to allow the design of a much smaller and more appropriate structure, based on the recommendations of the best architects in the country, rather than based on the personal tastes of the President.

I think that given the economy spending frivolously on such an endeavor is a poor use of tax dollars. However, updates should be modern and in line with the historic character of the White House, should be neutral and without one presidents personal tastes or name. Otherwise it will simply require more tax dollars to rectify later.
Hopefully it won't be branded with the Trump name because our nation doesn't have kings and gilded tacky euro looking overly fussy 1990s glam decor.

I prefer the East Wing be rebuilt on the original foundation and modernized with the newest tech. It can be designed with some of the original colors and artifacts with calming and welcoming colors. I was received in that space as a tourist when I was in 5th grade in 1964. I want restoration of that historical architecture-to balance out 'The People's House' and erase the memory of the illegal wrecking ball of this administration. No need for a ballroom in this time of history.

The persons who occupy the People's House aka White House, are only temporary tenants. They reside there out of the courtesy of we, the people of the United States. They do not own one brick, piece of mortar, shred of drapery, chair, table, lamp or tile. Those temporary inhabitants have a moral obligation to take care of the People's House. They do not have the right to wantonly destroy the heritage and property that does not belong to them. The current occupants of the White House must cease and desist the destruction they have begun. Posterity and the judgement of the ages will condemn them if they do not.

I strongly object to the mis-named "East Wing Modernization Project." The White House is the People's House; a living historical monument and home that should be treated with respect and care. Modernization is expected from time to time, but destruction without public or Congressional input is unconstitutional and just wrong. Further, demolition of this property without proper plans or oversight should be met with criminal charges, no matter who made the decision to start bulldozers in the middle of the night, without regard for proper asbestos removal, and hide it from public view and oversight. While there may be a need for a 'ballroom' or other gathering place for events, it should have been proposed and done properly. Clean

the site thoroughly and put the East Wing back!

I think what President Trump is proposing to do to improve the historic White House is a wonderful project. So many Americans have not been to Washington DC. I'm proud to say that I've been there many times I've been through the White House many times and it always amaze me that there was not a huge ballroom in which to have celebrations and for indignities. This is America's house and we should have an outstanding place in which to entertain our guests, both domestic and foreign. I can't think of a president better equipped to take on this project as he has building experience and he's gotten contributions to pay for it so it will cost the American people nothing. This should be a source of pride for all Americans rather than a political maneuvering to discredit this president. Shame on the people who are even bringing this up. I noticed they did not do this to the other presidents who made changes and updates to the White House. Everything has been politicized and Weaponized against Trump and this is just one more ridiculous effort to discredit him. This American and her entire family 100% support this project and we look forward to checking it out one day.

Hi,

Mr. Trump has proposed the construction of a 90,000-square-foot ballroom on the east side of the White House campus, adjacent to the historic Treasury Building. Site preparation is already underway, including the demolition of a portion of the existing East Wing.

While the National Trust acknowledges the utility of a larger meeting space at the White House, I am deeply concerned that the massing and height of the

proposed new construction will overwhelm the White House itself—it is 55,000 square feet—and may also permanently disrupt the carefully balanced classical design of the White House with its two smaller, and lower, East and West Wings.

The federally recognized Secretary of the Interior's Standards for Rehabilitation offer clear guidance for construction projects affecting historic properties. The Standards provide that new additions should not destroy the historic fabric of the property and that the new work should be compatible with existing massing, size, scale, and architectural features.

Owned by the American people, the White House was designed by Irish architect James Hoban, whose winning proposal was selected by President George Washington. The building respects Georgian and neoclassical principles. It is a National Historic Landmark, a National Park, and a globally recognized symbol of our nation's ideals.

I urge the Administration and the National Park Service to pause demolition until plans for the proposed ballroom go through the legally required public review processes, including consultation and review by the National Capital Planning Commission and the Commission of Fine Arts, and to invite comment from the public. These processes provide a crucial opportunity for transparency and broad engagement—values that have guided preservation of the White House under every administration going back to the public competition in 1792 that produced the building's original design. Doing so will help ensure that the project both honors the exceptional historic significance of the White House and acknowledges the investment that the American people have in the preservation of this beloved place.

The National Trust stands ready to assist the White House, the National Park Service, and relevant review agencies in exploring design alternatives and modifications that would accomplish the objectives of the Administration while preserving the historic integrity and symbolism of the People's House.
As we approach the 250th Anniversary of our country's founding, the preservation of historic places that represent our nation's history has never been more relevant or important. We urge you to take into account the deep reverence that all Americans hold for this iconic place, and to initiate the review process that can ensure the preservation of the historic White House for future generations.

I am deeply ashamed to be an American amidst this obvious and purposeful destruction of a symbol of our democracy.

Isabel

Why is this called a modernization when it was a total destruction? The average American cares absolutely NOTHING about a ballroom none of us will ever see in our life, aside for the disgust we feel at the entitlement and gross display of the billionaire white boys club.
Knowing that the public did not have an opportunity to have a say in what happens to OUR House, exemplifies how out of touch this administration is with its constituents.
We are living paycheck to paycheck, health insurance and cost of living is astronomical, property taxes are running people out of their homes and there is little to no resources allocated for mental health, community enrichment and the resources allocated are going to the destruction of monuments and our nation's TRUE history.

Dear Sirs and Madams:
I continue to be horrified by the destruction of the historical East Wing of the White House. Mr. Trump does not own that property; he merely occupies it during the course of his presidency. He has destroyed an invaluable piece of our nation's history. We do not need a 90,000 square foot ballroom. The White House is not 18th century Versailles. Just because his wife chooses not to fulfill a significant role as First Lady of the United States doesn't mean that one of the primary functions of the East Wing ceases to exist, that of the offices of the First Lady and her staff.
The historical East Wing should be rebuilt as close to its original 1942 structure as can be replicated. If the current occupants of the White House choose to use parts of the mansion differently than has been done for decades, that is their prerogative. Destroying our nation's historic structures should not be. Theirs is a temporary tenancy, as much as the current occupant of the West Wing may wish it to be otherwise.
Most sincerely yours,
Lorri Rosenberg Arazi

I was brought up in Northern VA, and have always respected and cherished Washington, DC and its fabulous architecture. The White House along with its two wings are simple, yet stately.

The White House, with the West and East wings represent class & simple elegance, not the flash and excess of the nouveau riche trying way too hard to impress others. America has no need to impress others.

The West and East wings added balance to the original White House structure without overwhelming it.

Back in the 1980s I worked at the Town of Palm Beach Landmark's Office. It broke my heart everytime someone would tear down one of these exquisite historical homes only to replace it with an oversized replica of a Walmart, with a zero lot line

To me, that is what the football sized, unnecessary gilded ballroom will do. It is entirely out of proportion to

the site and will dwarf the existing White House.

Thank you,
C. Williams

To the Commissioners,

I am writing to offer comment regarding the proposed construction of a ballroom adjoining the White House.

While the recent demolition of the East Wing represents a significant loss within the continuum of the White House complex, I will focus my remarks on the implications of the proposed new construction. When additions are introduced beside an internationally recognized historic structure of this magnitude, the obligation to consider scale, hierarchy, architectural character, and civic meaning becomes paramount.

The White House has served as both the principal residence and executive office of the President of the

United States for over two centuries. Though it has undergone substantial updates, including the comprehensive structural reconstruction during the Truman administration, those interventions were undertaken with clear respect for the building's original scale, composition, and architectural intent. Even the addition of the East and West Wings maintained a subordinate relationship to the central residence. They were designed to support the primary structure, not to compete with or overshadow it.

The currently proposed ballroom appears to depart from that long-standing discipline. Its scale and massing risk altering the established architectural hierarchy of the site. When an addition visually diminishes the prominence of the main residence, the effect is not merely aesthetic. It reshapes the symbolic reading of the complex. The White House should remain unmistakably the principal structure, both visually and conceptually. Any new construction must reinforce that primacy rather than compromise it.

Contextual design involves more than stylistic compatibility. It requires an understanding of the cultural and civic role embodied by the existing structure. The White House represents governance, continuity, and national stewardship. A large-scale entertainment venue that visually dominates or reorients the composition of the complex risks conveying an unintended shift in emphasis from civic function to spectacle.

If additional gathering space is deemed necessary, it should be approached with restraint, ensuring that massing, height, and architectural expression remain clearly subordinate to the historic residence. The integrity of scale and hierarchy within this setting is not incidental; it is fundamental to the meaning and dignity of the place.

Thank you for the opportunity to provide comment on this matter.

Respectfully,

Rob Cagnetta

I am absolutely gutted at the wanton destruction of The People's House!!! Donald Trump does NOT have carte blanche to tear down the East Wing for his personal gain. There are PROCEDURES and he has followed none of them!!! Yes, there is a need for a larger event space but destroying the building without consulting Congress or any historical preservation societies is NOT OK!!!! Funding the project with private donations is also NOT Ok. It is akin to bribery or pay-to-play and that is NOT how this is supposed to work.

This could have been done with federal funding, especially with all the new tariff money, and by going through the proper channels to PRESERVCE THE SANCTITY OF THE WHITE HOUSE and build alongside it without destroying it. What he has done can never be fixed and this administration should have never been allowed to even start this project without preservation as the priority!!!
The cost continues to skyrocket and it is all just one big bribe!!!

I believe it is in the best interests of good design, when making changes to public buildings of high visibility such as the White House (the People's House), there should be a team with a widely varying perspective that can review the plans and form a consensus about what works and what doesn't, and what is to the public's benefit. This team should be highly qualified and trained architects, historians, preservationists, futurists, and others of varying mindsets, so one view point does not dominate.

This will prevent us from ending up with a design that is too narrowly focused on one team's or one person's view of what can be done with a public resource and treasure.

Thank you for listening to my thoughts, which I believe are shared by many millions of people in this country and elsewhere.

Best,

Eddie Lyon

The White House does NOT belong to Mr. Trump much as he seems to think. It is the home of presidents duly elected by the American people and is not a Trump family property. The addition of a hideous overlarge ballroom is merely an attempt by Mr. Trump to make the White House into Versailles. This attempt at a Versailles addition is ridiculous. If the supposed donors who would fund this monstrosity are Trump's billionaire friends then why don't they be philanthropic and donate their money to reputable charities? Adults and children all over the world as well as in this country are without sufficient food and medical care due to the slash and burn of DOGE. The billionaires need to develop some moral fiber and remember the Gospel message of feeding the hungry and clothing the naked, etc. There is nothing in the Gospels about the need for huge ballrooms. Mr Trump's decorative choices are extremely tacky and the proposed drawings are horrifying. The commission should consider the future of the White House as well as its historic past. Mr Trump will leave in January 2029 and if approved the US will be stuck with a grotesque

architectural addition that the public overwhelmingly doesn't want.
I vote NO on the ballroom addition!

Asking for public comments on this project at this point in time is a bit like researching what type of fire suppression system should be installed after the building has already burned to the ground. What's the point in asking for public comment when we're dealing with an authoritarian regime? They, quite literally, couldn't care less about the public or their opinion. Shame on this entire administration and anyone in a governmental position for continuing to let our country's history to be desecrated in the manor it has been this past year. Hopefully, future generations will be able to forgive us for this, yet another blind spot in our nation's preservation efforts.

I am writing to express my strong opposition to the White House Ballroom project. This is a project funded by billionaires for billionaires and makes a mockery of the central purpose of the White House as The People's House. Moreover, the destruction of the existing East Wing without prior notice, authorization, or public comment is an affront to the way in which our democratic processes are supposed to work.

I am asking you to reject this proposal and focus on restoring the White House to its original condition.

The demolition was against the law without the consent of our National Parks input.

The East Wing should be rebuilt brick by brick, back to the original structure.

This administration has gone rogue and needs to be disciplined. The disgrace of bullying tactics by Trump are unacceptable.

The size and scale of the "Modernization" is greatly out of proportion. Stop this project NOW.

The "Modernization" is a disgrace to our historic heritage.

No one needs tacky Trump to go through with this project.

He doesn't understand the concept of "We the People."

The public does not work for him. He works for us and should act as such before bulldozing a national monument.

Pure sacrilege.

Who does he think he is? Vladimir Putin?

This is another pathetic attempt to destroy our heritage.

STOP THIS PROJECT NOW.

Sincerely,
Steven Ward

This should not have been started before a proposal was submitted, reviewed and approved. The President should pay for the damage he created with personal funds. I do not support a large, lavish ballroom. If modernization is required it should be modest, not ostentatious. Energy efficiency and climate impact should be priorities.

Dear Sir,
My family first visited the White House in January 1993. It was a source of pride and it inspired us to become members of the National Trust. I believe that through the stewardship of historic buildings and sites, we honor our country's founding fathers and the principles of democracy. I am vehemently opposed to the East Wing Modernization Project. I am shocked that the east wing of the White House was demolished without a permit or approval for renovations. It is a significant loss for the country and for future generations because it sets a dangerous precedent that puts the executive branch above the law. Our country must come together to demand that laws are passed to prevent this kind of damage in the future.

Well, better late than not at all. This is the way it should have progressed from the beginning for such a drastic change. Having a choice of plans would have been nice. Not totally destroying the East Wing would have been better. Hopefully we are presented with some choices rather than being totally in the dark.
I look forward to some sort of plan that the public can review that is not just the Presidents outrageous plan.
Sincerely,
Michael J. Stone

This ballroom is a despicable misappropriation of funds and strongly changes the character of the White House. There are many spaces within Washington D.C. that can accommodate larger crowds. The 90,000 square foot addition does NOT match the character, nor the intent of the People's House. The cost is outrageous and could be better spent restoring other historic buildings. The private donations account to a pay-for-play system that is a terrible precedent to set.

I am writing to express concern regarding the proposed addition of a 90,000-square-foot ballroom to the White House complex.

The White House is not simply a functional building; it is one of the most recognized and symbolically important public structures in the United States. Any addition to this historic property must meet the highest architectural standards and demonstrate deep respect for the existing structure, its design integrity, and its historic significance.

Because this is a public building owned by the American people, the process for considering such a substantial expansion should be transparent and inclusive. A formal public bid process should be undertaken, allowing qualified architectural firms to submit proposals that thoughtfully integrate with the historic character of the White House. Multiple design options should be presented and evaluated openly.

In addition, experts in historic preservation, architectural history, and federal design standards should be formally consulted. Their input is essential to ensure that any new construction aligns with preservation best practices and complies with applicable review requirements.

Decisions of this magnitude should not be made unilaterally or without public visibility. A transparent process that invites professional expertise and public engagement will help safeguard the architectural integrity of the White House while ensuring that any updates serve both functional needs and historic responsibility.

Respectfully submitted.

Allison Gail Hawk

It is evident that this administration in the White House has gaudy, non-traditional colonial preferences as seen with the new gold embellishments in some rooms. The size of the new construction should be determined by historic preservationists as well as the style so as not to overwhelm the White House style. All historic buildings should conform to the present Secretary of Interior Standards for Historic Preservation and approved by qualified historic preservation professionals.

I think it is wonderful that we are adding such a grand space to the White House. Other Presidents have done renovations, and President Trump is going to add a space that will be used for years to come. It will be nice to have an indoor space and not just tents on a lawn for large gatherings, and now it will be able to be used year-round, without worrying about weather and other outdoor concerns. I am 100% for this renovation and I hope that it is allowed to go forward. Further, I am sure that President Trump will spare no expense to make it a beautiful gathering place.

Destroying the East Wing was criminal. The White House is an institution in and of itself. No one person or group has any right to touch this public house without the public having a say as to if they want changes.

A gargantuan addition will interrupt the architectural balance of the White House.

Where is the supporting parking for the ballroom and how will the traffic flow? This might be a ripple affect. Where does it end?

Thank you for the opportunity to submit comments regarding the East Wing Modernization Project.
I was dismayed at the livestreamed committee meeting I attended to find that only one member raised any concerns regarding this bombastic, ego-driven project. I was shocked that the rest of the committee retreated so shamefully from their responsibilities as stewards of national heritage on behalf of the American people.
With that said, I nevertheless take this opportunity to urge all members to carefully reconsider the proposed project with each submission of new plans. New construction of some sort is a fait accompli, but perhaps it is not too late to reign in the size of this monstrosity, its scale in relation to the historic White House, and its egregious detailing inside and out.

The proposed ballroom and East Wing modernization is grossly out of scale with the existing historic White House Complex. The White House is the residence and work space of our nation's chief executive, and there is no need for an entertainment space the is nearly double the square footage. The proposed expansion needs to be significantly scaled down in size to ensure that it does not visually overtake the historic White House, and that the proper visual and physical emphasis is placed on our executive's work efforts, not entertainment goals.

While the White House, like any structure, needs occasional modification and rehabilitation, it represents us as a country and this project so distorts the image it seems to no longer represent American values. An add-on structure that's this large overshadows the main building and creates an image that's inconsistent with the image of a People's House, but something more like the palace of some tyrannical monarch who is into opulent displays of power. This project should be disapproved, and the original East Wing restored.

The destruction of the East Wing of the White House was outrageous. To replace it with a 90 thousand square foot ballroom, an ego project for President Donald J Trump is ludicrous. No vote was taken for the demolition by the citizen's of the US, who own the White House as a public monument that our tax dollars pay for, nor was any other government entity even consulted much less concerned about.

The ballroom is a shameful ego trip planned by a mentally incompetent, morally reprehensible man who has already shamed our country in uncountable ways.

I am absolutely against the ballroom project.

The president's actions in destroying an important part of our national heritage with no oversight is despicable.

The building should be restored, in as much as it is possible, to the way it was before he took a wrecking ball to it in the dead of night. This is a symbol of the way the president views each of us: we matter not at all to him and the only thing that does is his own ego.

His behavior is emblematic of his evident desire to destroy our Constitution and our country: to turn us over to the highest bidder.

If you truly believe in the United States of America as a land of laws and that seeks to better daily life for its people, then REIGN IN THIS IDIOCY. Do not allow a useless and wasteful use of the People's House by creating a ballroom for those who seek to buy the president's favor.

THANK YOU FOR YOUR ATTENTION TO THIS MATTER.

It is an outrage that the East Wing was torn down in the first place.
The second thing that is outrageous is the need for a 90,000sqft "ballroom."
The White House is supposed to be the people's house and who ever resides there does so at the behest of the American People.
The President thinks it is his house and we have already the garish decorations of this office, I can only imagine how this "ballroom" will be even more garish than the ballroom of the Kremlin, Versailles, and other ROYAL PALACES of Europe.
If more space is needed then rent out the convention center or hold it in the center space of Union Station.
Even if the funds are private donations, it is outrageous that the billionaire friends of the President are the one's giving the money.
Should we expect to see their advertising plastered over the walls?
That it will be larger than the White House itself is another outrage.
Stop this ballroom in its tracks!

I live in a historic district in Houston, Texas, and was actively involved in having historic building and district protections in Houston, comparing what others around the nation do, and what guidelines and standards should be in place with new, adjacent, or renovation projects. The new East Wing, and potential added story on the West Wing is nothing close to what empirical evidence has put forth for historic properties. Other than Constitution Hall, there are few sites more historic, and none more recognizable than The White House. The proposed new buildings are not in proportion to existing historic fabric of the White House. These additions should not be made at the scope proposed, the material used, and because of the effect on the entire property as a whole. Having a ballroom to accommodate 1000 people, plus the workers is simply not feasible without turning the lawns surrounding the buildings into parking lots.
It is time to put a stop to this nonsense, and waste of taxpayer money.

I am highly disappointed that the East Wing was demolished without forethought of Historic Preservation. The East Wing of the White House, much like the Kennedy Rose Garden, has been part of the overall symbol of the US Presidential home. As a historic preservation practitioner, I understand the process for review can be tedious but is well worth the effort. The ability to carefully document and catalog the building and its contents before demolition was lacking. The disposal of the rubble on golf course lands is despicable, especially when it could have been reused for the renovation and been sustainable. But the current administration continues to defy its constituents, ignore and whitewash history, while blaming and pointing fingers. There is no accountability from the top. As we are on the cusp of America 250, we do not need to demolish our cultural resources. Please take this into consideration. Levy fines against those who proceeded without appropriate review. And hold the President accountable.

I am 100% against this radically expensive and destructive project that will deface the White House for future generations. This is a 100% a vanity project for Trump. There is no sound argument for it. The extravagance is shameful. The reasoning for it is absurd. When so many people are struggling to survive with widespread losses of health insurance, jobs, educational and food subsidies and with growing food insecurity for so many American families, it would be an utter disgrace to move forward with this project. It's time for those in decision making positions to do the right thing and put an end to the extravagance and willful disregard of the greater good for the American people. A ballroom shouldn't even make the "to do" list for any American president in our time or in any other.

The White House is a National Historic Landmark and National Park, owned by the American people and stewarded by the National Park Service. It has been home to our presidents since 1800 and is perhaps the most significant historic site in the United States. Before nationally significant places are permanently altered, the public deserves an opportunity to be heard and to help shape decisions that affect our shared national heritage.

This is a legally required federal review process, and public participation is essential. Major construction projects in Washington, D.C. must be reviewed by the NCPC and the Commission of Fine Arts, comply with the National Environmental Policy Act (NEPA), and receive congressional approval. These safeguards exist to ensure transparency, accountability, and meaningful public input.

Public input should occur before construction makes the outcome irreversible. As National Trust President and CEO Carol Quillen has stated:
“The American people deserve an opportunity to provide comment and shape the project.”

I’m writing to share my strong opposition to the destruction of the East Wing of the White House. This part of our nation’s history is not only an important architectural feature but also a symbol of our nation’s

capital. The loss of these historic sites is a loss for all of us.

Preserving our history matters. We need to protect our landmarks, not just for their physical stature but because they help inspire future generations to understand and appreciate where we come from. It's a beautiful and tangible way to experience our past.

I believe we can make progress and embrace the future without tearing down our historic structures. It's all about finding a balance that respects our past while allowing for growth. The proposed ballroom should honor the existing footprint of the East Wing while also providing the necessary space to meet our current needs. There are always ways to innovate and modernize without sacrificing our history.

Moreover, I think it's vital for our leaders to lead by example. Just as every U.S. citizen is expected to uphold policies about historic preservation, those in power should also follow these guidelines. It sets a standard for everyone, showing that we value our heritage and want to pass it on.

I urge the consideration of our nation's top architects and historians to guide the best outcome. Let's work toward a future that celebrates both progress and our history.

I feel very strongly that a) the president had no right or business to destroy the East Wing, and b) it should be replaced with an updated version of the East Wing that was illegally destroyed. If a larger gathering space is needed for formal affairs, let that be part of the design, but the president's proposed gilt-ridden monstrous ballroom is inappropriate and out of character with the design of the "People's House."

Please, we the people who are the actual owners of the White House need to see every effort made to ensure that the East Wing Modernization Project is exactly that, and not a euphemism for "Big Fat Overly Gilded Ballroom." Don't compound the damage done by allowing that ballroom to go forward as planned in the president's fever dream.

The now demolished East Wing should be reconstructed, and any addition to the White House, such as a ballroom, should be carefully designed so as not to overwhelm the White House Historic Site, such as decreasing the proposed size including the height, and perhaps building much of it underground. The addition to the Texas State Capitol in Austin is a good example of how to add additional space and moder amenities without affecting the appearance of the historic state capitol building.

My name is Stephen J. Day, AIA. My professional practice in architecture has for more than thirty years focused on the restoration and additions to National Register properties and other historic landmarks. Our work, and that of our professional colleagues across the United States, has always been held to the high standards set forth in the U.S. Secretary of the Interior's Standards for rehabilitation of landmark properties and additions to those landmarks. The extraordinarily high significance of the White House and its additions requires that alterations to this historic landmark be held to the same standards (or higher) as are applicable to other historic properties that our clients and colleagues are involved with. The Executive Branch must be held to the same standards, including Standard #2: "The distinguishing original qualities or character of a building, structure, or site and its environment shall not be destroyed. The removal or alteration of any historic material or distinctive architectural features should be avoided when possible." Standard #9: "Contemporary design for alterations and additions to existing properties shall not be discouraged when such alterations and additions do not destroy significant historical, architectural or cultural material, and such design is compatible with the size, scale, color, material, and character of the property, neighborhood or environment." The demolition of the East Wing is in direct conflict with Standard #2. The proposed design of the ballroom project is grossly out of scale with the White House and is in direct and obvious conflict with Standard #9. This project is ill-conceived, unnecessary, and should be terminated. The republic has survived for 250 years without this out-of-scale ballroom and a structure in keeping with the scale of the now-demolished east wing is the only reasonable solution.

Project Name: East Wing Modernization Project
Project Number: 8733

To the Members of the National Capital Planning Commission:

I write to respectfully submit the following preservation-based considerations regarding the rebuilding of the East Wing of the White House.

From the standpoint of the U.S. Department of the Interior’s Secretary of the Interior’s Standards for the Treatment of Historic Properties, any reconstruction or alteration within the White House complex must prioritize the preservation of the property’s historic character, integrity, and hierarchical composition. The

White House is not merely a building; it is a nationally significant historic property whose architectural primacy rests in its original Executive Residence, designed by James Hoban and refined through successive historic campaigns.

The Standards make clear that new construction within a historic property should be differentiated yet compatible, and that it must not destroy historic materials, features, or spatial relationships that characterize the property. Equally important is the principle that additions must not overwhelm or compete with the historic resource in scale, massing, proportion, or architectural expression.
The earlier configuration of the East Wing was subordinate in scale and restrained in architectural expression. It functioned as an ancillary structure, visually deferential to the Executive Residence. Rebuilding it in proportion to that earlier configuration would maintain the historic hierarchy of the site, a hierarchy in which the central residence remains visually dominant, symbolically primary, and compositionally balanced within its landscape setting.

To enlarge or restyle the East Wing in a manner that competes with the historic White House would risk violating several key preservation principles:
It would alter the historic spatial relationships that define the composition of the complex.
It would diminish the architectural primacy of the Executive Residence.
It would create a competing mass that disrupts the carefully balanced proportions that have characterized the White House grounds for generations.

It would introduce a visual hierarchy inconsistent with the property's period of significance.
The Standards further emphasize that additions should be reversible and should preserve the essential form and integrity of the historic property. A reconstruction that respects the earlier East Wing's modest footprint, massing, and deferential architectural vocabulary would uphold these standards while allowing contemporary functional needs to be met discreetly.

The White House is not a site for architectural competition. It is a site of continuity. The preservation mandate requires restraint, clarity of hierarchy, and fidelity to the building's established character.

For these reasons, I respectfully urge the Commission to require that any rebuilding of the East Wing adhere closely to its earlier proportional configuration and remain subordinate in design and scale to the historic Executive Residence, in full alignment with the Secretary of the Interior's Standards for Historic Preservation.

Respectfully submitted,
Matthew Bailey

The whole point of the White House is its continuity during the many changes of administration. It signals that the structure of the US stays intact even as administrations come and go. The WH is a potent symbol, and one that should not be changed on a whim, or for any other reason than necessity. To destroy or change a part of that building has deeper meaning and impact than for any other American historic building. Preserving history is important, but preserving this piece of history is essential to our democracy. As a historian and history professional, it seems to me that this change is unnecessary and not in keeping with the history of the White House, its dignity, and its place in the American story.

The alterations to the East Wing represent a serious failure in preservation oversight. Opening public comment on a proposed 90,000 square foot ballroom addition only after significant planning or preliminary action has occurred undermines the integrity of the review process.

Public engagement cannot be treated as a procedural formality inserted after decisions have already advanced. You cannot add beaten eggs to a recipe once the cake is already in the oven. Each step must occur in its proper order for the final outcome to be legitimate. Skipping or reordering steps compromises both the process and the result. Meaningful consultation must therefore take place prior to demolition, alteration, or any irreversible change to public space.

The White House is a National Historic Landmark held in trust for the American people and stewarded by the National Park Service. Any substantial modification should be subject to transparent planning procedures, rigorous preservation review, and genuine public participation at the earliest stages.

To solicit input only after key decisions have effectively been made diminishes public trust and weakens the standards designed to protect nationally significant historic resources.

Any new structure should complement - rather than overwhelm - the 18th century home designed by James Hoban. This isn't about adding a new wing to a summer cottage - it's a massive freestanding expansion of the most famous historic home in America.

The scale is entirely wrong - and will dwarf the hallowed physical representation of the American

presidency. Viewsheds within the presidential park have been irreversibly scarred by the wanton destruction of historic trees and obliteration of archeological resources. There is a process, there are procedures, there are laws that have been cast aside in haste, ignorance, and indifference.

Nothing about this project has been done with the respect, care, and intentionality the White House deserves. A tenant - and I use that word deliberately - has no right to unilaterally and substantially renovate - much less unilaterally introduce new construction - to a highly protected historic property of immense national significance.

The White House is not - and must never be - a presidential palace. If a chief executive desires larger quarters in which to entertain - there are numerous sites available throughout the federal district in which he may do so. The White House's social and office spaces could be renovated with awareness of and sensitivity to its profound historic, cultural, and architectual significance within a collaborative process.

This administration's efforts to conceal, deny, demolish, and destroyed are unforgivable. They are not responsible stewards of an irreplaceable historic site. The White House is not - and has never been - the president's personal property - to do with as he wishes.
The White House - in all of its 18th century glory - belongs to the American people.

It is a travesty that the sitting President has already unilaterally destroyed a significant part of one of the nation's most iconic historical buildings. In no way should further desecration of this public space be permitted by allowing Trump to tarnish this symbol of the Presidency with his fake gold ornaments and otherwise tacky design schemes for a wholly unnecessary ballroom. Any effort by this egomaniac to erect another monument to himself should be soundly thwarted. The only construction that should be permitted in the place where the East Wing once stood should be to make best efforts to reconstruct an appropriate East Wing that is designed and constructed for the purposes for which it was originally intended. Modern upgrades of the East Wing and the like are certainly appropriate, but to allow Trump's vanity project to proceed is not.

First of all, this the project is unneeded at this time. With the country in turmoil, it's a waste of resources, whether donated or tax dollar supplied.

The renderings of the structure do not fit with the classic lines of an early 1800's home. It overwhelms the current White House and will take away from the magnificence of the structure as well as the historical significance of it to American history.

This comment is not being made due to political disagreements, but to the lack of common sense and the idea that this is a building that belongs to ALL Americans and not just the residents of the White House.

Yes, perhaps the security hardened facilities under the East Wing needed to be modernized and brought up to current standards, but to plant this monstrosity on top of it is an affront to every citizen.

I hereby respectfully request that the request to build this structure be denied.

Ths project should never have been commenced without public review. The entire White House Complex is historically significant. This project was undertaken without any consideration of its impact on the historical significance of the East Wing. The proposed project does not appear to be an appropriate modification of the previously existing structure.

I strongly oppose approval of this project and any continued construction. The East Wing should be restored to its prior condition, with only modifications that are required to update infrastructure such as digital communications, plumbing enhancements, and hardening against kinetic device attacks.

The proposed "ballroom" is historically inappropriate and an abomination.

All restoration should be done at no public expense. The President and his supporters who volunteeered to pay for this abomination should be required to pay for restoration of the prior East Wing structure.

The White House is one of the most significant historic structures in the United States and a symbol recognized around the world. Any addition to this complex must be approached with extraordinary care, restraint, and respect for its historic scale and architectural integrity.

I strongly urge that historians, preservation architects, and professionals deeply experienced in stewarding National Historic Landmarks be central to this process. A 90,000 square foot ballroom addition has the potential to alter the character of the site in ways that are out of scale, inappropriate, and irreversible if not thoughtfully designed.

I hope preservation expertise guides every stage of review so that any intervention is appropriate, compatible, and worthy of the White House's historic legacy.

It was bad enough that our current president demolished the East Wing of the White House, ending the public's chance to fully appreciate its role in US history. Now the character of the White House complex is threatened with a change that alters its footprint in such a way that there will be little resemblance to what has been a very fine architectural monument. A massive ballroom is just one more insult to the architectural integrity of the site. Money could be much better spent shoring up existing buildings and monuments in the surrounding area. No one, not even the US president, should be able to change the character of the historic buildings of Washington, DC, in such a drastic way without careful consideration by the organizations that have always weighed in on such matters.

I don't believe that projects like this should be undertaken without very considered public debate and input from architects, preservationists, historians and others who are skilled at integrating new public works with historic ones.

I believe the proposed ballroom is out of proportion to the White House as a whole and will destroy the aesthetic and historic integrity of the property.

Unfortunately, the scale and aesthetics are being mandated by one person, the president, whose taste with the excessive use of gilt ornamentation and accessories is found garish and gaudy by a great many people. The oval office is just one indication of his excessively gilt taste. Again, there should have been and should be much more input by well-experienced designers and decorators.

As the former director of a complex of historic houses, I am saddened to see the destruction of the east wing. The plan for modernization does not take into account the historical value of the east wing. While a ballroom might be necessary and desirable, it should be much smaller than the proposed 90,000 ft.^{2}. No addition to the White House should be of a larger scale than the main building. My hope is that architects will revisit the design and adjust it to complement not dwarf the White House.

I am 100% NOT in favor of this project. The destruction of the historic East Wing without any permits or

historic review is unconscionable. The White House is THE PEOPLE'S HOUSE. It belongs to ALL of us, not to 1 administration with people who have no concern for history or the rule of law.

Aside from the architectural problems involved (the proportion of the proposed addition is just blatantly wrong), the whole process smacks of corruption, and it needs to be stopped NOW before further damage is done to the White House.

There is simply no need for a structure the size of the proposed ballroom on the property. The source of funding for this ill-conceived project is further disconcerting. How many "favors" are being paid for?

I SAY NO. EMPHATICALLY, UNEQUIVOCALLY NO.

I am adamantly opposed to construction of a ballroom where the East Wing once stood. The White House is owned by the people of the United States and is temporarily occupied by an elected President and his family. The White House is not, repeat not, something that can be changed on the whim of a President. It was especially egregious to see the demolition was carried out at night to ensure it could be done without interference from Congress or the people. That strongly suggests President Trump knew it was wrong and likely illegal to destroy part of the people's house but went ahead full speed to carry it out anyway. The people own the White House and they were not consulted in any fashion whatsoever when the East Wing was demolished. If there is any so-called 'modernization project' I wholeheartedly support re-building the exterior of the previous East Wing to its previous facade and updating the interior to correct problems that may have existed. However, the interior may not, repeat not, be converted into a ballroom. I am disgusted with President Trump's action in damaging the people's house. It should be restored to as near original condition as practicable.

The East Wing was demolished without the proper process being followed. For a historically important and national register listed building such as the White House federal review process requires a design along with a public comment period, a review of design and an assessment of effect. There is a 50-year cutoff for significance on the National Register of Historic Places (now 1976). Clearly the East Wing meets the age criteria. It was also associated with important historic developments and trends and people important in the history of our country. The demolition was out of compliance and the national register regulatory protocol was ignored. Regarding the ballroom the design suggests it will be larger than the White House, which in itself is a visual detraction from a listed and historically important structure. The ballroom as presently envisioned constitutes an adverse effect to the White House. Therefore I'd strongly suggest the size of the structure be completely reassessed, and that all historic preservation regulatory procedures be properly followed.

Project Name: East Wing Modernization Project
Project Number: 8733

I am writing to express my strong opposition to this project as currently proposed.

Since the East Wing has already been torn down, I would support a **much smaller, more intimate ballroom** in its place. A smaller room conveys distinction and purpose — suggesting that only the most important guests are invited, not hundreds of people simply to fill a large space. **Exclusivity matters.**

The design should be **quiet, tasteful, and historically respectful**, not gold, gaudy, or ostentatious as currently proposed. This location deserves elegance and restraint, not excessive grandeur.

At most, **400 people should be the maximum capacity**. Anything larger detracts from the sense of importance, refinement, and intimacy that such a space should convey.

I strongly urge you to reconsider the scale and design of this project and move toward a more modest, refined, and historically appropriate solution.

Sincerely,

Norman Silk

This project should never have started without following proper channels of approval. We do not need a fake VVersailles attached to the While House. If this project becomes a ballroom, it should not be a gilded garish disaster, and the Trump family should pay for it. This whole illegal project is something that should never have happened without following procedures and should not move forward until sutdies are done, and it has to be done tastefully. This makes me very sad and ashamed of what our country has become.

I support preserving our history. I do not support destroying it, and certainly not when it does not need to be destroyed, or when those who wish to do so do not follow the rules or consult those who know how best to proceed. All this administration needs to do is talk with people who know their stuff. But that isn't what they want to do. This project must be stopped.

I am not in favor of the replacement of the historic East Wind by an out-of-scale ballroom. The proposed designs would forever mar the balance and beauty of the White House. The best solution would be to build a much more modest ballroom, if such a thing were needed.

Concerning the construction of a ballroom and the likely illegal tear down of the prior East Wing, I would strongly encourage the commission to halt all work on this project.

While expanded event space may be needed, additions must respect the historic scale and design of the White House. At 90,000 square feet, the proposed ballroom would exceed the size of the 55,000-square-foot Executive Residence. Additions to historic properties should be compatible in scale and subordinate to the original structure.

In addition, the funding of this project should be coming under serious scutiny.

The current president is not the owner of the White House, merely a tenant. It should not be his sole decision to make such dramatic changes to the country's house.

Thank you for listening.

As a trained historic preservationist with a Masters of Science in historic preservation from the Ball State University Estopinal College of Architecture and Planning, I write to express serious concern regarding the proposed East Wing Modernization and State Ballroom Project at the White House.
The White House is a National Historic Landmark, a property of exceptional significance designed by James Hoban in the Georgian and neoclassical tradition and selected by President George Washington himself. Its carefully balanced composition — a central Executive Residence flanked by two smaller, lower wings — is a defining feature of its historic character. The proposed project fundamentally threatens that balance. At

90,000 square feet, the proposed ballroom would exceed the size of the 55,000-square-foot Executive Residence by nearly 30%. Additions to historic properties should be compatible in scale, and should be subordinate to the original structure.
This principle is not merely an opinion — it is codified in the Secretary of the Interior's Standards for Rehabilitation (36 CFR Part 68), which state that new work "shall be compatible with the massing, size, scale, and architectural features to protect the historic integrity of the property and its environment" (National Park Service, Secretary of the Interior's Standards for Rehabilitation, Standard 9). The National Trust for Historic Preservation has echoed this concern, stating that it is "deeply concerned that the massing and height of the proposed new construction will overwhelm the White House itself" (National Trust for Historic Preservation, Letter to NCPC, October 21, 2025). Even the National Park Service's own environmental assessment acknowledged that the project's "larger footprint and height will dominate the eastern portion of the site, creating a visual imbalance" (ABC News, January 9, 2026).
I urge the Commission to deny this version of the East Wing Modernization project, and to ensure that any future approved design is truly compatible in scale, proportion, and massing with the historic White House before construction proceeds above grade.

When President Trump said he was going to build a ballroom, he indicated it would be of a certain size and would not infringe on the East Wing.

Even then he should have received approval from the various organizations which approve charging historical buildings in DC. He did not do so.

He tore down the East Wing and destroyed adjacent trees, shrubs and garden areas.

He should not be rewarded by not asking permission and, no, he should not be given forgiveness.

Since that time he has continued to destroy or plan to destroy other buildings in DC. He must be made to follow procedures which have been designed to make sure he doesn't make changes solely based on his own desires. He is a tenant of the White House, and there are ways in which changes should be made. Having already destroyed the East Wing shouldn't give him the ability to go forward, and even if he is allowed, he should have to receive approval for his changes, any changes must be fitting to the site and not overshadow the White House and not be funded by donations which are actually bribes.

Like the American Institute of Architects (AIA), I support design freedom and the well-established Guiding Principles for Federal Architecture. Demolition, renovation, and construction of public buildings requires public input in the process to ensure that the buildings are meeting the people's needs and representing our country rather than individuals or small groups. Please note that as architects, we would be more likely to refer to this project as an East Wing Replacement or even simply a Major Addition rather than a modernization since there is nothing of the wing remaining to modernize.

Please note that architects from AIA just spent February 12th talking to our representatives in Congress and advocating for the following:
"AIA supports legislative efforts to codify the Guiding Principles through the Democracy in Design Act (H.R. 1584/S. 2891), which protects local control, design freedom, and community heritage. Additionally, AIA supports the People's White House Historic Preservation Act (H.R. 6761), which removes the White House's statutory exemption from the National Historic Preservation Act, requiring a public review process for all White House renovations. AIA is strongly opposed to legislation that seeks to remove control from local communities; mandate official federal design preferences, or otherwise hinder design freedom; and add bureaucratic hurdles for approval of federal building designs."

I completely agree with the following statement. The destruction of our historic monument is appalling.

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

My understanding is that this project was started without the required permits, reviews, or planning approval. As a lifelong historian and genealogist (I am the current President of the Olympia Genealogical Society), I reside in a home built in the 1850s (before Washington was admitted as a state) on the Olympia Historical Register, and am obligated to comply with strict regulations relating to rehabilitation projects.
The Trump Administration's failure to comply with the regulations relating to rehabilitation of historic buildings (and the White House is one of the United State's most historic) just to build a grotesque monument to President Trump is offensive. Whatever administrative sanctions can be brought against the administration should be imposed, included an order to restore the building to its original condition.

No one, not even Trump, is above the laws and regulations that govern our country. From an historical perspective, the abomination he has made of the White House must be undone.

I strongly oppose the allocation of $300 million for this project, which was initiated without proper authorization, required permits, or an appropriate design review process. This is not a modernization effort. It is the complete demolition of a significant piece of American history.
I am calling for this project to be halted immediately and for the East Wing to be rebuilt and restored to its original design. No individual or entity is above the law. Allowing this project to proceed without accountability for those who bypassed legal requirements undermines public trust and disrespects the many Americans who follow the law every day.

Gentlemen: I am very concerned about the high jacking of the established routine for vetting plans or ideas for changes in our government’s buildings & monuments. We need to have structures that are safe & fit properly into the overall grand plan for our nation’s Capitol. Building a giant ballroom that dwarfs the White House seems grossly inappropriate in the greater scheme of things. I am concerned about the actual need for a ballroom at all. In my 72 years of life, I have not noticed a need for such a huge venue. Our elected officials do not need to be out partying like drunken sailors or out of control frat boys. And we don’t need any foreigners helping us be rowdy. Bigger is not always better. Gaudy gold leaf & cold marble are not the epitome of beauty or class. Summarily demolishing a building that is currently in use for the personnel working on the myriad requirements of America’s population is not conducive to a smoothly functioning nation. Donald Trump is not the be all, end all of architectural design, safety or function. He delights in breaking norms & boundaries. Our country deserves better for the next 250 years & beyond. Additionally, the prospect of building a huge triumphal arch that ruins the vista from the top of Arlington Cemetery & is dangerously close to the glide path of the airport is another bad idea. There are already too many documented deadly accidents & near misses. We do not need any more fatalities or bad press as a result. Thank you for considering all the options & ideas that bring about a building we can all be proud of & that addresses the needs of our nation.

The complete and utter demolition and destruction of the East Wing is a travesty. To compound the issue, the construction of a monstrous ballroom is unbecoming the history and prestige of the White House. Along with tens of millions of American citizens, I do not support the construction of a ballroom and I urge you to rebuild the East Wing to match the decor and scale of the existing White House. The White House is the People's House, and should remain a place of honor and respect.

Deny this proposal and require those involved return and repair every part of the damage done.

This destruction occurred with no permit, no plan, and no oversight. The fact that the destruction was so significant does not excuse the fact that it should not have happened.

Please hire architects and craftsmen with the skills to recreate the East Wing - feel free to modernize the wiring and plumbing, but retain the rest of the building as near to the original as possible. Having toured the East Wing, it was a beautiful wing of the White House and it is tragic that this part of our history was destroyed without regard for the established processes which should have been followed.

Name: Lorene Mihalko
Date: February 18, 2026 12:07:58 am

The White House is the "people's house." The demolition of the East Wing of the White House was done without

approval and should have never taken place. It is my understanding that Trump did not have the authority to demolish the East Wing nor does he have the authority to build the ballroom. The proposed construction of a 90,000-square-foot ballroom addition to the White House complex is a monstrosity that will eclipse the White House and ruin the integrity of the history and the style of the present building.

Name: Lorrie Montgomery
Date: February 18, 2026 12:08:18 am

This illegal destruction of the East Wing of the White House is unacceptable. It must be restored and the people who are responsible need to be prosecuted and made to pay for the restoration.

Name: Alan Lawrence
Date: February 18, 2026 12:09:54 am

When it comes to the funding for Trump's special projects (White House Ballroom, Kennedy Center) the President has insisted that no taxpayer money will be used. This can be true only if private contributions are not allowed to be tax deductible. That's difficult to enforce. I would prefer these projects to be paid for entirely with taxpayer funds, and that public comment and planning commissions dictate the project.

"Do not allow private donations to pay for these public projects.

Date: February 18, 2026 12:10:28 am

I am writing to oppose the spending of $300 million on this project. It was not approved by the correct review process in the first place and any demolition project requires proper need and assessment of such destruction to this building owned by US citizens. This project needs to be cancelled.

Name: Jean Hunt
Date: February 18, 2026 12:11:53 am

Restore the exterior dimensions and architectural style, update wiring etc. and make interior ADA accessible where possible. Follow past process for making needed but historically sensitive changes.
If a ballroom is needed, construct it elsewhere in the city.
The White House is the people’s house.

Name: Rebecca Fong
Date: February 18, 2026 12:11:57 am

Hello. I am writing to say I oppose the East Wing Modernization Project and all the funds being spent on it. It's a travesty that the beautiful East Wing, with all its rich history, has been destroyed. As I understand it, it was done without going through all the proper channels. I am heartbroken for what we have lost. I would like it restored as closely as it can be to what it was before.

Name: Jay Gee
Date: February 18, 2026 12:12:20 am

My suggestion is that the Trump family be fines the cost of destruction and rebuilding of the East Wing if the White House NOW.

Name: Lucille Nahlik
Date: February 18, 2026 12:16:18 am

The American people did not ask for this ballroom. No one was asked if the American people agreed to destroy the White House — the people's house. No one is above the law. Please do not allow the illegal and destructive whim of a madman to become one of the biggest eyesores in our nation's capital.

Name: Michael Jones
Date: February 18, 2026 12:16:18 am

I think the National Preservation and Trust procedures should be followed to recreate the East Wing to have modest improvements in keeping with the proportions of the White House proper. All reviews that are standard should take place so all voices can be heard and all issues addressed prior to construction. Signoffs by required organizations should be obtained before construction begins. What bothers me most is that Trump and his billionaire buddies think they are above the law and can do anything they want and the rule of law be damned.

Name: Vera Kamerbeek

I believe that "We the People" do NOT need or want a ballroom of any kind! (Are "We the People" going to be able to come and dance in said ballroom? I think not!) I also believe that the East Wing should be rebuilt to its former beautiful glory at the expense of the hands who destroyed it! (Because that would upset "him" most of all!) "We the People" should not have to bear the expense of his illegal and unauthorized actions! And yes, I believe he should be punished for his actions just like any other American citizen or immigrant would be! (I mean he's already got 34 felonies notched on his belt and he's still walking free!) And yes, I'm talking about the so-called president of our country, whatever the crap that means these days! But whatever you decide, DON'T GIVE HIM WHAT HE WANTS MOST…SAY "No" TO ANY TYPE OF BALLROOM!
Say "no" now or you'll be having these same meetings about a different building in the future and probably after he's already bulldozed it down! Give an inch and forget about the mile because he'll take the whole freaking country!
"Thank you for your attention to this matter!"
Just One of "We the People"

I'd like to register my disappointment with the handling of the "East Wing Modernization". The White House has always been referred to as the peoples house — so I find it appalling that the current tenant has decided to make major

renovations (demolition) without going through the procedures and approvals that such a project demands.

What I've seen of the plans (although they seem to be the plans of the week) looks like a project that is way out of proportion with the rest of the structure.

I hope that the project can be halted and that the building can be returned to its original design.

And don't get me started about the ghastly arch that has been proposed…

I am writing to express my strong opposition to the demolition of the East Wing of the White House. To proceed with such a significant action without following established guidelines and requirements is unacceptable.

The decision to demolish portions of this historic structure under these circumstances is beyond comprehension. This act disregards U.S. history and the citizens to whom it belongs. Bypassing collaboration with experts and ignoring the public interest suggests a level of self-absorption that should not be tolerated in the management of our national heritage.

I urge you to ensure that the structure is not only restored but improved. Furthermore, there should be accountability for those who proceeded with this plan to serve personal interests or wealthy donors rather than the public good.

Thank you for your attention to this serious matter.

I want to voice my opinion on the razing of the east wing of the White House and the building of a ballroom. These are unnecessary projects. I would like the current occupants to rebuild what the destroyed..out of their own $..and the destruction of land surrounding to be replanted.

Name: Kate Goshorn
Date: February 18, 2026 12:31:18 am

I object to the East Wing Modernization project as it has not been done through proper administrative channels. As the white House is the "Peoples House" and not the president private residence, there should have been plans put forth for public review and comment. I saw nothing. I also feel that there was aa violation of the National Historic Preservation Act (NHPA) of 1966. This is the primary federal law in the U.S. designed to protect, identify, and manage historic and archaeological sites. It mandates that federal agencies evaluate the impact of their projects on properties listed in or eligible for the National Register of Historic Places, notably through the Section 106 review process. It is my understanding that there was no evaluation of the impact of this proposed project so it must be stopped until that can take place.

Name: David Morton
Date: February 18, 2026 12:33:36 am

I'm opposed to spending $300 million to erect an ugly and unnecessary ballroom that distracts from the stately White House that has stood for democracy and freedom for generations. Especially when our national leaders are telling the country that we can't afford health care, education and programs that benefit the larger population and don't further enrich those that have too much already.

Name: Susan Parker
Date: February 18, 2026 12:33:37 am

I oppose this project because it was initiated without proper authorization, design review, or approval. The White House is the People's house and any renovation should adhere to strict and proper historical review. It is an abomination of our nation's history. No one is above the law, and since this project essentially broke the law, it should be stopped immediately and restored to its original state.
Thank you for listening to my concerns,
Susan J Parker

Name: Barbara Luker
Date: February 18, 2026 12:33:49 am

Modernization of a wing of the White House does not mean, tearing it down in building a ballroom. We are lucky to have numerous historic sites in this country but the most important one of all is definitely the White House. It is the peoples house and as such, it needs to be restored the way it was before it was torn down. Whatever was originally in there needs to be restored whether that be offices or storage rooms or whatever it is, but it should not be a ballroom upgrade the technology, the cabling, and all of that, but do not change the purpose of the building. America needs to remember all of our history and that includes our buildings the way they were intended. Thank you for your consideration.

Name: Wendy Shapiro
Date: February 18, 2026 12:34:19 am

I oppose this project. It was begun without appropriate review and destroys history. No one should be above the law and proper procedure.

Name: Melinda Grenier
Date: February 18, 2026 12:34:43 am

I oppose spending hundreds of millions of dollars on this project, which destroyed the East Wing without proper authorization, permits and design review. The excessively large structure will dwarf the White House — reducing a symbol of American history and democracy to a mere appendage.

To call this a modernization project is a travesty. It is an illegal gutting of America's House, and construction of a 90,000-square-foot ballroom should be cancelled. A "modernization" would mean rebuilding the East Wing to its former design with improvements a legitimate design review would recommend.

Anyone who circumvented the regulations governing White House projects should be penalized because no one is above the law — especially when it comes to property that belongs to all the American people, not any one individual.

Name: Michele Wolff
Date: February 18, 2026 12:35:31 am

I would like to publicly state I am opposed to the ballroom project proposed to replace the now-razed East Wing. The East Wing was demolished without the proper authorization; and now the ballroom is also underway without authorization, permits, or design review in advance. This is not a modernization project, which implies the revising of some aspects of a building, but rather a complete obliteration of a historic structure. I want this project canceled, and the East Wing rebuilt and restored to its former design.

Name: Virginia Stoker

Before anything should be modernized, we need to release all the Epstein files, fully investigate without bias, and convict those guilty of child abuse. That should be our countries main focus right now. Not modernization of a building that is fine the way it is.

Not only that, but this country has so much debt, that should be paid off before cosmetic upgrades. I can safely say that the majority of this country does not want this to proceed.

Name: J. Bender
Date: February 18, 2026 12:40:07 am

Rebuild it exactly as it was. Modernize and improve away, but remake the East Wing of the White House. A ballroom is not only in bad taste, it's also just ugly and architecturally self-centering.

The White House is the seat of greatest consolidated authority in American democracy. It is the people's house, and it houses the people's leader. The presidency exists as a tool for and a product of the citizenry at large, and it is important that its house reflect that.
It is important that it HAS reflected that, until now.

Such grand ballrooms are not built to benefit the American public, they're built so the elite of any nation can party and network with each other. That is not representative of the focal point of our democracy, and that undermines the presidency as well as being an insult to the many architects who have had the good sense to recognize the importance of perception and presentation in politics, in making a government building that looks like it could scarce be used for anything but the most serious work pursuing the public good.

Also, again, it's really flippin ugly. Its a big rectangle that keeps getting bigger. It sucks. Have you seen the models he keeps whipping out? I mean come on.

So, rebuild the old East Wing. Or don't. Just make it a space that can specifically and especially accomodate the work of the president and the white house staffers, the work of managing the greatest country in the world and of leading it to ever greater success.

"Throwing balls for your friends and foreign diplomats" is not an official role of the presidency.

Name: Jeri Halpine
Date: February 18, 2026 12:42:30 am

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. If Trump wants a ballroom that Americans didn't ask for and Congress didn't approve, then he should build one on his own property with his own money, not the tax dollars paid by citizens who will never step foot in this tone-deaf abomination. Let the work continue and this obscene ballroom will serve as a lasting memorial to the destruction of democracy and our constitution.

The White House is a National Historic Landmark and a National Park, owned by the American people and home to presidents since 1800. The current president at any given time is not the owner of the property or the structures thereon; the president is a temporary tenant whose interventions are limited by law and by respect for the people of the United States.

The demolition of the historic East Wing without review, without permits and without Congressional oversight is clearly a violation of the law. In addition, it is a violation of the trust of the American people who were given no opportunity to comment on what should have been presented as a proposal and not as a violent fait accompli.

I urge the National Capital Planning Commission to require reconstruction of the East Wing in keeping with its historic design and size. Anything constructed on the demolition site going forward must be compatible in form and subordinate in scale to the original structure of the Executive Mansion.

Name: susan jernigan
Date: February 18, 2026 12:42:45 am

I object to a national historic building demolished without discussion, preservation stages, permits, and decisions by principled authorities.
I wish that the east wing to be restored to its former beauty and use.
And I definitely object to an outrageous unbecoming ballroom monstrosity.
He should have gone through the normal request routine like the rest of Americans have to in our own neighborhoods.
No one is above the law.
He will just keep destroying and rebuilding in his image and it's disgusting.

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to proceed without penalizing those violated the law would be an affront to all law-abiding Americans.

The restoration should be done not at taxpayer expense, but at the personal expense of Donald Trump, who ordered the demolition of the East Wing without proper authorization and without regard to the wishes of the American people..

Name: Susan Wall LCSW
Date: February 18, 2026 12:45:02 am

Dear National Capital Planning Commission members,

Thank you for considering the comments of interested Americans regarding the modernization of the East Wing. I have concerns over the project planning and implementation as well as the funding process.

Admittedly, I am not accustom to building and grounds improvements on our nations facilities. As an average American, I have never seen a remodeling of a symbol of our nation as is occurring with our White House. I thought that changes to historic government buildings were to proceed with caution in effort to maintain the integrity of a monuments value. I thought that changes occur after careful consideration and multilevel evaluation with attention, and often with there being a period of open public comment prior to catastrophic demolition. I'm appalled that the White House has been destroyed.

I have further concerns that the funding of this un-permitted change is being financed by donors wishing to garner political favor, as seems to be the tendency of this president. Government buildings should be financed without partisan bias by government spending, in which case funding bills and grants should be petitioned for.

Please stop this assault on the residence of our nations highest office. Order that the normal reviews and permitting be obtained before further destruction or building can occur. Order that the construction plans be completed in blue print and that changes need to be reviewed with permit prior to changes. Order that private money be returned. Order that normal pubic funding sources should be petitioned. And if that doesn't suit the president, order that this horrible destruction be repaired to its pre-raised state.

Thank you for your time and attention to this matter.

Sincerely,

Susan Wall LCSW

Date: February 18, 2026 12:49:44 am

This project as it is currently being handled makes me want to cry! The "project" was begun with no actual planning as far as I can tell. One man decided on his pet vanity project and destroyed a national treasure as though it was rightfully his decision, and his alone. This is NOT the case. This is NOT his house to destroy as he wishes! Everything that this individual touches, is ruined in one way or another, and has his vile name slapped on it because that is the only way he will be remembered. This is NOT his house and it needs to be rebuilt and maintained for the next, actual LEADER of our country. Please do not let this project continue as this horrific, human refuse has planned! Please restore the East Wing to its original form - improve what needed to improve, but bring back the East Wing, not the monstrosity that thankfully has been stopped for the moment. Please hear the voices of the American people, and disregard the dottering old fool who decided on a whim to bulldoze the historic, beautiful landmark building!
Thank you for your attention -- reclaim the East Wing!!

Name: Bryan Davis
Date: February 18, 2026 12:50:04 am

I deeply oppose this project. From what I understand this has been undertaken without proper review, design considerations or permits. The razing of the historic East Wing was a brazen attempt to force the project upon the American people. This should be stopped and the historic East Wing should be rebuilt and restored. In addition, the cost of the rebuild should be born entirely by those who broke the rules in a vain attempt at self-aggrandizement. Thank you for listening to the voice of the people.

Name: Alan Healy
Date: February 18, 2026 12:50:10 am

I strongly oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Robina Royer
Date: February 18, 2026 12:54:57 am

I strongly oppose the proposed $300 million expenditure for this project. It was initiated without proper authorization, permits, or the required design and preservation review. This is not a modernization effort — it is a complete razing of historic architecture and an attempt to erase part of our shared American history.

Public funds should not be used for self-aggrandizement or personal legacy-building, particularly when basic legal and procedural safeguards have been ignored. The project should be canceled, and the East Wing should be rebuilt and restored to its prior design. No one is above the law, and failure to hold violators accountable would undermine public trust and disrespect every citizen who follows the rules.

Name: Clare McLellan
Date: February 18, 2026 12:55:01 am

I am writing to express my extreme concern regarding the East Wing "modernization" and ballroom addition. At the very least this project should be subjected to a proper review by Historic Preservation professionals before it was allowed to proceed - and should be halted until such a review can take place and appropriate consultation can be provided as to how to proceed, or rectify the damage that has been done.
Thank you.

What Trump did to the East wing is a horrific, heinous, deeply criminal tragedy. He should be impeached for tearing down the People's house. He should be personally, legally and financially liable for his wanton destruction of the People's White House. He cannot be trusted with the protection of anything precious to Americans.

Name: Miller Walker
Date: February 18, 2026 12:58:18 am

I oppose the reported $300 million expenditure on the East Wing redevelopment project. Replacing a historic structure with a ballroom raises serious concerns about preservation priorities and stewardship of national heritage.

This should not be framed as “modernization” if it involves demolition of a structure that has stood for over a century. The American people deserve full transparency regarding authorization, permits, preservation compliance, cost breakdowns, and the design review process before irreversible changes are made.

The East Wing and its surrounding gardens are part of our shared history. Any reconstruction should respect the original architectural intent and restore the grounds to reflect the dignity and historical character of the White House — not personal vision or branding.

No one is above the law. If proper procedures were followed, documentation should be made fully accessible to the

public. If they were not, there must be accountability. Government decisions affecting national historic assets must reflect transparency, legality, and respect for the American people.

Name: Kathleen Sabatini
Date: February 18, 2026 12:58:21 am

I am opposed to the “modernization” of the East Wing of the White House as it is a complete razing of the East Wing, done without going through the proper process and obtaining permissions beforehand. The White House is the people’s house and we were denied our right to comment and oppose the destruction.

I would like the East Wing rebuilt, exactly as it was. Thank you.

Name: Kathleen boyle
Date: February 18, 2026 12:58:34 am

I oppose the East Wing Modernization Project.
This project began without required National Capital Planning Commission approval, without environmental assessments mandated by the National Environmental Policy Act, and without congressional authorization required by federal law for construction on federal parkland in Washington.
The $400 million cost is funded by corporations holding billions in federal contracts with the administration approving those contracts.

This creates an unacceptable conflict of interest!!

The White House is not private property. It is the house of the American people. No president has unilateral authority to demolish historic structures and approve construction without following the law and allowing public input.

I urge the Commission to reject this proposal. this east wing modernization project is meant to be a ballroom dedicated to the individual who without congressional authorization proceeded to plan for monstrosity to be built, contracted for the demolition and rebuilding of the east wing.

The historic East Wing was demolished without proper authority or authorization, abolishing centuries of American history.

The East wing needs to be replaced, back to its former glory, with his historic accuracy. The cost of rebuilding and refurnishing should be born by the individual who inappropriately authorized its demolition. The cost should not be born by the American people.

This cannot move forward . The American people deserve recompense..

