RE: White House Fence Replacement, Phase I

Dear Ms. Sullivan,

The National Park Service, in cooperation with the U.S. Secret Service (USSS), seeks Preliminary Review of Phase I of the design for new perimeter fences and gates at the White House Complex to comply with current USSS standards for site security. The fence design has been developed further in response to comments received from the Commission's review of the fence concept at its July meeting.

Documentation of the project's compliance with the National Environmental Policy Act and the National Historic Preservation Act are transmitted with this letter. Additional submission materials will be transmitted under separate cover.

Should you require any additional information, please feel free to contact me or Peter May, Associate Regional Director for Lands and Planning at (202) 619-7025.

Sincerely,

Doug Jacobs  
Associate Regional Director  
Facilities, Design, and Construction
