INSTALL CAPITAL BIKESHARE STATION
Anacostia Park, Washington DC
National Capital Parks-East

National Capital Planning Commission Submittal
September 3, 2020
The National Capital Park-East (NACE), in partnership with the DC Department of Transportation (DDOT), proposes to participate in the Capital Bikeshare program by permitting one bikeshare station on NACE-managed property. The Capital Bikeshare program is a regional alternative transportation amenity for visitors and residents and has quickly become a viable form of public transportation. Bikeshare members may check out bikes at over 110 stations across Washington, D.C. and Arlington, VA. Participating in this bikeshare system would fulfill the goal of enhancing bicycle use at the park. Increasing bicycle use reduces traffic congestion, fossil fuel use and air emissions, and provides an additional and affordable form of access to destinations throughout the park.

Plans for the Capital Bikeshare station are as follows (see attachments for additional information):

**Location:** Anacostia Drive near the Anacostia Park Skating Pavilion. Parking lot adjacent to the Anacostia Skating Pavilion and near the Anacostia Riverwalk Trail.
**Size:** 19 dock station; single row; Station 51'5"x6'
**Pre-Treatment:** None. Concrete pad not needed as surface is paved.

*Notes: Less impact to resources since surfaced already paved; connects with Anacostia Riverwalk Trail; offers recreation opportunities for recreation center visitors to access the park.*

This location have been selected based on their proximity to visitor destinations, access to compatible modes of transportation such as Metro and bike paths, and connectivity to other Capital Bikeshare stations. Furthermore, the map frames will have no advertisements and be limited to public service announcements for activities within the park.
PROJECT LOCATION

CONSTITUTION GARDENS, THE NATIONAL MALL, WASHINGTON D.C.
PROJECT LOCATION

Anacostia River

Proposed station

Aquatic Resources Education Center

Anacostia Roller Skating Pavilion

Proposed Bikeshare station