Name: Janet Schultz
Date: February 18, 2026 12:59:41 am

I am FIRMLY AGAINST this project. The White House is the People’s House, not the property of the President. Demolition of the historic East Wing should have NEVER happened, but since that was illegally done, let’s not compound the situation by adding a monstrous ballroom to placate one man’s narcissistic will. The fact that I even have to comment on this ABSURD situation is a sign that there is no law and order being followed by our so called president. NO BALLROOM!

Name: Teri Roberts
Date: February 18, 2026 1:00:02 am

I vehemently oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. In this economy why would we spend tax dollars to build a palace?

We have better projects, THAT BENEFIT EVERY ONE!

Name: Lucinda Haag
Date: February 18, 2026 1:00:47 am

Remember the East Wing of the White House? Remember the giant ballroom that the tech billionaires have agreed to fund in its place? The National Trust for Historic Preservation is making a gallant effort to stop this. And we can help.

Thanks to the National Trust, we have until March 4 to submit comments about the ballroom to the National Capital Planning Commission. You

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law abiding Americans.

Name: Steve Amick
Date: February 18, 2026 1:01:20 am

I absolutely condemn the waste of $300 million on this asinine construction scam, which was blundered into, in the dead of night, without the proper legal approval, permits, or design review. Isn't this a National Monument, run by the Parks Department?? This is not a modernization project but rather a complete bulldozing of American history. I want this boondoggle canceled, and the East Wing rebuilt and restored to its former design, down to the door hinge and nail, at the personal expense of the Felon-in-Chief and his cronies. No one is above the law, even Fat Hitler, and to permit this fiasco to go ahead without penalizing the bulldozing pedophile protectors and others who broke the law would be an affront to all law-abiding Americans. Let him find some other way to compensate for what's missing in both his pants and his heart.

Name: Beckye Young
Date: February 18, 2026 1:01:54 am

I oppose the spending of $300 million to $400 million on the East Wing Modernization Project. This project was initiated without the proper authorization, permits or design reviews. It is not a modernization project but rather a complete razing of American history. This project should be cancelled. The East Wing should be rebuilt and restored to its former design which complemented and was in keeping with the White House. No one should be above the law. To permit this project to go forth as proposed is an affront to the people's house and the rules and guidelines that have been followed by all previous administrations. Please do not let this proceed.

Name: Rebecca Rosencrans
Date: February 18, 2026 1:02:48 am

Name: Benjamin von Kerr
Date: February 18, 2026 1:08:54 am

The Trump Regime has literally no legal right to desecrate the People's House and their efforts to pervert our sacred ground with whatever nonsense makes them feel less small need to be put to a stop immediately. Additionally, they should be forced to pay for its restoration to its original, unmolested form.

Name: Nancy Hoffman
Date: February 18, 2026 1:09:06 am

The president does not own the White House. He is merely a tenant and had no right to order the demolition of the East Wing. He had no authority, permits or right to initiate the project without proper review by the Preservation Society or anyone who could have stopped him. There is still time to rebuild the East Wing. The White House has survived thus far without a tacky ballroom.

Name: Rev. Brenda Dedmon
Date: February 18, 2026 1:09:12 am

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. Name: Amy Friedman
Date: February 18, 2026 1:09:37 am

I strenuously oppose the spending of $300 million on the White House East Wing "Modernization" Project, which was initiated without the proper authorization, permits, or design review.
This is not a "modernization" project but rather a complete razing of American history.
I want this project canceled, and the East Wing rebuilt and restored to its former design.
No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.
Respectfully submitted.

Name: Angie Baker
Date: February 18, 2026 1:10:29 am

The White House is the People's House. The President has NO legal claim to make updates that aren't in keeping with the building's historical significance, the cost-benefit analysis of the project, or the will of the people of the nation.

Under no circumstances should this project be allowed to continue, and arrangements should be made post-haste for financial restitution for the renovation of the wing to a semblance of its previous form.

It is unbelievable that this needs to be said, but he did drill his name into the side of the John F. Kennedy Memorial Center for the Arts without anyone saying a damn word, so here we are, I guess.

Name: Kelly Patterson
Date: February 18, 2026 1:10:55 am

This isn't a "modernization". It's an ego trip. If it were about modernizing the White House it would have gone through the proper channels. Instead he destroyed it so no one could stop him. The east wing needs to be rebuilt to its former glory. Not a ridiculous abomination that dwarfs the rest of the white house. Trump should pay for the restoration out of his own pocket. We the people should not be paying for his destruction of our house.

Name: Kitty Hutchcroft
Date: February 18, 2026 1:11:27 am

The East Wing needs to be restored to what it was. The correct applications to tear it all down were not observed. The White House is a national monument and cannot be destroyed and replaced with a ballroom.

Name: Cathleen Wicks
Date: February 18, 2026 1:11:59 am

I respectfully oppose the current "East Wing Modernization Project" in it's current form. The spending of $300 million on this project, creating a ballroom larger than the White House itself, was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history and was done without permission or proper channels. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Paula Mistovich
Date: February 18, 2026 1:12:21 am

Please restore the East Wing of the White House to its’ former historical state. I object to Donald Trump’s plan to make the East Wing into a ballroom and the millions of dollars that will be used to do so.

Name: Mary Longmore-Gable
Date: February 18, 2026 1:13:40 am

The White House belongs to the American people, not the temporary residents. It was torn down without any consultation, permission or input from anyone except for President Trump. He has torn down a piece of American history without any input from the government agencies that should have been consulted. He is not above the law. It should be rebuilt, at his personal expense.

Name: Tracey Snarr
Date: February 18, 2026 1:14:09 am

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. Name: Terrie Bates
Date: February 18, 2026 1:16:03 am

Thank you for the opportunity to comment. I am adamantly opposed to construction of the Trump Ballroom. It was an absolute travesty that an entire wing of the historic White House, the People's House, was completely and quickly demolished with zero public or agency review. To now build a monstrosity of a ballroom that will overshadow the Architecture and character of the White House would be a second assault on the People's House. Further, funding such construction with private donations at best gives the appearance of impropriety, and at worse, is blatantly done to curry favor with the Trump administration. Please exercise your authority to put a halt to this runaway train and ensure measured steps are taken to rebuild the character of the East Wing

---

Name: Mary Haasch
Date: February 18, 2026 1:17:04 am

I oppose the spending of any money on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. Potentially a huge security risk. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans. But being cognizant of past history of the perpetrator, please make sure the workers that did this demolition, get paid for their work.

Name: Laura Downey
Date: February 18, 2026 1:18:01 am

I'm one of many concerned Americans who want this $300 million dollar Modernization of the East Wing of the "People's House"/the White House STOPPED
The President had NO RIGHT to destroy the historic East Wing
I/We want the East Wing rebuilt with upgraded HVAC: electricity and restored back with original architecture with the finest modern building materials. This rebuild of the East Wing must happen immediately
The company who demolished the building must be sited for no permits and lack of official permission to destroying this historical building

Laura J Downey
[redacted]

Name: Maureen Hinton
Date: February 18, 2026 1:19:09 am

I oppose the spending of the $300 million on this project, which seems to be a guesstimate of the cost. This project was initiated without permits, design review or the proper authorization. This is not a modernization project but it is an insult to the American people and the history of our country. Please cancel this project and restore the East Wing to its former design.

No one is above the law. To allow this project to go ahead without penalizing those who broke the law would be an affront to all law abiding Americans.

Name: Brenna Walker
Date: February 18, 2026 1:19:28 am

I condemn the destruction of the people's house with no input from we the people and with no oversight or permission. The ballroom is not needed by we the people, it is not a modernization, it is an abomination. The White House would be dwarfed by the gargantuan "addition" which is so large it makes the rest of the house look like it was the after thought. The East Wing was where the first lady held her office, it is where visitors were able to gain access to our house. The demolition of this wing specifically pushes women and the American people out of our capital, out of our leadership and out of the US itself. I urge you to reject any new building on this site and demand the East Wing be rebuilt as it was and all historical artifacts restored.

Thank you,
Brenna

Name: Anne Abrams
Date: February 18, 2026 1:20:43 am

I am opposed to the tearing down of the East wing of the peopl’es White House. The President does not own it and any harm done is on him to replace and repair it in the original likeness. A ballroom is not a necessary function of government but an office of the first lady in most instances is.

Name: Sara Welk-Anderson
Date: February 18, 2026 1:20:53 am

I oppose the demolition of the White House East Wing because changes to a national historic site should occur through transparent review, not unilateral action. Additionally, this $300M project is being funded by large private donations at the behest of the sitting administration which creates at the very least the appearance of influence-seeking or preferential access, and undermines public trust.

The East Wing was destroyed to make way for a new state ballroom funded largely by private donors, with demolition beginning before review by the National Capital Planning Commission and amid unresolved preservation concerns.

I am asking for clear disclosure of donor funding, environmental and design review, and public accountability.

The White House is a shared civic symbol, not the property of any one administration, and major alterations should follow the same oversight standards expected of every other federally significant project.

Name: Tod Nelson
Date: February 18, 2026 1:20:53 am

No. No no no. This isn’t a monarchy that needs to build a ballroom on our dime as welll as hosting gala parties on our dime. No to kings.

Name: Alyiah Doughty
Date: February 18, 2026 1:21:42 am

I oppose the destruction & "modernization" of the East Wing of the White House, & the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Matthew Lister
Date: February 18, 2026 1:22:02 am

I am writing to note my disagreement with the East Wing "modernization" project. This is a terrible idea, and should not be allowed. What has already happened - a vandalization of a public building without authorization - should not have happened. The Whitehouse is not Trump's personal dwelling, but a public building. Changes to it require authorization, and none was recieved here. The process must be stopped, and the original building returned to its old form. Anything else is simply lawless. I hope this project will not continue and will be immediately reversed.

The new ballroom in the East Wing should be proportionate to the White House.

Name: Christine Heinrichs
Date: February 18, 2026 1:24:56 am

This destruction of public property, with its architectural resonance with the rest of the White House, and its historic significance, is a national disgrace. It should never have been allowed, and any contractors involved should lise their licenses for participating in a demolition which was not permitted by approval of any of the required review processes. Allowing hundreds of millions of dollars of private funding to construct a building disproportionate to the entire White House site should not be allowed. This is the Peoples House and should be built and maintained with the People's legally and transparently accounted funds. Better to construct a replica, with 21st century improvements such as solar energy, passive solar design, renewable materials, and other reflections of our times to honor both the past and the future.

Name: Mark Smith
Date: February 18, 2026 1:25:25 am

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. The scale of this monstrous ballroom is only designed to assuage the ego of a megalomaniac. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Elizabeth Trudeau
Date: February 18, 2026 1:25:26 am

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or

design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. Name: Penelope De Paoli
Date: February 18, 2026 1:27:43 am

This ballroom is out of scale and must be rejected. Since construction was started without proper review I believe those responsible must rebuild the East wing as it was at their own cost.

Name: Mary Booth
Date: February 18, 2026 1:27:47 am

I oppose the replacement of the east wing of the white house with a worthless ballroom. I oppose the lack of thought or planning, the funding, and the lack of congressional approval of the project. I believe the project should have a cease and desist order placed on it. Fines plus the costs incurred by the destruction of public property should be assessed and charged to the sponsors (the donors who pledged to pay for the illegal project). The project for replacement of the east wing should then go through the formal congressional approval and funding process.

Name: Raquel Korzen
Date: February 18, 2026 1:27:50 am

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. Date: February 18, 2026 1:28:31 am

I oppose the spending of $300 million (or any funds) on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Laurence Helferich
Date: February 18, 2026 1:30:14 am

I do not support the current plan to build a ballroom in the place of the razed East Wing of the White House. This project has not received the required approval. It is not a restoration. What is driving this crime is not the will of the people, whose house it is. The impetus for this ill-advised architectural desecration is the ego of one man who had no regard for the will of the people of the United States of America. The East Wing of the White House must be restored as directed by the appropriate governmental agencies and elected representatives.

Name: Emily Kruger
Date: February 18, 2026 1:32:11 am

I strongly oppose the $300 million expenditure on this project, which was undertaken without proper authorization, permits, or required design review.

This is not modernization — it is the destruction of a significant piece of American history. This project should be halted immediately and the East Wing should be rebuilt and restored to its original design.

No individual or office is above the law. Allowing this unlawful project to proceed without consequences for those responsible would be a direct assault on the rule of law and an insult to every law-abiding American.

If you want it even sharper, we can tighten it further and make it more pointed.

Name: Emily Kruger

Name: Martin Wagner
Date: February 18, 2026 1:33:37 am

The White House is a National Historic Landmark and a National Park, owned by the American people and home to presidents since 1800. The current president at any given time is not the owner of the property or the structures thereon; the president is a temporary tenant whose interventions are limited by law and by respect for the people of the United States.
The demolition of the historic East Wing without review, without permits and without Congressional oversight is clearly a violation of the law. In addition, it is a violation of the trust of the American people who were given no opportunity to comment on what should have been presented as a proposal and not as a violent fait accompli.
I urge the National Capital Planning Commission to require reconstruction of the East Wing in keeping with its historic design and size. Anything constructed on the demolition site going forward must be compatible in form and subordinate in scale to the original structure of the Executive Mansion.

Name: Karen Shea-Daley
Date: February 18, 2026 1:34:24 am

I want this project cancelled!

Name: Camille Krol
Date: February 18, 2026 1:35:39 am

I am outraged that the current administration skipped over getting the proper approval and permits for the $300 million vanity project. As the leader of this country, he should be aware (or have been advised) of the protocols, but apparently felt he was above the law and destroyed the east wing in The People's House? I assure you, the people don't want the White House to have a ballroom, we want the White House to have INTEGRITY.
Trump needs to pay out of his own pocket to rebuild the East Wing back to its original form.

Name: Heather Groghan
Date: February 18, 2026 1:35:40 am

Rebuild the east wing exactly as it was. No ballroom that is larger than the white house and utterly unneeded. A ballroom with destroy the classical look of the White house.

Name: Kerry Clark
Date: February 18, 2026 1:35:43 am

I oppose the spending of any money on this project, which was initiated without the proper authorization, permits, or design review. I want this project canceled. It is outrageous that he thinks he can unilaterally make dramatic changes to the people's house. The East Wing was illegally demolished and must be rebuilt and restored to its previous condition - exactly as it was.

Name: Nadine Dery
Date: February 18, 2026 1:37:40 am

I am horrified at the destruction that occurred to the East Wing of the White House. I am equally horrified at the grandiose, obscenely inappropriate plan for a "ballroom" initiated without consent from the people, Congress, or any historical or architectural review organization.
I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to law abiding Americans.

Name: Janine Elich
Date: February 18, 2026 1:37:48 am

Please insist this project is terminated.
300 million dollars could have been used to to so much good instead of an elitist vanity project.

Name: Todd Pottinger
Date: February 18, 2026 1:38:04 am

This vainglorious project by a convicted felon is stealing US history owned by the people for nearly 250 years, and replacing it with a gaudy, enormous, architectural abomination, completely out of character with the current White House, and dwarfing it -this "ballroom" will be at least 3x the size of the White House. This is absolutely outrageous. This is a crime against the People, a crime against history and sacrifice, crimes against all of the public representatives and their families and the staffs who lived and worked there on behalf of Americans through these centuries, an aesthetic crime that defaces this storied institution for a party house, adjoining it and defiling it as only one man's shallow, temporary ego could. It is unpermitted, inconsiderate, and undertaken in the least transparent way for the nation's most important public building. This must be stopped immediately.
The People's house deserves so much more care.

Name: Amanda Trujillo
Date: February 18, 2026 1:41:23 am

The White House is a national landmark that belongs to the people of the United States and not to a single person. As such, I object to the radical plan to construct a gargantuan, glitzy ballroom addition scaled to overshadow the size of the original building and detract attention from it. It is inappropriate, first of all, to attempt such a massive change to the form of the historic structure, and secondly, to do so unilaterally as the Trump administration has done by tearing down the 20th century East Wing before obtaining any permits or input from architectural or preservation experts. A ballroom of the proposed scope is unnecessary and would be grotesque next to the classical residence. The American public hasn't asked for this and doesn't want it.

Name: Gloria Cook
Date: February 18, 2026 1:42:35 am

The current renderings show an addition that dwarfs the White House such that the building that has represented the United States for 250 years becomes secondary to this giant structure. Please do not embellish with all the gold shown. It is not representative of the United States.

Name: S G
Date: February 18, 2026 1:43:11 am

I oppose the spending of millions on the East Wing Modernization project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Peter Offenhartz
Date: February 18, 2026 1:44:04 am

I oppose this project which was initiated without the proper permits, authorization or design review.

It is the complete destruction of American history, not a modernization project.

I want this project canceled. The East Wing should be faithfully restored at the expense of the people who illegally started this project.

No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Nancy Sampson-Bach
Date: February 18, 2026 1:44:19 am

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. Name: PD Weddington
Date: February 18, 2026 1:45:47 am

Restore/reconstruct the East Wing to its original state and make it impossible to ever raze a building in this way again. I oppose the building of a ballroom on the site.

I also disapprove of a number of changes made in the main White House. Please remove the gold which has overpowered the entire structure. Remove the concrete patio and restore the Rose Garden. Also remove all the degrading photos such as the autopen instead of Biden's actual photo. These comments have no place in a public venue -- tacky at best, venomous at worst.

I further disapprove of plans to build a massive arch in the Potomac area. It is neither needed nor wanted by the public.

Further, make it mandatory that the Kennedy Center not be razed or altered during the two years it is closed.

In short: No more of these monstrous gold and marble ego trips. And no putting "Trump" on every single possible structure. Unnecessary and totally out of character with original simplicity and design of the capitol city. Do not accept that "donors" are paying for any of this. The Capitol belongs to the people of America and it is not the role of the President to spend his time acting as though he is the country's Architect/Designer.

Name: Shelly Zundell
Date: February 18, 2026 1:46:56 am

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. The US doesn't need a ballroom for putting the rich on display. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Marian ROBINSON
Date: February 18, 2026 1:55:28 am

I oppose the demolition of the White House East Wing because changes to a national historic site should occur through transparent review, not unilateral action. Additionally, this $300M project is being funded by large private donations at the behest of the sitting administration which creates at the very least the appearance of influence-seeking or preferential access, and undermines public trust.

The East Wing was destroyed to make way for a new state ballroom funded largely by private donors, with demolition beginning before review by the National Capital Planning Commission and amid unresolved preservation concerns.

I am asking for clear disclosure of donor funding, environmental and design review, and public accountability.

The White House is a shared civic symbol, not the property of any one administration, and major alterations should follow the same oversight standards expected of every other federally significant project.

Name: Patricia Ballard
Date: February 18, 2026 1:56:43 am

Remember the East Wing of the White House? Remember the giant ballroom that the tech billionaires have agreed to fund in its place? The National Trust for Historic Preservation is making a gallant effort to stop this. And we can help.

Thanks to the National Trust, we have until March 4 to submit comments about the ballroom to the National Capital Planning Commission. You can make a comment through the link below (click on Submit Comment). PLEASE NOTE, the project is called East Wing Modernization on the pull down menu.

Anara Guard's comment on this is beautiful. She gave me permission to post it here, if anyone wants to use her language.

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design.

Name: Dean Gloster
Date: February 18, 2026 1:57:45 am

Some decades ago, I was a law clerk at the U.S. Supreme Court. I swore an oath to defend the Constitution against all enemies, foreign and domestic. If you work for the federal government, you swore a similar oath. At its most basic, that is a promise to follow the rule of law. To support a government of laws, not of shifting, narcissistic, lawless men. None of the laws or procedures or restrictions have been followed in this petulant, appalling destruction of the East Wing. The rest of us, with less authority, must follow the law, under penalty of sanction or incarceration. The President should set an example and at least pretend to abide by it. Your unfortunately thankless duty is to follow and enforce the law. To restrain the destructive and corrupt impulses of the lawless. Even of--especially--those much more powerful. The Constitution is ephemeral--like the rule of law, like money, like national borders--it exists only because so many of us agree that it matters and treat it as real. Do the right thing. Enforce the law and stop this ridiculous "modernization" project undertaken without approvals, permits, or compliance. My father enlisted in WWII to oppose the Nazis. He died, partly of asbestosis he got from wartime exposure in the Navy. As his son, I urge you to do the right thing and oppose this lawless naked abuse of power.

Name: Connie Fanselow
Date: February 18, 2026 1:58:25 am

I wholeheartedly oppose the project to build a ballroom in the wake of the hasty, ill-advised, and tragic destruction of the East Wing of the White House. The White House belongs to the American people and for generations rhe East Wing offered us an opportunity to visit and appreciate "our" house. The East Wing should be rebuilt as it was and remain available for Americans to visit - it is of priceless value to history and our humanity as a country. It should not be replaced by a symbol of personal greed to be used only by the one-percent.

Name: Barb Brock
Date: February 18, 2026 1:59:04 am

To whom it may concern: I oppose the ridiculous spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans. There are about 100,000 better ways this money could be spent for the greater good in the United States. Thank you for reading. PLEASE do the right thing your hearts tell you to do, NOT the wishes of an insane and extraordinarily selfish President.

Name: Hugh Stevenson
Date: February 18, 2026 1:59:11 am

Part of the perks WE THE PEOPLE give to a duly elected President is the White House and its adjoining buildings including the East Wing. Thus, President Trump is a RENTER. not an owner, with a 4 year, non renewable lease in this case, for these buildings.

Like any renter, he may paint, hang pictures, and redecorate within reason.

But he cannot tear down the apartment or any portion thereof without permission of the landlord, which is the government and ultimately you and I.

You should deny him the permits and require him to rebuild the East Wing; and he should pay for it!

Name: Cheri Chapman
Date: February 18, 2026 1:59:13 am

I oppose spending money on this project as it stands, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather erasure of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design.

Name: Jane LaLone
Date: February 18, 2026 1:59:19 am

This project should stop immediately. The East Wing should be restored to the way it was to commemorate the White House history. This eagle project is in the front to the American people and a waste of 300 million. Oligarchs and Trump who is a felon and continues to do Criminal Acts ,should not dictate illegalchanges made to the White House or changes to our laws of the land. He should not be allowed to be above the law.

Name: Sarah Ferrency

Name: Ken Cowan
Date: February 18, 2026 2:06:38 am

I formally oppose the East Wing Modernization Project and demand its immediate suspension.

If this project was initiated without full authorization, required permits, and complete design review under federal planning and historic preservation law, then it violates established legal process. Compliance with NCPC review authority and the National Historic Preservation Act is mandatory.

The demolition and reconstruction of a historic structure within the White House complex constitutes a significant alteration to a nationally protected site. Proceeding without full transparency and lawful approval undermines the rule of law and public trust.

I request:

• Immediate suspension of all work pending full legal review
• Public disclosure of all permits, approvals, and authorizing documents
• Independent review of compliance with federal planning and preservation requirements
• Cancellation of the project if proper authorization was not obtained
• Restoration consistent with the previously approved historic design

Federal preservation law exists to prevent political expediency from overriding national heritage. It must be enforced without exception.

Name: Lori Hall
Date: February 18, 2026 2:09:47 am

I vehemently oppose the spending of $300 million on this project, which was initiated WITHOUT the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. NO ONE is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Maria Essig
Date: February 18, 2026 2:11:57 am

I oppose the spending of $300 million on this project, which demolished the East Wing of the White House - the People's House - without the proper authorization, permits, or design review. It is not a modernization project but a vanity project that has erased part of our history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No ONE is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Elizabeth Quinn
Date: February 18, 2026 2:13:08 am

Name: Betty Rose
Date: February 18, 2026 2:14:14 am

I oppose this project on the grounds that it uses private funding (which is a conflict of interest), destroyed an historic landmark and was done on such a fast track it caused outrage throughout the country that crossed all party lines. Of course, other presidents have made controversial changes in the White House over the years, but none were done with the absolute disregard for laws regarding historic buildings and public opinion.

Name: JE Weatherspoon
Date: February 18, 2026 2:15:44 am

The East Wing should mirror the White House painted sandstone maintaining a low-profile, discreet Neoclassical design that complements the main Executive Residence.

Name: Samantha Guse
Date: February 18, 2026 2:17:24 am

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history.

The White House is a National Historic Landmark and a National Park, owned by the American people and home to presidents since 1800. The current president at any given time is not the owner of the property or the structures thereon; the president is a temporary tenant whose interventions are limited by law and by respect for the people of the United States.

The demolition of the historic East Wing without review, without permits and without Congressional oversight is clearly a violation of the law. In addition, it is a violation of the trust of the American people who were given no opportunity to comment on what should have been presented as a proposal and not as a violent fait accompli.

I urge the National Capital Planning Commission to require reconstruction of the East Wing in keeping with its historic design and size. Anything constructed on the demolition site going forward must be compatible in form and subordinate in scale to the original structure of the Executive Mansion.

Name: Rohana Rice
Date: February 18, 2026 2:18:12 am

I oppose the spending of $400 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

A grand ballroom, built to glorify the person in office, while denying basic health care, emergency services and housing to millions of Americans is unacceptable. While our economy is tanking, living costs rising and jobs being cancelled, the Administration is romancing the ultra wealthy and building personal wealth through grift, greed and deceit. We are not a nation of serfs and kings. The democracy our forefathers fought for was to promote fairness for all and a decent, happy life. This ballroom project is so obviously out of touch and out of place in our country.

Name: Tena Kibbey
Date: February 18, 2026 2:20:27 am

The East Wing was a beautiful, historic, part of the White House. The proposed ballroom will take away the balance that the White House once had and provide a large unneeded space. President Trump should be forced to build the East Wing back to its former glory using his own money. Tax payers should not have to pay for this.

Name: Christy Morris

Date: February 18, 2026 2:21:48 am

The act of destruction to a national monument/ building that has such historic significance to the United States of America is apalling. The current administration should not be allowed to build a useless ballroom for his billionaire benefactors, it's a slap in the face to the American people. It never should have been allowed to be taken down in the first place. Trump does not have the right to replace, demolish and destroy whenever he see's fit to do it. As a citizen of this country I find his actions un American and disgraceful. Please stop him from taking further action on building that ballroom and restore the Whitehouse to it's original East wing.

Name: CATHLEEN READ
Date: February 18, 2026 2:22:03 am

Thanks to the National Trust, we have until March 4 to submit comments about the ballroom to the

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Date: February 18, 2026 2:22:33 am

I believe the East Wing should be left exactly as it is at the present date, midway through destruction, ruined, history destroyed, a promise broken, a Big Plan never begun, done illegally as a means of establishing dominance, and made ugly, as the perfect metaphor for this administration. Indeed, it should appropriately bear the name of its destroyer as a statue in his honor, Trump's Destruction of The Good, and be left as a reminder that we all need to be far more vigilant in protecting what is, was that of the American people, our East Wing of the White House and our democracy, and our Constitution. Put a flag at half mast on it.

Name: Susan Souvenir
Date: February 18, 2026 2:23:11 am

I oppose the spending of $300 million dollars on the building of a ballroom. This destruction of the historic east wing of the White House was not approved by the historic committee, nor were there building permits or plans submitted for approval. This is not a modernization project and it needs to be canceled and the East Wing needs to be rebuilt according to the original plans unless minor changes are approved by the historic committee. Please stop the construction of this terrible ballroom project.

Name: Linda Kittrell
Date: February 18, 2026 2:23:14 am

I oppose this project, which was initiated without the proper authorization, permits, or design review. Moreover, it completely ignores White House design standards established by Congress! We, the people of the USA, were told that the East Wing would remain intact and NOT BE TOUCHED. It is not a modernization project but rather a complete razing of American history. As a nation, we do not need a grand ballroom that would put Versailles to shame! Moreover, if there is a ballroom built, it must be in scale with the White House--not something that would dwarf it. I believe that the East Wing must be rebuilt and restored to its former design.

Planning and Zoning Commissions across the country must approve any structures; and if those proposed structures do not comply with zoning ordances, then they are not approved. This same criteria MUST BE applied to our historic structures. In fact, to most of the world, the White House, the East Wing, and the West Wing, are symbols of Democracy. No one individual nor group of billionaires should be able to destroy our heritage. No one is above the law. Permitting this project to go ahead without adhering to design standards already in place for the White House or without proper approvals would be an affront to all law-abiding Americans.

Name: Barb Roll
Date: February 18, 2026 2:28:01 am

This is a sub-building to the People's House. No one man has the authority to raze the East Wing on a whim and build something new in it's place.

The proposal is out of scale with the west wing and residence.

We don't need a high end hotel and massive ballroom...what is the point of a state event if there are more people than the first family can speak to personally? There are plenty of hotels nearby.

We do need space for the first lady and her staff. Put it back as it was with updated utilities and security.

Name: Deirdra Glover

I strongly oppose the spending of any amount of money on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. Although rebuilding will not be the same, replicating the East Wing is appropriate., it No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

One of the things I remember from grade school, over sixty years ago, is that the White House is The People's House. It was specifically designed to NOT be pretentious, palace-like, but to be for the common man. Our forefathers specifically wanted something as far from a royal palace as possible. That DID NOT include excessive golding and marble.

Name: Sam Edwards
Date: February 18, 2026 2:44:30 am

I was so sad to see a piece of our history torn down. I don’t feel that the White House needed any modernization. It was a beautiful, historic building the way it was. The loss of the movie theater and the First Lady’s offices is just horrible.

I trust almost anyone but the president to make the best decision about how to proceed from here.

Tell him that if he wants to raise money from the wealthy, he should use it to feed the hungry, house the homeless, and cure the sick. That’s what great nations do.

Name: Rebecca Mallonee

Name: Patricia Lowe
Date: February 18, 2026 2:46:51 am

Building a huge ballroom which dwarfs the rest of the White House should not be entitled “East Wing Modernization” project. That sobriquet hides what the project really is: the solicitation of money from billionaires to finance the building of a huge ballroom in order to enable the submission of the highest number of “donations” in each single banquet sitting, by charging the many attendees at balls to be held in this ballroom $1 million a plate.

Who gave the president such authority to build such a behemoth structure, which will dwarf the rest of the White House?

The other reason for the structure is to house an enormous bunker underneath the ballroom to protect the unpopular wannabe American dictator.

A considerably smaller structure will suffice for the solicitation of bribes from ballroom attendees and a bunker to protect our Dear Leader.

Name: Jean Domico
Date: February 18, 2026 2:49:50 am

I oppose the East Wing Modernization project on the grounds that it destroys an historic building for no truly feasible reason. It is not in the interest of this nation to remove a part of such a historic building as the White House without need. There are standards and rules that should apply and have been ignored.

Name: Heidi Hobbs
Date: February 18, 2026 2:51:22 am

The Easr wing project is unlawful, without proper planning and represents a misuse of Presidential authority. Every effort should be made to restore this historic building to its former state.

Date: February 18, 2026 3:00:49 am

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

t's deeply troubling to see actions that disregard the history and symbolism of our nation's most important institutions. The White House is often called "the people's house" for a reason — it belongs to all Americans, not to any one individual. Its traditions, spaces, and history reflect generations of leadership, sacrifice, and shared democratic values. That's why paving over the historic White House Rose Garden — originally redesigned during the John F. Kennedy administration — felt especially disheartening to many. The Rose Garden wasn't just landscaping; it was a living piece of American history, the backdrop to major announcements, diplomatic moments, and national milestones. Altering such a symbolic space without broad public regard sends the wrong message about stewardship.
The White House is more than a residence — it's a symbol of the presidency and of the American people themselves. Preserving its character and heritage should never be about politics; it should be about respect for the office, for history, and for the citizens it represents.

Name: Katherine Hebard
Date: February 18, 2026 3:01:18 am

I reject the "modernization project" for the East Wing of the White House. Demolition was undertaken without review and approval and architectural plans were not vetted nor approved through proper channels. This project was undertaken without review or approval by congress. No further funds should be expended without proceeding through standard vetting and approval procedures approved by congress.

Name: Rebecca LeCheminant
Date: February 18, 2026 3:02:27 am

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. A modernization project is completely inappropriate to the historicitiy of the White House. I want this project canceled, and the East Wing rebuilt and restored to its former design, at the expense of those who illegally destroyed this of national treasure, not the tax payers expense. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Peter Wegele
Date: February 18, 2026 3:10:34 am

Name: Mona Prescott
Date: February 18, 2026 3:10:45 am

I oppose this project. I believe the destruction of the East Wing was done illegally. There is no need or justifiable reason to spend money on this vanity project of building a grand ballroom. The White House belongs to the people of America and not Donald Trump. He is allowed to live there while in office but something as major as the destruction of this historic building and to build his ballroom needs the consent of the owners (the American people). I strongly want the new project dropped completely and the East Wing to be restored to its original state. Further, the entire burden of cost for the restoration to come from Donald Trump's personal finances as it was he who ordered it destroyed without consent.

Name: Donna Bevan
Date: February 18, 2026 3:16:40 am

I was absolutely astonished at the rapid, unconscionable, egotistical, inconsiderate destruction of the East Wing of the

White House. This is the People's house and as such, any alterations must go through proper channels and oversight. I am dumb founded as to how it could happen. My wish is that the East Wing be restored to closely approximate its most recent appearance. No enormous, unnecessary ballroom. No fake gold embellishments. Ideally, the restoration should be paid for by Mister Trump with the money he allegedly received from donors. Thank you for your consideration. Please do the right thing. Also, he should not tear down the Kennedy Center.

Name: Keri Clark
Date: February 18, 2026 3:16:42 am

I want the ridiculous waste of tax dollars
To build a ballroom for a fascist to stop. I want this project cancelled and the building restored to its original historic state.

Name: Ida Fuoco

The money from billionaires should be used to restore the east wing! The proposed ballroom will make the White House lopsided. The President does not need to be hosting large parties, perhaps solving issues of cost of living , gun violence, etc. It would be an affront to the Capitol to attach a Mar A Lago like structure.

Name: Sandra Johnson
Date: February 18, 2026 3:45:23 am

I am dismayed and infuriated by what Donald Trump did in illegally, and without public input or agency approval, demolishing the East Wing of the White House. He has already sullied the People's House with his gold makeover of the Oval Office and his foolish defiling of the West Wing Colonnade, proving the maxim that "he who loudest proclaims his superiority most clearly proves the opposite." Trump seeks to turn the White House into a permanent monument to himself, and his disdain for his duty to serve the people is made more clear with every action he takes. He must not be permitted to further deface the People's house as the personification of his vulgar, cheap and obscene character. He denigrates our entire nation, defiling the Office of the President and cheapening everything he touches. I expect anything Trump proposes for the "modernization" of the East Wing will be as ugly and tasteless as everything else he touches, and the White House -- the greatest home field advantage in the world -- deserves much better.

Trump defiled the White House, demolishing the East Wing without notice to you or to the People. His effort to permanently deface the White House and erect yet another monument to himself must be forcefully refused as inconsistent with the obligations inherent to the Office of the President. My preference would be that the East Wing be rebuilt as appropriate to ensure a dignified space for official events and the purposes for which it was originally built. That, surely, can be accomplished without indulging Trump's childish self-aggrandizement.

Name: Cheryl Swenson
Date: February 18, 2026 3:45:24 am

I want the east wing restored with necessary upgrades and the same dimensions it had. And the gardens restored.

Name: doris ricci
Date: February 18, 2026 3:46:23 am

Feel free to use this template:

I oppose the East Wing Modernization Project.
This project began without required National Capital Planning Commission approval, without environmental assessments mandated by the National Environmental Policy Act, and without congressional authorization required by federal law for construction on federal parkland in Washington.
The $400 million cost is funded by corporations holding billions in federal contracts with the administration approving those contracts.

Name: Michael Miller
Date: February 18, 2026 3:48:10 am

I oppose spending $300 million on a vanity project initiated without proper authorization, permits, or design review. This is not a modernization project, it's vandalism of, physical, American history. Cancel this project. The East Wing must be rebuilt and restored to its former design. This is the United States, we do not celebrate decadence. We celebrate our history in all it's pain or it's glory. No one is above the law. Allowing this project to go ahead without penalizing those who broke the law is an affront to all Americans. It's spitting on the graves of our family. Yes we are one nation, one family, in all our differences. Restore the East Wing

---

Name: Ashley Babin
Date: February 18, 2026 3:48:20 am

This is very obviously another scam by the orange man to enrich himself and do nothing for the American people. The east wing should have never been torn down in the first place and his administration cannot be trusted to set it right.

Name: Linda Brazak
Date: February 18, 2026 3:48:45 am

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

I do not understand who this project can possibly be considered a "Modernization Project," when the entire building is gone. As I understand the plans, the proposed replacement building is larger than the original building and will swamp the White House. The footprint should be no larger than the original building. Any expansion from the original size should be done underground. The person who ordered the demolition should be forced to pay all the expenses, plus fines for doing what they did without permission.

I am heartbroken and angry that the East Wing was demolished. How dare he?
I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. At whatever cost is required. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law abiding citizens.

Name: Hope McGaha
Date: February 18, 2026 3:57:27 am

I strongly oppose the spending of a single cent, let alone $300 million on this project, which was deliberately initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a vanity project, and unwanted erasure of American History contained within THE PEOPLE'S HOUSE! I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this vanity project to go ahead without penalizing those who arrogantly broke the law would be an affront to all law-abiding Americans and all of the former tenants, whom actually respected OUR WHITE HOUSE.

Name: Vanessa Mills

Date: February 18, 2026 4:04:09 am

I am totally opposed to Trump's plan to build a glitzy ballroom on the site of the East Wing of the White House, which he demolished without any permits or public input. I strongly demand that you chastise him publicly for this unauthorized demolishing of Federal, National Historic property; that you demand that he pay to have the remnants of the wreck removed from the property; and that you authorize the rebuilding of the original East Wing as it was before he took a wrecking ball to it. I further demand that you use whatever means you have to prevent him from ever again touching any Federal Property in such a way, as long as he is president of the United States. I also demand that you prevent him from building any monument to himself, such as the arch that he has talked about, on or near any Federal Property.

Sincerely,
Cynthia A Hosick, Registered Voter
Mount Vernon WA

It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

This is an absurd project and does nothing to enhance a property which, I believe, legally and morally belongs to the American people and is simply loaned out by us to be occupied by the current President, not destroyed by him.

To allow this project to go through as currently envisioned would be like allowing a shoplifter to keep their stolen goods as long as they were able to make it out of the store with them.

Name: Rae Todd
Date: February 18, 2026 4:10:48 am

As a native-born American, I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history.

My family history includes individuals serving in the War of 1812, Revolutionary War, The Civil War, World Wars I and II, Korean War, and Gulf War. I find the loss of history a loss of self-meaning the loss of American identity.

I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

---

Name: Pam Turner
Date: February 18, 2026 4:15:50 am

I oppose the destruction of the White House East Wing. The $300 million dollars on this project is obscene and unneccessary. American history is being erased. There's no concern for history here, no decorum. Just pure avarice. This project was done without proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans. Add to that, Jacqueline Kennedy Onassis and her former husband John F. Kennedy would be appalled at not only the destruction of the rose garden but of the East Wing of the White House. Want to destroy something? Buy Legos.

Name: Patty Teubner
Date: February 18, 2026 4:16:01 am

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history.

The White House is a National Historic Landmark and a National Park, owned by the American people and home to presidents since 1800. The current president at any given time is not the owner of the property or the structures thereon;

the president is a temporary tenant whose interventions are limited by law and by respect for the people of the United States.

The demolition of the historic East Wing without review, without permits and without Congressional oversight is clearly a violation of the law. In addition, it is a violation of the trust of the American people who were given no opportunity to comment on what should have been presented as a proposal and not as a violent fait accompli.

I urge the National Capital Planning Commission to require reconstruction of the East Wing in keeping with its historic design and size. Anything constructed on the demolition site going forward must be compatible in form and subordinate in scale to the original structure of the Executive Mansion.

Thank you,
Patty Teubner

Please stop the ridiculous ideas that Trump has for the East Wing. We need to restore it. Do not let him create another outrageous monument to his ego!

Name: Jill Thatcher
Date: February 18, 2026 4:22:58 am

Demolition of the East Wing of the White House without oversight and correct permitting was vandalism. It was corrupt and unlawful. Every contractor in America is required to work within the law for new construction and for remodel projects, as well as for demolition projects. The physics of using heavy equipment during demolition can be damaging not only esthetically but also structurally to an existing building. I am hopeful, but worried that the demolition may have compromised the limestone blocks and mortar that make up the outer walls of the White House.
I saw the White House for the first time on a 6th grade field trip. I was chosen to create a display case announcing and celebrating our trip, it was at the front entrance of my elementary school. My school was Farmersville Elementary on William Penn Highway in Bethlehem PA. I took this assignment very seriously and worked hard to find a way to duplicate blossoming cherry trees. I was thrilled to see Washington DC in full bloom when we made our trip to DC. That trip is part of my American identity. The White House is part of my America identity.
As an American citizen, I feel personally wounded by the demolition of the East Wing and its proposed modernization, with the addition of the new Ballroom in its place. Wounded may seem like an exaggerated word choice, but I know there are many others who feel the same way. We tend to be people concerned with Art, Architecture, History and Tradition.
I am concerned about landscaping that was destroyed during the demolition. I know that Thomas Jefferson did the original landscaping of the White House. There is potential that trees he selected and placed were uprooted and mowed over In the demolition. I am sure that on the White House Campus there are other historical trees, and trees given as gifts to the United States. Going forward I want important trees preserved. I want designs for the modernization of the East wing and the Ballroom to take careful consideration of these landscaping treasures, and to be approved and supervised by arborists concerned with preservation. I am deeply disturbed by the destruction of the Rose Garden designed by Jackie Kennedy. I have not seen reporting that the rose bushes were dug up and put in a greenhouse, so they could be replanted somewhere else on the White House Campus. So, I want a replica of the Rose Garden to be planted as part of the East Wing Modernization project. I would like to see the exact rose bushes originally selected, to be part of the “new” Rose Garden. Skilled Rosarians will hopefully be able to propagate rose bushes that are no longer readily available. Unfortunately, there will be rose bushes no longer readily available.
I want the East Wing to be replicated and restored to its original design. If a Ballroom is approved and funded through Congress, I want the Ballroom detached. I do not want the Ballroom to rewrite the silhouette, the whole world has come to know as America’s White House.
Mouldings and columns from the original East Wing could have been preserved before the demolition. These could have been integrated into the new design of the Ballroom and would have given the new Ballroom historical context. Since they were demolished without this taking place, I would like to see replicas crafted and interwoven into any new design for the Ballroom. It is important that the Ballroom not obscure or dominate the front silhouette of the White House. A location behind the main building would be more appropriate. The scale needs to be reduced, to be proportional.
Providing security for 1000 people while they dine and dance seems problematic, as do wide expanses of windows.
I appreciate the opportunity to comment on the proposal for the modernization of the East Wing. As an educated and retired professional interior designer, I know that public comment on projects of this importance is always an integral part of the process. I hope the modernization of the East Wing can become something Americans like myself can be proud of.

Name: Mark Wilkins
Date: February 18, 2026 4:29:07 am

In my opinion this modernization project is long overdue and urgently needed. The United States of America is holding receptions and banquets in honor of foreign leaders, dignitaries of all types and honorees of various awards in a "ballroom" that doesn't have space for 80 persons! In most cases, a tent "ballroom" is set up on the grounds of the White House, presenting problems with weather, wind, mud, darkness and other variances of nature.
Thank you for supporting this project and giving the USA a worthy ballroom for all official needs.
Regards,
Mark Wilkins

This remodel needs to be vetted and approved by Congress. It should uphold the integrity and history of the space.

Name: Diane Reynolds
Date: February 18, 2026 4:38:49 am

Donald Trump had no right to raze the East Wing of the White House unilaterally. No permission. Nothing. Just destruction of United States history over decades. The East Wing needs to be restored as accurately as possible with the money coming out of his pocket. He has insulted the American people alive today and so many who have gone beyond who lived in, cared for, and admired the East Wing. Do not allow this ballroom. It would be a travesty to history and the people of America.

Name: Patricia Sandick

Name: Victoria Gentile Langlois
Date: February 18, 2026 4:47:40 am

To demolish our beloved Rose Garden for an outdoor White House Bistro was our first inkling of Trump's & the First Lady's complete disrespect for American tradition and their exhibition of poor taste, but demolishing the east wing of the White House without going through the proper channels & for what it appears to be Trump's personal and puerile reasons, goes beyond the pale, and is a slap IN ALL FACES OF ALL AMERifCANS, who value and respect tradition, the Rights of The PEOPLE whose house the White House truly belongs to, & "good taste."

Therefore, I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. This is a complete waste of taxpayers money. Money that should be spent on Scientific Research, Education, Veterans Programs, & Programs for the Vulnerable and Disenfranchised, Not Money spent on a narcissists whim that reflects Trumps' COMPLETE DISREGARD FOR THE WILL OF THE PEOPLE regarding OUR HOUSE. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Kathryn Pollak
Date: February 18, 2026 4:48:01 am

To Whom It May Concern,

I was distraught when the administration took a wrecking ball to the East Wing of the White House. The cost of this project is excessive and unwarranted. We have people in this country who cannot afford to eat, yet we cut SNAP benefits. I strongly oppose spending $300 million on this project. The president did not have authorization for this project, which must be approved by Congress.

Most Americans do not support the destruction of one of our most sacred institutions.

I am urging you to please cancel this project and rebuild the White House to its original design.

No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Thank you.

Sincerely,

Kathryn Pollak

Date: February 18, 2026 5:08:53 am

Destroying the East Wing of the White, without oversight, permission, or any public input is a travesty- an insult to the American people who own the White House. 300 years of history destroyed for one man’s ego. There must be a limit - there must be a red line.

Name: Pamela Williamson
Date: February 18, 2026 5:10:37 am

Name: Kimberlee Lindee
Date: February 18, 2026 5:10:54 am

I deeply object to this project, which was begun in secret and in violiation of rules and requirements. The scope of the project is grotesque and it appears to servce only the ego and vanity of the President and not an actual need of our nation. The White House belongs to the people, not to the President. And it certainly does not belong to the anonymous donors whose money is allegedly going to fund this. The previous East Wing should be restored, and mondernized if needed. If there are infrastructure changes required to manage modern computer and security needs, that's great. Submit those plans. But a new ballroom is unneed. The firm that did this unlawful works hould be held liable for this destruction of our heritage and this monstrous project should not be allowed to proceed.

Name: Maureen Dzikowski
Date: February 18, 2026 5:18:34 am

To Whom It May Concern:

I oppose the East Wing Modernization Project. This $400 million construction began without National Capital Planning Commission approval, without required environmental assessments, and without congressional authorization mandated by federal law for construction on federal parkland in Washington. These violations should not be rewarded with after-the-fact approval.

The funding creates unacceptable conflicts of interest. Corporations holding billions in current federal contracts with this administration are funding a construction project at the residence of the president who controls those contracts. This is not charitable giving. This is an investment in access and favorable treatment.

The White House belongs to the American people, not any individual president. I urge the Commission to reject this proposal until full legal compliance is achieved, including congressional authorization and completed environmental assessments. No temporary occupant should possess unilateral authority to demolish historic structures without following the law.

Name: Annette Marblo
Date: February 18, 2026 5:21:09 am

TO: The National Capital Planning Commission

I strongly urge each of the commissioner to OPPOSE this bricks and mortar humiliation of the Country’s, the Peoples’, White House. There is absolutely NO NEED FOR THIS CONSTRUCTION, and the destruction of the previous structure is a rebuke of our shared history. The National Trust for Historic Preservation is suing to stop this travesty of our shared history.

NO WHITE HOUSE BALLROOM!!! PLEASE STOP THIS!!!

Name: Henry Lopez
Date: February 18, 2026 5:22:01 am

My name is Henry and I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. Name: Roberta Critchett
Date: February 18, 2026 5:22:14 am

Hideous, just hideous. How could you let that creature tear down the East Wing and it's history. The White House belongs to the people, not Trump and his whore.

It's obscene.

Name: Roberta Martin To not support this
Date: February 18, 2026 5:24:44 am

As a UNITED STATES citizen I want to formally protest the demolition of OUR West Wing of the people's house. This was never approved and its purpose at best seems hazy. And I want the wing rebuilt as it was and paid for by those that put up money for it originally. I would also like the real purposes for this project to be publicized.

Name: Michelle Hankins
Date: February 18, 2026 5:26:45 am

I oppose the project undertaken to “modernize” the East Wing. The East Wing has been demolished, with no permits or permissions. The budget has ballooned every time it’s mentioned. Rebuild the East Wing as it was. Do not spit in the face of law abiding Americans who have to get a permit for any small change and allow this destruction and disregard of American history.

Name: Rebecca Kurtz
Date: February 18, 2026 5:27:02 am

.

Dear NCPC,

I oppose the spending of $300 million on the East Wing Modernization project. This project was initiated ILLEGALLY, with no regard for the regulations that require authorization, permits, and design review. It is not a modernization project but rather the destruction of the East Wing of the People’s House. This project must canceled, and the East Wing rebuilt and restored to its former design. No one is above the law, and all who do so need to be held accountable. To allow this project to go forward without penalizing those who broke the law would be an affront to all Americans. Failure to act amounts to complicity; please do your job!

Rebecca Kurtz

What Drumpf did and plans to do is outrageous and illegal. I want to see the East Wing restored to the way it was, and the resident charged with destruction of federal property. Since he's a convicted felon already, he deserves to do some hard time in prison and be forced to pay for the cost of rebuilding what he tore down.

Wanting to attach a huge tacky ballroom to the White House is grotesque.

Name: Suzanne Scala

Name: Meredith Jones
Date: February 18, 2026 5:50:00 am

I oppose the modernization of the East Wing of the White House. A giant ballroom does now benefit the people of the US, and it is not beneficial that The People's House was damaged in such a manner in order for private donors to have

greater influence over our government. The destruction of the East Wing was illegal and the continuation of this "project" would be allowing the people who broke the law and get away with it. The White House is OUR HOUSE, THE PEOPLE'S HOUSE. IT DOES NOT BELONG TO THE PRESIDENT.

Name: Beth Terborg
Date: February 18, 2026 5:50:29 am

Remember the East Wing of the White House? Remember the giant ballroom that the tech billionaires have agreed to fund in its place? The National Trust for Historic Preservation is making a gallant effort to stop this. And we can help.

Thanks to the National Trust, we have until March 4 to submit comments about the ballroom to the National Capital Planning Commission. You can make a comment through the link below (click on Submit Comment). PLEASE NOTE, the project is called East Wing Modernization on the pull down menu.

Anara Guard's comment on this is beautiful. She gave me permission to post it here, if anyone wants to use her language.

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. Name: Carol Agriesti
Date: February 18, 2026 5:51:27 am

To those of concern-

I fail to understand how and why the planning and permit, plus a thoroughly comprehensive development plan of reason--for the people of this country have been cast aside. Any and all temporary occupants of the White House/Oval Office can hardly show grounds for singularly deciding the transformation of The People's House.

This country is built upon the rule of law and adherence to the Consent of the People. All of that foundation to our nation has been swept aside as our very symbolic White House built over every day toil, weeks, months, years, decades, and centuries is tossed aside with zero respect nor accountability to The People.

This is entirely unacceptable. Plans must be made through consensus and measured planning giving thought to the integration of the project within the confounds of that that is existing and that to be planned and built.

Name: SANDRA DONOVAN
Date: February 18, 2026 5:55:05 am

I object to the $300 million project that would create a ballroom where the East Wing once stood. The ballroom's size would overpower the presence of the historic and important White House, which would give the impression that the White House is for entertainment and not for our chief executive to be working to enforce our laws. I also object to this project because no permits were applied for or issued, and no historical review of it was done. I favor reconstruction of the East Wing as it was before demolition (and I think no demolition permit was applied for, either).

Name: Davis Diehl
Date: February 18, 2026 5:57:56 am

This project is an abomination. I was horrified by the demolishing of the Rose Garden and the East Wing and feel like our sacred history is being trampled without any oversight. We do not need a giant ballroom, and we certainly don't need one built by a man with such imperial taste. The White House is the People's House, and we do not want it. This monstrosity is way out of proportion and is going to look ostentatious.
I would like to see the East Wing rebuilt at trumps
'A expense-he destroyed it without input from the citizens and he should pay for it to be restored.

Name: Lonnie Nottman
Date: February 18, 2026 5:57:56 am

I believe the WH EW renovation shoud be done. I understand the need for this modification process for the WH because I was a suppler of Carpet for many years. The Bush administration l. The company I worked for manufactured the gold trellis carpet. A big change from the drab blue solid that was used for years. Imagine that a change to such a beautiful pattern. The east wing is small and poorly engineered and designed. The new drawings I have seen are a development dream, beautiful but not appropriate for the neighborhood. A 2/3 scale version would be better. We need a place to entertain and maybe serve as a place for.a summit too.

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. Billionaires may have given money but I am sure none of that is anywhere to be found. This is a shameless act of grifting and bribery while destroying the American people's property. Building and old trees are gone. It is not a modernization project but rather a complete razing of American history. I want this giant ballroom canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Frances Metzger
Date: February 18, 2026 6:10:17 am

I oppose the East Wing Modernization Project.
This project began without required National Capital Planning Commission approval, without environmental assessments mandated by the National Environmental Policy Act, and without congressional authorization required by federal law for construction on federal parkland in Washington.
The $400 million cost is funded by corporations holding billions in federal contracts with the administration approving those contracts. This creates an unacceptable conflict of interest.
The White House is not private property. It belongs to the American people. No president should have unilateral authority to demolish historic structures and approve construction without following the law and allowing public input.
I urge the Commission to reject this proposal.

Name: Patricia Lawrence
Date: February 18, 2026 6:10:37 am

NCPC File Number: 8733
I'm a citizen of the U.S., a retired federal employee, someone who has visited Washington, D.C. to work in federal buildings and as a tourist and plans to do so again, and I am a daughter of parents who led groups of 8th graders to Washington, D.C. for many decades. My parents and I have experienced the awe that the architecture of our nation's capitol city inspires both directly and through watching young people have this experience. I believe that that the classic proportions within the design of each building and monument as well as the proportions among them are key to providing that inspiration and the realization that we are a part of a country that is thoughtful and does great things through careful, collaborative planning and perseverance.

I am greatly concerned about comments that this administration has made as to the proposed size and proportions for the East Wing of the White House, and I was profoundly disturbed by the demolition of the East Wing without proper consultation (e.g. Section 106 of the National Historic Preservation Act (NHPA) and the National Environmental Policy Act (NEPA)) or a publicly-vetted, approved plan for replacing the demolished East Wing with a new one. As the NCPC reviews the East House Modernization Project, I urge the reviewers to carefully consider how the public will see and experience the modernization project from surrounding public spaces and from viewpoints used in photography and videography. The external size and proportions of the East Wing must be in balance with both the central structure of the White House and the West Wing. The East and West Wings must be subordinate to the central structure of the White House and the classical “golden ratio” of human design indicates that the ratio of the dimensions of the wings to the central structure should be approximately 1:1.618, i.e., the wings must each appear smaller than the central structure. In addition, the dimensions and features of the new East Wing itself should follow the golden ratio. The external views of the new East Wing should be in harmony with those of the West Wing. Furthermore, the materials and style features used in construction should appear similar to those used in the historic portions of the White House.

For NHPA, a consultation under section 106 should be completed as part of the planning process for the East Wing Modernization Process. The entire area of Washington, D.C. in which the White House is located is on the National Register of Historic Places and multiple individual National Historic Landmarks and structures on the National Register of Historic Places are in the immediate vicinity of the White House. Because the East Wing has been demolished and will be completely re-built, the project planning being done is for an "undertaking" under NHPA section 106. "Section 106 consultation is triggered when a federal agency determines that it has a type of undertaking that has the potential to affect historic properties. Under the Section 106 regulations and the National Historic Preservation Act (NHPA), an “undertaking” is broadly defined as any project, activity, or program with federal agency involvement, such as those carried out by federal agencies, assisted by federal agencies, or that require a federal permit, license, or approval." (www.achp.gov). The White House itself is an historic structure in an historic district and its exterior is in the viewshed of multiple additional historic structures.

For NEPA compliance and simply to responsibly protect the health of construction workers and the public, contamination issues at the demolition site need to be thoroughly evaluated. Because the East Wing was built and maintained over many decades, the structure is likely to have contained asbestos, lead, and other hazardous substances. The photos of the demolition showed significant production of fugitive dust and a lack of encapsulation or other standard mitigation measures to contain contamination. The documentation for the demolition planning and implementation should be investigated to determine if sufficient testing and mitigation measures were taken prior to and during demolition and, at the very least, confirmation testing should be done at the demolition site as part of the planning for re-construction. Additional disturbance of the site during construction could release additional hazardous substances at and from the site.

As part of the public experience of the future East Wing, the project plans must include accessibility features in compliance with the Americans with Disabilities Act.

Because taxpayers will be paying for the upkeep, maintenance, and utility bills of the future East Wing and visiting it, I urge the Commission to do what it can to insist that the design meet at least a Gold level of LEED Certification overall and a Platinum level in the areas of Water Efficiency, Energy & Atmosphere, Materials & Resources, and Indoor Environmental Quality, as described by U.S. Green Building Council's most recent set of standards. Note that the engineering firm hired for this project, AECOM, is a member of the U.S. Green Building Council.

Thank you for the opportunity to comment in this stage of the approval process. I look forward to seeing actual plans and scale drawings of the public views from multiple representative vantage points in the future.

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want the East Wing rebuilt and restored to its former design. We the People own the White House and one person doesn't get to decide what happens to it even if they are President. Thank you.

Name: Liila Hass
Date: February 18, 2026 6:15:05 am

I oppose everything about this project: The cost, the process by which it was started (no proper authorization, plan or permits or review), the disregard to the will of the people, most of whom do not support this, and the erasure of our beautiful history.

I would like you to stop this project as soon as possible and restore the East Wing to its former character and design. In addition, those who showed such disregard for due process and federal law should be fully penalized and should pay for damages immediately.

Please make sure the former East Wing, the rose garden and other aspects of the White House are fully restored.

Name: Carol Keeling
Date: February 18, 2026 6:16:03 am

This is not modernizing the East wing, it is replacing it. I feel this illegal move should be stopped NOW and, as best as possible, rebuilt to its former glory.
How dare he destroy our Whitehouse without our permission!

Name: Rosr Ash
Date: February 18, 2026 6:16:28 am

As a 82 year old resident of America I stronger object to the unlawful destruction of the East Wing of the White House at the whim of an egotistical, self indulgent individual, and non exisistent "plans" for a monstrous, gaudy creation that will take away from the beauty of the White House and surrounding grounds! We are not a country of disgusting, gaudy opulence of faux wannabe royalty by a temporary resident of the White House!! It already has been made to look like a baudy bordello instead of the simple elegance of the past! Please stop this unlawful, unneeded and unwanted destruction of the White House and vanity project by an self indulgent law breaker!

Members of the Commission: All visible and public interior and exterior structures and decorative pieces of the East Wing should be rebuilt to look exactly as it did before it was unlawfully destroyed by the President. If the underground part of the structure out of public view needs to be updated, no problem. Trump should be made to pay personally for this rebuild in its entirety, since he is solely responsible for the current mess.

Name: BARBARA BATE
Date: February 18, 2026 6:25:57 am

I am writing to share my comments regarding the proposed 90,000 sq ft. ballroom to replace the East Wing of the White House. I'd like to know if he even had the right to do this. I believe any rebuild should remain on the same foot print of the prior East Wing. I also believe it should be returned to its original form.

Name: Mary-Frances Dampier
Date: February 18, 2026 6:36:15 am

I strongly oppose the reported demolition of the East Wing of the White House and the proposed construction of a privately funded ballroom that serves no clear public necessity. The White House is not a personal residence to be reshaped according to vanity or private preference; it is a historic national institution, maintained in trust for the American people.

Undertaking structural changes to such a significant and symbolically important space—particularly when financed through private donations—raises serious ethical concerns. Even if framed as philanthropy, large private funding directed toward federal property risks creating the appearance of influence-buying, preferential access, or quid pro quo arrangements. In a democratic system already strained by public distrust, this kind of project undermines confidence in the integrity and independence of public institutions.

There is no compelling functional justification for a new ballroom that outweighs the preservation of historical architecture, fiscal transparency, and ethical governance. At a time when public funds, attention, and leadership should be directed toward urgent national needs, prioritizing a cosmetic expansion funded by private interests sends a troubling message about misplaced priorities and the normalization of blurred lines between public service and private influence.

Any modifications to the White House complex should be guided by preservation standards, historical stewardship, and full public accountability—not donor-driven projects that invite legitimate questions about corruption, favoritism, and the erosion of ethical safeguards. For these reasons, I urge an immediate halt to demolition efforts and a full public review of the funding sources, decision-making process, and long-term implications of this proposal.

Name: Susan Flynn Holland
Date: February 18, 2026 6:36:27 am

The new grand ballroom slated for the east wing on the white house has no merit or design of benefit for the citizens of The United State of America. Its a private partnership on public lands. A vanity build that will privatize and give private donors another pay to play opportunity to corrupt and abuse our system and policies for years to come.And is out sized and grandeur diminishes the iconic nature and historical building and alter our concepts of democracy.
Rebuild the west wing and deny the outsized vanity project desecrating the peoples whitehouse.

Name: Reenie Kraft
Date: February 18, 2026 6:37:00 am

The East Wing project should be revised. Its projected size will overtake the complete look of the White House. It is an expensive vanity project that many many voters don’t want and don’t care about.

Please consider resizing the project so it is significantly smaller. And far less expensive.

Thank you for considering.

Name: Elssa Green
Date: February 18, 2026 6:37:13 am

Dear Commissioners,
Americans take pride in our landmarks. Much of our history is within the walls of the White House - the People’s House. The lawless razing of the East Wing was shocking in its lack of consideration or permission from the NCPC, as well as respect for true ownership of the building. I demand our White House be restored to its previous state and any appropriate

prosecution be undertaken.
Thank you.

Name: Phillip Todd
Date: February 18, 2026 6:37:16 am

I oppose this project. The demolition of the historic East Wing was not vetted in the proper way. My request would be that any funds for the project be used to rebuild and restore the East Wing to the proper historical significance that it once was.

Respectfully,
Phillip Todd

Name: Laurel Pollard
Date: February 18, 2026 6:40:16 am

I oppose spending anything on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design at the expense of the criminal who vandalized the White House. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Rona Feldman
Date: February 18, 2026 6:40:42 am

You’re being ridiculous. Fix the mess you started with a small, tasteful replacement and spend not a penny extra. You do not have my omission to use tax money on an oversized ballroom or underground shelter beyond the essentials.

Name: Joan Christy
Date: February 18, 2026 6:41:07 am

The words in the second paragraph are not mine but they fully represent my thoughts on the matter of the destruction of the East Wing of the White House - the people’s house - without any regard for following the law or getting the permits needed. As stated below, I want the giant ballroom project cancelled and the East Wing rebuilt and restored. I also want anyone who ignored the law to be prosecuted.

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding citizens.

Name: Sheri Jackson
Date: February 18, 2026 6:41:53 am

Dear Sir or Madam,
I visited the White House as a child, but only viewed the White House from the sidewalk behind the fence. I hoped to bring my grandchildren someday to visit. I am deeply concerned about the president tearing down the East Wing to build a 300 million dollar ballroom that is not needed and will not benefit everyday Americans. This must be stopped and the East Wing must be restored to its original state. Thank you for your attention. I love America.
Sheri A Jackson

Name: Rebecca Hyde
Date: February 18, 2026 6:42:23 am

Renovation and improvements are an important responsibility of any property owner. The people of the United States own the White House. We have the responsibility for maintaining improving and upgrading as required.

However, I question the need for a $300 million ballroom. If the east wing is to be replaced, there should be a period of input as to what that replacement would be. The decision should not be the sole responsibility of any person.

I strongly suggest a period of study and input. Beyond that which has been provided.

Name: Chip Frye
Date: February 18, 2026 6:44:21 am

To allow a sitting President to tear down a portion of the White House, as though it were his own home, is a stunning yet improper move. To allow private funding without knowing who those are that are funding this is wrong in so many ways. I am against allowing this unapproved structure to move forward. I believe the east wing should be rebuilt, using funds came from the secret donors and use the remaining funds to rebuild public programs that have been demantled.

Name: Judy Nelson
Date: February 18, 2026 6:44:33 am

I oppose the spending a single dime on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

I want Trump charged and FINED to the maximum extent of the law. Hopefully three times would it cost us to put it back up? I want him to pay for the reconstruction out of his own fricking pocket no “gifts” from those she’s blackmailing her holding hostage in any manner. And if there is a physical imprisonment for destruction of the White House impose.

Name: Brad Hardman
Date: February 18, 2026 6:44:58 am

It is a shame and despicable that do important a landmark was laid to waste for an egomaniac to launder money. There is nothing more that this could be then a scheme to line the pockets of a dictator, as no reasonable crew would demolish the East wing or the White House, and there is no way the planned construction would cost $300M otherwise.

Name: Harriet Marritz
Date: February 18, 2026 6:45:11 am

The White House does not belong to any one occupant. It is widely known as “The People’s House”.
I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. Thank you for this chance to express my concerns.

The Executive Mansion is also known as The People's House and is the singular most iconic house in the USA. It is of incredible and priceless historic significance to our nation. It needs to be protected so that the needs or desires of any single President are considered in the context of historic preservation of the whole premises and their long term harmony and appropriateness to the original structure.

Changes and additions that affect the property and are highly visible should be carefully vetted and reviewed by experts in the historic architecture of the White House and of Washington DC and should follow the Department of the Interior guidelines for landmarks. Thank you.

Name: Marjorie Lallemand
Date: February 18, 2026 6:50:09 am

The East Wing of the White House is historicaly important to our country and protected by law. We must not give in to President Trump's "East Wing Modernisation Project", the result of his extreme Narcissism.

Marjorie Lallemand

Name: Brian Sweet
Date: February 18, 2026 6:51:04 am

I strongly oppose the illegal destruction of the East Wing of the White House and the construction of a garish and unnecessary ballroom in its place. Neither the appropriate agencies nor the American people were consulted even on the plans for this $300M vanity project, and the fact that the president's donor friends "may" foot the bill actually makes it worse, not just an eyesore but a target for grift. The East Wing should be rebuilt as it was and those involved in its illegal demolition face justice. Thank you

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Michelle Hagans
Date: February 18, 2026 6:57:00 am

This $300 million expenditure should never have been allowed to go forward. The project began without the required authorization, design review, or permitting process. Calling it a modernization effort is misleading. What is actually underway is the systematic demolition of a piece of American architectural and cultural heritage. The ballroom project should be halted, and the East Wing should be rebuilt according to its original design specifications. Those who bypassed the established legal and regulatory framework must be held accountable. Allowing this to proceed without consequence sends a clear message that certain individuals operate outside the rules that every other American is required to follow.

Name: Emily Thabes
Date: February 18, 2026 6:57:17 am

The East Wing is not an expendable auxiliary structure. It is part of the historic evolution of the Executive Residence complex and reflects the changing civic function of the Presidency across the twentieth century — including the institutionalization of the First Lady's public role and the formalization of public access to the White House. Altering it through demolition and replacement with a privately funded ceremonial structure would erase documented layers of national history rather than preserve them.

Federal planning and preservation policy exists to prevent exactly this type of irreversible alteration. The project replaces a historic resource with a fundamentally different use and scale, rather than rehabilitating it in accordance with established preservation standards. Calling this "modernization" obscures the fact that it is a reconstruction of function and meaning, not a repair or an adaptation.

The White House grounds are not a venue for donor-driven architectural reinvention. They are a public historic landscape held in trust for the American people. Major alteration requires transparent review, lawful authorization, and a preservation-first approach. This proposal meets none of those principles.

I request that the Commission reject the project and require a preservation-based rehabilitation that maintains the East Wing's historic form, scale, and civic purpose.

Name: Vinu Ilakkuvan
Date: February 18, 2026 6:57:24 am

I oppose this expensive, history-destroying project, which has proceeded without proper authorizations or historic preservation.

Name: Trina Arrant
Date: February 18, 2026 6:58:06 am

I do not support this project. This is the people's house and it's destruction is a travesty. No oversight on removal of artifacts and the total destruction of this historic landmark. It should be rebuilt and restored as it was. A thorough investigation should occur and charges brought against any and all who participated in the destruction.

Name: Sybil Chamberlain
Date: February 18, 2026 6:58:18 am

I am against "modernization" of the East Wing of the White House as it is the building that exemplifies our country's democratic government! It is NOT a building to hold balls and dinners that glorify one man! It is rich in history and tradition, and is being destroyed without proper channels that are in place to protect historical significance! All construction MUST adhere to to laws and permits that are in place to prevent any misuse of power to destroy our historical landmarks by any one man!

Name: Cheryl Daly
Date: February 18, 2026 7:00:09 am

I am outraged that the East Wing was destroyed without the appropriate permits or authorization by the current administration. The East Wing reflects our country's history and belongs to the citizens of our democracy. This project should be canceled, and the East Wing should be rebuilt and restored. The current POTUS is not above the law, and he should be penalized for breaking the law with such blatant disregard! Please stand for the good people of our country …

Name: KATHLEEN GODZIK

Date: February 18, 2026 7:01:24 am

The current President has overstepped his powers. His ego is his master. He has destroyed the peoples house without prior authorization and it must be stopped. I support rebuilding the structure to its previous form.... Let Freedom Ring!!! Please stop this madman.
Thank you,
Denny Turow

Name: Katherine Tutt
Date: February 18, 2026 7:01:33 am

I do not endorse this project. The White House has stood as a national emblem of our past and the freedoms our forefathers fought to create and protect. To modernize the building is not only wasteful spending but also an affront to the historic building and everything it stands for. The White House is a place the sitting President stays at and keeps up, it is NOT their “fixer upper” to do with as they please. The building should be rebuilt to its former specifications and history should be preserved not spit upon.

Name: Judith Muehlbauer
Date: February 18, 2026 7:01:38 am

Please do NOT allow this project to continue. Any and all projects changing the peoples property, including to The White House, should include significant vetting conducted by experts in the field of historic preservation. Studies and review must be done and experts in the field consulted. This will ensure the integrity of the structure and the overall area will be maintained properly.
I do NOT wish a ballroom to be built.

Name: Wendy Jebens
Date: February 18, 2026 7:01:50 am

I am strongly against spending of $300 million of tax payers money on this project. The project initiated without the proper design review, authorization, or permits. I can’t even install an outdoor shower on my own property without such things in the town I live in! I demand
this project be canceled, and the East Wing rebuilt and restored to its former design. No one is above the law! Not even the president. Isn’t that the principal our country was founded on? To permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Jessica Hall
Date: February 18, 2026 7:03:06 am

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. Name: Heather Henderson
Date: February 18, 2026 7:03:48 am

Size and scale matters for many reasons! The ballroom should not compete with the main structure of the White House in size or cultural prominence. Additionally, because the building will not be used daily because of its size, but will need to be heated/cooled/maintained daily, care should be taken so that heating/cooling/maintenance costs—taxpayer dollars—are not being used for empty square footage. Trump is already an expensive bag of hot air. We don't need to pay for a building full of it too.

Name: H Polopolos
Date: February 18, 2026 7:04:51 am

We oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Sharon Boehlefeld

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. Change is inevitable but following the law and respecting established procedures is important to our democracy.

Name: Nicole Piche-Nicholas
Date: February 18, 2026 7:06:18 am

I oppose spending on this project because it was initiated without proper authorization, permits or design review. The White House is the people's house and I want this project canceled and the East wing restored to its former design. No one is above the law and to permit this project to continue without penalizing those who broke the law is an affront to all Americans. This project is simply an illegal destruction of American history and I will not stand for it.

Name: Virginia nowaski
Date: February 18, 2026 7:06:54 am

I object to this trump vanity project, as it does not reflect on the American people's needs, nor was it vetted or approved using normal government channels, or funds. Is it not the people's house?

Name: Emily Romano
Date: February 18, 2026 7:06:54 am

I am writing to express my complete dissatisfaction with the proposed East Wing modernization plan. President Trump seems not to understand that this is the People's House not some tacky northeast Mar-a-Lago. The latest architectural renderings show how significantly this addition will change the entire look of the White House. This is a historically important building NOT something to turn into a golden monument to someone's ego. How sad that so much destruction has already taken place without any permits, approvals etc. I strongly believe that all the monies raised thus far and any additional money necessary should be used to rebuild the East Wing exactly as before. Modernized, perhaps, but do not change the footprint or the exterior. Thank you for requesting public input.

Name: Carol Rawls
Date: February 18, 2026 7:07:03 am

I strongly oppose the immoral and unconstitutional spending of 300 million dollars on this project which was initiated without proper authorizations , permits or review. It is immoral because it is happening concurrently with cuts in our national budget to safety net programs to the most vulnerable. It is unconstitutional because it is not one person's choice that can direct a democracy. We have no king ! We need to reflect our own values as a democracy. No one is above the law. In addition it seeks to erase our American history. I ask that you vote to reject this project and rebuild and restore the East Wing of our capitol.

Name: Louise Fawbush
Date: February 18, 2026 7:07:43 am

I oppose the East Wing Modernization Project. This $400 million construction began without National Capital Planning Commission approval, without required environmental assessments, and without congressional authorization mandated by federal law for construction on federal parkland in Washington. These violations should not be rewarded with after-the-fact approval.

The funding creates unacceptable conflicts of interest. Corporations holding billions in current federal contracts with this administration are funding a construction project at the residence of the president who controls those contracts. This is not charitable giving. This is an investment in access and favorable treatment.

The White House belongs to the American people, not any individual president. I urge the Commission to reject this proposal until full legal compliance is achieved, including congressional authorization and completed environmental assessments. No temporary occupant should possess unilateral authority to demolish historic structures without following the law.

Name: Paul Berberich
Date: February 18, 2026 7:08:59 am

The White House is a national treasure and should be treated as such. The East Wing was destroyed illegally in furtherance of a vanity project backed only by the President without proper review, permitting, or approval.
The East Wing which stood for over 75 years must be restored to its former glory. Those responsible for its destruction must be punished and be made to fund its restoration in full to its former condition.
The illegal actions of the President in this matter are unprecedented and should not be allowed to stand.
Please act to restore and preserve our heritage. Thank you.

Name: Nancy Waldron
Date: February 18, 2026 7:10:19 am

I strongly oppose the building of the Trump ballroom in place of the East Wing of the White House. The East Wing should be rebuilt as it was originally before it was illegally torn down. We must preserve our history and not give in to this ego driven travesty of a ballroom.

Name: Betsy McNair
Date: February 18, 2026 7:10:45 am

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Thank you for listening.

It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Sharon Stanford
Date: February 18, 2026 7:11:23 am

Tearing down the East Wing of Our People's House without proper authorization was a slap in the face to every American. This was done when the government was in a shutdown, due to a failure of the President to even work with Congress and abide by laws of our great nation.
The proposals for a ever-increasing-price-of-a-project to build a massive ballroom funded by Tech billionaires, probably for favors from the government, is also an afront to the American people. The People's House should remain for the people, not for opulent parties for the billionaire class to curry favors and make deals under ballroom lights. Congress needs to act. Congress needs to represent the people they were sent to represent in the light of day.
The person proposing this stupid, arrogant project isn't even likely to see it's completion. He is old and sick. Nobody else wants this stupid project, just the person who wants his name on a big building - not unlike the "Trump" Kennedy Center for the Performing Arts.. Just stop this insanity.
Everything this proposed ballroom represents is un-American. This project needs to stop. It needs to end and the East Wing needs to be restored. To do anything less is to let people currently in power ignore the laws of our land. Furthermore, the funds to properly restore the East Wing need to be taken from those who are responsible for it's destruction.

Name: Joan Herbers
Date: February 18, 2026 7:11:34 am

This is atrocious. Please stop it.

Name: Cathy Jewell
Date: February 18, 2026 7:11:37 am

I do not believe the ballroom that President Trump wants to build on White House grounds should be approved. He did not go through the proper approval procedures for such a project but rather tore down the historical East Wing with no warning. The East Wing is part of the history of the Peoples House. For years it has hosted a variety of functions and has

been the office space for our First Lady. Tearing down the East Wing without any warning or permission, to me, is a symbol of our current administration and the tearing down of our democracy with no respect to the people who are our country. Please deny the building of a ballroom and require the East Wing be rebuilt with respect to all historical architecture that existed.

Name: Bernadette Martin
Date: February 18, 2026 7:11:42 am

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans

---

Name: B Beth McKay
Date: February 18, 2026 7:13:31 am

I’m against the remodel. It was wrong to tear it down without permission. It was a waste of money. Trump is ruining the country, wasting taxpayers money, stealing from the people, abusing the public and pandering to the rich. He’s not the president he promised his voters he would be and now he’s running the country in deeper debt. The donations should not be allowed. That’s a conflict of interest. He should pay for repair of the damages to the building that was there, out of his own pocket.

Name: Dareya Cohen
Date: February 18, 2026 7:14:09 am

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans."

Name: Mariah Poole
Date: February 18, 2026 7:14:45 am

Please DO NOT let us lose the history, beauty, and respect which the White House represents. The loss of the Rose Garden was rather criminal -- destruction of our national history without authorization. The demolition of the East Wing is even worse. And for no good reason except the egotism of one leader who feels he can personally reshape my country's history while using my money to do it, my money along with all the other American taxpayers, whom I believe believe in the separation of the three powers of our government, as the constitution declares. It is not the prerogative of the presidency to make unilateral decisions about our most basic of historical monuments. Please demand that the West Wing be recreated exactly as it was, without using taxpayer money. The "investors" can pay for it. Our history is not to be destroyed by whim, but to be preserved and celebrated.

Name: Jane Rogers
Date: February 18, 2026 7:14:54 am

I very much oppose this ballroom which was initiated without the proper authorization, permits or design reviews. This is a complete razing of American history. I want this project halted and the East Wing rebuilt in its former design. To permit this project to proceed without penalizing those who broke the law would be an affront to all law-abiding citizens.

Name: Mary Durost
Date: February 18, 2026 7:15:04 am

Please cancel this project and restore the East Wing of the White House. It is the People’s House, NOT Maralago North. Trump’s vanity projects have no place in our historic buildings.

Name: Karen Nihles
Date: February 18, 2026 7:15:17 am

The East Wing should never have been demolished without approval and should be returned to its original state. The proposed oversized ballroom would detract from the main WH structure, which should be the focal point. Procuring funds from donors to build it is not ethical. Also, the significant operating costs would be taxpayers’ responsibility. It’s a vanity project we cannot afford.

Name: Vicki Fuller
Date: February 18, 2026 7:15:25 am

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.
Additionally, the American people should NOT be responsible for the restoration cost that this illegal destruction will require. I suggest that all those responsible for the destruction pay for the restoration out of their OWN pockets, WITHOUT solicitation from outside sources. If necessary, assets should be frozen and redirected to the rebuilding of the East Wing of our once beautiful House.

Name: Susannah Southern
Date: February 18, 2026 7:15:52 am

Name: Matthew Bigman
Date: February 18, 2026 7:16:02 am

To the U.S. Commission of Fine Arts / National Capital Planning Commission:
I am writing to express my profound concern regarding the ongoing destruction and proposed reconstruction of the White House East Wing. This project represents an unprecedented and irreversible alteration of the People's House, conducted with a disturbing lack of transparency and oversight.
1. Opacity and Ethics of Private Funding
The reliance on "private donors" to fund a $400 million federal project is highly problematic. While the administration claims this saves taxpayer money, it creates significant ethical conflicts, especially as reports indicate donors include major corporations with business before the government, such as Amazon, Lockheed Martin, and Meta. Furthermore, the lack of full disclosure regarding individual donation amounts prevents the public from understanding who is essentially purchasing a permanent mark on America's most historic residence.
2. Grotesque Scale Relative to the Executive Mansion
The proposed 89,000-to-90,000-square-foot addition is fundamentally out of scale with the historic complex. At nearly twice the size of the 55,000-square-foot Executive Mansion, this addition will "overwhelm" the original structure and permanently disrupt its balanced classical design. While the administration argues a larger space is needed for state dinners, a 22,000-square-foot ballroom designed to seat over 1,000 guests—compared to the current 200-person capacity of the East Room—is an excessive expansion that prioritizes luxury over the site's architectural integrity.
3. Erasure of Historical Character and First Lady Space
The East Wing has served as the official home of the Office of the First Lady since 1977. By demolishing this space with little warning or consultation, the administration has erased decades of history tied to the work of the First Ladies. Even the current First Lady, Melania Trump, reportedly distanced herself from the project, expressing private concerns about the demolition. Replacing these storied offices and the historic 1942 second-story addition with what critics describe as "gaudy" or "gilded" interiors is a profound loss of cultural identity.
4. The Nature of the Demolition and Bypassed Process
The method of this project—demolishing a historic structure before completing required federal reviews—is a "disgraceful" violation of standard preservation protocols. Proceeding without congressional authorization, independent reviews, or public comment periods until after the damage was irreversible sets a dangerous precedent. The "rapid demolition" that began in October 2025, which included the removal of commemorative trees planted by Presidents Harding and Roosevelt, illustrates a disregard for the reverence and history the White House is supposed to represent.
This project is not a modernization; it is an erasure of public heritage. I urge the commissions to halt further above-grade construction until a full, transparent review of the legal authority and environmental impacts is completed.

Name: Anne Earle
Date: February 18, 2026 7:16:39 am

I strongly oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design - paid for by President Trump. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Dona Oliver
Date: February 18, 2026 7:17:42 am

I (along with most people) am horrified at the destruction. Everything he touches dies.

Name: Nancy McGraw
Date: February 18, 2026 7:17:56 am

To whom it may concern:
I strongly ooppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans. A taxpayer and citizen.

Name: Dave Ocame
Date: February 18, 2026 7:18:09 am

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Anne Rush
Date: February 18, 2026 7:18:35 am

As a U.S. taxpayer I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. These are legal requirements to tear down and rebuild anything, and the law applies to everyone. Those who destroyed the East Wing - a truly historical building - should be held to account and it should be rebuilt and restored to its former design as soon as possible.

Name: Dan Riggs
Date: February 18, 2026 7:18:42 am

I oppose this project due to the facts that it was begun without proper planning and permits. It also is extravagant waste of funding for limited results.

Name: Tracey Dryden
Date: February 18, 2026 7:19:01 am

I oppose this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history.

I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

This destruction of the entire east wing is a crime, not a project. I have a historic home and I am not allowed to change the roof color! The White House is not the property of the current occupant.

Name: Patricia Conley
Date: February 18, 2026 7:19:07 am

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be disgraceful and an abuse of power.

Name: Catherine Farber
Date: February 18, 2026 7:19:24 am

Date: February 18, 2026 7:19:31 am

I feel that the administration has overstepped their authority and have taken on a project without approval from multiple departments. The white house is known as "the people's house" however, that is not how this administration is treating it. This house has gone through renovations in the past but all with approval and through the proper channels. The reasoning for the ballroom is not sufficient to allow such a project to occur. That ballroom will sit, unused for the majority of the time as fuctions are not done at the qhite house on a weekly basis. The east wing housed offices that were functional and had purpose. State dinners were held at the white house for years with no issues. And the proposed plans that included excessive amounts of golden accents is not impressive but gaudy. This house is a historic house. The dish room, the Lincoln bedroom... you could walk through the house and feel the history and the power of the people in the halls. That ballroom is only a monument to one person. We do not need r want that in the white house. We need leardship, we need compentcy but we do NOT need a ballroom. And just like other projects with the President, this is taking too long with no results. But that is good, I want The People's house back to its original state. I will keep saying it- I will NOT pay for a ballroom that we do NOT need!!! Because i do not believe that he has the backing he says he does. He lies way too much to teuat this is not coming out of the peoples taxes. Please, do the right thing and bring yhe People's house back to the people. This is NOT Trumps house! And never will be!

Name: Sherri Martella

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans. This whole situation is appalling with his otal ignoring the proper prodcedures, We ALL have rules that we must follow and he should set an example. Currently theexample he is setting is deplorable and huring our nation!

Name: Dee Hutto
Date: February 18, 2026 7:19:51 am

I oppose the East Wing Modernization Project.
This project began without required National Capital Planning Commission approval, without environmental assessments mandated by the National Environmental Policy Act, and without congressional authorization required by federal law for construction on federal parkland in Washington.
The $400 million cost is funded by corporations holding billions in federal contracts with the administration approving those contracts.
This is the people’s house. I think the majority does not want a ballroom in the place of the historical East Wing. Stop this atrocity to our house.

Name: Yvette Lindsey

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to Americans.

Name: Dara Roberts
Date: February 18, 2026 7:20:11 am

I am devastated at the egregious nature of this project. No consultation with experts or historical preservation architects. The White House is the peoples house, not the person that we allow to reside there. The East wing needs to be restored to its original status with input from preservation experts. (While they're at it, have them remove the cheap gold plated accents in the rest of the house that has it looking like a tacky bordello).

In addition, no private funds should be accepted without a written guarantee that the donor will receive no favors, tax breaks, special invitations, favorable legislation or any other gift for the donation. This administration's corruption would not be accepted by any other Congress and we are tired of this American oligarchy currying favor. It's blatant and wrong. Stop the quid pro quo!

Thank you.

Name: Debbie Confer
Date: February 18, 2026 7:20:14 am

East Wing "Modernization" really? The East Wing doesn't need Modernization. It needs trump to keep his ugly hands off it! Trump has NO taste at all when it comes to style. Everything he touches becomes ugly.
Repair the damage he has done and return it to normal!

Name: Louise Smith
Date: February 18, 2026 7:21:17 am

No President owns the White House or any other federal building. No President has the right to decide unilaterally how and when to change the East Wing. The brash action to tear it down without consulting, much less gaining consent from, historical preservation and related agencies is utterly wrong.

This project was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. It does not matter how much of the cost is financed by President Trump's donors. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Doing so would be a travesty.

Name: Nancy Crowley
Date: February 18, 2026 7:21:45 am

I am appalled at the destruction of the East Wing. This project needs to be cancelled and the wing should be rebuilt and restored to the way it was prior to this project that started without proper permits, authorization and review. People need to be held accountable for permitting this project to proceed.

Name: Cynthia Kozmetsky
Date: February 18, 2026 7:23:03 am

There is a dignity and comfort in maintaining the integrity of the White House especially in times of turmoil. Please rebuild the East Wing in proportion to the rest of the building. Modernization in many areas is possible. Update technology. But let us have our house back

---

Name: Coleen Clineschmidt
Date: February 18, 2026 7:23:25 am

This is the People’s house. The East Wing has been illegally destroyed and must be rebuilt. Those responsible for the unauthorized demolition must be brought to justice.
Anything short of this is not American. This is Our House.

Name: Leslia Rodriguez
Date: February 18, 2026 7:23:32 am

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.
Again this is another attempt to erase our country’s history just because someone else’s ego.

Name: Lizette Eckman
Date: February 18, 2026 7:23:40 am

I oppose the spending of $300 million on this project. This project was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. It is a vanity project. I want this project canceled, the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law.

Name: Katherine Weber
Date: February 18, 2026 7:23:53 am

I do not support the destruction and reconfiguration of the peoples White House. NO to this damn ballroom.

Name: JOAN YOUNG
Date: February 18, 2026 7:24:01 am

Destroying our nation's history for personal aggrandizement is plain wrong. The fact that this began without any review is horrific. The parties responsible must be required to return the East Wing to its original state.l

---

Name: Rose Collage
Date: February 18, 2026 7:24:28 am

The ballroom design is nothing more than a monstrous vanity project that has nothing to do with serving the American people or the office of the presidency. It will be an ugly stain on our White House and should not be allowed to move forward. Trump did not have permission from anyone to destroy the historic East Wing of the people's White House - based on this alone, construction should be halted and plans should be made immediately to reconstruct the East Wing as close to the original as possible to preserve the dignity and history of the building as well as the lovely symmetry it once had.
Thank you for your attention to this.

Name: Pam Aden
Date: February 18, 2026 7:24:42 am

Name: Merrille Spicher
Date: February 18, 2026 7:25:36 am

I oppose the building of this obscene oversized ballroom. It is way too expensive. It doesn't match the scale of the White House. The plans have not gone through the proper review process. The previous East Wing was torn down without following procedures. No one is above the law. This is sacred US property. Rebuild the old East Wing. Or begin a legal, historically appropriate, properly scaled plan for a new one. Take the time to do this right. Stand up to the bully and stand up for the respect of history. Thank you.

Name: Margaret Burns
Date: February 18, 2026 7:25:49 am

As a U.S. citizen who grew up visiting D.C. on a regular basis and learning to love its history, the destruction of the East Wing of “our” White House was an abomination. More importantly, the fact that the NCPC was not consulted and proper channels were not followed makes it even worse. The action taken to destroy the East Wing was illegal and was not sanctioned by WE,THE PEOPLE. History was destroyed and it should be restored to its original beauty.. No one is above the law regardless of their position and this action by President Trump cannot be ignored!

Name: Linda Jennings
Date: February 18, 2026 7:26:00 am

Stop the ballroom!

Name: Julie Lewis

Name: Henry Haskell
Date: February 18, 2026 7:28:55 am

My wife, Ellen Cordes, and I deplore the characteristically wanton and high-handed way in which the Trump administration has demolished a valued and historic building, one that belonged not to them but to the American people. The Commission must immediately assert its statutory power to oversee this shamefully self-aggrandizing project and ensure that the proposed "modernization" meets long-established architectural and planning standards for federal buildings in our nation's capital.

Name: Susan Thornton

Name: Kimberly Howard
Date: February 18, 2026 7:29:55 am

I am opposed to spending $300 million on a ballroom that was instigated without proper permits, review or oversight. The fact that part of the White House was first dismantled without proper permission is an absolute disgrace and the perpetrators should be prosecuted for the crime of destruction of American history. If we do not hold those responsible accountable, we are enabling and giving permission for them to destroy further historial property without consequences. This is not modernization that anyone asked for or voted on. The White House belongs to the nation, not one family or administration to do as they wish.

Name: E Silker

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review.

The White House belongs to the American people, not a single billionaire who believes he is above the law. The project is gaudy, tasteless and vulgar. It does not reflect the traditions and serousness of American history and democracy.

I want this project canceled, and the East Wing rebuilt and restored to its former design.

Name: Charlotte Dunworth
Date: February 18, 2026 7:31:13 am

My opinion is: The East wing should be rebuilt to it original structure with modern improvements and President Trump should have to pay for it with his personal money!

Name: John MacPherson
Date: February 18, 2026 7:31:26 am

No ballroom. Must be rebuilt as it was. Must be entirely at Trump’s expense with no tax dollars involved: You break it- you own it. Also no pictures of Trump and no statues of him will be allowed in the rebuilt structure. The Arc d’ trump must not be authorized. A large screen TV showing reruns of The Late Show with Steven Colbert must be in a prominent location and must run 24 hours a day every day Grizly Gnome must work as the hat check girl wearing her best Stetson. Blondi Bondi has to provide Daycare for visiting children and may sneer at them only once per day per child and may not have her burn book. Bannon must provide landscaping and janitorial service after apprenticing in these occupations in

Mexico with Steven Miller who will handle toilet cleaning. Finally, the structure must include a windowless chapel where J D Whatever (his name is this week) must remain there until his term in office has expired. And he must repeat the words “Church and State are 2 different things and must not mesh” a thousand times per day.

Name: Anne Wood
Date: February 18, 2026 7:31:26 am

This project is an affront to everything American.
* That an American monument can be obliterated without authorization...
* That an American President thinks he has total immunity from responsibility to the American people...
* That private money thinks it holds the power to disregard the will of the general populace...
just to name a few reasons why this project should be stopped.

Name: mike caffes

This is totally wrong and you know it! This is the people's house and no president has a right to destroy it. What an insult to us all! Do the right thing. Dethrone the orange terd and let us move forward!!

Name: Amy Strickland
Date: February 18, 2026 7:33:58 am

I find it unfathomable that this project even got started in the first place, without the approval or input from not only the established powers that be, but also the American people. No one has a right to destroy our national treasures on a whim. The money being spent, the desecration of a federal building, or the building of some grotesque ballroom are all permant scars on this great nation and will be written about for the rest of our history. Please refrain from any further actions that will embarrass us all.

Name: Carol Carol Groat
Date: February 18, 2026 7:34:06 am

I am opposed to the modernization of the east wing at the White House. I am opposed to building a ballroom. I want the east wing restored to what it should be. This project was not approved. This project is one crazy man's dream.

Name: Angela Long
Date: February 18, 2026 7:35:28 am

I absolutely oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Nora Gerstein
Date: February 18, 2026 7:36:09 am

The White House is a National Historic Landmark and a National Park, owned by the American people and home to presidents since 1800. The current president at any given time is not the owner of the property or the structures thereon; the president is a temporary tenant whose interventions are limited by law and by respect for the people of the United States.

The demolition of the historic East Wing without review, without an effort to conserve its history and materials, without permits, and without Congressional oversight is clearly a violation of the law. In addition, it is a violation of the trust of the American people who were given no opportunity to comment on what should have been presented as a proposal and not as a violent fait accompli.

I urge the National Capital Planning Commission to require reconstruction of the East Wing in keeping with its historic design and size. Anything constructed on the demolition site going forward must be compatible in form and subordinate in scale to the original structure of the Executive Mansion.

Name: Dévon Lewis
Date: February 18, 2026 7:36:25 am

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete vandalism of American history.

To the National Capital Planning Commission:

The White House is a symbol of Americans as a whole. Building a ballroom is a symbol of opulence and privilege. This money is better spent funding our national parks which all Americans can utilize. This project should have been put up for public review. It was not even passed through Congress. As the demolition has already occurred before it was even approved I would like to request the following:

1) Full disclosure of what architectural elements, materials, and artifacts from the East Wing were salvaged.

2) Documentation of where those materials are currently stored and how they will be preserved.

3) A binding commitment that any new construction will interpret and honor the historic role of the East Wing, particularly the contributions of First Ladies and their staff.

4) Design review ensuring the replacement structure remains architecturally subordinate to the White House in massing, scale, and character.

Sincerely,

Bonnie Wisnewski

NO ballroom. Please restore the East Wing to its original state before it was illegally torn down. Use any donations made for a ballroom for the East Wing restoration.

Name: Charles Sawyer
Date: February 18, 2026 7:40:29 am

The East Wing should be rebuilt in a similar scale and scope of the building that was destroyed without appropriate public and expert input. I am outraged that President Trump tore down the East Wing of our White House, the property of all Americans. He should be prosecuted for this crime. A massive, gaudy ballroom designed by this man will be an ugly stain on our Capital City. Please stop him, and stop his hideous Arch idea as well.

Name: Elizabeth St. John

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

The White House does NOT belong to the President. The White House belongs to us. It is the People's House.

Name: Barbara Thompson
Date: February 18, 2026 7:41:26 am

This is the Peoples House, and as the People We do not want or need a Ball Room. The destruction and History this Man has destroyed is unforgivable.

Name: Alisa Wartick
Date: February 18, 2026 7:41:31 am

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history with a garish and disproportionate design. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Janet Engelson
Date: February 18, 2026 7:42:00 am

Donald Trump had no authorization to tear down the East Wing and build a garish, oversized addition to the White House. The White House is the people's house and he is only a temporary occupant. It is steeped in history and charm and it is disgusting and huge overreach that he destroyed it without consulting anyone. I want it restored to it's former beauty, along with the Rose Garden. I would also like his name ripped off the Kennedy Center. Thank you.

Name: Denise Fesel
Date: February 18, 2026 7:42:15 am

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete erasing of American history. I want this project canceled. I also want the East Wing rebuilt and restored to its former design. No one is above the law. Permiting this project without penalizing those who broke the law would be an injustice to all law-abiding Americans.

Name: Chanda Athale
Date: February 18, 2026 7:42:29 am

Dear Members of NCPC

I wish to register my strong disapproval of the proposed plan of the ballroom replacing the old East Wing of the White House. The current design and disproportionate in size and will be an eye sore for decades to come. Furthermore, how many times will the White House host a reception for a thousand guests?

I sincerely urge you to disapprove the current plan for the modernization of the East Wing.

Chanda Athale

I am writing as a US citizen who believes in the rule of law, due process, historical conservation and preservation. The unapproved destruction of the East Wing was a total abomination and a stain on the US executive branch. The White House belongs to the US people and all changes must be made with approval by the people's representatives in Congress

-- particularly when such a leveling is irreparable. To build a new wing entirely out of proportion with the existing White House, with funds raised through private donations and with no input from the American people, would cement this travesty. To allow the destruction of the East Wing with absolutely no repercussions, and indeed to build on that violation, would be to reward and sanction such betrayals of the American people. Needless to say, the historical significance of the East Wing across successive Offices of the First Lady and historic events and visits was never taken into account. To that end: Where have they stored and preserved the art, objects, fixtures and all related accoutrements that also made up the East Wing? In short, I am writing to express my strong protest to the administration's actions and to urge the Commission to exercise its authority and step in. Future generations will reward your principled intervention.

Name: Connie Jones
Date: February 18, 2026 7:46:32 am

Please rebuild East Wing exactly as it was. No ballroom needed.

Name: Eva-Lynn Podietz
Date: February 18, 2026 7:47:25 am

I oppose the East Wing Modernization Project. This $400 million construction began without National Capital Planning Commission approval, without required environmental assessments, and without congressional authorization mandated by federal law for construction on federal parkland in Washington. These violations should not be rewarded with after-the-fact approval.

The funding creates unacceptable conflicts of interest. Corporations holding billions in current federal contracts with this administration are funding a construction project at the residence of the president who controls those contracts. This is not charitable giving. This is an investment in access and favorable treatment.

The White House belongs to the American people, not any individual president. I urge the Commission to reject this proposal until full legal compliance is achieved, including congressional authorization and completed environmental assessments. No temporary occupant should possess unilateral authority to demolish historic structures without following the law.

Monies "appropriated" or dedicated to this demolition and construction would better be spent feeding children in the US and around the world and resuming PEPFAR and other initiatives.

Name: A Cohen
Date: February 18, 2026 7:47:36 am

Another example of the president circumventing congress and foisting his grandiose “visions” on America without following the rules and laws that have made our country what it was. The destruction of a portion of the people’s house without the peoples permission smacks of an arrogance our leaders should not have….building an “ extension “ that dwarfs our magnificent White House is an insult and an eyesore.
Please do not allow this.

Name: Michael Metcalfe
Date: February 18, 2026 7:47:48 am

I oppose the proposed East Wing expansion and ballroom addition on architectural and cultural grounds. The concept appears disproportionate to the historic massing and compositional balance of the White House complex, disrupting the carefully evolved hierarchy between the Executive Residence, East Wing, and surrounding landscape.

From a preservation standpoint, the proposal risks diluting the restrained neoclassical character and civic symbolism of the existing envelope in favor of an expression that reads as overtly opulent and programmatically excessive. Such an intervention would introduce a scale and aesthetic vocabulary more aligned with private oligarchic display than with the architectural dignity and democratic symbolism historically associated with the White House.

I respectfully urge the Commission to prioritize restoration and preservation of the original East Wing envelope and to

reject any expansion that compromises proportional harmony, contextual integrity, and the cultural meaning embedded in the existing composition.

Formal Public Comment: NCPC File Number 8733
To: National Capital Planning Commission
Re: Opposition to East Wing Modernization Project (File #8733)
Date: February 18, 2026
I am writing to formally oppose the East Wing Modernization Project (File #8733) and urge the Commission to deny the request for simultaneous preliminary and final site and building plan approval.
My opposition is based on the following critical concerns found within the submission materials:
• Substantial Alteration of Historic Fabric: The project narrative confirms the demolition of significant portions of the East Wing to accommodate a multi-level underground expansion. This irreversible destruction of a National Historic Landmark violates the spirit of the National Historic Preservation Act and permanently alters the architectural integrity of the White House.
• Circumvention of NEPA and Section 106: The submission materials fail to include a completed Environmental Impact Statement (EIS) or a finalized Section 106 consultation report. Approving "final plans" before these federally mandated reviews are complete is a violation of established planning procedure.
• Scale and Visual Impact: The proposed increase in square footage and the structural changes to the East Colonnade represent a radical departure from the L’Enfant and McMillan Plans. These changes negatively impact the "monumental core" and the historic vistas of the President’s Park.
• Lack of Public Transparency: The 149 MB of submission materials were made available to the public with insufficient time for technical review before the requested approval date. A project of this national significance, funded by private-sector contributions with potential conflicts of interest, requires a more transparent and lengthy public comment period.
• Procedural Overreach: The request for "preliminary and final" approval in a single action prevents the Commission from requiring necessary modifications after the initial review phase. This "fast-tracking" sets a dangerous precedent for future development on federal parkland.

Conclusion
The White House belongs to the American people, not any single administration. I urge the Commission to uphold its mandate to protect the National Capital’s legacy and reject Case #8733 until full environmental, historic, and congressional reviews are conducted and made available for public scrutiny.
Sincerely,
Delores McMillin
Floyd’s Knobs, Indiana

Name: Nicola Moering
Date: February 18, 2026 7:51:19 am

This is a travesty the east wing should never been destroyed as well as the beautiful Rose Garden. This House does not belong to the current resident and he should not be allowed to destroy a historic building. As far as I am concerned the rose garden should be recreated since we don’t need a restaurant style patio in its place and the east wind needs to be recreated as closely as possible. We don’t need a ballroom where the East Wing stood.

Name: Judy Oehler Fountain
Date: February 18, 2026 7:52:08 am

The East Wing project should follow all laws, guidelines and traditions. The East Wing is the people's part of the People's House and its restoration and care should be overseen by professionals and a public committee who understand this, and no one involved in destroying it involved. Whilecthe design may include some enlargement, its use as a place for the First Lady, staff and the public is primary, not a palace. All donations should be limited in amount, reported publicly, and donors prohibited from any quid pro quo as per the law and Constitution. Taxpayer funds should be authorized by Congress.
Any national security interest should not be used to allow the persons who destroyed the East Wing to control its restoration. Any bunker should also follow Congressionally authorized guidelines. Itis not a refuge for a king to escape the people and refuse to leave the White House. Thank you for your attention to this matter.

Name: Lois Obelcz

Name: Ian Taylor
Date: February 18, 2026 7:55:42 am

Please do all that you can to stop the project from proceeding, and demand the restoration of the East Wing as it was. It is clear that the project was initiated with blatant disregard for the rule of law. The presidential administration apparently trusts that nobody will have the strength to stand in the way of its illegal action. It is therefore the crucial responsibility of the Commission to act as the check on this abuse of power. While it is obviously wasteful to tear down a building and then rebuild it in the same form, it is far worse to set a precedent of rewarding illegal actors with their desired results, which can only lead to worse and worse abuses down the line.

Name: Cindy LaMure
Date: February 18, 2026 7:55:48 am

I want this project stopped!!!

Name: Martin Lupowitz
Date: February 18, 2026 7:56:15 am

I oppose the spending of at least $300,000,000 on this project which was initiated without following the correct protocol for review. It is not a modernization project, but a project that destroyed the historic East Wing of the White House. This project was begun illegally and should be canceled. Instead the East Wing should be rebuilt to historic specifications and those responsible for razing the original building should face legal consequences. Thank you for your attention to this matter.

Name: Joel gamble
Date: February 18, 2026 7:56:22 am

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. Name: R LENZ
Date: February 18, 2026 7:56:57 am

I oppose the spending of $300 million on this project (even if it's allegedly "donated" money), which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history.
I want this project, as currently proposed, canceled.
Whatever is built to replace a beautiful historic structure needs to be in scale with its surroundings, serve the needs of the people, and be approved by designers and architects, not by the current occupant of the White House to his gaudy taste.
No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Charles Reith
Date: February 18, 2026 7:57:24 am

Good morning, the White House in its configuration before the destruction of the East wing, is a National Treasure. The quality of that treasure has been greatly compromised by the destruction of that wing. I would hope that the planning process looking forward will work toward the restoration of the White House and the configuration with which it has stood for decades, subject to modification only through an outrage process with public participation. If spending is required to restore the building to the way it was, I would think that that should be kept off the public payroll and instead be paid for by private donors.

On the final note, turning that space into a giant ornate Ballroom is inconsistent with image that America and its president wants to present to the world

Date: February 18, 2026 7:57:35 am

I would like to voice my opposition to moving forward with the East Wing Modernization Project that was initiated without the proper authorization, permits, or design review. Its intention was not modernization of the people's house to serve the needs of the people. It was a self-serving attempt to name a building for the express use of that person and to destroy the people's history. This project should be cancelled and YOU should decide what is needed and design the new East Wing according to your design standards on behalf of the people. Thank you.

Name: Nancy Daniell
Date: February 18, 2026 7:57:39 am

I want this project canceled, and the East Wing rebuilt and restored to its former design.

Name: Elise Morse-Gagne
Date: February 18, 2026 7:57:47 am

I oppose this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but a crass and irresponsible brag that relies for funding on the unstable pillars of cronyism and flattery. If modernization or a ballroom is desired, it must go through the proper channels, be historically sensitive, and use funding that doesn't depend on the whims of individuals. In the absence of any such plans, the East Wing should be fully restored.

Name: Kathy Dorman
Date: February 18, 2026 7:57:48 am

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Katherine Lugenbeel
Date: February 18, 2026 7:58:02 am

DC is my home town. I’m so upset about the White House has been so desecrated by our current president. We all must follow the rules but he doesn’t seem to feel they apply to him. I want to see the East Wing restored to its original form at his cost. We the people do not need a ballroom in the people’s house. We need to honor our history!
I e been appalled at how Mr. Trump is destroying our heritage! If this project of his continues what next will he destroy? Please stop this outrageous disrespect of our country.
Thank you

Name: Karen Hannifin
Date: February 18, 2026 7:58:22 am

I watched with horror and disbelief when the East Wing was demolished. I believe the planned ballroom is garish, tacky and too big for the site. No wing should be larger than the people’s house.

Name: Jen Bremer
Date: February 18, 2026 7:58:46 am

As a citizen of the United States I do not want any of my tax dollars going to pay for this destruction of my property.

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Date: February 18, 2026 8:01:01 am

I absolutely oppose the spending of $300 million in this project, which was started without the proper authorization, permits, or design review. This is not a modernization project! It is a complete and total razing of American history! Please cancel this project and have the east wing rebuilt and restored to its original design. There should be no one above the law!! Continuing this project without penalizing those who broke the law would be yet another affront to all law abiding Americans!! Please stop the madness!!

Name: Amber Pierce
Date: February 18, 2026 8:01:17 am

I oppose the remodel project of the East Wing. This was not demolition. It was the unauthorized, unpermitted destruction of public property - literally The People's House.

Just like any other unpermitted demolition — particularly of a historic building — the parties involved need to be ordered to accurately rebuild to the exact historic specifications of what was formerly there, and all of the sanctions/penalties/fines that would normally be applied should be levied. Lawlessness must not be rewarded - particularly with my tax dollars.

No one — especially the President — is above the law.

Date: February 18, 2026 8:02:25 am

Dear NCP Commissioners,
.
I oppose the "East Wing Modernization Project", which was initiated without the proper authorization, design review, or permits. It has destroyed an important historic building that belongs to the American people. I want this project to be canceled, and for the East Wing to be rebuilt and restored to its former design. To permit this project to go ahead without penalty for the people who destroyed the East Wing is unfair and deeply offensive. We should seek a remedy.
Sincerely,
Sarah Nicholas

The white house is The Peoples House and has been since it's erection. The People have a right to all major changes to it. We, The People are very much opposed to any one person making major changes.
I object to Trump building a monument to himself on the grounds of the White House. I object to privately funded projects being built on the White House grounds. I object to demeaning descriptions being placed under previous presidents' pictures. I object to monuments dedicated to deserving people being renamed by a dictator president.

Name: Sarah Elswick
Date: February 18, 2026 8:04:13 am

To Whom it May Concern:
In an ideal world the East Wing would have been left the way it was, without a hasty and irresponsible demolition conducted without proper approval.
However, that cannot be undone. It is a mournful business, attempting to raise something in the rubble of so much history. A large, gawdy and tasteless ballroom would not be an improvement, but an eyesore. It would be a reminder of reckless and disrespectful behavior towards the American public. Therefore, I would like to see the East Wing restored to its original form, with an eye towards historic restoration. Thank you.

Destruction of such a historic building, more or less in plain sight but without the deliberative process of stakeholder consultation, public review and comment, expert analysis and approvals from concerned authorities is not only unlawful, but against all of our established norms of behavior that made this country exceptional.

What it seems to mimic is how authoritarian nations design, finance and build public structures. We have seen that in places such as China, North Korea, Iran and Russia where they embark on ambitious projects without regard to public involvement from consideration of alternatives to design details. I do not think we should aspire to become more like those places even if it allows us to make decisions and build more quickly because the results, with few exceptions, are not worth the cost in terms of public support and confidence in their government.

Name: Thomas Kashin
Date: February 18, 2026 8:05:38 am

I strongly oppose this project. It was not authorized properly nor is it the prerogative of any current occupant of the White House to redecorate or remodel it without permission of the appropriate historic preservation authority. The East Wing needs to be rebuilt and whoever directed its destruction must be held criminally and civilly liable.

Name: J Salpeter

Respectfully submitted,
Judith

Name: Susan Mahserjian-Smith
Date: February 18, 2026 8:07:05 am

I totally oppose the razing of the East Wing. It is a destruction of public property and desecration of our history. No permission was granted to do so. The President should be made to pay for its total reconstruction to its original design NOT the taxpayers! ANY changes to the bunker below should be removed and restored to the original.

I strongly oppose the building of a ballroom on the site of the East Wing. If a ballroom is constructed it should be approved and built elsewhere after careful thought about its need and consideration of the taxpayer and our trillions in deficit.

Thank you for considering my opinion on this matter.

Respectfully,
Susan Mahserjian-Smith

I oppose the destruction of the EAST WING and the building of a "ballroom."
This was done without permission, permits, without regard of the historical value to America and it's citizens.
Please do not allow the building of a "ballroom," rebuild the EAST WING, give America back it's history.
I also believe the destruction of the Rose Garden is an insult, a slap in the face, to America.

PLEASE do not allow a ballroom to be built!

Rebuild the EAST WING!

Name: A Daney
Date: February 18, 2026 8:07:34 am

I oppose the this project on both procedural and substantive grounds. I opposed the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. This project has nothing to do with modernization and instead is destroying American history and and the architectural integrity of the White House area. I want this project cancel and the East Wing and surrounding landscape areas rebuilt and restored to their former design--without taxpayer money being used. Destroying public property without proper permitting and authorization is wrong. Please make this right--no one is above the law and this project should be stopped; the remediation should happen without taxpayer cost and those who broke the law should be penalized.

Name: Suzanne Roark

Thank you for allowing comments. I feel disgusted that portions of the White House have been destroyed in the first place. If it must be built, a Ballroom MUST be no bigger than the White House itself. The Ballroom facade MUST be as similar in style and aesthetic as the White House and/or surrounding buildings. The interior should not represent opulence, but rather, the humble beginnings of this country. Craftsman should be employed to traditionally paint murals, use traditional materials with American sourced materials as well. Heirloom and native trees and plantings should be

installed on the grounds surround the building. No part of this edifice or any other should be constructed on the whims or personal likes and dislikes of a single individual. Again, thank you for your consideration.

Date: February 18, 2026 8:12:28 am

Dear Sir/Madam

I oppose the demolition of the White House East Wing because changes to a national historic site should occur through transparent review, not unilateral action. Additionally, this $300M project is being funded by large private donations at the behest of the sitting administration which creates at the very least the appearance of influence-seeking or preferential access, and undermines public trust.

The East Wing was destroyed to make way for a new state ballroom funded largely by private donors, with demolition beginning before review by the National Capital Planning Commission and amid unresolved preservation concerns.

The project now should be put in the hands of appropriate preservation department , funding now by the people not private donors. However 300 million should be held in trust, until final determination of historical site.

Return east wing to its original design and size.as was promised,

I am also asking for clear disclosure of donor funding, environmental and design review, and public accountability.

The White House belongs to the people. to symbolize a great nation and not the property of any one administration or party, and major alterations should follow the same oversight standards expected of every other federally significant project.

Name: Emily Peeler
Date: February 18, 2026 8:12:54 am

Calling this fiasco a modernization project is a slap in the face to the American people. The east wing should be restored to what it was before this administration decided to go rouge and tear it down.

Name: John B Smith
Date: February 18, 2026 8:12:56 am

trump should be held accountable for destroying the East Wing. trump is a temporary resident of OUR White House and had absolutely no right to destroy the East Wing for one of his vanity projects. trump should be required to rebuild it at his expense plus penalties.

Name: Diane Douglas

Name: Sandi Parks
Date: February 18, 2026 8:16:16 am

I was horrified by the needless razing of the East Wing, and oppose the spending of $300M (plus) on this project. It was initiated during a government shutdown to flout proper authorization, proper permitting schedules, or even design review from our nation’s national parks service review. The White House Complex belongs to the people of this country, and it should be treated as the National Monument that it is. It should be rebuilt and restored to its former glory. I have visited the White House many times, and it was so beautiful without this gargantuan carbuncle being touted.
No one is above the law, and to permit this hideous and oversized travesty to proceed would be an affront to all law abiding citizens.

Name: Paul Dextraze
Date: February 18, 2026 8:16:23 am

It is unacceptable and sets a bad precedent that this project was allowed to advance without first getting or even seeking the proper authorization for approval. For that reason all construction activities should be halted while a reassessment is made of how to proceed.

Name: Sherie Munday
Date: February 18, 2026 8:16:48 am

I oppose the building of a ballroom where the East Wing stood. This project was started without any regard to the history of our capital building. A review with plans to restore the historic building for all Americans must be enforced.

Name: Heidi Holmes
Date: February 18, 2026 8:16:49 am

Preserving and restoring the East Wing of the White House should take precedence over constructing a new ballroom because the White House is not simply an event venue, it is a living symbol of American history and democracy. The East Wing houses essential offices and supports the daily work of the presidency, including the First Lady's staff and key operational functions. Investing in restoration ensures the long-term preservation, security, and functionality of an irreplaceable historic structure. Building a ballroom may serve occasional ceremonial purposes, but safeguarding the integrity and infrastructure of the existing building protects the legacy and continuity of one of the nation's most important institutions.

Name: Bruce Ginn
Date: February 18, 2026 8:17:18 am

The east wing should not have been torn down. The individual who authorized it should rebuild it to its original plan with their own funding

---

Name: John Herndon
Date: February 18, 2026 8:17:41 am

Any project at the White House must go through the proper procedures, including design review, permitting and proper authorization. This project must be stopped and the East Wing restored.

Name: Linda Frame
Date: February 18, 2026 8:17:50 am

As a U.S. citizen who visited the White House as a child and an adult, and appreciates its place in our culture and identify, it was horrifying to see the demolition of its East Wing in such a reckless manner. I support all efforts to reverse this atrocity and to restore the White House to its former glory. Further, I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Thank you for this opportunity to comment.

I am opposed to president Trump's plan to add a huge ballroom to the White House and condem his destruction of the East Wing without proper authority. I want all new construction to be stopped permanently and for the East Wing to be restored.

The White House has successfully hosted innumerable state dinners and other formal gatherings over many decades. No one, other than Mr Trump, apparently, seems to think a new ballroom is necessary. The scale of his plans would dwarf the current footprint of the White House and give it an ugly, lopsided appearance.

His plan to finance the project with private donations only gives his ultra wealthy donors another way to curry favor with the administration, already rife with corruption.

I oppose the spending of $300 million on this project which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

I strongly urge you to do whatever possible to stop the reconstruction of the White House. While a modification of the building may be warranted, that modification should be done lawfully and not in the high-handed authoritarian manner that is currently in progress. Any change to the White House should be subjected to study as required by law.

The White House belongs to the people of the United States. It's current occupant is a tenant, not the owner, and should not be permitted to usurp the law and the rights of all of us. Please stop the East Wing modernization and ballroom addition.

I am opposed moving forward with the current plans for the Ballroom and East Wing Modernization Project as described in the notifications recently posted. It is clear that the project failed to secure the appropriate review and approval prior to the demolition of the East Wing. The proposed structure fails to support the needs of the citizens of the United States and fails to support the historical significance of the site. Construction and demolition should halt until a full review of both the needs as well as consideration of historical significance of the site. No actions or construction should be attempted on the rest of the White House site continue without review. The posted announcement states that the “major stakeholders” were involved but does not identify these stakeholders. We the people of the United States are the most important major stakeholder.

The reconstruction of the East Wing site should be completed on a scale similar to the site illegally demolished. The style and scale of the proposed site are a waste of funds that would be better allocated to other priorities.

The Whitehouse is the People's House, not owned by the sitting president but built and paid for with our tax dollars.

Name: Shayna Berk
Date: February 18, 2026 8:22:16 am

To begin, I am appalled that we are here. It infuriates and angers me that anyone would be allowed to desecrate a historical monument like this. It should have been voted on and approved before any changes were made. Because of that..... It should be rebuilt to the exact replication of what it was and the people involved in the non approved, non permitted project should be fined personally and forced to fund the rebuilding. If I want to make a substantial change to my personal real property, I have to file permits and follow guidelines. If I do not, I am fined and penalized. None of that happened in this case.
That is the people's house, not personal property of any temporary president. The people were not asked. It literally broke my heart to watch it while it happened. I love my country.

Name: Theresa Kuznar
Date: February 18, 2026 8:22:28 am

The White House belongs to the American people. The desecration of this national treasure by the ignorant and incompetent occupant is another example of his lack of respect and integrity. He should be charged with destroying OUR White House!

Name: EDWARD WATTS
Date: February 18, 2026 8:22:30 am

I oppose the East Wing Modernization Project.
This project began without required National Capital Planning Commission approval, without environmental assessments mandated by the National Environmental Policy Act, and without congressional authorization required by federal law for construction on federal parkland in Washington.
The $400 million cost is funded by corporations holding billions in federal contracts with the administration approving those contracts.
This creates an unacceptable conflict of interest.
The White House is not private property. It belongs to the American people. No president should have unilateral authority to demolish historic structures and approve construction without following the law and allowing public input.
I urge the Commission to reject this proposal.

Name: Kira Erickson
Date: February 18, 2026 8:22:30 am

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. What was in it's place was a beautiful part of history that is now being erased. I hope that the project can be stopped and the wing restored to what it was previously. The whitehouse is for the country as well. It's not just a house you can renovate when and however you want. There needss to be repercussions for the people who did this, it's a violation of the law and it should be treated as such.

Name: Gina Proulx
Date: February 18, 2026 8:22:32 am

This project should never have begun to begin with. It was not legally authorized. The American people didn’t ask for it. The American people don’t want it. And it doesn’t matter who is paying for it. It’s an insult to the history of the country to have ripped that part of the White House down. I think it should be put back exactly as it was.

It’s the people’s house. It does not belong to tech billionaires. And it does not belong to the current occupant.

Anything less would be disrespectful of the country and history and the people.

Name: Jane Shelly
Date: February 18, 2026 8:22:41 am

I do not support the so-called ballroom that this administration is planning to build without proper oversight. It is an

abomination. I believe the historic East Wing should be rebuilt to its former glory.
Sincerely and Respectfully,
Jane Shelly

Name: Virginia Blue
Date: February 18, 2026 8:22:44 am

The East Wing should be rebuilt to the same size within the same footprint of the building that was torn down. The proposed ballroom will overshadow the elegant simplicity of the "People's House". In rebuilding the East Wing, all of the concerns as to ADA compliance, building codes, security concerns, and technological upgrades can be addressed without expanding the size of the building. Other venues exist to house large gatherings, including the tent that was been used previously. As good steward's of our taxpayer dollars, building a giant ugly ballroom is not a good use case.

Name: Susan Langendorfer
Date: February 18, 2026 8:22:51 am

Subject: Reject the Ballroom Proposal — Restore the East Wing

To the Commissioners,

I strongly oppose the proposal to construct a new presidential ballroom on the White House grounds.

The White House is a historic national landmark — not a venue for personal architectural ambitions. A large new ballroom would permanently alter the character, scale, and integrity of one of the most symbolically important civic sites in the United States.

There is no compelling public necessity for this expansion. If upgrades are needed, they should focus on restoring and modernizing the existing East Wing — not expanding the footprint of the historic grounds.

Your responsibility is to protect the long-term architectural and civic integrity of the nation’s capital. This proposal undermines that duty.

Reject the ballroom. Restore the East Wing.

Name: Brian Locastro
Date: February 18, 2026 8:22:58 am

Please pause this construction at this time. Making the east wing into a grand ballroom for someone's ego is not appropriate.

Name: Lynda Lee
Date: February 18, 2026 8:23:01 am

The White House is a federal building where the president is allowed to live during his/her tenure as president. If renovation or repairs are deemed necessary a procedure needs to be followed. It is not solely up to the president to decide what to build, decide on plans, and what to bull doze down with consulting the commission’s that oversee federal buildings. I mourn the loss of the East Wing and its historical significance. I mourn the loss of the Rose Garden. The 90,000 square foot ballroom does not match the 55,00 square foot White House. It should not be allowed. Thank you.

Stop the destruction of this building symbolizing our US history. It's criminal and thoughtless. Trump also takes aim at other art that reflects America's history.

Name: Dee Pochedly
Date: February 18, 2026 8:25:22 am

I can remember touring the White House as a young girl in the early 70’s, and the awe of seeing such a grand place, the People’s House. So I am appalled that such a beautiful place, which belongs to We the People, not any sitting president, is being destroyed at the whim of a man who wants to build a gaudy monument to himself, and basically sell access to it for his wealthy cronies with their donations. I studied architecture as part of my undergraduate training and know enough about design to see that the proposed “modernization” lacks any sense of it, in relation to the remaining structure, which should be the focal point. This is not modernization, but is rather a tacky, narcissistic affront to the symbolism that the White House represents. I urge you to stop this assault to a revered national treasure. I would very much like to tour the White House one more time before I die, but will never do so if this project is allowed to move forward.

Name: Kathryn Ryan
Date: February 18, 2026 8:26:33 am

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

This is a ridiculous self-serving project of the current president. It is a waste of money and an insult to most Americans. It would become a monument to the lawless regime that is currently running the white house.

Name: Jessica Burnham-Hinton
Date: February 18, 2026 8:26:38 am

The East Wing of the Whitehouse was torn down capriciously and without permission. The perpetrators should be required to restore it to its former appearance and keep its historic context.

We do not need a grand ballroom and a structure of that size would destroy the appearance of the Whitehouse. To allow the project to go forward would be an insult to all law abiding citizens.

Name: Bruce Kelly
Date: February 18, 2026 8:26:44 am

I oppose the spending of $300 million or ANY amount of money on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans. Trump is a narcissist and a pedophile, and he and his family, and his administration are criminals. This is just another illegal attempt to grift the American people and assuage his ego by desecrating another place with his name.

Name: Sue Mazzoleni
Date: February 18, 2026 8:26:48 am

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. Here is a polished version that keeps your tone and conviction, while improving clarity, flow, and impact:

———

Thank you for the opportunity to share my thoughts regarding the ballroom project. To put it simply, I am strongly opposed to it.

I was deeply dismayed to see the East Wing demolished before our very eyes for what appears to be a vanity project by the President. While it has been claimed that billionaires are funding this effort, I find that difficult to believe. And if it is true, it raises serious concerns about expectations of quid pro quo arrangements that would not serve the best interests of the American people.

The average taxpayer will never set foot inside this enormous structure. From what has been described, it will be massive, and if it reflects the President's personal tastes, it risks becoming an ostentatious and historically inappropriate addition to one of our nation's most treasured landmarks.

I want the East Wing restored as closely as possible to its historical form. I understand it can never be exactly the same, but its destruction represents more than the loss of a building. The East Wing provided a public entrance to the "People's House." Its removal sends a troubling message — that ordinary citizens no longer have meaningful access to what is meant to belong to them.

The White House does not belong to any one President. It belongs to the American people. No President should treat it as a personal property or reshape it to suit private ambitions, particularly when doing so involves the influence of wealthy donors.

This President will eventually leave office. What should not remain is a permanent, gaudy reminder of damage done to a historic institution. We did not need this project, and many of us do not want it.

In time, I would also like to see the Rose Garden restored, but that is a discussion for another day.

I urge you to listen to the American people. Leave the site as it stands until we have leadership that respects both the history of this building and the citizens to whom it belongs, and that will commit to restoring the East Wing appropriately.

Thank you for considering the views of those who care deeply about preserving our shared history.

Name: Sue Burkeen
Date: February 18, 2026 8:28:25 am

What has been done to the White House is disturbing. This is the people's house not Trump's. He should never been allowed to do anything to change the history of this wonderful house. I can't wait till it gets changed back to normal. Get all that gold crap out.

Name: Kathleen Baldoni
Date: February 18, 2026 8:28:56 am

Please stop any more. destruction. Ballroom architecturally dwarfs the People's House. Rebuild the East Wing as it was, preserve some history. Thank you

---

Name: Laura Johnson
Date: February 18, 2026 8:29:06 am

As a member of the tax-paying public, I request that the East Wing of the White House be restored to its original historic design. Please, no funding for a 90,000 foot ballroom.

Name: Marie Lang
Date: February 18, 2026 8:29:19 am

Please do not allow this unfortunate precedent move forward.

Name: Daniel Huck
Date: February 18, 2026 8:29:38 am

I oppose the demolition of the White House East Wing that was initiated without proper authorization or legal review. Furthermore the acceptance of anonymous donations to fund the construction of what appears to be a hideous and unnecessary ballroom is a clear conflict of interest. This project should be halted immediately and plans should be developed to rebuild the East Wing as it once was.

Name: Bonnie Ardis
Date: February 18, 2026 8:29:41 am

I oppose the demolition of the White House East Wing because changes to a national historic site should occur through transparent review, not unilateral action. Additionally, this $300M project is being funded by large private donations at the behest of the sitting administration which creates at the very least the appearance of influence-seeking or preferential access, and undermines public trust. The East Wing was destroyed to make way for a new state ballroom funded largely by private donors, with demolition beginning before review by the National Capital Planning Commission and amid unresolved preservation concerns. I am asking for clear disclosure of donor funding, environmental and design review, and public accountability. The White House is a shared civic symbol, not the property of any one administration, and major alterations should follow the same oversight standards expected of every other federally significant project.

Name: Lynn Henriksen
Date: February 18, 2026 8:29:45 am

I oppose the spending of the proposed $300 million on this project, a project initiated without proper authorization, permits, or design review. This is a project the desecrates and destroys part of American history. I believe this project should be canceled and the E act Wing (as well as the Rose Garden) rebuilt and restored to its former design. No one is above the law and to permit the project to proceed without penalizing all who broke the law would be an affront to all law-abiding Americans.
Thank you.

The east wing "modernization" is a travesty and should be stopped. It was begun without authorization, permits, or design review. It does not " modernize" anything, but razes history and destroys the beauty of the White House. I want the project cancelled and the Rose Garden and East Wing restored to their former glory. Allowing this project to continue is a poke in the eye to all of us who believe in history and the rule of law.

Name: Curt Sherman
Date: February 18, 2026 8:31:49 am

One wonders at the interest. and knowledge about our countries history of those who advocate for a monstrous addition to our beloved White House. The statement about the planning of the new addition that it 'protects the historic integrity and cultural landscape of the White House and its grounds' is laughable. Walking to the White House, across an area now to vanish, in anticipation of visiting, what in reality has been a humble home for all but one of our Presidents, has been an exciting process. There are many other grand spaces that function as 'ball rooms', when the occasion occurs. The wonderful Building Museum has much more majesty and history than this new proposed ballroom.
I hope the National Capital Planning Commission will seriously consider the future of the historic White House and its Grounds, before authorizing this giant addition.

Name: pat keegan
Date: February 18, 2026 8:31:59 am

i am grateful for the chance to submit my comments to someone who will listen.
i strongly oppose the demolition of the historic East Wing of our White House....the temporary resident had NO RIGHT to rip it down without permission or warning.
the monstrosity that they think will replace it CANNOT be allowed. no one - NO ONE - has been demanding a ridiculously immense ballroom for 150 yrs , as suggested. no one has demanded a ballroom of any size actually.
please , with whatever power you hold , force them to stop construction on that mess and use the 'private funding ' from his donors to REBUILD THE EAST WING AS IT WAS. or, use the obscene amount of funding for the ICE agents to pay for the rebuild.
this was a complete travesty. it should not have happened. it must be restored to the way it was... the current occupant will be gone shortly but that hideous reminder would be there forever. begging - kill this project.

thank you for your attention to this matter. oy.

Stop the destruction of history by a witless man with no appreciation for history or law. Please restore the East Wing to its former construction.

Name: BARBARA MUELLER
Date: February 18, 2026 8:32:29 am

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history.

The scope of this project is too large and will dwarf other DC structures. Please stop this project.

Name: Janice Eitel
Date: February 18, 2026 8:32:45 am

Please consider a more balanced construction at the site of the former East Wing. A large gaudy building will turn the White House grounds into a commercial venue and be a security nightmare. I want the White House to remain The People’s House and a quiet enclave for a proper President. Thank you for considering citizens’ wishes.

Name: Nicholas Caruso
Date: February 18, 2026 8:32:50 am

I am outraged that a national landmark was so tragically destroyed at the whim of a madman. I encourage the NCPC to restore the East Wing to it's original configuration and restore the balance to an American treasure. If the building can be modernized without losing the character it had before being destroyed, I have no problem with that, but keep it in harmony with the rest of the White House.

Name: Andrew Jennings
Date: February 18, 2026 8:33:38 am

This project is both illegal and a disgrace to the country. I wish to support efforts to stop it and rebuild the East Wing to its historical form.

Name: Cathy Rex
Date: February 18, 2026 8:33:40 am

This is an abomination that should never have been allowed. The fact that one man was permitted to decide arbitrarily to

raze and erase a chunk of American history is most distressing. No permits; no plans; no permission — NO PROBLEM for someone who bulldozes (literally) through history.

Name: Sharon Deutsch
Date: February 18, 2026 8:34:00 am

I oppose this project. The wing should not have been destroyed. I do not want an ugly addition to OUR White House.

Name: Amy Akey
Date: February 18, 2026 8:34:02 am

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all!

Name: Catherine Whisenand
Date: February 18, 2026 8:34:10 am

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: M W
Date: February 18, 2026 8:34:21 am

Please restore the East wing of the White House back to his original glory just in a refreshed manner. There’s absolutely no way in the world that a grand ballroom should be built. We are the United States of America not a kingdom. How absolutely sad that all the history from that building has been torn down and lost forever.

Name: Allan scott
Date: February 18, 2026 8:34:31 am

I oppose the spending of $300 (or more) million dollars on this gross project, which was initiated illegally without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this obseen project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Melinda Grafton
Date: February 18, 2026 8:34:32 am

Action: comment against the ridiculous East Wing ballroom at the White House during the public comment time.
Process: Click on the link. In the left column you see "submit written comments." The subject has a drop dow

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

This is not Trump’s house. But America’s. And what he has done and proposes is wrong.

Name: Denise Stephens
Date: February 18, 2026 8:34:37 am

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

And I want the funds supposedly donated for this spectacle to be used to provide food and healthcare to those who need it.

Name: Patrick Skomski
Date: February 18, 2026 8:34:59 am

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. Name: Celia Sgroi
Date: February 18, 2026 8:35:23 am

I want to express my total opposition to this project. It was undertaken without any consultation with the public and without the proper authorization, permits, or design review. I realize that the White House has been added to, modernized, and upgraded many times, but this is different. Tearing down one entire wing of the White House, which housed the First Lady's office complex, the office of the White House social secretary, and a number of other offices that serve the public, with the stated purpose of replacing it with a ballroom that only serves a few privileged people makes no sense and appears to be about flattering one man's ego rather than being directed toward the actual work of the White House. I am 76 years old, and I have read about and seen video of many social events, including state dinners and similar celebrations, that did not require a massive ballroom structure that may, in fact, end up dwarfing the rest of the building. President Trump has claimed that the project will not use taxpayer money, but I am skeptical of such a claim without completing the permitting process. In my opinion, this project should be canceled, and the East Wing rebuilt and restored to its former design. To allow this project to go ahead without the legally required permitting process would be an affront to all law-abiding Americans.

Name: Eunice Sherman
Date: February 18, 2026 8:35:37 am

I oppose the spending of $300 million dollars on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history.

I want this project canceled, and the East Wing (of the People's House) rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

This property belongs to the American people, not the "temporary" residents.

Name: Chelsea Kertland
Date: February 18, 2026 8:36:05 am

Let us remember this quote from John Adams, carved into stone in the State Dining Room in the White House, "I Pray Heaven To Bestow The Best Of Blessings On This House And All that shall hereafter Inhabit it. May none but Honest and Wise Men ever rule under This Roof.”

Honesty- This project was initiated WITHOUT proper authorization, permits, or design review.
Wisdom- This project was initiated WITHOUT the oversight of Congress and appropriate preservation agencies.

In sum, this project WAS NOT a sincere attempt to modernize an old building, but rather it was a complete razing of American history, tradition, and the rule of law. As such, I OPPOSE this project. The White House is not personal property of the president. It is the People's House and belongs to us. Any modifications must be done with congressional oversight, abide by our historic preservation laws, and be guided by the appropriate agencies such National Trust for Historic Preservation (NTHP), National Planning Comission (NPC), National Park Service, etc..

Name: Sheryl Hollen-Hugg
Date: February 18, 2026 8:36:16 am

I am heartbroken. To understand the value of history… that every brick, wall and window that was thrown away is a massive part of history that cannot now be restored. Just put into a pile of rubble and disposed of. The hands that had touched those walls and the feet that had walked those floors…GONE! The changes that are still being made even within the still standing house…horrific! Our president is not supposed to be that type of person and these major changes should never be allowed.

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Mary Werner
Date: February 18, 2026 8:36:50 am

I most definitely and wholeheartedly oppose this project. The rash and egregious destruction of the East Wing of the White House was the result of the utter disregard for procedure and laws governing this historic and sacrosanct building. The procurement of private funds to build an ego edifice has bribery and corruption written all over it. Please do not condone this illegal and un-American desecration of our White House.

Name: Karen Long
Date: February 18, 2026 8:37:18 am

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. Name: Cynthia Gooler
Date: February 18, 2026 8:38:10 am

I do not believe this should have ever happened. This is a nationally historic building the heart of America. It truly needs to stay as it was historically designed as it is our history. The only restoration that should be done is internally with

congressional approval. Which was not done. It has been sufficient for 225 years. The tear down of the west wing needs to be rebuilt as it was designed originally to protect and preserve our history in this nation. One man should not be able to demolish the building as he sees fit it is the people's building not a personal residence and all historical structures should be governed the same way. Please stop this from happening and preserve our most historical building in our nation. Thank you

---

Name: Diane Deacon
Date: February 18, 2026 8:38:19 am

I strongly oppose what is happening at the White House, with the tear down of the East Wing. This should never have happened If renovations needed to be made, it should have gone through proper channels. The administration gleefully stated "too late now" and I believe they knew all along there were channels to go through and decided they don't need to follow the rules. We cannot allow people to bulldoze their way past every guard rail that's been put up.

I believe the proper course is to clear the site, plant grass, sit back, and wait for proper plans to be submitted and reviewed. This is the home of our nation, and it belongs to the citizens, not to some person sitting in the WH for 4 or 8 years. It does not belong to the current president, it belongs to US.

Sincerely,

Tracy Burnett
(A very concerned citizen)

Name: Sydney Heidenreich
Date: February 18, 2026 8:39:28 am

I currently work as an architecture historian conducting Section 106 work and I am appalled at Trump's decision to deface a national landmark with a gaudy addition for no legit, genuine reason. We have processes for a reason. Throwing other people's money at the project and using legal loopholes to circumvent the proper process for impacting a historic structure is shady and deceitful. I do not care that he is the president. It is disingenuous and dishonest. Trump and all of us know it. This is wrong and a backwards way to conduct the process. Our clients get into trouble for demolishing building to make their projects flow easier and bypass Section 106 work. While that is full demolition impacting Section 106 versus demolition of a wing with certain NHPA exemptions the sentiment stays the same. Trump is avoiding our rights as citizens to have a say in what happens to our national structures. He is doing it because he can. He's not 'modernizing' the east wing, he's making a statement, "I was here and I do what I want".

Name: Shelley Kerber
Date: February 18, 2026 8:39:38 am

Cancel this abomination! Its demolition has destroyed part of our history to assuage Trump's ego. This is illegal and completely unacceptable. Stop it today!

Name: Keith Jarvis
Date: February 18, 2026 8:39:43 am

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. Name: Chris Wilson
Date: February 18, 2026 8:40:03 am

I object to the alteration of the White House complex to include a large ballroom that would rarely be used. The East Wing should be restored and expanded to include more working space to carry on executive work. New construction should continue to utilize the dignified design exhibited by the historic building and omit garish gold flourishes currently being added by the Trump administration.

Name: Ann Dulen
Date: February 18, 2026 8:40:13 am

I am against the proposed building of a ballroom where the east wing once stood. This project was started without the consent of the people and without the permits or planning necessary. I think it should be rebuilt back to the original design. It is the house of the people, Not one president.

Name: Jennifer Warner
Date: February 18, 2026 8:40:27 am

Date: February 18, 2026 8:40:44 am

I wholeheartedly OPPOSE this offensive and destructive "project." The destruction was initiated without the proper permits or proper approval of funding. It has nothing to do with "moderization," and everything to do with one person's ego. I want this project stopped immediately and permanently, and the old East Wing design rebuilt as well as possible. The historic structure is already gone, and cannot be truly replaced. I am appalled and dismayed, but not surprised, that the Public Comment period for this "project" comes only after a beautiful, structurally sound, and irreplaceable historic building has been wantonly destroyed.

Name: Donna Tully
Date: February 18, 2026 8:40:54 am

I am against spending 300 million dollars, or any amount, for this unauthorized project as it is being designated. This is not a “modernization” project- it has been an unlawful tear down. The East Wing belonged to the American people and was torn down by an unlawful action . Permits were not sought. Permissions by the LAWFUL authorities were not given. I want the original plans for the East Wing used to rebuild the historic East Wing as it existed before the current administration destroyed it. The current occupant of the White House did not have our permission, or any lawful authority, to destroy the East Wing. We do not want, or need, a ballroom. We want our East Wing rebuilt to all it’s historic glory.

Name: Donna Tully

Date: February 18, 2026 8:41:33 am

I oppose the East Wing Modernization Project. This project bean without the required approvals, assessments, reviews and without congressional authorization required by federal law for construction on federal parkland in Washington. The cost of the project is funded by corporations who hold billions in federal contracts which is a clear conflict of interest. Most importantly the White House is NOT private property! It belongs to the American people. No president would have unilateral authority to demolish historic structures and approve construction without following the law and allowing public input. The East Wing has been a significant source of history and pride for our country for decades and its destruction is abhorrent. I urge the Commission to REJECT this proposal.
Thank you for your time and consideration.

Name: Linda Grassia
Date: February 18, 2026 8:41:38 am

I am writing to state my thoughts on the White House East Wing “modernization project” which was started by President Trump without permits, design approval by appropriate authorities, and at an anticipated cost of $300 million. Our most famous historical building has been destroyed as a vanity project and pay for play scheme. Our laws prohibit this type of action yet the building has been demolished completely.

I want the area fully restored to its original specifications. Do not authorize any continuance of this type of attempt to alter property that belongs to every American.

Name: Jewel Lakatos
Date: February 18, 2026 8:41:39 am

I oppose spending any money, public or private, to complete this totally illegal building of a ballroom at the White House

The crime of destruction has already been committed with the razing of the East Wing. Do not compound it by allowing the horror proposed by 'not my president' to be built.
History and good taste demand better

Name: Patricia Marsh
Date: February 18, 2026 8:42:08 am

I oppose the East Wing Modernization Project. This $400 million construction began without National Capital Planning Commission approval, without required environmental assessments, and without congressional authorization mandated by federal law for construction on federal parkland in Washington. These violations should not be rewarded with after-the-fact approval.

The funding creates unacceptable conflicts of interest. Corporations holding billions in current federal contracts with this administration are funding a construction project at the residence of the president who controls those contracts. This is not charitable giving. This is an investment in access and favorable treatment.

The White House belongs to the American people, not any individual president. I urge the Commission to reject this proposal until full legal compliance is achieved, including congressional authorization and completed environmental assessments. No temporary occupant should possess unilateral authority to demolish historic structures without following the law.

I oppose this vanity project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. This is the peoples' house, and one deranged narcissist CAN NOT be allowed to proceed without the peoples' consent!

No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Sara Farnsworth
Date: February 18, 2026 8:43:22 am

I care about the history and heritage of the East Wing of the People's House that was destroyed in devastating fashion, with no authorization, no warning, covertly with lies leading up to its destruction, lies directly out of the President's mouth beforehand, publicly declaring the East Wing would not be touched and a "ballroom" would not connect to it.

Historic artifacts, woodwork, trim, windows, fixtures, and the like could have been properly preserved and re-used if this was done right and a demolition actually needed to occur.

I want to see the rebuilding of a restored East Wing that is respectful of its historical significance--and I want to see the money for that rebuilding come directly out of the personal private pocket of the man who ordered and approved its destruction while lying about it to the American people, not funded by "donations" that could be seen as corrupt. I want to see a renewed respect for the architectural heritage and symmetry of the White House, in careful balance with its surroundings.

I want to see the cost of replacement of the the huge, old, historic, mature trees at the site come out of the Trump family private coffers. Those did not belong to the Trump family. We mourn their loss.

Name: Cheryl Munick
Date: February 18, 2026 8:43:33 am

I strongly oppose the allocation of $300 million for this project. As the People’s House, any significant changes should be undertaken with full transparency, proper authorization, required permits, and appropriate design review.

This proposal appears to go beyond renovation and instead represents the loss of an important part of American history. I respectfully urge that the project be canceled and that the East Wing be rebuilt and restored to its former design.

No individual or entity is above the law. Allowing this project to proceed without accountability for any procedural violations would undermine public trust and the rule of law.

Name: Stephen Strong
Date: February 18, 2026 8:43:37 am

This project which was undertaken without public comment or responsible group consultation and approval should never have been begun and should immediately stopped and reversed to the extent feasible.

Name: Kathleen Wagner
Date: February 18, 2026 8:43:50 am

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Jennifer Doyle
Date: February 18, 2026 8:44:32 am

It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to

go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Not only do I oppose this project, but I believe there should be harsh monetary penalties for every person and business that was involved in the illegal demolition of the East Wing, up to and including those at the highest level of government. There absolutely must be repercussions.

Thank you.

Name: Marina Wolfe
Date: February 18, 2026 8:44:36 am

I believe that the destruction of the East Wing was done without proper approval and should not have been done at all. Additionally, the planned ballroom does not replace the that portion of the White House with appropriate design to appropriately replace the structure that was destroyed. Nor does it replace the functionality of the East Wing. Previous First Ladies have had the benefit of offices housed in the East Wing. Although the current First Lady appears to not be working at the White House, I'm unsure where future First Lady offices will be.

Name: An American
Date: February 18, 2026 8:44:41 am

By demolishing the East Wing without any input, the Administration has shown its clear lack of respect for America's history and the American people. This error should be corrected. Instead of a ballroom, in its place, a recreation of the East Wing should be built, in honor of the history that was destroyed.

Name: Susan Laun
Date: February 18, 2026 8:44:42 am

I wholeheartedly OPPOSE this offensive and destructive "project." The destruction was initiated without the proper permits or proper approval of funding. It has nothing to do with "modernization," and everything to do with one person's ego. I want this project stopped immediately and permanently, and the old East Wing design rebuilt as well as possible. The historic structure is already gone, and cannot be truly replaced. I am appalled and dismayed, but not surprised, that the Public Comment period for this "project" comes only after a beautiful, structurally sound, and irreplaceable historic building has been wantonly destroyed.

Name: Donna Baldwin
Date: February 18, 2026 8:44:53 am

The White House belongs to WE THE PEOPLE. Donald Trump had no right to destroy our history! Restore our White House to its original design. Keep it symetrical, historical and OURS not HIS. Trump is just visiting OUR house for 3 more years.

Name: Martha Antle
Date: February 18, 2026 8:44:57 am

I oppose this illegal project. Erasing our collective history to stroke the ego of a pedophile, megalomaniac, demented jackass who is probably suffering from the end stages of syphillis is not something we should be supporting.

Name: Stacey Diefenderfer
Date: February 18, 2026 8:45:10 am

I oppose the spending of $300 million on this project, a it was initiated without proper authorization, permits, or design review. It is not a modernization project but rather complete destruction of American history. I want this project canceled

and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law is an affront to all law-abiding citizens.

Name: Melody Rose Morton
Date: February 18, 2026 8:45:12 am

Please return the original footprint. It's the people's house, not the current residents.

Date: February 18, 2026 8:45:32 am

I strongly oppose the massive ballroom that is proposed to be built. I request those plans STOP and Trump and company be REQUIRED to rebuild the East Wing just as it was at the billionaire’s expense.

Name: Peggy McArdle
Date: February 18, 2026 8:46:00 am

My last visit to the White House was in the summer of 1965. Our family attended my father’s reunion of his D-Day Veteran’s 4th Infantry, Ivy Division group, which orchestrated a tour of the White House, where we entered via the East Wing. I want the East Wing rebuilt to its former glory and the White House outline restored, as it was on January 20, 2025.

Please back charge Donald J Trump for the rebuilding of the destroyed East Wing of The White House and hold him accountable.

I concur with Anara Guard’s comment:

“I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history and a vanity project. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: MaryAnn Stone
Date: February 18, 2026 8:48:13 am

No building or addition should be added to or subtracted from the White House without approval from the proper authorities. The White House belongs to the American people not the President.

Name: Margo McIntire
Date: February 18, 2026 8:48:27 am

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Additionally, the outside corporate funding pledged/used for this debacle should be redirected to rebuild the original structure.

Name: Peter Gast
Date: February 18, 2026 8:48:35 am

I oppose spending hundreds of millions of dollars on this project that was started with unpermitted demolition. It is both a way for Trump to collect donations / bribes and to build a personal bunker. The east wing should be restored to its historic layout.

Name: Rachel Latayan
Date: February 18, 2026 8:49:05 am

The White House has always been the people's house. it is a house, not a palace, not a ballroom, not a banquet hall. It is the most historical building in our country and Donald Trump should not be allowed to destroy what has stood for over two centuries. If allowed, this abomination of a ballroom would dwarf what's left of the White House. Despite Trump's claims that it would be funded by donations, anyone with any sense knows that is not true. Even IF the construction costs are funded by benefactors, who will pay for the insurance, upkeep, utilities, etc? Taxpayers, that's who. As a taxpayer, I do NOT want my tax dollars funding the fantasy of a wanna be king. The White House has served 45 other presidents over the course of our 250-year history without issue. There is absolutely NO REASON for this ballroom to be built. The only renovation that needs to be done is to bring back the East Wing as it was before Donald J Trump destroyed it!

Name: Sara Nelson
Date: February 18, 2026 8:49:18 am

The administration should follow the rules. They didn’t - in this case as well as in countless others. Historic buildings should be preserved and if changed need to be made, the plans should go through the proper channels. Having it privately funded smacks of pay to play and is basically bribery and additional corruption. And Trump’s taste is awful. Ostentatious, lacking in any design or architectural integrity. This is the people’s house, not his.

Name: Sharon Oswald
Date: February 18, 2026 8:49:26 am

The "modernization" or tearing down of the East Wing needed and needs to go through the proper channels for review of plans and authorization to proceed prior to.destruction and any future construction.

This house doesn't belong to any one person. It is the People's house. This is just one more action of this person acting like he's above any law. Please use your authority to stop him from proceeding until he complies.

Will someone stop him? Please???

Name: Mackinzie Felder

Name: Judy Brownly
Date: February 18, 2026 8:49:43 am

As an American citizen I am appalled at the complete disregard for our history in the destruction of the East Wing. This is

the People’s House and is not owned by one administration who thinks they are above the law. What has held our country together is our reverence for history and this act is a blatant attempt to erase that history while catering to billionaires and corrupt individuals. It must be restored to its previous structure and appropriate consequences must be implemented. Anything less is a slap in the face to our country and its citizens.

Name: Denise Davidson
Date: February 18, 2026 8:49:46 am

Good morning.
I am horrified by the President's actions concerning the East Wing of the White House. Newly released information indicates the plan is to build a monstrosity: ugly, huge, "modern" and not in keeping with current architecture. The President has no authority to do what he has done in demolishing a beautify element of The People's House. This project should be stopped and a smaller wing (that balances the center and west wing) constructed.

Name: Kevin Waters
Date: February 18, 2026 8:49:50 am

Please stop this project until a less controversial builder, president comes to office....people's house must be built with all the people's input!

Name: Kim Hanson
Date: February 18, 2026 8:49:53 am

To the National Capital Planning Commission -

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Thank you for your time and consideration!

Name: Susan Purintun
Date: February 18, 2026 8:49:58 am

The East Wing should be restored to it's prior historical beauty and paid for by those that participated in it's destruction without the proper authorization, not the taxpayers! There must be accountability! It has been devastating to see what has happened to the White House under this current administration. The destruction of not only the East Wing, but also the surrounding Gardens and beautiful trees that were painstakingly cared for over decades and now we have concrete slabs. It is heartbreaking to see what has been done to such a beautiful structure where so many historical moments took place.

Name: Carol Boram-Hays
Date: February 18, 2026 8:50:09 am

This project should not be allowed to continue in its current form. The president had no right to demolish part of a property that is owned by the American people - not him. Moreover, he should have reviewed any plans through the appropriate committees. As someone who closely follows preservation efforts in this country and has a Ph.S. in the History of Art, I have seen this technique used by real estate developers far too often. The demolish a historic property that is not supposed to be harmed in the middle of the night and then cities relent on their projects, saying that there is nothing more they can do since the historic property no longer stands. This only rewards those developers and encourages illegal behavior.
Secondly, the proposed addition to the White House is grossly out of proportion to the rest of the structure and much more lavish than the original architecture. It is in no way appropriate stylistically.

Name: Gwen Walker
Date: February 18, 2026 8:50:14 am

The destruction of the East Wing of the White House without oversight is exactly what the American people have come to expect from this administration: disregard for everything America stands for including our true history and human decency.

Name: Pam Rearick
Date: February 18, 2026 8:50:21 am

I am opposed to the East Wing Modernization Project as proposed by the current administration. In my opinion the proposed ballroom is out of proportion to the existing historic White House, the people's house. I would urge that the eyesore created by the demolition of the former East Wing be stabilized and all construction ceased, until a committee of experts, made up of non-partisan members, can meet to determine how to go forward and that all procedures proscribed by current law be followed. These steps should have been followed before any demolition began.

Name: Nancy Steeley

Date: February 18, 2026 8:56:26 am

I would like to go on record as totally opposing this construction for Donald Trump. This is absurd that this room be built to accommodate such parties and events for this man while the US is in such turmoil. We cannot sit by and act as though everything he does is just fine while the US is clearly falling apart. At this point it resembles that destruction that he has already caused us. I am ashamed to even live in the US at this point. Stop fueling his desires.
Build back the same rooms that were already in place and don't let this child-man have his way any longer.

Name: Ellen Barry
Date: February 18, 2026 8:56:27 am

The garish, horrifying alterations to the White House made thus far by the present administration are indicative of horrors

to come unless the Planning Commission has the good taste, commitment and strength to step in and restore good taste, appropriate scale, and respect for history.

Name: CHRISTINE BOZARTH
Date: February 18, 2026 8:56:31 am

The White House is a symbol of America and to have it so recklessly modified, with seemingly no accountability to architectural history, is appalling and embarrassing. One of the reasons why Washington DC is so lovely is its neoclassical architecture and its strict exterior building codes in places close to our National Mall. I am terrified to think that the White House will end up looking like some Mar-A-Lago monstrosity. I had the privilege to visit the White House twice during the Biden Presidency and I could feel the proud American history of the home. As a 40-year resident of the DC area, I am ashamed of the current state of the White House. Additionally, with Trump's record of refusing to pay building contractors, I am worried that this will happen here and cause yet another embarrassment to our once great country.

Name: Robert Chilton
Date: February 18, 2026 8:56:33 am

I am opposed to this. It is morally wrong to spend this amount of money to satisfy one person's ego and destroy history in the process.

Name: Jacqueline Latzer
Date: February 18, 2026 8:56:33 am

People can't afford food. The Potomac sewage is creating another health issue. Yet, the Trump administration is more interested in pursuing projects that feed his ego without preserving our heritage. How about spending this money on projects that improve the lives of American citizens rather than wasting it on a ballroom. This is not a kingdom, it's a republic.

Name: Scott Miller
Date: February 18, 2026 8:56:44 am

I want this project canceled, and the East Wing rebuilt and restored to its former design.

Name: Dawn Sacks
Date: February 18, 2026 8:56:53 am

I oppose the spending of $300 million, or any amount, on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. Any future action must be done according to the pre-Trump established rules and regulations for changes to the People's House and under the review of Congress. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Lisa Olson
Date: February 18, 2026 8:56:56 am

This is not a modernization project. I am deeply angered and saddened by the illegal act of this administration to raze history in their demolition of the East Wing. The administration did this without permits, without permission, and without authority.

I look forward to the day when the criminal ring under Donald J Trump, known as the executive branch and the

president’s cabinet, are held to account for their crimes, including this one. The East Wing must be rebuilt — as soon as possible!

Name: Jane Morrisson
Date: February 18, 2026 8:57:00 am

We do not need a ballroom bigger than the White House itself. What we need is the complete restoration of the East Wing that was taken down with no permits, public comment, etc. We need this administration to understand that they are subject to all rules, regulations, permits, etc. and the public must have the opportunity to comment on any plans for any renovations to The People's House.

Name: Laura Miner
Date: February 18, 2026 8:57:37 am

The East Wing should never have been destroyed and plans for a Ballroom should never have been made.
Only a proper due process should be followed. The recognized experts in Historic Preservation and integrity in the process must be given priority. If anything, The East Wing should be rebuilt as it was.

Name: Elizabeth Lehr
Date: February 18, 2026 8:57:45 am

Please limit the size of the project so that the White House itself remains the central focus of the property.

Name: Dave Mundt
Date: February 18, 2026 8:57:50 am

The destruction of the East wing and the proposed monstrosity of a ballroom to replace it is a travesty and a foolish endeavor. We are not talking about just building here we are talking about a symbol of America. I demand that this project be reversed, and, the East Wing restored to its original state, with internal upgrades to bring it to Modern standards.

Name: Anne O’Connell
Date: February 18, 2026 8:57:59 am

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Sandra Larsen
Date: February 18, 2026 8:58:07 am

Cancel this project and restore the East Wing to its important historical importance. I oppose the $300 million project which has not sought nir received the appropriate approvals.

Name: Dave Derrig
Date: February 18, 2026 8:58:23 am

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history.
This project should be canceled, and the East Wing rebuilt and restored to its former design.
No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Catherine Behrens
Date: February 18, 2026 8:59:09 am

This project is a desecration of our American heritage and values. It should be canceled immediately and rebuilt to the original design. It is an insult to the American people. Stop it now!

Name: Laura Kosakowsky
Date: February 18, 2026 8:59:10 am

As an archaeologist and a professor I am deeply committed to the preservation of culture and history, and teaching those values to our next generation. I strongly oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. The White House is not only the People's House, but a representation of our heritage. The proposed "ballroom" is not a modernization project but rather a complete razing and destruction of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Laura Cadreau
Date: February 18, 2026 8:59:25 am

Stop any further destruction of this national treasure!

Name: Katy Rank Lev
Date: February 18, 2026 8:59:26 am

I oppose spending $300 million on this project, which was initiated without proper authorization, permits, or design review.

It is not a modernization project but rather a complete razing of American history.

I want this project canceled, and the East Wing rebuilt and restored to its former design at the expense of the person who broke the rules to begin with. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Loretta Brady
Date: February 18, 2026 8:59:42 am

EAST WING MODERNIZATION
I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Jaclyn Flatow
Date: February 18, 2026 9:00:43 am

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Jennifer Silber
Date: February 18, 2026 9:00:52 am

I am writing to express my horror and anger at the demolition of a portion of the White House and commencement of a project undertaken without proper authorization, analysis, or review.
The project should be terminated; the East Wing of the White House should be rebuilt and restored to its historic design. It is owned by the people of the United States, and cannot be altered on such scale by the whim of any single individual. To permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Lisa Lamadriz
Date: February 18, 2026 9:01:00 am

I oppose continued construction of the former East Wing of the People’s House. This building does not belong to one man or one woman or one administration. It belongs to the citizens of the United States and was unlawfully damaged with the waxing of the East Wing. Construction must be halted and the East Wing must be restored to its former historical wing of the White House.

Name: Penelope Stinson
Date: February 18, 2026 9:01:07 am

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Linda Kilbarger
Date: February 18, 2026 9:01:30 am

I oppose the building of any ballroom. This is the people's house.

Name: paula Gardner
Date: February 18, 2026 9:01:30 am

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Beth Lustig
Date: February 18, 2026 9:01:30 am

Restore the East Wing to the historic scale, character, and architectural integrity that it was and keep in context to the broader White House complex. The East Wing should be brought fully into compliance with current safety standards and accessibility requirements, including ADA guidelines. Modernizing the building to ensure safety, inclusivity, and functionality is crucial, but should be accomplished in a way that respects the landmark framework.
Do not allow special interest funds to influence or pay for the rebuilding.
If a larger ballroom is necessary perhaps it can be constructed elsewhere in another building in the city or at least keep it within the footprint of the original building.
It is the People's House. Do not make it a palace, show restraint in the construction inside and out.

Please return the East Wing to it's original splendor including duplication of Jackie Kennedy's Rose Garden.

Name: Rich Schmeltz
Date: February 18, 2026 9:02:05 am

I oppose the spending of public funds on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Betsy Olivanti
Date: February 18, 2026 9:02:09 am

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law abiding Americans.

Name: Teresa Smith
Date: February 18, 2026 9:02:37 am

I am totally against this project moving forward. Turning the beautiful and historic East Wing of the historic White House into a huge Ballroom for Billionaires is an abomination.
The ballroom is horribly designed! It will loom larger than the current White House itself!! The beauty and grace of the White House grounds will be ruined.
I would support the East Wing being rebuilt to its former size and design. Please bring the people’s White House back to its historic splendor!

Name: Jean Legal
Date: February 18, 2026 9:02:49 am

I strongly oppose the size of this project. It needs to be reviewed and hopefully scaled way down. It is my house and every other American’s house. We should have a say in its renovations.

Name: Ilene Boorman
Date: February 18, 2026 9:02:57 am

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather an razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Beth Felder
Date: February 18, 2026 9:03:15 am

Remember the East Wing of the White House? Remember the giant ballroom that the tech billionaires have agreed to fund in its place? The National Trust for Historic Preservation is making a gallant effort to stop this. And we can help.

Thanks to the National Trust, we have until March 4 to submit comments about the ballroom to the National Capital Planning Commission. You can make a comment through the link below (click on Submit Comment). PLEASE NOTE, the project is called East Wing Modernization on the pull down menu.

Anara Guard's comment on this is beautiful. She gave me permission to post it here, if anyone wants to use her language.

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or

design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-

The destruction of our nation’s history by this classless administration is horrendous, frightening and embarrassing.

Name: Michelle Laudermilk
Date: February 18, 2026 9:03:20 am

Along with many, many others, I oppose the spending of $300+ million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. Its purpose is to placate, bribe, and stroke the ego of one individual, Donald J. Trump. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Sandra Potthoff
Date: February 18, 2026 9:03:24 am

Trump had no right to demolish the East Wing, and he has no right to build a HUGE ballroom that will totally ruin the look of the White House. He did this without proper authorization, permits, or design review. He has destroyed the people's house, which is an affront to the American people. The project needs to be canceled, and the East Wing needs to be rebuilt to its former design.

Name: Stephen Kadwell
Date: February 18, 2026 9:03:31 am

This project does not represent the will of the people. It is not a monument to our shared experience as Americans nor does it reflect American values. Its sole intent is to immortalize one man at his own direction. If completed it will be an eyesore and an embarrassment to the nation and the nation's capitol.

I am strongly against this attempted apotheosis of the current office holder and no president should be able to modify the Whitehouse or any federal building, including the building of monuments for their own aggrandizement, in this manner.

Restore the East Wing.

Do not build this ballroom.

Thank you

Name: Catherine Oswald
Date: February 18, 2026 9:04:28 am

I oppose the east wing project. It was demolished without proper authorization, and to allow it to proceed would be a slap in the face to the American people. This is the people's house, it does not belong to Trump. I demand it be restored to its prior glory.

Name: Jon Wilson
Date: February 18, 2026 9:04:43 am

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Cheryl Imperatore
Date: February 18, 2026 9:05:02 am

The destruction without permission of the east wing of the White House shows contempt for history, preservation and good taste. Do not let it continue. This is part of the People's House, is it not? Then why let it be done in such a manner, even for one day more?

Name: Elizabeth Jose
Date: February 18, 2026 9:05:03 am

I strongly oppose the proposed ballroom. President Trump publicly told the American people that no portion of the White House would be damaged and the ballroom would not touch the existing White House. Then he demolished the entire East Wing without any public notice or comment. The proposed ballroom completely overshadows the White House. The proposed use of private "donations" removes all transparency and Congressional oversight and introduces the potential for "donors" to improperly influence the administration. The replacement of the East Wing should be built to the same exterior specifications, size, and design as the prior East Wing. It should be funded by tax dollars with full transparency and oversight by Congress. And the design should be approved by fully qualified professionals in their field.

Name: Karen Gerbatsch
Date: February 18, 2026 9:05:05 am

I oppose the demolition of the White House East Wing because changes to a national historic site should occur through transparent review, not unilateral action. Additionally, this $300M plus project is being funded by large private donations at the behest of the sitting administration which certainly creates the appearance of influence-seeking or preferential access, and undermines public trust.

The East Wing was destroyed with demolition beginning before review by the National Capital Planning Commission and amid unresolved preservation concerns. I am asking for clear disclosure of donor funding, environmental and design review, and public accountability.

The White House is a shared civic symbol, not the property of any one administration, and major alterations should follow the same oversight standards expected of every other federally significant project.

Name: Dianne Haas
Date: February 18, 2026 9:05:20 am

The East Wing MUST return to its historic design. It should have NEVER been torn down! The ballroom design is unacceptable and should be voted down. The WH already has a ballroom. This was not about modernization, this was about destruction. If this continues, we lose our historic buildings forever.

Name: Jane Brooks
Date: February 18, 2026 9:05:22 am

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. Name: Sharon Rush
Date: February 18, 2026 9:05:55 am

Restore the east wing!!!!! NO ballroom!!!

Name: Louise Carey-Ruszczyk
Date: February 18, 2026 9:06:04 am

The White House is not owned by the sitting president. It
Is a precious building which has been occupied by all presidents since
John Adams. The representatives of the citizens, only, have the
Right to make such a change.

Name: Lura Messier
Date: February 18, 2026 9:06:15 am

I want the the East Wing rebuilt to it's former design with no additional changes to it's size.

Name: Gail Ramsdell
Date: February 18, 2026 9:06:35 am

I am vehemently opposed to this project. It was initiated with complete disregard for following protocols that have been established to include authorization, permits, and design review. The project is not of design or scale to blend with the remaining structures. The destruction of the East Wing was a demolition of history without any input from other entities and bypassed traditional review processes. This project should be cancelled and the East Wing should be rebuilt and restored to its former footprint and design. No one is above the law and approval without penalizing those who broke the law would be a slap in the face to all law-abiding citizens and would give permission for others to destroy the history of the White House complex.

Name: Carol Fuchs
Date: February 18, 2026 9:06:37 am

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Ginger Schultz
Date: February 18, 2026 9:06:44 am

There is ZERO need for a ballroom!! Restore the east wing back to it's original form.

Name: Jessica Gigot
Date: February 18, 2026 9:06:50 am

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Ginny Noel
Date: February 18, 2026 9:07:02 am

I oppose the East Wing Modernization Project. We do not need a Ballroom that would dwarf the scale of The White House.

Name: Catherine Mossburg
Date: February 18, 2026 9:07:08 am

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding citizens.

Name: Jonathan Freeman-Coppadge
Date: February 18, 2026 9:07:14 am

The White House is supposed to be the People's House, but Trump is making it into his next branded property. The ballroom threatens to unbalance the property — in size, symmetry, and ornateness. The modesty of the White House represents the measured decorum of a liberal democracy, in contrast to the garish palaces of foreign princes. But garish and gilded is what the White House has become under Trump, and this construction will make that transformation permanent.

Name: Cheryl Steimle
Date: February 18, 2026 9:07:17 am

I oppose the $300 million expenditure on this project, which was initiated without proper authorization, permits, or design review. Rather than modernization, it amounts to the destruction of American history. I urge that the project be canceled and the East Wing restored to its original design. No one is above the law, and allowing this to proceed without accountability would undermine the rule of law

---

Name: Sharon Parker
Date: February 18, 2026 9:07:18 am

I am appalled that our historical White House has been partially demolished with no legal process whatsoever. It should be required to be replaced to original design as closely as possible and at the expense of DJ Trump. The taxpayers and federal government should not have to pay a single dime for this illegal destruction.

Name: Anne Nydam
Date: February 18, 2026 9:07:22 am

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history for the purpose of self-aggrandizement. If the people wish to commemorate an individual in American history it is their choice to do so, not the

ego project of that individual himself. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Elizabeth Wheeler
Date: February 18, 2026 9:08:00 am

The East Wing was destroyed to make way for a new state ballroom funded largely by private donors, which implies influence-seeking or preferential access, and undermines public trust.

Changes to the East Wing, a national historic site, must occur through transparent review, with the assurance that design is consistent with and complementary to the White House. Congress must approve this alteration. There should be no "branding" of the structure.

The White House is a civic symbol as the people's house, not the property of any one administration. Alterations must follow the same oversight standards required of every other federally significant project.

Name: Barbara Cline
Date: February 18, 2026 9:08:04 am

As a history major who spent 42 years as an archivist for two Presidential libraries, I am appalled that Trump thought he could destroy a historical structure. Instead of some gaudy ballroom, he should be forced to rebuild exactly the East Wing and remove all of the distasteful and disgusting golden bling from the walls of the PEOPLES HOUSE!

Name: Bridget Miklausich
Date: February 18, 2026 9:08:12 am

I oppose the East Wing Modernization Project. This is not modernizing, it erased our history - without any consent or authority. It is replacing part of OUR house with a project fueled by ego and bribes. There is no visibility to the funding and there is a strong correlation between "donations" to the ballroom and favorable contracts and decisions in favor of the donors. I demand the East Wing be restored and those that illegally destroyed it be held accountable.

Name: Mary Webb
Date: February 18, 2026 9:08:20 am

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. Name: Lois A Wiseman
Date: February 18, 2026 9:09:39 am

I am heartily opposed to this project. It will alter the look of a historic building, and was planned without proper procedure. Tearing down of the East Wing was also completed without the proper permits. I do not want The White House to look like a pre war Berlin building, overwhelming the size and beauty of the White House. It will be over-sized and gaudy. The funding for this monstrosity, would be better directed in other ways to help Americans in need. No more building, or changing historic buildings in Washington, D. C.

Name: Sandi Soliday
Date: February 18, 2026 9:09:40 am

I object to the destruction of the East Wing and construction of a ballroom. To destroy a historical building without oversight is unconscionable. Rebuild now!

Name: Sheila Galup
Date: February 18, 2026 9:09:53 am

the White House is for the people and a piece of history - it should be accessible to all and not just for parties for the elites, keep it small, humble and inviting to all not for the elites to have another party space - you can do that somewhere else. As a trained archeologist - i have learned to leave things as they are as much as possible. Please don’t destroy our national treasures, preserve them to the best of your abilities. Do something right and for the good of all for once Mr. Trump. Leave a legacy for good, then slap your name on it if you want.

Name: Catherine Ward
Date: February 18, 2026 9:10:04 am

I oppose to spending $300 million on this project that was initiated without proper authorization, permits or design review. It is not a modernization project but rather a complete razing of American history. I want the project canceled and the East wing rebuilt and restored to its former design. No one is above the law and to allow this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans. My heart breaks when I look at photos of the devastation left in its place that was filled with the rich history of our beautiful country.

Name: Scott Simpson
Date: February 18, 2026 9:10:16 am

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Karen Martel
Date: February 18, 2026 9:10:38 am

When I saw photos of the destruction of the East Wing of the Whitehouse, I felt sick. We had been lied to by the current occupant of the building, who pledged that the “existing building” would not be touched. In late October, he apparently had changed his mind, and the entire complex was demolished in a matter of days.

To me the White House is an important symbol of our national pride. Now, it's destruction represents what is also happening to our Democracy. At this point the DOJ is claiming that they HAVE to go on with the project because of "National Security" issues. This problem was created when the wing and underground bunker were demolished last year. Did anyone consider National Security then?

I am opposed the spending of $400 million on this project, no matter where the money comes from, but especially when it comes from wealthy donors who no doubt will be cashing in on government contracts, etc. I suppose the taxpayers will be paying for the maintenance of the building, including upkeep of the gold leaf.

This whole project was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. The ballroom is way out of scale to the rest of the Whitehouse. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Thank you

Karen Martel

I have been horrified at the desecration and destruction occurring at the White House, especially the East Wing structure and JBK Garden. It is too late to rebuild what has been destroyed, but I hope and pray that the grandiose design proposal currently on the table can be radically scaled back to something appropriate to the site and architectural heritage of the WH. The more Jeffersonian extensions of both the West and East Wings were genius, both in the originals and in the 20th century upgrades. If we have to look to Versailles, lets think Trianon-like Pavilion, appropriately scaled, not Palace. The White House is the People's House, not DJT's.

The White House is the “People’s” House and as such, there is a recognized and respected process for any administration to go through to renovate the structure. The building was never meant to be the property of the sitting President and there has never been any authorization for a President alone to render permanent changes to the structure without first going through the appropriate review came approval process.

The demolition that has happened without review and approval by this President has erased decades of American history tied to this great public institution. An architectural history that was never rooted in the idolization of a single person, but rather a story of the rich architectural history of our nation.

I respectfully request that any future work on the building go through the proper review and approval process and that authorization for future work be focused on bringing the building back to its original design with only simple and architecturally relevant design changes, which represent the improvement to the overall aesthetics of the building, be approved by the appropriate review authority.

Name: Anne Brophy
Date: February 18, 2026 9:12:10 am

I object to this blatant act of destruction! The East Wing should be restored to its former beauty and historical significance.
When I saw this being destroyed, I felt like part of my heart was being ripped out, my history, my country. No one had a right to destroy part of our country. Rebuild and convict Trump!

Name: Kendra Nelson
Date: February 18, 2026 9:12:23 am

I would like to see the east wing of the white house restored to its original state. Trump should be fined and responsible for paying for what he has destroyed.

The White House has been traditionally called "the People's House", yet the present administration is treating it like personal property. The East Wing was demolished without going through the proper channels and I doubt that its historic significance had any bearing on the decision. The proposed ballroom will significantly dwarf the main structure and

destroy the symmetry of the architecture. That all this took place without any consult from the NCPC is appalling. There is no need for such a large ballroom, large social gatherings at the White House were held before without such a venue. I also doubt that it will be done in tasteful manner in keeping with the former tone of the previous administrations preservation efforts of this historic structure. I only hope that if this structure is built it will in turn be demolished under a new administration.

It is, of course, shameful what has already happened to the East Wing....and it never should have happened!
Hopefully, this meeting to discuss the "problem" will bring sanity, and proper resolution to restore the beauty and balance to the White House.
The White House does not need a gigantic "ballroom" ~ certainly not at the expense of any other part of the White House,historic or not.
What has happened to the White House so far this year is terrible, wrong & not the least appealing.
Please do NOT agree to any awful horrid plan being proposed for a gigantic, unsightly, ungainly, rather ugly ballroom.
It should be remembered, the White House is often called "the People's House" and any changes, modifications MUST go thru proper channels to keep It in perspective & balance & beautiful.....AND not at a huge cost to the American people.
Thank you.

Name: Kathleen Austin
Date: February 18, 2026 9:15:07 am

This is not a “modernization” project, it is a complete obliteration of the East Wing to be replaced by a monstrosity that will dwarf the White House itself. This “ballroom” is not necessary, but is rather a vanity project by the current occupant of the White House. It is a project that did not get the proper authorization, review or permits. Putting all of the foregoing aside, the amount of money this project is estimated to cost is outrageous & it just continues to grow. The East Wing should be rebuilt as it was originally.

Name: Vivien Straus
Date: February 18, 2026 9:15:14 am

I oppose spending $300 million for this project. There are laws for a reason.This was done without authorization and permits. It should be rebuilt to the same footprint and designed with appropriate approvals. This constant going around the law is against everything this country has tried to avoid. Let's not let one more decision made outside the law.

Name: Jacquie Forester
Date: February 18, 2026 9:15:20 am

I strongly oppose the plan to replace the East Wing of the people’s house with an oversized ballroom. I would like to see the demolished East Wing restored to its original footprint, with modern interior updates as needed. The current President should not be free to destroy any part of what is for him, temporary housing. Thank you.

Name: Susan Andre
Date: February 18, 2026 9:15:20 am

The proposed ballroom should be 1/3 the size of the current proposal with a shortened new East wing on either side of the

ballroom. This would be more secure for foreign dignitaries, US diplomats, and a less costly solution, with a pleasing esthetic . Proper entry and parking could be used without interference with roads and buildings already present.

Name: Roberta Bidwell
Date: February 18, 2026 9:16:02 am

I am strongly opposed to any project that by steps processes that have been set up to protect the interests of the public interest and financial oversight. This project in particular seems to be an allegory for the current tear down of democracy in an effort to steal power. Last time I looked we do not have a king and I want no shrines erected for personal glory in America. Pride is diminishing daily and this oversight function is one means of reclaiming "the People's" property. If you want buildings to represent you, then donate the money to build them and with that, name them.

Name: Debra Dean
Date: February 18, 2026 9:16:23 am

This is a vanity project, not a modernization project, born out of an egotistical desire to slap one’s name on anything and everything, engilding it as one goes. No one asked for, nor wanted, this monument to greed. It was initiated without the necessary permissions/paperwork, without the input of the people who own the building - the citizens of the United States. Our history is being erased without our accord. My father, a 1st Lieutenant in the US Army, served his country during the Korean Conflict, later losing his life in that service, to ensure that my sister and I, and the generations to come, would be able to live free in a democratic society. I never thought I would live to see that shining city on a hill being trashed while a gaudy monument to mediocrity and venality is erected in its place, as we are sliding headfirst into autocracy. Please stop this abomination, for the sake of my grandchildren and all future generations, and in honor of the sacrifice made by my father and that of all the other serving men and women. Thank you.

Name: Rosemary Nelson
Date: February 18, 2026 9:17:26 am

O oppose to this project for several reasons: 1. The purpose is to erase history. 2. Obviously, our national buildings need to be maintained but this is a complete destruction of a functional and historic part of the White House. 3. The decision for this project was done without the approval of the proper channels. 4. The money used to fund this project is astronomical and the source not completely clear. 5. The president's occupation is temporary. He does own the White House and should not make such decisions without the appropriate approvals.

Name: Carrie Jackson
Date: February 18, 2026 9:17:31 am

I am writing to express my strong opposition to the demolition of the East Wing. This is not merely a renovation; it is the destruction of a critical, historic part of the White House that disrupts the architectural integrity of a national landmark. Furthermore, the proposed 90,000-square-foot ballroom is inappropriately scaled, overwhelming the existing building, and the project appears to be moving forward without required approvals from the National Capital Planning Commission.

Name: Kathryn LeSage
Date: February 18, 2026 9:19:14 am

The illegally demolished East Wing of the White House should not be replaced with a ballroom. The function of the executive branch of the federal government is not to host dances and parties. It is to take care that the nation’s laws be faithfully executed. To fulfill that function, the offices previously housed in the East Wing should be restored.

Name: Jeanne Shuey

Date: February 18, 2026 9:19:21 am

I strongly oppose the spending of any public funds on this project which was initiated without proper authorization, permits, or review. This is not a justifiable modernization project but rather the wanton destruction of an important historical artifact. This project should be canceled and alternative construction plans solicited for consideration. Those who initiated this project without the proper approval should be prosecuted and penalized to the full extent of the law.

Thank you for your timely consideration of this matter.

Name: Cheryl Heide
Date: February 18, 2026 9:19:30 am

I only visited the White House once many years ago. But it was a thrilling experience to see and tour what is a symbol of governance of the county we love. It is the people’s house inhabited by individuals that citizens collectively have selected to lead us in a direction for the good of all and of our country. While there have been changes to the structure over many years to accommodate the needs of its residents, and it has been modified to preserve historical significance, the integrity of the building has been preserved. To see the White House, in total, destroyed in such an insensitive way by one individual to accommodate a need for self importance and political statement should not be allowed. Under this administration there have been alterations to the interior of the White House that follow this ill conceived direction but razing of the East Wing to facilitate a ballroom is a monumental step in severe negative alteration and destruction of a national symbol that must not continue.

Name: edward morgan
Date: February 18, 2026 9:19:43 am

The proposed ballroom is comically large and out of proportion to the rest of the White House.

Furthermore, you don't have to be an architecture critic or historian to recognize that this construction is inconsistent with the stated values of our nation, which should be, and up to now have been, movingly expressed in the architecture of the White House. It's one of the clearest expressions of what the American system of government is meant to be about: government by the people, for the people. As such, the White House should be both beautiful, because this is a beautiful notion, and relatively modest, because it is, after all, a house for the President, the head of one of three coequal branches of government and a regular citizen.

This proposal furthers neither of those goals: aesthetically, its pompous grandiosity and scale is inconsistent with the rest of the site, and symbolically, well...

This project is laughably called the "East Wing Modernization Project", but of course its primary intention is not to "modernize", but rather to move us backwards towards a time when the powers of many states were vested in a single person and could be used without restraint for that person's enrichment and aggrandizement. If one had wanted to modernize the East Wing -- which would maybe even be a good thing to do, from what I understand! -- one could have. But there would have been no need for this grotesque, out-of-scale ballroom, whose plans evince no regard for our nation's history and values. So here one must state the obvious: the ballroom isn't really a ballroom. Rather, it's a monument to our current President's pathetic, childish, unsatisfiable desire to be seen as the biggest and the best, and to cast himself as king. And that's simply an unacceptable thing to build in our republic.

If built as proposed, this ballroom will be an architectural eyesore and, I regret to say, a more hideous stain on our nation's history.

Name: Sarah Evans
Date: February 18, 2026 9:20:02 am

I oppose the abuse of using public funding for a project that has not sought proper approval. This project has been hasty and destructive to the building and disrespectful to the American people. This is a public house, not a personal palace.

Name: Marisol Perez
Date: February 18, 2026 9:20:10 am

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. Name: Bruce Wright
Date: February 18, 2026 9:21:58 am

No, I don't support the project, other than restoring the EAST WING. Thank you for considering my opinion.

Name: Marsha Leutza
Date: February 18, 2026 9:22:10 am

This proposed building is a disgusting symbol of the current president's greed, over reach and bad taste. Stop this now.

Name: Pat Zink
Date: February 18, 2026 9:22:41 am

1. I oppose the spending of $300 million on this project. I am NOT happy that my house, the house of the people, was demolished WITHOUT coongress approval and oversight. Before a penny is spent to renovate the East Wing, there needs to be a full investigation of this illegal action by the current administration.
2. I want the project cancelled until there is a FULL investigation. NO ONE is above the law and to permit this project to continue WITHOUT penalizing those who broke the law would be an affront to all law-abiding Americans. This administration needs to be held accountable. Fines need to be imposed for this wrongful action. Congress and correct authorities MUST require full disclosure of funding to determine if there are any violations to Emoluments Acts.
3. There is no need for a 90,000+ square foot ballroom. Absolutely no need! Congress needs to be 100 % involved in the cleaning up of this mess that the current administration has made. All parties need to be held accountable.

Pat Zink
a very upset American citizen

Name: Joan Wallis
Date: February 18, 2026 9:22:43 am

As a U. S. citizen, I am one of the owners by right of citizenship, of the White House. For that reason alone, I feel strongly that the removal of the East Wing was not only an affront to all people who live in this country, vote and pay taxes, but an illegal act. If every resident of that building was allowed to spend money not theirs to change the architecture and purpose of the White House, it would lose its historical significance. It would be no more significant than a hotel that hosts its changing clients.

I am outraged that the current resident of the White House by-passed all legalities to create a ballroom, of all things, that would have no usefulness for almost all United States citizens. No commission was consulted, no congressional approval sought, to destroy a public building that used to symbolize the power of this democratic republic to elect its leader for a 4-year term. A temporary resident.

I ask that the current resident be made to reconstruct the East Wing at his own expense, since he unilaterally made the decision to destroy it.

Joan Wallis

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Nancy Little
Date: February 18, 2026 9:23:54 am

The East Wing needs to be restored on the same foot print. It is part of the people’s house. We should have had a say through the various organizations related to the White House and its history. It is not the present occupants building.

Name: Deborah Snyder
Date: February 18, 2026 9:23:56 am

I strongly oppose the spending of millions of dollars on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to our national heritage and all law-abiding Americans.

Name: Amanda Sollenberger
Date: February 18, 2026 9:23:58 am

I am nauseated at the atrocity that occurred when the East Wing of the White House was demolished without care or consideration for the history of the building. It is a complete and utter lie that taxpayers will not pay for this project. While many costs may be covered, I have not seen the receipts to prove that it is entirely being funded by the billionaires who are paying to play with the current administration.

As an American, I am disgusted that this was not immediately halted --- and that it has even come this far. I wholly support the reconstruction of the East Wing as it once had been.

Name: Amy Stein
Date: February 18, 2026 9:24:25 am

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. Name: Anita Drislane
Date: February 18, 2026 9:25:08 am

The razing of the East Wing of the White House is an affront to the American people. This action by a man who wishes to eradicate any part of history he wants is not only wrong, it was done in an attempt at self aggrandizement. I am calling for this historically important building to be rebuilt exactly as it was before this abomination occurred. Donald Trump and his henchmen deserve to be consigned to the dustbin of history. Again, I say no to Trump’s ballroom plan and no to the tech executives who continue to support his agenda for the peoples’ house. Rebuild the East Wing back to its historical glory.

Name: Kathalyn Johnson
Date: February 18, 2026 9:25:25 am

I am opposed to the destruction of the East Wing of the White House & the proposed ballroom without going through the legally required review & comment process. The White House is the People’s House & each President is simply a temporary tenant.

I have a problem with the private donations & lack of transparency. We don’t know who they are or if they received government contracts or other benefits from the federal government as a result of donating.

I think this money should be spent returning the East Wing to its original state. No one, certainly not the President of the United States, has the right to destroy a federal building, let alone a section of the White House, without going through the proper channels. He should be forced to face the consequences of his actions.

Name: KITT HAZELTON
Date: February 18, 2026 9:25:29 am

This was done illegally, without Congressional ok. The East Wing should be restored to its former state, and charges should be brought over its unapproved demolition.

Name: Victoria Bayne
Date: February 18, 2026 9:25:36 am

I am totally opposed to the destruction and reconstruction which DJT is doing to the East Wing. The White House is the people’s house and what he is doing is a crime to the history and beauty of the WH.

Name: James Keller
Date: February 18, 2026 9:25:38 am

The proposal does not modernize the East Wing. The proposal destroyed the East Wing along with its 100+ year history. Such an unlawfully action should not be rewarded with the Commission's approval to construct anything other than a complete restoration of the East Wing.

Name: Sheryl Derderian
Date: February 18, 2026 9:25:47 am

The east wing was demolished illegally. We have lived with a White House without a massive ballroom since the inception of this nation. We do not need a ballroom at this time in our history. We have an opportunity to reinvent the purpose and structure of the east wing in our current government structure.
What does the executive branch need that can be housed in a new east wing?
Is it meeting space that can meet and be flexible in group size?
Is it individual office space for administration staff?
I have not had an opportunity to visit the current white house , therefore I don't know how much office space exists in current White House structure .
The new addition should not oversize the current building and stay in architectural form as current building.

Name: Pamela Newhart
Date: February 18, 2026 9:26:08 am

As a concerned citizen of this great country I am writing to you and asking you to stop the destruction of the White House and possibly other property owned by WE THE TAXPAYERS! These buildings are proof of our history and deserve respect and protection and not total disregard by an individual! Thank you for your consideration.

Pamela A. Newhart

Name: Bonnie Campbell
Date: February 18, 2026 9:26:28 am

I believe the location of this project should be restored to it's original format. It was decided without legal means and input. It is my taxpayer money and I deserve to have a say in it

Name: Melba Gandy
Date: February 18, 2026 9:26:45 am

The value of the White House lies not in the fact that it is the residence and office of a temporary president, but in its symbolism as America's House — a reflection of who we are historically and aspirationally. To reduce this historical, revered, structure to an annex to a glitzy, vulgar, dance hall is a travesty of enormous proportions.

Already, the tunnel that led from the East Wing to the Winder Building is no longer. The physical history of that connection to the area from which Lincoln directed the conduct of the Civil War can never be replaced.

Ballrooms abound in Washington. All of them are available for White House use whenever a dance hall is needed. This construction is neither appropriate nor wanted by a vast majority of Americans who own and care about this building.

Those in whose hands the care of the White House rests should feel the responsibility to maintain it in a manner as close to the original as possible. If the structure becomes unusable for its intended purposes, for God's sake don't destroy it! Turn it into a museum and build a new residence/office for those who will occupy it for only a short time.

Thank you.

Name: Alison Willson
Date: February 18, 2026 9:26:54 am

We the people who OWN the Peoples House never gave permission for the East Wing to be demolished and we want it rebuilt identically to restore it to its previous condition. We don't want or need a ballroom that NONE OF US WILL EVER BE INVITED TO!!!! Please don't allow it!

Name: Patricia Smith
Date: February 18, 2026 9:27:38 am

Thank you for this opportunity to comment on the East Wing Modernization Project. First, let me say that, in my opinion, the word "modernization" is incorrect. The correct word would be "destruction". Without any attempt to participate in the decision-making process with the appropriate agencies, the President made his own decision to bulldoze a large part of our country's heritage, ignoring all the rules and norms of those agencies. Now, he plans to replace it with a monstrous ballroom that will overpower the beauty of the rest of the White House, and will "stick out like a sore thumb". It will be nothing but a another monument with his name on it, such as the Kennedy Center.

I have no problem with the modernization of any of our monuments and buildings in our nation's Capitol as long as they stay within the form and structure that the builders' intended. Such things as removing asbestos, modernizing restrooms, modernizing electrical and HVAC, non which would harm the original structure. I understand the need for a larger facility for events as long as it does not change the style or overpower the original structure. This abomination is nothing more that a vanity project for the current President of the United States. It will require billions of dollars of taxpayer money to undo the damage he has done.

Name: Loretta Kay Rawlins-Betta
Date: February 18, 2026 9:27:54 am

There's probably a list of all the reasons the East Wing shouldn't have been brought down & probably a longer list on what NOT to put in its place.
But the bottom line is this: trump is a criminal & it's criminal not only to what he's doing to America but to what he's trying to do with the East Wing & ALL THE OTHER Landmarks he's destroying.

I'm writing to ask you all to stand up against the destruction of America.

Respectfully,
Loretta Rawlins-Betta

I am opposed to this project because I see it as a "vanity" project by the current president. It is not necessary and is a wasteful spending of money no matter how it is being funded.

Thank you for your attention to the content of this letter, Kelle Bates

---

Name: Arianna Coffman
Date: February 18, 2026 9:28:58 am

I am writing to express my extreme opposition to this project. Not only has this administration destroyed a monumental piece of history to build this ballroom, but they did so with zero regard to the legal process of historical building modification. The White House is the people's house, and we stand with preserving the history of the East Wing. The ballroom is a complete vanity project - one that the United States people do not want included as part of OUR house. If Trump wants a ballroom, he's more than welcome to build one on his OWN property with his personal funds. WE THE PEOPLE did not want the East Wing of the White House destroyed and replaced with a gaudy gold ballroom. One that will inevitably be used to cater to rich donors.

This ballroom project is completely disrespectful to the American people and serves as a symbol of luxury for the elite while normal citizens cannot afford groceries. It's a slap in the face - a "let them eat cake" moment. I urge board members to put a stop to this construction and order the reconstruction of the East Wing how it was before with zero additions/modifications that would make it something unrecognizable.

Name: Taryn Madey
Date: February 18, 2026 9:29:04 am

I vehemently oppose the spending of $300 million on this ridiculous project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project - it is a complete razing of American history to satisfy one person's whim and ego.

I want this project to be canceled, and the East Wing to be rebuilt and restored to its former design.

No one is above the law, and to permit this project to proceed without penalizing those who broke the law would be an affront to all law-abiding Americans.

Respectfully,

Name: Judy phillips
Date: February 18, 2026 9:31:24 am

I am voting NO to the east wing "modernization" project for a grand ballroom. The East wing was a part of the USA history and should not been down without Congress approval. Architects specializing in historic real estate should be consulted on restoring the original structure that should be completed before our 250 anniversary that should be paid for by the individual who had it illegally torn down.

Name: Brendan Bottari
Date: February 18, 2026 9:31:24 am

It is shameful what Mr Trump has done in destroying the East Wing of the White House! It should be restored to its original form as soon a possible.

Name: Marsha Edwards
Date: February 18, 2026 9:31:36 am

I am against this 300+ million dollar project. Number one this type of project needs to go through proper channels, congress.The White House is the PEOPLES house.
It is an historic landmark. Should be restored to its original state at the expense one who ordered it removed. Immediately!

Name: Susan Farrington
Date: February 18, 2026 9:31:37 am

The destruction of the east wing was illegal. I want to see it restored to its original plan. It is the people’s White House and does not “belong” to the President and his tech supporters to do with as they please.

Name: Todd Jenkins
Date: February 18, 2026 9:31:42 am

This living metaphor of the destruction of federal property and the complete abandonment of democracy is far more than an egotistical and gaudy embarrassment. It is a direct attack on Constitutional law. We must put an end to it before it puts an end to us.

Please stop it now!

Name: Harrison Bink
Date: February 18, 2026 9:31:45 am

As an Architect I am very familiar with the approvals process for any governmental project, the contractual requirements and bidding responsibilities. The fact that the White House has ignored the public aspect of this process is both galling and appalling. And that is regardless of any loophole exploited by the special circumstance of the White House.
The inappropriateness of the scale of the project proposed is an offense to the historic nature of the remaining building and should be scaled back. The finishes should also be in keeping with the property and eschew any gilded nature.
Public funds should be appropriated by Congress and allow no special 'gifts' from wealthy donors.
All bids for construction should be made public and normal requirements of US steel and Davis/Bacon wage rates should apply.

Name: Jan Proterra
Date: February 18, 2026 9:31:51 am

The building of a ballroom for no reason whatsoever except to make stupid people think that they are powerful and great is ridiculous to its core. The destruction of the East Wing was illegal and wrong. The White House is the PEOPLE’S HOUSE not the current person occupying the residence!!! So stop the construction of the stupid ballroom and restore the EAST WING! Also, MAKE TRUMP and his CRONIES PAY FOR THE RESTORATION OF THE EAST WING!!!

Name: Marlene Ahouse
Date: February 18, 2026 9:32:22 am

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Ilka Marsh
Date: February 18, 2026 9:32:24 am

Apart from the fact that there was no proper approval process ahead of the beginning of this "project", its impact on the appearance of what is arguably the most important building in our country is disastrous. The lopsided appearance makes this previously stately symbol of our nation's seat of power akward-looking and poorly proportioned. I hope that this project will be stopped and an alternative can be found to restore the harmony of this historical building. I also think that the details of the " private" financing need to be explored.

Name: Annia Wiley
Date: February 18, 2026 9:32:27 am

I would like to voice my objections to the ‘modernization’. While I know the East Wing needs to be built back, the current plans are almost vulgar. It is a slap in the face to the people. There is no need for a ballroom that size. And certainly no reason to gold plate everything. A modest, dignified replacement the same size or slightly larger than the one that was demolished would be acceptable and appreciated. This is something that the working class will never see except on TV. And there are so many other things that money should go to. Like healthcare. Infrastructure. FEMA. Senior citizens that have worked their whole lives and now live below poverty level. Please use some restraint and common sense when making this decision.

Name: Christine Llewellyn
Date: February 18, 2026 9:32:32 am

I oppose this project, which does not have proper authorization, permits, or design review. It is not a modernization project but rather a destruction of American history. This project should be canceled and the East Wing rebuilt and restored to its former design. THAT would be a modernization. I also would like to see those who broke regarding tearing down of the East Wing be held to account.

Name: Erin Jackson
Date: February 18, 2026 9:32:51 am

It is frankly unbelievable that the demolishment part of this project has even begun. It’s hard to describe plainly at the levels to which this project has circumvented the typical avenues of required approval to say nothing of decency. To take such a fundamental symbol of our country and democracy, and literally tear it down without historical preservation approval or anything else is a metaphor onto itself. This project must be stopped at least until it goes through the proper approval process. Thank you for your time and consideration.

Name: Patrice Welsh-Benjamin
Date: February 18, 2026 9:32:54 am

This is a travesty! I request that this project is cancelled and the East wing be rebuilt. There was no authorization for this outrageous destruction.

Name: Courtney Wilson
Date: February 18, 2026 9:33:04 am

I am opposed to this vanity project. Taxpayers shouldn’t be funding yet another luxury space for government officials to use to avoid doing any real work for the people. The East Wing needs to be rebuilt to suit the needs of an actual working government.

Name: Renita Moore-Hylton
Date: February 18, 2026 9:33:11 am

The ballroom is nothing short of a trump vanity project with no congressional oversight. The project should be halted and the original structure rebuilt at no cost to the people of the United States, and totally funded by Trump!

Name: Mercedes Alayo
Date: February 18, 2026 9:33:13 am

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Bruce Piatek
Date: February 18, 2026 9:33:18 am

I oppose the destruction of the East Wing and all the history it once represented. Do not approve this construction project, the East Wing Modernization Project. Approval of this action will destroy the credibility of our historic preservation laws.

Name: Sherry Unruh
Date: February 18, 2026 9:33:28 am

It is my opinion that the replacement of the East Wing was started illegally. The proper permits were not obtained and demolition occurred without permission. This was history destroyed. This is an affront to the American people with no concern of cost or the past. The East Wing should be restored to its former glory at the cost of the person who ordered its destruction.

Name: Marcie Wright
Date: February 18, 2026 9:33:28 am

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. Thank you, Marcie

Name: Janet Norstrom
Date: February 18, 2026 9:33:35 am

I understand the need for very large facility for gatherings, however it does not need to be attached to the White House,

which is also considered the People’s house. The ballroom should be built elsewhere, not on White House grounds. The east wing rebuilt so externally it looks the same but with an upgraded interior Additionally, The rose garden was an historical monument to Jackie and it is a shame that it was not preserved.

Name: Carolyn Fidgeon
Date: February 18, 2026 9:33:37 am

Please, please, please!!! Do not let this project go forward. This is the people's house and it should be restored to it's former state. This is not modernization, it is destruction of history.

Name: Kay Sylvester
Date: February 18, 2026 9:33:38 am

AS described by the President, this project keeps morphing into something ever larger and more grandiose. Of course, he’s counting on approval since he ripped down the East Wing without any approvals, so now a repair of some kind is needed.
I object on principle to adding a giant ballroom to the White House, and the other aspect - the safety bunker, or whatever he’s calling it - can be rebuilt without a giant ballroom on top of it.
I am fundametally angry about this project and I fervently ask that the ballroom, in any form, not be approved.

Name: Sue Snow
Date: February 18, 2026 9:33:40 am

I vehemently oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. It is a vanity project of a man who would be king.

I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Elizabeth Cabell
Date: February 18, 2026 9:33:42 am

I am writing to express my opposition to the so called modernization of the East Wing of the White House. This was done without adequate planning or review or authorization and represents the appalling destruction of an historic property, long beloved by the citizens of the United States, simply for the aggrandizement of President Trump. There is no need for an enormous ballroom in place of the historic East Wing. Please stop this project and require the restoration of the East Wing. Thank you.

Name: Maria Da Silva
Date: February 18, 2026 9:34:09 am

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history.

I want this project canceled, and the East Wing rebuilt and restored to its former design.

No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: David Fetherolf
Date: February 18, 2026 9:34:12 am

Should not go forward at all but, if it does, it must have an open and transparent design and building period and follow all the rules regulating changes to *our* House. And, it should be historically accurate outside and in as a public space owned by our polity.

Name: Erin Mulholland
Date: February 18, 2026 9:34:14 am

I oppose the spending of $300 million (or any amount exceeding $300 million) on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Susan Maier- GARCIA
Date: February 18, 2026 9:34:19 am

I strongly oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design, paid for by the Trump family who without permits destroyed a part of American history, the peoples' house . No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding citizens.

Name: charlotte wright
Date: February 18, 2026 9:34:20 am

I believe it should be restored to its original state.

Name: Rebecca Kapur
Date: February 18, 2026 9:34:31 am

I oppose this project, which was initiated without the proper authorization, permits, or design review. In fact, I'd like the name of the company used to demolish the East Wing to be made public, and a copy of the contract also made public.

This new building is not a modernization project but rather a complete razing of American history.

I want this project canceled, and the East Wing rebuilt and restored to its former design. The current design is gaudy, enormous, and completely out of scale with the current White House. This is the People's House. It is OUR house. Nothing should proceed with the rebuild without proper process as noted above.

No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding and tax-paying Americans.

Name: Sherri Dishman
Date: February 18, 2026 9:34:48 am

I oppose the spending of $300 million on this project for a grand ballroom, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Sherri Sowik
Date: February 18, 2026 9:34:56 am

I oppose the spending on this project, which is illegal and without the proper authorization, permits, or design review. It is a complete razing of American history and one with no foresight at all except to spend millions of dollars for someone's selfish greed. This project should be cancelled and the East Wing restored, Who should pay? The person and people who started this illegal project. It is a government building and belongs to the people and there are steps to be taken legally and not up to anybody's whims. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: MaryLou Molinaro
Date: February 18, 2026 9:34:57 am

This proposed modernization project is absolutely obscene. He has torn down what should be a national historic section of the People's House, the White House, for a freaking vanity project. It's bigger than the White House itself and truly has no purpose. There was already a ballroom in the East Wing, where Princes Di danced with John Travolta. There was so much history in the East Wing and he has destroyed it because everything is about him. He has no regard for history, for the Presidency itself. He has desecrated the White House with all his golden crap and this new structure will be nothing but gaudy, just like him. This cannot stand. It's destroyed the iconic look of the White House and, should this project be allowed to proceed, it will be the most distasteful looking WH forever more. Hopefully, the next real President will tear it down. Please don't let him continue building this monstrosity!

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Richard Byrne
Date: February 18, 2026 9:35:15 am

The so-called "East Wing Modernization Project" is, in truth, an obliteration, rather than "modernization." President Trump has perpetrated an extraordinary act of vandalism on the people's space-- out of public view or comment and in utter darkness before its commencement. This atrocity also has been effected with the private monies of sycophants.

Such historical and aesthetic barbarity cannot be mediated or revised. Rather, it should be stopped with immediate effect and eradicated entirely.

Name: Wendy Gault
Date: February 18, 2026 9:35:36 am

Respectfully... I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project

canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Brenda Holdnak
Date: February 18, 2026 9:35:41 am

This is not a modernization project, just like tearing up the rose garden was not a modernization project. This is a disgusting grab for personal attention with no regard for the people's house or our country's history.

If this was truly a modernization the integrity of the existing structure would have been maintained and updated. This is intended to aggrandize the current administration which.will probably be named after the existing President. Just like the Republican administration is tearing down reminders of history they dont agree with this monstrosity if allowed to be built, and all the other buildings will be renamed once this administration is gone by the people who truly own these public I buildings, not one person. Please dont allow this horrible building to be built.

Name: Carol Turner
Date: February 18, 2026 9:35:50 am

The demolition of the historic East Wing without review, without permits and without Congressional oversight is clearly a violation of the law. In addition, it is a violation of the trust of the American people who were given no opportunity to comment on what should have been presented as a proposal and not as a violent fait accompli.

I urge the National Capital Planning Commission to require reconstruction of the East Wing in keeping with its historic design and size. Anything constructed on the demolition site going forward must be compatible in form and subordinate in scale to the original structure of the Executive Mansion.

The White House is a National Historic Landmark and a National Park, owned by the American people and home to presidents since 1800. The current president at any given time is not the owner of the property or the structures thereon; the president is a temporary tenant whose interventions are limited by law and by respect for the people of the United States.

Name: Scott Ritt
Date: February 18, 2026 9:35:50 am

Remember the beautiful, functional, and historic East Wing of the White House?

Well, the dusty pile of rubble that the current occupant created with his wrecking ball of stupidity is a perfect metaphor for what he has done to what this grand country once stood for, and as typical for him, supposedly a servant to the American people, it was done suddenly and with no authority or approval.

I oppose the spending of $300 million, or even $300 of grifted money, on this horrendously out-sized and hideous unnecessary debacle, which was initiated without the proper application, permits, or design review. It is not a modernization project but rather a complete razing of American history and a gaudy vain tribute to his own outsized and misplaced ego.

As a constituent citizen of the United States, I want, and I’m certainly not the only one who demands as per the rule of law, decorum, and procedure, this project canceled immediately, and the East Wing rebuilt and restored to its former historic design.

No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans. America’s history and former stature must be preserved, and all future attempts to destroy it by attacking its cultural, artistic, and architectural edifices must be stopped. Please be a patriot and help right this wrong.

Name: Amy Tomaszewski
Date: February 18, 2026 9:36:05 am

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. I want the East wing project to be stopped and restore the East wing to its previous state.

Name: Angela Boltz
Date: February 18, 2026 9:36:10 am

I oppose the spending of $300 million on the East Wing Modernization project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans. If I wanted to make a change or addition to the outside of my home, I (like most Americans) would need to acquire the proper permits and plan reviews to do so. And my personal property has no cultural significance whatsoever.

When this ballroom project was first proposed/mentioned by the President, he stated that the East Wing would not change or be touched in any way. It broke my heart to see the building come down practically overnight. So much history destroyed. Please replace the East Wing as it once stood and find a new location in DC for a formal ballroom. It should not dwarf the White House.

Name: Margaret Dine
Date: February 18, 2026 9:36:13 am

Dear Sirs/Madams:

The historic White House East Wing MUST BE RESTORED to its original appearance, fully and completely and to historic accuracy, at the expense of Mr. Trump, including the former ballroom and First Lady offices.

The plan for the addition 90,000 sq ft ballroom must be opposed in its entirety. The addition would not look proportional to the existing historic White House, is completely unnecessary, should not be funded by those seeking to curry presidential favors, should never have been started.

There must be penalties and punishments for the decision-makers involved in giving the orders to destroy our White House.

Sincerely,
Mrs. M. Dine

Name: Carol Steffen
Date: February 18, 2026 9:36:16 am

I object to the current plan to rebuild the East Wing as a monstrous ballroom. I request that the East Wing be rebuilt as it was, and that the vanity ballroom project be trashed. We the people want the historic East Wing be returned to its original beauty and grace.

Name: Mary Barnes
Date: February 18, 2026 9:36:19 am

This is an abomination. Our tax dollars are meant to help our citizens, not a would-be king. He is “marking” his territory like a dog at a fire hydrant. His focus, as President, should be on improving Americans’ lives.

Name: Dr. Barron Brown
Date: February 18, 2026 9:36:23 am

Please return the East Wing to his historic state. The Ballroom is a terrible idea.

Name: Nancy Bacon
Date: February 18, 2026 9:36:25 am

I oppose this project. The East Wing should be restored back to the way it was before demolition to preserve the historical integrity of the people’s house.

Name: Jami Anderson
Date: February 18, 2026 9:36:49 am

The proposed addition is ridiculously large in scope and dwarfs the original White House. It appears to be a vanity project by the current president and is not at all in keeping with the concept that the White House is the people’s house. It sets a terrible precedent that a temporary occupant can make such sweeping changes to the residence of all American presidents, and at this point what is to stop the next resident from tearing the whole thing down and building something even worse. There are traditions and mechanisms in place for altering and modifying / modernizing historic buildings, and it seems that none of these have been followed

Please put the brakes on the destruction that this temporary resident is trying to wreak on our nation’s capital. The size and scope of this project must be reduced - at the VERY least it should be brought down to a size that doesn’t dwarf the original historic buildings.

Dear National Capitol Planning Commission,

I would like to voice my objection to the prospective project of the construction of a ballroom at the White House. The current administration seems to forget that this is NOT their private estate but rather a public, federally owned National Historic Landmark owned by the PEOPLE of the UNITED STATES. Procedures and laws exist to protect the building and its grounds.
The current administration believes they are above the law. The wilfully demolished the East Wing of the White House with NO oversight, no permits, no congressional approval, no public comments.
They seem to exist with the premise of "It is better to ask forgiveness than permission", then when they are rebuked don’t even ask for forgiveness, they simply invent a narrative of why what they are doing is acceptable. While asking forgiveness rather than permission may have worked for Grace Hopper, the Government exists for the people, they have a responsibility to the PEOPLE of the United States and should be held accountable for their actions.
While the need for expanded event space may be factual, any additions should respect the historic scale and design of the White House. The proposed ballroom will exceed the size of the current building .NO further action should be taken in regards to this expansion without the explicit approval. The National Park Service, the Commission of Fine Arts and the National Capital Planning Commission should be working TOGETHER to plan and complete ANY major changes to the PEOPLE's HOUSE.

Thank you,
Sincerely,
P. T. , New Hampshire.

Modernization? In what sense? It's grotesque. A room for facilitating corruption and encouraging bribes. Selfish, wasteful, it reminds me of the worst that a Roman Emperor might build. Not to mention that it dwarfs the executive residence- shouting over it and shoving it aside. Even classical architecture can be garbage.

No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

The demolition of the East Wing without prior review or public comment was wrong. Let's take this opportunity to restore do a thoughtful restore. No obscene ballrooms are needed.

Name: Kelly Neal
Date: February 18, 2026 9:39:41 am

I oppose any spending on this project. It was initiated without proper authorization, permits, or design review. It is not a modernization project, but rather wanton destruction of American History. The White House does not belong to any President but to the American people, who weren't consulted before the destruction began, nor properly informed as it has proceeded. I want this project canceled and the East Wing restored to its former design. No one is above the law, and the law has clearly been broken. If all those responsible, no matter what their position, are not charged with and made to face the consequences of these crimes, it will be an affront to the American people.

Name: David Huntley

Name: Jacob Wilcox
Date: February 18, 2026 9:40:26 am

I think it is a complete mistake to turn the East Wing into a ballroom as the funding for such an mindless and useless renovation could be put to something much more important and impactful. Especially when the funding is stripping away

funding from actual important things like food stamps and health insurance coverage. It is also completely destroying everything the White House stands for. We are also a democracy, not a fascist authoritarian government ruled by Tyranny.

Name: Jason Berry
Date: February 18, 2026 9:40:39 am

STOP this madness! If you don’t, all of DC will be renamed Trump-this and Trump-that, then they will demand money for using that name and continue to grift our tax dollars. Enough! NO ONE votes for this BS!

Name: Diane Wynne

Please please please I beg of you PLEASE…. Make sure the President has to follow all the rules like the rest of us. Do not be afraid to stand up for the right way to do things. We need leadership at every level
To hold him to task ON THE LEGAL
WAYS TO ACCOMPLISH THKNGS IN OUR COUNTRY.

We know there is so much more to this than a ballroom. Please don't t allow him to steamroll his way through our history books. We have to start saying NO to him and his ridiculous antics.

Please. Do what is right for our country and stand up
For the rule Of law

Name: Jennifer Wallace
Date: February 18, 2026 9:43:58 am

The demolition of the East Wing is one of the most visible representations of the current administration's disregard for policy, procedure, law and history. This project needs to be stopped and instead the money spent on a restoration of the East Wing to its prior state as a visible representation of the return of the rule of law in the United Stated to include the consequences for those that blatantly disregarded and broke those laws.

Name: Doranne Renteria
Date: February 18, 2026 9:44:01 am

Please do not allow this project to continue. It's just another egotistical adventure of the current president. It would be an embarrassment just as he is. Most Americans do not support these kind of things he is doing to our integrity as a nation, and our history of elected officials serving the people instead of themselves.

Name: Betsy Cahoon
Date: February 18, 2026 9:44:19 am

What Donald Trump has done to the East Wing, which was initiated without the proper authorization, permits, or design review, is a travesty. It is not a modernization project but rather a complete razing of American history. Trump's project should be canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans. Not to mention that in 50 years Donald Trump will be long gone while the White House will still stand. It is the people's house and the East Wing should be restored accordingly.

Name: Sylvia Cox
Date: February 18, 2026 9:44:31 am

I want the East Wing restored the way it was before the executive branch demolished it. That includes: no tacky gold decorations, architecturally compatible with the remaining White House, no stupid labels with 47's name on it.
It is the People's house, not any one president's . It has historical significance that will last far beyond this current abomination of a president.

Name: Liz Bisbee
Date: February 18, 2026 9:44:39 am

The destruction of the people's house was horrific. The new wing must be in scale and style with the part of our White House which was not destroyed. An abomination of a ballroom represents the worst of the self selected elites, those who have given tons of money to the destroyer of our house. Please work for all the people. We loved our White House with a wing for the first women or men, if we ever get there. Thanks for your consideration.

Name: Laura Gathagan
Date: February 18, 2026 9:45:05 am

The historic East Wing has been demolished with little to no oversight nor any environmental review as required by the National Environmental Policy Act (NEPA). The White House and grounds are a National Park and a National Historic Landmark owned by the People of the United States.

According to your website, the public comment process is one of several safe guards to "ensure transparency, accountability, and meaningful public input". Major construction projects in DC must be reviewed by NCPC and CFA and they must comply with NEPA as well as receive congressional approval. The Trump administration has ignored the laws put in place for this- as it has for so many things.

I object to the project for these reasons:

1. The administration should be held accountable for violating NEPA during the demolition. Fines need to be imposed for this negligence. An investigation is needed to determine the extent of toxic debris that was hauled away; some of which was deposited onto a nearby public golf course. Since there is ongoing, blatant disregard for public safety, there needs to be an independent body given the authority to review the environmental damages, impose and collect fines and monitor the new construction with the authority to stop all work if further laws are violated.

2. Congress, CFA and NCPC must require full disclosure of funding, determine if there is any violation of the Emoluments Act or favors granted (quid pro quo) and put in place a fiscal manager appointed by a judge for the entire project. If this cannot be set in place, the project cannot move forward.

3. There is no need for a 90,000+ square foot ballroom at the White House. Let this empty space be just that- a place that tells its own story; what it was, and how it was illegally demolished- a monument to how one administration forced dozens of illegal initiatives down the throats of its citizens, but how it ultimately failed to control them.

4. If something is to be built, let it truly be the "People's House". Build a structure that reflects the enslaved hands that originally labored for it- the people who voted for its leaders- the historic figures that we can be proud of - something that acknowledges who we are. I object to this plan as it is a monument to one man's venality. Instead, it should be a place where children and families can come to visit- maybe a revolving Smithsonian exhibit or an arboretum or maybe an art museum (you can never have too many). Build it to scale so that it doesn't overpower the original White House structure. Include some meeting rooms and offices but make it something to which we can all have access.

Name: Nancy Bowen
Date: February 18, 2026 9:45:08 am

The East wing of the White House was torn down illegally. The White House belongs to the people, not the president and thus procedures for making substantial changes to it exist and were ignored. To permit the building of a disproportionately large ballroom in its place would not only destroy the symmetry of this important historic building and national symbol, but would give tacit approval to the destruction of the East Wing setting a dangerous precedent. The East Wing must be rebuilt adhering to the basic design of the old East Wing. (Maybe bring back the rose garden while you're at it!)

Name: Amy Nicely
Date: February 18, 2026 9:45:10 am

Restore the east wing to what it was before it was illegally raised, modernize it, but no ballroom and make Pres. Trump personally pay for it since he illegally tore it down.

“Modernization”??!! More like wholesale unauthorized destruction and disrespect of historic proportions. Please do your job, Planning Commission. The ONLY thing that should be approved to replace the pile of debris that was once the Easy Wing is a literal reconstruction of the original — maybe with more bathrooms for women and better interior lighting.

The current administration should NOT be rewarded for its outrageous and illegal act of tearing down the East Wing by being allowed to build what they want. It’s a worldwide embarrassment.

Please honor our nation’s history, and the history of the White House — not to mention the enslaved people that helped build it — by rebuilding the original, with appropriate MINIMAL modernization requirements only.

Trump has his Mar—a—Lago Motel gaudy cheap monstrosity, as is his right. It’s private property and he owns it. The White House is NEITHER.

Thank you.
Jennifer Gold

To Whom it May Concern::

I am writing to express my deep concern and strong disapproval regarding the proposed construction of a ballroom at the White House.
The White House is far more than a residence or event venue—it is a living symbol of our nation's history, leadership, and democratic values. The preservation of its historical integrity should be treated as a sacred responsibility. The idea of constructing a new ballroom, particularly one that could exceed the scale of the existing structure where critical decisions affecting our country and the world are made every day, is deeply troubling.
A ballroom, by its very nature, is a space intended for social gatherings and entertainment. It should never overshadow or overpower a place of such profound national importance. Alterations of this magnitude risk diminishing the historical character and symbolic weight of this treasured landmark.
I strongly urge you and all decision-makers involved to reconsider this proposal and to prioritize the preservation and protection of the White House as the historic and dignified institution it has always been. Future generations deserve to inherit it with its integrity intact.
Thank you for your time and for considering the concerns of citizens who care deeply about preserving our national landmarks.

Sincerely,
Karen Sinclair

Rebuild the East Wing as it was before

Name: Susan Fox
Date: February 18, 2026 9:47:22 am

Travesty of a project, starting with demolition of a historically significant portion of the People's House with no review or approval. Suggest it be restored at the expense of the Trump administration, not the taxpayers.

If a ballroom of the size suggested is truly required, move this project through the proper channels and house it apart from the People's House.

Name: Deborah Guydish
Date: February 18, 2026 9:47:29 am

Thank you for the opportunity to comment. I am against building a massive ballroom at the White House as it would overshadow the White House, which is a public building that my taxes pay for. Ideally the East wing would be restored so that the White House could once again be the historical building it was meant to be. If a venue is needed for larger entertainments, surely a more reasonable size with a much smaller blueprint could be built in DC, and not necessarily on the White House grounds.
As of now, the destruction of the East wing and the building of a massive ballroom, which is nothing more than a vanity project, is deplorable in every sense and cannot be allowed.

Name: Wendy Gilman
Date: February 18, 2026 9:47:34 am

I oppose the East Wing Modernization Project.
This project began without required National Capital Planning Commission approval, without environmental assessments mandated by the National Environmental Policy Act, and without congressional authorization required by federal law for construction on federal parkland in Washington. The $400 million cost is funded by corporations holding billions in federal contracts with the administration approving those contracts. This creates an unacceptable conflict of interest.

The White House is not private property. It belongs to the American people. No president should have unilateral authority to demolish historic structures and approve construction without following the law and allowing public input.
I urge the Commission to reject this proposal.

Name: Philip Brody
Date: February 18, 2026 9:47:42 am

I oppose spending ANY money on the project to construct a ballroom onto the White House. It was initiated without authorization and represents an erasure of U.S. history and culture. I want this project canceled and the East Wing rebuilt to its original design.

Name: Margaret Werner Washburne
Date: February 18, 2026 9:47:44 am

As someone who had 10 relatives (Fosters and Browns) at Concord and Bunker Hill and men in most wars after that, including deaths at Gettysburg and in WWII - and family fighting for Democracy in Mexico- I am against one man deciding what to do with our White House.

He demolished the East Wing in what I imagine was a tantrum. He should have been stopped then. He clearly doesn't know or history or the depth of our love for this nation and what it stands for.

America is not about golf courses, arches, or ballrooms. We are about hard work, opportunity, giving a hand up, the Constitution, and understanding our responsibilities, and building an inclusive future for all of us. We were intellectual leaders in the free world.

But history and true patriotism seems to mean nothing to this president. Kids who have known only the past 10 years have no idea the sacrifices that have been made for the idea and meaning of America. It's time they see that America isn't something that can be torn down on a whim or used for personal gain or power.

Follow protocol in replacing the East Wing and regain some authority over this rogue administration.

Name: judith treesberg
Date: February 18, 2026 9:47:52 am

Anara Guard's comment on this states my own view so I request to repeat her here.
I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding and history loving Americans.

Name: Kimberly Patten
Date: February 18, 2026 9:47:52 am

This should not be approved and the current administration should personally be required to pay for all of the damage it has has caused. The only approved plans should be to the exact historial specs that were there before the demolition. No tax payer funds should be used, but the person who caused this disaster should have to pay for all of this restoration work.

Name: Mary Clark
Date: February 18, 2026 9:47:57 am

I absolutely oppose this 'modernization project' of part of the White House. First, this building belongs to all of us and represents our history-short as it is compared to the histories of European and Asian countries. Instead of respecting this history, this administration wants to MODERNIZE it. Imagine how the citizens of England would feel if a Prime Minister came in and, without consulting anyone, decided to MODERNIZE the House of Lords. I resent this administration blithely destroying parts of the White House. Contrast this to the care Jacqueline Kennedy took to refurbish the White House in 1961 and showcase its American history.

Name: JoEllen Sefton
Date: February 18, 2026 9:48:00 am

I strongly oppose the 'modernization project' was initiated without the proper authorization, permits, or design review. The spending of $300 million on this project goes against everything our country stands for. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. To permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans. I trust this honored commission will stand strong and do what is right.

Name: Susan Arra
Date: February 18, 2026 9:48:22 am

Never in my life have we witnessed such a blatant act!
I say no to this entire project!

Name: Eileen Moses
Date: February 18, 2026 9:48:28 am

This is the verbiage I found to use if you want to use it as well:

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

I oppose this project to a historic landmark that was not done with prior authorization.

Name: Hillary Parks
Date: February 18, 2026 9:49:05 am

I am writing to express serious concern regarding the East Wing Modernization Project currently under review. In particular, the structure and sources of project funding raise troubling questions about whether the process may resemble a pay-to-play arrangement.
Public projects must be guided by transparency, fairness, and the best interests of the community. Any perception that financial contributions could influence decision-making undermines public trust and calls the integrity of the process into question.
I respectfully urge a thorough review of the funding structure and full public disclosure of all related agreements to ensure accountability and maintain confidence in this project.
Thank you for your attention to this matter.

Name: Vickie Foss
Date: February 18, 2026 9:49:05 am

Date: February 18, 2026 9:52:11 am

The East Wing was trashed without the consent of “We the People”. It is ridiculous anyone would demolish our “house of our history”. This mess should be cleaned up and rebuilt the way it was.

Name: William Detlefsen
Date: February 18, 2026 9:52:15 am

Ladies and Gentlemen,

The destruction of the East Wing should never have occurred without proper review and oversight. Since it is now a fait accomplit, we must control what replaces it.

Given thus oresident's autocratic preferences and the lack of restraint shown by his administration, I propose that no action be taken until the next administration takes office. Until then, it should remain as a scar upon the face of the People's House to remind the president, those around him, and those visiting the White House that actions have consequences and that the citizens of the United States of America must be consulted on these matters. It is not for the decision of one man to change our country's landmarks in his own gaudy image.

Sincerely,

William Detlefsen

Date: February 18, 2026 9:52:38 am

I am an professor of architectural history for 25 years and I oppose the East Wing Modernization Project.

First of all, this project began without required National Capital Planning Commission approval, without environmental assessments mandated by the National Environmental Policy Act, and without congressional authorization required by federal law for construction on federal parkland in Washington.

The $400 million cost is funded by corporations holding billions in federal contracts with the administration approving those contracts.
This creates an unacceptable conflict of interest.

The White House is not private property. It belongs to the American people. No president should have unilateral authority to demolish historic structures and approve construction without following the law and allowing public input.
I strongly urge the Commission to reject this proposal.

Dr. Victoria Young

Name: PamDocken Docken
Date: February 18, 2026 9:52:51 am

When I saw the East Wing of the White House pour down I was so angr. This is the people's house this is history, this man is tearing our country apart literally tore down he fabric of our country that holds us together Trump isn't building that vowel room for the country. He is building it for his billionaire friends. The average American would never be allowed near it. This in the same absolute immunity that he has has a destroyed everything. He plans on living there until he dies. He plans on never leaving. The east wing must be brought back to its former state for the sake of the country. The

supreme Court should be held accountable for this. They have the power to take away his immunity, but they've obviously been bought out. Please I am begging you for my children and my grandchildren to really understand how great this country can be. Please do notdo not let that ballroom go up.

I am in opposition to spending $300 million on this project. It already destroyed part of our history, and was initiated without the proper authorization, permits, or design review. This project needs to be immediately canceled, and the East Wing rebuilt and restored to its former design….paid for by the president’s family (not taxpayer dollars). No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding citizens.

Name: Abigail Huff
Date: February 18, 2026 9:54:09 am

Dear Members of the National Capital Planning Commission,

I am writing to express my strong opposition to the proposed ballroom addition to the White House and to urge the Commission to reconsider the direction of this project. The White House is not only the symbolic heart of our nation but

also one of the most significant historic structures in the United States. Any alteration to its form, scale, or architectural integrity deserves the highest level of scrutiny and restraint.

The proposed ballroom represents a substantial departure from the historic character of the Executive Mansion. While I understand the desire to accommodate modern functions, the White House has always balanced evolving needs with a deep respect for its architectural heritage. This proposal, however, risks compromising that balance by introducing a feature that is neither historically grounded nor contextually appropriate.

Equally important is the matter of the East Wing. Its demolition was a profound loss to the historic fabric of the White House complex. The original East Wing—modest, functional, and architecturally consistent with the era, played a meaningful role in the evolution of the site. Rebuilding it in its historic form would not only restore architectural continuity but also honor the stewardship responsibilities entrusted to all who oversee this national landmark.

The White House should be preserved and restored in a manner that reflects its full historical narrative, not reshaped in ways that diminish it. I respectfully urge you to reject the ballroom proposal and instead support efforts to reconstruct the East Wing in its historically accurate state.

Thank you for your thoughtful consideration and for your continued commitment to protecting the architectural heritage of our nation.

Sincerely,
Abigail Huff

To Whom It May Concern:

Good morning.

I am against the building of an opulent, unnecessary ballroom. Months ago, as I watched the East Wing being torn down, I had an extreme and visceral response. I literally felt nauseaous. American history was being destroyed at the whim of a single person without any imput from those of us who respect what the building represents. I continue to feel extremely sad each time I view photographs of the before and after.

It is my personal wish that (at best) the White House's East Wing be restored as much as possible to it's original state. I'm not sure if this board has the authority, but if at all possible, I believe the person(s) responsible should pay restitution in order to accomplish this. At worst, please do not allow this to continue. Please.

Thank you for your consideration,
Debby Pereira

Please oh please restore the East Wing.
Spending $300 million on a project to build a vanity ballroom which was initiated without the proper authorization, permits, or design review is unfathomable; it is by no means a modernization project but rather a complete razing of American history. Please cancel this project, and ensure the East Wing is rebuilt and restored to its former design. Permitting this project to proceed would be an affront to all Americans and our history.
Thank you.

Too bad there was not an approval process before he destroyed the east wing.
There must be a public approval process for the design and construction of the ballroom, it does not need to be so big, and I’d like to know about the “bunker” design.
I hope this project can be delayed until we have a new administration that will hopefully have better taste and more regard for history and the public.

Name: Gary Hays
Date: February 18, 2026 9:56:08 am

I write in opposition to the razing of the historic East Wing of the Whitehouse and stated plans to replace it with a massive and tacky ballroom. This project has been undertaken without the proper authorization, permits, or design review and should be stopped as soon as possible. The building should be restored to its former design with any structural and/or infrastructural updates that the National Capital Planning Commission deems appropriate to and consistent with its historic appearance. Funding for the restoration should come from the private sources who have already pledged to support the current project. I realize that building and remodeling codes differ across the country, but I doubt many average citizens would be allowed to completely raze their home or office building and rebuild it in a design inconsistent with surrounding structures without legal authorization. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Dinah Redpath
Date: February 18, 2026 9:56:26 am

I was horrified at the destruction of the East Wing of the Whiter House without any public notification and no plan to maintain the history of this structure. This building belongs to the people of the United States, not the billionaire elite. Our nation’s history is essential to maintain continuity of understanding our nation’s values and contributions of those who came before. The intention to spend $300 Million to build a monument to greed is appalling. No further destruction of any buildings or property should be initiated without notification of the American people and adequate time for opinions and comments. A thorough investigation, analysis, and review should be complete prior to the approval of any modification of any Federal structure. This savaging of the Peoples House should be remedied as soon as a plan can be

developed to restore the East Wing. There should be serious consequences for those who took it on themselves to destroy such a beloved and historically significant building.

Name: becky nielsen
Date: February 18, 2026 9:59:26 am

I am deeply disturbed that this project was initiated without the consent of the People, to whom this house belongs. I am deeply disturbed that in these difficult times when so much funding has been cut from programs that help people with real life concerns - education, health care, food access, etc, this kind of money is wasted on a ballroom no one wants or needs! How shameful! How could this have gotten so far without any of the proper legally required applications , permits, and reviews?

Stop this destruction, restore the East Wing to its previous size and use. There is so much history and dignity that is being thrown away.

Name: Jerri Casazza
Date: February 18, 2026 9:59:33 am

The east wing should not dwarf the White House nor be a gaudy spectacle. As part of the people’s house, it should remain a modest wing with architecture similar in scope to other longstanding DC traditions. President Trumps vision is a gaudy spectacle. The man has no taste.

Name: Suzanne Thompson
Date: February 18, 2026 9:59:39 am

The East Wing of We The People's White House should be rebuilt to its original configuration since We The People never gave permission for its destruction in the first place.

Name: Birgit Baldwin
Date: February 18, 2026 9:59:58 am

I believe, this project was started without proper permission only to please some once echo. The project doesn’t conform to the current building and is not needed. It is my recommendation to restore the original East Wing to its former status

---

this is a scam. quid pro quo. all money must be documented. This is disgusting. This will be torn down the minute that fat bastard is in prison or dead.

Name: Ellen Brady
Date: February 18, 2026 10:00:19 am

The ballroom and East Wing revision isn’t needed and changes the entire look and feel of the White House. Please stop this.

Name: Debra Collier
Date: February 18, 2026 10:00:27 am

It is a tragedy and a crime that the historic East Wing has been demolished. The White House is the People’s House and it is being remodeled as a garish tribute to a golden king. This is not what America is. Please restore the East Wing and prohibit the building of a massive ballroom! America has many social problems and we should not be building a ballroom for the rich and famous! Thank you!

Name: Trini Murguia
Date: February 18, 2026 10:00:31 am

From a design observation standpoint, the proposal presents a noticeably accelerated approach to development, with limited visible integration of long-term civic, environmental, and historical considerations. The scale of the proposed structure appears significantly larger than the existing White House complex, creating a visual hierarchy in which the new construction would dominate rather than complement the historic residence. Such proportional imbalance could shift the symbolic emphasis away from the building’s established architectural language and civic meaning.

The massing of the new East Wing, reportedly planned at roughly twice the size of the current structure, raises questions

about programmatic necessity and contextual fit. In architectural terms, the relationship between new and existing buildings is critical; when an addition substantially outweighs the original in scale, it can disrupt coherence and diminish the legibility of the historic core.

Site conditions also appear affected. The adjacent White House Rose Garden has already undergone paving modifications, reducing planted surfaces. Further expansion would decrease green space that currently frames and softens the complex, altering both environmental performance and the ceremonial landscape setting. Open space functions not only aesthetically but symbolically, reinforcing accessibility and civic openness.

Material expression and architectural character are equally consequential. A design that reads as a large convention-style facility may communicate institutional grandeur or exclusivity rather than the restrained dignity traditionally associated with public service architecture. Ideally, an addition would balance flexibility—capable of hosting events ranging from educational exhibitions to formal gatherings—while maintaining proportions, detailing, and finishes that express stewardship, continuity, and welcome.

Finally, projects of this prominence typically undergo established review processes addressing historic preservation, environmental impact, and construction oversight. Alignment with such frameworks ensures that additions to nationally significant sites respect both democratic principles and architectural heritage.

Overall, the proposal's scale, site impact, and aesthetic direction suggest a need for further refinement to ensure that any new construction harmonizes with the symbolic, historical, and civic identity embodied by the White House.

Name: Barbara Lovett
Date: February 18, 2026 10:01:04 am

I find the destruction of the East Wing reprehensible and heartbreaking to say nothing of the lack of permits and restrictions that would not permit this blatant disregard of our historic heritage. Stop this destruction now and restore the East Wing to its rightful place.

Name: Denise Bellingham
Date: February 18, 2026 10:01:10 am

The East Wing should be restored to its original design. It is a piece of American history and should never have been desecrated.

Name: J. Martin
Date: February 18, 2026 10:01:14 am

The White House has been in existence for the better part of 250 years, without a ballroom. It was never intended to be a

palace, but rather a modest home for a public servant. State dinners, along with dancing, have been managed as modest affairs for all of this time. Now that the East Wing has been illegally demolished, it simply must be restored to its previous footprint and exterior design, which was balanced against both the main house and the West Wing. Anything larger than the previous East Wing is simply unacceptable. If the office space in the previous East Wing needed upgrading, that should be designed for efficiency, but MUST maintain the historical interior of the previous East Wing. No ballroom, whatsoever, is needed, nor should be imposed on the taxpayers of the United States.

Name: Elizabeth Easterling
Date: February 18, 2026 10:01:22 am

I oppose the spending of $300+ million on this project. After promising the American people that the new ballroom would not affect the historic and aesthetically pleasing East Wing, two months later it was totally razed. As someone who spent 30 years in the commercial construction industry, I know that the preconstruction work is crucial to the final success of the project and question whether there has been any geotechnical soil testing for correct engineering purposes, or whether there has there been any apparent and credible permitting or design review. The White House belongs to the people of the United States. It is only a temporary residence for the President. The East Wing needs to be rebuilt and restored to its former design at no cost to the taxpayers, and those responsible for this mess should be penalized and punished.

Name: Mary Dee Martoche
Date: February 18, 2026 10:01:33 am

I object to the East Wing Modernization Project. The White House is an historic building that belongs to all Americans. It should not be subject to alterations which significantly affect or destroy its balance, history and scale. Any proposed project must be subject to public review, accountability and design which respects and preserves its heritage. We have many more important demands for our financial support than this project.

Name: Jennifer Brown
Date: February 18, 2026 10:01:35 am

There was absolutely no protocols or proper procedures followed when one man independently decided he needed a completely abominable new project to tickle his little ego. Put a stop to this complete nonsense.

Name: Kelly Liddell
Date: February 18, 2026 10:01:43 am

This project was not properly vetted and reviewed by the necessary authorities. The required analysis and impact was ignored. The historical impact was disregarded. The United States is supposed to have checks and balances, a process for obtaining permits and questioning the wisdom of tearing down a large portion of such an important building. None of that was done, and the manner in which it happened was more consistent with authoritarian regimes than with a democracy.

Name: Giles Peek
Date: February 18, 2026 10:01:43 am

The destruction of the east wing without due process undermines the rule of law and the constitutional safeguards of our democracy. As a proud US citizen I would like to register my hopes that hereafter legal processes are used to complete this project in the interests of the people of the United States.

Name: tammy baker
Date: February 18, 2026 10:01:44 am

I am commenting in regards to the tearing down of the East wing of the White House and replacing it with an ugly overpriced ballroom that none of the American constituents want or want to pay for! This was not done with any

permissions that were needed legally to do it it did not go to Congress or the house or anybody else it was tore down basically in the middle of the night leaving the people's White House a shambles and this is an atrocity! This cannot be overlooked! This President does whatever he thinks he can do with no permissions no permits and the people knew absolutely nothing about this! This White House belongs to the people it does not belong to Donald Trump and he needs to be legally held responsible and the East wing needs to be built back the way it was at his expense! Please do the right thing here and do not let this atrocity continue! Thank you

---

Date: February 18, 2026 10:01:45 am

The Trump proposed ballroom should absolutely NOT be built, & I believe he has claimed that there have been private donations to build it…every penny of that should be used to fix the destruction. It was torn down without proper approval & without environmental studies, so should not be the responsibility of taxpayers.

Name: Janet Coryell
Date: February 18, 2026 10:02:27 am

I oppose the spending of millions of dollars on this project, in part because it was initiated without the proper authorization, permits, or design review. Its proposed size is an abomination and unnecessary to the functioning of the White House. It is out of scale with the rest of the complex and is a complete eyesore. It is not a modernization project but rather a complete razing of American history, committed with no respect for the law and the processes designed to protect the People's House. I want this project canceled, and the East Wing rebuilt and restored to its former design .Most importantly, in this country, no one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Kimberly SEPULVEDA
Date: February 18, 2026 10:02:46 am

I strongly oppose the construction of a ballroom onto the White House. It is a waste of taxpayer money that could be spent on other critical needs in our nation. The proposed construction has not been properly reviewed or approved. Tearing down the East Wing was a criminal act. The WH is not the President’s personal property - it belongs to We, The People. I want the East Wing rebuilt to its original design.

Name: Debra Wacker
Date: February 18, 2026 10:02:58 am

I was appalled to see the demolition of the East Wing without any legal basis! We the people do not need a huge ballroom whether paid by tech billionaires or not.
We need functional space for the federal government to work for us.

I do not want our White House to have a ballroom designed and approved by a president who has desecrated the Oval Office and White House with that god-awful gold leaf on everything. I do not want our White House to have a ballroom of any sort that is paid for by special interests and kickbacks from government contractors. I do not want our White House to have a "Ballroom" addition that dwarfs the White House itself. This project should be stopped right now, until a proper group of authorities can design it, approve it, publicly fund it, and use the regular processes provided by law, instead of a gaggle of people appointed for the sole purpose of approving whatever this president wants.

Name: Alice Berman
Date: February 18, 2026 10:04:46 am

I oppose the construction of the East Wing "Modernization" project, which was initiated without the proper authorization, permits, or design review. The design is a behemoth - as planned it will dwarf the White House and West Wing - which are much more significant, historic, and iconic structures than a gilded, commercialized party room. It is not a

modernization project but rather a complete razing of American history and sensibilities - an insult during this 250th anniversary of the nation's founding. Modernization would mean canceling this project, rebuilding the East Wing restored to its former design, and modernizing THAT building, with improved infrastructure (kitchen, bathrooms, storage, etc.) and expanded event space tastefully added in the same architectural style as the original structure. Further, I oppose the spending of a penny, much less $300 million on such a project. Finally, I am deeply disturbed that action was taken on the People's House illegally. To permit this project to go ahead without penalizing those who have broken the law would be an affront to all law-abiding Americans.

Thank you for your consideration.

No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

And I suggest that Trump is required to personally pay for the rebuilding of the East Wing. Not through donations or through taxpayers. But take from his personal wealth.

Name: Debbie Welch
Date: February 18, 2026 10:05:44 am

The East Wing was illegally demolished without proper permits, notice or permission. The loss of its history is a crime. No one is above the law, and law breakers should not be rewarded. This is a democracy, laws must be adhered to. The East Wing should be reconstructed to its former state and the law breakers held personally responsible for its replacement. Please do not spend public money on this crime. The US public does not need a ballroom.

Name: Linda Trilling
Date: February 18, 2026 10:05:58 am

Leave OUR house as is!! I do NOT approve a dismantling any part of the White House that the Amercian people own with OUR taxes. NOT ONE SELF SERVING INDIVIDUAL!

Name: Johniene Papandreas
Date: February 18, 2026 10:06:03 am

It is unconscionable that the destruction of the East Wing was carried out so cavalierly and by bypassing all normal and REQUIRED oversight. I vehemently oppose the spending of any amount on this currently proposed so called "modernization" project. It is not a modernization project but rather a complete razing of American history. The destruction of the East Wing was was initiated without ANY proper authorization, permits, or design review.

I want this fantasy project canceled as it serves only for the self-aggrandizement of an egotistical wannabe monarch. The East Wing should be rebuilt and restored to its former design and footprint with true modernizations that incorporate improvements to construction and materials that will preserve it for the American People. THAT should be the remit.

No one is above the law and to permit the project as currently proposed to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Theresa Ronan
Date: February 18, 2026 10:06:07 am

My reaction when I saw what Trump did to the Easr Wing was very unlike me, I started crying. Disbelief, frustration, anger, and fear all collided. This professional grifter in the White House has no regard for anything except himself and more money. Please do not let him build the monstrosity that he plans to build. He's already saying that he'll have to rebuild the West Wing too to match the ballroom. He is tearing down our history to rebuild with his name on it. Look what he did to the Kennedy Center! He wants to build an Arch with his name on It. He wants an airport with his name on it. Now a pharmacy, and youth bank accounts. He obviously has a deep hole in him that can't be filled, though he's trying to fill it with taxpayer-funded vanity projects. Please stop him!

Name: Marci Hess
Date: February 18, 2026 10:06:11 am

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. The complete razing of American history and an historical building without going through proper channels is unlawful. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Patrick Bresette
Date: February 18, 2026 10:06:12 am

As a fifth generation native of Washington DC and American citizen. I am horrified by the wanton destruction of the East Wing and the plans for a ridiculous ballroom. I urge decisionmakers to halt this offensive project in its tracks and order a full restoration of the East Wing. The White House belongs to all Americans and not the current narcissistic occupant.

Name: Jacob Guydish
Date: February 18, 2026 10:06:23 am

It's an abomination. Cancel it.

Name: Carol Mintz
Date: February 18, 2026 10:06:38 am

I am a former White House volunteer tour guide. I cannot express the joy in the faces of those who visited the White House -- the people's house -- especially at Christmas. The tearing down of the East Wing was illegal. I oppose the spending of $300 million on this unnecessary vanity project which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete destruction of our American history.

This project should be stopped and cancelled. The East Wing must be rebuilt and restored to its former design. We are a country of laws, no one, not even the President, is above the law. Our laws are to be followed and enforced. To allow this

project to proceed, without penalizing those who broke the law, would be an affront to all law-abiding Americans, our constitution, and the foundation of this nation.

Respectfully,

Carol Mintz

Name: Nancy Schmidt
Date: February 18, 2026 10:06:46 am

The current administration had no right to destroy a historic portion of the People's House and should be held accountable for what they have done. They violated every rule and procedure to make "changes" to the building and this wanton destruction should not go unpunished. It can never be replaced.

Name: Jason Adkins
Date: February 18, 2026 10:06:53 am

I vehemently oppose this idea!

Name: LeAnn DeLuna
Date: February 18, 2026 10:07:08 am

I oppose the destruction of the people's house without the people's permission. No Individual is above the law. The damage already done is reflective of damage to our country. The people's house must be restored to its original design, and the Jacqueline Kennedy Garden restored. It is a shocking affront to law abiding citizens for such destruction for one man's ballroom, someone who won't even be there in a few years.

Name: Sally Smith
Date: February 18, 2026 10:07:10 am

I oppose the spending of $400 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

The White House is NOT the president's house.
It belongs to US, the American people, and to destroy it without permission is illegal and an affront to those of us who follow the law

---

Name: Theodore Czarnecki II
Date: February 18, 2026 10:07:22 am

I oppose the "modernization" of the White House East Wing because that is not what this project is. It has been misrepresented from the start. The real project is the construction of behemoth ballroom that only one person wants. The project was initiated without the proper authorization, permits, or design review. Its size and budget have doubled since its announcement. Founded on dishonesty, Americans cannot trust that the dishonesty will not continue. Please cancel this project. The focus, instead, should be on reconstructing the East Wing - - restoring its former design. No one is above the law. If this Commission has any purpose or legitimacy, it should stop this project and seek penalties for those who broke laws. Americans must be able to trust that those charged with protecting the Nation's Capital are doing their job honestly and correctly. Thank you.

Name: Paul Asselin

No one should be building ego projects on historic government land.

Name: Barbara Mack
Date: February 18, 2026 10:07:58 am

Dear Members of the National Capital Planning Commission,

I am writing to express my strong objection to the demolition of the White House East Wing and the associated plans to construct a new ballroom. The unauthorized demolition raises significant concerns regarding preservation, precedent, and the long-term stewardship of federally significant architecture and public space.

Preservation and Historic Integrity:
The East Wing is an integral component of a unified architectural composition. Its demolition not only removed a historically meaningful structure but also disrupted the visual and functional coherence of the larger complex. The Commission has long upheld the principle that alterations to federal buildings must respect their original design intent and contribute to the continuity of the capital's historic fabric. The demolition failed to meet that standard.

Precedent for Future Alterations:
This project has set a troubling precedent. The removal of a major wing to accommodate a large private event space—particularly one designed for a single administration's preferences—risks politicizing federal architecture and weakening the Commission's ability to enforce consistent planning principles in the future. Federal buildings must serve the public interest across generations, not the short-term desires of any individual officeholder.

Impacts on Public Space and Security:
The proposed ballroom will introduce substantial operational and security burdens. Increased event traffic, service access, and perimeter control measures would likely diminish the accessibility and openness of the surrounding public realm. These impacts run counter to the Commission's longstanding goals of maintaining welcoming, functional civic spaces in the nation's capital.

No demonstrated Public Benefit:
No compelling public benefit has been articulated to justify the demolition of a structurally sound and architecturally significant wing. Federal planning decisions should be guided by necessity, stewardship, and the enduring needs of the public—not by the desire to create additional ceremonial or entertainment space.

Request for Commission Action:
For these reasons, I respectfully urge the Commission to censure the current administration for the completed demolition of the East Wing and to reject the construction of the new ballroom. I also encourage the Commission to reaffirm its commitment to preserving the integrity of federal architecture and ensuring that any future modifications align with the long-term public interest.

Thank you for your consideration and for your continued dedication to safeguarding the character and legacy of our nation's capital.

Barbara Mack

Name: Misty Cole

I oppose the demolition of the White House East Wing because changes to a national historic site should occur through transparent review, not unilateral action. Additionally, this $300M project is being funded by large private donations at

the behest of the sitting administration which creates at the very least the appearance of influence-seeking or preferential access, and undermines public trust.
The East Wing was destroyed to make way for a new state ballroom funded largely by private donors, with demolition beginning before review by the National Capital Planning Commission and amid unresolved preservation concerns.
I am asking for clear disclosure of donor funding, environmental and design review, and public accountability.
The White House is a shared civic symbol, not the property of any one administration, and major alterations should follow the same oversight standards expected of every other federally significant project.

Name: Margaret Dalton

A ballroom the President wants to build is much too large.bIt will take away from the beauty of the White House. It will end up being much too ornate. He tore down part of the existing White House without permission and shouldn't be allowed to move forward with building a huge ballroom.

Name: Johanna Fears
Date: February 18, 2026 10:08:51 am

The People's Whtehouse belongs to the people, not to Donald Trump. He had no right to tear down the beautiful and historic East Wing of the Whitehouse. It is only fair and equitable that Donald Trump pay for the complete and historic and beautiful restoration of the original East Wing of the People's House including all art objects and furnishings, no matter the cost. We urge you to find the best and most knowledgeable architect of USA history to being this project

immediately. We cannot abide any more destruction of what is historic and beautiful and necessary to the people of the United States of America.

Name: Maryellen Conroy
Date: February 18, 2026 10:09:02 am

I am submitting this comment to formally oppose the construction of a ballroom on the site of the former East Wing of the White House.

The demolition of the east wing without proper authorization or permitting is deeply concerning. The removal of a historically significant structure without transparent review or approval undermines established preservation processes and public trust. Proceeding with new construction under these circumstances compounds that concern.

The White House is not merely a functional building; it is a nationally significant historic landmark. Replacing a historic wing with a ballroom represents a substantial and inappropriate alteration to the character, purpose and dignity of the site. Such a use prioritizes private or ceremonial convenience over preservation, historical integrity and public accountability.

I strongly urge decision makers to halt plans for ballroom construction, conduct a full review of the demolition process and ensure any future actions comply with all legal, historical and preservation requirements. Any changes to this site should be subject to rigorous oversight and should prioritize restoration, not replacement

Thank you for upholding the standards expected in the stewardship of our nation’s most important historic property.

Regards

Maryellen Conroy

No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Trump thinks this is one of his businesses and has made a unilateral decision on the People's house when he had no right. This will have consequences for at least the next 40 years maybe longer.

Name: Kolby Peterson
Date: February 18, 2026 10:09:19 am

I STRONGLY OPPOSE the latest project to "modernize" the east wing of the white house. We do not need an eccentric display of the hoarded wealth in this country when we regularly have American citizens and veterans homeless and impoverished on our city streets.

Name: Sarah Brown
Date: February 18, 2026 10:09:23 am

Dear National Capital Planning Commission,

I oppose construction of a "modernized" East Wing. I oppose construction of a ballroom addition.

Put back the East Wing. Refuse the ballroom project entirely. Words cannot express my horror over what is happening to the White House complex.

I would be writing to urge you to save the East Wing, but as it has already been torn down unfortunately any pleas to save it are sadly irrelevant. I still am shocked and disgusted at the manner in which the East Wing was razed--from the lack of transparency, to the the hasty proceedings. There was history in that old East Wing that should have been preserved. Also, there were news reports that the contractors performing the demolition didn't follow proper protocol, calling in to question the environmental impacts. There were also reports that the workers were all foreign nationals, thus calling in to question if these contractors had proper security clearance to even work at such a secured site. This seems like all efforts so far have been at minimum an environmental risk and security risk, so what will the rest of it be?

But what's done is done. What is there to modernize when there is nothing left? Thus begins the real estate grift that Donald Trump is famous for. His bungling of development projects is documented far and wide. Why is he being allowed to run this racket with the People's House? So far, the renovations include tacky gold ornamentation accenting snarky portraits and spiteful messaging. The once treasured Rose Garden now looks like a patio at Disney World. Also, we have seen no plans for this, but news media reports that this is all a cover for creating some ultra secure bunker. I can see why a secure, modern bunker is needed in general for White House staff, but find it incredibly suspicious of this administration's particularly need, considering their involvement in the insurrection at the US Capitol.

And then there's the ballroom. Every proposed drawing I've seen of this thing shows some tacky, hulking structure that will dwarf the other structures on the complex. Why? What's the need? There is not a single person I know who thinks this is a good idea. Furthermore, what was wrong with the old event options at the White House other than it not pleasing the person in charge who is more interested in redecorating a bathroom than running the country? We don't need the White House redone as a grand Floridian palace. Also, given the purported capacity of this new venue, I would argue that having a large event with that many attendees inside the White House is a security risk. No one in their right mind thinks this is a good idea.

And then there is concern over the funding. I don't think the tax payers should have to fund even one bit of this renovation, but the donors providing the money for this also has me highly suspicious that these funds are being given for some sort of quid pro quo. This feels like yet another massive security risk.

It's not part of this comment period, but for what it's worth, we don't need a giant arch on Memorial Bridge. We also don't need to raze the Kennedy Center. When and if there is a comment period for those, I will be weighing in as well.

My hope is that your oversight will take the reins from the destructor in chief. Put the decisions with people who are far more experienced and reasonable, while restoring and maintaining the history of the structure. Restore the East Wing to what it was. Axe the ballroom plan. And the restoration of the East Wing should be paid for with funds collected from Donald Trump's personal finances, as he has made $1.38B over the last year in office on different emoluments--use his illegally earned money to replace the illegally razed structure.

Thank you for your considerations to these opinions.

Sincerely,
Sarah Brown

I oppose the spending of $300 million on this “modernization” project. The East Wing should never have been torn down and doing so was illegal! It completely erases American history. It was initiated without the proper authorization, permits, or design review! I want this project canceled. The East Wing should be rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Ann Speicher
Date: February 18, 2026 10:09:55 am

I oppose the Administration's plan to build a huge, ugly ballroom in place of the East Wing. If the underground work is necessary for national security, finish it up and put up a much smaller ballroom/First Lady office facility that reflects the main White House building, and doesn't overwhelm it.

Aside from all the laws and precedents that were violated in tearing down the East Wing, the proposed ballroom is so big that it not only would overwhelm the grace and beauty of the White House, but it would be a white elephant that would only be used a few times a year. As a federal building it could not be rented out for private events, so it would sit largely idle. What a waste of valuable real estate at the People's House!

Thank you for your consideration of my views.

Sincerely,

Ann Speicher

Name: Marnin Wolfe
Date: February 18, 2026 10:10:33 am

I oppose spending $300 million for a project that is destroying the very spirit of the White House. The demolition that took place without review, comment or permit is contrary to the democratic institution the Executive branch is meant to protect.

I want the East Wing rebuilt and restored at the expensive of the special interest groups that funded it's premature destruction.

The fact that the White House is not an enormous palace is a STRENGTH for our nation. It is meant to embody the fact that the President IS NOT a King or Dictator.

Demolishing the East Wing was a shameful and disrespectful act to our history. Reverse it!

Name: Jim Hutchings

Date: February 18, 2026 10:10:39 am

As a member of the National Trust for Historic Preservation, I am appalled that a sitting president would think they have the right to change any historic site without proper authorization. It’s bad enough that he has made the interior of the White House look like a brothel, but that at least, can be changed in the next administration.
When he said he was building a ballroom, did no one ask why it was going to be so huge? No sitting president has ever had the need for a monstrosity of those dimensions. Since all of this was done illegally, I recommend that Trump be held personally responsible for the financial restoration of the East Wing to the specifications spelled out by the NTHP. If he refuses, then I think criminal charges should be leveled for the premeditated vandalism and total destruction of national historic property.

Name: Thomas Hoving
Date: February 18, 2026 10:11:00 am

As a citizen of the USA, I oppose this project on many levels. Thank you for the opportunity to participate.

Name: Melanie Vanlandingham
Date: February 18, 2026 10:11:20 am

I wholeheartedly oppose the illegal demolition of the historic East Wing of the White House.

The White House is a shared civic symbol, not the property of any one administration, and major alterations must follow the same oversight standards expected of every other federally significant project.
To have demolished our most prized national symbol was a perverse and illegal act.

The unapproved construction project must receive an immediate Stop Order as it was initiated without the proper authorization, permits, design review, or public review. To call it a "modernization project" was and is a lie and a deliberate manipulation of the required process. It was, in fact, a complete demolition with the full intent to build an illegal construction.

The current project must be stopped and rejected and
the East Wing rebuilt and restored to its former design and footprint using matching materials as required. Any modernization of interior spaces must be approved prior to reconstruction.

Fines an must be levied on Mr. Donald Trump for his illegal acts in order to cover the FULL reconstruction, plus appropriate penalties for its future endowment.

Moving forward, there should be full, public disclosure of any donor funding, past or future. All permitting and approval must be acquired, including environmental and design reviews, and a full public review process prior to reconstruction.

Additionally, the $300M acquired through private donations at the behest of the sitting administration should be returned, as its alleged purpose was illegal and because this money creates, at the very least, the appearance of influence-seeking or preferential access, and undermines public trust.

Name: Janis Bechtel
Date: February 18, 2026 10:11:23 am

Point #1: All the evidence provided by President Trump's "beautification" projects leads me to conclude that this man should not be entrusted with so much as a coloring book and crayons, much less billions of dollars and bare citizen-owned ground.
Point # 2: This project is so far outside the guidelines for historical-setting appropriate, tasteful, useful, architecturally-pleasing, government buildings as to border on insanity.
Thank you for this opportunity to comment.

Name: Lisa Taranto
Date: February 18, 2026 10:11:28 am

Dear Review Panel-

My name is Lisa Taranto, I have been working in the architectural design sector for over 30 years.

This project is absurd. The scale of it makes no sense. Over 2 acres of enclosed space? It is hard to keep up with the size at it seems to be a fluid number.

Obviously something will have to be rebuilt there, but the giant gilded ballroom does not represent who we are. It might represent who Donald Trump is, but who wants that lingering in our world?

AND, as we all know, Trump does not keep his $ promises beyond what serves him in the moment, so undoubtedly it is us, the tax payers that will be left paying the bill.

I urge you to stop this project, review the existing conditions, and work with a reputable firm to design a reasonable project.

Thanks for listening to us.

-Lisa Taranto

Date: February 18, 2026 10:12:22 am

STOP the destruction of our White House by the criminal! NOW!

Name: Rose Brock
Date: February 18, 2026 10:12:25 am

The White House is publically owned and changes should not be made without prior consideration and authorization. In 2025 a temporary resident of the White House, without authorization, destroyed the East Wing in order to build an extravagant ballroom. If a larger reception area is needed at the White House, that should be discussed and the public should be involved in the funding...not a few mega wealthy Individuals. The person who caused the damages should be giving a bill for the cost of rebuilding.
Thank you, Rose Brock

Name: Rae Terry
Date: February 18, 2026 10:14:12 am

The impact of this addition to the White House is an abomination and should not be built as designed. The enormous size of the Ballroom is not in keeping with the eat of the White House grounds.
The cost is another issue. If billionaires want to have an impact in this country, how about contributing their billions to schools and hospitals where the money could make enormous differences in communities that do not have the finances to make improvements in those areas.

Name: Michael Smith
Date: February 18, 2026 10:14:13 am

Board Members, I see no reason to have a ball room attached to the White House. This is the people's house. A very small minority would have an interest in a glittery event. Historic places need not stay static forever, but change is best if slow and preserves the original sense. Thank you for your good work.

Name: Jennifer Austin
Date: February 18, 2026 10:14:14 am

Name: Michelle Papakee
Date: February 18, 2026 10:16:22 am

The destruction of the people's house was began without the proper approval process, as much of what this administration has and is doing.
This construction project was ran terribly as much of what this administration does.
STOP NOW and restore the White House to its previous state.

Name: Rasa Chambers
Date: February 18, 2026 10:16:34 am

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design at the cost of those that ordered it torn down. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Janette Wysocki
Date: February 18, 2026 10:16:37 am

Everything Trump touches dies. Including the East Wing of the White House.

I understand that the White House may need updating, but there are proper ways to handle it. Trump did everything BUT follow proper procedures and protocols to pursue modernization. He ripped apart the entire East Wing without proper approval. We don't need a ballroom bigger than the entire White House. The plan was gaudy, just like Trump.

The damage is done and reconstruction will be required in some form. Stop it here and follow proper procedures to update historic landmarks. The White House belongs to WE, THE PEOPLE, not Trump.

Name: Susan Delaney
Date: February 18, 2026 10:16:44 am

First of all, this should not be called a modernization project. I oppose spending $300 million on this project. This was a complete razing of American history and the people’s house.i want this project cancelled and the east wing restored to its former design. No one is above the law and to permit the project to go forward without penalties would be an affront to all law-abiding Americans. Thank you. Susan Delaney, Maryland citizen

---

Name: Sarah Ramsey
Date: February 18, 2026 10:17:00 am

I am opposed to the "East Wing Modernization Project." I think it is too large, has had almost no public input, and both the design and the funding are unclear. The current facade that has been posted does not compliment the remaining part of the White House, but detracts from it. This building would be a permanent addition. I don't think that future presidents would want such a huge ballroom.

Name: E. S. McCoy
Date: February 18, 2026 10:17:11 am

I strongly oppose the construction of a Trump regime ballroom as part of the White House. I am deeply distressed that the former East Wing was demolished without proper authorization, permits, or design review. My thought is that the space formerly occupied by the East Wing should be turned into a garden area. The resulting asymmetry of the White House would be a reminder of the permanent damage the Trump regime has done to our country. The garden itself could be, in contrast, a pleasing testament to the resilience of the American people.

Name: Susan Miller
Date: February 18, 2026 10:17:19 am

Please make the site safe then leave it untouched until a proper public process can determine the best replacement. Proposals should be considered, public comment sought, transparent funding sources determined. Architects should submit designs. The design should allow the space to be easily reconfigured as needs evolve.

Name: Carey Cranston
Date: February 18, 2026 10:17:25 am

This is a waste of resources, money and time, as well as a disgrace to American history and culture. The people's house should reflect an efficient and elegant use of taxpayer's investment and support of those elected to hold the office. It is not meant to aggrandize the individual in that office. The balance and symmetry of this national landmark has been destroyed without proper vetting or permitting. No one holding office is above the law and the east wing needs to be returned to what it was.

Name: Raye Robertson
Date: February 18, 2026 10:17:33 am

I oppose anyone spending $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project because it completely disregards and disrepects the historical significance of the East Wing. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Carol Patterson
Date: February 18, 2026 10:18:12 am

the East Wing Modernization Project as currently proposed and urge the Commission to reject the plan until proper legal processes are followed.
This project began with the demolition of a 123 year old structure before obtaining required approvals from this Commission, before completing mandatory environmental assessments under the National Environmental Policy Act, and before securing congressional authorization required by federal statute for construction on federal parkland in Washington. The fact that demolition has already occurred does not excuse these violations or create a fait accompli that forces approval.
The funding mechanism raises serious concerns.

Name: Kathryn Hoyer
Date: February 18, 2026 10:18:13 am

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. Name: LuAnn Gourley
Date: February 18, 2026 10:19:09 am

Watching the massive machines tear open the East Wing of the White House and then demolish it completely was like witnessing a horrible natural disaster unfold, destroying treasures belonging to "we the people." It's heartbreaking that there was no planning, no voting, no approval, in effect making this entire project illegal. My faith in our democratic government is forever altered as this is only one of so many blatant actions the people of our country are witnessing helplessly.
Please halt the East Wing Project and rebuild the White House to its historical state. I know each President makes small changes inside the White House while living there but demolishing so much with little to no support is preposterous… an attack on the democracy this country was built on. PLEASE STOP THIS MADNESS!!

Name: Kathy Rose
Date: February 18, 2026 10:19:14 am

It's a dastardly deed that our president committed by tearing down the East Wing of the White House without any congressional approval. It erased the history of that wing. We don't need a 300-400 million dollar ballroom. Where are the photos and other memorabilia that were housed there? I think the president should be held accountable for the destruction he did to the People's House.

Name: Craig Douglas
Date: February 18, 2026 10:19:16 am

I am a proud American, respectful for the rule-of-law and civility.

Respect.

History is an important component for my beliefs. While I am not an expert, I honor history by reflecting upon all facets

of our nation's upbringing and development.

What was done by Mr. Trump to the White House has upset me because it runs counter to my beliefs and values. The DESTRUCTION of the East Wing and Rose Garden is inexcusable. It is thoughtless. It is disrespectful and most likely, illegal. The influx of GOLD into the Oval Office and the ALTERATIONS I have seen in various reports of other presidents' pictures/portraits are other disturbing actions.

Mr. Trump needs to be held accountable for his reckless actions such as the ones I have cited.

East Wing modernization and ballroom addition must be stopped.

Please consider returning to the old layout and design. The proposed „ballroom“ is a monsterous eyesore.

It is a call back the desired ballroom at the Reich Chancelllery. They both intended to hide a bunker bellow.

Please do not allow this.

Name: Constance Hasapopoulos
Date: February 18, 2026 10:19:22 am

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. To remove part of our national history without consideration or the consent of its people is a self serving egotistic act that is indicative of a megalomaniac authoritarian, and to do so when so many of our citizens are in financial need!

Name: Jennifer Smith
Date: February 18, 2026 10:19:32 am

I strongly oppose the proposed 90,000 square foot ballroom put forward by Donald Trump. This project is an outrageous display of excess and ego that has no place in the nation’s capital. At a time when Americans are struggling with rising costs, infrastructure needs, and urgent national priorities, advancing a vanity construction project of this scale sends a deeply troubling message about misplaced values and priorities.
The character and symbolic integrity of Washington, D.C. are not props for personal branding. The federal core should reflect dignity, restraint, and respect for public space—not serve as a monument to private extravagance. A 90,000 square foot ballroom is not a necessity; it is a luxury spectacle that risks overshadowing the architectural and civic harmony carefully stewarded for generations.
I urge the National Capital Planning Commission to reject this proposal outright. The Commission’s responsibility is to protect the long-term planning, design integrity, and public interest of the capital—not to accommodate projects driven by self-promotion.
This proposal is excessive, inappropriate, and contrary to the values of responsible governance. It should not move forward.

Name: Doug Bushnell
Date: February 18, 2026 10:19:38 am

Modernization IS NOT replacing a historic site with a 90,000 square foot ballroom!!! This is wrong and should not be allowed. The East wing sould be reconstructed as it was with modernazations to it!!! PERIOD!!

Name: Virginia Rude
Date: February 18, 2026 10:20:09 am

Tearing down and destroying the east wing of the White House for an unneeded ballroom without getting the proper

permits and approvals is totally unacceptable and needs to be stopped. This was nothing but a vanity project for one person. The peoples house needs to have the East Wing rebuilt exactly like it originally was and those who destroyed it punished.

Name: Ruth Ward
Date: February 18, 2026 10:20:17 am

I am opposed to this project, which is being done without any authorization from any of the entities that should have a say in it. Part of our history was totally destroyed with the raising of the east wing. It is nothing but a vanity project. I believe that the plants for the ballroom and everything else that the president has planned for this site should be scrapped in the east wing should be restored to its original form.

Name: Kathy Stokes

I am all for making whatever changes may be necessary to bring the White House into compliance with safety and security requirements and updating any components that may be in need.

The complete demolition of the East Wing and plans for a massive ballroom are not in the least bit required or wanted by the American people, no matter the source of revenue for the project. The White House had perfectly adequate facilities for State Dinners, receptions, and other events before the President and his cohorts decided to demolish a historic wing of The People's House. We do not need or want a ballroom that can seat up to 1,000 guests. Who will these guests be? Will the project be completed prior to the current President's departure in January 2029? If not, what is the point?

To have done this with no plan in mind, much less no plans on paper, to have done so with no approvals from Congress or any department with jurisdiction over the building, is wrong, disgusting, and contrary to historical precedent and procedure.

I urge those who have jursidiction over this project to take a step back, develop a plan that can be approved by Congress, and present the American people with a vision for the future of our house.

To the National Capital Planning Commission,

I am writing as an American citizen to express deep concern about the demolition already carried out and the proposed construction of a massive new White House ballroom as part of the East Wing Modernization Project.
I was saddened and alarmed to see photos of historic structures connected to the East Wing being torn down. These spaces were part of our national story — the People's House — and closely tied to the legacy of First Ladies and the historic development of the Office of the First Lady. The loss of these buildings is not a minor change. It is the destruction of irreplaceable national heritage.
I am especially alarmed that demolition was completed in a rushed and largely concealed manner behind large temporary curtain walls, despite widespread public concern that the required review and planning processes had not been completed. This approach felt reckless, dismissive of public oversight, and unworthy of the care that should be shown to a national historic landmark.
I am also concerned about the proposed size and scale of the project. A 90,000-square-foot ballroom risks overwhelming the iconic look, proportions, and character of the White House and its grounds. The White House should remain dignified and historically consistent — not redesigned into something resembling a private luxury venue.
Finally, I am concerned about design trends that prioritize extravagance, including excessive use of gold plating or gold leaf. The White House should reflect the values of a democratic republic, not showy personal branding.
Any construction at the White House must be done with extraordinary care, restraint, transparency, and respect for history. I urge the Commission to require full review, meaningful public accountability, and a plan that protects the historic integrity of the White House for future generations.
Respectfully,
Susan Smith
Huntertown, IN

Date: February 18, 2026 10:22:35 am

The East Wing of The White House should never have been demolished without review and consent the National Capital Planning Commission and input from the Commission of Fine Arts. The fact that there is an exemption in the National Historic Preservation Act that does not prohibit demolition without proper review, is a serious shortcoming in the law. Donald Trump could decide to demolish the entire building on a whim, with no recourse. But the damage is done. The East Wing is gone now. It was knocked down with no approval from anyone but Donald Trump. He is not a king.

Modifications and renovations should be funded by Congress, not President Trump's wealthy supporters. His plan to replace the East Wing with an ostentatious 90,000 square foot ballroom violates norms, laws, architectural best practices, and the very idea that The White House is The People's House. The Trumps are our tenants. They do not own the White House. The American People do.

This is a vanity project. Replacement of the East Wing needs to go through appropriate review and approval processes that honor the intentions of Congress, the history, purpose and proportions of The White House, and the needs of the American People. It must not be done to build a monument to one man's ego.

I support the findings expressed in the October 21st, 2025 letter sent to The White House by National Trust for Historic Preservation and signed by Dr. Carol Quillen.

Sincerely, James Hall
Alford MA

I strongly object to the $300 million being poured into a project that moved forward without proper approval, permits, or thoughtful oversight. This isn't a simple update — it's a full-scale demolition of something deeply rooted in our nation's history. I believe this effort should be halted immediately, and the East Wing restored to its original design and character. Accountability matters. No one is above the law. Allowing this to continue without consequences for those who ignored the rules undermines the very principles that protect all law-abiding citizens.

Name: Kathy Euston
Date: February 18, 2026 10:23:24 am

I strongly object to President Trumps east wing teardown & modernization project for so many reasons:
1. This is the people house not his house!
2.This project was started without any of the appropriate authorizations or oversite.
3. While funds were supposedly donated it is still a tearable waste of donors dollars. Hopefully these donated funds can be used to rebuild the east wing as it was.

Respectfully submitted,
Kathy Euston

Hello,

I am horrified by the unauthorized destruction of the East Wing of the White House. As a citizen it was my window into the executive branch of our government and I feel cut off, silenced, and discarded by its erasure.

I want the East Wing rebuilt in the same style as the original building. The layout can change and of course modernize amenities but it should match the style and function of what was stolen from us.

I would also like to see a public meeting space included where classes can meet and have lectures before taking a tour of the White House.

And it would be wonderful to have it surrounded by gardens or a tree grove or both to replace the historic trees that were removed. Every state could donate and it could become an educational garden illustrating how the White House is supported by the states and belongs to the people.

The legacy of our country is that its fate is decided by its people--not by any one person or administration. The original East Wing may have needed refurbishing, but the proposed out-of-scale replacement should be considered unacceptable, both aesthetically and in purpose. A hosted event at the White House is to serve a dignified, diplomatic purpose, not a performance venue to make an impression. We are not a country whose government should be displaying abundance or riches. The East Wing should be rebuilt in its original footprint with modern amenities incorporated into its original aesthetic to ensure it fits purposefully alongside the residence and West Wing.

Name: Liz Ballantyne
Date: February 18, 2026 10:27:41 am

I oppose this project and the spending of $300 million dollars. The proper authorization, permits, and design review were not completed prior to the destruction of the East Wing. This project should be cancelled and the East Wing should be rebuilt and restored to its original design. The proper process was not followed, thus, it needs to be restored.

Name: Norma Hall

I oppose the spending of ~$400 million on this project, which was initiated without the proper authorization, permits or design review.

It is not a modernization project but rather a complete razing of U.S. history.

This project must be completely canceled.

The East Wing must be rebuilt and restored to its former design.

No one is above the law; to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding U.S. citizens.

Another thought: Leave it exactly as it is now — tarps, scaffolding and all.

Put up a plaque, like a war memorial, explaining how we literally destroyed our own executive mansion. Let it appear in the corner of every news broadcast about what “The White House” or “Washington” did today. Let it appear in the background of every movie set in DC.

Leave it there until we have repaired the damage done from 2025 through 2028. Until we’ve reunited families that we chose to destroy. Until we’ve recreated the regulations that were wiped out without thinking. Until we’ve put limits on the executive branch’s ability to unilaterally declare war on external “enemies,” and support a secret police on internal ones.

Leave it that way until our former allies say that they can trust us again. (That will be a very long time.)

Let it be a reminder of how we are destroying ourselves right now. We’re going to want to put this unnecessary traffic destruction behind us and pretend it never happened.

And we can't do that if we are ever going to learn the lessons that this illegal destruction must teach us.

Name: Sarah Baldwin

Re: Formal Opposition to the Proposed East Wing Renovation Project

Dear Executive Director and Members of the Commission:

I am writing to formally oppose the current administration's proposed project to demolish and reconstruct the East Wing of the White House. This project was initiated without proper authorization, required permits, or design review — and it must be stopped.

This is not a renovation. The East Wing has stood as part of one of the most iconic and historically significant buildings in the country, and tearing it down without following the required legal process is simply wrong.

It would be a travesty to allow the proposed "ballroom" project that overwhelms the White House to proceed. At 90,000 square feet to 55,000 square feet, it would dwarf the White House.

I urge the Commission to take the following actions:

Halt the project immediately pending a full review of all authorizations, permits, and design approvals.
Require full compliance with all applicable historic preservation laws, including the National Historic Preservation Act.
Mandate restoration of the East Wing to its original design, consistent with the historic character of the White House complex.
Hold accountable those who proceeded with demolition or construction work without proper legal authority.

No one is above the law — not even the occupants of the White House. To allow this project to proceed without consequence would send a dangerous message that legal processes can be ignored by those in power. That is an affront to every law-abiding American and to the institutions designed to protect our national landmarks.

The National Capital Planning Commission has both the authority and the obligation to intervene. I urge you to act decisively and without delay.

Name: Laurel Straughan
Date: February 18, 2026 10:28:19 am

To whom it may concern:

I completely oppose this project. It is unnecessary and has been done without the input of Congress or The People. The structure will be outsized and gaudy and has been undertaken without respect to our history or to the harmony of the remaining structures of the White House.

I understand that it is not taxpayer dollars being used and that is also part of the problem.

Thank you.

Name: Jean Oxenfeld
Date: February 18, 2026 10:28:22 am

The East Wing should be reconstructed as close as possible to its original construction. I consider what has been done to it as defacement of government property. The destruction of the East Wing symbolically demonstrates that the Constitution does not apply. The last time I checked, we are supposedly a democracy/republic and NOT an authoritarian regime. The people did not ask for this. The White House is supposed to be the people’s house, not the President’s personal playground. Building a ballroom is an in-your-face move that demonstrates the government has retreated to the Gilded Age.

Name: Jennifer Thoman
Date: February 18, 2026 10:28:23 am

I am submitting this comment in strong opposition to the proposed East Wing modernization project. While modernization is often framed as inherently beneficial, this proposal raises serious concerns about stewardship, transparency, fiscal responsibility, and the long-term character of a nationally significant civic asset.

First, the project appears to conflate modernization with expansion and aesthetic alteration rather than focusing on genuine preservation needs, as is made obvious by the rushed commencement of demolition. The East Wing is not merely functional square footage — it is part of a carefully considered architectural and historical composition. Alterations that significantly change its character risk eroding the integrity of the original design. Public buildings of this stature are cultural artifacts, not blank canvases for contemporary preferences. Once altered, the original intent and fabric cannot be restored. The burden of justification for such changes must therefore be extraordinarily high, and the materials provided do not meet that standard.

Second, the project lacks sufficient clarity about necessity. Modernization should be driven by demonstrable operational requirements, safety concerns, or preservation imperatives — not aspirational upgrades or speculative future uses. Public funds should not be committed to ambiguous goals, especially when existing infrastructure appears serviceable.

Third, the fiscal implications deserve far more scrutiny. Large capital projects routinely experience scope creep, cost escalation, and prolonged timelines. In an era of constrained public resources, approving an expensive modernization without ironclad cost controls, independent oversight, and transparent lifecycle projections is imprudent. Opportunity cost matters: funds directed toward this project are funds unavailable for maintenance backlogs, community-serving infrastructure, or preservation of other historic resources.

Fourth, there are troubling process concerns. Meaningful public engagement requires more than a formal solicitation period; it requires accessible, comprehensible information that allows stakeholders to evaluate tradeoffs BEFORE the commencement of the project. Key decisions have advanced significantly before robust public dialogue. This creates the perception, whether intended or not, that public input is procedural rather than substantive. For a project affecting a nationally symbolic site, that perception alone undermines public trust.

Finally, modernization should not come at the expense of environmental and material sustainability. Large-scale demolition, reconstruction, and reconfiguration carry significant embodied carbon costs. The most sustainable building practice is often careful maintenance and targeted upgrades, not wholesale transformation. The proposal does not convincingly demonstrate that its environmental footprint is justified by proportional long-term gains. Environmental impact studies were not made public prior to the commencement of demolition, creating the perception that those studies were never done.

Taken together, these concerns point to a project that is insufficiently justified, financially risky, architecturally intrusive, and procedurally rushed. The East Wing deserves stewardship grounded in restraint, preservation ethics, and rigorous public accountability. I urge the Commission to reject or substantially reconsider the modernization proposal, prioritizing conservation, transparency, and fiscal prudence over unnecessary alteration.

Respectfully submitted.

I am writing to express my opposition to the East Wing modernization project. This project has been destruction of an American historical icon without consent of anyone, but most importantly, without the consent of the Commission and the American People.

The destruction of the original structure was done by a contractor without an abatement certificate because said contractor had purposely let his certification to do abatement lapse. So, instead, he has let toxins escape into the air around the White House, endangering the lives of people who live and work there.

Additionally, the scope of the project has changed multiple time, getting larger each time. It now dwarfs the White House. No thoughtful design to fit with the historical nature of the rest of the building. We have already seen the destruction of the Rose Garden, which has been replaced by a concrete patio that looks like the seating outside of a fast food restaurant.

It is disgusting.

I ask you to pause this program until finalized plans have been submitted to you and you approve the project. Addtionally, the worksite must be cleared of any toxins and certified as an OSHA safe workplace. I would future suggest that the work be performed by union members of the various trades to insure the level of construction by master craftsmen.

Finally, this should be a restoration project. It should meet historical specifications.

I am appalled the former East Wing was torn down without any thought. It is a mess. I am appalled it got as far as it got and I am heart sick whenever I look at its current state.

Please send them back to the drawing board. What they are proposing is simply not acceptable.

Name: Linda Olsson

I oppose the spending of $300 million dollars on this project. There was no proper authorization.
It is an affront to every American who believes and abides by the rule of law. The President cannot be allowed to tear down our beloved East Wing, or any other structure and the precious history it represents. The White House belongs to the people! This project needs to be canceled and the East Wing restored to it's original design.

Name: Beth Heidelberg
Date: February 18, 2026 10:28:51 am

Greetings! I would like to submit this comment to oppose the current scale of the East Wing modernization and ballroom addition proposed for the White House property. I am not speaking from a partisan positions. I am an architectural historian and urban planner of over 20 years. Looking at the plans, I have concerns.

The main point is that from an urban planning and historic preservation policy perspective, this project is unfit for a million reasons you've probably already heard. But here are some points that I'd like to highlight:

1. The scale of the building is excessive for the site. It diminishes the size of the main White House block, and overtakes the historic significance of the original building.

2. The ballroom plan contradicts the overall symmetry that is inherent in neoclassical style. This damages the architectural integrity of such a historic site.

3. While architectural integrity is important, the space is a functional workspace, of course. However, there has been no salient argument that a scaled-down version of the plan would not work.

4. The pedestrian view of the historic White House will be substantially blocked, reducing the visitor experience to the historic site. This will funnel tourists and visitors to the remaining view sites, increasing crowd traffic to a reduced amount of space.

5. Costs for this project have doubled since the initial plan. While the proposed plan has suggested external funding for construction, the costs seem to rise with each iteration of the plan. The question of who will fill the gap between donated funds and the actual project cost is concerning - will there be an escrow or similar guarantee of funding, already set aside and proven, should there be such a gap, so the burden doesn't fall on public funds, which are already overburdened?

6. Construction costs aside, unless I have missed something, I do not see any mention of who will pay for the operations, systems, and maintenance of the site, which will be substantial given its massive scale.

7. And finally, there is significant concern about the project, which has already bypassed traditional regulations for permitting and oversight. There is nothing to suggest the project team and those supporting it will follow procedures, permitting, regulations, and historic preservation ethics during the construction process.

Please do not allow this building, at this scale, to happen. It will damage the integrity of the historic White House site through its far too excessive scale and asymmetry for a style that prides itself on humanistic balance. It will damage the visitor and pedestrian experience. And there are valid concerns about whether the people behind the project will use

proper procedure and allow regulatory oversight. When the highest office in the land refuses to follow the rules and processes, it sets a terrible example for the rest of the country.

Date: February 18, 2026 10:29:19 am

Reflect the history and architecture of the White House and the site. Tear up the concrete put down in 2025 and create an area with trees, bushes and flowers. Finally, make Trump pay for the reconstruction out of his own pocket. He is personally responsible for the destruction.

I am very much opposed to the unilateral decision to destroy the east wing of the White House. America watched, seemingly helplessly as one man took a wrecking ball to the people’s house to fulfill his selfish dream and make it in his image. This is unconscionable and unprecedented.
The East Wing should be rebuilt as it was and bills paid by the president who is not above the law unless we give him that power.
Thank you for your consideration.
Sarah

I am writing to express my opposition to the proposed East Wing modernization project currently under consideration.

As the central federal planning authority for the National Capital Region, the NCPC holds a unique responsibility to model careful stewardship, contextual sensitivity, and long-term planning discipline. The proposed modernization of the East Wing raises significant concerns regarding scope, necessity, and consistency with preservation principles.

While targeted infrastructure upgrades and life-safety improvements may be appropriate, the current proposal appears to exceed essential maintenance and veer into substantial alteration. Such changes risk undermining the architectural integrity, scale, and institutional character of the White House. Modernization should not result in overbuilding, aesthetic imbalance, or the dilution of historic fabric. No one needs a 90,000 square foot ballroom that dwarfs the existing structure.

Additionally, the project's cost, long-term operational impacts, and alternatives analysis warrant closer scrutiny. Before advancing, it is critical that the Commission demonstrate:
• A clear and documented need for the proposed building changes
• Consideration of less invasive, preservation-first alternatives
• Transparency regarding full lifecycle costs, which should be 100% public and not private
• Assurance that the project aligns with adopted federal planning and historic preservation policies

As a body charged with safeguarding the design legacy of the nation's capital, the NCPC should exemplify restraint and proportionality in its own facilities. Proceeding with an expansive modernization risks setting a precedent that conflicts with the very standards the Commission applies to other federal projects.

For these reasons, I respectfully urge the Commission to reconsider the scope of the East Wing modernization and pursue a more limited, preservation-sensitive approach that prioritizes stewardship over expansion.

Thank you for the opportunity to submit this comment.

I would like to say that like millions of Americans, I am heartbroken that the East Wing of the White House was torn down with such a callous disregard for proper procedures and planning. I hope the East Wing project can be redirected to restore a respect for history, and not be constructed as a vanity project. It should be built within its original proportions to the rest of the WH, and contain a reasonably sized ballroom.

The East Wing should never have been torn down without the plans being fully vetted first. If I were to add anything to my house, even a back deck, I'd have to get a demolition and a building permit, and I couldn't start work until the area and plans were inspected in person. I'm sure the East Wing must have had some asbestos or lead paint that would have needed mitigation before a demolition project, yet this demolition was carried out without any inspections.

I have seen the plans made available to the public, and I'm against building a ballroom there that will be grossly out of scale with the rest of the White House. I would prefer that the East Wing be restored, rather than a ballroom being built.

I'm also EXTREMELY concerned about what happened to all of the artwork and other artifacts that were in the East Wing before the demolition. Where are they now? Were they properly stored and cataloged? Or were they demolished with their surroundings? This administration is showing NO concern about our country's true history or its artifacts and doesn't appreciate real art, so I'm afraid they are gone. If they do still exist, I hope they'll be placed in the new wing.

The federal buildings in DC actually belong to the American people, not to the president of the moment. Please restore our heritage!!!!! Rebuild the East Wing.

Name: Anne Snedecor
Date: February 18, 2026 10:33:01 am

This is a vanity project that must not go through. It was not presented in the beginning through the proper channels, it will dwarf the main building (white house) and is not necessary. Years of history have been destroyed already by this project and the east wing must be rebuilt. This is not for the people, this is not because there have been 150 years of administrations asking for a giganic ballroom (which is a lie) and it will cost the tax payers more money to maintain this large building.
This must not be approved!!!! As a taxpayer I am appauled at what is happening to our historic buildings. Please stop this project and rebuild the east wing.

Name: Barry Dressel
Date: February 18, 2026 10:33:08 am

I am 79 and a Washington native. I was born just blocks away from the White House. I am also an historian, former museum curator and executive, and have been significantly involved with the renovation of historic buildings, including a National Historic Landmark. I still have a copy of the report on the rebuilding of The White House during the Truman Administration that my father was given by someone on the Congressional committee that oversaw the project. That immense and necessary project was done carefully and properly with planning that was cognizant of history and preservation, used federal funding, and had bipartisan congressional oversight. The decision to demolish the East Wing and construct a ballroom adjacent to The White House has been a rushed and eccentric individual decision made without consultation with the National Trust, no completed final design, no federal funding, no expert consultation of its visual impact, and no congressional oversight. It was obviously done to guarantee that a single person—the President—would have total control of the project. He alone will determine the building’s role, utility, size, and design. The funding is to be private and therefore political.
The White House is The Executive Mansion, but the executives are transient and really it is The People’s House, not an individual president’s. In reality it is a trust to be stewarded by the United States for its citizens, not merely a property to be altered at whim of the current occupant without permission, careful design and oversight. I will not comment on the design aesthetic of the proposed ballroom, except that its size and siting was originally out of scale, overawing the White House, and the size has apparently increased since. If constructed, it would be grotesque by scale alone. Regardless, the destruction of the East Wing was both a desecration and unnecessary. It should be recreated. If a ballroom is necessary its

location, siting, scale, design, and utility needs to be carefully considered, approved, funded, and supervised properly. This is not a Trump project, much less a Trump property.

Date: February 18, 2026 10:33:27 am

There are many ways to have dealt with a need for a ballroom but this callus disregard for process & rule of law is beyond the pale. This man has illuminated so many needed jobs, government agencies, health & safety programs....programs that serve the greater good of ALL the PEOPLE...the people he was elected to serve....that it seems ABSOLUTELY hypocritical to build a ballroom for the elite, that serves such a limited role and shows the arrogance of a man who thinks he is ABOVE it all. The Whitehouse is the PEOPLES house ,,,not HIS ! (AND THE REPAIR SHOULD BE PAID FOR BY HIM....NOT WITH TAX PAPER DOLLARS)

Date: February 18, 2026 10:34:51 am

Without proper oversight, the east wing project is a possible vehicle for corruption and white collar crime activity.

There was no compelling event to dismantle the east wing, this was a decision that was done through proper process and there is a complete lack of change management, budget, and review process.

Demolition of the old east wing requires that at least clean up operations begin, and without priper engagement and collaboration, and viewing the current activities of the individuals involved - the east wing project cannot and should not continue until the scope of the project ia defined, proper security has been addressed and applied, and we can ensure that ONLY American interests are served.

Cancel the east wing project now - we cannot be beholden to corporate donors who WILL come asking for favors later on

when it is convenient for their interests. This is not the America way. We must have oversight, ownership, collaboration, and accountability.

I am an American citizen and I am strongly opposed to what is being called the "East Wing Modernization Project" because it is an illegal and amoral destruction of US History and a desecration of the White House, which belongs to all of us. This demolition was done without public input, proper consent or permissions. It is especially offensive because this is The People's House, and The People have had no say in this destruction of our history. There has been no true public accounting of a budget for this, nor have we seen the final design of the proposed renovation, although the models and drawings we have been allowed to see show a giant, hideous structure that looks like a thinly disguised big-box store. I want this grotesque and tasteless project cancelled and a rebuild of the original structure with full public review. I would like to see the decision makers and doners of this deseration fully investigated and prosecuted if that is called for. No one is above the law, not in the United States. Please protect our history, decency and The People's House. Thank you.

Our beautiful White House, which is owned by the citizens of the United States, has been a beautiful emblem of our democracy since 1800. When it was burned by the British in 1814, it was rebuilt again by the same architect and has housed our presidents and their families ever since.

US presidents do NOT have the authority to make structural changes to the White House and tear down walls. Under a law known as National Historic Preservation Act, federal agencies are required to examine the impact of any construction projects on historic properties. Specifically, Section 106 requires the agencies to undergo a review process, including getting input from the public. Any proposal requires congressional approval and funding for major structural renovations to the White House. As federal property, significant alterations usually involve consultations with the Committee for the Preservation of the White House and the National Capital Planning Commission.

Jacqueline Kennedy once said, "Everything in the White House must have a reason for being there. It would be sacrilege merely to 'redecorate' it — a word I hate. It must be restored, and that has nothing to do with decoration. That is a question of scholarship."

The Committee for the Preservation of the White House must oversee any building project to ensure that it maintains the historical elegance and Structural changes to the White House because it is a federally owned, iconic, and historic national treasure, NOT personal property reflecting personal taste, ensuring accountability in how taxpayer-funded, significant alterations impact American history and its status as the "People's House".

Please slow, stop and reverse the East Wing Modernization project. The former design is an important part of what all of us knew as the "White House." As I understand it, there was no proper design review before this project. This is not the example we want to give our children of the way democracy works. The image projected is of a monarch whose every whim must be accomodated. I teach democracy. I care about the substance and image of democracy. Neither the process nor the result conveys what we want to teach our children and ourselves about the way democracy should work. Thank you.

Name: Linda Schreiber
Date: February 18, 2026 10:40:42 am

The White House is a National Historic Landmark and a National Park, owned by the American people and home to presidents since 1800. The current president at any given time is not the owner of the property or the structures thereon; the president is a temporary tenant whose interventions are limited by law and by respect for the people of the United States.
The demolition of the historic East Wing without review, without permits and without Congressional oversight is clearly a violation of the law. In addition, it is a violation of the trust of the American people who were given no opportunity to comment on what should have been presented as a proposal and not as a violent fait accompli.
I urge the National Capital Planning Commission to require reconstruction of the East Wing in keeping with its historic design and size. Anything constructed on the demolition site going forward must be compatible in form and subordinate in scale to the original structure of the Executive Mansion.

Date: February 18, 2026 10:41:14 am

Dear members, The current condition, or lack thereof, of the East Wing is an abhorrent national embarrassment. It should be repaired and replaced, at any cost and the bill sent to Pres. Trump.
Furthermore, there should be no further destruction of any structures in D.C. until the East Wing is rebuilt. No Arc de Triomphe, no more name changes, nothing.
Thank you all and God bless America and the United States.
Sincerely,
George C. Molinski, Jr.

Replace it the way it was with new material. Trump had no right tear it down. Trump needs to pay for the entire cost as he lawlessly tore it down. He has grifted enough money to bear the whole cost.

Name: Kelley Shippey Gilbert
Date: February 18, 2026 10:42:15 am

How can one propose to “modernize” a now non-existent structure that was surreptitiously destroyed without any opportunity for public input? Any new construction, modernization or destruction of public property must provide sufficient opportunity for meaningful public engagement BEFORE any irreversible action is undertaken.

Public lands are a sacred public trust - both the People’s legacy and their inspiration. The proposed ballroom project would be nothing more than a vainglorious monument serving only the desires of one American president. It does nothing to reflect the desires and aspirations of the American people - it’s sheer size and lack of proportionality would visually represent the further subjugation of the American populace to the whims of one powerful individual.

We do still live in a democracy, don’t we?

Name: Jan Darrah Church
Date: February 18, 2026 10:42:18 am

I am greatly opposed to the destruction of the east wing of the White House. I would like it to be restored to its former self. This house belongs to the history and people of our nation and should not be allowed to illegally and without the people’s consent changed.

Name: Eric Pietsch
Date: February 18, 2026 10:42:55 am

I am opposed to the unapproved destruction of the White House and an approved (assuming it receives building permits) ballroom addition. The funding of any part of the project should not come from private donors except to return our building back to its original state.

Name: Susan Russo
Date: February 18, 2026 10:42:59 am

President Trump’s ballroom plan for the White House bastardizes the premise that the White House is the “People’s House”.

For the first time in 71 years of life, I visited the White House in 2024. The long lines and invasive security protocols were softened by the simple elegance and “hominess” of the White House. It was beautiful, but in a calming and welcoming way. It held an aura of both gravitas and normalcy.

Trump’s changes to the White House are destroying the importance of the White House. The gaudy and massive ballroom Trump has planned for the White House is not just damaging to the White House’s historical significance; this proposed ballroom is an offensive indifference to the American people.

Construction of the Trump ballroom must be stopped. Trump’s desecration of the White House must be stopped.

Name: Ann Richards
Date: February 18, 2026 10:43:15 am

Please rebuild the Original White House east wing. It's historical architectural value is important for educating students, all Americans & historians. The destruction of the Original East Wing was unnecessary and was not approved by any historical, National Park Service or congressional entity. Please rebuild the Original East Wing for posteriy.

Name: Nicole Bosca
Date: February 18, 2026 10:43:20 am

To the reviewing entities:

I am writing to express my profound disappointment regarding the East Wing Modernization Project. The demolition of historic sections of the White House was a premature and catastrophic loss for our national heritage. While the damage to the building's original integrity is now irreversible, I strongly oppose the current plan to replace that history with a 90,000 square foot vanity ballroom. Because the demolition was carried out before a respectful, long-term plan was finalized, the burden is now on these entities to rectify this shortsightedness. I urge you to pivot away from a modern and oversized expansion and instead prioritize a faithful architectural restoration that aligns with the historic character of the White House.

The proposed 90,000 square foot size is disproportionate to the historic complex and any new construction must be scaled down to respect the original sight-lines and the footprint of the East Wing. Since the original materials are gone, the reconstruction must use period appropriate materials and traditional craftsmanship rather than modern shortcuts. The American people deserve a project that heals the site's integrity rather than one that prioritizes luxury event space over our shared history. Finally, there must be an independent audit of why demolition was allowed to proceed before the public and reviewing bodies had the opportunity to fully weigh in on the preservation of the site.

Name: Renate Barlow
Date: February 18, 2026 10:43:21 am

I believe that the ballroom is not something America needs. President Trump destroyed the East Wing of the White House without permission. I believe that the ballroom construction is not needed and the East Wing should be restored.

I oppose the spending of $300 million or more on "modernizing" the East Wing of the White House. This project was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather an

obliteration of American history. What one person sees as a big beautiful gold room, many of us see as an excessive, gaudy, and unAmerican horror. I want this project canceled, and the East Wing rebuilt and restored to its former design. If there really is a $300 million budget, use it to clean and update other parts of the White House, keeping those areas as close to the original as possible. To permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Barb Schwanke
Date: February 18, 2026 10:43:59 am

This project should not have been permitted to even begin with out congressional approval.
At this point the project should be put on hold until a final design which meet historical preservation approval with bipartisan representatives fully engaged in future budget and design.all current donated funds should remain in a federal budget that is closely monitored.
The current construction firm and contractor should be fired for not properly permitting the project and demolition of of the east wing.
The rampant disregard of our constitution and preservation guidelines and requirements must be stoped by authorities!

Name: Abra Spiciarich
Date: February 18, 2026 10:44:02 am

The scaffolding currently rising around the East Wing is being marketed as a "revitalization," a necessary evolution to keep a mid-century icon relevant in 2026. But to those of us who view our architectural heritage through the rigorous standards of the National Register of Historic Places (NRHP), these plans read less like a renewal and more like an architectural eulogy. We are witnessing the systematic dismantling of a landmark's integrity under the guise of progress.

The fundamental tension of the East Wing Modernization Project lies in the misunderstanding of what makes a building "historic." A landmark is not merely a facade or a famous silhouette; it is a delicate ecosystem of integrity—defined by the NRHP as the "authenticity of a property's physical identity." When we replace the specialized workmanship of the original era with mass-produced contemporary materials, or subdivide the grand, intentional spatial volumes to accommodate modern HVAC systems, we aren't just updating a building. We are erasing the physical evidence of the very history we claim to honor.

Proponents of the project argue that the changes are "compatible" and "sensitive." However, in preservation, there is a dangerous line between compatibility and false historicism. By attempting to mimic the original design with 21st-century technology, we create a "Ship of Theseus" scenario. If we replace the character-defining stone, the hand-tooled joints, and the specific light-filtering glass that gave the East Wing its "feeling" and "association," at what point does it cease to be a National Treasure and become a high-end replica?

Modernization projects of this scale often prioritize utility over significance. Of course, we want buildings that are energy-efficient and ADA-compliant, but the National Register reminds us that a landmark's primary "function" is to serve as a tangible link to our past. When we prioritize the convenience of the 2026 visitor over the preservation of the original 20th-century design intent, we treat our history as a disposable commodity rather than a permanent monument.

The East Wing does not need to be "modern." It needs to be preserved. The "patina" of age and the specific, sometimes idiosyncratic, choices of the original architects are what provide the "spirit of place." To scrub that away in favor of clinical, high-efficiency surfaces is to mute the architect's voice.

If this project proceeds as planned, we may end up with a building that functions perfectly for the modern era but fails entirely as a historical document. We must ask ourselves: Are we preserving a landmark, or are we merely building a monument to our own contemporary needs? If it's the latter, the East Wing's place on the National Register may soon be a matter of record rather than reality.

Name: Mary Sullivan
Date: February 18, 2026 10:44:02 am

"I oppose the East Wing Modernization Project. This $400 million construction began without National Capital Planning Commission approval, without required environmental assessments, and without congressional authorization mandated by federal law for construction on federal parkland in Washington. These violations should not be rewarded with after-

the-fact approval.

The funding creates unacceptable conflicts of interest. Corporations holding billions in current federal contracts with this administration are funding a construction project at the residence of the president who controls those contracts. This is not charitable giving. This is an investment in access and favorable treatment.

The White House belongs to the American people, not any individual president. I urge the Commission to reject this proposal until full legal compliance is achieved, including congressional authorization and completed environmental assessments. No temporary occupant should possess unilateral authority to demolish historic structures without following the law."

Name: LynnDianne Beene
Date: February 18, 2026 10:44:10 am

I oppose the spending of any amount on the expansion project initiated by the current administration. The proposal and the demolition of the East Wing were initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law or above the decency of preserving our national treasure, such as the White House. Do not permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Margaret Ann Gordan-Stiehler
Date: February 18, 2026 10:44:16 am

I object most strongly to the demolition of the East Wing and the loss of the Rose Garden.
Please stop wasting hundreds of millions on building yet another monument to Trump.

Date: February 18, 2026 10:46:29 am

I oppose this project moving forward . It had no proper authorization, no permits, no design review. It should not be funded by tech billionaires with the promise of the President “returning favors “.
This is wrong ! This is the people’s house. We , the people, want it rebuilt to the way it was .

Name: Stephanie Sage
Date: February 18, 2026 10:46:31 am

"East Wing Modernization" is a disingenuous description of what is actually being proposed. A massive ballroom that no one wants is now replacing the East Wing -- which was demolished BEFORE any kind of public comment period was opened so the people could weigh in. According to the National Trust for Historic Preservation website: "Before nationally significant places are permanently altered, the public deserves an opportunity to be heard and to help shape decisions that affect our shared national heritage." The destruction of the East Wing certainly counts as a "permanently altered" White House. I don't know what can be done to salvage the site or the dignity of the White House overall -- it's bad enough the Rose Garden was paved over and turned into a cheap cafe for Trump cronies. But erecting a massive ballroom is an irresponsible use of taxpayer dollars and an architectural obscenity.

Name: Alexa McDowell
Date: February 18, 2026 10:46:48 am

Given the current circumstances of the historic East Wing (non-extant following unauthorized demolition), future action should comply with all regulatory guidance. Reconstruction of the East Wing or construction of a replacement addition to the White House should meet the Secretary of the Interior's Standards and Guidelines with specific care related to scale, proportion, architectural style, materiality, sensitivity of attachment to the main building, and sensitivity to the historic building grounds. The proposed ballroom - renderings of which have appeared in the media - is contrary to the all of the above and completely inappropriate. Any work moving forward must follow the proper review and evaluation (thank you for your effort in that regard) and remain committed to the proper care and preservation of the peoples' house.

Name: Michael Oconnor
Date: February 18, 2026 10:47:19 am

This project should have never started without approval by Congress and the parks system of oversight. Additionally, these projects if given green light to proceed should not be funded by donations as that sets up situations where favors are expected. The entire project was not needed in my opinion as the existing structure was fine. Possibly implements could have been done. Now that it has been started all plans require close scrutiny.

Name: Kathy Collier

I object to this project due to the money that will be sent and because proper procedures were not followed. This is simply an unnecessary vanity project.

Name: Phoebe Harrington
Date: February 18, 2026 10:48:12 am

It was wrong to tear apart ANY of the White House and it should be returned to its original state. We don’t need a hardy gold ball room. We need that money allocated to helping U.S. citizens.

Name: Linda White
Date: February 18, 2026 10:48:20 am

I oppose spending any money on this project. It is NOT a "modernization" project. Modernization updates existing structures, but there is no longer a structure to update. It has been illegally torn down without review or permit. I believe that this is a violation of the National Historic Preservation Act. Fines and other legal action should be taken against those who authorized and committed this action. The new structure intended to replace it has also not been reviewed or permitted. We cannot allow the building of structures without proper review. We must ensure the integrity and proper construction of the project, the safety of its future users, and that the structure is appropriate in its time and place for the purpose intended. The project must follow government contracting rules for both design and build, if it should be determined to be necessary to exist at all. These should be presented and bid upon by vetted companies, and design and build contracts should not be awarded to the same company, nor to subsidiaries or companies owned by the same entities. The American taxpayer needs to be assured that their money is being spent appropriately, and any donations towards to project are being used for the public good. Since none of this has occurred in a clear and transparent fashion, this project should be halted until such time as all the legal hurdles have been cleared. Thank you.

Name: Todd Leek
Date: February 18, 2026 10:48:24 am

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. Date: February 18, 2026 10:48:47 am

It is vile for Donald Trump to think he can unilaterally demolish the People's House without approval. This is illegal and wrong and should not be allowed to proceed.

Name: Jennifer Goldsby
Date: February 18, 2026 10:49:03 am

This is in no way a modernization project. It is a destruction of the People's house. I want this project cancelled and the East Wing to be rebuilt. The people own this house and there is a procedure that is to be followed in renovating it. None of these procedures were followed. To allow this project to go forward is insulting to all of the America people who believe that laws are for everyone to follow and that the White House belongs to the all Americans.

Name: Sandra Clinger
Date: February 18, 2026 10:49:25 am

Dear NCPC Executive Director and Commissioners,

I am submitting this written comment to OPPOSE spending of $300 million on the East Wing Modernization Project, which was initiated without the proper authorization, permits, or design review. This White House belongs to the American people and has historical significance.. This is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Thank you.

Name: Diane MacEachern
Date: February 18, 2026 10:49:55 am

To the National Capital Planning Commission:

The random destruction of the East Wing of the White House intentionally disregarded the building's historical significance while blithely ignoring the long-standing processes in place to guide its renovation. I urge the Commission to take all necessary steps to ensure that the new East Wing be developed in such a way that it avoids dwarfing or minimizing the White House and historic White House grounds. Please do not allow a desire for misguided and embarrassing opulence to quash architecture and interior design that enhance, not detract from, the White House complex. Thank you.

I’m writing to express my concerns about the allocation of tax dollars toward the East Wing projects. As a taxpayer, I believe public funds should be directed toward priorities that deliver clear, measurable benefits to the broader community. At this time, I’m not convinced that these projects meet that standard.

Many residents are facing ongoing economic pressures, and I would prefer to see tax dollars invested in areas such as infrastructure, education, and essential public services that have a more direct and immediate impact on people’s daily lives. Transparency and accountability in how funds are spent are also important to me, and I would appreciate more detailed justification for why this project should take precedence over other pressing needs.

I respect the complexity of budgeting decisions and the effort involved in balancing competing priorities. However, I hope you will carefully reconsider the funding for the East Wing projects and ensure that taxpayer money is used in a way that reflects the community’s most urgent concerns.

Thank you for your time and for your service.

The East Wing portion of the White House was illegally torn down without the proper authorization from those who legally should have had to do so. Please IMMEDIATELY HALTthe destruction and put plans in place to rebuild it as closely as possible to its original configuration.

Thank you!

Name: Naina Mistry
Date: February 18, 2026 10:50:55 am

I oppose the spending of $300 million -- or any amount of money -- on this project as it currently stands. It was initiated without the proper authorization, permits, or design review. It is not a "modernization" project but rather a complete razing of American history with no regard to the law or the will of the American people. I would like to see this project canceled, and the East Wing rebuilt and restored to its former design. The White House does not belong to the President, and he should not have the authority to unilaterally make significant changes to it just because he is temporarily residing there.

As a citizen, I respectfully request the East Wing be reconstructed as it was previously. I don't believe a ballroom at the White House is necessary. If there needs to be a "ball" it can be held elsewhere.

Name: Veronica Rossetti
Date: February 18, 2026 10:51:37 am

This project needs to stop and the Whitehouse put back as it was before the demolition. Trump never follows the rule of law. He needs to be stopped! He also needs to pay for it, personally. I am tired of paying for his whims.

Name: Monica Jacobson
Date: February 18, 2026 10:51:38 am

I am opposed to the 300 million dollar project which was started without approval, bypassing required federal reviews and approvals. Preservationists argue the fast-tracked project violates historic preservation laws. Stop this project and restore the East wing to its original historic structure. The destruction was outrages and wrong.

Name: Kathleen Boise
Date: February 18, 2026 10:51:55 am

I'm in favor of modernizing components of the White House if the intent is to modernize it's infrastructure and make services such as heating, lighting, communications and security more effective, efficient and sustainable. I'm oppose to the wholesale demolition of portions of the White House that provide historic context and continuity for the purpose of providing larger space for a ball room. It is the people's house. There is currently no communication on modernizing the East Wing. It no longer exists. For anything built in the space formerly occupied by the East Wing, I would request that it maintain the former structure's footprint, maintain the visual balance of the White House as a whole, provide for modern functional facilities and conform with the visual aspects of the historic monuments in the Washington Mall area.
I believe that the previous structure of the White House and gardens were beautiful and a testament to our country's history and tradition of transfer of leadership. As a citizen, the demolition of the East Wing is heartbreaking. No amount of bigger, newer and shinier can replace that. Please consider with historic and artistic context what should be built in it's place, so that it will enhance the history of the White House. Thank you.

Name: Sharon Rosse
Date: February 18, 2026 10:51:58 am

I oppose spending any money, including $300 million, on Trump's vanity ballroom project! He tore down the White House's East Wing without the proper authorization, permits, or design review to try to promote himself. It is not a modernization project but rather a complete razing of American history. I insist that you cancel this ballroom, and you require that the East Wing be rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: MATTHEW SCHRUM
Date: February 18, 2026 10:52:20 am

The White House is the People’s House. The sudden destruction of the East Wing was a reckless and flagrant breach of public trust in the Trump administration. It appears that Trump’s administration has no regard for historical preservation- and has also established a clear disregard for good taste. The destruction of the East Wing exhibits a stunning lack of planning and maturity, and is an insult to the public interest.
Under these conditions, I request two actions:
1) Heightened Scrutiny
2) Independent Review, Approval, and Supervision
In order to restore public confidence and trust in the modernization of the East Wing, I request the most stringent and thorough scrutiny allowed by law (and beyond, if possible). Moving forward, I feel the scheduled progress must be tempered to the slowest pace feasible, so as to allow for full review and responsible supervision throughout every step of the process.
In order to restore public confidence and trust in the modernization of the East Wing, the review, approval, and supervision of the project must be administered by independent parties. The Trump administration has shown a history of installing unqualified parties in places of authority, with the apparent objective of furthering their objectives without independent review or accountability. It is of the utmost importance that all major changes to the People’s House are effectuated by qualified individuals- without the appearance of undue loyalty to the President.
Please save our public legacy from further destruction and embarrassment.

Please please please stop this monstrous ballroom project! The White House is the peoples' house. Not a monument to one administration. Keep it the way it is; humble and classy for ALL the people in this country.
Thank you for voting to protect this national treasure!

Name: Gail Speer
Date: February 18, 2026 10:53:28 am

I am strongly opposed to the East Wing Modernization. The initial destruction was an erasure of our history, not authorized, and done without the proper review, or even legal review. I do not want a Mara Lago in DC.

Now, obviously some type of building must be completed there, and strong consideration has to be what that building be used for, but very important must be in concert with the remaining structure and historical relevance. And the NCC must selest the architect.

Thank you.

Do the right thing.

I oppose the spending of any taxpayers' money on this project. It was unauthorized and completely disrespectful to the american people. It needs to be fully restored to its original appearance and up to historical planning standards. It should have never been torn down and should be restored at the expense of the companies and people who illegally destroyed this american monument. It should not have any changes or additions outside modernizing the infrastructure of the former building to current standards. Restore what was lost! Somebody stop the changes!

Name: Carol Kufeldt
Date: February 18, 2026 10:53:43 am

I am appalled by the destruction of the East Wing of the White House, and especially so knowing not one of the guidelines were followed or taken to account before demolition. This administration flaunts its disrepect of our nation at every turn, and this abject, blatant amputation of the People's House is a hateful metaphor of the abuse they continue to mete out.
I don't know what can be done, but please, do something.

Name: Shawn Murray
Date: February 18, 2026 10:53:45 am

I believe that the recent demolition of the East wing of the White House and proposed construction of an absurdly large ballroom is ridiculous and a waste of funds which could be used elsewhere. There is no reason to bastardize our wonderful National Capital building for the ego of a president. It is unnecessary and will ruin the balance and beauty of this historic building.

Name: Terri Pressly
Date: February 18, 2026 10:53:57 am

We need to rebuild in a historic way. How could this be allowed to tear off a wing of the People's house, destroy it and where are the donations to rebuild it?
Stop the insanity of this Presidents whims and wants. It is ugly and reflects the state of our nation. We are the laughing stock of the world.
Hold Trump accountable and fine him every day until it is historically restored.
Set a deadline and stick to it. Make him sleep in a tent on the space until it's completed.

What's wrong with our elected officials? This is so upsetting. The White house I visited as a child in 8th grade is destroyed.

Name: Kristin Gallas

I am adamantly against the building of a ballroom. The president destroyed a treasured piece of history without the consent of the people. He should not be permitted to do what he pleases in the people's house. I would like my tax dollars to go toward something FOR the people, not the president's ego. Please do not allow construction of this monstrosity.

Name: Albert LeBlanc
Date: February 18, 2026 10:56:13 am

I think it was a serious mistake to demolish the East Wing of the White House. I have viewed drawings of the projected ballroom, and I think it will dwarf the remaining part of the White House because of its excessive size. If a ballroom of this great size is actually needed, I think it should be built on a site suitable for such a large structure, and not located beside the White House.

Name: Beth Nelson
Date: February 18, 2026 10:56:13 am

The destruction of the East Wing was disgraceful. The only rebuilding that should be done is a reconstruction, in the original design with improvements that take into account the historical significance of the building.

Name: Susan Granzotto
Date: February 18, 2026 10:56:35 am

This project is an obscene response to the whims of the current administration. Washington DC is not a place for attempts to personalize and “make your mark”. Washington DC belongs to America! All construction/improvements must be approved through the proper, legal and established authorities.

Name: Michael Canfield
Date: February 18, 2026 10:56:41 am

He's proven his taste in the Oval Office. No Americans were asked about any of his actions to the White House. He seems he's forgotten it's our House. We the People don't need a ballroom when children go to bed hungry.

Date: February 18, 2026 10:59:22 am

As a practicing architect with 50 years of specialization in historic preservation, I am against the proposed modifications and ballroom addition to the White House. The project has proceeded without required reviews and will irreparably destroy the architectural integrity of this national landmark if implemented as designed.

Name: Barbara Anderson
Date: February 18, 2026 10:59:29 am

Members of the National Capital Planning Commission:

As a frequent visitor to the nation's capital to enjoy the history memorialized in the various monuments, museums and constructions, I oppose the White House ballroom "addition" (at a cost of now-$400 million). This monstrosity dwarfs the actual White House, and -- rather than complementing the "People's House" -- is more representative of a monarchy than a democratic republic with a government by the people, for the people and of the people. The ballroom is neither a "modernization" project nor a "necessary" one, but rather a complete razing of American history. In addition to the outsized building footprint (and interior gilding), this project was undertaken without the proper authorization, permits or

design review, and therefore should not be allowed to proceed. I hereby politely but strongly encourage you deny this project and require that the historic East Wing be rebuilt and restored to its former design.

Thank you for your consideration.

Barbara A. Anderson

Name: Jenni Rodda
Date: February 18, 2026 10:59:47 am

Colleagues,

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

The project as described in today's New York Times dwarfs the residence, and is out of character with the rest of the White House campus buildings. It is too large. Much too large. It is ugly. And its planning does not address the ongoing costs of maintenance and utilities that will be borne by taxpayers. Why does the president "need" a 90,000 square foot ballroom/event space for 1000??? The current resident of the White House should remember that he is a tenant there, and his "lease" runs out at the end of his term. If he wants to throw parties for 1000 people, there are many event spaces in Washington that would be happy to accommodate him. We don't need to build one on the grounds of the White House.

Thank you.

Name: Kenneth Kornheiser
Date: February 18, 2026 10:59:48 am

I'm a citizen of the U.S., someone who has visited Washington, D.C. to work in federal buildings and as a tourist. I have experienced the awe that the architecture of our nation’s capital city inspires both directly and through watching young people have this experience. I believe that the classic proportions within the design of each building and monument as well as the proportions among them are key to providing that inspiration and the realization that we are a part of a country that is thoughtful and does great things through careful, collaborative planning and perseverance.

I am greatly concerned about comments that this administration has made as to the proposed size and proportions for the East Wing of the White House, and I was profoundly disturbed by the demolition of the East Wing, apparently without proper consultation or assessment under relevant statutes (e.g., National Historic Preservation Act (NHPA) and National Environmental Policy Act (NEPA)) or a publicly-vetted, approved plan for replacing the demolished East Wing with a new one. As the NCPC reviews the East House Modernization Project, I urge the reviewers to carefully consider how the public will see and experience the modernization project from surrounding public spaces and from viewpoints used in photography and videography. The external size and proportions of the East Wing must be in balance with both the central structure of the White House and the West Wing. The East and West Wings must be subordinate to the central structure of the White House and the classical “golden ratio” of human design indicates that the ratio of the dimensions of

the wings to the central structure should be approximately 1:1.618, i.e., the wings must each appear smaller than the central structure. In addition, the dimensions and features of the new East Wing itself should follow the golden ratio. The external views of the new East Wing should be in harmony with those of the West Wing. Furthermore, the materials and style features used in construction should appear similar to those used in the historic portions of the White House.

For NHPA, a consultation under section 106 should be completed as part of the planning process for the East Wing Modernization Project. The entire area of Washington, D.C., in which the White House is located is on the National Register of Historic Places and multiple individual National Historic Landmarks and structures on the National Register of Historic Places are in the immediate vicinity of the White House. Because the East Wing has been demolished and will be completely re-built, the project planning being done is for an "undertaking" under NHPA section 106. "Section 106 consultation is triggered when a federal agency determines that it has a type of undertaking that has the potential to affect historic properties. Under the Section 106 regulations and the National Historic Preservation Act (NHPA), an “undertaking” is broadly defined as any project, activity, or program with federal agency involvement, such as those carried out by federal agencies, assisted by federal agencies, or that require a federal permit, license, or approval." (www.achp.gov). The White House itself is an historic structure in an historic district and its exterior is in the viewshed of multiple additional historic structures.

For NEPA compliance and simply to responsibly protect the health of construction workers and the public, contamination issues at the demolition site need to be thoroughly evaluated. Because the East Wing was built and maintained over many decades, the structure is likely to have contained asbestos, lead, and other hazardous substances. The photos of the demolition showed significant production of fugitive dust and a lack of encapsulation to contain contamination. The documentation for the demolition planning and implementation should be investigated to determine if sufficient testing and mitigation measures were taken prior to and during demolition and, at the very least, confirmation testing should be done at the demolition site as part of the planning for re-construction. Additional disturbance of the site during construction could release additional hazardous substances at and from the site.

As part of the public experience of the future East Wing, the project plans must include accessibility features in compliance with the Americans with Disabilities Act.

Because taxpayers will be paying for the upkeep, maintenance, and utility bills of the future East Wing and visiting it, I urge the Commission to do what it can to insist that the design meet at least a Gold level of LEED Certification overall and a Platinum level in the areas of Water Efficiency, Energy & Atmosphere, Materials & Resources, and Indoor Environmental Quality, as described by U.S. Green Building Council's most recent set of standards. Note that the engineering firm hired for this project, AECOM, is a member of the U.S. Green Building Council.

Thank you for the opportunity to comment in this stage of the approval process. I look forward to seeing actual plans and scale drawings of the public views from multiple representative vantage points in the future.

I am appalled that the President tore down the East Wing of the White House without any oversight by you. This should have been stopped before any construction equipment made its way onto the grounds. I am horrified that he wants to replace it with a gargantuan ballroom that will dwarf the main part of the building and ruin the symmetry of the architecture.

I want to see the total restoration of the East Wing to its previous exterior to match the West Wing and put the White House architecture back into proportion. The interior can, of course, be redesigned and redecorated, but I would like to see it still honor the first ladies. You can replace the bunker or make a better one below grounds. The exterior should be landscaped and replanted as it was prior to the demolition.

Speaking of landscaping, where was the NCPC, the National Trust for Historic Preservation and the National Park Service when the historic Rose Garden was paved over? None of us had a say about that, either.

The White House belongs to us, the people of the U.S., and is only temporarily occupied by the President. We don't need a ballroom for galas for wealthy party donors inside the White House. We don't need marble bathrooms and gold-leaf decor. The White House is not one man's royal palace, but the People's House. It represents a government by and for Americans. All of us, not just the rich ones.

I also hope you will do all that you can to stop the President's proposed erection of gigantic triumphal arch on the Capital

grounds. This is something that emperors, not American presidents, do to honor themselves. This monstrosity would be a blot on the beauty of the Capital grounds and should not be permitted.

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history.

I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Nello Lucchesi
Date: February 18, 2026 11:00:34 am

Please restore the White House West Wing, which was torn down prior to review.

Thank you.

Name: Lori Pittenger
Date: February 18, 2026 11:00:36 am

I stand in opposition of this Ballroom addition, which started without proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former footprint and design. Permitting this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Janet Pierpont
Date: February 18, 2026 11:00:41 am

I am totally opposed to the destruction of our nations property. The vindictive obliteration of the East Wing of the White House was done with no legal authority. No one is above the law. I do not support this project. The White House belongs to us all not to one temporary inhabitant. The East Wing should be restored to its original design. The monstrous scale and design of the proposed “ Ballroom “ is totally beyond all proportion,and is not in keeping with the spirit and intent of the building. Thank you

Date: February 18, 2026 11:00:55 am

This is not a modernization project. It was never properly authorized. The East Wing of the White House must be rebuilt and restored as it was, historically. The initiator of this "modernization project" should be prosecuted to the full extent allowed. Rebuild and restore the East Wing of the White House as it was.

Name: Amber Hernandez
Date: February 18, 2026 11:01:10 am

As a citizen I oppose this so called “modernization” of the people’s house. There was a complete lack of transparency and forethought with an attitude of its better to ask for forgiveness later than permission first. This administration attempts to ram through the president’s whims rather than follow long standing policies and norms. It is unacceptable and this demolition should have never happened. Therefore this project should change course and follow the same steps of congressional and environmental reviews that have been standard for federal property. This is the people’s house, not Donald Trump’s.

Name: Julie Figliozzi
Date: February 18, 2026 11:01:40 am

Dear representatives,

I urge you to appoint a commission to design an East Wing addition to accommodate State functions, which is in the style and scale of the historical White House. Any increased footprint to the White House should be offset by an equal increase in permeable surface footprint. Forexample, an increase of 2500 sq. ft. Would be offset by the removal of 2500 sq. ft. outdoor non-permeable surface and conversion to planted space, such as rose garden or other garden.

Then you for the kind consideration and the comment period, which the American people deserve.

- Julie Figliozzi

The destruction of the East Wing of the White House is a travesty. Please prevent any construction that does not restore the historical facade and function, no ballroom.

Name: Mary McCune
Date: February 18, 2026 11:01:47 am

I oppose the East Wing modernization project. It's $300 million price tag while an increasing number of Americans can't afford health insurance because of cuts to subsidies is offensive and reminiscent of Marie Antoinette's call for people to eat cake if they had no bread. The project was commenced with a complete disregard for safety, the legal review and permitting process and resulted in the destruction of the historic wing to make way for a vanity project that has no benefit for the people at large. It treats a national treasure line a personal property and would dwarf the White House, a symbol of democracy, with a stucture built to promote the president's personal interests. The project shoukd not be approved and instead if modernizing, the East Wing should be restored to its former state.

Name: Mary Garry
Date: February 18, 2026 11:01:51 am

I am opposed to the construction of a ballroom anywhere on the White House area. Altering historic buildings without approval of agencies designed to oversee vanity projects is and should be illegal.

Name: Chris Canelake
Date: February 18, 2026 11:01:54 am

I vehemently oppose this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Laura Yurka
Date: February 18, 2026 11:01:58 am

The White House is a National Historic Landmark and National Park, owned by the American people and stewarded by the National Park Service. It has been home to our presidents since 1800 and is perhaps the most significant historic site in the United States. Before nationally significant places are permanently altered, the public deserves an opportunity to be heard and to help shape decisions that affect our shared national heritage.
The American people do not need a ballroom at the White House that we'll likely never step foot in. We certainly don't need an underground bunker for the President to hide out in from the people. We need the administration to focus on the issues most important to the people, which include affordability, jobs, healthcare, equity, etc.
I would like to see the reconstruction of the East Wing exactly as it was. The demolition was done without following proper procedures or reviews. We need to make it clear that the President doesn't get to act first and ask questions later. The reconstruction deserves full environmental and financial reviews. Furthermore, the construction MUST be completed by unionized construction crews.

To Whom It May Concern:

I oppose the spending of $300 million on the East Win Modernization project, which was initiated without the proper authorization, permits, or design review. This project has nothing to do with modernization but instead is a complete destruction of American history. This project should be canceled, and the East Wing rebuilt and restored to its former design. No one, including the President, is above the law. To permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Thank you.

Name: Carl Samuelson
Date: February 18, 2026 11:02:13 am

I oppose this project on the grounds that it would represent a complete break with the history and tradition of the United States. If the powerful and wealthy want to meet and play with the fate of the people in a setting that apes royalty there are existing venues or if needed a venue can be constructed on private property.

I also object on the grounds that the project was initiated without proper permits or design review. I want this project cancelled and the East wing rebuilt to its former and historic form.

Name: Barbaraa Blodgett
Date: February 18, 2026 11:02:16 am

I oppose the so-called "modernization" of the East Wing of the White House. This project was initiated without proper authorization or permits. It is not a modernization but a demolition of our history as Americans. Buildings house our collective memory and federal buildings in particular represent spaces that we collectively own and value as ours. It is called the People's House for that reason. I advocate for the cessation of the current project and a rebuilding of the East Wing to restore it.

Name: Maran Bacon

This is property that belongs to The People, and not any one elected official.

Name: Carol DP
Date: February 18, 2026 11:05:04 am

The destruction of the East Wing by the current regime is a travesty in American history. Please stand strong and decree that it be rebuilt as it was and be paid for by the personal funds of those responsible for the destruction. Thank you.

Name: Jacqui Schraad
Date: February 18, 2026 11:05:11 am

I oppose this project progressing and the expenditure of any funds towards it. The courts have continued to uphold the premise that buildings that hold special historic significance transcend private ownership and are part of our common cultural heritage. We must maintain the protections these buildings are afforded, or we risk the chipping away of the very premise that safeguards our history. This project was flagrantly initiated without the proper authorization, permits, or design review. We saw with our own eyes that the building was demolished, not modernized. No one is above the law. This project must be canceled and those that undertook its razing penalized.

Name: Susan Roberts
Date: February 18, 2026 11:05:13 am

Destroying the East Wing was a violation and Trump needs to be prosecuted for that move. I think it should be restored to its original beauty. Trump needs to be dumped.

Name: Marjorie Wilhite
Date: February 18, 2026 11:05:42 am

I do not support this renovation and teardown done without proper permits and public comment. This was the people’s house and never meant to be a gilded ballroom. Donald Trump is attempting to erase history across the nation.

Name: Maureen Foley
Date: February 18, 2026 11:05:43 am

The White House is a National Historic Landmark and a National Park, owned by the American people and home to presidents since 1800. The current president at any given time is not the owner of the property or the structures thereon; the president is a temporary tenant whose interventions are limited by law and by respect for the people of the United States.
The demolition of the historic East Wing without review, without permits and without Congressional oversight is clearly a violation of the law. In addition, it is a violation of the trust of the American people who were given no opportunity to comment on what should have been presented as a proposal and not as a violent fait accompli.
I urge the National Capital Planning Commission to require reconstruction of the East Wing in keeping with its historic design and size. Anything constructed on the demolition site going forward must be compatible in form and subordinate in scale to the original structure of the Executive Mansion.
Sincerely, Maureen Foley

I want the East Wing of the White House restored to what it was prior to its being torn down without any review.

Name: Charlotte Estep
Date: February 18, 2026 11:06:28 am

Since I had the privilege of visiting Washington DC several times when I brought high school students to participate in the Close Up program, I became familiar with many buildings, parks, statues, and museums in DC and the surrounding areas. Since then, when news sources even movies or television programs bring the national capitol to life in my home, I see scenes claiming to be in DC are not, and that knowledge make me even prouder of the history and pride associated with the area. When I turned on the television and saw what the existing president was in the process of doing to the White House, the people's house, I cried. The person currently posing as the president of these Unites States of America has violated the established process for altering, adding to, or building new a public sites within the domain and control of the federal government agencies that protect and preserve this site. When will the agencies in charge of such actions become vocal or active enough to stop this abuse? Just as no visitor to my home can remodel it while I still own it, the sitting president is a visitor to the White House and cannot or should not be allowed to take such measures. Please restore the East Wing and put a stop to the rape of the capitol with the destruction and renaming of buildings that belong to the people not the person.

Name: Laura Talbert
Date: February 18, 2026 11:06:33 am

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design without the use of taxpayer funds to fully restore it. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans. The only thing to do is restore the East Wing to its former dignity and status.

Name: MICHELLE DWYER
Date: February 18, 2026 11:06:35 am

I oppose the spending of $300 million on the East Wing project unless it is to rebuild it how it was when it was illegally razed. There needs to be a study with proper authorization & design review to rebuild it the same size & style that it was. All furniture, paintings, gifts to the US need to be restored & installed again.

No one is above the law and since this was illegally torn down, anyone that authorized it should be prosecuted.

Name: Kristi Swice
Date: February 18, 2026 11:06:46 am

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project

canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Date: February 18, 2026 11:06:47 am

The so-called "East Wing Modernization Project" is a pure vanity project. It has not gone through the proper reviews and permitting for a modification to a historic government building. Stop this nonsense immediately! Set up a commission to review the needs of our property and restore what can be restored.

Name: James Rose
Date: February 18, 2026 11:08:00 am

I oppose the spending of $300 million (or whatever the eventual cost becomes, as it seems never to be anything but iincreasing) on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design at no cost to the taxpayers; let he who ordered it pay for it or fund-raise from his billionaire enablers). No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be yet another affront to all law-abiding Americans.

Name: Judith Creuz
Date: February 18, 2026 11:08:03 am

I oppose the razing of the east wing and building of a ballroom to hold parties in the name of trump. This project will cost millions in taxpayer dollars and bribes from private donors. It is the destruction of history and should never have been undertaken without the guidance of congress and historical precedent. It should be discontinued immediately and rebuilt to historical standards.

Name: Joyce Hurd
Date: February 18, 2026 11:08:14 am

Put it back. Put back the Rose Garden. Take down the Hobby Lobby tacky gold crap. Put back the desk. You don’t own this House, Donold. You are merely a tenant. This is our House.

Name: Patricia Miller
Date: February 18, 2026 11:08:22 am

The White House is the People’s house. Already it’s East wing has been destroyed. This ball room is taller than the White House. It’s likely more expensive than $400 million. It will be an eyesore. Let us preserve our history and the grandeur of the peoples house. Thank you.

Name: Debra Steffey
Date: February 18, 2026 11:08:40 am

I oppose the spending of any money on this project. It was initiated without proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of our history. I want this project canceled and the East Wing built and restored to its original design. No one is above the law and to permit this project to proceed without penalizing those who broke the law would be another affront to all law abiding Americans

Name: Katherine Hamilton
Date: February 18, 2026 11:08:40 am

i am writing in opposition to this outrageously expensive and unnecessary project. this building does not belong to this current president. he is permitted to live in it for a four year period. he has torn down part of the property, destroying history with abandon... without bothering to get permits, proceeding on the project illegally. not only must he stop immediately but he and his oligarch friends now need to repair the property, that does not belong to them and endeavor to recover the historically important parts and pieces they have broken.
As an American citizen, I am angry and alarmed by the assumption of ownership exhibited by the actions involved in this unnecessary building project. Stop this immediately and take all steps to repair the damage.

Name: Elisabeth Magnee-Schalch
Date: February 18, 2026 11:08:41 am

This project raises a lot of concerns for me in it current form. The fact that there was no urban planning prior to the East Wing being torn down. The fact there were no approved plans to build in its place, something I have to do before I can start a house remodel, was not followed. The proposed project as I have seen it feels bigger than is needed on the site. While modernization might be needed I would prefer to understand what the White House staff says is needed since they run the building itself and should have a much better idea of the challenges they run into on a daily bases. They are the custodians of the building and know now to make it work efficently for everyone. I feel like a "grand ballroom" is a lot of wasted space and a very expensive project. I would prefer to see a more usable proposal that takes into account the history of the building, the urban challenges around the White House and the needs of the White House staff.

Name: Molly Clark

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Cynthia Steensland
Date: February 18, 2026 11:08:58 am

As an American, I am so outraged at the flagrant disregard and destruction of the East Wing, a treasured place in American history. Some hope it will be bulldozed after Trump is out, but what if instead, we repurposed the ballroom and the rest of this wing? We could turn it into the Institute for American Ethical Principles.

The Presidential Emergency Operations Center (PEOC), a bunker for the president during national emergencies, could also be rebuilt below the East Wing.That part could be retained and the rest of the wing could be transformed into a school of ethics for American democracy.

All politicians would be required to attend and pass rigorous testing before serving office, like the Multistate Bar Examination, which is required before practicing law. This could give the wing a valuable and much needed purpose; to create a prerequisite for all elected officials to demonstrate mastery of ethical and legal protocols. Its previous purpose could be part of its historical relevance, telling the story about its origin, its beloved additions throughout history, its destruction during the Trump era, and its ultimate transformation into a monument of strength for Democracy and the rule of law.

The Institute for American Ethical Principles could also serve as a warning for all Americans to never allow our country to become polarized again. Its curriculum would include strategies to prevent polarization and foster collaboration among political entities. Its mission would be to ensure this terrible time in our history will never be repeated.

I wish a group of American scholars and architects would begin planning this now. Heather Cox Richardson would be my first preference as the person in charge of this effort, and hopefully continue to serve as Dean or Senior Professor.

Sincerely,
Cindy Steensland

This is an outrageous abuse of power. Anyone else in this country, especially a developer, would have been fined, a stop work order issued immediately and he could have possibly been tossed in jail since this is an historic structure that DID NOT EVEN BELONG TO HIM! He is not building it for the American people, he is building it for big parties for his oligarch pals.

At a minimum, he must go through the process that every other individual or developer must. Geeze, it took me months to get all the ok's, inspections and approval for a 10' x 10' deck.

Deny him this abuse. Just say NO to the trump ballroom.

And thank you, Nat'l Trust for stepping in where the rest of us could not.

Name: Pat Hartigan
Date: February 18, 2026 11:09:00 am

I oppose this project. It was begun without Congressional approval, without required permits, without adequate design consultation. To procede, with so many points of illegality and/or poor judgement, is an insult to all law-abiding citizens. I oppose the spending of any money beyond what is necessary for restoring the East Wing to what it was before it was razed.

Name: James Northway
Date: February 18, 2026 11:09:09 am

The demolition of the East Wing without full public engagement represents an erasure of American cultural history and undermines the principles of democracy. Public architecture, regardless of whether it is funded by taxpayer funds, requires transparent and deliberate decision-making, meaningful opportunity for citizen participation, and a design process rooted in stewardship of heritage as well as service to future generations. When these processes are sidestepped, trust is eroded, and democracy is weakened.

Steps must be taken to prevent what happened to the East Wing from ever happening again without consideration for historical preservation and public input.

Name: Rodney Strom
Date: February 18, 2026 11:09:17 am

Please ensure that any addition to the White House is built in the same style and with the same type of interior decoration as the original structure. Also, any addition should not eclipse the original structure in size or visual presence and may need to be partially underground to accomplish this. Also, needs for increased parking and security required by the addition must be met in a way that melds with the original structure and grounds. Please don't allow the White house to become a "gilded palace" or the addition to be named after any living person.

Name: Scot McRoberts
Date: February 18, 2026 11:09:33 am

I oppose this project.

This is not a modernization project. It is the razing of an historic public property without oversight or authorization.

The East Wing should be restored to it’s previous state, and those responsible for the damage should be held accountable.

Name: Dana McCoy
Date: February 18, 2026 11:09:41 am

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. Name: Nancy Savas
Date: February 18, 2026 11:10:21 am

I want this project canceled. It is a totally unnecessary addition to the White House. Just because one man wants it to self-aggrandize does not mean the building that belongs to all the people of the United States should be changed. I find this whole situation unacceptable and the project should not be approved.

Name: Joyce Ruitenberg
Date: February 18, 2026 11:10:34 am

I object to the construction of the Trump ballroom and want the East Wing of the White House restored. No president should have the right to destroy public property without the proper permission and approval. Stop the construction of this unnecessary monstrosity!

Name: Davida Napoleon
Date: February 18, 2026 11:10:54 am

To my mind, "modernization" means updating the plumbing. It is not acceptable to tear down part of the people's house and construct something out of step with the rest of the building, Worse, this will not be tasteful 21st century architecture. We can be sure the addition would be as tasteless and gaudy as the changes this president has made inside the existing structure,

There is also the general principle: No president should feel free to destroy anything the people own. This is the act of a hoodlum that should not be rewarded with permission to create whatever he likes in its place. He should be required to replace it as it was at his own expense. And the gold leaf within should be removed until the house represents what once was a great country.

Please do not allow this to go forward.

Name: Dan Wasil

The "People's House" should be respected for its historical significance and as a symbol of national unity and pride. Modifications must be undertaken in a respectful manner. Modernization must be consistent with a clearly articulated need, the architectural character of the existing White House structure, and the best intentions for the American people. This is not what is happening. The East Wing was demolished without appropriate permitting or safety oversight. And the current plans for the new wing are monstrously out of proportion with the existing structure. The White House is, in the words of Jackie Kennedy "a house that belongs to all the American people". But it should be admitted unequivocally that this is a vanity project being undertaking by an individual who holds his personal interests and ego above the needs of the American people. The fact he is soliciting massive financial contributions from industry titans is an indication that this project is intended to demonstrate his personal influence over wealthy influential business organizations. This is un-American and dangerous to our democracy. While the architectural changes should not be allowed, the intention behind this project should also be soundingly rejected.

Name: Sheryl Hinman
Date: February 18, 2026 11:11:23 am

The design must emphasize flexibility. Adaptable office space for the First Lady or First Gentleman and their staff is essential, as is infrastructure that can accommodate expanding technological demands.
If a ballroom or large ceremonial space is included, the design should avoid excessive ornamentation that restricts its usefulness. Large spaces should be easily divisible and adaptable for a wide range of purposes. Future presidents may want to use the space to host exhibitions highlighting scientific, educational, or business innovation. Designing for adaptability reduces the likelihood of costly renovations as presidential priorities, staffing needs, and technologies evolve.

Architectural detailing should reflect the restrained elegance long associated with the White House. Restoration completed in the 1960s reinforced the White House as a symbol of historical continuity rather than personal expression. That principle should guide this project as well.
Finally, attention must be given to the surrounding landscape. The removal of the Kennedy Rose Garden generated significant public concern and disappointment, reflecting how deeply Americans value the White House grounds as part of our national heritage.

Over time, multiple First Ladies and distinguished American gardeners shaped the Rose Garden into a place of beauty and symbolism that resonated deeply with the American public as part of their shared national experience. Reestablishing a rose garden would acknowledge the enduring influence of Jacqueline Kennedy, whose commitment to historical design helped reaffirm the White House as a national cultural symbol. Thoughtful landscaping would respect public sentiment and demonstrate that modernization and cherished American history can coexist.

Re: Formal Opposition to the Proposed East Wing Renovation Project

Dear Executive Director and Members of the Commission:

I am writing to formally oppose the current administration's proposed project to demolish and reconstruct the East Wing of the White House. This project was initiated without proper authorization, required permits, or design review — and it must be stopped.

This is not a renovation. The 123-year-old East Wing has stood as part of one of the most iconic and historically significant buildings in the country, and tearing it down without following the required legal process is simply wrong.

It would be a travesty to allow the proposed "ballroom" project that overwhelms the White House to proceed. At 90,000 square feet to 55,000 square feet, it would dwarf the White House.

I urge the Commission to take the following actions:

Halt the project immediately pending a full review of all authorizations, permits, and design approvals.
Require full compliance with all applicable historic preservation laws, including the National Historic Preservation Act.
Mandate restoration of the East Wing to its original design, consistent with the historic character of the White House complex.
Hold accountable those who proceeded with demolition or construction work without proper legal authority.

No one is above the law — not even the occupants of the White House. To allow this project to proceed without consequence would send a dangerous message that legal processes can be ignored by those in power. That is an affront to every law-abiding American and to the institutions designed to protect our national landmarks.

The National Capital Planning Commission has both the authority and the obligation to intervene. I urge you to act decisively and without delay.

Thank you.
Jeanne Crevier

Date: February 18, 2026 11:11:57 am

Hi,

I have reviewed the latest legal rulings in the Balroon construction. I am deeply opposed to the ballroom construction project and appalled that the historic East Wond was demolished with little to no regard for its history, legal status nor public opinion.

Please stop this project and let’s come up with a public majority supported replacement for the East wing.

Sincerely,
Scott Noring

Name: Rodney Brown
Date: February 18, 2026 11:12:22 am

The White House does not need a ballroom. And it definitely does not need on at the expense of tearing down the East Wing. I oppose the spending of $300 million on this vanity project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, the East Wing can be rebuilt and restored to its former design at a later date. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: B. J. Wright
Date: February 18, 2026 11:12:33 am

I greatly oppose this “modernization” project. Spending this type of money is an outrageous waste when we have so many Americans living on the streets and without healthcare. There are many other areas where this type of money should be used. This is a disgrace on the building and the building should be returned to its former beauty with any needs for improvement to the integrity of the building be completed.

Name: Martha Gianelli
Date: February 18, 2026 11:12:48 am

Please scrap this expensive, unnecessary and unauthorized project. If possible restore as it was or update but no fancy ballroom. Thank you.

Name: Kevin Gagen
Date: February 18, 2026 11:12:54 am

This project was initiated illegally and immorally by Trump. The only acceptable option is to restore the East Wing, on its original footprint, based on the prior construction, require any and all future "renovations" be approved by Congress, and, penalize the current administration for illegally tampering with a sacred, public monument.

Name: Robin Lofquist
Date: February 18, 2026 11:13:04 am

Do not approve Trump's tasteless ridiculous ballroom. It will dwarf the White House and it offends the lovely aesthetic of DC architecture that prevailed before this vulgar talking yam was elected. Us voters do not want or need this Crime against design. Thank you!

Name: Deborah Maxey
Date: February 18, 2026 11:13:40 am

I don't believe that billionaires should donate money for a ballroom. Because I believe & consider it to be more of a bribe. I don't think Trump has the knowledge to be in charge of this project. I personally don't think that Trump should be

allowed to be within ten feet of the project plans for the Wing or the ballroom. Nor the workers or anyone that has to do with the rebuilding of what Trump illegally tore down.

Name: Lisbeth Fried
Date: February 18, 2026 11:13:51 am

Dear Members of the National Capital Planning Commission,

I am writing as a taxpaying citizen to express my strong opposition to the proposed construction of a new ballroom in place of the former East Wing. This proposal represents, in my view, a deeply misguided use of public resources and an alarming departure from the architectural integrity and civic responsibility that projects of this magnitude should embody.

Our nation's capital is defined by thoughtful planning, historic continuity, and respect for the public realm. Replacing an existing structure with an oversized, ostentatious ballroom risks creating a visual and symbolic intrusion rather than an enhancement. At a time when there are far more pressing public needs, allocating taxpayer funds to such a project feels not only unnecessary but irresponsible.

Beyond cost concerns, there is also the matter of precedent. Approving a project that prioritizes spectacle over stewardship undermines the very principles your Commission is tasked with protecting—beauty, appropriateness, and harmony within the monumental core of Washington.

I urge you to reject this proposal and instead advocate for solutions that respect both the historic context and the taxpayers who ultimately bear the financial burden. Public trust depends on decisions that demonstrate restraint, wisdom, and genuine public benefit.

Thank you for your consideration.

Name: Mike Cunt

Install a golden toilet every 3 feet, so that Glorious Leader can avoid another one of his accidents.

Name: Belinda England
Date: February 18, 2026 11:13:59 am

Restore the East Wing of the White House to its original design. There is absolutely no need for a ballroom. It should never have been destroyed!

Name: Jeanette Levine
Date: February 18, 2026 11:14:00 am

I oppose the spending of $300+ million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Timothy Spies
Date: February 18, 2026 11:14:30 am

This project must be stopped. The proposed ballroom would dominate the White House and the surrounding grounds. It is inappropriate historically and visually. The ballroom has nothing to do with the improvement of the current facilities, but is solely for the glorification of the current president. Gross mismanagement to date include the unadvertised demolition of the historic East Wing, clear cutting of large historic trees, and the release of asbestos. Please stop this vanity project.

Name: Robert Jenkins
Date: February 18, 2026 11:14:32 am

To whom it may concern: A native Washingtonian (James Garfield Hospital, 1943), I strongly object to this destruction of our local -- and national -- heritage.

As others have noted, no approval from the relevant authorities was requested for either the demolition of the East Wing nor the proposed construction in its stead. The demolition and proposed, out-of-scale, project are simply the whim of one man who has repeatedly shown that he believes himself above the law.

I trust that your concern for your duties will have you take appropriate action, such as permanently halting construction of the unneeded and disproportionate "ballroom". Despite the title of this matter, this is no "Modernization" project.

Thank you for your consideration,

Robert N. Jenkins
St. Petersburg, FL

I oppose this project, which was initiated against the law (no proper authorization, permits, or design review). It is a waste of time, effort, energy, and money to erase history, whether funds were privately raised or not. This is the People's House, not the current president's. I want this project canceled and the East Wing rebuilt and restored. This project should not continue and consequences should be imposed for those who broke the law.

Name: K Church
Date: February 18, 2026 11:14:46 am

To whom it may concern,

I absolutely oppose the renovations to the East Wing. This project was not vetted through the people of the USA, nor have detailed plans of the public spaces been released to the public. I also object to the funding of any renovation this large by the massive donor action of anyone without prior public approval. The White House is a symbol of the nation both in its modest proportions and its historic interior. While upgrades should be made, they should not include giant project which destroy that history for all time. This is a travesty in the name of vanity. The people of the USA do not need

to expand the budget of the White House to include massive state dinners in ball rooms with dubious security implications.

The history of the country is not up for capricious renovation. I insist that the 300 million that was pledged by the donors be used to rebuild the East Wing as it was with necessary upgrades only.

Thank you for your time,

Kimberlee Church

I OPPOSE the spending of $300 million on "modernization" of the East Wing. The White House is a majestic landmark with historic significance and any changes to it (including the east and west wings) must be done with the proper authorization, permits, and design review and should be in keeping with the design of the original design. This ballroom proposal would dwarf the White House and completely alter the significance of the current structure, making a mockery of the designation that this is "The People's House" and would turn 1600 Pennsylvania Avenue into Versailles, USA or more significantly, The Hermitage, USA.

Name: Jill Mann
Date: February 18, 2026 11:15:19 am

I object to the construction of a ballroom on the site of the former east wing. A reconstruction honoring the past while looking to the future in design while returning the wing to its former function is what I would like to see.

I vehemently I oppose spending upwards of 300 million on an another trump vanity project - his “ballroom”. Instead,I propose that the East Wing be re-constructed at Trump’s expense using the money he allegedly raised for the ill conceived ballroom- another unilateral decision on his part alone. He is a temporary resident of the White House. Not the owner.

John Palen

Name: Marcia Powers
Date: February 18, 2026 11:15:27 am

I oppose this project. The White House should not be touched without following proper procedure. The American taxpayers should have to authorize the spending of over $300 million of OUR money! And where are the building floor plans and competitive bids? Sounds like more corruption.

Name: Amy Leonard
Date: February 18, 2026 11:15:38 am

The White House is the People's House. No resident (president or other) has the right to mold it to their desired image. It's a historic landmark that MUST go through the proper channels for any renovation (or in this case, destruction). This desecration of a national symbol must be stopped and the original wing brought back as much as it can be. This blatant act of selfishness has outraged the country, regardless of political stance, and must be rectified. No one is above the law, much as our current president likes to think he is.

Name: Gary Katona
Date: February 18, 2026 11:15:55 am

This is nothing but a vanity project by the TEMPORARY occupant of the White House. It's an abomination to the history and culture of our country that, if completed, we will be forced to live with for "eternity because of the costs to reverse course and dismantle it.

Name: Sandra Aery
Date: February 18, 2026 11:16:03 am

I strongly oppose the 300 million dollar reconstruction of the West Wing people’s house, the White House, without historical overview and oversight in keeping of its continuity to the entire White House

Name: Anna Askari
Date: February 18, 2026 11:16:08 am

This construction should not go forward. The citizens of the USA had no knowledge of the president’s plan to destroy a piece of our history, nor have we had any say in the creation of a monstrosity of a so-called ballroom. The president did not go through the legal process for this construction and he should not be allowed to break the law any more!

Name: Christy Kremm
Date: February 18, 2026 11:16:43 am

It was so shocking that this administration demolished the East Wing. They didn't look for permission to demolish nor to build a ballroom. I strongly oppose this ballroom! The East Wing should be rebuilt for the purposes is was there for prior to demolition. The "donations" or the person(s) responsible for the demoltion should pay to rebuild it. The tax payers shouldn't have to pay to rebuild something that was illegally demolished.

Name: Judi Eastman
Date: February 18, 2026 11:16:46 am

I strongly oppose the demolition of the White House East Wing because changes to a national historic site should occur through transparent review, not unilateral action. Additionally, this $300M project is being funded by large private donations at the behest of the sitting administration which creates at the very least the appearance of influence-seeking or preferential access, and undermines public trust.

The East Wing was destroyed to make way for a new state ballroom with demolition beginning before review by the National Capital Planning Commission and amid unresolved preservation concerns.

Because this funding was procured without transparency, there is no public trust that the funding—which has already increased by $100 million—will actually be secured and the final cost will not be ultimately be paid by taxpayers.

The plans that have been shared are disproportionately large, palatial in style, and conflict with the historic and priceless humility that has defined the “people’s house.”

I am asking for clear disclosure of donor funding, environmental and design review, and public accountability.

The White House is a shared civic symbol, not the property of any one administration, and major alterations should follow the same oversight standards expected of every other federally significant project.

Name: Laurel Fleck
Date: February 18, 2026 11:17:11 am

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Carl Johengen
Date: February 18, 2026 11:17:24 am

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. Any suggestion that this is a "modernization project" is beyond laughable. The lack of respect for the White House that has been displayed by its current occupant has been demonstrated over and over, but never moreso than the illegal demolishing of the entire East Wing, in an attempt to create a lasting memorial to himself. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law, and to permit this project

to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans. I sincerely hope that the NCPC and all other relevant agencies prosecute the offenders with the full force of law.

Name: John Salomone
Date: February 18, 2026 11:17:32 am

To the Commissioners of the NCPC,

Having served a career in the US military, I have a certain perspective on what it means to be America and American that is somewhat different from that of most of my fellow citizens. I have had the privilege of representing the United States while serving almost half of my career overseas, during both war and peace. It is clear to me from my interactions with foes and allies that the world looks to the United States to lead. Some would believe that a boisterous demonstration of our strength is the best way to do this, but my experience tells me otherwise. The source of the United States' strength, and its credibility, is not in its hard power, but in its enduring commitment to the rule of law and the primacy of the People in our democracy. Countries where the people have no control over the direction of their government always rely on hard power and coercion to attempt to effect their will internationally. They build grand monuments to their leaders, have grand military parades to show the world their weapons, and with grand temerity, suppress the voices of their people to try to show domestic and foreign audiences their strength. Yet to the world, these grand displays only reinforce these countries' weakness. The United States need not and should not try to put on display its wealth in a grand White House ballroom. There are plenty of other venues to hold celebrations and diplomatic engagements in Washington--this is proved by the dozens of inaugural balls held simultaneously every four years. And we especially do not need an addition of this magnitude next to the White House, which has been a symbol of the People's power in our country since it was constructed. It's quiet elegance has spoken loudly for generations. We do not need a new ballroom to bleat in the ears of the world how rich and powerful we are.

Name: Melody Stephens
Date: February 18, 2026 11:17:32 am

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Margaret McFarlin
Date: February 18, 2026 11:17:48 am

This project was not authorized and should not be completed. The White House is the People's House and the people don't need or want this projected ballroom. It is simply a vanity project that needs to be scrapped. The East Wing should be restored to its past historical significance.

Name: Kathleen Lundsteen
Date: February 18, 2026 11:18:17 am

I not only oppose but am EXTREMELY AGAINST the spending of the ghastly amount of $300 million or more on this project, which was initiated ILLEGALLY without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. Because of this a piece of beautiful American history over 100 years old has been erased and demolished and bulldozed as if it was garbage. This project should be immediately canceled, and the East Wing rebuilt and restored to its former design, not the gaudy fake trump design, but the elegant, tasteful design before him. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all those who abide by the law. This is the people’s house. Not trump’s house, and he had NO RIGHTS WHATSOEVER to damage and destroy it in the way that he has done!!

Name: Madeleine Sanders
Date: February 18, 2026 11:18:22 am

As a concerned American I do not approve of building a costly 90,000 sq ft lavish ballroom.

Name: Alan Waltner
Date: February 18, 2026 11:18:28 am

Comments of Alan Waltner Regarding the East Wing Modernization Project, Submitted on February 18, 2026
National Capital Planning Commission File Number 8733, March 5, 2026 Agenda

Introduction

The White House is by far the most iconic and historic building in the United States. Quite literally, much if not most of the history of this nation has been written there. It in fact is a symbol of the country itself, one that quite likely was the target that had been chosen by the terrorists as the intended destination of the fourth plane on 9/11 (the Capitol building being the other most likely possibility).

Constructed beginning in 1792 and first occupied by President John Adams in 1800, the White House has served as the seat of executive authority for more than two centuries. It was burned by British forces in 1814 during the War of 1812 and rebuilt, symbolizing national resilience in the face of foreign attack. Its walls have witnessed the Civil War and the preservation of the Union; the Reconstruction era; the Industrial Revolution; the Great Depression, during which Franklin Roosevelt reshaped the social contract; the mobilization for two World Wars; the Cold War and the nuclear age; the civil rights movement; and the response to the terrorist attacks of September 11, 2001.

Architecturally, the building has evolved through multiple phases—originally designed by James Hoban in a restrained neoclassical style, later expanded with the West Wing in 1902 and the East Wing in stages beginning in 1909 and expanded during World War II. The Truman Reconstruction (1948–1952) required a near-total interior rebuilding to prevent structural collapse, yet the historic exterior was preserved as an act of national continuity. At each inflection point, preservation of the building's symbolic and architectural integrity has been treated as a matter of state. It is not simply a residence; it is a physical embodiment of constitutional governance.
There isn't a word that adequately describes the vandalism of this national treasure. Abomination describes the result. Horror describes the reaction of many. Travesty perhaps best encompasses the act of vandalism itself, the demolition of a major part of the building late last year. This comment letter will have to settle for "travesty". "Tragedy" will also be used.

There are of course laws that should have prevented this tragedy. The National Historic Preservation Act (NHPA), the National Environmental Policy Act (NEPA), Article I of the Constitution. But like many other things that have happened in this Administration, the Founding Fathers, previous Congresses, and others simply did not anticipate something like this. And if the fourth plane on 9/11 had done to the East Wing what the wrecking crew has done now, the resulting war would have undoubtedly been even greater than it was.

In fact, Congress established a special purpose agency precisely directed to steward these resources. The National Capital Planning Commission (NCPC) was established as an independent agency in 1924, reflecting the importance of the protection of our historic legacy in the District of Columbia. As a relatively young country, we have comparatively few historic resources when measured against most other modern nations, making the ones we have even more precious.

In 1924, the Commission began as the National Capital Park Commission, later reorganized and renamed in 1952, to safeguard the federal interest in the planning and development of the nation's capital. Structured as an independent federal agency with a mixed membership of executive and legislative appointees, the Commission was designed to insulate long-range planning from transient political pressures. Its statutory mandate includes reviewing federal development projects within the National Capital Region to ensure consistency with comprehensive plans, preservation of historic character, and protection of symbolic federal resources. The Commission's role is not ornamental; it is a structural guardrail intended to prevent precisely the kind of unilateral alteration of nationally significant civic architecture at issue here.

Enacted in 1969, the National Environmental Policy Act represents Congress's declaration that major federal actions significantly affecting the human environment must be preceded by informed analysis and public disclosure. NEPA does not dictate outcomes; it mandates disciplined decision-making. Before committing resources irreversibly, federal agencies must consider environmental impacts, reasonable alternatives, and cumulative effects. The statute's core premise is temporal: analysis must precede commitment. When historic fabric is demolished prior to environmental review, the statutory purpose is inverted, and alternatives are rendered illusory.

The procedural deficiencies here are legion and many revolve around the “irretrievable commitment” of this historic resource to the dustbin, apparently without following any of the required procedures at all. With this introduction, we next will go into greater detail on NEPA. That will be followed by the NCPC and NHPA. We will mostly leave to others the Constitutional violations (the Appropriations Clause, the Take Care Clause, the Emoluments Clause, the Presentment Clause, the Separation of Powers Doctrine more broadly).

The current review that you are undertaking is better late than never. But it must be meaningful. It must not be a post hoc ratification of decisions already executed, nor a procedural waypoint on the path to construction of a trophy ballroom that further forecloses lawful alternatives.

II. The National Environmental Policy Act (NEPA)

The National Environmental Policy Act (NEPA), 42 U.S.C. § 4321 et seq., is the federal government’s foundational procedural safeguard requiring environmental review before major federal actions are taken. NEPA does not dictate substantive outcomes. It requires something more fundamental: informed decision-making before irreversible commitments are made. Agencies must identify a project’s purpose and need, evaluate reasonable alternatives, assess environmental impacts—including aesthetic and cultural impacts—and disclose those findings to the public before approving actions that significantly affect the human environment. 42 U.S.C. § 4332(2)(C).

NEPA’s definition of the “human environment” is broad. CEQ regulations make clear that environmental effects include aesthetic, cultural, and historic impacts, not merely physical pollution or ecological disturbance. See 40 C.F.R. § 1508.1(g), (i). The visual character of nationally significant civic architecture, the alteration of an iconic landscape, and the removal of longstanding structural fabric fall within the realm of effects that NEPA was designed to bring into the open before federal decisions are finalized. The fact that the Project concerns architecture rather than air emissions does not remove it from NEPA’s procedural discipline.

The sequence matters. Environmental review must precede commitment, not follow it. Here, demolition of the East Wing structure occurred before any publicly identifiable NEPA analysis. The White House’s February 6 letter to the Commission articulating “purpose and need” post-dates that demolition. The Commission is now poised to approve preliminary and final site and building plans pursuant to 40 U.S.C. § 8722. Each step narrows the range of available alternatives. The central question is whether NEPA’s procedural requirements were satisfied before these actions foreclosed meaningful choice. They clearly have not.

A. NEPA Applies to the Commission’s Discretionary Approval Under 40 U.S.C. § 8722

NEPA requires that “all agencies of the Federal Government” include in every recommendation or report on proposals for “major Federal actions significantly affecting the quality of the human environment” a detailed environmental statement. 42 U.S.C. § 4332(2)(C). The Council on Environmental Quality (CEQ) regulations define “major Federal action” to include agency approvals and authorizations that enable projects to proceed. 40 C.F.R. § 1508.1(q).

The Commission’s scheduled approval of preliminary and final site and building plans pursuant to 40 U.S.C. § 8722 constitutes such an authorization. It is not advisory. It is a statutory approval required before construction proceeds. Where an agency exercises discretion to approve or disapprove a project, NEPA applies. See 40 C.F.R. §§ 1501.1(a), 1508.1(q).

The Commission’s enabling statute confirms that it evaluates whether proposed developments represent a “major change in the character or intensity of an existing use in the environs.” That evaluative judgment is discretionary. Discretionary federal approvals fall squarely within NEPA’s scope.

Notably, the March 5 agenda materials and publicly available project documentation contain no identifiable discussion of NEPA compliance. There is no reference to an Environmental Impact Statement (EIS), Environmental Assessment (EA), Finding of No Significant Impact (FONSI), or categorical exclusion determination. NEPA compliance is ordinarily documented in the administrative record before approval is granted. Silence in this context is significant.

If NEPA review has been conducted, it should be disclosed and incorporated into the record prior to Commission action. If no such review has occurred, the Commission’s approval would constitute a major federal action undertaken without the procedural safeguards required by statute.

B. Connected Actions and Segmentation

NEPA requires agencies to consider connected, cumulative, and similar actions together in a single environmental review. 40 C.F.R. § 1501.9(e)(1). Actions are "connected" if they are interdependent parts of a larger action or cannot proceed unless other actions are taken. 40 C.F.R. § 1501.9(e)(1).

The demolition of the East Wing and the proposed ballroom construction are interdependent components of a single modernization project. Demolition began on October 20, 2025. Within days, the East Wing was substantially removed. Photographs published in late October and November 2025 show the structure leveled and debris cleared. Formal renderings and project materials were submitted for NCPC review months later, culminating in the Commission's March 5 proposed action.

Demolition was not an isolated maintenance activity. It was a necessary precondition to construction of the ballroom. Construction cannot proceed without demolition; demolition occurred for the purpose of enabling construction. The actions are therefore connected within the meaning of NEPA.

An agency may not segment a single project into component parts to avoid comprehensive environmental review. Treating demolition as distinct from the subsequent site and building plan approval would improperly narrow the scope of analysis and foreclose alternatives before they could be meaningfully evaluated.

C. Irreversible and Irretrievable Commitment of Resources

NEPA expressly requires agencies to evaluate "any irreversible and irretrievable commitments of resources" involved in a proposed action. 42 U.S.C. § 4332(2)(C)(v). The statute's focus is temporal: environmental analysis must precede commitments that foreclose alternatives.

Demolition of a historic structure is, by definition, irreversible. Once the East Wing was removed, alternatives involving preservation, adaptive reuse, partial rehabilitation, or redesign were eliminated. Any documentation of the East Wing (photographs, narratives, etc.) can no longer be done. The articulation of "purpose and need" in the February 6 letter occurred after demolition had already taken place. That inversion of sequence bears directly on whether alternatives were meaningfully available when decisions were made.

The Commission's forthcoming approval of final site and building plans represents an additional commitment of resources. Each successive action further constrains the range of available alternatives. NEPA does not permit agencies to create a fait accompli and then conduct environmental review of the narrowed reality.

D. Purpose and Need Must Precede Commitment

CEQ regulations require agencies to define the purpose and need for a proposed action, which in turn shapes the range of reasonable alternatives that must be considered. See 40 C.F.R. § 1502.13 (purpose and need). Purpose and need are not post hoc justifications; they are the analytical starting point for environmental review.

The February 6 letter articulates the purpose and need for the ballroom project months after demolition occurred. When demolition precedes articulation of purpose and need, the range of alternatives is necessarily constrained. Alternatives involving preservation or significant modification were no longer available once demolition was completed. That sequencing undermines the core procedural discipline NEPA is designed to impose.

E. Absence of Identifiable NEPA Documentation

NEPA review ordinarily culminates in one of three documented outcomes:

An Environmental Impact Statement (EIS), 42 U.S.C. § 4332(2)(C);
An Environmental Assessment (EA) leading to a Finding of No Significant Impact (FONSI), 40 C.F.R. § 1501.5; or
A documented categorical exclusion (CatEx), 40 C.F.R. § 1501.4.

No such documentation appears in the publicly available record prior to the Commission's March 5 action. If a categorical exclusion has been invoked, the specific exclusion and any extraordinary circumstances analysis should be disclosed. If an EA or EIS has been prepared, it should be identified and made available to the public before Commission approval.

In the absence of identifiable NEPA documentation, proceeding with approval would compound an already significant

procedural deficiency.

F. Relief is Within the Commission's Authority

While demolition cannot be undone, further construction and site alteration remain prospective. The Commission retains discretion to defer action pending compliance with NEPA's procedural requirements. The Commission should not approve final plans until the statutory sequencing required by NEPA has been satisfied.

III. The Commission's Independent Planning Obligations and the Limited Scope of the NHPA Exemption

The foregoing discussion addresses the Commission's obligations under the National Environmental Policy Act. NEPA operates independently of the National Historic Preservation Act. Even if the White House is exempt from Section 106 consultation pursuant to 54 U.S.C. § 307104, that exemption does not resolve the Commission's separate statutory responsibilities under the National Capital Planning Act, nor does it eliminate the Commission's obligation to exercise meaningful planning judgment before approving federal development.

NCPC has indicated that projects affecting the White House and its grounds are not subject to NHPA's Section 106 process. That statement is accurate as far as it goes. The statute exempts the White House from the Historic Preservation division of Title 54. But that exemption is textually confined to that division. It does not suspend the Commission's planning authority under 40 U.S.C. § 8722, nor does it insulate Commission approvals from other applicable procedural statutes.

The presence of an express exemption in one statute underscores the absence of a comparable exemption elsewhere. Congress chose to remove the White House from the NHPA framework. It did not remove the White House—or Commission approvals affecting it—from NEPA or from the National Capital Planning Act. The Commission must therefore exercise its independent planning judgment within the confines of the statutes that continue to apply.

A. The National Capital Planning Commission and the National Historic Preservation Act

Congress created the Commission to safeguard the federal interest in the planning and development of the Nation's Capital. The Commission's statutory authority, now codified at 40 U.S.C. § 8701 et seq., requires federal agencies to submit certain development proposals within the National Capital Region for Commission approval. Under 40 U.S.C. § 8722(b)(1) and (d), preliminary and final site and building plans must be approved before construction proceeds.

The Commission's review is not ministerial. The statute directs the Commission to evaluate whether proposed developments represent a "major change in the character or intensity of an existing use in the environs," and to consult accordingly. That evaluative function confirms that the Commission exercises discretionary judgment in approving federal development projects. The Commission's role is thus a structural safeguard against unilateral alteration of nationally significant civic resources.

B. The NHPA Exemption Is Narrow and Textually Limited

NCPC has stated that the White House and its grounds are exempt from the National Historic Preservation Act ("NHPA"), citing 54 U.S.C. § 307104. That provision states:

"Nothing in this division [Historic Preservation] applies to the White House and its grounds, the Supreme Court building and its grounds, or the United States Capitol and its related buildings and grounds."

The statute is explicit and limited. It exempts the White House from NHPA—including the Section 106 consultation process. That exemption is acknowledged here.

But the statute says nothing more.
It does not exempt the White House from NEPA.
It does not exempt NCPC from its statutory review obligations.
It does not suspend the Administrative Procedure Act.
It does not transform discretionary approvals into nonreviewable acts.

The exemption is confined to "this division"—that is, the Historic Preservation division of Title 54. It cannot reasonably be read as a blanket procedural dispensation extending to other statutes.

C. Expressio Unius and the Limits of the Statutory Exemption from the NHPA

Congress knew how to draft exemptions when it wished to do so. It did so explicitly in 54 U.S.C. § 307104. It did not enact a comparable exemption within the National Environmental Policy Act or within the National Capital Planning Act.

Under the settled maxim expressio unius est exclusio alterius, the expression of one exemption implies the exclusion of others. When Congress expressly exempts a facility from one statutory regime but remains silent as to others, that silence is meaningful.
What is significant here is not merely what § 307104 does—but what it does not do.

The presence of a narrow NHPA exemption underscores the absence of any comparable exemption from NEPA or from NCPC's own statutory review responsibilities. The Commission may not extend a limited historic preservation carve-out into a general shield against environmental review or procedural discipline.

D. The NHPA Exemption Does Not Eliminate Planning Responsibility

Even accepting that Section 106 consultation does not apply to the White House, the Commission remains obligated to exercise its independent planning authority under 40 U.S.C. § 8722. The Commission has stated that it will consider policies set forth in the Historic Preservation Element of the Comprehensive Plan, including policies related to viewsheds, public spaces, and landscapes.

Those policy considerations are not optional aesthetics. They are part of the statutory framework governing development in the National Capital Region. The Commission's duty to balance Comprehensive Plan policies against project needs confirms that its review is substantive and discretionary.

The exemption from NHPA does not eliminate the Commission's responsibility to evaluate the broader character, intensity, and contextual impacts of the Project within the environs of the Executive Residence.

E. The Timing of Demolition Clearly Inverts the Required Process

Although NHPA does not apply, the timing of demolition remains relevant to the integrity of the Commission's review process. Demolition of the East Wing began on October 20, 2025, months before the Commission's scheduled consideration of preliminary and final site and building plans.

When demolition precedes Commission approval, the range of available alternatives is necessarily narrowed. While Congress exempted the White House from Section 106 consultation, it did not authorize the erosion of the Commission's own planning function through faits accomplis that constrain meaningful review.

The Commission's review should not be reduced to ratification of actions already taken. The statutory structure contemplates evaluation before irreversible alteration, not after.

IV. Conclusion

The White House is not merely an executive residence. It is a national symbol whose physical form reflects the continuity of constitutional governance across wars, depressions, civil unrest, and generational change. Decisions affecting that structure are not ordinary construction approvals. They carry institutional weight.

Congress anticipated that weight. It created the National Capital Planning Commission to serve as a structural safeguard in the planning and development of the Nation's Capital. It enacted NEPA to ensure that federal agencies take a disciplined, transparent look at environmental consequences before committing resources irreversibly. It enacted a limited exemption from the National Historic Preservation Act for the White House—but only for that statute, and only to the extent expressly stated.

Here, demolition of the East Wing began on October 20, 2025, months before the Commission's scheduled approval of preliminary and final site and building plans. The articulation of "purpose and need" in the February 6 letter post-dates that demolition. The publicly available materials contain no identifiable NEPA documentation—no Environmental Assessment, no Environmental Impact Statement, no Finding of No Significant Impact, and no disclosed categorical exclusion determination. If such documentation exists, it has not been incorporated into the record before Commission action.

The sequence matters. NEPA requires environmental review before irreversible and irretrievable commitments of resources are made. 42 U.S.C. § 4332(2)(C). It requires connected actions to be considered together. 40 C.F.R. §§ 1501.9(e), 1508.1(g). It requires articulation of purpose and need before alternatives are foreclosed. 40 C.F.R. § 1502.13. When demolition precedes review, and when approval follows without disclosed analysis, the statutory discipline designed to protect informed decision-making is inverted.
The NHPA exemption in 54 U.S.C. § 307104 does not cure these defects. That exemption is narrow and confined to the Historic Preservation division of Title 54. It does not eliminate the Commission's independent planning obligations under 40 U.S.C. § 8722. It does not exempt the White House from NEPA. It does not transform discretionary federal approvals into post hoc ratifications.

The Commission's forthcoming action is therefore premature. Approval of preliminary and final site and building plans in the absence of documented NEPA compliance would represent a major federal action undertaken without the procedural safeguards required by statute. It would further narrow alternatives and compound the sequencing defects already present.

The Commission retains discretion. While demolition cannot be undone, further construction and site alteration remain prospective. The Commission must defer action until NEPA compliance is demonstrated and incorporated into the administrative record. Doing so would not dictate any particular substantive outcome. It would simply restore the statutory order that Congress prescribed: review before commitment, transparency before approval.

In matters affecting the most iconic civic structure in the Nation, adherence to that order is not optional. It is the minimum that the law requires.

The White House belongs to the American people, not one man. One man does not have the authority to make changes based on his wants.
I oppose the spending of $300 million on this project. It was initiated without the authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history.
This project should be canceled, and the East Wing rebuilt and restored to its former design.
No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding
citizens.

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans. As most of the individuals behind this project are already escaping justice of other laws they broke, I feel like all Americans will see the continuance of this project as another part of our government that does not work for our people, but protects the interests of those that are hurting us.

Name: Jody wilkinson
Date: February 18, 2026 11:19:00 am

I'm sad that a historical building is being demolished to create a vanity space for a potential dictator. No president in history has done anything but revere the meaning of this space. This is the people's house. I oppose this "modernization" project.

Name: Martha Castillo
Date: February 18, 2026 11:19:43 am

I appreciate the opportunity to comment. I only wish I had had the opportunity to comment on the demolition before our White House was defaced. At this point, we can only fantasize that the addition will be in good taste. In reality, we can only expect an opulent, gaudy extravaganza as only the Orange god can create. I don't know that there is anything anyone can do at this point to steer this project to an aesthetically, architecturally significant finish.

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I wish this project could be canceled, and the East Wing rebuilt and restored to its former design.

I never thought I'd see the day that I would be ashamed of government.

I strongly oppose the allocation of $300 million for this project, which was undertaken without proper authorization, required permits, or a formal design review. This is not a modernization effort; it amounts to the complete demolition of an important part of our nation’s history. I urge that the project be halted immediately and that the East Wing be reconstructed and restored to its original design. No one is above the law, and allowing this work to proceed without holding those responsible accountable would be a disservice to every law-abiding American.

Name: Yvonne Dawdy
Date: February 18, 2026 11:20:14 am

I dare say this is a one person vanity project. I am appalled at the wreckage of our sacred White House for this expensive vanity project. Needless to say I don’t think this should go forward; our East Wing should be restored. This is NOT one person’s house- this is OUR house.

Name: SUSAN GRIFFIN
Date: February 18, 2026 11:20:26 am

This project is a visual metaphor for the train wreck that is the current administration: ignoring protocol; destroy now, answer (maybe) later; grift and graft; tearing asunder relevant history if it can somehow either add to the coffers of provide a distraction.

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design, at the president's expense. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Date: February 18, 2026 11:20:51 am

I hope whatever is done is torn down and rebuilt back to the way it was before Trump was in office. While you're at it please rip up the concrete patio and put back the rose garden!

Name: Nora McCarville
Date: February 18, 2026 11:21:01 am

I am totally, completely AGAINST this project. Tearing the original East Wing down without proper permitting and submission of project plans is against the law and against historical preservation. Since this was never an "approved" project by any entity on our government, any further construction needs to be stopped and the East Wing of the People's House, the White House, restored to its original state. Donald Trump, personally, should be fined and made to pay for the reconstruction.

Name: Lynda Carson
Date: February 18, 2026 11:21:02 am

I object to the lack of approval from the proper entities the Trump administration has for this project. The work is therefore illegal and should stop until such legal approval is sought and given. If this does not occur, then the East Wing should be rebuild to its original structure at the personal expense of President Trump. His action shows a lack of respect

for the very important fact that that the White House is the people's house and he must seek the approval of the representative bodies of the American people.

Name: Mary Glassanos
Date: February 18, 2026 11:21:02 am

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Amy Kessler
Date: February 18, 2026 11:21:04 am

I very strongly oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. This is the people's house. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Megan Taft-Porter
Date: February 18, 2026 11:21:31 am

This project was not properly approved or permitted. The East Wing should be rebuilt as it once stood.
The current inhabitants of the White House have no business demolishing or replacing any portion of the White House without permission.

Name: Carol E Scott
Date: February 18, 2026 11:21:39 am

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. Name: Susan Lobedan
Date: February 18, 2026 11:21:46 am

This demolition project started without the permission and proper authorization, permits, or design review. There is so much history that has been destroyed, it is shameful. It was torn down quickly to hide the fact that it was not authorized. It is not a modernization project but rather a complete razing of American history. I want the East Wing restored to its original design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans

---

Name: Lynn Brewster
Date: February 18, 2026 11:21:48 am

From the board of the Hiram Historical Society, located in Hiram, Ohio

It is unconscionable that the destruction of the East Wing was carried out so cavalierly and without the normal—and required—oversight. I strongly oppose the expenditure of any funds on the currently proposed so-called "modernization" project. This is not modernization; it is the erasure of an important piece of American history.

The demolition of the East Wing appears to have been initiated without proper authorization, permits, or design review. Such actions undermine public trust and disregard the established processes meant to safeguard historic and civic assets.

This project should be halted immediately. The East Wing should instead be rebuilt and restored to its original design and footprint, incorporating appropriate modern improvements in construction and materials to ensure its preservation for future generations of the American people. That should be the objective.

No one is above the law. Allowing this project to proceed as currently proposed, without accountability for those responsible for bypassing required procedures, would be an affront to the principles of transparency and the rule of law.

Name: Renee Casillas
Date: February 18, 2026 11:21:53 am

The White House is not owned by any temporary residents. It belongs to the people and any changes to its structure should be approved by the Commission overseeing its maintenance.

Name: Margaret Peterson
Date: February 18, 2026 11:22:26 am

I oppose the spending of $300 million on this project, which was initiated without proper authorization, permits or design review. It is not a modernization project, rather a complete razing of American history and intended to gain more influence with the current administration. As a citizen and taxpayer, I want this project canceled, and the East Wing rebuilt and restored to its former design at the expense of the Trump Organization.

No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: lesley obermayer
Date: February 18, 2026 11:22:48 am

Please stop this madness, ruining the Peoples White House. He is a madman destroying all that is good in the USA. He should be made to put it all back the way it was, a historical monument that we all know and love.

Name: James Tirrell
Date: February 18, 2026 11:22:51 am

To whomever

The American people don’t need nor want a ballroom. It is a waste of money and it would be just another thing that rich people get to experience making everyone else more restless. Private funding for it is another way for certain people to give bribes

Thank you

Name: Paula Tauscher
Date: February 18, 2026 11:23:06 am

I was absolutely appalled that the White House was partially destroyed without any consideration for what the people who own that house thought. No process, no application, unlikely no permits. I strenuously object to the building of an absurdly, large and unnecessary ballroom to be built on White House property.

Instead, I believe there should be designs submitted that will enhance the stateliness of the peoples house. At the very least exterior designs should be submitted and allow the American people to vote on them. We must repair what has been destroyed, we must not let it be further desecrated.

Name: erica vaughn
Date: February 18, 2026 11:23:14 am

please restore the east wing to it’s original state
we have lost so much history already

Name: Leone Seebo
Date: February 18, 2026 11:23:20 am

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. Name: Bradley Lundsteen
Date: February 18, 2026 11:24:16 am

Dear members, the current condition, or lack thereof, of the East Wing is an abhorrent national embarrassment. It should be repaired and replaced, at any cost and the bill sent to Donald J. Trump. He simply cannot be allowed to destroy the historic east wing illegally and get away with it. He deserves not only to pay for it financially but to do time in prison for it as well.

Furthermore, there should be no further destruction of any structures in D.C. until the East Wing is rebuilt. No Arc de Triomphe, no more name changes, nothing.
Thank you all and God bless America and the United States.

Name: Nancy Colvert
Date: February 18, 2026 11:24:30 am

The ballroom proposed as an East Wing Modernization project is completely inappropriate for the White House grounds.

It is gaudy and out of scale with the White House. By dwarfing the White House it sends a clear visual message to US citizens and the world that parties are more important than actual governance. Is this really the message this country wants to put forward, not just for this administration but for decades going forward? Let them eat cake?

How do you modernize something that has been destroyed? The East Wing should be rebuilt, to modern standards, exactly as it was before.

Name: John Gianelli
Date: February 18, 2026 11:24:31 am

The destruction of this historic treasure is beyond tragic. STOP THIS PROJECT NOW!

Name: Dennis Mateski
Date: February 18, 2026 11:24:55 am

This design is a bloated carbuncle attached to a Georgian masterpiece.

George Washington demanded a mansion not a palace! Lets keep it that way

Floor plan has the sophistication of a first year architecture student's first draft. It needs refinement, consolidation, and be scaled
down to the natural site, and allow space for landscaping to hide the building from the South Lawn, just as the West Wing is.

Exterior looks more like a federal office building than an extension of the White House.No attention to details to tie it to existing building. The columns don't even match. Amateur hour.

Why all those large exterior stairways everywhere, going to nowhere? Get rid of them and down scale the building. Same goes for the south portico. Totally unnecessary and it takes up precious space where the circular drive should remain.

Ballroom looks like it belongs at Versailles, not the White House. This is NOT a palace/

Space to feed 1000 for dinner is way too large for any typical White House event. Reduce it to 600 or 700.

Where are the bathrooms necessary for such a crowd? Elevators?

Get rid of the doors from ballroom to outside and the balcony to lessen the footprint and make room for landscaping.

Building is too tall, needs to be lower than the Mansion.

Do not add a second floor to the East or West wings! They will stick up and show from the north elevation of the Mansion.
People can access the mansion from ground level as they do now with proper design work.

Name: Margaret Roderick
Date: February 18, 2026 11:25:06 am

The White House is a public building owned by the American people. It is not a permanent residence of any one president, and no president should be allowed do demolish major portions of it and build outrageously large and unnecessary additions, especially without following the legal procedures and best practices. The damage has already been done, and we - the people - have lost a valuable portion of a national historic property.

The White House Ballroom Proposal should be revisited and any plans should follow the Secretary of the Interior's Treatments for Historic Properties. As such:
1. The project should go through design review, and a comprehensive Preservation Review and Plan should be prepared.
2. All review and documentation should include the grounds, which are also a historic element (and a public-owned one!).

Thank you for your attention to this matter.

Date: February 18, 2026 11:26:51 am

I oppose spending tax payers money on this unnecessary ballroom project which was started with no proper authorization or permits. The East Wing should be rebuilt to its former state. No embellishments, no tacky gold decorations.

Name: Sheila Marvin
Date: February 18, 2026 11:26:52 am

I oppose the spending of any amount of money on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding American citizens.

Name: Carolyn Graham
Date: February 18, 2026 11:26:56 am

It’s too late to stop the destruction of the east wing in the White House. Such a shame and a slap in the face to our first ladies. I understand the right of the president to make changes, but he has gone too far when destroying a part of American history.

Name: Marlo Eakes Meyer
Date: February 18, 2026 11:27:14 am

I am writing to express my opposition to the proposed East Wing modernization and ballroom addition. While I

understand the desire to update and expand facilities, I believe this project raises significant concerns regarding fiscal responsibility, historic preservation, and public priorities.

First, the proposed addition appears to place substantial financial resources toward expanding event and entertainment space. At a time when many communities face urgent needs — including infrastructure improvements, education funding, and essential public services — allocating funds toward a ballroom expansion does not reflect the most responsible or equitable use of resources.

Second, modernization and expansion projects risk altering the historical integrity and architectural character of the existing structure. The East Wing serves as part of a historically and culturally significant complex, and changes of this magnitude should be approached with extreme caution. Preservation of historic spaces ensures that future generations can continue to learn from and appreciate their cultural and governmental heritage.

Additionally, large-scale expansions often create long-term operational and maintenance costs that extend far beyond initial construction. These ongoing financial commitments should be carefully evaluated against measurable public benefit.

I strongly encourage decision-makers to prioritize preservation, fiscal responsibility, and projects that directly serve broader public needs. If modernization is necessary, it should focus on infrastructure upgrades, accessibility improvements, sustainability measures, and preservation of existing historic elements rather than expansion of event or ceremonial space.

Thank you for the opportunity to provide public input on this matter.

Name: Mary Spratt
Date: February 18, 2026 11:27:14 am

A massive ballroom destroys the balanced, classical design of the White House. Corporate-funded vanity projects have no place at the White House . It is a vulgar display of excess and waste of money when so many people in this country are struggling.

Name: Karen Ward
Date: February 18, 2026 11:27:19 am

The proposed ballroom is a monument only to Donald Trump's vanity, whereas the East Wing was part of our history, part of America. Please reject the ballroom and restore the East Wing.

Name: Melissa westmoreland
Date: February 18, 2026 11:27:23 am

Due to the nature of the way it was begun, this president and his administration have shown they are not fit to lead such a project, nor that they will stay within the confines of laws, norms, and history. It is clear he serves only his vanity, and not the office nor its history.

I believe the building should be secured, and grass put down in place of what once was the East Wing. No more vanity projects. No ballroom larger than the rest of the White House.

Behaving irrationally and unilaterally must come with consequences. This project was not approved, and the US cannot afford it. Therefore, it must be halted before further damage is done to the White House.

This president is spending heavily on his own vanity, and I am highly concerned about the status of US debt and allocation of financial resources as it is.

Name: Jennifer Kay

Name: Michael Pilato
Date: February 18, 2026 11:27:41 am

Thank you for the opportunity to share my thoughts regarding the ballroom project. To put it simply, I am strongly opposed to i

I was deeply dismayed to see the East Wing demolished before our very eyes for what appears to be a vanity project by the President. While it has been claimed that billionaires are funding this effort, I find that difficult to believe. And if it is true, it raises serious concerns about expectations of quid pro quo arrangements that would not serve the best interests of the American people.

The average taxpayer will never set foot inside this enormous structure. From what has been described, it will be massive, and if it reflects the President’s personal tastes, it risks becoming an ostentatious and historically inappropriate addition to one of our nation’s most treasured landmarks.

I want the East Wing restored as closely as possible to its historical form. I understand it can never be exactly the same, but its destruction represents more than the loss of a building. The East Wing provided a public entrance to the “People’s House.” Its removal sends a troubling message — that ordinary citizens no longer have meaningful access to what is meant to belong to them.

The White House does not belong to any one President. It belongs to the American people. No President should treat it as a personal property or reshape it to suit private ambitions, particularly when doing so involves the influence of wealthy donors.

This President will eventually leave office. What should not remain is a permanent, gaudy reminder of damage done to a historic institution. We did not need this project, and many of us do not want it.

In time, I would also like to see the Rose Garden restored, but that is a discussion for another day.

I urge you to listen to the American people. Leave the site as it stands until we have leadership that respects both the history of this building and the citizens to whom it belongs, and that will commit to restoring the East Wing appropriately.

Thank you for considering the views of those who care deeply about preserving our shared history.

Name: Linda Miles
Date: February 18, 2026 11:27:43 am

It is beyond a travesty that the East Wing has been demolished. The significant and profound history erased. Our country does NOT need a gilded ballroom. This is a fantasy fever dream of a mentally incompetent president. His dementia and psychosis should never be allowed to dictate anything, let alone a vanity ballroom.

Name: Chandra Passero
Date: February 18, 2026 11:28:04 am

First of all, let's start with the name this demolition has been given. The East Wing isn't being 'modernized.' Insert eye roll here. It was destroyed by a megalomaniac that no one can seem to really stand up to. The White House is the people's house. It's not the house of the president to do with whatever he wants. He's a visitor. There are channels one is supposed to go through to make changes like that and he did none of these things.
And while section 7 of the National Historic Preservation Act (NHPA) of 1966 does exempt him from using these channels, presidents past have all given in the the spirit of the law to preserve, to consult specialized bodies to ensure changes respect the building's historical integrity.
The White House is the people's house. The National Capitol Planning Commission has review authority over new construction on federal property in D.C. So even though the White House is exempt from certain mandatory reviews,

submitting plans to the NCPC is considered "best practice".
We've lost a huge and significant piece of history with his impulsive destruction of the East Wing.
Makes me sad for our country.

Name: Georgette Diaz de Cooke
Date: February 18, 2026 11:29:02 am

As a precessional who has worked in the field of Design and Construction I am horrified with the lack of due diligence and poor design being imposed on the former East Wing of the White House. As a citizen, I am horrified with the lack of respect for such important historical monument and for the citizens of these country who are currently struggling with other issues and did not ask for a party venue for Oligarchs.
My name is Georgette, I am an Architectural Designer and I have the privilege of working in Alexandria, VA for 6 years, working on several residential and public buildings, must of them deemed historical.
Even when replacing a single window located on an alley side, we had to apply for a Board of Architectural Review. We had to apply for a permit to demo or encapsulate and follow rules when dealing with toxic residues such as asbestos. On October 2025, all procedures were violated and the East Wing was demolished without notice, without permits, without abatement, without input from the citizens of this country. I cried that day, I could not believe my eyes. This was a violation of a historical landmark, one that means so much to so many Americans. The structure that is being imposed on us will dwarf the rest of the white house, it lacks the appropriate proportions and it is done in very poor taste. It is a vanity project to please one person, and in my opinion, a way to funnel bribes from corporations. This needs to be discarded and restore the White House as it stood before that fateful day in October 2025. Thank you.

How dare anyone touch the Peoples House without the People's consent! The First Family does not own this property they are renters. For one person, the only member of the Family living there, to unilaterally decide this part of the People's House is theirs to do as they please is treasonous. Treasonous because he lied saying his ballroom would not impact the People's House. Please don't allow this to continue. Stand up and defend The House!!!!

Name: Leah Smith
Date: February 18, 2026 11:30:09 am

Just put it back, completely restored, and make Pres Trump pay for it. We don't need a ballroom for rich people to eat in while the majority of the country can't afford groceries and healthcare.

Name: Barbara Pond
Date: February 18, 2026 11:30:12 am

As an 83 year old American citizen who has studied our history, loved and visited our capital, its monuments and treasures many times over the decades, I was brought to tears by the sight of bulldozers razing OUR East Wing. The horror and shock of that happening goes beyond ugly and is morally reprehensible. Most importantly, it was done illegally.
Further, it is the visual, physical depiction of the thought-less, random gutting of many of the most respected and internationally admired systems in our government -- the CDC, the EPA, military hierarchy, the Inspectors General, among so many other safeguards to our citizenry.

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Just one lowly citizen here, feeling the effects of this Administration; namely our President, doing and causing anything he pleases without regard for anyone. He listens to no one nor cares about anyone as he goes about pleasing his every whim and fantasy. This White House and its beautiful East Wing belongs to all of us. As a temporary resident there, he has a right to make changes to suit him, but demolishing part of it without regard to preservation process or rules is/was not his right. It is beyond any president's right. This lowly citizen is grateful to have a voice here, thank you.

Name: Randi Hackbarth
Date: February 18, 2026 11:32:15 am

The White House is federally protected and designated as a historic site. Any structural demolition requires Congressional approval, preservation review, and extensive federal compliance. The East Wing constructed in 1902 and updated in 1942 symbolizes transparency and civic connection, balancing security and accessibility.
The East Wing historically served as the working headquarters of the First Lady, and many influential national initiatives were developed or coordinated from here:
Civil Rights & Human Rights - Eleanor Roosevelt,
Cultural preservation - Jacquelyn Kennedy,
Public health campaigns - Nancy Reagan,
Healthcare reform - Hilary Clinton
Education & Military family advocacy - Michelle Obama.
Its demolition has symbolically diminished the institutional role of the First Lady and the administration is already significantly impacting Womens rights.
I propose that it be rebuilt with original purpose in mind.

Date: February 18, 2026 11:32:19 am

The fact that this building was demolished PRIOR to any authorizations, discussions with the appropriate boards or ANY public feedback is a complete disgrace. ALL plans need to be reviewed by the appropriate committees and boards, approvals secured before any construciton can take place. If the boards do not approve the changes then Trump can use the money raised to build it back to its original architecture.

Additionally, there is no reason for this wing to be multiple times larger than the existing White House. Could we please have people with some taste and design experience get involved? Bigger is not better. This isn't Texas.

Name: Janice Lupton
Date: February 18, 2026 11:32:25 am

I have attended the last hearing via Zoom and have signed up to view the upcoming meeting as well.
The plans, as submitted, are not in scale with the historic White House. In a Palladian Plan the center unit has the prominence, not the wings and flanking pavillions.
Please revise the ceiling height of the Ballroom. There is no necessity for a 40 foot ceiling in a ballroom. It cold be revised to 20ft. height without impacting the overall design.
I do appreciate the classical exterior elements, however, all of the plans should have been submitted long before this current stage of demolition and construction. This is the PEOPLES HOUSE, not the current Administrations personal property.

Name: Christopher Heymans

Name: Karen Tiano
Date: February 18, 2026 11:34:43 am

I find the administration's destruction of the East Wing abhorrent. That it was done without going through the normal review and approval processes is disgraceful. While the damage cannot be undone, it is my sincere hope that (further) reconstruction be done in a more reasoned way; ie, submission of detailed plans by respected historical architect, and review and approval by the proper committee(s). I would further suggest that any new structure reflect the scale, and historical style and nature of the building destroyed. It is understandable that updates to electrical, plumbing, heating and cooling systems, and related systems are at times necessary, it is equally known that these can be done in a less destructive manner. Even a remodeling of the interior to meet new and changing needs is understandable. But changes should keep as many historical elements as possible (replace if they weren't destroyed as I fear they were.) If there is a need for a "ballroom", one of a more reasonable, scaled back size, I am sure there are better locations that don't destroy the balance and symmetry of the White House. No one person (especially a temporary resident such as the president) should have the right to unilaterally make these kinds of changes to "the people's house". [Just as a renter can't make structural changes to their domicile; only cosmetic changes that can be easily undone, if even that. In light of which I will add that it is my sincere wish that recent changes to the Lincoln bathroom, Rose Garden, and Jackie Kennedy Garden can be reversed once the current occupant is gone. Including the removal of all the tacky gold embellishments added to other places.]

Name: Rachel Henning
Date: February 18, 2026 11:35:04 am

When our capital was established, many of the buildings were created in the neoclassical and Greek revival styles, as a reminder of the democratic ideals our founders embraced. Until now there has been great care in maintaining the integrity of those buildings. It is important that we continue to use democratic processes for all of the initiatives our government undertakes, including processes that are in place for the maintenance and improvement of government buildings in DC. The White House is especially important, as it represents our commitment to having a democracy chosen leader, rather than a monarch or dictator. A grand ballroom gives the appearance of trying to emulate the monarchy we threw off 250 years ago.
Please put a halt to the effort for building a “grand” ballroom where the east wing used to be, and restore the building with whatever updates are required to keep it functional for the safety and support of our democratically elected leader.

Name: Donna Ripley
Date: February 18, 2026 11:35:29 am

As a taxpayer, I oppose anything other than a full, authentic restoration of the East Wing that was demolished without proper authorization. No glittering gold ballrooms. Thank you.

Name: Christopher Gibbs
Date: February 18, 2026 11:35:46 am

I oppose the spending of $300 million plus on this project, which was initiated without the proper authorization, permits, or design review. It is a complete razing of American history. The East Wing should be rebuilt and restored to its former design or in the least a much smaller structure that is less in size than the White House itself. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans. In the end, it will be us, the tax payer that has to pay to maintain this structure. Perhaps inviting less people to these events would negate the need for an enormous ballroom. It seems every Tom, Dick and Harry gets invited to these events. Cheapens the whole thing.

I oppose spending $300 million on this project, which was started without proper authorization, permits, or design review. It's not a modernization effort but a complete destruction of American history. I want this project canceled, and the East Wing rebuilt and restored to its original design. No one is above the law, and allowing this project to proceed without penalizing those who broke the law would be an insult to all law-abiding Americans.

Name: Marion Kessler
Date: February 18, 2026 11:37:44 am

Thank you for this opportunity to provide comment at this late stage of the project.

I vehemently oppose this project that was initiated without review or comment by the American public or our elected representatives or the agencies that watch over our historic buildings in our nation's capital. It is an unacceptable misuse

of administrative power and an affront to law abiding citizens in this country. This administration does NOT own the white house - we, the people, do. There was no needs assessment completed to justify the ballroom/meeting space. We *must* restore and rebuild - and the cost of that rebuild should be paid by those who destroyed it. No one is above the law and as a member of "we the people" I say NO, it is not your house, it is OUR house and we do not need a gilded ballroom.

Name: Alice Armstrong
Date: February 18, 2026 11:37:49 am

The destruction of the White House ballroom is an assault on history and our country. Trump is attempting to tear down institutions that don't conform to his version of history and his vision of a world that worships him. So far he has succeeded in wreaking destruction with impunity. Please, do not let him go forward with this "modernization" abomination. Order him to restore it to its former state, and oversee the resurrection of the original ballroom.

Name: Mary Koos
Date: February 18, 2026 11:38:26 am

Although the historic structure has been destroyed, I am opposed to the current plans for construction of the proposed ballroom. Care should be taken to consider the best option to remedy the existing destruction and maintain the historic integrity of the Whitehouse

---

Name: Susan Day
Date: February 18, 2026 11:38:30 am

I oppose spending $300 million on this project, which was initiated without proper authorization, permits, or design review. This is no modernization project. It is the blatant destruction of American history.

The White House is a National Historic Landmark and a National Park. The American people own "the people's house" and, since 1800, have allowed presidents live there. No president is the owner of the property or the structures thereon, no president has the right to do anything to the property or structures on it without the permission of the owners, the American people. It is clearly illegal for someone, anyone, who is merely a temporary tenant to tear down a building that does not belong to them.

Demolishing the historic East Wing without review, permits, or oversight from Congress, who are the people's (the owners) representatives, is against the law. In addition, this action shows contempt for the owners, the American people, who were not given the opportunity to comment on what should have been presented to them as a proposal instead of as a violent fait accompli.

I urge the National Capital Planning Commission to require reconstruction of the East Wing in keeping with its historic design and size. Require that anything constructed on the demolition site be compatible in form and subordinate in scale to the original structure of the Executive Mansion.

Name: Samra Olofson
Date: February 18, 2026 11:38:53 am

Please put the East Wing back in its original footprint. We do not need a ballroom.

Name: Karen Jost
Date: February 18, 2026 11:39:00 am

I vehemently oppose the construction of a new ballroom which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history.

The East Wing should be rebuilt and restored to its former historic design and size, with the only modernization done to make it a more healthy and environmentally sustainable and efficient building. Anything constructed on the demolition

site going forward must be compatible in form and subordinate in scale to the original structure of the Executive Mansion.

The White House is a National Historic Landmark and a National Park, owned by the American people and home to presidents since 1800. The current president at any given time is not the owner of the property or the structures thereon; the president is a temporary tenant whose interventions are limited by law and by respect for the people of the United States.

The demolition of the historic East Wing without review, without permits and without Congressional oversight is clearly a violation of the law. In addition, it is a violation of the trust of the American people who were given no opportunity to comment on what should have been presented as a proposal.

No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans. The cost of replacing the East Wing should be borne by those who broke the law.

Name: Linda Peterson
Date: February 18, 2026 11:39:05 am

This project was started without going through proper channels and must be immediately STOPPED. The demolition was an affront to the American people, instigated without permission or forethought. No addition should be permitted that over shadows the existing historical White House main building. The East Wing needs to be restored to a semblance of its former footprint and design. Any new or replacement construction should mirror the opposite west wing in size & design. NO HUGE "ballroom" that is larger than the main building. RESTORE the EAST WING. NO ballroom, NO huge addition. If some other building is needed for this function - it should NOT be connected to or on the grounds of The White House. Build it as a stand alone building somewhere else.

Name: PR Stevens
Date: February 18, 2026 11:39:10 am

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt with approval by all needed parties with all permits and regulations met. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Jordan Morgan
Date: February 18, 2026 11:39:11 am

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. Date: February 18, 2026 11:41:10 am

I oppose the spending of over $300 million on this project, which was initiated without the proper authorization, permits, or design review. The White is The People’s House NOT the billionaires’ house. The “improvements” should be in alignment with National Trust guidelines and the esthetic of the building. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law.

Name: Mary Leising
Date: February 18, 2026 11:41:11 am

Hello and thank you for this opportunity to voice my concerns. Please block the construction of a $300 billion ballroom! Trump needs to be held accountable for destroying the east wing of the White House and pay to have it reconstructed in its entirety as it was designed.

Name: Nora Hild
Date: February 18, 2026 11:41:40 am

Thank you for the opportunity to comment.

90,000 square feet is MUCH TOO LARGE a building for 650 people and adjoining ancillary spaces. A ballroom that size WILL distract from our beloved White House. If the White House is truly the 'People's House' then the ballroom MUST be subservient in scale and design to the White House.

As a retired architect, to respect the historical nature of the WH, I think it is paramount that the ballroom acknowledge design elements of the WH - the shape of the windows, the roof lines etc.

In 3 years Mr. Trump will be gone but the building will live on. Make it for the United States of America not for the ego of one man. The American people demand it.
Thank you.

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. This project should be canceled, and the East Wing rebuilt and restored to its former status. To permit this illegal building project to go ahead would be an affront to all of us Americans who do abide by laws and permits and follow established legal channels. It is not fair to have one standard for the rich and one for the average person. No one should be above the law.

I strongly urge the Commission to halt any and all future ballroom construction on the ruins of the East Wing, as the initial demolition took place without any of the legally required planning or public input. President Trump and his administration should have to abide by the same laws, rules, regulations, and norms as any other citizen of the United States. Allowing construction of a ballroom on this site would essentially condone the Trump Administration's original illegal actions, and should by no means be allowed. The only construction that should be allowed would be to restore the East Wing to its pre-demolition state.

Sincerely, David Malmquist

The White House is our democracy’s hallowed ground. It has been desecrated. Tearing down part of the White House, leaving an ugly, festering wound, is not "modernization". Please stop any further desecration to our historic places, and especially the White House. Rebuild the East Wing as it was.

I oppose the spending of hundreds of millions of dollars on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. The source of the money is in question, but even if no tax dollars were spent on this project it is nonetheless using time and resources belonging to the US and denying us access to a historic property for the duration. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans. (Too late, I guess, but I also oppose the destruction of the Rose Garden, which now looks like Mar-a-Lago or a commercial restaurant, not a dignified and historic lawn and garden.)

I also oppose the renaming of the Kennedy Center without notice and an opportunity for all board members to be heard. I hope the Trust will also be filing suit to stop those renovations to ensure they too only proceed with proper design review and permits.

I totally agree with Anara Guard. The open selfishness and disregard for "the people's house" is worth contemplation, and added to all the other items of this so-called leader, we can clearly ask the Foundaton to protest the possible rebuilding of the East Wing of the People's White House by this President.
Onward!

Hello,
Thank you for taking the time to read my comment.
My background is as an architectural interior detailing designer for over 40 years, I have worked on the finishing details for our Capital building in Olympia Washington as well as many historical buildings.
It is a tragic sight to have watched an old federal building torn down with no preceding review on the proposed future building. From the plans and rendering I have seen the scale and detailing is a confrontation of the existing White House and shows no attempt to integrate the scale or detailing with the existing and historically significant building. I implore you and your committee to rescue this tragic display of disregard for the "peoples house"..a significant symbol of the ideals of our country.

Again, thank you for your time

I am opposed to the proposed plan to replace the now demolished East Wing of the White House with a near 90,000 square foot structure that includes a massive ballroom, commercial kitchen and offices. I say this as someone who agrees with those who think having State Dinners and other official events in tents outside the White House is odd and not befitting our great nation, however this project as proposed is so massive it will dwarf the main house and destroy the aesthetic balance that existed previously. Again, I do support the idea of having a more permanent event space for State Dinners and the like, but I strongly oppose this plan and hope it will be canceled, so that a new design that is either in a different location or if still connected to the White House, reduced in size or moved underground can be implemented.
Thank you for considering my comments.

The architecture of the buildings in and around the United States capitol should represent thoughtful design with regard to size, compatible facade, and of course, modern infrastructure. Additions to the White House- any wing or ballroom- must be sized proportionally to the main building, i.e. not bigger, and in concert with the exterior existing facade design. Preferably minimal ostentatious gold embellishment, which is not historically part of U.S. capitol decor. Lastly, no personal names should be attached to any portion of the building, outside in particular, as this is the people's house.

Thank you for your consideration of my comments.

Date: February 18, 2026 11:48:58 am

I am opposed to spending $300+ million on a “ballroom”. The East Wing was demolished without proper permits or design review for a ballroom that is totally unnecessary. It was an unlawful demolition. The East Wing should be rebuilt to its original design and the artifacts returned. To build a giant ballroom that dwarfs the White House goes against American values and wastes taxpayer monies. Soliciting private monies with no oversight for a public project is just a form of bribery. To allow this to proceed without repercussions only reinforces that the law does not matter.
Restore the East Wing!

The East Wing was historical. You wouldn’t “modernize “ a museum by throwing out artifacts (although that’s probably next on the list). The structure was torn down without permission. Please do NOT allow anything to be placed in its spot that does not represent the People, not greed and gluttony. If anything should be placed there, it’s another rose garden with dedications to prior First Ladies, since this is what the east wing represented.

Name: Francis O'Malley
Date: February 18, 2026 11:51:52 am

The White House is only the temporary home of the sitting President and his family; however, it forever will belong to the People of these United States. The destruction of the historic East Wing attempts to erase the pivotal role and the contributions of several of America's First Ladies. We will not allow that to be the case. Regardless of the private donations raised for this monstrous-sized ball room, it is an unnecessary and by all accounts, illegal, construction project. Who will bear the future costs of maintaining this alleged "ballroom" and the additional utilities required? The Trump administration has failed to obtain the proper approvals from the National Capital Planning Commission, the Commission of Fine Arts, and Congress. The Trump administration has allegedly violated the Administrative Procedure Act by failing to follow proper, required review procedures before initiating demolition.
Then, there's the alleged violation of the National Environmental Policy Act (NEPA), where the current lawsuit states that the "East Wing Modernization" project lacked the required environmental impact studies. Has human health been impacted by the razing of what once was our East Wing? Has the area been contaminated with toxins, asbestos, or other similar hazards? Does Congress have dominion over federally owned property through the Property Clause of the U.S. Constitution or not? Spoiler alert: Article IV, Section 3, Article 2Congress has authority over federal property: "The Congress shall have Power to dispose of and make all needful Rules and Regulations respecting the Territory or other Property belonging to the United States; and nothing in this Constitution shall be so construed as to Prejudice any Claims of the United States, or of any particular State." If so, how are the actions undertaken by the Trump administration not in direct violation of our Constitution? Finally, we have a chance to weigh in- we, the people. The East Wing demolition occurred without offering the public opportunities for input. This is unacceptable and certainly defies established norms for changes not nearly of this magnitude. The White Houses' East Wing should be restored, and any proposed changes should be carefully reviewed before this project can continue.

Name: Peter Quandt
Date: February 18, 2026 11:51:53 am

I oppose this project, regardless of the source of funding. It is out of scale relative to the White House and other buildings in the nearby area and it is not needed. There are few occasions when a ballroom of this size is needed and there are numerous facilities within the downtown area that can be used when the need arises.

Name: Bruce Womack
Date: February 18, 2026 11:51:54 am

The last time I checked, the East Wing is part of the White House, a National Register property, a very significant national historic site. To spend millions of tax payer dollars, while destroying part of one of the most significant historic sites in the USA is hugely unethical to say the least. This, on top of depriving millions of Americans of healthcare and food benefits, sending troops into US cities and killing civilians is insanity!!!

Date: February 18, 2026 11:51:56 am

The White House is a National Historic Landmark and National Park, *owned by the American people* and stewarded by the National Park Service. It is one of, if not THE most significant historic site(s) in the United States. The public, who OWNS the building, deserves to be heard and to help shape decisions that affect our shared national heritage. Changes of this magnitude particularly, by its current tenant, are unacceptable without input from the owners whose heritage is being affected.

Name: Cindy Belles
Date: February 18, 2026 11:52:01 am

Any construction of a New East Wing of the White House, or any addition or building in the space where the old East Wing was located, should be limited in area and height to no larger than the size of the West Wing of the White House.

Architectural integrity matters. Anything larger would look unbalanced and ridiculous.

Name: Christine Pendzich
Date: February 18, 2026 11:52:14 am

Members of the Commission:

All visible and public interior and exterior structures and decorative pieces of the East Wing should be rebuilt to look exactly as they did before the structure was unlawfully destroyed by the President. The Executive's blatantly lawless actions in destroying public property and rebuilding it at public expense must be stopped. I do NOT agree to allow my tax money to be used for this action, especially because it appears that no standard government measures (eg., getting multiple competitive bids) for effective stewardship of tax money have been used. If the underground part of the structure out of public view needs to be updated, no problem.

Trump should be made to pay personally for this rebuild in its entirety, since he is solely responsible for the current mess. Even renovation of the underground part of the building was not consulted or vetted.

This "modernization" cannot remain on the public budget.

Shouldn't planning have happened BEFORE the East Wing was torn down? My suggestion would be to put it back as it was until planning can happen, at Trump's personal cost. Tearing it down was a blatant attempt to get around the rules put in place for a reason.

Name: Carol Turkett
Date: February 18, 2026 11:53:31 am

This project is terrible! The east wing of yhe White House should be immediately rebuilt and all this modernized stopped. We do not need an overpriced ball room for a king! Stop the craziness and restore the White House to its previous grandeur.

Name: greg kitajima
Date: February 18, 2026 11:53:43 am

The new design being offered is an abomination and will destroy the architectural scale and design of the white house. The design should be redone and made to fit within the current designs of the existing structure.

Name: Gena Etheridge
Date: February 18, 2026 11:54:16 am

The East Wing modernization project
The destruction of the East Wing on a whim without public input or congressional input, was highly destructive to the trust in the presidency. This kind of thing should never be repeated.
As far as this current replacement goes, it's vastly out of proportion to the size of the White House, which makes it very ugly the American people want a White House that is nice looking, not tacky and gaudy. I voted against it. And if it must continue, it must be a much smaller scale for much less money AND only with congressional approval.

Name: Kathleen Gundry
Date: February 18, 2026 11:54:31 am

I am horrified by the wanton destruction of the East Wing which was initiated without the proper authorization, permits, or design review. It appears to have been destroyed without regard to or respect for the history of the building. I oppose the spending of $300 million on a "ballroom." I urge the Commission to consider all alternatives for restoration of the site, such as full restoration of the original historical building, or construction of a modernized building at the location that meets identified needs of the US Government Executive Branch - not just the vanity and whims of the current administration. The restoration project should be of a scale that fits with the historic character of the White House and should inform and solicit input from the public during the design process. Thank you.

President Trump's proposed ballroom design is deeply contrary to the spirit and culture of the United States. Equally important, the proposed addition or new construction is completely out of proportion to the original building.

The White House is "The People's House." It is not the home of an emperor or prince. Our current president may wish he were royalty, but the addition of gilded trappings and palatial size to the White House does not a palace or princeling make. Nor should it be permitted.

Furthermore, the planned expansion is, apparently, underwritten by individual and business donations that bring with the contribution unusual access to Mr Trump via personal and public events. If the country needs another public building, costs should be covered by US coffers, not by selling the president. If these wealthy individuals (and the president) have America's interests at heart, they can begin by paying their fair share of taxes, living wages to employees, and enriching public education and health programs. Buying a president's favors in order to construct an outsized and unnecessary edifice is not the American way.

Date: February 18, 2026 11:54:54 am

Please stop the building of the “Big Ballroom” because it’s NOT necessary. It will look totally out of place. The East wing needs to be restored to the People’s House.

Name: Rima Silenas
Date: February 18, 2026 11:54:55 am

I oppose the spending of any funds that are not allocated by Congress on this project, which was initiated without the proper authorization, permits, or design review. This is not a modernization project but rather, an initiative already taken without taking American history into account. I want this project canceled. I want the East Wing rebuilt and restored to its former design. Whatever security interests are located beneath this building can and could have been updated without the actions that have already occurred. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Cathy Hurley
Date: February 18, 2026 11:54:58 am

I strongly oppose the demolition of the White House East Wing and the ballroom proposal. The East Wing is not something that should be treated as disposable, and tearing it down is an irreversible loss to one of the most important public landmarks in the country. Even if the demolition has already happened, that doesn’t make it acceptable, and it should not be used as justification to push the rest of this unnecessary project through.

I’m asking the National Trust to speak out clearly and publicly against what was done, and to press for real transparency and accountability before any further work proceeds. At a minimum, the plans, approvals, and decision process should be made public, there should be independent preservation review, and there should be a firm commitment to no additional permanent changes to the White House complex.

Name: Marilyn Pocius
Date: February 18, 2026 11:55:01 am

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and reconsidered. If possible the East Wing should be rebuilt and restored to its former design. Or at the very least we should have the plans and schedules and total cost available to Congress and the public

To whom it may concern,

I oppose the East Wing Modernization Project. This $400 million construction began without National Capital Planning Commission approval, without required environmental assessments, and without congressional authorization mandated by federal law for construction on federal parkland in Washington. These violations should not be rewarded with after-the-fact approval.

The funding creates unacceptable conflicts of interest. Corporations holding billions in current federal contracts with this administration are funding a construction project at the residence of the president who controls those contracts. This is not charitable giving. This is an investment in access and favorable treatment.

The White House belongs to the American people, not any individual president. I urge the Commission to reject this proposal until full legal compliance is achieved, including congressional authorization and completed environmental assessments. No temporary occupant should possess unilateral authority to demolish historic structures without following the law.

In addition, the designs that have been shared are ugly. It would be an eyesore.

I oppose this "modernization" project. It was initiated without any proper authorization, permits, or any design review. It is not a modernization project but a blatant razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. The White House is not a personal property of any president and should not be the subject of his/her whims to change as he/she pleases.

Name: Rose Eason
Date: February 18, 2026 11:55:59 am

The White House is the People's House. Ballrooms are a product of 18th-century European aristocratic culture. In that sense, they are anti-democratic. The White House carries significant symbolic meaning. Adding oversized ballroom will overshadow the heritage and democratic symbolism that have long defined the building.

It is a gross and hideous insult to the American people and the history of this country to tear down the East Wing for a gaudy and meretricious "ballroom". The White House always has been, and always will be, the People's House. The sitting president gets the rare privilege of residing their during their term, but that does not give them license to demolish this historically and culturally important building to suit their own whims. The "East Wing Modernization Project" must be stopped in its tracks and the East iIng restored to its previous state to whatever extent possible.

Name: Carla Smith
Date: February 18, 2026 11:57:34 am

What has been done to the East Wing in the name of “modernization” is a travesty to our history and future.
This project began without going through proper channels and approval from the very beginning and should never been allowed to happen.
It is a total eraser of history, honor and character of the East Wing and quite frankly of the People’s House.
Once something is destroyed, it is very hard to right the wrong, but in this case I believe it must be righted back to its original historical value.

Someone please stop this destructive madness...

Destroying our history against the people's wishes, all for vanity.

Please protect the sacred White House from this extravagant cost and the ridiculousness of a ballroom.

Name: Kathleen Vogel
Date: February 18, 2026 11:58:51 am

Restore the White House to its original footprint. We don’t need a bunker or a ballroom. This is a historic site and no one’s residence.

Name: Leigh Stewart
Date: February 18, 2026 11:58:55 am

I oppose the spending of over $300 million dollars on this project, which was initiated without proper authorization, permits or design review. It is not a modernization project but rather a complete razing of American history. I want this project stopped immediately, and the East Wing rebuilt and restored to its former design. No one is above the law, and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.
Like most Americans, I was horrified to see the destruction of the East Wing on TV. This garish new "ballroom" is totally unnecessary and completely out of scale with the rest of the White House, making the main portion of the building look insignificant. It is clearly a vanity project and definitely NOT in the best interests of the average American, regardless of who "pays" for it. Not to mention ugly, garish and not in character with the rest of the building. Please stop this project immediately!

Name: Vincent Brooks
Date: February 18, 2026 11:59:18 am

The proposed East Wing Modernization project, as currently envisioned, is completely incongruous with the scale and design of the existing Executive Mansion and West Wing. The ballroom structure is grossly out of sync with the rest of the White House. The entire process for proposing this alteration has, likewise, been grossly out of line. There has been no comprehensive review of the impact of the proposed structure on the existing built environment or the existing historic landscape. Such a major alteration to "The People's House" warrants a meticulous review and consideration before any changes are implemented. The wanton disregard for such historic preservation norms, beginning with the demolition of

the East Wing with out any review, must be halted. I implore the National Capitol Planning Commission to consider this and do all in its power to stop this ill-conceived and egregiously incompatible addition to the White House.

Name: Martha Garske
Date: February 18, 2026 11:59:51 am

I want this project cancelled, and the East Wing restored. I oppose what is being called the "East Wing Modernization Project" because it is an illegal and amoral destruction of US History, This demolition was initiated without public input, proper consent or permissions. It is especially offensive because this is The People's House, and The People have had no say in this destruction of history. There has been no true public accounting of a budget for this, or the final design of the proposed renovation.I would like to see the involved decision makers and donors fully investigated and prosecuted if that is called for. No one is above the law, not in the United States. Please protect our history, decency and The People's House.

No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding citizens.

Donald Trump should be sued for the cost of restoring the East Wing and the replacement of all furnishings he may have caused to be damaged or destroyed.

Name: Cynthia Weisfield
Date: February 18, 2026 12:01:46 pm

Dear Members of the Commission:

The destruction of the East Wing was totally illegal.

Plans for the "new" East Wing are not "modernization" in the true sense of the word meaning, for example, addition of sufficient electrical wiring for current purposes, or upgrade of air conditioning. Rather, it is a thoroughly new concept unapproved by any agency. That the cost is, supposedly, underwritten by private donations is irrelevant. The law was broken in tearing down the structure; it should be rebuilt per the status quo ante. If a ballroom is needed then a study should be conducted as to the best location, perhaps in a substructure of the newly reconstituted East Wing.

Thank you for your consideration.

Cynthia Weisfield

Name: Francisco-Ferrell Deb
Date: February 18, 2026 12:02:16 pm

I am opposed to this unlawful destruction of the historic EAST WING of The People's House. This is not being done for structural improvements. It is unnecessary, unwanted by The People, and never was approved by proper channels and protocol. This project needs to be stopped and the East Wing must be restored to its historical design and condition. The White House does NOT belong to the current inhabitants, it is OURS: THE PEOPLE OF THE UNITED STATES COLLECTIVELY!

Name: Christopher Ros
Date: February 18, 2026 12:02:19 pm

Extremely disappointed that public comment wasn’t allowed before the demolition of the East Wing. Creating something as grotesque as the massive ballroom planned that will disproportionately dwarf the rest of the White House is artistically misguided, architecturally abusive and financially irresponsible. A return to something as close to the original would be most appropriate. Consider a ballroom, but one that fits in with the original design and size. I am aware that hosting has been a challenge so addressing that need now that the East Wing is gone seems logical, but do so with taste nd appropriate design scaling and style.

Name: Jamie Biggers
Date: February 18, 2026 12:02:23 pm

I oppose this project. The White House is the people's house not the owned property of any tenant. This project was begun without required authorization or permits. The purported modernization would be as incidental outcome. This is nothing less than an effort to erase American history and culture. I want this project canceled and the East Wing rebuilt and restored to its former design. No one, absolutely no one, is meant to be above the law. To enable this project to move forward is to enable the individuals who began this perfidious effort is to let them flout, with impunity, rules, regulations, laws and simple decency. Stop this madness and rebuild out house.

Date: February 18, 2026 12:02:32 pm

Good afternoon,

As a citizen, I feel strongly that the east wing expansion project is a great waste of taxpayer dollars and an affront to American history. My preference is that the structure be replaced identically using eco-friendly products when possible. In the absence of this plan I would request liberal input and a majority approval from a committee of knowledgeable historians, architects, designers, and builders familiar with period architecture. Ideally a new structure would blend with the remaining building and not overpower what is left of the White House.

Thank you for the opportunity to provide input.

Sincerely,
Sarah Whalen

I oppose the spending of $300 million on the East Wing project, which was initiated without the proper authorization, permits, or design review. It is not a modernization project, but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to proceed without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Kathy Billings
Date: February 18, 2026 12:03:39 pm

I oppose spending $300 billion on a ballroom that would be bigger than the White House! I want the east wing rebuilt and restored the way it was. This was an unlawful project to begin with , no permissions granted , and Trump had no right to destroy part of the White House to build a grand ballroom for his billionaire friends to frolic in. The east wing was historical . The people of the US didn’t ask for a humongous ballroom to be built.

Name: Joan Lawson
Date: February 18, 2026 12:03:50 pm

The razing of the East Wing was done without approval. The $300,000 (now $400,000) ballroom has not been approved either. Please stop this atrocity from being built. Nobody wants it but Trump. I think that it needs to be stopped immediately and the funds donated for it, if they even exist, should be used to rebuild the East Wing as it was.

Name: Leslie Abcouwer
Date: February 18, 2026 12:03:58 pm

I oppose the spending of hundreds of millions on this project, which was initiated without the proper authorization, permits, or design review. This is not modernizing, it is erasing history. This project must be cancelled, and the East Wing must be rebuilt and restored. No one is above the law and to permit this project to go ahead would be an insullt to all Americans.

Name: Robert Brian Spear
Date: February 18, 2026 12:04:03 pm

This project shows complete lack of regard for the people’s house. There appears to be a complete lack of regard for any regulations that are put in place to stop this type of activity and behavior to begin with. Those responsible for this should be held accountable to the full extent possible.
This is a serious issue, because it exemplifies the dishonesty. incompetence and disregard for democracy on every level that this administration and President represents.

Name: Sandra Fortenberry
Date: February 18, 2026 12:04:13 pm

The East Wing was torn down illegally. The criminal that tore it down should pay the cost of rebuilding. The planning and rebuilding must be done by the proper authority with respect to the history of our country.

Name: Heather Molans
Date: February 18, 2026 12:04:30 pm

This project was initiated without authorization, permits or design review. American history was ripped asunder in defiance of law and order. I oppose the spending of any tax dollars on this, and request that the project in question be denied and that the property be returned to the American people in its original configuration. To permit this project to go ahead without penalizing those who broke the law would further demoralize American citizens and encourage a lack of respect for the law. How could anyone ever be held responsible for defacing tangible examples of American history if this is allowed?

Name: Martha Rost
Date: February 18, 2026 12:04:31 pm

I am a United States Citizen, with family that arrived from Europe as early as the 1600's. I have strong roots in the United States, and a profound belief in the rule of law applying to every citizen, regardless of status or rank in government. I believe in the preservation of our history and monuments representing our democracy, and I am deeply offended that the east wing of the white house was torn down out without the proper authorization, permits, or design review. It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design. No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding Americans.

Name: Carol Nustad
Date: February 18, 2026 12:04:53 pm

I oppose spending any more money on the East Wing Modernization Plan and request that the project be stopped immediately and the East Wing of the White House, the People’s House, be restored to its former condition with exceptions for some modernization that follow current code. At no time were the people or the entities that oversee the preservation and integrity of our historic buildings consulted. This was done arbitrarily and without consideration for our history and heritage.

Name: Diana Mitchell
Date: February 18, 2026 12:04:55 pm

Rebuild the East Wing exactly as it was AND charge Pres. Trump for it. It never should have been demolished in the first place. In fact, this should be considered an act of domestic terrorism as it was an attack on a federal building. Those responsible for the destruction (Trump) need to be held responsible.

Name: Brian Davis
Date: February 18, 2026 12:04:55 pm

On behalf of the Louisiana Trust for Historic Preservation, I would like to voice our opposition to the proposed ballroom addition to the White House, a National Historic Landmark. I recently attended the virtual Advisory Council for Historic Preservation meeting and listened to the presentation by the project architect for the proposed ballroom and office addition. The scale and massing of the proposed design is overwhelming and offensive to the historic character of the White House and its symbol of the Executive Branch of Federal government. Most alarming, was the comment by the architect that likely, there will be a push to make the design of the proposed ballroom addition symmetrical to the front of the historic building. We urge the planners to examine the importance of “the People’s House” and re-design a more fitting and respectful replacement to the now-lost East Wing.

Name: Patricia cleary
Date: February 18, 2026 12:05:10 pm

I oppose the East Wing Modernization Project. It is the unapproved, misguided, history-destroying project that is the result of Mr. Trump's egotistical, narcissitic self-aggrandizing desire to put his own stamp on a building that does not belong to him but rather to the people of the United States.

Name: Lori Berger
Date: February 18, 2026 12:05:56 pm

It is against the law for this criminal president to simply decide to destroy the east wing of the WH for his own personal pleasure and gain…To chose to destroy “the people’s house” without any consideration for the preservation of history is an act of pure selfishness and treason to our country and its citizens…We CANNOT allow, what is part of our country’s great history, to be destroyed by this self-serving President who has no regard for preserving history…To spend $300 million for a cheap, gold-flicked ballroom when millions in our country are struggling to find affordable healthcare, pay their bills and put food on the table, is nothing short of criminal…This President must be stopped now, be made to pay reparations, and rebuild the east wing to its former glory, or our beloved White House will be turned into a garish Vegas hotel…The demolition of the East Wing by a traitor, anarchist and wanna-be dictator is an affront to every American citizen and must be rectified ASAP!

Name: Stephanne Burkemper
Date: February 18, 2026 12:06:04 pm

The White House is the People's House not the house for President Trump to exploit. If a ballroom was a necessity to entertain dignitaries then proper channels and protocols for renovations should have been followed. Voted on, permits attained, funding approved. There are processes in place for a reason, checks and balances. This President does not think those apply to him or the administration.

The demolition of the East Wing was a complete obliteration of American history. The East Wing should be rebuilt on the dime of President Trump.

Name: Allison Ward

Date: February 18, 2026 12:06:59 pm

Members of the Commission: All visible and public interior and exterior structures and decorative pieces of the East Wing should be rebuilt to look exactly as it did before it was unlawfully destroyed by the President. If the underground part of the structure out of public view needs to be updated, no problem. Trump should be made to pay personally for this rebuild in its entirety, since he is solely responsible for the current mess.
Respectfully submitted,
Diane Scheuermann

Name: J.C. West
Date: February 18, 2026 12:07:09 pm

As a sixty-three-year-old American, it is crushing to see hundreds of years of iconic national history erased for the vanity project of one man. No individual should have the power to erase American history by paving over the Jackie Kennedy Rose Garden and now destroying the east wing along with our previous White House ballroom.

The White House is no one’s private home. It belongs to the past, present, and future population of the United States of America.

The president should have the power to build on American history but never be allowed the power to erase and destroy centuries of our treasured history.

The east wing of the White House must be restored precisely to its original standards and configuration.

The destruction of iconic and historic landmarks of American pride and history must be halted. They must not be turned into vanity projects for any man. If damaged or destroyed by enemy actions, they should be rebuilt to their original and historic glory.

It is government’s job to serve the will of its citizens, not ignore it.

Subject: Public Comment Opposing NCPC File No. 8733 (East Wing Modernization)
To: The National Capital Planning Commission
From: Erik Ross
Date: February 18, 2026
Re: Opposition to the East Wing Modernization and Ballroom Construction
I am writing to formally submit my strong opposition to the "East Wing Modernization" project currently under review. As a concerned citizen, I urge the Commission to reject the current proposal, halt all further construction, and impose strict conditions on any future activity at this National Historic Landmark.
1. Condemnation of the Unapproved Demolition I vehemently object to the demolition of the historic East Wing that occurred in October 2025. This action was taken before the Commission had granted final approval for the project, bypassing the standard Section 106 review process intended to protect our nation’s heritage. The administration’s "act first, ask permission later" approach is a breach of public trust. The NCPC must not rubber-stamp this destruction by approving a replacement project that rewards such reckless disregard for historical preservation laws.
2. Opposition to Administration Oversight I am totally opposed to the current administration having any role in the design, funding, or construction of the replacement structure.
• Conflict of Interest: The reliance on private donations from corporations with active government contracts to fund a federal building creates an ethical minefield. The "People’s House" must remain public property, funded by the public to ensure it serves the national interest, not the interests of private donors.
• Lack of Stewardship: The administration has already demonstrated a lack of fitness to steward this historic site by authorizing the demolition of the 1942 East Wing without proper oversight. Consequently, I request that the Commission halt all work until an independent, non-partisan body can be established to oversee the future of the site.

3. The Replacement Should Not Be a Ballroom The proposed 90,000-square-foot ballroom is fundamentally totally inappropriate for the White House complex.
• Scale and Character: The massive scale of the proposed ballroom dwarfs the historic Executive Residence, altering the residential and dignified character of the White House. It transforms a seat of government into a commercial-style entertainment venue.
• Mission Creep: The primary function of the White House is governance and housing the First Family. A facility of this size, designed for mass social gatherings, distracts from these core functions and imposes unnecessary security and logistical burdens on the capital.
4. Prohibition on Naming Rights It is imperative that the Commission explicitly forbid the attachment of any private name to this building.
• No "Trump" Branding: The White House is not a private hotel or a campaign asset; it belongs to the American people. Under no circumstances should the replacement structure, or any room within it, bear the name of the sitting president or any political figure. To do so would be an act of vanity that degrades the history of the institution.
• No Donor Naming: Similarly, no naming rights should be granted to the private donors funding this project. The NCPC must include a binding condition in any future approval that permanently prohibits naming rights for donors or the President, ensuring the White House remains free of commercial or political branding.
I urge the NCPC to exercise its authority to protect the integrity of the White House. Do not allow this project to proceed as currently planned.
Sincerely,
Erik Ross

I oppose the spending of $300 million on this project, which was initiated without the proper authorization, permits, or design review.

It is not a modernization project but rather a complete razing of American history. I want this project canceled, and the East Wing rebuilt and restored to its former design.

No one is above the law and to permit this project to go ahead without penalizing those who broke the law would be an affront to all law-abiding citizens.

Thank you for requesting input from ordinary citizens. First, let me say, how incensed I am that a wing of the White House, the people’s house, was torn to the ground. I was taught as a small child that when you break something you are responsible for repairing or replacing it if possible. Certainly it was required that you apologize. I would like Mr. Trump and his staff to do both.
Since it is unlikely that the Trump Administration will take responsibility for this awful act, I would hope that the White House could be restored to its past appearance. Certainly it should be improved for security and efficiency. I would like there to be thoughtful consideration to the function of the building as well as its form and a plan made based on that review. I do not think we need an enormous ballroom!
Please honor this historic building.

I believe that the east wing should be rebuilt from the blueprints. The interior can be modern if need be but the exterior needs to be as it was. Give the rest of the white house exterior a good cleaning and uplift if need be.

It was just fine for all the other presidents and it will be after this one.

I write in opposition to the so-called East Wing Modernization initiative. This project, estimated to cost in excess of $300 million, has not received proper vetting and authorization, utilizes privately donated funding which has not been disclosed and is fertile ground for corruption, and the proposed plans - which have not been adequately disclosed- show a project inconsistent with the design and history of the White House complex. I stand in opposition to this project in its entirety and strongly recommend that steps be taken to restore the historic East Wing as well as the Rosen Garden to their former configuration.

Name: Klein Sue
Date: February 18, 2026 12:10:35 pm

This project defies understanding. This project never asked for permission or comment. This should not be allowed on the whim of the president alone. And to solicit and accept corporate funded donations is tantamount to bribing the president. (or succumbing to his threats for retribution) These corporate donors should be ashamed. Please halt this illegally permitted construction and restore the white house to its former structure.

Name: Virginia Mather
Date: February 18, 2026 12:10:43 pm

The White House is an historic building viewed with pride by the citizens of the United States. The proposed addition would overwhelm the original structure. The historic part of the White House should be prominent as that is the house of the citizens. More space is necessary but shouldn’t detract or be larger than the remaining White House.

I am appalled that the East Wing of the White House was torn down without any input from the agencies charged with historic preservation, or from the people, whose house this is. What happened to all the architectural treasures and historic items that were in the East Wing? This is not Donald Trump's house, and he had no right to tear it down; he has no right to determine on his own what the White House should look like. It is not his house. He is a temporary tenant in a house that belongs to the American people. This project is not a modernization, but rather a desecration and destruction of American history, done with no regard for the American people. I want this project cancelled, and I want the East Wing restored to its original state. And I want the people who tore this wing down illegally to face accountability. They are not above the law--no one is. Every time I see photos of the demolished East Wing, I feel heartsick. This demolition has taken something very precious from me and from all the people of this great country. The East Wing needs to be restored to its former state.

Name: Patricia JOHANSEN-MITCHELL
Date: February 18, 2026 12:11:39 pm

I oppose the demolition of the East Wing of the White House and building a ballroom.
This was done illegally – without proper authorization, review, or permits. It is the “peoples house” no tenant has the right to modify it without the landlord’s (the US public) approval.
The East Wing must be rebuilt to its former design.
Those responsible for its destruction must be prosecuted.

Date: February 18, 2026 12:11:40 pm

Ladies and Gentlemen,
The White House is the house of the people. It belongs to all citizens. I don't believe the Ballroom will be open to all. It is planned specifically for the rich and for private events as well as fundraising. It should specifically prohibit the political parties from having a convention there. If Trump is planning future inaugurations there , the citizens won't be invited to celebrate either. The Ballroom would send a message that regular citizens are of no interest to the President, dividing the country into the rich and connected versus the regular citizens.

Seating for 1000 is not necessary. Stay dinner usually have 200-300 people. The optics would only highlight the rich and wealthy count, with private access to the President.

The monies should be expended on health care and food for the poor.

Thanks for your consideration,
(Mrs) Diane Lindsey

To whom it may concern;

I am vigorously opposed to the so called East Wing Modernization project.

The fact that a wing of our beautiful “People’s House” has been destroyed is so misguided and just plain wrong. It breaks my heart that this was done without any approvals or permits.

Our current president stated that the East Wing would not be touched when building his vanity ballroom. This is not the case, all we all can see with our own eyes.

To desecrate one of our National Treasures is shameful.

I request this project be abandoned and our White House be put back to its former state, with a rebuilt East Wing and no ballroom.

It is a disgusting over step of power to have destroyed a piece of history without real plans in place to refurbish it. No one asked for a ballroom, not one citizen, and since it’s OUR house we should have say.

Name: Rachel Kurland
Date: February 18, 2026 12:13:21 pm

I strongly object to the demolition of the East Wing, part of the people's house. t was done without warnig, without the necessary permits, without permission from the committees responsible for our national strctures. And it was done this way intentionally, thumbing a nose at the American people.

One man wanting a version of Versailles with his name on it is not justification for tearing down part of a building that symbolizes our democrary. Unilaterally adding an addition that dwarfs the original structure of a building that symbolizes our country around the world is a desecration. Please reject this project and ensure that proper steps are taken before any modifications are carried out.

I feel this was a symbolic act and it must be stopped.

Thank you.

Date: February 18, 2026 12:14:57 pm

Dear Executive Director and Members of the Commission:

I am writing to formally oppose the current administration's proposed project to demolish and reconstruct the East Wing of the White House. This project was initiated without proper authorization, required permits, or design review — and it must be stopped.

This is not a renovation. The 123-year-old East Wing has stood as part of one of the most iconic and historically significant buildings in the country, and tearing it down without following the required legal process is simply wrong.

It would be a travesty to allow the proposed "ballroom" project that overwhelms the White House to proceed. At 90,000 square feet to 55,000 square feet, it would dwarf the White House.

I urge the Commission to take the following actions:

Halt the project immediately pending a full review of all authorizations, permits, and design approvals.
Require full compliance with all applicable historic preservation laws, including the National Historic Preservation Act.
Mandate restoration of the East Wing to its original design, consistent with the historic character of the White House complex.
Hold accountable those who proceeded with demolition or construction work without proper legal authority.

No one is above the law — not even the occupants of the White House. To allow this project to proceed without consequence would send a dangerous message that legal processes can be ignored by those in power. That is an affront to every law-abiding American and to the institutions designed to protect our national landmarks.

The National Capital Planning Commission has both the authority and the obligation to intervene. I urge you to act decisively and without delay.

Name: Donna Bartlett
Date: February 18, 2026 12:14:57 pm

Remember the East Wing of the White House? Remember the giant ballroom that the tech billionaires have agreed to fund in its place? The National Trust for Historic Preservation is making a gallant effort to stop this. And we can help.
